## CharacterStrong

10. We began our CharacterStrong lessons on Monday Sep 8. The feedback from teachers is still coming in and we are still tinkering with the best way to present the information and get the most out of each lesson as we move forward.

## PBiS Rewards (HUSKY points)

11. Feedback from the PBiS rewards platform has been wonderful. The ease and convenience of the platform and awarding points to students for the positive things they do on a daily basis has been welcomed by many staff members.

- a. Honor
- b. Unity
- c. Scholarship
- d. Kindness
- e. YOU matter

## ICU Database

12. Mr Kubik has taken the lead on our ICU database as the head lifeguard. He has been checking in with students regularly during his 1st period. He has been focus on students that are on the list with 3 or more assignments and making a plan for them to be completed within a certain timeframe. Overall we currently have 212 assignments that have been completed, with 95 still missing assignments by 54 students.

## Walkthroughs/Observations

13. I have completed 7 classroom walkthroughs to date. No observations are scheduled at this time but will be adding to the calendar within the next week.

## MTSS meetings

14. For this school year we have set aside time for MS core, HS core and non-core teacher groups to meet during advisory time from 3:04-3:40 pm. These groups will meet approximately once every six or so weeks. The feedback so far has been positive, and I am looking forward to the progress we continue to make as the year continues.

## Overall

15. The general consensus for the year has been positive. Students have been giving great effort in their academics and on the MAP assessments. Teachers are seeing positive responses in the classroom and our activities are also off to a wonderful start.

### Enrollment

- 16. 12th - 33 students
- 17. 11th - 36 students
- 18. 10th - 26 students
- 19. 9th - 25 students
  - a. Total high school students - 120
- 20. 8th - 26 students
- 21. 7th - 30 students
- 22. 6th - 35 students
  - a. Total middle school students - 91

### Recent Activities

- 23. I want to thank the district for allowing me to travel to Nashville for the Power of ICU conference with Danny Hill. He was very complimentary of the school and remembered many names from when he was last here. I was fortunate enough to go as his paid guest and able to network with other schools from across the country and another principal from here in Nebraska.
- 24. I also attended administrator days in Kearney during the last week of July. A focus of mine over the course of the two days was to reach out to other districts and attend sessions on their use and implementation of MTSS resources. It was hit or miss but I did make a connection with an ESU5 representative and will be in discussions with her.
- 25. Other training over the summer time included MTSS training and MANDT recertification.

### New Staff

- 26. We held our new staff training on Thursday August 7, 2025
  - a. Mrs Holly Luettel - shop/ag teacher

## Pre-Service Days

27. Certified staff had the week of Aug 1-7 to report for a flex day
  - a. All staff orientation was held on Friday Aug 8, 2025
    - i. Highlights included having staff focus on the small consistent efforts as well as coming up with the GOAL GETTER statements
  
28. MS/HS (6-12) Orientation/Roll-Out Night was held Monday August 11, at 6:00 pm. I introduced students to HUSKY as our new PBiS goals which stand for Honor, Unity, Scholarship, Kindness, and You Matter. Students were able to receive their computers. I did have 6th grade students and parents meet in a classroom to answer any questions or concerns they may have as they transition to middle school. All seemed to run quite well.

## New for 25-26

29. As previously mentioned we will be implementing the HUSKY acronym on the MS/HS side for the 25-26 school year. Along with this we will be utilizing the PBiS Rewards program. Students were given the opportunity during the first three days of school to reply to a prompt about what they would prefer to receive as part of the PBiS rewards program. I will be gathering that information and we will then have a store and student accounts established that will allow them to “cash in” their points to receive such awards.
30. We will be utilizing Advisory time to allow teachers to meet as MTSS cohorts appx 6 times throughout the school year (ie - once every six weeks). During this time students will be assigned to a standard advisory thereby building/expanding their advisory family.
31. We will be implementing CharacterStrong on the MS/HS side beginning on Mondays during advisory. The tentative plan is to begin the CharacterStrong Mondays on August 25, 2025. Each week will have a specific focus for teachers to present and students to discuss during advisory time.

### Summary:

From how I am reading this, we have the authority to ask for more if need be but with my initial reading of where our budget currently stands, we are in a good spot to not have to max out or go over.

As we look into next year, some of the expenses that we will have that are not refunded through covid that we haven't had to worry about for the past four years:

- Curriculum updates - Science is the next one up
- Nutrition Fund - we will have to supplement this fund through our General Fund as SRC have done in the past
- Staff Payroll Increase
- Special Education Teacher or 1/2 & 1/2 of Special Education & Interventionist for our Secondary

I will have updated numbers by the end of the month and an initial report on our 25-26 budget.

# I. INTRODUCTION

## A. Purpose of the Plan

The purpose of the **Shelby-Rising City Public** School Emergency Operations Plan (School EOP) is to identify and respond to incidents by outlining the responsibilities and duties of **Shelby-Rising City Public** School and its employees. Developing, maintaining, and exercising the plan empowers employees in an incident to act quickly and knowledgeably. In addition, the plan educates staff, faculty, students, and other key stakeholders on their roles and responsibilities before, during, and after an incident. This plan provides parents and other members of the community with assurances that **Shelby-Rising City Public** School has established guidelines and procedures to respond to threats, hazards and incidents in an effective way.

The developed guidelines and procedures for dealing with existing and potential student and school incidents are defined in the plan below. The basic plan and the functional and hazard-specific systems outline an organized systematic method to prevent, prepare for, respond to, and recover from incidents. Faculty and staff have been trained to assess the seriousness of incidents and respond according to these established procedures and guidelines. **Shelby-Rising City Public** School regularly schedules in-service training for faculty and staff.

Lastly, developing, maintaining, and exercising the School EOP increases **Shelby-Rising City Public** School's legal protection. Schools without established incident management procedures have been found liable for their absence of planning. While no set of policies rules out the potential for legal problems, establishing procedures and guidelines on the best professional practices provides a margin of protection against liability.

## B. Scope of the Plan

The **Shelby-Rising City Public** School Emergency Operations Plan outlines the expectations of staff/faculty; roles and responsibilities; direction and control systems; internal and external communications plans; training and sustainability plans; authority and references as defined by local, state, and federal government mandates; common and specialized procedures; and responses/recovery for specific hazards and vulnerabilities.

### 1. Definitions

**Threats:** Threats include situations to harm students, personnel, and/or facilities. Threats usually include those things that we can control, such as active killer, bullying, and suicide. Threats may require an interagency response involving law enforcement and/or emergency services depending on the size and scope of the incident.

**Hazards:** Hazards include situations to harm students, personnel, and/or facilities. Hazards usually include those things that we cannot control, such as tornadoes, floods, and chemical spills. Hazards may require an interagency response involving law enforcement and/or emergency services depending on the size and scope of the incident.

**Incidents:** An incident is an occurrence that requires a response to protect life or property. An incident is something that we most likely cannot control, such as car accidents, pandemics, and illness. The superintendent/principal/building administrator shall have the authority to determine when an incident has occurred and to implement the procedures within this EOP.

### 2. School Board Policy Statement

The **Shelby-Rising City Public** School Emergency Operations Plan operates within the framework of the **Shelby-Rising City Public** School Board policy.

## C. Situation Overview/Hazard Analysis Summary

## 1. School Population

### a. General Population

- Students on the Autism Spectrum,
- Limited English proficiency,
- Blindness or visually impaired,
- Cognitive or emotional disabilities,
- Deaf or hard of hearing,
- Mobility/physical disabilities (permanent and temporary), and
- Medically fragile health (including asthma and severe allergies).

The school's current enrollment of students with special needs is approximately 54; however, this number will fluctuate. Students and/or staff may require additional assistance if they are temporarily on crutches, wearing casts, wheelchairs, etc.

Classrooms containing students and staff that require additional assistance during an incident will be noted by an asterisk next to the room number during the applicable class period(s) on the master schedule. The list of students and staff with additional assistance needs, along with assigned staff trained to assist during drills, exercises and incidents are identified in [Appendix B](#).

## 2. Building Information

**Shelby-Rising City Public** School is located on a 17.88-acres lot and includes 1 building, football field, 2 playgrounds and 3 staff/student parking lots. All classes take place in the main building on campus.

Annotated maps of the buildings and grounds are included in [Appendix C](#).

Evacuation routes  
 Shelter locations

- Fire alarm pull stations
- Fire extinguishers
- First aid kits
- AED (Automatic External Defibrillator)

**GUIDANCE:** All staff members are required to know these locations as well as how to operate the utility shutoffs. (cover in the beginning of school year with staff)

Located in **Appendix D** are the list of local utility companies and their contacts for additional assistance.

### 3. Hazard Analysis Summary

**Shelby-Rising City Public School** is exposed to many hazards, all of which have the potential for disrupting the school community, causing casualties, and damaging or destroying public or private property.

In **2022-2023** completed a thorough hazard analysis to identify any circumstances in the school or near the campus that may present unique problems or potential risk to people or property. The interior and exterior portions of all school buildings and school grounds have been assessed for potential hazards that may impact the site, the staff, and the students. Identified hazards have been assessed by risk and likelihood and ranked accordingly. - **NEED POLK COUNTY SHERIFF, POLK COUNTY EMERGENCY MANAGEMENT,**

**The most recent risk assessment by EMC Insurance Company was completed 12/1/22.**

In addition, the table on the following page briefly discusses **Shelby-Rising City Public School's** high-priority hazards including flood, severe storm, fire, chemical, intruder, civil disturbance, and terrorism.

**Table 1. High-Priority Hazards**

<b>Flood</b>	Flooding is not an issue when it comes to <b>Shelby-Rising City Public School but traveling and bus routes could be affected for individual students or families if flash flooding would occur.</b>
<b>Severe Storm</b>	Shelby, Rising City and its surrounding areas are vulnerable to severe local storms. The effects are generally transportation problems and loss of utilities, but can vary with the intensity of the storm, the level of preparation by Shelby-Rising City Public Schools, and the equipment and staff available to perform tasks to lessen the effects of severe local storms.
<b>Fire</b>	Fire hazards are the most prevalent types of hazard that can occur in field fires due to high winds, dry conditions and could put our school in danger due to being surrounded by ag land.
<b>Chemical</b>	Hazardous chemicals are used for a variety of purposes and are regularly transported through many areas in and around Shelby & Rising City. Currently, ammonia, chlorine, and propane are all used and stored on school grounds. We also have chemicals that are stored within our science lab as well.
<b>Intruder</b>	While a hostile intruder incident has never occurred in Shelby-Rising <b>City Public Schools</b> , we, like any school, is vulnerable to intruders. However, we have our SRP implemented throughout our school and among staff.
<b>Civil Disturbance</b>	With our two communities of Shelby and Rising City, we have a population that are both under 700 people. There may be civil disturbances that occur but community members are quick to keep us up-to-date.
<b>Terrorism</b>	<b>Shelby-Rising City Public Schools</b> , like other public institutions, is vulnerable to terrorist activity.

#### **4. Prevention, Preparedness, Response, and Recovery Overview**

Prevention includes actions to avoid a threat or intervene to stop a threat from occurring. It also includes activities to reduce the loss of life and property from controllable and noncontrollable disasters. Prevention aims to avoid or lessen the impact of a disaster and provides value to the public by creating safer communities. **Shelby-Rising City Public Schools** is committed to taking proactive, prevention measures whenever possible to protect the safety and security of students and staff.

In addition, **Shelby-Rising City Public Schools** requires all adults to display identification badges. The school visitors and security protocols have been enhanced that all visitors are required to check in, sign in and wear a name tag with their name and time logged in. **All staff have been trained in our safety and security procedures, (etc.); Remind students at the beginning of the school year during open house/rollout.**

Preparedness is achieved and maintained through a continuous cycle of planning, organizing, training, equipping, exercising, evaluating, and taking corrective action. Ongoing preparedness efforts require coordination among all those involved in emergency management and incident response activities. **Shelby-Rising City Public Schools** fosters preparedness at all levels including students, parents, teachers,

staff and community partners. Examples of preparedness actions include maintaining this plan, conducting training, planning and implementing drills and exercises, etc.

Response is the capability necessary to stabilize an emergency once it has happened or is certain to happen in an unpreventable way using both systems, Incident Command System (ICS) and the Standard Response Protocol (SRP). **Shelby-Rising City Public Schools** will establish a safe and secure environment to allow for the saving of lives and property and will facilitate the transition to recovery.

Recovery is the capability necessary to assist any school building impacted by an incident or emergency in restoring the health and well-being of students and the learning environment over the long-term. Successful recovery addresses the full range of psychological, emotional, and behavioral health needs associated with the disaster's impact and resulting recovery challenges. Individuals and families will be better situated to manage their recovery once their basic needs are met, such as shelter, food, and reunification with family and household pets or service and assistance animals. Successful recovery depends on all recovery stakeholders having a clear understanding of pre- and post- disaster roles and responsibilities.

## D. Planning Assumptions and Limitations

### 1. Planning Assumptions

Stating the planning assumptions allows **Shelby-Rising City Public Schools** to deviate from the plan if certain assumptions prove not to be true during operations. The School EOP assumes:

- The school community will continue to be exposed and subject to hazards and incidents described in the Hazard Analysis Summary, as well as lesser hazards and others that may develop in the future.
- A major disaster could occur at any time, and at any place. In many cases, dissemination of warning to the public and implementation of increased readiness measures may be possible; however, some emergency situations occur with little or no warning.
- A single site incident (e.g., fire, gas main breakage) could occur at any time without warning and the employees of the school affected cannot, and should not, wait for direction from local response agencies. Action is required immediately to save lives and protect school property.
- Following a major or catastrophic incident, the school may have to rely on its own resources to be self-sustaining for up to 72 hours.
- There may be a number of injuries of varying degrees of seriousness to faculty, staff, and/ or students. Rapid and appropriate response will reduce the number and severity of injuries.
- Outside assistance from local fire, law enforcement, and emergency managers will be available in most serious incidents. Because it takes time to request and dispatch external assistance, it is essential for the school to be prepared to carry out the initial incident response until responders arrive at the incident scene.
- Proper prevention actions, such as creating a positive school environment and conducting fire inspections, will prevent or reduce incident related losses.
- Maintaining the School EOP and providing frequent opportunities for stakeholders (staff, students, parents, first responders, etc.) to exercise the plan can improve the school's readiness to respond to incidents.
- A spirit of volunteerism among school employees, students, and families will result in their providing assistance and support to incident management efforts.

### 2. Limitations

It is the policy of **Shelby-Rising City Public Schools** that no guarantee is implied by this plan of a perfect incident management system. As personnel and resources may be overwhelmed, **Shelby-Rising City Public Schools** can only endeavor to make every reasonable effort to manage the situation, with the resources and information available at the time.

GUIDANCE: Examples:

<https://www.disastermh.nebraska.edu/wp-content/uploads/2020/05/DHHS-Disaster-Behavioral-Health-Risk-Messages-June-2019.pdf>

## II . CONCEPT OF OPERATIONS

This plan is based upon the concept that the incident management functions that must be performed by the school generally parallel some of their routine day-to-day functions. To the extent possible, the same personnel and material resources used for day-to-day activities will be employed during incidents. Because personnel and equipment resources are limited, some routine functions that do not contribute directly to the incident may be suspended. The personnel, equipment, and supplies that would typically be required for those routine functions will be redirected to accomplish assigned incident management tasks.

### A. National Incident Management System (NIMS)

The National Incident Management System (NIMS) is a set of principles that provides a systematic, proactive approach guiding government agencies at all levels, nongovernmental organizations, and the private sector to work seamlessly to prevent, prepare, respond, and recover, from the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life or property and harm to the environment. This system ensures that those involved in incident response/recovery understand what their roles are and have the tools they need to be effective.

According to Homeland Security Presidential Directive 5 and the U.S. Department of Education, school districts are among local agencies that must adopt NIMS if they receive Federal grant funds. As part of its NIMS implementation, **Shelby-Rising City Public Schools** participates in the local government's NIMS preparedness program and believes it is essential to ensure that response/recovery services are delivered to schools in a timely and effective manner.

**Shelby-Rising City Public Schools** recognizes that staff and students will be first responders during an incident. Adopting NIMS enables staff and students to respond more effectively to an incident and enhances cooperation, coordination, and communication among school officials, first responders, and emergency managers.

**Shelby-Rising City Public Schools** works with local government agencies to remain NIMS compliant. NIMS compliance for school districts includes completing the following:

- Adopt the use of the Incident Command System (ICS). Adopt the use of the NIMS and the use of SRP. Should a staff member desire more information about these, they can reference the ICS-100 web-based training as well as ICS-700, available free from FEMA.
- Participate in the local government's NIMS preparedness program and incorporate the school plan into the community EOP.
- Train and exercise the plan. All staff and students are expected to participate in training and exercising the plan's procedures and hazard-specific incident plans. The school is charged with ensuring that the training and equipment necessary for an appropriate response/recovery operation are in place.

### B. Implementation of the Incident Command System (ICS)

In a major emergency or disaster, **Shelby-Rising City Public Schools** may be damaged or need to be evacuated, people may be injured, and/or other incident management activities may need to be initiated. These activities must be organized and coordinated to ensure efficient incident management. **The Incident Command System (ICS) will be used to manage all incidents and major planned events. [Note: The ICS approach can be used in all phases of incident management, including pre-incident, during incident, post-incident activities,]**

The Superintendent/Principal/Incident Commander at **Shelby-Rising City Public Schools** will be delegated the authority to direct all incident activities within the school's jurisdiction. The Incident Commander will establish an incident command post (ICP) and provide an assessment of the situation to the principal or other officials, identify incident management resources required, and direct the on-scene incident management

activities from the ICP. If no Incident Commander is present at the onset of the incident, the most qualified individual will assume command until relieved by a qualified Incident Commander.

### **C. Initial Response (Standard Response Protocol) (SRP) - updated forms to staff and fire panels and assign personnel to post signs**

#### **SECURE - GET INSIDE, LOCK OUTSIDE DOORS (Threat related)**

Secure is called when there is a threat or hazard outside of the school building. Whether it is due to violence or criminal activity in the immediate neighborhood, or a dangerous animal in the playground. Secure uses the security of the physical facility to act as protection.

**Secure:** is followed by the Directive: "Get Inside. Lock Outside Doors" and is the protocol used to safeguard students and staff within the building. (Threat is outside)

**Lockdown:** is followed by "Locks, Lights, Out of Sight" and is the protocol used to secure individual rooms and keep students quiet and in place. (Threat is close to or in the building)

**Evacuate:** is always followed by a location, and is used to move students and staff from one location to a different location in or out of the building. (Threat is inside)

**Shelter:** is always followed by a type and a method and is the protocol for group and self protection. (Threat is outside)

**Hold:** means to hold in your classroom or area. Clear the halls. (No threat involved)

School personnel are usually first on the scene of an incident in a school setting. Staff and faculty are expected to take charge and manage the incident until it is resolved or command is transferred to someone more qualified and/or to an emergency responder agency with legal authority to assume responsibility. Staff will seek guidance and direction from local officials and seek technical assistance from state and federal agencies and industry where appropriate. The superintendent/principal or his/her designee is responsible for activating the School EOP, including common and specialized procedures as well as hazard-specific incident plans.

### III. ORGANIZATION AND ASSIGNMENT OF RESPONSIBILITIES

This section establishes the operational organization that will be relied upon to manage the incident and includes:

- A list of the kinds of tasks to be performed by position and organization.
- An overview of who does what task.

**GUIDANCE:** The principal (and assistant principals) is/are not able to manage all the aspects associated with an incident without assistance. The school relies on other key school personnel to perform tasks that will ensure the safety of students and staff during a crisis or critical incident. The Incident Command System (ICS) uses a team approach to manage incidents. It is difficult to form a team while a crisis or critical incident is unfolding. Roles should be pre-assigned based on training and qualifications. Each staff member and volunteer must be familiar with his or her role and responsibilities before an incident occurs.

School staff may be required to remain at school to assist in an incident. In the event that this School EOP is activated, staff will be assigned to serve within the Incident Command System based on their expertise and training and the needs of the incident.

#### A. Principal/Building Administrator (Superintendent/Principal)

The superintendent/principal may serve as the Incident Commander or delegate that authority to a qualified individual. At all times, the superintendent/principal still retains the overall responsibility for the overall safety of students and staff. However, delegating the authority to manage the incident allows the superintendent/principal to focus on policy-level activities and interfacing with other agencies and parents. The superintendent/principal shall coordinate between the superintendent's office and the Incident Commander.

#### B. Incident Commander

The Incident Commander (Superintendent & then seniority with training background) responsibilities include:

## IV. DIRECTION, CONTROL, AND COORDINATION

### A. School Incident Command System (ICS) - **Check Reunification Plan**

To provide for the effective direction, control, and coordination of an incident, either single site or multi-incidents, the School EOP will be activated including the implementation of the Incident Command System (ICS). An ICS Organizational Chart is located in [Appendix E1](#). [Appendix E2](#) is a list of your ICS contacts within your school. [Appendix E3](#) is provided by the district and includes Finance/Administration Future School Budgets.

The Incident Commander is delegated the authority to direct tactical on-scene operation until a coordinated incident management framework can be established with local authorities. The Safety Team is responsible for providing the Incident Commander with strategic guidance, information analysis, and needed resources.

**Figure 1. Incident Management Team**

The ICS is organized into the following functional areas:

**1. Incident Command:** Directs the incident management activities using strategic guidance provided by the Safety Team.

School-related responsibilities and duties include:

**2. Operations Section:** Directs all tactical operations of an incident including implementation of response/recovery activities according to established incident management procedures and protocols, care of students, first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students to parents.

**Specific responsibilities include:**

- Analyze school staffing to develop a Parent-Student Reunification Plan, and implement an incident action plan.

As needed, the types of Operations Teams described in the following table may be established within the Operations Section.

**Table 2 Operations Section Teams**

Operations Team	Potential Responsibilities
<b>Fire &amp; Rescue Team</b>	Fire & Rescue Teams search the entire school facility, entering only after they have checked the outside for signs of structural damage and determined that it is safe to enter. Fire & Rescue Teams are responsible for ensuring that all students and staff evacuate the building (or, if it is unsafe to move the persons, that their locations are documented so that professional responders can locate them easily and extricate them). This section may not be established onsite at the incident. Rather, the school superintendent/principal and school district management offices may assume responsibility for these functions.

## **B. Coordination With Safety Team**

In complex incidents, a Safety Team will be convened at the school district Emergency Operations Center (EOC). The role of the Safety Team is to:

- Support the on-scene Incident Commander.
- Provide policy and strategic guidance.
- Help ensure that adequate resources are available.
- Identify and resolve issues common to all organizations.
- Provide factual information, both internally and externally through the Incident Commander.

The **Shelby-Rising City Public Schools** Superintendent/Principal/Incident Commander will keep the Safety Team informed.

## **C. Local Emergency Operations Plan (LEOP)**

The Polk County School District maintains a district Emergency Operations Plan (EOP) to address hazards and incidents in their district. The **Shelby-Rising City Public Schools** EOP has been developed to fit into the larger local county EOP in the case of a large-scale incident. Staff members that maintain and exercise the plan are in frequent contact with **Logan Watts**, County/City Emergency Manager, **Polk County/City** Emergency Management Department.

## **D. Coordination With First Responders**

An important component of the **Shelby-Rising City Public Schools** EOP is a set of interagency agreements with various county agencies to aid timely communication. These agreements help coordinate services between the agencies and **Shelby-Rising City Public Schools**.

**GUIDANCE:** Various agencies and services include county governmental agencies such as mental health, law enforcement, emergency management, and fire/rescue departments. The agreements specify the type of communication and services provided by one agency to another. These agreements also make school personnel available beyond the school setting in an incident or traumatic event taking place in the community.

**GUIDANCE:** If a school incident is within the authorities of the first-responder community, command will be transferred upon the arrival of qualified first responders. A transfer of command briefing shall occur. The school Incident Commander may be integrated into the Incident Command structure or assume a role within a Unified Command structure.

## **E. Source and Use of Resources**

**Shelby-Rising City Public Schools** will use its own resources and equipment to respond to incidents until incident response personnel arrive. Parent volunteers and community members have been trained to assist if called upon and available after an incident occurs. The following organizations or agencies have agreed to be responsible for providing additional resources or assistance:

- First aid kit and sanitation supplies will be provided by: Community Mart, \_\_\_\_\_ Name of Person \_\_\_\_\_.

## V. COMMUNICATIONS

Communication is a critical part of incident management. This section outlines **Shelby-Rising City Public School's** communications plan and supports its mission to provide clear, effective internal and external communication between the school, staff, students, parents, responders, and media.

### A. Internal Communications

#### 1. Communication Between Staff/Faculty Members

Faculty and staff will be notified when an incident occurs and kept informed as additional information becomes available and as plans for management of the situation evolve. The following practices will be utilized to disseminate information internally when appropriate:

- **Thrillshare/Apptegy:** With caution due to sensitive information, may be taken out of context but will be
- **Faculty Meetings (when necessary):** As appropriate, updated information about an incident will be presented at the morning and/or after school faculty meeting. Any new procedures for the day will also be reviewed at this time.

### B. External Communications

Communicating with the larger school community begins before an incident occurs. In the event of an incident, parents, media, and first responders will require clear and concise messages from **Shelby-Rising City Public Schools** about the incident, what is being done about it, and the safety of the children and staff.

#### 1. Communication With Parents

Before an incident occurs, **Shelby-Rising City Public Schools** will:

- Develop a relationship with parents so that they trust and know how to access alerts and incident information.
- Inform parents about the school's Emergency Operations Plan, its purpose, and its objectives. Information will be included in the school newsletter and a presentation delivered at Back-to-School Night.
- Be prepared with translation services for non-English-speaking families and students with limited English proficiency.

During the incident, **Shelby-Rising City Public Schools** will:

- Disseminate information via text messages, mass telephone messages, and emails to inform parents about exactly what is known to have happened.
- Implement the plan to manage phone calls and parents who arrive at school.
- Describe how the school and school district are handling the situation.
- Provide information regarding possible reactions of their children and ways to talk with them.
- Inform parents and students when and where school will resume.

After an incident, **Shelby-Rising City Public Schools** will

- Administrators will schedule and attend an open question-and-answer meeting for parents as soon as possible.

#### 2. Communication With Media

Incident Commander will:

- Designate a Public Information Officer (Superintendent/Administration Team).
- Establish a briefing area for media representatives. (Media Briefing Area)
- Coordinate messages with the superintendent/principal and Safety Team.

All **Shelby-Rising City Public Schools** employees are to refer requests for information and questions to the designated Public Information Officers or Joint Information Center. Templates for statements/press releases to the media, including standard procedures and protocols, have been developed and are included in this link:

**GUIDANCE:**

The link below contains several pre-developed messages that Public Information Officers can use for different events. Public Information Officers should practice delivering the three key messages, then work their way through the supporting points when needed. These messages were developed by Nebraska’s Behavioral Health Risk Communication Cadre – professionals with special expertise and knowledge of risk communication and threat assessment. The group meets monthly to discuss emergency plans and information related to behavioral health.

<https://www.disastermh.nebraska.edu/wp-content/uploads/2020/05/DHHS-Disaster-Behaviorial-Health-Risk-Messages-June-2019.pdf> **Appendix H**

Media contacts at the major television, Internet, and radio stations are maintained by the Public Information Officer (PIO) or superintendent/principal's executive assistant. In the case of an incident, these media contacts will broadcast **Shelby-Rising City Public School’s** external communications plans.

**3. Handling Rumors**

In addressing rumors, the most effective strategy is to provide facts as soon as possible. To combat rumors, **Shelby-Rising City Public Schools** will:

- Provide appropriate information to internal groups including administrators, teachers, students, custodians, secretaries, instructional assistants, cafeteria workers, and bus drivers. These people are primary sources of information and are likely to be contacted in their neighborhoods, at grocery stores, etc.
- Hold a faculty/staff meeting before staff members are allowed to go home so that what is (and is not) known may be clearly communicated.
- Designate and brief personnel answering calls to help control misinformation.
- Conduct briefings for community representatives directly associated with the school.
- Enlist the help of the media to provide frequent updates to the public, particularly providing accurate information where rumors need to be dispelled.
- Consistent statement is provided as a response to possible questions.

**GUIDANCE:** After the immediate incident response period, **Shelby-Rising City Public Schools** will conduct public meetings as needed. These meetings are designed to provide the opportunity for people to ask questions and receive accurate information.

**4. Communication With First Responders**

The Incident Commander will maintain communication with first responders during an incident. Transfer of command will occur when first responders arrive on the scene to assume management of the incident under their jurisdiction. **Shelby-Rising City Public Schools** will practice walkthroughs, in a small scale, every year with authorities (fire, sheriff, etc.), the School EOP with first responders to practice effective coordination and transfer of command.

**5. Communication After an Incident (Recovery Process)**

After the safety and status of staff and students have been assured, and emergency conditions have abated following an incident, staff/faculty will assemble to support the restoration of the school's educational programs. Defining mission-critical operations and staffing will be a starting point for the recovery process. Collecting and disseminating information will facilitate the recovery process.

The staff/faculty teams will:

- Conduct a comprehensive assessment of the physical and operational recovery needs.
- Assess physical security, data access, and all other critical services (e.g., plumbing, electrical).
- Examine critical information, technology assets and personnel resources, and determine the impact on the school operations for each asset and resource that is unavailable or damaged.
- Document damaged facilities, lost equipment and resources, and special personnel expenses that will be required for insurance claims and requests for state and federal assistance.
- Provide detailed facilities data to the school district office so that it can estimate temporary space reallocation needs and strategies.
- Arrange for ongoing status reports during the recovery activities to: a) estimate when the educational program can be fully operational; and b) identify special facility, equipment, and personnel issues or resources that will facilitate the resumption of classes.
- Educate school personnel, students, and parents on available crisis counseling services.
- Apprise the **Polk** County Office of Emergency Management.

The school district will:

- Review the use of the ICS and identify areas for modification.
- Identify recordkeeping requirements and sources of financial aid for state and federal disaster assistance.
- Establish absentee policies for teachers/students after an incident.
- Establish an agreement with mental health organizations to provide counseling to students and their families after an incident.
- Develop alternative teaching methods for students unable to return immediately to classes: correspondence classes, videoconferencing, telegroup tutoring, etc.
- Create a plan for conducting classes when facilities are damaged (e.g., alternative sites, half-day sessions, portable classrooms).
- Get stakeholder input on prevention measures that can be incorporated into short-term and long-term recovery plans.

### C. Communication Tools

Some common internal and external communication tools that **Shelby-Rising City Public Schools** may use include the following:

- **Landline Phone:** A designated school telephone number as a recorded "hotline" for parents to call for information during incidents. The goal is to keep other telephone lines free for communication with first responders and others.
- **Cell phones:** These phones may be the only tool working when electric service is out; they are useful to faculty/staff enroute to or from a site.
- **App:** Thrillshare/Apptegy
- **Intercom systems:** The intercom system includes teacher-initiated communication with the office using a handset rather than a wall-mounted speaker.
- **Bullhorns and megaphones:** A battery-powered bullhorn is part of the school's emergency to-go kit to address students and staff who are assembling outside the school. Procedures governing storage and use will help ensure readiness for use.
- **Two-way radio:** Two-way radios provide a reliable method of communication between rooms and buildings at a single site. All staff will be trained to understand how to operate the two-way radio.

- **Computers:** A wireless laptop computer may be used for communication both within the school and to other sites. Email may be a useful tool for updating information for staff, other schools in an affected area, and the district superintendent. An assigned staff member(s) will post information such as school evacuation, closure, or relocation on the home page of the school and district Website (insert your school's website URL).
- **Fax machines:** Possible uses include off-campus accidents where lists of students and staff members involved, their location and needed telephone numbers can be quickly and accurately communicated. Medical information, release forms, and authorizations include the designated fax number.
- **Alarm systems:** Bells or buzzers are in place and sound in different ways to signal different types of incidents - for example, fire lockdown or special alert (with instructions to follow). All staff/ faculty, support staff, students, and volunteers will be trained on what the sounds mean and how to respond to them.
- **Whistles:** Whistles should be included in crisis kits in order to signal a need for immediate attention or assistance.

## VI. ADMINISTRATION, FINANCE, AND LOGISTICS

### A. Agreements and Contracts

If school resources prove to be inadequate during an incident, **Shelby-Rising City Public Schools** will request assistance from local emergency services, other agencies, and industry in accordance with existing mutual aid agreements and contracts (see Section IV, Direction, Control, and Coordination, for specific details). Such assistance includes equipment, supplies, and/or personnel. All agreements are entered into by authorized school officials and are in writing. Agreements and contracts identify the school district officials authorized to request assistance pursuant to those documents.

All pre-negotiated agreements and contracts are included in [Appendix I](#) (District created).

### B. Recordkeeping

#### 1. Administrative Controls

**Shelby-Rising City Public Schools** is responsible for establishing the administrative controls necessary to manage the expenditure of funds and to provide reasonable accountability and justification for expenditures made to support incident management operations. These administrative controls will be done in accordance with the established local fiscal policies and standard cost accounting procedures.

#### 2. Activity Logs

The ICS Section Chiefs will maintain accurate Chronological Logs of Activities [Appendix F](#) recording key incident management activities including:

- Basic documentation by each role or position responsibilities with time and completed by whom.
- Activation or deactivation of incident facilities.
- Significant changes in the incident situation.
- Major commitments of resources or requests for additional resources from external sources.
- Issuance of protective action recommendations to the staff and students.
- Evacuations.
- Casualties.
- Containment or termination of the incident.

### C. Incident Costs

#### 1. Annual Incident Management Costs

The ICS Finance and Administration Section is responsible for maintaining records summarizing the use of personnel, equipment, and supplies to obtain an estimate of annual incident response costs that may be used in preparing future school budgets. [Appendix E3](#) (District Created)

#### 2. Incident Costs

The ICS Finance and Administration Section Chief will maintain detailed records of costs for incident management and operations to include:

- Personnel costs, especially overtime costs.
- Equipment operations costs.
- Costs for leased or rented equipment.
- Costs for contract services to support incident management operations.
- Costs of specialized supplies expended for incident management operations.

These records may be used to recover costs from the responsible party or insurers or as a basis for requesting financial assistance for certain allowable response and recovery costs from the state and/or federal government.

#### **D. Preservation of Records**

In order to continue normal school operation following an incident, vital records must be protected. These include legal documents and student files as well as property and tax records. The likely causes of damage to records are fire and water; therefore, essential records should be protected accordingly (e.g., electronic, redundant backup, offsite electronic version). Details are outlined in the Continuity of Operations (COOP) Procedures, a functional system of this plan.

## VII. PLAN DEVELOPMENT, MAINTENANCE, AND DISTRIBUTION

The Safety Team (including community partners) is responsible for the overall maintenance and revision of the **Shelby-Rising City Public Schools** EOP. The Safety Team is responsible for coordinating, training, and exercising the School EOP. The Team is expected to make recommendations for revising and enhancing the plan.

**GUIDANCE:** School staff should be included for input regarding the EOP. They should receive information and training on procedures and protocols identified within the EOP. In addition, they should be included in exercises and drills to enhance the effectiveness of response. The school staff should also be included in the debriefing exercise review and be given the opportunity to provide input for future enhancements.

The local school board and the superintendent are responsible for approving and communicating this plan. Community fire/rescue, law enforcement, and emergency managers' approval and suggestions will also be requested.

### A. Approval and Dissemination of the Plan

The superintendent and principals will initiate the annual review of the EOP following the steps below. The local school board will approve the plan.

- Review and Update the Plan (Every September).
- Present the Plan to the local school board. (for Comment or Suggestions)
- Obtain Plan Approval Annually. (local school board)
- Distribute the Plan. [Appendix J](#)

#### 1. Record of Changes

Each update or change to the plan will be tracked on Page 2 of this document. The record of changes will include: the change number, the date of the change, and the name of the person who made the change (the date the school board was informed/approved). The record of change will be in table format and maintained by the Safety Team.

#### 2. Record of Distribution

Copies of plans and systems will be distributed to those tasked in this document. The record of distribution will be kept as proof that tasked individuals and organizations have acknowledged their receipt, review, and/or acceptance of the plan. The Safety Team will indicate the title and name of the person receiving the plan, the agency to which the receiver belongs, the date of delivery, and the number of copies delivered. [Appendix J](#)

### B. Plan Review and Updates

The basic plan and its systems will be reviewed annually by the Safety Team, emergency management agency, law enforcement, fire/rescue, school board, and others deemed appropriate by school administration. The superintendent will establish a schedule for annual review of planning documents.

The School EOP will be updated based upon deficiencies identified during incident management activities and exercises and when changes in threat hazards, resources and capabilities, or school structure occur.

### C. Training and Exercising the Plan

**GUIDANCE:** (Definitions)

**Drill:** The primary objective of a drill is for participants to build muscle memory and practice an action to use in various events or situations. A secondary objective is for the people who are administering the drill to validate procedures, clarify roles and identify operational process gaps. In the school safety context, it is critical to

distinguish between drills and exercises. Drills are for staff and students, and are educational opportunities to practice a life skill.

**Exercise:** The overall learning objective of an exercise is to test response, capacity and resources across the system. An exercise often includes a description or enactment of an incident, depending on the type of exercise that's being conducted. Exercises are broader in scope. These typically present a hypothetical emergency scenario (hurricane, earthquake, biochemical emergency, etc.) designed to encourage people to think on their toes, work together, and apply lessons learned from Drills.

**Tabletop Exercise:** is a roundtable session administered by a facilitator. Team members discuss their roles and share observations regarding a simulated emergency scenario. It's designed to test each team's ability to refer and react to their role in the emergency plan, as well as their readiness to communicate with other teams as needed. These usually run a few hours in duration, and are highly valuable for identifying the unique threats in each community.

**Functional Exercises:** typically focus on specific team members and/or procedures, and are often used to identify process gaps associated with multi-agency coordination, command and control. In a Functional Exercise, participants perform their duties in a simulated emergency environment.

**Full-scale Exercise:** is similar in execution to a functional exercise, and is as close to the real thing as possible. It can include employees from multiple functions, community first responders, local businesses, and regulatory agencies. This type of exercise should utilize, to the extent possible, the actual systems and equipment that would be dispatched during a real event. From a duration stand-point, full-scale exercises often take place over the course of an entire business day.

Basic training and refresher training sessions will be conducted during in-service days of the school year for all school personnel in coordination with local fire, law enforcement, and emergency managers.

School EOP training will include:

- Hazard and incident awareness training for all staff.
- Orientation to the School EOP.
  - SRP
  - Fire/Tornado
  - Evacuation
  - Confidentiality for events
- First Aid and CPR/AED training for designated staff.
- Team training to address specific incident response or recovery activities, such as Parent-Student Reunification, Special Needs, and Relocation.
- Two online FEMA courses: ICS 100 and IS-700 for assigned staff. Both courses are available for free at FEMA's Emergency Management Institute Website (for those on the safety committee).

Additional training will include drills, tabletop, and functional exercises. Drills will be conducted at least once per semester. Exercises will occur at least once per school year. The details of training are outlined in the Multi-Year Training and Exercise Plan. Records of the training provided including date(s), type of training, and participant roster will be maintained. Approved parent volunteers and community members will also be incorporated into larger training efforts.

## Functional Systems

**Note:**

**Functional Systems** address all-hazard critical operational functions, including:

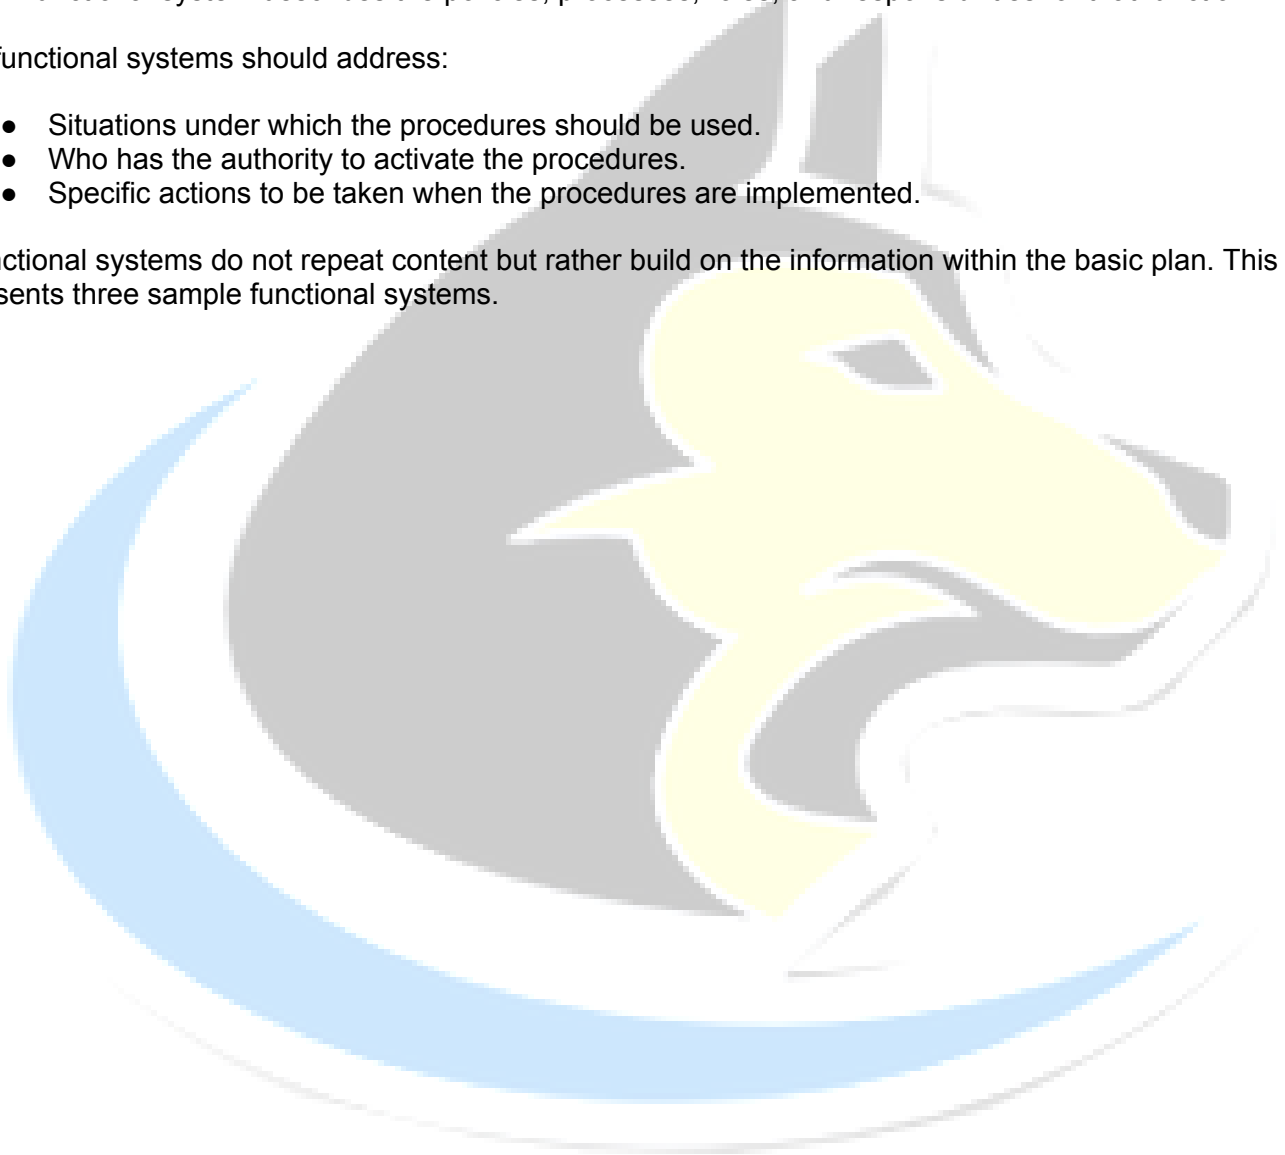

- Common procedures.
- Specialized procedures.

Each functional system describes the policies, processes, roles, and responsibilities for that function.

All functional systems should address:

- Situations under which the procedures should be used.
- Who has the authority to activate the procedures.
- Specific actions to be taken when the procedures are implemented.

Functional systems do not repeat content but rather build on the information within the basic plan. This section presents three sample functional systems.

## Standard Response Protocol (SRP)

### I. PURPOSE

When all schools work off the same plan for an immediate response, success can be achieved in keeping our students safe in all buildings and activities, in any setting throughout the state. The statewide plan includes the use of a common language, common signage, and common protocol and when applied in all schools across the state will provide the safest and most secure settings possible.

Weather events, fires, accidents, intruders and other threats to student safety are scenarios that are planned and trained for by school and district administration and staff. A statewide approach is necessary to enhance the preparation of all students, staff, and parents to respond immediately as protocol to any incident.

- For students, a common plan provides continuity of expectations and actions in any school and community setting throughout the state.
- For school staff, a common plan clarifies procedures and lends to simplified training and practice.
- The common language and protocols assist first responders with greater predictability throughout the duration of any incident.
- The expected procedures afford parents greater understanding of risk and can reduce the level of their stress.

In cases of an incident requiring a school to either secure, lockdown, evacuate and shelter or hold, the following procedure should be adhered to by students, staff, and parents.

**GUIDANCE:** SRP also acknowledges that some school incidents involve a tactical response from law enforcement, and suggests consulting with local law enforcement to share your specific, simple actions.

### II. SCOPE

The Standard Response Protocol (SRP) is based not on individual scenarios but on the response to any given situation. Like the Incident Command System (ICS), SRP demands a specific vocabulary but also allows for greater flexibility. The premise is simple - there are four specific actions that can be performed during an incident.

**Secure:** is followed by the Directive: "Get Inside. Lock Outside Doors" and is the protocol used to safeguard students and staff within the building. (Threat is outside)

**Lockdown:** is followed by "Locks, Lights, Out of Sight" and is the protocol used to secure individual rooms and keep students quiet and in place. (Threat is close to or in the building)

**Evacuate:** is always followed by a location and is used to move students and staff from one location to a different location in or out of the building. (Threat is inside)

**Shelter:** is always followed by a type and a method and is the protocol for group and self-protection. (Threat is outside)

**Hold:** means to hold in your classroom or area. Clear the halls. (No threat involved)

### III. RESPONSIBILITIES

To implement the Standard Response Protocol:

- All staff and students will undergo training and participate in incident management training and drills.
- Staff and bus drivers assigned to work with special needs students will undergo in-depth training.

- Emergency management and response personnel will review and provide input into the plan.

#### IV. SPECIALIZED PROCEDURES

## Standard Reunification Method (SRM):

### GUIDANCE: There Are Two Teams:

- The Impacted Site Team -Their Objective is to Safely Transport Students to the Reunification Site
- The Reunification Site Team -Their Objective is to Reunify Every Student that can be Reunified

### I. Purpose

One critical aspect of crisis response is accountable reunification of students with their parents or guardians in the event of a school crisis or emergency. The Standard Reunification Method provides school and district safety teams with proven methods for planning, practicing and achieving a successful reunification.

Crisis recovery starts with the crisis, not after. Without a plan to reunite students and parents, more than just the mental health demands which accompany a crisis are ignored; the responsibility of the school and district in maintaining the chain of custody for every student can be lost. No school is immune to emergencies; fires, floods, tornadoes, blizzards, power outages, bomb threats, acts of violence -- this is just a short list of events that could initiate a release and reunification for a school or district.

### II. Scope

Circumstances may occur at the school that require parents to pick up their students in a formalized, controlled release. This process is called a Reunification and may be necessary due to weather, a power outage, hazmat or if a crisis occurs at the school. The Standard Reunification Method is a protocol that makes this process more predictable and less chaotic for all involved. Because a reunification is not a typical end of school day event, a reunification may occur at a different location than the school a student attends. If this location is another school, then those students may be subject to a controlled release as well.

A predetermined, practiced reunification method ensures the reunification process will not further complicate what is probably already a chaotic, anxiety-filled scene. In fact, putting an orderly reunification plan into action will help defuse the emotion building at the site.

A reunification typically occurs because of a crisis or emergency. Consequently, not just students and parents are trying to function at extraordinary stress levels; staff, their families and other first responders also feel the strain. By having a defined process with signage, cards, branding, procedures and protocols, the school presents an organized, calm face to all involved. Fear or uncertainty often results from the unknown. By adopting, communicating and practicing a “known” procedure, the school removes some of that uncertainty.

SRM Operations Guide can be found at: <https://iloveguys.org/The-Standard-Reunification-Method.html>

### The SRM Process in a Nutshell

The materials provide the fundamentals for a comprehensive district plan. The beauty of the Standard Reunification Method is its simplicity in the following steps:

- Establish a parent check-in location.
- Deliver the students to the student staging area, beyond the field of vision of parents/guardians.
- Once students are on site, notify parents of location.
- “Greeters” direct parents/guardians to the parent check-in location and help them understand the process.
- Parents/guardians complete Reunification Cards.
- Procedure allows parents/guardians to self-sort during check in, streamlining the process.
- The “Reunifier” recovers students from the student staging area and delivers to the parent.
- Controlled lines of sight allow for an orderly flow, and issues can be handled with diminished drama or anxiety.

- Medical, notification, or investigative contingencies are anticipated.
- Pedestrian “flows” are created so lines don’t cross.
- When it’s all said and done, successful reunification is about managing the student and parent experience.

## STEP 2 CLASSROOM EVACUATION

Classrooms are individually evacuated to the Secure Assembly Area. During a Police Led Evacuation, students and staff will be asked to keep their hands visible.

If it is a Police Led Evacuation after a Lockdown, each room will be cleared by Law Enforcement personnel. This process may take up to several hours. Teacher should take attendance in the classroom, prior to evacuation.

### STUDENTS WITH DISABILITIES

The Individuals with Disabilities Act mandates additional supports for students with special education needs in a school setting. These supports would also function to provide supervision and assistance to students with disabilities during emergency situations.

# SRM Actions and

## COMMUNITY ACTION PARENTS WILL BEGIN TO ARRIVE

Parents will be arriving at the impacted school. Often with a Lockdown event, adjoining schools will go into Lockout. Parents may be arriving at those schools as well.

## REUNIFICATION SITE MOBILIZE REUNIFICATION TEAM

Contacting the Superintendent and determining the Reunification Site are among the first actions taken. If the site is another school, early release may be necessary.

# School for Transport

## STEP 3 SECURE ASSEMBLY AREA

At the Secure Assembly Area it is preferable that teachers stay with their students. If some teachers are unable to be at the Secure Assembly Area, doubling up classes with "Partner" teachers is appropriate.

## STEP 4 STUDENT AND STAFF TRANSPORT

Students and staff board the bus and are transported to the Reunification Site. Buses having audio video systems can be utilized for further accountability by having students face the camera and state their name.

# Considerations

## LAW ENFORCEMENT SUPPORT AND INVESTIGATIONS

Regardless of criminal activity, law enforcement support will be necessary at both the impacted school and the reunification site.

## FIRE AND EMS CASUALTY CARE

If necessary, Fire and EMS will establish Casualty Collection, Triage and Transport areas. Many fire departments are also willing to assist in the transport and reunification process, if they are not actively responding to crisis.

# CONTINUITY OF OPERATIONS (COOP) PLAN

## I. PURPOSE

The purpose of these Continuity of Operations Plan (COOP) is to ensure that there are procedures in place to maintain or rapidly resume essential operations within the school after an incident that results in disruption of normal activities or services to the school. Failure to maintain these critical services would significantly affect the education and/or service mission of the school in an adverse way.

Continuity of operations planning is required by Nebraska State Statute 79-2,144.

## II. SCOPE

It is the responsibility of **Shelby-Rising City Public Schools** officials to protect students and staff from incidents and restore critical operations as soon as it is safe to do so. This responsibility involves identifying hazards, threats, and incidents, and preparing for and responding to incidents, and managing the recovery. These COOP procedures are written to address these responsibilities before, during, and after times of routine work schedules. They apply to **Shelby-Rising City Public Schools**, 650 North Walnut Street, Shelby, NE 68662.

## III. RESPONSIBILITIES

The COOP plan outlines actions needed to maintain and/or rapidly resume essential academic, business, and physical services after an incident. **Shelby-Rising City Public Schools** relies on strong internal and external communication systems and partnerships with contractors and organizations to quickly recover following an incident.

**GUIDANCE:** A COOP plan should address the following nine elements to help ensure that after a large emergency that significantly impacts the school occurs, teaching and learning continues; physical aspects of the school and campus are addressed, such as identification of an alternate site and provision of classroom equipment, books, and material; business functions continue to operate; and appropriate emotional and psychological support is provided to students, teachers, and staff.

1. **GUIDANCE:** Define Essential Functions. The planning team should identify all of the functions performed by the district or school and determine which are critical and need to continue during and after an emergency. One essential function the team will likely readily identify is continuity of education, which includes teaching and learning, special education and related services, and school-based medical services and food programs. Other essential functions may include communications (internal and external), computer and systems support, facility use/maintenance, business services (e.g., payroll), and the provision of safety, security, mental and behavioral health services. Examples of non-essential functions may include after-school activities, professional development/educator training, sporting events, and field trips.

The delegation of authority and management responsibilities in event of an incident follows the hierarchy outlined in previous sections. Designated school staff/faculty COOP plan personnel, in conjunction with the principal, will perform the essential functions listed below.

All core COOP procedures personnel as well as senior staff will undergo annual training on executing the COOP procedures. Training will be designed to inform each participant of his/her responsibilities (and those of others) during implementation of COOP procedures.

Identified COOP procedures personnel will participate in exercises to test academic, physical, and business systems. Training will include testing the information technology (IT) systems and backup data including testing of offsite backup system data and IT operating systems in cooperation with the district office.

2. GUIDANCE: Create Orders of Succession. Orders of succession define who will play an active leadership role when regular leadership is unavailable. For example, the district may want to determine with the school who will serve as Interim Principal in the absence of the regular Principal. The first step in creating orders of succession is to create a list of alternates who would serve in an interim or acting capacity in the event that an administrator or manager is not available. This list should be approved by the school board and district administration.

Order of Succession

School to determine and place statements or charts here. In the table below, describe how successor(s) will be notified. List key positions, the titles of those who are the primary and secondary in the orders of succession, and any limitations for those titles. Address who will review and revise succession plans and insert completion date.

Orders of Succession				
<b>Conditions for Succession</b>	<b>Key position holder(s) are unable to execute their duties for an extended period of time.</b>			
<b>Method of Notification</b>	<i>Address how successor(s) will be notified, as well as external and internal personnel</i>			
<b>Succession by Position</b>	Key Position Title	Primary Succession Title	Secondary Succession Title	Time/Geographical/Organizational Limitations
	<b>Superintendent</b>	<b>Principals</b>	<b>Guidance Counselor</b>	
	<i>Add rows if needed</i>			
<b>Succession Revision Procedures/ Date Completed</b>	<i>Address who will review and revise the succession plans, and date revision is completed</i>			

3. GUIDANCE: Create Delegations of Authority. Delegations of authority identify what can and cannot be done by an acting leader based on his or her role or title. Again, using the Interim Principal as an example, the person should know which decisions she/he is allowed to make in the absence of the Principal. Any document that lays out delegations of authority should be reviewed by the district or school's general counsel to ensure it meets state law and district and/or local policies (for example, in the event of a pandemic, school closure requirements vary and in some states it is the local health department who has

authority while in others the district superintendent has authority to decide whether or not schools stay open or closed and whether or not students are dismissed).

Delegation of Authority

School to determine and place statements or charts here. In the table below, list key positions and their associated authorities. For each authority, identify a primary and alternate position that can assume those authorities if necessary. Include any limitations to authority (i.e., financial decisions).

Delegation of Authority			
<b>Delegated Authorities</b>	<b>Position</b>	<b>Authority</b>	
	(e.g., Principal)	(associated authorities of the principal)	
	<i>Add additional rows if needed</i>		
<b>Delegation Circumstances</b>	<p><b>Effective:</b> Principal (or other key position holders) out of contact/unable to execute duties, or authority is delegated by the Principal (or other key position holders).</p> <p><b>Termination:</b> Key position holder can assume duties once again.</p>		
<b>Assigned Authority</b>	<b>Authority</b>	<b>Primary (title)</b>	<b>Alternative (title)</b>
	<i>Add additional rows if needed</i>		
<b>Limitations</b>			

4. GUIDANCE: Identify Alternate Facilities and Locations. Depending on what are considered essential functions of the school or district, alternate locations should be identified that can be used if the primary school or its buildings can't be used. Alternate locations may include schools, administrative buildings, and other facilities. Essential functions or activities that need to be performed at an alternate location should also be identified, such as the provision of lunches through the National School Lunch Program (NSLP) or dispensing of medications. The following procedures will be followed by staff/faculty to assist in the execution of essential functions and the day-to-day operations.

**A. Activation and Relocation**

The principal will determine when to activate and implement the COOP procedures and make the decision to relocate to the alternate site. Authority for activation may be delegated. The activation may occur with or without warning. The principal or designee (with delegated authority) will activate the COOP procedures

whenever it is determined the school is not suitable for safe occupancy or functional operation. The principal will also notify the district office and provide contact information for the relocation.

**B. Alert, Notification, and Implementation Process**

Each School Safety Team member will be part of the telephone tree used to notify employees of COOP procedures activation and provide situation information, as available. Parents/guardians will be alerted and notified using the automated notification system as important information becomes available.

In the table below, identify the primary communication resources and alternates that would be used if necessary. Identify whether the alternate communications are internal or external, what data or services can be accessed, and indicate if they are redundant.

Alternative Communications				
Device type/name	Internal Capability (Y/N)	External Capability (Y/N)	Data/System/Services that can be accessed	Redundant (Y/N)

**C. Relocation Sites**

Relocation sites have been identified as locations to establish management and to implement essential functions if warranted by an incident. Each school site will have more than one potential relocation site, in different wind directions from the incident site. One site can be accessed by walking and other site(s) by transportation services. (located in reunification plan)

**D. Alternate Facilities and Strategy**

(located in reunification plan)

5. GUIDANCE: Establish Plans for Communications Continuity. Communicating with stakeholders, such as students, parents/guardians, staff, teachers, the media, and community partners is important in any emergency and can be critical to ensuring continuity of operations. Effective and regular communication allows for all relevant persons to be kept up-to-date on actions the district and school is taking and what is required of them, if anything. To ensure that the district and school will be able to communicate in an emergency, when some lines of communication may not be working, back-up and redundant systems should be identified. For example, if electrical power to the region is lost during an emergency, parents and guardians could be told ahead of time that information will be provided on a notice board in front of the school.

Interoperable Communications/Backup Sites

As noted above, the Office of State Personnel will be used as a temporary alternative site for short-term disruptions involving payroll and personnel actions.

With a longer term and/or more comprehensive incapacity of the building, **Bus Barn** is the first option for relocation. Currently the lines and services for telephones and computers at **Shelby-Rising City Public Schools** are maintained, protected, and backed up offsite by the district office.

In **Shelby-Rising City Public Schools**, the hardware and physical lines are protected by the fire prevention, humidity controls, temperature controls, and electrical generating capacity of the building itself. The telephone lines will work even during power failures. The building also has a generator for emergency power. The main computer room housing the servers on the third floor is protected by an array of optimal controls such as halon fire prevention, humidity controls, large air conditioners, and temperature controls. The rest of the building, however, is highly vulnerable to damage from fire and rapid changes in temperature and humidity. The building has no sprinkler system, and the placement of thermostats does not match the current office configuration, resulting in wide variations of temperature depending on location.

6. GUIDANCE: Create a Plan for Accessing Vital Records. Vital records can be organized into two categories: 1) Emergency operations records, which include information such as staff contact information, orders of succession, and delegations of authority; and 2) Legal and financial records, which can include information such as personnel records, payroll records, contracts, and student data information such as emergency contact cards, medical records, and education records.

Vital Records and Retention File

Vital records are archived and/or retained on backup data systems stored off site.

Vital Records: Emergency Operations Records		
Vital Record Name/Database	Location	Back-up/Alternate Record Location
Staff Contact List	ESU 7	Columbus, NE
Orders of Succession		
Delegation of Authority		

Vital Records: Legal & Financial Records		
Vital Record Name/Database	Location	Back-up/Alternate Record Location
Personnel Records		
Payroll Records		
Contracts		
Student Emergency Contact List		
Student Medical Records

7. GUIDANCE: Establish a Plan for Human Capital Management. Teachers and staff should be clear about what they are expected to do in an emergency and students and families should know how education would continue during and after a large emergency. Provisions and accommodations should also be provided for students who have an Individualized Education Program (IEP) and eligible students should still be provided medical and food services during prolonged school dismissals. Staff and teachers should have advanced training regarding their assigned essential functions.

### Human Capital Management

Employees responsible for essential functions are cross-trained. Identified special needs employees are provided Americans with Disabilities Act (ADA) accommodation and guidance in their responsibilities as well as the assistance that may be provided by coworkers in event of an incident. A coworker may assist the individual, in the appropriate capacity, to an area of safety. All personnel are also encouraged to plan for their families' well-being before a disaster strikes.

Below, indicate how your school plans to manage human capital while the COOP is activated

8. GUIDANCE: Establish Plans for Devolution. Devolution occurs when essential functions are handed over to alternate staff and teachers at another location. Although a rare occurrence, schools and districts need to prepare for a situation where a school needs to close and its administrators, teachers and staff are no longer able or available to provide support in their day-to-day roles. Procedures, guidance, and organizational structure need to be developed so that the transfer of roles and responsibilities to other administrators, staff and teachers at another school or location can go smoothly.

## Plan for Devolution

Devolution is the process of transferring operational control of one or more essential functions to a predetermined responsible party or parties. The possibility for hazards, threats, and incidents are constant. Any of these could occur at different times, have variable durations, and may differ in the severity; therefore, full or partial devolution of essential functions may be necessary to continue essential functions and services. The District has established plans and procedures for devolution, which identifies how it will transfer operations, if any of these hazards, threats, or incidents renders leadership and essential staff incapable or unavailable, as determined by the Board of Education.

The school may want to identify the plans and procedures for transfer of operations here or identify where that information is located.

Outline your devolution plan below by answering the questions below:

Who has the authority to order devolution and under what conditions?

- Superintendent has the authority when school essential functions “fail to operate”.
- .
- .

What are the triggers to activate devolution? (What are the “fail to operate” triggers?)

- Bus drivers are unable or unavailable to transport students to/from school
- .
- .

What resources are required should a devolution occur?

- eMemorandum of understanding (MOU) with other districts for bussing students
- .
- .

**9. GUIDANCE: Establish a Plan for Reconstitution.** Reconstitution occurs when educational programming is restored and teachers and staff are able to continue teaching and providing other support. The process of reconstitution can be rather complex, so districts and schools need to consider how this will be achieved quickly and efficiently.

## Reconstitution

In most instances of COOP procedures implementation, reconstitution will be a reverse execution of those duties and procedures listed above, including:

- Inform staff that the threat of or incident no longer exists and provide instructions for the resumption of normal operations.
- Supervise an orderly return to the school building.
- Conduct an after-action review of COOP operations and effectiveness of plans and procedures.

<b>Reconstitution Responsibilities</b>			
<b>Phase</b>	<b>Duties</b>	<b>Primary Responsible</b>	<b>Alternate Responsible</b>
<b>Relocation from</b>	Internal alert and notification	Superintendent	Principal
	External alert and notification	Superintendent	Principal/Maintenance

<b>alternate facility to primary (or replacement) facility</b>	Transfer equipment, vital records, data	Business Manager	Secretaries
	Transfer communications	Counselors	Maintenance
	Deployment and departure from alternate facility	Head of Transportation	Bus Drivers
	Transition to primary operations	Superintendent	Principal
	Set up at primary or replacement site	Head of Transportation	Bus Drivers
<b>Operations</b>	Execution of essential functions	Superintendent	Principals
	Execution of non-essential functions	Counselor	Secretaries
	Establishment of communications	Principals	Secretaries
	Procurement of equipment and supplies	Head of Maintenance	Custodial Staff
	Conduct a review of COOP execution and effectiveness (After Action Report)	Superintendent	Safety Team

10. GUIDANCE: The COOP procedures should be reviewed annually to assure all information is accurate and up-to-date. Staff and personnel who perform essential functions should participate in regular training and exercises to ensure they understand their role when the COOP is activated.

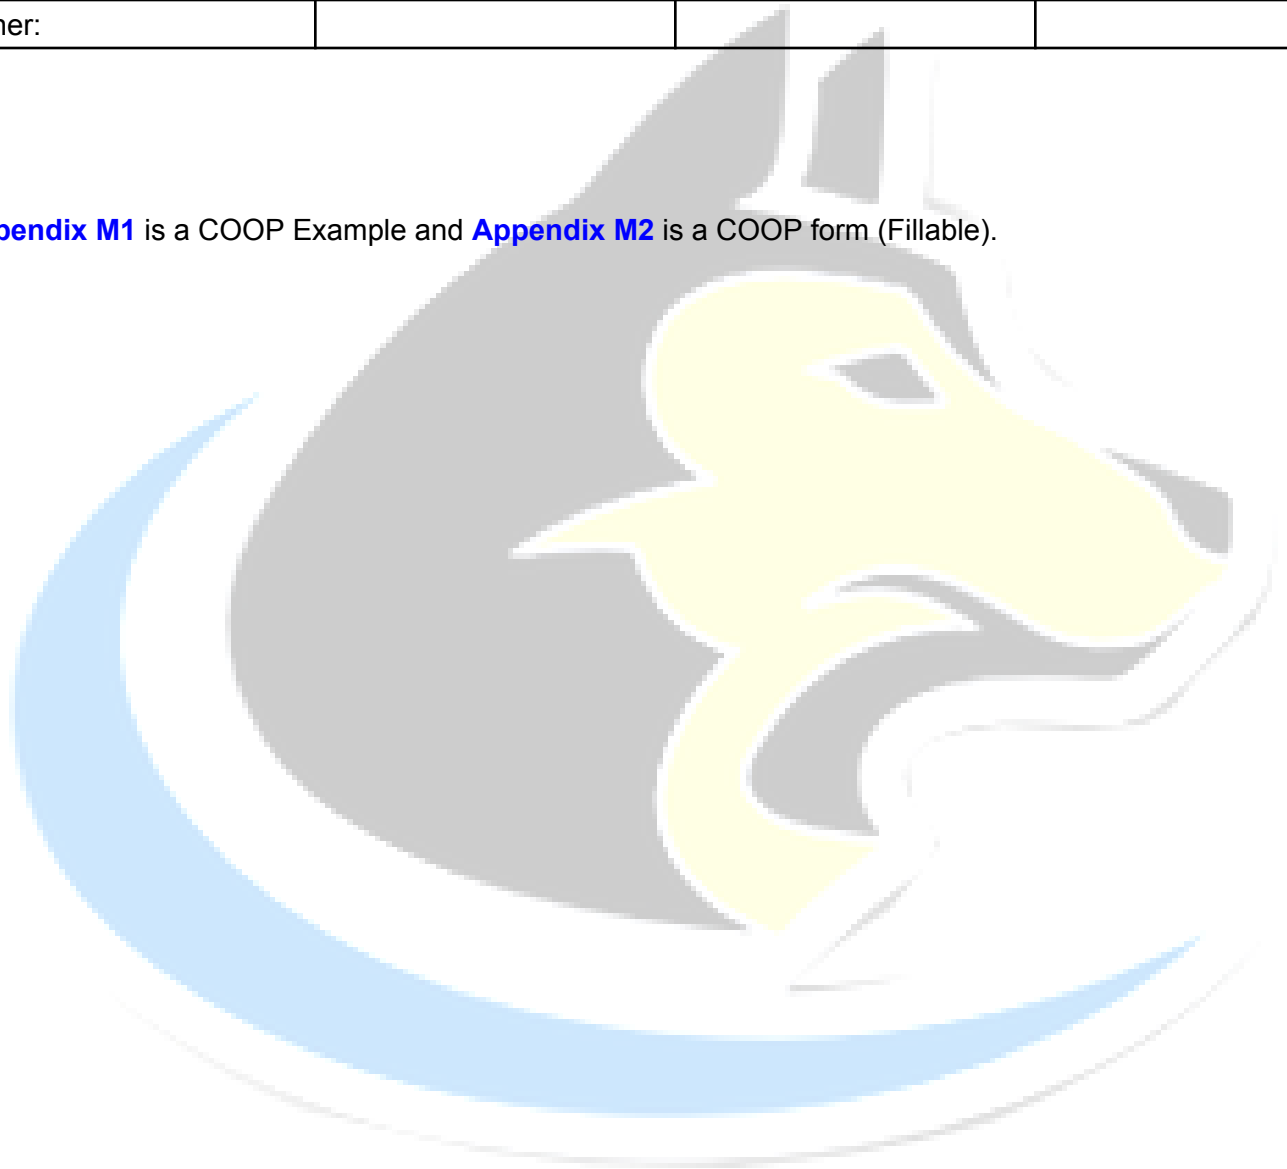

Plan Maintenance, Testing, Training, Exercising

In the table below, identify the primary and alternate persons responsible for carrying out COOP maintenance activities, and the date they were completed.

# **RECOVERY: PSYCHOLOGICAL HEALING PROCEDURES/PSYCHOLOGICAL FIRST AID (PFA)**

## **I. PURPOSE**

These procedures have been developed to provide an emotional support to students/staff impacted by trauma at school or in the community.

Psychological First Aid (PFA) is an evidence-informed intervention model to assist students, families, school personnel, and school partners in the immediate aftermath of an emergency. PFA is designed to reduce the initial distress caused by emergencies, and to foster short- and long-term adaptive functioning and coping. The principles and techniques of PFA meet five basic standards. They are:

1. Consistent with research evidence on risk and resilience following trauma.
2. Respectful of and consistent with the school administration of the academic setting, school culture, and the behavior (code of conduct) of students.
3. Applicable and practical in field settings.
4. Appropriate for developmental levels across the lifespan.
5. Delivered in a culturally-informed and flexible manner.

PFA assumes that students and staff members may experience a broad range of early reactions (e.g., physical, cognitive, psychological, behavioral, spiritual) following an emergency. Some of these reactions can cause distress that interferes with adaptive coping, but support from informed, compassionate, and caring professionals can help students and staff members recover from these reactions. PFA has the potential to mitigate the development of severe mental health problems or long-term difficulties in recovery by identifying individuals who may need additional services and linking them to such services as needed.

Following a traumatic event or incident, the following outcomes should be possible through the implementation to assist students, staff, and their families in the healing process.

- To establish a positive connection with students and staff members in a non-intrusive, compassionate manner.
- To enhance immediate and ongoing safety and provide physical and emotional comfort.
- To calm and orient emotionally overwhelmed or distraught students and staff.
- To help students and staff members identify their immediate needs and concerns.
- To offer practical assistance and information to help students and staff members address their immediate needs and concerns.
- To connect students and staff members as soon as possible to social support networks, including family members, friends, coaches, and other school or community groups.
- To empower students, staff, and families to take an active role in their recovery, by acknowledging their coping efforts and strengths, and supporting adaptive coping.
- To make clear your availability and (when appropriate) link the student and staff to other relevant school or community resources such as school counseling services, peer support programs, after-school activities, tutoring, primary care physicians, local recovery systems, mental health services, employee assistance programs, public-sector services, and other relief organizations.

Whether conducting school vulnerability assessments or adopting an intervention such as PFA, schools organize safety initiatives based on the four-part emergency management cycle. The four-part emergency management cycle includes:

### **A. Prevention phase**

Schools both assess and address building security, the safety and integrity of facilities, the culture/ climate of schools, and the need for secondary prevention mental health programs.

## **B. Preparedness phase**

Schools facilitate a rapid, coordinated, and effective response in the event of an actual emergency by taking the following steps:

- Refining emergency management plans and emergency procedures in collaboration with key members of the emergency response community. (fire and police departments, disaster services, and public health)
- Periodically reviewing and reinforcing emergency plans and procedures with staff.
- Defining building-level and district-level Incident Command System (ICS) structures.
- Implementing staff training on various topics, including parent-student reunification and PFA.
- Conducting emergency simulations in collaboration with outside agencies.
- Developing and regularly updating a list of providers trained in PFA.

## **C. Response phase**

Action is taken to effectively contain and resolve an emergency and to decrease the potential for such an emergency to escalate. During this phase, the school executes the emergency management plan and emergency procedures and initiates preliminary activation of the PFA teams. Although the response phase may have a clear ending point for emergency response agencies, the transition into the fourth phase, recovery, may be less distinct.

## **D. Recovery phase**

Steps are taken to assist students, staff, and their families in the recovery process and to restore educational operations in schools. This phase involves conducting damage assessments and making repairs, implementing business continuity plans, and addressing grief and stress reactions. The very early stages of the recovery phase (hours or days after an emergency) are the most appropriate time to deliver PFA. Depending on the nature of the incident, recovery may be a long-term process. PFA is an acute intervention; for information about longer-term interventions appropriate for students and families who have lingering or severe symptoms, go to [www.NCTSN.org](http://www.NCTSN.org) for a review of evidence-based interventions and treatments.

## **II. SCOPE**

PFA is most effective immediately following the incident (e.g., from one hour to a couple of weeks after an event). In some circumstances, assuming the safety of students and staff has been ensured, PFA can be initiated while an incident is still occurring, such as in shelter or lockdown situations.

PFA is intended for students, school personnel, and their families who have been exposed to a disaster or other emergency. Whether an emergency occurs on school grounds or in the community at large, schools serve as a central location for professionals to assist children, families, school personnel, and school partners.

The following procedures outline steps to be taken by staff/students following a trauma, a serious injury or death, and/or a major incident impacting the community. Mental health professionals available in the school community such as nurses and social workers are required to participate in the development, implementation, and evaluation of the School EOP as it relates to this system. Additional advice will be sought from outside psychologists and mental health experts.

- 1. Contact and Engagement Goal:** To initiate contacts or to respond to contacts by students and staff in a non-intrusive, compassionate, and helpful manner.

2. **Safety and Comfort Goal:** To enhance immediate and ongoing safety, and provide physical and emotional comfort.
3. **Stabilization (if needed) Goal:** To calm and orient emotionally overwhelmed or disoriented students and staff.
4. **Information Gathering: Current Needs and Concerns Goal:** To identify immediate needs and concerns, gather additional information, and tailor Psychological First Aid for Schools interventions to meet these needs.
5. **Practical Assistance Goal:** To offer practical help to students and staff in addressing immediate needs and concerns.
6. **Connection with Social Supports Goal:** To help establish brief or ongoing contacts with primary support persons or other sources of support, including family, friends, teachers, and other school and/or community resources.
7. **Information on Coping Goal:** To provide information about stress reactions and coping to reduce distress and promote adaptive functioning.
8. **Linkage with Collaborative Services Goal:** To link students and staff with available services needed at the time or in the future.

These core actions of Psychological First Aid constitute the basic objectives of providing early assistance within hours, days, or weeks following an event. Be flexible and base the amount of time you spend on each core action on the person's specific needs and concerns.

### III. RESPONSIBILITIES

To implement the recovery of psychological healing procedures:

- All staff will undergo training to learn how to recognize signs of trauma.
- Members of the Psychological First Aid Team (PFA) will undergo in-depth training to learn how to assist in managing trauma.
- Parents and guardians will be offered tips on how to recognize signs of trauma.
- Mental health experts will review and provide input into the plan.

### IV. SPECIALIZED PROCEDURES

The following procedure will be implemented by staff/faculty when directed by the principal or when deemed appropriate by the situation.

#### **Immediately Following a Serious Injury or Death and/or Major Incident:**

- Convene a staff meeting immediately to discuss how the situation is being handled and to discuss what resources are available to staff, students, and families. (refer to the communication procedures in the basic plan)
- Set up support rooms. (include PFA team and outside mental health professionals to assist)
- Encourage teachers to read the script about the incident and allow students to openly discuss feelings, fears, and concerns shortly after the incident. Avoid specific details of the incident, just basic facts. Any students who are excessively distraught should be referred to the PFA Team.
- Designate a place for staff, students, and community members to leave condolences, well-wishes, messages and items, and determine a standard amount of time for those items to remain.

#### **Hospital/Funeral Arrangements:**

- Provide staff with information regarding visitation and/or funeral arrangements (time, location, customs) when available. If the funeral is scheduled during a school day, all students and staff will be excused from school.

- Encourage staff and students to attend the funeral to provide support for the family and bring closure to the incident.
- Designate staff person(s) to visit the hospital and/or attend the funeral to represent the school.

**Post-Incident Procedures:**

- Allow for changes in normal routines or schedule to address injury or death; however, recommend students and staff return to their normal routine as soon as possible after the funeral.
- Follow up with students and staff who receive counseling and refer them to outside mental health professionals as needed.

## Hazard- and Threat - Specific Systems:

### GUIDANCE:

#### The hazard- and threat- specific systems:

- Provide unique procedures, roles, and responsibilities that apply to a specific hazard.
- Include provisions and applications for warning the public and disseminating emergency public information.
- Only list information one time without repeating from the basic plan or functional systems.

Repeating information is not advisable for the following reasons:

- School staff and students should learn and exercise simple procedures that apply to all hazards. The hazard-specific annexes should present only hazard-unique information.
- Repeating procedures increases the possibility that there will be inconsistencies in procedures that could lead to confusion during an incident.
- The plan becomes larger and more difficult for users to comprehend.

Refer to the following Appendices:

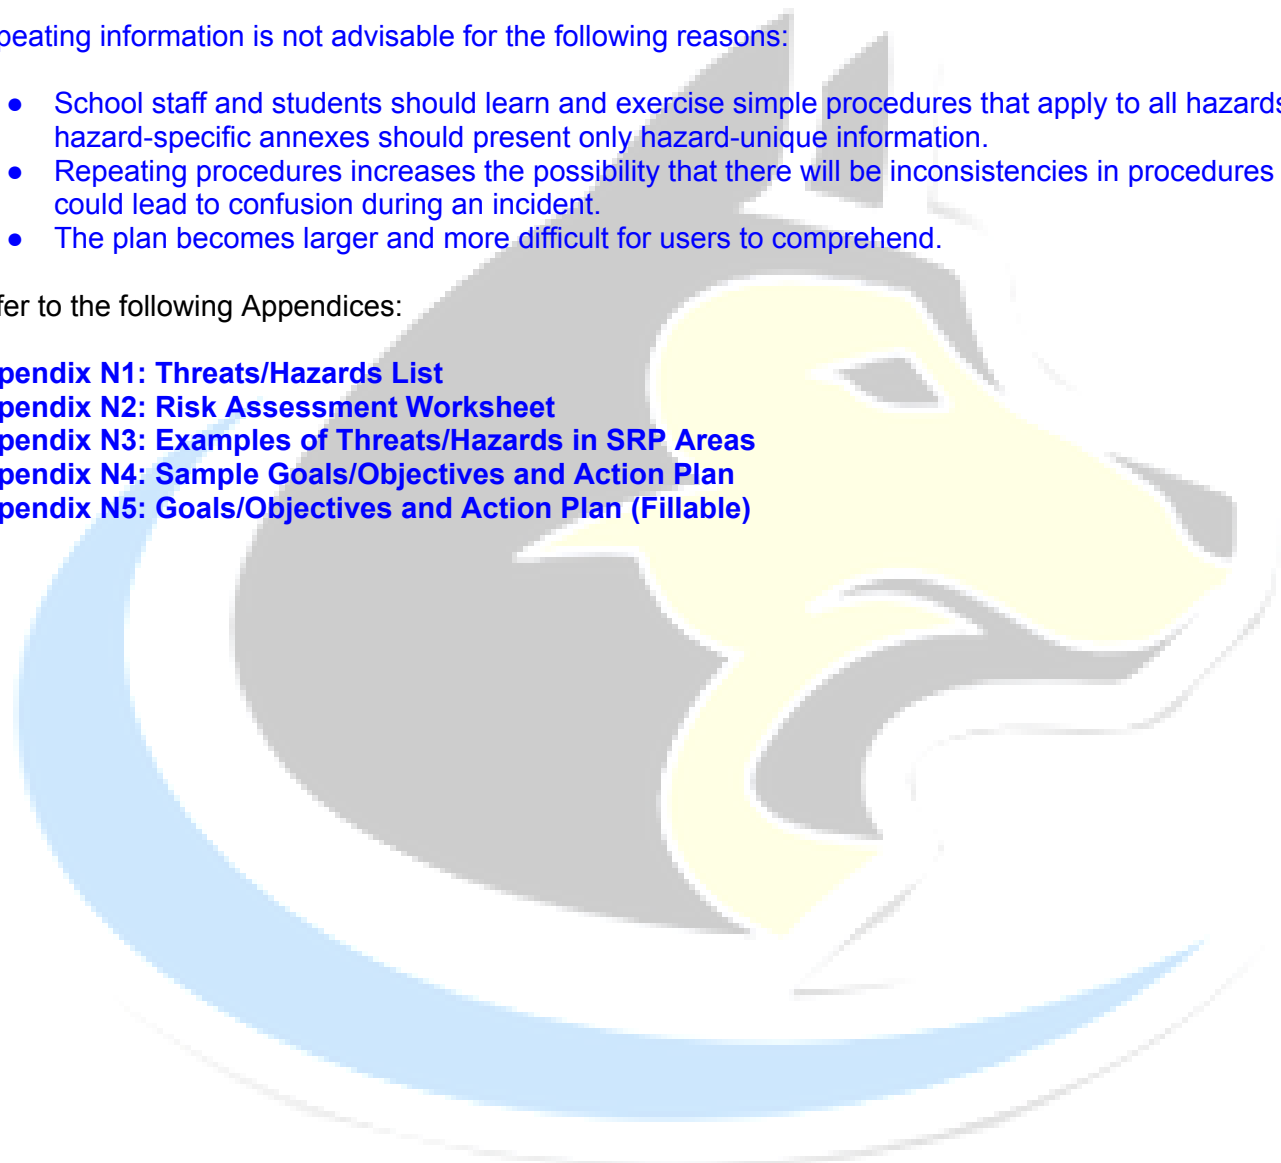

**Appendix N1: Threats/Hazards List**

**Appendix N2: Risk Assessment Worksheet**

**Appendix N3: Examples of Threats/Hazards in SRP Areas**

**Appendix N4: Sample Goals/Objectives and Action Plan**

**Appendix N5: Goals/Objectives and Action Plan (Fillable)**

## GLOSSARY OF TERMS

**Command Staff:** A group of incident personnel that the Incident Commander or Unified Command assigns to support the command function at an ICP. Command staff often include a PIO, a Safety Officer, and a Liaison Officer, who have assistants as necessary. Additional positions may be needed, depending on the incident.

**COOP:** The purpose of Continuity of Operations (COOP) procedures is to ensure that there are procedures in place to maintain or rapidly resume essential operations within the school after an incident that results in disruption of normal activities or services to the school. Essential functions include business services (payroll and purchasing), communication (internal and external), computer and systems support, facilities maintenance, safety and security, and continuity of teaching and learning.

**Drill:** A coordinated, supervised activity usually employed to validate a specific operation or function in a single agency or organization. Drills are commonly used to provide training on new equipment, develop or validate new policies or procedures, or practice and maintain current skills. During drills, school personnel and community partners (i.e., first responders, local emergency management staff) use the actual school grounds and buildings to practice responding to a scenario.

**Emergency Operations Center (EOC):** An EOC is a facility from which staff provide information management, resource allocation and tracking, and/or advanced planning support to personnel on scene or at other EOCs (e.g., a state center supporting a local center).

**Emergency Operations Plan (EOP):** (formerly called Safety Plan) An ongoing plan for responding to a wide variety of potential threats and hazards.

**Exercise:** An instrument to train for, assess, practice, and improve performance in prevention, protection, response, and recovery capabilities in a risk-free environment. Exercises can be used for testing and validating policies, plans, procedures, training, equipment, and interagency agreements; clarifying and training personnel in roles and responsibilities; improving interagency coordination and communications; improving individual performance; identifying gaps in resources; and identifying opportunities for improvement.

**Evacuate:** is always followed by a location and is used to move students and staff from one location to a different location in or out of the building. (Threat is inside)

**Hazards:** Hazards include situations to harm students, personnel, and/or facilities. Hazards usually include those things that we cannot control, such as tornadoes, floods, and chemical spills. Hazards may require an interagency response involving law enforcement and/or emergency services depending on the size and scope of the incident.

**Hold:** means to hold in your classroom or area. Clear the halls. (No threat involved)

**Incident:** An incident is an occurrence that requires a response to protect life or property. An incident is something that we most likely cannot control, such as car accidents, pandemics, and illness. The superintendent/principal/building administrator shall have the authority to determine when an incident has occurred and to implement the procedures within this EOP.

**Incident Command System (ICS):** A standardized on-scene emergency management construct specifically designed to provide an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating within a common organizational structure, designed to aid in the management of resources during incidents. It is used for all kinds of emergencies and is applicable to small as well as large and complex incidents. ICS is used by various jurisdictions and functional agencies, both public and private, to organize field-level incident management operations.

**Incident Management:** The broad spectrum of activities and organizations providing effective and efficient operations, coordination, and support applied at all levels of government, utilizing both governmental and nongovernmental resources to plan for, respond to, and recover from an incident, regardless of cause, size, or complexity.

**Local Emergency Operations Plan (LEOP):** The School EOP has been developed to fit into the larger local county or local EOP in the case of a large-scale incident. Staff members that maintain and exercise the plan are in frequent contact with the County/City Emergency Manager and the County/City Emergency Management Department.

**Lockdown:** is followed by "Locks, Lights, Out of Sight" and is the protocol used to secure individual rooms and keep students quiet and in place. (Threat is close to or in the building)

**Memorandum of Understanding (MOU) Agreement:** A written or oral agreement between and among agencies/organizations and/or jurisdictions that provides a mechanism to quickly obtain assistance in the form of personnel, equipment, materials, and other associated services. The primary objective is to facilitate the rapid, short-term deployment of support prior to, during, and/or after an incident.

**National Incident Management System:** A set of principles that provides a systematic, proactive approach guiding government agencies at all levels, nongovernmental organizations, and the private sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life or property and harm to the environment.

**Prevention:** The capabilities necessary to avoid, prevent, or stop a threatened or actual act of terrorism. For the purposes of the prevention framework called for in PPD-8, the term "prevention" refers to preventing imminent threats.

**Psychological First Aid Team (PFA):** Psychological First Aid for Schools (PFA) is an evidence-informed intervention model to assist students, families, school personnel, and school partners in the aftermath of an emergency. PFA is designed to reduce the initial distress caused by emergencies, and to foster short- and long-term adaptive functioning and coping.

**Psychological First Aid Team** The school team that assists in carrying out the PFA plan.

**Public Information:** Processes, procedures, and systems for communicating timely, accurate, and accessible information on an incident's cause, size, and current situation; resources committed; and other matters of general interest to the public, responders, and additional stakeholders (both directly affected and indirectly affected).

**Recovery:** The capabilities necessary to assist communities affected by an incident to recover effectively.

**Response:** The capabilities necessary to save lives, protect property and the environment, and meet basic human needs after an incident has occurred.

**Risk:** The potential for an unwanted outcome resulting from an incident, event, or occurrence, as determined by its likelihood and the associated consequences.

**Section Chiefs:** The General Staff consists of the Operations, Planning, Logistics, and Finance/Administration Section Chiefs. These individuals are responsible for the functional aspects of the incident command structure. The Incident Commander or Unified Command activates these section chiefs as needed. These functions default to the Incident Commander or Unified Command until a section chief is assigned. The section chiefs may have one or more deputies as necessary.

**Secure** is followed by the Directive: "Get Inside. Lock Outside Doors" and is the protocol used to safeguard students and staff within the building. (Threat is outside)

**Shelter** is always followed by a type and a method and is the protocol for group and self-protection. (Threat is outside)

**SRM:** Standard Reunification Method: Circumstances may occur at the school that require parents to pick up their students in a formalized, controlled release. This process is called a reunification and may be necessary due to weather, a power outage, hazmat or if a crisis occurs at the school. The SRM is a protocol that makes this process more predictable and less chaotic for all involved.

**SRP:** Standard Response Protocol: The SRP is based on four actions, Lockout, Lockdown, Evacuate, and Shelter. In the event of an emergency, the action and appropriate direction will be called on the PA system. (new version not on website yet).

**Tabletop Exercises:** Tabletop exercises are small-group discussions that walk through a scenario and the courses of action a school will need to take before, during, and after an emergency to lessen the impact on the school community. This activity helps assess the plan and resources and facilitates an understanding of emergency management and planning concepts.

**Threat:** Threats include situations to harm students, personnel, and/or facilities. Threats usually include those things that we can control, such as active killer, bullying, and suicide. Threats may require an interagency response involving law enforcement and/or emergency services depending on the size and scope of the incident.

## REDEFINE IMPOSSIBLE

### JAMES LAWRENCE

**THURSDAY MORNING OPENING SPEAKER - 8:15 TO 9:30 AM**

Known as The Iron Cowboy for the signature cowboy hat he wears while running races so his five kids can see him coming from far away, James Lawrence is an ultra-endurance athlete who has pushed himself beyond what many doctors previously believed to be physiologically possible. In so doing, he has redefined both mental toughness and physical endurance. James spent a decade in the mortgage and finance business before losing it all in the financial crisis of 2008. At rock bottom, his career as the greatest endurance athlete on the planet started quite humbly, struggling to complete a local 4-mile fun run with his wife, Sunny. Inspired by that experience, on that day he learned a lesson that has served him well ever since. "I quickly realized that 'hard' looks different for everyone. Back then, four miles was really difficult for me. But I learned that one of the most important things in life is simply showing up." Today, James is one of the most dynamic, inspiring, larger-than-life keynote speakers in the world, is a best-selling author and the subject of a critically acclaimed feature film. He continues to redefine the impossible in his own life, while teaching audiences around the world to do the same in their own lives.

## THRIVING AS A TEAM WITH THE 3 C'S

### DR. JERMAINE DAVIS

**THURSDAY LUNCHEON SPEAKER - 12:30 TO 2:00 PM**

Dr. Jermaine's presentation "Thriving as a Team" will bring a new and fresh perspective to your team. His guidance will help your team focus on keeping "the main thing the main thing." Courageous conversations, cohesive cooperation, and committed collaboration are possible! Applying his practical and down-to-earth Dump Your Slump Model & Research, Dr. Jermaine's leadership expertise is rooted in his professional experience, academic research, and personal journey, giving him a real-world perspective that resonates. Born and raised in the Henry Horner Housing Projects on Chicago's West Side, Dr. Jermaine learned early that resilience wasn't just a skill—it was a necessity to survive and thrive. After losing six family members, including his youngest brother, Lil' Greg, to violence, he made a promise to break the cycle. Through mentorship, education, and determination, he became the first in his family to graduate from college, earning a B.A. in Speech Communication, an M.A. in Speech Communication, and a Doctorate in Organizational Leadership.

## INVISIBLE THREADS: PRIVACY IN THE WORLD OF AI

### JOE TOSCANO

**FRIDAY LUNCHEON SPEAKER - 11:45 AM TO 1:15 PM**

Joe Toscano is an award-winning designer, author of Automating Humanity, and former Google consultant who left the tech industry over concerns about data misuse. Now based in Omaha, he works globally to promote ethical innovation, support privacy legislation, and raise awareness about the dark side of big tech. You may recognize Joe from Netflix's The Social Dilemma, his TEDx Talk "Want to work for Google? You already do," or his appearances on major news outlets. In "Invisible Threads," Joe explores the critical intersection of privacy and AI. He reveals how modern data flows impact our lives, highlights the ethical challenges of AI, and offers forward-thinking solutions to protect privacy in a connected world. This talk is essential for anyone shaping or navigating the digital future.

We will also share various "culture game plans" and an emphasis on E+R=O leadership.

**PRESENTER: Mike Lucas - Westside Community Schools**

### A5 DOLLARS AND SENSE: BOARD MEMBER PERSONAL LIABILITY AND RELATED CONCERNS

It's already an unpaid volunteer job, and now you're telling me I could be personally liable?! Sometimes, maybe, possibly, yes. This presentation will focus on those situations where school board members (and superintendents) could face allegations leading to personal liability (i.e., money out of your own pocket), criminal sanctions, and even removal related to service on the school board. Don't fret too much--it doesn't happen often, but it's worth knowing when those situations could arise and how to navigate them!
