**American Civics Compliance Update (per §79-724) Board
of Education Update
February 13, 2023**

79-724. Committee on American civics; created; duties; school board, State Board of Education, and superintendent; duties.

It is the responsibility of society to ensure that youth are given the opportunity to become competent, responsible, patriotic, and civil citizens to ensure a strong, stable, just, and prosperous America. Such a citizenry necessitates that every member thereof be knowledgeable of our nation's history, government, geography, and economic system. The youth in our state should be committed to the ideals and values of our country's democracy and the constitutional republic established by the people. Schools should help prepare our youth to make informed and reasoned decisions for the public good. Civic competence is necessary to sustain and improve our democratic way of life and must be taught in all public, private, denominational, and parochial schools. A central role of schools is to impart civic knowledge and skills that help our youth to see the relevance of a civic dimension for their lives. Students should be made fully aware of the liberties, opportunities, and advantages we possess and the sacrifices and struggles of those through whose efforts these benefits were gained. Since young people are most susceptible to the acceptance of principles and doctrines that will influence them throughout their lives, it is one of the first duties of our educational system to conduct its activities, choose its textbooks, and arrange its curriculum in such a way that the youth of our state have the opportunity to become competent, responsible, patriotic, and civil American citizens.
