

Director of Special Education Board Report

March 2026

We have had a few new students with IEP's move in recently. A couple of those students are in a classroom with our teacher out. The paraprofessionals and related services have done a good job of getting those students going and doing well.

All students, along with our special education students, are involved in testing currently. Students who do not take state assessments, due to cognitive impairments, take an alternate assessment. This assessment is called the DLM. Our teachers are currently doing the DLM with the students who qualified for this assessment. The students and staff are working hard on this task.

A couple of our out-of-district students are on pace to graduate which will lower our rate of privately placed students.

Our annual ACE Olympics (similar to Special Olympics) is coming soon. This is always a great day for our students. Dates and times are still pending.
