Commented [MW1]: We don't pay ACH invoices, we have vendors that are either set up to receive payment via ACH or not. I think having an electronic funds policy is important, but I think this needs a little work

BP 3312 CONTRACTS/MEMORANDA OF AGREEMENTS

MOA's in amounts of \$50,000 or less shall be authorized by the Superintendent, or his/her designee. All agreements over \$50,000 and/or where implied liability cannot be determined will be brought to the Board for prior approval.

BP 3315 RELATIONS WITH VENDORS

Note: *The following optional policy should be revised as needed to reflect district philosophy and needs and is intended to avoid situations wherein a conflict of interest exists or appears to exist. [A.S. 11.56.100-11.56.130](#) defines the felony offense of receiving a bribe and the misdemeanor offense of receiving unlawful gratuities. Receiving a bribe includes soliciting or receiving a benefit with the intention or understanding that a public servant's decisions or actions will be influenced. Receiving unlawful gratuities includes soliciting a benefit of any value or accepting any benefit having a value of \$50 or more for performing an official act not entitled to any special or additional compensation.*

No district employee or Board member shall accept personal gifts, commissions or expense-paid trips from individuals or companies selling equipment, materials or services required in the operation of district programs. Gifts include any gift purchased specifically for an employee which is not generally offered to other buyers.

This policy does not prohibit employees from accepting promotional or advertising items such as calendars, desk pads, notebooks and other office gadgets which are offered by business concerns free to all as part of their public relations programs.

District employees who work for or serve as consultants for potential vendors shall not participate in evaluating any equipment, materials or services of that vendor or its competitors.

(cf. 6161.1 - Selection and Evaluation of Instructional Materials)

(cf. 9270 - Conflict of Interest)

This policy does not prohibit the Board from accepting materials and/or services which are of use and benefit to the district.

No employee, officer, or agent of the District may participate in the selection, award, or administration of a contract supported by federal funds if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm consideration for a contract. The employees, officers, and agents of the District may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts.

Universal Service Program/E-Rate Vendors

Note: *The following language should be adopted by those districts receiving E-rate discounts. Effective 2011, the FCC amended its E-rate program rules and adopted*

gift restrictions for schools and districts participating in E-rate. The receipt of gifts by applicants from service providers and potential providers is a competitive bidding violation. The gift prohibitions are always applicable, not just during the bidding process. Relevant school district personnel may not solicit or receive any gift or other thing of value from a service provider participating in or seeking to participate in the E-rate program. There are limited exceptions, including when the value of the item is worth \$20 or less, so long as items do not exceed \$50 per year per employee from any one service provider.

The District takes advantage of federal technology funding through the universal service program known as E-rate. E-rate participants may not, at any time, solicit or accept gifts or other things of value from an existing or potential E-rate service provider. Nominal gifts and refreshments may be allowed as authorized by the Superintendent or designee.

E-rate gift prohibitions apply to the School Board and to employees, consultants or contractors involved in the District's E-rate Program who: prepare, approve, sign, or submit E-rate applications, technology plans or other E-rate forms; prepare bids, communicate, or work with E-rate service providers, E-rate consultants, or the Universal Service Administrative Company; and those responsible for monitoring compliance with the E-rate program.

Charitable donations by service providers in support of the schools are permitted. These contributions may not be directly or indirectly related to E-rate procurement activities or decisions.

The Superintendent or designee shall develop guidelines to implement this policy in compliance with E-rate program rules.

BP 3311 BIDS

All purchase orders with an estimated cost of \$50,000 or more shall be competitively bid using formal bidding procedures and a recommendation as to the award shall be brought to the Board for their approval.

All purchase orders with an estimated cost of \$10,000 but less than \$50,000 shall require written price quotes from ~~an adequate number of~~ two (2) or more qualified sources. If the lowest price quote is not selected the reasons shall be given in writing and forwarded to the purchasing office.

Each purchase order shall encompass all costs associated with the item to determine if written price quotes or formal bid procedures are required. Segmented purchases will be combined to determine when Board approval is required.

With the exception of Board approval purchases under the following circumstances are exempt from the provisions of this policy:

1. in an emergency;
2. available from one source;
3. purchased from other governmental agencies.

The Superintendent or designee shall establish procedures to implement these requirements. Prior to any purchase, the District should review the federal funding award or grant to determine if it requires compliance with OMB's procurement procedures.

Performance bonds may be required for all contracts, or when the quantity of the amount of money is in excess of \$50,000.

Under no condition shall bids be accepted after the advertised bid opening time, regardless of whether the bids are actually opened at that time.

Purchases Made Under Federal OMB Funding Awards

All bids under Federal awards must be made in accordance with the standards set forth in 2 CFR 200.320. One of the following five methods of procurement shall be used for each purchase under a federal award:

1. Micro-purchases: Less than \$3,000 (\$2,000 for purchases subject to the Davis-Bacon Act)
 - a. No competitive quotes required
 - b. Purchases should be spread among qualified suppliers

2. Small Purchases: Between \$3,000 and \$150,000
 - a. Rate quotes must be obtained from two (2) or more qualified sources
 - b. Quotes can be obtained from suppliers or from public websites
3. Sealed bids: Purchases more than \$150,000
 - a. Two or more qualified bidders are required
 - b. Bids must be publicly advertised and solicited from adequate suppliers
 - c. Lowest bidder for the fixed price contract with specific requirements shall be awarded the contract
4. Competitive Proposals: Purchases more than \$150,000
 - a. A written policy must be adopted for conducting technical evaluations of reviewing proposals and selecting the recipient
5. Sole Source: Purchases of any amount that meet one of the following four requirements
 - a. Good/service is only available from a single source
 - b. Only one source can provide the good/service in the time frame required
 - c. Written pre-approval from the Federal awarding agency
 - d. Competition is deemed inadequate, after solicitation attempts through one of the other methods

To ensure that good value is received for funds expended, specifications shall be carefully designed and shall describe in detail the quality, delivery and service required.

Minority Bidding

When procuring contracts under federal awards set forth in [2 CFR 200.320](#), the District must take affirmative steps to utilize minority businesses, women's business enterprises, and labor surplus area firms when possible. Affirmative steps must include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

Exemptions

The following items are exempted from formal purchasing procedures:

- A. Instructional materials for which purchasing guidelines have been established by School Board Policy in BP 6161.1(a); or
- B. In-service presenters, speakers, or curriculum, instruction, or staff development experts selected for particular and unique expertise; or
- C. Professional or consultant services such as medical, legal, negotiation, technical, or educational, not including architectural/engineering design services; or
- D. Professional or consultant services (such as property and casualty insurance) purchased jointly with Local, State, or Federal agencies; or
- E. Public services, utilities or energy-related expenses, site licenses, upgrades, maintenance contracts, and specialized services, software, or equipment where no competition exists (single source) or the District has established a need for standardization of equipment, supplies, or services; or
- F. Emergency supplies or supplies and equipment that augment previously purchased items of a similar nature whereby the District would incur substantial costs to switch products or product lines; or
- G. Purchases involving replacement of equipment where similar equipment is being traded in; or
- H. Purchases involving items regulated by Fair Trade Statutes; or
- I. Purchases made through cooperative purchasing agreements, existing Federal/State or inter-district contracts including GSA pricing; or when cooperatively bidding with other public agencies; or
- J. Contracts or purchases when time is of the essence for reasons of health or safety, or to comply with legal requirements in a timely manner.
- K. Proprietary (sole-source) items or services or items that are only available from a single source.

When applicable, prior to any purchase, the District should review the federal funding award or grant to determine if it requires compliance with Uniform Guidance OMB's procurement procedures.

BP 3541.1 SCHOOL-RELATED TRIPS

Trips by School Vehicles

Note: Federal safety regulations enacted in 2000 govern the number of students that may be transported in vans. These regulations are applicable to the purchase or lease of new vans by Alaska school districts. After 1 September 2000, new vehicles designed by the manufacturer to carry 11 or more persons (rated capacity if equipped with full seating) that are used for transporting students to or from school or school-related activities are required to meet all Federal Motor Vehicle Safety Standards for school buses. As a result, passenger vans are limited to transporting a total of ten passengers, including the driver, unless the passenger van or suburban meets the Federal Motor Vehicle Safety Standards applicable to school buses. The large majority of passenger vans do not meet and comply with Federal school bus safety standards. Although used vans are not covered under the federal regulations, for risk management purposes, districts may want to require the new van standards for the purchase of used vans.

The Board may approve transportation for field trips and school-sponsored activities. The Superintendent or designee shall regulate the use of the district transportation, including vans, for approved school-related activities. Student councils, parent-teacher associations, and any other organizations requesting transportation shall be fully responsible for the costs of the trip. To the extent that funding has been approved by the Board, such costs may be charged to the district.

Transportation by Private Automobile

Note: The following option and exhibit are provided for districts that allow transportation by private vehicles.

The Superintendent or designee may authorize the transportation of students by private automobile for approved field trips and activities when the vehicle is driven by an adult registered with the district for such purposes. Drivers shall be issued safety instructions and emergency information. All student passengers shall provide permission slips signed by their parents/guardians.

Drivers shall be required to possess a valid driver's license and liability insurance of at least \$100,000 per occurrence.

Note: AASB strongly recommends that districts require at least \$100,000 minimum liability. If desired, however, the district may change the above specification to read "liability insurance in amounts required by law."

Owners, drivers and passengers shall be informed that the registered owner and his/her insurance company are responsible for any accidents which may occur. District

personnel who frequently transport students in their private vehicles are urged to carry liability insurance of ~~\$300,000~~\$1,000,000 or more per occurrence.

A seat belt must be provided for each passenger. Trucks and pickups may not transport more persons than can safely sit in the passenger compartment.

Owners furnishing private vehicles shall not accept reimbursement from passengers in excess of the cost of operating the vehicle. Reimbursement for the use of private transportation may be made from district funds.

Transportation by other private means (boat, ATV, off-road vehicles, snow machines)

Note: AASB strongly recommends that districts require at least \$100,000 minimum liability. If desired, however, the district may change the above specification to read "liability insurance in amounts required by law."

The Superintendent or designee may authorize the transportation of students by other private means for approved field trips and activities when an adult registered with the district for such purposes operates the vehicle. Operators shall be issued safety instructions and emergency information. Operators must abide by the specific vehicle safety ratings such as passenger capacity, maximum speed and required safety equipment (helmets, life jackets, etc.)

All student passengers shall provide permission slips signed by their parents/guardians. Operators shall be required to possess a valid driver's license and strongly urged to carry liability insurance of at least \$100,000 per occurrence.

BP 4222 CLASSIFIED PERSONNEL - TEACHER AIDES/PARAPROFESSIONALS

Note: Under the Every Student Succeeds Act, NCLB's requirement establishing minimum professional standards for paraprofessionals have been repealed. Now, paraprofessionals in Title 1 supported programs must meet licensure or certification requirements as adopted by the State of Alaska.

The School Board favors the use of paid and volunteer teacher aides/paraprofessionals and considers them to be members of a professional team dedicated to the best interests of students. By relieving teachers of duties that do not require professional training, noncertificated persons allow teachers to dedicate their skills, knowledge and efforts primarily to teaching. Paraprofessionals also can help teachers to provide individualized student instruction and an enriched educational program.

(cf. 1240 - Volunteer Assistance)

The district shall use paraprofessionals in those classes where they will provide the greatest benefit to students, taking into consideration such factors as large class size, student age group and teacher workload.

The Superintendent or designee shall ensure that all paraprofessionals have appropriate training and supervision, including the training set forth in BP/AR 5141.42, Professional Boundaries for staff and students.

(cf. 5141.42 - Professional Boundaries for staff and students)

Note: Special Education aides must serve under the supervision of qualified personnel and receive training in accordance with 4 AAC 52.250.

Paraprofessionals are expected to employ high ethical standards as they work with students, and to respect school rules, district policies and administrative regulations.

The Board recognizes the need for qualified teaching staff and encourages paraprofessionals to seek opportunities leading to a teaching credential. The district shall support these efforts to the extent possible, particularly as they relate to obtaining bilingual or special education credentials.

The Superintendent or his/her designee and/or the staff development committee shall develop an appropriate professional development program for paraprofessionals.

Paraprofessionals Working in Title I Programs

Note: Under 4 AAC 04.220, paraprofessionals working in programs supported with Title I funds who do not meet the higher education requirements must: 1) take and pass the ParaPro Assessment by achieving a score of at least 459; and, 2) show, through

Northwest Arctic Borough School District

Note: This is not a required policy and may be updated at the discretion of the Board.

The Board recognizes families provide early and ongoing education to their children, and a strong collaboration between families and schools will ensure students continue to receive the supports they need to thrive and be prepared in school and beyond. The board also believes that partnerships with parents, guardians, and families are an important part of the educational program. Current research indicates a home to school partnership and greater involvement on the part of parents and families in the education of their children generally result in higher achievement scores, improved student behavior and reduced absenteeism. All parents, guardians, family members and foster caregivers have clear and active roles to contribute to the education of their children or foster children. All students can be successful when schools and families partner in children's education.

The District is committed to promoting family engagement as an integral part of the educational experience. Through family engagement we will:

1. Establish a welcoming and inclusive environment that actively encourages family involvement in their child's education.
2. Foster effective communication and collaboration between families, schools, and the community to support student success.
3. Provide resources, training, and opportunities for families to enhance their capacity to support their child's learning and well-being.
4. Provide resources, training, and opportunities for school staff to enhance their capacity to engage in meaningful partnerships with families.
5. Recognize and respect the diverse cultures, backgrounds, and perspectives of all families in our district.

By implementing this Family Engagement Policy, the District aims to strengthen the partnership between parents, guardians, families, schools, and the community, ultimately enhancing student achievement and fostering a supportive educational environment.

In addition, building administrators/designees of schools receiving Title I funds will jointly develop with and distribute to parents of children participating in Title I programs a written parent and family involvement policy and guidelines that increases family interest in partnership and involvement. The requirements of the policy and guidelines are consistent with Federal and State law.

BB 9200 BOARD MEMBERS

Limits of Board Members Authority

The School Board has broad but clearly limited powers. The exercise of its authority is restricted to the functions required or permitted by law, and then only when it acts in a legally constituted meeting. Board members have authority only in regularly called meetings of the Board, or when delegated specific tasks by Board action. Individual Board members shall submit requests for research or administrative studies to the entire Board for consideration.

The Board is the unit of authority. An individual Board member is a part of the governing body which represents and acts for the community as a whole. Apart from the normal function as part of the unit, the Board member has no individual authority. No individual member of the Board, by virtue of holding office, shall exercise any administrative responsibility with respect to the schools; nor, as an individual, command the services of any school employee. Individually, the Board member may not commit the district to any policy, act or expenditure.

School visits by Board members are encouraged. Principals should receive a courtesy call in advance of a visit. Board members, as with all visitors, must check in with the school office. Board members who visit schools of their own volition have no more authority than any other citizen. Board members have authority only in regularly called meetings of the Board, or when delegated specific tasks by Board action.

(cf. 1250 - Visits to the Schools)

Note: The following is an optional process for Board members to make information requests.

Board Member Requests for Information

Board members should make informed decisions on matters before them for a vote. The Superintendent or designee is responsible for providing the Board with relevant materials to inform the Board on those matters on which it is to act. If Board members desire further information, a request for information shall be directed to the Superintendent, pursuant to the following guidelines:

1. Requests for simple facts. Any Board member may make a request for simple facts to the Superintendent who will forward the request to the appropriate staff member. All responses to requests for simple facts will be provided to the requesting Board member and copied to the Board President.

2. Requests for reports, research, administrative studies, detailed information, or for information relating to a problem or a potential problem in the District. Some information requests require significant administrative time and explanation to provide the requested response. Individual Board members shall submit such requests to the full

Board for consideration. Upon [concurrence of the other board members/majority request of the Board], the request shall then be forwarded to the Superintendent for response.

3. Complaints regarding personnel. Board members may have their own complaints regarding District personnel. These concerns should be privately communicated to the Superintendent.

4. When Board members receive complaints or requests for action from staff, students or members of the public, the Board members will direct the staff, students, members of the public to the appropriate complaint policy. Such information will be conveyed to the superintendent.

5. Requests for legal advice or opinions by a Board member that will incur a cost for the district must be approved by a majority vote of the Board before the request is made to legal counsel. Legal counsel is responsible to the Board.

Commented [AE1]: This is new from AASB.

(cf. 6162.8 - Research)

(cf. 9322 - Agenda/Meeting Materials)

Obligations of Members

Members of the Board must endeavor to attend all meetings, study all materials presented with the agenda prior to attending the meeting, participate in the discussion of any items which come before the Board, and vote on all motions and resolutions, abstaining only for compelling reasons. If no compelling reason requires abstention, members of the Board shall not abstain.

If a Board Member knows they will be unable to attend scheduled meetings, worksession, or committee assignments they must notify the Board President or the Superintendent's Office of this intended absence. If a Board Member notifies the Superintendent's Office with a request for an excused absence, this information will be communicated to the Board President for his/her decision and action.

Commented [AE3]: This is not in the Model AASB policy.

The Board member should not subordinate the education of children and youth to any partisan principle, group interest, or the member's own personal interest.

The Board member should be prepared and willing to devote a sufficient amount of time to the study of the problems of education in the district, the state, and the nation in order to interpret them to the people of the district.

the Board for an item with a value over \$10,000.

Sale of surplus, obsolete supplies, student group projects, and equipment with a value of \$2,500 or more will be by public auction or sealed bid. If the Superintendent determines that the property is worth no more than \$2,500, the property may be sold at a private sale without advertising.

Student group projects, under this section, shall be defined as those in which the materials were purchased by the District.

~~The Superintendent or designee shall arrange for the sale or disposal of district personal property in accordance with State law.~~

Funds received under this program shall be returned to the School Student Activity Fund minus the cost of materials purchased by the District.

Surplus Property Disposal

It shall be the policy of the District to allow the local administrator, with approval of the Advisory School Board-Council and the Superintendent, to dispose of broken, obsolete, outdated or unusable materials and equipment. In such cases, the local administrator shall verify that the items in question no longer have monetary or educational value to the District before being destroyed or released to the public. Books not sold will be offered to the public free of charge. In the case of equipment, procedures shall be followed so that the item is removed from the District inventory.

District Use of Electronic Signatures

When not practical or possible to have an approved individual physically sign a document, and not otherwise prohibited by applicable law, the Board authorizes the use of electronic signatures. Electronic signatures may satisfy the requirement of a written signature when transacting business with and/or for the District and/or with parents/guardians when the authenticity and reliability of such electronic signature(s) meets the provisions of this policy. In such instances, the electronic signature shall have the full force and effect of a manual signature.

The Superintendent or designee will identify methods that are secure and practical, and in compliance with State and Federal law and the District's procedures. An "electronic signature" is defined as an electronic sound, symbol, or process attached to or logically associated with a record, and executed or adopted by a person with the intent to sign the record.

In order to qualify for acceptance of an electronic signature the following additional requirements are applicable:

1. The electronic signature identifies the individual signing the document by his or her name and title;
2. The identity of the individual signing the document with an electronic signature is capable of being validated through the use of an audit trail;
3. The electronic signature, as well as the documents to which it is affixed, cannot be altered once the electronic signature is affixed. If the document needs to be altered, a new electronic signature must be obtained; and,
4. The electronic signature conforms to all other provisions of this policy.

The District shall maintain District electronically signed records in a manner consistent with the District's document retention policies yet also capable of accurate and complete reproduction of the electronic records and signatures in their original form. Such retention should include a process whereby the District can verify the attribution of a signature to a specific individual, detect changes or errors in the information contained in the record submitted electronically and protect and prevent access and/or manipulation or access/use by an unauthorized person.

~~The District shall maintain a hardcopy of the actual signature of any District employee authorized to provide an electronic signature in connection with school board business.~~

Abuse of the electronic signature protocols by any District employee serves as grounds for disciplinary action up to and including termination.

Parent/Student Use of Electronic Signatures

With regard to documentation received by the District with an electronic signature from a parent/legal guardian, so long as the following provisions are met, the District may receive and accept such electronic signature as an original document:

1. Such communication with signature, on its face, appears to be authentic and unique to the person using such signature;

2. The District is unaware of any specific reason to believe that the signature has been forged;
3. The District is unaware of any specific reason to believe the document has been altered subsequent to the electronic signature; and
4. The signature is capable of verification.

The District's Superintendent or designee may, at their discretion, request that an original of the electronic communication, signed manually by hand, be forwarded to the District in a timely manner.

District personnel may periodically audit the authenticity of such signature via a security procedure including such acts as making follow-up inquiry to the individual/entity who has submitted an electronic signature.

Should it be discovered that a student has falsified a parent's electronic signature on an official District document, the student may be subjected to discipline and the District Administration is authorized, at their discretion, to thereafter only accept manual signatures associated with any submitted school document.

BP 6020 PARENT INVOLVEMENT

Note: The following policy implements AS 14.03.016 which requires school districts to have policies promoting the involvement of parents in the education program. For those districts receiving Title I funds, a policy on parental involvement is also mandatory. (See BP/AR 6171)

The School Board recognizes that parents/guardians are their children's first and most influential teachers and that continued parental involvement in the education of children contributes greatly to student achievement and conduct. Parents/guardians can directly affect academic success by reinforcing their children's motivation and commitment to education. The district shall include parent/guardian involvement strategies as a component of instructional planning.

In exercising their roles in the education of their students, parents/guardians have the following specific rights:

- A. The right to object to and withdraw their student from a standards-based assessment or test required by the State of Alaska.
- B. The right to object to and withdraw their student from an activity, class or program.
- C. The right to be notified at least two weeks before any activity, class, or program is provided to their student that includes content involving human reproduction or sexual matters, except this right does not extend to training provided to students on awareness and prevention of sexual abuse, sexual assault, and dating violence and abuse.
- D. The right to withdraw their student from an activity, class, program, or standards-based assessment or test required by the State of Alaska for a religious holiday, as defined by the parent/guardian.
- E. The right to review the content of an activity, class, performance standard or program.

In exercising the rights above, parents/guardians must object each time the parent/guardian wishes to withdraw their student from an activity, class, program, or standards-based assessment or test required by the State of Alaska. Categorical objections and withdrawals from all activities, classes, programs, or assessments are not permitted.

Students will not be penalized when withdrawn by parents/guardians from an activity, class, program, or standards-based assessment or test. Absences based on parent objection and withdrawal will be excused and, as appropriate, alternative work assigned.

(cf. 6142.1 - Family Life/Sex Education)

(cf. 6142.2 - AIDS Instruction)

(cf. 6162.5 - Standardized Testing)

Teachers and parents/guardians can better understand and meet student needs if they work together. All of our schools have a duty to communicate frequently with the home and to help parents/guardians develop skills and family management techniques which support classroom learning. Administrators and teachers shall keep parents/guardians well informed about school expectations and tell them when and how they can assist their children in support of classroom learning activities. The Board encourages staff training in effective communication with the home.

The Board encourages parents/guardians to serve as volunteers in the schools and to attend student performances and school meetings.
