## **BOE Member Summary for December Board Meeting**

### **Re: Community Board Advisory Committee Meeting**

The Community Board Advisory Committee met on December 15th. Health Service nurses were present to share technologies utilized to support the specific health needs of our students, particularly students diagnosed with diabetes. Additionally, an overview of the scope of district Health Services was presented. This gave the committee an opportunity to hear about the multiple ways the district supports the overall health and physical development of our students. The committee also had the opportunity to engage in a question and answer format with a panel of district nurses.

Finally, committee members responded to two prompts allowing the district to gather additional committee feedback on two active strategic plan projects; Screen Time and Bullying Prevention. This committee participation and the contributions of the group are advantageous to our strategic plan objectives.

The committee adjourned at 5:30 p.m.. The next meeting will be held on January 26th.
