### Proposal:

Based on the number of students that Boyceville High School track has out for the spring of 2026 I am proposing that we hire another paid coach. We currently have 42 athletes out for the spring of 2026. This would be our highest number in many years. Track is a sport that needs a lot of coverage with many different events taking place. We currently are the only school in the DSC with only two paid coaches. I believe that hiring another coach would greatly benefit our athletes. This would be for one year as we continue to track our numbers.

Thank you,
