August 18, 2020

Todd Vrklan
901 Ferry Street
Le Sueur, MN. 56058

Mr. Vrklan,

Current Situation: The district is looking to add an engineered Ion solution to maximize ion levels directly into classroom and office space that would be best for the district, students and staff. Included in the proposal is to add self-cleaning Needlepoint Bi-polar Ionization to the existing air-handling unit's campus wide also including the univents at Park Elementary.

Scope:

- Coordinate with client
- Furnish and install new Needlepoint Bi-polar Ionization for your air handling units at the high school, Park Elementary school and Hilltop school as well as the univents at Park Elementary
- Start unit for proper operation
- Clean-up work area

Client Investment High School (41) units: \$49,200.00

Client Investment Hilltop (4) units: \$3,468.00

Client Investment Park Elementary (10) units and (38) Univents: \$55,716.00

Note:

1. Quote good for 30 days
2. All work will be performed during normal working hours, no overtime figured
3. GPS to be free from defects in workmanship or materials for a period of one year from the date of shipment to the original customer
4. If the district decides to do all the buildings deduct 3% on the overall work.

If you have any questions feel free to contact us anytime, or if you would like us to proceed please sign proposal and fax or e-mail back at your convenience.
