At all other times during a Board Meeting, the audience shall not enter into discussion or debate on matters being considered by the Board, unless requested by the presiding officer. An open forum will be conducted at each meeting. The Board shall allot approximately 30 minutes for comments from members of the public about school district concerns.

BUDGET AMENDMENT 6 – February 26, 2024

RECOMMENDATION:

The Administration recommends the listed budget amendments and transfers be approved.

BACKGROUND INFORMATION:

In accordance with the TEA budget and accounting procedures and guidelines, the District’s official budget includes the General Fund, Food Service Fund, and the Debt Service Fund. The Board of Trustees should approve the adoption of the budgets associated with these funds, and subsequent amendments, at the *Fund Function* level. Other funds such as Special Revenue Funds for grants and capital projects are approved on a *Project Basis*; and consequently, *are* not required to be approved with the same level of detail.

The administration routinely allows transfers of existing budgeted funds within the same fund function in order to accommodate the necessary operations of the requesting department or campus. These transfers usually become necessary due to account coding requirements. Requests for transfers of existing funds between functions are reviewed by the administration to ensure that the related expenditures will not exceed the overall approved budget at the function level. These requests allowed at the administrative level are subject to final approval by the Board of Trustees.

In addition to the transfers of existing budget funds outlined above, the Board of Trustees must approve requests for new appropriations prior to expenditure. These requests include appropriations from fund balance, and reappropriation of designated fund balances.

ADMINISTRATIVE CONSIDERATIONS:

Transfers: The Administration has reviewed the following transfers and determined that there will be **no impact to the budget.**

Background information – The 2023 Bond contains provisions for the replacement and repair of select HVAC equipment, roof systems and parking areas at Dahlstrom MS and Wallace MS per the schematic design documents produced by O’Connell Robertson (OCR). Additionally, the DMS scope includes a new drive loop on the north side of the site connecting to Carpenter Hill Drive. OCR and Jackson Construction have provided documents and cost information for your review.

Below are the key items that staff believes drove up the costs from budget to GMP pricing:

- The original budget was identified for 1 to 1 equipment replacement of HVAC equipment; however, the scope of work requires addressing outside air, building pressurization, and DDC controls increasing the actual cost over the *per-ton* budget estimates.
- We acknowledge several scopes of work evolved beyond the normal 1 to 1 replacement process including:
 - Water Source Heat Pumps from a platform supported unit to a hung unit.
 - The building pressurization process altered the basis of design to a more simplified system requiring additional equipment be added for outside air and exhaust.

- Piping valves were added to the scope based on the age / condition.
- CO2 sensors and duct detectors were added to comply with life safety requirements.
- The early equipment package may have eliminated some of the competition during the bidding process which can impact pricing.
