Re: IXL Learning Upgrade for 2025-26

Strategic Goal, Objective or Need Addressed:

District Goal 1, Objective 1: Guarantee that every student is provided a high-quality curriculum, data-driven instruction, and standards-based assessment to ensure continuous growth and high levels of achievement.

Summary:

In June 2025, the Board approved the renewal of IXL Learning for the 2025–26 school year in the amount of \$96,550. Since that approval, the district has identified the need for an additional site license for IXL Science to provide targeted intervention for students who did not meet grade-level expectations on the 2025 STAAR Science assessments in Grades 5 and 8, as well as the Biology EOC. The cost of this additional license is \$950. Because this expense increases the total annual purchase amount with IXL Learning beyond the \$50,000 threshold requiring Board approval, it is being presented for consideration and approval at this time.

Re:

Strategic Goal, Objective or Need Addressed:

Cleburne ISD remains committed to the safety of its students and staff by proactively maintaining and upgrading its facilities. As part of this effort, the roof system at Smith Intermediate School requires a full replacement due to age and damage from hailstorms.

Summary:

In accordance with Texas Government Code §2269 and Texas Education Code §44.031, school districts are authorized to use various procurement methods, including Competitive Sealed Proposal (CSP). The Competitive Sealed Proposal (CSP) method, authorized under Texas Government Code § 2269.101, is the recommended procurement method for this project because it provides the best value to the District over traditional low-bid competitive bidding.

By utilizing the CSP method, the Board ensures the final award decision is based on a best value determination, securing not only a fair price but also the highest quality and most responsible contractor for this project.

What is MAP?

- **Measures Student Growth and Achievement:** NWEA MAP (Measures of Academic Progress) is an adaptive assessment that adjusts to each student's level to accurately measure what they know and what they're ready to learn next.
- **Provides Nationally Normed Data:** Results compare student performance to national norms, giving insight into how CISD students are performing relative to peers across the country.
- **Informs Instruction and Intervention:** Teachers use MAP data to identify strengths and gaps, set goals, and tailor instruction to meet individual student needs.
- **Tracks Progress Over Time:** Administered three times per year, MAP allows teachers to monitor academic growth and evaluate the impact of instruction and interventions.

Bluebonnet Learning Math Implementation

- **Strong Launch Districtwide:** Implementation from Kindergarten through Algebra I is off to a strong start, supported by extensive training, coaching, and collaboration.
- **Built on Consensus:** The adoption committee's work last fall created strong districtwide buy-in and ownership of the implementation process.
- **Support Systems:** TDSI positions, Great Minds coaching, and leadership training have provided consistent support for teachers and campus teams.
- **Early Signs of Success:** District assessment results are trending ahead of last year, and teacher and administrator surveys show growing confidence in the program's impact.

Key Role of TDSI Staff in Implementation

- **Key to Our Success:** TDSIs have been instrumental in supporting the rollout of Bluebonnet Learning Math.
- **Collaborative Planning:** They meet weekly with teachers in PLCs to plan and internalize upcoming lessons.
- **Coaching and Feedback:** TDSIs provide ongoing support through classroom observations, modeling, and feedback on math instruction.
- **Targeted Student Support:** They also work directly with small groups of students to deliver intervention and reinforce key math concepts.

Implementation Survey Results

We recently conducted an anonymous survey of teachers and campus leaders to gather feedback on the progress of our Bluebonnet Learning Math implementation. Here are a few key findings from that survey:

- Leaders rated implementation at **4.3/5** and teachers at **4.0/5**, reflecting a positive districtwide rollout.
- Over **93%** of teachers reported feeling consistently or generally supported through coaching, PLCs, and training.
- **82% of teachers** reported feeling successful with implementing the Bluebonnet Math curriculum.
- **80% of teachers** report some or significant improvement in student math understanding, and morale among leaders averaged **4.0/5**, signaling optimism and momentum.

Teacher Quotes from Survey

- *“I see my students getting better each day using these activities. I appreciate how the concept development really gives them a chance to practice skills. My EOM1 scores were amazing.”*
- *“I am watching the light bulbs start to go off with some of my kids and their understanding really clicks now that we're nearing the end of Module 1, and that has been really cool to see - particularly since we started off the year with deer-in-the-headlights looks!”*
- *“Initially, Bluebonnet Math was challenging to implement, but it has quickly become easier as routines and pacing are more familiar. The program’s structure and rigor support effective teaching and student engagement.”*
- *“Students are more confident and accurate because they understand the ‘why’ behind the math.”*

Re: Approval of Library Book List in Compliance with SB 13

Strategic Goal, Objective or Need Addressed:

SB 13, effective for the 2025-26 school year, now requires school boards to approve all library book purchases after a 30-day public listing period.

Summary:

In accordance with Senate Bill 13 (SB 13) enacted by the 88th Texas Legislature, all new library books recommended for addition to district or campus collections must be reviewed by certified librarians, publicly posted for at least 30 days, and approved by the Board of Trustees prior to purchase or circulation.

The attached list includes 76 titles recommended by district librarians for addition to campus library collections. These titles have been carefully reviewed for age appropriateness, literary value, and alignment with district instructional goals. The list was publicly posted on the Cleburne ISD website at www.c-isd.com/students-families/library for a period exceeding 30 days, as required by SB 13, and no challenges or concerns were submitted by parents or community members during that time.

Re: Request approval of the 2025-2026 MOU with the University of North Texas Health Science Center's (UNTHSC) Asthma 411 Program - 2025 Cleburne ISD School Health Advisory Council (SHAC) Recommendation.

Strategic Goal, Objective or Need Addressed:

The CISD SHAC met October 1, 2025. The University of North Texas Health Science Center presented the Asthma 411 Program as an opportunity for CISD to participate in. This program would support CISD with their Asthma Management Plan, referrals, and distribution of unassigned Albuterol to be administered following the guidelines: Severe and Not Severe set by UNTHSC. The CISD SHAC voted unanimously to recommend the program to the Board.

Summary:

This agreement would enable the Cleburne ISD Health Services Department to collaborate with the University of North Texas Health Science Center in implementing a comprehensive asthma education and response program, known as Asthma 411. Asthma 411 is a school-based asthma management program. The objective of Asthma 411 is to reduce morbidity due to asthma, which is directly measured by a reduction in absenteeism, being sent home, and emergency department usage due to asthma symptoms, and an overall increase in class time. CISD would collaborate with UNTHSC to establish a framework for evaluating the impact of program implementation and determining whether the shared goals are met. This will include a process of transferring data between CISD and UNTHSC in accordance with privacy protection and security measures established in this MOU, and any additional requirements that may be required by the North Texas Institutional Review Board. UNTHSC staff will train and support school nurses and other health-related personnel to implement and maintain the Asthma 411 Program. This will include identification, tracking, and symptomatology assessment of students with asthma as outlined in the asthma management plan. UNTHSC will coordinate the provision of Standing Delegation Orders, prescriptions, and medication and supplies. UNTHSC will work with CISD to establish

mechanisms for information transfer in accordance with human subjects' approval and the North Texas Institutional Review Board. This will include processes to maintain the anonymity and confidentiality of individual students and their data. UNTHSC will have access to a de-identified, random number that serves as a student code. The code will be associated with demographic and assessment data provided by Cleburne ISD and linked to student IDs and de-identified student codes.

What will these Key Performance Indicators (KPIs) allow me to do?

maintenance

Increase maintenance staff efficiency and overall productivity, streamline workflows, improve customer engagement and satisfaction, capture and show productivity gains, and track overall health of your maintenance program

preventive

Determine success of your preventive maintenance program, transition to being more proactive, reduce backlogged work, increase life expectancy of equipment, and decrease catastrophic failures

Cleburne ISD	Public K-12	1766	6947	5,523	0.80	0.24	0.48	0.91	1.35

This metric is an indicator of how much work is being captured and also serves as a measurement of software utilization. Far below average can indicate you are not capturing all work being performed. Far above the average may be a sign of trying to capture too much at the risk of becoming inefficient. This metric is important because the more work is captured, cases can be stronger for justifying resources. (rolling 12 Months, ignores rejected work)

This KPI indicates how much work an institution is able to complete in 7 calendar days. Below the national average suggests potential process improvements for managing and completing work. Above the national average could be a sign you have embraced mobile, your staff completes their own work assignments online and/or have reduced (or eliminated) paper in your processes. This compares Completion Date – Originated Date (uses Request Date if Start Date is not used) for WO’s with a Priority of Low, Med or High & ignores PM’s to see what % of PM WO’s are completed in 7 Days or Less. Average Count of Work Orders Per Employee Per Year

AVG MAINTENANCE WORK ORDERS ASSIGNED PER INDIVIDUAL PER YEAR

This metric gives you a direct comparison of your staff's productivity compared to peer institutions. Employees are users who have been assigned more than 30 work orders, but less than 2,000 in a rolling 12 month window.

Average Number of WOs per Employee by Month, Year

This metric reflects how well you are capturing labor transaction data along with the productivity of your staff. The hours captured in this metric are “wrench turning” hours that are performed on the actual work order. Institutions that implement productivity strategies increase wrench turning time up to four hours per week. That’s the equivalent of adding more than a month of productive time per year. Employees are users with more than 200 hours, but less than 3,000 in a rolling 12 month window.

Cleburne ISD	Public K-12	1766	6947	297	0.04	0.01	0.07	0.29	0.55

This metric is used along with the PM/WO ratio to gauge the strength of your PM program. Implementing a strong PM program typically has an ROI within 1-2 years by reducing system failures and emergencies, extending equipment life and decreasing energy consumption. Increasing PM work can also help make workers' schedules more predictable as organizations performing more PM work see reductions in reactive work over time. This metric lets you evaluate how successful your institution has been at transitioning from a reactive to a proactive mindset and indicates how much of your M&O resources are dedicated to PM vs Reactive work. As more time is invested into PMs, you should see a decrease in reactive work, an increase in cycle times and an improved learning environment. (Rolling 12 Months)

Emergent Bilingual Program Evaluation

2024-2025

I. Cleburne ISD EB Student Enrollment for the 2024-2025 School Year:

In the 2024-2025 school year, Cleburne ISD averaged 1,481 EB students in grades PK-12. 500 students were served in the dual language one-way programs at Cooke, Santa Fe, and Smith. 243 students were served in the two-way dual language program at Irving and Smith. The remaining students are served in ESL programs at all campuses and are supported by our EB Interventionists at each campus.

II. Cleburne ISD Bilingual Program Types

CISD implements a dual language immersion/one way program in grades PK-6. One way dual language is at the following campuses: Cooke, Santa Fe, and Smith Middle School. Dual language immersion/one-way is a bilingual/biliteracy program model in which students identified as English learners are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction, not earlier than six or later than seven years after the student enrolls in school. Instruction provided in a language other than English in this program model is delivered by a teacher appropriately certified in bilingual education under TEC, §29.061. Instruction provided in English in this program model may be delivered either by a teacher appropriately certified in bilingual education or by a different teacher certified in ESL in accordance with TEC, §29.061. The goal of one-way dual language immersion is for program participants to attain full proficiency in another language as well as English. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

CISD also implements a dual language immersion/two-way program at Irving Elementary in grades K-6. A two-way program is a bilingual/biliteracy program model in which students identified as English learners are integrated with students proficient in English and are served in both English and another language. The goal of two-way dual language immersion is for program participants to attain full proficiency in another language as well as English. This model provides ongoing instruction in literacy and academic

content in English and another language with at least half of the instruction delivered in the non-English program language for the duration of the program.

Cleburne ISD ESL Program Types

CISD implements a content-based ESL program in grades PK-4. An ESL/content-based program model is an English acquisition program that serves students identified as English learners through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies. The goal of content-based ESL is for English learners to attain full proficiency in English in order to participate equitably in school. This model targets English language development through academic content instruction that is linguistically and culturally responsive in English language arts and reading, mathematics, science, and social studies. Lead EB specialists also support teachers and students at all elementary campuses by push-in support and small group instruction.

CISD implements a pull-out ESL program in grades 5-12. An ESL/pull-out program model is an English acquisition program that serves students identified as English learners through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c), through English language arts and reading. The goal of ESL pull-out is for English learners to attain full proficiency in English in order to participate equitably in school. This model targets English language development through academic content instruction that is linguistically and culturally responsive in English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model. In Cleburne ISD, we provide this support in an inclusionary model with EB collaborative teachers at Wheat Middle School and Cleburne High School in selected subjects and content areas.

III. LPAC Activities

Per §89.1201. State policy requires school districts to identify Emergent Bilingual students.

(a) Within four weeks of initial enrollment in a Texas school, a student with a language other than English indicated on the home language survey shall be administered the state-approved English language proficiency test (Pre-LAS and LAS) for identification as

described in policy and shall be identified as English learners and placed into the required bilingual education or ESL program in accordance with the criteria listed.

(c) For identifying Emergent Bilingual students, school districts shall administer to each student who has a language other than English as identified on the home language survey:

(1) in prekindergarten through Grade 1, the listening and speaking components of the state-approved English language proficiency test for identification; and

(2) in Grades 2-12, the listening, speaking, reading, and writing components of the state-approved English language proficiency test for identification.

If the primary language of the student is Spanish, the school district shall administer the Spanish version of the state-approved language proficiency test for identification. If a state-approved language proficiency test for identification is not available in the primary language of the student, the school district shall determine the student's level of proficiency using informal oral language assessment measures. All of the language proficiency testing shall be administered by professionals or paraprofessionals who are proficient in the language of the test and trained in the language proficiency testing requirements of the test publisher.

IV. TELPAS

TELPAS is the state and federally required English language proficiency exam. It measures the growth levels of students' English proficiency in the areas of listening, speaking, reading, and writing in grades K-12. The following charts outline the percentage of students at each proficiency level by composite score. The composite score is an average of their proficiency in each language domain. According to this chart, 6% of our district's 3rd-12th EB population is at the beginning level, 38% at the intermediate level, 44% at the Advanced level, and 12% at Advanced High. Overall, 28% of students in grades 3-12 met yearly progress in TELPAS Composite Rating.

VI. Reclassification: 86 students met the state reclassification criteria as English Proficient in the 2024-2025 school year. This is a slight decrease from 100 students the previous year. Cleburne ISD has trained all campus staff on a resource called SummitK12 to address the language domains of listening, speaking, reading, and writing on an online platform that will prepare students for this rigorous English language exam. Our goal is to increase the proficiency levels of all students by one level each year and increase the number of students reclassifying as proficient each year.

VII. Staffing and professional development supporting bilingual and ESL programs

Cleburne ISD employed 283 ESL-certified teachers and 28 bilingual certified teachers in the 2024-2025 school year. Our dual language programs were fully staffed with certified bilingual teachers or recent graduates in a bilingual certification pathway, except for 6th grade, which blends bilingual certified teachers with ESL certified teachers for math and science. Our elementary ESL programs are staffed with fully certified ESL teachers in self-contained grade levels. In the departmentalized grade levels, the RLA teacher is ESL certified. In the few cases where we had an RLA teacher not ESL certified, the lead EB specialist, who is ESL certified, pushed into the classroom to provide services. At our secondary campuses, the RLA teachers are in the process of becoming ESL certified. The campus specialists or collaborative ESL teacher pushes into these classrooms to provide support and services. All other content areas are encouraged to obtain ESL certification and receive Content-Based Language Instruction training. However, the number of ESL certified teachers is diminishing with turnover and less push in support.

VIII. Exceptions and Waivers

In the 2024-2025 school year, CISD filed both an ESL Waiver and a Bilingual Exception for teachers serving in our programs who were in the process of obtaining the appropriate certifications. Three teachers were on a bilingual exception in comparison to nine teachers the year before. However, the number of RLA/self-contained teachers on an ESL waiver increased from 20 to 23 teachers. All teachers were offered certification prep courses and support. In addition, the district offered test cost reimbursement as well as a stipend once the ESL or Bilingual Certification is added. The teachers on the exception or waiver were included in the ongoing professional development listed above, as well as support from campus specialists.
