Good Morning,

Regarding the agenda item:

•Retention Committee Findings: Item 3 -(board discussion regarding options)

I have reached out to multiple entities (as delegated to in the May School Board meeting) and have received the following two quotes (attached) for services regarding the Retention Committee Findings and Recommendations and plan of action discussed at the May School Board meeting.

Additionally, I also reached out to AASB and was provided with the following information:

We appreciate you as a district reaching out to AASB. Our daily rate is \$1200 + travel expenses. We would be happy to help and if we are available, adapt the workshop to the needs of the district.

Please be sure to include this email and the attachment in the board

packet. It may be helpful to include the amended document provided by the retention committee by the school board members at the May meeting for reference.

Additionally, I am including the retention committee in this email for reference.

Kindly,
Trish
