

April Maintenance Board Report

During spring break, Maintenance and Custodian crews completed a series of repairs, inspections, and cleaning across all district sites.

Columbia Vista Intermediate Updates

Cracks in staircases were repaired. A water leak in the staff room was identified and repaired. The door in Room 115 was repaired to ensure proper function. Interior wall damage was also repaired.

CTE Facility Updates

The metal shop door was repaired. An oxygen system leak was identified and repaired.

High School Updates

The cooling tower was fully serviced and is now operational and ready for warmer weather. Fire system testing was conducted.

McNary Heights Updates

A construction walkthrough was completed, focusing on upcoming bathroom upgrades. A new fence was installed at the preschool for site security.

District-Wide Maintenance Activities

Water meter inspections were completed to ensure accurate monitoring and to identify potential issues. Deep cleaning of classrooms and gym facilities was performed to maintain a healthy and welcoming environment for students and staff. We have also completed our annual leased land inspection and are currently waiting on review paperwork, but all seemed to go great!
