Important Notice to Parents/Guardians: While we plan to open schools regularly, we are aware that the COVID-19 virus will still be in our community. Processes and routines may be adjusted based on what is happening locally within our schools and county. Information in this handbook may change should there be an outbreak that require the school district, a particular school, or program, to change instruction and service delivery for students. We are optimistic that the worst of COVID-19 is behind us, and we look forward to a regular start and duration of the 2021-2022 school year.

Welcome to Fridley Public Schools!

Thank you for choosing Fridley Public Schools, Minnesota's first and only full IB Continuum school district!

More information on the IB Continuum at Fridley schools is in the Academics section of this handbook.

Fridley's quality academics, positive school climate, and personalized attention for each student are some of the top reasons families enroll their children in the school district.

Our students come from diverse backgrounds and there are more than 50 languages spoken in our schools. Fridley's 3,000 students and their families are served by more than 450 teachers and staff members.

Thank you for choosing Fridley Public Schools and we look forward to a great school year of learning!

A MESSAGE FROM OUR PRINCIPALS

SCHOOL CLOSING PROCEDURES

School may be cancelled when the superintendent believes the safety of students and employees is threatened by severe weather or other circumstances. The superintendent will make a decision about closing school or school buildings as early as possible. The district will inform parents of a school closing through multiple mediums, which include: phone call and email notification, district website, district social media, and local television news channels. School closing announcements will be sent prior to the start of the school day. As long as buses can safely operate, schools are not closed in cold or snowy weather.

TRANSPORTATION OF STUDENTS

Daily Transportation for Regularly Scheduled School Days

The school district will provide transportation, at no cost to families, for all resident students who live one mile or more from the school. Transportation will be provided on all regularly scheduled school days or make-up days. Transportation will not be provided during the summer school break, except in certain circumstances. The school district will not provide transportation for students whose transportation privileges have been revoked or have been voluntarily surrendered by the student's parent or guardian. See [District Policy 707 Transportation of Public School Students](#) for more information.

Extracurricular Transportation

The school district may provide transportation for students to and from extracurricular activities. To the extent the school district provides extracurricular transportation, the district may charge a fee for transportation of students to and from extracurricular activities and optional field trips at locations other than school.

COMMUNICATION

Peachjar Digital Flyers

Parents can receive digital flyers via email about school activities, after school programs and other school-approved programs in the Fridley area. Peachjar provides an email notification to parents for flyers posted from their child's school. Peachjar is easily accessible via the district and each respective school's website.

School and District Website

Fridley Public School website address is: www.fridleyschools.org. Each school has its own website within the district website. Families can find information here related to district and school news, announcements, and important notifications.

School Parent Newsletter

Schools may also communicate with parents through newsletters that are sent to parents through email or printed mail sent home with students.

MESSAGES TO STUDENTS

Should a message need to be relayed to a student during the school day, please contact the main office of your child's school. Please refrain from calling a student's cell phone, during school hours.

CAMPUS PARENT PORTAL

Each parent's/guardian's Parent Portal account will become active when the school receives a signed copy of the Internet Acceptable Use Procedure/User Guidelines. The account remains active as long as the parent has children in the Fridley school district. Login information and instructions will arrive via U.S. mail, email, or at a training session.

1. During the school year, parents will have access to the following data about their child:
 - A. Attendance - updated hourly.
 - B. Discipline - updated as events occur.
 - C. Transcript - available at the end of each current term/semester and all past terms.
 - D. Class assignment grades - updates will vary depending upon the course. Parents can expect that grades for an assignment will be posted 1-2 weeks after that assignment has been turned in. Teachers will need adequate time to grade all of the student work and to post the scores. Please keep in mind that the scores displayed in the Parent Portal give an approximate grade determination at that specific point in time during the semester.
 - E. Transportation - updated nightly with bus number, stop and time.
2. Parents should not share their password with anyone and should not set their browsers to auto login to the Portal.
3. Important Parent Portal Safety Features:
 - A. Three unsuccessful login attempts will disable the Parent Portal account. In order to use the Portal again, parents will need to contact the Parent Portal help desk to have the account reactivated.
 - B. You will be automatically logged off if you leave the Parent Portal Web browser open and inactive for a period of time.
 - C. All attempts at logging into the system are recorded and monitored, and a full audit trail is tracked.
4. Parent Portal Help Desk contact information. Telephone help is available by leaving a voice-mail message at 763-502-5061 or by sending an email to campus.parenthelp@fridley.k12.mn.us.

You should expect a reply within 2 business days. Please include your name, your user name, your telephone number and a brief description of the problem in your email or voice-mail request.

Fridley school cafés continue to meet federal nutrition standards for school meals, ensuring that meals are healthy and well-balanced and provide students all the nutrition they need to succeed at school.

Now is a great time to encourage your kids to choose school breakfast and lunch! School meals offer students fruits and vegetables, proteins and grains, and low fat milk. They also must meet guidelines on sodium, saturated fat, trans fat and portion size.

- School meals are a great value and a huge convenience for busy families too!
- **BREAKFAST** is available at **NO CHARGE** to all students. Eating breakfast at school helps children perform better. In order to continue offering breakfast

at no charge to all, we need to serve as many students as possible. Please encourage your student to join us every day at school for breakfast.

- **LUNCH** - Students may qualify for Free or Reduced price meals. In Minnesota, any student who qualifies for a reduced price meal will receive lunch at no cost due to state funding. - To see our menus and get more information please go to the Nutritional Services page on the district website at www.fridleyschools.org. We’re always working to offer Fridley School students healthier and tastier choices. We are pleased to offer a wide variety of fresh fruits and vegetables including our Farm to School locally grown fruit and vegetable choices, as well as the daily choices we offer at all grade levels.

After School Snack Program

Fridley Schools offers a “super snack” after school at all buildings at no charge to students. This snack consists of protein, grain, fruit, vegetable and milk. Any student staying after school for educational or other activities may participate in this program.

Fresh Fruit and Vegetable Program

The Fresh Fruit and Vegetable Program (FFVP) may be available at Stevenson and Hayes elementary schools. This program provides all children with a variety of free fresh fruit and vegetable snacks during the school day. It is an effective and creative way to introduce fresh fruits and vegetables as healthy snack options. A FFVP menu will be posted monthly and each classroom will participate in a nutrition education lesson about the daily snack.

CAFÉS

Cooperation and Assistance: Student cooperation is required in maintaining reasonable quietness and orderliness. Students have the right to eat in the café until that privilege is abused. Parental contact, assigned tables, denial of lunchroom privileges, or suspension may be consequences of inappropriate behavior.

Students must return their own tray and silverware to the appropriate area 2 minutes prior to the bell. Students have a responsibility to see that everyone at their table takes their tray back. Failure to comply will result in loss of café privileges.

Catered/Purchased Food: Other than a bag lunch or school purchased food, no other food may be brought in to the cafeteria. No catered-in food is allowed in the café during the school day.

Fridley schools are closed campuses. Students must remain in the building during the school day.

Causing a Disruption in the School Café

When a student causes a disruption in the café the instruction of students in nearby classrooms is negatively impacted. The school will take action against any student involved in this type of activity. Inappropriate behavior in the café will result in disciplinary actions that may include removal from the café and/or suspension.

STUDENT WELLNESS

[Fridley Public School District Policy 533](#) Student Wellness prohibits parents and families from bringing birthday or celebratory treats such as cupcakes, cookies, cake, chips, and juice into the school. Instead, to celebrate special events, parents often send non-food items, such as stickers, pencils and erasers that their child can share with his or her classmates.

FEES

Materials that are part of the basic educational program are provided with state, federal, and local funds at no charge to a student. Students are expected to provide their own pencils, paper, erasers, and notebooks. Students may be required to pay certain other fees or deposits, including but not limited to:

- Cost for materials for a class project that exceeds minimum requirements and is kept by the student.
- Field trips considered supplementary to the district's educational program.
- Admission fees or costs to attend or participate in optional extracurricular activities and programs.
- Voluntarily purchased student health and accident insurance.
- Use of musical instruments owned or rented by the school district.
- Transportation of students to and from optional extracurricular activities or post-secondary instruction conducted at locations other than school.

Students will be charged for textbooks, workbooks, and library books that are lost or destroyed. The school district may waive a required fee or deposit if the student and parent/guardian are unable to pay. For more information, contact your child's school.

FUNDRAISING

All fundraising activities conducted by student groups and organizations and/or parent groups must be approved in advance by the building principal. Participation in non-approved fundraising activities is a violation of school district policy. Solicitations of students or employees by students for non-school related activities will not be allowed during the school day. See [District Policy 511 Student Fundraising](#) for more information.

PARENT VOLUNTEERS

Parents/guardians are welcome in the schools and are encouraged to volunteer. To volunteer in the school building, parents/guardians should contact the building principal. Parents/guardians who visit the school should sign in at the main office. The school district will require criminal history background checks for volunteers who work directly with students.

BACKGROUND CHECKS FOR VOLUNTEERS

We want our students to have fun while learning. We also want them to be safe. As a result, Fridley Public Schools requires all volunteers to complete a background check prior to volunteering.

PARENT AND TEACHER CONFERENCES

The purpose of parent and teacher conferences are to provide opportunities for the parent/guardian and the child's teacher to share information about the child including school progress. Parent and teacher conferences are held throughout the year. For more information, please see the district calendar. A parent may also request a conference with a teacher or principal by contacting his/her child's school directly.

NOTICE OF VIOLENT BEHAVIOR BY STUDENTS

The school district may give notice to teachers and other appropriate school district staff when students with a history of violent behavior are placed in their classrooms. The student's parents/guardians have the right to review and challenge their child's records, including the data documenting the history of violent behavior.

STUDENT RECORDS

The school district recognizes its responsibility in regard to the collection, maintenance and dissemination of student records and the protection of the privacy rights of students as provided in federal law and statutes. Consent of the parent/guardian or the student if he/she is 18 years old, attends a post-secondary institution, is married, or has graduated, must be given before educational records can be released. This general rule is subject to specific and limited exceptions which are detailed in [District Policy 515 Protection and Privacy of Pupil Records](#).

Directory information may be released to the public without permission of the student, parent/guardian. Directory information includes: the student's name, date and place of birth, class designation or grade level, participation in officially recognized activities and sports, weight, height of members of athletic teams, dates of attendance, diploma and awards received, photographs and the most recent previous educa-

tional agency or institution attended. Directory data does not include data which references religion, race, color, social position or nationality. If a student and parent/guardian does not want some or all of this data to be made public, they must complete [515F - Directory Information Opt Out Form](#) and submit the form to their child's school.

SCHOOL PICTURES

Each school contracts annually to have student pictures taken early in the school year. A reminder regarding price, time and day will be given to parents and students from individual schools.

STUDENT SURVEYS

Occasionally, the school district utilizes surveys to obtain student opinions and information about students. See [District Policy 520 Student Surveys](#) for complete information on the rights of parents/guardians and eligible students about conducting and participating in surveys, survey methodologies, and collection and use of survey information.

VIDEO AND AUDIO RECORDING

Buses

All school buses used by the school district may be equipped for the placement and operation of a video camera. The school district may post a notice in a conspicuous location informing students that their conversations or actions may be recorded. The school district may use a videotape of the actions of student passengers as evidence in any disciplinary action arising from the students' misconduct on the bus.

Places Other Than Buses

The school district buildings and grounds may be equipped with video cameras. Video surveillance may occur in any school district building or on any school district property. Video surveillance of locker rooms or bathrooms will only be utilized in extreme situations, with extraordinary controls, and only as expressly approved by the superintendent.

INTERVIEW OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than a student's parents, school district officials, employees and/or agents, except as otherwise provided by law and/or district policy. Upon receiving a request to interview a student, it will be the responsibility of the principal to determine whether the request will be granted. See [District Policy 519 Interview of Students by Outside Agencies](#).

MEDIA CENTER AND MEDIA SERVICES

The Media Center serves as the focal point for information gathering and as our productivity center. At each school, students can access a variety of resources including visual, electronic and printed resources.

The high school and middle school Media Center is available for student use before, during, and after school.

Elementary school students are allowed to check books out for two weeks. After two weeks, the books must be returned or renewed. Students will not be allowed to check out books if they have more than one overdue book. Each student is responsible for the books he/she has checked out. Lost or damaged books must be replaced.

GRADUATION CEREMONY

Student participation in the graduation ceremonies is a privilege, not a right. Students who have completed the requirements for graduation are allowed to participate in graduation exercises, unless participation is denied for appropriate reasons, which may include discipline. Graduation exercises are under the control and direction of the building principal.

- Seniors must complete all 27 required credits in order to participate in the Fridley High School Commencement ceremony.
- The school will communicate established standards of dress and behavior to those who are participating in commencement.

PLEDGE OF ALLEGIANCE

Students may recite the Pledge of Allegiance to the flag of the United States of America. Any person who does not wish to participate in reciting the Pledge of Allegiance for any personal reason may elect not to do so. Students must respect another person's right to make that choice. Students will also receive instruction in the proper etiquette toward, correct display of, and respect for the flag. See [District Policy 531 Pledge of Allegiance](#) for more information.

EXTENDED DAY CHILDCARE (TIGER CLUB)

Responding to the needs of families in our community, the Fridley Public Schools school age childcare program continues to offer tuition based before and after school childcare through its Tiger Club program. Tiger Club offers childcare programs to children ages Pre-K through 6th grade. Programs are provided from 6:30 am to 5:30 pm (K-6th Grade) and 7:30 am to 4:30 pm (Pre-K) in the Fridley Community Center. For more information please contact 763-502-5135.

RECESS (PRESCHOOL, ELEMENTARY, FMS 5th & 6th GRADE)

Preschool, elementary, and 5th and 6th grade students routinely participate in outdoor recess during the school year. In the winter, students may be outdoors as long as weather conditions are conducive to outdoor activities. Appropriate attire such as hats, boots, mittens and coats are required for outdoor playtime during winter. Snow pants are also highly encouraged. Children are not allowed to stay inside alone when other students are participating in outdoor recess.

The International Baccalaureate (IB) An E-12 Continuum at Fridley Public Schools

As the world becomes increasingly globalized, today's economy demands an engaged, intelligent, and culturally aware workforce. Although the world is rapidly changing, an International Baccalaureate education ensures students are prepared for the future. Fridley Public Schools provides a foundation of international-mindedness as a "World-Class Community of Learners." The IB champions a stance of critical engagement with challenging ideas, one that values the progressive thinking of the past, while remaining open to future innovation.

Since implementation of the International Baccalaureate programs across all schools, the district fosters global citizens who are civic-minded, confident, and competent communicators. Students become skillful in problem solving and capable of creative thinking. It is imperative to prepare students to become knowledgeable about our global and multicultural society as they continue on to post-secondary education and beyond.

Additional benefits of the IB continuum include a commitment to offering second language instruction to students in all elementary, middle, and high schools; the creation and revision of a rigorous written curriculum; on-going professional development for teachers; common language used throughout all buildings; and common curriculum structures between the elementary, middle, and high schools.

Another key aim of all IB programmes is to develop internationally-minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world.

Students at every level of the IB continuum are encouraged to develop the ten attributes of an IB learner. They are:

IB CONTINUUM
CONTINUUM DE L'IB
CONTINUO DEL IB

Inquirers
Open Minded
Knowledgeable
Caring
Thinkers

Risk-Takers
Communicators
Balanced
Principled
Reflective

(IB) PRIMARY YEARS PROGRAMME (PYP) Grades Preschool-4

Hayes and Stevenson Elementary Schools received authorization from the International Baccalaureate to offer the Primary Years Programme (PYP) in 2010, and Fridley Preschool became the first and only preschool in the state of Minnesota to offer the PYP in 2020. The primary goal of the PYP is to develop inquiring, knowledgeable, and caring young people who help create a better and more peaceful world through their action. Our PYP program meets the needs of the whole child by setting rigorous academic expectations, character development through shared values and the life skills necessary to be successful. PYP students become global citizens by learning an additional language as well as exploring multiple perspectives. Instruction nurtures curiosity, makes connections across subject areas, and helps students develop a deep understanding of the world around them. There are many components of PYP that are continued throughout the K-12 IB Continuum.

(IB) MIDDLE YEARS PROGRAMME (MYP) Grades 5-10

Following three years of planning, preparation, and implementation, Fridley Middle School and Fridley High School were authorized to offer the internationally recognized International Baccalaureate Middle Years Programme in July 2007. The IB Middle Years Programme provides a challenging, comprehensive curriculum framework that encourages students to make connections between subjects studied and the real world through six global contexts. Approaches to learning skills are developed throughout the program and equip students with skills for success such as collaboration, self-management, research, communication, and critical and reflective thinking skills. Students are required to study language and literature, a second language, individuals and societies, sciences, mathematics, arts, physical and health education and design. Assessment in this program is criterion-related, so that students around the world are measured against pre-determined criteria for each subject group. Teachers develop their own assessments and may modify the criteria to be age-appropriate in the earlier years of the program. This program strives to develop internationally minded students who take action to create a better world.

(IB) DIPLOMA PROGRAMME (DP) Grades 11-12

Fridley High School received authorization from the International Baccalaureate Organization to offer the Diploma Programme (DP) in the spring of 2009. The Diploma Programme is a rigorous college-preparatory course of study for juniors and seniors. The DP is recognized by universities throughout the world. Students at FHS may choose to take any number of DP courses, or participate in the full Diploma Programme. The DP consists of courses and exams in six academic areas, as well as a course in Theory of Knowledge. Diploma Candidates also complete a program in Creativity, Activity, and Service (CAS) and an Extended Essay on a topic of their choice. The Diploma Programme encourages high school students to be knowledgeable and inquiring, but also caring and compassionate. There is a strong emphasis on intercultural understanding and open-mindedness. There are many components of the Diploma Programme that are continuous throughout K-12 IB Continuum.

(IB) CAREER-RELATED PROGRAMME (CP) Grades 11-12

Fridley High School received authorization from the International Baccalaureate Organization to offer the IB Career-related Programme (CP) in the summer of 2016. The CP is designed for students interested in pursuing a career-related education in the final two years of high school. It provides students with an excellent foundation to support their further studies, as well as ensure their preparedness for success in the workforce. The CP is comprised of three elements: academic courses from the IB Diploma Programme (DP), core components, and career-related studies. Fridley High School offers career-related studies in the areas of Health Careers (EMR/EMT) and IT/Computer Science.

SPECIAL EDUCATION

Fridley Public Schools strives to meet the individual needs of students with disabilities by providing them with comprehensive support and educational services.

A team of special and regular education staff works with parents to determine the type of educational setting and support services to best meet the student's needs for a free appropriate public education. An Individualized Education Plan (IEP) is developed cooperatively between parents and school staff. Every planning and monitoring of the student's education is legally protected by the Individuals with Disabilities Education Act (IDEA).

Fridley Public Schools currently provides special education services for students meeting the eligibility criteria for all the disability areas under IDEA. To learn more about the district's special education services and supports, please contact Laura Seifert-Hertling, Director of Special Services, at 763-502-5024 or email laura.seifert-hertling@fridley.k12.mn.us.

EXTENDED SCHOOL YEAR

Fridley Public Schools provides extended school year opportunities for students who have an Individualized Education Plan (IEP) if the student's IEP team determines the services are necessary during a break in instruction (such as during the summer). For more information on extended school year opportunities for students with an IEP, please contact the district's special education department at 763-502-5661.

ALTERNATIVE EDUCATIONAL OPPORTUNITIES

The school district provides alternative learning options and supports for students that may include special tutoring, modified curriculum and instruction, instruction through electronic media, special education services, home-bound instruction, and enrollment in an alternative learning center, among others. Parents/guardians with questions about these programs should contact their child's school.

Fridley Area Learning Center (ALC)

The Area Learning Center (ALC) helps students achieve their individual learning goals and receive their high school diploma. The ALC program features: small classes, individual learning plans, flexible schedules, independent study and work experience to assist in credit recovery. The ALC enrolls students between 16 - 21 years old. The program is open to Fridley residents as well as students from other schools and communities who qualify to attend an alternative learning center. For more information, please visit www.fridleyschools.org and navigate to Schools > Area Learning Center.

Targeted Services

The school district provides targeted services opportunities

to students in grades K-8, after school during the school year, and grades K-7 during summer. Communications will be sent to parents/guardians of students prior to enrollment for targeted services.

PROMOTION AND RETENTION

All students are expected to achieve an acceptable level of proficiency. Students who achieve at an acceptable level will be promoted to the next grade level at the completion of the school year. Retention of a student may be considered when professional staff and parents/guardians feel that it is in the best interest of the student. The superintendent's decision will be final. The district has a variety of services to help students succeed in school.

REPORT CARDS AND MID-TERM REPORTS

Parents can utilize our Parent Portal to view their child's grades and attendance/discipline records at any time during the school year. Parents may also contact teachers directly for current academic progress.

TESTING

Local and state standardized tests will be given periodically during the school year. Specific information about grade level testing will be sent prior to administration of each test.

Student Participation in Statewide Assessments can be found on the Minnesota Department of Education Website: <http://education.state.mn.us/MDE/fam/tests/> and a form found at the end of this handbook for refusal of student participation

SUMMER SCHOOL

Summer school is available through the Fridley Alternative Learning Center (ALC) for students needing credit recovery or to make up a failed class. Please contact the ALC or your school dean to see if this is applicable to you.

POST-SECONDARY ENROLLMENT OPTIONS (PSEO)

PLEASE NOTE: DEADLINE to inform FHS about your intent to take PSEO classes was May 28, 2021 for the 2021-2022 school year. State forms will not be signed after May 28, 2021 for the 2021-22 school year.

Postsecondary Enrollment Options (PSEO) is a program that allows 10th, 11th, & 12th-grade students to earn both high school and college credit while still in high school, through enrollment in and successful completion of college nonsec-tarian courses at eligible participating postsecondary institutions. Most PSEO courses are offered on the campus of the postsecondary institution; some courses are offered online. Each participating college or university sets its own admissions requirements for enrollment into the PSEO courses. Eleventh and 12th-grade students may take PSEO courses

on a full- or part-time basis; 10th graders are eligible to enroll in PSEO on a more limited basis (see note below). Students must meet the PSEO residency and eligibility requirements and abide by participation limits specified in Minnesota Statutes, section 124D.09. If a school district determines a pupil is not on track to graduate, she/he may continue to participate in PSEO on a term by term basis.

By March 1 of each year, or three weeks prior to the date a student registers for courses for the following school year, schools must provide PSEO information to all students in grades 8-11 and their families. To assist the district in planning, a student must inform the district by May 30 of each year of their intent to enroll in postsecondary courses during the following school year.

There is no charge to PSEO students for tuition, books or fees for items that are required to participate in a course; however, students may incur fees for equipment that becomes their property when the course or program is completed, textbooks that are not returned to the postsecondary institution according to their policies, or for tuition costs if they do not notify the district by May 30 and the district does not waive this date requirement.

Funds are available to help pay transportation expenses for qualifying students to participate in PSEO courses on college campuses. For more information on these funds, access the PSEO Mileage Reimbursement Program Instructions.

Enrolling in a PSEO course does not prohibit a student from participating in activities sponsored by the high school.

School districts must allow a PSEO student reasonable access to the high school building, computers and/or other technology resources during regular school hours to participate in PSEO courses, whether online or on campus.

Each year, districts must publish their grade-weighting policy on their website, including a list of courses for which students can earn weighted grades.

All courses taken through the PSEO program must meet graduation requirements. Districts must transcript credits earned in PSEO by a ratio prescribed in statute. Districts have the authority to decide which subject area and standards the PSEO course meets. If there is a dispute between the district and the student regarding the number of credits granted for a particular course, the student may appeal the board's decision to the commissioner. The commissioner's decision regarding the number of credits will be final.

Postsecondary institutions are required to allow PSEO students to enroll in online courses consistent with the institu-

tion's policy regarding postsecondary student enrollment in online courses.

Tenth-grade students may initially enroll in one Career and Technical Education (CTE) PSEO course if they receive a reading proficiency score of "meets" or "exceeds" on the 8th grade MCA. If 10th graders taking a CTE PSEO course earn at least a grade C in that class, they may take additional CTE PSEO courses. If the student did not take the MCA in 8th-grade, another reading assessment accepted by the enrolling postsecondary institution can be substituted. For students with disabilities, there is an alternative option to demonstrate reading proficiency. A student's acceptance into a post-secondary option program is a commitment by the student to abide by the rules of the post-secondary institution that he/she is attending as well as the rules of Fridley High School. Students will be expected to attend all classes, participate, and maintain satisfactory progress. The post-secondary credits earned will apply toward graduation requirements at Fridley High School. Grades earned at the post-secondary institution are included in the high school grade point average. Courses taken outside of Fridley High School are not weighted in our weighted grading system.

Important To Remember (PSEO):

Students who intend to participate in PSEO should schedule an appointment through the Student Support Services with their Academic Dean. The Dean will provide the student with PSEO Procedure, Parent Contract, and Graduation Requirements and review requirements, eligibility, process and procedures, and to discuss with the student their planned registration. Additional information on PSEO eligibility and application guidelines is available on the Fridley High School website. If you have any questions, please call Fridley High School Student Support Services at 763-502-5612.

[District Policy 903P Visitors To Schools and School-Sponsored Events Procedure](#) guarantees that in accordance with established procedures:

- A student enrolled in a post-secondary enrollment options course may remain at the school site during regular school hours in accordance with established procedures, and;
- May be provided with reasonable access, during regular school hours, to a computer and other technology resources that the student needs to complete coursework for a post-secondary enrollment course.

GRADUATION REQUIREMENTS

Course Credits Required for Graduation

Fridley Public Schools students must complete credit requirements and pass state mandated tests to receive a Fridley High School diploma. All students need **27 CREDITS** to receive

their diploma. Students should consult the Fridley High School Registration Guide for a complete list of classes/courses. See [District Policy 613 Graduation Requirements](#).

Honor Criteria for Graduation

Fridley High School has a weighted grading system. Courses with an external assessment (IB Diploma Course) will earn a 1.2 multiplier in the Grade Point Average (GPA) calculation. Fridley High School reports both the weighted and unweighted GPA. We do not use class rank at FHS to determine distinction.

- **Honors:** Students have a cumulative weighted GPA of 3.25 to 3.49. These students will earn an academic letter and be noted by wearing a gold honor cord at commencement.
- **High Honors:** Students have a cumulative weighted GPA of 3.5 to 3.74. These students will earn an academic letter and be noted by wearing a gold cord at commencement.
- **Highest Honors:** Students have a cumulative weighted GPA of 3.75 and above and have taken a minimum of 6 semester credits in three IB Diploma Courses with external assessments. These students will earn an academic letter and be noted by wearing a gold honor stole at commencement.
- **IB Scholars:** Students will wear an IB medallion and white ribbon to note this accomplishment. These students completed four or more IB Diploma courses at higher level or standard level.
- **IB Diploma Candidates:** Students will wear an IB medallion and gold ribbon to note this accomplishment. These students take six DP as well as complete:
 - *The Extended Essay* is a requirement for students to engage in independent research through an in-depth study of a question relating to one of the subjects they are studying.
 - *Theory of Knowledge* is a course designed to encourage each student to reflect on the nature of knowledge by critically examining different ways of knowing (perception, emotion, language and reason) and different kinds of knowledge (scientific, artistic, mathematical and historical).
 - *Creativity, action, service (CAS)* requires that students actively learn from real world experiences.
- **IB Career Pathway:** Students will earn an IB medallion and purple ribbon. Students focus on career-related studies, take two DP exams, complete a personal and professional skills class and reflective project, create a language portfolio, and participate in service learning opportunities.

- **Presidential Scholars:** Students have a cumulative weighted GPA of 3.5 and have received a score placing them above the 80th percentile on a nationally standardized achievement test (SAT) or nationally standardized college admission test (ACT) (26).

HIGH SCHOOL ADVISORY

The purpose of our Advisory system is to help students connect with teachers by creating:

- An opportunity for teachers to get to know students in their advisories over the four years of their high school experience, both personally and academically, to help them achieve their goals.
- An avenue for sharing grade-specific information.

PARENT RIGHT TO KNOW

If a parent requests it, the school district will provide information regarding the professional qualifications of his/her child's classroom teachers, including, at a minimum, the following:

- Whether the teacher has met state qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction;
- Whether the teacher is teaching under emergency or other provisional licensing status through which state qualification or licensing criteria have been waived;
- The baccalaureate major of the teacher and any other graduate certification or degree held by the teacher, and the field of discipline of the certification or degree;
- Whether the student is provided services by paraprofessionals and, if so, their qualifications.

In addition, the school district will provide parents with information as to the level of achievement of their child in each of the state academic assessments. The school district will also provide notice to parents if, for four or more consecutive weeks, their child has been assigned to or taught by a teacher who is not highly qualified.

FIELD TRIPS

Field trips may be offered to supplement student learning. Parents are required to give permission for each individual field trip. Information about the trip (cost, if any; need for a bag lunch, appropriate dress, etc.) will be sent home prior to the trip. Students may be required to pay for instructional trips that take place during the school day, related directly to a course of study, and require student participation.

IMPORTANT NOTIFICATION

Parents, schools, and communities share the responsibility of helping students develop positive self discipline. Fridley Public Schools is also responsible for setting a fair and consistent policy of expectations and consequences that hold students accountable for their actions. The District's [Policy 506 Student Discipline](#) is intended to ensure that students attend school in a positive and productive learning environment. Parents, teachers, and others responsible for the welfare and education of students should cooperate in interpreting and enforcing these rules. Some of these rules and policies are included in this Student Parent Handbook and should be reviewed carefully by parents/guardians and students.

Students and parents/guardians are **REQUIRED** to sign for the receipt of the Student Parent Handbook which includes the Student Code of Conduct using the [Acknowledgment Form](#) in the center of this handbook. **Any student and his or her parents that do not sign a receipt SHALL NOT be relieved of any responsibilities of the Rules and Discipline outlined in the Student Code of Conduct.**

ATTENDANCE

Regular school attendance is directly related to success in academic work, benefits students socially, provides opportunities for important communication between teachers and students, and establishes regular habits of dependability.

The purpose of an attendance policy is to develop positive habits that will carry over into post-secondary education and careers. Punctual regular attendance is absolutely necessary for a successful education, just as it is for successful job performance.

In case of absence, call your child's school attendance number.

- Should a student be absent from school for any reason, the student's parent/guardian should call the school attendance office before 8:00 am (middle and high school) or before 9:00 am (elementary schools). Only calls by parents or guardians will result in excused absences. In cases where this contact with the school is difficult, because of parents not being at home etc., special consideration will be given; however, the responsibility rests with parents /guardians to contact the school. If satisfactory parental contact is made with attendance office, no parental note or admit slip will be required on return to school.
- If a parent/guardian fails to contact the attendance office, the student must bring a written statement from his/her parent explaining the reasons for the absence, plus the date(s) of the absence.

- This note must be received in the attendance office immediately upon arrival to school to avoid a first hour tardy. Failure to call in or to bring a note may result in an un-excused absence and/or a meeting with the student's dean/counselor. If a student is absent from school three (3) or more consecutive days due to illness, the student may be asked to have a conference with the health aide upon return. A doctor's excuse may be required if a student repeatedly misses school due to illness.
- Please notify the attendance office of absences as much in advance as possible.
- If a child is un-excused from school for seven (7) days, we are required to file an educational neglect report with Anoka Juvenile Court according to MN Statute 260.131, sub.1.
- Late arrival to school requires a note from parents. Excessive tardiness to school or class may result in school consequences. See [District Policy 503 Student Attendance](#) for more information.

Eighteen-Year Old Students

Minnesota Statute 120.06 provides that "Notwithstanding the provisions of any law to the contrary, the conduct of all students under 21 years of age attending a public secondary school shall be governed by a single set of reasonable rules and regulations promulgated by the local board of education." This provision clarifies the general authority of the school to establish rules and extend their application to all students. No matter the age of the student, they cannot write notes for themselves, call in for themselves or in any way excuse themselves from school.

DEFINITION OF AN ABSENCE

An absence shall be defined as missing more than twenty minutes of any class. The exceptions and suggested guidelines are explained below. The school will continually attempt to resolve attendance issues through an administrator, dean of students, social worker, discussion with the student, and if needed, a parent.

Special athletic note: Students in extra-curricular activities must be in school by 8:35 AM in order to practice or participate on that day. If you have an appointment, you should get prior approval from the athletic office notifying them of your absence. If a student's attendance problems continue, additional steps will be taken.

Excused Absences and Tardies

1. Illness of student.
2. When a student is ill, he/she should not be in school

and should not participate in co-curricular or extra-curricular activities for the day they are not in school. Students must be in school all day to participate in extracurricular activities.

3. Medical or dental appointments.
4. Court appearance.
5. School activities such as Student Council, field trip, music/band event, counseling appointments.
6. Religious holidays.
7. Serious illnesses or death of a family member.
8. Emergencies at home. These situations should be shared with the attendance office as soon as possible.
9. Educational/career planning visits.
10. School suspension.

Un-excused Absences

Failure to attend school, except when excused for legitimate reasons, results in an un-excused absence. Class work missed must be completed satisfactorily to complete any course. Un-excused absences include such situations as missing a bus, shopping, oversleeping, missing your ride, breakdown of an automobile, etc.

DENTAL, DOCTOR, COURT AND OTHER APPOINTMENTS

If possible, doctor and dentist appointments should be scheduled outside of school hours. Sometimes parents may find it necessary to take their child to an appointment without notifying the school in advance. When such an absence occurs, the parent is asked to:

1. Call the main office at any time before 8:00 am (middle/high school), or 9:00 am (elementary schools) to give notice of appointment, including date and time of appointment and expected time of return to school, or have a note signed by parent including the information above.
2. If the appointment is during the day, the student should get a pass to leave class from the main office prior to the beginning of the school day.
3. Students should report to the main office upon return from the appointment.
4. Students in extra-curricular activities must follow these procedures in order to participate on the day of the appointment.

ILL AT SCHOOL

Students who become sick at school should go directly to the nurse's office. The health assistant or nurse will arrange for students who get sick at school to go home early. Students are not allowed to call parents directly and leave without the absence being approved by the health office.

CONSEQUENCES FOR EXCESSIVE UN-EXCUSED ABSENCES & PROCEDURE FOR EXCESSIVE ABSENCES (INCLUDING TRUANCY AND TARDIES)

Minnesota State law requires that all mentally and physically fit children between the ages of 7 and 18 must attend school every day that school is in session. The law also requires that school officials and parents enforce the attendance law to ensure that students are in attendance unless absent from school for reasons acceptable to the school. A student absent from school for reasons unacceptable to the school will be counted as un-excused and the student is legally truant. Minnesota Student Truancy Statutes will be enforced.

MAKE-UP WORK - A STUDENT'S RESPONSIBILITY

Following an excused or un-excused absence, students are required to make up the missed work. It is the student's responsibility to initiate make-up work from the teacher via email or in-person. The teacher will determine the schedule for make-up. A student may have to take a test on the day they return, or they may have more time. When a student has been absent for valid reasons, every consideration and aid will be given. If a deadline proves impossible to make, it is the student's responsibility to make arrangements with the teacher(s).

PERSONAL EMERGENCY

Students must stay within the building during the school day, unless accompanied by a staff member or unless they have received permission through the main office to leave. Any violation of this will be considered an un-excused absence. If a student has a personal emergency, they should go directly to the attendance/main office and request permission before leaving the building. If a student leaves school without being excused by the attendance office during the school day, the student will be dismissed from school for the remainder of that day.

LEAVING SCHOOL DURING THE DAY

1. The student must bring a note from a parent/guardian to the main office before the first period class.
2. The student will be given a pass to meet their parent / guardian in the office at the appropriate time.
3. The parent/guardian must sign their student out of the main office before taking the student off of school grounds.
4. If a student returns to school that day, they must sign in at the main office.

STUDENT DISCIPLINE

Every student and employee of Fridley Public Schools is entitled to learn and work in a safe school environment.

To ensure this safe environment, the district has established clear student discipline policies, consequences appropriate to

behaviors, and a practice to implement these guidelines fairly. Students are expected to behave in accordance with federal, state and local laws, district policies and guidelines, and in a way that respects the rights and safety of others. Known violations of federal state and local laws will be reported to local law authorities.

Student Behavior/Conduct

The role of education is to assist every student to acquire the skills, knowledge, and habits necessary to become a self-sufficient, thinking member of our society. This includes learning not only basic education skills, but also understanding self and others. The school system has a responsibility for maximum learning, which requires an atmosphere of fairness and equity. This handbook contains the rules and regulations necessary to maintain that environment. Good discipline is best thought of as a positive experience by turning unacceptable conduct into a positive pattern of behavior.

A complete Fridley Public Schools [District Policy 506 Student Discipline](#) is available for review on our district web site.

The student will have an opportunity to be heard, to hear all charges, and have an opportunity to refute the charges. If a suspension does result, the school administration will alert parents of the situation prior to sending the student home, or for the parent to pick up the student.

Suspension from school is viewed as a denial of the privilege of school attendance and reinstatement to classes will be governed by the provisions outlined in the State of Minnesota Pupil Fair Dismissal Act of 1974.

When a student is suspended:

Students are expected to:

Coronavirus (COVID-19)

To reduce the risk of infection, please to continue to follow the health and safety precautions recommended by the Minnesota Department of Health and the CDC.

Please do not send your child to school if they exhibit any symptoms of illness or allergy. Instead, please call the school's health office to review current protocol from MDH in regard to your child's attendance when feeling ill or experiencing symptoms.

If a child has any rash that may be disease related, or has an unknown cause, please check with the family physician before sending the child to school.

If your child has a persistent cough or thick, continuous nasal drainage that would make it hard to learn, please keep your child home until symptoms improve.

If your child becomes ill or injured while at school, you will be notified. You will be required to pick up your child or make arrangements for someone to pick up your child as soon as possible.

Please keep your emergency contact numbers up to date so that health office is able to reach you when needed.

General Practice

- If a child has a fever of 100 degrees or more, the child should stay home until free of fever without medication for 24 hours.
- If a child is vomiting or having diarrhea, the child may return when no vomiting/diarrhea for 24 hours after last episode.
- If a child has any rash that may be disease related, or has an unknown cause, please check with the family physician before sending the child to school.
- If a child has a persistent cough or thick, continuous nasal drainage that would make it hard to learn, please keep the child home until symptoms improve.
- If your child becomes ill or injured while at school, you will be notified. You will be required to pick up your child or make arrangements for someone to pick up your child as soon as possible.

Medications at School During the School Day

The school district acknowledges that some students may require prescribed drugs or medication during the school day. The administration of prescription medication or drugs at school requires all medication to be current (not expired) and the following:

- Long term prescriptions (2 weeks or more) require a written order from a licensed prescriber, written permission from a parent/guardian, and the original pharmacy labeled container.
- Short term prescriptions (less than 2 weeks) require permission from a parent/guardian and the original pharmacy labeled container.
- Non-prescription, long and short term – requires written permission from a parent/guardian and the medication provided in the original labeled container. Administration of non-prescription medication must not exceed labeled directions and must be age appropriate (i.e., Junior Strength or Children's if under age 12). Due to space constraints, it is helpful if you can send a smaller sized bottle with your student.

A “Request to Administer Medication” form must be completed once a year and/or when a change in the prescription or requirements for administration occurs. Prescription medications must be labeled for the student by a pharmacist, and must be administered in a manner consistent with the instructions on the label. Prescription medications are not to be carried by the student, but will be left with the appropriate school personnel. Exceptions that may be allowed include:

- Prescription asthma medications administered with an inhaler pursuant to [District Policy 516 Student Medication](#),
- Medications administered as noted in a written agreement between the school district and parent or as specified in an [Individualized Education Program \(IEP\)](#), a [plan developed under Section 504 of the Rehabilitation Act \(504 Plan\)](#), or an Individual Health Plan (IHP).

The school district is to be notified of any change in a student’s prescription medication administration.

Immunizations

All students must be properly immunized or submit appropriate documentation exempting them from such immunizations in order to enroll or remain enrolled. Students may be exempted from the immunization requirement when the immunization of the student is contra-indicated for medical reasons; laboratory confirmation of adequate immunity exists; or due to the conscientiously held beliefs of the parents/guardians. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student reaches the age of 18. For a copy of the immunization schedule or to obtain an exemption form or information, contact your school’s health office.

VISION AND HEARING SCREENING

Health Service will provide vision and hearing screening for all students in preschool, second and fourth grade, as well as those having vision and/or hearing concerns. The health assistant or school nurse will inform the parent/guardian of students if test results indicate that additional evaluation is needed.

VISITORS IN DISTRICT BUILDINGS

Parents/guardians and community members are welcome to visit the schools. To ensure the safety of those in the school and to avoid disruption to the learning environment, all visitors must report directly to the main office upon entering the building, with the exception of events open to the public. All visitors will be required to check in at the main office and to wear a “visitors badge” while in the building during the school day. Visitors must have the approval of the principal before visiting a classroom during instructional time. An individual or group may be denied permission to visit a school

or school property, or such permission may be revoked, if the visitor does not comply with school district procedures or if the visit is not in the best interests of the students, employee, or the school district. Students are not allowed to bring visitors to school without prior permission from the principal or assistant principal. See [District Policy 903 Visitors to Schools and School-Sponsored Activities](#) for more information.

ACCIDENTS

All student injuries that occur at school or school-sponsored activities should be reported to the building administration. Parents/guardians of an injured student will be notified as soon as possible. If the student requires immediate medical attention, the principal or other district leader will call 911 or seek emergency medical treatment and contact the parent(s).

CRISIS MANAGEMENT

The school district has developed a “Crisis Management” policy that includes a building-specific crisis management plan for each school.

The “Crisis Management” policy addresses a range of potential crisis situations in the school district and includes general crisis procedures for securing buildings, classroom evacuation, campus evacuation, sheltering, and communication procedures. The school district will conduct lock-down drills, fire drills, and a tornado drill in accordance with mandated state statutes. See [Policy 806 Crisis Management](#).

EMERGENCY DRILLS

It is necessary for all students to be knowledgeable about emergency procedures. School staff conducts all emergency drills in compliance with state law. Classroom teachers will educate students on practice drill procedures for fire, severe weather, and lockdown.

QUALITY MONITORING AND MANAGEMENT PLAN

Fridley Public Schools complies with state law that requires school districts to conduct specific environmental testing and quality monitoring and notify parents and its community of results of those tests, which includes:

- Air Quality Testing
- Asbestos Testing
- Lead-in-Water Testing
- Radon Testing

Testing reports and quality management plans are available on the district website. Copies of management plans and test results are also available in the district’s Buildings and Grounds Office located in Fridley High School at 6000 West Moore Lake Drive, Fridley, MN 55432.

TRI METRO CONFERENCE

The Fridley Tigers compete in the Tri Metro Conference. Schools in the conference are Fridley, Academy of Holy Angels, Brooklyn Center, Columbia Heights, DeLaSalle, St. Anthony Village, St. Croix Lutheran, Visitation and Richfield.

ATHLETIC INJURY BENEFITS/INSURANCE

Fridley school district does not carry accident insurance on students attending Fridley Schools. It does, however, provide an opportunity for all students to purchase a lower cost insurance that covers all school-related activities, and an option to purchase coverage for football. Information regarding this program and how it can be purchased will be made available early in the school year. If a student participates in this insurance program, he/she will be covered according to the policy that is purchased. Questions regarding insurance for athletics should be directed to the Activities Director. All other insurance questions should be directed to the Director of Finance. Students are encouraged to talk over their family coverage with parents to determine whether or not additional coverage is necessary.

INTERSCHOLASTIC ATHLETICS & ACTIVITIES

A fee to participate is charged to all athletes in grades 7-12. In order to be eligible for regular season and MSHSL tournament competition, a student must be a fully enrolled as an undergraduate member of his or her school and in good academic standing as defined by the State Department of Education. A student who is under penalty of exclusion, expulsion, or suspension, or whose character or conduct violates the Student Code of Responsibilities, is not in good standing and is ineligible for a period of time as determined by the principal. Students participating in all MSHSL awards presentations must be in school approved attire.

STUDENT CODE OF RESPONSIBILITIES

The member schools of the Minnesota State High School League (MSHSL) believe that participation in interscholastic activities is a privilege, which is accompanied by responsibility.

A student participating in his/her school's interscholastic activities, understands and accepts the following responsibilities:

- Will respect the rights and beliefs of others and will treat others with courtesy and consideration.
- Will be fully responsible for his/her own actions and the consequences of those actions.
- Will respect the property of others.
- Will respect and obey the rules of the school and the laws of the community, state and country.

ALCOHOL, TOBACCO, DRUGS AND MARIJUANA RULE FOR PARTICIPANTS IN MINNESOTA STATE HIGH SCHOOL LEAGUE ACTIVITIES AND OTHER DRAMA AND MUSIC ACTIVITIES

Fridley Public Schools recognizes that the use of alcohol, tobacco or other mood altering drugs can be a significant health problem for many young people and may result in negative effects on behavior, learning and the total development of each individual. It is also a violation of School Board policies to use, possess, or be under the influence of alcoholic beverages, tobacco, or other drugs or narcotics at school, on the school grounds, or at school sponsored activities, or the home or community.

Current disciplinary policy deals with violations for offenders during the course of the regular school day or during school activities.

Special rules are in effect for students participating in Minnesota State High School League sponsored activities in athletics, music and drama.

Rule

Throughout the calendar year (including the summer break) and not limited to the season or period of the activity, a student whose name appears on a Minnesota State High School League eligibility list shall not:

1. Use or possess a beverage containing alcohol;
2. Use or possess tobacco;
3. Use or consume, possess, buy, sell or give away marijuana or any substance defined by law as an illegal drug.

Penalties

Below are minimum penalties for violating the rules. Coaches and/or directors may recommend harsher consequences. In order to serve eligibility penalties, students can do so only by completing the entire season.

ATHLETICS

First Violation

After confirmation of the first violation, the student shall lose eligibility for 25% of the varsity season or two weeks of a season in which the student is a participant, whichever is greater.

DRAMA

First Violation

School administration will look at the severity of the offense as well as the impact on the overall production, school, and community. The minimum first offense violation will be two nights of a production served concurrently. The student must remain in good standing throughout the rehearsal schedule and total run of the whole production for the penalty to classify as served. A student may not participate in any MSHSL sponsored activity until the penalty is served. This will remain with the student through graduation.

Second Violation

After confirmation second violation, the student shall be dismissed from the current drama production and shall be ineligible to participate in the next scheduled drama production.

Third Violation

After confirmation of the third violation, the student shall be dismissed from the current drama production and shall be ineligible to participate in any scheduled drama production that commences practice within the next twelve calendar months.

MUSIC, CURRICULAR GROUPS

First Violation

After confirmation of the first violation, a student enrolled in band or choir shall lose eligibility for the next scheduled local performance or Minnesota State High School League contest outside of the classroom.

Second Violation

After confirmation of the second violation, a student enrolled in band or choir shall lose eligibility for a minimum of two scheduled local performances and/or Minnesota State High School League contests outside of the classroom.

Third Violation

After confirmation of the third violation, a student enrolled in band or choir shall lose eligibility for all local performances or Minnesota State High School League contests outside of classroom instruction.

Any performance involving the grading of the student shall be made up by direction of the teacher.

Penalties shall be accumulative beginning with and throughout the student's participation on a varsity, junior varsity, sophomore or freshman team or activity, or any student whose name has appeared on an eligibility list or any of these activities.

Whenever an athlete chooses to satisfy the penalty for a violation by joining a sport in which he/she has not previously participated, he/she must join this sport at the beginning of its season and participate the entire season. The basic expectations of the sport (i.e., attendance at practices, participation in contests, etc.) must be met by the athlete. It shall be the responsibility of the Athletic Director to determine if these requirements have been met.

A student participating in drama and/or music activities forfeits any post-season awards including the Fridley Letter, Hall of Fame, and Most Valuable awards with any violations.

Practice of MSHSL Participants During a Period of Ineligibility

1. After the first or second chemical violation, a student may practice with a team or group, but not be in uniform for contests.
2. During the period of academic ineligibility, the student may be allowed to practice with the team or group.

The coach or activity advisor having the responsibility for the ineligible student shall make every effort to see that the student's return to the sport or activity, following the period of ineligibility, is as successful and positive as possible. This policy shall be subject to the review of the eligibility committee, when so determined by the administrative team.

Curricular and Co-Curricular Participation after an Absence

A student must be in school all day if he or she wishes to participate in any after school event or team practice. Special situations should be discussed with the assistant principal, athletic director or principal as they occur.

ACTIVITIES

Fridley High School stresses the importance of a well-balanced educational program. We believe that participation in activities is an integral part of the educational process. Whether it is a club, fine arts activity or an athletic team, it will provide an opportunity to be part of a group, learn important life lessons, and encourage the emotional, physical and intellectual development of each individual.

For the most current listing of our Athletics, Fine Arts, and Club opportunities, please visit the Athletics page of the Fridley School district website.

This information will help parents/guardians make informed decisions that benefit their children, schools and communities.

Why statewide testing?

Minnesota values its educational system and the professionalism of its educators. Minnesota educators created the academic standards which are rigorous and prepare our students for career and college.

The statewide assessments are how we as a state measure that curriculum and daily instruction in our schools are being aligned to the academics standards, ensuring all students are being provided an equitable education. Statewide assessment results are just one tool to monitor that we are providing our children with the education that will ensure a strong workforce and knowledgeable citizens.

Why does participation matter?

A statewide assessment is just one measure of your student's achievement, but your student's participation is important to understand how effectively the education at your student's school is aligned to the academic standards.

- In Minnesota's implementation of the federal Every Student Succeeds Act, a student not participating in the statewide assessments will be counted as "not proficient" for the purposes of school and district accountability, including opportunities for support and recognition.
- Students who receive a college-ready score on the high school MCA are not required to take a remedial, noncredit course at a Minnesota State college or university in the corresponding subject area, potentially saving time and money.
- Educators and policy makers use information from assessments to make decisions about resources and support provided.
- Parents and the general public use assessment information to compare schools and make decisions about where to purchase a home or to enroll their children.
- School performance results that are publicly released and used by families and communities, are negatively impacted if students do not participate in assessments.

Academic Standards and Assessments

What are academic standards?

The Minnesota K–12 Academic Standards are the statewide expectations for student academic achievement. They identify the knowledge and skills that all students must achieve in a content area and are organized by grade level. School districts determine how students will meet the standards by developing courses and curriculum aligned to the academic standards.

What is the relationship between academic statewide assessments and the academic standards?

The statewide assessments in mathematics, reading, and science are used to measure whether students, and their school and district, are meeting the academic standards. Statewide assessments are one measure of how well students are doing on the content that is part of their daily instruction. It is also a measure of how well schools and districts are doing in aligning their curriculum and teaching the standards.

Minnesota Comprehensive Assessment (MCA) and Minnesota Test of Academic Skills (MTAS)

- Based on the Minnesota Academic Standards; given annually in grades 3–8 and high school in reading and mathematics; given annually in grades 5, 8 and high school for science.
- Majority of students take the MCA.
- MTAS is an option for students with the most significant cognitive disabilities.

ACCESS and Alternate ACCESS for English Learners

- Based on the WIDA English Language Development Standards.
- Given annually to English learners in grades K–12 in reading, writing, listening and speaking.
- Majority of English learners take ACCESS for ELLs.
- Alternate ACCESS for ELLs is an option for English learners with the most significant cognitive disabilities

Why are these assessments effective?

Minnesota believes that in order to effectively measure what students are learning, testing needs to be more than answering multiple choice questions.

- To answer questions, students may need to type in answers, drag and drop images and words, or manipulate a graph or information.
- The reading and mathematics MCAs are adaptive, which means the answers a student provides determine the next questions the student will answer.
- The science MCA incorporates simulations, which require students to perform experiments in order to answer questions.

All of these provide students the opportunity to apply critical thinking needed for success in college and careers and show what they know and can do.

Because test content represents the academic standards as completely as possible, preparing for and taking the assessments uses the very same knowledge, processes and strategies included in the standards.

Are there limits on local testing?

As stated in 120B.301, for students in grades 1-6, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 10 hours per school year. For students in grades 7-12, the cumulative total amount of time spent taking locally adopted districtwide or schoolwide assessments must not exceed 11 hours per school year.

In an effort to encourage transparency, the statute also requires a district or charter school, before the first day of each school year, to publish on its website a comprehensive calendar of standardized tests to be administered in the district or charter school during that school year. The calendar must provide the rationale for administering each assessment and indicate whether the assessment is a local option or required by state or federal law.

What if I choose not to have my student participate?

Parents/guardians have a right to not have their student participate in state-required standardized assessments. Minnesota Statutes require the department to provide information about statewide assessments to parents/guardians and include a form to complete if they refuse to have their student participate. This form follows on the next page and includes an area to note the reason for the refusal to participate. Your student's district may require additional information.

A school or district may have additional consequences beyond those mentioned in this document for a student not participating in the state-required standardized assessments. There may also be consequences for not participating in assessments selected and administered at the local level. Please contact your school for more information regarding local decisions.

When do students take the assessments?

Each school sets their testing schedule within the state testing window. Contact your student's school for information on specific testing days.

- The MCA and MTAS testing window begins in March and ends in May.
- The ACCESS and Alternate ACCESS for ELLs testing window begins at the end of January and ends in March.

When do I receive my student's results?

Each summer, individual student reports are sent to school districts and are provided to families no later than fall conferences. The reports can be used to see your child's progress and help guide future instruction.

How much time is spent on testing?

Statewide assessments are taken one time each year; the majority of students test online. On average, the amount of time spent taking statewide assessments is **less than 1 percent of instructional time** in a school year. The assessments are not timed and students can continue working as long as they need.

Why does it seem like my student is taking more tests?

The statewide required tests are limited to those outlined in this document. Many districts make local decisions to administer additional tests that the state does not require. Contact your district for more information.

Where do I get more information?

Students and families can find out more on our **Statewide Testing page** (education.state.mn.us > Students and Families > Programs & Initiatives > Statewide Testing).

Minnesota Statutes, section 120B.31, subdivision 4a, requires the commissioner to create and publish a form for parents and guardians to complete if they refuse to have their student participate in state-required standardized assessments. Your student's district may require additional information. School districts must post this three page form on the district website and include it in district student handbooks.

Parent/Guardian Refusal for Student Participation in Statewide Assessments

To opt out of statewide assessments, the parent/guardian must complete this form and return it to the student's school.

*To best support school district planning, please submit this form to the student's school no later than January 15 of the academic school year. For students who enroll after a statewide testing window begins, please submit the form within two weeks of enrollment. A new refusal form is required **each year** parents/guardians wish to opt the student out of statewide assessments.*

Questions / Comments

Long-term Facilities Maintenance (LTFM) Update 05.18.2021

LTFM – What it is

- In 2015, the legislature created a new program to support facilities maintenance for school districts.
- The program is a per pupil, formula-driven revenue source that replaced health and safety revenue, alternative facilities revenue, and deferred maintenance revenue beginning with the 2016-17 school year.

LTFM – What it is

- School districts receive \$380 / pupil unit. We may receive additional revenue for indoor air quality projects, asbestos abatement projects, and fire alarm and suppression where the cost of any of these projects at any site exceeds \$100,000
 - Increase in levy
- The funding is a combination of aid and levy

Allowable Uses

- May only be used for deferred maintenance projects, increasing facility accessibility, and health and safety purposes.
 - Anticipated projects include bathroom remodeling (ADA compliant), implementing soft water to all buildings, upgrading domestic hot water systems to most sites, HVAC building automation upgrade
- A district may sell and issue general obligation bonds without voter approval to fund qualifying LFTM projects and use the annual revenue received under the program to repay the bonds.

Uses Not Allowed

- Funds may not be used for:
 - Construction of new facilities
 - Purchase of portable classrooms
 - Finance lease purchase agreements
 - Energy-efficiency projects
 - Violence prevention and facility security
 - Ergonomics
 - Emergency communications devices

Application Requirements

- School districts must annually approve and submit the following items to the Commissioner of Education by July 31 to receive funding
 - Ten-year Revenue Projection
 - Ten-year Expenditure Projection
 - Statement of Assurances
 - School Board Approval adopting the LTFM Ten-Year Plan

Application Requirements

- The School Board will also need to approve the same documents for Northeast Metropolitan Intermediate School District No. 916's long- term facility maintenance budget
 - Flow-through levy

506 STUDENT DISCIPLINE

I. PURPOSE

The purpose of this policy is to ensure that all students are aware of and comply with school district expectations for student conduct. The School Board embraces the philosophy that compliance with established student behavior and disciplinary policies will enhance the school district's ability to maintain order and discipline as well as to ensure that there is no interference with the educational process. The school district will take appropriate disciplinary action when students fail to adhere to the Code of Student Conduct established by this policy.

II. GENERAL STATEMENT OF POLICY

The School Board recognizes that individual responsibility and mutual respect are essential components of the educational process. The School Board establishes that the nurturance of each student's growth and maturation are of primary importance and closely linked with the necessary balance between authority and self-discipline, as the student progresses from a child's dependence on authority to the more mature behavior of self-control.

The School Board further establishes that all students are entitled to learn and develop in a setting which promotes respect of self, others and property. Proper positive discipline can only result from an environment which provides options and stresses student self-direction, decision-making and responsibility. Schools can function effectively only with internal discipline based on mutual understanding of rights and responsibilities.

Students must conduct themselves in an appropriate manner that maintains a climate in which learning can take place. Overall decorum affects student attitudes and influences student behavior. Proper student conduct is necessary to facilitate the education process and to create an atmosphere conducive to high student achievement.

Although this policy emphasizes the development of self-discipline it is recognized that there are instances when it will be necessary to administer disciplinary measures. The position of the school district is that a fair and equitable district-wide student discipline policy will contribute to the quality of the student's educational experience. This discipline policy is adopted in accordance with and subject to the Minnesota Pupil Fair Dismissal Act, Minn. Stat. §§ 121A.40-121A.56.

In view of the foregoing and in accordance with Minn. Stat. § 121A.55, the school board, with the participation of school district administrators, teachers, employees, students, parents, community members, and such other individuals and organizations as appropriate, has developed this policy which governs student conduct and applies to all students of the school district.

VII. DISCIPLINARY ACTIONS

The general policy of the school district is to utilize progressive discipline, to the extent reasonable and appropriate, based upon the specific circumstances and seriousness of student misconduct. The specific form of discipline chosen in a particular case is solely within the discretion of the teachers and administrators, or designee, who are responsible to enforce this policy. At a minimum, violation of school district rules, regulations, policies or procedures will result in discussion of the violation and a verbal warning. The school district shall, however, impose more severe disciplinary sanctions for any violation, including exclusion or expulsion, if warranted by the student's misconduct, as determined by the school district administration.

Disciplinary action may include, but is not limited to, one or more of the following:

- A. Student conference with teacher, principal, counselor or other school district personnel, and verbal warning;

VIII. REMOVAL OF STUDENTS FROM CLASS

- A. The teacher of record shall have the general control and government of the classroom. Teachers have the responsibility of attempting to modify disruptive student behavior by such means as conferring with the student, using positive reinforcement, assigning detention or other consequences, or contacting the student's parents. When such measures fail, or when the teacher determines it is otherwise appropriate based upon the student's conduct, the teacher shall have the authority to remove the student from class pursuant to the procedures established by this discipline policy. "Removal from class" and "removal" mean any actions taken by a teacher, principal, or other school district employee to prohibit a student from attending a class or activity period for a period of time not to exceed five (5) days, pursuant to this discipline policy.

Grounds for removal from class shall include any of the following:

1. Willful conduct that significantly disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn;
2. Willful conduct that endangers surrounding persons, including school district employees, the student or other students, or the property of the school;
3. Willful violation of any school rules, regulations, policies or procedures, including the Code of Student Conduct in this policy; or

A student must be removed from class immediately if the student engages in assault or violent behavior. "Assault" is an act done with intent to cause fear in another of immediate bodily harm or death; or the intentional infliction of, or attempt to inflict, bodily harm upon another. The removal from class shall be for a period of time deemed appropriate by the principal, in consultation with the teacher.

- B. If a student is removed from class more than ten (10) times in a school year, the school district shall notify the parent or guardian of the student's tenth removal from class and make reasonable attempts to convene a meeting with the student's

parent or guardian to discuss the problem that is causing the student to be removed from class.

- C. "Removal from class" and "removal" mean any actions taken by a teacher, principal, or other school district employee to prohibit a student from attending a class or activity period for a period of time not to exceed five (5) days, pursuant to this discipline policy. Such removal shall be for at least one (1) activity period or class period of instruction for a given course of study and shall not exceed five (5) such periods.
- D. Grounds for removal from class shall include any of the following:
1. Willful conduct that significantly disrupts the rights of others to an education, including conduct that interferes with a teacher's ability to teach or communicate effectively with students in a class or with the ability of other students to learn;
 2. Willful conduct that endangers school district employees, surrounding persons, the student or other students, or the property of the school;
 3. Willful violation of any school rules, regulations, policies or procedures, including the code of student conduct in this policy; or
 4. Other conduct, which in the discretion of the teacher or administration, requires removal of the student from class.

A student must be removed from class immediately if the student engages in assault or violent behavior. "Assault" is an act done with intent to cause fear in another of immediate bodily harm or death; or the intentional infliction of, or attempt to inflict, bodily harm upon another. The removal from class shall be for a period of time deemed appropriate by the principal, in consultation with the teacher.

- E. If a student is removed from class more than 10 times in a school year, the school district shall notify the parent or guardian of the student's tenth removal from class and made reasonable attempts to convene a meeting with the student's parent or guardian to discuss the problem that is causing the student to be removed from class.
- F. Teacher Procedures for Removal of a Student from a Class. Teachers are required to follow the legal procedures prescribed in law if and when they exercise their authority to remove a student from class. Those procedures will be specified by the school principal in writing and available to teachers who select to exercise this authority. The school procedures for teachers will include the following:

1. Specify procedures to be followed by a teacher, administrator or other school district employee to remove a student from a class;
2. Specify required approvals necessary;
3. Specify paperwork and reporting procedures.
4. Designation of where student is to go when removed;
5. Designation of how student is to get to designated destination;
6. Whether student must be accompanied;
7. Statement of what student is to do when and while removed;
8. Designation of who has control over and responsibility for student after removal from class.

G. Teacher Procedures for Return of a Student to the Class after Removal.

The school procedures for the teacher will include the following:

IX. DISMISSAL

- A. Dismissal involves the denial of the current educational program to any student, including suspension, exclusion, and expulsion. Dismissal does not include removal from class.

The school district shall not deny due process or equal protection of the law to any student involved in a dismissal proceeding which may result in suspension, exclusion or expulsion.

The school district shall not dismiss any student without attempting to provide alternative educational services before dismissal proceedings, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property.

- B. Violations leading to suspension, based upon severity, may also be grounds for actions leading to exclusion and/or expulsion from school. A student may be dismissed from school on any of the following grounds:

1. Willful violation of any reasonable School Board regulation, including those found in this policy;
2. Willful conduct that materially and substantially disrupts the rights of others to an education, or the ability of school personnel to perform their duties, or school sponsored extracurricular activities; or
3. Willful conduct that endangers the student or other students, or surrounding persons, including school district employees, or property of the school.

C. Suspension procedures.

1. "Suspension" means an action by the school administration, under rules promulgated by the School Board, prohibiting a student from attending school for a period of no more than ten (10) school days; provided, however, if a suspension is longer than five (5) school days, the suspending administrator shall provide the superintendent with a reason for the longer term of suspension. This definition does not apply to dismissal for one (1) school day or less where a student with a disability does not receive regular or special education instruction during that dismissal period.
2. If a student's total days of removal from school exceed ten (10) cumulative days in a school year, the school district shall make reasonable attempts to convene a meeting with the student and the student's parent or guardian before subsequently removing the student from school and, with the permission of the parent or guardian, arrange for a mental health screening for the student at the parent or guardian's expense. The purpose of this meeting is to attempt to determine the pupil's need for assessment or other services or whether the parent or guardian should have the student assessed or diagnosed to determine whether the student needs treatment for a mental health disorder.
3. Each suspension action may include a readmission plan. The plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. A readmission plan must not obligate a parent or guardian to provide psychotropic drugs to their student as a condition of readmission. School administration must not use the refusal of a parent or guardian to consent to the administration of psychotropic drugs to their student or to consent to a psychiatric evaluation, screening, or examination of the student as a ground, by itself, to prohibit the student from attending class or participating in a school-related activity, or as a basis of a charge of child abuse, child neglect, or medical or educational neglect. The school administration may not impose consecutive suspensions against the same student for the same course of conduct, or incident of misconduct, except where the student will create an immediate and substantial danger to self or to surrounding persons or property or where the school district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of fifteen (15) days.
4. A child with a disability may be suspended. When a child with a disability has been suspended for more than five (5) consecutive days or

ten (10) cumulative school days in the same year, and that suspension does not involve a recommendation for expulsion or exclusion or other change in placement under federal law, relevant members of the child's IEP team, including at least one of the child's teachers, shall meet and determine the extent to which the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child's IEP. That meeting must occur as soon as possible, but no more than ten (10) days after the sixth (6th) consecutive day of suspension or the tenth (10th) cumulative day of suspension has elapsed.

5. The school administration shall implement alternative educational services when the suspension exceeds five (5) days. Alternative educational services may include, but are not limited to, special tutoring, modified curriculum, modified instruction, other modifications or adaptations, instruction through electronic media, special education services as indicated by appropriate assessments, homebound instruction, supervised homework, or enrollment in another district or in an alternative learning center under Minnesota state statute selected to allow the pupil to progress toward meeting graduation standards under Minnesota state statute 2, although in a different setting.
6. The school administration shall not suspend a student from school without an informal administrative conference with the student. The informal administrative conference shall take place before the suspension, except where it appears that the student will create an immediate and substantial danger to self or to surrounding persons or property, in which case the conference shall take place as soon as practicable following the suspension. At the informal administrative conference, a school administrator shall notify the student of the grounds for the suspension, provide an explanation of the evidence the authorities have, and the student may present the student's version of the facts. A separate administrative conference is required for each period of suspension.
7. After school administration notifies a student of the grounds for suspension, school administration may, instead of imposing the suspension, do one or more of the following:
 - a. strongly encourage a parent or guardian of the student to attend school with the student for one day;
 - b. petition the juvenile court that the student is in need of services under Minn. Stat. Ch. 260C.

8. A written notice containing the grounds for suspension, a brief statement of the facts, a description of the testimony, a readmission plan, and a copy of the Minnesota Pupil Fair Dismissal Act shall be personally served upon the student at or before the time the suspension is to take effect, and upon the student's parent or guardian by mail within forty-eight (48) hours of the conference.
9. The school administration shall make reasonable efforts to notify the student's parent or guardian of the suspension by telephone as soon as possible following suspension.
10. In the event a student is suspended without an informal administrative conference on the grounds that the student will create an immediate and substantial danger to surrounding persons or property, the written notice shall be served upon the student and the student's parent or guardian within forty-eight (48) hours of the suspension. Service by mail shall be complete upon mailing.
11. Notwithstanding the foregoing provisions, the student may be suspended pending the School Board's decision in an expulsion or exclusion proceeding, provided that alternative educational services are implemented to the extent that suspension exceeds five (5) days.

D. Expulsion and Exclusion Procedures.

1. "Expulsion" means a School Board action to prohibit an enrolled student from further attendance for up to 12 months from the date the student is expelled. The authority to expel rests with the School Board.
2. "Exclusion" means an action taken by the School Board to prevent enrollment or reenrollment of a student for a period that shall not extend beyond the school year. The authority to exclude rests with the School Board.
3. All expulsion and exclusion proceedings will be held pursuant to and in accordance with the provisions of the Minnesota Pupil Fair Dismissal Act.
4. No expulsion or exclusion shall be imposed without a hearing, unless the right to a hearing is waived in writing by the student and parent or guardian.
5. The student and parent or guardian shall be provided written notice of the school district's intent to initiate expulsion or exclusion proceedings. This

notice shall be served upon the student and his or her parent or guardian personally or by mail, and shall contain a complete statement of the facts; a list of the witnesses and a description of their testimony; state the date, time and place of hearing; be accompanied by a copy of the Pupil Fair Dismissal Act; describe alternative educational services accorded the student in an attempt to avoid the expulsion proceedings; and inform the student and parent or guardian of their right to: (1) have a representative of the student's own choosing, including legal counsel at the hearing; (2) examine the student's records before the hearing; (3) present evidence; and (4) confront and cross-examine witnesses. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Minnesota Department Education.

6. The hearing shall be scheduled within ten (10) days of the service of the written notice unless an extension, not to exceed five (5) days, is requested for good cause by the school district, student, parent or guardian.
7. All hearings shall be held at a time and place reasonably convenient to the student, parent or guardian and shall be closed, unless the student, parent or guardian requests an open hearing.
8. The school district shall record the hearing proceedings at district expense and a party may obtain a transcript at its own expense.
9. The student shall have a right to a representative of the student's own choosing, including legal counsel, at the student's sole expense. The school district shall advise the student's parent or guardian that free or low-cost legal assistance may be available and that a legal assistance resource list is available from the Minnesota Department of Education. The School Board may appoint an attorney to represent the school district in any proceeding.
10. If the student designates a representative other than the parent or guardian, the representative must have a written authorization from the student and the parent or guardian providing them with access to the student's records and/or copies of the student's records.
11. All expulsion or exclusion hearings shall take place before and be conducted by an independent hearing officer designated by the school district. The hearing shall be conducted in a fair and impartial manner. Testimony shall be given under oath and the hearing officer shall have the power to issue subpoenas and administer oaths.

12. At a reasonable time prior to the hearing, the student, parent or guardian, or authorized representative shall be given access to all school district records pertaining to the student, including records upon which the proposed dismissal action may be based.
13. The student, parent or guardian, or authorized representative, shall have the right to compel the presence of any school district employee or agent or any other person who may have evidence upon which the proposed dismissal action may be based, and to confront and cross-examine any witnesses testifying for the school district.
14. The student, parent or guardian, or authorized representative, shall have the right to present evidence and testimony, including expert psychological or educational testimony.
15. The student cannot be compelled to testify in the dismissal proceedings.
16. The hearing officer shall prepare findings and a recommendation based solely upon substantial evidence presented at the hearing, which must be made to the School Board and served upon the parties within two (2) days after the close of the hearing.
17. The School Board shall base its decision upon the findings and recommendation of the hearing officer and shall render its decision at a meeting held within five (5) days after receiving the findings and recommendation. The School Board may provide the parties with the opportunity to present exceptions and comments to the hearing officer's findings and recommendation provided that neither party presents any evidence not admitted at the hearing. The decision by the School Board must be based on the record, must be in writing, and must state the controlling facts on which the decision is made in sufficient detail to apprise the parties and the Minnesota Department of Education of the basis and reason for the decision.
18. A party to an expulsion or exclusion decision made by the School Board may appeal the decision to the Commissioner within 21 calendar days of School Board action pursuant to Minnesota state statute. The decision of the School Board shall be implemented during the appeal to the Commissioner.
19. The school district shall report any suspension, expulsion or exclusion action taken to the appropriate public service agency, when the student is under the supervision of such agency.

20. The school district must report through the MDE electronic reporting system, each expulsion or exclusion within thirty (30) days of the effective date of the action to the Commissioner. This report must include a statement of alternative educational services given the student and the reason for, the effective date, and the duration of the exclusion or expulsion. The report must also include the student's age, grade, gender, race, and special education status. The dismissal report must include state student identification numbers of affected students.
21. Whenever a student fails to return to school within ten (10) school days of the termination of dismissal, a school administrator shall inform the student and his/her parent or guardian by mail of the student's right to attend and to be reinstated in the school district.

X. ADMISSION OR READMISSION PLAN

A school administrator shall prepare and enforce an admission or readmission plan for any student who is excluded or expelled from school. The plan may include measures to improve the student's behavior, including completing a character education program consistent with Minnesota state statute, and require parental involvement in the admission or readmission process, and may indicate the consequences to the student of not improving the student's behavior. The readmission plan must not obligate parents to provide a sympathomimetic medication for their child as a condition of readmission.

XI. NOTIFICATION OF POLICY VIOLATIONS

Notification of any violation of this policy and resulting disciplinary action shall be as provided herein, or as otherwise provided by the Pupil Fair Dismissal Act or other Minnesota state statute. The teacher, principal or other school district official may provide additional notification as deemed appropriate.

In addition, the school district must report, through the MDE electronic reporting system, each physical assault of a school district employee by a student within thirty (30) days of the assault. This report must include a statement of the alternative educational services or other sanction, intervention, or resolution given to the student in response to the assault and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, gender, race and special education status.

XII. STUDENT DISCIPLINE RECORDS

The policy of the school district is that complete and accurate student discipline records be maintained. The collection, dissemination, and maintenance of student discipline

records shall be consistent with applicable school district policies and federal and state law, including the Minnesota Government Data Practices Act and Minnesota state statutes.

XIII. DISABLED STUDENTS

Students who are currently identified as eligible under the IDEA or Section 504 will be subject to the provisions of this policy, unless the student's IEP or 504 plan specifies a necessary modification.

Before initiating an expulsion or exclusion of a student with a disability, relevant members of the child's IEP team and the child's parent shall, consistent with federal law, conduct a manifestation determination and determine whether the child's behavior was (i) caused by or had a direct and substantial relationship to the child's disability and (ii) whether the child's conduct was a direct result of a failure to implement the child's IEP. If the student's educational program is appropriate and the behavior is not a manifestation of the student's disability, the school district will proceed with discipline – up to and including expulsion – as if the student did not have a disability, unless the student's educational program provides otherwise. If the team determines that the behavior subject to discipline is a manifestation of the student's disability, the team shall conduct a functional behavioral assessment and implement a behavioral intervention plan for such student provided that the school district had not conducted such assessment prior to the manifestation determination before the behavior that resulted in a change of placement. Where a behavioral intervention plan previously has been developed, the team will review the behavioral intervention plan and modify it as necessary to address the behavior.

When a student who has an IEP is excluded or expelled for misbehavior that is not a manifestation of the student's disability, the school district shall continue to provide special education and related services during the period of expulsion or exclusion.

XIV. OPEN ENROLLED STUDENTS

The school district may terminate the enrollment of a nonresident student enrolled under an Enrollment Option Program or Enrollment in Nonresident District under Minnesota state statutes at the end of a school year if the student meets the definition of a habitual truant, the student has been provided appropriate services for truancy and the student's case has been referred to juvenile court. The school district may also terminate the enrollment of a nonresident student over the age of seventeen (17) enrolled under an Enrollment Options Program if the student is absent without lawful excuse for one or more periods on fifteen (15) school days and has not lawfully withdrawn from school.

XV. DISTRIBUTION OF POLICY

The school district will notify students and parents of the existence and contents of this policy in such manner as it deems appropriate. Copies of this discipline policy shall be made available to all students and parents at the commencement of each school year and to all new students and parents upon enrollment. This policy shall also be available upon request in each principal's office.

XVI. REVIEW OF POLICY

The principal and representatives of parents, students and staff in each school building shall confer at least annually to review this discipline policy, determine if the policy is working as intended, and to assess whether the discipline policy has been enforced. 514 BULLYING PROHIBITION POLICY

I. PURPOSE

A safe and civil environment is needed for students to learn and attain high academic standards and to promote healthy human relationships. Bullying, like other violent or disruptive behavior, is conduct that interferes with a student's ability to learn and/or a teacher's ability to educate students in a safe environment. The school district cannot monitor the activities of students at all times and eliminate all incidents of bullying between students, particularly when students are not under the direct supervision of school personnel. However, to the extent such conduct affects the educational environment of the school district and the rights and welfare of its students and is within the control of the school district in its normal operations, the school district intends to prevent bullying and to take action to investigate, respond to, and to remediate, and discipline for those acts of bullying which have not been successfully prevented. The purpose of this policy is to assist the school district in its goal of preventing and responding to acts of bullying, intimidation, violence, reprisal, retaliation, and other similar disruptive and detrimental behavior.

II. GENERAL STATEMENT OF POLICY

- A. An act of bullying, by either an individual student or a group of students, is expressly prohibited on school premises, on school district property at school functions or activities, or on school transportation. This policy applies not only to students who directly engage in an act of bullying but also to students who, by their indirect behavior, condone or support another student's act of bullying. This policy also applies to any student whose conduct at any time or in any place constitutes bullying or other prohibited conduct that interferes with or obstructs the mission or operations of the school district or the safety or welfare of the student or other students, or materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges. This policy also applies to an act of cyberbullying regardless of whether such act is committed on or off school district property and/or with or without the use of school district resources.
- B. No teacher, administrator, contracted staff, other employee, or volunteer of the school district shall permit, condone, or tolerate bullying.
- C. Apparent permission or consent by a student being bullied does not lessen or negate the prohibitions contained in this policy.
- D. Retaliation against a victim, good faith reporter, or a witness of bullying is prohibited.
- E. False accusations or reports of bullying against another student are prohibited.

F. A person who engages in an act of bullying, reprisal, retaliation, or false reporting of bullying or permits, condones, or tolerates bullying shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures. The school district may take into account the following factors:

1. The developmental ages and maturity levels of the parties involved;
2. The levels of harm, surrounding circumstances, and nature of the behavior;
3. Past incidences or past or continuing patterns of behavior;
4. The relationship between the parties involved; and
5. The context in which the alleged incidents occurred.

Consequences for students who commit prohibited acts of bullying may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion. The school district shall employ research-based developmentally appropriate best practices that include preventative and remedial measures and effective discipline for deterring violations of this policy, apply throughout the school district, and foster student, parent, and community participation.

Consequences for employees who permit, condone, or tolerate bullying or engage in an act of reprisal or intentional false reporting of bullying may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of bullying may include, but not be limited to, exclusion from school district property and events.

G. The school district will act to investigate all complaints of bullying reported to the school district and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

For purposes of this policy, the definitions included in this section apply.

A. "Bullying" means intimidating, threatening, abusive, or harming conduct that is objectively offensive and:

1. An actual or perceived imbalance of power exists between the student engaging in the prohibited conduct and the target of the prohibited conduct, and the conduct is repeated or forms a pattern: or
2. Materially and substantially interferes with a student's educational opportunities or performance or ability to participate in school functions or activities or receive school benefits, services, or privileges.

The term, "bullying," specifically includes cyberbullying as defined in this policy.

- B. "Cyberbullying" means bullying using technology or other electronic communication, including, but not limited to, a transfer of a sign, signal, writing, image, sound, or data, including a post on a social network, Internet website or forum, transmitted through a computer, cell phone, or other electronic device. The term applies to prohibited conduct which occurs on school premises, on school district property, at school functions or activities, on school transportation, or on school computers, networks, forums, and mailing lists, or off school premises to the extent that it substantially and materially disrupts student learning or the school environment.
- C. "Immediately" means as soon as reasonably possible.
- D. "Intimidating, threatening, abusive, or harming conduct" means, but is not limited to, conduct that does the following:
 1. Causes physical harm to a student or student's property or causes a student to be in reasonable fear of harm to person or property;
 2. Under Minnesota common law, violates a student's reasonable expectation of privacy, defames a student, or constitutes intentional infliction of emotional distress against a student; or
 3. Is directed at any student or students, including those based on a person's actual or perceived race, ethnicity, color, creed, religion, national origin, immigration status, sex, marital status, familial status, socioeconomic status, physical appearance, sexual orientation including gender identity and expression, academic status related to student performance, disability, or status with regard to public assistance, age, or any additional characteristic defined the Minnesota Human Rights Act (MHRA). However, prohibited conduct need not be based on any particular characteristic defined in this paragraph or the MHRA.
- E. "On school premises, on school district property, at school- functions" or activities, or on school transportation means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for

school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting bullying at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.

- F. "Prohibited conduct" means bullying or cyberbullying as defined in this policy or retaliation or reprisal for asserting, alleging, reporting, or providing information about such conduct or knowingly making a false report about bullying.
- G. "Remedial response" means a measure to stop and correct prohibited conduct, prevent prohibited conduct from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of prohibited conduct.
- H. "Student" means a student enrolled in a public school or a charter school.

IV. REPORTING PROCEDURE

- A. Any person who believes he or she has been the target or victim of bullying or any person with knowledge or belief of conduct that may constitute bullying or prohibited conduct under this policy shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report bullying anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party or complainant to use the report form available from the principal or building supervisor of each building or available in the school district office, but oral reports shall be considered complaints as well.
- C. The building principal, the principal's designee or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of bullying or other prohibited conduct at the building level. Any person may report bullying or any other prohibited conduct directly to a school district human rights officer or the superintendent. If the complaint involves the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as the primary contact on policy and procedural matters. The building report taker or a third party designated by the school district shall be responsible for the investigation. The building report taker shall provide information about available community resources to

the target or victim of the bullying or other prohibited conduct, the perpetrator, and other affected individuals as appropriate.

- D. A teacher, school administrator, volunteer, contractor, or other school employee shall be particularly alert to possible situations, circumstances, or events that might include bullying. Any such person who witnesses, observes, receives a report of, or has other knowledge or belief of conduct that may constitute bullying or other prohibited conduct shall make reasonable efforts to address and resolve the bullying or prohibited conduct and shall inform the building report taker immediately.
- E. Reports of bullying or other prohibited conduct are classified as private educational and/or personnel data and/or confidential investigative data and will not be disclosed except as permitted by law. The building report taker, in conjunction with the responsible authority, shall be responsible for keeping and regulating access to any report of bullying and the record of any resulting investigation.
- F. Submission of a good faith complaint or report of bullying or other prohibited conduct will not affect the complainant's or reporter's future employment, grades, work assignments, or educational or work environment.
- G. The school district will respect the privacy of the complainant(s), the individual(s) against whom the complaint is filed, and the witnesses as much as possible, consistent with the school district's obligation to investigate, take appropriate action, and comply with any legal disclosure obligations.

V. SCHOOL DISTRICT ACTION

- A. Within three days of the receipt of a complaint or report of bullying or other prohibited conduct, the school district shall undertake or authorize an investigation by the building report taker or a third party designated by the school district.
- B. The building report taker or other appropriate school district officials may take immediate steps, at their discretion, to protect the target or victim of the bullying or other prohibited conduct, the complainant, the reporter, and students or others, pending completion of an investigation of the bullying or other prohibited conduct, consistent with applicable law.
- C. The alleged perpetrator of the bullying or other prohibited conduct shall be allowed the opportunity to present a defense during the investigation or prior to the imposition of discipline or other remedial responses.
- D. Upon completion of an investigation that determines that bullying or other prohibited conduct has occurred, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer,

remediation, termination, or discharge. Disciplinary consequences will be sufficiently severe to try to deter violations and to appropriately discipline prohibited conduct. Remedial responses to the bullying or other prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy. School district action taken for violation of this policy will be consistent with the requirements of applicable collective bargaining agreements; applicable statutory authority, including the Minnesota Pupil Fair Dismissal Act; the student discipline policy (Policy 506 Student Discipline) and other applicable school district policies; and applicable regulations.

- E. The school district is not authorized to disclose to a victim private educational or personnel data regarding an alleged perpetrator who is a student or employee of the school district. School officials will notify the parent(s) or guardian(s) of students who are targets of bullying or other prohibited conduct and the parent(s) or guardian(s) of alleged perpetrators of bullying or other prohibited conduct who have been involved in a reported and confirmed bullying incident, of the remedial action taken, to the extent permitted by law.
- F. In order to prevent or respond to bullying or other prohibited conduct committed by or directed against a child with a disability, the school district shall, when determined appropriate by the child's individualized education program (IEP) team or Section 504 team, allow the child's IEP or Section 504 plan to be drafted to address the skills and proficiencies the child needs as a result of the child's disability to allow the child to respond to or not engage in bullying or other prohibited conduct.

VI. RETALIATION OR REPRISAL

The school district will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who commits and act of reprisal or who retaliates against any person who asserts, alleges, or makes a good faith report of alleged bullying or prohibited conduct, who provides information about bullying or prohibited conduct, who testifies, assists, or participates in an investigation or alleged bullying or prohibited conduct, or who testifies, assists, or participates in a proceeding or hearing relating to such bullying or prohibited conduct. Retaliation includes, but is not limited to, any form of intimidation, harassment, or intentional disparate treatment. Disciplinary consequences will be sufficiently severe to deter violations and to appropriately discipline the individual(s) who engaged in the prohibited conduct. Remedial responses to the prohibited conduct shall be tailored to the particular incident and nature of the conduct and shall take into account the factors specified in Section II.F. of this policy.

VII. TRAINING AND EDUCATION

- A. The school district shall discuss this policy with school personnel and volunteers and provide appropriate training to school district personnel regarding this policy. The school district shall establish a training cycle for school personnel to occur during a period not to exceed every three school years. Newly employed school personnel must receive the training within the first year of their employment with the school district. The school district or a school administrator may accelerate the training cycle or provide additional training based on a particular need or circumstance. This policy shall be included in employee handbooks, training materials, and publications on school rules, procedures, and standards of conduct, which materials shall also be used to publicize this policy.
- B. The school district shall require ongoing professional development, consistent with Minn. Stat. § 122A.60, to build the skills of all school personnel who regularly interact with students to identify, prevent, and appropriately address bullying and other prohibited conduct. Such professional development includes, but is not limited to the following:
 - 1. Developmentally appropriate strategies both to prevent and to immediately and effectively intervene to stop prohibited conduct;
 - 2. The complex dynamics affecting a perpetrator, target, and witnesses to prohibited conduct;
 - 3. Research on prohibited conduct, including specific categories of students at risk for perpetrating or being the target or victim of bullying or other prohibited conduct in school;
 - 4. The incidence and nature of cyberbullying; and
 - 5. Internet safety and cyberbullying.
- C. The school district annually will provide education and information to students regarding bullying, including information regarding this school district policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to prevent bullying and other prohibited conduct.
- D. The administration of the school district is directed to implement programs and other initiatives to prevent bullying, to respond to bullying in a manner that does not stigmatize the target or victim, and to make resources or referrals to resources available to targets or victims of bullying.
- E. The administration is encouraged to provide developmentally appropriate instruction and is directed to review programmatic instruction to determine if adjustments are necessary to help students identify and prevent or reduce bullying and other prohibited conduct, to value diversity in school and society, to develop and improve students' knowledge and skills for solving problems, managing conflict, engaging in civil discourse, and

recognizing, responding to, and reporting bullying or other prohibited conduct, and to make effective prevention and intervention programs available to students.

The administration must establish strategies for creating a positive school climate and use evidence-based social-emotional learning to prevent and reduce discrimination and other improper conduct.

The administration is encouraged, to the extent practicable, to take such actions as it may deem appropriate to accomplish the following:

1. Engage all students in creating a safe and supportive school environment;
 2. Partner with parents and other community members to develop and implement prevention and intervention programs;
 3. Engage all students and adults in integrating education, intervention, and other remedial responses into the school environment;
 4. Train student bystanders to intervene in and report incidents of bullying and other prohibited conduct to the schools' primary contact person;
 5. Teach students to advocate for themselves and others;
 6. Prevent inappropriate referrals to special education of students who may engage in bullying or other prohibited conduct; and
 7. Foster student collaborations that, in turn, foster a safe and supportive school climate.
- F. The school district may implement violence prevention and character development education programs to prevent or reduce policy violations. Such programs may offer instruction on character education including, but not limited to, character qualities such as attentiveness, truthfulness, respect for authority, diligence, gratefulness, self-discipline, patience, forgiveness, respect for others, peacemaking, and resourcefulness.
- G. The school district shall inform affected students and their parents of rights they may have under state and federal data practices laws to obtain access to data related to an incident and their right to contest the accuracy or completeness of the data. The school district may accomplish this requirement by inclusion of all or applicable parts of its protection and privacy of pupil records policy in the student handbook.

806 CRISIS MANAGEMENT POLICY

I. PURPOSE

The purpose of this Crisis Management Policy is to act as a guide for the school and building administrators, school employees, students, School Board members, and community members to address a wide range of potential crisis situations in the school district. The Fridley School District develops building-specific crisis management plans for each school building in the district and sections or procedures may be added or deleted in those crisis management plans based on building needs.

The school district will, to the extent possible, engage in ongoing emergency planning within the school district and with first responders and other relevant community organizations. The school district will ensure that relevant first responders in the community have access to their building-specific crisis management plans and will provide training to school district staff to enable them to act appropriately in the event of a crisis.

II. GENERAL INFORMATION

A. The Policy and Plans

The school district's Crisis Management Policy has been created in consultation with local community response agencies and other appropriate individuals and groups that would likely be involved in the event of a school emergency. It is designed so that each building administrator can tailor a building-specific crisis management plan to meet that building's specific situation and needs.

The school district's administration and/or the administration of each building shall present tailored building-specific crisis management plans to the School Board for review and approval along with the district Emergency Crisis Management Guide. Upon approval by the School Board, such crisis management plans shall be an addendum to this Crisis Management Policy. The Policy and the plans will be maintained and updated on an annual basis.

B. Elements of the District Crisis Management Policy

1. **General Crisis Procedures:** The Crisis Management Policy includes general crisis procedures for securing buildings, classroom evacuation, building evacuation, campus evacuation, and sheltering. The Policy designates the individual(s) who will determine when these actions will be taken. These district-wide procedures may be modified by building administrators when creating the building-specific crisis management plans. A communication system will be in place to enable the designated individual to be contacted at all times in the event of a potential crisis

setting forth the method to contact the designated individual, the provision of at least two designees when the contact person is unavailable, and the method to convey contact information to the appropriate staff persons. The alternative designees may include members of the Building Crisis Response Team. A secondary method of communication should be included when the primary method of communication is inoperable. Each building will have access to an Emergency Crisis Management Guide to assist in the development of the building-specific crisis management plans. Finally, all general crisis procedures will address specific procedures for children with special needs such as physical, sensory, motor, developmental, and mental health challenges.

- a. **Lock-Down Procedures.** Lock down procedures will be used in situations where harm may result to persons inside the school building, such as shooting, hostage incident, intruder, trespass, disturbance, or when determined to be necessary by the building administrator/designee. The building administrator or designee will announce the lock down over the public address system or other designated system. Code words will not be used. Provision for emergency evacuation will be maintained even in the event of a lock down. Each building administrator will submit lock down procedures for the building as part of the building-specific crisis management plan. Each building will conduct five lock-down drills each school year.
 - b. **Evacuation Procedures.** Evacuation of classrooms and buildings shall be implemented at the discretion of the building administrator or designee. Each building's crisis management plan will include procedures for transporting students and staff a safe distance from harm to a designated safe area until released by the building administrator or designee. Safe areas may change based upon the specific emergency situation. The evacuation procedures should include specific procedures for children with special needs, including children with limited mobility (wheelchairs, braces, crutches, etc.) visual impairments, hearing impairments, and other sensory, developmental, or mental health needs. The evacuation procedures should also address transporting necessary medications for students that take medications during the school day. Each building will conduct five fire drills and one tornado drill each school year.
 - c. **Sheltering Procedures.** Sheltering provides refuge for students, staff, and visitors within the school building during an emergency. Shelters are safe areas that maximize the safety of inhabitants. Safe areas may change based upon the specific emergency. The building administrator or designee will announce the need for sheltering over the public address system or other designated system. Each building administrator will submit sheltering procedures for the building as part of the building-specific crisis management plan.
2. **Crisis-Specific Procedures:** The Crisis Management Policy includes crisis-specific procedures for crisis situations that may occur during the school day or at school-

sponsored events and functions. These district-wide procedures are designed to enable building administrators to tailor response procedures when creating building-specific crisis management plans.

3. Building Crisis Response Teams

- a. **Composition.** The building administrator in each school building will select a building crisis response team that will be trained to respond to emergency situations. All building crisis response team members will receive on-going training to carry out the building's crisis management plans and will have knowledge of procedures, evacuation routes, and safe areas. For purposes of student safety and accountability, to the extent possible, building crisis response teams will not have direct responsibility for the supervision of students. Team members must be willing to be actively involved in the resolution of crises and be available to assist in any crisis situation as deemed necessary by the building administrator. Each building will maintain a current list of building crisis response team members which will be updated annually. The building administrator and alternative designees will know the location of that list in the event of a school emergency. A copy of the list will be kept on file in the school district office.
- b. **Leaders.** The building administrator or designee will serve as the leader of the building crisis response team and will be the primary contact for the emergency response officials. In the event the primary designee is unavailable, the designee list should include more than one alternative designee and may include members of the building crisis response team. When emergency response officials are present, they may elect to take command and control of the crisis. It is critical in this situation that school officials assume a resource role and be available as necessary to emergency response officials.

III. PREPARATION BEFORE AN EMERGENCY

A. Communication

1. **District Employees:** Teachers generally have the most direct contact with students on a day-to-day basis. As a result, they must be aware of their role in responding to crisis situations. This also applies to non-teaching school personnel who have direct contact with students. All staff shall be aware of the school district's Crisis Management Policy and their own building's crisis management plan. Each school's building-specific management plan shall include the method and date of dissemination of the plan to its staff. Employees will receive a copy of the relevant building-specific crisis management plan and shall receive periodic training on plan implementation.

2. **Students and Parents:** Students and parents shall be made aware of the school district's Crisis Management Policy and relevant tailored crisis management plans for each school building. Each building-specific crisis management plan shall set forth how students and parents are made aware of the district and school-specific plans. Students shall receive specific instruction on plan implementation and shall participate in a required number of drills and practice sessions throughout the school year.

B. Planning and Preparation for Fire

1. Designate a safe area at least 50 feet away from the building to enable students and staff to evacuate. The safe area should not interfere with emergency responders or responding vehicles and should not be in an area where evacuated persons are exposed to any products of combustion.
2. Each building's facility diagram and site plan shall be available in appropriate areas of the building and shall identify the most direct evacuation routes to the designated safe areas both inside and outside of the building. The facility diagram and site plan must identify the location of the fire alarm control panel, fire alarms, fire extinguishers, hoses, water spigots, and utility shut offs.
3. Teachers and staff will receive training on the location of the primary emergency evacuation routes and alternate routes from various points in the building. During fire drills, students and staff will practice situations using primary evacuation and alternate routes.
4. Certain employees, such as those who work in hazardous areas in the building will receive training on the locations and proper use of fire extinguishers and protective clothing and equipment.
5. Fire drills will be conducted periodically without warning at various times of the day and under different circumstances (e.g. lunchtime, recess, and during assemblies). State law requires a minimum of five drills each school year.
6. A record of fire drills conducted at the building will be maintained in the building administrator's office.
7. The school district will have prearranged sites for emergency sheltering and transportation as needed.
8. The school district will determine which staff will remain in the building to perform essential functions if safe to do so (e.g. receptionist, head custodian, etc.). The school district also will designate an administrator or designee to meet local fire or law enforcement agents upon their arrival.

- C. **Facility Diagrams and Site Plans:** All school buildings will have a facility diagram and site plan that includes the location of primary and secondary evacuation routes, exits, designated safe areas inside and outside of the building, and the location of fire alarm control panel, fire alarms, fire extinguishers, hoses, water spigots, and utility shut offs. All facility diagrams and site plans will be regularly updated and whenever a major change is made to a building. Facility diagrams and site plans will be maintained by the building administrator and on file in the school district office. Facility diagrams and site plans will be provided to first responders, such as fire and law enforcement personnel.
- D. **Emergency Telephone Numbers:** Each building will maintain a current list of emergency telephone numbers and the names and addresses of local, county, and state personnel who may be involved in a crisis situation. The list will include telephone numbers for local police, fire, ambulance, hospital, the Poison Control Center, county and state emergency management agencies, local public works departments, local utility companies, the public health nurse, mental health/suicide hotlines, and the county welfare agency. A copy of this list will be on file in the Emergency Crisis Management Guide and will be updated annually.

School district employees will receive training on how to make emergency contacts, including 911 calls, when the school district's main telephone number and location is electronically conveyed to emergency personnel instead of the specific building in need of emergency services.

School district plans will be set forth a process to internally communicate an emergency, using telephones in classrooms, intercom systems, or two-way radios, as well as the procedure to enable the staff to rapidly convey emergency information to a building designee. Each plan will identify a primary and secondary method of communication for both internal and secondary use. It is recommended that the plan include several methods of communication because computers, intercoms, telephones, and cell phones may not be operational or may be dangerous to use during an emergency.

- E. **Warning Systems:** The school district shall maintain a warning system designed to inform students, employees, and visitors of a crisis or emergency. This system shall be maintained on a regular basis under the maintenance plan for all school district buildings.

It shall be the responsibility of the building principal to inform students and employees of the system and the means by which the system is used to identify a specific crisis or emergency situation. Each building-specific crisis management plan will include the method and frequency of dissemination of the warning system information to students and employees.

- F. **Early School Closure Procedures:** The superintendent will make decisions about closing schools or buildings as early in the day as possible. The early school closure procedures will set forth the criteria for each school closure (e.g. weather-related, utility failure, or a crisis situation), will specify how closure decisions will be communicated to staff,

students, families, and the school community (designated broadcast media, local authorities, e-mail, or district or school building web sites), and will discuss the factors to be considered in closing and reopening a school or building.

Early school closure procedures also will include a reminder to parents and guardians to listen to designated local radio and TV stations for school closing announcements, where possible.

- G. Media Procedures: The superintendent has the authority and discretion to notify parents or guardians and the school community in the event of a crisis or early school closure. The superintendent will designate a spokesperson who will notify the media in the event of a crisis or early school closure. The spokesperson shall receive training to ensure that the district is in strict compliance with federal and state law relative to the release of private data when conveying information to the media.
- H. Behavioral Health Crisis Intervention Procedures: Short-term behavioral health crisis intervention procedures will set forth the procedure for initiating behavioral health crisis intervention plans. The procedures will utilize available resources including the school psychologist, counselor, community behavioral health crisis intervention, or others in the community. Counseling procedures will be used whenever the superintendent or the building administrator determines it to be necessary, such as after an assault, a hostage situation, shooting or suicide. The behavioral health crisis intervention procedures shall include the following steps:
1. Administrator will meet the relevant persons, including school psychologists and counselors, to determine the level of intervention needed for students and staff.
 2. Designate specific rooms as private counseling areas.
 3. Escort siblings and close friends of any victims as well as others in need of emotional support to the counseling areas.
 4. Prohibit media from interviewing or questioning students or staff.
 5. Provide follow-up services to students and staff who received counseling.
 6. Resume normal school routines as soon as possible.
- I. Long Term Recovery Intervention Procedures: Long-term recovery intervention procedures may involve both short-term and long-term recovery planning:
1. Physical/structural recovery
 2. Fiscal recovery
 3. Academic recovery
 4. Social/emotional recovery
