RE: Proposal – Laredo College PD Backup Generator

Mr. Tijerina,
Noble Texas Builders is pleased to provide you our proposal for your **Laredo College PD Backup Generator** in Laredo, TX. Below is an Assumptions and Clarifications based on the signed and sealed drawings dated 02.06.2026, information provided, site visits and our understanding of the proposed scope of work.

Estimated Cost:	\$ 194,633.00
Concrete	\$ 8,565.71
All Electrical	\$ 180,733.29
Insurance	\$ 1,414.00
Bonds	\$ 3,920.00

Add Alt 1: Conduit for Future ATS \$ 9,968.00

***Proposal is valid for thirty (30) days only**

General Requirements	
<u>Inclusions</u>	<ul style="list-style-type: none"> • Supervision • Mobilization and Staging • Insurance • Bonds • Safety requirements • Dumpster • Temporary Restrooms
<u>Assumptions / Exclusions</u>	<ul style="list-style-type: none"> • Work is estimated to take 3weeks of construction. • Work to be performed during normal business hours • Excludes Building Permit
Concrete	
<u>Inclusions</u>	<ul style="list-style-type: none"> • Furnish all labor, equipment and materials to install: • New Concrete pad for Emergency Generator per drawings and specifications.
<u>Assumptions / Exclusions</u>	<ul style="list-style-type: none"> • Excludes concrete testing
Electrical	
<u>Inclusions</u>	<ul style="list-style-type: none"> • Furnish all labor, material and equipment to install: • Generator Backup system for LC Police department (Only) per construction documents. <ul style="list-style-type: none"> ○ Furnish and install (1) diesel-power standby generator system <ul style="list-style-type: none"> ▪ Diesel-Powered Generator 80KvW ▪ Furnish and install Automatic Transfer Switch ▪ Provide all required power connections ▪ Install necessary conduits, wiring, fittings, and support for a complete operational system ▪ Perform all terminations, testing and startup to ensure proper operation of generator and transfer switch. ▪ Installation of grounding and bonding system ▪ Installation of control wiring and annunciator panel in the dispatch area ▪ Coordination for startup.

<p><u>Assumptions / Exclusions</u></p>	<ul style="list-style-type: none"> • ADD ALT 1: Pathway from generator to second building: <ul style="list-style-type: none"> ○ Furnish all labor, material and equipment to install: ○ Approximately 85 LF of underground raceway for second building. ○ This alternate includes pathway only and does not include electrical engineering, generator capacity analysis, ATS procurement, ATS installation, feeder installation, or final electrical connections unless specifically noted otherwise. • <i>Emergency Generator has a Leadtime of 16 weeks from approval and formal release.</i> • <i>Excludes any items not listed in inclusions.</i> • <i>Scope of work is limited to all work shown on construction documents.</i> • <i>Excludes any installation of work associated with second building expansion.</i> • <i>If accepted Add Alt, only raceways will be provided for future expansion into second building.</i> <ul style="list-style-type: none"> ○ <i>Electrical engineering verification will be required prior to adding a second ATS to confirm proper functionality, code compliance, generator capacity, and coordination with both electrical services. This is especially required because the generator would be providing emergency power to two separate buildings, each served by a separate main electrical service.</i>
