

The technology staff has checked all 760, 790, 3010, 3020 and 7010 model computers at Fillmore Center and Church Street Gym and repaired them and placed them back in schools per school requests. We have harvested all usable parts from models 745 and 755 that could be used to repair the 760 models. All 260, 240, 280, 620, 745 and 755 models are old and obsolete.
