

Policy JAD: Student Handbooks

Status: DRAFT

Original Adopted Date: 01/05/2004 | **Last Revised Date:** 04/15/2024 | **Last Reviewed Date:** 04/15/2024

Student handbooks will constitute official School Board policies and will be reviewed and updated each year.

Each student will either be given a copy of the appropriate handbook or given notice that the handbook is available for viewing on the district's website.

In the event that a "hard copy" of a handbook is not given to a student, a signed verification will be executed to document that said student and his/her parent have accepted responsibility for reviewing the handbook's contents. The teacher will keep these signatures on file.

The personal appearance regulations policy of the Jackson County School District is included in student handbooks.

District Personnel shall review the personal appearance regulations policy annually and present any changes to the Jackson County Board of Education for approval.

This policy will also be available to parents and students on the district website (www.jcsd.ms) and in the student handbook.
