FY27 Budget Board Updates

Committee of the Board Meeting
June 9, 2026

2026-27 Budget Overview

SPPS is estimating a budget shortfall for 2026-27 of approximately **\$14.35M**.

The \$14.35 million represents 1.7% of the General Fund budget. Budget reductions are necessary to create a balanced FY27 General Fund budget.

Reasons for the budget shortfall:

9

- Increased expenses, outpacing state aid revenue, including employee wages and benefits and rising costs of goods and services.
- Approximately **900 fewer students** over two years from what was expected in the 2025-26 year and the enrollment projection for the 2026-27 school year.

FY27 Budget Anticipated Revenue and Expense

FY27 Budget Shortfall	\$14.35	3.11%
Ending fund balance in FY27 with \$14.35M in cost containment and use of \$3.5M from restricted OPEB fund	\$43.63	5.26%

13

FY27 Budget Assumptions

- Based on these assumptions, the District's estimated expense could exceed its revenue in FY27 by approximately **\$14.35 million** (1.7% of total budget)

Revenue = **\$814.47M** Expense = **\$828.82M**

- Factors that could alter this estimated shortfall: enrollment, state funding formulas, employment contracts, health insurance, impact of new federal policies and structure pertaining to education and the economy

14

All revenue and expense figures are subject to change between now and the budget adoption in June.

How Are Budget Decisions Made?

District Mission & Community Values

Students, staff and families are asked what they value to help guide budget decisions

Board Parameters

The Board of Education sets guidelines for what the district should prioritize

District Budget Decisions

District leaders make decisions for funding and reductions based on the Board's parameters and community values

Budget Implementation

Principals and department leaders make choices around staffing, 16 contracts and programming based on the funding available

Many required expenses fall outside of these priorities and must be funded using available resources, such as utilities, insurance, state and federal mandates, staffing ratios, and other fixed costs.

Community Budget Engagement Summary

SPPS engaged with over 6,100 parents/guardians, staff, community members and students to determine our community's priorities and get feedback on the 2026-27 budget.

Activity	Participants	Date
Parent/Guardian Budget Surveys	1,059 parents/guardians	Dec. 11, 2025-Jan. 16, 2026
Staff Budget Surveys	1,401 staff	Dec. 11, 2025-Jan. 16, 2026 ¹⁷
Student Budget Surveys	3,467 students in grades 6-12	Jan. 5-16, 2026
Fall Community Budget Meeting	86 parents, community members and staff	Dec. 11, 2025
Spring Community Budget Meeting	127 parents, community members and staff	Apr. 28, 2026
TOTAL	6,140 participants	Dec. 2025-April 2026

Community Budget Priorities

Budget decisions are guided by the community priorities gathered from engagement opportunities earlier this school year.

Survey results also showed strong support for arts and music, mental health support, required course offerings, building upkeep, college and career readiness, and language and culture programs.

Top 3 Community Priorities

Board Budget Parameters

The SPPS Board of Education created three guidelines that will be used when making budget decisions for next year:

1. Maintain district commitment to full-day pre-kindergarten
2. Retain at least 95% of instructional support services
3. Demonstrate continued commitment to language and culture programs

19

The district must also maintain at least 5% of daily operating expense in reserve funds per Board policy.

Budget Priorities

SPPS is committed to limiting the impact of budget reductions on students' experiences at school as much as possible and will honor the following priorities:

- Avoid split-level (composite) classes in grades PreK-1
- Adhere to class size averages in all schools
- Maintain full-day pre-kindergarten and kindergarten enrollment
- Retain current levels of instructional support staff
- Demonstrate continued commitment to language and culture programs

20

Budget Reductions

School-Related Reductions

School-related services will make \$10.5 million in reductions. This is a **1.5% reduction to schools'** overall budget of \$683.9 million.

Non-School Related Reductions

Non-school based services will make \$3 million in reductions. This is a **2.3% reduction to administrative areas'** overall budget of \$130.3 million.

Total Reductions

SPPS will make \$14.35 million total budget reductions for 2026-27. This is a **1.7% reduction of the district's General Fund budget** of \$828.8 million.

21

Budget Reductions

Reduction	Savings	Rationale
-90.5 School-based FTEs	\$9.39M	Align school staffing with enrollment. No splits PreK-1, specialists round to 0.5; middle/high school remain staffed at 4 below class size
-25 District staff FTEs and central office expenses	\$3.06M	Reductions across all central office departments
Reduce carryover to schools by 50%	\$750,000	Schools will continue to have some carryover funds for discretionary expenditures
-6 FTEs attrition	\$510,000	Each year, roughly 850 employees leave SPPS. Estimating reduction of 6 FTEs through attrition 22
Modify allocation practice for kindergarten sections	\$300,000	Continue to maximize kindergarten enrollment by accepting up to 3 students over cap; adjustments in fall 2026 as needed
Fall staffing adjustments	\$400,000	The district will set aside \$600K for this purpose, which results in a \$400K savings
2% increase to supply budgets instead of 4% increase	\$240,000	Reduce standard inflationary increase by 50% for supplies
Maintain partnerships where grants are being reduced	-\$300,000	Use general fund dollars to replace lost grant revenue
Total FY27 Reductions	\$14.35M

English Learner (EL) Teacher FTEs

The ratio of EL teacher FTEs to EL students has improved over the past 7 years.

The reduction in EL₄₃ teacher FTE allocations from 2025-26 to 2026-27 is 16.3 FTE. This is due to decreased enrollment of EL students.

School Counselor FTEs

The ratio of counselor FTEs to K-12 students has improved over the past 7 years.

Despite the counselor FTE reduction for ⁴⁴ 2026-27, the ratio will improve from 268-to-1 in 2025-26 to 256-to-1 next year. This is due to declining enrollment overall.

SPPS Athletics Update

June 9, 2026

51

Presentation Objectives

- **Examine:** Current trends and system alignment across middle and high school athletics
- **Provide:** Clear overview of strengths, challenges, and barriers impacting participation & program delivery
- **Share:** Key factors influencing growth, including community partnerships
- **Present:** Strategic priorities and opportunities to strengthen equity, access, program quality, and alignment across SPPS

52

Vision

Cornerstones of SPPS Athletics Vision:

- Provide equitable, inclusive, high-quality athletic experiences (Vision work in progress)
- Build community via sport and support the whole child
 - Creating MS & HS specific visions
 - Should know what SPPS athletics looks & *feel/s* like based on vision
 - Currently working with principals & AD's - Visions completed prior to start of SY 26.27

53

Overarching Theme:

Know our role and strengthen community sport culture **early!**

Defining Sport Culture in SPPS

Key Idea: Sport is culture-driven. Societies shape athletics based on values, history, and environment.

National Context: ~70% of youth quit organized sports by age 13.

SPPS Context: Education-based athletics start in **middle school** (12-14). 54

Implication for SPPS: Early sport experiences are inconsistent, externally driven (club/community), and not necessarily aligned with school and educational-based athletics values.

Foundational Question: What is SPPS sport culture - Who do we serve and how will we serve them?

- We offer **middle & high** school sports

SPPS - Feeder Vs. Intramural

Distinction between **feeder** and **intramural** programming:

- Feeder programs support performance and pipeline building
 - Feeder systems → sustain competitive high school programs
- Intramurals support access, inclusion, and student engagement
 - Intramurals → ensure every student has a place in athletics

55

So, what are we currently?

- Middle school is operating as intramural
- High school programs elevate a few high performing MS students to lower level teams, creating 'feeder system' of sorts within our own programming (16-20 week vs 8 week programming)

Core Priority 1: Community Collaboration

- **SPPS Community Ed**
 - Gymnastics & Aquatics
 - Comp & Rec levels
- **Parks & Rec**
 - Mostly In-House offerings (volleyball, baseball, softball, lacrosse, soccer, football, basketball) 56
 - Typically geared towards getting ages 3-12 engaged in their first years of athletic programming
- **Clubs, Local Youth Organizations, Non-profits**
 - Ex: West Side Boosters (multiple), St. Paul Capitals (hockey), AAU (basketball), Endurance United (Nordic), Blackhawks (soccer)
 - Typically higher level programming and competition

Core Priority 2: Middle School Focus

Focus Areas:

- Ensure appropriate sport offerings
- Strengthen MS Athletic Director leadership expectations
- Increase middle school administration engagement

57

Build Systems For:

- Scheduling consistency (better match-up alignment)
- Staffing/coaching development
- Student recruitment & retention

Core Priority 3: Participation & Access

Middle School → High School Pipeline

- Strengthen middle school athletics structure
- Create clear pathways into high school programs
 - Offering sports at both levels that make sense for SPPS
- Align expectations & communication (MS + HS ADs)
- Reduce barriers:
 - Cost & Funding (Not taking in enough money to provide good exp.)
 - Transportation (Currently only provided to & from competitions)
 - Awareness
 - District-Wide AD collaborate with SPPS Parent Advisory Councils

58

Core Priority 4: Program Quality & Operations

Coach Development

- Clear expectations and ongoing Coach PD
- Consistent evaluation systems

Operations

- Safe, equitable, accessible facilities
- Safety and security protocols (SEM collaboration)
- Transportation strategy: Reducing access

Communication

- Constantly evaluating our communications systems from coaches to district level

59

Looking Ahead - SPPS

Short-Term Goals

- Continuous: Prioritize student-athlete attendance, academic performance, and progress toward graduation
- Strengthen support at the middle school level:
 - Assist ADs, encourage principal engagement, facilitate middle & high school AD feeder school collaboration, and **funding**
- Coach and AD professional development

60

Long-Term Goals

- Amplify student voice in shaping athletic programs
- Develop a clear feedback system using surveys and PAC engagement sessions
- Strengthen partnerships with local youth programming to enhance resources and community involvement

Great Things Happening!

Thank
You

Community Engagement

Expansion

1

Community Meeting Leadership-facilitated

N=1973

We've worked on all the main areas, but the results aren't widely visible or understood. Additionally, different groups have very different views on what the main challenges are.

Expansion

2

Survey

N=879

All groups agree on a core principle: education is most effective when children feel seen, heard, and valued. Across the board, stakeholders emphasized the need for an environment that respects student dignity, intelligence, and individual needs.

Expansion

3

Community Meeting Student Convening

N=115

We've identified the right strategic challenges, and most of our proposed strategies were well-received. However, participants raised serious questions about how practical they are, how quickly we can implement them, and who will be held accountable

May 5-6 Student Convening

- Purpose: to receive feedback from students on decisions that directly impact their education
- 46 high school students (9-12) participated
- While students generally liked the strategies, particularly discipline and belonging, they had substantial concerns about consistency. They noticed that the ideas aren't being applied the same way from school to school—or even by different adults within the same building

May 7 Taskforce-Action Team Consultancy

- Purpose: (1) internal consistency check that the perspectives and experiences of the advisory taskforce was grounding and embedded in the creation of the plan , (2) to receive feedback from a community perspective on decisions that directly impact them
- Overall advisory taskforce members expressed agreement that their work was represented in the challenges and draft strategies.
- Taskforce members emphasized that we must stay focused on effective implementation and accountability. At the same time, we must manage our budget responsibly and ensure every single student, school, and program gets the academic support they need.

May 12 Community Engagement

- Purpose: to receive feedback from community members regarding the identified strategic challenges and strategies
- 115 participants
- Overall, the feedback was positive. Attendees were especially interested in the strategies focused on discipline & belonging and family & language access.

Preparation For Decision Making

- **May 15:** Completed proposals for strategies
- **May 28:** Proposals reviewed by Advisory Taskforce
- **June 9-10:** Dr. Macarre Traynham (Assistant Commissioner for Office of Equity and Engagement, MDE) facilitate review with senior leaders to determine which strategies will move forward into final plan
- **June 12-30:** Final plan completion
- **July 14:** Plan proposal to Board of Education for review
- **August 18:** Plan proposal to Board of Education for approval

Language Access Plan

Prepared by:

*Office of Family Engagement & Community Partnerships
Office of Communications*

Overview and Mission

- Ensure equitable access to information and empower families to engage in their children's education regardless of language proficiency or disability.
- SPPS serves a student body with more than 115 languages and dialects spoken at home.
- The plan aligns with Title VI of the Civil Rights Act, Executive Order 13166, and Minn. Stat. § 123B.32.

87

Definition: Language Access Plan

LANGUAGE ACCESS IS A CIVIL RIGHT

Building Capacity for Language Access and Inclusion
The Minnesota Department of Education (MDE) is committed to upholding the language access rights of all families with children enrolled in a public or charter school in the state. [Title VI of the Civil Rights Act of 1964](#) and [Executive Order 13166](#) require all recipients of federal funds to have a language access plan that explains their values and process for effectively communicating with individuals who speak a language other than English. MDE will provide guidance to schools to ensure their language assistance process is effective and improved continuously through family and community outreach and engagement.

Parents and Guardians
Your school will provide an interpreter if you need one. Information about your child's education and school policies are available in different languages on the school's website.

School Districts and Schools
Language assistance services must be visible and accessible to all families and the general public. Promote and strengthen your school's Language Access Plan through ongoing community engagement to receive feedback.

m DEPARTMENT OF EDUCATION

Language Access Plan (LAP)

A formal document explaining how families, students and community members with limited English proficiency (LEP) or disabilities have timely, equitable access to district information, services and communication.

Legal Requirements

Minnesota Law

According to [Minnesota Statute § 123B.32](#), every school board must develop and approve a plan to help students and parents who communicate in a language other than English or require additional assistance due to a disability.

Special Education (IDEA)

Mandates that schools supply interpreters for IEP meetings and translate vital documents into the family's native language.

Federal Civil Rights

Prohibits denying families access to educational services based on their primary language.

SPPS Board Policy

89

Guarantees language support and interpretation during parent-teacher conferences.

What the plan does: Guides staff on everyday procedures, priorities, and family notifications.

Why it matters: It is a legal necessity and a vital civil rights protection for families.

Plan Requirement

To be valid, the plan cannot be a private internal memo. It must be:

- Presented to and approved by the school board
- Made publicly available
- Included in the student handbook (Rights and Responsibilities)

90

Reasons for the New Requirements

Equity Lessons from the Pandemic

The COVID-19 pandemic showed that schools often struggle to communicate with all families.

- **Past Issues:** Schools relied too heavily on any bilingual staff member available.
- **Negative Impact:** This led to mistakes and inequities for many students. 91
- **The Goal:** Every family deserves high-quality information so their children can succeed.

Trained vs. Certified Interpreters

Professional Standards for Language Help

Certified Interpreters

These professionals passed a certification test proving they speak both languages perfectly and know how to interpret correctly.

Trained Interpreters

These individuals completed classes on how to interpret. These trainings are provided by the district.

92

*Schools must use either certified or trained interpreters. **SPPS uses trained interpreters.***

Rules for Using Bilingual Staff

Training Requirement

Bilingual staff should only act as an interpreter if they have been **trained/approved by the district**.

Emergency Situations

93

When an interpreter is not available, bilingual staff can be used to communicate with families in emergency situations. To communicate means to send or share information - either by speaking, writing, gesturing, or using other methods.

Written Communications

Formal translations will be provided by the district based on specific school population needs.

Verification and Oversight Procedures

- School districts do **not** need to send their plans to the state (MDE) for approval.
- The plan must be easy for the public to find in school handbooks or on the website.
- School boards must review the plan every two years to ensure it is current.

94

Consequences of Non-Compliance

Legal and Civil Rights Responsibilities

- **Civil Rights:** Following this plan is a legal requirement to protect the rights of families.
- **Accountability:** The school board and school leaders are legally responsible for making sure the plan is followed.

Important Deadlines and Timelines

Key Dates for Implementation

- 
- 2025-26 School Year**
School districts must write their plans and present them to their boards
 - 2026-27 School Year**
The plan must be fully active and included in the Rights and Responsibilities handbook
 - Every Two Years Going Forward**
The school district must review the plan and solicit school board approval

95

Next Steps

Board Approval

- Present plan to the Board at June COB
- Request approval from the Board at June BOE

Public Access

Publish the approved plan on **SPPS.org** and in the **Rights and Responsibilities Handbook**.

96

Training & Support

- Continue ongoing On-Call Interpreters training
- Share information with school leaders and staff

Sustainability

Establish and maintain a **regular plan review process** to ensure ongoing effectiveness.

DISTRICT 625 LANGUAGE ACCESS PLAN

Saint Paul Public Schools (SPPS) serves a diverse student body, with over 115 languages spoken at home. While a wide range of languages are present, the school district provides information, including translations and interpretation services, in the five most common languages: English, Spanish, Hmong, Somali and Karen. All families have a right to free interpretation, translation and accessibility services for any language or accommodation need.

In SPPS, we are committed to ensuring that every family has equitable access to information. Our Language Access Plan is designed to remove language barriers and empower families who prefer to communicate in a language other than English to engage in their children's education, or who require additional assistance due to a disability.

This plan supports our diverse community by ensuring families can participate in school communications, events and decision-making processes, creating a more inclusive and welcoming environment for all.

1. Purpose

This plan outlines how the district ensures **equitable access to information, services and communication** for families, students and community members with **limited English proficiency (LEP)** or require additional assistance due to a disability.

2. Legal Foundation

This plan is in compliance with:

- **Title VI of the Civil Rights Act of 1964**
- **The Individuals with Disabilities Education Act (IDEA)**, which establishes the federal requirement under 34 CFR § 300.322(e) that schools ensure parents understand IEP Team meetings, and mandates communication in the parent's native language.

- **Executive Order 13166:** Improving Access to Services for Persons with Limited English Proficiency
- **State/local education code and guidance on language access:** This Language Access Plan is intended to align with [Minn. Stat. § 123B.32](#), which requires school districts to provide/utilize processes and procedures that effectively assist students and adults who communicate in a language other than English or require additional assistance due to a disability. The Language Access Plan provides information about the tools, processes and resources available for students, families and staff in District 625.
- Saint Paul Public Schools Board Policy **Parent/Guardian Conferences: Communication** [611.00](#)
- All data collected for the purpose of identifying language needs, including Home Language Surveys, shall be classified and handled as private educational data in accordance with the Minnesota Government Data Practices Act (Minn. Stat. § 13.32) and FERPA.

3. Goals

- Ensure **meaningful access** to all district programs and services regardless of English proficiency and disability.
- Support **effective communication** between school staff and families.
- Provide **interpreting and translation services** that are timely, accurate and culturally appropriate.
- Ensure **quality and reliability** in language assistance to avoid educational inequities.

4. Key Language Services Provided

A. Interpretation (Oral Language Support)

SPPS provides oral interpretation for families when needed. Depending on the need, the following services are available:

- In person: On-Call Interpreter (OCI) database and trained bilingual staff
- Phone Interpretation: Language Line
- Video: Language Line and On-Call Interpreters (OCI)

- For low-incidence languages, SPPS contracts with local agencies upon request.

When to use On-Call Interpreters (requires prior scheduling):

- In-person meetings
- Help build relationships with families
- Planned events
- Parent-teacher conferences

When to use Language Line (Audio/Video):

- Emergency situations
- High-need languages
- Short, in-person meetings
- Phone calls to parents if bilingual staff is not available
- Unexpected situations
- When On-Call Interpreters are not available

Common uses: Parent-teacher conferences, IEP meetings, disciplinary hearings, school and districtwide events, phone calls and home visits.

Academic milestone communications:

- Trained interpreters will be provided for all key milestone communications regarding student academic outcomes, report card progress tracking, academic interventions, and placement determinations for specialized district programs.

On-Call Interpreter (OCI) request process:

- Staff requests interpreters through the [On-Call Interpreter List](#)
 - 24- to 48-hour advance notice preferred
 - If the language needed is not listed, that means there are currently no OCIs employed by SPPS who speak that language. For requests regarding interpreters for other languages not included, staff should email Sara Reyes or fill out the [OCI Request Form](#).
 - For ASL interpreters, contact Heather Holter at heather.holter@spps.org

Families can request an interpreter directly with school staff.

- **Language Access Cards:** SPPS provides small cards for families to request interpreting services. Schools can request cards through the family liaison at the school in multiple languages.
- **We can help you posters:** Signs informing individuals about their right to request interpreter or translation services. Posters include the 10 top languages in SPPS to help families identify the support needed. Posters at each school's front desk also allow individuals to indicate their language, enabling staff to arrange appropriate language services. Schools should post them in the office/front desk.

IMPORTANT REMINDERS:

- Students, siblings, friends or untrained staff are not allowed to serve as interpreters. Using unqualified individuals to facilitate communication between schools and parents/guardians can result in confusion or miscommunication.
- Schools will inform families that language support is available during parent teacher conferences upon request.
- On-Call Interpreters (OCIs) are approved for oral interpretation only and cannot perform any written translation.

B. Translation (Written Language Support)

- SPPS provides districtwide translations for families in Hmong, Somali, Spanish and Karen. Other languages can be accommodated upon request. Critical documents are translated into **the top languages spoken in the district**, which are, in order of incidence:
 - Hmong, Spanish, Karen, Somali
- Common translations include:
 - Enrollment materials
 - Standardized testing and assessments notifications
 - Special education documents
 - Incident/emergency communication
 - Back to school information
 - School announcements
 - District announcements
 - Promotional materials

- SPPS provides translations for website information via Weglot for the district's main four languages. Families can view district and school websites in English, Hmong, Karen, Somali and Spanish. Viewers can select one of these language options from the drop-down menu in the header of any webpage.
- SPPS uses Finalsight Messages XR and Smore to share important messages with families via automated phone calls, emails, and text messages in the district's five primary languages. These platforms provide automatic translation functionality; staff are instructed to use them in conjunction with, not in place of, trained translators and interpreters.

C. Accommodations for Parents and Guardians with Disabilities

SPPS ensures that parents, guardians, and adult family members with disabilities can meaningfully participate in all school processes, which may include but is not limited to, IEP meetings, 504 hearings and academic conferences. The district will provide necessary reasonable accommodations—which may include American Sign Language (ASL) interpreters, tactile/DeafBlind interpretation and relay services—free of charge upon request.

5. Identifying Language Needs

- Student demographic information is collected annually in Infinite Campus, the student information system used in SPPS to collect and manage information including enrollment, demographics, address, attendance, assessment, grades and disciplinary records. Families' language preference is recorded during **enrollment/registration** and is updated annually.
- To stay in compliance with state and federal law, all students must have a completed home language survey on file. This form is completed during the enrollment process.
- Infinite Campus tracks the preferred language of communication for families.

6. Staff Roles And Responsibilities

School Staff Responsibilities

- **Front office staff** must know how to access interpreters, Language Line and translation services.
- **Teachers and administrators** should request services when planning meetings or sending home critical information.
- **Bilingual educational assistants/liaisons** serve as key contacts in schools with high-need populations.

District Staff Responsibilities

- **Translation services:** The translations team in the Office of Communications provides districtwide translations for families in Hmong, Somali, Spanish and Karen and other languages upon request, and monitors the Hmong, Karen, Somali and Spanish district phone lines. They also offer expertise in multilingual communication strategies to ensure effective, inclusive, and culturally responsive engagement with diverse communities.
- **Special Education translation and interpreter services:** The Office of Specialized Services (OSS) hires and maintains a team of Special Education Interpreters for the high-incidence languages (Hmong, Somali, Spanish, and Karen). This team of interpreters provides written translation of the Prior Written Notice and verbal interpretation of all due process activities across the district for those families who need translation and interpreter services. For other languages, OSS uses interpreters from the On-Call Interpreter List and other local contracting agencies.
- **Districtwide cultural specialists:** The Office of Family Engagement & Community Partnerships has four Districtwide Cultural Specialists. They serve as essential bridges between Hmong, Karen, Somali and Spanish-speaking families and school staff. They work closely with the Parent Advisory Councils and partner with schools to support the needs of multilingual families, fostering strong relationships and equitable access to education across the district.

Additionally, cultural specialists play a key role in creating a welcoming and inclusive environment where all families feel supported and connected. They promote cultural understanding by educating school staff about the cultural

backgrounds and unique experiences of multilingual families, contributing to a more inclusive and culturally responsive school community.

- **Family Engagement Language Services for Families** give schools, programs and departments access to the On-Call Interpreters database and Language Line to remove barriers for families to be able to participate in their students' education.
 - **Language Line** is a service contracted by SPPS that enables school staff to communicate with parents via phone or video when in-person language support is not available. All departments and schools have access to Language Line. The Office of Family Engagement ensures that all schools have the training and information they need to access these services.
 - **On-Call Interpreters** are professionals available to support parent-teacher conferences, school events, meetings and more. School staff can access a database of trained and approved interpreters to meet a variety of communication needs.

7. Interpreter and Translator Qualifications

All interpreters and translators must meet district standards for language proficiency and professional conduct. If the interpreter doesn't have previous certification or training, the district will provide professional development in the following key areas:

- **Confidentiality** – Ensuring all information is kept private and secure
- **Accuracy** – Providing precise and faithful interpretation and translation
- **Neutrality** – Remaining impartial in all interactions
- **Educational Terminology** – Understanding and correctly using terms commonly used in school settings

8. Notice of Language Services

- The district informs families of their right to free interpretation and translation services through multiple communication channels, including:
 - School websites
 - Enrollment packets
 - Front office signage
 - Annual notifications

- Language access cards
- School newsletters
- Rights and Responsibilities Handbook

9. Emergency and Urgent Situations

- Interpreters and Language Line are used for **same-day or emergency interpretation needs** (e.g., illness, disciplinary actions). An **interpreter** is a **trained professional who facilitates communication between people who speak different languages, usually in real-time.**
 - *MDE DEFINITION: An interpreter is a person who listens to a communication in one language (source language) and orally converts it to another language (target language). The Interpreter must retain the same meaning as the original message without omitting information, summarizing or otherwise altering the message and without adding the interpreter's own thoughts or opinions.*
- When an interpreter is not available, bilingual staff can be used to **communicate** with families in emergency situations. **To communicate means to send or share information**—either by speaking, writing, gesturing, or using other methods.
- If the situation requires a written communication, translations will be provided based on school population.

10. Monitoring and Evaluation

Saint Paul Public Schools (SPPS) regularly reviews and evaluates the Language Access Plan to ensure it effectively meets the needs of our diverse community. The plan is formally reviewed and updated by the SPPS Board of Education every two years.

SPPS values community input and is committed to providing high-quality language access services. Any person who believes they have been denied meaningful access to district programs or services because their language or disability accommodations under this Access Plan were not effectively met may file a formal appeal.
