Dear Requester:

The District received your FOIA request on Wednesday, February 18th, 2026. The District is extending the time for response by an additional five (5) business days pursuant to FOIA Sections 3(e)(v) and (vi). A further response will be provided on or before Wednesday, March 4th, 2026.

Please also be advised that we anticipate that part of your request may be overbroad and unduly burdensome to comply with, as it likely would require the collection and review of a large volume of potentially responsive records that are not relevant to the purpose of your request. While the District expects to provide you various records that were presented at the two Board meetings you identified, the rest of your request is also categorical and broad. It seeks "all additional and supporting documents and communications that were used to develop, discuss, amend, or revise any of the presented materials" for any agenda item at two Board meetings, without any limitation on the specific subject matter, the type of records, a timeframe, or whether the materials were related to open or closed sessions. As a result, the District is extending you an opportunity to narrow this part of your request to a manageable proportion or to confer about the same. If you do not narrow this part of your categorical request to a manageable scale, as determined by the District, the District may exercise its right under Section 3(g) of FOIA to deny this part of your records request.

Sincerely,

Dr. Clayton J. Theisinger
