class="printanswersanswertext">The â€œFostering Connections in Education
Initiativeâ€� in Nebraska is tasked to improve cross-systems information sharing,
school stability, and academic outcomes for systems-involved students. These
students undergo multiple transitions, including changes in residential placement,
school and legal status. The majority are involved in the child welfare,
juvenile/criminal justice, and behavioral health care systems, with a significant
portion being State and Court wards. Many have behavioral health and/or disability
diagnoses.   This population represents the â€œneediest of the needy studentsâ€�
who are often lost and forgotten in the â€œsystem.â€� The needs of this population
are exacerbated in rural areas which lack an appropriate array of facilities and
services to meet the complexity of needs represented by this population. The
Nebraska Department of Education (NDE) with the Education Service Unit Coordinating
Council (ESUCC) have collaborated with the Nebraska Supreme Court, the Nebraska
Commission on Law Enforcement and Criminal Justice, the Nebraska Department of
Health and Human Services (DHHS), the Nebraska Foster Care Review Office, and the
State Office of Probation Administration to define the framework for sharing and
using data between the agencies as students move in and out of the various
jurisdictions. The proposed project builds upon the statewide data infrastructure
being developed by NDE and ESUCC to add the necessary connections between agencies.
The project will provide the appropriate and timely student-level data and
visualizations to best serve the needs of this special population at every step of
the process. The project will also synthesize and apply the necessary data to
support research, policy and procedure, and professional development in this
critical area.</td></tr>   <tr class="printanswersgroup"><td
