TO: Board of Trustees

FROM: Anthony Sorola, Associate Superintendent – District Operations

SUBJECT: **DISCUSSION OF AND REQUEST FOR APPROVAL OF AIA DOCUMENT G802-2017 AMENDMENT TO THE PROFESSIONAL SERVICES AGREEMENT FOR PARKHILL – PERMIAN HIGH SCHOOL AUDITORIUM**

DATE: April 21, 2026

The ECISD Board of Trustees previously approved a Standard Form of Agreement Between Owner and Architect (B101 - 2017) with Parkhill to provide design services with regard to the Permian High School Auditorium renovation project. Since that agreement was executed, the District also executed a Guaranteed Maximum Price Amendment (A133-2019 Exhibit A) with Teinert Construction to provide construction services with regard to the same project. Within the A133-2019 Exhibit A agreement that was approved, the construction cost of the project proposed by Teinert Construction was $9,895,288.

The Administration requests that the Board approve AIA Document G802-2017 Amendment to the Professional Services Agreement for Parkhill – Permian High School Auditorium. The G802-2017 amends the district's contract (B101-2017) with Parkhill to reflect the construction cost proposed by Teinert Construction and approved by ECISD. Amending the construction cost is necessary since the cost of Parkhill's services is based on a percentage of the project construction cost.

.2 The Architect shall submit design documents to the Owner at intervals appropriate to the design process as designated in this Agreement, as amended, for purposes of evaluation and approval by the Owner's Board of Trustees or the Board's designee, as specified herein. The Architect shall be entitled to rely on approvals received from the Owner's Board of Trustees or the Board's designee in the further development of the design, provided that nothing herein shall relieve Architect of responsibility or liability for its failure to provide its services in accordance with the Standard of Care.

§ 3.1.2 The Architect shall coordinate its services with those services provided by the Owner and the Owner's consultants in accordance with 19 TAC Section 61.140. The Architect shall be entitled to rely on, and shall not be responsible for, the accuracy, completeness, and timeliness of, services and information furnished by the Owner and the Owner's consultants. The Architect shall provide prompt written notice to the Owner if the Architect becomes aware of any error, omission, or inconsistency in such services or information. Architect shall also promptly respond in writing to notices from Owner regarding Owner's discovery of errors, omissions, or inconsistencies, and, if requested, shall promptly meet with Owner regarding same. Owner's notice or lack of notice shall not relieve Architect of any responsibility or liability for performance of Architect's contracted services.

§ 3.1.3 As soon as practicable after the date of this Agreement, the Architect shall submit for the Owner's approval a schedule for the performance of the Architect's services including the dates of Architect's design services and the completion of documentation required of the Architect. The schedule initially shall include anticipated dates for the commencement of construction and for Substantial Completion and Final Completion of the Work as set forth in the Initial Information. The schedule shall include allowances for periods of time required for the Owner's and Contractor's review, for the performance of the Owner's consultants, and for approval of submissions by authorities having jurisdiction over the Project. The schedule shall also include commencement of construction, timed sufficiently to achieve Owner's proposed dates of Substantial Completion and Final Completion as stated in this Agreement, as amended, and within Owner's budget. Once approved by the Owner, time limits established by the schedule shall not, except for reasonable cause, be exceeded by the Architect. With the Owner's prior written approval for reasonable cause, the Architect shall adjust the schedule, if necessary, as the Project proceeds until the commencement of construction. If Contractor is a Construction Manager-at-Risk, then the Architect shall reasonably cooperate with the Construction Manager-at-Risk in the preparation and periodic update of the Project schedule.

.1 Architect shall also review and search all building codes applicable to the Project, and shall reasonably comply with all applicable codes in the design and construction of the Project, as required by 19 TAC § 61.1040(e)(5)(C), and (j)(1) and (2), including without limitation, design of storm shelters, and use of a third-party code compliance officer where code compliance will not be enforced by a state or local authority having jurisdiction ("building code official"). Architect shall coordinate and prepare a proposed statement of any special inspections or testing required in accordance with the required construction codes, customizing the proposed statement based on knowledge about the project regardless of whether the statement requires testing and inspection to be less than the default requirements of the required construction codes, including materials testing, project-specific requirements for special inspections and testing, specific wind and seismic requirements, frequency of the special inspections, or tests to be performed in accordance with the referenced standard defining the inspection. 19 TAC Section 61.1040(e)(6)(D). Architect shall ensure that the Construction Documents are of sufficient clarity to indicate the timing, location, nature, and extent of specific inspections and tests required to be performed by the Owner through the local authority having jurisdiction, the third-party code compliance officer, any third-party special inspector or inspection agency, or the Architect if qualified as a special inspector and specified as a contractual term. 19 TAC Section 61.1040(e)(6)(E). A building permit issued by a local authority having jurisdiction or a third-party code compliance officer shall be considered by the Owner to indicate that the proposed statement of special inspections is approved and constitutes the code-required inspections and tests. 19 TAC Section 61.1040(e)(6)(F). The Contractor, before beginning construction, shall submit to the Owner, Architect, and the building code official or third-party code compliance officer an acknowledgement of the Contractor's responsibility to notify quality assurance personnel that will be performing inspections and tests when the Project is ready for those specific inspections and tests and the Contractor's responsibility to request and obtain a final report from each quality control person performing the code-required inspections and tests before requesting a certificate of occupancy. 19 TAC Section 61.1040(e)(6)(G). Architect shall certify that he has reviewed the standards contained in 19 TAC Section 61.1040, and used reasonable care in accordance with the Standard of Care. Architect shall also certify that the Construction Documents are in reasonable accordance with the provisions of 19 TAC Section 61.1040, except as indicated on the certification. Architect shall perform a building code search under applicable regulations that may influence the Project, and shall certify that the design has been researched before it is final, as required by 19 TAC Section 61.1040. Architect shall also certify that the facilities have been designed according to the provisions of 19 TAC Section 61.1040, based on the educational program, long-range school facility plan, educational specifications, building code specifications, and all documented changes to the Construction Documents provided by the District, as required by 19 TAC Section 61.1040 and shall certify the Project has been designed in reasonable compliance with Owner's long-range facility plan, educational specifications, school facility standards, and facility space as determined by Owner's Qualitative or Quantitative evaluation of compliance for space standards. Architect shall complete the Texas Education Agency's Certification of Project Compliance, located at www.tea.state.tx.us. In executing the certifications required under the provisions of this Section, Architect shall exercise his/her reasonable professional judgment and care consistent with the Standard of Care. Architect shall design the Project in such a manner that the Project or each part of the Project is readily accessible to and usable by individuals with disabilities, in compliance with the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, federal regulations interpreting the Americans with Disabilities Act and Section 504, Texas Government Code Chapter 469, the Texas Accessibility Standards, all applicable requirements or standards of the Texas Department of Licensing and Regulation, and all applicable requirements or standards of the American National Standards Institute. It shall be the responsibility of Architect to inform all parties of revisions or amendments to applicable codes or standards which become effective prior to the issue of applicable building permits. Revisions or amendments to applicable codes or standards which become effective after the date of issue of applicable building permits shall be noted (including any additionally required project documentation and related project revisions) by the Architect, and shall be compensated as an Additional Service pursuant to Section 4.2.1.2, if applicable to the Project and required for Final Completion.

§ 3.1.5 The Architect shall contact governmental authorities required to approve the Construction Documents and entities providing utility services to the Project. The Architect shall comply with applicable design requirements imposed by those authorities and entities.

§ 3.1.6 The Architect shall assist the Owner in connection with the Owner's responsibility for filing documents required for the approval of governmental authorities having jurisdiction over the Project. When the services under this Agreement include contract administration services, the General Conditions of the Contract for Construction shall be the edition of AIA Document A201-2017, as amended for this Project as of the date of this Agreement, and Architect herein agrees to abide by same. Architect agrees that the AIA Document A201-2017 may be subject to subsequent amendments based upon negotiations between Owner, Architect and Contractor. As a condition of further service, Architect shall provide to Owner a signed statement stating Architect's agreement to adhere to any such negotiated amendments which may cause an adjustment in the Architect's compensation and must be mutually agreed upon by the Owner and Architect in writing before proceeding.

Trustees, or the Board's designee; provided, however, this approval shall not relieve Architect of Architect's responsibility and liability to provide documents which are sufficient for Owner to complete the construction of the Project, and are free from material defects or omissions. Architect shall bear full responsibility for, and all resulting excess costs incurred by Architect in, proceeding without required approval.

§ 3.3 Design Development Phase Services

§ 3.3.1 Based on the Owner's approval of the Schematic Design Documents, and on the Owner's authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, the Architect shall prepare Design Development Documents for the Owner's approval. The Design Development Documents shall illustrate and describe the development of the approved Schematic Design Documents, shall refine the Project design, and shall consist of drawings and other documents including plans, sections, elevations, typical construction details, and diagrammatic layouts of building systems to fix and describe the size and character of the Project as to architectural, structural, mechanical and electrical systems, and other elements outlined in this Agreement. The Design Development Documents shall also include outline specifications that identify major materials and systems and establish, in general, their quality levels.

§ 3.3.2 The Architect shall update the opinion of the Cost of the Work. As the design process progresses through the end of the preparation of the Construction Documents, the Architect, and if applicable, the Construction Manager at Risk, shall prepare a preliminary opinion of the Cost of the Work. The Architect shall advise the Owner of any adjustments to previous opinions of the Cost of the Work indicated by changes in Project requirements or general market conditions. The Architect shall cooperate with the Owner, and if applicable, the Construction Manager at Risk, in developing and designing the Project to satisfy Owner's budgetary constraints, programmatic needs and expectations as to quality, functionality of systems, maintenance costs, and usable life of the equipment and facilities. If the Architect's opinion of the Cost of the Work exceeds the Owner's budget, then the Architect shall redesign elements to achieve cost savings within the Scope of the Work, but in doing so, shall not delete any essential element of the Project. Architect shall present the redesign to Owner for Owner's approval as provided in § 3.3.3, and, in doing so, shall notify Owner in writing of the actions taken to bring the Project into Owner's budget. If Architect is unable to redesign the Project to meet Owner's budgetary, programmatic and quality needs, then the Architect shall make appropriate written recommendations to the Owner to adjust the Project's size, quality or budget, and the Owner shall cooperate with the Architect in making such adjustments, with Owner having the right to approve or reject such recommendations.

§ 3.3.3 The Architect shall submit the Design Development Documents to the Owner, advise the Owner of any adjustments to the opinion of the Cost of the Work, redesign the Project to comply with Owner's budget, and request the Owner's approval. Architect shall not proceed to the Construction Documents Phase without the approval of Owner's Board of Trustees, or Board's designee; provided, however, this approval shall not relieve Architect of Architect's responsibility and liability to provide documents which are sufficient for Owner to complete the construction of the Project, and are free from material defects or omissions. Architect shall bear full responsibility for, and all resulting excess costs incurred by Architect in, proceeding without Board, or Board's designee's approval.

§ 3.3.4 The Owner's decisions on matters relating to aesthetic effect shall be final. To the extent that Owner's Contractor or Construction Manager at Risk recommends aesthetic revisions to Owner, Architect shall be consulted.

§ 5.1 Unless otherwise provided for under this Agreement, the Owner shall provide information in a timely manner regarding requirements for and limitations on the Project, including a written program, as required by 19 Texas Administrative Code Section 61.1040. The Architect shall review the program and specifications furnished by Owner to ascertain the specific requirements of the Project and shall arrive at a mutual written understanding of such requirements with Owner. Architect shall include all components of Owner's program in the Project, unless specific written agreement to delete a component is received from Owner.

§ 5.2 The Owner shall establish and update the Owner's budget for the Project when required, including (1) the budget for the Cost of the Work as defined in Section 6.1; (2) the Owner's other costs; and, (3) reasonable contingencies related to all of these costs. The Owner shall update the Owner's budget for the Project as necessary throughout the duration of the Project until final completion. The Owner and the Architect shall thereafter agree to a corresponding change in the Project's scope and quality.

Owner's designated representative for day-to-day operations:

Name: Dr. Scott Muri Title: Superintendent, or designee.

§ 5.4 Upon written request of the Architect, the Owner shall furnish surveys known to the Owner describing physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. Other than the metes and bounds noted in the legal description of the site, the Architect shall not be entitled to rely on the accuracy of information furnished by the Owner, but shall exercise proper precautions relating to the safe performance of the Work. Other than the metes and bounds noted in the survey if any, Owner does not guarantee the accuracy of surveys provided, including the locations of utility lines, cables, pipes or pipelines or the presence or absence of easements. Architect shall review this information and shall provide to Owner a written request for additional information needed, if any, for Architect to adequately perform services hereunder. Upon receipt of this request, the Owner will procure and provide to the Architect the information requested.

§ 5.5 The Owner may furnish services of geotechnical engineers, which may include test borings, test pits, determinations of soil bearing values, percolation tests, evaluations of hazardous materials, seismic evaluation, ground corrosion tests and resistivity tests, including necessary operations for anticipating subsoil conditions, with written reports and appropriate recommendations.

§ 5.8 The Owner shall coordinate the services of its own consultants with those services provided by the Architect. Upon the Architect's request, the Owner shall furnish copies of the scope of services in the contracts between the Owner and the Owner's consultants. The Owner shall furnish the services of consultants other than those designated as the responsibility of the Architect in this Agreement, or authorize the Architect to furnish them as an Additional Service, when the Architect requests such services and demonstrates that they are reasonably required by the scope of the Project. The Owner shall require that its consultants and contractors maintain insurance, including professional liability insurance, as appropriate to the services or work provided.

§ 5.9 The Owner shall furnish tests, inspections and reports that are required by law or the Contracts to be furnished by the Owner. To the extent that tests, inspections and reports are not required by law or the Contract Documents to be furnished by Owner, but are deemed necessary by the Architect or Owner, then they shall be furnished by Architect, unless Architect receives Owner's written permission to charge Owner for the services or Owner agrees to separately contract for the services.

Architect acknowledges that he is the leader of the design team and is responsible for the design of the Project. Therefore, Owner shall be entitled to rely on the Construction Documents, services, and information furnished by the Architect. This Section shall not relieve Architect of any responsibility or liability for the performance of Architect's contracted services on the Project, in accordance with the Standard of Care.

The Owner shall endeavor to promptly notify the Architect of the substance of any direct communications between the Owner and the Contractor otherwise relating to the Project. Communications by and with the Architect's consultants shall be through the Architect.

§ 5.13 Before executing the Contract for Construction, the Owner shall coordinate the Architect's duties and responsibilities set forth in the Contract for Construction with the Architect's services set forth in this Agreement. The Owner shall provide the Architect a copy of the executed agreement between the Owner and Contractor, including the General Conditions of the Contract for Construction.

§ 5.14 The Owner shall provide the Architect access to the Project site prior to commencement of the Work and shall obligate the Contractor to provide the Architect access to the Work wherever it is in preparation or progress.

§ 5.15 [Intentionally deleted]

ARTICLE 6 COST OF THE WORK

§ 6.1 For purposes of the Architect's compensation, the Cost of the Work shall be the total cost to the Owner to construct all elements of the Project designed or specified by the Architect and constructed by the Owner, and shall include contractors' general conditions costs, overhead and profit. The Cost of the Work also includes the reasonable value of labor, materials, and equipment, donated to, or otherwise furnished by, the Owner. To the extent that the Project is not completed or constructed, the Cost of the Work shall include the estimated cost to the Owner of all elements of the Project designed by the Architect and accepted by the Owner but not constructed by the Owner. The Cost of the Work does not include elements of the Project designed by Architect but not accepted by the Owner. The Cost of the Work does not include the compensation of the Architect or Architect's consultants; the costs of the land, rights-of-way, financing, or unused contingencies for changes in the Work, alternate designs of the Architect that are not constructed or accepted by the Owner; or other costs that are the responsibility of the Owner. For purposes of the Architect's compensation, the Cost of the Work shall not include the fee for management and supervision of construction or installation provided by a separate Owner representative. For purposes of the Architect's compensation, the Cost of the Work shall include the Owner's cost of labor and materials furnished by the Owner in constructing portions of the Project, if the Work is designed and construction is overseen by Architect. For purposes of the Architect's compensation, the Cost of the Work shall only include the Owner's cost of fixtures, furnishing and equipment designed by the Architect, at the request of the Owner.

§ 6.2 The Owner's budget for the Cost of the Work is provided in Initial Information, and shall be adjusted throughout the Project as allowed under Sections 5.2, 6.4 and 6.5. Evaluations of the Owner's budget for the Cost of the Work, and the preliminary opinion of the Cost of the Work and updated opinions of the Cost of the Work, prepared by the Architect, represent the Architect's judgment as a design professional. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials, or equipment; the Contractor's methods of determining bid prices; or competitive bidding, market, or negotiating conditions. Accordingly, if the Architect's design is determined to exceed Owner's budget, then Architect agrees to redesign the Project, at Architect's expense and as a part of Architect's Basic Services, to meet Owner's budget.

§ 6.3 The Architect, and the Construction Manager at Risk, if applicable, shall prepare a preliminary opinion of the Cost of the Work, which shall incorporate Owner's budgetary constraints, programmatic needs, and expectations as to quality, functionality of systems, maintenance costs, and usable life of equipment and facilities. As the design process progresses through the end of the preparation of the Construction Documents, the Architect, and, if applicable, the Construction Manager at Risk, shall update and refine the preliminary opinion of the Cost of the Work. The Architect shall advise the Owner of any adjustments to previous opinions of the Cost of the Work indicated by changes in Project requirements or general market conditions. The Architect shall cooperate with Owner and, if applicable, the Construction Manager at Risk, in developing and designing the Project to, in accordance with the Standard of Care, satisfy Owner's budgetary constraints, programmatic needs and expectations as to quality, functionality of systems, maintenance costs, and usable life of equipment and facilities. In preparing opinions of the Cost of Work, the Architect shall be permitted to include contingencies for design, bidding, and price escalation; to determine what materials, equipment, component systems, and types of construction are to be included in the Contract Documents; to recommend reasonable adjustments in the program and scope of the Project with the prior consent of Owner's Board

of Trustees, or designee; and to include design alternates as may be necessary to adjust the opinion of the Cost of the Work to meet the Owner's budget.

§ 6.4 If, through no fault of the Architect, the Procurement Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, the Owner's budget for the Cost of the Work may be adjusted to reflect changes in the general level of prices in the applicable construction market.

§ 6.5 If at any time the Architect's opinion of the Cost of the Work exceeds the Owner's budget for the Cost of the Work, then the Architect shall redesign elements to achieve cost savings within the Scope of the Work, but in doing so, shall not delete any essential elements of the Project, without the Owner's knowledge and written consent. Architect shall present the redesign to Owner for Owner's approval and, in doing so, shall notify Owner in writing of the actions taken to bring the Project into Owner's budget. If Architect is unable to redesign the Project to meet Owner's budgetary, programmatic and quality needs, then the Architect shall make appropriate written recommendations to the Owner to adjust the Project's size, quality or budget. Owner shall consider Architect's recommendation, but shall decide, in its discretion, what adjustments to make.

§ 6.6 If the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services is exceeded by the lowest bona fide bid or negotiated proposal prior to commencement of the Work, the Owner shall

.1 give written approval of an increase in the budget for the Cost of the Work;
.2 authorize rebidding or renegotiating of the Project within a reasonable time, and/or authorize a different construction procurement method, consistent with State law;
.3 terminate in accordance with Section 9.5;
.4 in consultation with the Architect, revise the Project program, scope, or quality as required to reduce the Cost of the Work;
.5 implement any other mutually acceptable alternative; or
.6 direct the Architect to redesign the Project to meet the Owner's budgetary, programmatic and quality needs.

§ 6.7 If the Owner chooses to proceed under Section 6.6.4 or 6.6.5, the Architect, without additional compensation, shall modify the Construction Documents as necessary to comply with the Owner's budget for the Cost of the Work at the conclusion of the Construction Documents Phase Services, or the budget as adjusted under Section 6.6.1. The Architect's modification of the Construction Documents before the commencement of the Work shall be the limit of the Architect's responsibility under this Article 6.

§ 6.8 If, after commencement of the Work, the Cost of the Work is exceeded due to the negligent errors or omissions of the Architect, in accordance with the Standard of Care, then the Architect shall bear financial responsibility to Owner for the increases in the Cost of the Work, except for all materials, labor, and overhead related to the betterment obtained by the Owner. By way of example, the Architect shall bear responsibility for the difference between what would have been the original cost of that portion of the Work, but for Architect's negligent error or omission, in accordance with the Standard of Care, and the actual cost of that portion of the Work performed to remedy the negligent error or omission. Further, Architect shall not be entitled to Architect's fee for the excess Cost of the Work. Unless Architect disputes the amounts due pursuant to the alternative dispute resolution process provided in Article 8 of this Agreement, as amended, Owner shall be entitled to withhold from sums due to Architect the amounts detailed above.

number of paper copies and electronic format copies), and other documents hereinafter "Construction Documents," that are within Architect's scope of services and are sufficient for Owner to complete construction of the Project and are free from material defects or omissions. The Construction Documents for this Project are the property of the Owner whether or not the Project is completed and whether or not Architect's Agreement is terminated. The Owner shall be furnished and permitted to retain reproducible copies and electronic versions of the Construction Documents. Only the signature details, standard details and form specifications of the Construction Documents relating to this Project may be used by the Architect on other projects, but they shall not be used as a whole without written authorization by the Owner. Owner-furnished forms, conditions, and other written documents shall not be used on other projects by the Architect without written authorization by the Owner. Owner hereby owns all common law, statutory, or other reserved rights, including copyrights, pertaining to the Construction Documents; provided, however, Owner hereby assigns to Architect the right to enforce Owner's copyright in the Construction Documents and agrees to reasonably cooperate with Architect in any proceedings related to such enforcement.

§ 7.3 The Construction Documents may be used as a prototype for other facilities by the Owner. The Owner may elect to use the Architect to perform the site adaptation and other professional services involved in reuse of the prototype. If so, then the Architect agrees to perform the work for an additional compensation that will fairly compensate the Architect and its consultants only for the additional work involved. It is reasonable to expect that the fair additional compensation will be significantly less than the fee provided for under this Agreement. If the Owner elects to employ a different architect to perform the site adaptation and other professional services involved in reuse of the prototype, then that architect may use Architect's consultants on the same basis that the Architect would have been entitled to use them for the work on the reuse of the prototype, and such architect will be entitled, to the extent allowed by law, to duplicate the design and review and refer to the Construction Documents, approved shop drawings and calculations, and "as builts" in performing its work. The Architect will not be responsible for errors and omissions of a subsequent architect. The Architect shall endeavor to commit its consultants to the terms of this Section and shall notify Owner in writing if Architect is unable to do so. In the event of termination of this Agreement for any reason, the Owner shall receive all original documents prepared to the date of termination and shall have the right to use those documents and any reproductions in any way necessary to complete the Project.

§ 7.4 The Owner shall be free to use said Construction Documents for Owner's purposes, but shall not assign, delegate, sublicense, pledge or otherwise transfer said Construction Documents, including any underlying copyright or license granted herein, to another party for use by any party other than on behalf of Owner. The Owner may use the Construction Documents for future additions or alterations to this Project or for other projects constructed by Owner. The Owner's privilege to use said Construction Documents extends to their use with and by other architects on Owner's projects only.

ARTICLE 8 CLAIMS AND DISPUTES

§ 8.1 General

§ 8.1.1 The Owner and Architect shall commence all claims and causes of action against the other and arising out of or related to this Agreement, whether in contract, tort, or otherwise, in accordance with the requirements of the dispute resolution method selected in this Agreement and within the period specified by this Agreement and by Texas law, but in any case not more than 8 years after the date of Substantial Completion of the Work, unless extended in accordance with Texas Civil Practice and Remedies Code Section 16.008. The Owner and Architect waive all causes of action not commenced in accordance with this Section 8.1.1.

§ 8.1.1.1 All claims, disputes, or matters in controversy between Owner and Architect shall be discussed by the parties in good faith, in an attempt to resolve the claim, dispute, or controversy. In the event such claim, dispute, or controversy cannot be resolved by good faith discussion between the parties, any such claim, dispute or matter in controversy shall be subject to the Owner's grievance policy GF (LEGAL) and (LOCAL) or any other applicable policy and regulations as designated by Owner, and the timelines established in the policy. Level I of the grievance process will be conducted by the Superintendent's designee or the Superintendent, as appropriate. Level II shall be heard by the Superintendent, unless he heard Level I. If the Superintendent heard Level I, then the grievance will proceed to the Owner's Board at Level III. If Architect is dissatisfied with the outcome of Owner's grievance process, then any claim, dispute or other matter in question arising out of or related to this Agreement shall be subject to mediation as a condition precedent to the institution of legal or equitable proceedings by either party.

§ 8.1.1.2 Architect stipulates that Owner is a political subdivision of the State of Texas, and, as such, may enjoy immunities from suit and/or liability under the Constitution and laws of the State of Texas. By entering into this

Agreement. Owner does not waive any of its immunities from suit and/or liability, except as otherwise specifically provided herein and as specifically authorized by law.

§ 8.1.2 Only to the extent damages are fully covered by property insurance, the Owner and Architect waive all rights against each other and against the contractors, consultants, agents, and employees of the other for damages, except such rights as they may have to the proceeds of such insurance as set forth in AIA Document A201–2017, General Conditions of the Contract for Construction, as amended for this Project, and if applicable. The Owner or the Architect, as appropriate, shall require of the contractors, consultants, agents, and employees of any of them, similar waivers in favor of the other parties enumerated herein.

§ 8.1.3 The Architect waives consequential damages for claims, disputes, or other matters in question, arising out of or relating to this Agreement. This waiver is applicable, without limitation, to all consequential damages due to Owner's termination of this Agreement. In any litigation (or arbitration if mutually agreed upon in writing) arising under this Agreement, the types and amounts of damages recoverable shall be subject to Subchapter I of Texas Local Government Code Chapter 271.

§ 8.1.4 In any litigation under this Agreement, reasonable and necessary attorneys' fees may be awarded to the prevailing party.

§ 8.1.5 When Owner has an applicable claim for construction defects, Owner shall comply with the provisions of Texas Government Code Chapter 2272 related to the provision of notice of defects and the Contractor's or Architect's opportunity to cure.

§ 8.2 Mediation

§ 8.2.1 Any claim, dispute or other matter in question arising out of or related to this Agreement shall be subject to mediation as a condition precedent to the institution of legal or equitable proceedings, unless the filing deadlines under applicable statutes of limitation and/or repose would otherwise expire. If suit is filed before mediation in order to avoid expiration of limitations and/or repose, then the parties agree to submit the matter to mediation as soon as reasonably possible. Claims for injunctive relief shall not be subject to this Section.

§ 8.2.2 The Owner and Architect shall endeavor to resolve claims, disputes and other matters in question between them by mediation. A request for mediation shall be made in writing, delivered to the other party to this Agreement, and filed with the mutually-acceptable person or entity administering the mediation. In the event the parties are unable to agree on a mediator, then the mediation shall be conducted by either the Center for Public Policy Dispute Resolution at the University of Texas School of Law or by a mediator selected by a local district court judge upon the joint request of the parties. The request shall be made within 30 days after the completion of Owner's grievance process. In no event shall the request for mediation be made after the date when institution of legal or equitable proceedings based on such claim, dispute, or other matter in controversy would be barred by applicable statutes of limitation.

§ 8.2.3 The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the county where Owner's main administrative office is located, unless another location is mutually agreed upon. Mediation shall be subject to and in accordance with Chapter 154 of the Texas Civil Practice & Remedies Code. Agreements reached in mediation shall be reduced to writing, considered for approval by the Owner's Board of Trustees, signed by the parties if approved by the Board of Trustees, and, if signed, shall thereafter be enforceable as provided by the laws of the State of Texas.

§ 8.2.4

(Paragraphs deleted)

The parties agree that any claim, dispute, or other matter in controversy between them shall not be subject to mandatory arbitration. The parties may, however, mutually agree in writing to submit such claims, disputes, or matters in controversy to arbitration. Neither party may compel the other to arbitrate any claim, dispute, or matter in controversy between them.

If the Owner and Architect do not select a method of binding dispute resolution, or do not subsequently agree in writing to a binding dispute resolution method other than litigation, the dispute will be resolved in a court of competent jurisdiction.

§ 8.3 [Intentionally deleted]

§ 8.4 The provisions of this Article 8 shall survive the termination of this Agreement.

ARTICLE 9 TERMINATION OR SUSPENSION

§ 9.1 If the Owner fails to make timely payments to the Architect for undisputed sums in accordance with this Agreement, and Texas law, such failure shall be considered substantial nonperformance and cause for termination. If not cured after ten (10) days written notice to Owner of the delinquency, Architect shall be allowed to suspend Architect's performance of services under this Agreement for nonpayment by Owner only after the provision of ten (10) days' written notice, in accordance with Texas Government Code section 2251.051 *et seq*. In the event of a suspension of services, the Architect shall have no liability to the Owner for delay or damage caused the Owner because of such suspension of services. Before resuming services, the Owner shall pay the Architect all sums due prior to suspension and any expenses incurred in the interruption and resumption of the Architect's services. The Architect's fees for the remaining services and the time schedules may be equitably adjusted.

§ 9.2 If the Owner suspends the Project for more than ninety (90) consecutive days, the Architect shall be compensated for services performed prior to notice of such suspension. The Architect's fees for the remaining services and the time schedules may be equitably adjusted.

§ 9.3 If the Owner suspends the Project for more than 90 consecutive days for reasons other than the fault of the Architect, the Architect may terminate this Agreement by giving not less than seven days' written notice.

§ 9.4 Either party may terminate this Agreement upon not less than twenty-one (21) days' written notice and opportunity to cure should the other party fail substantially to perform in accordance with the terms of this Agreement through no fault of the party initiating the termination.

§ 9.5 The Owner may terminate this Agreement upon not less than seven days' written notice to the Architect for the Owner's convenience and without cause. The Owner may also terminate this Agreement on seven days' written notice if the budget for the Cost of the Work, prior to commencement of the Work, is exceeded by the lowest bona fide bid or negotiated proposal.

§ 9.6 If the Owner terminates this Agreement for its convenience pursuant to Section 9.5, or the Architect terminates this Agreement pursuant to Section 9.3, the Owner shall compensate the Architect for services performed prior to termination, together with Reimbursable Expenses then due.

§ 9.7
(Paragraphs deleted)
The parties hereby agree that: 1) if an order for relief is entered on behalf of the Architect, pursuant to Chapter 11 of the U.S. Bankruptcy Code; 2) if any other similar order is entered under any debtor relief laws; 3) if Architect makes an assignment for the benefit of one or more of its creditors; 4) if a receiver is appointed for the benefit of its creditors; 5) if a receiver is appointed on account of its insolvency, any such event could impair or frustrate Architect's performance. Accordingly, it is agreed that upon occurrence of any such event, Owner shall be entitled to request of Architect adequate assurance of future performance in accordance with the terms and conditions of this Agreement. Failure to comply with such request within ten (10) days of delivery of the request shall entitle Owner to terminate the Architect's services in accordance with this Section.

§ 9.8 Except as otherwise expressly provided herein, this Agreement shall terminate one year from the date of Final Completion.

As a material consideration of the making of this Agreement, the Modifications to this Agreement shall not be construed against the drafter of said Modifications.

Any direction or instruction by Owner or any of its authorized representatives in respect to the Architect's services shall relate to the results the Owner desires to obtain from the Architect, and shall in no way affect the Architect's independent contractor status.

§ 10.14 No delay or omission by either of the parties hereto in exercising any right or power accruing upon the noncompliance or failure of performance by the other party hereto of any of the provisions of this Agreement shall impair any such right or power or be construed to be a waiver thereof. § 10.21.1 CRIMINAL HISTORY RECORD CHECKS

§ 10.21.1 So that Owner can obtain the national criminal history record information required by Texas Education Code Section 22.0834 on all "covered employees" (as defined in Section 10.21.3) of Architect, its subcontractors, or any subcontracting entities who will perform Architect's services, Architect shall submit to Owner the name and all necessary identifying information necessary to enable Owner to obtain the national criminal history information on those covered employees before they begin the Architect's services. Architect's submission will include the employee's written authorization for Owner to obtain such criminal history information. Owner may, in its sole discretion, prohibit the use of any employee to perform the Architect's services after its review of the criminal history information, but cannot disclose the criminal history information to Architect. Architect shall reimburse Owner for Owner's costs incurred in obtaining the criminal history information.

§ 10.21.2 Architect will not assign any "covered employee" with a "disqualifying criminal history", as those terms are defined below, to perform Architect's services. If Architect receives information that a covered employee has a reported disqualifying criminal history, then Architect will immediately remove the covered employee from the Project and notify the Owner in writing within three business days. If the Owner objects to the assignment of any covered employee on the basis of the covered employee's criminal history record information, then Architect agrees to discontinue using that covered employee to provide services on Owner's Project. If Architect has taken precautions or imposed conditions to ensure that the employees of Architect and any Architect consultant will not become covered employees, Architect will ensure that these precautions or conditions continue throughout the time the contracted services are provided.

§ 10.21.3 For the purposes of this Section, "covered employees" means employees, agents, or applicants of Architect who have or will have continuing duties related to the services to be performed on Owner's Project and have or will have direct contact with Owner's students. The definition of "covered employees" does not include individuals working on the Work: (1.) does not involve the construction, alteration, or repair of an instructional facility as defined herein; (2.) involves construction of a new instructional facility and the persons duties related to other contracted services will be completed not later than the seventh day before the first date the facility will be used for instructional purposes; or (3.) involves an existing instructional facility and: (a.) the work area contains sanitary facilities and is separated from all areas used by students by a secure barrier fence that is not less than six feet in height; and (b.) the contracting entity adopts a policy prohibiting employees, contractors, and subconsultants from interacting with students or entering areas used by students, informs employees, contractors, and subconsultants of the policy, and enforces the policy at the work area. "Disqualifying criminal history" means: any conviction or other criminal history information designated by the Owner; any felony or misdemeanor conviction that would disqualify a person from obtaining educator certification under Texas Education Code Section 21.060, and 19 Texas Administrative Code Section 249.16; or one of the following offenses, if at the time of the offense, the victim was under 18 years of age or enrolled in public school; a felony offense under Texas Penal Code Title 5 Offense Against Persons; an offense for which a defendant is required to register as a sex offender under Texas Code of Criminal Procedure Chapter 62; or an equivalent offense under federal law or the laws of another state; or a felony violation of Texas Penal Code Section 43.24 related to the sale, distribution or display of harmful material to a minor. The term "instructional facility" means real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching the curriculum required under the state curriculum for kindergarten through grade 12.

SUBJECT: **DISCUSSION OF AND REQUEST FOR APPROVAL OF THE AWARD OF RFP 26-15 TO COMPLEX COMMUNITY FEDERAL CREDIT UNION**

DATE: April 24, 2026

The district accepted proposals to establish and operate a school-based financial branch within ECISD. A school-based branch operated by a credit union or bank will enhance financial literacy, expose students to careers in banking and finance, and provide hands-on experiences through student internships or work-study opportunities. The district envisions this partnership as a mutually beneficial collaboration that supports education, workforce development, and community engagement.

The evaluation committee was comprised of the Chief Academics Officer, the Executive Director of CCMR CATE, the Director of CCMR & Post-Secondary Education, the Executive Director of Operations, and the Director of Facilities.

Administration recommends approval of the award of RFP No. 26-15 to Complex Community Federal Credit Union. There is no expected cost to the District associated with this RFP as CCFCU stands ready to cover all costs associated with the initial buildout and customization of the space. Upon approval, administration is authorized to negotiate final contract terms and conditions, subject to legal review, and to execute the agreement provided the terms are consistent with the scope of the RFP and District purchasing requirements.

Administrative Recommendation:

Approval of Request for Proposal 26-15 to Complex Community Federal Credit Union

Report/Discussion Items

27536 **Presentation of Targeted Improvement Plans (TIP) and Local Improvement Plans (LIP)**: Dr. Robert Trejo, Chief Academic Officer presented Trustees with an update on the Targeted Improvement Plans and Local Improvement Plans. A Local Improvement Plan is developed by the school district and campus to address areas of low performance on a campus and is incorporated into the Campus Improvement Plan. Progress is measured and monitored monthly, weekly campus visits are conducted, as are data reviews with the superintendent.

The Texas Education Agency requires TIPs (Targeted Improvement Plans) for schools identified as needing improvement due to low performance, D or F ratings, or consistently underperforming student groups. TEA recommends school districts select a single school improvement strategy to align district-wide processes; ECISD has chosen "intensive curriculum and instruction improvements" aligned to Academics & Accountability Department initiatives.

No action required.

27537 **Formative Review of Board Goals**: Dr. Robert Trejo, Chief Academic Officer led the Trustees in reviewing their five established board goals.

1) **Student Achievement**
   The percentage of students achieving or exceeding the meets standard on state assessments will increase from 35% to 48% by May 2029 across all tested content areas.

2) **3rd Grade Literacy**

27547 **Opening Remarks by Superintendent**: In opening remarks, Superintendent Dr. Keeley Boyer informed Trustees of two generous donations from community partners. The Education Foundation donated $1 million to support the renovation of four school libraries. The Permian Strategic Partnership also committed funding for targeted professional development and coaching for K–2 teachers, with a focus on foundational reading instruction. Five campuses will participate in the two-year pilot in partnership with the Meadows Center for Preventing Educational Risk at the University of Texas at Austin.

27548 **Public Comment**: Individuals who wish to participate during the portion of the meeting designated for public comment shall sign up with the presiding officer or designee before the meeting begins as specified in the Board's procedures on public comment and shall indicate the agenda item on which they wish to address the Board. *BED(LOCAL)*

Board Policy

27549 **Discussion of and Request for Approval of Revisions to Board Policy CW(Local) Naming Facilities**: Moved by Abalos, seconded by Miller to approve the Revisions to Board Policy CW(Local) Naming Facilities as presented. This update references a recently created Regulation (CW) Naming Facilities that addresses facility naming requests for parts of a facility (e.g., an auditorium, playground, practice field) and it allows for a facility to be named for a business or organization that has made significant contributions toward the construction or renovation of a facility.

Public Hearing

27550 **Public Hearing on the 2025-2026 ECISD Targeted Improvement Plans and Local Improvement Plans**: Dr. Robert Trejo, Chief Academic Officer briefly recapped last week's school board workshop presentation on the 2025-2026 Targeted Improvement Plans and Local Improvement Plans. A Local Improvement Plan is developed by the school district and campus to address areas of low performance on a campus and is incorporated into the Campus Improvement Plan. Progress is measured and monitored monthly, weekly campus visits are conducted, as are data reviews with the superintendent. The Texas Education Agency requires TIPs (Targeted Improvement Plans) for schools identified as needing improvement due to low performance, D or F ratings, or consistently underperforming student groups.

TEA recommends school districts select a single school improvement strategy to align district-wide processes; ECISD has chosen *"Intensive Curriculum and Instruction Improvements"* aligned to Academics & Accountability Department initiatives.

Immediately following the presentation, Board President Tammy Hawkins declared the Public Hearing on the 2025-2026 ECISD Targeted Improvement Plans and Local Improvement Plans, ***open.***

27553 **Bond Oversight Committee Annual Report**: Bond Oversight Committee member Sara Moore provided Trustees with the committee's second annual report. The oversight committee is made up of ten (10) community members.

The Bond Oversight Committee has four key responsibilities:

1. Ensure that bond projects remain faithful with the priorities outlined in the bond plan approved by voters.
2. Review and evaluate information related to all projects, bond funds, and timelines to maintain accountability and transparency.
3. Monitor and evaluate the status of the bond budget.
4. Provide an annual progress report to the Board of Trustees.

At this time, the committee members report being pleased with the detailed level of communication, openness, and responsiveness of ECISD's administrative team and the progress of the bond work.

The local, board-appointed committee met four times, beginning last December to establish a plan to solicit and receive suggestions from the public, to review potential names, mascots, and colors for the new facility. The committee also felt it would be best to let the students at the new school select a mascot, and recommended ECISD's district colors as the facility will be home to and represent students from across the school district. The ATLAS CTE Center is set to open in 2027.

Projected costs for eleven of these Priority 1 and 2 campus projects are exceeding, by 10% or more, the original estimates which were informed by the facility condition assessment last updated in 2022. Market pricing and labor costs have changed drastically over the last four years and have impacted smaller projects that are just beginning to be bid. Trustees reviewed these projects and the updated costs and asked that every contingency be considered. Parkhill Architects are closely reviewing the scope of all projects to look for savings and are focused on negotiating the best possible cost with vendors.

Assignment and tasks shall be collectively referred to as "Work." The list above is not exhaustive, and Employer may add to, replace, or remove any type of assignment and/or tasks at its discretion and without notice to Staff Developer.

Section 1.2 - Method of Acceptance and Termination of Assignments:

This Agreement must be signed prior to any Assignment. If a need to fill an Assignment arises, a duly authorized representative of Employer will send out a notice via e-mail or other Employer-approved method to eligible Temporary Employees. v. A general description of the breach incident, if that information is possible to determine at the time the notice is provided.

(2) Provider agrees to adhere to all federal and state requirements with respect to a data breach related to the Student Data, including, when appropriate or required, the required responsibilities and procedures for notification and mitigation of any such data breach.

(3) Provider further acknowledges and agrees to have a written incident response plan that reflects best practices and is consistent with industry standards and federal and state law for responding to a data breach, breach of security, privacy incident or unauthorized acquisition or use of Student Data or any portion thereof, including personally identifiable information and agrees to provide LEA, upon request, with a summary of said written incident response plan.

(4) LEA shall provide notice and facts surrounding the breach to the affected students, parents or guardians.

(5) In the event of a breach originating from LEA's use of the Service, Provider shall cooperate with LEA to the extent necessary to expeditiously secure Student Data.
