Subject: **Proposed New Club for Midway High School – Hiking Club**

MISD Board of Trustees: April 21, 2026

Agenda Item – 9A3

Background Information

Nathan Lee, a Midway High School student, proposes beginning a Hiking Club during the 2025-2026 school year. The purpose of the Hiking Club is to promote safe, enjoyable, and responsible hiking while encouraging outdoor education, physical fitness, and environmental stewardship.

The Hiking Club will organize group hikes, outdoor exploration activities, and educational opportunities related to nature and conservation. The club will create a welcome and inclusive community for students of all experience levels who are interested in outdoor activities.

Fiscal implications

Currently, there are no anticipated fiscal implications for the Hiking Club. If future activities require funding, fundraising efforts or minimal dues may be considered

Administration Recommendation

MHS administration supports the creation of the Hiking Club as a positive opportunity for students to engage in physical activity, build community, and develop an appreciation for the outdoors and environmental responsibility.
