MEMORANDUM OF UNDERSTANDING

Between the Board of Regents of the University of Oklahoma and Chickasha Public Schools
2022 US Department of Education Office of Elementary and Secondary Programs
Mental Health Services Professional Demonstration Grant Program

The Board of Regents of the University of Oklahoma (“OU”) in collaboration with Local Education Agencies are applying to the US Department of Education Office of Elementary and Secondary Programs Mental Health Professional Demonstration Grant Program (ALN 84.184X). The purpose of this Memorandum of Understanding is to establish the framework through which, if the Office of Elementary and Secondary Programs funds the proposal, the partners will collaborate and to articulate the specific roles and responsibilities of each party. We agree to participate in the application process for the 2022 competition, conduct activities, and carry out responsibilities as identified in our application.

Project Rural Innovation for Mental health Enhancement (PRIME) is designed to address state-identified shortages for highly qualified mental health personnel, specifically within the context of rural settings, an area where critical, longstanding, and pervasive shortages have been identified. Project PRIME will lead to the development of a networked community of practice that will expand the pipeline of high-quality, trained providers to address the shortages of mental health service professionals in high-need rural districts. With a focus on scientifically-based practices cutting across social, emotional, and behavioral domains, PRIME will prepare 64 mental health practitioners (24 Board Certified Behavior Analysts (12 per cohort in Years 1 and 3), 20 school counselors (2 cohorts, 10 counselors per cohort in years 1 and 3), 20 social workers (4 cohorts, 5 social workers per cohort in years 1-4) capable of delivering evidence-based mental health screening and intervention in high-need rural schools, thus increasing the number and diversity of high-quality, trained mental health providers available to address student needs.

I) Description of Agencies

OU is a public university located in Norman, Oklahoma. OU is classified among “R1: Doctoral Universities- Very High Research Activity” and has exceptional behavior analyst, school counseling, and social work preparation programs.

School districts (LEAs) participating in Project PRIME are among the least socio-economically advantaged in the state. Each has experienced ongoing challenges with recruiting and retaining comprehensively trained professionals to meet increasing student mental health needs. Areas of growing concern include substance abuse (i.e., vaping), increasing suspensions due to maladaptive behaviors, and absenteeism. Districts are comfortable working collaboratively and have maintained a positive relationship with OU faculty and researchers.

A summary of project roles and responsibilities are summarized below.

II) Roles and Responsibilities

OU in collaboration with Chickasha Public Schools will:

- Provide evidence-based coursework, supervision, and exam preparation that leads to graduates with licensure as a behavior analyst, school counselor, or social worker.

Clinical Affiliation Agreement with Oklahoma City Community College

ADMINISTRATIVE RECOMMENDATION:

We had this same agreement in 2014. OCCC places Speech Language Pathologist Assistant (SLPA) for clinical experience to help students complete his/her certification.

RATIONALE FOR RECOMMENDATION:

OCCC does not currently have any SLPA students to place with us. They are being proactive in the event of requested placement. This agreement would replace the agreement from 2014. We can sign a new agreement or terminate the 2014 agreement and not enter into a new agreement.

I recommend signing a new agreement. We are always willing to accept student interns in order to grow our own programs.

SCHOOL shall further require Students to maintain student liability insurance in the minimum amount of one million dollars (\$1,000,000) per occurrence and three million dollars (\$3,000,000) aggregate. Upon request, the SCHOOL shall arrange to provide a certificate of student liability insurance coverage to the FACILITY evidencing student liability coverage and request the insurer to notify the FACILITY at least thirty (30) days in advance of any cancellation or nonrenewal.

11. NO ASSIGNMENT.

Neither Party shall assign their rights, duties, or obligations under this Agreement, either in whole or in part, without the prior written consent of the other Party.

12. SEVERABILITY.

If any provision of this Agreement is held to be illegal, invalid, or unenforceable under present or future laws effective during the term hereof, such provision shall be fully severable. This Agreement shall be construed and enforced as if such illegal, invalid, or unenforceable provision had never been a part of the Agreement, and the remaining provisions shall remain in full force and effect unaffected by such severance, provided that the severed provision(s) are not material to the overall purpose and operation of this Agreement.

This Agreement may be amended or modified at any time by mutual written consent of the authorized representatives of both Parties. SCHOOL and FACILITY agree to amend this Agreement to the extent amendment is required by an applicable regulatory authority and the amendment does not materially affect the provisions of this Agreement.

STUDENT DISCIPLINE, SUSPENSION, AND DUE PROCESS

Discipline: Good discipline is vital to the educational program. Discipline should be fair, dignified, and administered with an even temper. Discipline may include, but is not limited to, conferences with parents or guardians, in-school detention, revocation of privileges, and suspension.

In administering discipline, consideration will be given to alternative methods of punishment to ensure that the most effective discipline is administered in each case. In all disciplinary action, teachers and administrators will be mindful of the fact that they are dealing with individual personalities. Administrators may consider consultation with parents to determine the most effective disciplinary measure. The Board will rely upon the judgment and discretion of the administrator to determine the appropriate remedial or corrective action in each instance.

Alternative In-School Placements: Before a decision to suspend is imposed, alternative in-school placements shall be considered. Alternative in-school placements, alternative program placement, Alternative Placement Educational Program (APEP), Detention, Intervention Program, Student Alternative Center (SAC), and similar disciplinary options or other correctional measures, such as those identified below, are not “suspensions” and do not require or involve the due process procedures established by this policy.

While in-school placements shall not be considered as an out-of-school suspension, they shall be treated as disciplinary or correctional actions which may be used as an alternative to out-of-school suspension or in conjunction with an out-of-school suspension.

Definitions:

“Suspension” or “out-of-school suspension” is the removal of a student from the daily school environment for a period not to exceed one calendar year for offenses involving firearms and the remainder of the current semester and the succeeding semester for all other offenses. A principal may suspend a student when the student’s behavior is in violation of the District’s Student Code of Conduct, Administrative Regulations, or directives received from school authorities. Suspensions should have a definite commencement and ending date; indefinite out-of-school suspensions are not permitted. Although suspensions until the student performs some remedial act are not permitted, a student may be advised a suspension of definite length will terminate earlier if the student performs a prescribed remedial act or acts.

A “long-term suspension” is one which exceeds ten (10) school days.

A “short-term suspension” is ten (10) or fewer school days.

“Parent” refers to a student’s parent, legal guardian, or the person having legal custody of the student.

Corporal Punishment: District prohibits the use of corporal punishment as a means of discipline, and any employee who violates this policy will be subject to discipline up to and including termination.

Special Education Suspension/Discipline: Student discipline, suspension, and due process for special education students, as defined by the Individuals with Disabilities Education Act (“IDEA”) and/or Section 504 of the Rehabilitation Act of 1973, shall be administered in accordance with “The Policies and Procedures Manual for Special Education in Oklahoma” published by the Oklahoma State Department of Education. Federal law or regulation and Oklahoma law or regulation pertaining to students with disabilities shall take precedence over District policy and regulations in all matters that are specifically addressed by the federal and state laws or regulations. Where Federal and Oklahoma law or regulation permit, are silent, or do not directly address issues dealing with students with disabilities, District policy and regulations will be followed.

Pre-Suspension Informal Conference with Student

- (a) When a student is believed to have committed an offense for which suspension may be imposed, the principal or designee shall conduct an informal conference with the student.
- (b) The principal or designee shall inform the student of the policy, rule or regulation the student is charged with or suspected of having violated, the evidence supporting the charges, and the conduct reported to be in violation of the policy, rule, or regulation.
- (c) The principal or designee will give the student the opportunity to respond to the charges, the evidence presented by the principal or designee in support of the charges and allow the student the opportunity to provide his/her own information and admit or deny the charges.
- (d) If the principal or designee concludes the student committed the offense and suspension is appropriate, the principal or designee shall inform the student of the length of the suspension. In deciding whether to impose a suspension and determining the length of a suspension, a principal or designee may consider the following: seriousness of the offense, the student’s attitude, the student’s disciplinary history, those adversely affected by the misconduct, those potentially adversely affected by the misconduct, and the number of behavioral offenses associated with the misconduct and current suspension decision.

- (e) The principal or designee shall inform the parent of the suspension and that alternative in-school placement or other available disciplinary options were considered. Elementary and middle school students shall not be dismissed on suspension before the end of the school day without advance notice to the parent. High school students shall not be dismissed on suspension before the end of the school day without reasonable efforts by the school administration to contact the parent except in cases where the student poses an immediate threat to the safety and welfare of the student, other students, staff and/or property.
- (f) **Records and Reports:** The principal or designee will record each pre-suspension conference, including the date of the conference, the names of the persons present, and the alternative in-school disciplinary alternatives that were considered. The principal or designee shall maintain records related to the Education Plan and the student and/or parent's compliance or non-compliance with the Plan.
- (g) **Notification to Parents:** The principal or designee will inform the parent or guardian of the suspension as soon as possible after a suspension is imposed, explain the basis for the suspension, inform the parent of the opportunity to have the suspension reviewed by appeal, and provide the parent the time deadlines for submitting an appeal request. The notice required in this section shall be completed with the parent signing and dating the notice or in the form of a letter sent by certified mail, return receipt requested.

Immediate Out-of-School Suspension without a Pre-Suspension Conference:

A student may be suspended without a pre-suspension conference only where a student's conduct reasonably indicates the continued presence of the student poses an immediate danger to the health or safety of the students, employees, or District property, or a continued substantial disruption of the educational process. In this event, an out-of-school suspension conference with the student and the parent or guardian will be scheduled as soon as possible after the student has been removed from school.

Education Plan

Suspensions of Five (5) School Days or Less: Suspensions of five (5) school days or less shall include the following Suspension Education Plan ("Plan"):

- (a) A student shall be eligible to receive grades for full credit on all work, assignments, and tests during the period of the out-of-school suspension for five (5) school days or less.
- (b) The student is solely responsible for obtaining and making up the missed work, assignments, and/or tests missed while on suspension from and with the

student's teachers upon return to school from suspension.

- (c) The student will have one day for each day of suspension to make up the work, assignments, and/or tests missed during the suspension. The failure of the student to meet these time requirements will result in a grade of zero (0) or "F" and no credit for work, assignments, and/or tests not made up according to the time requirements.

Suspensions in Excess of Five (5) School Days: Suspensions in excess of five (5) school days shall include a Suspension Education Plan ("Plan") which shall be prepared by the principal or designee with the assistance of other school employees as warranted. A Suspension Education Plan as described in this policy will be formed for suspensions in excess of five (5) school days except for those specifically involving a firearm or possession of a controlled dangerous substance(s) while selling, conspiring to sell, distributing, being in the chain of sale or distribution, or with the intent of furnishing illegal or illicit drugs or other mood-altering substances.

The Plan shall provide for the core units in which the student is enrolled. Core units are the minimum English, mathematics, Science, Social Studies and Art units required by the Oklahoma State Department of Education for grade completion in grades kindergarten through grade eight and for high school graduation in grades nine through twelve.

The Plan shall be provided to the student and parent. The parent shall be responsible for providing the student with a supervised, structured environment in which to comply with the Plan and monitoring educational progress until the student is readmitted. The Plan shall set out the procedure for education and set what academic credit will be earned for work satisfactorily completed.

Attendance at School Pending Appeal Hearing: Pending a properly and timely submitted appeal, the student may attend school under whatever "in-school" restrictions the principal deems proper. Provided, the student shall remain out of school and/or not attend school pending an appeal if the principal determines the misconduct of the student reasonably indicates continued attendance would pose a danger to students, employees, or property, or would substantially interfere with school operations.

Student Privileges While Suspended: Participation in all the extracurricular activities is a privilege and not a right. Accordingly, when a student is suspended the student immediately, notwithstanding the filing of an appeal, forfeits the privilege of participating in all extracurricular activities. In addition, when a principal or designee determines to impose alternative measures, in-school disciplinary actions or other correctional measures against a student, the student will not be permitted to participate in any extracurricular activities during the term of the discipline unless, in the sole judgment of the principal, such participation is appropriate given the nature of the offense committed by the student.

“Extracurricular activities” include, but are not limited to, all school-sponsored games/events, school-sponsored teams, clubs, organizations, ceremonies, student government, band, athletics and all other school sponsored activities and organizations. The prohibition includes the restriction from participating in and attending extracurricular and school activities on and/or off school property. Commencement/ graduation is an extracurricular activity.

Appeal of Short-Term Suspensions:

A student suspended for a period of ten (10) or fewer school days, following an informal pre-suspension conference with the principal or designee, may appeal the suspension as follows:

- (a) An appeal to the Site Committee must be requested in writing to and received by the school principal or designee within two (2) calendar days after the principal’s or designee’s suspension decision is received by the student or parent and must specify what part of the out-of-school suspension decision is being appealed. The parent/student may appeal one or both of the following:
 - 1) The finding of guilt of the charge(s) by the principal or designee for which the student was suspended; and/or
 - 2) The reasonableness and length of the suspension.
- (b) The suspension decision will become final and nonappealable if a request for appeal is not timely submitted.
- (c) Upon receipt of the request for an appeal, the Principal shall confirm the suspension falls within the category of suspensions to which an appeal to the Site Committee is authorized. If the Principal or designee determines the period of suspension is greater than (10) school days, or if for any reason, the short-term suspension is extended beyond ten (10) school days prior to the committee hearing, the procedures applicable to long-term suspensions must be followed and the student must be given the opportunity to appeal any adverse decision as provided by this policy for long-term suspensions.
- (d) The Principal or designee shall appoint a Site Committee to hear the appeal. The Site Committee shall consist of not less than three District employees, who shall be a minimum of two teachers assigned to the school site and an administrator or counselor not involved with the suspension of the student. The Site Committee shall designate a chairperson. No administrator or teacher who witnessed the misconduct or any teacher teaching the student during the current semester shall serve on the Site Committee.
- (e) The Principal or designee shall schedule the Site Committee hearing as soon as possible during regular school hours, Monday through Friday. Reasonable

consideration shall be given to accommodate work schedules of the parent or guardian within that time period, if possible. The Principal shall attempt to schedule the Site Committee meeting within five (5) calendar days of receiving the parent/student's written or e-mail appeal request. The student and parent will be notified in writing, by e-mail, or by phone of the date, time and place of the hearing. The principal or designee who issued the out-of-school suspension decision shall attend the Site Committee hearing.

- (f) The Site Committee will conduct a full investigation of the issues appealed. The principal or designee will outline the student's misconduct; read, refer to, or distribute the policy, rule or regulation which the student's misconduct violated; and make any statements or submit documentary evidence which support the suspension decision. The student or parent will explain the student's position and/or make statements or submit documentary evidence relating to the appealed issues.
- (g) Evidence supplied by witnesses shall be submitted to the Site Committee in writing only. For evidence supplied by student witnesses, the Site Committee shall have the authority to restrict the identity of the student witnesses. In this case, the principal or designee will inform the Site Committee of the information received from students and explain why the principal or designee believes the information received is valid and supports the suspension decision.
- (h) The Site Committee meeting is closed to the public.
- (i) Legal counsel is permitted at the Site Committee hearing.
- (j) At the conclusion of the presentation of the evidence, the Site Committee shall retire to render a decision by a majority vote and such decision is final and not appealable. The Site Committee's decision shall be to uphold, modify, or revoke the suspension decision of the Principal or designee as to the guilt or innocence of the student and/or the reasonableness and length of the out-of-school suspension, depending on the issues appealed. The Site Committee's decision shall be in writing and mailed, e-mailed or delivered to the parent, the principal, and the Superintendent. The decision of the Site Committee is final and non-appealable.

Appeal of Long-Term Suspensions:

A parent or the student may appeal the suspension decision for a suspension in excess of ten (10) school days first to a District Review Committee then to the Board as follows:

- (a) An appeal must be presented in writing to and received by the school principal within three (3) calendar days after the decision of suspension is

received by the parent or student and must specify which part of the suspension decision is being appealed. The parent/student may appeal one or both of the following:

1. The finding of guilt of the charge(s) by the principal or designee for which the student was suspended; and/or
 2. The reasonableness and length of the suspension.
- (b) The suspension decision will become final and nonappealable if a request for appeal is not timely submitted.
- (c) The principal will contact the Superintendent and the Superintendent or designee will schedule a District Review Committee to hear the appeal. The District Review Committee will consist of three (3) administrator(s) not involved with the suspension of the student and the Superintendent's designee. No member of the District Review Committee shall have been associated with the case in any manner prior to the appeal hearing. The Superintendent's designee shall serve as the chairperson for all appeals to the District Review Committee.
- (d) The chair of the District Review Committee shall notify the student, parents, and school principal of the date, time, and place of the appeal hearing in writing or by e-mail.
- (e) The meeting will be electronically recorded and kept on file with the District for two (2) years from the date of the hearing.
- (f) The District Review Committee meeting is closed to the public.
- (g) Legal counsel is permitted.
- (h) The District Review Committee meeting will be held during the regular school hours, Monday through Friday, with reasonable consideration given to accommodate the hours of working parents within this time period, if possible. The District shall attempt to schedule the District Review Committee meeting within five (5) calendar days of receiving the parent/student's written appeal request.
- (i) At the meeting, the principal or designee will inform the parent of the policy, rule or regulation the student was found to have violated, outline the student's misconduct, and present any evidence or documents which support the suspension decision. The student and parent will be permitted to explain and present any evidence or documents in support of the specified reasons for the appeal listed in the written notice of appeal requesting the appeal.

- (j) Evidence supplied by witnesses shall be submitted to the District Review Committee in writing only. For evidence supplied by student witnesses, the District Review Committee shall have the authority to restrict the identity of the student witnesses. In this case, the principal or designee will inform the District Review Committee of the information received by students and explain why the principal or designee believes the information received is valid and supports the suspension decision.
- (k) At the conclusion of the hearing, the District Review Committee will retire to render a decision by a majority vote as to the specified reasons for which an appeal was requested, including the guilt or innocence of the student if that issue was appealed and determine the reasonableness and length of the suspension imposed if that issue was appealed. The District Review Committee's decision shall be to uphold, modify, or revoke the suspension decision of the principal or designee.
- (l) The hearing chair shall mail, e-mail, or deliver a copy of District Committee's decision to the parent/student and site principal. The District Review Committee's written decision shall be mailed to the parent by certified mail, return receipt requested. The parent shall be advised of the right to have the suspension reviewed by the Board as provided by this policy.
- (m) An appeal of the decision of the District Review Committee to the Board must be submitted in writing to and received by the Superintendent or designee within five (5) school days after the decision of the District Review Committee is received by the parent or student and must specify the portion of the District Review Committee's decision which is being appealed. The parent/student may appeal one or both of the following:
 - 1) The finding of guilt of the charge(s) by the principal or designee for which the student was suspended; and/or
 - 2) The reasonableness and length of the suspension.
- (n) If no appeal is received within the five (5) school days, the decision of the District Review Committee will be final and nonappealable.
- (o) Each board member will be provided the evidence and witness statements that were presented to the District Review Committee, an electronic recording of the District Review Committee meeting, and the written statements of the student and administration, if submitted.
- (p) Each Board member shall review the information individually.
- (q) At the next available Board meeting, an agenda item shall be placed on the agenda to consider and vote on the appeal of the long-term suspension. Board members may vote on the appeal based on their review of the record.

- (r) If, at the meeting, the Board wants to discuss the appeal among each other, it must be discussed in open meeting unless the student or parent(s) requests such discussion to be in executive session.
- (s) The Board shall render a decision by voting to uphold, modify, or revoke the decision of the District Review Committee.
- (t) As soon as possible after the review and/or hearing, the Clerk of the Board shall provide the decision to the parent, student and principal in writing, setting forth the decision of the Board related to upholding, overturning, or modifying the decision of the District Review Committee. The Board's written decision shall be mailed to the parent by certified mail, return receipt requested. **The decision of the Board shall be final.**

DRAFT

Revenues:

Exhibit 4 provides General Fund receipts by month for FY18, FY19, FY20, FY21 and through October of FY22. Receipts include funding from State, Local, and Federal Sources.

Exhibit 4: Receipts by Month

Exhibit 5 outlines General Fund revenues and expenses by month for FY18, FY19, FY20, FY21 and through October of FY22. The values represent the cumulative sum of revenues and expenses by month. The values represent revenue and expenses collected in the designated year and do not include fund balances brought forward from prior years. The information provides cash flow trends and can help guide the district to project the necessary cash fund balances.

Exhibit 5: Cumulative Sum of Receipts and Expenditures by Month

Expenses for utilities have increased significantly this year. For example, our electricity which has been trending down for the last five years, has increased by approximately 70% in the first quarter of the school year compared to the first quarter of FY22. The district is seeing similar increases for water and gas expenses. Exhibit 6 outlines the past trends for electricity costs across the district. These trends show decreasing costs for electricity as we expected with the replacement of LED lighting. Exhibit 7 represents the costs of electricity for the first quarter of our school year compared to the costs of the first quarter from last year. The costs have increased by over \$73,000 just in the first quarter.

1.

- a) I certify that the schools I represent are all schools under the statutory definitions of elementary and secondary schools as defined under 47 C.F.R. § 54.500, that do not operate as for-profit businesses and do not have endowments exceeding \$50 million.

I recognize that some of the aforementioned resources are not eligible for support. I certify that to the extent that the billed entity is passing through the non-discounted charges for the services requested under this Letter of Agency, that the entities I represent have secured access to all of the resources to pay the non-discounted charges for eligible services and products from funds to which access has been secured in the current funding year.
- c) I certify that the services the school, library, or district purchases at discounts provided by 47 U.S.C. § 254 will be used primarily for educational purposes and will not be sold, resold, or transferred in consideration for money or any other thing of value, except as permitted by the rules of the Federal Communications Commission (Commission or FCC) at 47 C.F.R. § 54.513.
- d) I certify that the schools I represent has/have complied with all program rules and I acknowledge that failure to do so may result in denial of discount funding and/or cancellation of funding commitments. - e) I acknowledge that the discount level used for shared services is conditional, for future years, upon ensuring that the most disadvantaged schools and libraries that are treated as sharing in the service, receive an appropriate share of benefits from those services.
- f) I certify that I will retain required documents for a period of at least ten (10) years after the latter of the last day of the applicable funding year or the service delivery deadline for the funding request. I certify that I will retain all documents necessary to demonstrate compliance with the statutory or regulatory requirements regarding the application for, receipt of, and delivery of services receiving schools and libraries discounts, and that if audited, I will make such records available to the Administrator. I acknowledge that I may be audited pursuant to participation in the E-Rate Program.
- g) I certify that I am authorized to procure and/or order telecommunications and other supported services for the eligible entity(ies) covered by this Letter of Agency. I certify that I am authorized to make this request on behalf of the eligible entity(ies) covered by this Letter of Agency, that I have examined this Letter, that all of the information on this Letter is true and correct to the best of my knowledge, that the entities that will be receiving discounted services under this Letter pursuant to this application have complied with the terms, conditions and purposes of the E-Rate program, that no kickbacks were paid to anyone and that false statements on this form can be punished by fine or forfeiture under the Communications Act, 47 U.S.C. §§ 502, 503(b), or fine or imprisonment under Title 18 of the United States Code, 18 U.S.C. § 1001 and civil violations of the False Claims Act.
- h) I acknowledge that FCC rules provide that persons who have been convicted of criminal violations or held civilly liable for certain acts arising from their participation in the Schools and Libraries support mechanism are subject to suspension and debarment from the program. I will institute reasonable measures to be informed and will notify USAC should I be informed or become aware that I or any of the entities, or any person associated in any way with my entity and/or the entities, is convicted of a criminal violation or held civilly liable for acts arising from their participation in the Schools and Libraries support mechanism.
- i) I certify that, to the best of my knowledge, the non-discount portion of the costs for eligible services will not be paid by the service provider. I acknowledge that the provision, by the provider of a supported service, of free services or products unrelated to the supported service or product constitutes a rebate of some or all the cost of the supported services.

Applicant (School or Library) Responsibilities

USAC E-RATE PRODUCTIVITY CENTER “EPC”

Applicant responsibilities regarding the online E-Rate Productivity Center (“EPC”) are as follows:

Applicants must provide Kellogg & Sovereign Consulting (CRN 16024809) and their designated K&S consultant users with full rights access for all forms except FCC Form 498 on their online E-Rate Productivity Center (“EPC”) located on the USAC web site. *K&S cannot provide any E-Rate filing services on behalf of the Applicant until access is granted.*

The applicant must designate an authorized school or library business official as the general contact and account administrator and maintain their online access including passwords to ensure there is always an authorized school or library business official with full rights able to access the Applicant’s EPC. If the account administrator for the applicant changes, it is the Applicant’s responsibility to notify USAC and assign a new account administrator.

For Applicants who will be utilizing the reimbursement (BEAR - FCC Form 472) method to receive E-Rate discounts, the Applicant must complete an FCC Form 498 online and must notify USAC of any changes in order to keep the Form 498 information current.

The Applicant is fully responsible for timely certifying FCC forms submitted by K&S on behalf of the Applicant on the Applicant’s E-Rate Productivity Center.

OUSF AFFIDAVITS OR DOCUMENT REQUESTS

The applicant’s responsibilities for OUSF affidavits and document requests are as follows:

- Carefully review Affidavit and return the signature page(s) within 5 business days (unless another deadline is specified)
- Provide a current network diagram including circuit information
- Respond to all data requests except for data requests that need clarification from the service provider or federal documentation. The Beneficiary is responsible for any additional data requested by the Public Utility Division (PUD)
- Forward all PUD Determinations and correspondence to ks-ousf@kelloggllc.com.
- Participate in conference calls with PUD staff in order to resolve questions regarding OUSF applications and funding

TIMELY RESPONSE TO DOCUMENT REQUESTS:

It will be K&S’s responsibility to list a due date on each request for documentation. Moreover, K&S will send all documentation requests to the applicant’s designated contact person via e-mail or text message. The applicant must provide a valid email address and cell phone number for K&S notifications. It will be the applicant’s responsibility to return the requested documentation by the due date shown. To cover the extra costs of staff overtime, multiple sending of requests, and undue hardship, K&S reserves the right to provide advance notification, and if necessary, charge a late response fee for any request that is received after the deadline stated on the request. At the discretion of K&S, the late response fee may be waived if the applicant requests an extension prior to the due date. Once a late response fee is incurred, K&S will send applicant an invoice immediately which will be due and payable upon receipt. If the late response fee invoice is not paid within 45 days, the contract may be terminated by K&S.

Example 1: K&S sends a request for copies of bills to applicant in September. The due date listed on the request is October 15 along with notification that a late response will result in late fees of \$100 per day. Your documentation is not received by K&S until October 21. K&S would charge a late response fee of \$500.00 (5 days late x \$100/day).

Example 2: Same facts as above, but applicant sends an email notice to K&S on October 14 explaining that their accounts payable clerk is out on maternity leave, but documents can be provided to K&S by October 31. Applicant's documentation arrives in K&S's office on October 30. No late response fee would be charged.

SERVICE PROVIDER DISBURSEMENTS – DISCOUNT (SPI FORM 474) METHOD ONLY

If an applicant chooses to receive E-Rate discounts by the discount method (Service Provider Invoice – SPI Form 474) instead of the reimbursement method (Billed Entity Applicant Reimbursement Form 472), the applicant must reconcile service provider discounts. According to USAC, it is the beneficiary school or library's responsibility to review all service provider bills and E-Rate discounts provided to the beneficiary through the service provider discount method (Form 474 – Service Provider Invoice). Therefore, it is the responsibility of the school or library to review service provider bills and credits received to ensure the following: (1) the services were used solely for educational purposes; (2) the service provider only requested discounts for eligible goods and services; (3) the service provider allocated the costs of any contract that included both eligible and ineligible components in the related request for discount; (4) the service provider deducted from the pre-discount cost of services the value of all price reductions, promotional offers, and "free" products or services; and (5) the applicant retained all documents related to the service provider's request for discounts on behalf of the beneficiary.

Neither K&S nor its employees or agents are responsible for the actions of service providers related to the applicant's E-Rate funding. This includes all documentation provided by service providers including bids submitted, vendor supporting documentation, proposals, and contracts. Additionally, if the applicant selects the discount method for receiving E-Rate funding, the service provider is solely responsible for proper calculation, review, and application of E-Rate credits to the applicant's bills. *Reconciliation of service provider discounts related to the discount (SPI-Form 474) method is NOT included with K&S's standard fee and may be contracted separately.*

PROGRAM COMPLIANCE

Children's Internet Protection Act (CIPA)

Applicants must comply with all E-Rate program rules including state and local procurement requirements. Additionally, the applicant must be in compliance with the Children's Internet Protection Act¹ and provide K&S with an annual certificate of compliance along with documentation that the filter was installed and working during the funding year. Applicants are responsible for retaining documentation to support their compliance with CIPA including board agenda and minutes when CIPA is discussed.

Procurement Procedures

K&S will provide guidance regarding compliance with competitive bidding E-Rate rules, procedures and guidelines. Applicants are responsible for complying with their own state, local, and federal procurement guidelines. This includes, but is not limited to, proper format of Requests for Proposal if different than K&S's standard format, required vendor forms, publishing of RFPs, bid evaluation process, board approval, contract negotiation, and legal review and approval of contracts.

DOCUMENT RETENTION (TEN YEARS)

All documents prepared or handled by K&S will be copied, scanned and archived. However, K&S cannot be responsible for retention of documents not in K&S's possession.

As stated in the *E-Rate Modernization Order*², the Applicant will be responsible for retaining documentation for a period of **TEN YEARS** after the latter of the last day of the applicable funding year, or the last day of delivery of services for that funding year.

The *Schools and Libraries Fifth Report and Order*³ requires retention of the following documentation:

Documentation in this area is also retained by K&S.

This includes purchase requisitions, purchase orders, packing slips, delivery and installation records showing where equipment was delivered and installed or where services were provided.

Invoicing. The school/library will retain all invoices. Related documents include records proving payment of the invoice, such as accounts payable records, service provider statement, beneficiary check, bank statement or ACH transaction record. The school/library will also retain copies of service provider checks payable to the school/library related to Form 472 (BEAR) filings, if applicable.

Assets and Inventory. The school/library will retain asset and inventory records of equipment purchased and components of supported internal connections services sufficient to verify the location of such equipment. The school/library will also retain detailed records documenting any transfer of equipment within three years after purchase and the reasons for such a transfer.

Forms and Rule Compliance. All program forms, attachments and documents submitted to USAC will be retained. The school/library will have procedures to require retention of all official notification letters from USAC, as applicable: FCC Form 470 certification pages (if not certified electronically), FCC Form 471 and certification pages (if not certified electronically), FCC Form 471 Item 21 attachments, FCC Form 479, FCC Form 486, FCC Form 500, FCC Form 472. The school/library will also retain any documents submitted to USAC during program integrity assurance (PIA) review, Selective Review and Invoicing Review, or for SPIN change or other requests. In addition, the school/library will retain documentation to provide compliance with other program rules, such as records relevant to show compliance with the Children's Internet Protection Act (CIPA). Documentation in this area is also retained by K&S.

Termination

Either party may, upon written notice to the other party, terminate this contract in whole or in part for convenience. All fees incurred prior to receipt of the termination notice will be due and payable immediately upon termination. Contingency fees for E-Rate Category 2 services will be due and payable to K&S according to the terms of the original agreement. K&S will be released from responsibility for the filing of E-Rate applications and any related follow up work or USAC reviews immediately

Liability

K&S will make every reasonable effort to avoid any errors or omissions in the services or advice that K&S provides to K&S's clients. However, the rules, regulations, and guidelines for both the Oklahoma Universal Services Program (OUSF) and the universal service discount mechanism for schools and libraries (E-Rate) are voluminous, ambiguous, and constantly changing. K&S's liability for any errors or omissions will be limited to a full refund of the fees paid to K&S and will not include liability for any consequential or related damages. Any claim for damages will expire within two years of when the final billing is mailed to the Applicant. K&S's liability is strictly limited to the Applicant and the Applicant's specific organization. Any recommendations or actions provided to the Applicant may not be used or relied upon by any other parties or related entities. Disputes with the Universal Service Administrative Company ("USAC") or the Oklahoma Corporation Commission ("OCC") regarding the interpretation of the rules will not constitute an error or omission if the Applicant has been advised of the difference in opinion.

Disclaimer

Due to uncertainties inherent in the funding processes for both E-Rate and OUSF, Kellogg & Sovereign® Consulting does not warrant or guarantee any E-Rate funding or OUSF support payments will be received as a result of this contractual agreement.

The Perfect Pair: Self-Regulation and Academics

Research indicates a direct correlation between students' ability to self-regulate and their academic performance. As academic pressures mount in efforts to "close the gap" and limit learning loss from the pandemic, educators are reporting a significant increase in disruptive and challenging behaviors. The only way to meet heightened academic goals is by ramping up our social and emotional curriculum as well. Learn Conscious Discipline strategies for creating the low stress, high challenge environment the brain requires for learning. Then discover how to integrate much-needed social and emotional learning – including skills like self-awareness, self-regulation, relationship-building and cooperation within your existing academic curriculum.

A Message From Your Seminar Leader

Dear Colleague:

As educators, we must develop our students' capacity to think deeply, to become effective learners and to be efficient problem solvers. As coaches, we can begin this movement by our influence on teachers and building a culture of learning. As an experienced instructional coach, I have seen first-hand how the right partnership between coach and teacher can help construct clarity, articulate direction and accelerate this journey. I'm energized and motivated to share with you what I know works.

I can relate to the many challenges coaches face as well and I will provide you with numerous techniques for working through tough situations. During this intensive two-day institute, I will share with you my best proven methods for targeting what is the most beneficial for students – in any situation. I will help you engage in more meaningful interactions when working side-by-side in the trenches with teachers. You will learn coaching structures that build on your expertise and immediately impact your ability to inspire change. You will also take away concrete ideas about feedback and questioning. I promise you more wins and better methods for overcoming the challenges we all face as coaches. Please join me and your colleagues, for two, fast-paced invigorating days devoted to enhancing your instructional coaching skills. I look forward to working with you in this game-changing work. You will leave this institute excited and equipped with innovative approaches and new ideas!

Sincerely,
Jaime Bailey

P.S. The focus of our two days together will be on **sharing practical ideas and strategies I've learned from my own teaching and coaching** that I know will build greater teacher capacity and accelerate student learning.

Overview

The right way to intervene

What does successful response to intervention (RTI) or multitiered system of supports (MTSS) look like when all the pieces come together? The underlying premise of RTI and MTSS is that schools should not delay in providing help for struggling students until they fall far enough behind to qualify for special education, but instead should provide timely, targeted, and systematic interventions to all students who demonstrate the need.

With unprecedented access to nationally recognized experts who have successfully implemented RTI in a variety of settings—often with limited personnel and dwindling resources—you will learn how to create a tiered system of supports that includes:

- Tier 1 core instruction that ensures all students have access to a rigorous, essential grade-level curriculum, highly effective teaching, and embedded academic and behavioral support
- Tier 2 supplemental interventions that support students in a grade-level curriculum, immediate prerequisite skills, and academic and social behavior expectations
- Tier 3 intensive interventions that develop foundational prerequisite academic skills (reading, numeracy, writing, and English language) and behaviors without removing students from essential grade-level curriculum

Through interactive and highly engaging keynotes, this institute explores how to build an intervention system by looking at the four essential elements of a successful RTI model: collective responsibility, concentrated instruction, convergent assessment, and certain access.

Expanding on the methods detailed in their best-selling books *Pyramid Response to Intervention* and *Simplifying Response to Intervention*, the presenters include specifics on how to lead the RTI process at the site and district levels. Learn how to create a proactive process to identify students who need help, place them in the proper intervention, monitor their progress, revise interventions as needed, and determine when students no longer need additional support. Each presenter matches theory with practice and offers strategies that can immediately increase effectiveness for students and staff.

- Build a highly effective, collaborative school or district culture focused on student learning.
- Unpack standards into focused student learning targets.
- Design, analyze, and utilize common assessments to improve core instruction and guide interventions.
- Plan for embedded intervention time.
- Engage and empower students in the learning process.
- Target interventions to meet individual student needs.
- Understand the critical components and implementation of a behavioral RTI system.
- Utilize a site leadership and intervention team to support schoolwide interventions.
- Design master schedules that provide core instruction, interventions, and elective options for

students at risk.

- Identify effective Tier 3 interventions for students struggling with reading, writing, numeracy, and English language.
- Determine the best ways to utilize schoolwide support staff in the RTI process.
- Use intervention time to extend learning for students who have already mastered grade-level expectations.
- Understand the district's role and responsibilities in the RTI process.

Surplus of Soccer Mower 11/1/22

The athletic department and the soccer booster club recently purchased a 60 in John Deere mower and the soccer booster club is wanting to surplus and sell their old redmax mower to recoup some of the cost for the John Deere mower. The redmax mower has given the soccer coaches trouble the last couple years. It is broken and in the shop more than it is in use.
