In accordance with the United States Environmental Protection Agency (EPA) National Emission Standard for Hazardous Air Pollutants (NESHAP) inspection protocol, a pre-demolition survey including inspection of the structures to identify suspect asbestos containing building materials (ACBM) was conducted.

No suspect materials were present on the interior or exterior of the buildings. The buildings now meet the requirements to be free of asbestos containing materials in all areas.

The above information is, to the best of my knowledge, true and accurate. It is understood and agreed that any error, misstatement or misrepresentation of fact, either with or without intention on my part, such as might, if known, cause a refusal of this application, or any alteration or change in plans made without the approval of the Zoning Administrator subsequent to the issuance of the Permit, shall constitute sufficient grounds for the revocation of such permit. This permit is valid for one (1) year from approval date and work must be started within the first 6 months.

The signature also indicates permission granted to the Zoning Administrator to inspect the construction site in which this permit is granted at any time until construction is completed and a Certificate of Occupancy is issued.
