609 RELIGION AND RELIGIOUS AND CULTURAL OBSERVANCES

I. PURPOSE

The purpose of this policy is to identify the status of religion as it pertains to the programs of the school district.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall neither promote nor disparage any religious belief or nonbelief. Instead, the school district encourages all students and employees to have appreciation for and tolerance of each other's views.
- B. The school district also recognizes that religion has had and is having a significant role in the social, cultural, political, and historical development of civilization.
- C. The school district recognizes that one of its educational objectives is to increase its students' knowledge and appreciation of music, art, drama, and literature which may have had a religious basis or origin as well as a secular importance.
- D. The school district supports the inclusion of religious music, art, drama, and literature in the curriculum and in school activities provided it is intrinsic to the learning experience and is presented in an objective manner without sectarian indoctrination.
- E. The historical and contemporary values and the origin of various religions, holidays, customs, and beliefs may be explained in an unbiased and nonsectarian manner.

III. RESPONSIBILITY

- A. The superintendent shall be responsible for ensuring that the study of religious materials, customs, beliefs, and holidays in the school district is in keeping with the following guidelines:
 - 1. The proposed activity must have a secular purpose.
 - 2. The primary objective of the activity must be one that neither advances nor inhibits religion.
 - 3. The activity must not foster excessive governmental relationships with religion.
 - 4. Notwithstanding the foregoing guidelines, reasonable efforts must be made to accommodate any student who wishes to be excused from a curricular activity for a religious observance or American Indian cultural practice, observance, or ceremony. The school district must provide annual notice to parents of this policy.
- B. The superintendent is granted authority to develop and present for school board review and approval directives and guidelines for the purpose of providing further guidance relative to the teaching of materials related to religion. Approved directives and guidelines shall be attached as an addendum to this policy.

615 TESTING ACCOMMODATIONS, MODIFICATIONS, AND EXEMPTIONS FOR IEPs, SECTION 504 PLANS, AND LEP STUDENTS

I. PURPOSE

The purpose of the policy is to provide adequate opportunity for students identified as having individualized education program (IEP), Rehabilitation Act of 1973, Section 504 accommodation plan (504 plan), or English Learner (EL) needs to participate in statewide assessment systems designed to hold schools accountable for the academic performance of all students.

II. GENERAL STATEMENT OF POLICY

A. Minnesota Test of Academic Skills (MTAS)

1. The school district will utilize the existing annual review of IEPs or 504 plans to review, on a case-by-case basis, and determine how a student with a disability will participate in statewide testing.
2. Participation decisions will be made separately for mathematics, reading, and science. The assessment options are the Minnesota Comprehensive Assessment (MCA) and the MTAS.
3. Eligibility Requirements
 - a. The following requirements must be met for a student with a significant cognitive disability to be eligible for the MTAS:
 - (1) The IEP team must consider the student's ability to access the MCA, with or without accommodations;
 - (2) The IEP must review the student's instructional program to ensure that the student is receiving instruction linked to the general education curriculum to the extent appropriate. If instruction is not linked to the general education curriculum, the IEP team must review the student's goals and determine how access to the general curriculum will be provided;
 - (3) The IEP team determined the student's cognitive functioning to be significantly below age expectations. The team also determined that the student's disability has a significant impact on his or her ability to function in multiple environments, including home, school, and community;
 - (4) The IEP team determined that the student needs explicit and intensive instruction and/or extensive supports in multiple settings to acquire, maintain, and generalize academic and life skills in order to actively participate in school, work, home, and community environments;
 - (5) The IEP team must document, in the IEP, reasons the MCA is or is not an appropriate measure of the student's academic

progress and how the student would participate in statewide testing.

- b. MTAS participation decisions must not be made on the following factors:
 - (1) Student's disability category;
 - (2) Placement;
 - (3) Participation in a separate, specialized curriculum;
 - (4) An expectation that the student will receive a low score on the MCA;
 - (5) Language, social, cultural, or economic differences;
 - (6) Concern for accountability calculations.

B. Alternate ACCESS for ELs

- 1. The school district will utilize the existing annual review of IEPs or 504 plans to review, on a case-by-case basis, and determine how an identified EL student with a disability will participate in statewide testing.
- 2. Eligibility Requirements
 - a. The student must be identified as EL in MARSS in order to take an English language proficiency assessment.
 - b. The student must have a significant cognitive disability. If the student has been identified as eligible to take the MTAS in mathematics, reading, or science, the student meets this criterion.
 - c. For students in grades that the MTAS is not administered:
 - (1) the student must have cognitive functioning significantly below age level;
 - (2) the student's disability must have a significant impact on his or her ability to function in multiple environments, including home, school, and community; and
 - (3) the student needs explicit and intensive instruction and/or extensive supports in multiple settings to acquire, maintain, and generalize academic and life skills in order to actively participate in school, work, home, and community environments.
 - d. The IEP team must consider the student's ability to access the ACCESS, with or without accommodations.
 - e. The IEP team must document, in the IEP, reasons the MCA is or is not an appropriate English language proficiency assessment for the student.
- 3. Alternate ACCESS participation decisions must not be made on the following factors:

- a. Student’s disability category;
- b. Participation in a separate, specialized curriculum;
- c. Current level of English language proficiency;
- d. The expectation that the student will receive a low score on the ACCESS for ELs;
- e. Language, social, cultural, or economic differences;
- f. Concern for accountability calculations.

C. EL Students New to the United States

EL students new to the United States will take all assessments, including all academic assessments (math, reading, and science), as well as the English Language Proficiency Assessment (ACCESS).

III. DEFINITION OF TERMS

See the current “Procedures Manual for the Minnesota Assessments” which is produced by the Minnesota Department of Education and available through minnesota.pearsonaccessnext.com/policies-and-procedures.

IV. GRANTING AND DOCUMENTING ACCOMMODATIONS, MODIFICATIONS, OR EXEMPTIONS FOR TESTING

See Chapter 45 of the current “Procedures Manual for the Minnesota Assessments” and Guidelines for Administration of Accommodations and Linguistic Supports.

V. RECORDS

All test accommodations, modifications, or exemptions shall be reported to the school district test administrator. The school district test administrator shall be responsible for keeping a list of all such test accommodations, modifications, and exemptions for school district audit purposes. Testing results will be documented and reported.

618 ASSESSMENT OF STUDENT ACHIEVEMENT

I. PURPOSE

The purpose of this policy is to institute a process for the establishment and revision of assessments to measure achievement toward meeting the Minnesota Academic Standards, track academic progress over time, and provide Minnesota graduates information related to career and college readiness.

II. GENERAL STATEMENT OF POLICY

The school district has established a procedure by which students shall complete Graduation Requirements. This procedure includes the adoption of performance assessment methods to be used in measuring student performance. The school district strives to continually enhance student achievement of Graduation Requirements.

III. DEFINITIONS

~~A. "Above grade level" test items contain subject area content that is above the grade level of the student taking the assessment and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards above the grade level of the student taking the assessment. Notwithstanding the student's grade level, administering above grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.~~

A. "Academic standard" means a summary description of student learning in a required content area or elective content area.

~~"Below grade level" test items contain subject area content that is below the grade level of the student taking the test and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards below the student's current grade level. Notwithstanding the student's grade level, administering below grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.~~

B. "Benchmark" means the specific knowledge or skill that a student must master to complete part of an academic standard by the end of the grade level or grade band.

C. "Career and college ready," for purposes of statewide accountability, means a high school graduate has the knowledge, skills, and competencies to successfully pursue a career pathway, including postsecondary credit leading to a degree, diploma, certificate, or industry-recognized credential and employment. Students who are career and college ready are able to successfully complete credit-bearing coursework at a two- or four-year college or university or other credit-bearing postsecondary program without need for remediation.

~~"Computer adaptive assessments" means fully adaptive assessments.~~

D. "Cultural competence," for purposes of statewide accountability, means the ability and will to interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.

E. "Elective standards" means a locally adopted expectation for student learning in career and technical education and world languages.

- E. "Experiential learning" means learning for students that includes career exploration through a specific class or course or through work-based experiences such as job shadowing, mentoring, entrepreneurship, service learning, volunteering, internships, or other cooperative work experience, youth apprenticeship, or employment.
- ~~J. "Fully adaptive assessments" include on-grade level test items and items that may be above or below a student's grade level. **[Note: Fully adaptive mathematics and reading assessments must be used for grades 3 through 7 beginning in the 2015-2016 school year and later.]**~~
- ~~K. "On-grade level" test items contain subject area content that is aligned to state academic standards for the grade level of the student taking the assessment.~~
- GL. "Required standard" means (1) a statewide adopted expectation for student learning in the content areas of ~~English~~ language arts, mathematics, science, social studies, physical education, and the arts, ~~and/or~~ (2) a locally adopted expectation for student learning in health ~~or the arts~~.

IV. ESTABLISHMENT OF CRITERIA FOR ASSESSMENT

- A. The **[school board/superintendent/director of instruction]** shall establish criteria by which student performance of local academic standards and elective standards are to be evaluated and approved. The criteria will be submitted to the school board for approval. Upon approval by the school board, the criteria shall be deemed part of this policy.
- B. The superintendent shall ensure that students and parents or guardians are provided with notice of the process by which academic standards will be assessed.
- C. Staff members will be expected to utilize staff development opportunities to the extent necessary to ensure effective implementation and continued improvement of the implementation of assessments under the Minnesota Academic Standards.

V. STANDARDS FOR MINNESOTA ACADEMIC STANDARDS PERFORMANCE ASSESSMENTS

A. Benchmarks

The school district will offer and students must achieve all benchmarks for an academic standard to satisfactorily complete that state standard. These benchmarks will be used by the school district and its staff in developing tests to measure student academic knowledge and skills.

[School districts are required to formally establish a periodic review cycle for academic standards and related benchmarks in health, world languages, and career and technical education.]

B. Statewide Academic Standards Testing

1. The school district will utilize statewide assessments developed from and aligned with the state's required academic standards as these tests become available to evaluate student progress toward career and college readiness in the context of the state's academic standards.
2. The school district will administer annually, in accordance with the process determined by the Minnesota Department of Education, the state-constructed tests aligned with state standards to all students in grades 3 through 8 and at the high school level as follows:
 - a. computer-adaptive reading and mathematics assessments in grades 3 through 8;

- b. high school reading in grade 10, mathematics in grade 11, and a high school writing test, when it becomes available; and
 - c. science assessments in one grade in the grades 3 through 5 span, the grades 6 through 8 span, and a life science assessment in the grades 9 through 12 span (a passing score on high school science assessments is not a condition of receiving a diploma).
3. The school district will develop and administer locally constructed tests in social studies, health and physical education, and the arts to determine if a student has met the required academic standards in these areas.
 4. The school district may use a student's performance on a statewide assessment as one of the multiple criteria to determine grade promotion or retention. The school district also may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.
 5. For students in grade 8 in the 2012-2013 school year and later, the school district must record on the high school transcript a student's progress toward career and college readiness. For other students, this record of progress must be made as soon as practicable. In addition, the school district may include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.
 6. Students who do not meet or exceed the Minnesota Academic Standards, as measured by the Minnesota Comprehensive Assessments administered in high school, must be informed that admission to a public school is free and available to any resident under 21 years of age. The school district will determine how this notice is given.

C. Student Participation

1. The [Minnesota](#) Commissioner of Education must create and publish a form for parents and guardians that:
 - a. explains the need for state academic standards;
 - b. identifies the state assessments that are aligned with state standards;
 - c. identifies the consequences, if any, the school or student may face if a student does not participate in state or locally required standardized assessments;
 - d. states that students who receive a college ready benchmark on the high school Minnesota Comprehensive Assessment are not required to take a remedial, noncredit course at a Minnesota state college or university in the corresponding subject area;
 - e. summarizes the provisions in Minnesota Statutes section 120B.301(a) and (c); and
 - f. notifies a parent of the right to not have the parent's child participate in the state and locally required assessments and asks a parent that chooses to not have a child participate in the assessments the basis for the decision.
2. The school district must post the form created by the Commissioner on the school district website and include it in the school district's student handbook.

VI. RIGOROUS COURSE OF STUDY WAIVER

- A. Upon receiving a student's application signed by the student's parent or guardian, the school district must declare that a student meets or exceeds a specific academic standard required for graduation if the school board determines that the student:
 - 1. is participating in a course of study, including an advanced placement or international baccalaureate course or program; a learning opportunity outside the curriculum of the school district; or an approved preparatory program for employment or post-secondary education that is equally or more rigorous than the corresponding state or local academic standard required by the school district;
 - 2. would be precluded from participating in the rigorous course of study, learning opportunity, or preparatory employment or post-secondary education program if the student were required to achieve the academic standard to be waived; and
 - 3. satisfactorily completes the requirements for the rigorous course of study, learning opportunity, or preparatory employment or post-secondary education program.
- B. The school board also may formally determine other circumstances in which to declare that a student meets or exceeds a specific academic standard that the site requires for graduation under this section.
- C. A student who satisfactorily completes a post-secondary enrollment options course or program or an advanced placement or international baccalaureate course or program is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.

VII. CAREER EXPLORATION ASSESSMENT

- A. Student assessments, in alignment with state academic standards, shall include clearly defined career and college readiness benchmarks and satisfy Minnesota's postsecondary admissions requirements. Achievement and career and college readiness in mathematics, reading, and writing must also be assessed. When administering formative or summative assessments used to measure the academic progress, including the oral academic development, of English learners and inform their instruction, schools must ensure that the assessments are accessible to the students and students have the modifications and supports they need to sufficiently understand the assessments.
- B. On an annual basis, the school district must use the career exploration elements in these assessments, beginning no later than grade 9, to help students and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. The school district must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as a sequence of academic and career courses that lead to an industry-recognized credential, an associate's degree, or a bachelor's degree and are available to all students, whatever their interests and career goals.
- C. All students, except those eligible for alternative assessments, will be encouraged to participate in a nationally normed college entrance exam in grade 11 or 12. A student under this paragraph who demonstrates attainment of required state academic standards on these assessments, which include career and college readiness

benchmarks, is academically ready for a career or college and is encouraged to participate in courses awarding college credit to high school students. Such courses and programs may include sequential courses of study within broad career areas and technical skill assessments that extend beyond course grades.

To the extent state funding for college entrance exam fees is available, the school district will pay the cost, one time, for an interested student in grade 11 or 12, who is eligible for a free or reduced-priced meal, to take a nationally recognized college entrance exam before graduating. The school district may require a student who is not eligible for a free or reduced-priced meal to pay the cost of taking a nationally recognized college entrance exam. The school district will waive the cost for a student who is unable to pay.

- D. As appropriate, students through grade 12 must continue to participate in targeted instruction, intervention, or remediation and be encouraged to participate in courses awarding college credit to high school students.
- E. In developing, supporting, and improving students' academic readiness for a career or college, the school district must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation.

EDUCATION PROGRAMS

Assessment of Student Achievement

618

I. PURPOSE

The purpose of this policy is to institute a process for the establishment and revision of assessments to measure achievement toward meeting the Minnesota Academic Standards, track academic progress over time, and provide Minnesota graduates information related to career and college readiness.

II. GENERAL STATEMENT OF POLICY

The school district has established a procedure by which students shall complete Graduation Requirements. This procedure includes the adoption of performance assessment methods to be used in measuring student performance. The school district strives to continually enhance student achievement of Graduation Requirements.

III. DEFINITIONS

- A. "Academic standard" means a summary description of student learning in a required content area or elective content area.
- B. "Benchmark" means the specific knowledge or skill that a student must master to complete part of an academic standard by the end of the grade level or grade band.
- C. "Career and college ready," for purposes of statewide accountability, means a high school graduate has the knowledge, skills, and competencies to successfully pursue a career pathway, including postsecondary credit leading to a degree, diploma, certificate, or industry-recognized credential and employment. Students who are career and college ready are able to successfully complete credit-bearing coursework at a two- or four-year college or university or other credit-bearing postsecondary program without need for remediation.
- D. "Cultural competence," for purposes of statewide accountability, means the ability and will to interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.
- E. "Elective standards" means a locally adopted expectation for student learning in career and technical education and world languages.
- F. "Experiential learning" means learning for students that includes career exploration through a specific class or course or through work-based experiences such as job shadowing, mentoring, entrepreneurship, service learning, volunteering, internships, or other cooperative work experience, youth apprenticeship, or employment.
- G. "Required standard" means (1) a statewide adopted expectation for student learning in the content areas of language arts, mathematics, science, social studies, physical education, and the arts, and (2) a locally adopted expectation for student learning in health.

EDUCATION PROGRAMS

Assessment of Student Achievement

618

IV. ESTABLISHMENT OF CRITERIA FOR ASSESSMENT

- A. The Director of Teaching and Learning shall establish criteria by which student performance of local academic standards and elective standards are to be evaluated and approved. The criteria will be submitted to the school board for approval. Upon approval by the school board, the criteria shall be deemed part of this policy.
- B. The superintendent shall ensure that students and parents or guardians are provided with notice of the process by which academic standards will be assessed.
- C. Staff members will be expected to utilize staff development opportunities to the extent necessary to ensure effective implementation and continued improvement of the implementation of assessments under the Minnesota Academic Standards.

V. STANDARDS FOR MINNESOTA ACADEMIC STANDARDS PERFORMANCE ASSESSMENTS

A. Benchmarks

The school district will offer and students must achieve all benchmarks for an academic standard to satisfactorily complete that state standard. These benchmarks will be used by the school district and its staff in developing tests to measure student academic knowledge and skills.

B. Statewide Academic Standards Testing

- 1. The school district will utilize statewide assessments developed from and aligned with the state's required academic standards as these tests become available to evaluate student progress toward career and college readiness in the context of the state's academic standards.
- 2. The school district will administer annually, in accordance with the process determined by the Minnesota Department of Education, the state-constructed tests aligned with state standards to all students in grades 3 through 8 and at the high school level as follows:
 - a. computer-adaptive reading and mathematics assessments in grades 3 through 8;
 - b. high school reading in grade 10, mathematics in grade 11, and a high school writing test, when it becomes available; and
 - c. science assessments in one grade in the grades 3 through 5 span, the grades 6 through 8 span, and a life science assessment in the grades 9 through 12 span (a passing score on high school science assessments is not a condition of receiving a diploma).

EDUCATION PROGRAMS

Assessment of Student Achievement

618

3. The school district will develop and administer locally constructed tests in social studies, health and physical education, and the arts to determine if a student has met the required academic standards in these areas.
 4. The school district may use a student's performance on a statewide assessment as one of the multiple criteria to determine grade promotion or retention. The school district also may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.
 5. For students in grade 8 in the 2012-2013 school year and later, the school district must record on the high school transcript a student's progress toward career and college readiness. For other students, this record of progress must be made as soon as practicable. In addition, the school district may include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.
 6. Students who do not meet or exceed the Minnesota Academic Standards, as measured by the Minnesota Comprehensive Assessments administered in high school, must be informed that admission to a public school is free and available to any resident under 21 years of age. The school district will determine how this notice is given.
- C. Student Participation
1. The Minnesota Commissioner of Education must create and publish a form for parents and guardians that:
 - a. explains the need for state academic standards;
 - b. identifies the state assessments that are aligned with state standards;
 - c. identifies the consequences, if any, the school or student may face if a student does not participate in state or locally required standardized assessments;
 - d. states that students who receive a college ready benchmark on the high school Minnesota Comprehensive Assessment are not required to take a remedial, noncredit course at a Minnesota state college or university in the corresponding subject area;
 - e. summarizes the provisions in Minnesota Statutes section 120B.301(a) and (c); and
 - f. notifies a parent of the right to not have the parent's child participate in the state and locally required assessments and asks a parent that chooses to not have a child participate in the assessments the basis for the decision.

619 STAFF DEVELOPMENT FOR STANDARDS

I. PURPOSE

The purpose of this policy is to establish opportunities for staff development which advance the staff's ability to work effectively with the Graduation Assessment Requirements and with students as they progress to achievement of those Graduation Assessment Requirements and meet the requirements of federal law.

II. GENERAL STATEMENT OF POLICY

The school district is committed to developing staff policies and processes for continuous improvement of curriculum, instruction, and assessment to ensure effective implementation of the Graduation Assessment Requirements and federal law at all levels.

III. STANDARDS FOR STAFF DEVELOPMENT

- A. The Advisory Committee for Comprehensive Continuous Improvement of Student Achievement (Committee) shall address the needs of all staff in prioritizing staff development which will ensure effective implementation of the Graduation Assessment Requirements and federal law at all levels. The Committee will advise the school board on the planning of staff development opportunities.
- B. The school district shall place a high priority on staff development including activities, programs, and other efforts to implement the Graduation Assessment Requirements effectively and to upgrade that implementation continuously.
- C. Staff development plans for the school district shall address identified needs for Graduation Assessment Requirements implementation throughout all levels of the school district programs.
- D. In service, staff meeting, and district and building level staff development plans and programs shall focus on improving implementation of the Graduation Assessment Requirements at all levels for all students, including those with special needs.

IV. TRAINING AND PROFESSIONAL DEVELOPMENT

A. Paraprofessionals

The school district will provide each paraprofessional who assists a licensed teacher in providing student instruction with initial training. Such training will include training in emergency procedures, confidentiality, vulnerability, reporting obligations, discipline, policies, roles, and responsibilities, and building orientation. Training will be provided within the first 60 days a paraprofessional begins supervising or working with students.

Additionally, with regard to paraprofessionals providing support to special education students, the school district will ensure that annual training opportunities are required to enable the paraprofessional to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, the unique and individual needs of each student according to the student's disability and how the disability affects the student's education and behavior, following lesson plans, and implementing follow-up instructional procedures and activities.

B. Teachers and Administrators

The school district will provide high quality and ongoing professional development activities as required by state and federal laws.

620 CREDIT FOR LEARNING

[NOTE: School districts statutorily are required to provide students with credit for approved postsecondary courses, as set forth in Section V.; and accelerated or advanced academic courses offered by a higher education institution or nonprofit public agency, as set forth in Section VII. Additionally, school districts are required by statute to identify whether the school district offers weighted grades and, if it does, identify the courses for which a student may earn a weighted grade (Section VIII). Optional provisions related to awarding credit to students transferring from out-of-state, private, or home schools and the issuance of student grades for purposes of awarding certain honors, as set forth in Section IV., are not required by statute. Therefore, the language contained in Section IV. is suggested language, and a school district may or may not include this section or may modify this section at its discretion.]

I. PURPOSE

This policy recognizes student achievement that occurs in postsecondary enrollment option and other advanced enrichment programs. This policy also recognizes student achievement that occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. This policy addresses transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the school district will recognize student achievement obtained outside of the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to provide a process for awarding students credit toward graduation requirements for credits and grades students complete in other schools, postsecondary or higher education institutions, other learning environments, and online courses and programs.

III. DEFINITIONS

- A. "Accredited school" means a school that is accredited by an accrediting agency, recognized according to Minnesota Statutes, section 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (Commissioner).
- B. "Concurrent enrollment" means nonsectarian courses in which an eligible pupil under subdivision 5 or 5b enrolls to earn both secondary and postsecondary credits, are taught by a secondary teacher or a postsecondary faculty member, and are offered at a high school for which the district is eligible to receive concurrent enrollment program aid under Minnesota Statutes, section 124D.091.
- C. "Course" means a course or program.
- D. "Eligible institution" means a Minnesota public postsecondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by an accreditor recognized by the United States Department of Education, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota.
- E. "Nonpublic school" is a private school or home school in which a child is provided instruction in compliance with the Minnesota compulsory attendance laws.

- F. "Weighted grade" is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

IV. TRANSFER OF CREDIT FROM OTHER SCHOOLS

A. Transfer of Academic Requirements from Other Minnesota Public Secondary Schools

1. The school district will accept and transfer secondary credits and grades awarded to a student from another Minnesota public secondary school upon presentation of a certified transcript from the transferring public secondary school evidencing the course taken and the grade and credit awarded.
2. Credits and grades awarded from another Minnesota public secondary school may be used to compute honor roll and/or class rank if a student has earned at least **[insert number]** credits from the school district.

B. Transfer of Academic Requirements from Other Schools

1. The school district will accept secondary credits and grades awarded to a student for courses successfully completed at a public school outside of Minnesota or an accredited nonpublic school upon presentation of a certified transcript from the transferring public school in another state or nonpublic school evidencing the course taken and the grade and credit awarded.
 - a. When a determination is made that the content of the course aligns directly with school district graduation requirements, the student will be awarded commensurate credits and grades.
 - b. Commensurate credits and grades awarded from an accredited nonpublic school or public school in another state may be used to compute honor roll and/or class rank if a student has earned at least **[insert number]** credits from the school district.
 - c. In the event the content of a course taken at an accredited nonpublic school or public school in another state does not fully align with the content of the school district's high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements. Credit that does not fully align with the school district's high school graduation requirements will not be used to compute honor roll and/or class rank.
 - d. If no comparable course is offered by the school district for which high school graduation credit would be provided, no credit will be provided to the student.
2. Students transferring from a non-accredited, nonpublic school shall receive credit from the school district upon presentation of a transcript or other documentation evidencing the course taken and grade and credit awarded.
 - a. Students will be required to provide copies of course descriptions, syllabi, or work samples for determination of appropriate credit. In addition, students also may be asked to provide interviews/conferences with the student and/or student's parent and/or former administrator or teacher; review of a record of the student's entire curriculum at the nonpublic school; and review of the student's complete record of academic achievement.
 - b. Where the school district determines that a course completed by a student at a non-accredited, nonpublic school is commensurate with

school district graduation requirements, credit shall be awarded, but the grade shall be "P" (pass).

- c. In the event the content of a course taken at a non-accredited, nonpublic school does not fully align with the content of the school district's high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements.
- d. If no comparable course is offered by the school district for which local high school graduation credit would be provided, no credit will be provided to the student.
- e. Credit and grades earned from a non-accredited nonpublic school shall not be used to compute honor roll and/or class rank.

3. A student must provide the school with a copy of the student's grades in each course taken for secondary credit under this policy, including interim or nonfinal grades earned during the academic term.

V. POSTSECONDARY ENROLLMENT CREDIT

- A. A student who satisfactorily completes a postsecondary enrollment options course or program under Minnesota Statutes, section 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.
- B. Secondary credits granted to a student through a postsecondary enrollment options course or program must be counted toward the graduation requirements and subject area requirements of the district.
 - 1. Course credit will be considered by the school district only upon presentation of a certified transcript from an eligible institution evidencing the course taken and the grade and credit awarded.
 - 2. Seven quarter or four semester postsecondary credits shall equal at least one full year of high school credit. Fewer postsecondary credits may be prorated.
 - 3. When a determination is made that the content of the postsecondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
 - 4. In the event the content of the postsecondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
 - 5. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.
 - 6. When secondary credit is granted for postsecondary credits taken by a student, the school district will record those credits on the student's transcript as credits earned at a postsecondary institution.
- C. A list of the courses or programs meeting the necessary requirements may be obtained

from the school district.

- D. By the earlier of (1) three weeks prior to the date by which a student must register for district courses for the following school year, or (2) March 1 of each year, the school district must provide up-to-date information on the district's website and in materials that are distributed to parents and students about the program, including information about enrollment requirements and the ability to earn postsecondary credit to all pupils in grades 8, 9, 10, and 11. To assist the school district in planning, a pupil must inform the district by October 30 or May 30 of each year of the pupil's intent to enroll in postsecondary courses during the following academic term. A pupil is bound by notifying or not notifying the district by October 30 or May 30.

[NOTE: Because the 2024 Minnesota legislature amended the last two sentences, MSBA decided to add this language to this model policy.]

- E. Postsecondary institutions must notify a pupil's school as soon as practicable if the pupil withdraws from the enrolled course. The institution must also notify the pupil's school as soon as practicable if the pupil has been absent from a course for ten consecutive days on which classes are held, based on the postsecondary institution's academic calendar, and the pupil is not receiving instruction in their home or hospital or other facility.

[NOTE: The 2024 Minnesota legislature enacted this provision.]

VI. CREDIT FOR EMPLOYMENT WITH HEALTH CARE PROVIDERS

Consistent with the career and technical pathways program, a student in grade 11 or 12 who is employed by an institutional long-term care or licensed assisted living facility, a home and community-based services and supports provider, a hospital or health system clinic, or a child care center may earn up to two elective credits each year toward graduation under Minnesota Statutes, section 120B.024, subdivision 1, paragraph (a), clause (87), at the discretion of the enrolling school district. A student may earn one elective credit for every 350 hours worked, including hours worked during the summer. A student who is employed by an eligible employer must submit an application, in the form or manner required by the school district, for elective credit to the school district in order to receive elective credit. The school district must verify the hours worked with the employer before awarding elective credit.

VII. ADVANCED ACADEMIC CREDIT

- A. The school district will grant academic credit to a student attending an accelerated or advanced academic course offered by a higher education institution or a nonprofit public agency, other than the school district.
- B. Course credit will be considered only upon official documentation from the higher education institution or nonprofit public agency that the student successfully completed the course attended and passed an examination approved by the school district.
- C. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
- D. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
- E. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner and request a

determination of the number of credits that shall be granted to a student.

VIII. WEIGHTED GRADES

[NOTE: School districts must identify in policy whether they offer courses with weighted grades. Therefore, school districts must include one of the following options in their policies. A school board must adopt an identical policy regarding weighted grade point averages for credits earned via postsecondary coursework as it gives to credits earned via concurrent enrollment coursework.]

A. The school district does not offer weighted grades.

[or]

A. The school district offers weighted grades for courses that are identified as more rigorous or academically challenging as follows:

[List the types of courses that will be awarded weighted grades and the multiplier, similar to the following examples.]

1. A grade awarded in an Advanced Placement course will be multiplied by a factor of ____ (i.e., 1.07).
2. A grade awarded in an Honors course will be multiplied by a factor of ____.
3. A grade awarded in a College In the Schools course will be multiplied by a factor of ____.
4. A grade awarded in a course taken through a Postsecondary Enrollment Options program will be multiplied by a factor of ____.
5. A grade awarded in a course in a dual enrollment course will be multiplied by a factor of ____.

B. The school district will update its website prior to the beginning of each school year with a listing of the courses for which a student may earn a weighted grade.

IX. PROCESS FOR AWARDING CREDIT

A. The building principal will be responsible for carrying out the process to award credits and grades pursuant to this policy. The building principal will notify students in writing of the decision as to how credits and grades will be awarded.

B. A student or the student's parent or guardian may seek reconsideration of the decision by the building principal as to credits and/or grades awarded upon request of a student or the student's parent or guardian if the request is made in writing to the superintendent within five school days of the date of the building principal's decision. The request should set forth the credit and/or grade requested and the reason(s) why credit(s)/grade(s) should be provided as requested. Any pertinent documentation in support of the request should be submitted.

C. The decision of the superintendent as to the award of credits or grades shall be a final decision by the school district and shall not be appealable by the student or student's parent or guardian except as set forth in Section IX.D. below.

D. If a student disputes the number of credits granted by the school district for a particular postsecondary enrollment course, or advanced academic credit course, the student may appeal the school district's decision to the Commissioner. The decision of the Commissioner shall be final.

- E. At any time during the process, the building principal or superintendent may ask for course descriptions, syllabi, or work samples from a course where content of the course is in question for purposes of determining alignment with graduation requirements or the number of credits to be granted. Students will not be provided credit until requested documentation is available for review, if requested.

EDUCATION PROGRAMS

Credit for Learning

620

I. PURPOSE

The purpose of this policy is to recognize student achievement which occurs in Post-Secondary Enrollment Options and other advanced enrichment programs. The purpose of this policy also is to recognize student achievement which occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. The purpose of this policy also is to address the transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the school district will recognize student achievement obtained outside of the school district.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to provide a process for awarding students credit toward graduation requirements for credits and grades students complete in other schools, post-secondary or higher education institutions, other learning environments, and online courses and programs.

III. DEFINITIONS

- A. "Accredited school" means a school that is accredited by an accrediting agency, recognized according to Minn. Stat. § 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (MDE).
- B. "Blended learning" is a form of digital learning that occurs when a student learns part time in a supervised physical setting and part time through digital delivery of instruction, or a student learns in a supervised physical setting where technology is used as a primary method to deliver instruction.
- C. "Commissioner" means the Commissioner of MDE.
- D. "Digital learning" is learning facilitated by technology that offers students an element of control over the time, place, path, or pace of their learning and includes blended and online learning.
- E. "Eligible institution" means a Minnesota public post-secondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by the North Central Association of Colleges and Schools, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota.
- F. "Nonpublic school" is a private school or home school in which a child is provided instruction in compliance with the Minnesota compulsory attendance laws.
- G. "Online learning" is a form of digital learning delivered by an approved online learning provider.
- H. "Online learning provider" is a school district, an intermediate school district, an organization of two or more school districts operating under a joint powers agreement, or a charter school located

in Minnesota that provides online learning to students and is approved by MDE to provide online learning courses.

- I. "Weighted grade" is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

IV. TRANSFER OF CREDIT FROM OTHER SCHOOLS

A. Transfer of Academic Requirements from Other Minnesota Public Secondary Schools

1. The school district will accept and transfer secondary credits and grades awarded to a student from another Minnesota public secondary school upon presentation of a certified transcript from the transferring public secondary school evidencing the course taken and the grade and credit awarded.
2. Credits and grades awarded from another Minnesota public secondary school may be used to compute honor roll and/or class rank if a student has earned at least 12 credits from the school district.

B. Transfer of Academic Requirements from Other Schools

1. The school district will accept secondary credits and grades awarded to a student for courses successfully completed at a public school outside of Minnesota or an accredited nonpublic school upon presentation of a certified transcript from the transferring public school in another state or nonpublic school evidencing the course taken and the grade and credit awarded.
 - a. When a determination is made that the content of the course aligns directly with school district graduation requirements, the student will be awarded commensurate credits and grades.
 - b. Commensurate credits and grades awarded from an accredited nonpublic school or public school in another state may be used to compute honor roll and/or class rank if a student has earned at least 12 credits from the school district.
 - c. In the event the content of a course taken at an accredited nonpublic school or public school in another state does not fully align with the content of the school district's high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements. Credit that does not fully align with the school district's high school graduation requirements will not be used to compute honor roll and/or class rank.
 - d. If no comparable course is offered by the school district for which high school graduation credit would be provided, no credit will be provided to the student.

2. Students transferring from a non-accredited, nonpublic school shall receive credit from the school district upon presentation of a transcript or other documentation evidencing the course taken and grade and credit awarded.
 - a. Students will be required to provide copies of course descriptions, syllabi, or work samples for determination of appropriate credit. In addition, students also may be asked to provide interviews/conferences with the student and/or student's parent and/or former administrator or teacher; review of a record of the student's entire curriculum at the nonpublic school; and review of the student's complete record of academic achievement.
 - b. Where the school district determines that a course completed by a student at a non-accredited, nonpublic school is commensurate with school district graduation requirements, credit shall be awarded, but the grade shall be "P" (pass).
 - c. In the event the content of a course taken at an non-accredited, nonpublic school does not fully align with the content of the school district's high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements.
 - d. If no comparable course is offered by the school district for which local high school graduation credit would be provided, no credit will be provided to the student.
 - e. Credit and grades earned from a non-accredited nonpublic school shall not be used to compute honor roll and/or class rank.

V. POST-SECONDARY ENROLLMENT CREDIT

- A. A student who satisfactorily completes a post-secondary enrollment options course or program under Minn. Stat. § 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the Minnesota Academic Standards content standards corresponding to that specific rigorous course of study.
- B. Secondary credits granted to a student through a post-secondary enrollment options course or program that meets or exceeds a graduation standard or requirement shall be counted toward the graduation and credit requirements of a student completing the Minnesota Academic Standards.
 1. Course credit will be considered by the school district only upon presentation of a certified transcript from an eligible institution evidencing the course taken and the grade and credit awarded.
 2. Seven quarter or four semester post-secondary credits shall equal at least one full year

of high school credit. Fewer post-secondary credits may be prorated.

3. When a determination is made that the content of the post-secondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
 4. In the event the content of the post-secondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
 5. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.
 6. When secondary credit is granted for post-secondary credits taken by a student, the school district will record those credits on the student's transcript as credits earned at a post-secondary institution.
- C. A list of the courses or programs meeting the necessary requirements may be obtained from the school district.

VI. CREDIT FROM ONLINE LEARNING COURSES

- A. Secondary credits granted to a student through an online learning course or program that meets or exceeds a graduation standard or requirement shall be counted toward the graduation and credit requirements of a student completing the Minnesota Academic Standards.
- B. Course credit will be considered only upon official documentation from the online learning provider evidencing the course taken and the grade and credit awarded to the student.
- C. When a student provides documentation from an online learning provider, the course credit and course grade shall be recorded and counted toward graduation credit requirements for all courses or programs that meet or exceed the school district's graduation requirements in the same manner as credits are awarded for students transferring from another Minnesota public school as set forth in Section IV.A. above.

VII. ADVANCED ACADEMIC CREDIT

- A. The school district will grant academic credit to a student attending an accelerated or advanced academic course offered by a higher education institution or a nonprofit public agency, other than the school district.
- B. Course credit will be considered only upon official documentation from the higher education

institution or nonprofit public agency that the student successfully completed the course attended and passed an examination approved by the school district.

- C. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
- D. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the school district for graduation, the school district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
- E. If no comparable course is offered by the school district for which high school graduation credit would be provided, the school district will notify the Commissioner and request a determination of the number of credits that shall be granted to a student.

VIII. WEIGHTED GRADES

- A. The school district does not offer weighted grades.

IX. PROCESS FOR AWARDING CREDIT

- A. The building principal will be responsible for carrying out the process to award credits and grades pursuant to this policy. The building principal will notify students in writing of the decision as to how credits and grades will be awarded.
- B. A student or the student's parent or guardian may seek reconsideration of the decision by the building principal as to credits and/or grades awarded upon request of a student or the student's parent or guardian if the request is made in writing to the superintendent within five school days of the date of the building principal's decision. The request should set forth the credit and/or grade requested and the reason(s) why credit(s)/grade(s) should be provided as requested. Any pertinent documentation in support of the request should be submitted.
- C. The decision of the superintendent as to the award of credits or grades shall be a final decision by the school district and shall not be appealable by the student or student's parent or guardian except as set forth in Section IX.D. below.
- D. If a student disputes the number of credits granted by the school district for a particular post-secondary enrollment course, online learning course, or advanced academic credit course, the student may appeal the school district's decision to the Commissioner. The decision of the Commissioner shall be final.
- E. At any time during the process, the building principal or superintendent may ask for course descriptions, syllabi, or work samples from a course where content of the course is in question for purposes of determining alignment with graduation requirements or the number of credits to

Adopted: _____

MSBA/MASA Model Policy 624

Orig. 2023

Revised: _____

Rev. 2025

624 ONLINE INSTRUCTION

[NOTE: In 2023, the Minnesota Legislature repealed the Online Learning Option Act (Minnesota Statutes, section 124D.095) and replaced it with the Online Instruction Act (Minnesota Statutes, section 124D.094). This policy fully replaces the old Model Policy 624].

I. PURPOSE

The purpose of this policy is to recognize and govern online instruction options of students enrolled in the school district for purposes of compulsory attendance and address enrollment of students with an online instruction site for supplemental or full-time online learning.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall not prohibit an enrolled student from applying to enroll in online instruction.
- B. The school district shall grant academic credit for completing the requirements of an online instruction course or program.

III. DEFINITIONS

- A. "Blended instruction" means a form of digital instruction that occurs when a student learns part time in a supervised physical setting and part time through online instruction under paragraph (E).
- B. "Digital instruction" means instruction facilitated by technology that offers students an element of control over the time, place, path, or pace of learning and includes blended and online instruction.
- C. "Enrolling district" means the school district in which a student is enrolled under Minnesota Statutes, section 120A.05, subdivision 8, or chapter 124E.~~120A.22, subdivision 4.~~
- D. "Online course syllabus" means a written document that identifies the state academic standards taught and assessed in a supplemental online course under paragraph (I); course content outline; required course assessments; instructional methods; communication procedures with students, guardians, and the enrolling district under paragraph (C); and supports available to the student.
- E. "Online instruction" means a form of digital instruction that occurs when a student learns primarily through digital technology away from a supervised physical setting.
- F. "Online instructional site" means a site that offers courses using online instruction under paragraph (E) and may enroll students receiving online instruction under paragraph (E).
- G. "Online teacher" means an employee of the enrolling district under paragraph (C) or the supplemental online course provider under paragraph (J) who holds the appropriate licensure under Minnesota Rules, chapter 8710, and is trained to provide online instruction under paragraph (E).
- H. "Student" means a Minnesota resident enrolled in a school defined under Minnesota Statutes, section 120A.22, subdivision 4, in kindergarten through grade 12 up to the

age of 21.

- I. "Supplemental online course" means an online learning course taken in place of a course provided by the student's enrolling district under paragraph (C).
- J. "Supplemental online course provider" means a school district, an intermediate school district, a state-operated school, an organization of two or more school districts operating under a joint powers agreement, or a charter school located in Minnesota that is authorized by the Minnesota Department of Education (MDE) to provide supplemental online courses under paragraph (I).

IV. DIGITAL INSTRUCTION

- A. An enrolling district may provide digital instruction, including blended instruction and online instruction, to the district's own enrolled students. Enrolling districts may establish agreements to provide digital instruction, including blended instruction and online instruction, to students enrolled in the cooperating schools.
- B. When online instruction is provided, an online teacher shall perform all duties of teacher of record under Minnesota Rules, part 8710.0310. Unless the Commissioner of MDE grants a waiver, a teacher providing online instruction shall not instruct more than 40 students in any one online learning course or section.
- C. Students receiving online instruction full time shall be reported as enrolled in an online instructional site.
- D. Curriculum used for digital instruction shall be aligned with Minnesota's current academic standards and benchmarks.
- E. Digital instruction shall be accessible to students under sections 504 and 508 of the federal Rehabilitation Act and Title II of the federal Americans with Disabilities Act.
- F. An enrolling district providing digital instruction and a supplemental online course provider shall assist an enrolled student whose family qualifies for the education tax credit under Minnesota Statutes, section 290.0674 to acquire computer hardware and educational software so they may participate in digital instruction. Funds provided to a family to support digital instruction or supplemental online courses may only be used for qualifying expenses as determined by the provider. Nonconsumable materials purchased with public education funds remain the property of the provider. Records for any funds provided must be available for review by the public or MDE.
- G. An enrolling district providing digital instruction shall establish and document procedures for determining attendance for membership and keep accurate records of daily attendance under Minnesota Statutes, section 120A.21.

V. SUPPLEMENTAL ONLINE COURSES

- A. Notwithstanding Minnesota Statutes, sections 124D.03 and 124D.08 and Minnesota Statutes, chapter 124E, procedures for applying to take supplemental online courses other than those offered by the student's enrolling district are as provided in this subdivision.
- B. Any kindergarten through grade 12 student may apply to take a supplemental online course. The student, or the student's parent or guardian for a student under age 17, must submit an application for the proposed supplemental online course or courses. A student may:
 - 1. apply to take an online course from a supplemental online course provider that meets or exceeds the academic standards of the course in the enrolling district

they are replacing;

2. apply to take supplemental online courses for up to 50 percent of the student's scheduled course load;
3. apply to take supplemental online courses no later than 15 school days after the student's enrolling district's term has begun. An enrolling district may waive the 50 percent course enrollment limit or the 15-day time limit; and
4. enroll in additional courses with the online learning provider under a separate agreement that includes terms for paying any tuition or course fees.

[NOTE: The 2024 Minnesota legislature added this provision.]

- C. A student taking a supplemental online course must have the same access to the computer hardware and education software available in a school as all other students in the enrolling district.
- D. A supplemental online course provider must have a current, approved application to be listed by MDE as an approved provider. The supplemental online course provider must:
 1. use an application form specified by MDE;
 2. notify the student, the student's guardian if they are age 17 or younger, and enrolling district of the accepted application to take a supplemental online course within ten days of receiving a completed application;
 3. notify the enrolling district of the course title, credits to be awarded, and the start date of the online course. A supplemental online course provider must make the online course syllabus available to the enrolling district;
 4. request applicable academic support information for the student, including a copy of the IEP, EL support plan, or 504 plan; and
 5. track student attendance and monitor academic progress and communicate with the student, the student's guardian if they are age 17 or younger, and the enrolling district's designated online learning liaison.
- E. A supplemental online course provider may limit enrollment if the provider's school board or board of directors adopts by resolution specific standards for accepting and rejecting students' applications. The provisions may not discriminate against any protected class or students with disabilities.
- F. A supplemental online course provider may request that MDE review an enrolling district's written decision to not accept a student's supplemental online course application. The student may participate in the supplemental online course while the application is under review. Decisions shall be final and binding for both the enrolling district and the supplemental online course provider.
- G. A supplemental online course provider must participate in continuous improvement cycles with MDE.

VI. ENROLLING DISTRICT

- A. An enrolling district may not restrict or prevent a student from applying to take supplemental online courses.
- B. An enrolling district may request an online course syllabus to review whether the academic standards in the online course meet or exceed the academic standards in the

course it would replace at the enrolling district.

- C. Within 15 days after receiving notice of a student applying to take a supplemental online course, the enrolling district must notify the supplemental online course provider whether the student, the student's guardian, and the enrolling district agree that academic standards in the online course meet or exceed the academic standards in the course it would replace at the enrolling district. If the enrolling district does not agree that the academic standards in the online course meet or exceed the academic standards in the course it would replace at the enrolling district, then:
 - 1. the enrolling district must provide a written explanation of the district's decision to the student, the student's guardian, and the supplemental online course provider; and
 - 2. the online provider must provide a response to the enrolling district explaining how the course or program meets the graduation requirements of the enrolling district.
- D. An enrolling district may reduce the course schedule of a student taking supplemental online courses in proportion to the number of supplemental online learning courses the student takes.
- E. An enrolling district must appoint an online learning liaison who:
 - 1. provides information to students and families about supplemental online courses;
 - 2. provides academic support information including IEPs, EL support plans, and 504 plans to supplemental online providers; and
 - 3. monitors attendance and academic progress, and communicates with supplemental online learning providers, students, families, and enrolling district staff.
- F. An enrolling district must continue to provide support services to students taking supplemental online courses as they would for any other enrolled student including support for English learners, case management of an individualized education program, and meal and nutrition services for eligible students.
- G. An online learning student must receive academic credit for completing the requirements of a supplemental online learning course. If a student completes an online learning course that meets or exceeds a graduation standard or the grade progression requirement at the enrolling district, that standard or requirement is met.
- H. Secondary credits granted to a supplemental online learning student count toward the graduation and credit requirements of the enrolling district. The enrolling district must apply the same graduation requirements to all students, including students taking supplemental online courses.
- I. An enrolling district must provide access to extracurricular activities for students taking supplemental online courses on the same basis as any other enrolled student.

VII. REPORTING

Courses that include blended instruction and online instruction must be reported in the manner determined by the Commissioner of MDE.

CROSS REFERENCES:

MSBA/MASA Model Policy 613 (Graduation Requirements)
MSBA/MASA Model Policy 620 (Credit for Learning)

I. PURPOSE

The purpose of this policy is to recognize and govern online learning options of students enrolled in the school district for purposes of compulsory attendance and address enrollment of students with an online learning provider for supplemental or full-time online learning.

II. GENERAL STATEMENT OF POLICY

- A. The school district shall not prohibit an enrolled student from applying to enroll in online learning.
- B. The school district shall grant academic credit for completing the requirements of an online learning course or program.
- C. The school district shall allow an online learning student to have the same access to the computer hardware and education software available in the school district as all other students in the school district.
- D. The school district shall continue to provide non-academic services to online learning students.
- E. Online learning students may participate in the extracurricular activities of the school district on the same basis as other enrolled students.

III. DEFINITIONS

- A. "Enrolling district" means the school district or charter school in which a student is enrolled under Minnesota Statutes Section 120A.22, Subd. 4 for purposes of compulsory education.
- B. "Full-time online provider" means an enrolling school authorized by the Minnesota Department of Education (MDE) to deliver comprehensive public education at any or all of the elementary, middle, or high school levels.
- C. "Online course syllabus" is a written document that an online learning provider transmits to the enrolling school district using a format prescribed by the commissioner of education ("commissioner") to identify the state academic standards embedded in an online course, the course content outline, required course assessments, expectations for actual teacher contact time and other student-to-teacher communications, and the academic support available to the online learning student.
- D. "Online learning" is an interactive course or program that delivers instruction from a teacher to a student by computer, is combined with other traditional delivery methods that include frequent student assessment and may include actual teacher contact time, and meets or exceeds state academic standards.

- E. "Online learning student" is a student enrolled in an online learning course or program delivered by an authorized online learning provider.
- F. "Online learning provider" is a school district, an intermediate school district, or an organization of two or more school districts operating under a joint powers agreement, or a charter school located in Minnesota that provides online learning to students.
- G. "Student" is a Minnesota resident enrolled in a public school, a nonpublic school, church or religious organization, or home school in which a child is provided instruction in compliance with Minnesota Statutes Sections 120A.22 and 120A.24.
- H. "Supplemental online learning" means an online course taken in place of a course period during the regular school day at a local district school.

IV. PROCEDURES

A. Dissemination and Receipt of Information

- 1. The school district shall make available information about online learning to all interested people. The school district may utilize the list of approved online learning providers and online learning courses and programs developed, published, and maintained by MDE.
- 2. The school district will receive and maintain information provided to it by online learning providers.
- 3. The online learning provider must report or make available information on an individual student's progress and accumulated credit to the student, the student's parent, and the enrolling district in a manner specified by the commissioner unless the enrolling district and the online learning provider agree to a different form of notice and notify the commissioner.
- 4. The enrolling district must designate a contact person to help facilitate and monitor the student's academic progress and accumulated credits towards graduation.

B. Student Enrollment

- 1. A student may apply for full-time enrollment in an approved online learning program. The student must have the written consent of a parent or guardian to do so if the student is under eighteen (18) years of age.
- 2. The student and the student's parents must submit an application to the online learning provider and identify the student's reason for enrolling. An online learning provider that accepts a student under this section must

notify the student and the enrolling district in writing within ten days if the enrolling district is not the online learning provider. The student and the student's parent must notify the online learning provider of the student's intent to enroll in online learning within ten days of being accepted, at which time the student and the student's parent must sign a statement indicating that they have reviewed the online course or program and understand the expectations of enrolling in online learning. The online learning provider must use a form provided by MDE to notify the enrolling district of the student's application to enroll in online learning.

3. The supplemental online learning notice to the enrolling district when a student applies to the online learning provider will include the courses or program, credits to be awarded and the start date of the online course or program. An online learning provider must make available the supplemental online course syllabus to the enrolling district. Within 15 days after the online learning provider makes information in this paragraph available to the enrolling district, the enrolling district must notify the online provider whether the student, the student's parent, and the enrolling district agree or disagree that the course meets the enrolling district's graduation requirements. A student may enroll in a supplemental online learning course up to the midpoint of the school district's term. The school district may waive this requirement for special circumstances and with the agreement of the online learning provider.
4. An online learning course or program that meets or exceeds a graduation standard or the grade progression requirement of the enrolling district as described in the provider's online course syllabus meets the corresponding graduation requirements applicable to the student in the enrolling district. If the enrolling district does not agree that the course or program meets its graduation requirements, then:
 - a. the enrolling district must make available an explanation of its decision to the student, the student's parent, and the online provider; and
 - b. the online provider may make available a response to the enrolling district, showing how the course or program meets the graduation requirements of the enrolling district.
5. An online learning student may enroll in supplemental online learning courses equal to a maximum of 50 percent of the student's full schedule of courses per term during a single school year and the student may exceed the supplemental online learning registration limit if the enrolling district permits supplemental online learning enrollment above the limit, or if the enrolling district and the online learning provider agree to the instructional services. To enroll in more than 50 percent of the student's

6. full schedule of courses per term in online learning, the student must qualify to exceed the supplemental online learning registration limit or apply to enroll in an approved full-time online learning program consistent with Paragraph IV.B.2 above. Full-time online learning students may enroll in classes at a local school under a contract for instructional services between the online learning provider and the school district.
7. An online learning student may complete course work at a grade level that is different from the student's current grade level.
8. An online learning student may enroll in additional courses with the online learning provider under a separate agreement that includes terms for paying any tuition or course fees.

C. Classroom Membership and Teacher Contact Time

1. The enrolling district may reduce an online learning student's regular classroom instructional membership in proportion to the student's membership in online learning courses.
2. The school district may reduce the course schedule of an online learning student in proportion to the number of online learning courses the student takes from an online learning provider other than the school district.
3. A teacher with a Minnesota license must assemble and deliver instruction to enrolled students receiving online learning from an enrolling district. The delivery of instruction occurs when the student interacts with the computer or the teacher and receives ongoing assistance and assessment of learning. The instruction may include curriculum developed by persons other than a teacher holding a Minnesota license.
4. The online provider must give the commissioner written assurance that: (1) all courses meet state academic standards; and (2) the online learning curriculum, instruction and assessment, expectations for actual teacher contact time or other student-teacher communications and academic support meet nationally recognized standards and are described as such in an online syllabus that meets the commissioner's requirements.

D. Academic Credit; Graduation Standards or Requirements

1. The school district shall apply the same graduation requirements to all students, including online learning students.
2. The school district shall use the same criteria for accepting online learning credits or courses as it does for accepting credits or courses for nonresident transfer students under Minnesota law.

3. The school district may challenge the validity of a course offered by an online learning provider. Such a challenge will be filed with MDE.
4. The school district shall count secondary credits granted to an online learning student toward its graduation and credit requirements.
5. If a student completes an online learning course or program that meets or exceeds a graduation standard or grade progression requirement at the school district, that standard or requirement will be met.

710 EXTRACURRICULAR TRANSPORTATION

I. PURPOSE

The purpose of this policy is to make clear to students, parents, and staff the school district's policy regarding extracurricular transportation.

II. GENERAL STATEMENT OF POLICY

The determination as to whether to provide transportation for students, spectators, or participants to and from extracurricular activities shall be made solely by the school district administration. This determination shall include, but is not limited to, the decision to provide transportation, the persons to be transported, the type or method to be utilized, all transportation scheduling and coordination, and any other transportation arrangements or decisions. Employees who are involved in extracurricular activities shall be advised by the administration as to the transportation arrangements made, if any.

III. ARRANGEMENT OF EXTRACURRICULAR TRANSPORTATION

School district employees shall not undertake independent arrangement, scheduling, or coordination of transportation for extracurricular activities unless specifically directed or approved by the school district administration. All transportation arrangements made by a school district employee must be approved by a building administrator. If the school district makes no arrangements for extracurricular transportation, students who wish to participate are responsible for arranging for or providing their own transportation.

IV. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

[Note: This policy provides that employees may use a personal vehicle to transport students in an emergency or other unforeseeable circumstance. An "emergency or other unforeseeable circumstance" does not include situations where regular transportation is available or scheduled.]

For example, if a scheduled extracurricular event occurs outside of the school district and the school district transports a team or group of students to and from the event, an employee would be prohibited by law from using a personal vehicle to transport some students to the event. In contrast, if a student attending this same event became ill or injured and required

immediate transportation home or to a health care facility, the exigent need to transport one student would not constitute regular or scheduled transportation. An employee would have authority to transport the student in a personal vehicle under these circumstances, if using a vehicle that is properly registered and insured. The expectation of the school district is that the employee would immediately contact administration about these circumstances to ensure oversight of the employee's use of this exception.

Nonregular and nonscheduled transportation also would include situations where some notice may be provided of the need for transportation to a nonscheduled event for which transportation generally is not provided by the school district. For example, a group of students may participate in a scheduled debate competition for which regular school district transportation is provided. Two students advance to a regional competition the following day. Transportation would not have been scheduled to the regional competition as the students' advancement was not predicted. These circumstances may justify an employee's use of a personal vehicle to transport the two students to the regional competition, if the vehicle is properly registered and insured. Because the employee has sufficient time to contact an administrator, advance written permission by an administrator would be expected for the purpose of overseeing that the reasons for an employee using a personal vehicle comply with the requirements of the law.]

V. FEES

In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.

STUDENTS

Early Entrance to Kindergarten

598-NB

I. PURPOSE

The purpose of this policy is to provide guidance to professional staff and parents regarding early entrance to kindergarten.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to fully comply with Minn. Stat. § 124D.02 requiring school districts to have a board-adopted policy for early admission to kindergarten for select students.
- B. The school district will adopt procedures that establish a comprehensive evaluation for early admission to kindergarten.

608 INSTRUCTIONAL SERVICES – SPECIAL EDUCATION

[NOTE: The provisions of this policy substantially reflect statutory and regulatory requirements.]

I. PURPOSE

The purpose of this policy is to set forth the position of the school board on the need to provide special educational services to some students in the school district.

II. GENERAL STATEMENT OF POLICY

The school board recognizes that some students need special education and further recognizes the importance of providing a free appropriate public education and delivery system for students in need of special education.

III. CHILDREN BIRTH THROUGH AGE SIX EXPERIENCING DEVELOPMENTAL DELAYS

A. "Child with a disability" means a child identified under federal and state special education law as deaf or hard-of-hearing, blind or visually impaired, deafblind, or having a speech or language impairment, a physical impairment, other health disability, developmental cognitive disability, an emotional or behavioral disorder, specific learning disability, autism spectrum disorder, traumatic brain injury, or severe multiple impairments, and who needs special education and related services, as determined by the rules of the Commissioner of the Minnesota Department of Children, Youth, and Families for children from birth through age two and by the rules of the Commissioner of the Minnesota Department of Education for all other children. A licensed physician, an advanced practice registered nurse, a physician assistant, or a licensed psychologist is qualified to make a diagnosis and determination of attention deficit disorder or attention deficit hyperactivity disorder for purposes of identifying a child with a disability.

B. In addition to Paragraph A, every child under age three and, at local district discretion, every child from age three through age six, who needs special instruction and services, as determined by the rules of the Commissioner of the Minnesota Department of Children, Youth, and Families for children under age three and by the rules of the Commissioner of the Minnesota Department of Education for children ages three through six, because the child has a substantial delay or has a diagnosed physical or mental condition or disorder with a high probability of resulting in developmental delay is a child with a disability.

C. A child with a short-term or temporary physical or emotional illness or disability, as determined by the rules of the Commissioner of the Minnesota Department of Children, Youth, and Families for children from birth through age two and by the rules of the Commissioner of the Minnesota Department of Education for all other children, is not a child with a disability.

[NOTE: The 2024 Minnesota legislature revised these provisions in part to account for the responsibilities of the new Department of Children, Youth, and Families. The provisions quote Minnesota Statutes, section 125A.02.]

IV. RESPONSIBILITIES

A. The school board accepts its responsibility to identify, evaluate, and provide special education and related services for ~~disabled~~-children with a disability who are properly the responsibility of the school district and who meet the criteria to qualify for special education and related services as set forth in Minnesota and federal law.

- B. The school district shall ensure that all qualified children with a disability are provided special education and related services that are appropriate to their educational needs.
- C. When such services require or result from interagency cooperation, the school district shall participate in such interagency activities in compliance with applicable federal and state law.
- D. The school district may conduct an assessment for developmental adapted physical education, as defined in Minnesota Rules, part 3525.1352, as a stand-alone evaluation without conducting a comprehensive evaluation of the student in accordance with prior written notice provisions in Minnesota Statutes, section 125A.091, subdivision 3a. A parent or guardian may request that the school district conduct a comprehensive evaluation of the parent's or guardian's student.

[NOTE: The 2024 Minnesota legislature enacted paragraph D. This provision is permissive, not mandatory. A school board can decide whether to add it to a policy.]

EDUCATION PROGRAMS

Instructional Services – Special Education

608

I. PURPOSE

The purpose of this policy is to set forth the position of the school board on the need to provide special educational services to some students in the school district.

II. GENERAL STATEMENT OF POLICY

The school board recognizes that some students need special education and further recognizes the importance of providing a free appropriate public education and delivery system for students in need of special education.

III. RESPONSIBILITIES

- A. The school board accepts its responsibility to identify, evaluate, and provide special education and related services for disabled children who are properly the responsibility of the school district and who meet the criteria to qualify for special education and related services as set forth in Minnesota and federal law.
- B. The school district shall ensure that all qualified disabled children are provided special education and related services which are appropriate to their educational needs.
- C. When such services require or result from interagency cooperation, the school district shall participate in such interagency activities in compliance with applicable federal and state law.
