III. Chair and Coordinator Updates
   Tim Schell will provide an update on our department chair and coordinator roster heading in to next year. Positions in red are vacancies. We have seen a lot of stability in these roles, but Al Ames and Kyle Barber are new to their coordinator roles. TBD indicates multiple applicants where we are in the interview process or a recent vacancy that is still in process.

IV. Madison College Preparedness - Redesigning 12th Grade White Paper
   Follow up discussion on the 12th grade redesign paper from last meeting.

V. 2016 Horizon Report for K-12 (Information)
   The Horizon Project is the leading analysis of emerging technologies in education. Horizon covers multiple education sectors and this is their most recent K-12 report. As we move into our major topic on digital learning, this provides you with a good big picture introduction to emerging technologies. I have also included the companion toolkit for stakeholder engagement. If we wanted to conduct a linkage meeting next year on technology, there are some good starting points in the toolkit.
