

Proposal For The Class Of 2026 Senior Gift

Tree-Wrapped Bench Installation with Commemorative Plaque

The Class of 2026 is proud to propose a lasting and meaningful senior gift: a tree-wrapped bench to be placed in the new Oaks area on campus, accompanied by a commemorative plaque. This installation is designed to serve not only as a physical addition to the campus landscape, but as a symbol of growth, connection, and the enduring spirit of our class.

Positioned among the oak trees, the bench will naturally blend with its surroundings, creating a peaceful and inviting space. The design, encircling a tree, represents the unity of our class and the way each student contributes to a shared experience rooted in growth and support. Much like the tree at its center, the Class of 2026 has grown stronger over time, shaped by challenges and strengthened through community.

This space will offer future students a place to pause, reflect, and connect. Whether used for studying, casual conversation, or quiet moments between classes, the bench will foster interaction and the exchange of ideas. It is our hope that this area becomes a gathering point where friendships are formed, creativity is sparked, and memories are made.

The accompanying plaque will commemorate the Class of 2026, leaving a permanent mark of our presence and contribution to the school. It will serve as a reminder to future generations of the legacy we leave behind - not only in what we accomplished, but in the spaces we helped create for others to enjoy.

Cost: \$671.49

Our sponsors, Ms. Brooks and Ms. Rangel will do the honors in installing it when the space opens up from construction.

2026 Class Officers,

President Joseph Angulo, VP Ale Zapata, Secretary Caden Alvarado, Student Engagement Officer Mikayla Brown, Treasurer Emma Foster, Historian Laney Crowell
