Video Recording

1. Teacher Performance Assessment. District acknowledges that Candidates must complete a teacher performance assessment, which includes the submission of video recordings of themselves teaching in the classroom and of real artifacts (such as lesson plans, video, and student work samples). Recordings provide an avenue to evaluate performance and determine competency.
2. Clinical observation / Evaluation. University utilizes a secure, interactive, online, cloud-based platform to accommodate for the changing classroom environment and protect the health and safety of participants. Candidates upload recorded video submissions or participate in livestreams for feedback, scoring, and critiquing of video assignments, and Clinical Supervisors leave time-stamped feedback.
3. Guidelines. The following guidelines are provided to Candidates. District understands that Candidates are not employees or agents of University and that any further precautions regarding the privacy of District students should be agreed directly between the District and Candidates.

Teacher Candidate Guidelines for Video Recordings

- Secure appropriate permission from the parents/guardians of your students and from adults who appear in the video recording.
- To protect confidentiality, remove your name and use pseudonyms or general references (e.g., "the district") for your state, school, district, and Mentor Teacher. Mask or remove all names on any typed or written material (e.g., commentaries, lesson plans, student work samples) that could identify individuals or educator preparation programs. During video recording, use only the first names of students.
- You must follow appropriate protocol to submit recordings to University.
- You may not display the video publicly (i.e., personal websites, YouTube, Facebook).
- You may not use any part of the recordings for any personal or professional purposes outside of performance evaluation.
- You must destroy all video recordings once the evaluation is complete.
