

**INSTRUCTIONAL PROGRAMS**

The Nye County School District Board of Trustees recognizes that it must educate its students from kindergarten through twelfth grade and may elect to provide educational programs for pre-K students, adults and other supplemental programs as permitted/required by state law. In order to ensure an excellent education, the Board of Trustees recognizes that the school district must continuously:

- Identify basic learning objectives in order to fulfill the needs of students and comply with all state and federal laws;
- Review and update curriculum and curriculum maps on a continuous basis;
- Develop new curriculum/course offerings as need dictates;
- Review, evaluate and adopt textbooks and supplemental materials;
- Evaluate student grouping and housing of educational levels;
- Use pilot programs, where appropriate, in order to evaluate new curriculum or instructional techniques; and
- Ensure there is adequate time for training, implementation and review by instructional staff.

The Superintendent will develop regulations to implement the actions specified above and ensure the Board of Trustees approves all new textbooks, curriculum, student groupings/housing and funding for these items.
