## UTSA – Urban School Leaders Collaborative

### Attachment I Scope of Work

- I. In the fifth year of the ECPI, the Urban School Leaders Collaborative (USLC) will continue to support and develop systems and practices for program redesign across the seven program domains and indicators. This will involve curriculum and systems development, as well as coaching aligned with the Texas Principal Standards. The USLC prepares educators as transformational leaders who are committed to working effectively in diverse, ambiguous, and challenging contexts. The USLC is driven by a philosophy of social justice advocacy, focused initially on the development of asset-based attitudes and mindsets, and then on the cultivation of collaboration, analytical, and leadership skills. The focus will be on Domain 1: Leader Standards for Equity-Centered Leaders, Domain 2: High-Quality Preservice Principal Preparation, and Domain 7: Systems and Sustainability. In collaboration with UTSA and the Urban School Leaders Collaborative program faculty and staff, the goal is to develop leaders focused on equity in the San Antonio ISD.
  
- II. San Antonio ISD educators, specifically USLC Students, will make central the educational and life experiences of children and adults who have been historically marginalized in schools because of their race, language, ethnicity, social class, gender, gender ability, sexual orientation, perceived notions of ability, religion, immigration status and any other socially constructed notion of difference and their intersections through USLC course readings and discussions, class projects, professional development, conferences and coaching. Equity centered leaders collaboratively and systematically engage in actions to enhance the development of social justice leaders in the USLC program that celebrate justice, equity, diversity for inclusive experiences and opportunities guided by SAISD Declaration Statement, Board Goals and Guardrails.
  
- III. Visioning and strategy to develop equity minded leaders in San Antonio ISD in collaboration with UTSA/USLC faculty and staff:
  - A. Visioning and strategic planning through the equity lens aligned to the ECPI seven program domains and indicators through curriculum and systems development and coaching:
    - i. Leader Standards for equity centered leaders
    - ii. Preparation Programs and equity leadership development

- iii. Hiring and Placement for implementing equity practices
  - iv. Evaluation and Support Principal Supervisors addressing equity in schools, systems and classrooms
  - v. Leader Tracking System for progress monitoring equity growth and development
  - vi. Systems and Sustainability for implementing equitable practices, retention and sustainability
- B. Alignment to the Texas Principal Standards:
- i. Instructional Leadership for advancing equity in student achievement
  - ii. Human Capital processes for developing equity leaders
  - iii. Executive Leadership for implementing policies and practices through equity
  - iv. School Culture for equity in teaching and learning, relationships and communities
  - v. Strategic Operations for equitable systems and supports
- C. Specifically, in year five, USLC students will complete the following learning experiences that align with ECPI Project Domains and SAISD Goals in Always Learning Plan to include Declaration Statement, Board Goals and Guardrails, and SAISD Leadership Definition and Thriving Leader Profile:
- (1) Fall 2025 Semester:
- (a) **Leadership Vision as an Equity Principal** – This assignment requires ULSC students to develop a clear leadership vision as an equity-centered principal aligned with the San Antonio Independent School District (SAISD) Leadership Definition and Profile. Students will define their leadership philosophy by establishing non-negotiables that promote high expectations, culturally responsive practices, and equitable opportunities for all students. The assignment also calls for critical reflection on personal and systemic biases to support social justice leadership. Ultimately, it emphasizes that a thriving school leader demonstrates an authentic love for children, fosters inclusive and supportive environments, and intentionally creates opportunities for every student to succeed.  
(Goal 1D1 – SAISD Declaration Statement, Leadership Definition and Thriving Profile)
  - (b) **Equity Audit** - This experience requires ULSC students to conduct a comprehensive equity audit aligned with the San Antonio Independent School District (SAISD) Always Learning Plan. Through a structured data collection process, students will examine multiple facets of a school to identify patterns of access, opportunity, and outcomes. The analysis focuses on three key areas: Teacher and Instructional Quality Equity, Programmatic Equity, and Achievement Equity. By critically evaluating campus practices and data, students demonstrate a commitment to continuous improvement and develop strategies to address disparities, ensuring more equitable experiences and

outcomes for all students. (Goal 1D1 – Strategy 1.4D1 – Always Learning Plan, Leadership Definition and Thriving Profile).

- (c) **Practicum in Educational Setting** – This experience provides ULSC students with first-hand experience in applying social justice leadership within a school setting, aligned with expectations in the San Antonio Independent School District (SAISD). Through active engagement in observations and coaching cycles, students collaborate with educators and USLC clinical faculty to build mentorship, strengthen instructional practices, and support equitable outcomes for all students. The practicum emphasizes reflective practice, requiring students to document and analyze their experiences while completing all required tasks for the PASL and PAIL State Certification Exams. Grounded in Goal 3D2, this experience reinforces the development of leadership skills necessary to foster inclusive, supportive, and high-performing learning environments.

(Goal 3D2 – Always Learning Plan, Leadership Definition and Thriving Profile).

- (d) **UCEA Convention** - As an experience of the USLC program, faculty and clinical instructors will participate in the UCEA Convention 2025 in Puerto Rico. This experience provides an opportunity to present collective learning from the USLC program and reflect on the development of equity-centered leadership practices. Participants will share insights from their personal and professional experiences in preparing aspiring principals and instructional leaders. The symposium highlights ongoing growth aligned with the Always Learning Plan, Leadership Definition, and SAISD Thriving Profile, emphasizing reflective practice, equity-focused leadership, and continuous improvement in the preparation of future school leaders (Goal 1D2).

(Goal 1D2 – Always Learning Plan, Leadership Definition and Thriving Profile).

- (e) **Quality Measures** – This reflective assessment engages USLC faculty and clinical faculty in an ongoing Quality Measures Self-Study of the USLC program. The purpose is to conduct a comprehensive evaluation of program effectiveness through data-driven reflection and continuous improvement. Alumni artifacts are included as key informants and partners in reviewing and strengthening program outcomes. The self-study examines six core domains: Candidate Admission, Coursework, Pedagogy-Andragogy, Clinical Practices, Performance Assessment, and Graduate Performance Outcomes. This process is guided by the San Antonio Independent School District (SAISD) Declaration Statement, Board Goals and Guardrails, Leadership Definition, and Thriving Leader Profile. Aligned with Goal 1D2 and Goal 4D7, this experience emphasizes accountability, equity-centered leadership preparation, and the continuous refinement of practices to ensure high-quality outcomes for aspiring school leaders.

(Goal 1D2 and Goal 4D7 – SAISD Declaration Statement, Board Goals

and Guardrails, Leadership Definition and Thriving Leader Profile).

(2) Spring 2026 Semester:

(a) **Pedagogy of Collective Critical Consciousness (PCCC) Sessions -**

This professional learning experiences introduces USLC instructors and students to the guiding theory of action known as Pedagogy of Collective Critical Consciousness (PCCC), which centers on social justice leadership and the development of critical consciousness within educational settings. Throughout the semester, participants engage in structured discussions and analyses of current educational practices and policies affecting culturally and linguistically diverse student populations within the San Antonio Independent School District (SAISD). Students and instructors critically examine scholarly literature to deepen their understanding of how race, language, and culture influence educational experiences and outcomes. This learning experience supports the alignment of professional practice and leadership ideology with the SAISD leadership definition and Thriving Leader Profile, while advancing Goal 1D1 and Goal 3D2 through reflective, equity-centered, and socially conscious leadership development.

(Goal 1D1 and Goal 3D2 – SAISD Declaration Statement, Board Goals and Guardrails, and Leadership Definition and Thriving Leader Profile).

(b) **Professional Autoethnography** – centers on the development of a student in the USLC program and the evolving identity as a school leader within the San Antonio Independent School District (SAISD). Through critical self-reflection, students examine how their leadership practices have shifted over time—from compliance-driven approaches to more intentional, equity-centered leadership that prioritizes relationships, inclusion, and high expectations for all students. This reflection is grounded on students' lived experiences working within San Antonio, where historical inequities and cultural richness shape the educational landscape.

(Goal 1D1 and Goal 3D2 – SAISD Declaration Statement, Board Goals and Guardrails, and Leadership Definition and Thriving Leader Profile)

(c) **Equity Plan for School Improvement** – This experience engages USLC students to develop an Equity Plan for School Improvement by analyzing both quantitative and qualitative data to identify instructional patterns and opportunities for growth within schools in the San Antonio Independent School District (SAISD). Students will examine data sources such as the TAPR report and other district-level reports aligned with the SAISD Always Learning Plan to support a culture of instruction, inquiry, and creativity. In addition, students will design observation tools and interview protocols to conduct qualitative inquiry that identifies a potential problem of practice. This process supports collaboration with school leaders to advance an Equity-Centered

Leadership Framework. The assignment is grounded in the SAISD Declaration Statement, Board Goals and Guardrails, and aligned with Goal 2D2 and Goal 3D2.

- (d) **Practicum in Educational Setting** – ULSC students will continue with first-hand experience in applying social justice leadership within a school setting, aligned with expectations in the San Antonio Independent School District (SAISD).  
(Goal 3D2 – Always Learning Plan, Leadership Definition and Thriving Profile).
  - (e) **Quality Measures** – Conclude the Quality Measures Self-Study of the USLC program reflective assessment with USLC faculty and clinical faculty.  
(Goal 1D2 and Goal 4D7 – SAISD Declaration Statement, Board Goals and Guardrails, Leadership Definition and Thriving Leader Profile).
- (3) Summer 2026 Semester:
- (a) **Micro-ethnography of La Familia in SAISD** – This micro-ethnography explores authentic parental involvement through the lived experiences of a *familia* within the San Antonio Independent School District (SAISD). Rather than relying on traditional definitions of parental engagement—such as PTA participation or school event attendance—students will center on culturally rooted forms of involvement that often go unrecognized by institutional frameworks. By situating the family’s experiences within broader socio-political and historical contexts, the study highlights how systemic inequities shape both access to and perceptions of engagement.  
(Goal 1D1 and Goal 3D2 – SAISD Declaration Statement, Board Goals and Guardrails, Leadership Definition and Thriving Leader Profile).
  - (b) **Community asset mapping** – Grounded in a collective *familia* approach, shifts the focus from deficits to strengths within a community. In the context of the San Antonio Independent School District (SAISD), this approach highlights the cultural wealth, relationships, and local resources that support student success. Rather than asking “What is missing?”, this framework asks, “What already exists that we can build upon?” Asset mapping not only identifies resources but also fosters empowerment by validating community knowledge and encouraging collaborative problem-solving among families, schools, and local organizations.  
(Goal 1D1 and Goal 3D2 – Declaration Statement, Leadership Definition and Thriving Leader Profile).
  - (c) **Policy Analysis** - This experience engages USLC students to review an existing policy, procedure, or handbook provision within the San Antonio Independent School District (SAISD) and critically analyze its alignment with equity-oriented practices. Students will develop an outline of the selected policy and provide evidence-based recommendations to ensure it is inclusive and responsive to the needs

of all students, particularly those from historically marginalized or underserved communities. The analysis emphasizes identifying gaps, addressing potential biases, and proposing revisions that promote fairness, access, and belonging. This assignment supports the development of equity-centered leadership by encouraging students to evaluate institutional structures through a social justice lens.

(Goal 1D1 – Strategy 1.4D1 – SAISD Declaration Statement, Leadership Definition and Thriving Leader Profile).

- (d) **PASL and PAIL Workshops** - This opportunity involves structured PASL and PAIL workshops designed to support USLC students and alumni in successfully completing state certification examinations. These workshops provide targeted preparation aligned with leadership competencies, emphasizing applied learning, reflective practice, and performance-based assessment strategies. Participants engage in collaborative activities, guided practice, and feedback cycles to strengthen their ability to demonstrate instructional leadership and equity-centered decision-making. The workshops ensure candidates are well-prepared to meet certification expectations while reinforcing the skills necessary to lead effective, equitable, and student-centered school environments. This experience emphasizes reflective practice, requiring students to document and analyze their experiences while completing all required tasks for the Practicum. Grounded in Goal 3D2, this experience reinforces the development of leadership skills necessary to foster inclusive, supportive, and high-performing learning environments.

(Goal 1D1 – SAISD Declaration Statement, Leadership Definition, Board Goals and Guardrails).

Dear Ms. Carreon:

The above referenced property owners requested for the waiver of penalty and interest under Section 33.011 of the Texas Property Tax Code.

The governing body of a taxing unit shall waive penalties and interest if an act or omission of an act by an employee of the Bexar Appraisal District resulted in the taxpayers failure to pay the tax before delinquency.

The attached letter confirms such an error did occur. The base tax has been paid and the request for waiver was made within 180 days of the delinquency date. This office recommends penalty and interest to be refunded unless we receive notice otherwise from the governing body.

Please notify our office within fifteen days of the receipt of this letter if the governing body agrees with this recommendation. If the decision is decided at a board meeting please reply with the date of the hearing. If you have any questions or concerns, please call our office at (210) 335-0554.

Sincerely,

Albert Uresti, MPA, PCAC

Subject: Jefferson High School 2020 Bond Project Cost to Complete

Dear Brant,

I have reviewed the project cost to complete spreadsheet submitted by Rogers O'Brien Construction for the Jefferson High School 2020 Bond. The cost to complete the project is currently estimated at **\$768,617.52**. Based on my analysis, this number is justified and includes work necessary to complete the project. The estimated costs per item is appropriate for the scope of work needed. The total number does not include the cost for the planned security upgrades currently in design as a separate project. It also does not include an additional \$44,000.00 of recommended scope, which is not required to complete the project.

At the beginning of the project, four contingency funds were included in the Guaranteed Maximum Price (GMP) provided by the General Contractor. A **Design Contingency of \$320,061.00** was set to cover any needed changes to the design. To date \$318,982.00 has been spent of this contingency.

An **Owner Contingency of \$800,000.00** was set to cover any unforeseen conditions discovered during the course of the renovation of this 94 year old building. To date \$961,270.08 of this contingency has been spent, largely on items outside the scope of the original project requested by SAISD including deferred maintenance items and facility tickets totaling \$619,077.53.

An **Escalation Contingency of \$522,000.00** was to cover any cost increases from bid date to contract with sub-contractors since the project covers multiple years. To date \$387,613.44 has been spent.

A **Structural Investigation Contingency of \$225,000.00** was included for destructive investigation of unforeseen structural issues discovered during the design phase and any necessary repairs to correct these issues. To date, \$104,967.00 has been spent.

To further breakdown the cost to complete, I have provided some analysis below for your reference.

- As a 94 year old building, there has been a significant amount of unforeseen conditions uncovered during the course of the project. The estimated cost to address the remaining unforeseen conditions that we are currently aware of is **\$330,191.97**.
- Additional hazardous materials uncovered in areas of work require abatement estimated at **\$40,000**. While a hazardous materials survey was completed prior to the project, not every area was captured in the report, nor is it reasonable to expect it to be exhaustive.
- SAISD has requested that the contractor assist with addressing a large number of deferred maintenance items and closing outstanding facility tickets. The amount needed to complete these items is estimated at **\$60,250.00**. This number does not include the \$619,077.53 of previously approved items, which were

not in the scope of the GMP. This has depleted the project contingency meant to cover unforeseen conditions significantly.

- The cost to complete includes **\$215,000** in estimated structural repairs that were accounted for at the beginning of the project as part of the Structural Contingency discussed above. This money was set aside to address known structural issues that required destructive investigation that could not be completed during the design phase.
- The cost to complete total also includes **\$400,000** in Owner contingency to partially replenish the original Owner's contingency spent on deferred maintenance and cover any unforeseen conditions that could arise in the last 9 months remaining in the project. Any unforeseen issues will be prioritized to address only critical scope items. This number has been reduced from \$800,000 at the request of SAISD to align with current funding. The risk with reducing this number is that there will not be enough money at the end of the project to correct necessary unforeseen conditions and work will be left unfinished.

Jefferson High School is the jewel of San Antonio ISD and has served students for 94 years. This project, largely addressing the building envelope, will contribute to serving students for the next 100 years! I am available to answer any questions you may have.

Sincerely,

Allison Chambers, AIA  
Principal
