ITEM: Wayzata Inclusive Education Awards

COMMENTS BY: Chace B. Anderson, Superintendent

In the 2020-21 school year, the Wayzata Special Education Advisory Committee (WSEAC) established an award to recognize outstanding school staff who work to ensure students with disabilities have the opportunity for an inclusive education in Wayzata Public Schools. Here 3 years later, we are continuing to acknowledge outstanding educators. This spring Wayzata Public Schools families and employees were invited to nominate outstanding staff members who contribute to inclusive education in our school district. The WSEAC reviewed the Nominee's at the May Advisory Council Meeting and selected the winners of this year's award.

This award is an acknowledgment and celebration of staff who create, foster, and epitomize inclusive education and will be Awarded at the June 12th Board Meeting.

This year the WSEAC was reviewing Birth-5th grade and 6th grade-Transition nominee's, anticipating two nominee's being celebrated. However, due to the compelling work of our staff and the impact of their work there were two ties. Please join me in congratulating the 22-23 Wayzata Inclusive Education Award Winners.

Alyssa Honmyhr & Melissa O'Neil, Wayzata High School Unified Theatre Teachers

Nominated by: Tyler Shepard

Alyssa and Melissa teamed together last spring to develop the "Unified Music and Theatre/Performing Arts" class that premiered this fall. These two were extremely committed to making this the very best experience for all students involved. I had the opportunity to witness their instruction and interactions with students on a regular basis. The unified model was implemented perfectly. Disabled students were fully immersed with their non-disabled peers, daily. Students were provided with a new opportunity to be fully immersed in music, theatre, and performance. Alyssa and Melissa's ambition and positivity promoted unbelievable excitement and growth for the class, concluding with a full-scale production of the Lion King in our main auditorium! It was an AMAZING production!

Sarah Diaz, Kindergarten teacher at Meadow Ridge Elementary

Nominated by: Suniket Fulzele & Leslie Sell who shared the following:

Mrs. Diaz is our daughter's KG teacher. The summer before the school started, Mrs. Diaz took upon herself to visit us in our home and understand our daughter's needs. It really touched our hearts and showed how much she cares for children and takes her job seriously and personally. Our daughter is lucky to have Mrs. Diaz as her KG teacher.

&

Sarah wants ALL of her students to be a part of her community, to reach their potential, and to grow in her kindergarten class. She works tirelessly to advocate for her students, to get them the support that they deserve, to work with the multitude of district professionals to get her students OT, vision, SPED, speech, and PT services, support and accommodations. It is hard work and she gives her all!

Beth Struve, WPS Physical Therapist serving student's Birth-21

Nominated by Stacy Bobek

Being the only physical therapist for the entire district is an extremely challenging role, but despite this, Beth knows each of her students well and takes extra time as needed to connect with them and their parents. A perfect example of this is making sure that her students with physical needs have the ability to join in on fun recess and physical education activities. Beth has gone above and beyond to think about how to adapt baseball, chalk writing/coloring, bicycling, and sledding. She worked closely with a kindergartner at the beginning of the year, who has never attended formal school, to help him engage in a ball tossing activity during recess. She provided him with a switch-adapted ball thrower, which not only allowed him to engage in an outdoor activity despite having minimal control of his upper extremities, it also allowed for amazing social interaction with his peers.

Beth is amazing at connecting to kids of all ages, from birth to 21, and is genuine in her interactions with all of them. She knows their strengths and interests and incorporates these into her therapeutic interventions.

Beth has been working tirelessly to make our playgrounds more inclusive. She has pushed to create dialogue between the district and individual principals to provide input and suggestions on how to increase access to all portions of playgrounds so that students with physical needs can access more than 1 or 2 activities. She has been helping schools realize that although some playground have been created with universal design in mind, they still do not actually allow for inclusivity since our students are smaller and have more complex needs.

Congratulations to each of you on receiving the Inclusive Education Award! This recognition is a testament to your unwavering commitment and outstanding efforts in promoting inclusivity in education. By championing diversity and ensuring equal opportunities for all learners, you have made a significant and positive impact on countless lives. Your dedication to creating an inclusive learning environment is truly commendable. Keep up the excellent work and continue to inspire others with your remarkable achievements. We couldn't be more proud of you and your commitment for *Each and Every Learner!*

ITEM: Employee of the Month- Diane Krull

COMMENTS BY: Chace B. Anderson, Superintendent

Wayzata Public Schools Employee of the Month, June 2023
Diane Krull - Birchview Elementary

Birchview Elementary School is proud to nominate **Diane Krull**, Behavior Support Paraprofessional, as Employee of the Month. Diane truly embodies what it means to be a Birchview Bobcat in every way and our school is a better community because of educators like her. Mrs. Krull shows her utmost care and love for our school every day and she is known for being a 'go to' person around our building to support our students.

When you visit Birchview, you will quickly recognize Mrs. Krull. At the beginning of each day, she greets students, families and staff as they enter the building. You can hear her genuine excitement as she sees everyone... It is a great way to start the day. She makes every person at our school feel important and like they matter. The little things that she does leave a huge impact on all of us, especially our students. Throughout the day, you will find her in the hallways, in the lunchroom, in classrooms, or outside on the playground. She's everywhere with one goal in mind: to help our students be successful. At the end of the day, she is outside with our students, connecting and making sure everyone gets where they need to be safely. Her positive outlook and 'will do' attitude have made a huge impact on students at Birchview. She is a gift to our school.

As we know, a school community is strong when positive relationships are present and we are all working collectively together as a team. Diane is a big part of our school's culture and climate and is constantly behind the scenes doing whatever it takes to help around school. From helping us organize the system for lunch cards in the lunchroom, to staff potlucks (a staple at Birchview), to helping in the office, when something needs to get done, she is behind the scenes working with a smile.

To help illustrate just how special Diane Krull is, we are sharing comments from a student and one of Diane's colleagues:

Student: *"Mrs. Krull is kind and funny. She makes me feel safe at school. I like being with her because she is the best. Thank you, Mrs. Krull."*

Teacher: *"Students are at the heart of everything she does. If she can find a way to make one student's day a little brighter, she is going to make it happen. Both our students and staff are so fortunate to have her at Birchview."*

Birchview Elementary School is thrilled to recognize **Diane Krull** as the district's June Employee of the Month. She is very deserving of this recognition because of her relentless work to support our students, staff and overall school community.

Congratulations, Diane!

Outdoor Learning Benefits

- Minnesota Department of Education - Benefits of Outdoor Learning

The benefits of outdoor experiences for children are well documented. When children spend time outside they explore science topics using curiosity, creativity and wondering, becoming better problem solvers and critical thinkers. When children are outside, they take turns, talk to each other about what they see and interact with their peers in cooperative ways. Being outside leads to more time being physically active and developing small and large motor skills.

Children get excited and interested in learning new content when they use natural materials in natural spaces. Some studies show outdoor learning can increase feelings of well-being, sustained attention and concentration. This particularly benefit children who may have experienced trauma or other life stressors. Children who spend time interacting with nature develop a sense of responsibility and respect for nature, living things and the world around them. This ensures a future with people who will advocate for the natural world and natural spaces that benefit everyone.

Where did this idea come from?

- Grant Request Review at April PTA Meeting
- 3rd Grade Grant Request for one raised garden bed
- Realized the benefits and decided to try to make it bigger than one raised garden bed

Garden Goals

Started with the below goals from the Grant Request:

- 3rd Grade science curriculum includes a “Plant Adventures” and “Power of Flowers” unit
- Outdoor learning provides students with new opportunities that promote equity, movement breaks, hands on learning and a new learning environment
- To promote community by working together to create and care for the garden

Expanded to include the below goals as well:

- Give kids an opportunity they may not typically have to build, create, and see nature in action
- Foster the Four C’s of Birchview: Curiosity, Community, Commitment and Compassion

How we met those goals: Step 1 - Seeds

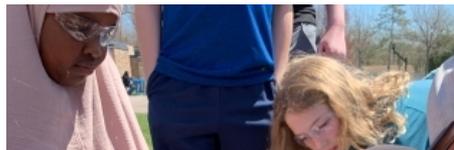

Curiosity and Community

How we met those goals: Step 2 - Build

The Minnesota Department of Education requires that school districts must annually designate an Identified Official with Authority (IOwA) to comply with the MNIT Enterprise Identity and Access Management Standard which states that all user access rights to Minnesota state systems must be reviewed and recertified at least annually. The Identified Official with Authority will assign job duties and authorize external user’s access to MDE secure systems for their local education agency (LEA). The Board recommends to authorize Chace Anderson to act as the Identified Official with Authority (IOwA) for Wayzata Public School District 0284-01.

Education Identity and Access Management Board Resolution

The Minnesota Department of Education (MDE), Professional Educator Licensing Standards Board (PELSB), and Office of Higher Education (OHE) require annual designation of an Identified Official with Authority (IOwA) for each local educational agency that uses the Education Identity and Access Management (EDIAM) system. The IOwA is responsible for authorizing, reviewing, and recertifying user access for their local educational agency in accordance with the State of Minnesota Enterprise Identity and Access Management Standard, which states that all user access rights to Minnesota state systems must be reviewed and recertified at least annually. The IOwA will authorize user access to State of Minnesota Education secure systems in accordance with the user's assigned job duties, and will revoke that user's access when it is no longer needed to perform their job duties.

Your school board or equivalent governing board must designate an IOwA to authorize user access to State of Minnesota Education secure websites for your organization. This EDIAM board resolution must be completed and submitted to the Minnesota Department of Education annually, as well as any time there is a change in the assignment of the Identified Official with Authority.

It is strongly recommended that only one person at the local educational agency or organization (the superintendent or exec. director) is designated as the IOwA. The IOwA will grant the IOwA Proxy role(s).

2022-23 School Year Financial Report Analysis

Excellence. For each and every student.

For the Month Ended April 30, 2023

Statement of Revenues Analysis

This analysis reflects revenue received by the month end noted above. Property Tax revenues are close in line with prior years. State Aids are slightly under prior fiscal years. As pointed out in prior reporting months, deviations in revenue from prior years include Federal Aids and Miscellaneous Local Revenue. The significant increase over prior years in Federal are due to the fact that CARES Act dollars continued to flow into the district in FY22-23 with some of these dollars being allowed to carry over to multiple future fiscal years. This has allowed the district to draw on these funds periodically throughout the fiscal year. A portion of the variance in Miscellaneous Local Revenue from prior years includes an Insurance Recovery payment along with other miscellaneous revenues. This pushes that comparative percentage upwards from the prior fiscal year during the same time frame. The district continues to see numbers more in line with pre-pandemic times as it relates to fees the district collects for sports. This would also be a similar story for Community Education and their numbers related to the before and after care programs of school children.

Statement of Expenditures Analysis

The analysis of the expenditures reflects the actual expenditures and does not include outstanding encumbrances. As you can see from the Statement of Expenditures, the overall expenditures are similar in several prior years. Salaries are slightly under the prior year. Benefits are up from the prior year and will be adjusted in the updated the revised budget. As mentioned in prior reporting months, Supplies & Materials along with Other Expenditures can vary from year to year based on the timing of purchases or payments during the fiscal year depending on the needs of staff, buildings, and departments. As an example, Purchased Services are up over last fiscal year percentage wise due to the timing of some transportation payments and other expenditures where payment timing can vary. The variation in Capital Expenditures from the prior year was driven mainly by more projects being conducted in the prior fiscal year along with the timing of purchases during the fiscal year.

Fiscal Year 2023 Budget Amendment

The adjustment to revenue is due to an increased estimate of enrollment for the fiscal year ending June 30, 2023. The estimated increase in enrollment positively impacts and increases the Revenue projection for the State Aid revenues. The adjustments to expenditures are due to utilizing updated fiscal year to date costs to project estimated year-end totals. These adjustments were mainly around updating estimated costs for salaries and benefits.
