

CHALLENGED MATERIAL

Any District resident has the right to review and request reconsideration of material to which he/she objects. The individual must submit the complaint to the site administrator. If still unresolved, the complainant may appeal to the Superintendent/Designee.

The individual filing a complaint may appeal to the Superintendent of Public Instruction if the school district failed to follow its procedures and no further local remedies exist.

The Board of Trustees may establish a standing committee to review challenged material each school year.
