FROM: Ed Tennant 

DATE: June 10, 2021

RE: Tech Committee

The Wednesday, June 16 Board Technology Committee meeting will include presentations from the district's TEC (technology enriched curriculum) coaches related to the BetterLesson staff development initiative. The coaches will review the activities and experiences of the teachers who participated.

The initiative for the 2020-21 school year included:

- 3 cohorts of LT teachers
- 35 teacher participants – 14 of whom participated in a yearlong experience
- 325 individual coaching sessions

The program for the 2021-22 school year is expected to provide opportunities for approximately the same number of participants and sessions, while supporting the 20-21 participants in their continued implementations of experiences from this year. Our TEC coaches have also begun training to facilitate their own abilities to provide BetterLesson-style coaching experiences, leading to long-term sustainability when our BetterLesson engagement ends.
