AP.3B.3 **Use and adapt classic algorithms to solve computational problems.**
Examples could include sorting and searching. **[ALGORITHMS] (P4.2)**

AP.3B.4 **Evaluate algorithms in terms of their efficiency, correctness, and clarity.**
Examples could include sorting and searching. **[ALGORITHMS] (P4.2)**

AP.3B.5 **Compare and contrast fundamental data structures and their uses.**
Examples could include strings, lists, arrays, stacks, and queues. **[VARIABLES] (P4.2)**

AP.3B.6 **Illustrate the flow of execution of a recursive algorithm. [CONTROL] (P3.2)**

AP.3B.7 **Construct solutions to problems using student-created components, such as procedures, modules and/or objects.**
Object-oriented programming is optional at this level. Problems can be assigned or student-selected. **[MODULARITY] (P5.2)**

AP.3B.8 **Analyze a large-scale computational problem and identify generalizable patterns that can be applied to a solution.**
As students encounter complex, real-world problems that span multiple disciplines or social systems, they should decompose complex problems into manageable sub problems that could potentially be solved with programs or procedures that already exist. For example, students could create an app to solve a community problem by connecting to an online database through an application programming interface (API). **[MODULARITY] (P4.1)**

AP.3B.9 **Demonstrate code reuse by creating programming solutions using libraries and APIs.**
Libraries and APIs can be student-created or common graphics libraries or maps APIs, for example. **[MODULARITY] (P5.3)**

AP.3B.10 **Plan and develop programs for broad audiences using a software life cycle process.**
Processes could include agile, spiral, or waterfall. **[PROGRAM DEVELOPMENT] (P5.1)**

AP.3B.11 **Explain security issues that might lead to compromised computer programs.**
For example, common issues include lack of bounds checking, poor input validation, and circular references. **[PROGRAM DEVELOPMENT] (P7.2)**

AP.3B.12 **Develop programs for multiple computing platforms.**
Example platforms could include: computer desktop, web, or mobile. **[PROGRAM DEVELOPMENT] (P5.2)**

AP.3B.13 **Use version control systems, integrated development environments (IDEs), and collaborative tools and practices (code documentation) in a group software project.**
Group software projects can be assigned or student-selected. **[PROGRAM DEVELOPMENT] (P2.4)**

AP.3B.14 **Develop and use a series of test cases to verify that a program performs according to its design specifications.**
At this level, students are expected to select their own test cases. **[PROGRAM DEVELOPMENT] (P6.1)**

AP.3B.15 **Modify an existing program to add additional functionality and discuss intended and unintended implications (e.g., breaking other functionality).**
For instance, changes made to a method or function signature could break invocations of that method elsewhere in a system. **[PROGRAM DEVELOPMENT] (P5.3)**

AP.3B.16 **Evaluate key qualities of a program through a process such as a code review.**
Examples of qualities could include correctness, usability, readability, efficiency, portability and scalability. **[PROGRAM DEVELOPMENT] (P6.3)**

AP.3B.17 **Compare multiple programming languages and discuss how their features make them suitable for solving different types of problems.**
Examples of features include blocks versus text, indentation versus curly braces, and high-level versus low-level. **[PROGRAM DEVELOPMENT] (P7.2)**

Level 3B: GRADES 11-12 - Impacts of Computing

Impacts of Computing (IC.3B)

Conceptual understanding: Computing affects many aspects of the world in both positive and negative ways at local, national, and global levels. Individuals and communities influence computing through their behaviors and cultural and social interactions, and in turn, computing influences new cultural practices. An informed and responsible person should understand the social implications of the digital world, including equity and access to computing.

IC.3B.1 **Evaluate computational artifacts to maximize their beneficial effects and minimize harmful effects on society. [CULTURE] (P6.1, 1.2)**

IC.3B.2 **Evaluate the impact of equity, access, and influence on the distribution of computing resources in a global society. [CULTURE] (P1.2)**

IC.3B.3 **Predict how computational innovations that have revolutionized aspects of our culture might evolve.**
Areas to consider might include education, healthcare, art/entertainment, and energy.
[CULTURE] (P7.2)

IC.3B.4 **Debate laws and regulations that impact the development and use of software.**
Areas to consider might include education, healthcare, art/entertainment, energy, and artificial intelligence (for example ethical concerns around self-driving cars). **[SAFETY, LAW, & ETHICS] (P7.3, 3.3)**

Support Documents and Resources

The MDE will develop support documents after these standards have been approved by the State Board of Education. Local districts, schools, and teachers may use these documents to construct standards-based computer science curriculum, allowing them to customize content to fit their students' needs and match available instructional materials. The support documents will include suggested resources, instructional strategies, and essential knowledge.

Professional development efforts will be aligned with the standards and delivered in accord with teacher resources to help expand expertise in delivering student-centered lessons (e.g., inquiry-based learning, 5-E instructional models, or other best practices in STEM teaching). The most successful national models and programs will be referenced for a capacity-building effort that can develop a more effective culture of computer science education in Mississippi.

PURPOSE OF THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

Mission of Arts Education

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

Arts Integration

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

Artistic Literacy

The knowledge and understanding required to participate authentically in the arts is Artistic Literacy. Fluency in the languages of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Students should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

Overview of the Arts Learning Standards

The primary purpose of the 2017 Mississippi College- and Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for grades Pre-Kindergarten-12th arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.
This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

Benefits of the Arts in Education

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist's sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

THE ARTS AS MEANS TO WELLBEING	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

THE ARTS AS COMMUNITY ENGAGEMENT	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experience and support the arts in their local, state, national, and global communities.

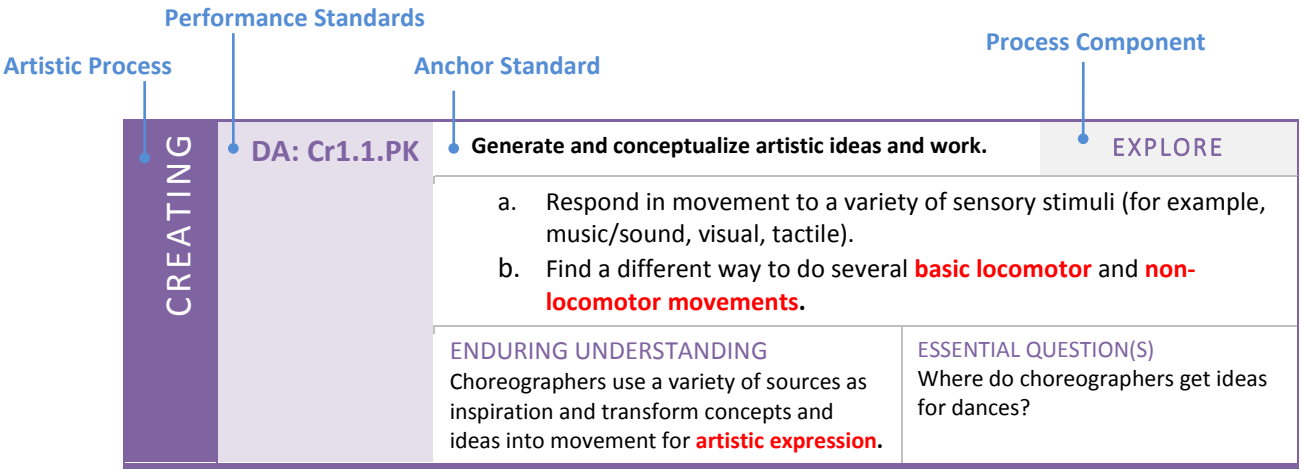
Understanding the Arts Learning Standards

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts (dance, media arts, music, theatre, and visual arts) is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College-and-Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades Pre-Kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts (dance, media arts, music, theatre, and visual arts).

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

Mississippi College- and Career-Readiness Arts Learning Standards			
ARTISTIC PROCESSES			
Cr— CREATING	**Pr**— PERFORMING/ PRESENTING/ PRODUCING	**Re**— RESPONDING	**Cn**— CONNECTING
DEFINITION	DEFINITION	DEFINITION	DEFINITION
Conceiving and developing new artistic ideas and work.	**PERFORMING** (dance, music, theatre)**:** Realizing artistic ideas and work through interpretation and presentation. **PRESENTING** (visual arts): Interpreting and sharing artistic work. **PRODUCING** (media arts): Realizing and presenting artistic ideas and work.	Understanding and evaluating how the arts convey meaning.	Relating artistic ideas and work with personal meaning and external context.
ANCHOR STANDARDS			
STUDENTS WILL	STUDENTS WILL	STUDENTS WILL	STUDENTS WILL
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	4. Select, analyze, and interpret artistic work for presentation. 5. Develop and refine artistic techniques and work for presentation. 6. Convey meaning through the presentation of artistic work.	7. Perceive and analyze artistic work. 8. Interpret intent and meaning in artistic work. 9. Apply criteria to evaluate artistic work.	10. Synthesize and relate knowledge and personal experiences to make art. 11. Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.



Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8th grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**
  Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.

- **HS - Accomplished**
  Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.

- **HS - Advanced**
  Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

Anchor Standard

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an "a" or "b" listed below the anchor standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

Process Component

Each artistic process branches into Process Components**.** Process Components are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

Enduring Understandings

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student's ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

Essential Questions

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

Introduction to the Arts Learning Standards for Dance

The Mississippi College- and Career-Readiness Arts Learning Standards for Dance are designed to enable students to achieve dance literacy. To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In dance, this means discovering the expressive elements of dance; knowing the terminology that is used to comprehend dance; having a clear sense of embodying dance; and being able to reflect, critique, and connect personal experience to dance.

Dance, the art of human movement, is a perfect educational model for learning to be perceptive and expressing thoughts, sensations, feelings and ideas, all essential for the development of communication and a construct for learning the creative process.

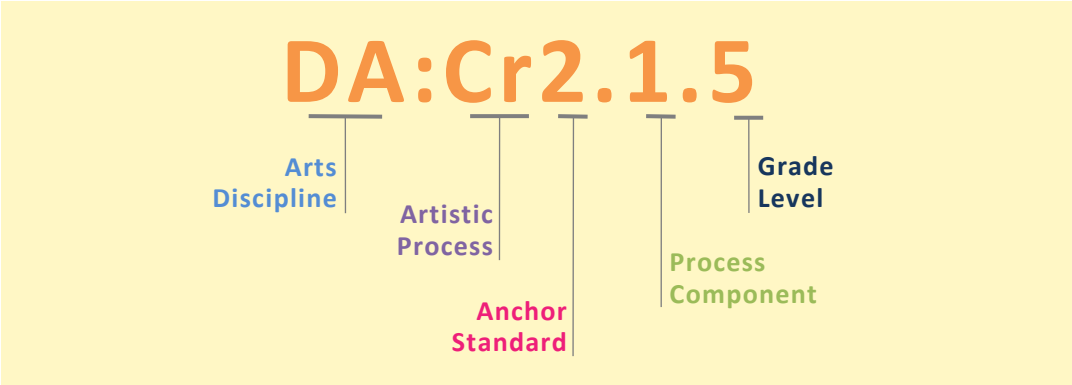
Students studying dance learn an awareness that guides the logical sensory execution of movement. They learn to recognize and distinguish human energy that is turned into the performance of illusions and the language of metaphors that transform through time and space into art. The training and study of dance enhances the scope and diversity of learning about life and the human experience.

Dance creates community and is celebrated throughout the world. No matter where one goes, the phenomenon of dance is celebrated and its repertoires are a dynamic part of every culture. Dance is a form of theatre that ranges from the ecstatic and lively, to the tender and gentle telling of matters of the heart. In many cultures, dance is an expression of a life force and a description of peoples' spirits and beliefs. Dance communicates in ways which words cannot. It can explain the inexplicable, and can awaken our social consciousness. Dance is the expression of the myths, symbols, and rituals of a culture, told through stories that can be a narrative of life.

Building understanding through the dance experience requires learning to intelligently translate dance into meaning through the interpretation of the dances of an individual choreographer or of an entire nation. As a means to self-discovery, students learn to make their own dances. They become involved in various aspects of technical production and come to understand others by learning dances of their ancestors and friends in the community. The Dance section of the Mississippi College- and Career-Readiness Arts Learning Standards for Dance offers a program of study that is developmentally and sequentially balanced to assist with Pre-Kindergarten-12th grade dance curriculum development at the local and district level.

GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.



Arts Discipline — The first two letters are codes for the arts discipline notation: **DA** = for Dance

Artistic Process — The next two letters after the colon are the artistic process:

Cr = Creating **Pr** = Performing **Re** = Responding **Cn** = Connecting

Anchor Standard — The next number is the anchor standard, numbers 1 to 11.

Process Component — The next number after the period is the process components which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

Grade Level — The next number is the grade level. (Pre-Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Dance:

DA:Cr1.1.PK				
DA	**Cr**	**1**	**1**	**PK**
Arts discipline of Dance	Artistic process of Creating	Anchor standard one	Process component	Pre-Kindergarten

DA:Pr5.1.4				
DA	**Pr**	**5**	**1**	**4**
Arts discipline of Dance	Artistic process of Performing	Anchor standard five	Process component	Grade four

DA:Re8.1.6				
DA	**Re**	**8**	**1**	**6**
Arts discipline of Dance	Artistic process of Responding	Anchor standard eight	Process component	Grade six

DA:Cn10.1.II				
DA	**Cn**	**10**	**1**	**II**
Arts discipline of Dance	Artistic process of Connecting	Anchor standard ten	Process component	Roman numeral II is the high school level accomplished

Pre-Kindergarten

THROUGH

8th Grade

[DANCE]

944

CREATING

DA: Cr1.1.PK

Generate and conceptualize artistic ideas and work. EXPLORE

a. Respond in movement to a variety of sensory stimuli (for example, music/sound, visual, tactile).
b. Find a different way to do several basic **locomotor** and **non-locomotor movements**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	Where do choreographers get ideas for dances?

DA: Cr2.1.PK

Organize and develop artistic ideas and work. PLAN

a. Improvise dance that starts and stops on cue.
b. Engage in dance experiences moving alone or with a partner.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	What influences choice-making in creating choreography?

DA: Cr3.1.PK

Refine and complete artistic work. REVISE

a. Respond to suggestions for changing movement through guided improvisational experiences.
b. Identify parts of the body and document a body shape or position by drawing a picture.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

PERFORMING

DA: Pr4.1.PK

Select, analyze, and interpret artistic work for presentation. EXPRESS

a. Identify and demonstrate directions for moving the body in **general space** (for example, forward, backwards, sideways, up, down, and turning) and finding and returning to a place in **space**.
b. Identify speed of dance as fast or slow. Move to varied rhythmic sounds at different **tempi**.
c. Move with opposing characteristics (for example, loose/tight, light/heavy, jerky/smooth).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

PERFORMING

DA: Pr5.1.PK

Develop and refine artistic technique and work for presentation. — EMBODY

a. Demonstrate basic full body **locomotor**, **non-locomotor** movement, and **body patterning** with spatial relationships.
b. Move in **general space** and start and stop on cue while maintaining **personal space**.
c. Identify and move body parts and repeat movements upon request.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.PK

Convey meaning through the presentation of artistic work. — PRESENT

a. Dance for others in a designated area or space.
b. Use a simple prop as part of a dance.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.PK

Perceive and analyze artistic work. — ANALYZE

a. Identify a movement in a dance by repeating it.
b. Demonstrate an observed or performed dance movement.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.PK

Interpret intent and meaning in artistic work. — INTERPRET

a. Observe a movement and share impressions.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

RESPONDING

DA: Re9.1.PK	**Apply criteria to evaluate artistic work.**	CRITIQUE
	a. Find a movement in a dance that was fun to watch. Repeat it and explain why it is fun to watch and do.	
	ENDURING UNDERSTANDING Criteria for evaluating dance vary across genres, styles, and cultures.	ESSENTIAL QUESTION(S) What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.PK	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Recognize an emotion expressed in dance movement that is watched or performed. b. Observe a dance work. Identify and imitate a movement from the dance, and ask a question about the dance.	
	ENDURING UNDERSTANDING As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	ESSENTIAL QUESTION(S) How does dance deepen our understanding of ourselves, other knowledge, and events around us?
DA: Cn11.1.PK	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Show a dance movement experienced at home or elsewhere.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

947

CREATING

DA: Cr1.1.K	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Respond in movement to a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance). b. Explore different ways to do basic **locomotor** and **non-locomotor** movements by changing at least one of the **elements of dance**.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.K	**Organize and develop artistic ideas and work.**	PLAN
	a. Improvise dance that has a beginning, middle, and end. b. Express an idea, feeling, or image, through improvised movement moving alone or with a partner.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.K	**Refine and complete artistic work.**	REVISE
	a. Apply suggestions for changing movement through guided improvisational experiences. b. Depict a dance movement by drawing a picture or using a symbol.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

PERFORMING

DA: Pr4.1.K	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Make still and moving body shapes that show lines (for example, straight, bent, and curved), changes levels, and vary in size (large/small). Join with others to make a circle formation and work with others to change its dimensions.
b. Demonstrate **tempo** contrasts with movements that match to tempo of sound stimuli.
c. Identify and apply different characteristics to movements (for example, slow, smooth, or wavy).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.K	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Demonstrate same-side and cross-body **locomotor** and **non-locomotor** movements, **body patterning** movements, and body shapes.
b. Move safely in **general space** and start and stop on cue during activities, group formations, and creative explorations while maintaining **personal space**.
c. Move body parts in relation to other body parts and repeat and recall movements upon request.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

949

DA: Pr6.1.K	**Convey meaning through the presentation of artistic work.**	PRESENT

a. Dance for and with others in a designated space.
b. Select a prop to use as part of a dance.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.K — ANALYZE

Perceive and analyze artistic work.

a. Find a movement that repeats in a dance.
b. Demonstrate or describe observed or performed dance movements.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.K — INTERPRET

Interpret intent and meaning in artistic work.

a. Observe movement and describe it using simple **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

DA: Re9.1.K — CRITIQUE

Apply criteria to evaluate artistic work.

a. Find a movement that was noticed in a dance. Demonstrate the movement that was noticed and explain why it attracted attention.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.K — SYNTHESIZE

Synthesize and relate knowledge and personal experiences to make art.

a. Recognize and name an emotion that is experienced when watching, improvising, or performing dance and relate it to a personal experience.
b. Observe a work of visual art. Describe and then express through movement something of interest about the artwork, and ask questions for discussion concerning the artwork.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

K

CONNECTING

DA: Cn11.1.K	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Describe or demonstrate the movements in a dance that was watched or performed.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

1

CREATING

DA: Cr1.1.1	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Explore movement inspired by a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance, experiences) and identify the source. b. Explore a variety of **locomotor** and **non-locomotor** movements by experimenting with and changing the **elements of dance**.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.1	**Organize and develop artistic ideas and work.**	PLAN
	a. Improvise a series of movements that have a beginning, middle, and end, and describe movement choices. b. Choose movements that express an idea or emotion, or follow a musical phrase.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.1	**Refine and complete artistic work.**	REVISE
	a. Explore suggestions to change movement from guided improvisation and/or short remembered sequences. b. Depict several different types of movements of a dance by drawing a picture or using a symbol (for example, jump, turn, slide, bend, reach).	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

952

1

PERFORMING

DA: Pr4.1.1	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Demonstrate **locomotor** and **non-locomotor** movements that change body shapes, levels, and facings. Move in straight, curved, and zig-zagged pathways. Find and return to place in **space**. Move with others to form straight lines and circles.
b. Relate quick, moderate and slow movements to duration in time. Recognize steady beat and move to varying **tempi** of steady beat.
c. Demonstrate **movement characteristics** along with **movement vocabulary** (for example, use adverbs and adjectives that apply to movement such as a bouncy leap, a floppy fall, a jolly jump, and joyful spin).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.1	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Demonstrate a range of **locomotor** and **non-locomotor** movements, **body patterning**, body shapes, and directionality.
b. Move safely in **general space** through a range of activities and group formations while maintaining **personal space**.
c. Modify movements and spatial arrangements upon request.

953

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.1	**Convey meaning through the presentation of artistic work.**	PRESENT

a. Dance for others in a space where audience and performers occupy different areas.
b. Explore the use of simple props to enhance performance.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.1 — ANALYZE

Perceive and analyze artistic work.

a. Find a movement that repeats in a dance to make a pattern.
b. Demonstrate and describe observed or performed dance movements from a specific **genre** or culture.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.1 — INTERPRET

Interpret intent and meaning in artistic work.

a. Select movements from a dance that suggest ideas and explain how the movement captures the idea using simple **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

DA: Re9.1.1 — CRITIQUE

Apply criteria to evaluate artistic work.

a. Identify and demonstrate several movements in a dance that attracted attention. Describe the characteristics that make the movements interesting and talk about why they were chosen.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.1 — SYNTHESIZE

Synthesize and relate knowledge and personal experiences to make art.

a. Find an experience expressed or portrayed in a dance that relates to a familiar experience. Identify the movements that communicate this experience.
b. Observe illustrations from a story. Discuss observations and identify ideas for dance movement and demonstrate the big ideas of the story.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

1

CONNECTING

DA: Cn11.1.1	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Watch and/or perform a dance from a different culture and discuss or demonstrate the types of movement danced.

955

CREATING

DA: Cr1.1.2	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Explore movement inspired by a variety of stimuli (for example, music/sound, text, objects, images, symbols, observed dance, experiences) and suggest additional sources for movement ideas. b. Combine a variety of movements while manipulating the **elements of dance**.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.2	**Organize and develop artistic ideas and work.**	PLAN
	a. Improvise a **dance phrase** with a beginning, a middle that has a main idea, and a clear end. b. Choose movements that express a main idea or emotion, or follow a musical phrase. Explain reasons for movement choices.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.2	**Refine and complete artistic work.**	REVISE
	a. Explore suggestions and make choices to change movement from guided improvisation and/or short remembered sequences. b. Depict the levels of movements in a variety of dance movements by drawing a picture or using symbols (for example, high, middle, low).	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

956

2

PERFORMING

DA: Pr4.1.2	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Demonstrate clear directionality and intent when performing **locomotor** and **non-locomotor** movements that change body shapes, facings, and pathways in space. Identify symmetrical and asymmetrical body shapes and examine relationships between body parts. Differentiate between circling and turning as two separate ways of continuous directional change.
b. Identify the length of time a move or phrase takes (for example, whether it is long or short). Identify and move on the downbeat in duple and triple meter. Correlate metric phrasing with movement phrasing.
c. Select and apply appropriate characteristics to movements (for example, selecting specific adverbs and adjectives and apply them to movements). Demonstrate **kinesthetic awareness** while dancing the movement characteristics.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.2	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Demonstrate a range of **locomotor** and **non-locomotor** movements, **body patterning**, and dance sequences that require moving through space using a variety of pathways.
b. Move safely in a variety of spatial relationships and formations with other dancers, sharing and maintaining **personal space**.
c. Repeat movements, with an awareness of self and others in space. Self-adjust and modify movements or placement upon request.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.2	**Convey meaning through the presentation of artistic work.**	PRESENT

a. Dance for and with others in a space where audience and performers occupy different areas.
b. Use limited **production elements** (for example, hand props, simple scenery, or media projections).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.2	**Perceive and analyze artistic work.**	ANALYZE
	a. Find movements in a dance that develop a pattern. b. Demonstrate and describe movements in dances from different **genres** or cultures.	
	ENDURING UNDERSTANDING Dance is perceived and analyzed to comprehend its meaning.	ESSENTIAL QUESTION(S) How is a dance understood?
DA: Re8.1.2	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Use **context cues** from movement to identify meaning and intent in a dance using simple **dance terminology**.	
	ENDURING UNDERSTANDING Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	ESSENTIAL QUESTION(S) How is dance interpreted?
DA: Re9.1.2	**Apply criteria to evaluate artistic work.**	CRITIQUE
	a. Observe or demonstrate dances from a **genre** or culture. Discuss movements and other aspects of the dances that make the dances work well, and explain why they work. Use simple **dance terminology**.	
	ENDURING UNDERSTANDING Criteria for evaluating dance vary across genres, styles, and cultures.	ESSENTIAL QUESTION(S) What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.2	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Describe, create, and/or perform a dance that expresses personal meaning and explain how certain movements express this personal meaning. b. Respond to a dance work using an inquiry-based set of questions (for example, **See**, **Think**, **Wonder**). Create movement using ideas from responses and explain how certain movements express a specific idea.	
	ENDURING UNDERSTANDING As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	ESSENTIAL QUESTION(S) How does dance deepen our understanding of ourselves, other knowledge, and events around us?
DA: Cn11.1.2	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Observe a dance and relate the movement to the people or environment in which the dance was created and performed.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

959

CREATING

DA: Cr1.1.3	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Experiment with a variety of self-identified stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences) for movement. b. Explore a given **movement problem**. Select and demonstrate a solution.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.3	**Organize and develop artistic ideas and work.**	PLAN
	a. Identify and experiment with **choreographic devices** to create simple movement patterns and **dance structures** for example, AB, ABA, theme and development). b. Develop a dance phrase that expresses and communicates an idea or feeling. Discuss the effect of the movement choices.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.3	**Refine and complete artistic work.**	REVISE
	a. Revise movement choices in response to feedback to improve a short **dance study**. Describe the differences the changes made in the movements. b. Depict directions or spatial pathways in a dance phrase by drawing a picture map or using a symbol.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

960

PERFORMING

DA: Pr4.1.3	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Judge spaces as distance traveled and use space three-dimensionally. Demonstrate shapes with positive and **negative space**. Perform movement sequences in and through space with intentionality and focus.
b. Fulfill specified duration of time with improvised **locomotor** and **non-locomotor** movements. Differentiate between "in time" and "out of time" to music. Perform movements that are the same or of a different time orientation to accompaniment. Use metric and kinesthetic phrasing.
c. Change use of energy and dynamics by modifying movements and applying specific characteristics to heighten the effect of their intent.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.3	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Replicate body shapes, **movement characteristics**, and movement patterns in a dance sequence with awareness of body alignment and core support.
b. Adjust body-use to coordinate with a partner or other dancers to safely change levels, directions, and pathway designs.
c. Recall movement sequences with a partner or in group dance activities. Apply constructive feedback from teacher and self-check to improve dance skills.

961

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.3	**Convey meaning through the presentation of artistic work.**	PRESENT

a. Identify the main areas of a performance space using **production terminology** (for example, stage right, stage left, center stage, upstage, and downstage).
b. Explore simple **production elements** (costumes, props, music, scenery, lighting, or media) for a dance performed for an audience in a designated specific performance space.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.3 **Perceive and analyze artistic work.** ANALYZE

a. Find a movement pattern that creates a **movement phrase** in a dance work.
b. Demonstrate and explain how one dance **genre** is different from another, or how one **cultural movement practice** is different from another.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.3 **Interpret intent and meaning in artistic work.** INTERPRET

a. Select specific **context cues** from movement. Explain how they relate to the main idea of the dance using basic **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

DA: Re9.1.3 **Apply criteria to evaluate artistic work.** CRITIQUE 962

a. Select dance movements from specific **genres**, **styles**, or cultures. Identify characteristic movements from these dances and describe in basic **dance terminology** ways in which they are alike and different.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.3 **Synthesize and relate knowledge and personal experiences to make art.** SYNTHESIZE

a. Compare the relationships expressed in a dance to relationships with others. Explain how they are the same or different.
b. Ask and research a question about a key aspect of a dance that communicates a perspective about an issue or event. Explore the key aspect through movement. Share movements and describe how the movements help to remember or discover new qualities in these key aspects. Communicate the new learning in oral, written, or movement form.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

3

CONNECTING

DA: Cn11.1.3	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Find a relationship between movement in a dance from a culture, society, or community and the culture from which the dance is derived. Explain what the movements communicate about key aspects of the culture, society, or community.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

963

CREATING

DA: Cr1.1.4	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Identify ideas for choreography generated from a variety of stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences). b. Develop a **movement problem** and manipulate the **elements of dance** as tools to find a solution.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.4	**Organize and develop artistic ideas and work.**	PLAN
	a. Manipulate or modify **choreographic devices** to expand movement possibilities and create a variety of movement patterns and structures. Discuss movement choices. b. Develop a dance study that expresses and communicates a main idea. Discuss the reasons and effectiveness of the movement choices.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point or choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.4	**Refine and complete artistic work.**	REVISE
	a. Revise movement based on peer feedback and self-reflection to improve communication of **artistic intent** in a short **dance study**. Explain choices made in the process. b. Depict the relationships between two or more dancers in a dance phrase by drawing a picture or using symbols (for example, next to, above, below, behind, in front of).	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

964

4

PERFORMING

DA: Pr4.1.4 **Select, analyze, and interpret artistic work for presentation.** EXPRESS

a. Make static and dynamic shapes with positive and **negative space**. Perform elevated shapes (jump shapes) with soft landings and movement sequences alone and with others, establishing relationships with other dancers through focus of eyes.
b. Accompany other dancers using a variety of percussive instruments and sounds. Respond in movement to even and uneven rhythms. Recognize and respond to **tempo** changes as they occur in dance and music.
c. Analyze movements and phrases for use of **energy** and **dynamic** changes and use adverbs and adjectives to describe them. Based on the analysis, refine the phrases by incorporating a range of **movement characteristics**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.4 **Develop and refine artistic technique and work for presentation.** EMBODY

a. Demonstrate fundamental dance skills (for example, **alignment**, coordination, balance, core support, **kinesthetic awareness**) and **movement qualities** when replicating and recalling patterns and sequences of **locomotor** and **non-locomotor** movements.
b. Execute techniques that extend movement range, build strength, and develop endurance. Explain the relationship between execution of technique, safe body-use, and healthful nutrition.
c. Coordinate phrases and timing with other dancers by cueing off each other and responding to **stimuli** cues (for example, music, text, or lighting). Reflect on feedback from others to inform personal dance performance goals.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.4 **Convey meaning through the presentation of artistic work.** PRESENT

a. Consider how to establish a formal performance space from an informal setting (for example, gymnasium or grassy area).
b. Identify, explore, and experiment with a variety of **production elements** to heighten the **artistic intent** and audience experience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.4	**Perceive and analyze artistic work.**	ANALYZE
	a. Find patterns of movement in dance works that create a **style** or **theme**. b. Demonstrate and explain how dance **styles** differ within a **genre** or within a **cultural movement practice**.	
	ENDURING UNDERSTANDING Dance is perceived and analyzed to comprehend its meaning.	ESSENTIAL QUESTION(S) How is a dance understood?
DA: Re8.1.4	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Relate movements, ideas, and context to decipher meaning in a dance using basic **dance terminology**.	
	ENDURING UNDERSTANDING Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	ESSENTIAL QUESTION(S) How is dance interpreted?
DA: Re9.1.4	**Apply criteria to evaluate artistic work.**	CRITIQUE
	a. Discuss and demonstrate the characteristics that make a dance artistic and apply those characteristics to dances observed or performed in a specific **genre**, **style**, or **cultural movement practice**. Use basic **dance terminology**. 966	
	ENDURING UNDERSTANDING Criteria for evaluating dance vary across genres, styles, and cultures.	ESSENTIAL QUESTION(S) What criteria are used to evaluate dance?

CONNECTING 4

DA: Cn10.1.4	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Relate the main idea or content in a dance to other experiences. Explain how the main idea of a dance is similar to or different from one's own experiences, relationships, ideas or perspectives. b. Develop and research a question relating to a topic of study in school using multiple sources of references. Select key aspects about the topic and choreograph movements that communicate the information. Discuss what was learned from creating the dance and describe how the topic might be communicated using another form of expression.	
	ENDURING UNDERSTANDING As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	ESSENTIAL QUESTION(S) How does dance deepen our understanding of ourselves, other knowledge, and events around us?
DA: Cn11.1.4	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Select and describe movements in a specific **genre** or **style** and explain how the movements relate to the culture, society, historical period, or community from which the dance originated.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

967

CREATING

DA: Cr1.1.5	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Build content for choreography using several stimuli (for example, music/sound, text, objects, images, notation, observed dance, experiences, literary forms, natural phenomena, current news, social events). b. Construct and solve multiple **movement problems** to develop choreographic content.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.5	**Organize and develop artistic ideas and work.**	PLAN
	a. Manipulate or modify a variety of **choreographic devices** to expand choreographic possibilities and develop a main idea. Explain reasons for movement choices. b. Develop a dance study by selecting a specific **movement vocabulary** to communicate a main idea. Discuss how the dance communicates non-verbally.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.5	**Refine and complete artistic work.**	REVISE
	a. Explore through movement the feedback from others to expand choreographic possibilities for a short **dance study** that communicates **artistic intent**. Explain the movement choices and refinements. b. Record changes in a dance sequence through writing, symbols, or a form of media technology.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

968

PERFORMING

DA: Pr4.1.5	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Integrate static and dynamic shapes and floor and air pathways into dance sequences. Establish relationships with other dancers through focus of eyes and other body parts. Convert inward focus to outward focus for projecting out to far space.
b. Dance to a variety of **rhythms** generated from internal and external sources. Perform **movement phrases** that show the ability to respond to changes in time.
c. Contrast **bound** and **free-flowing** movements. Motivate movement from both central initiation (torso) and peripheral initiation (distal) and analyze the relationship between initiation and **energy**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.5	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Recall and execute a series of **dance phrases** using fundamental dance skills (for example, **alignment**, coordination, balance, core support, **kinesthetic awareness**, clarity of movement).
b. Demonstrate safe body-use practices during technical exercises and movement combinations. Discuss how these practices, along with healthful eating habits, promote strength, flexibility, endurance and injury prevention.
c. Collaborate with peer ensemble members to repeat sequences, synchronize actions, and refine spatial relationships to improve performance quality. Apply feedback from others to establish personal performance goals.

969

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.5	**Convey meaning through the presentation of artistic work.**	PRESENT

a. Demonstrate the ability to adapt dance to **alternative performance venues** by modifying spacing and movements to the performance space.
b. Identify, explore, and select **production elements** that heighten and intensify the **artistic intent** of a dance and are adaptable for various performance spaces.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.5	**Perceive and analyze artistic work.**	ANALYZE
	a. Find meaning or **artistic intent** from the patterns of movement in a dance work. b. Describe, using basic **dance terminology**, the qualities and characteristics of **style** used in a dance from one's own **cultural movement practice**. Compare them to the qualities and characteristics of **style** found in a different dance **genre**, **style**, or **cultural movement practice**, also using basic **dance terminology**.	
	ENDURING UNDERSTANDING Dance is perceived and analyzed to comprehend its meaning.	ESSENTIAL QUESTION(S) How is a dance understood?
DA: Re8.1.5	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Interpret meaning in a dance based on its movements. Explain how the movements communicate the main idea of the dance using basic **dance terminology**.	
	ENDURING UNDERSTANDING Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	ESSENTIAL QUESTION(S) How is dance interpreted? 970
DA: Re9.1.5	**Apply criteria to evaluate artistic work.**	CRITIQUE
	a. Define the characteristics of dance that make a dance artistic and meaningful. Relate them to the **elements of dance** in **genres**, **styles**, or **cultural movement practices**. Use basic **dance terminology** to describe characteristics that make a dance artistic and meaningful.	
	ENDURING UNDERSTANDING Criteria for evaluating dance vary across genres, styles, and cultures.	ESSENTIAL QUESTION(S) What criteria are used to evaluate dance?

5

CONNECTING

DA: Cn10.1.5	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Compare two dances with contrasting themes. Discuss feelings and ideas evoked by each. Describe how the themes and movements relate to points of view and experiences. b. Choose a topic, concept, or content from another discipline of study and research how other art forms have expressed the topic. Create a **dance study** that expresses the idea. Explain how the **dance study** expressed the idea and discuss how this learning process is similar to, or different from, other learning situations.	
	ENDURING UNDERSTANDING As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	ESSENTIAL QUESTION(S) How does dance deepen our understanding of ourselves, other knowledge, and events around us?
DA: Cn11.1.5	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Describe how the **movement characteristics** and qualities of a dance in a specific **genre** or **style** communicate the ideas and perspectives of the culture, historical period, or community from which the genre or style originated.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

971

CREATING

DA: Cr1.1.6	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Relate similar or contrasting ideas to develop choreography using a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events). b. Explore various **movement vocabularies** to transfer ideas into choreography.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.6	**Organize and develop artistic ideas and work.**	PLAN
	a. Explore **choreographic devices** and **dance structures** to develop a dance study that supports an **artistic intent**. Explain the goal or purpose of the dance. b. Determine **artistic criteria** to choreograph a dance study that communicates personal or cultural meaning. Based on the criteria, evaluate why some movements are more or less effective than others.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.6	**Refine and complete artistic work.**	REVISE
	a. Revise dance compositions using collaboratively developed **artistic criteria**. Explain reasons for revisions and how choices made relate to **artistic intent**. b. Explore or invent a system to record a dance sequence through writing, symbols, or a form of media technology.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

6

PERFORMING

DA: Pr4.1.6 **Select, analyze, and interpret artistic work for presentation.** EXPRESS

a. Refine partner and ensemble skills in the ability to judge distance and **spatial design**. Establish diverse pathways, levels, and patterns in **space**. Maintain focus with partner or group in near and far space.
b. Use combinations of sudden and sustained timing as it relates to both the time and the **dynamics** of a phrase or **dance work**. Accurately use accented and unaccented beats in 3/4 and 4/4 meter.
c. Use the internal body force created by varying tensions within one's musculature for movement initiation and dynamic expression. Distinguish between **bound** and **free-flowing** movements and appropriately apply them to technique exercises and dance phrases.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.6 **Develop and refine artistic technique and work for presentation.** EMBODY

a. **Embody technical dance skills** (for example, **alignment**, coordination, balance, core support, **kinesthetic awareness**, clarity of movement) to accurately execute changes of direction, levels, facings, pathways, elevations and landings, extensions of limbs, and movement transitions.
b. Apply basic anatomical knowledge, proprioceptive feedback, spatial awareness, and nutrition to promote safe and healthful strategies when warming up and dancing.
c. Collaborate as an ensemble to refine dances by identifying what works and does not work in executing complex patterns, sequences, and formations. Solve movement problems to dances by testing options and finding good results. Document self-improvements over time.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

DA: Pr6.1.6 **Convey meaning through the presentation of artistic work.** PRESENT

a. Recognize needs and adapt movements to performance area. Use **performance etiquette** and **performance practices** during class, rehearsal and performance. Post-performance, accept notes from choreographer and make corrections as needed and apply to future performances.
b. Compare and contrast a variety of possible **production elements** that would intensify and heighten the **artistic intent** of the work. Select choices and explain reasons for the decisions made using **production terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.6	**Perceive and analyze artistic work.**	ANALYZE
	a. Describe or demonstrate recurring patterns of movement and their relationships in dance. b. Explain how the **elements of dance** are used in a variety of dance **genres**, **styles**, or **cultural movement practices**. Use genre-specific **dance terminology**.	
	ENDURING UNDERSTANDING Dance is perceived and analyzed to comprehend its meaning.	ESSENTIAL QUESTION(S) How is a dance understood?
DA: Re8.1.6	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Explain how the **artistic expression** of a dance is achieved through the **elements of dance**, use of body, **dance technique**, **dance structure**, and context. Explain how these communicate the intent of the dance using genre specific **dance terminology**.	
	ENDURING UNDERSTANDING Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	ESSENTIAL QUESTION(S) How is dance interpreted?
DA: Re9.1.6	**Apply criteria to evaluate artistic work.**	CRITIQUE
	a. Discuss the characteristics and **artistic intent** of a dance from a **genre**, **style**, or **cultural movement practice** and develop **artistic criteria** to critique the dance using genre-specific **dance terminology**.	
	ENDURING UNDERSTANDING Criteria for evaluating dance vary across genres, styles, and cultures.	ESSENTIAL QUESTION(S) What criteria are used to evaluate dance?

974

CONNECTING

DA: Cn10.1.6	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Observe the **movement characteristics** or qualities observed in a specific dance **genre**. Describe differences and similarities about what was observed to one's attitudes and movement preferences. b. Conduct research using a variety of resources to find information about a social issue of great interest. Use the information to create a **dance study** that expresses a specific point of view on the topic. Discuss whether the experience of creating and sharing the dance reinforces personal views or offers new knowledge and perspectives.	
	ENDURING UNDERSTANDING As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	ESSENTIAL QUESTION(S) How does dance deepen our understanding of ourselves, other knowledge, and events around us?
DA: Cn11.1.6	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE
	a. Interpret and show how the movement and qualities of a dance communicate its cultural, historical, and/or community purpose or meaning.	
	ENDURING UNDERSTANDING Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	ESSENTIAL QUESTION(S) How does knowing about societal, cultural, historical and community experiences expand dance literacy?

975

CREATING

DA: Cr1.1.7	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Compare a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events) and make selections to expand **movement vocabulary** and **artistic expression**. b. Explore various **movement vocabularies** to express an **artistic intent** in choreography. Explain and discuss the choices made using genre-specific **dance terminology**.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.7	**Organize and develop artistic ideas and work.**	PLAN
	a. Use a variety of **choreographic devices** and **dance structures** to develop a **dance study** with a clear **artistic intent**. Articulate reasons for movement and structural choices. b. Determine **artistic criteria** to choreograph a **dance study** that communicates personal or cultural meaning. Articulate how the **artistic criteria** serve to communicate the meaning of the dance.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.7	**Refine and complete artistic work.**	REVISE
	a. Evaluate possible revisions of dance compositions and, if necessary, consider revisions of **artistic criteria** based on self-reflection and feedback of others. Explain reasons for choices and how they clarify **artistic intent**. b. Investigate a recognized system to document a dance sequence by using words, symbols, or media technologies.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

976

PERFORMING

DA: Pr4.1.7	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Expand movement vocabulary of floor and air pattern designs. Incorporate and modify body designs from different dance **genres** and **styles** for the purpose of expanding **movement vocabulary** to include differently designed shapes and movements for interest and contrast.
b. Vary durational approach in dance phrasing by using timing accents and variations within a phrase to add interest kinesthetically, rhythmically, and visually.
c. Compare and contrast movement characteristics from a variety of dance **genres** or **styles**. Discuss specific characteristics and use adverbs and adjectives to describe them. Determine what dancers must do to perform them clearly.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.7	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. Apply body-use strategies to accommodate physical maturational development to **technical dance skills** (for example, **functional alignment**, coordination, balance, core support, **kinesthetic awareness**, clarity of movement, weight shifts, flexibility/range of motion). 977
b. Utilize healthful practices and sound nutrition in dance activities and everyday life. Discuss benefits of practices and how choices enhance performance.
c. Collaborate with peers to practice and refine dances. Develop group performance expectations through observation and analyses (for example, view live or recorded professional dancers and collaboratively develop group performance expectations based on information gained from observations).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

PERFORMING

DA: Pr6.1.7

Convey meaning through the presentation of artistic work. PRESENT

a. Recommend changes to and adapt movements to performance area. Use **performance etiquette** and **performance practices** during class, rehearsal and performance. Maintain journal documenting these efforts. Post-performance, accept notes from choreographer and apply corrections to future performances.
b. Explore possibilities of producing dance in a variety of venues or for different audiences and, using **production terminology**, explain how the **production elements** would be handled in different situations.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.7

Perceive and analyze artistic work. ANALYZE

a. Compare, contrast, and discuss patterns of movement and their relationships in dance.
b. Compare and contrast how the **elements of dance** are used in a variety of **genres**, **styles**, or **cultural movement practices**. Use genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

978

DA: Re8.1.7

Interpret intent and meaning in artistic work. INTERPRET

a. Compare the meaning of different dances. Explain how the **artistic expression** of each dance is achieved through the **elements of dance**, use of body, **dance technique**, and context. Use genre specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

DA: Re9.1.7

Apply criteria to evaluate artistic work. CRITIQUE

a. Compare **artistic intent**, content and context from dances to examine the characteristics of **genre**, **style**, or **cultural movement practice**. Based on the comparison, refine **artistic criteria** using genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

CONNECTING 7

DA: Cn10.1.7	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE

a. Compare and contrast the **movement characteristics** or qualities found in a variety of dance **genres**. Discuss how the **movement characteristics** or qualities differ from one's own **movement characteristics** or qualities and how different perspectives are communicated.
b. Research the historical development of a dance **genre** or **style**. Use knowledge gained from the research to create a **dance study** that evokes the essence of the **style** or **genre**. Share the study with peers as part of a lecture demonstration that tells the story of the historical journey of the chosen **genre** or **style**. Document the process of research and application.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

DA: Cn11.1.7	**Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.**	RELATE

a. Compare, contrast, and discuss dances performed by people in various localities or communities. Formulate possible reasons why similarities and differences developed in relation to the ideas and perspectives important to each social group.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	How does knowing about societal, cultural, historical and community experiences expand dance literacy?

CREATING

DA: Cr1.1.8	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Implement movement from a variety of stimuli (for example, music, observed dance, literary forms, notation, natural phenomena, personal experience/recall, current news or social events) to develop dance content for an original **dance study** or dance. b. Identify and select personal preferences to create an original **dance study** or dance. Use genre-specific **dance terminology** to articulate and justify choices made in movement development to communicate intent.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.8	**Organize and develop artistic ideas and work.**	PLAN
	a. Collaborate to select and apply a variety of **choreographic devices** and **dance structures** to choreograph an original **dance study** or dance with a clear **artistic intent**. Articulate the group process for making movement and structural choices. b. Define and apply **artistic criteria** to choreograph a dance that communicates personal or cultural meaning. Discuss how the criteria clarify or intensify the meaning of the dance. 980	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.8	**Refine and complete artistic work.**	REVISE
	a. Revise choreography collaboratively or independently based on **artistic criteria**, self-reflection, and the feedback of others. Articulate the reasons for choices and revisions and explain how they clarify and enhance the **artistic intent**. b. Experiment with aspects of a recognized system to document a section of a dance by using words, symbols, or media technologies.	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

PERFORMING

DA: Pr4.1.8	**Select, analyze, and interpret artistic work for presentation.**	EXPRESS

a. Sculpt the body in space and design body shapes in relation to other dancers, objects, and environment. Use focus of eyes during complex floor and air patterns or direct and indirect pathways.
b. Analyze and select metric, kinetic, and breath phrasing and apply appropriately to dance phrases. Perform dance phrases of different lengths that use various timings within the same section. Use different **tempi** in different body parts at the same time.
c. Direct **energy** and **dynamics** in such a way that movement is textured. Incorporate **energy** and **dynamics** to technique exercises and dance performance. Use **energy** and **dynamics** to enhance and project movements.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.8	**Develop and refine artistic technique and work for presentation.**	EMBODY

a. **Embody technical dance skills** (for example, **functional alignment**, coordination, balance, core support, clarity of movement, weight shifts, flexibility/range of motion) to replicate, recall, and execute spatial designs and musical or rhythmical dance phrases.
b. Evaluate personal healthful practices in dance activities and everyday life including nutrition and injury prevention. Discuss choices made, the effects experienced, and methods for improvement.
c. Collaborate with peers to discover strategies for achieving performance accuracy, clarity, and expressiveness. Articulate personal performance goals and practice to reach goals. Document personal improvement over time (for example, journaling, portfolio, or timeline).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

PERFORMING

DA: Pr6.1.8 — **Convey meaning through the presentation of artistic work.** — PRESENT

a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Use **performance etiquette** and **performance practices** during class, rehearsal and performance. Document efforts and create a plan for ongoing improvements. Post-performance, accept notes from choreographer and apply corrections to future performances.

b. Collaborate to design and execute **production elements** that would intensify and heighten the **artistic intent** of a dance performed on a stage, in a different venue, or for different audiences. Explain reasons for choices using **production terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.8 — **Perceive and analyze artistic work.** — ANALYZE

a. Describe, demonstrate and discuss patterns of movement and their relationships in dance in context of **artistic intent**.

b. Explain how the **elements of dance** are used in a variety of **genres**, **styles**, or **cultural movement practices** to communicate intent. Use genre-specific **dance terminology**.

982

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.8 — **Interpret intent and meaning in artistic work.** — INTERPRET

a. Select a dance and explain how **artistic expression** is achieved through relationships among the **elements of dance**, use of body, **dance technique** and context. Cite evidence in the dance to support your interpretation using genre specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

RESPONDING

DA: Re9.1.8 **Apply criteria to evaluate artistic work.** CRITIQUE

a. Use **artistic criteria** to determine what makes an effective performance. Consider content, context, **genre**, **style**, or **cultural movement practice** to comprehend **artistic expression**. Use genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

CONNECTING

DA: Cn10.1.8 **Synthesize and relate knowledge and personal experiences to make art.** SYNTHESIZE

a. Relate connections found between different dances and discuss the relevance of the connections to the development of one's personal perspectives.
b. Investigate two contrasting topics using a variety of research methods. Identify and organize ideas to create representative movement phrases. Create a **dance study** exploring the contrasting ideas. Discuss how the research informed the choreographic process and deepens understanding of the topics.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

983

DA: Cn11.1.8 **Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.** RELATE

a. Analyze and discuss, how dances from a variety of cultures, societies, historical periods, or communities reveal the ideas and perspectives of the people.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)

DA: Re9.1.I
HS PROFICIENT

Apply criteria to evaluate artistic work. CRITIQUE

a. Analyze the **artistic expression** of a dance. Discuss insights using **evaluative criteria** and **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

DA: Cn10.1.I
HS PROFICIENT

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE

a. Analyze a dance to determine the ideas expressed by the choreographer. Explain how the perspectives expressed by the choreographer may impact one's own interpretation. Provide evidence to support one's analysis.
b. Collaboratively identify a dance related question or problem. Conduct research through interview, research database, text, media, or movement. Analyze and apply information gathered by creating a group dance that answers the question posed. Discuss how the dance communicates new perspectives or realizations. Compare orally and in writing the process used in choreography to that of other creative, academic, or scientific procedures.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

988

DA: Cn11.1.I
HS PROFICIENT

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding. RELATE

a. Analyze and discuss dances from selected **genres** or **styles** and/or historical time periods, and formulate reasons for the similarities and differences between them in relation to the ideas and perspectives of the peoples from which the dances originate.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	How does knowing about societal, cultural, historical and community experiences expand dance literacy?

CREATING

DA: Cr1.1.II
HS ACCOMPLISHED

Generate and conceptualize artistic ideas and work. EXPLORE

a. Synthesize content generated from stimulus materials to choreograph **dance studies** or dances using original or **codified movement**.
b. Apply personal movement preferences and strengths with the **movement vocabulary** of several dance **styles** or **genres** to choreograph an original **dance study** or dance that communicates an **artistic intent**. Compare personal choices to those made by well-known choreographers.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	Where do choreographers get ideas for dances?

DA: Cr2.1.II
HS ACCOMPLISHED

Organize and develop artistic ideas and work. PLAN

a. Work individually and collaboratively to design and implement a variety of **choreographic devices** and **dance structures** to develop original dances. Analyze how the structure and final composition informs the **artistic intent**.
b. Develop an **artistic statement** that reflects a personal **aesthetic** for an original dance study or dance. Select and demonstrate movements that support the **artistic statement**.

989

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	What influences choice-making in creating choreography?

DA: Cr3.1.II
HS ACCOMPLISHED

Refine and complete artistic work. REVISE

a. Clarify the **artistic intent** of a dance by refining **choreographic devices** and **dance structures**, collaboratively or independently using established **artistic criteria**, self-reflection and the feedback of others. Analyze and evaluate impact of choices made in the revision process.
b. Develop a strategy to record a dance using recognized systems of dance documentation (for example, writing, a form of notation symbols, or using media technologies).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

PERFORMING

DA: Pr4.1.II
HS ACCOMPLISHED

Select, analyze, and interpret artistic work for presentation. EXPRESS

a. Dance alone and with others with spatial intention. Expand partner and ensemble skills to greater ranges and skill level. Execute complex floor and air sequences with others while maintaining relationships through focus and intentionality.
b. Perform **dance studies** and compositions that use **time** and **tempo** in unpredictable ways. Use internal rhythms and kinetics as phrasing tools. Dance "in the moment."
c. Initiate movement phrases by applying **energy** and **dynamics**. Vary **energy** and **dynamics** over the length of a phrase and transition smoothly out of the phrase and into the next phrase, paying close attention to its movement initiation and energy.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.II
HS ACCOMPLISHED

Develop and refine artistic technique and work for presentation. EMBODY

a. Dance with sensibility toward other dancers while executing complex spatial, rhythmic and dynamic sequences to meet performance goals.
b. Apply **anatomical principles** and healthful practices to a range of **technical dance skills** for achieving fluency of movement. Follow a personal nutrition plan that supports health for everyday life.
c. Plan and execute collaborative and independent practice and rehearsal processes with attention to technique and artistry informed by personal performance goals. Reflect on personal achievements.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

HS ACCOMPLISHED

PERFORMING

DA: Pr6.1.II
HS ACCOMPLISHED

Convey meaning through the presentation of artistic work. PRESENT

a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Model **performance etiquette** and **performance practices** during class, rehearsal and performance. Implement performance strategies to enhance projection. Post-performance, accept notes from choreographer and apply corrections to future performances. Document the rehearsal and performance process and evaluate methods and strategies using **dance terminology** and **production terminology**.

b. Work collaboratively to produce a dance concert on a stage or in an **alternative performance venue** and plan the **production elements** that would be necessary to fulfill the **artistic intent** of the dance works.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.II
HS ACCOMPLISHED

Perceive and analyze artistic work. ANALYZE

a. Analyze dance works and provide examples of recurring patterns of movement and their relationships that create structure and meaning in dance.

b. Analyze and compare the movement patterns and their relationships in a variety of **genres**, **styles**, or **cultural movement practices** and explain how their differences impact communication and intent within a cultural context. Use genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.II
HS ACCOMPLISHED

Interpret intent and meaning in artistic work. INTERPRET

a. Analyze and discuss how the **elements of dance**, execution of **dance movement principles**, and context contribute to **artistic expression**. Use genre specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

RESPONDING

DA: Re9.1.II
HS ACCOMPLISHED

Apply criteria to evaluate artistic work. CRITIQUE

a. Compare and contrast two or more dances using **evaluative criteria** to critique **artistic expression**. Consider societal values and a range of perspectives. Use genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

DA: Cn10.1.II
HS ACCOMPLISHED

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE

a. Analyze a dance that is related to content learned in other subjects and research its context. Synthesize information learned and share new ideas about its impact on one's perspective.
b. Use established research methods and techniques to investigate a topic. Collaborate with others to identify questions and solve **movement problems** that pertain to the topic. Create and perform a piece of choreography. Discuss orally or in writing the insights relating to knowledge gained through the research process, the synergy of collaboration, and the transfer of learning from this project to other learning situations. 992

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

DA: Cn11.1.II
HS ACCOMPLISHED

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding. RELATE

a. Analyze dances from several **genres** or **styles**, historical time periods, and/or world dance forms. Discuss how dance **movement characteristics**, techniques, and **artistic criteria** relate to the ideas and perspectives of the peoples from which the dances originate.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	How does knowing about societal, cultural, historical and community experiences expand dance literacy?

HS ADVANCED

CREATING

DA: Cr1.1.III HS ADVANCED	**Generate and conceptualize artistic ideas and work.**	EXPLORE
	a. Synthesize content generated from stimulus material. Experiment and take risks to discover a personal voice to communicate **artistic intent**. b. Expand personal movement preferences and strengths to discover unexpected solutions that communicate the **artistic intent** of an original dance. Analyze the unexpected solutions and explain why they were effective in expanding artistic intent.	
	ENDURING UNDERSTANDING Choreographers use a variety of sources as inspiration and transform concepts and ideas into movement for **artistic expression**.	ESSENTIAL QUESTION(S) Where do choreographers get ideas for dances?
DA: Cr2.1.III HS ADVANCED	**Organize and develop artistic ideas and work.**	PLAN
	a. Demonstrate fluency and personal voice in designing and choreographing original dances. Justify choreographic choices and explain how they are used to intensify **artistic intent**. b. Construct an **artistic statement** that communicates a personal, cultural and artistic perspective.	
	ENDURING UNDERSTANDING The **elements of dance**, **dance structures**, and **choreographic devices** serve as both a foundation and a departure point for choreographers.	ESSENTIAL QUESTION(S) What influences choice-making in creating choreography?
DA: Cr3.1.III HS ADVANCED	**Refine and complete artistic work.**	REVISE
	a. Clarify the **artistic intent** of a dance by manipulating and refining **choreographic devices**, **dance structures**, and **artistic criteria** using self-reflection and feedback from others. Document choices made in the revision process and justify how the refinements support **artistic intent**. b. Document a dance using recognized systems of dance documentation (for example, writing, a form of notation symbols, or using media technologies).	
	ENDURING UNDERSTANDING Choreographers analyze, evaluate, refine, and document their work to communicate meaning.	ESSENTIAL QUESTION(S) How do choreographers use self-reflection, feedback from others, and documentation to improve the quality of their work?

HS ADVANCED

PERFORMING

DA: Pr4.1.III
HS ADVANCED

Select, analyze, and interpret artistic work for presentation. EXPRESS

a. Modulate and use the broadest range of movement in space for artistic and expressive clarity. Use inward and outward focus to clarify movement and intent. Establish and break relationships with other dancers and audience as appropriate to the dance.
b. Modulate time factors for artistic interest and expressive acuity. Demonstrate time complexity in phrasing with and without musical accompaniment. Use multiple and complex rhythms (for example, **contrapuntal** and/or **polyrhythmic**) at the same time. Work with and against rhythm of accompaniment or **sound environments**.
c. Modulate **dynamics** to clearly express intent while performing **dance phrases** and choreography. Perform movement sequences expressively using a broad dynamic range and employ dynamic skills for establishing relationships with other dancers and projecting to the audience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Space, **time**, and **energy** are basic elements of dance.	How do dancers work with **space**, **time** and **energy** to communicate artistic expression?

DA: Pr5.1.III
HS ADVANCED

Develop and refine artistic technique and work for presentation. EMBODY

a. Apply **body-mind principles** to **technical dance skills** in complex choreography when performing solo, partnering, or dancing in ensemble works in a variety of dance **genres** and **styles**. Self-evaluate performances and discuss and analyze performance ability with others.
b. Research healthful and safe practices for dancers and modify personal practice based on findings. Discuss how research informs practice.
c. Initiate, plan, and direct rehearsals with attention to technical details and fulfilling artistic expression. Use a range of rehearsal strategies to achieve performance excellence.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dancers use the mind-body connection and develop the body as an instrument for artistry and artistic expression.	What must a dancer do to prepare the mind and body for artistic expression?

HS ADVANCED

PERFORMING

DA: Pr6.1.III
HS ADVANCED

Convey meaning through the presentation of artistic work. PRESENT

a. Demonstrate leadership qualities (for example commitment, dependability, responsibility, and cooperation) when preparing for performances. Model **performance etiquette** and **performance practices** during class, rehearsal and performance. Enhance performance using a broad repertoire of strategies for dynamic projection. Develop a professional portfolio (resume, head shot, etc.) that documents the rehearsal and performance process with fluency in professional **dance terminology** and **production terminology**.

b. Work collaboratively to produce dance concerts in a variety of venues and design and organize the **production elements** that would be necessary to fulfill the **artistic intent** of the dance works in each of the venues.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance performance is an interaction between performer, production elements, and audience that heightens and amplifies artistic expression.	How does a dancer heighten artistry in a public performance?

RESPONDING

DA: Re7.1.III
HS ADVANCED

Perceive and analyze artistic work. ANALYZE

a. Analyze dance works from a variety of dance **genres** and **styles** and explain how recurring patterns of movement and their relationships create well-structured and meaningful choreography. 995

b. Explain how dance communicates **aesthetic** and cultural values in a variety of **genres**, **styles**, or **cultural movement practices**. Use genre-specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is perceived and analyzed to comprehend its meaning.	How is a dance understood?

DA: Re8.1.III
HS ADVANCED

Interpret intent and meaning in artistic work. INTERPRET

a. Analyze and interpret how the **elements of dance**, execution of **dance movement principles**, and context contribute to **artistic expression** across different **genres**, **styles**, or **cultural movement practices**. Use genre specific **dance terminology**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance is interpreted by considering intent, meaning, and **artistic expression** as communicated through the use of the body, **elements of dance**, **dance technique**, **dance structure**, and context.	How is dance interpreted?

RESPONDING

DA: Re9.1.III
HS ADVANCED

Apply criteria to evaluate artistic work. CRITIQUE

a. Define personal artistic preferences to critique dance. Consider societal and personal values, and a range of **artistic expression**. Discuss perspectives with peers and justify views.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Criteria for evaluating dance vary across genres, styles, and cultures.	What criteria are used to evaluate dance?

DA: Cn10.1.III
HS ADVANCED

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE

a. Review original choreography developed over time with respect to its content and context and its relationship to personal perspectives. Reflect on and analyze the variables that contributed to changes in one's personal growth.
b. Investigate various dance related careers through a variety of research methods and techniques. Select those careers of most interest. Develop and implement a **Capstone Project** that reflects a possible career choice.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
As dance is experienced, all personal experiences, knowledge, and contexts are integrated and synthesized to interpret meaning.	How does dance deepen our understanding of ourselves, other knowledge, and events around us?

DA: Cn11.1.III
HS ADVANCED

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding. RELATE

a. Analyze dances from several **genres** or **styles**, historical time periods, and/or world dance forms. Discuss how dance **movement characteristics**, techniques, and **artistic criteria** relate to the ideas and perspectives of the peoples from which the dances originate, and how the analysis has expanded one's dance literacy.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Dance literacy includes deep knowledge and perspectives about societal, cultural, historical, and community contexts.	How does knowing about societal, cultural, historical and community experiences expand dance literacy?

GLOSSARY

AESTHETIC
A set of principles concerned with the nature and appreciation of beauty.

ALIGNMENT
The process of adjusting the skeletal and muscular system to gravity to support effective functionality.

ALTERNATIVE PERFORMANCE VENUE
A performance site other than a standard Western style theater (for example, classroom, site specific venue, or natural environment).

ANATOMICAL PRINCIPLES
The way the human body's skeletal, muscular and vascular systems work separately and in coordination.

ARTISTIC CRITERIA
Aspects of craft and skill used to fulfill artistic intent.

ARTISTIC EXPRESSION
The manifestations of artistic intent though dance, drama music, poetry, fiction, painting, sculpture or other artistic media. In dance, this involves the dance and the dancers within a context.

ARTISTIC STATEMENT
An artist's verbal or written introduction of their work from their own perspective to convey the deeper meaning or purpose.

BODY PATTERNING
Neuromuscular patterns (for example, core-distal, head-tail, homologous [upper-lower], homo-lateral [same-side], cross-lateral [crossing the body midline]).

BODY-MIND PRINCIPLES
Concepts explored and/or employed to support body-mind connections (for example, breath, awareness of the environment, grounding, movement initiation, use of imagery, intention, inner-outer, stability-mobility).

BODY-USE
The ways in which movement patterns and body parts are used in movement and dance practice; descriptive method of identifying patterns.

BOUND MOVEMENT
An "effort element" from Laban Movement Analysis in which energy flow is constricted.

CAPSTONE PROJECT
A culminating performance-based assessment that determines what 12th graders should know and be able to do in various educational disciplines; usually based on research and the development of a major product or project that is an extension of the research.

CHOREOGRAPHIC DEVICES
Manipulation of dance movement, sequences or phrases (repetition, inversion, accumulation, cannon, retrograde, call and response).

CODIFIED MOVEMENT
Common motion or motions set in a particular style that often have specific names and expectations associated with it.

CONTEXT CLUES
Information obtained from the dance that helps one understand or comprehend meaning and intent from a movement, group of movements, or a dance as a whole; requires seeing.

CONTRAPUNTAL
An adjective that describes the noun counterpoint; music that has at least two melodic lines (voices) played simultaneously against each other; in dance, at least two movement patterns, sequences or phrases danced simultaneously using different body parts or performed by different dancers.

CULTURAL MOVEMENT PRACTICE
Physical movements of a dance that are associated with a particular country, community, or people.

DANCE LITERACY
The total experience of dance learning that includes the doing and knowing about dance: dance skills and techniques, dance making, knowledge and understanding of dance vocabulary, dance history, dance from different cultures, dance genres, repertory, performers and choreographers, dance companies, and dance notation and preservation.

DANCE MOVEMENT PRINCIPLES
Fundamentals related to the craft and skill with which dance movement is performed (for example, the use of dynamic alignment, breath support, core support, rotation, initiation and sequencing, and weight shift).

DANCE PHRASE
A brief sequence of related movements that have a sense of continuity and artistic or rhythmic completion.

DANCE STRUCTURES
The organization of choreography and movement to fulfill the artistic intent of a dance or dance study (for example, AB, ABA or theme and variation); often referred to as choreographic form.

DANCE STUDY
A short dance that is comprised of several dance phrases based on an artistic idea.

DANCE TECHNIQUES
The tools and skills needed to produce a particular style of movement.

DANCE TERMINOLOGY
Vocabulary used to describe dance and dance experiences.

SIMPLE DANCE TERMINOLOGY
(Tier 1/PreK-2): Basic pedestrian language (for example, locomotor words walk, run, tip-toe, slither, roll, crawl, jump, march, and gallop; and non-locomotor words, bend, twist, turn, open and close).

BASIC DANCE TERMINOLOGY
(Tier 2/grades 3-5): Vocabulary used to describe dance movement techniques, structures, works, and experiences that are widely shared in the field of dance (for example, stage terminology, compositional vocabulary, language defining dance structures and devices, anatomical references, dance techniques such as alignment or "line").

GENRE-SPECIFIC DANCE TERMINOLOGY
(Tier 3/grades 6 up): Words used to describe movement within specific dance forms ballet, contemporary, culturally-specific dance, funk, hip-hop, jazz, modern, tap, and others (for example, in Polynesian dance (Hula), auwana, kahiko, halau, kaholo, uwehe, ami); in ballet: glissade, pas de bouree, pas de chat, arabesque; in jazz: kick ball change, pencil turn, jazz walk, jazz run; in modern: contraction, triplets, spiral, pivot turn; and in tap: shuffle-step, cramp roll, riff, wing, time step.

DANCE WORK
A complete dance that has a beginning, middle (development), and end.

DYNAMICS
The qualities or characteristics of movement which lend expression and style; also called "efforts," or "energy (for example, lyrical, sustained, quick, light, or strong).

ELEMENTS OF DANCE
The key components of movement; movement of the body using space, time, and energy; often referred to as the elements of movement; see Elements of Dance Organizer by Perpich Center for Arts Education (used with permission).

EMBODY
To physicalize a movement, concept, or idea throughout the body.

ENERGY
The dynamic quality, force attach, weight, and flow of movement.

EVALUATIVE CRITERIA
The definition of values and characteristics with which dance can be assessed; factors to be considered to attain an aesthetically satisfying dance composition or performance.

EXPLORE
Investigate multiple movement possibilities to learn more about an idea.

FREE FLOWING MOVEMENT
An "effort element" from Laban Movement Analysis in which energy is continuous.

FUNCTIONAL ALIGNMENT
The organization of the skeleton and musculature in a relationship to gravity that supports safe and efficient movement while dancing.

GENERAL SPACE
Spatial orientation that is not focused towards one area of a studio or stage.

GENRE
A category of dance characterized by similarities in form, style, purpose, or subject matter (for example, ballet, hip hop, modern, ballroom, cultural practices).

KINESTHETIC AWARENESS
Pertaining to sensations and understanding of bodily movement.

LOCOMOTOR
Movement that travels from one location to another or in a pathway through space (for example, in Pre-Kindergarten, walk, run, tip-toe, slither, roll, crawl, jump, march, gallop; in Kindergarten, the addition of prance, hop, skip, slide, leap).

MOVEMENT CHARACTERISTICS
The qualities, elements, or dynamics that describe or define a movement.

MOVEMENT PHRASE
A brief sequence of related movements that have a sense of continuity and artistic or rhythmic completion.

MOVEMENT PROBLEM
A specific focus that requires one find a solution and complete a task; gives direction and exploration in composition.

MOVEMENT VOCABULARY
Codified or personal movement characteristics that define a movement style.

NEGATIVE SPACE
The area (space) around and between the dancer(s) or dance images(s) in a dance.

NON-LOCOMOTOR
Movement that remains in place; movement that does not travel from one location to another or in a pathway through space for example, in Pre-Kindergarten, bend, twist, turn, open, close; in Kindergarten, swing, sway, spin, reach, pull).

PERFORMANCE ETIQUETTE
Performance values and expected behaviors when rehearsing or performing (for instance, no talking while the dance is in progress, no chewing gum, neat and appropriate appearance, dancers do not call out to audience members who are friends).

PERSONAL SPACE
The area of space directly surrounding one's body extending as far as a person can reach; also called the kinesphere.

POLYRHYTHMIC
In music, several rhythms layered on top of one another and played simultaneously; in dance, embodying several rhythms simultaneously in different body parts.

PRODUCTION ELEMENTS
Aspects of performance that produce theatrical effects (for example, costumes, make up, sound, lighting, props).

PRODUCTION TERMINOLOGY
Words commonly used to refer to the stage, performance setting, or theatrical aspects of dance presentation.

RHYTHM
The patterning or structuring of time through movement or sound.

SEE.THINK.WONDER
An inquiry-based Visual Thinking Strategy (VTS) used for critical analysis from Harvard Project Zero, in which children respond to simple questions (What do you see? What do you think? What do you wonder?) which enable a child to begin make meaning from an observed (dance) work of art.

SOUND ENVIRONMENT
Sound accompaniment for dancing other than music (for example, street noise, ocean surf, bird calls, spoken word).

SPACE
Components of dance involving direction, pathways, facings, levels, shapes, and design; the location where a dance takes place; the element of dance referring to the cubic area of a room, on a stage, or in other environments.

SPATIAL DESIGN
Pre-determined use of directions, levels, pathways, formations, and body shapes.

STIMULI
A thing or event that inspires action, feeling, or thought.

STYLE
Dance that has specific movement characteristics, qualities, or principles that give it distinctive identity (for example, Graham technique is a style of Modern Dance; rhythm tap is a style of Percussive Dance; Macedonian folk dance is a style of International Folk dance; Congolese dance is a style of African Dance).

TECHNICAL DANCE SKILLS
The degree of physical proficiency a dancer achieves within a dance style or technique (for example, coordination, form, strength, speed and range).

TEMPI
Different paces or speeds of music, or underlying beats or pulses, used in a dance work or composition (singular: tempo).

TEMPO
The pace or speed of a pulse or beat underlying music or movement (plural: tempi or tempos).

THEME
A dance idea that is stated choreographically.

PURPOSE OF THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

Mission of Arts Education

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

Arts Integration

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

Artistic Literacy

Artistic Literacy is the knowledge and understanding required to participate authentically in the arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an arts form. Students should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

Overview of the Arts Learning Standards

The overview and primary purpose of the 2017 Mississippi College- and Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for grades Pre-Kindergarten-12th arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.
This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

Benefits of the Arts in Education

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist's sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

THE ARTS AS MEANS TO WELLBEING	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

THE ARTS AS COMMUNITY ENGAGEMENT	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

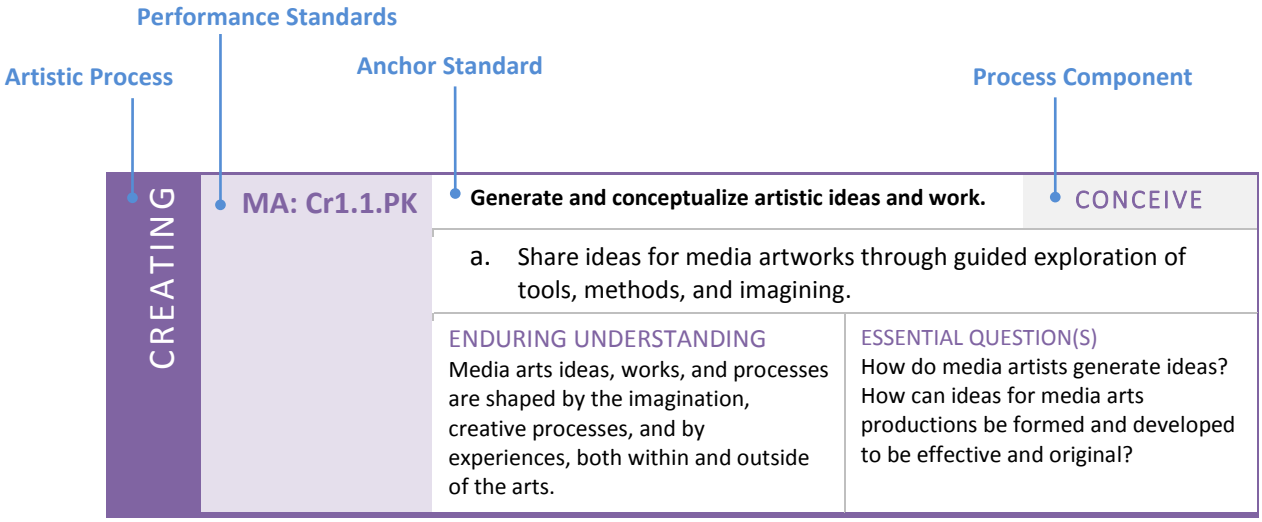
UNDERSTANDING THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades Pre-Kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts.

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

Mississippi College- and Career-Readiness Arts Learning Standards			
ARTISTIC PROCESSES			
Cr— CREATING	**Pr**— PERFORMING/ PRESENTING/ PRODUCING	**Re**— RESPONDING	**Cn**— CONNECTING
DEFINITION	DEFINITION	DEFINITION	DEFINITION
Conceiving and developing new artistic ideas and work.	**PERFORMING** (dance, music, theatre)**:** Realizing artistic ideas and work through interpretation and presentation. **PRESENTING** (visual arts): Interpreting and sharing artistic work. **PRODUCING** (media arts): Realizing and presenting artistic ideas and work.	Understanding and evaluating how the arts convey meaning.	Relating artistic ideas and work with personal meaning and external context.
ANCHOR STANDARDS			
STUDENTS WILL	STUDENTS WILL	STUDENTS WILL	STUDENTS WILL
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	4. Select, analyze, and interpret artistic work for presentation. 5. Develop and refine artistic techniques and work for presentation. 6. Convey meaning through the presentation of artistic work.	7. Perceive and analyze artistic work. 8. Interpret intent and meaning in artistic work. 9. Apply criteria to evaluate artistic work.	10. Synthesize and relate knowledge and personal experiences to make art. 11. Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.



Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8th grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**
  Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.
- **HS - Accomplished**
  Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.
- **HS - Advanced**
  Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

Anchor Standard

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the Arts and demonstrate the knowledge and understandings that all the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an "a" or "b" listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

Process Component

Each artistic process branches into Process Components**.** Process Components are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

Enduring Understandings

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student's ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

Essential Questions

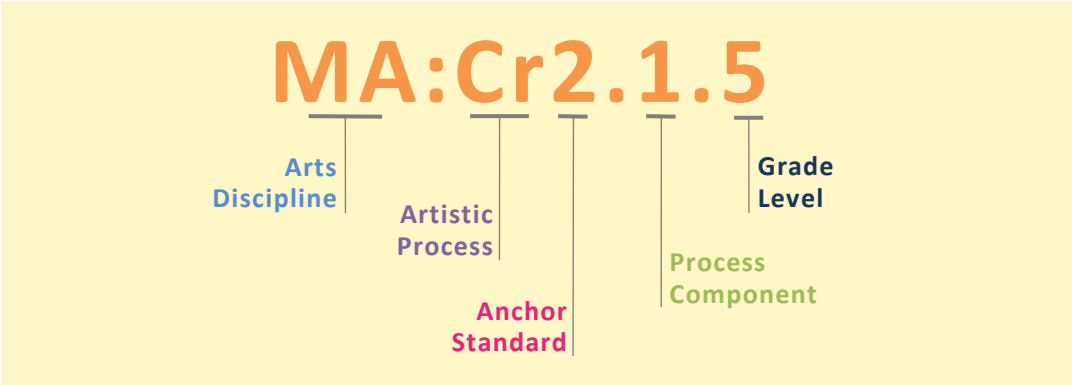
Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

Introduction to the Arts Learning Standards for Media Arts

Mississippi College- and Career-Readiness Arts Learning Standards for Media Arts are intended to address the diverse forms and categories of media arts, including: imaging, sound, moving image, virtual and interactive. Media arts standards do not dictate what or how to teach, but define age-appropriate outcomes for students, towards the achievement of enduring understandings and artistic literacy. They are therefore quite generalized, not specifying particular technologies or techniques, and containing very few examples of terminology and activities. The standards allow for a great diversity of instruction, methodology and circumstance. They are adaptive to the wide range of conditions that exist currently nationwide. The standards are normally presented in a linear, sequential format, which does provide a representation of the creative production process. But the standards are designed for access in a non-linear manner as well, whereby one can address any particular process, process component, or standard on an as needed basis. For example, lessons and units can easily begin within connecting by considering a given context, move next into responding to analyze particular examples of media arts, and then into creating to begin production. Also, the standards represent portions of holistic creative process, and may be addressed in rapid-fire succession, as one is creating work. Therefore, a brainstorming session that is contained within creating is also constantly accessing responding and even connecting. One well-structured class, lesson or unit can address many, if not all standards. These standards offer flexibility in lesson planning instruction and assessment. For example, process components may be selected as a primary organizational tool for some teachers. Enduring understandings and essential questions are written at one grade-level, and are to be adapted by the instructor to their specific grade-level. It is advisable to view standards at lower and higher grade levels in order to view a progression of proficiency. Nevertheless, it is assumed that students may have little or no formal media arts instruction at a particular grade level. Based on best practice, collaboration is assumed throughout the media arts standards.

GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.



Arts Discipline — The first two letters are codes for the arts discipline notation: **MA** = for Media Arts

Artistic Process — The next two letters after the colon are the artistic process:

Cr = Creating **Pr** = Producing **Re** = Responding **Cn** = Connecting

Anchor Standard — The next number is the anchor standard, numbers 1 to 11.

Process Component — The next number after the period is the process components which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

Grade Level — The next number is the grade level. (Pre-Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Media Arts:

MA:Cr1.1.PK				
MA	**Cr**	**1**	**1**	**PK**
Arts discipline of Media Arts	Artistic process of Creating	Anchor standard one	Process component	Pre-Kindergarten

MA:Pr5.1.4				
MA	**Pr**	**5**	**1**	**4**
Arts discipline of Media Arts	Artistic process of Producing	Anchor standard five	Process component	Grade four

MA:Re8.1.6				
MA	**Re**	**8**	**1**	**6**
Arts discipline of Media Arts	Artistic process of Responding	Anchor standard eight	Process component	Grade six

MA:Cn10.1.II				
MA	**Cn**	**10**	**1**	**II**
Arts discipline of Media Arts	Artistic process of Connecting	Anchor standard ten	Process component	Roman numeral II is the high school level accomplished

Pre-Kindergarten

8th Grade

[MEDIA ARTS]

1017

CREATING

MA: Cr1.1.PK

Generate and conceptualize artistic ideas and work. — CONCEIVE

a. Share ideas for media artworks through guided exploration of tools, methods, and imagining.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?

MA: Cr2.1.PK

Organize and develop artistic ideas and work. — DEVELOP

a. With guidance, form ideas into plans or models for media arts productions.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	How do media artists organize and develop ideas and models into process structures to achieve the desired end product?

MA: Cr3.1.PK

Refine and complete artistic work. — CONSTRUCT

a. Make and capture media arts content, freely and in guided practice, in media arts productions.
b. Attempt and share expressive effects, freely and in guided practice, in creating media artworks.

1018

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.PK

Select, analyze, and interpret artistic work for presentation. — INTEGRATE

a. With guidance, combine different forms and content, such as image and sound, to form media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists integrate various forms and contents to develop complex, unified artworks.	How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.PK

Develop and refine artistic techniques and work for presentation. — PRACTICE

a. Use identified skills, such as manipulating tools, making choices, and sharing in creating media artworks.
b. Use identified creative skills, such as imagining freely and in guided practice, within media arts productions.
c. Use media arts creation tools freely and in guided practice.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.PK

Convey meaning through the presentation of artistic work. — PRESENT

a. With guidance, share roles and discuss the situation for presenting media artworks.
b. With guidance, share reactions to the presentation of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? ~~How~~ 1019 can presenting or sharing media artworks in a public format help a media artist learn and grow?

RESPONDING

MA: Re7.1.PK

Perceive and analyze artistic work. — PERCEIVE

a. With guidance, explore and discuss **components** and **messages** in a variety of media artworks.
b. With guidance, explore media artworks and discuss experiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

MA: Re8.1.PK

Interpret intent and meaning in artistic work. — INTERPRET

a. With guidance, share reactions to media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

RESPONDING

MA: Re9.1.PK

Apply criteria to evaluate artistic work.

EVALUATE

a. With guidance, examine and share appealing qualities in media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.PK

Synthesize and relate knowledge and personal experiences to make art.

SYNTHESIZE

a. Use personal experiences in making media artworks.
b. With guidance, share experiences of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

1020

MA: Cn11.1.PK

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.

RELATE

a. With guidance, relate media artworks and everyday life.
b. With guidance, interact safely and appropriately with media arts tools and environments.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

CREATING

MA: Cr1.1.K

Generate and conceptualize artistic ideas and work. — CONCEIVE

a. Discover and share ideas for media artworks using play and experimentation.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?

MA: Cr2.1.K

Organize and develop artistic ideas and work. — DEVELOP

a. With guidance, use ideas to form plans or models for media arts productions.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	How do media artists organize and develop ideas and models into process structures to achieve the desired end product?

MA: Cr3.1.K

Refine and complete artistic work. — CONSTRUCT

a. Form and capture media arts content for expression and meaning in media arts productions.
b. Make changes to the content, form, or presentation of media artworks and share results.

1021

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.K

Select, analyze, and interpret artistic work for presentation. — INTEGRATE

a. With guidance, combine arts forms and media content, such as dance and video, to form media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists integrate various forms and contents to develop complex, unified artworks.	How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.K

Develop and refine artistic techniques and work for presentation. — PRACTICE

a. Identify and demonstrate basic skills, such as handling tools, making choices, and cooperating in creating media artworks.
b. Identify and demonstrate creative skills, such as performing, within media arts productions.
c. Practice, discover, and share how media arts creation tools work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.K

Convey meaning through the presentation of artistic work. — PRESENT

a. With guidance, identify and share roles and the situation in presenting media artworks.
b. With guidance, identify and share reactions to the presentation of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1022

RESPONDING

MA: Re7.1.K

Perceive and analyze artistic work. — PERCEIVE

a. Recognize and share **components** and **messages** in media artworks.
b. Recognize and share how a variety of media artworks create different experiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.K — Interpret intent and meaning in artistic work. — INTERPRET

a. With guidance, share observations regarding a variety of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.K — Apply criteria to evaluate artistic work. — EVALUATE

a. Share appealing qualities and possible changes in media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.K — Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Use personal experiences and choices in making media artworks.
b. Share memorable experiences of media artworks.

1023

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

MA: Cn11.1.K — Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. With guidance, share ideas in relating media artworks and everyday life, such as daily activities.
b. With guidance, interact safely and appropriately with media arts tools and environments.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

CREATING

MA: Cr1.1.1	**Generate and conceptualize artistic ideas and work.**	CONCEIVE
	a. Express and share ideas for media artworks through sketching and **modeling**.	
	ENDURING UNDERSTANDING Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	ESSENTIAL QUESTION(S) How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?
MA: Cr2.1.1	**Organize and develop artistic ideas and work.**	DEVELOP
	a. With guidance, use identified ideas to form plans and models for media arts productions.	
	ENDURING UNDERSTANDING Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	ESSENTIAL QUESTION(S) How do media artists organize and develop ideas and models into process structures to achieve the desired end product?
MA: Cr3.1.1	**Refine and complete artistic work.**	CONSTRUCT
	a. Create, capture, and assemble media arts content for media arts productions, identifying basic principles, such as pattern and repetition. b. Practice and identify the effects of making changes to the content, form, or presentation, in order to refine and finish media artworks.	
	ENDURING UNDERSTANDING The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	ESSENTIAL QUESTION(S) What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

1024

PRODUCING

MA: Pr4.1.1	**Select, analyze, and interpret artistic work for presentation.**	INTEGRATE
	a. Combine varied academic, arts, and media content in media artworks, such as an illustrated story.	
	ENDURING UNDERSTANDING Media artists integrate various forms and contents to develop complex, unified artworks.	ESSENTIAL QUESTION(S) How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.1

Develop and refine artistic techniques and work for presentation. — PRACTICE

a. Describe and demonstrate various artistic skills and roles, such as technical steps, planning, and collaborating in media arts productions.
b. Describe and demonstrate basic creative skills within media arts productions, such as varying techniques.
c. Experiment with and share different ways to use tools and techniques to construct media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.1

Convey meaning through the presentation of artistic work. — PRESENT

a. With guidance, discuss presentation conditions and perform a task in presenting media artworks.
b. With guidance, discuss the experience of the presentation of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1025

RESPONDING

MA: Re7.1.1

Perceive and analyze artistic work. — PERCEIVE

a. Identify **components** and **messages** in media artworks.
b. With guidance, identify how a variety of media artworks create different experiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.1 — Interpret intent and meaning in artistic work. — INTERPRET

a. With guidance, identify the **meanings** of a variety of media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.1 — Apply criteria to evaluate artistic work. — EVALUATE

a. Identify the effective parts of and possible changes to media artworks, considering viewers.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.1 — Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Use personal experiences, interests, and models in creating media artworks.
b. Share meaningful experiences of media artworks.

1026

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

MA: Cn11.1.1 — Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Discuss and describe media artworks in everyday life, such as popular media, and connections with family and friends.
b. Interact appropriately with media arts tools and environments, considering **safety**, **rules**, and **fairness**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

CREATING

MA: Cr1.1.2	**Generate and conceptualize artistic ideas and work.**	CONCEIVE
	a. Discover multiple ideas for media artworks through brainstorming and improvising.	
	ENDURING UNDERSTANDING Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	ESSENTIAL QUESTION(S) How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?
MA: Cr2.1.2	**Organize and develop artistic ideas and work.**	DEVELOP
	a. Choose ideas to create plans and models for media arts productions.	
	ENDURING UNDERSTANDING Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	ESSENTIAL QUESTION(S) How do media artists organize and develop ideas and models into process structures to achieve the desired end product?
MA: Cr3.1.2	**Refine and complete artistic work.**	CONSTRUCT
	a. Construct and assemble content for unified media arts productions, identifying and applying basic principles, such as **positioning** and **attention**. b. Test and describe expressive effects in altering, refining, and completing media artworks.	1027
	ENDURING UNDERSTANDING The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	ESSENTIAL QUESTION(S) What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.2	**Select, analyze, and interpret artistic work for presentation.**	INTEGRATE
	a. Practice combining varied academic, arts, and media content into unified media artworks, such as a narrated science animation.	
	ENDURING UNDERSTANDING Media artists integrate various forms and contents to develop complex, unified artworks.	ESSENTIAL QUESTION(S) How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.2 — Develop and refine artistic techniques and work for presentation. — PRACTICE

a. Enact roles to demonstrate basic ability in various identified artistic, design, technical, and **soft skills**, such as tool use and collaboration in media arts productions.
b. Demonstrate use of experimentation skills, such as playful practice, and trial and error, within and through media arts productions.
c. Demonstrate and explore identified methods to use tools to capture and form media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.2 — Convey meaning through the presentation of artistic work. — PRESENT

a. Identify and describe presentation conditions and perform task(s) in presenting media artworks.
b. Identify and describe the experience and share results of presenting media artworks.

1028

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

RESPONDING

MA: Re7.1.2 — Perceive and analyze artistic work. — PERCEIVE

a. Identify and describe the **components** and **messages** in media artworks.
b. Identify and describe how a variety of media artworks create different experiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.2

Interpret intent and meaning in artistic work. — INTERPRET

a. Determine the purposes and **meanings** of media artworks, considering their **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.2

Apply criteria to evaluate artistic work. — EVALUATE

a. Discuss the effectiveness of and improvements for media artworks, considering their **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.2

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Use personal experiences, interests, information, and models in creating media artworks.
b. Discuss experiences of media artworks, describing their meaning and purpose.

1029

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

MA: Cn11.1.2

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Discuss how media artworks and ideas relate to everyday and cultural life, such as **media messages** and **media environments**.
b. Interact appropriately with media arts tools and environments, considering **safety**, **rules**, and **fairness**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

CREATING

MA: Cr1.1.3 — Generate and conceptualize artistic ideas and work. — CONCEIVE

a. Develop multiple ideas for media artworks using a variety of tools, methods and/or materials.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?

MA: Cr2.1.3 — Organize and develop artistic ideas and work. — DEVELOP

a. Form, share, and test ideas, plans, and models to prepare for media arts productions.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	How do media artists organize and develop ideas and models into process structures to achieve the desired end product?

MA: Cr3.1.3 — Refine and complete artistic work. — CONSTRUCT

a. Construct and order various content into unified, purposeful media arts productions, describing and applying a defined set of principles, such as **movement** and **force**.
b. Practice and analyze how the emphasis of elements alters effect and purpose in refining and completing media artworks.

1030

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.3 — Select, analyze, and interpret artistic work for presentation. — INTEGRATE

a. Practice combining varied academic, arts, and media forms and content into unified media artworks, such as animation, music, and dance.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists integrate various forms and contents to develop complex, unified artworks.	How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.3

Develop and refine artistic techniques and work for presentation. PRACTICE

a. Exhibit developing ability in a variety of artistic, design, technical, and organizational roles, such as making compositional decisions, manipulating tools, and group planning in media arts productions.
b. Exhibit basic creative skills to invent new content and solutions within and through media arts productions.
c. Exhibit standard use of tools and techniques while constructing media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.3

Convey meaning through the presentation of artistic work. PRESENT

a. Identify and describe the presentation conditions, and take on roles and processes in presenting or distributing media artworks.
b. Identify and describe the experience, and share results of and improvements for presenting media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1031

RESPONDING

MA: Re7.1.3

Perceive and analyze artistic work. PERCEIVE

a. Identify and describe how **messages** are created by **components** in media artworks.
b. Identify and describe how various forms, methods, and styles in media artworks **manage audience experience**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.3

Interpret intent and meaning in artistic work. — INTERPRET

a. Determine the purposes and **meanings** of media artworks while describing their **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.3

Apply criteria to evaluate artistic work. — EVALUATE

a. Identify basic criteria for and evaluate media artworks, considering possible improvements and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.3

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Use personal and external resources, such as interests, information, and models, to create media artworks.
b. Identify and show how media artworks form meanings, situations, and/or culture, such as popular media.

1032

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

MA: Cn11.1.3

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Identify how media artworks and ideas relate to everyday and cultural life and can influence values and online behavior.
b. Examine and interact appropriately with media arts tools and environments, considering **safety**, **rules**, and **fairness**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

CREATING

MA: Cr1.1.4 — Generate and conceptualize artistic ideas and work. — CONCEIVE

a. Conceive of original artistic goals for media artworks using a variety of creative methods, such as brainstorming and **modeling**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?

MA: Cr2.1.4 — Organize and develop artistic ideas and work. — DEVELOP

a. Discuss, test, and assemble ideas, plans, and models for media arts productions, considering the artistic goals and the presentation.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	How do media artists organize and develop ideas and models into process structures to achieve the desired end product?

MA: Cr3.1.4 — Refine and complete artistic work. — CONSTRUCT 1033

a. Structure and arrange various content and components to convey purpose and meaning in different media arts productions, applying sets of associated principles, such as **balance** and **contrast**.
b. Demonstrate intentional effect in refining media artworks, emphasizing elements for a purpose.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.4 — Select, analyze, and interpret artistic work for presentation. — INTEGRATE

a. Demonstrate how a variety of academic, arts, and media forms and content may be mixed and coordinated into media artworks, such as narrative, dance, and media.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists integrate various forms and contents to develop complex, unified artworks.	How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.4

Develop and refine artistic techniques and work for presentation. PRACTICE

a. Enact identified roles to practice foundational artistic, design, technical, and **soft skills**, such as formal technique, equipment usage, production, and collaboration in media arts productions.
b. Practice foundational innovative abilities, such as **design thinking**, in addressing problems within and through media arts productions.
c. Demonstrate use of tools and techniques in standard and novel ways while constructing media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.4

Convey meaning through the presentation of artistic work. PRESENT

a. Explain the presentation conditions, and fulfill a role and processes in presenting or distributing media artworks.
b. Explain results of and improvements for presenting media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1034

RESPONDING

MA: Re7.1.4

Perceive and analyze artistic work. PERCEIVE

a. Identify, describe, and explain how **messages** are created by **components** in media artworks.
b. Identify, describe, and explain how various forms, methods, and styles in media artworks **manage audience experience**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.4

Interpret intent and meaning in artistic work. INTERPRET

a. Determine and explain reactions and interpretations to a variety of media artworks, considering their purpose and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.4

Apply criteria to evaluate artistic work. EVALUATE

a. Identify and apply basic criteria for evaluating and improving media artworks and **production processes**, considering **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.4

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE 1035

a. Examine and use personal and external resources, such as interests, research, and cultural understanding, to create media artworks.
b. Examine and show how media artworks form meanings, situations, and/or cultural experiences, such as online spaces.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

CONNECTING

MA: Cn11.1.4	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE

a. Explain verbally and/or in media artworks, how media artworks and ideas relate to everyday and cultural life, such as fantasy and reality, and technology use.
b. Examine and interact appropriately with media arts tools and environments, considering **ethics**, **rules**, and **fairness**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

1036

CREATING

MA: Cr1.1.5 — Generate and conceptualize artistic ideas and work. — CONCEIVE

a. Envision original ideas and innovations for media artworks using personal experiences and/or the work of others.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?

MA: Cr2.1.5 — Organize and develop artistic ideas and work. — DEVELOP

a. Develop, present, and test ideas, plans, models, and proposals for media arts productions, considering the artistic goals and audience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	How do media artists organize and develop ideas and models into process structures to achieve the desired end product?

MA: Cr3.1.5 — Refine and complete artistic work. — CONSTRUCT

a. Create content and combine components to convey expression, purpose, and meaning in a variety of media arts productions, utilizing sets of associated principles, such as **emphasis** and **exaggeration**.
b. Determine how elements and components can be altered for clear communication and intentional effects, and refine media artworks to improve clarity and purpose.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

1037

PRODUCING

MA: Pr4.1.5 — Select, analyze, and interpret artistic work for presentation. — INTEGRATE

a. Create media artworks through the integration of multiple contents and forms, such as a media broadcast.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists integrate various forms and contents to develop complex, unified artworks.	How are complex media arts experiences constructed?

PRODUCING

MA: Pr5.1.5 — Develop and refine artistic techniques and work for presentation. — PRACTICE

a. Enact various roles to practice fundamental ability in artistic, design, technical, and **soft skills**, such as formal technique, production, and collaboration in media arts productions.
b. Practice fundamental creative and innovative abilities, such as expanding **conventions**, in addressing problems within and through media arts productions.
c. Examine how tools and techniques could be used in standard and experimental ways in constructing media artworks.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?

MA: Pr6.1.5 — Convey meaning through the presentation of artistic work. — PRESENT

a. Compare qualities and purposes of presentation formats, and fulfill a role and associated processes in presentation and/or distribution of media artworks.
b. Compare results of and improvements for presenting media artworks.

1038

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artists purposefully present, share, and distribute media artworks for various contexts.	How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

RESPONDING

MA: Re7.1.5 — Perceive and analyze artistic work. — PERCEIVE

a. Identify, describe, and differentiate how **message** and meaning are created by **components** in media artworks.
b. Identify, describe, and differentiate how various forms, methods, and styles in media artworks **manage audience experience**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

RESPONDING

MA: Re8.1.5

Interpret intent and meaning in artistic work. INTERPRET

a. Determine and compare personal and group interpretations of a variety of media artworks, considering their intention and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.5

Apply criteria to evaluate artistic work. EVALUATE

a. Determine and apply criteria for evaluating media artworks and **production processes**, considering **context**, and practicing constructive feedback.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

CONNECTING

MA: Cn10.1.5

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE 1039

a. Access and use internal and external resources to create media artworks, such as interests, knowledge, and experiences.
b. Examine and show how media artworks form meanings, situations, and cultural experiences, such as news and cultural events.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

CONNECTING	MA: Cn11.1.5	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
		a. Research and show how media artworks and ideas relate to personal, social and community life, such as exploring commercial and information purposes, history, and **ethics**. b. Examine, discuss and interact appropriately with media arts tools and environments, considering **ethics**, **rules**, and **media literacy**.	
		ENDURING UNDERSTANDING Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	ESSENTIAL QUESTION(S) How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

1040

CREATING

MA: Cr1.1.6	**Generate and conceptualize artistic ideas and work.**	CONCEIVE
	a. Formulate variations of goals and solutions for media artworks by practicing chosen creative processes, such as sketching, improvising and brainstorming.	
	ENDURING UNDERSTANDING Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	ESSENTIAL QUESTION(S) How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?
MA: Cr2.1.6	**Organize and develop artistic ideas and work.**	DEVELOP
	a. Organize, propose, and evaluate artistic ideas, plans, **prototypes**, and production processes for media arts productions, considering purposeful intent.	
	ENDURING UNDERSTANDING Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	ESSENTIAL QUESTION(S) How do media artists organize and develop ideas and models into process structures to achieve the desired end product?
MA: Cr3.1.6	**Refine and complete artistic work.**	CONSTRUCT
	a. Experiment with multiple approaches to produce content and components for determined purpose and meaning in media arts productions, utilizing a range of associated principles, such as **point of view** and **perspective**. b. Appraise how elements and components can be altered for intentional effects and audience, and refine media artworks to reflect purpose and audience.	
	ENDURING UNDERSTANDING The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks. ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

CONNECTING	MA: Cn11.1.6	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
		a. Research and show how media artworks and ideas relate to personal life, and social, community, and cultural situations, such as personal identity, history, and entertainment. b. Analyze and interact appropriately with media arts tools and environments, considering **fair use** and **copyright**, **ethics**, and **media literacy**.	
		ENDURING UNDERSTANDING Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	ESSENTIAL QUESTION(S) How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

1044

CREATING

MA: Cr1.1.7	**Generate and conceptualize artistic ideas and work.**	CONCEIVE
	a. Produce a variety of ideas and solutions for media artworks through application of chosen inventive processes, such as **concept modeling** and **prototyping**.	
	ENDURING UNDERSTANDING Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	ESSENTIAL QUESTION(S) How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?
MA: Cr2.1.7	**Organize and develop artistic ideas and work.**	DEVELOP
	a. Design, propose, and evaluate artistic ideas, plans, **prototypes**, and production processes for media arts productions, considering expressive intent and resources.	
	ENDURING UNDERSTANDING Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	ESSENTIAL QUESTION(S) How do media artists organize and develop ideas and models into process structures to achieve the desired end product?
MA: Cr3.1.7	**Refine and complete artistic work.**	CONSTRUCT 1045
	a. Coordinate production processes to integrate content and components for determined purpose and meaning in media arts productions, demonstrating understanding of associated principles, such as **narrative structures** and **composition**. b. Improve and refine media artworks by intentionally emphasizing particular expressive elements to reflect an understanding of purpose, audience, or place.	
	ENDURING UNDERSTANDING The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	ESSENTIAL QUESTION(S) What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.7	**Select, analyze, and interpret artistic work for presentation.**	INTEGRATE
	a. Integrate multiple contents and forms into unified media arts productions that convey consistent perspectives and narratives, such as an interactive video game.	
	ENDURING UNDERSTANDING Media artists integrate various forms and contents to develop complex, unified artworks.	ESSENTIAL QUESTION(S) How are complex media arts experiences constructed?
MA: Pr5.1.7	**Develop and refine artistic techniques and work for presentation.**	PRACTICE
	a. Exhibit an increasing set of artistic, design, technical, and **soft skills** through performing various roles in producing media artworks, such as creative problem-solving and organizing. b. Exhibit an increasing set of creative and adaptive innovation abilities, such as exploratory processes, in developing solutions within and through media arts productions. c. Demonstrate adaptability using tools and techniques in standard and experimental ways to achieve an assigned purpose in constructing media artworks.	
	ENDURING UNDERSTANDING Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	ESSENTIAL QUESTION(S) What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?
MA: Pr6.1.7	**Convey meaning through the presentation of artistic work.**	PRESENT
	a. Evaluate various presentation formats in order to fulfill various tasks and defined processes in the presentation and/or distribution of media artworks. b. Evaluate the results of and improvements for presenting media artworks, considering impacts on personal growth.	
	ENDURING UNDERSTANDING Media artists purposefully present, share, and distribute media artworks for various contexts.	ESSENTIAL QUESTION(S) How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1046

RESPONDING

MA: Re7.1.7 — Perceive and analyze artistic work. — PERCEIVE

a. Describe, compare, and analyze the qualities of and relationships between the **components** in media artworks.
b. Describe, compare, and analyze how various forms, methods, and styles in media artworks interact with personal preferences in influencing audience experience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?

MA: Re8.1.7 — Interpret intent and meaning in artistic work. — INTERPRET

a. Analyze the intent and meaning of a variety of media artworks, using self-developed criteria.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	How do people relate to and interpret media artworks?

MA: Re9.1.7 — Apply criteria to evaluate artistic work. — EVALUATE

a. Develop and apply criteria to evaluate various media artworks and **production processes**, considering **context**, and practicing constructive feedback.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

1047

CONNECTING

MA: Cn10.1.7 — Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Access, evaluate and use internal and external resources to inform the creation of media artworks, such as experiences, interests, research, and exemplary works.
b. Explain and show how media artworks form new **meanings** and knowledge, situations, and cultural experiences, such as learning, and new information.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

CONNECTING	MA: Cn11.1.7	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
		a. Research and demonstrate how media artworks and ideas relate to various situations, purposes and values, such as community, vocations, and social media. b. Analyze and responsibly interact with media arts tools and environments, considering **copyright**, **ethics**, **media literacy**, and social media.	
		ENDURING UNDERSTANDING Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	ESSENTIAL QUESTION(S) How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

1048

CREATING

MA: Cr1.1.8	**Generate and conceptualize artistic ideas and work.**	CONCEIVE
	a. Generate ideas, goals, and solutions for original media artworks through application of focused creative processes, such as **divergent thinking** and experimenting.	
	ENDURING UNDERSTANDING Media arts ideas, works, and processes are shaped by the imagination, creative processes, and by experiences, both within and outside of the arts.	ESSENTIAL QUESTION(S) How do media artists generate ideas? How can ideas for media arts productions be formed and developed to be effective and original?
MA: Cr2.1.8	**Organize and develop artistic ideas and work.**	DEVELOP
	a. Structure and critique ideas, plans, **prototypes**, and production processes for media arts productions, considering intent, resources, and the presentation context.	
	ENDURING UNDERSTANDING Media artists plan, organize, and develop creative ideas, plans, and models into process structures that can effectively realize the artistic idea.	ESSENTIAL QUESTION(S) How do media artists organize and develop ideas and models into process structures to achieve the desired end product?
MA: Cr3.1.8	**Refine and complete artistic work.**	CONSTRUCT 1049
	a. Implement **production processes** to integrate content and stylistic conventions for determined meaning in media arts productions, demonstrating understanding of associated principles, such as theme and unity. b. Refine and modify media artworks, improving technical quality and intentionally accentuating selected expressive and stylistic elements, to reflect an understanding of purpose, audience, and place.	
	ENDURING UNDERSTANDING The forming, integration, and refinement of aesthetic components, principles, and processes creates purpose, meaning, and artistic quality in media artworks.	ESSENTIAL QUESTION(S) What is required to produce a media artwork that conveys purpose, meaning, and artistic quality? How do media artists improve/refine their work?

PRODUCING

MA: Pr4.1.8	**Select, analyze, and interpret artistic work for presentation.**	INTEGRATE
	a. Integrate multiple contents and forms into unified media arts productions that convey specific themes or ideas, such as interdisciplinary projects, or **multimedia theatre**.	
	ENDURING UNDERSTANDING Media artists integrate various forms and contents to develop complex, unified artworks.	ESSENTIAL QUESTION(S) How are complex media arts experiences constructed?
MA: Pr5.1.8	**Develop and refine artistic techniques and work for presentation.**	PRACTICE
	a. Demonstrate a defined range of artistic, design, technical, and **soft skills**, through performing specified roles in producing media artworks, such as strategizing and collaborative communication. b. Demonstrate a defined range of creative and adaptive innovation abilities, such as divergent solutions and bending conventions, in developing new solutions for identified problems within and through media arts productions. c. Demonstrate adaptability using tools, techniques and content in standard and experimental ways to communicate intent in the production of media artworks.	
	ENDURING UNDERSTANDING Media artists require a range of skills and abilities to creatively solve problems within and through media arts productions.	ESSENTIAL QUESTION(S) What skills are required for creating effective media artworks and how are they improved? How are creativity and innovation developed within and through media arts productions? How do media artists use various tools and techniques?
MA: Pr6.1.8	**Convey meaning through the presentation of artistic work.**	PRESENT
	a. Design the presentation and distribution of media artworks through multiple formats and/or contexts. b. Evaluate the results of and implement improvements for presenting media artworks, considering impacts on personal growth and external effects.	
	ENDURING UNDERSTANDING Media artists purposefully present, share, and distribute media artworks for various contexts.	ESSENTIAL QUESTION(S) How does time, place, audience, and context affect presenting or performing choices for media artworks? How can presenting or sharing media artworks in a public format help a media artist learn and grow?

1050

RESPONDING

MA: Re7.1.8	**Perceive and analyze artistic work.**	PERCEIVE
	a. Compare, contrast, and analyze the qualities of and relationships between the **components** and style in media artworks. b. Compare, contrast, and analyze how various forms, methods, and styles in media artworks **manage audience experience** and create intention.	
	ENDURING UNDERSTANDING Identifying the qualities and characteristics of media artworks improves one's artistic appreciation and production.	ESSENTIAL QUESTION(S) How do we 'read' media artworks and discern their relational components? How do media artworks function to convey meaning and manage audience experience?
MA: Re8.1.8	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Analyze the intent and meanings of a variety of media artworks, focusing on intentions, forms, and various **contexts**.	
	ENDURING UNDERSTANDING Interpretation and appreciation require consideration of the intent, form, and context of the media and artwork.	ESSENTIAL QUESTION(S) How do people relate to and interpret media artworks?
MA: Re9.1.8	**Apply criteria to evaluate artistic work.**	EVALUATE
	a. Evaluate media art works and **production processes** with developed criteria, considering **context** and artistic goals.	
	ENDURING UNDERSTANDING Skillful evaluation and critique are critical components of experiencing, appreciating, and producing media artworks.	ESSENTIAL QUESTION(S) How and why do media artists value and judge media artworks? When and how should we evaluate and critique media artworks to improve them?

1051

CONNECTING

MA: Cn10.1.8	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Access, evaluate, and use internal and external resources to inform the creation of media artworks, such as cultural and societal knowledge, research, and exemplary works. b. Explain and demonstrate how media artworks expand **meaning** and knowledge, and create cultural experiences, such as local and global events.	
	ENDURING UNDERSTANDING Media artworks synthesize meaning and form cultural experience.	ESSENTIAL QUESTION(S) How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?
MA: Cn11.1.8	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
	a. Demonstrate and explain how media artworks and ideas relate to various **contexts**, purposes, and values, such as democracy, environment, and connecting people and places. b. Analyze and responsibly interact with media arts tools, environments, **legal**, and **technological contexts**, considering **ethics**, **media literacy**, social media, and **virtual worlds**.	1052
	ENDURING UNDERSTANDING Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	ESSENTIAL QUESTION(S) How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

Synthesize and relate knowledge and personal experiences to make art. SYNTHESIZE

a. Independently and proactively access relevant and qualitative resources to inform the creation of cogent media artworks.
b. Demonstrate and expound on the use of media artworks to consummate new **meaning**, knowledge, and impactful cultural experiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks synthesize meaning and form cultural experience.	How do we relate knowledge and experiences to understanding and making media artworks? How do we learn about and create meaning through producing media artworks?

MA: Cn11.1.III
HS ADVANCED

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. RELATE

a. Demonstrate the relationships of media arts ideas and works to personal and global **contexts**, purposes, and values, through relevant and impactful media artworks.
b. Critically investigate and strategically interact with **legal**, **technological**, **systemic**, and **vocational contexts** of media arts.

1065

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Media artworks and ideas are better understood and produced by relating them to their purposes, values, and various contexts.	How does media arts relate to its various contexts, purposes, and values? How does investigating these relationships inform and deepen the media artist's understanding and work?

GLOSSARY

ATTENTION
Principle of directing perception through sensory and conceptual impact.

BALANCE
Principle of the equitable and/or dynamic distribution of items in a media arts composition or structure for aesthetic meaning, as in a visual frame, or within game architecture.

COMPONENTS
The discrete portions and aspects of media artworks, including: elements, principles, processes, parts, assemblies, etc., such as: light, sound, space, time, shot, clip, scene, sequence, movie, narrative, lighting, cinematography, interactivity, etc., etc.

COMPOSITION
Principle of arrangement and balancing of components of a work for meaning and Message.

CONSTRAINTS
Limitations on what is possible, both real and perceived.

CONTRAST
Principle of using the difference between items, such as elements, qualities and components, to mutually complement them.

CONTINUITY
The maintenance of uninterrupted flow, continuous action or self-consistent detail. Across the various scenes or components of a media artwork, i.e. game components, branding, movie timeline, series, etc.

CONTEXT
The situation surrounding the creation or experience of media artworks that influences the work, artist or audience. This can include how, where, and when media experiences take place, as well as additional internal and external factors (personal, societal, cultural, historical, physical, virtual, economic, systemic, etc.).

CONVENTION
An established, common, or predictable rule, method, or practice within media arts production, such as the notion of a 'hero' in storytelling.

COPYRIGHT
The exclusive right to make copies, license, and otherwise exploit a produced work.

DIGITAL IDENTITY
How one is presented, perceived and recorded online, including personal and collective information and sites, e-communications, commercial tracking, etc.

DIVERGENT THINKING
Unique, original, uncommon, idiosyncratic ideas; thinking "outside of the box".

DESIGN THINKING
A cognitive methodology that promotes innovative problem solving through the prototyping and testing process commonly used in design.

EMPHASIS
Principle of giving greater compositional strength to a particular element or component in a media artwork.

ETHICS
Moral guidelines and philosophical principles for determining appropriate behavior within media arts environments.

EXAGGERATION
Principle of pushing a media arts element or component into an extreme for provocation, attention, contrast, as seen in character, voice, mood, message, etc.

EXPERIENTIAL DESIGN
Area of media arts wherein interactive, immersive spaces and activities are created for the user; associated with entertainment design.

FAIRNESS
Complying with appropriate, ethical and equitable rules and guidelines.

FAIR USE
Permits limited use of copyrighted material without acquiring permission from the rights holders, including commentary, search engines, criticism, etc.

FORCE
Principle of energy or amplitude within an element, such as the speed and impact of a character's motion.

GENERATIVE METHODS
Various inventive techniques for creating new ideas and models, such as brainstorming, play, open exploration, experimentation, inverting assumptions, rule-bending, etc.

HYBRIDIZATION
Principle of combining two existing media forms to create new and original forms, such as merging theatre and multimedia.

INTERACTIVITY
A diverse range of articulating capabilities between media arts components, such as user, audience, sensory elements, etc., that allow for inputs and outputs of responsive connectivity via sensors, triggers, interfaces, etc., and may be used to obtain data, commands, or information and may relay immediate feedback, or other communications; contains unique sets of aesthetic principles.

JUXTAPOSITION
Placing greatly contrasting items together for effect.

LEGAL
The legislated parameters and protocols of media arts systems, including user agreements, publicity releases, copyright, etc.

MANAGE AUDIENCE EXPERIENCE
The act of designing and forming user sensory episodes through multi-sensory captivation, such as using sequences of moving image and sound to maintain and carry the viewer's attention, or constructing thematic spaces in virtual or experiential design.

MARKETS
The various commercial and informational channels and forums for media artworks, such as T.V., radio, internet, fine arts, non-profit, communications, etc.

MEDIA ARTS CONTEXTS
The diverse locations and circumstances of media arts, including its markets, networks, technologies and vocations.

MEDIA ENVIRONMENTS
Spaces, contexts and situations where media artworks are produced and experienced, such as in theaters, production studios and online.

MEDIA LITERACY
A series of communication competencies, including the ability to access, analyze, evaluate, and communicate information in a variety of forms, including print and non-print messages – National Association for Media Literacy Education.

MEDIA MESSAGES
The various artistic, emotional, expressive, prosaic, commercial, utilitarian and informational communications of media artworks.

MEANING
The formulation of significance and purposefulness in media artworks.

MODELING OR CONCEPT MODELING
Creating a digital or physical representation or sketch of an idea, usually for testing; prototyping.

MOVEMENT
Principle of motion of diverse items within media artworks.

MULTIMODAL PERCEPTION
The coordinated and synchronized integration of multiple sensory systems (vision, touch, auditory, etc.) in media artworks.

MULTIMEDIA THEATRE
The combination of live theatre elements and digital media (sound, projections, video, etc.) into a unified production for a live audience.

NARRATIVE STRUCTURE
The framework for a story, usually consisting of an arc of beginning, conflict and resolution.

PERSONAL AESTHETIC
An individually formed, idiosyncratic style or manner of expressing oneself; an artist's "voice".

PERSPECTIVE
Principle pertaining to the method of three-dimensional rendering, point-of-view, and angle of composition.

POINT OF VIEW
The position from which something or someone is observed; the position of the narrator in relation to the story, as indicated by the narrator's outlook from which the events are depicted and by the attitude toward the characters.

POSITIONING
The principle of placement or arrangement.

PRODUCTION PROCESSES
The diverse processes, procedures, or steps used to carry out the construction of a media artwork, such as prototyping, playtesting, and architecture construction in game design.

PROTOTYPING
Creating a testable version, sketch or model of a media artwork, such as a game, character, website, application, etc.

RESISTING CLOSURE
Delaying completion of an idea, process or production, or persistently extending the process of refinement, towards greater creative solutions or technical perfection.

RESPONSIVE USE OF FAILURE
Incorporating errors towards persistent improvement of an idea, technique, process or product.

RULES
The laws, or guidelines for appropriate behavior; protocols.

SAFETY
Maintaining proper behavior for the welfare of self and others in handling equipment and interacting with media arts environments and groups.

SOFT SKILLS
Diverse organizational and management skills, useful to employment, such as collaboration, planning, adaptability, communication, etc.

STYLISTIC CONVENTION
A common, familiar, or even "formulaic" presentation form, style, technique or construct, such as the use of tension building techniques in a suspense film, for example.

SYSTEMIC COMMUNICATIONS
Socially or technologically organized and higher-order media arts communications such as networked multimedia, television formats and broadcasts, "viral" videos, social multimedia (e.g. "vine" videos), remixes, transmedia, etc.

SYSTEM(S)
The complex and diverse technological structures and contexts for media arts production, funding, distribution, viewing, and archiving.

TECHNOLOGICAL
The mechanical aspects and contexts of media arts production, including hardware, software, networks, code, etc.

TONE
Principle of "color", "texture" or "feel" of a media arts element or component, as for sound, lighting, mood, sequence, etc.

TRANSDISCIPLINARY PRODUCTION
Accessing multiple disciplines during the conception and production processes of media creation, and using new connections or ideas that emerge to inform the work.

TRANSMEDIA PRODUCTION
Communicating a narrative and/or theme over multiple media platforms, while adapting the style and structure of each story component to the unique qualities of the platforms.

VIRTUAL CHANNELS
Network based presentation platforms such as: YouTube, Vimeo, Deviantart, etc.

VIRTUAL WORLDS
Online, digital, or synthetic environments (e.g. Minecraft, Second Life).

VOCATIONAL
The workforce aspects and contexts of media art.

PURPOSE OF THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

Mission of Arts Education

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

Arts Integration

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

Artistic Literacy

Artistic Literacy is the knowledge and understanding required to participate authentically in the Arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages(s) of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Students should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

Overview of the Arts Learning Standards

The primary purpose of the 2017 Mississippi College- and Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for Grades Pre-Kindergarten-12th arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.
This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

Benefits of the Arts in Education

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist's sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS

PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

THE ARTS AS MEANS TO WELLBEING	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

THE ARTS AS COMMUNITY ENGAGEMENT	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

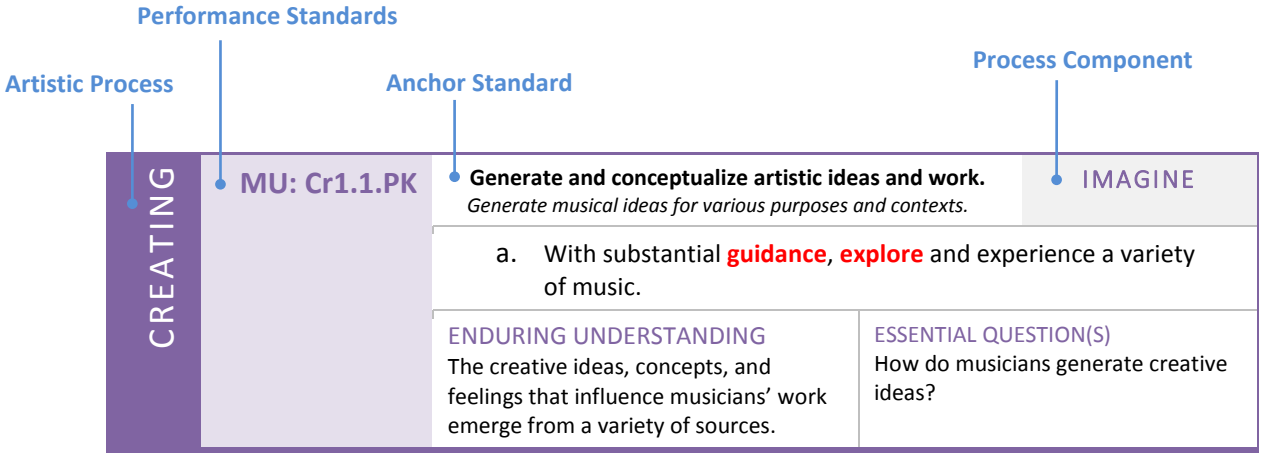
UNDERSTANDING THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades pre-kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts.

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

Mississippi College- and Career-Readiness Arts Learning Standards			
ARTISTIC PROCESSES			
Cr— CREATING	**Pr**— PERFORMING/ PRESENTING/ PRODUCING	**Re**— RESPONDING	**Cn**— CONNECTING
DEFINITION	DEFINITION	DEFINITION	DEFINITION
Conceiving and developing new artistic ideas and work.	**PERFORMING** (dance, music, theatre)**:** Realizing artistic ideas and work through interpretation and presentation. **PRESENTING** (visual arts): Interpreting and sharing artistic work. **PRODUCING** (media arts): Realizing and presenting artistic ideas and work.	Understanding and evaluating how the arts convey meaning.	Relating artistic ideas and work with personal meaning and external context.
ANCHOR STANDARDS			
STUDENTS WILL	STUDENTS WILL	STUDENTS WILL	STUDENTS WILL
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	4. Select, analyze, and interpret artistic work for presentation. 5. Develop and refine artistic techniques and work for presentation. 6. Convey meaning through the presentation of artistic work.	7. Perceive and analyze artistic work. 8. Interpret intent and meaning in artistic work. 9. Apply criteria to evaluate artistic work.	10. Synthesize and relate knowledge and personal experiences to make art. 11. Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.



Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8th grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**
  Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.

- **HS - Accomplished**
  Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.

- **HS - Advanced**
  Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

Anchor Standard

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an "a" or "b" listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

Process Component

Each artistic process branches into Process Components**.** Process Components are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

Enduring Understandings

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student's ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

Essential Questions

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

Introduction to the Arts Learning Standards for Music

The Mississippi College- and Career-Readiness Arts Learning Standards for Music are designed to guide music educators as they help their students achieve the goal of independent music literacy. The structure of the standards organizes outcomes by Artistic Process, thus facilitating sequential instruction while authentically reflecting the way musicians think and work.

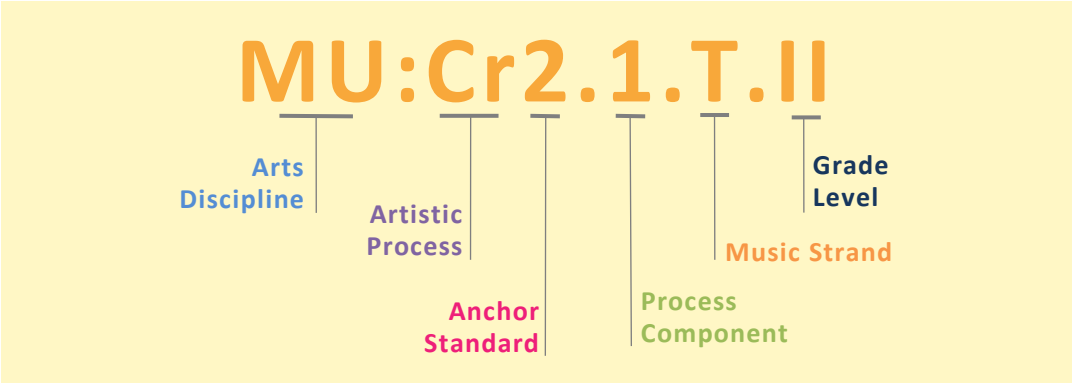
The music standards are organized and presented as follows:

- All music performance standards are grouped under the Artistic Processes of Creating, Performing, or Responding.
- Music connections are an essential part of each Artistic Process. Open-ended Connecting outcomes cross-reference users to Creating, Performing, and Responding performance standards.
- Music performance standards are organized and coded according to the process components or "steps" of the Artistic Processes. The process components for each process are as follows:
    - Creating: Imagine; Plan and Make; Evaluate and Refine, and Present
    - Performing: Select; Analyze; Interpret; Rehearse, Evaluate, and Refine; and Present
    - Responding: Select; Analyze; Interpret; and Evaluate
- Performance standards are provided for each grade level from Pre-Kindergarten through grade eight.
- Four distinct "strands" of high school performance standards are provided, reflecting the increasing variety of music courses offered in American secondary schools.
    - Ensemble, Harmonizing Instrument (guitar, keyboard, etc.), Composition/Theory, and Music Technology performance standards are provided for three levels: Proficient, Accomplished, and Advanced.
    - Many students become involved in Ensemble and Harmonizing Instrument classes before they enter high school. Performance standards for these strands also include two preparatory levels: Novice (nominally assigned to the fifth grade level) and Intermediate (nominally the eighth grade level).
- Similarities across the arts disciplines are highlighted in the eleven Common Anchors, which are shared by all five sets of discipline-specific standards. Each Anchor includes one or more process components.

The standards are based on the assumption of quality resources, including instructional time, spanning Pre-Kindergarten-8th grade and continuing at the high school level.

GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.



Arts Discipline

The first two letters are codes for the arts discipline notation: **MU** = for Music

Artistic Process

The next two letters after the colon are the artistic process:

Cr = Creating **Pr** = Performing **Re** = Responding **Cn** = Connecting

Anchor Standard

The next number is the anchor standard, numbers 1 to 11.

Process Component

The next number after the period is the process component which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

Music Strand

The additional letter after the process component indicates the music strands. The strands are Harmonizing Instruments, Technology, Composition/Theory, and Performing Ensembles.
Note: Pre-Kindergarten through 8th grade music standards do not have the above strands in their notations.

Grade Level

The next number is the grade level. (Pre-Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced).
Note: In some schools, students participate in choral ensembles (Performing Ensembles) or instrumental ensembles (Harmonizing Instruments) prior to 9th grade. In schools where choral or instrumental ensembles are offered, there are two introductory skill levels found in the music standards: Novice and Intermediate.
Novice is the term used to identify standards for students in grades 5-7 who have begun to specialize in a specific type of music performance.
Intermediate is the term that identifies standards for students who continue to specialize in specific skills necessary for participation in Performing Ensembles or Harmonizing Instrument ensembles through 8th grade.

Below are a few examples of how to read the numbering system for Music:

MU:Cr1.1.PK				
MU	**Cr**	**1**	**1**	**PK**
Arts discipline of Music	Artistic process of Creating	Anchor standard one	Process component	Pre-Kindergarten

MU:Pr5.1.4				
MU	**Pr**	**5**	**1**	**4**
Arts discipline of Music	Artistic process of Performing	Anchor standard five	Process component	Grade four

MU:Re8.1.6				
MU	**Re**	**8**	**1**	**6**
Arts discipline of Music	Artistic process of Responding	Anchor standard eight	Process component	Grade six

MU:Cn10.1.H.II				
MU	**Cn**	**10**	**1**	**H.II**
Arts discipline of Music	Artistic process of Connecting	Anchor standard ten	Process component	Harmonizing Instruments and the Roman numeral II is the high school level accomplished

Pre-Kindergarten
THROUGH
8th Grade

CREATING

MU: Cr1.1.PK	**Generate and conceptualize artistic ideas and work.** *Generate musical ideas for various purposes and contexts.*	IMAGINE
	a. With substantial **guidance**, **explore** and experience a variety of music.	
	ENDURING UNDERSTANDING The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	ESSENTIAL QUESTION(S) How do musicians generate creative ideas?
MU: Cr2.1.PK	**Organize and develop artistic ideas and work.** *Select and develop musical ideas for defined purposes and contexts.*	PLAN / MAKE
	a. With substantial **guidance**, **explore** favorite **musical ideas** (such as **movements**, **vocalizations**, or instrumental accompaniments). b. With substantial **guidance**, select and keep track of the order for performing original **musical ideas**, using **iconic notation** and/or recording technology.	
	ENDURING UNDERSTANDING Musicians' creative choices are influenced by their expertise, context, and expressive intent.	ESSENTIAL QUESTION(S) How do musicians make creative decisions?
MU: Cr3.1.PK	**Refine and complete artistic work.** *Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.*	EVALUATE / REFINE
	a. With substantial **guidance**, consider personal, peer, and teacher feedback when **demonstrating** and **refining** personal **musical ideas**.	
	ENDURING UNDERSTANDING Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their creative work?
MU: Cr3.2.PK	**Refine and complete artistic work.** *Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.*	PRESENT
	a. With substantial **guidance**, **share** revised personal **musical ideas** with peers.	
	ENDURING UNDERSTANDING Musicians' presentation of creative work is the culmination of a process of creation and communication.	ESSENTIAL QUESTION(S) When is creative work ready to share?

PK

PERFORMING

MU: Pr4.1.PK

Select, analyze, and interpret artistic work for presentation.
Select varied musical works to present based on interest, knowledge, technical skill, and context.

SELECT

a. With substantial **guidance**, **demonstrate** and state preference for varied musical selections.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.PK

Select, analyze, and interpret artistic work for presentation.
Analyze the structure and context of varied musical works and their implications for performance.

ANALYZE

a. With substantial **guidance**, **explore** and **demonstrate** awareness of musical contrasts.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

MU: Pr4.3.PK

Select, analyze, and interpret artistic work for presentation.
Develop personal interpretations that consider creators' intent.

INTERPRET 1089

a. With substantial **guidance**, **explore** music's **expressive qualities** (such as voice quality, **dynamics**, and **tempo**).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and expressive intent.	How do performers interpret musical works?

MU: Pr5.1.PK

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. With substantial **guidance**, practice and **demonstrate** what they like about their own **performances**.
b. With substantial **guidance**, apply personal, peer, and teacher feedback to **refine performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

PK

MU: Pr6.1.PK	**Convey meaning through the presentation of artistic work.** *Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.*	PRESENT
	a. With substantial **guidance**, **perform** music with **expression**.	
	ENDURING UNDERSTANDING Musicians judge performance based on criteria that vary across time, place, and culture. The context and how a work is presented influence the audience response.	ESSENTIAL QUESTION(S) When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.PK	**Perceive and analyze artistic work.** *Choose music appropriate for a specific purpose or context.*	SELECT
	a. With substantial **guidance**, state personal interests and **demonstrate** why they prefer some music selections over others.	
	ENDURING UNDERSTANDING Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	ESSENTIAL QUESTION(S) How do individuals choose music to experience?
MU: Re7.2.PK	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. With substantial **guidance**, **explore** musical contrasts in music.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.PK	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET
	a. With substantial **guidance**, **explore** music's **expressive qualities** (such as **dynamics** and **tempo**).	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern the musical creators' and performers' expressive intent?

1090

PK

RESPONDING

MU: Re9.1.PK

Apply criteria to evaluate artistic work.
Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. With substantial **guidance**, talk about personal and expressive preferences in music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.PK

Synthesize and relate knowledge and personal experiences to make art.
Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.

Embedded within:
MU:Cr3.2.PKa With substantial **guidance**, **share** revised **musical ideas** with peers.
MU:Pr4.1.PKa With substantial **guidance**, **demonstrate** and state preference for varied musical selections.
MU:Pr4.3.PKa With substantial **guidance**, **explore** music's **expressive qualities** (such as voice quality, **dynamics**, and **tempo**).

1091

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding.	How do musicians make meaningful connections to creating, performing, and responding?

MU: Cn11.0.PK

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Embedded within:
MU:Pr4.2.PKa With substantial **guidance**, **explore** and **demonstrate** awareness of musical contrasts.
MU:Re7.2.PKa With substantial **guidance**, **explore** musical contrasts in music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts, and daily life inform creating, performing, and responding to music?

K

CREATING

MU: Cr1.1.K

Generate and conceptualize artistic ideas and work.
Generate musical ideas for various purposes and contexts.

IMAGINE

a. With **guidance**, **explore** and experience music **concepts** (such as **beat** and **melodic contour**).
b. With **guidance**, generate **musical ideas** (such as **movements** or **motives**).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	How do musicians generate creative ideas?

MU: Cr2.1.K

Organize and develop artistic ideas and work.
Select and develop musical ideas for defined purposes and contexts.

PLAN / MAKE

a. With **guidance**, **demonstrate** and choose favorite **musical ideas**.
b. With **guidance**, organize personal **musical ideas** using **iconic notation** and/or recording technology.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' creative choices are influenced by their expertise, context, and expressive intent.	How do musicians make creative decisions?

MU: Cr3.1.K

Refine and complete artistic work.
Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.

EVALUATE / REFINE

a. With **guidance**, apply personal, peer, and teacher feedback in **refining** personal **musical ideas**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their creative work?

MU: Cr3.2.K

Refine and complete artistic work.
Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

PRESENT

a. With **guidance**, **demonstrate** a final version of personal **musical ideas** to peers.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

1092

K

PERFORMING

MU: Pr4.1.K	**Select, analyze, and interpret artistic work for presentation.** *Select varied musical works to present based on interest, knowledge, technical skill, and context.*	SELECT
	a. With **guidance**, **demonstrate** and state personal interest in varied musical selections.	
	ENDURING UNDERSTANDING Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	ESSENTIAL QUESTION(S) How do performers select repertoire?
MU: Pr4.2.K	**Select, analyze, and interpret artistic work for presentation.** *Analyze the structure and context of varied musical works and their implications for performance.*	ANALYZE
	a. With **guidance**, **explore** and **demonstrate** awareness of music contrasts (such as high/low, loud/soft, same/different) in a variety of music selected for **performance**.	
	ENDURING UNDERSTANDING Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	ESSENTIAL QUESTION(S) How does understanding the structure and context of musical works inform performance?
MU: Pr4.3.K	**Select, analyze, and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET

1093

K

PERFORMING

MU: Pr6.1.K

Convey meaning through the presentation of artistic work.

Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. With **guidance**, **perform** music with **expression**.
b. **Perform** appropriately for the audience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and culture. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.K

Perceive and analyze artistic work.

Choose music appropriate for a specific purpose or context.

SELECT

a. With **guidance**, list personal interests and experiences and **demonstrate** why they prefer some music selections over others.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

1094

MU: Re7.2.K

Perceive and analyze artistic work.

Analyze how the structure and context of varied musical works inform the response.

ANALYZE

a. With **guidance**, **demonstrate** how a specific music **concept** (such as **beat** or **melodic direction**) is used in music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	How does understanding the structure and context of music inform a response?

MU: Re8.1.K

Interpret intent and meaning in artistic work.

Support interpretations of musical works that reflect creators'/performers' expressive intent.

INTERPRET

a. With **guidance**, **demonstrate** awareness of **expressive qualities** (such as **dynamics** and **tempo**) that reflect creators'/performers' **expressive intent**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	How do we discern the musical creators' and performers' expressive intent?

K

RESPONDING

MU: Re9.1.K

Apply criteria to evaluate artistic work.

Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. With **guidance**, apply personal and expressive preferences in the evaluation of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.K

Synthesize and relate knowledge and personal experiences to make art.

Synthesize and relate knowledge and personal experiences to make music.

CONNECT

1095

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding.	How do musicians make meaningful connections to creating, performing, and responding?

MU: Cn11.0.K

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.

Relate musical ideas and works with varied context to deepen understanding.

CONNECT

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Embedded within:

MU:Pr4.2.Ka With **guidance**, **explore** and **demonstrate** awareness of music contrasts (such as high/low, loud/soft, same/different) in a variety of music selected for **performance**.
MU:Re7.2.Ka With **guidance**, **demonstrate** how a specific music **concept** (such as **beat** or **melodic direction**) is used in music.
MU:Re9.1.Ka With **guidance**, apply personal and expressive preferences in the evaluation of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts, and daily life inform creating, performing, and responding to music?

1

CREATING

MU: Cr1.1.1

Generate and conceptualize artistic ideas and work.
Generate musical ideas for various purposes and contexts.

IMAGINE

a. With limited **guidance**, create **musical ideas** (such as answering a musical question) for a specific **purpose**.
b. With limited **guidance**, generate **musical ideas** in multiple **tonalities** (such as **major** and **minor**) and **meters** (such as duple and triple).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	How do musicians generate creative ideas?

MU: Cr2.1.1

Organize and develop artistic ideas and work.
Select and develop musical ideas for defined purposes and contexts.

PLAN / MAKE

a. With limited **guidance**, **demonstrate** and discuss personal reasons for selecting **musical ideas** that represent **expressive intent**.
b. With limited **guidance**, use **iconic** or **standard notation** and/or recording technology to document and organize personal **musical ideas**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' creative choices are influenced by their expertise, context, and expressive intent.	How do musicians make creative decisions? 1096

MU: Cr3.1.1

Refine and complete artistic work.
Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.

EVALUATE / REFINE

a. With limited **guidance**, discuss and apply personal, peer, and teacher feedback to **refine** personal **musical ideas**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their creative work?

MU: Cr3.2.1

Refine and complete artistic work.
Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

PRESENT

a. With limited **guidance**, convey **expressive intent** for a specific **purpose** by **presenting** a final version of personal **musical ideas** to peers or informal audience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

1

PERFORMING

MU: Pr4.1.1	**Select, analyze, and interpret artistic work for presentation.** *Select varied musical works to present based on interest, knowledge, technical skill, and context.*	SELECT

MU: Cr3.2.3	**Refine and complete artistic work.** *Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.*	PRESENT
	a. **Present** the final version of personal created music to others, and describe **connection** to **expressive intent**.	
	ENDURING UNDERSTANDING Musicians' presentation of creative work is the culmination of a process of creation and communication.	ESSENTIAL QUESTION(S) When is creative work ready to share?

1106

PERFORMING

MU: Pr4.1.3	**Select, analyze, and interpret artistic work for presentation.** *Select varied musical works to present based on interest, knowledge, technical skill, and context.*	SELECT
	a. **Demonstrate** and explain how the selection of music to **perform** is influenced by personal interest, knowledge, **purpose**, and **context**.	
	ENDURING UNDERSTANDING Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	ESSENTIAL QUESTION(S) How do performers select repertoire?
MU: Pr4.2.3	**Select, analyze, and interpret artistic work for presentation.** *Analyze the structure and context of varied musical works and their implications for performance.*	ANALYZE
	a. **Demonstrate** understanding of the **structure** in music selected for **performance**. b. When analyzing selected music, read and perform **rhythmic patterns** and melodic **phrases** using **iconic** and **standard notation**. c. Describe how **context** (such as **personal** and **social**) can inform a **performance**.	
	ENDURING UNDERSTANDING Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	ESSENTIAL QUESTION(S) How does understanding the structure and context of musical works inform performance? 1107
MU: Pr4.3.3	**Select, analyze, and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET
	a. **Demonstrate** and describe how **intent** is conveyed through **expressive qualities** (such as **dynamics** and **tempo**).	
	ENDURING UNDERSTANDING Performers make interpretive decisions based on their understanding of context and expressive intent.	ESSENTIAL QUESTION(S) How do performers interpret musical works?

PERFORMING

MU: Pr5.1.3

Develop and refine artistic techniques and work for presentation.

Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. Apply **teacher-provided** and **collaboratively-developed criteria** and feedback to evaluate accuracy of **ensemble performances**.
b. Rehearse to **refine technical accuracy**, **expressive qualities**, and identified performance challenges.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

MU: Pr6.1.3

Convey meaning through the presentation of artistic work.

Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. **Perform** music with **expression** and **technical accuracy**.
b. **Demonstrate performance decorum** and **audience etiquette** appropriate for the **context** and **venue**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and culture. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

1108

RESPONDING

MU: Re7.1.3

Perceive and analyze artistic work.

Choose music appropriate for a specific purpose or context.

SELECT

a. **Demonstrate** and describe how selected music connects to and is influenced by specific interests, experiences, or **purposes**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

RESPONDING

MU: Re7.2.3	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. **Demonstrate** and describe how a response to music can be informed by the **structure**, the use of the **elements of music**, and **context** (such as **personal** and **social**).	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.3	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET
	a. **Demonstrate** and describe how the **expressive qualities** (such as **dynamics** and **tempo**) are used in performers' **interpretations** to reflect **expressive intent**.	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern the musical creators' and performers' expressive intent? 1109
MU: Re9.1.3	**Apply criteria to evaluate artistic work.** *Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.*	EVALUATE
	a. Evaluate **musical works** and **performances**, applying **established criteria**, and describe appropriateness to the **context**. Evaluate **musical works** and **performances**, applying **established criteria**, and describe appropriateness to the **context**.	
	ENDURING UNDERSTANDING The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and established criteria.	ESSENTIAL QUESTION(S) How do we judge the quality of musical work(s) and performance(s)?

3

CONNECTING

MU: Cn10.0.3

Synthesize and relate knowledge and personal experiences to make art.
Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.

Embedded within:
MU:Cr2.1.3a **Demonstrate** selected **musical ideas** for a simple **improvisation** or **composition** to express **intent**, and describe **connection** to a specific **purpose** and **context**.
MU:Cr3.2.3a **Present** the final version of created music for others, and describe **connection** to **expressive intent**.
MU:Pr4.1.3a **Demonstrate** and explain how the selection of music to **perform** is influenced by personal interest, knowledge, **purpose**, and **context**.
MU:Pr4.3.3a **Demonstrate** and describe how **intent** is conveyed through **expressive qualities** (such as **dynamics** and **tempo**).
MU:Re7.1.3a **Demonstrate** and describe how selected music connects to and is influenced by specific interests, experiences, or **purposes**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding.	How do musicians make meaningful connections to creating, performing, and responding?

MU: Cn11.0.3

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT 1110

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Embedded within:
MU:Cr1.1.3a Improvise rhythmic and melodic ideas, and describe **connection** to specific **purpose** and **context** (such as **personal** and **social**).
MU:Pr4.2.3c Describe how **context** (such as **personal** and **social**) can inform a **performance**.
MU:Pr6.1.3b **Demonstrate performance decorum** and **audience etiquette** appropriate for the **context** and **venue**.
MU:Re7.2.3a **Demonstrate** and describe how a response to music can be informed by the **structure**, the use of the **elements of music**, and **context** (such as **personal** and **social**).
MU:Re9.1.3a Evaluate **musical works** and **performances**, applying **established criteria**, and describe appropriateness to the **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts, and daily life inform creating, performing, and responding to music?

4

CREATING

MU: Cr1.1.4	**Generate and conceptualize artistic ideas and work.** *Generate musical ideas for various purposes and contexts.*	IMAGINE
	a. Improvise rhythmic, melodic, and harmonic ideas, and explain **connection** to specific **purpose** and **context** (such as **social** and **cultural**). b. Generate **musical ideas** (such as **rhythms**, **melodies**, and simple accompaniment patterns) within related **tonalities** (such as **major** and **minor**) and **meters**.	
	ENDURING UNDERSTANDING The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	ESSENTIAL QUESTION(S) How do musicians generate creative ideas?
MU: Cr2.1.4	**Organize and develop artistic ideas and work.** *Select and develop musical ideas for defined purposes and contexts.*	PLAN / MAKE
	a. **Demonstrate** selected and organized **musical ideas** for an **improvisation**, **arrangement**, or **composition** to express **intent**, and explain **connection** to **purpose** and **context**. b. Use **standard** and/or **iconic notation** and/or recording technology to document personal rhythmic, melodic, and simple harmonic **musical ideas**.	
	ENDURING UNDERSTANDING Musicians' creative choices are influenced by their expertise, context, and expressive intent.	ESSENTIAL QUESTION(S) How do musicians make creative decisions? 1111
MU: Cr3.1.4	**Refine and complete artistic work.** *Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.*	EVALUATE / REFINE
	a. Evaluate, **refine**, and document revisions to personal music, applying **teacher-provided** and **collaboratively-developed criteria** and feedback to show improvement over time.	
	ENDURING UNDERSTANDING Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their creative work?
MU: Cr3.2.4	**Refine and complete artistic work.** *Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.*	PRESENT

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication	When is creative work ready to share?

PERFORMING

MU: Pr4.1.6

Select, analyze, and interpret artistic work for presentation.

Select varied musical works to present based on interest, knowledge, technical skill, and context.

SELECT

a. Apply **teacher-provided criteria** for selecting music to **perform** for a specific **purpose** and/or **context**, and explain why each was chosen.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	How do performers select repertoire? 1123

MU: Pr4.2.6

Select, analyze, and interpret artistic work for presentation.

Analyze the structure and context of varied musical works and their implications for performance.

ANALYZE

a. Explain how understanding the **structure** and the **elements of music** are used in music selected for **performance**.
b. When analyzing selected music, read and identify by name or function standard symbols for **rhythm**, **pitch**, **articulation**, and **dynamics**.
c. Identify how **cultural** and **historical context** inform **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

PERFORMING

MU: Pr4.3.6 — INTERPRET

Select, analyze, and interpret artistic work for presentation.
Develop personal interpretations that consider creators' intent.

a. **Perform** a selected piece of music demonstrating how their **interpretations** of the **elements of music** and the **expressive qualities** (such as **dynamics**, **tempo**, **timbre**, **articulation**/**style**, and **phrasing**) convey **intent**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and expressive intent.	How do performers interpret musical works?

MU: Pr5.1.6 — REHEARSE / EVALUATE / REFINE

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

a. Identify and apply **teacher-provided criteria** (such as correct interpretation of notation, **technical accuracy**, originality, and interest) to rehearse, **refine**, and determine when a piece is ready to **perform**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

1124

MU: Pr6.1.6 — PRESENT

Convey meaning through the presentation of artistic work.
Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

a. **Perform** the music with **technical accuracy** to convey the **creator's intent**.
b. **Demonstrate performance decorum** (such as stage presence, attire, and behavior) and **audience etiquette** appropriate for **venue** and **purpose**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and culture. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.6	**Perceive and analyze artistic work.** *Choose music appropriate for a specific purpose or context.*	SELECT
	a. Select or choose music to listen to and explain the **connections** to specific interests or experiences for a specific **purpose**.	
	ENDURING UNDERSTANDING Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	ESSENTIAL QUESTION(S) How do individuals choose music to experience?
MU: Re7.2.6	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. Describe how the **elements of music** and **expressive qualities** relate to the **structure** of the pieces. b. Identify the **context** of music from a variety of **genres**, **cultures**, and **historical periods**.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.6	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET 1125
	a. Describe a personal **interpretation** of how creators' and performers' application of the **elements of music** and **expressive qualities**, within **genres** and **cultural** and **historical context**, convey **expressive intent**.	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern the musical creators' and performers' expressive intent?

RESPONDING

MU: Re9.1.6

Apply criteria to evaluate artistic work.

Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. Apply **teacher-provided criteria** to evaluate **musical works** or **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical work(s) and performance(s) is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.6

Synthesize and relate knowledge and personal experiences to make art.

Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.

Embedded within:

MU:Cr2.1.6a Select, organize, construct, and document personal **musical ideas** for **arrangements** and **compositions** within **AB** or **ABA form** that **demonstrate** an effective beginning, middle, and ending, and convey **expressive intent**.

MU:Cr3.2.6a **Present** the final version of their documented personal **composition** or **arrangement**, using **craftsmanship** and originality to demonstrate an effective beginning, middle, and ending, and convey **expressive intent**.

MU:Pr4.1.6a Apply **teacher-provided criteria** for selecting music to **perform** for a specific **purpose** and/or **context** and explain why each was chosen.

MU:Pr4.3.6a **Perform** a selected piece of music demonstrating how their **interpretations** of the **elements of music** and the **expressive qualities** (such as **dynamics**, **tempo**, **timbre**, **articulation**/**style**, and **phrasing**) convey **intent**.

MU:Re7.1.6a Select or choose music to listen to and explain the **connections** to specific interests or experiences for a specific **purpose**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing, and responding.	How do musicians make meaningful connections to creating, performing, and responding?

6

CONNECTING

MU: Cn11.0.6

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Embedded within:
MU:Cr1.1.6a Generate simple rhythmic, melodic, and harmonic **phrases** within **AB** and **ABA forms** that convey **expressive intent**.
MU:Pr4.2.6c Identify how **cultural** and **historical context** inform the **performances**.
MU:Pr6.1.6b **Demonstrate performance decorum** (such as stage presence, attire, and behavior) and **audience etiquette** appropriate for **venue** and **purpose**.
MU:Re7.2.6b Identify the **context** of music from a variety of **genres**, **cultures**, and **historical periods**.
MU:Re9.1.6a Apply **teacher-provided criteria** to evaluate **musical works** or **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts, and daily life inform creating, performing, and responding to music?

1127

CREATING

MU: Cr1.1.7	**Generate and conceptualize artistic ideas and work.** *Generate musical ideas for various purposes and contexts.*	IMAGINE
	a. Generate rhythmic, melodic, and harmonic **phrases** and variations over harmonic accompaniments within **AB**, **ABA**, or **theme and variation forms** that convey **expressive intent**.	
	ENDURING UNDERSTANDING The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	ESSENTIAL QUESTION(S) How do musicians generate creative ideas?
MU: Cr2.1.7	**Organize and develop artistic ideas and work.** *Select and develop musical ideas for defined purposes and contexts.*	PLAN / MAKE
	a. Select, organize, develop and document personal **musical ideas** for **arrangements**, songs, and **compositions** within **AB**, **ABA**, or **theme and variation forms** that **demonstrate unity** and **variety** and convey **expressive intent**. b. Use **standard** and/or **iconic notation** and/or audio/ video recording to document personal simple rhythmic **phrases**, melodic phrases, and **harmonic sequences**.	
	ENDURING UNDERSTANDING Musicians' creative choices are influenced by their expertise, context, and expressive intent.	ESSENTIAL QUESTION(S) How do musicians make creative decisions?
MU: Cr3.1.7	**Refine and complete artistic work.** *Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.*	EVALUATE / REFINE
	a. Evaluate their own work, applying selected **criteria** such as appropriate application of **elements of music** including **style**, **form**, and use of sound sources. b. Describe the rationale for making revisions to the music based on evaluation **criteria** and feedback from others (teacher and peers).	
	ENDURING UNDERSTANDING Musicians evaluate, and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their creative work?

1128

CREATING

MU: Cr3.2.7 — PRESENT

Refine and complete artistic work.

Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

a. **Present** the final version of their documented personal **composition**, song, or **arrangement**, using **craftsmanship** and originality to demonstrate **unity** and **variety**, and convey **expressive intent**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication	When is creative work ready to share?

PERFORMING

MU: Pr4.1.7 — SELECT

Select, analyze, and interpret artistic work for presentation.

Select varied musical works to present based on interest, knowledge, technical skill, and context.

a. Apply **collaboratively-developed criteria** for selecting music of contrasting styles for a **program** with a specific **purpose** and/or **context** and, after discussion, identify **expressive qualities**, **technical challenges**, and reasons for choices.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own technical skill, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

1129

MU: Pr4.2.7 — ANALYZE

Select, analyze, and interpret artistic work for presentation.

Analyze the structure and context of varied musical works and their implications for performance.

a. Explain and demonstrate the **structure** of contrasting pieces of music selected for **performance** and how **elements of music** are used.
b. When analyzing selected music, read and identify by name or function standard symbols for **rhythm**, **pitch** **articulation**, **dynamics**, **tempo**, and **form**.
c. Identify how **cultural** and **historical context** inform **performances** and result in different music **interpretations**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

7

PERFORMING

MU: Pr4.3.7	**Select, analyze, and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET
	a. **Perform** contrasting pieces of music demonstrating their **interpretations** of the **elements of music** and **expressive qualities** (such as **dynamics**, **tempo**, **timbre**, **articulation/style**, and **phrasing**) convey **intent**.	
	ENDURING UNDERSTANDING Performers make interpretive decisions based on their understanding of context and expressive intent.	ESSENTIAL QUESTION(S) How do performers interpret musical works?
MU: Pr5.1.7	**Develop and refine artistic techniques and work for presentation.** *Evaluate and refine personal and ensemble performances, individually or in collaboration with others.*	REHEARSE / EVALUATE / REFINE
	a. Identify and apply **collaboratively-developed criteria** (such as demonstrating correct interpretation of notation, **technical skill** of performer, originality, emotional impact, and interest) to rehearse, **refine**, and determine when the music is ready to **perform**.	
	ENDURING UNDERSTANDING To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their performance? 1130
MU: Pr6.1.7	**Convey meaning through the presentation of artistic work.** *Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.*	PRESENT
	a. **Perform** the music with **technical accuracy** and stylistic **expression** to convey the **creator's intent**. b. **Demonstrate performance decorum** (such as stage presence, attire, and behavior) and **audience etiquette** appropriate for **venue**, **purpose**, and **context**.	
	ENDURING UNDERSTANDING Musicians judge performance based on criteria that vary across time, place, and culture. The context and how a work is presented influence the audience response.	ESSENTIAL QUESTION(S) When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.7	**Perceive and analyze artistic work.** *Choose music appropriate for a specific purpose or context.*	SELECT
	a. Select or choose contrasting music to listen to and compare the **connections** to specific interests or experiences for a specific **purpose**.	
	ENDURING UNDERSTANDING Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	ESSENTIAL QUESTION(S) How do individuals choose music to experience?
MU: Re7.2.7	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. Classify and explain how the **elements of music** and **expressive qualities** relate to the **structure** of contrasting pieces. b. Identify and compare the **context** of music from a variety of **genres**, **cultures**, and **historical periods**.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.7	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET

MU: Pr4.2.H.5 NOVICE

Select, analyze and interpret artistic work for presentation. ANALYZE

Analyze the structure and context of varied musical works and their implications for performance.

a. Identify prominent melodic and harmonic characteristics in a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments selected for **performance**, including at least some based on reading **standard notation**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

PERFORMING

MU: Pr4.3.H.5 NOVICE	**Select, analyze and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET
	a. Demonstrate and describe in **interpretations** an understanding of the **context** and **expressive intent** in a varied **repertoire** of music selected for **performance** that includes **melodies**, repertoire pieces, and chordal accompaniments.	
	ENDURING UNDERSTANDING Performers make interpretive decisions based on their understanding of context and intent.	ESSENTIAL QUESTION(S) How do performers interpret musical works?
MU: Pr5.1.H.5 NOVICE	**Develop and refine artistic techniques and work for presentation.** *Evaluate and refine personal and ensemble performances, individually or in collaboration with others.*	REHEARSE / EVALUATE / REFINE
	a. Apply **teacher-provided criteria** to critique individual **performances** of a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments selected for performance, and apply practice strategies to address performance challenges and **refine** the performances.	
	ENDURING UNDERSTANDING To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their performance?
MU: Pr6.1.H.5 NOVICE	**Convey meaning through the presentation of artistic work.** *Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.*	PRESENT
	a. **Perform** with **expression** and **technical accuracy** in individual **performances** of a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments, demonstrating understanding of the audience and the **context**.	
	ENDURING UNDERSTANDING Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	ESSENTIAL QUESTION(S) When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

1143

RESPONDING

MU: Re7.1.H.5 NOVICE

Perceive and analyze artistic work. SELECT

Choose music appropriate for a specific purpose or context.

a. Demonstrate and describe reasons for selecting music, based on characteristics found in the music and **connections** to interest, **purpose**, or personal experience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

MU: Re7.2.H.5 NOVICE

Perceive and analyze artistic work. ANALYZE

Analyze how the structure and context of varied musical works inform the response.

a. Demonstrate and explain, citing evidence, the use of repetition, similarities and contrasts in musical selections and how these and knowledge of the **context** (**social** or **cultural**) inform the response.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	How does understanding the structure and context of music inform a response?

1144

MU: Re8.1.H.5 NOVICE

Interpret intent and meaning in artistic work. INTERPRET

Support interpretations of musical works that reflect creators'/performers' expressive intent.

a. Identify **interpretations** of the **expressive intent** and meaning of musical selections, referring to the **elements of music**, **context** (**personal** or **social**), and (when appropriate) the **setting of the text**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	How do we discern musical creators' and performers' expressive intent?

RESPONDING

MU: Re9.1.H.5
NOVICE

Apply criteria to evaluate artistic work.
Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. Identify and describe how interest, experiences, and **contexts** (**personal** or **social**) effect the evaluation of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical works and performances is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.H.5
NOVICE

Synthesize and relate knowledge and personal experiences to make art.
Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge and skills relate to personal choices and intent when creating, performing, and responding to music.

Embedded within:
MU:Cr3.2.H.5a **Share** final versions of simple **melodies** (such as two-**phrase**) and chordal accompaniments for given melodies, demonstrating an understanding of how to develop and organize personal **musical ideas**.
MU:Pr4.1.H.5a Describe and demonstrate how a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments is selected, based on personal interest, music reading skills, and **technical skills**, as well as the **context** of the **performances**.
MU:Re7.1.H.5a Demonstrate and describe reasons for choosing musical selections, based on characteristics found in the music and **connections** to interest, **purpose**, or experiences.

1145

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing and responding.	How do musicians make meaningful connections to creating, performing and responding?

CONNECTING

MU: Cn11.0.H.5
NOVICE

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts and daily life.

Embedded within:
MU:Pr4.3.H.5a Demonstrate and describe in **interpretations** an understanding of the **context** and **expressive intent** in a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments selected for **performance**.
MU:Re7.2.H.5a Demonstrate and explain, citing evidence, the use of repetition, similarities and contrasts in musical selections and how these and knowledge of the **context** (**social** or **cultural**) influence the response.
MU:Re9.1.H.5a Identify and describe how interest, experiences and **contexts** (**personal** or **social**) effect the evaluation of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts and daily life inform creating, performing, and responding to music?

1146

CREATING

MU: Cr1.1.H.8 INTERMEDIATE	**Generate and conceptualize artistic ideas and work.** *Generate musical ideas for various purposes and contexts.*	IMAGINE
	a. Generate melodic, rhythmic, and harmonic ideas for **melodies** (created over specified **chord progressions** or **AB**/**ABA forms**) and two-to-three-chord accompaniments for given melodies.	
	ENDURING UNDERSTANDING The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	ESSENTIAL QUESTION(S) How do musicians generate creative ideas?
MU: Cr2.1.H.8 INTERMEDIATE	**Organize and develop artistic ideas and work.** *Select and develop musical ideas for defined purposes and contexts.*	PLAN / MAKE
	a. Select, develop, and use **standard notation** and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of **melodies** (created over specified **chord progressions** or **AB**/**ABA forms**) and two-to-three-chord accompaniments for given melodies.	
	ENDURING UNDERSTANDING Musicians' creative choices are influenced by their expertise, context, and expressive intent.	ESSENTIAL QUESTION(S) How do musicians make creative decisions?
MU: Cr3.1.H.8 INTERMEDIATE	**Refine and complete artistic work.** *Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.*	EVALUATE / REFINE
	a. Apply **teacher-provided criteria** to critique, improve, and **refine** drafts of **melodies** (created over specified **chord progressions** or **AB**/**ABA forms**) and two-to-three-chord accompaniments for given melodies.	
	ENDURING UNDERSTANDING Musicians evaluate and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their creative work?

1147

CREATING

MU: Cr3.2.H.8
INTERMEDIATE

Refine and complete artistic work. PRESENT
Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

a. **Share** final versions of **melodies** (created over specified **chord progressions** or **AB**/**ABA forms**) and two-to-three-chord accompaniments for given melodies, demonstrating an understanding of how to develop and organize personal **musical ideas**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

PERFORMING

MU: Pr4.1.H.8
INTERMEDIATE

Select, analyze and interpret artistic work for presentation. SELECT
Select varied musical works to present based on interest, knowledge, technical skill, and context.

a. Describe and demonstrate how a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments is selected, based on personal interest, music reading skills, and **technical skill** (citing **technical challenges** that need to be addressed), as well as the **context** of the **performances**.

1148

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.H.8
INTERMEDIATE

Select, analyze and interpret artistic work for presentation. ANALYZE
Analyze the structure and context of varied musical works and their implications for performance.

a. Identify prominent melodic, harmonic, and **structural** characteristics and **context** (**social**, **cultural**, or **historical**) in a varied **repertoire** of music that includes **melodies**, repertoire pieces, and chordal accompaniments selected for **performance**, including at least some based on reading **standard notation**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

PERFORMING

MU: Pr4.1.H.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation. SELECT

Select varied musical works to present based on interest, knowledge, technical skill, and context.

a. Develop and apply **criteria** for selecting a varied **repertoire** of music for individual and small group **performances** that include **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**.

1160

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.H.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation. ANALYZE

Analyze the structure and context of varied musical works and their implications for performance.

a. Identify and describe important **theoretical** and **structural** characteristics and **context** (**social**, **cultural**, and **historical**) in a varied **repertoire** of music that includes **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

HS ACCOMPLISHED

PERFORMING

MU: Pr4.3.H.II HS ACCOMPLISHED	**Select, analyze and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET
	a. Explain in **interpretations** the **context** (**social**, **cultural**, and **historical**) and **expressive intent** in a varied **repertoire** of music selected for **performance** that includes **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**.	
	ENDURING UNDERSTANDING Performers make interpretive decisions based on their understanding of context and intent.	ESSENTIAL QUESTION(S) How do performers interpret musical works?
MU: Pr5.1.H.II HS ACCOMPLISHED	**Develop and refine artistic techniques and work for presentation.** *Evaluate and refine personal and ensemble performances, individually or in collaboration with others.*	REHEARSE / EVALUATE / REFINE
	a. Develop and apply **criteria** to critique individual and small group **performances** of a varied **repertoire** of music that includes **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**, and create rehearsal strategies to address performance challenges and **refine** the performances.	
	ENDURING UNDERSTANDING To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	ESSENTIAL QUESTION(S) How do musicians improve the quality of their performance? 1161
MU: Pr6.1.H.II HS ACCOMPLISHED	**Convey meaning through the presentation of artistic work.** *Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.*	PRESENT
	a. **Perform** with **expression** and **technical accuracy**, in individual and small group **performances**, a varied **repertoire** of music that includes **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**, demonstrating sensitivity to the audience and an understanding of the **context** (**social**, **cultural**, and **historical**).	
	ENDURING UNDERSTANDING Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	ESSENTIAL QUESTION(S) When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

HS ACCOMPLISHED

RESPONDING

MU: Re7.1.H.II HS ACCOMPLISHED	**Perceive and analyze artistic work.** *Choose music appropriate for a specific purpose or context.*	SELECT
	a. Apply criteria to select music for a variety of purposes, justifying choices citing knowledge of the music and the specified **purpose** and **context**.	
	ENDURING UNDERSTANDING Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	ESSENTIAL QUESTION(S) How do individuals choose music to experience?
MU: Re7.2.H.II HS ACCOMPLISHED	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. Explain how the **analysis** of the **structures** and **context** (**social**, **cultural**, and **historical**) of contrasting musical selections inform the response.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response? 1162
MU: Re8.1.H.II HS ACCOMPLISHED	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET
	a. Explain and support **interpretations** of the **expressive intent** and meaning of musical selections, citing as evidence the treatment of the **elements of music**, **context** (**personal**, **social**, and **cultural**), and (when appropriate) the **setting of the text**, and varied researched sources.	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern musical creators' and performers' expressive intent?

HS ACCOMPLISHED

RESPONDING

MU: Re9.1.H.II
HS ACCOMPLISHED

Apply criteria to evaluate artistic work.
Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. Apply **personally-developed** and **established criteria** based on research, personal preference, **analysis**, **interpretation**, **expressive intent**, and **musical qualities** to evaluate contrasting individual and small group musical selections for listening.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical works and performances is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.H.II
HS ACCOMPLISHED

Synthesize and relate knowledge and personal experiences to make art.
Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge and skills relate to personal choices and intent when creating, performing, and responding to music.

1163

Embedded within:
MU:Cr3.2.H.IIa **Perform** final versions of **compositions** (**forms** such as rounded **binary** or **rondo**), **improvisations**, accompaniment patterns in a variety of styles, and **harmonizations** for given **melodies**, demonstrating **technical skills** in applying principles of composition/improvisation and originality in developing and organizing **musical ideas**.
MU:Pr4.1.H.IIa Develop and apply **criteria** for selecting a varied **repertoire** of music, based on personal interest and **technical skills** for individual and small group **performances** that include **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of **styles**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing and responding.	How do musicians make meaningful connections to creating, performing and responding?

HS ACCOMPLISHED

CONNECTING

MU: Cn11.0.H.II
HS ACCOMPLISHED

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts and daily life.

Embedded within:
MU:Pr4.3.H.IIa Explain in **interpretations** the **context** (**social**, **cultural**, and **historical**) and **expressive intent** in a varied **repertoire** of music that includes **melodies**, repertoire pieces, **improvisations**, and chordal accompaniments in a variety of styles selected for **performance**.
MU:Re7.2.H.IIa Explain how the **analysis** of the **structures** and **context** (**social**, **cultural**, and **historical**) from contrasting musical selections influence the response.
MU:Re9.1.H.IIa Apply **personally-developed** and **established criteria** based on research, personal preference, **analysis**, **interpretation**, **expressive intent**, and **musical qualities** to evaluate contrasting individual and small group musical selections for listening.

ENDURING UNDERSTANDING
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.

ESSENTIAL QUESTION(S)
How do the other arts, other disciplines, contexts and daily life inform creating, performing, and responding to music?

1164

HS ADVANCED

CREATING

MU: Cr1.1.H.III
HS ADVANCED

Generate and conceptualize artistic ideas and work. IMAGINE

Generate musical ideas for various purposes and contexts.

a. Generate melodic, rhythmic, and harmonic ideas for a collection of **compositions** (representing a variety of **forms** and **styles**), **improvisations** in several different styles, and stylistically appropriate **harmonizations** for given **melodies**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The creative ideas, concepts, and feelings that influence musicians' work emerge from a variety of sources.	How do musicians generate creative ideas?

MU: Cr2.1.H.III
HS ADVANCED

Organize and develop artistic ideas and work. PLAN / MAKE

Select and develop musical ideas for defined purposes and contexts.

a. Select, develop, and use **standard notation** and audio/video recording to document melodic, rhythmic, and harmonic ideas for drafts of **compositions** (representing a variety of **forms** and **styles**), **improvisations** in several different styles, and stylistically appropriate **harmonizations** for given **melodies**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' creative choices are influenced by their expertise, context, and expressive intent.	How do musicians make creative decisions?

1165

MU: Cr3.1.H.III
HS ADVANCED

Refine and complete artistic work. EVALUATE / REFINE

Evaluate and refine selected musical ideas to create musical work(s) that meet appropriate criteria.

a. Develop and apply **criteria** to critique, improve, and **refine** drafts of **compositions** (representing a variety of **forms** and **styles**), **improvisations** in a variety of **styles**, and stylistically appropriate **harmonizations** for given **melodies**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians evaluate and refine their work through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their creative work?

HS ADVANCED

CREATING

MU: Cr3.2.H.III
HS ADVANCED

Refine and complete artistic work. PRESENT
Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

a. **Perform** final versions of a collection of **compositions** (representing a variety of **forms** and styles), **improvisations** in several different **styles**, and stylistically appropriate **harmonizations** for given **melodies**, demonstrating **technical skill** in applying principles of composition/improvisation and originality in developing and organizing **musical ideas**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

PERFORMING

MU: Pr4.1.H.III
HS ADVANCED

Select, analyze and interpret artistic work for presentation. SELECT
Select varied musical works to present based on interest, knowledge, technical skill, and context.

a. Develop and apply **criteria** for selecting a varied **repertoire** for a **program** of music for individual and small group **performances** that include **melodies**, repertoire pieces, stylistically appropriate accompaniments, and **improvisations** in a variety of contrasting **styles**.

1166

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.H.III
HS ADVANCED

Select, analyze and interpret artistic work for presentation. ANALYZE
Analyze the structure and context of varied musical works and their implications for performance.

a. Identify and describe important **theoretical** and **structural** characteristics and **context** (**social**, **cultural**, and **historical**) in a varied **repertoire** of music selected for **performance programs** that includes **melodies**, repertoire pieces, stylistically appropriate accompaniments, and **improvisations** in a variety of contrasting **styles**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

HS ADVANCED

PERFORMING

MU: Pr4.3.H.III
HS ADVANCED

Select, analyze and interpret artistic work for presentation.
Develop personal interpretations that consider creators' intent.

INTERPRET

a. Explain and present **interpretations** that demonstrate and describe the **context** (**social**, **cultural**, and **historical**) and an understanding of the creator's **intent** in **repertoire** for varied **programs** of music that include **melodies**, repertoire pieces, stylistically appropriate accompaniments, and **improvisations** in a variety of contrasting **styles**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and intent.	How do performers interpret musical works?

MU: Pr5.1.H.III
HS ADVANCED

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. Develop and apply **criteria**, including feedback from multiple sources, to critique varied **programs** of music **repertoire** (**melodies**, repertoire pieces, stylistically appropriate accompaniments, **improvisations** in a variety of contrasting **styles**) selected for individual and small group performance, and create rehearsal strategies to address performance challenges and **refine** the performances.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

1167

MU: Pr6.1.H.III

Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.T.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation.
Analyze the structure and context of varied musical works and their implications for performance.

ANALYZE

a. Describe and demonstrate how **context**, **theoretical** and **structural** aspects of the music and **digital** media/**tools** inform and influence prepared and improvised **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

1178

MU: Pr4.3.T.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation.
Develop personal interpretations that consider creators' intent.

INTERPRET

a. Demonstrate how understanding the **style**, **genre**, **context**, and use of **digital tools** and **resources** in a varied **repertoire** of music influences prepared or improvised **performances** and performers' **ability** to connect with audiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and intent.	How do performers interpret musical works?

HS ACCOMPLISHED

PERFORMING

MU: Pr5.1.T.II
HS ACCOMPLISHED

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

EVALUATE / REFINE

a. Develop and implement rehearsal strategies to improve and **refine** the **technical** and **expressive aspects** of prepared and improvised **performances** in a varied **repertoire** of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' creative choices are influenced by their context, expressive intent, and established criteria.	How do musicians make creative decisions?

MU: Pr6.1.T.II
HS ACCOMPLISHED

Convey meaning through the presentation of artistic work.
Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. Using **digital tools** and **resources**, demonstrate **technical accuracy** and **expressive qualities** in prepared and improvised **performances** of a varied **repertoire** of music representing diverse **cultures**, **styles**, and **genres**.
b. Demonstrate an understanding of the **expressive intent** when connecting with an audience through prepared and improvised **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

1179

RESPONDING

MU: Re7.1.T.II
HS ACCOMPLISHED

Perceive and analyze artistic work.
Choose music appropriate for a specific purpose or context.

SELECT

a. Select and critique contrasting **musical works**, defending opinions based on manipulations of the **elements of music**, digital and electronic aspects, and the **purpose** and **context** of the works.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

HS ACCOMPLISHED

RESPONDING

MU: Re7.2.T.II HS ACCOMPLISHED	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE

Share creative musical work that conveys intent, demonstrates craftsmanship, and exhibits originality.

a. **Share** music through the use of notation, solo or group **performance**, or technology, and demonstrate and describe how the **elements of music** and **compositional techniques** have been employed to realize **expressive intent**.
b. Describe the selected **contexts** and performance mediums for presenting personal works, and explain why they successfully impact the final **composition** and presentation.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians' presentation of creative work is the culmination of a process of creation and communication.	When is creative work ready to share?

PERFORMING

MU: Pr4.1.C.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation. SELECT

Select varied musical works to present based on interest, knowledge, technical skill, and context.

a. Identify and select specific passages, **sections**, or movements in **musical works** that express personal experiences and interests, **moods**, visual images, concepts, texts, or **storylines** in **simple forms** (such as **binary**, **ternary**, **rondo**) or **moderately complex forms**.

1195

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.C.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation. ANALYZE

Analyze the structure and context of varied musical works and their implications for performance.

a. **Analyze** how the **elements of music** (including **form**) of selected works relate to the **style**, **function**, and **context**, and explain the implications for rehearsal and **performance**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance?

HS ACCOMPLISHED

PERFORMING

MU: Pr4.3.C.II
HS ACCOMPLISHED

Select, analyze and interpret artistic work for presentation.
Develop personal interpretations that consider creators' intent.

INTERPRET

a. Develop **interpretations** of works based on an understanding of the use of **elements of music**, **style**, **mood**, **function**, and **context**, explaining and supporting how the interpretive choices reflect the creators' **intent**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and intent.	How do performers interpret musical works?

MU: Pr5.1.C.II
HS ACCOMPLISHED

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. Create rehearsal plans for works, identifying the **form**, repetition and variation within the form, and the **style** and **historical** or **cultural context** of the work.
b. Using **established criteria** and feedback, identify the ways in which performances convey the **formal design**, **style**, and **historical**/**cultural context** of the works.
c. Identify and implement strategies for improving the **technical** and **expressive aspects** of varied works.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

1196

MU: Pr6.1.C.II
HS ACCOMPLISHED

Convey meaning through the presentation of artistic work.
Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. Share live or recorded **performances** of works (both personal and others'), and explain how the **elements of music** and **compositional techniques** are used to convey **intent**.
b. Explain how **compositions** are appropriate for both audience and **context**, and how this will shape future compositions.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

HS ACCOMPLISHED

RESPONDING

MU: Re7.1.C.II
HS ACCOMPLISHED

Perceive and analyze artistic work. SELECT
Choose music appropriate for a specific purpose or context.

a. Apply **teacher-provided** or **personally-developed criteria** to select music that expresses personal experiences and interests, **moods**, visual images, concepts, texts, or **storylines** in **simple** or **moderately complex forms**, and describe and defend the choices as models for **composition**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

MU: Re7.2.C.II
HS ACCOMPLISHED

Perceive and analyze artistic work. ANALYZE
Analyze how the structure and context of varied musical works inform the response.

a. **Analyze** aurally and/or by reading the **scores** of **musical works** the **elements of music** (including **form**), **compositional techniques** and **procedures**, relating them to **style**, **mood**, and **context**; and explain how the **analysis** provides models for personal growth as **composer**, performer, and/or listener.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	How does understanding the structure and context of music inform a response?

MU: Re8.1.C.II
HS ACCOMPLISHED

Interpret intent and meaning in artistic work. INTERPRET
Support interpretations of musical works that reflect creators'/performers' expressive intent.

a. Develop and support **interpretations** of varied works, demonstrating an understanding of the composers' **intent** by citing the use of **elements of music** (including **form**), **compositional techniques**, and the **style**/**genre** and **context** of each work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	How do we discern musical creators' and performers' expressive intent?

HS ACCOMPLISHED

RESPONDING

MU: Re9.1.C.II
HS ACCOMPLISHED

Apply criteria to evaluate artistic work.
Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.

EVALUATE

a. Explain the effectiveness of the **technical** and **expressive aspects** of selected music and **performances**, demonstrating understanding of **music theory** as well as **compositional techniques** and **procedures**.
b. Describe ways in which critiquing others' work and receiving feedback from others have been specifically applied in the personal creative process.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
The personal evaluation of musical works and performances is informed by analysis, interpretation, and established criteria.	How do we judge the quality of musical work(s) and performance(s)?

CONNECTING

MU: Cn10.0.C.II

PERFORMING

MU: Pr4.1.E.8 INTERMEDIATE	**Select, analyze and interpret artistic work for presentation.** *Select varied musical works to present based on interest, knowledge, technical skill, and context.*	SELECT
	a. Select a varied **repertoire** to study based on music reading skills (where appropriate), an understanding of **formal design** in the music, **context**, and the **technical skill** of the individual and **ensemble**.	
	ENDURING UNDERSTANDING Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	ESSENTIAL QUESTION(S) How do performers select repertoire?
MU: Pr4.2.E.8 INTERMEDIATE	**Select, analyze and interpret artistic work for presentation.** *Analyze the structure and context of varied musical works and their implications for performance.*	ANALYZE
	a. Demonstrate, using music reading skills where appropriate, how the **setting** and formal characteristics of **musical works** contribute to understanding the **context** of the music in prepared or improvised **performances**.	
	ENDURING UNDERSTANDING Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	ESSENTIAL QUESTION(S) How does understanding the structure and context of musical works inform performance? 1213
MU: Pr4.3.E.8 INTERMEDIATE	**Select, analyze and interpret artistic work for presentation.** *Develop personal interpretations that consider creators' intent.*	INTERPRET
	a. Demonstrate understanding and application of **expressive qualities** in a varied **repertoire** of music through prepared and improvised **performances**.	
	ENDURING UNDERSTANDING Performers make interpretive decisions based on their understanding of context and intent.	ESSENTIAL QUESTION(S) How do performers interpret musical works?

PERFORMING

MU: Pr5.1.E.8
INTERMEDIATE

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. Develop strategies to address **technical challenges** in a varied **repertoire** of music and evaluate their success using feedback from **ensemble** peers and other sources to **refine performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

MU: Pr6.1.E.8
INTERMEDIATE

Convey meaning through the presentation of artistic work.
Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. Demonstrate attention to **technical accuracy** and **expressive qualities** in prepared and improvised **performances** of a varied **repertoire** of music representing diverse **cultures** and **styles**.
b. Demonstrate an understanding of the **context** of the music through prepared and improvised **performances**.

1214

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.E.8
INTERMEDIATE

Perceive and analyze artistic work.
Choose music appropriate for a specific purpose or context.

SELECT

a. Explain reasons for selecting music citing characteristics found in the music and **connections** to interest, **purpose**, and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

RESPONDING

MU: Re7.2.E.8 INTERMEDIATE	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. Describe how understanding **context** and the way the **elements of music** are manipulated inform the response to music.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.E.8 INTERMEDIATE	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET
	a. Identify and support **interpretations** of the **expressive intent** and meaning of **musical works**, citing as evidence the treatment of the **elements of music**, **contexts**, and (when appropriate) the **setting of the text**.	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern musical creators' and performers' expressive intent? 1215
MU: Re9.1.E.8 INTERMEDIATE	**Apply criteria to evaluate artistic work.** *Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.*	EVALUATE
	a. Explain the influence of experiences, **analysis**, and **context** on interest in and evaluation of music.	
	ENDURING UNDERSTANDING The personal evaluation of musical works and performances is informed by analysis, interpretation, and established criteria.	ESSENTIAL QUESTION(S) How do we judge the quality of musical work(s) and performance(s)?

Develop and apply **criteria** to select varied **programs** to study and **perform** based on an understanding of **theoretical** and **structural** characteristics and expressive challenges in the music, the **technical skill** of the individual or **ensemble**, and the **purpose** and **context** of the **performance**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers' interest in and knowledge of musical works, understanding of their own abilities, and the context for a performance influence the selection of repertoire.	How do performers select repertoire?

MU: Pr4.2.E.III
HS ADVANCED

Select, analyze and interpret artistic work for presentation. ANALYZE
Analyze the structure and context of varied musical works and their implications for performance.

a. Examine, evaluate, and critique, using music reading skills where appropriate, how the **structure** and **context** impact and inform prepared and improvised **performances**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Analyzing creators' context and how they manipulate elements of music provides insight into their intent and informs performance.	How does understanding the structure and context of musical works inform performance? 1230

MU: Pr4.3.E.III
HS ADVANCED

Select, analyze and interpret artistic work for presentation. INTERPRET
Develop personal interpretations that consider creators' intent.

a. Demonstrate how understanding the **style**, **genre**, and **context** of a varied **repertoire** of music informs prepared and improvised **performances** as well as performers' **technical skill** to connect with the audience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Performers make interpretive decisions based on their understanding of context and intent.	How do performers interpret musical works?

HS ADVANCED

PERFORMING

MU: Pr5.1.E.III
HS ADVANCED

Develop and refine artistic techniques and work for presentation.
Evaluate and refine personal and ensemble performances, individually or in collaboration with others.

REHEARSE / EVALUATE / REFINE

a. Develop, apply, and **refine** appropriate rehearsal strategies to address individual and **ensemble** challenges in a varied **repertoire** of music.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
To express their musical ideas, musicians analyze, evaluate, and refine their performance over time through openness to new ideas, persistence, and the application of appropriate criteria.	How do musicians improve the quality of their performance?

MU: Pr6.1.E.III
HS ADVANCED

Convey meaning through the presentation of artistic work.
Perform expressively, with appropriate interpretation and technical accuracy, and in a manner appropriate to the audience and context.

PRESENT

a. Demonstrate an understanding and mastery of the technical demands and **expressive qualities** of the music through prepared and improvised **performances** of a varied **repertoire** representing diverse **cultures**, **styles**, **genres**, and **historical periods** in multiple types of **ensembles**.
b. Demonstrate an **ability** to connect with audience members before and during the process of engaging with and responding to them through prepared and improvised **performances**.

1231

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians judge performance based on criteria that vary across time, place, and cultures. The context and how a work is presented influence the audience response.	When is a performance judged ready to present? How do context and the manner in which musical work is presented influence audience response?

RESPONDING

MU: Re7.1.E.III
HS ADVANCED

Perceive and analyze artistic work.
Choose music appropriate for a specific purpose or context.

SELECT

a. Use research and **personally-developed criteria** to justify choices made when selecting music, citing knowledge of the music, and individual and ensemble **purpose** and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individuals' selection of musical works is influenced by their interests, experiences, understandings, and purposes.	How do individuals choose music to experience?

HS ADVANCED

RESPONDING

MU: Re7.2.E.III HS ADVANCED	**Perceive and analyze artistic work.** *Analyze how the structure and context of varied musical works inform the response.*	ANALYZE
	a. Demonstrate and justify how the **analysis** of **structures**, **contexts**, and performance decisions inform the response to music.	
	ENDURING UNDERSTANDING Response to music is informed by analyzing context (social, cultural, and historical) and how creators and performers manipulate the elements of music.	ESSENTIAL QUESTION(S) How does understanding the structure and context of music inform a response?
MU: Re8.1.E.III HS ADVANCED	**Interpret intent and meaning in artistic work.** *Support interpretations of musical works that reflect creators'/performers' expressive intent.*	INTERPRET
	a. Justify **interpretations** of the **expressive intent** and meaning of **musical works** by comparing and synthesizing varied researched sources, including reference to other art forms.	
	ENDURING UNDERSTANDING Through their use of elements and structures of music, creators and performers provide clues to their expressive intent.	ESSENTIAL QUESTION(S) How do we discern musical creators' and performers' expressive intent? 1232
MU: Re9.1.E.III HS ADVANCED	**Apply criteria to evaluate artistic work.** *Support evaluations of musical works and performances based on analysis, interpretation, and established criteria.*	EVALUATE
	a. Develop and justify evaluations of music, **programs** of music, and **performances** based on **criteria**, personal decision-making, research, and understanding of **contexts**.	
	ENDURING UNDERSTANDING The personal evaluation of musical works and performances is informed by analysis, interpretation, and established criteria.	ESSENTIAL QUESTION(S) How do we judge the quality of musical work(s) and performance(s)?

HS ADVANCED

CONNECTING

MU: Cn10.0.E.III
HS ADVANCED

Synthesize and relate knowledge and personal experiences to make art.
Synthesize and relate knowledge and personal experiences to make music.

CONNECT

a. Demonstrate how interests, knowledge, and skills relate to personal choices and intent when creating, performing, and responding to music.

Embedded within:
MU:Cr3.2.E.IIIa **Share** varied, personally-developed **musical works** – individually or as an **ensemble** – that address identified **purposes** and **contexts**.
MU:Pr4.1.E.IIIa Develop and apply **criteria** to select varied **programs** to study and **perform** based on an understanding of **theoretical** and **structural** characteristics and expressive challenges in the music, the **technical skills** of the individual or **ensemble**, and the **purpose** and **context** of the **performance**.
MU:Pr4.3.E.IIIa Demonstrate how understanding the **style**, **genre**, and **context** of a varied **repertoire** of music informs prepared and improvised **performances** as well as performers' **technical skill** to connect with the audience.
MU:Re7.1.E.IIIa Use research and **personally-developed criteria** to justify choices made when selecting music, citing knowledge of the music, and individual and ensemble **purpose** and **context**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Musicians connect their personal interests, experiences, ideas, and knowledge to creating, performing and responding.	How do musicians make meaningful connections to creating, performing and responding?

MU: Cn11.0.E.III
HS ADVANCED

Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.
Relate musical ideas and works with varied context to deepen understanding.

CONNECT 1233

a. Demonstrate understanding of relationships between music and the other arts, other disciplines, varied contexts, and daily life.

Embedded within:
MU:Cr1.1.E.IIIa Compose and **improvise musical ideas** for a variety of **purposes** and **contexts**.
MU:Cr3.2.E.IIIb **Share** varied, personally-developed **musical works** – individually or as an **ensemble** – that address identified **purposes** and **contexts**.
MU:Pr6.1.E.IIIb Demonstrate an **ability** to connect with audience members before and during the process of engaging with and responding to them through prepared and improvised **performances**.
MU:Re9.1.E.IIIa Develop and justify evaluations of music, **programs** of music, and **performances** based on **criteria**, personal decision-making, research, and understanding of **contexts**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Understanding connections to varied contexts and daily life enhances musicians' creating, performing, and responding.	How do the other arts, other disciplines, contexts and daily life inform creating, performing, and responding to music?

GLOSSARY

AB
Musical form consisting of two sections, A and B, which contrast with each other (binary form).

ABA
Musical form consisting of three sections, A, B, and A; two are the same, and the middle one is different (ternary form).

ABILITY
Natural aptitude in specific skills and processes; what the student is apt to do, without formal instruction.

ACADEMIC VOCABULARY
Words that traditionally are used in academic dialogue and text.

ANALOG TOOLS
Category of musical instruments and tools that are non-digital (i.e., do not transfer sound in or convert sound into binary code), such as acoustic instruments, microphones, monitors, and speakers.

ANALYSIS
(See **ANALYZE**).

ANALYZE
Examine in detail the structure and context of the music.

ARRANGEMENT
Setting or adaptation of an existing musical composition.

ARRANGER
Person who creates alternative settings or adaptations of existing music.

ARTICULATION
Characteristic way in which musical tones are connected, separated, or accented; types of articulation include legato (smooth, connected tones) and staccato (short, detached tones).

ARTISTIC LITERACY
Knowledge and understanding required to participate authentically in the Arts.

ATONALITY
Music in which no tonic or key center is apparent.

AUDIATE
Hear and comprehend sounds in one's head (inner hearing), even when no sound is present.

AUDIENCE ETIQUETTE
Social behavior observed by those attending musical performances and which can vary depending upon the type of music performed.

BEAT
Underlying steady pulse present in most music.

BENCHMARK
Pre-established definition of an achievement level, designed to help measure student progress toward a goal or standard, expressed either in writing or as an example of cored student work (aka, anchor set).

BINARY FORM
(See **AB**).

BODY PERCUSSION
Use of the human body as an instrument to create percussive/rhythmic sounds such as stomping, patsching (patting thighs), clapping, clicking, snapping.

BORDUN
Accompaniment created by sounding two tones, five notes apart, continuously throughout a composition; can be performed in varying ways, such as simultaneously or alternating.

CHANT
Most commonly, the rhythmic recitation of rhymes, or poems without a sung melody; a type of singing, with a simple, unaccompanied melody line and free rhythm.

CHART
Jazz or popular music score, often abbreviated, with a melody (including key and time signature) and a set of chord changes.

CHORD PROGRESSION
Series of chords sounding in succession; certain progressions are typical in particular styles/genres of music.

COLLABORATIVELY
Working together on a common (musical) task or goal.

COLLABORATIVELY-DEVELOPED CRITERIA
Qualities or traits for assessing achievement level that have been through a process of collective decision-making.

COMPLEX FORMAL STRUCTURE
Musical form in which rhythmic, melodic, harmonic, and/or other musical materials undergo significant expansion and development, and may be more distantly related across sections while remaining coherent in some way, such as sonata or other novel design with three or more sections.

COMPOSER
One who creates music compositions.

COMPOSITION
Original piece of music that can be repeated, typically developed over time, and preserved either in notation or in a sound recording.

COMPOSITIONAL DEVICES
Tools used by a composer or arranger to create or organize a composition or arrangement, such as tonality, sequence, repetition, instrumentation, orchestration, harmonic/melodic structure, style, and form.

COMPOSITIONAL PROCEDURES
Techniques that a composer initiates and continues in pieces to develop musical ideas, such as fragmentation, imitation, sequencing, variation, aggregate completion, registral saturation, contour inversion of gestures, and rhythmic phrasing.

COMPOSITIONAL TECHNIQUES
Approaches a composer uses to manipulate and refine the elements to convey meaning and intent in a composition, such as tension-release, augmentation-diminution, sound-silence, motion-stasis, in addition to compositional devices.

CONCEPTS, MUSIC
Understandings or generalized ideas about music that are formed after learners make connections and determine relationships among ideas.

CONNECTION
Relationship among artistic ideas, personal meaning, and/or external context.

CONTEXT
Environment that surrounds music, influences understanding, provides meaning, and connects to an event or occurrence.

CONTEXT, CULTURAL
Values, beliefs, and traditions of a group of people that influence musical meaning and inform culturally authentic musical practice.

CONTEXT, HISTORICAL
Conditions of the time and place in which music was created or performed that provide meaning and influence the musical experience.

CONTEXT, PERSONAL
Unique experiences and relationships that surround a single person and are influenced by personal life, family, habits, interest, and preferences.

CONTEXT, SOCIAL ENVIRONMENT
Surrounding something or someone's creation or intended audience that reflects and influences how people use and interpret the musical experience.

CRAFTSMANSHIP
Degree of skill and ability exhibited by a creator or performer to manipulate the elements of music in a composition or performance.

CREATE
Conceive and develop new artistic ideas, such as an improvisation, composition, or arrangement, into a work.

CREATIVE INTENT
Shaping of the elements of music to express and convey emotions, thoughts, and ideas.

CREATOR
One who originates a music composition, arrangement, or improvisation.

CRITERIA
Guidelines used to judge the quality of a student's performance (See **RUBRIC**).

CULTURAL CONTEXT
Values, beliefs, and traditions of a group of people that influence musical meaning and inform culturally authentic musical practice.

CULTURALLY AUTHENTIC PERFORMANCE
Presentation that reflects practices and interpretation representative of the style and traditions of a culture.

CULTURE
Values and beliefs of a particular group of people, from a specific place or time, expressed through characteristics such as tradition, social structure, religion, art, and food.

CYCLICAL STRUCTURE
Musical form characterized by the return or "cycling around" of significantly recognizable themes, motives, and/or patterns across movements.

DEMONSTRATE
Show musical understanding through observable behavior such as moving, chanting, singing, or playing instruments.

DIATONIC
Seven-tone scale consisting of five whole steps and two half steps.

DIGITAL ENVIRONMENT
Simulated place made or created through the use of one or more computers, sensors, or equipment.

DIGITAL NOTATION
A visual image of musical sound created by using computer software applications, intended either as a record of sound heard or imagined, or as a set of visual instructions for performers.

DIGITAL RESOURCES
Anything published in a format capable of being read by a computer, a web-enabled device, a digital tablet, or smartphone.

DIGITAL SYSTEMS
Platforms that allow interaction and the conversion between and through the audio and digital domains.

DIGITAL TOOLS
Category of musical instruments and tools that manipulate sound using binary code, such as electronic keyboards, digital audio interfaces, MIDI, and computer software.

DYNAMICS
Level or range of loudness of a sound or sounds.

ELEMENTS OF MUSIC
Basic characteristics of sound (pitch, rhythm, harmony, dynamics, timbre, texture, form, and style/articulation) that are manipulated to create music.

ENDURING UNDERSTANDING
Overarching (aka, "big") ideas that are central to the core of the music discipline and may be transferred to new situations.

ENSEMBLE
Group of individuals organized to perform artistic work: traditional, large groups such as bands, orchestras, and choirs; chamber, smaller groups, such as duets, trios, and quartets; emerging, such as guitar, iPad, mariachi, steel drum or pan, and Taiko drumming.

ESSENTIAL QUESTION
Question that is central to the core of a discipline – in this case, music – and promotes investigation to uncover corresponding enduring understanding(s).

ESTABLISHED CRITERIA
Traits or dimensions for making quality judgments in music of a particular style, genre, cultural context, or historical period that have gained general acceptance and application over time.

EXPANDED FORM
Basic form (such as AB, ABA, rondo or theme and variation) expanded by the addition of an introduction, transition, and/or coda.

EXPLORE
Discover, investigate, and create musical ideas through singing, chanting, playing instruments, or moving to music.

EXPRESSION
Feeling conveyed through music.

EXPRESSIVE ASPECTS
Characteristics that convey feeling in the presentation of musical ideas.

EXPRESSIVE INTENT
The emotions, thoughts, and ideas that a performer or composer seeks to convey by manipulating the elements of music.

EXPRESSIVE QUALITIES
Qualities such as dynamics, tempo, articulation which when combined with other elements of music give a composition its musical identity.

FORM
Element of music describing the overall organization of a piece of music, such as AB, ABA, rondo, theme and variations, and strophic form.

FORMAL DESIGN
Large-scale framework for a piece of music in which the constituent parts cohere into a meaningful whole; encompasses both structural and tonal aspects of the piece.

FRET
Thin strip of material placed across the fingerboard of some stringed Instruments, such as guitar, banjo, and mandolin; the fingers press the strings against the frets to determine pitch.

FUNCTION
Use for which music is created, performed, or experienced, such as dance, social, recreation, music therapy, video games, and advertising.

FUNDAMENTALS OF MUSIC THEORY
Basic elements of music, their subsets, and how they interact: rhythm and meter; pitch and clefs; intervals; scales, keys and key signatures; triads and seventh chords.

FUSION
Type of music created by combining contrasting styles into a new style.

GENRE
Category of music characterized by a distinctive style, form, and/or content, such as jazz, march, and country.

GUIDANCE
Assistance provided temporarily to enable a student to perform a musical task that would be difficult to perform unaided, best implemented in a manner that helps develop that student's capacity to eventually perform the task independently.

HARMONIC SEQUENCES
Series of two or more chords commonly used to support melody(ies).

HARMONIZING INSTRUMENTS
Musical instruments, such as guitars, ukuleles, and keyboards, capable of producing harmonies as well as melodies, often used to provide chordal accompaniments for melodies and songs.

HARMONIZATION
Process of applying stylistically appropriate harmony, such as chords, countermelodies, and ostinato, to melodic material.

HARMONY
Chordal structure of a music composition in which the simultaneous sounding of pitches produces chords and their successive use produces chord progressions.

HETEROPHONIC
Musical texture in which slightly different versions of the same melody sound simultaneously.

HISTORICAL CONTEXT
Conditions of the time and place in which music was created or performed and that provide meaning and influence the musical experience.

HISTORICAL PERIODS
Period of years during which music that was created and/or performed shared common characteristics; historians of Western art music typically refer to the following: Medieval (ca. 500-ca. 1420), Renaissance (ca. 1420-ca. 1600), Baroque (ca. 1600-ca. 1750), Classic (ca. 1750-ca. 1820), Romantic (ca. 1820-ca. 1900), and Contemporary (ca. 1900-).

HOMOPHONIC
Musical texture in which all parts move in the same rhythm but use different pitches, as in hymns; also, a melody supported by chords.

ICONIC NOTATION
Representation of sound and its treatment using lines, drawings, pictures.

IMAGINE
Generate musical ideas for various purposes and contexts.

IMAGINATION
Ability to generate in the mind ideas, concepts, sounds, and images that are not physically present and may not have been previously experienced (See **AUDIATE**).

IMPROVISATION
Music created and performed spontaneously or "in-the-moment," often within a framework determined by the musical style.

IMPROVISER
One who creates music spontaneously or "in-the-moment".

INDEPENDENTLY
Working with virtually no assistance, initiating appropriate requests for consultation, performing in a self-directed ensemble offering ideas/solutions that make such consulting collaborative rather than teacher-directed.

INTENT
Meaning or feeling of the music planned and conveyed by a creator or performer.

INTERPRET
Determine and demonstrate music's expressive intent and meaning when responding and performing.

INTERPRETATION
Intent and meaning that a performer realizes in studying and performing a piece of music.

INTERVALS
Distance between two tones, named by counting all pitch names involved; harmonic interval occurs when two pitches are sounded simultaneously, and melodic interval when two pitches are sounded successively.

INTONATION
Singing or playing the correct pitch in tune.

KEY SIGNATURE
Set of sharps or flats at the beginning of the staff, following the clef sign, that indicates the primary pitch set or scale used in the music and provide clues to the resting tone and mode.

LEAD-SHEET NOTATION
System symbol used to identify chords in jazz, popular, and folk music; uppercase letters are written above the staff, specifying which chords should be used and when they should be played.

LYRICS
Words of a song.

MAJOR SCALE
Scale in which the ascending pattern of whole and half steps is whole, whole, half, whole, whole, whole, half.

MELODIC CONTOUR
Shape of a melody created by the way its pitches repeat and move up and down in steps and skips.

MELODIC PASSAGE
Short section or series of notes within a larger work that constitutes a single coherent melodic idea.

MELODIC PATTERN
Grouping, generally brief, of tones or pitches.

MELODY
Linear succession of sounds (pitches) and silences moving through time; the horizontal structure of music.

METER
Grouping of beats and divisions of beats in music, often in sets of twos (duple meter) or threes (triple meter).

MINOR SCALE
Scale in which one characteristic feature is a half-step between the second and third tones; the three forms of the minor scale are natural, harmonic, and melodic.

MODAL
Music based on a mode other than major or minor.

MODES
Seven-tone scales that include five whole steps and two half steps; the seven possible modes — Ionian, Dorian, Phrygian, Lydian, Mixolydian, Aeolian, and Locrian — were used in the Medieval and Renaissance periods and served as the basis from which major (Ionian) and minor (Aeolian) scales emerged.

MODEL CORNERSTONE ASSESSMENT
Suggested assessment process, embedded within a unit of study, that includes a series of focused tasks to measure student achievement within multiple process components.

MODERATELY COMPLEX FORMAL STRUCTURE
Musical form with three or more sections (such as rounded binary, rondo, or other novel design), in which section closure is somewhat nuanced or ambiguous, and the rhythmic, melodic, harmonic, and/or other musical materials across sections may be more distantly related while remaining coherent in some way.

MOOD
Over-all feeling that a section or piece of music conveys.

MONOPHONIC
Musical texture consisting of a single, unaccompanied melodic line.

MOTIF/MOTIVE
Brief rhythmic/melodic figure or pattern that recurs throughout a composition as a unifying element.

MOVEMENT
Act of moving in nonlocomotor (such as clapping and finger snapping) and locomotor (such as walking and running) patterns to represent and interpret musical sounds.

MUSIC LITERACY
Knowledge and understanding required to participate authentically in the discipline of music by independently carrying out the artistic processes of creating, performing, and responding.

MUSIC THEORY
Study of how music is composed and performed; analysis of the elements of music and the framework for understanding musical works.

MUSIC VOCABULARY
Domain-specific words traditionally used in performing, studying, or describing music (See Academic vocabulary).

MUSICAL CRITERIA
Traits relevant to assessing music attributes of a work or performance.

MUSICAL IDEA
Idea expressed in music, which can range in length from the smallest meaningful level (motive or short pattern) through a phrase, a section, or an entire piece.

MUSICAL RANGE
Span between the highest and lowest pitches of a melody, instrument, or voice.

MUSICAL WORK
Piece of music preserved as a notated copy or sound recording or passed through oral tradition.

NON-PITCHED INSTRUMENTS
Instruments, such as woodblocks, whistles, electronic sounds, that do not have definite pitches or tones.

NOTATION
Visual representation of musical sounds.

ONE-PART FORMAL STRUCTURE
Continuous form, with or without an interruption, in which a singular instance of formal closure is achieved only at or near the end of the piece; also known as through-composed.

OPEN-ENDED ASSESSMENT
Assessment that allows students to demonstrate the learning of a particular outcome in a variety of ways, such as demonstrating understanding of rhythmic notation by moving, singing, or chanting.

PENTATONIC SCALE
Five-tone scale often identified with the pattern of the black keys of a keyboard, although other five-tone arrangements are possible.

PERFORM
Process of realizing artistic ideas and work through interpretation and presentation.

PERFORMING, PERFORMANCE
Experience of engaging in the act of presenting music in a classroom or private or public venue (See also Artistic Process of Performing).

PERFORMANCE DECORUM
Aspects of contextually appropriate propriety and proper behavior, conduct, and appearance for a musical performance, such as stage presence, etiquette, and appropriate attire.

PERFORMANCE PRACTICE
Performance and presentation of a work that reflect established norms for the style and social, cultural, and historical contexts of that work.

PERFORMANCE TECHNIQUE
Personal technical skills developed and used by a performer.

PERSONAL CONTEXT
Unique experiences and relationships that surround a single person and are influenced by personal life, family, habits, interest, and preferences.

PERSONALLY-DEVELOPED CRITERIA
Qualities or traits for assessing achievement level developed by students individually.

PHRASE
Musical segment with a clear beginning and ending, comparable to a simple sentence or clause in written text.

PHRASING
Performance of a musical phrase that uses expressive qualities such as dynamics, tempo, articulation, and timbre to convey a thought, mood, or feeling.

PIECE
General, non-technical term referring to a composition or musical work.

PITCH
Identification of a tone or note with respect to highness or lowness (i.e., frequency).

PLAN
Select and develop musical ideas for creating a musical work.

POLYPHONIC
Musical texture in which two or more melodies sound simultaneously.

POLYTONAL
Music in which two or more tonalities (keys) sound simultaneously.

PRESENT
Share artistic work (e.g., a composition) with others.

PROGRAM
Presentation of a sequence of musical works that can be performed by individual musicians or groups in a concert, recital, or other setting.

PURPOSE
Reason for which music is created, such as, ceremonial, recreational/social, commercial, or generalized artistic expression.

REFINE
Make changes in musical works or performances to more effectively realize intent through technical quality or expression.

REPERTOIRE
Body or set of musical works that can be performed.

RESPOND
Understand and evaluate how the arts convey meaning.

RHYTHM
Duration or length of sounds and silences that occur in music; organization of sounds and silences in time.

RHYTHMIC PASSAGE
Short section or series of notes within a larger work that constitutes a single coherent rhythmic idea.

RHYTHMIC PATTERN
Grouping, generally brief, of long and short sounds and silences.

RONDO
Musical form consisting of three or more contrasting sections in which one section recurs, such as ABACA.

RUBRIC
Established, ordered set of criteria for judging student performance; includes descriptors of student work at various levels of achievement.

SCALE
Pattern of pitches arranged in ascending or descending order and identified by their specific arrangement of whole and half steps.

SCORE
Written notation of an entire music composition.

SECTION
One of a number of distinct segments that together comprise a composition; a section consists of several phrases.

SELECT
Choose music for performing, rehearsing, or responding based on interest, knowledge, ability, and context.

SENSITIVITY
Skill of a creator, performer, or listener in responding to and conveying the nuances of sound or expression.

SET
Sequence of songs or pieces performed together by a singer, band, or disc jockey and constituting or forming part of a live show or recording.

SETTING
Specified or implied instrumentation, voicing, or orchestration of a musical work.

SETTING OF THE TEXT
Musical treatment of text as presented in the music.

SHARE
Present artistic work (e.g., a composition) to others.

SIGHT-READING
First attempt to perform a notated musical work.

SIMPLE FORMAL STRUCTURE
Musical form with a small number of distinct or clearly delineated sections, (such as simple binary, ternary, or other novel design), using closely related rhythmic, melodic, and harmonic materials across the sections.

SOCIAL CONTEXT
Environment surrounding something or someone's creation or intended audience that reflects and influences how people use and interpret the musical experience.

SONIC EVENTS
Individual sounds (or sound masses) and silences whose succession forms patterns and contrasting units that are perceived as musical.

SONIC EXPERIENCE
Perception and understanding of the sounds and silences of a musical work and their inter-relationship.

STAGE PRESENCE
Performer's ability to convey music content to a live audience through traits such as personal knowledge of the repertoire, exhibited confidence, decorum, eye contact and facial expression.

STAGING
Environmental considerations, such as lighting, sound, seating arrangement, and visual enhancements, that contribute to the impact of a musical performance.

STANDARD NOTATION
System for visually representing musical sound that is in widespread use; such systems include traditional music staff notation, tablature notation (primarily for fretted stringed instruments), and lead-sheet notation.

STORYLINE
Extra-musical narrative that inspires or explains the structure of a piece of music.

STROPHIC FORM
Vocal music in which the music repeats with a new set of text each time.

STRUCTURAL
(See **STRUCTURE**).

STRUCTURE
Totality of a musical work.

STYLE
Label for a type of music possessing distinguishing characteristics and often performance practices associated with its historical period, cultural context, and/or genre.

STYLISTIC EXPRESSION
Interpretation of expressive qualities in a manner that is authentic and appropriate to the genre, historical period, and cultural context of origin.

TABLATURE
System of graphic standard notation, commonly used for fretted stringed instruments, in which a diagram visually represents both the fret board and finger placement on the fret board.

TEACHER-PROVIDED CRITERIA
Qualities or traits for assessing achievement level that are provided to students by the teacher.

TECHNICAL ASPECTS
Characteristics enabling the accurate representation/presentation of musical ideas.

TECHNICAL CHALLENGES
Requirements of a particular piece of music that stretch or exceed a performer's current level of proficiency in technical areas such as timbre, intonation, diction, range, or speed of execution.

TECHNICAL ACCURACY, TECHNICAL SKILL
Ability to perform with appropriate timbre, intonation, and diction as well as to play or sing the correct pitches and rhythms at a tempo appropriate to the musical work.

TEMPO
Rate or speed of the beat in a musical work or performance.

TENSION/RELEASE
Musical device (musical stress, instability, or intensity, followed by musical relaxation, stability, or resolution) used to create a flow of feeling.

TERNARY FORM
(See **ABA**).

TEXTURE
Manner in which the harmonic (vertical) and melodic (horizontal) elements are combined to create layers of sound.

THEME AND VARIATIONS
Musical form in which a melody is presented and then followed by two or more sections presenting variations of that melody.

THEORETICAL
(See **FUNDAMENTALS OF MUSIC THEORY**).

TIMBRE
Tone color or tone quality that distinguishes one sound source, instrument, or voice from another.

TONAL PATTERN
Grouping, generally brief, of tones or pitches.

TONALITY
Tonic or key tone around which a piece of music is centered.

TRANSFER
Use music knowledge and skills appropriately in a new context.

UNITY
Presence of structural coherence within a work, generally achieved through the repetition of various elements of music (See **VARIETY**).

VARIETY
Presence of structural contrast within a work for the purpose of creating and sustaining interest, generally achieved through utilizing variations in the treatment of the elements of music (See **UNITY**).

VENUE
Physical setting in which a musical event takes place.

VOCABLES
Audible sounds and/or nonsense syllables used by vocalists to convey musical ideas or intent.

VOCALIZATIONS
Vocal exercises that include no text and are sung to one or more vowels.

PURPOSE OF THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

Mission of Arts Education

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

Arts Integration

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

Artistic Literacy

Artistic Literacy is the knowledge and understanding required to participate authentically in the arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Student should also have a clear sense of embodying that form and be able to reflect, critique, and connect personal experience to the arts.

Overview of the Arts Learning Standards

The primary purpose of the 2017 Mississippi College-and-Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for Grades Pre-Kindergarten-12th arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi.
This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

Benefits of the Arts in Education

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist's sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

THE ARTS AS MEANS TO WELLBEING	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

THE ARTS AS COMMUNITY ENGAGEMENT	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

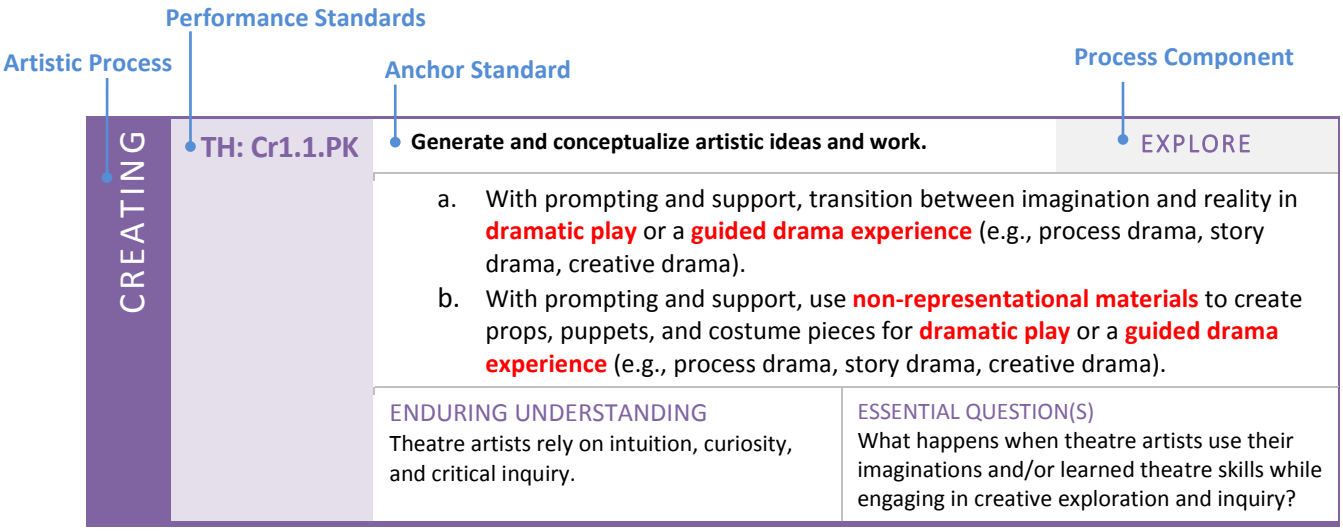
UNDERSTANDING THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the Arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the arts and are expressed as measurable outcomes across the grades pre-kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts.

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

Mississippi College- and Career-Readiness Arts Learning Standards			
ARTISTIC PROCESSES			
Cr— CREATING	**Pr**— PERFORMING/ PRESENTING/ PRODUCING	**Re**— RESPONDING	**Cn**— CONNECTING
DEFINITION	DEFINITION	DEFINITION	DEFINITION
Conceiving and developing new artistic ideas and work.	**PERFORMING** (dance, music, theatre)**:** Realizing artistic ideas and work through interpretation and presentation. **PRESENTING** (visual arts): Interpreting and sharing artistic work. **PRODUCING** (media arts): Realizing and presenting artistic ideas and work.	Understanding and evaluating how the arts convey meaning.	Relating artistic ideas and work with personal meaning and external context.
ANCHOR STANDARDS			
STUDENTS WILL	STUDENTS WILL	STUDENTS WILL	STUDENTS WILL
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	4. Select, analyze, and interpret artistic work for presentation. 5. Develop and refine artistic techniques and work for presentation. 6. Convey meaning through the presentation of artistic work.	7. Perceive and analyze artistic work. 8. Interpret intent and meaning in artistic work. 9. Apply criteria to evaluate artistic work.	10. Synthesize and relate knowledge and personal experiences to make art. 11. Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.



Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8th grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**
  Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.
- **HS - Accomplished**
  Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.
- **HS - Advanced**
  Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

Anchor Standard

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an "a" or "b" listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

Process Component

Each artistic process branches into Process Components**.** Process Components are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

Enduring Understandings

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student's ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

Essential Questions

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

Introduction to the Arts Learning Standards for Theatre

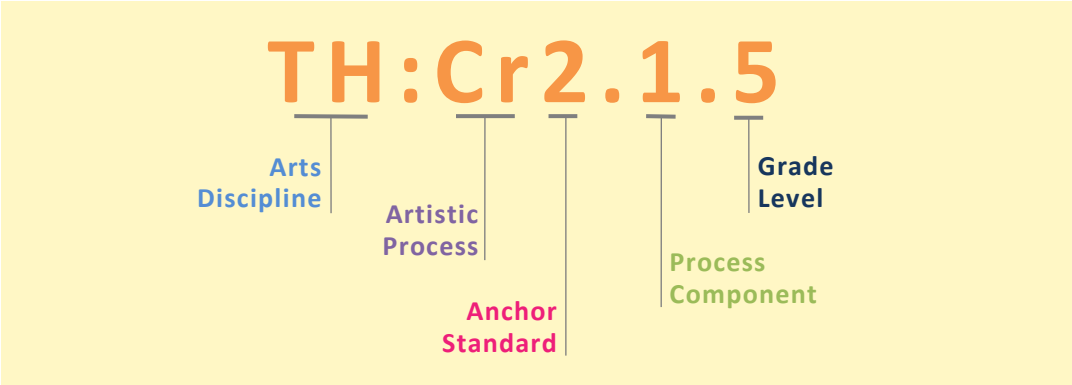
The Mississippi College- and Career-Readiness Arts Learning Standards for Theatre are designed to guide theatre educators as they help their students achieve independent theatre literacy. These grade-by-grade standards are an effort to articulate the most fundamental elements of theatre, in the hope that by doing so there will be recognition that every student can and should achieve a level of proficiency or beyond in this ancient and honorable craft.

The Mississippi College- and Career-Readiness Arts Learning Standards in Theatre are written with both drama processes and theatre products in mind. While many secondary theatre programs focus on performance and design in staged productions as evidence of a student's understanding and achievement in the art, ongoing student engagement in theatre without an end product in mind has not always been defined and valued. These standards address those drama processes as well as traditional theatre. Drama processes encompass envisioned worlds and unscripted activities designed to engage students in a wide range of real and imagined issues; theatre includes the broader and more traditional conventions of the craft that have been developed over the centuries—scripted plays, acting, public performance, and stagecraft.

To address both process and product in theatre, the grade 3 through high school standards of Proficient, Advanced, and Accomplished often include the term "drama/theatre" to clarify the distinct but companion parts of theatre education. The Pre-Kindergarten through grade 2 standards, acknowledging the early childhood need for supervision and unfettered play, employ the phraseology "dramatic play" and/or "guided drama experience."

GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.



Arts Discipline — The first two letters are codes for the arts discipline notation: **TH** = for Theatre

Artistic Process — The next two letters after the colon are the artistic process:

Cr = Creating **Pr** = Performing **Re** = Responding **Cn** = Connecting

Anchor Standard — The next number is the anchor standard, numbers 1 to 11.

Process Component — The next number after the period is the process components which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

Grade Level — The next number is the grade level. (Pre- Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Dance:

TH:Cr1.1.PK				
TH	**Cr**	**1**	**1**	**PK**
Arts discipline of Theatre	Artistic process of Creating	Anchor standard one	Process component	Pre-Kindergarten

TH:Pr5.1.4				
TH	**Pr**	**5**	**1**	**4**
Arts discipline of Theatre	Artistic process of Performing	Anchor standard five	Process component	Grade four

TH:Re8.1.6				
TH	**Re**	**8**	**1**	**6**
Arts discipline of Theatre	Artistic process of Responding	Anchor standard eight	Process component	Grade six

TH:Cn10.1.II				
TH	**Cn**	**10**	**1**	**II**
Arts discipline of Theatre	Artistic process of Connecting	Anchor standard ten	Process component	Roman numeral II is the high school level accomplished

PK

PERFORMING

TH: Pr4.1.PK

Select, analyze, and interpret artistic work for presentation. SELECT

a. With prompting and support, identify characters in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.PK

Develop and refine artistic techniques and work for presentation. PREPARE

a. With prompting and support, understand that imagination is fundamental to **dramatic play** and **guided drama experience** (e.g., process drama, story drama, creative drama).
b. With prompting and support, explore and experiment with various **technical elements** in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

TH: Pr6.1.PK

Convey meaning through the presentation of artistic work. SHARE / PRESENT

1262

a. With prompting and support, engage in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.PK

Perceive and analyze artistic work. REFLECT

a. With prompting and support, recall an emotional response in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

PK

RESPONDING

TH: Re8.1.PK — INTERPRET

Interpret intent and meaning in artistic work.

a. With prompting and support, explore preferences in **dramatic play**, **guided drama experience** (e.g., process drama, story drama, creative drama), or age-appropriate theatre performance.
b. With prompting and support, name and describe characters in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	How can the same work of art communicate different messages to different people?

TH: Re9.1.PK — EVALUATE

Apply criteria to evaluate artistic work.

a. With prompting and support, actively engage in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

1263

CONNECTING

TH: Cn10.1.PK — EMPATHIZE

Synthesize and relate knowledge and personal experiences to make art.

a. With prompting and support, identify similarities between a story and personal experience in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?

TH: Cn11.1.PK — INTERRELATE

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.

a. With prompting and support, use skills and knowledge from other areas in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?

CONNECTING

TH: Cn11.2.PK

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.

RESEARCH

a. With prompting and support, identify stories that are similar to one another in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. With prompting and support, tell a short story in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

1264

CREATING

TH: Cr1.1.K	**Generate and conceptualize artistic ideas and work.**	ENVISION / CONCEPTUALIZE
	a. With prompting and support, invent and inhabit an **imaginary elsewhere** in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama). b. With prompting and support, use **non-representational materials** to create props, puppets, and costume pieces for **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists rely on intuition, curiosity, and critical inquiry.	ESSENTIAL QUESTION(S) What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?
TH: Cr2.1.K	**Organize and develop artistic ideas and work.**	DEVELOP
	a. With prompting and support, interact with peers and contribute to **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama). b. With prompting and support, express original ideas in **dramatic play** or a **guided drama experience** (e.g., creative drama, process drama, story drama).	
	ENDURING UNDERSTANDING Theatre artists work to discover different ways of communicating meaning.	ESSENTIAL QUESTION(S) How, when, and why do theatre artists' choices change?
TH: Cr3.1.K	**Refine and complete artistic work.**	REHEARSE
	a. With prompting and support, ask and answer questions in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists refine their work and practice their craft through rehearsal.	ESSENTIAL QUESTION(S) How do theatre artists transform and edit their initial ideas?

K

PERFORMING

TH: Pr4.1.K — Select, analyze, and interpret artistic work for presentation. — SELECT

a. With prompting and support, identify characters in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.K — Develop and refine artistic techniques and work for presentation. — PREPARE

a. With prompting and support, understand that voice and sound are fundamental to **dramatic play** and **guided drama experiences** (e.g., process drama, story drama, creative drama).
b. With prompting and support, explore and experiment with various technical elements in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

TH: Pr6.1.K — Convey meaning through the presentation of artistic work. — SHARE / PRESENT

1266

a. With prompting and support, use voice and sound in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.K — Perceive and analyze artistic work. — REFLECT

a. With prompting and support, express an emotional response to characters in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

RESPONDING

TH: Re8.1.K

Interpret intent and meaning in artistic work. — INTERPRET

a. With prompting and support, identify preferences in **dramatic play**, a **guided drama experience** (e.g., process drama, story drama, creative drama), or age-appropriate theatre performance.
b. With prompting and support, name and describe settings in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	How can the same work of art communicate different messages to different people?

TH: Re9.1.K

Apply criteria to evaluate artistic work. — EVALUATE

a. With prompting and support, actively engage with others in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

1267

CONNECTING

TH: Cn10.1.K

Synthesize and relate knowledge and personal experiences to make art. — EMPATHIZE

a. With prompting and support, identify similarities between characters and oneself in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?

K

CONNECTING

TH: Cn11.1.K	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	INTERRELATE
	a. With prompting and support, identify skills and knowledge from other areas in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	ESSENTIAL QUESTION(S) What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?
TH: Cn11.2.K	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RESEARCH
	a. With prompting and support, identify stories that are different from one another in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama). b. With prompting and support, tell a short story in **dramatic play** or a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	ESSENTIAL QUESTION(S) In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

CREATING

TH: Cr1.1.1	**Generate and conceptualize artistic ideas and work.**	ENVISION / CONCEPTUALIZE

a. Propose potential choices characters could make in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Collaborate with peers to conceptualize costumes and props in a **guided drama experience** (e.g., process drama, story drama, creative drama).
c. Identify ways in which **gestures** and movement may be used to create or retell a story in **guided drama experiences** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists rely on intuition, curiosity, and critical inquiry.	What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?

TH: Cr2.1.1	**Organize and develop artistic ideas and work.**	DEVELOP

a. Contribute to the development of a sequential **plot** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. With prompting and support, participate in group decision making in a **guided drama experience** (e.g., process drama, story drama, creative drama).

1269

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists work to discover different ways of communicating meaning.	How, when, and why do theatre artists' choices change?

TH: Cr3.1.1	**Refine and complete artistic work.**	REHEARSE

a. Contribute to the adaptation of the **plot** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Identify similarities and differences in sounds and movements in a **guided drama experience** (e.g., process drama, story drama, creative drama).
c. Collaborate to imagine multiple representations of a single object in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists refine their work and practice their craft through rehearsal.	How do theatre artists transform and edit their initial ideas?

PERFORMING

TH: Pr4.1.1 — Select, analyze, and interpret artistic work for presentation. — SELECT

a. Describe a story's character actions and **dialogue** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Use body, face, **gestures**, and voice to communicate **character traits** and emotions in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.1 — Develop and refine artistic techniques and work for presentation. — PREPARE

a. With prompting and support, identify and understand that physical movement is fundamental to **guided drama experiences** (e.g., process drama, story drama, creative drama).
b. With prompting and support, identify technical elements that can be used in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

1270

TH: Pr6.1.1 — Convey meaning through the presentation of artistic work. — SHARE / PRESENT

a. With prompting and support, use movement and **gestures** to communicate emotions in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.1 — Perceive and analyze artistic work. — REFLECT

a. Recall choices made in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

1

RESPONDING

TH: Re8.1.1 — Interpret intent and meaning in artistic work. — INTERPRET

a. Explain preferences and emotions in a **guided drama experience** (e.g., process drama, story drama, creative drama), or age-appropriate theatre performance.
b. Identify causes of character actions in a **guided drama experience** (e.g., process drama, story drama, or creative drama).
c. Explain or use text and pictures to describe how personal emotions and choices compare to the emotions and choices of characters in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	How can the same work of art communicate different messages to different people?

TH: Re9.1.1 — Apply criteria to evaluate artistic work. — EVALUATE

a. Build on others' ideas in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Identify props and costumes that might be used in a **guided drama experience** (e.g., process drama, story drama, creative drama).
c. Compare and contrast the experiences of characters in a **guided drama experience** (e.g., process drama, story drama, creative drama).

1271

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

CONNECTING

TH: Cn10.1.1 — Synthesize and relate knowledge and personal experiences to make art. — EMPATHIZE

a. Identify character emotions in a **guided drama experience** (e.g., process drama, story drama, creative drama) and relate it to personal experience.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?

CONNECTING 1

TH: Cn11.1.1	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	INTERRELATE
	a. Apply skills and knowledge from different art forms and content areas in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	ESSENTIAL QUESTION(S) What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?
TH: Cn11.2.1	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RESEARCH
	a. Identify similarities and differences in stories from one's own community in a **guided drama experience** (e.g., process drama, story drama, creative drama). b. Collaborate on the creation of a short scene based on a fictional literary source in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	ESSENTIAL QUESTION(S) In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

1272

2

CREATING

TH: Cr1.1.2	**Generate and conceptualize artistic ideas and work.**	ENVISION / CONCEPTUALIZE

a. Propose potential new details to **plot** and story in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Collaborate with peers to conceptualize scenery in a **guided drama experience** (e.g., **process drama**, story **drama**, **creative drama**).
c. Identify ways in which voice and sounds may be used to create or retell a story in **guided drama experiences** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists rely on intuition, curiosity, and critical inquiry.	What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?

TH: Cr2.1.2	**Organize and develop artistic ideas and work.**	DEVELOP

a. Collaborate with peers to devise meaningful **dialogue** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Contribute ideas and make decisions as a group to advance a story in a **guided drama experience** (e.g., process drama, story drama, creative drama).

1273

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists work to discover different ways of communicating meaning.	How, when, and why do theatre artists' choices change?

TH: Cr3.1.2	**Refine and complete artistic work.**	REHEARSE

a. Contribute to the adaptation of **dialogue** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Use and adapt sounds and movements in a **guided drama experience** (e.g., process drama, story drama, creative drama).
c. Generate independently multiple representations of a single object in a **guided drama experience** (e.g., process drama, story drama, creative drama.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists refine their work and practice their craft through rehearsal.	How do theatre artists transform and edit their initial ideas?

PERFORMING

TH: Pr4.1.2 — Select, analyze, and interpret artistic work for presentation. — SELECT

a. Interpret **story elements** in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Alter voice and body to expand and articulate nuances of a character in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.2 — Develop and refine artistic techniques and work for presentation. — PREPARE

a. Demonstrate the relationship between and among body, voice, and mind in a **guided drama experience** (e.g., process drama, story drama, creative drama).
b. Explore technical elements in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

TH: Pr6.1.2 — Convey meaning through the presentation of artistic work. — SHARE / PRESENT

1274

a. Contribute to group **guided drama experiences** (e.g., process drama, story drama, creative drama) and informally share with peers.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.2 — Perceive and analyze artistic work. — REFLECT

a. Recognize when artistic choices are made in a **guided drama experience** (e.g., process drama, story drama, creative drama).

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

RESPONDING

TH: Re8.1.2	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Explain how personal preferences and emotions affect an observer's response in a **guided drama experience** (e.g., process drama, story drama, creative drama), or age-appropriate theatre performance. b. Identify causes and consequences of character actions in a **guided drama experience** (e.g., process drama, story drama, or creative drama). c. Explain or use text and pictures to describe how others' emotions and choices may compare to the emotions and choices of characters in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	ESSENTIAL QUESTION(S) How can the same work of art communicate different messages to different people?
TH: Re9.1.2	**Apply criteria to evaluate artistic work.**	EVALUATE
	a. Collaborate on a **scene** in a **guided drama experience** (e.g., process drama, story drama, creative drama). b. Use a prop or costume in a **guided drama experience** (e.g., process drama, story drama, creative drama) to describe characters, settings, or events. c. Describe how characters respond to challenges in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	ESSENTIAL QUESTION(S) How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

1275

CONNECTING

TH: Cn10.1.2	**Synthesize and relate knowledge and personal experiences to make art.**	EMPATHIZE
	a. Relate character experiences to personal experiences in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	ESSENTIAL QUESTION(S) What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?

CONNECTING 2

TH: Cn11.1.2	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	INTERRELATE
	a. Determine appropriate skills and knowledge from different art forms and content areas to apply in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	ESSENTIAL QUESTION(S) What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?
TH: Cn11.2.2	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RESEARCH
	a. Identify similarities and differences in stories from multiple cultures in a **guided drama experience** (e.g., process drama, story drama, creative drama). b. Collaborate on the creation of a short scene based on a non-fiction literary source in a **guided drama experience** (e.g., process drama, story drama, creative drama).	
	ENDURING UNDERSTANDING Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	ESSENTIAL QUESTION(S) In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

1276

CREATING

TH: Cr1.1.3	**Generate and conceptualize artistic ideas and work.**	ENVISION / CONCEPTUALIZE
	a. Create roles, **imagined worlds**, and **improvised** stories in a drama/theatre work. b. Imagine and articulate ideas for costumes, props and sets for the environment and characters in a drama/theatre work. c. Collaborate to determine how characters might move and speak to support the story and **given circumstances** in drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists rely on intuition, curiosity, and critical inquiry.	ESSENTIAL QUESTION(S) What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?
TH: Cr2.1.3	**Organize and develop artistic ideas and work.**	DEVELOP
	a. Participate in methods of investigation to devise original ideas for a drama/theatre work. b. Compare ideas with peers and make selections that will enhance and deepen group drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists work to discover different ways of communicating meaning.	ESSENTIAL QUESTION(S) How, when, and why do theatre artists' choices change?
TH: Cr3.1.3	**Refine and complete artistic work.**	REHEARSE
	a. Collaborate with peers to revise, refine, and adapt ideas to fit the given parameters of a drama theatre work. b. Participate and contribute to physical and vocal exploration in an **improvised** or scripted drama/theatre work. c. Practice and refine **design and technical** choices to support a **devised** or scripted drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists refine their work and practice their craft through rehearsal.	ESSENTIAL QUESTION(S) How do theatre artists transform and edit their initial ideas?

1277

PERFORMING

TH: Pr4.1.3 — Select, analyze, and interpret artistic work for presentation. — SELECT

a. Apply the elements of dramatic structure to a story and create a drama/theatre work.
b. Investigate how movement and voice are incorporated into drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.3 — Develop and refine artistic techniques and work for presentation. — PREPARE

a. Participate in a variety of physical, vocal, and cognitive exercises that can be used in a group setting for drama/theatre work.
b. Identify the basic **technical elements** that can be used in drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

TH: Pr6.1.3 — Convey meaning through the presentation of artistic work. — SHARE / PRESENT

a. Practice drama/theatre work and share reflections individually and in small groups.

1278

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.3 — Perceive and analyze artistic work. — REFLECT

a. Understand why artistic choices are made in a drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

RESPONDING

TH: Re8.1.3	**Interpret intent and meaning in artistic work.**	INTERPRET
	a. Consider multiple personal experiences when participating in or observing a drama/theatre work. b. Consider multiple ways to develop a character using physical characteristics and prop or costume design choices that reflect cultural perspectives in drama/theatre work. c. Examine how connections are made between oneself and a character's emotions in drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	ESSENTIAL QUESTION(S) How can the same work of art communicate different messages to different people?
TH: Re9.1.3	**Apply criteria to evaluate artistic work.**	EVALUATE
	a. Understand how and why groups evaluate drama/theatre work. b. Consider and analyze **technical elements** from multiple drama/theatre works. c. Evaluate and analyze problems and situations in a drama/theatre work from an audience perspective.	
	ENDURING UNDERSTANDING Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	ESSENTIAL QUESTION(S) How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

1279

CONNECTING

TH: Cn10.1.3	**Synthesize and relate knowledge and personal experiences to make art.**	EMPATHIZE
	a. Use personal experiences and knowledge to make connections to community and culture in a drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	ESSENTIAL QUESTION(S) What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?
TH: Cn11.1.3	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	INTERRELATE
	a. Identify connections to community, social issues and other content areas in drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	ESSENTIAL QUESTION(S) What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?

3

CONNECTING

TH: Cn11.2.3	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RESEARCH
	a. Explore how stories are adapted from literature to drama/theatre work. b. Examine how artists have historically presented the same stories using different art forms, **genres**, or drama/theatre **conventions**.	
	ENDURING UNDERSTANDING Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	ESSENTIAL QUESTION(S) In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

1280

CREATING

TH: Cr1.1.4	**Generate and conceptualize artistic ideas and work.**	ENVISION / CONCEPTUALIZE
	a. Articulate the visual details of **imagined worlds**, and **improvised** stories that support the **given circumstances** in a drama/theatre work. b. Visualize and design **technical elements** that support the story and **given circumstances** in a drama/theatre work. c. Imagine how a character might move to support the story and **given circumstances** in a drama/theatre work.	
	ENDURING UNDERSTANDING Theatre artists rely on intuition, curiosity, and critical inquiry.	ESSENTIAL QUESTION(S) What happens when theatre artists use their imaginations and/or learned theatre skills while engaging in creative exploration and inquiry?

Refine and complete artistic work. REHEARSE

a. Refine, transform, and re-imagine a **devised** or scripted drama/theatre work using the rehearsal process to invent or re-imagine **style**, **genre**, form, and **conventions**.
b. Synthesize ideas from research, **script analysis**, and context to create a performance that is **believable**, authentic, and relevant in a drama/theatre work.
c. Apply a high level of technical proficiencies to the rehearsal process to support the story and emotional impact of a **devised** or scripted drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists refine their work and practice their craft through rehearsal.	How do theatre artists transform and edit their initial ideas?

HS ADVANCED

PERFORMING

TH: Pr4.1.III
HS ADVANCED

Select, analyze, and interpret artistic work for presentation. SELECT

a. Apply reliable research of directors' styles to form unique choices for a directorial concept in a drama/theatre work.
b. Apply a variety of researched **acting techniques** as an approach to character choices in a drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists make strong choices to effectively convey meaning.	Why are strong choices essential to interpreting a drama or theatre piece?

TH: Pr5.1.III
HS ADVANCED

Develop and refine artistic techniques and work for presentation. PREPARE

a. Use and justify a collection of acting exercises from reliable resources to prepare a **believable** and sustainable performance.
b. Explain and justify the selection of **technical elements** used to build a design that communicates the concept of a drama/theatre production.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists develop personal processes and skills for a performance or design.	What can I do to fully prepare a performance or technical design?

1310

TH: Pr6.1.III
HS ADVANCED

Convey meaning through the presentation of artistic work. SHARE / PRESENT

a. Present a drama/theatre production for a specific audience that employs research and analysis grounded in the creative perspectives of the playwright, director, designer, and dramaturg.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists share and present stories, ideas, and envisioned worlds to explore the human experience.	What happens when theatre artists and audiences share a creative experience?

RESPONDING

TH: Re7.1.III
HS ADVANCED

Perceive and analyze artistic work. REFLECT

a. Use historical and cultural context to structure and justify personal responses to a drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists reflect to understand the impact of drama processes and theatre experiences.	How do theatre artists comprehend the essence of drama processes and theatre experiences?

HS ADVANCED

RESPONDING

TH: Re8.1.III
HS ADVANCED

Interpret intent and meaning in artistic work. INTERPRET

a. Use detailed supporting evidence and appropriate criteria to revise personal work and interpret the work of others when participating in or observing a drama/ theatre work.
b. Use new understandings of cultures and contexts to shape personal responses to drama/theatre work.
c. Support and explain aesthetics, preferences, and beliefs to create a context for critical research that informs artistic decisions in a drama/theatre work.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists' interpretations of drama/theatre work are influenced by personal experiences and aesthetics.	How can the same work of art communicate different messages to different people?

TH: Re9.1.III
HS ADVANCED

Apply criteria to evaluate artistic work. EVALUATE

a. Research and synthesize cultural and historical information related to a drama/theatre work to support or evaluate artistic choices.
b. Analyze and evaluate varied aesthetic interpretations of **production elements** for the same drama/theatre work.
c. Compare and debate the connection between a drama/theatre work and contemporary issues that may impact audiences.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists apply criteria to investigate, explore, and assess drama and theatre work.	How are the theatre artist's processes and the audience's perspectives impacted by analysis and synthesis?

1311

CONNECTING

TH: Cn10.1.III
HS ADVANCED

Synthesize and relate knowledge and personal experiences to make art. EMPATHIZE

a. Collaborate on a drama/theatre work that examines a critical global issue using multiple personal, community, and cultural perspectives.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Theatre artists allow awareness of interrelationships between self and others to influence and inform their work.	What happens when theatre artists foster understanding between self and others through critical awareness, social responsibility, and the exploration of empathy?

HS ADVANCED

CONNECTING

TH: Cn11.1.III HS ADVANCED	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	INTERRELATE
	a. Develop a drama/theatre work that identifies and questions cultural, global, and historic belief systems.	
	ENDURING UNDERSTANDING Theatre artists understand and can communicate their creative process as they analyze the way the world may be understood.	ESSENTIAL QUESTION(S) What happens when theatre artists allow an understanding of themselves and the world to inform perceptions about theatre and the purpose of their work?
TH: Cn11.2.III HS ADVANCED	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RESEARCH
	a. Justify the creative choices made in a **devised** or **scripted** drama/theatre work, based on a critical interpretation of specific data from theatre research. b. Present and support an opinion about the social, cultural, and historical understandings of a drama/theatre work, based on critical research.	
	ENDURING UNDERSTANDING Theatre artists critically inquire into the ways others have thought about and created drama processes and productions to inform their own work.	ESSENTIAL QUESTION(S) In what ways can research into theatre histories, theories, literature, and performances alter the way a drama process or production is understood?

1312

GLOSSARY

ACTING TECHNIQUES
Specific skills, pedagogies, theories, or methods of investigation used by an actor to prepare for a theatre performance.

BELIEVABILITY
Theatrical choices thought to be "true" based upon an understanding of any given fictional moment, interpretation of text, and/or human interaction.

CHARACTER TRAITS
Observable embodied actions that illustrate a character's personality, values, beliefs, and history.

CONFLICT
The problem, confrontation, or struggle in a scene or play; conflict may include a character against him or herself, a character in opposition to another character, a character against nature, a character against society, or a character against the supernatural.

CREATIVE DRAMA
A process-centered, non-exhibitional approach to drama intended to benefit the performers themselves; story drama and process drama are two types of creative.

CREATIVE PROCESSES
The application of production and technical elements (see the definitions) to a theatrical production.

DEVISED DRAMA
Creation of an original performance piece by an ensemble.

DIALOGUE
A conversation between two or more characters.

DRAMATIC PLAY
Make-believe where children naturally assign and accept roles, then act them out.

FOCUS
Commitment by a participant (an actor, technician, director) to remain in the scope of the project or to stay within the world of the play.

GENRE
Relating to a specific kind or type of drama and theatre such as a tragedy, drama, melodrama, comedy, or farce.

GESTURE
An expressive and planned movement of the body or limbs.

GIVEN CIRCUMSTANCES
The underlying actions and events that have happened before the play, story, or devised piece begins.

GUIDED DRAMA EXPERIENCE
A leader guides participants during a process drama, story drama, or creative drama experience (see the definitions) through side-coaching, narration, and prompting; the action of the drama does not stop in order for the leader to support the students; facilitator may guide participants in or out of role.

IMPROVISE
The spontaneous, intuitive, and immediate response of movement and speech; a distinction can be made between spontaneous improvisation, which is immediate and unrehearsed, and prepared improvisation, which is shaped and rehearsed.

IMAGINARY ELSEWHERE
An imagined location which can be historical, fictional, or realistic.

IMAGINED WORLDS
An imaginary world created collectively by participants in a drama experience.

INNER THOUGHTS
The underlying and implied meaning or intentions in the character's dialogue or actions (also known as subtext).

MOTIVATION
Reasons why a character behaves or reacts in a particular way in a scene or play.

NON-REPRESENTATIONAL MATERIALS
Objects which can be transformed into specific props through the imagination.

OBJECTIVE
A goal or particular need or want that a character has within a scene or play.

PLOT
A narrative as revealed through the action and/or dialogue; traditionally, a plot has the elements of exposition, inciting incident, conflict, rising action, climax, and resolution or falling action.

PROCESS DRAMA
A non-linear, episodic, process-centered, improvised form of drama in which teacher and students are in-role exploring and reflecting on an issue, story, theme, problem, or idea in a non-exhibitional format that is intended to benefit the performers themselves.

PRODUCTION ELEMENTS
Technical elements selected for use in a specific production, including sets, sound, costumes, lights, music, props, and make-up, as well as elements specific to the production such as puppets, masks, special effects, or other story telling devices/concepts.

SCRIPTED DRAMA
A piece of writing for the theatre that includes a description of the setting, a list of the characters, the dialogue, and the action of the characters.

SCRIPT ANALYSIS
The study of a script to understand the underlying structure and themes of the play's story, and the motives and objectives of its characters.

STAGING
Patterns of movement in a scene or play including, for example, stage crosses, entrances, and exits which help to convey meaning.

STORY DRAMA
Episodic, process-centered, improvised form of drama that uses existing literature as a starting point for drama exploration, the drama explores moments (before, after, or within) that may not exist in the story and is presented in a non-exhibitional format that is intended to benefit the performers themselves.

STORY ELEMENTS
Characters, setting, dialogue, and plot that create a story.

STYLE
The use of a specific set of characteristic or distinctive techniques such as realism, expressionism, epic theatre, documentary theatre, or classical drama; style may also refer to the unique artistic choices of a particular playwright, director, or actor.

TACTIC
The means by which a character seeks to achieve their objective, the selection of tactics are based on the obstacle presented; in acting and directing a tactic refers to a specific action verb.

TECHNICAL ELEMENTS
The elements of spectacle such as sets, sound, costume, lights, music, props, and makeup used to create a unified and meaningful design for a theatrical production.

THEATRICAL CONVENTIONS
Practices and/or devices that the audience and actors accept in the world of the play even when it is not realistic, such as a narrator, flashback, or an aside.

THEME
The aspect of the human condition under investigation in the drama; it can be drawn from unifying topics or questions across content areas.

VISAL COMPOSITION
The arrangement of actors and scenery on a stage for a theatrical production, sometimes known as mise en scène.

PURPOSE OF THE ARTS LEARNING STANDARDS

The Mississippi College- and Career-Readiness Arts Learning Standards in all the arts (dance, media arts, music, theatre, and visual arts) are designed to empower and inspire arts educators and their students to explore the many facets of the arts and prepare them for a lifetime of engagement with art forms. The Mississippi Department of Education is dedicated to student success, improving student achievement in the arts, equipping citizens to solve complex problems, and establishing fluent communication skills within a technological environment. The Mississippi College- and Career-Readiness Arts Learning Standards for Dance, Media Arts, Music, Theatre, and Visual Arts are designed to be robust and relevant to the real world, reflecting the knowledge and skills that students need for success in college and careers and to compete in the global economy.

The purposes of education standards are to identify the learning that we want for all of our students and to drive improvement in the system that delivers that learning. Standards, therefore, should embody the key concepts, processes and traditions of study in each subject area, and articulate the aspirations of those invested in our schools—students, teachers, administrators, and the community at large. To realize that end goal, these Mississippi Arts Learning Standards are framed by artistic literacy, as outlined in philosophical foundations, lifelong goals, and artistic processes; articulated as anchor and performance standards that students should attain. The connective threads of this conceptual framework are designed to be understood by all stakeholders and, ultimately, to ensure success for both educators and students.

The Mississippi College- and Career-Readiness Arts Learning Standards are aligned with the National Arts Standards which were launched in 2014. The National Standards for all the arts engaged 130 arts educators as writers and 6,000 as reviewers. In addition, the national arts organizations and state directors in dance, media arts, music, theatre, and visual arts participated in the creation and editing of these documents. Under the guidance of the State Education Agency Directors of Arts Education, each state has the flexibility to adopt and adapt the National Standards to align with their own. Using advisory boards with state leaders and exemplary teachers in each of the arts, the state of Mississippi worked for over two years to align with the National Standards and create the Mississippi College- and Career-Readiness Arts Learning Standards.

Mission of Arts Education

The mission of arts education in Mississippi is to ensure that students know and experience the uniqueness of the arts, understand themselves and their world by creating, expressing, and communicating meaning through the arts, and value the arts as humanity's most essential and universal language transcending culture, time, and place.

Arts Integration

The Mississippi Department of Education values Arts Integration which is an approach to teaching in which students construct and demonstrate understanding through an art form in all subject areas. According to the Kennedy Center, Arts Integration promotes student engagement in a creative process in subjects outside the arts. This integration connects an art form and another subject area and meets evolving objectives in both.

Artistic Literacy

Artistic Literacy is the knowledge and understanding required to participate authentically in the arts. Authentic participation in the arts call for an understanding of the processes that lead to fluency in an art form. Fluency in the languages(s) of the arts is the ability to create, perform/produce/present, respond, and connect through symbolic and metaphoric forms that are unique to the arts. It is embodied in specific philosophical foundations and lifelong goals that enable an artistically literate person to transfer arts knowledge, skills, and capacities to other subjects, settings, and contexts.

To be literate in the arts, students need specific knowledge and skills in a particular arts discipline to a degree that allows for fluency and deep understanding. In all the arts this means discovering the expressive elements and knowing the terminology that is used to comprehend an art form. Students should also have a clear sense of embodying that art form and be able to reflect, critique, and connect personal experience to the arts.

Overview of the Arts Learning Standards

The primary purpose of the 2017 Mississippi College- and Career-Readiness Arts Learning Standards is to provide a basis for curriculum development for grades Pre-Kindergarten-12th arts (dance, media arts, music, theatre, and visual arts) teachers in Mississippi. This document describes what students should know and be able to do by the end of each grade level in preparation for college and career. These standards provide guidance in:

- Defining artistic literacy through a set of overarching Philosophical Foundations and Lifelong Goals that clarify long-term expectations for arts learning.
- Placing Artistic Processes and Anchor Standards as the focus of the work.
- Identifying Creative Practices in the application of the Artistic Processes across all learning.
- Specifying Enduring Understandings and Essential Questions that provide conceptual connections and articulate value and meaning within and across the art discipline.

Benefits of the Arts in Education

The arts have always served as the distinctive vehicle for discovering who we are. Providing ways of thinking as disciplined as science or math and as disparate as philosophy or literature, the arts are used by and have shaped every culture and individual on earth. They continue to infuse our lives on nearly all levels—generating a significant part of the creative and intellectual capital that drives our economy. The arts inform our lives with meaning every time we experience the joy of a well-remembered song, experience the flash of inspiration that comes with immersing ourselves in an artist's sculpture, enjoying a sublime dance, learning from an exciting animation, or being moved by a captivating play.

The fact that the arts provide important touchstones confirms their value to the development of every human being. Nurturing our children, then, necessarily means that we must provide all of them with a well-rounded education that includes the arts. By doing so, we are fulfilling the college and career readiness needs of our students, laying the foundations for the success of our schools and, ultimately, the success of our state and nation.

FOUNDATIONS AND GOALS

The following philosophical foundations and lifelong goals establish the basis for the Mississippi College- and Career-Readiness Arts Learning Standards and illuminate artistic literacy by expressing the overarching common values and expectations for learning in arts education across the five arts disciplines.

THE ARTS AS COMMUNICATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
In today's multimedia society, the arts are the media, and therefore provide powerful and essential means of communication. The arts provide unique symbol systems and metaphors that convey and inform life experience (i.e., the arts are ways of knowing).	Artistically literate citizens use a variety of artistic media, symbols, and metaphors to independently create and perform work that expresses and communicates their own ideas, and are able to respond by analyzing and interpreting the artistic communications of others.

THE ARTS AS CREATIVE PERSONAL REALIZATION	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in each of the arts as creators, performers, and audience members enables individuals to discover and develop their own creative capacity, thereby providing a source of lifelong satisfaction.	Artistically literate citizens find at least one arts discipline in which they develop sufficient competence to continue active involvement in creating, performing, and responding to art as an adult.

THE ARTS AS CULTURE, HISTORY, AND CONNECTORS	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Throughout history the arts have provided essential means for individuals and communities to express their ideas, experiences, feelings and deepest beliefs. Each discipline shares common goals, but approaches them through distinct media and techniques. Understanding artwork provides insights into individuals' own and others' cultures and societies, while also providing opportunities to access, express, and integrate meaning across a variety of content areas.	Artistically literate citizens know and understand artwork from varied historical periods and cultures, and actively seek and appreciate diverse forms and genres of artwork of enduring quality/significance. They also seek to understand relationships among the arts, and cultivate habits of searching for and identifying patterns, relationships between the arts and other knowledge.

THE ARTS AS MEANS TO WELLBEING	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
Participation in the arts as creators, performers, and audience members (responders) enhances mental, physical, and emotional wellbeing.	Artistically literate citizens find joy, inspiration, peace, intellectual stimulation, meaning, and other life-enhancing qualities through participation in all of the arts.

THE ARTS AS COMMUNITY ENGAGEMENT	
PHILOSOPHICAL FOUNDATION	LIFELONG GOALS
The arts provide means for individuals to collaborate and connect with others in an enjoyable, inclusive environment as they create, prepare, and share artworks that bring communities together.	Artistically literate citizens seek artistic experiences and support the arts in their local, state, national, and global communities.

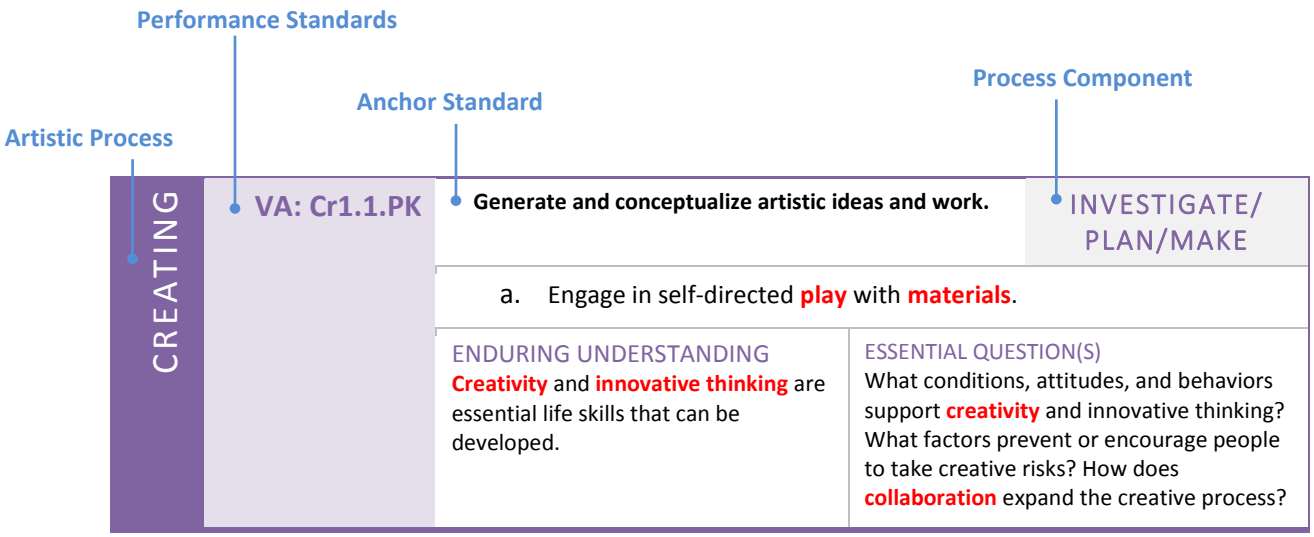
Understanding the Arts Learning Standards

The Mississippi College- and Career-Readiness Arts Learning Standards in dance, media arts, music, theatre, and visual arts are rooted in a creative approach to teaching and learning. They describe expectations for learning in the arts (dance, media arts, music, theatre, and visual arts) regardless of culture, style or genre and impart the breadth and depth of the Arts experience through the art-making processes. Four artistic processes organize the standards across the arts disciplines: Creating, Performing/Presenting/Producing, Responding, and Connecting. Each artistic process includes a set of overarching anchor standards. The anchor standards are consistent among the arts disciplines.

Each anchor standard in the arts is supported by a process component, an enduring understanding, and an essential question. These additional features will benefit educational leaders and teachers as they consider curricular models and structure lessons aligned to the Mississippi College- and Career-Readiness Arts Learning Standards. Performance standards describe more specifically what students should know and be able to do in the Arts and are expressed as measurable outcomes across the grades pre-kindergarten to eighth grade and into high school at three levels of proficiency. The performance standards are the substantive portion of the work and represent the depth of study in the arts (dance, media arts, music, theatre, and visual arts).

Of significance is that the four artistic processes are addressed linearly in written standards, but are envisioned to occur simultaneously in the actual practice of the arts (dance, media arts, music, theatre, and visual arts). In dance, for example, a dancer imagines, envisions, or improvises movements (creating), executes the movements (performing), reflects on them (responding), and connects the experience to all other contexts of meaning or knowledge (connecting). As a result, one lesson can address many standards at the same time. In a single class, students can learn by solving problems, showing their ideas through an art form, thinking critically about them, and relating them to other ideas, experiences, contexts, and meanings.

Mississippi College- and Career-Readiness Arts Learning Standards			
ARTISTIC PROCESSES			
Cr— CREATING	**Pr**— PERFORMING/ PRESENTING/ PRODUCING	**Re**— RESPONDING	**Cn**— CONNECTING
DEFINITION	DEFINITION	DEFINITION	DEFINITION
Conceiving and developing new artistic ideas and work.	**PERFORMING** (dance, music, theatre)**:** Realizing artistic ideas and work through interpretation and presentation. **PRESENTING** (visual arts): Interpreting and sharing artistic work. **PRODUCING** (media arts): Realizing and presenting artistic ideas and work.	Understanding and evaluating how the arts convey meaning.	Relating artistic ideas and work with personal meaning and external context.
ANCHOR STANDARDS			
STUDENTS WILL	STUDENTS WILL	STUDENTS WILL	STUDENTS WILL
1. Generate and conceptualize artistic ideas and work. 2. Organize and develop artistic ideas and work. 3. Refine and complete artistic work.	4. Select, analyze, and interpret artistic work for presentation. 5. Develop and refine artistic techniques and work for presentation. 6. Convey meaning through the presentation of artistic work.	7. Perceive and analyze artistic work. 8. Interpret intent and meaning in artistic work. 9. Apply criteria to evaluate artistic work.	10. Synthesize and relate knowledge and personal experiences to make art. 11. Relate artistic ideas and works with societal, cultural and historical context to deepen understanding.



Performance Standards

Performance Standards are discipline-specific, grade-by-grade articulations of student achievement toward developing the enduring understandings in Pre-Kindergarten-8th grade and at three proficiency levels in high school (proficient, accomplished and advanced). The three high school levels are listed below with their definitions. As such, the Performance Standards translate the enduring understandings into specific, measurable learning goals. Each district is responsible for determining how they will measure student growth in meeting these expectations.

- **HS - Proficient**
  Students at the Proficient level have developed the foundational technical and expressive skills and understandings in all the arts (dance, media arts, music, theatre, and visual arts) necessary to solve assigned problems or prepare assigned repertoire; make appropriate choices with some support; and may be prepared for active engagement in their community. They understand the arts to be an important form of personal realization and well-being, and can make connections between the arts, history, culture and other learning.
- **HS - Accomplished**
  Students at the Accomplished level are - with minimal assistance - able to identify or solve arts (dance, media arts, music, theatre, and visual arts) problems based on their interests or for a particular purpose; conduct research to inform artistic decisions; and create and refine arts products that demonstrate technical proficiency, personal communication and expression. They use the arts for personal realization and well-being, and have the necessary skills for and interest in participation in an arts activity beyond the school environment.
- **HS - Advanced**
  Students at the Advanced level independently identify challenging problems in the arts (dance, media arts, music, theatre, and visual arts) based on their interests or for specific purposes, and bring creativity and insight to finding artistic solutions. They can use at least one art form as an effective avenue for personal communication, demonstrating a high level of technical and expressive proficiency characteristic of honors or college level work. They exploit their personal strengths and apply strategies to overcome personal challenges as arts learners. They are capable of taking a leadership role in the arts activities within and beyond the school environment.

Anchor Standard

Each artistic process branches into two or three Anchor Standards. Anchor Standards describe the overarching knowledge and understandings that all the arts (dance, media arts, music, theatre, and visual arts) address through instruction. They bind all the arts and demonstrate the knowledge and understandings that the arts address through instruction. They work as subsets of the processes. These Anchor Standards are parallel across all the arts disciplines and grade levels and serve as the tangible educational expression of artistic literacy. There are eleven Anchor Standards. If a standard has an "a" or "b" listed below the Anchor Standard, it means that the standard at that grade has more than one part. Words in red are defined in the Glossary.

Process Component

Each artistic process branches into Process Components**.** Process Components are the actions artists carry out as they complete each artistic process. Students' ability to carry out these operational verbs empowers them to work through the artistic process independently. The Process Components serve as the action verbs that collectively build toward the artistic processes.

Enduring Understandings

Enduring Understandings are statements summarizing important ideas and core processes that are central to a discipline and have lasting value beyond the classroom. They synthesize what students should come to understand as a result of studying a particular content area. Moreover, they articulate what students should value about the content area over the course of their lifetimes. Enduring Understandings should also enable students to make connections to other disciplines beyond the arts. A true grasp of an Enduring Understanding mastered through a variety of activities is demonstrated by the student's ability to explain, interpret, analyze, apply and evaluate its core elements. The Enduring Understandings set the standards for quality arts education.

Essential Questions

Essential Questions are questions that are not answerable with finality in a brief sentence. Their aim is to stimulate thought, to provoke inquiry, and to spark more questions, including thoughtful student questions. Instead of thinking of content as something to be covered, consider knowledge and skill as the means of addressing questions central to understanding key issues in a subject. Essential Questions also guide students as they uncover enduring understandings. Wiggins and McTighe (2005) assert that Essential Questions are those that encourage, hint at, even demand transfer beyond the particular topic in which students first encounter them, and therefore, should recur over the years to promote conceptual connections and curriculum coherence.

Introduction to the Arts Learning Standards For Visual Arts

The Mississippi College- and Career-Readiness Arts Learning Standards for Visual Arts include the traditional fine arts such as drawing, painting, printmaking, photography, and sculpture; media arts including film, graphic communications, animation, and emerging technologies; architectural, environmental, and industrial arts such as urban, interior, product, and landscape design; folk arts; and works of art such as ceramics, fibers, jewelry, works in wood, paper, and other materials. (National Art Education Association)

The Visual Arts Standards provide learning progressions from Pre-Kindergarten–12th grade and provide a context for the grade level visual arts Performance Standards. These include Philosophical Foundations and Lifelong Goals for Artistic Literacy; Definitions of the artistic processes of Creating, Presenting, Responding, and Connecting; and Anchor Standards which are common across all five of the arts disciplines. The glossary provides definitions for those terms which the writing team felt would benefit from explaining the context or point of view regarding the use of the term within the standards.

1. The standards provide the foundation for visual art education for all students. The standards support student-learning outcomes through big ideas – enduring understandings and essential questions. The concepts embedded in the standards reflect the scope of learning – the knowledge, skills, and understandings - taught through study of the visual arts. By including all aspects of creating, presenting, responding, and connecting in study of the visual arts, student learning through these standards explores the full scope of what it means to be an artistically literate citizen. While presented chronologically, the processes are best designed and taught in a blended fashion to support rich artistic skills and behaviors.

2. The standards provide ways to address the content of visual art education within the school year. There are 15 Enduring Understandings with 15 correlated grade-by-grade (Pre-Kindergarten-8th grade and three levels for high school) Performance Standards. Art educators will be able to cluster group standards using more than one within a given instructional unit. The Performance Standards offer a practical system for teachers to use to inform their instruction.

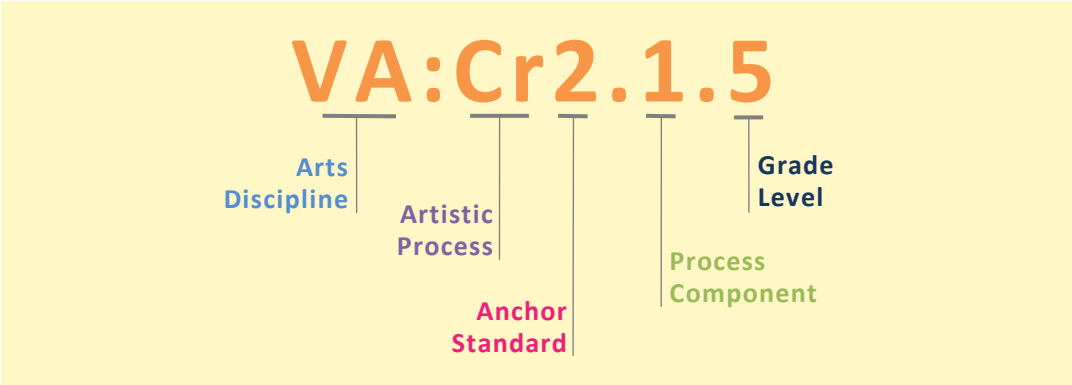
3. The standards emphasize deep learning in the visual arts creating higher expectations and support college, career and citizenship readiness for all students. The performance standards offer learning progressions for students. Embedded in the standards are ideas about how arts learning can be broadened and deepened to support students in making meaning of their lives and their world. Essential questions are provided for teachers as thought starters promoting inquiry based teaching and learning. They support communicating

and learning in art by providing language needed for students and stakeholders alike.

4. The standards provide opportunities for educators to reflect on their practice. The visual arts performance standards are fundamentally grounded in collective beliefs about what constitutes effective teaching and learning. Individual educators are encouraged to review and use the standards in achieving the goal of continuous improvement. Whether it means updating curriculum or adapting an individual art lesson or curriculum unit, the visual arts standards inspire and support the ways in which art educators keep their teaching fresh and dynamic.

GUIDE TO THE ARTS LEARNING STANDARDS NOTATION

Each Performance Standard employs a notation system for identification purposes as seen in the example below. The notation provides a quick and easy reference to a particular standard within each artistic process. In sequence, the system references Arts Discipline, Artistic Process, Anchor Standard, Process Component, and Grade Level.



Arts Discipline — The first two letters are codes for the arts discipline notation: **VA** = for Visual Arts

Artistic Process — The next two letters after the colon are the artistic process:

Cr = Creating **Pr** = Presenting **Re** = Responding **Cn** = Connecting

Anchor Standard — The next number is the anchor standard, numbers 1 to 11.

Process Component — The next number after the period is the process component which may have more than one standard indicated with an a or b. Process components are actions artists carry out as they engage in each artistic process.

Grade Level — The next number is the grade level. (Pre-Kindergarten (PK) and Kindergarten (K); grades 1-8; I, II, III, high school proficient, accomplished, advanced)

Below are a few examples of how to read the numbering system for Visual Arts:

VA:Cr1.1.PK				
VA	**Cr**	**1**	**1**	**PK**
Arts discipline of Visual Arts	Artistic process of Creating	Anchor standard one	Process component	Pre-Kindergarten

VA:Pr5.1.4				
VA	**Pr**	**5**	**1**	**4**
Arts discipline of Visual Arts	Artistic process of Presenting	Anchor standard five	Process component	Grade four

VA:Re8.1.6				
VA	**Re**	**8**	**1**	**6**
Arts discipline of Visual Arts	Artistic process of Responding	Anchor standard eight	Process component	Grade six

VA:Cn10.1.II				
VA	**Cn**	**10**	**1**	**II**
Arts discipline of Visual Arts	Artistic process of Connecting	Anchor standard ten	Process component	Roman numeral II is the high school level accomplished

Pre-Kindergarten

CREATING

VA: Cr1.1.PK	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Engage in self-directed **play** with **materials**.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.PK	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Engage in self-directed, creative making.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.PK	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Use a variety of art-making tools.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?
VA: Cr2.2.PK	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Share **materials** with others.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?

1334

CREATING

VA: Cr2.3.PK

Organize and develop artistic ideas and work. — INVESTIGATE

a. Create and tell about art that communicates a story about a familiar place or object.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?

VA: Cr3.1.PK

Refine and complete artistic work. — REFLECT / REFINE / COMPLETE

a. Share and talk about personal artwork.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely? 1335

PRESENTING

VA: Pr4.1.PK

Select, analyze and interpret artistic work for presentation. — SELECT

a. Identify reasons for saving and displaying objects, artifacts, and artwork.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?

PK

PRESENTING

VA: Pr5.1.PK

Develop and refine artistic techniques and work for presentation. — ANALYZE

a. Identify places where art may be displayed or saved.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection?

VA: Pr6.1.PK

Convey meaning through the presentation of artistic work. — SHARE

a. Identify where art is displayed both inside and outside of school.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

1336

RESPONDING

VA: Re7.1.PK

Perceive and analyze artistic work. — PERCEIVE

a. Recognize art in one's environment.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?

VA: Re7.2.PK

Perceive and analyze artistic work. — PERCEIVE

a. Distinguish between **images** and real objects.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Visual imagery influences understanding of and responses to the world.	What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?

RESPONDING

VA: Re8.1.PK

Interpret intent and meaning in artistic work. — ANALYZE

a. Interpret art by identifying and describing subject matter.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People gain insights into meanings of artworks by engaging in the process of art criticism.	What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?

VA: Re9.1.PK

Apply criteria to evaluate artistic work. — INTERPRET

a. Select a preferred artwork.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People evaluate art based on various **criteria**	How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

CONNECTING

VA: Cn10.1.PK

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE 1337

a. Explore the world using descriptive and expressive words and art-making.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?

VA: Cn11.1.PK

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Recognize that people make art.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

CREATING

VA: Cr1.1.K	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Engage in exploration and **imaginative play** with **materials**.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.K	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Engage **collaboratively** in creative art-making in response to an artistic problem.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.K	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Through experimentation, build skills in various **media** and approaches to art-making.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?
VA: Cr2.2.K	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Identify safe and non-toxic art **materials**, tools, and equipment.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?

1338

CREATING

VA: Cr2.3.K	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Create art that represents natural and constructed environments.	
	ENDURING UNDERSTANDING People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	ESSENTIAL QUESTION(S) How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?
VA: Cr3.1.K	**Refine and complete artistic work.**	REFLECT / REFINE / COMPLETE
	a. Explain the process of making art while creating.	
	ENDURING UNDERSTANDING Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	ESSENTIAL QUESTION(S) What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

1339

K

PRESENTING

VA: Pr4.1.K	**Select, analyze and interpret artistic work for presentation.**	SELECT
	a. Select art objects for personal **portfolio** and display, explaining why they were chosen.	
	ENDURING UNDERSTANDING Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	ESSENTIAL QUESTION(S) How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?
VA: Pr5.1.K	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. Explain the purpose of a **portfolio** or collection.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection? 1340
VA: Pr6.1.K	**Convey meaning through the presentation of artistic work.**	SHARE
	a. Explain what an art museum is and distinguish how an art museum is different from other buildings.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

K

RESPONDING

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Create works of art about events in home, school, or community life.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?

VA: Cn11.1.2

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Compare and contrast cultural uses of artwork from different times and places.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

CREATING

VA: Cr1.1.3	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Elaborate on an imaginative idea.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.3	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Apply knowledge of available resources, tools, and **technologies** to investigate personal ideas through the art-making process.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.3	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Create personally satisfying artwork using a variety of artistic processes and **materials**.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?

CREATING

VA: Cr2.2.3	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate an understanding of the safe and proficient use of **materials**, tools, and equipment for a variety of artistic processes.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?
VA: Cr2.3.3	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Individually or **collaboratively** construct representations, diagrams, or maps of places that are part of everyday life.	
	ENDURING UNDERSTANDING People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	ESSENTIAL QUESTION(S) How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems?1352 How do artists and designers create works of art or design that effectively communicate?
VA: Cr3.1.3	**Refine and complete artistic work.**	REFLECT / REFINE / COMPLETE
	a. Elaborate visual information by adding details in an artwork to enhance emerging meaning.	
	ENDURING UNDERSTANDING Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	ESSENTIAL QUESTION(S) What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

PRESENTING

VA: Pr4.1.3	**Select, analyze and interpret artistic work for presentation.**	SELECT
	a. Investigate and discuss possibilities and limitations of spaces, including electronic, for exhibiting artwork.	
	ENDURING UNDERSTANDING Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	ESSENTIAL QUESTION(S) How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?
VA: Pr5.1.3	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. Identify exhibit space and prepare works of art including **artists' statements**, for presentation.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection?
VA: Pr6.1.3	**Convey meaning through the presentation of artistic work.**	SHARE
	a. Identify and explain how and where different cultures record and illustrate stories and history of life through art.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

1353

RESPONDING

VA: Re7.1.3	**Perceive and analyze artistic work.**	PERCEIVE
	a. Speculate about processes an artist uses to create a work of art.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?
VA: Re7.2.3	**Perceive and analyze artistic work.**	PERCEIVE
	a. Determine messages communicated by an **image**.	
	ENDURING UNDERSTANDING **Visual imagery** influences understanding of and responses to the world.	ESSENTIAL QUESTION(S) What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?
VA: Re8.1.3	**Interpret intent and meaning in artistic work.**	ANALYZE
	a. Interpret art by analyzing use of **media** to create subject matter, **characteristics of form**, and mood.	
	ENDURING UNDERSTANDING People gain insights into meanings of artworks by engaging in the process of art criticism.	ESSENTIAL QUESTION(S) What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?
VA: Re9.1.3	**Apply criteria to evaluate artistic work.**	INTERPRET
	a. Evaluate an artwork based on given **criteria**.	
	ENDURING UNDERSTANDING People evaluate art based on various **criteria**.	ESSENTIAL QUESTION(S) How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

1354

CONNECTING

VA: Cn10.1.3	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Develop a work of art based on observations of surroundings.	
	ENDURING UNDERSTANDING Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	ESSENTIAL QUESTION(S) How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?
VA: Cn11.1.3	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
	a. Recognize that responses to art change depending on knowledge of the time and place in which it was made.	
	ENDURING UNDERSTANDING People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	ESSENTIAL QUESTION(S) How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

1355

CREATING

VA: Cr1.1.4	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. **Brainstorm** multiple approaches to a creative art or design problem.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.4	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. **Collaboratively** set goals and create artwork that is meaningful and has purpose to the makers.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.4	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Explore and invent art-making techniques and approaches.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?
VA: Cr2.2.4	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. When making works of art, utilize and care for **materials**, tools, and equipment in a manner that prevents danger to oneself and others.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?

1356

CREATING

VA: Cr2.3.4

Organize and develop artistic ideas and work. — INVESTIGATE

a. Document, describe, and represent regional constructed environments.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?

VA: Cr3.1.4

Refine and complete artistic work. — REFLECT / REFINE / COMPLETE

a. Revise artwork in progress on the basis of insights gained through peer discussion.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

1357

PRESENTING

VA: Pr4.1.4

Select, analyze and interpret artistic work for presentation. — SELECT

a. Analyze how past, present, and emerging **technologies** have impacted the **preservation** and presentation of artwork.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?

PRESENTING

VA: Pr5.1.4	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. Analyze the various considerations for presenting and protecting art in various locations, indoor or outdoor settings, in temporary or permanent forms, and in physical or **digital formats**.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection?
VA: Pr6.1.4	**Convey meaning through the presentation of artistic work.**	SHARE
	a. Compare and contrast purposes of art museums, art galleries, and other venues, as well as the types of personal experiences they provide.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

1358

RESPONDING

VA: Re7.1.4	**Perceive and analyze artistic work.**	PERCEIVE
	a. Compare responses to a work of art before and after working in similar **media**.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?

RESPONDING

VA: Re7.2.4

Perceive and analyze artistic work. — PERCEIVE

a. Analyze components in **visual imagery** that convey messages.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Visual imagery influences understanding of and responses to the world.	What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?

VA: Re8.1.4

Interpret intent and meaning in artistic work. — ANALYZE

a. Interpret art by referring to contextual information and analyzing relevant subject matter, **characteristics of form**, and use of **media**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People gain insights into meanings of artworks by engaging in the process of art criticism.	What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?

VA: Re9.1.4

Apply criteria to evaluate artistic work. — INTERPRET 1359

a. Apply one set of **criteria** to evaluate more than one work of art.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People evaluate art based on various **criteria**.	How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

CONNECTING

VA: Cn10.1.4

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Create works of art that reflect community **cultural traditions**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?

CONNECTING	VA: Cn11.1.4	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
		a. Through observation, infer information about time, place, and culture in which a work of art was created.	
		ENDURING UNDERSTANDING People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	ESSENTIAL QUESTION(S) How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

CREATING

VA: Cr1.1.7	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Apply methods to overcome creative blocks.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.7	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Develop **criteria** to guide making a work of art or design to meet an identified goal.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.7	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate persistence in developing skills with various **materials**, methods, and approaches in creating works of art or design.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?

1371

CREATING

VA: Cr2.2.7	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate awareness of ethical responsibility to oneself and others when posting and sharing **images** and other materials through the Internet, social media, and other communication formats.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?
VA: Cr2.3.7	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Apply **visual organizational strategies** to design and produce a work of art, **design**, or media that clearly communicates information or ideas.	
	ENDURING UNDERSTANDING People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	ESSENTIAL QUESTION(S) How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate? 1372
VA: Cr3.1.7	**Refine and complete artistic work.**	REFLECT / REFINE / COMPLETE
	a. Reflect on and explain important information about personal artwork in an **artist statement** or another format.	
	ENDURING UNDERSTANDING Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	ESSENTIAL QUESTION(S) What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

PRESENTING

VA: Pr4.1.7	**Select, analyze and interpret artistic work for presentation.**	SELECT
	a. Compare and contrast how **technologies** have changed the way artwork is preserved, presented, and experienced.	
	ENDURING UNDERSTANDING Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	ESSENTIAL QUESTION(S) How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?
VA: Pr5.1.7	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. Based on **criteria**, analyze and evaluate methods for preparing and presenting art.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection? 1373
VA: Pr6.1.7	**Convey meaning through the presentation of artistic work.**	SHARE
	a. Compare and contrast viewing and experiencing collections and exhibitions in different **venues**.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

RESPONDING

VA: Re7.1.7	**Perceive and analyze artistic work.**	PERCEIVE
	a. Explain how the method of display, the location, and the experience of an artwork influence how it is perceived and valued.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?
VA: Re7.2.7	**Perceive and analyze artistic work.**	PERCEIVE
	a. Analyze multiple ways that **images** influence specific audiences.	
	ENDURING UNDERSTANDING **Visual imagery** influences understanding of and responses to the world.	ESSENTIAL QUESTION(S) What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?
VA: Re8.1.7	**Interpret intent and meaning in artistic work.**	ANALYZE 1374
	a. Interpret art by analyzing art-making approaches, the **characteristics of form** and structure, relevant contextual information, subject matter, and use of **media** to identify ideas and mood conveyed.	
	ENDURING UNDERSTANDING People gain insights into meanings of artworks by engaging in the process of art criticism.	ESSENTIAL QUESTION(S) What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?
VA: Re9.1.7	**Apply criteria to evaluate artistic work.**	INTERPRET
	a. Compare and explain the difference between an evaluation of an artwork based on **personal criteria** and an evaluation of an artwork based on a set of **established criteria**.	
	ENDURING UNDERSTANDING People evaluate art based on various **criteria**.	ESSENTIAL QUESTION(S) How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

CONNECTING

VA: Cn10.1.7	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Individually or **collaboratively** create visual documentation of places and times in which people gather to make and experience art or design in the community.	
	ENDURING UNDERSTANDING Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	ESSENTIAL QUESTION(S) How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?
VA: Cn11.1.7	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
	a. Analyze how response to art is influenced by understanding the time and place in which it was created, the available resources, and cultural uses.	
	ENDURING UNDERSTANDING People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	ESSENTIAL QUESTION(S) How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

1375

CREATING

VA: Cr1.1.8	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Document early stages of the creative process visually and/or verbally in traditional or new **media**.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.8	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. **Collaboratively** shape an **artistic investigation** of an aspect of present-day life using a contemporary practice of art and design.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.8	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate willingness to experiment, innovate, and take risks to pursue ideas, forms, and meanings that emerge in the process of art-making or designing.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?

1376

CREATING

VA: Cr2.2.8	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate awareness of practices, issues, and ethics of **appropriation**, **fair use**, **copyright**, **open source**, and **creative commons** as they apply to creating works of art and design.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?
VA: Cr2.3.8	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Select, organize, and **design images** and words to make visually clear and compelling presentations.	
	ENDURING UNDERSTANDING People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	ESSENTIAL QUESTION(S) How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?
VA: Cr3.1.8	**Refine and complete artistic work.**	REFLECT / REFINE / COMPLETE
	a. Apply relevant **criteria** to examine, reflect on, and plan revisions for a work of art or design in progress.	
	ENDURING UNDERSTANDING Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	ESSENTIAL QUESTION(S) What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

1377

PRESENTING

VA: Pr4.1.8	**Select, analyze and interpret artistic work for presentation.**	SELECT
	a. Develop and apply **criteria** for evaluating a collection of artwork for presentation.	
	ENDURING UNDERSTANDING Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	ESSENTIAL QUESTION(S) How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?
VA: Pr5.1.8	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. **Collaboratively** prepare and present selected theme-based artwork for display, and formulate **exhibition narratives** for the viewer.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection? 1378
VA: Pr6.1.8	**Convey meaning through the presentation of artistic work.**	SHARE
	a. Analyze why and how an exhibition or collection may influence ideas, beliefs, and experiences.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

RESPONDING

VA: Re7.1.8	**Perceive and analyze artistic work.**	PERCEIVE
	a. Explain how a person's aesthetic choices are influenced by culture and environment and impact the visual image that one conveys to others.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?
VA: Re7.2.8	**Perceive and analyze artistic work.**	PERCEIVE
	a. Compare and contrast **contexts** and **media** in which viewers encounter images that influence ideas, emotions, and actions.	
	ENDURING UNDERSTANDING **Visual imagery** influences understanding of and responses to the world.	ESSENTIAL QUESTION(S) What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?
VA: Re8.1.8	**Interpret intent and meaning in artistic work.**	ANALYZE
	a. Interpret art by analyzing how the interaction of subject matter, **characteristics of form** and structure, use of **media**, **art-making approaches**, and relevant contextual information contributes to understanding messages or ideas and mood conveyed.	
	ENDURING UNDERSTANDING People gain insights into meanings of artworks by engaging in the process of art criticism.	ESSENTIAL QUESTION(S) What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?
VA: Re9.1.8	**Apply criteria to evaluate artistic work.**	INTERPRET
	a. Create a convincing and logical argument to support an evaluation of art.	
	ENDURING UNDERSTANDING People evaluate art based on various **criteria**.	ESSENTIAL QUESTION(S) How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

CONNECTING

VA: Cn10.1.8	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Make art **collaboratively** to reflect on and reinforce positive aspects of group identity.	
	ENDURING UNDERSTANDING Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	ESSENTIAL QUESTION(S) How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?
VA: Cn11.1.8	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
	a. Distinguish different ways art is used to represent, establish, reinforce, and reflect group identity.	
	ENDURING UNDERSTANDING People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	ESSENTIAL QUESTION(S) How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

	a. Make, explain, and justify connections between artists or artwork and social, cultural, and political history.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

1389

RESPONDING

VA: Re7.1.II HS ACCOMPLISHED	**Perceive and analyze artistic work.**	PERCEIVE
	a. Recognize and describe personal aesthetic and empathetic responses to the natural world and constructed environments.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?
VA: Re7.2.II HS ACCOMPLISHED	**Perceive and analyze artistic work.**	PERCEIVE
	a. Evaluate the effectiveness of an **image** or images to influence ideas, feelings, and behaviors of specific audiences.	
	ENDURING UNDERSTANDING **Visual imagery** influences understanding of and responses to the world.	ESSENTIAL QUESTION(S) What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?
VA: Re8.1.II HS ACCOMPLISHED	**Interpret intent and meaning in artistic work.**	ANALYZE
	a. Identify types of contextual information useful in the process of constructing interpretations of an artwork or collection of works.	
	ENDURING UNDERSTANDING People gain insights into meanings of artworks by engaging in the process of art criticism.	ESSENTIAL QUESTION(S) What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?

1390

HS ACCOMPLISHED

RESPONDING

VA: Re9.1.II
HS ACCOMPLISHED

Apply criteria to evaluate artistic work. — INTERPRET

a. Determine the relevance of **criteria** used by others to evaluate a work of art or collection of works.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People evaluate art based on various **criteria**.	How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

CONNECTING

VA: Cn10.1.II
HS ACCOMPLISHED

Synthesize and relate knowledge and personal experiences to make art. — SYNTHESIZE

a. Utilize inquiry methods of observation, research, and experimentation to explore unfamiliar subjects through art-making.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?

1391

VA: Cn11.1.II
HS ACCOMPLISHED

Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding. — RELATE

a. Compare uses of art in a variety of societal, cultural, and historical **contexts** and make connections to uses of art in contemporary and local **contexts**.

ENDURING UNDERSTANDING	ESSENTIAL QUESTION(S)
People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

HS ADVANCED

CREATING

VA: Cr1.1.III HS ADVANCED	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Visualize and hypothesize to generate plans for ideas and directions for creating art and design that can affect social change.	
	ENDURING UNDERSTANDING **Creativity** and **innovative thinking** are essential life skills that can be developed.	ESSENTIAL QUESTION(S) What conditions, attitudes, and behaviors support **creativity** and innovative thinking? What factors prevent or encourage people to take creative risks? How does **collaboration** expand the creative process?
VA: Cr1.2.III HS ADVANCED	**Generate and conceptualize artistic ideas and work.**	INVESTIGATE / PLAN / MAKE
	a. Choose from a range of **materials** and methods of traditional and **contemporary artistic practices**, following or breaking established conventions, to plan the making of multiple works of art and design based on a theme, idea, or **concept**.	
	ENDURING UNDERSTANDING Artists and designers shape **artistic investigations**, following or breaking with traditions in pursuit of creative art-making goals.	ESSENTIAL QUESTION(S) How does knowing the contexts, histories, and traditions of art forms help us create works of art and design? Why do artists follow or break from established traditions? How do artists determine what resources and **criteria** are needed to formulate **artistic investigations**?
VA: Cr2.1.III HS ADVANCED	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Experiment, plan, and make multiple works of art and design that explore a personally meaningful theme, idea, or **concept**.	
	ENDURING UNDERSTANDING Artists and designers experiment with forms, structures, **materials**, concepts, **media**, and **art-making approaches**.	ESSENTIAL QUESTION(S) How do artists work? How do artists and designers determine whether a particular direction in their work is effective? How do artists and designers learn from trial and error?

HS ADVANCED

CREATING

VA: Cr2.2.III HS ADVANCED	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate understanding of the importance of balancing freedom and responsibility in the use of **images**, **materials**, tools, and equipment in the creation and circulation of creative work.	
	ENDURING UNDERSTANDING Artists and designers balance experimentation and safety, freedom and responsibility while developing and creating artworks.	ESSENTIAL QUESTION(S) How do artists and designers care for and maintain **materials**, tools, and equipment? Why is it important for safety and health to understand and follow correct procedures in handling **materials**, tools, and equipment? What responsibilities come with the freedom to create?
VA: Cr2.3.III HS ADVANCED	**Organize and develop artistic ideas and work.**	INVESTIGATE
	a. Demonstrate in works of art or design how visual and **material culture** defines, shapes, enhances, inhibits, and/or empowers people's lives.	
	ENDURING UNDERSTANDING People create and interact with objects, places, and design that define, shape, enhance, and empower their lives.	ESSENTIAL QUESTION(S) How do objects, places, and design shape lives and communities? How do artists and designers determine goals for designing or redesigning objects, places, or systems? How do artists and designers create works of art or design that effectively communicate?
VA: Cr3.1.III HS ADVANCED	**Refine and complete artistic work.**	REFLECT / REFINE / COMPLETE
	a. Reflect on, re-engage, revise, and refine works of art or design considering relevant traditional and **contemporary criteria** as well as personal artistic vision.	
	ENDURING UNDERSTANDING Artist and designers develop excellence through practice and constructive **critique**, reflecting on, revising, and refining work over time.	ESSENTIAL QUESTION(S) What role does persistence play in revising, refining, and developing work? How do artists grow and become accomplished in art forms? How does **collaboratively** reflecting on a work help us experience it more completely?

1393

HS ADVANCED

PRESENTING

VA: Pr4.1.III HS ADVANCED	**Select, analyze and interpret artistic work for presentation.**	SELECT
	a. **Critique**, justify, and present choices in the process of analyzing, selecting, **curating**, and presenting artwork for a specific exhibit or event	
	ENDURING UNDERSTANDING Artists and other presenters consider various techniques, methods, venues, and **criteria** when analyzing, selecting, and **curating** objects artifacts, and artworks for **preservation** and presentation.	ESSENTIAL QUESTION(S) How are artworks cared for and by whom? What **criteria**, methods, and processes are used to select work for **preservation** or presentation? Why do people value objects, artifacts, and artworks, and select them for presentation?
VA: Pr5.1.III HS ADVANCED	**Develop and refine artistic techniques and work for presentation.**	ANALYZE
	a. Investigate, compare, and contrast methods for **preserving** and protecting art.	
	ENDURING UNDERSTANDING Artists, **curators** and others consider a variety of factors and methods including evolving technologies when preparing and refining artwork for display and or when deciding if and how to **preserve** and protect it.	ESSENTIAL QUESTION(S) What methods and processes are considered when preparing artwork for presentation or **preservation**? How does refining artwork affect its meaning to the viewer? What **criteria** are considered when selecting work for presentation, a **portfolio**, or a collection?
VA: Pr6.1.HS.III HS ADVANCED	**Convey meaning through the presentation of artistic work.**	SHARE
	a. **Curate** a collection of objects, artifacts, or artwork to impact the viewer's understanding of social, cultural, and/or political experiences.	
	ENDURING UNDERSTANDING Objects, artifacts, and artworks collected, preserved, or presented either by artists, museums, or other **venues** communicate meaning and a record of social, cultural, and political experiences resulting in the cultivating of appreciation and understanding.	ESSENTIAL QUESTION(S) What is an art museum? How does the presenting and sharing of objects, artifacts, and artworks influence and shape ideas, beliefs, and experiences? How do objects, artifacts, and artworks collected, preserved, or presented, cultivate appreciation and understanding?

1394

HS ADVANCED

RESPONDING

VA: Re7.1.III HS ADVANCED	**Perceive and analyze artistic work.**	PERCEIVE
	a. Analyze how responses to art develop over time based on knowledge of and experience with art and life.	
	ENDURING UNDERSTANDING Individual aesthetic and empathetic awareness developed through **engagement** with art can lead to understanding and appreciation of self, others, the natural world, and constructed environments.	ESSENTIAL QUESTION(S) How do life experiences influence the way you relate to art? How does learning about art impact how we perceive the world? What can we learn from our responses to art?
VA: Re7.2.III HS ADVANCED	**Perceive and analyze artistic work.**	PERCEIVE
	a. Determine the commonalities within a group of artists or visual **images** attributed to a particular type of art, timeframe, or culture.	
	ENDURING UNDERSTANDING **Visual imagery** influences understanding of and responses to the world.	ESSENTIAL QUESTION(S) What is an **image**? Where and how do we encounter **images** in our world? How do **images** influence our views of the world?
VA: Re8.1.III HS ADVANCED	**Interpret intent and meaning in artistic work.**	ANALYZE 1395
	a. Analyze differing interpretations of an artwork or collection of works in order to select and defend a plausible critical analysis.	
	ENDURING UNDERSTANDING People gain insights into meanings of artworks by engaging in the process of art criticism.	ESSENTIAL QUESTION(S) What is the value of engaging in the process of art criticism? How can the viewer "read" a work of art as **text**? How does knowing and using visual art vocabularies help us understand and interpret works of art?
VA: Re9.1.III HS ADVANCED	**Apply criteria to evaluate artistic work.**	INTERPRET
	a. Construct evaluations of a work of art or collection of works based on differing sets of **criteria**.	
	ENDURING UNDERSTANDING People evaluate art based on various **criteria**.	ESSENTIAL QUESTION(S) How does one determine **criteria** to evaluate a work of **art**? How and why might **criteria** vary? How is a personal preference different from an evaluation?

HS ADVANCED

CONNECTING

VA: Cn10.1.III HS ADVANCED	**Synthesize and relate knowledge and personal experiences to make art.**	SYNTHESIZE
	a. Synthesize knowledge of social, cultural, historical, and personal life with **art-making approaches** to create meaningful works of art or design.	
	ENDURING UNDERSTANDING Through art-making, people make meaning by investigating and developing awareness of perceptions, knowledge, and experiences.	ESSENTIAL QUESTION(S) How does engaging in creating art enrich people's lives? How does making art attune people to their surroundings? How do people contribute to awareness and understanding of their lives and the lives of their communities through art-making?
VA: Cn11.1.III HS ADVANCED	**Relate artistic ideas and works with societal, cultural, and historical context to deepen understanding.**	RELATE
	a. Appraise the impact of an artist or a group of artists on the beliefs, values, and behaviors of a society.	
	ENDURING UNDERSTANDING People develop ideas and understandings of society, culture, and history through their interactions with and analysis of art.	ESSENTIAL QUESTION(S) How does art help us understand the lives of people of different times, places, and cultures? How is art used to impact the views of a society? How does art **preserve** aspects of life?

1396

GLOSSARY

VISUAL ARTS, as defined by the National Art Education Association, include the traditional fine arts such as drawing, painting, printmaking, photography, and sculpture; media arts including film, graphic communications, animation, and emerging technologies; architectural, environmental, and industrial arts such as urban, interior, product, and landscape design; folk arts; and works of art such as ceramics, fibers, jewelry, works in wood, paper, and other materials (Revised July 2012).

ART
In everyday discussions and in the history of aesthetics, multiple (and sometimes contradictory) definitions of art have been proposed. In a classic article, "The Role of Theory in Aesthetics," Morris Weitz (1956) recommended differentiating between classificatory (classifying) and honorific (honoring) definitions of art.

In the Next Generation Core Visual Arts Standards, the word art is used in the classificatory sense to mean "an artifact or action that has been put forward by an artist or other person as something to be experienced, interpreted, and appreciated".

An important component of a quality visual arts education is for students to engage in discussions about honorific definitions of art—identifying the wide range of significant features in art-making approaches, analyzing why artists follow or break with traditions and discussing their own understandings of the characteristics of "good art".

APPROPRIATION
Intentional borrowing, copying, and alteration of preexisting images and objects.

ARTIST STATEMENT
Information about context, explanations of process, descriptions of learning, related stories, reflections, or other details in a written or spoken format shared by the artist to extend and deepen understanding of his or her artwork; an artist statement can be didactic, descriptive, or reflective in nature.

ARTISTIC INVESTIGATIONS
In making art, forms of inquiry and exploration; through artistic investigation artists go beyond illustrating pre-existing ideas or following directions, and students generate fresh insights—new ways of seeing and knowing.

ART-MAKING APPROACHES
Diverse strategies and procedures by which artists initiate and pursue making a work.

ARTWORK
Artifact or action that has been put forward by an artist or other person as something to be experienced, interpreted, and appreciated.

BRAINSTORM
Technique for the initial production of ideas or ways of solving a problem by an individual or group in which ideas are spontaneously contributed without critical comment or judgment.

CHARACTERISTIC(S)
Attribute, feature, property, or essential quality.

CHARACTERISTICS OF FORM (AND STRUCTURE)
Terms drawn from traditional, modern, and contemporary sources that identify the range of attributes that can be used to describe works of art and design to aid students in experiencing and perceiving the qualities of artworks, enabling them to create their own work and to appreciate and interpret the work of others.

COLLABORATION
Joint effort of working together to formulate and solve creative problems.

COLLABORATIVELY
Joining with others in attentive participation in an activity of imagining, exploring, and/or making.

CONCEPTS
Ideas, thoughts, schemata; art arising out of conceptual experimentation that emphasizes making meaning through ideas rather than through materiality or form.

CONSTRUCTED ENVIRONMENT
Human-made or modified spaces and places; art and design-related disciplines such as architecture, urban planning, interior design, game design, virtual environment, and landscape design shape the places in which people live, work, and play.

CONTEMPORARY ARTISTIC PRACTICE
Processes, techniques, media, procedures, behaviors, actions, and conceptual approaches by which an artist or designer makes work using methods that, though they may be based on traditional practices, reflect changing contextual, conceptual, aesthetic, material and technical possibilities; examples include artwork made with appropriated images or materials, social practice artworks that involve the audience, performance art, new media works, installations, and artistic interventions in public spaces.

CONTEXT
Interrelated conditions surrounding the creation and experiencing of an artwork, including the artist, viewer/audiences, time, culture, presentation, and location of the artwork's creation and reception.

COPYRIGHT
Form of protection grounded in the U.S. Constitution and granted by law for original works of authorship fixed in a tangible medium of expression, covering both published and unpublished works.

CREATIVE COMMONS
Copyright license templates that provide a simple, standardized way to give the public permission to share and use creative work on conditions of the maker's choice.

CREATIVITY
Ability to conceive and develop rich, original ideas, discover unexpected connections, and invent or make new things.

CRITERIA
In art and design, principles that direct attention to significant aspects of a work and provide guidelines for evaluating its success.

CONTEMPORARY CRITERIA
Principles by which a work of art or design is understood and evaluated in contemporary contexts which, for example, include judging not necessarily on originality, but rather on how the work is re-contextualized to create new meanings.

ESTABLISHED CRITERIA
Identified principles that direct attention to significant aspects of various types of artwork in order to provide guidelines for evaluating the work; these may be commonly accepted principles that have been developed by artists, curators, historians, critics, educators and others or principles developed by an individual or group to pertain to a specific work of art or design.

PERSONAL CRITERIA
Principles for evaluating art and design based on individual preferences.

RELEVANT CRITERIA
Principles that apply to making, revising, understanding, and evaluating a particular work of art or design that are generated by identifying the significant characteristics of a work.

CRITIQUE
Individual or collective reflective process by which artists or designers experience, analyze, and evaluate a work of art or design.

CULTURAL CONTEXTS
Ideas, beliefs, values, norms, customs, traits, practices, and characteristics shared by individuals within a group that form the circumstances surrounding the creation, presentation, preservation, and response to art.

CULTURAL TRADITIONS
Pattern of practices and beliefs within a societal group.

CURATE
Collect, sort, and organize objects, artworks, and artifacts; preserve and maintain historical records and catalogue exhibits.

CURATOR
Person responsible for acquiring, caring for, and exhibiting objects, artworks, and artifacts.

DESIGN
Application of creativity to planning the optimal solution to a given problem and communication of that plan to others.

DIGITAL FORMAT
Anything in electronic form including photos, images, video, audio files, or artwork created or presented through electronic means; a gallery of artwork viewed electronically through any device.

ENGAGEMENT
Attentive participation in an activity of imagining, exploring, and making.

EXHIBITION NARRATIVE
Written description of an exhibition intended to educate viewers about its purpose.

EXPRESSIVE PROPERTIES
Moods, feelings, or ideas evoked or suggested through the attributes, features, or qualities of an image or work of art.

FAIR USE
Limitation in copyright law which sets out factors to be considered in determining whether or not a particular use of one's work is "fair," such as the purpose and character of the use, the amount of the work used, and whether the use will affect the market for the work.

FORMAL AND CONCEPTUAL VOCABULARIES
Terms, methods, concepts, or strategies used to experience, describe, analyze, plan, and make works of art and design drawn from traditional, modern, contemporary, and continually emerging sources in diverse cultures.

GENRE
Category of art or design identified by similarities in form, subject matter, content, or technique.

IMAGE
Visual representation of a person, animal, thing, idea, or concept.

IMAGINATIVE PLAY
Experimentation by children in defining identities and points of view by developing skills in conceiving, planning, making art, and communicating.

INNOVATIVE THINKING
Imagining or and conceiving something new and unexpected, including fresh ideas and ways of looking at things and new approaches to old problems as well as formulating new problems.

MATERIAL CULTURE
Human-constructed or human-mediated objects, forms, or expressions, that extend to other senses and study beyond the traditional art historical focus on the exemplary to the study of common objects, ordinary spaces, and every day rituals.

MATERIALS
Substances out of which art is made or composed, ranging from the traditional to "non-art" material and virtual, cybernetic, and simulated materials.

MEDIUM/MEDIA
Mode(s) of artistic expression or communication; material or other resources used for creating art.

OPEN SOURCE
Computer software for which the copyright holder freely provides the right to use, study, change, and distribute the software to anyone for any purpose (http://opensource.org).

PLAY
Spontaneous engaged activity through which children learn to experience, experiment, discover, and create.

PORTFOLIO
Actual or virtual collection of artworks and documentation demonstrating art and design knowledge and skills organized to reflect an individual's creative growth and artistic literacy.

PRESERVATION
Activity of protecting, saving, and caring for objects, artifacts, and artworks through a variety of means.

PRESERVE
Protect, save, and care for (curate) objects, artifacts, and artworks.

STYLE
Recognizable characteristics of art or design that are found consistently in historical periods, cultural traditions, schools of art, or works of an individual artist.

TECHNOLOGIES
Tools, techniques, crafts, systems, and methods to shape, adapt, and preserve artworks, artifacts, objects, and natural and human-made environments.

TEXT
A form which information can be gathered, expanding beyond the traditional notion of written language to encompass visual representations such as paintings, sculpture, diagrams, graphics, films, and maps.

VENUE
Place or setting for an art exhibition, either a physical space or a virtual environment.

VISUAL COMPONENTS
Properties of an image that can be perceived.

VISUAL IMAGERY
Group of images; images in general.

VISUAL ORGANIZATION APPROACHES AND STRATEGIES
Graphic design strategies such as hierarchy, consistency, grids, spacing, scale, weight, proximity, alignment, and typography choice used to create focus and clarity in a work.

VISUAL PLAN
Drawing, picture, diagram, or model of the layout of an art exhibit where individual works of art and artifacts are presented along with interpretive materials within a given space or venue.

The Office of Healthy Schools is a part of the Mississippi Department of Education and is located in Jackson, MS. In coordination with the Office of Healthy Schools, the Mississippi Department of Education continues to focus on and promote educational enhancements and innovations relating to healthy students and schools.

Mississippi Healthy Students Act

The Mississippi Healthy Students Act of 2007 strengthened health education and physical education requirements in Mississippi and mandated that schools provide programming that will aid in reducing obesity in the state. Forty-five (45) minutes of health education is required each week for students in K-8 grades and 150 minutes of physical education/physical activity per week is also required.

Data indicates that the earlier that students begin participating in physical activity and are introduced to health education skills, the greater the chance that they will build life skills to help them to be healthier. This Act also strengthened the child nutrition program and school health councils in the state. Prior to the passing of this law, health education was already a graduation requirement in grades 9-12.

This curriculum is designed to provide teachers the resources that they need to integrate the teaching of health education standards and skills into their academic classrooms. It also provides the health-endorsed teacher guidance and resources needed to teach K-8 health.

Acknowledgments

The Contemporary Health (K-8) curriculum was presented to the Mississippi Board of Education on_____. The following persons were serving on the state board at the time:

Dr. Lynn House, Interim State Superintendent
Mr. Charles McClelland, Chair
Dr. O. Wayne Gann, Vice Chair
Ms. Kami Bumgarner
Mr. Howell "Hal" N. Gage
Mr. Claude Hartley
Mr. William Harold Jones
Dr. John R. Kelly
Mr. Richard Morrison
Ms. Martha "Jackie" Murphy

Scott Clements, Bureau Director for the Office of Healthy Schools, provided guidance as the taskforce committee was assembled and provided input throughout the development of the Contemporary Health (K-8). Members of this taskforce were as follows:

Janet Hankins, Retired, Clinton Public School District, Clinton, MS
Betty Kennedy, Byram Middle School, Hinds County School District, Terry, MS
Pam Piazza, Byram Middle School, Hinds County School District, Terry, MS
Dixie Pogue, District Health Coordinator, South Panola School District, Batesville, MS
Kay Strickland, Corinth Elementary School, Corinth School District, Corinth, MS

Appreciation is expressed to the following professionals who provided guidance and insight throughout the development process:

Christine Philley, M.Ed., CFCS, School Health Administrator, Office of Healthy Schools, Mississippi Department of Education, Jackson, MS

Estelle Watts, MSN, NCSN, State School Health Consultant, Office of Healthy Schools, Mississippi Department of Education, Jackson, MS

Standards

Standards in the *Contemporary Health (K-8) Curriculum Framework and Supporting Materials* are based on the following:

National Health Education Standards

The National Health Education Standards were developed by a joint committee consisting of the American Association for Health Education, American Public Health Association, American School Health Association, and the Society of State Leaders of Health and Physical Education. The standards are published by the Centers for Disease Control and Prevention, are meant for public use, and are not subject to copyright law protections. Permission is not required for use of public domain items.

Common Core State Standards Initiative

The Common Core State Standards© provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy. **Copyright 2010. National Governors Association Center for Best Practices and Council of Chief State School** Officers. All rights reserved. **States and territories of the United States as well as the District of Columbia that have adopted the Common Core State Standards in whole are exempt from this provision and no attribution to the National Governors Association Center for Best Practices and Council of Chief State School Officers is required.** Reprinted from http://www.corestandards.org/.

National standards are superscripted in each unit and are referenced in Appendix B. Common Core State standards are referenced in Appendix C.

Preface

As with all disciplines, Contemporary Health (K-8) must include a range of educational experiences. It should be taught in a way that students can obtain, interpret, and apply basic health information to their daily lives to enhance their individual health. In order to be health literate, students must be encouraged to be self-directed learners while establishing a basic understanding of health promotion and disease prevention. They should be encouraged to use literacy, numerical skills, and critical thinking skills to gather, analyze, and apply health information as their needs and priorities change throughout life. They must also use interpersonal and social skills in relationships to learn about others and from others.

The interdisciplinary nature of health contributes to the feasibility of infusing health content and skills across disciplines. These standards provide a way of making the school program more responsive to student, family, and community needs.

The 2012 Mississippi Contemporary Health (K-8) Framework serves as a guide for teachers to provide a comprehensive learning experience for students. This course should include all dimensions of health, including, but not limited to, community/environmental health, consumer health, disease prevention and control, human growth and development, nutrition, family life, safety and first aid, personal health, mental health, and drug abuse prevention. The students should also gain an understanding about the importance of participation in physical activity.

The courses in this document reflect the statutory requirements as found in Section 37-3-49, Mississippi Code of 1972, as amended (Section 37-3-46); Section 37-13-134, Mississippi Code of 2011; House Bill 999, Section 37-13-171, Mississippi Code of 1972, as amended (Section 37-13-171 and 37-13-173); and Nathan's Law Section 63-3- 615, Mississippi Code of 1972, as amended (Sections 63-1-73, 97-3-7, and 63-1-33) . In addition, this curriculum reflects guidelines imposed by federal and state mandates (Laws, 2002, ch. 585, § 2; Laws, 2003, ch. 436, § 1; Laws, 2006, ch. 401, § 1; Laws, 2007, ch. 521, § 2, eff from and after July 1, 2007; and No Child Left Behind Act of 2001).

Contemporary Health (K-8) Executive Summary

PHILOSOPHY

Learning is an active process and individuals learn best from instruction that is hands-on and related to life experiences. All students should have the opportunity to learn. However, the capacity for success is diminished if students are absent or distracted by unhealthy behaviors or hazardous situations. Health Education must be a collaborative process between family, school and community. Health-literate students should have the capacity to obtain, interpret, and use basic health information and skills to enhance individual health. Health instruction focuses on the health and wellness of students and must become an integral and consistent part of the total school program. Instruction that begins while children are young and continues through youth reinforces the positive behaviors to be sustained throughout adulthood.

MISSION STATEMENT

The 2012 Mississippi Contemporary Health (K-8) Framework ensures that all students gain information to develop positive attitudes, behaviors, and skills necessary to make health-enhancing decisions that are age and developmentally appropriate with the ability to apply skills responsibly for a lifetime.

PURPOSE

The 2012 Mississippi Contemporary Health (K-8) Framework promotes the development of health skills needed to improve quality of life. Based on the National Health Education Standards, the framework emphasizes the holistic dimensions of health education. It enables students to become health literate, self-directed learners, which establishes foundations for leading healthy and productive lives.

CYCLE

The pilot (optional) year for the framework is 2012- 2013. Implementation of the framework begins in the school year, 2013-2014.

ORGANIZATION

The 2012 Mississippi Contemporary Health (K-8) Framework ensures that all students will have the opportunity to gain information and skills appropriate to age level and apply skills to everyday health-related behaviors.

Each grade level has eight competencies that focus on healthful living behaviors. Each competency has suggested objectives designed to reinforce the competency. There are also suggested teaching strategies and assessment methods that can be applied to the objectives. These competencies are based on the National Health Education Standards.

This framework is designed to be progressive. Beginning in Kindergarten, the students should receive the basic skills so that by Twelfth grade the students are proficient in many of the competencies.

CONTENT STRANDS/TOPICS

The 2012 Mississippi Contemporary Health (K-8) Framework consists of nine content strands. These content strands identify the aspect of health that should be taught and ensures continuity throughout the process of teaching Contemporary Health (K-8).

Contemporary Health (K-8) Content Strands/Topics:

Personal and Consumer Health (PH) (CH)	Nutrition and Fitness (N)
Mental Health (M)	Substance Abuse Prevention (SA)
Family/Social Health (F)	Community and Environmental Health ©
Human Growth and Development (H)	Safety and First Aid (S)
Disease Prevention and Control (D)	

The strand/topic code is identified in parentheses at the end of each competency.

COMPETENCIES/STANDARDS

A competency/standard represents a general concept or performance that students are expected to master as a requirement for satisfactorily completing a strand/topic. Competencies/standards are required to be taught to all students and are printed in bold face type. The competencies/standards are directly correlated to the eight national and state health education standards. However, they do not have to be taught in the order presented within the framework. The competencies/standards are intentionally broad to allow school districts and teachers' flexibility in developing curriculum unique to their students' needs.

SUGGESTED OBJECTIVES

Suggested objectives are not mandatory. The objectives serve as a guide, indicating how competencies can be fulfilled through a progression of content and concepts at each grade level. Multiple objectives should be taught in a well-organized activity. The suggested objectives are optional, not mandatory. Suggested objectives indicate skills that enable fulfillment of competencies, describe competencies in further detail, or show the progression of concepts throughout the grades. School districts may adopt the suggested objectives or modify them; and are encouraged to write their own objectives to meet the needs of students in their school district.

SUGGESTED TEACHING STRATEGIES

The suggested teaching strategies are designed only to be the starting point for creative teaching. These strategies can be used to enable students to master each competency. Emphasis has been placed on strategies that reflect active learning methodologies. Teachers should feel free to modify or enhance these suggestions based on needs of their students and resources available in order to provide optimum learning experiences for their students.

SUGGESTED ASSESSMENTS

Assessment is the mechanism used to measure educational achievement. Assessment is important because it affects how the students view themselves; the way parents, community, and governing bodies evaluate schools and districts; and the way the citizens of this nation compete with those of other nations in a worldwide marketplace. Assessment in Contemporary Health (K-8) should focus on students' attainment of health literacy, which includes the knowledge of health-related information as well as critical thinking, problem solving, responsible citizenship, self-directed learning and effective communication. Examples of suggested strategies could include rubrics, class participation, reflection, and journaling. Again, teachers should feel free to modify or enhance these suggested assessment strategies based on local needs and resources.

REFERENCES

A list of suggested references is provided for each unit. The list includes some of the primary instructional resources that may be used to teach the competencies and suggested objectives. Again, these resources are suggested, and the list may be modified or enhanced based on needs and abilities of students and on available resources.

THE REVISION PROCESS FOR THE CONTEMPORARY HEALTH (K-8) FRAMEWORK

Six present and former elementary and middle school teachers were asked to be part of the Contemporary Health (K-8) Revision Team. Members for the Revision Team were selected on the basis of their participation in and completion of health education professional development opportunities offered by the Office of Healthy Schools and their involvement in the teaching of health education strands/topics in schools across the state. The goal of the team was to draft a new Contemporary Health (K-8) framework.

State and National Health Education Standards were used to help in the development of the framework. Finally, drafts of the document were made available to all educational stakeholders for input and were revised accordingly.

TEACHER ENDORSEMENTS

The Mississippi Healthy Students Act of 2007 (Senate Bill 2369) requires that "45 minutes per week of health education instruction be provided for students in grades K-8 as defined by the State Board of Education." These minutes should be provided by a certified teacher/instructor in any way that a school determines to be a school best practice. Often times, there is not a certified health teacher in the elementary or middle school setting, so academic instructors, school nurses or counselors are asked to integrate health education instruction into academic classrooms (science, math, language arts, etc.).

The goal of the Contemporary Health (K-8) Curriculum is to provide instructors a rich resource for teaching health concepts and skills in any classroom setting. Teachers are encouraged to remember these things when integrating health education instruction into their classrooms:

- Health education does not have to be limited to "health" class – health information can be provided in many different ways.
- Health education should be skill-based. Do not limit education strategies to providing information only. Make learning fun with the hands-on teaching strategies that are provided.
- Invite partners from the community to make presentations about different health topics. Make sure that they present accurate and evidence-based information.

There is a Mississippi teacher license endorsement 142 (grades 7-12) or 143 (grades 9-12) that is required is to teach the ½ Carnegie Unit Health Course in high school. Requirements for the 142 or 143 educator endorsement are listed below.

1. Applicants must have a bachelor's degree or higher in Teacher Education from a state approved or NCATE approved program from a regionally/nationally accredited institution of higher learning.
2. Applicants must pass the Praxis II (Principles of Learning and Teaching Test).
3. Applicants must pass the Praxis II (Specialty Area Test) in degree program.
4. Applicants must validate technology competency by attaining the established minimum score or higher on an assessment approved by the Mississippi Department of Education (MDE). The assessment must be directly related to technology competency required by the grade level and subject matter being taught. Approved assessments for this license are IC3, Propulse, or other specific assessment created by third-party vendors, authorized by the Local Education Agency (LEA) and approved by the MDE.

Note: If an applicant meets all requirements listed above, that applicant will be issued a 142 or 143 endorsement-- – a 5 year license. If an applicant does not meet all requirements, the applicant will be issued a 3-year endorsement license, and all requirements stated above must be satisfied prior to the ending date of that license.

Contemporary Health – Kindergarten

Course Description

Contemporary Health (Kindergarten) reinforces the importance of gaining a basic understanding of health promotion and disease prevention at an early age. This initial exposure is a sequential building process for the health of individuals.

Understandings and Goals

Enduring Understandings
In this grade, the student will:

- learn that it is important to grow up healthy.
- learn healthy habits to become healthy.
- learn that behavior can affect health.
- learn that setting health goals early in life, can impact health later in life.
- learn that my behavior affects my health and well-being and the health and well-being of others.

Essential Questions

- What is health?
- What does it mean to be healthy?
- What are things I can do to stay healthy?
- How can goal setting create a safe environment for me, my family, and my friends?
- How can I avoid dangerous situations and keep myself safe?
- How does what I eat affect my health?
- In what ways does physical activity impact health and well-being?

Vocabulary

Identify and review the unit vocabulary.

- Anger: the general term for a sudden violent displeasure.
- Behavior: the way in which one conducts oneself.
- Community: a group of people with a common characteristic or interest living together within a larger society.
- Decisions: the act or result of deciding.
- Deodorant: a grooming product used under the arms to control body odor.
- Emergency: a sudden, urgent, usually unexpected occurrence or occasion requiring immediate action.
- Environment: the whole complex of factors (as soil, climate and living things) that influence the form and the ability to survive of a plant or animal or ecological community.
- Exercise: the act of putting into use, action, or practice.
- Food Group: foods that contain the same nutrients.

- Goal: the end toward which effort is directed, the target or aim of an activity.
- Grooming: taking care of your body and having a neat and clean appearance.
- Health: a state of complete physical, mental and social well- being and not merely the absence of disease or infirmity.
- Healthy helper: a person that helps or gives assistance, support, etc. relating to health
- Hygiene: conditions or practices of cleanliness.
- Illness: an unhealthy condition of body or mind.
- Influence: the act or power of producing an effect indirectly or without apparent use of force or exercise of command.
- Nutrition: the taking in and use of food and other nourishing materials by the body.
- Peer: a person who is equal to another in abilities, qualifications, age, background, and social status.
- Physical activity: any bodily movement produced by skeletal muscles that result in energy expenditure.
- Risk: to expose to danger.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain how childhood injuries and illnesses can be prevented or treated.	Show and discuss pictures of safe and unsafe practices. Risk Watch Resources	Teacher Observation
Describe relationships between personal health behaviors and individual well-being.	Have students decide whose heart is working harder after viewing pictures of people sleeping, running, riding a bike, and sitting.	Teacher Observation
Describe the functions of the five senses.	Read and discuss *My Five Senses* and/or *Brown Bear, Brown Bear* Barney - The Five Senses Song Video	Teacher Observation
Identify the food groups of the Choose My Plate.	Use Choose My Plate teaching materials to identify foods in each food group. Choose My Plate for Educators Nourishinteractive Printables	Teacher Observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Understand the differences among peers and how they relate to culture.	Read *We're Different, We're All the Same* and discuss. Have students draw a picture of them. Allow students to compare the characteristics they put in their picture with another student's picture. Identify which characteristics are the same and which characteristics are different. Emphasize to the students that these different characteristics are what make each of us unique.	Teacher Observation Student Journal

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) [NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate healthy behavior in daily	Invite professionals to demonstrate proper use of personal hygiene items (i.e., toothbrush, deodorant,	Teacher Observation

activities.	soap). Have students practice proper use of personal hygiene items. Bright Smiles, Bright Futures Curriculum Personal Hygiene Worksheets Part I Personal Hygiene Worksheets Part II Healthy Habits Activity Booklet	Grade and review student's worksheets.
Identify healthy helpers in the community.	Cut pictures from magazines that show people in the family, school, and community who promote health and safety.	Teacher Observation

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate ability to work in group settings without interfering with others.	Explain the difference between personal space and shared space. Have students work on art project together. Display student art work. And/or have students in groups to clean a specific area in the room, stack books, or work center. Ask the question, "How does it feel to work with your class members to complete a project?"	Teacher Observation Art/Poster Rubric – Appendix A
Explain healthy ways to express feelings.	Read *When Sophie Gets Angry - Really, Really, Angry.* by Molly Bang	Teacher Observation
Identify positive and negative ways to get attention.	Ask these key questions about the book: • What is anger? • Why did Sophie get mad? • What does Sophie do to calm herself down? • Is that a good way to deal with her anger?	Teacher Observation
Identify ways families meet the needs and wants of each family member.	Define family and roles of each family member. Discuss how roles affect the needs and wants of each family member.	Teacher Observation
Identify characteristics of a friend.	Have students name a friend and tell why that person is a friend.	Teacher Observation

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA)[NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**

Identify healthy foods to include snacks and drinks.	Use Choose My Plate to identify foods in each food group. Give examples of healthy choices for foods, snacks and drinks. Nourish Interactive Printables	Teacher Observation My Plate Checklist – Appendix A
Identify healthy activity choices.	Read the book *The Berenstein Bears and Too Much Junk Food* to students. Discuss the importance of eating healthy foods, participating in physical activity and getting a check-up.	Teacher Observation Student Journal
Identify characteristics of a healthy home and community	Discuss what makes a safe healthy home and community. Introduce RED means to stop!!! And the "tell an adult" safety principal. Have students complete the activity sheets that help them identify safe environments and practices Risk Watch Poison Control Activity Booklet Students will post completed activity sheets around the room.	Teacher Observation

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S)[NHES 6]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain how to set personal health goals and track progress toward achievement.	Discuss setting healthy goals. Have students participate in a health goal and track progress in meeting the goal. Use goals sheets and tracking sheets from the web site below. Helping Kids Set Healthy Goals	Teacher Observation Tracking Sheets

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Define germs and list methods of protection from illness.	View videos regarding germs and discuss how students can protect each other from germs. SID THE SCIENCE KID-"The Journey of a Germ" Video	Teacher Observation

	Crawford the Cat – Hand Washing for Kids Video Demonstrate passing of germs using glitter activity. (See Appendix A) Lather Up for Good Health	
Recognize strangers and how to respond.	Discuss "Who is a stranger and who is not a stranger?" KidsHealth Resources about Strangers Invite professional to discuss strangers and how to respond. Practice safety rules pertaining to threatening strangers: **shout, kick or scream; tell an adult; avoid a stranger's vehicle.** Strangers and 9-1-1 Lesson Plan Role-play ways to avoid a stranger. Identify adults to notify for help. (school, family, community)	Teacher Observation Role Play Participation - Appendix A
Understand procedures in the case of an emergency.	Discuss importance of emergency numbers and how to use them properly. Strangers and 9-1-1 Lesson Plan Use a telephone to demonstrate how to dial 911 and role play a conversation with the operator. Is It An Emergency Activity Booklet	Teacher Observation Class Participation Rubric – Appendix A

Competency 8: Demonstrate the ability to advocate for personal, family, and community health. (C, PH, F)[NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Recognize health services in the community that promote health and safety (i.e., firefighter, sanitation worker, police officer, paramedics, etc.).	Cut pictures from magazines that show people in the family, school, and community who promote health and safety. Take students on a field trip to tour the various emergency agencies in the community (i.e., fire department, police department, hospital, etc.). Have student's role play each service. Ben's Guide to the Neighborhood	Teacher Observation Role Play Rubric – Appendix A Student Journal

Supplementary Lesson Plans

These lessons plans for teaching Kindergarten, First, and Second Grade Health can be found at https://lessonplans.movetolearnms.org/Search.aspx

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching kindergarten students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics or make these books available to students in the classroom.

Taking A.D.D. to School by Ellen Weiner – JayJo Books
Taking Arthritis to School by DeeDee L. Miller – JayJo Books
Taking Asthma to School by Kim Gosselin – JayJo Books
Taking Autism to School by Andreanna Edwards – JayJo Books
Taking Cancer to School by Cynthia S. Henry – JayJo Books
Taking Cerebal Palsy to School by Mary Elizabeth Anderson – JayJo Books
Taking Cystic Fribrosis to School by Cynthia S, Henry – JayJo Books
Taking Depression to School by Kathy Khalsa – JayJo Books
Taking Diabetes to School by Kim Gosselin – JayJo Books
Taking Down Syndrome to School by Jenna Glatzer – JayJo Books
Taking Dylexia to School by Lauren E. Moynihan – JayJo Books
Taking Food Allergies to School – Ellen Weiner – JayJo Books
Taking Hearing Impairment to School – Elaine Ernst Schneider – JayJo Books
Taking Seizure Disorders (A Story About Epilepsy) by Kim Gosselin – JayJo Books
Taking Speech Disorders to School by John Bryant – JayJo Books
Taking Tourette Syndrome to School by Tira Krueger – JayJo Books
Taking Weight Problems to School by Michelle L. Dean – JayJo Books
Germs Make Me Sick by Melvin Berger – Harper Collins Publishers, Inc.
It's Not Your Fault – KoKo Bear by Vicki Lansky – Book Peddlers
Miss Bindergarten Stays Home From Kindergarten by Joseph Slate – Penguin Puffin Books
The Rainbow Fish by Marcus Pfister – NorthSouth, 1999
The Recess Queen by Alexis O'Neill – Awaken Speciality Press
Gregory the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
The Berenstain Bears Visit the Dentist by Stan and Jan Berenstain – Randon House
Clifford's Manners by Norman Bridwell – Scholastic, Inc
Eating the Alphabet by Lois Ehlert – Harcourt, Inc

Just Go to Bed by Mercer Mayer – Randon House Children's Books

Contemporary Health - First Grade

Course Description

Contemporary Health (First Grade) focuses on the relationship between personal health behaviors and individual well-being. Emphasis should be placed on the basic structure and functions of the human body systems. The health of individuals is a building process; the teacher must continue to reinforce the importance of gaining a basic understanding of health promotion and disease prevention at an early age.

Understandings and Goals

Enduring Understandings

In this unit, the student will:

- know how to prevent injuries and illnesses.
- know the five senses and their functions.
- identify the foods in each food group.
- identify the characteristics of and understand differences in other cultures.
- know how to properly wash their hands and use proper hygiene techniques.
- identify community helpers and the services they provide.
- understand the difference between personal and shared space.
- know the roles of each family member.
- give examples of healthy food choices.
- understand the benefits of physical activity.
- understand use and misuse of medicine.
- know how alcohol and tobacco affects the body.
- understand how to set healthy goals.
- know how to avoid and prevent the spread of germs.
- recognize strangers and know how to respond.
- understand emergency procedures.

Essential Questions

- Why is it important to wash your hands?
- What is the first step in preventing accidents?
- Who are healthy helpers in your community?
- What is anger?
- Why is it important to eat healthy foods?
- How are you alike and different from your peers?
- Why is your family important?
- How can choosing the wrong medicine affect your health?
- Why is physical activity important?
- What are the five senses?
- What are the nutrient groups?

Vocabulary

Identify and review the unit vocabulary.

- Community: a group of people with a common characteristic or interest living together within a larger society.
- Emergency: an unexpected situation that calls for immediate action.
- Environment: all living and non-living things around you.
- Family: the basic unit of society that includes two or more people joined by marriage, blood, or adoption.
- Friendship: a relationship with someone you know, trust, and regard with affection.
- Germs: organisms that are so small that they can only be seen through a microscope.
- Goal: the end toward which effort is directed, the target or aim of an activity.
- Health: the condition of being sound in body, mind, or spirit; especially the freedom of physical disease or pain.
- Hygiene: conditions or practices (as of cleanliness) that are aids in good health.
- Medicine: a drug that prevents or cures an illness or eases its symptoms.
- Nutrition: the process by which an animal or plant takes in and makes use of food substances.
- Prescription: a written direction or order for the preparation and use of medicine.
- Safety: being careful to act in a safe manner.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify ways of preventing and controlling disease.	View videos regarding germs and discuss how student can protect each other from germs. SID THE SCIENCE KID-"The Journey of a Germ" Video Crawford the Cat – Hand Washing for Kids Video Demonstrate passing of germs using glitter activity. (See Appendix A) Helping Kids Set Healthy Goals	Teacher Observation Role Play Rubric – Appendix A
Identify items appropriate for sharing and items not appropriate for sharing.	Have students brain storm items appropriate for sharing and for not sharing. Teacher will list ideas. Read *Germs Make Me Sick* by Melvin Berger, *Miss Bindergarten Stays Home From Kindergarten* by Joseph Slate, or *Germs, Germs, Germs* by B. Katz OR Helping Kids Set Healthy Goals Have the students make corrections or deletions to the list.	Teacher Observation
Introduce healthy snacks.	Use the EdSaid website to introduce students to Ed, a boy who loves to learn about healthy eating and being active. Identify healthy quick snacks (i.e., whole fruit, yogurt) and easy to make snacks (i.e., cinnamon toast, 100% fruit juice pops). Choose My Plate for Educators	Teacher Observation
Identify reasons for taking medicine.	Invite school nurse to explain the benefits of taking medicine as prescribed. What Medicines Are and What They Do - KidsHealth	Teacher Observation
Recognize that health problems should be detected and treated early.	Read the book *Froggy Goes to the Doctor* by Jonathan London. Discuss the need to detect and treat health problems early. Health Problem Series Lesson Plans from KidsHealth I Feel Sick	Teacher Observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify factors that contribute to individuality.	Discuss characteristics that create distinctiveness in individuals (i.e., singing, athletics, hobbies, etc.).	Student Journal
Introduce technologies that influence health	Discuss the importance of 911, when to use it, and how to use it. Have student simulate a 911 call.(Use 911 Scenario – Appendix A) Discuss how media influences thoughts, feelings, health and behaviors. Use Health in Action Lesson Plan "Technologies that Influence Health" – # 244 to teach about technologies that influence health.	Role Play Rubric – Appendix A Teacher Observation

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) [NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain the roles of various types of workers in the field of health.	Discuss community helpers and have students identify each through pictures. Use Wordclouds to generate a collage. Cut pictures from magazines that show people in the family, school, and community who promote health and safety.	Teacher Observation
Discuss the roles of emergency workers.	Invite emergency and community workers to demonstrate the equipment they use.	Teacher Observation
Identify sources of health products and services in the community.	Show pictures of health products (sunscreen, toothpaste, vitamins, dental floss) and explain their use. Demonstrate the proper way to floss teeth. Bright Smiles, Bright Futures Curriculum Personal Hygiene Worksheets Part I	Teacher Observation Demonstration/Modeling

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) [NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe the difference in verbal and nonverbal communication.	Explain how students can express their feelings through verbal and nonverbal communication (i.e., smiling, frowning, handshake, hug, encouraging words, etc.). Using a scenario, have students turn negative comments into positive comments. (See Appendix A) Explain how facial, eye, and body gestures impacts the emotions of others. Practice using positive gestures (i.e., smiling).	Student Journal Teacher Observation
Demonstrate attentive listening skills to build and maintain healthy relationships.	Have students listen to various sounds (recordings, music, or voices) and identify the sounds. Discuss "What it means to listen." Have students develop rules for listening. Use the findings to design a classroom poster about listening. Listening Skills Lesson Plan	Teacher Observation

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify guidelines for making wise food choices.	Use *Fabulous Fruits, Various Vegetables* from the Mississippi Department of Education, Office of Nutrition, to encourage students to eat different fruits and vegetables. Teaching Resources EdSaid Nourish Interactive Keep a log of fruits students eat for lunch and create a pictograph.	Food Log
Explore a variety of physical activities.	Students will brainstorm physical activities that they like to do and make a graph of the activities. Students will choose physical activities to participate in throughout the school year. Active Academics	Teacher Observation

	JAMmin' Minute	
Identify safe and unsafe behaviors.	Discuss with students the harmful effects of sniffing strong fumes from products such as gasoline, model airplane glue, aerosol sprays, correction fluid and other household products. Use To Smell or Not to Smell handout found on page 32 in Kindergarten Teacher Guide developed by the USM Institute for Disability Studies Kindergarten Health Literacy Guide What Medicines Are and What They Do Use the **Stories to be Used with the Right Thing To Do** handout found on page 33 in Kindergarten Teacher Guide developed by the USM Institute for Disability Studies, Kindergarten Health Literacy Guide, Read the statements and have students identify the right and wrong behaviors. Use the Dylan the Smokey Dragon or RAT lessons provided in the Health In Action website to teach the unsafe behavior of smoking. (all materials needed to teach these lessons are provided)	Teacher Observation

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Set a personal health goal and track progress toward its achievement.	Guide students in developing a healthy class goal (i.e., Exercising ten minutes each day). Each student will choose physical activities to participate in throughout the school year and will track their progress on a weekly activity chart. Healthy Goals Tracking Charts	Student Journal Weekly Physical Activity Chart – Appendix A

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain ways family members work together to obtain and maintain healthy behaviors.	Use the scenarios in ***Stories to be Used with the Right Thing to Do*** provided in Appendix A. Have students stand up when the right thing is done and remain seated with the wrong thing is done.	Teacher Observation Scenario – Appendix A
Contrast safe and risky behaviors.	Identify and discuss safety rules for bus, playground and street.	Teacher Observation

	Have students practice these skills. Use Safe Routes to School lesson plans (#1195, 1197, 1200 and 1201) found in Health in Action to teach safe walking. All resources needed to teach these lessons are provided.	
Identify healthy habits that ensure good hygiene.	Invite professionals to demonstrate proper use of personal hygiene items (i.e., toothbrush, deodorant, soap). Have students practice proper use of personal hygiene items. Bright Smiles, Bright Futures Curriculum Personal Hygiene Worksheets Part I Healthy Habits Activity Booklet	Teacher Observation Demonstration/Modeling

Competency 8: Demonstrate the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Understand the importance of influencing others to make healthy choices.	Discuss the health benefits associated with making healthy choices. Have students work in groups to identify ways they can help others make healthy choices. Using the healthy choices they identified, the groups will play Charades.	Teacher Observation Group role play
Work collaboratively in small groups to achieve a common goal.	Students will work together to pick up litter on the playground.	Teacher observation

Supplementary Lesson Plans

These lessons plans for teaching Kindergarten, First, and Second Grade Health can be found at https://lessonplans.movetolearnms.org/Search.aspx .

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching first grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics or make these books available to students in the classroom.

Taking A.D.D. to School by Ellen Weiner – JayJo Books
Taking Arthritis to School by DeeDee L. Miller – JayJo Books
Taking Asthma to School by Kim Gosselin – JayJo Books
Taking Autism to School by Andreanna Edwards – JayJo Books
Taking Cancer to School by Cynthia S. Henry – JayJo Books
Taking Cerebal Palsy to School by Mary Elizabeth Anderson – JayJo Books
Taking Cystic Fribrosis to School by Cynthia S, Henry – JayJo Books
Taking Depression to School by Kathy Khalsa – JayJo Books
Taking Diabetes to School by Kim Gosselin – JayJo Books
Taking Down Syndrome to School by Jenna Glatzer – JayJo Books
Taking Dylexia to School by Lauren E. Moynihan – JayJo Books
Taking Food Allergies to School – Ellen Weiner – JayJo Books
Taking Hearing Impairment to School – Elaine Ernst Schneider – JayJo Books
Taking Seizure Disorders (A Story About Epilepsy) by Kim Gosselin – JayJo Books
Taking Speech Disorders to School by John Bryant – JayJo Books
Taking Tourette Syndrome to School by Tira Krueger – JayJo Books
Taking Weight Problems to School by Michelle L. Dean – JayJo Books
Germs Make Me Sick by Melvin Berger – Harper Collins Publishers, Inc.
It's Not Your Fault – KoKo Bear by Vicki Lansky – Book Peddlers
Miss Bindergarten Stays Home From Kindergarten by Joseph Slate – Penguin Puffin Books
The Rainbow Fish by Marcus Pfister – NorthSouth, 1999
The Recess Queen by Alexis O'Neill – Awaken Speciality Press
Gregory the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
Way to Go Alex! By Robin Pulver – Albert Whitman and Company
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Bully Trouble by Joanna Cole – Random House Children's Books

Clark the Toothless Shark by Corine Mellor – Golden Books Publishing
Healthy Snacks for Blue by J-P Chanda – Simon Spotlight – Simon and Schuster Children's Publishing Division
King of the Playground by Phyllis Reynolds Naylor – Simon and Schuster
My Five Senses by Aliki – HarperCollins
My Friend Isabelle by Eliza Woloson – Woodbine House, Inc.
Since We're Friends by Celeste Shally & David Harrington – Comtempory Realistic Fiction
The Magic School Bus Inside the Human Body by Joanna Cole & Bruce Degen – Scholastic, Inc
The Berenstain Bears Visit the Dentist by Stan and Jan Berenstain – Randon House
Clifford's Manners by Norman Bridwell – Scholastic, Inc
Eating the Alphabet by Lois Ehlert – Harcourt, Inc
Just Go to Bed by Mercer Mayer – Randon House Children's Books

Contemporary Health - Second Grade

Course Description

Contemporary Health (Second Grade) focuses on teaching students how physical, social, and emotional well-being influence personal health and how to identify common health problems that should be detected and treated early.

Understandings and Goals

Enduring Understandings

In this unit, the student will learn:

- that it is important to grow up healthy.
- healthy habits to become healthy.
- ways to prevent illnesses.
- that the environment can contribute to illness or disease.
- that behavior can affect health.
- that setting health goals early in life, can impact health later in life.
- that people, places and things compete for my health choices.
- that my behavior affects my health and well-being and the health the well-being of others.
- that it is important to treat others with respect.

Essential Questions

- What does it mean to be healthy?
- Why is it important that I make healthy choices?
- How can I prevent illness and injury?
- How can goal setting impact health outcomes?
- How does the environment contribute to illness and injury?
- How does the media influence health choices?
- Why is it important to be respectful of others?
- Who are community helpers who help me to be safe and healthy?
- How can I contribute to helping my community be healthier?

Vocabulary

Identify and review the unit vocabulary.

- Awareness: having or showing understanding or knowledge.
- Behavior: the way in which one conducts oneself.
- Community: a group of people with a common characteristic or interest living together within a larger society.
- Consumer: one who consumes; especially a person who buys and uses up goods and services.

- Disease: an abnormal bodily condition interferes with functioning and can usually be recognized by signs and symptoms.
- Emergency: an unexpected situation that calls for immediate action.
- Environment: the whole complex of factors (as soil, climate and living things) that influence the form and the ability to survive in a plant or animal or ecological community.
- Goal: the end toward which effort is directed, the target or aim of an activity.
- Health: the condition of being sound in body, mind or spirit; especially the freedom from physical disease or pain.
- Hygiene: conditions or practices (as of cleanliness) that are aids to good health.
- Illness: an unhealthy condition of body or mind.
- Influence: the act or power of producing an effect indirectly or without apparent use of force or exercise of command.
- Media: forms or systems of communication designed to reach a large number of people.
- Nutrition: the processes by which an animal or plant takes in and makes use of food substances.
- Physical Activity: the quality or state of being active, an educational exercise designed to teach by firsthand experience.
- Prescription: a written direction or order for the preparation and use of a medicine.
- Prevention: the act of preventing, causing not to happen.
- Promotion: the act of furthering the growth or development of something.
- Risk: to expose to danger.
- Society: part of a community that is a unit distinguishable by particular aims or standards of living or conduct.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify how dietary habits affect health.	Use the EdSaid website to introduce students to Ed, a boy who loves to learn about healthy eating and being active. Use the Movin' with Fruits and Vegetables lesson plans found in Health in Action. Those plans are #1291- 1305. All resources needed to teach the lessons are provided.	Teacher Observation
Discuss ways to prevent injury.	Identify the proper accessories (i.e., tennis shoes, helmet to wear when riding a bike). Demonstrate the proper way to wear a bicycle helmet. Use teaching resources provided on page 24 in Third Grade Teacher Guide developed by the USM Institute for Disability Studies. Health Literacy Guide Safe Kids Activity Booklet	Teacher Observation
Explore some of the causes of illnesses and chronic disease.	Discuss and demonstrate proper hand washing techniques and discuss reasons why it is important in disease prevention. Demonstrate passing of germs using glitter activity. (See Appendix A)	Teacher Observation
Discuss ways in which the environment can contribute to illnesses or diseases (i.e., air pollution, water).	Brainstorm the statement "Clean air is good for people to breathe". Allow students to share their thoughts. Access the EPA website – Air Now for information on clean air. (At this site, you can access Local Air Quality Conditions and Forecasts for our state.) EPA Teaching Resources	Teacher Observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Appreciate the differences in people and how these differences are related	Teacher will cut a large heart from bulletin board paper and ask students to share words that are hurtful or unkind to others. As the words are mentioned, the teacher will crumple a portion of the heart. Discuss how it makes a person feel when others are	Teacher Observation

to culture.	unkind. Have student's use the letters of their name and assign qualities that describe them to each letter. Have students share their qualities with the class.	
Describe how the media (i.e., Terrance the Rat) influences health choices.	Discuss ways to influence others to make healthy choices. Show how media uses athletes to influence society to make healthy choices (i.e., why drink milk, not using drugs). Use Health in Action Lesson Plans to teach this topic.	Role Play Rubric – Appendix A

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify health products and services for daily use.	Show pictures of health products (sunscreen, toothpaste, vitamins, dental floss) and explain their use. Demonstrate the proper way to brush and floss teeth, apply sunscreen, or other healthy routines. Invite school nurse, dental hygienist, or community health professionals. Bright Smiles, Bright Futures Curriculum Personal Hygiene Worksheets Part I Healthy Habits Activity Booklet	Teacher Observation Evaluate Worksheets
Understand the importance of warning labels and symbols.	Show warning labels and discuss why we need warning labels. Show warning symbols identified on page 26 in the Second Grade Teacher Guide developed by the USM Institute for Disability Studies, Health Literacy Guide or Use examples of warning symbols that you collect.	Teacher Observation
Describe the roles of various community resources (i.e., hospital, Department of Health, voluntary health agency, home health) that aid in preventing illness.	Allow health professionals to visit and discuss their roles in health promotion/disease prevention.	Teacher Observation

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify ways to communicate care, consideration, and respect of self and others.	Define respect. Brainstorm ways to show respect. Create a classroom Motto about respect. It's My Life – Bullying Resources	Teacher Observation
Demonstrate refusal skills to enhance health (i.e., just say no, don't talk to strangers.	Discuss the difference in a safe and unsafe stranger. Explain the steps: Run, Yell, and Tell. Have a community helper (police officer) teach students how to avoid being abducted and what to do if approached by a stranger. Read the book, *Never Talk to Strangers* by Irma Joyce.	Class Participation Rubric – Appendix A
Identify individual differences and the value of those differences.	Discuss self-worth and what makes a person unique such as talents, character, or personality. To emphasize the student's personal worth in the classroom, each student will draw a self-portrait on a square piece of paper. The teacher will punch holes in each corner of the paper and tie the pictures together with yarn. Display the "classroom quilt" in the room for everyone to see.	Teacher Observation Participation Rubric – Appendix A

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain the potential results of making positive and negative health choices. (i.e., accidents, nutrition, physical activity, drug use, smoking, and bullying)	Discuss choices students make that result in a healthy or unhealthy outcome. Discuss public service announcements and how they impact healthy choices. Have students work in groups to create a public service announcement.	Public Service Announcement Rubric Group Participation Rubric

Competency 6: Demonstrate the ability to use goal setting skills to enhance health. (N, PH, H, S) [NHES 6]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain how goal-setting enhances healthy behaviors.	Have students complete a personal health inventory and evaluate present health habits. Use the Personal Health Habit Inventory found on pages 42-43 in the Fourth Grade Teacher	Personal Health Habit Inventory – Appendix A

	Guide developed by the USM Institute for Disability Studies. Health Literacy Guide Using results of the inventory, students will set goals to improve areas of weakness found while completing the personal inventory. Use the Personal Health Goal Chart provided on page 44 in the Fourth Grade Teacher Guide developed by the USM Institute for Disability Studies. Health Literacy Guide	Personal Health Goal Chart – Appendix A

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify fair methods for settling conflicts.	Explain that a conflict is when two or more people cannot agree on something. Ask for volunteers to give examples of when they didn't agree with someone. Have student role-play conflicting situations. Conflict Management Lesson Plans	Teacher Observation Role Play Rubric – Appendix A
Demonstrate and explain proper use of seat belts.	Show videos on seat belt safety. Discuss the importance of wearing a seat belt. Invite a police officer to discuss seat belt and car seat safety laws. Students will create signs to be placed around the school to encourage students to wear their seatbelts. Booster Seat and Safety Belt Resource	Teacher Observation Art/Poster Rubric – Appendix A
Identify stress associated with different situations (i.e., recital, leadership role, disagreement with a peer, and visit to the principal's office).	Define stress and explain what happens to the body (i.e., eyes widen, mouth becomes dry, muscles tighten, heart rate increases) when one is experiencing a stressful situation. Invite the school counselor to speak to the class about ways to avoid or manage stress. Students will list five things that cause them stress. Stress Resources from KidsHealth	Teacher Observation
Identify negative effects of using alcohol, tobacco, and drugs.	Invite the RAT and DARE program instructors to discuss alcohol, tobacco, and drug use as they relate to health. Students will role play saying "no". Refusal Skills Health in Action Lesson Plan #'s 1238, 1242, 1243, and 1246	Teacher Observation Role Play Rubric – Appendix A

	can be used to teach this topic.	

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate an ability to influence others to become involved in healthy community projects.	Discuss ways to influence others to become involved in healthy community projects. Have students establish a classroom project to benefit others. (campus cleanup, planting flowers, can food drive, clothing closet, etc.)	Teacher Observation
Explore ways individual can contribute to on-going state/community health projects.	Identify and explain community health programs and include ways students can participate in those programs. (Let's Go Walkin' Mississippi, Adopt-A-Mile, Habitat for Humanity, Keep Mississippi Beautiful, etc.) Invite various speakers to talk about these programs.	Teacher Observation

Supplementary Lesson Plans

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching second grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics or make these books available to students in the classroom.

Taking A.D.D. to School by Ellen Weiner – JayJo Books
Taking Arthritis to School by DeeDee L. Miller – JayJo Books
Taking Asthma to School by Kim Gosselin – JayJo Books
Taking Autism to School by Andreanna Edwards – JayJo Books
Taking Cancer to School by Cynthia S. Henry – JayJo Books
Taking Cerebal Palsy to School by Mary Elizabeth Anderson – JayJo Books
Taking Cystic Fribrosis to School by Cynthia S, Henry – JayJo Books
Taking Depression to School by Kathy Khalsa – JayJo Books
Taking Diabetes to School by Kim Gosselin – JayJo Books
Taking Down Syndrome to School by Jenna Glatzer – JayJo Books
Taking Dylexia to School by Lauren E. Moynihan – JayJo Books
Taking Food Allergies to School – Ellen Weiner – JayJo Books
Taking Hearing Impairment to School – Elaine Ernst Schneider – JayJo Books
Taking Seizure Disorders (A Story About Epilepsy) by Kim Gosselin – JayJo Books
Taking Speech Disorders to School by John Bryant – JayJo Books
Taking Tourette Syndrome to School by Tira Krueger – JayJo Books
Taking Weight Problems to School by Michelle L. Dean – JayJo Books
Germs Make Me Sick by Melvin Berger – Harper Collins Publishers, Inc.
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Bully Trouble by Joanna Cole – Random House Children's Books
Clark the Toothless Shark by Corine Mellor – Golden Books Publishing
The Magic School Bus Inside the Human Body by Joanna Cole & Bruce Degen – Scholastic, Inc
Miss Bindergarten Stays Home From Kindergarten by Joseph Slate – Penguin Puffin Books
The Rainbow Fish by Marcus Pfister – NorthSouth, 1999
The Recess Queen by Alexis O'Neill – Awaken Speciality Press
Gregory the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
Way to Go Alex! By Robin Pulver – Albert Whitman and Company
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Bully Trouble by Joanna Cole – Random House Children's Books
Clark the Toothless Shark by Corine Mellor – Golden Books Publishing
Sorry by Tracy Ludwig – Tricycle Press
I Have Asthma by Jennifer Moore-Mallinos – Genser Publication
Just Kidding by Trudy Ludwig – Tricycle Press
Knotts on a Counting Rope by Bill Martin, Jr & John Archambault – Henry Holt & Company Alexander and the Terrible, Horrible No Good, Very Bad Day by Judith Viorst – Aladdin Paperbacks Ben Has Something to Say – A Story about Studdering by Laurie Lears – Albert Whitman & Company
The Berenstain Bears and the Bully by Stan and Jan Berenstain – Random House – New York
The Berenstain Bears and the Excuse Note by Stan and Jan Berenstain – Random House – New York
Don't Laugh At Me by Steve Seskin & Allen Shamblin – Tricycle Press (ISBN 1582460582)
Those Mean Nasty Dirty Downright Disgusting Invisible Germs by Judith Rice – Redleaf Press
A Trip to the Dentist by Penny Smith – DK Publishing, Inc
The Berenstain Bears Visit the Dentist by Stan and Jan Berenstain – Randon House

Clifford's Manners by Norman Bridwell – Scholastic, Inc
Eating the Alphabet by Lois Ehlert – Harcourt, Inc
Just Go to Bed by Mercer Mayer – Randon House Children's Books
The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
My Secret Bully by Trudy Ludwig & Abigail Marble – Riverwood Books
Oliver Button is a Sissy by Tomie dePaola – Harcourt Brace & Company
No Dragons for Tea – Fire Safety for Kids (and Dragons) by Jean Pendziwol – Kids Can Press

Contemporary Health - Third Grade

Course Description

Contemporary Health (Third Grade) reinforces the importance of gaining an understanding of how family influences personal health. Students are introduced to childhood illnesses/injuries and how they can be prevented. Students also gain an understanding about the importance of participation in physical activity.

Understandings and Goals

Enduring Understandings

In this unit, the student will learn:

- how to avoid injuries and illnesses.
- the effects of physical activity on the body.
- how to read a food label.
- about the different types of health products.
- about the different health care services available in the community.
- how to identify hazardous products.
- effective communication skills.
- how to set health enhancing goals.
- what personal rights are.
- the importance of community involvement.

Essential Questions

- What is an injury?
- What is an illness?
- What information is displayed on a food label?
- What are the different types of media?
- What are the available health services in the community?
- What are hazardous products?
- What is the difference between needs and wants?
- What is respect?
- Why is it important to have health goals?
- What is stress?
- What is a friend?

Vocabulary

Identify and review the unit vocabulary.

- Calories: a unit for measuring the amount of heat energy supplied by food.
- Carbohydrates: the starches and sugars present in foods.
- Cholesterol: a white fatty substance that is important in metabolism; in large amounts, cholesterol is believed to cause heart and vascular disease by collecting on the inner walls of arteries and causing them to harden.
- Fat: solidified animal or vegetable oil used when cooking.
- Fiber: the part of grains, fruit and vegetables not absorbed or digested by the human body, and stimulates the muscles of the intestinal wall.
- Flexibility: the ability to move a body part through a full range of motion.
- Grooming: cleaning and maintaining parts of the body.
- Heart rate: how fast your heart is beating.
- Hygiene: a set of practices associated with health and healthy living.
- Hospital: is a health care institution providing patient treatment.
- Muscle: a tissue composed of fibers capable of contracting to effect bodily movement.
- Muscle fatigue: when a muscle becomes tired or weak.
- Muscle strength: the amount of force a muscle can exert.
- Need: something that is necessary for a healthy life.
- Non-verbal communication: is when we communicate with body movement.
- Peer: people of similar age who share similar interests.
- Protein: nutrients that help build and maintain body cells and tissues.
- Rapid breathing: breathing faster than normal.
- Respect: to feel or show deferential regard.
- Rights: are legal, social, or ethical principles of freedom or entitlement.
- Responsibilities: moral, legal, or mental accountability.
- Serving size: the amount of a particular food that is served.
- Servings per container: the number of servings in the container.
- Sodium: a soft, light, silver-white element that is found in salt.
- Stress: the reaction of the body and mind to everyday challenges and demands.
- Sugar: any of a class of crystalline carbohydrates, such as a sucrose, glucose, or lactose, that dissolve in liquid and have a sweet taste.
- Verbal communication: is when we communicate our message verbally to whoever is receiving the message.
- Volunteer: a person who voluntarily undertakes or expresses a willingness to undertake a service.
- Want: is not necessary for a healthy life, it is a desire.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify types of childhood injuries and illnesses and ways of prevention and treatment.	Explain injuries associated with riding a bicycle. Discuss the parts of a bicycle and how to check the bicycle (i.e., reflectors, tire pressure, proper seat height) to be sure it is safe to ride. Use handout from the website below to explain bicycle safety. Kids and Bicycle Safety	Teacher Observation
Recognize and describe the relationship between personal health behaviors and individual well-being.	Describe the effects physical activity has on the body. Teacher will have students run in place for one minute. After participating in the exercise, students will write a paragraph about the physical changes in their body after exercise.	Teacher Observation Writing Rubric
Define nutritional terms on food labels (i.e., fats, calories, etc.).	Have student bring a canned food item and/or a food label to class. Discuss nutritional information on the food label, defining terms on labels. Food Label Using the worksheet link below, pair students and have them compare their labels. Food Label Worksheet	Teacher observation – giving feedback as needed

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Analyze how the media influences thoughts and feelings about healthy behavior.	Discuss how we can learn about different kinds of healthy products (food, fitness, hygiene, medical care, etc.) through the media. (television, radio, newspaper and billboards, internet, etc.) Have students write how these make them feel, think, and behave.	Teacher Observation Writing Rubric

Identify ways that health care technology can impact personal health.	Provide internet sites for students to explore health related issues. MRI Machines X-ray Machine Wheel Chairs Ventilator	Teacher Observation

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Investigate how the availability of health services affect the community.	Have students name the health services available in their community and what services they provide. Provide a list of available health services in the community (telephone directory, chamber of commerce, internet, hospital, etc.); or invite a health care professional/school nurse to talk about existing services in the community. Identify gaps in availability of health services.	Teacher Observation Class Discussion Rubric
Identify and discuss hazardous products.	Invite a local firefighter (i.e., training division) to speak to the class about hazardous products in everyday life. Student will complete a checklist of hazardous products found in the household. Risk Watch Resources	Teacher Observation Hazardous Products Checklist – Appendix A

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate ways to communicate needs, wants, and feelings through verbal and non-verbal communication.	Explain how students can express their feelings though verbal and nonverbal communication (i.e., smiling, frowning, handshake, hug, encouraging words, etc.). Have students make a chart to illustrate their needs, wants and feelings (verbal and nonverbal). Share these charts with the class, then display in the classroom or hall. Explain how facial, eye, and body gestures impacts the emotions of others. Practice using positive gestures (i.e., smiling).	Teacher Observation
Apply ways to properly communicate care, consideration and	Brainstorm ways to show respect. Create a classroom Motto about respect.	Teacher Observation Participation Rubric

respect for self and others.	Teacher will initiate a Respect Box activity. (See Appendix A) Bullying Resources Free Bullying Resources	

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Communicate information that promotes positive health choices. (i.e., nutrition, physical activity, drug use, peer choices)	Students will research newspaper and magazine articles dealing with drug abuse. They will bring an article to share with the class. Read the book, *My Big Sister Takes Drugs* by Judith Vigna. Lead a class discussion on how drug abuse affects individuals, family and the community.	Class Participation Rubric

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Develop a personal health plan and track progress toward achievement.	Have students complete a personal health inventory and evaluate present health habits. Use the Personal Health Habit Inventory found on pages 42-43 and the Personal Health Goal Chart found on Page 44 provided in Fourth Grade Teacher Guide developed by the USM Institute for Disability Studies – Health Literacy Guide Using results of the inventory, students will set goals to improve areas of weakness found while completing the personal inventory. Read *Murphy Meets the Treadmill* by Harriet Ziefert. Ask these questions about the story: • What exercise plan did Murphy have to lose weight? • What eating plan did Murphy have to lose weight? • Was Murphy's plan a good one? How do you know that it was good? • How did Murphy feel about reaching his goals? • What are some goals that you have made?	Personal Health Habit Inventory and Personal Health Goal Chart – Appendix A Teacher Observation

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate ways to avoid and reduce threatening or stressful situations.	Discuss the importance of anger management. Read *When Sophie Gets Angry - Really, Really, Angry.* by Molly Bang Ask these key questions about the book: • What is anger? • Why did Sophie get mad? • What does Sophie do to calm herself down? • Is that a good way to deal with her anger? • Can you identify other ways to avoid or reduce threatening or stressful situations?	Teacher Observation
List personal rights and responsibilities of individuals at home and school.	Discuss personal rights: Right to Learn, Right to be Respected, Right to be Safe, Right to be Treated Fairly by Others. Students will write one or more paragraphs about a time when they or someone they know were bullied.	Writing Rubric

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe characteristics needed to be a responsible friend and family member.	Have students brainstorm and make a list of characteristics a responsible friend or family member should have. Divide the class into groups. Have each group create a want advertisement describing the characteristics students would like in a friend. Groups will share with class.	Teacher Observation Written Assessment Rubric
Identify and understand the importance of contributing to the community.	Identify and explain community health programs and include ways students can participate in those programs. (Let's Go Walkin' Mississippi, Adopt-A-Mile, Habitat for Humanity, Keep Mississippi Beautiful, etc.) Invite various speakers to talk about these programs.	Teacher Observation
Demonstrate an ability to influence others to become involved in healthy community projects.	Discuss ways to influence others to become involved in healthy community projects. Have students establish a classroom project to benefit others. (campus cleanups, planting flowers, can food drive, clothing closets, recycling, etc.)	Teacher Observation

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching third grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics or make these books available to students in the classroom.

Taking A.D.D. to School by Ellen Weiner – JayJo Books
Taking Arthritis to School by DeeDee L. Miller – JayJo Books
Taking Asthma to School by Kim Gosselin – JayJo Books
Taking Autism to School by Andreanna Edwards – JayJo Books
Taking Cancer to School by Cynthia S. Henry – JayJo Books
Taking Cerebal Palsy to School by Mary Elizabeth Anderson – JayJo Books
Taking Cystic Fribrosis to School by Cynthia S, Henry – JayJo Books
Taking Depression to School by Kathy Khalsa – JayJo Books
Taking Diabetes to School by Kim Gosselin – JayJo Books
Taking Down Syndrome to School by Jenna Glatzer – JayJo Books
Taking Dylexia to School by Lauren E. Moynihan – JayJo Books
Taking Food Allergies to School – Ellen Weiner – JayJo Books
Taking Hearing Impairment to School – Elaine Ernst Schneider – JayJo Books
Taking Seizure Disorders (A Story About Epilepsy) by Kim Gosselin – JayJo Books
Taking Speech Disorders to School by John Bryant – JayJo Books
Taking Tourette Syndrome to School by Tira Krueger – JayJo Books
Taking Weight Problems to School by Michelle L. Dean – JayJo Books
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Bully Trouble by Joanna Cole – Random House Children's Books
Clark the Toothless Shark by Corine Mellor – Golden Books Publishing
The Magic School Bus Inside the Human Body by Joanna Cole & Bruce Degen – Scholastic, Inc
Miss Bindergarten Stays Home From Kindergarten by Joseph Slate – Penguin Puffin Books
The Rainbow Fish by Marcus Pfister – NorthSouth, 1999
The Recess Queen by Alexis O'Neill – Awaken Speciality Press
Gregory the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
Way to Go Alex! By Robin Pulver – Albert Whitman and Company
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Alexander and the Terrible, Horrible No Good, Very Bad Day by Judith Viorst – Aladdin Paperbacks
Ben Has Something to Say – A Story about Studdering by Laurie Lears – Albert Whitman & Company
The Berenstain Bears and the Bully by Stan and Jan Berenstain – Random House – New York
The Berenstain Bears and the Excuse Note by Stan and Jan Berenstain – Random House – New York
Don't Laugh At Me by Steve Seskin & Allen Shamblin – Tricycle Press (ISBN 1582460582)
Just Go to Bed by Mercer Mayer – Randon House Children's Books
The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
No Dragons for Tea – Fire Safety for Kids (and Dragons) by Jean Pendziwol – Kids Can Press
Plate Full of Color by Georgia Perez – CDC – www.cdc.gov/diabetes
Through the Eyes of the Eagle by Georgia Perez - CDC – www.cdc.gov/diabetes
Tricky Treats by Georgia Perez - CDC – www.cdc.gov/diabetes

Knees Lifted High by Georgia Perez - CDC – www.cdc.gov/diabetes
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
The Berenstain Bears and the In Crowd by Stan and Jan Berenstain – Random House – New York
The Moonlight Caterpillar by Lori Lits – LiteBooks, Inc.

Contemporary Health - Fourth Grade

Course Description

Contemporary Health (Fourth Grade) focuses on identifying indicators of mental, social, and physical health during childhood. Students should establish the basic health promotion and disease prevention skills and be able to apply them in their individual lives. Students should also be exposed to role-playing in various settings where the teacher reinforces the most accurate ways to resolve each issue. Teachers should reinforce the relationship between physical activity and a healthy lifestyle.

Understandings and Goals

Enduring Understandings

In this unit, the student will learn that:

- knowledge and attitudes about health help me act in healthy ways.
- using a decision-making process enhances health outcomes.
- tracking my progress and using healthy resources will help me achieve my personal health goals.
- I am an advocate for healthy decisions.
- communication skills, including nonviolent strategies and refusal skills are needed to enhance personal health.
- there are many places to obtain health information and resources.

Essential Questions

- What influences my behaviors and decisions?
- What can I do to avoid or reduce health risks?
- How can quality communication skills help me to develop a healthy lifestyle?
- What can I do to prevent and resolve conflict?
- How can good setting enhance and improve my health?
- How do a person's unique talents contribute to a larger community?

Vocabulary

Identify and review the unit vocabulary.

- Advertising: a written or spoken media message designed to interest consumers in purchasing a product or service.
- Awareness: having or showing understanding or knowledge.
- Behavior: the way in which one conducts oneself.
- Communicable disease: a disease that is spread from one living thing to another or through the environment.
- Community: a group of people with a common characteristic or interest living together within a larger society.
- Consumer: one who consumes; especially a person who buys and uses up goods and services.

- Disability: a physical or mental impairment that limits normal activities.
- Disease: an abnormal bodily condition interferes with functioning and can usually be recognized by signs and symptoms.
- Emergency: an unexpected situation that calls for immediate action.
- Environment: the whole complex of factors (as soil, climate and living things) that influence the form and the ability to survive in a plant or animal or ecological community.
- FDA: Federal Drug Administration
- Goal: the end toward which effort is directed, the target or aim of an activity.
- Health: the condition of being sound in body, mind or spirit; especially the freedom from physical disease or pain.
- Hygiene: conditions or practices (as of cleanliness) that are aids to good health.
- Illness: an unhealthy condition of body or mind.
- Influence: the act or power of producing an effect indirectly or without apparent use of force or exercise of command.
- Media: forms or systems of communication designed to reach a large number of people.
- Non-communicable disease: a disease that is not transmitted by another person.
- Nutrition: the processes by which an animal or plant takes in and makes use of food substances.
- Physical Activity: the quality or state of being active, an educational exercise designed to teach by firsthand experience.
- Prescription: a written direction or order for the preparation and use of a medicine.
- Prevention: the act of preventing, causing not to happen.
- Promotion: the act of furthering the growth or development of something.
- Relationship: a bond or connection that you have with other people.
- Risk: to expose to danger.
- Society: part of a community that is a unit distinguishable by particular aims or standards of living or conduct.
- Substance abuse: any unnecessary or improper use of chemical substances for nonmedical purposes.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify the relationship between health behaviors and individual well-being.	Have students brainstorm healthy and unhealthy behaviors. Prepare the *Matching Behaviors and Outcomes Activity* provided in Appendix A. Have students work in groups to match the behavior with a possible outcome of the behavior. OR Invite a fitness expert or athlete to speak to the class about the importance of a healthy lifestyle.	Teacher Observation
Distinguish between communicable and non-communicable diseases.	Create a Venn Diagram or Double Bubble Thinking Map identifying communicable and non-communicable diseases and how they are alike. Venn Diagram Double Bubble Thinking Map	Class Participation Rubric
Identify and practice strategies to reduce the spreading of germs.	Using the lesson plan below, students will identify and practice strategies to reduce the spreading of germs. Germ Lesson Plan from KidsHealth	Demonstration Class Participation Rubric – Appendix A
Identify and discuss serving sizes as recommended by the Food and Drug Administration (FDA).	Show students items that can be used to help them estimate appropriate serving sizes. Use this website to explore serving sizes using ordinary objects: Household Items	Teacher Observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify advertising techniques used in marketing health related	Have students view televised commercials or printed material on health related products.	How Effective Was The Advertisement - Appendix A

products.	Guide students to evaluate the effectiveness of the advertisement using the evaluation tool provided in Appendix A. Have the students work in groups to create a commercial highlighting a healthy product. Lesson Plan Database from Media Smarts Learn Washing Index – Help Keep Advertising Honest	Group Participation Rubric
Explore differences in cultural diets.	Divide students into groups and have them research common foods from an assigned culture using the links provided below. Have students list the nutritional value of foods in different cultures. (Greek, Hispanic, Asian, Native American, Italian, French, German, etc.) Greek Food Hispanic Food Asian Food Native American Italian Food French Food German Food Groups will share their information through oral reports, power points, or food demonstrations.	Presentation Rubric
Analyze ways health care technology can enhance personal health.	Brainstorm and make a list of types of technological tools such as heart rate monitors and pedometers to enhance personal health. Invite a guest to demonstrate how to find a healthy heart rate. Students will participate in finding their personal heart rate and check to see if their heart rate is in the correct range.	Teacher Observation

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate the ability to locate resources from home, school and community that provide valid health information.	Discuss the term "valid health information" and where to find the information. Assign students a health related topic. Students will collect valid information on that topic from various sources and design a pamphlet on the topic.	Pamphlet Rubric
Distinguish between fact and opinion in health information.	Use the list Strange and Funny but True Health Facts found in the appendix to introduce the lesson. Using the website listed below explore with students old wives tales concerning health.	Teacher Observation

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify ways to be sensitive to the feelings of others to include disabled and chronically-ill persons.	Read the book, *Be Good to Eddie Lee* by Virginia Fleming (Philomel Books – New York – ISBN – 0-399-21993-5). This book is about a child with Down-syndrome. Brainstorm ways that students can be helpful to those with disabilities. Simulate blindness or deafness by blindfolding students or by using earplugs. Students will write about their experience by answering these questions: How did it feel? What problems did you encounter? What did you learn from the experience? How will the experience affect the way you will treat an individual with a disability?	Teacher Observation Writing Rubric

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain how exercise enhances health.	You can choose moderate or vigorous intensity activities, or a mix of both each week. Activities can be considered vigorous, moderate, or light in intensity. This depends on the extent to which they make you breathe harder and your heart beat faster. Have students brainstorm and list different activities and then categorize the activities as to whether they are vigorous, moderate, or light in intensity. *View the website for a definition and a list of activities and intensity levels.* Moderate to Vigorous Physical Activity Discuss the benefits of physical activity (maintain healthy weight, keeps heart strong, boosts energy, increases self-esteem, and reduces risk of disease). Describe the physiological effects of exercise on the body (perspiration, burning calories, increase heart rate, increase metabolism). Ask the question, "Why are these effects important"?	Teacher Observation

Explain the impact of substance abuse on the individual, family, and community.	Teacher will read "My Big Sister Takes Drugs" by Judith Vigna. Have students discuss how the decision to become involved in substance abuse affects individuals, families, and the community.	Teacher Observation Class Participation Rubric – Appendix A
Identify factors that influence decision-making.	Create a diagram of the factors that influence decision making (media, teachers, parents, siblings, peers, famous people or celebrities, church, law enforcement/government, etc.) Identify which of the influences are positive or negative and why.	Teacher Observation
Apply a decision-making process to address personal health issues and problems.	Discuss common health issues for fourth graders. (Stomachache, head ache, tooth ache, ear ache, fever, food allergies, diabetes, asthma, sport related injuries, etc.) List steps in the decision-making process. Discuss the 6 Steps of Decision Making. • State the situation • List the options • Weigh the outcomes • Consider values • Make a decision and act • Evaluate the decision Have students apply the process to a common health issue that they have identified. Illness and Injuries from KidsHealth	Teacher Observation

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) [NHES 6]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Develop a personal health plan and track progress toward achievement.	Have students complete a personal health inventory and evaluate present health habits. Using results of the inventory, students will set goals to improve areas of weakness found while completing the personal inventory. Have students complete a personal health goal chart.	Personal Health Goal Chart – Appendix A

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) [NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Compare various factors	Brainstorm factors (physical, social, and psychological	Teacher Observation

influencing health.	factors) that influence health. (Have students consider these factors: 8-10 hours of sleep, eating a healthy breakfast, eating a variety of foods, being physically active, maintaining a healthy weight, avoiding tobacco, alcohol and other drugs, managing stress, practicing safe behaviors and maintaining healthy relationships, if they do not come up with these on their own.) Create a Venn diagram to compare and contract factors. Venn Diagram	Class Participation Rubric
Illustrate safety and injury prevention techniques.	Divide class into groups. Each group will choose a safety topic (fire, water, sports, bicycle, car seat, and seat belt) The group will create a skit, song, or video to teach the class about the chosen safety topic.	Group Participation Rubric
Distinguish between medicine use and misuse.	Define the term medicine. A medicine is a drug that is used to treat or prevent disease or other conditions. Have students explore the reasons that people take medicine and identify ways that medicines are misused. Use the *What Does It Say* lesson plan # 923 found on the Health In Action website to teach students about over-the-counter medicines.	Teacher Observation

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify the characteristics of a good friend.	Using the letters of the word FRIEND, have students make an acrostic to identify characteristics of a good friend. Post the projects in the classroom.	Teacher Observation
Demonstrate healthy choices outside the school environment.	Brainstorm healthy choices students make every day and make a list. (wearing bike helmet; playing sports with the correct safety equipment; using safety belts; exercising; avoiding tobacco, drugs, and alcohol; eating healthy foods)	Teacher Observation
Discuss ways that family time promotes healthy lifestyles.	Have students encourage their family to eat together at least twice a week for three months. Discuss the importance of family time. Explain ways students can help prepare for dinner. Teach students how to set the table, pour drinks, create place mats, pick flowers, clean table and dishes after dinner, etc.	Class Participation Rubric Teacher Observation

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching fourth grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics or make these books available to students in the classroom.

When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
Miss Bindergarten Stays Home From Kindergarten by Joseph Slate – Penguin Puffin Books
The Rainbow Fish by Marcus Pfister – NorthSouth, 1999
The Recess Queen by Alexis O'Neill – Awaken Speciality Press
When Sophie Gets Angry – Really, Really Angry by Molly Bang – The Blue Sky Press (ISBN 0-590-18979-4)
The Berenstain Bears and the Excuse Note by Stan and Jan Berenstain – Random House – New York
Don't Laugh At Me by Steve Seskin & Allen Shamblin – Tricycle Press (ISBN 1582460582)
Just Go to Bed by Mercer Mayer – Randon House Children's Books
The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
No Dragons for Tea – Fire Safety for Kids (and Dragons) by Jean Pendziwol – Kids Can Press
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
The Berenstain Bears and the In Crowd by Stan and Jan Berenstain – Random House – New York
The Moonlight Caterpillar by Lori Lits – LiteBooks, Inc.
You Can Call Me Willy by Joan C. Verniero – Magination Press
The Berenstain Bears and the Trouble with Commercials by Stan and Jan Berenstain – Harper Festival Publishing
The Berenstain Bears and Too Much Pressure by Stan and Jan Berenstain - Harper Festival Publishing
Catundra by Steven Cosgrove – Price Sern Sloan Publisher
The Report Card by Andrew Clements – Aladdin Publishing
Good Enough to Eat by Lizzy Rockwell – Harper Collins Publishers

Contemporary Health - Fifth Grade

Course Description

Contemporary Health (Fifth Grade) emphasizes the interrelationship between mental, emotional, social, and physical health during adolescence. Teachers should reinforce the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death.

Understandings and Goals

Enduring Understandings
In this unit, the student will:

- learn that engaging in, monitoring, and comparing physical activity will enhance my health.
- learn that setting goals in physical and nutritional health can improve my health.
- learn that saying no to drugs and alcohol can help me stay healthy.
- learn about different health agencies in the community.
- learn how to become an advocate for health in the community.
- learn conflict management and refusal skills.
- learn how the media can affect health.
- learn how technology can affect health.

Essential Questions

- What determines how I feel about myself?
- How can I become a health advocate?
- How can technology be beneficial and a deterrent to my health?
- How do I make good choices?
- How and why do I need to set goals in my physical and nutritional health?
- How can I protect myself from the misuse of drugs?
- What are conflict resolution skills?
- What is a fitness assessment?

Vocabulary

Identify and review the unit vocabulary.

- Behavior: the way in which one conducts oneself.
- Consumer: one who consumes; especially a person who buys and uses up goods and services.
- Disease: an abnormal bodily condition interferes with functioning and can usually be recognized by signs and symptoms.
- Emergency: an unexpected situation that calls for immediate action.
- Environment: the whole complex of factors (as soil, climate and living things) that influence the form and the ability to survive in a plant or animal or ecological community.
- Goal: the end toward which effort is directed, the target or aim of an activity.
- Habit: an acquired mode of behavior that has become nearly or completely involuntary.
- Hygiene: conditions or practices (as of cleanliness) that are aids to good health.

- Illness: an unhealthy condition of body or mind.
- Immunity: a condition of being able to resist a particular disease especially through preventing development of a pathogenic microorganism.
- Influence: the act or power of producing an effect indirectly or without apparent use of force or exercise of command.
- Media: forms or systems of communication designed to reach a large number of people.
- Risk: to expose to danger.
- Nutrition: the processes by which an animal or plant takes in and makes use of food substances.
- Physical Activity: the quality or state of being active, an educational exercise designed to teach by firsthand experience.
- Prescription: a written direction or order for the preparation and use of a medicine.
- Responsible: answerable or accountable, as for something within one's power, control, or management.
- Vaccination: the act of administering a vaccine, usually by injection.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe how participation in physical activity affects the body.	Have students participate in the "Fuel Up to Play 60" program. Fuel Up to Play 60	Teacher observation
Discuss how the body's defenses against disease work.	Brainstorm various diseases. Work with students to sort diseases according to type. • infectious - spread by germs • food-borne - spread by improper food handling air-borne - spread by coughing/sneezing • immunity - results from lack of immunization • contact – results from poor hygiene Immune System Lesson Plan from KidsHealth	Teacher Observation
Identify ways the body's defense system can be improved.	Explain the importance of proper sleep and nutrition. Sleep Lesson Plan from KidsHealth	Teacher Observation
Distinguish between healthy and unhealthy snacks.	Discuss the difference in a healthy snack and an unhealthy snack. Explain how to read a food label using materials from the following site: Nourish Interactive Have students bring in healthy snacks from vending machines and look at labels. Plan a snack tasting activity. Have student's rate snacks in areas of smell, taste, nutritional value, preparation time, etc. Create a graph to indicate their favorite snack.	Teacher Observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explore various eating habits and how they relate to family culture and lifestyles.	Have students investigate nutrition facts for a fast food item(s) that their family eats on a regular basis. Have them consider a more nutritious choice for their family. Students will write a report of their findings.	Written Assessment Rubric

Describe the way technology affects health.	Read the book, *Bernstein Bears and Too Much TV* by Stan and Jan Berenstain. After reading the book, have the students brainstorm a list of healthy activities to do instead of watching TV, playing video games or other sedentary activities.	Teacher Observation
Analyze ways in which the media influences buying decisions regarding health products, medicine, and food.	Discuss how media influences buying decisions. Have student complete the worksheet, "Advertisements – How Effective Are They?" and discuss. (Appendix A) Media Smarts Lesson Plans	Teacher Observation

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Locate and evaluate the functions of community agencies and health care professionals.	Have students brainstorm health care agencies in their community and complete an emergency list that includes addresses and phone numbers for these agencies. (Fire, ambulance, poison control, police, local doctor, pharmacy) Use internet to research community agencies and health care professionals.	Health Care Provider List - Appendix A
Identify the impact of health services (i.e., ambulance service, rescue squad) in the community.	Have students brainstorm the question "What would we do without health services in our community?" Invite a health care professional to share how the services they provide impact the community.	Guest Speaker Rubric
Identify and discuss the use and impact of health products (i.e., sunscreen, toothpaste).	Teacher will supply magazines, newspapers, or internet pictures of health care products. Students will work in groups to create a collage that promotes healthy products.	Art/Poster Rubric Group Participation Rubric

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate verbal and non-verbal skills to communicate care, self-control, and respect for all.	Read *You Are Special* by Max Lucado (or a similar book on kindness or self-esteem). Create a "Kindness Box." When one student sees another perform an act of kindness, the student reports the behavior to the teacher. The student's name is put in the "Kindness Box." The teacher periodically draws names from the box. The names that are drawn are allowed to pull a "Kindness Coupon" to use at an appropriate time. Some suggestions for coupons are "Get Out of Detention" pass, skip morning work, free	Teacher Observation

	computer time, sit by a buddy at lunch, invite a friend to lunch, homework pass, and treasure box.	
Demonstrate refusal and conflict resolution skills needed to develop and maintain healthy relationships with peers, family and others in socially acceptable ways.	Use Health In Action Lesson Plan entitled: Dendrite Dividend – Did you Hear What I Heard? – H-999 to engage students in a discussion of ways to keep your cool when conflict arises. Have students' role play refusal and conflict resolution skills using the scenarios found in the Appendix A.	Teacher Observation Student Participation Rubric – Appendix A Role Play Rubric – Appendix A
Demonstrate an awareness of safety through modeling.	Allow the class to teach younger students the proper procedures for school preparedness (tornado drill, fire drill, earthquake drill, lock-down drill, etc.)	Teacher Observation

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explore the characteristics of habits and how habits affect personal health.	Define what a habit is and how habits can affect personal health. Have students identify good and bad personal health habits (physical, nutritional, hygiene, social, etc.). Student will complete the Personal Health Habit Inventory Chart found in Appendix A to compare and contrast habits that result in the healthiest decisions.	Teacher observation

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) [NHES 6]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify health goals and evaluate strategies/skills for attaining personal health goals.	Have students complete a personal health inventory and identify areas that need improvement. Use the Personal Health Inventory found on pages 42-43 in Fourth Grade Teacher Guide developed by the USM Institute for Disability Studies – Health Literacy Guide Using results of the inventory, students will set goals to improve areas of weakness found while completing the personal inventory. Have students complete the Personal Health Goal Chart found on Page 44 to put on the refrigerator at home. Students will chart their progress for one week and write about their progress in their student journal.	Teacher Observation Student Journal Personal Health Goal Chart – Appendix A

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Examine health and fitness assessments and their role in developing a plan for life long fitness.	Invite the physical education teacher speak to the class about the importance of fitness and the fifth grade fitness assessment. (Discussion should include pre and post tests, BMI calculation, and lifelong fitness) *Note: The Mississippi Healthy Students Act – 2007 requires fitness testing for fifth grade students. If possible, coordinate this class with physical education teacher.*	Teacher Observation

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify responsibilities of a family.	Define family. Divide the class into groups and have them cut pictures from magazines that depict the responsibilities of a family to include: • Meeting physical and other basic needs • Meeting mental and emotional needs • Meeting social needs Students will use these pictures to make a "family" responsibility collage to be displayed in the room.	Art/Poster Rubric – Appendix A
Develop strategies to encourage and influence others in making healthy choices (i.e., healthy food choices, abstaining from alcohol, tobacco, and illegal drug use).	Have class organize a school wide health initiative to encourage students to exhibit healthy behaviors by working in groups to create posters to display around school.	Art/Poster Rubric – Appendix A

Supplementary Lesson Plans

These lessons plans for teaching Third, Fourth, and Fifth Grade Health can be found at https://lessonplans.movetolearnms.org/Search.aspx.

Activity Title	*Competency*	Strand		*Activity Title*	*Competency*	Strand
First Aid to Go	H1	H-S		Tour the Circulatory System	H1	H-H
It's a Matter of Time	H1	H-H		Tour the Nervous System	H1	H-H
Do I Have to Wash My Hands?	H1	H-D		Nutrient Knowledge	H1	H-N
The Quest for Food Safety	H1	H-D		Roll Out the Five Senses	H1	H-PH
Tour the Skeletal	H1	H-H		Nutrition 4: Planning to Eat	H1	H-N

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching fifth grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics; have students read and prepare oral or written reports on the content or just make these books available to students in the classroom.

The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
No Dragons for Tea – Fire Safety for Kids (and Dragons) by Jean Pendziwol – Kids Can Press
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
You Can Call Me Willy by Joan C. Verniero – Magination Press

The Berenstain Bears and the Trouble with Commercials by Stan and Jan Berenstain – Harper Festival Publishing
The Berenstain Bears and Too Much Pressure by Stan and Jan Berenstain - Harper Festival Publishing
Catundra by Steven Cosgrove – Price Sern Sloan Publisher
The Report Card by Andrew Clements – Aladdin Publishing
Good Enough to Eat by Lizzy Rockwell – Harper Collins Publishers
It's Ok to Say No to Drugs – It's All Up to You by Susan Amerikaner – Simon and Schuster (ISBN 0671628917)
Summer of Riley by Eve Bunting – HarperTophy (ISBN 978-0064409278)
The Secret to Saying Thanks by Douglas Wood – Simon and Shuster (ISBN 0689845212)
What Planet are You From, Claice Bean? By Lauren Child – Candlewick Press (ISBN 978-0763616960)
At Daddy's On Saturday by Linda Walvoord – Albert Whitman & Company (ISBN 0807504734)
Uncle Willy and the Soup Kitchen by Dyanne Disalvo-Ryan – Asia Press (ISBN 978-0968835401)
Salt in His Shoes by Deloris Jordan and Roslyn Jordon – Scholastic (ISBN 0399231161)
A Taste of Blackberries by Doris Buchanan Smith – Thomas Crowell Company

Contemporary Health - Sixth Grade

Course Description

Contemporary Health (Six Grade) allows students an opportunity to maintain and apply the health skills they have learned in kindergarten through fifth grade. The students should gain an understanding of how the environment and personal health are interrelated. Teachers should also emphasize how health care can prevent premature death and disability; while reinforcing the relationship between positive health behaviors and the prevention of injury, illness, disease, and premature death. Students should gain an understanding of how lifestyle, pathogens, family history, and other risk factors are related to the cause or prevention of disease and other health related issues.

Understandings and Goals

Enduring Understandings

In this unit, the student will:

- know the difference between health and wellness.
- know the three parts of health.
- know the difference between stress and conflict.
- name two activities that would call you to be an advocate.
- be able to demonstrate the refusal skills (S.T.O.P.)
- give examples of self-management skills.
- know the role that environment plays in your total health.
- be able to access reliable information to evaluate an advertised product.
- be able to describe how risk and risk behaviors can affect your health.
- know how the media could influence your decisions.
- name two factors that are part of the physical environment.
- know two main types of influences on health choices.
- name two behaviors that can reduce health risk.
- list three behaviors that can have negative health consequences.

Essential Questions

- What is the difference between health and wellness?
- What does reliable mean?
- What is the difference between stress and conflict?
- What are refusal skills?
- What are the two types of influences that can affect decisions?
- How can you be sure that a product is safe to use?
- What are two factors of your physical environment?
- What makes up a person's social environment?
- What are two main types of influences on healthy choices?
- What are two behaviors that can reduce health risk?
- What are risk behaviors?

- What are consequences?
- What are two main ways to avoid or reduce risk?
- How can avoiding risk behaviors benefit your physical health?
- What choices can you make that will help keep you healthy?
- What is interpersonal communication?

Vocabulary

Identify and review the unit vocabulary.

- Advocacy: taking action in support of a cause.
- Conflict: a disagreement between people with opposing viewpoints, interests, or needs.
- Conflict resolution skills: the ability to end a disagreement or keep it from becoming a larger conflict.
- Consequences: the results of action.
- Health: a combination of physical, mental/emotional, and social well-being.
- Hygiene: cleanliness.
- Immunizations: treatment to produce immunity to a disease (vaccine).
- Interpersonal Communication: the sharing of thoughts and feelings with other people.
- Mediation: resolving conflicts by using another person or persons.
- Natural Resources: something found in nature that is valuable to humans.
- Negative Stress: stress that prevents you from doing what you need to do, or stress that causes you discomfort.
- Negotiation: the process of talking directly to the other person to resolve a conflict to help reach a solution that is acceptable to both sides.
- Pollution: dirty or harmful substances in the environment.
- Positive Stress: stress that can help you reach your goals.
- Refusal Skills: ways to say no effectively. These are great tools to use when you need to avoid behavior that is unhealthy, unsafe, or goes against your value and beliefs.
- Reliable: trustworthy and dependable.
- Risk Behaviors: actions or choices that may harm you or others.
- Self-Concept: the way you view yourself overall.
- Stress: the body's response to real or imagined dangers and other life events.
- Stress Management: identifying sources of stress and learning how to handle them in ways that promote good mental/emotional health.
- Technology: the use of science in solving problems; a technical method of doing something.
- Violence: an act of physical force resulting in injury or abuse.
- Wellness: a state of well – being or balanced health over a long period of time.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Analyze how health education and promotion benefits individuals (i.e., reduces number of doctor visits, premature deaths, and chronic diseases).	Invite a health care professional to address the benefits of being proactive as it relates to life-long health. How to Adopt a Healthy Lifestyle How to Get Healthy	Teacher Observation Guest Speaker Rubric
Explore ways health promotion reduces healthcare costs.	Have students explore health care costs and how proactive behaviors reduce costs. Ask students to name and describe two hidden costs that tobacco use has on society. Have students research legal bans on tobacco advertising and discuss their findings. Prevention and Wellness Resource - (Scroll down to Health Information)	Teacher Observation Class Participation Rubric – Appendix A
Discuss how body hygiene, posture and one's self-image affect overall health.	Discuss the importance of a first impression and how a person's disposition affects that impression. Have students role play introductions. (Use How to Teach Kids to Introduce Themselves to Others in Appendix A) Information for Kids about Manners and Games to Teach Kids Good Manners can be found at: Good Manners	Teacher Observation Role Play Rubric

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe the benefits and threats of technological advances to healthy living.	Conduct a class discussion on technology and health to include the benefits and threats of these technologies. (Computers, cell phones used in and out of automobiles, remote controls, medical equipment, etc.)	Teacher Observation Art/Poster Rubric – Appendix A

	Discuss Senate Bill 2472 (Nathan's Law) that has to do with using a cellular phone while driving. (Senate Bill 2472 in Appendix D) Have students work in groups to select a particular technology and design a poster showing its benefit and/or threat to health.	
Relate how information presented in the media affects the attitude of our population toward health related issues.	Discuss what television, radio, internet, movies, magazines, newspapers, books, billboards, etc. all have in common. Have students watch a commercial, read a printed advertisement, listen to a radio announcement, or look at a billboard about a health related product. Ask the question, "Does this media influence you to make a healthy choice?" Why or Why Not? Have students write their thoughts in their journal. Media Smarts Lesson Plans	Teacher Observation Student Journal

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Research current health promoting products and services.	Encourage students to participate in local health fair (if available in your area) and to get regular eye, dental, and hearing screenings. Contact your school nurse for information about these health screenings. Show students an immunization record and hand out a list of immunizations that are required upon entering school. (Vaccine Administration Record – Appendix A) Discuss where to go to get immunizations.	Teacher Observation

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate strategies to manage conflict in healthy ways.	Discuss conflict resolution strategies (negotiation and mediation). As a class, brainstorm all the aspects of violence prevention and the health benefits of avoiding violence. Have students create a public service announcement to encourage people to prevent violence. The announcement can be written as a radio, television, or newspaper advertisement. Emphasize the importance of preventing violence in our society.	Class Participation Rubric – Appendix A Public Service Announcement – Appendix A

	Resolving Conflict Lesson Plan	
Examine how to handle difficult interpersonal situations through effective communication. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Discuss how to handle difficult situations by using Refusal Skills - Saying No effectively. STOP – Say no; Tell why not; Offer other ideas, Promptly leave. Refusal Skills *Teen Health,* Glencoe (McGraw Hill) Course 2, Bronson, Cleary, Hubbard	Teacher Observation

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Understand positive and negative reinforcement and how they relate to decision- making.	Use resources such as student handbook and Mississippi Law to identify consequences associated with making poor decisions. Discuss rewards associated with making the right decisions. Have students create a list of decisions they have made and determine if it was a good decision based on the reward or consequence they received.	Student Journal Student Journal

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify forms of exercise that help us to be healthier.	Brainstorm words that are associated with exercise. Write these words on the board and sort them into categories to include: • team exercise • individual exercise • exercise that costs money • exercise that is free • exercise that I can do all my life Each student will create an exercise schedule to keep for five days. They will keep track of their exercise using the form provided in Appendix A. Remind students that to be physically fit, they need to exercise four or five times per week for 30-45 minutes.	Written Assessment Rubric – Appendix A
Define the responsibility a community has to help its members maintain good health.	Have students inventory their community to find ways that it helps its members maintain good health. (fitness opportunities, availability of fresh fruits and vegetables, quality air, sidewalks and walking paths)	Teacher Observation

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate ways to practice helpful behaviors and build health skills.	Define health skills (life skills). These are specific tools and strategies that help a person maintain, protect, and improve all aspects of health. Ask the question: Why is it important to build health skills and practice helpful behaviors? Have students list their family's current healthy behaviors, and design a mobile to illustrate family healthy behaviors and skills.	Art/Poster Rubric – Appendix A
Explain and give examples of the use, misuse and abuse of substances.	Use RAT lesson plans found in Health In Action - # 1247-1265 to teach about the use, misuse and abuse of tobacco. All resources for teaching the lessons are provided with the plans. or Use Lesson Plan #1166 in Health In Action website entitled Alcohol: Think - Don't Drink to teach the dangers for drinking alcohol.	Written Test

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe various communication methods that accurately express health opinions and issues.	Invite a community health advocate to speak to students about how they support advocacy in the community. (Newspaper health reporter, television personalities who deal with health issues on TV, American Lung Association, Diabetes Association, etc.)	Guest Speaker Rubric – Appendix A
Investigate ways that Indoor Air Quality Can be improved in the classroom.	Have students work in groups to complete Sections 1-7 for the Indoor Air Quality (IAQ) Classroom Checklist – Appendix A. After completing the checklist, students will discuss the areas that need to be improved and create a "needs improvement" checklist for school officials.	Group Participation Rubric – Appendix A
Employ the ability to encourage and support others in making healthy choices.	Place students in small groups and have them write healthy tips to be read in the morning announcements. (May use Monthly Themes from Health in Action)	Teacher Observation Group Participation Rubric – Appendix A
Identify ways natural resources can impact human health.	Define natural resources and identify ways our natural resources become polluted.	Written Assignment Rubric – Appendix A

	Use the website below and discuss ways to reuse, reduce, and recycle waste. EPA Lesson Plans Have students create a list of laws (that effect the environment) that commercial and residential properties must/should follow. EPA Resource Articles	

Supplementary Lesson Plans

These lessons plans for teaching Sixth, Seventh, and Eight Grade Health can be found at https://lessonplans.movetolearnms.org/Search.aspx.

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching sixth grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics; have students read and prepare oral or written reports on the content or just make these books available to students in the classroom.

The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
The Report Card by Andrew Clements – Aladdin Publishing
It's Ok to Say No to Drugs – It's All Up to You by Susan Amerikaner – Simon and Schuster (ISBN 0671628917)
Summer of Riley by Eve Bunting – HarperTophy (ISBN 978-0064409278)
The Secret to Saying Thanks by Douglas Wood – Simon and Shuster (ISBN 0689845212)
What Planet are You From, Claice Bean? By Lauren Child – Candlewick Press (ISBN 978-0763616960)
At Daddy's On Saturday by Linda Walvoord – Albert Whitman & Company (ISBN 0807504734)
Uncle Willy and the Soup Kitchen by Dyanne Disalvo-Ryan – Asia Press (ISBN 978-0968835401)
Salt in His Shoes by Deloris Jordan and Roslyn Jordon – Scholastic (ISBN 0399231161)
How to Lose All Your Friends by Nancy Carlson – Pufflin Books (ISBN 0140558624)
A Taste of Blackberries by Doris Buchanan Smith – Thomas Crowell Company
Oh the Things That You Can Do That are Good for You by Tish Rabe (ISBN 10: 0375810986
Make Lemonade by Virgina Wolff – Henry Holt and Company (ISBN 978-0805080704)
Mick Harte was Here by Barbara Park – Publisher - Yearling
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.

Contemporary Health - Seventh Grade

Course Description

Contemporary Health (Seventh Grade) focuses on analyzing how the environment and personal health are interrelated. Teachers should emphasize the necessary skills to reduce risks associated with adolescent health problems.

Understandings and Goals

Enduring Understandings

In this unit, the student will learn:

- effective ways to handle peer pressure and stress.
- health enhancing behaviors.
- disease prevention.
- the effects of alcohol and drug use on health.
- the influence culture has on health behaviors.
- how technology can improve health.
- effective communication skills.
- the Six Steps of Decision Making.
- skills that will contribute to a healthy active lifestyle.
- the importance of making safe choices.
- the importance of a healthy diet.
- the different health care professionals.
- ways to enhance community health.

Essential Questions

- Why is it important to effectively recognize positive and negative peer pressure?
- Why is hygiene and self-image important?
- What are communicable diseases?
- How are communicable diseases prevented?
- How can the environment affect our health?
- Why is tobacco and alcohol harmful to your health?
- What is culture?
- How does the media affect your health choices?
- Why is it important to examine health information?
- Why is it important to communicate effectively?
- What are health goals?
- Why is it important to make safe choices?
- Who are health professionals?
- What is a volunteer?

Vocabulary

Identify and review the unit vocabulary.

- Abstinence: a deliberate decision to avoid harmful behaviors, including sexual activity before marriage and the use of tobacco, alcohol, and other drugs.
- Calories: units of heat that measure the energy used by the body and the energy that foods supply to the body.
- Communicable diseases: a disease that is spread from one living thing to another or through the environment.
- Communication: the ways in which you send messages to and receive messages from others.
- Conflict: any disagreement, struggle, or fight.
- Culture: the collective beliefs, customs, and behaviors of a group.
- Environment: the sum of your surroundings.
- Goals: something you aim for that takes planning and work.
- Hygiene: conditions or practices (as of cleanliness) conducive to health.
- Lifestyle: the typical way of life of an individual, group, or culture.
- Nutrition: substances in food that your body needs to grow, to repair itself, and to supply you with energy.
- Peer: person of similar age who share similar interests.
- Peer pressure: the influence that people your age may have on you.
- Posture: the carriage of the body as a whole, the attitude of the body, or the position of the limbs.
- Puberty: the time when a person begins to develop certain traits of adults of his or her own gender.
- Stress: the reaction of the body and mind to everyday challenges and demands
- Values: the ideas, belief, and attitudes about what is important that help guide the way you live.
- Volunteer: a person who voluntarily undertakes or expresses a willingness to undertake a service.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Identify behaviors for effectively handling peer pressure and stress. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Discuss the meaning of stress. Stress occurs when pressures exceed our ability to cope with the pressures. Explore how to cope with stress. Example (positive): "If I make a poor grade on my test, I can talk to my teacher about ways to improve the grade. Example (negative): "If I make a poor grade on my test, I can throw my books in the trash can." Have students tell about a stressful situation. They will tell a positive and a negative way to cope with their stressful situation. Invite the school counselor to speak to the class about positive ways to cope with stress. Discuss peer pressure and how to handle it. Role-play situations involving communication skills to manage peer pressure. (Use scenarios in Appendix A) School Stress from KidsHealth	Teacher Observation Class Discussion Role Play Rubric – Appendix A
Analyze how hygiene, posture, and self-image affect overall health.	Discuss the importance of a first impression and how a person's disposition affects that impression. Prepare posters targeting proper hygiene, correct posture and a positive self-image.	Teacher Observation Art/Poster Rubric – Appendix A
Give examples of communicable diseases and discuss transmission and methods of prevention. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Invite a nurse to speak to the class concerning health promotion and disease prevention. Have students summarize the promotion and prevention of the diseases discussed.	Teacher Observation
Describe the effects of puberty on social and emotional behavior.	Discuss the physical, mental and social developmental tasks that are necessary during a particular period of growth in order for a person to continue to grow	Student Journal

Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	toward maturity. Have students' journal their thoughts about puberty. *Note: If students have additional questions, they may contact the school nurse or place questions in a discussion box.*	
Propose ways in which improving the environment can enhance physical, mental, and social health.	Discuss ways that individuals can contribute to community well-being. Holiday Tips from KidsHealth Have students brainstorm ways they can help recycle at school and at home. (newspapers, glass, plastic, aluminum)	Teacher Observation
Describe the relationship between tobacco and alcohol use and how it affects the development of serious health problems.	Demonstrate the residues from tobacco use by showing a "smoking doll". Invite a professional to discuss harmful effects of tobacco and alcohol. (Tobacco collation, DARE, etc.) Use magazines to find advertisements on tobacco products and alcohol. Have students write a brief report about their chosen advertisement.	Teacher Observation Written Assessment Rubric – Appendix A

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M)[NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe the influence of culture on health behaviors.	Invite a guest speaker to talk about their particular culture and health behaviors within that culture. (Native American, Asian, Hispanic, Italian, French, etc.)	Guest Speaker Rubric – Appendix A
Analyze how the media and other sources influence health behavior.	Discuss what television, radio, internet, movies, magazines, newspapers, books, billboards, etc. all have in common. Have students watch a commercial, read a printed advertisement, listen to a radio announcement, or look at a billboard about a health related product. Ask the question, "Does this media influence you to make a healthy choice?" Why or Why Not? Have students write their thoughts in their journal. Media Smarts Lesson Plans	Student Journal
Explore technology and other resources to improve personal and family health.	Have students explore the use of phone apps technology for activity and nutritional goal setting. (Use computer applications when phones are not available)	Teacher Observation

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]

Suggested Objectives	Suggested Teaching Strategies	Suggested Assessment Strategies
Critique sources of information regarding health products and services to determine if they are reliable/ unreliable.	Have students examine information regarding health products and services and tell if the information is reliable/unreliable and why. (Use magazine articles, internet sources, health brochures, etc.)	Teacher Observation

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate various forms of effective communication.	Define effective communication to include verbal and nonverbal communication skills. Divide students into groups and have them demonstrate various forms of effective communication. (body language; speaking, listening, and writing skills)	Teacher Observation Group Participation Rubric – Appendix A
Demonstrate strategies to manage conflict in healthy ways.	Discuss conflict resolution strategies (negotiation and mediation). As a class, brainstorm all the aspects of violence prevention and the health benefits of avoiding violence. Have students create a violence prevention slogan and prepare a slogan poster to emphasize the importance of preventing violence in our society.	Art/Poster Rubric – Appendix A
Examine how to handle difficult interpersonal situations through effective communication. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Discuss how to handle difficult situations by using the Conflict Resolution Skills - TALK: Take time out- at least 30 minutes; Allow each person to tell his/her side uninterrupted; Let each person ask questions; Keep brainstorming to find a good solution. Have students choose a situation that is a common conflict for teens. List the conflict on the board. Using the TALK strategy above the student will write a script showing how the conflict will be resolved and discuss with the class. *Teen Health,* Glencoe (McGraw Hill) Course 2, Bronson, Cleary, Hubbard	Teacher Observation Class Participation Rubric – Appendix A

Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate the ability to apply decision-making models to health issues	Discuss the 6 Steps of Decision Making. • State the situation • List the options	Teacher Observation Class Participation Rubric –

and problems. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	• Weigh the outcomes • Consider values • Make a decision and act • Evaluate the decision Have students discuss scenarios and work through the decision making steps to make a decision. (Example: Emily has soccer practice at 3:30 p.m. Her friends want her to hang out with them instead. Emily loves soccer but also loves to spend time with her friends.) Note how the six steps of the decision-making process can help her make a choice. *Teen Health,* Glencoe (McGraw Hill) Course 2, Bronson, Cleary, Hubbard Glencoe Health and Fitness	Appendix A

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Apply strategies and skills needed to attain goals that will contribute to a healthy active lifestyle.	Discuss Mississippi Student Act 2007 that requires 150 minutes of physical education/activity a week. Have students identify ways to be active indoors or outdoors. Teacher can use the Jammin Minute website in incorporate activities into the classroom. Invite a fitness specialist to speak to the students on indoor/outdoor activities or have a field trip to a local fitness center. PE Central Media Center	Teacher Observation
Develop an action plan for achieving a personal health goal.	Students will identify a personal health goal and develop an action plan for achieving the goal. They will include these steps in their planning: • Set a realistic goal and write it down • List the steps to take to reach the goal • Identify sources of help and support • Set a reasonable time frame for reaching the goal • Evaluate progress • Reward for reaching the goal (Personal Health Goal Chart – Appendix A)	Teacher Observation

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate practices of making safe choices. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Have students work in groups to create a skit showing how peer pressure can affect the outcome of making good and bad choices. (smoking, drinking, curfews, lying, cheating, fighting, safe behaviors, abstinence, etc.)	Teacher Observation Role Play/Skit Rubric-Appendix A
Distinguish among use, misuse, and abuse of substances.	Have students use a body poster to identify organs affected by drug use.	Art/Poster Rubric – Appendix A
Identify how a properly balanced diet and exercise influence healthy body weight.	Discuss a properly balanced diet. Keep food diaries and enter foods consumed into a web-based nutrient analysis program to determine if individual needs are being met for calories and nutrients.	Teacher Observation
List health professionals that provide education, counseling services, and treatment to prevent communicable disease.	Use technology to research health professions that provide services and treatment to prevent communicable disease. Have students complete a report to show their findings. Health Care Professionals	Written Assessment Rubric – Appendix A

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate an ability to influence others to become involved in healthy community projects.	Discuss ways to influence others to become involved in healthy community projects. Have students establish a classroom project to benefit others. (Campus cleanups, planting flowers, can food drive, clothing closets, etc.)	Teacher Observation

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching seventh grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics; have students read and prepare oral or written reports on the content or just make these books available to students in the classroom.

The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
The Report Card by Andrew Clements – Aladdin Publishing
It's Ok to Say No to Drugs – It's All Up to You by Susan Amerikaner – Simon and Schuster (ISBN 0671628917)
Summer of Riley by Eve Bunting – HarperTophy (ISBN 978-0064409278)
The Secret to Saying Thanks by Douglas Wood – Simon and Shuster (ISBN 0689845212)
At Daddy's On Saturday by Linda Walvoord – Albert Whitman & Company (ISBN 0807504734)
Uncle Willy and the Soup Kitchen by Dyanne Disalvo-Ryan – Asia Press (ISBN 978-0968835401)
Salt in His Shoes by Deloris Jordan and Roslyn Jordon – Scholastic (ISBN 0399231161)
How to Lose All Your Friends by Nancy Carlson – Pufflin Books (ISBN 0140558624)
A Taste of Blackberries by Doris Buchanan Smith – Thomas Crowell Company
Oh the Things That You Can Do That are Good for You by Tish Rabe (ISBN 10: 0375810986
Make Lemonade by Virgina Wolff – Henry Holt and Company (ISBN 978-0805080704)
Mick Harte was Here by Barbara Park – Publisher - Yearling
Gregory, the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.

Contemporary Health - Eighth Grade

Course Description

Contemporary Health (Eighth Grade) reinforces the importance of gaining an understanding of how health is influenced by the interaction of body systems. Students should become familiar with the interrelationship between mental, emotional, spiritual, social, and physical health during adolescence. Students should also become more competent in developing a fitness plan. Teachers should reinforce how family and peers influence personal health and how appropriate health care can prevent premature death and disability.

Understandings and Goals

Enduring Understandings

In this unit, the student will learn:

- the physical, emotional, and social changes that occur during adolescence.
- the types of germs that can cause diseases.
- how germs spread.
- how to avoid or reduce risk behaviors.
- first aid procedures.
- warning signs of suicide.
- to identify positive and negative peer pressure.
- the techniques of conserving natural resources.
- the six nutrients needed by the body.
- to differentiate between legal and illegal drugs.
- the factors that influence an individual's decisions during adolescence.
- how to handle emotions in healthful ways.
- the importance of good nutrition and daily physical activity for a healthful lifestyle.
- how to use conflict resolution skills.
- refusal skills for risk-taking behaviors.
- to distinguish between various health care professionals.
- how to distinguish between facts and myths as it relates to health behaviors.
- the components of the human life cycle.

Essential Questions

- What is adolescence?
- How are communicable diseases spread? What are sexually transmitted diseases?
- How does abstinence from sexually activity show that you are responsible?
- What nutrients do you need?
- What are the nutrient groups?
- What are two kinds of information?
- What is nutrition?

- What are healthy ways to express emotions?
- What are the three developmental stages of adolescence?
- What is the difference between negative and positive peer pressure?
- What is an OTC medicine?
- What types of information can you find on a prescription medicine label?
- How can medicine contribute to good health?
- How are medicines and illegal drugs similar?
- What are risk behaviors?
- What are two behaviors that can reduce health risk?
- What are consequences?
- What are some warning signs of suicide?
- Why is family one of the biggest influences in your life?

Vocabulary

Identify and review the unit vocabulary.

- Abstinence: the conscience, active choice not to participate in high-risk behaviors.
- Adolescence: the stage of life between childhood and adulthood.
- Communicable disease: a disease that can be spread to a person from another person, an animal, or an object.
- Drug abuse: intentionally using drugs in a way that is unhealthful or illegal.
- Emotions: feelings such as love, joy or fear.
- Family: the basic unit of society and includes two or more people joined by blood, marriage, adoption or a desire to support each other.
- First aid: the immediate care given to someone who becomes injured or ill until regular medical care can be provided.
- Germs: organisms that are so small they can only be seen through a microscope.
- Infection: a condition that happens when pathogens enter the body, multiply, and cause harm.
- Medicine: a drug that prevents or cures an illness or eases its symptoms.
- Nutrition: the process of taking in food and using it for energy, growth, and good health.
- Nutrients: substances in foods that your body needs to grow, have energy, and stay healthy.
- Over-the-counter drugs: found on the shelves of local pharmacy or grocery stores.
- Peer pressure: the influence that your peer group has on you.
- Prescription medicine: a medicine that can be obtained legally only with a doctor's written permission.
- Puberty: the time when you develop physical characteristics of adults of your own gender.
- Refusal skills: ways to say no effectively.
- Risk behaviors: characteristics or behaviors that increase the likelihood of developing a medical disorder or disease.
- Sexually transmitted disease: infections that are spread from person to person through sexual contact.
- Suicide: the act of killing oneself on purpose.

Suggested Learning Experiences

Competency 1: Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) [NHES 1]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Describe causes and effects of stress and identify healthy ways to manage stress.	Define stress and discuss the causes and effects of stress. Have students write a paragraph about a stressful situation. In the paragraph answer the following the questions: • What caused the stressful situation? • What were the effects? • How could this be managed in a healthy way?	Teacher Observation Written Assessment Rubric – Appendix A
Explore the changes during adolescence. (physical, mental/ emotional, and social) Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Have students brainstorm the physical, mental/ emotional, and social changes that occur during adolescence. (Puberty, developing a sense of identity, adopting values, setting goals, and developing control over behavior, etc.) Have students complete the concept mapping activity in Appendix A.	Concept Mapping Activity – Appendix A Written Test
Identify ways individuals can reduce risk factors related to communicable and chronic diseases. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Invite a health professional/nurse to discuss sexually transmitted diseases, contraceptives, and simple ways (i.e., hand washing) to prevent communicable diseases.	Teacher Observation
Identify the various components of the human life cycle.	Have students view the article below that emphasizes the components of the human life cycle. (Infancy and childhood, adolescence, adulthood) Human Life Cycle	Teacher observation

Competency 2: Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) [NHES 2]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Analyze the positive and	Have students watch the evening news or read the	Written Assessment Rubric

negative influences of technology and media on personal and family health.	newspaper and write a report about the health issues mentioned in the newscast or newspaper.	– Appendix A
Describe the influence of cultural beliefs on health behaviors.	Have students research health myths and facts. Role-play health myths and present facts.	Role Play Rubric – Appendix A
Understand peer relationships and their impact on health decisions. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Discuss who are our peers and define peer pressure (both negative and positive). KidsHealth Resource on Peer Pressure Use the HELP skills – Healthful, Ethical, Legal, and Parent-approved – to resist peer pressure. Divide students into groups and have them use the HELP skills to determine appropriate behavior. (Use Scenarios for Peer Pressure - Appendix A) Have students write a paragraph describing someone who is a good friend. (Use characteristics provided by the teacher.) Students will read paragraph to the class.	Teacher Observation Written Assessment Rubric – Appendix A

Competency 3: Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH)[NHES 3]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Distinguish differences among various health care professionals.	Invite health service professionals to speak to the class. or Students will research various health professions and give an oral report to the class.	Guest Speaker Rubric – Appendix A Presentation Rubric – Appendix A
Explain an individual's responsibility in choosing health products and services.	Divide the students into groups. Have students use technology to explore various health products and services; then prepare a PowerPoint to show to the class about the chosen product or service. Questions to be answered: • What is the product? • What does the product do? • Do I really need the product? • Is the product safe? Could it harm my health or someone else's? • Could the product or its packaging harm the environment? • What is the unit price? (Cost per unit amount) • Is the Product worth the price? • Is there a similar product that cost less? • What is the stores return policy?	Presentation Rubric – Appendix A Group Participation Rubric
Explain the reasons for public health laws and regulations.	Have students research Food and Drug Administration laws and regulations regarding guidelines for over the counter medicines and prescriptions. Class will discuss their findings.	Teacher Observation

	or Invite a speaker to discuss pollution control laws and regulations. (EPA, DEQ, etc.)	

Competency 4: Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S)[NHES 4]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate ways to cope with interpersonal conflicts. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Discuss how to handle difficult situations by using the Conflict Resolution Skills - TALK: Take time out- at least 30 minutes; Allow each person to tell his/her side uninterrupted; Let each person ask questions; Keep brainstorming to find a good solution. Have students choose a situation that is a common conflict for teens. List the conflict on the board. Using the TALK strategy above the student will write a script showing how the conflict will be resolved and discuss with the class. *Teen Health*(course2) - Glencoe (McGraw Hill) Bronson, Cleary, Hubbard Glencoe Teen Health	Teacher Observation Class Participation Rubric – Appendix A
Practice refusal skills for risk taking behaviors. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	The students will discuss listening, self-disclosure, and feedback in communication. Discuss how to handle difficult situations by using Refusal Skills - Saying No effectively. STOP – Say no; Tell why not; Offer other ideas, Promptly leave. Refusal Skills *Teen Health*(course2) - Glencoe (McGraw Hill) Bronson, Cleary, Hubbard. Glencoe Teen Health	Class discussion
Examine ways to promote positive behavior when dealing with individual differences.	Ask the question: What does it mean to have good character? Define the term character: qualities that define what a person thinks, feels, and behaves. Brainstorm traits of good character to include: trustworthiness, respect, responsibility, fairness, caring, citizenship. Divide the class into groups and assign each group one of the traits listed above. Have them define the traits and give one example of how the trait can be	Teacher Observation Class Participation Rubric – Appendix A

	developed.	
Competency 5: Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) [NHES 5]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Analyze how nutrition affects physical, mental, and emotional development.	Teacher will explain the importance of good nutrition and daily physical activity for a healthy lifestyle (physical, mental/emotional and social development). Have students research "Choose My Plate" and list the five food groups and give an example of a nutritious food from each group; list five healthy eating tips. Choose My Plate Have students bring a Nutrition Facts Label and discuss the information about a food's nutritional value; compare and contrast the food labels.	Teacher Observation
Develop a plan that addresses commitment and self-control.	Teacher will point out that journal writing is a healthful way to express emotions. Have students write a private journal entry about something that recently made them feel a strong emotion, such as winning a game or having an argument. Students should describe the emotions they felt and how they handled them. Remind students that they do not have to share what they write. Urge students to consider whether they might have handled the emotions in more healthful ways. Note: Answers will vary but might include (any two): writing, drawing, playing music, exercising, or participating in a hobby.	Teacher Observation
Analyze how health related decisions are influenced by individuals, family, and community values.	For a week, students will identify as many external influences on their health choices as they can. They will label each influence as being positive or negative, and explain why they chose the labels. Students will share Information with the class.	Teacher Observation Class Participation Rubric – Appendix A
Predict how decisions regarding health behaviors have consequences for self and others. Note: *You should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix D)*	Teacher will discuss tips on how to avoid or reduce risk behaviors in order to maintain overall health. 1. Plan ahead 2. Think about consequences. 3. Resist negative pressure from others. 4. Stay away from risk takers. 5. Pay attention to what you are doing. 6. Know your limits. 7. Be aware of dangers. Call on students to give examples of risk-behaviors and health consequences. (Examples: Riding in a car with the driver texting, engaging in pre-marital sex, drinking alcohol or smoking cigarettes, using medicines in an	Teacher Observation

	improper way, etc.)	

Competency 6: Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) [NHES 6]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Create a personal health plan that encourages an active lifestyle.	Have students identify health goals that promote personal health. Have students create strategies to assist them in achieving these goals by setting up an exercise plan that includes endurance, strength, and flexibility.	Student Journal

Competency 7: Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA)[NHES 7]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Demonstrate common first aid procedures and identify ways to obtain various sources of help.	Invite a paramedic or nurse to speak on first aid procedures and emergency care. Have students list the various sources of help along with phone numbers that are in their community.	Teacher Observation
Identify regulations and adverse effects of the use and misuse of drugs (prescription, over the counter, and illegal).	Have students research current regulations of prescription drugs and over the counter drugs. In groups have students research the adverse effects of prescription, over the counter, and illegal drug misuse on the body.	Teacher observation
Identify the six (6) essential nutrients needed by the body and their nutrient sources.	Discuss the six (6) essential nutrients and the role each play in the human body. (Six (*6) Essential Nutrients – carbohydrates, fiber, proteins, lipid, vitamins, minerals)* Have students research and construct a poster listing the six essential nutrients and examples of their sources. Choose My Plate	Art/Poster Rubric – Appendix A
Describe the role the Food and Drug Administration (FDA) plays in the safety of the products we use on a daily bases and how it relates to our health.	FDA Transparency Display the website given on a SmartBoard and discuss each of the products the FDA regulates and the importance of the FDA's work on our health.	Written quiz
Demonstrate practices of making safe choices. Note: Y*ou should check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill*	Define and discuss positive and negative peer pressures. In groups have students role play positive and negative peer pressure situations involving: smoking, drinking, curfews, lying, cheating, fighting, safe behaviors, pre-marital sex, abstinence, etc. Have them include the ways that pressure can affect health.	Teacher observation

999 - Appendix D)		

Competency 8: Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) [NHES 8]		
Suggested Objectives	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
Explain ways to improve community health and techniques for conserving natural resources.	Teacher will use the Recycling Begins with You curriculum guide to teach students about recycling paper. Guide can be adapted for 8th grade. Organize a school-wide recycling program.	Teacher Observation
Identify services for people who abuse drugs.	Have students use the SAMHSA Substance Abuse Treatment Facilities Locator to find services in the community for people who abuse drugs. Invite substance abuse service worker to speak to students about the services offered in the community.	Teacher Observation
Explain ways students can help friends who may exhibit signs of suicide.	Discuss suicidal tendencies with students. Have students research suicide using the link provided below. Warning Signs of Suicide Have students create a display board about suicidal tendencies and list ways to help that person.	Art/Poster Rubric – Appendix A

Health Literacy – Using Books to Teach Health Concepts and Skills:

In addition to books suggested within the teaching strategies, the books listed below can be used for teaching eight grade students health concepts and skills. Teachers may choose to read the entire book to the students; use portions of the book to introduce health topics; have students read and prepare oral or written reports on the content or just make these books available to students in the classroom.

The Meanest Thing to Say by Bill Crosby – Scholastic, Inc.
My Big Sister Takes Drugs by Judith Vigna – Albert Whitman & Co.
Who is A Stranger and What Should I do? By Linda Walvoord Girard – Albert Whitman & Co.
The Report Card by Andrew Clements – Aladdin Publishing
It's Ok to Say No to Drugs – It's All Up to You by Susan Amerikaner – Simon and Schuster (ISBN 0671628917)

Summer of Riley by Eve Bunting – HarperTophy (ISBN 978-0064409278)
The Secret to Saying Thanks by Douglas Wood – Simon and Shuster (ISBN 0689845212)
At Daddy's On Saturday by Linda Walvoord – Albert Whitman & Company (ISBN 0807504734)
Uncle Willy and the Soup Kitchen by Dyanne Disalvo-Ryan – Asia Press (ISBN 978-0968835401)
Salt in His Shoes by Deloris Jordan and Roslyn Jordon – Scholastic (ISBN 0399231161)
How to Lose All Your Friends by Nancy Carlson – Pufflin Books (ISBN 0140558624)
A Taste of Blackberries by Doris Buchanan Smith – Thomas Crowell Company
Oh the Things That You Can Do That are Good for You by Tish Rabe (ISBN 10: 0375810986
Make Lemonade by Virgina Wolff – Henry Holt and Company (ISBN 978-0805080704)
Mick Harte was Here by Barbara Park – Publisher - Yearling
Gregory, the Terrible Eater by Mitchell Sharmat – Simon and Schuster Books for Young Readers
Murphy Meets the Treadmill by Harriet Ziefert – Houghton Mifflin Co.

Student Competency Profile - Kindergarten

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Kindergarten		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile - First Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

First Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Second Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Second Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Third Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Third Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Fourth Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Fourth Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Fifth Grade

Student's Name: _

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Fifth Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Sixth Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Sixth Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Seventh Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Seventh Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Student Competency Profile – Eighth Grade

Student's Name:

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Eighth Grade		
	1.	Comprehend concepts related to health promotion and disease prevention to enhance health. (D, PH, N, H) NHES 1
	2.	Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors. (M) NHES 2
	3.	Demonstrate the ability to access valid health information and products and services to enhance health. (C, S, CH) NHES 3
	4.	Demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks. (PH, F, M, S) NHES 4
	5.	Demonstrate the ability to use decision-making skills to enhance health. (N, PH, H, S, SA) NHES 5
	6.	Demonstrate the ability to use goal-setting skills to enhance health. (N, PH, H, S) NHES 6
	7.	Demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks. (PH, S, SA) NHES 7
	8.	Understand the importance of demonstrating the ability to advocate for personal, family, and community health. (C, PH, F) NHES 8

Appendix A: Activities and Rubrics

ADVERTISEMENTS…

How effective are they?

Directions: Students will read advertising slogans or symbols listed below that were gotten from television, radio and magazines commercials. Students will then, in pairs, try to identify the company responsible for creating the advertisement. (Example: Eat Fresh Subway)

**** At the bottom, add some slogans of your own. See if your neighbor can guess them!***

1. Got Milk? _____
2. It's the Real Thing_
3. Just Do It! _____
4. Golden Arches_____
5. Click It or Ticket!_____
6. Finger Lickin' Good_
7. Think Outside the Bun _____
8. Best Pizza Under One Roof_ _____
9. Doughboy_____
10. Eat More Chickin!_____
11. I'm Not Your Momma-Pick It Up! _____
12. Melts in Your Mouth, Not in Your Hand_____
13. Better Ingredients - Better Pizza_____
14. Fresh Goes Better with_____, Fresh and Full of Life.
15. Don't Let Life Get Stale - Keep it Fresh – Think_____

ADVERTISEMENT ANSWER KEY

1. Dairy Association
2. Coca Cola Bottling Company
3. Nike
4. McDonald's
5. Mississippi Highway Patrol
6. KFC (Kentucky Fried Chicken)
7. Taco Bell
8. Pizza Hut
9. Pillsbury
10. Chick-Fil-A
11. Litter Free Mississippi (Tourism Commission)
12. Hershey Company (M&Ms)
13. Papa John's
14. Mentos
15. Krispy Kreme

Art/Poster Rubric

	Exemplary	Accomplished	Developing	Beginning	Score
	4 Points	3 Points	2 Points	1 Point	
Required Content	The poster includes all required content elements as well as additional information.	All required content elements are included on the poster.	All but one of the required content elements are included on the poster.	Several required content elements were missing.	
Labels	All items of importance on the poster are clearly labeled with labels that are easy to read.	Almost all items of importance on the poster are clearly labeled with labels that are easy to read.	Many items of importance on the poster are clearly labeled with labels that are easy to read.	Labels are too small to read, or no important items were labeled.	
Attractiveness	The poster is exceptionally attractive in terms of design, layout, and neatness.	The poster is attractive in terms of design, layout, and neatness.	The poster is acceptably attractive though it may be a bit messy.	The poster is distractingly messy or very poorly designed.	
Grammar	There are no grammatical or mechanical mistakes on the poster.	There are 1 to 2 grammatical or mechanical mistakes on the poster.	There are 3 to 4 grammatical or mechanical mistakes on the poster.	There are more than 4 grammatical or mechanical mistakes on the poster.	

Brochure/Bulletin Board/Visual Display Rubric

Category	Possible Points	Points Earned
Title:		
Eye-catching, states a purpose, and conveys a message	10	_____
Appropriate Use of Space:		
Layout and design is creative and easily read	10	_____
Accuracy of Information:		
Major points are clearly defined	20	_____
Correct use of grammar and spelling	10	_____
Artistic Appeal:		
Border applied	10	_____

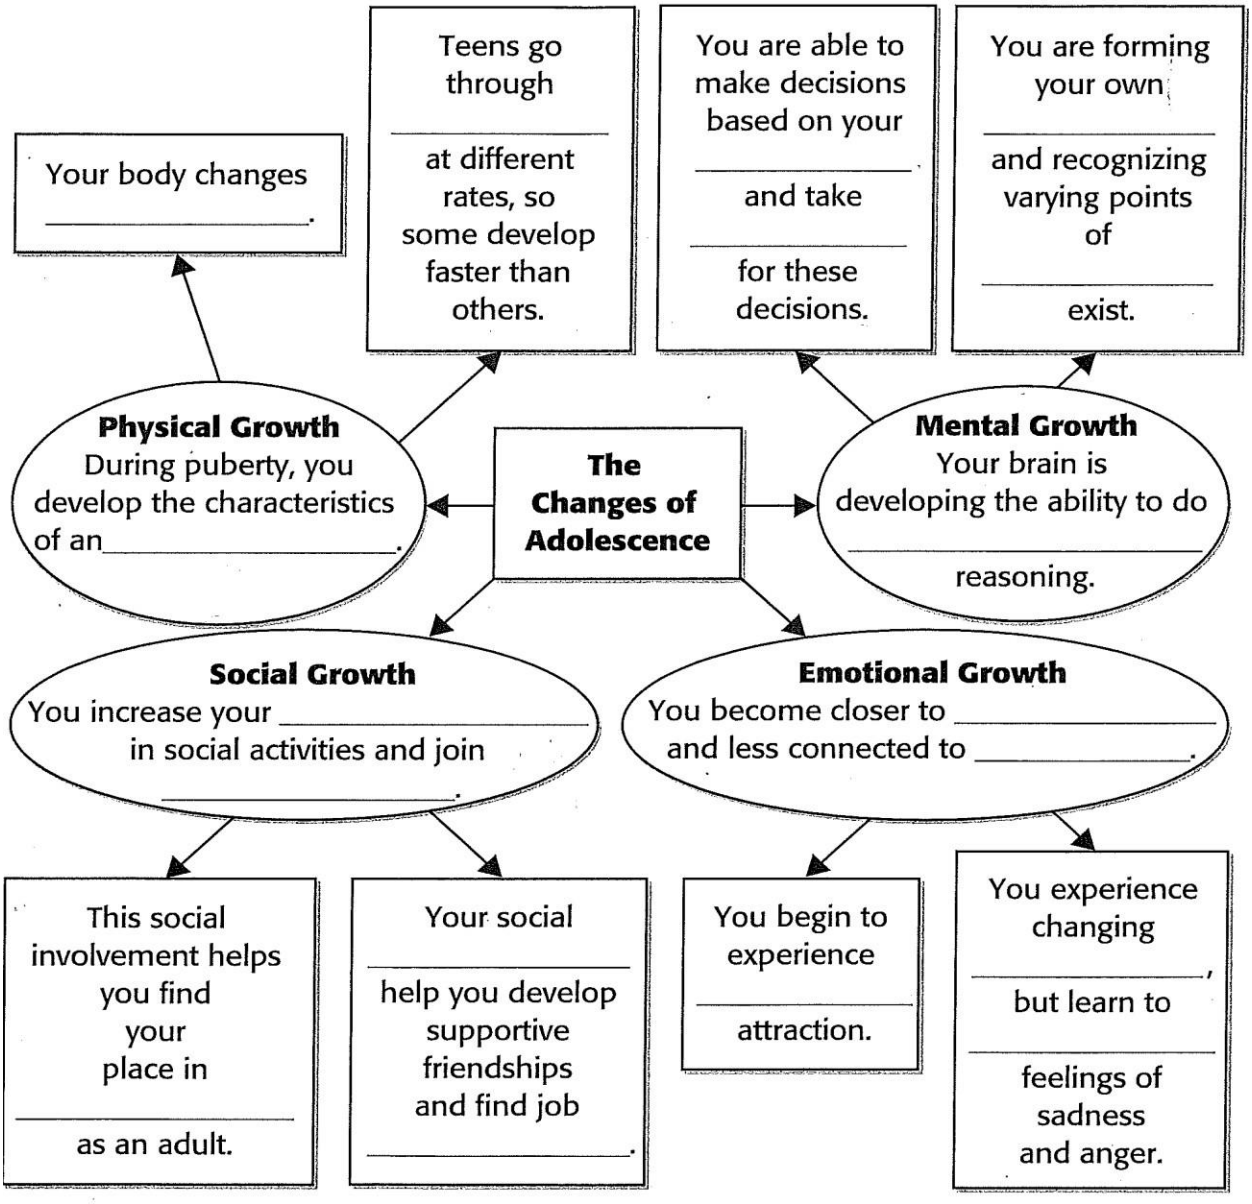
CONCEPT MAPPING ACTIVITY

Concept Mapping Activity 12-1

Directions: Complete the concept map on the changes of adolescence, using terms and phrases from your textbook.



Glitter Germs Activity

Glitter works well to represent how germs are spread from one person to the next because it sticks well to the hands.

- Let each child rub in a small amount of lotion to make the glitter stick even better.
- Choose four or five volunteers from the glass to be the germ spreaders.
- Sprinkle a generous amount of glitter on the hands of the selected students. Have them hold their hands over a trash can to catch the extra glitter. They should shake off the excess glitter in the trash. Use a different color of glitter for each child so the kids can see how many different types of germs they receive.
- The entire class mingles shaking hands with one another for a few minutes.
- The glitter germs will transfer to the other hands. Many of the kids will end up with several different colors of glitter.
- Discuss the similarities between how the glitter and germs spread.
- Give each child a paper towel to wipe away the glitter germs. The students will notice the germs don't wipe off well.
- Have some of the students use cold water without soap to wash off the germs.
- Ask a few other students to use warm water with soap to wash off the glitter.
- Discuss which method is most effective in removing the glitter germs.

Total Number of Hazardous Products in Your Home		

HAZARDOUS PRODUCTS SAFETY GUIDELINES

1. Keep products out of reach of children and animals. Store all hazardous products on high shelves or in locked cabinets, away from food items.
2. Make sure the lids and caps are tightly sealed and child-proofed.
3. Store corrosive, flammable and poisonous products on separate shelves. Be sure the containers are kept dry to prevent corrosion. Store these products where they are not likely to freeze.
4. Keep products in their original containers, with the information on the labels clearly legible. Never put a household hazardous product in a food or beverage container.
5. Keep products away from heat, sparks, flames, or sources of ignition. This is especially important with flammable products and aerosol cans.

Health Care Agencies in My Community

Agency Name	Service Provided	Phone #	Address

Student Name _____

How Affective was the Advertisement that I Viewed?

Evaluate the health product or service advertisement by answering the questions below. Score from 1-5 (a score of 5 for high and 1 for low)

Name of Product_____ **Type of Advertisement** _____

Overall rating of the advertisement….

_____ was of high quality (it was attractive and gave needed information)

_____ was timely (it made me want to buy the product)

_____ was relevant to my needs (it was a product that me or my family would use)

_____ helped me to learn about the product or service

____ this product will help to improve my health

_____ the advertisement will assist me in making better decisions

_____ **TOTAL SCORE (30 points is maximum)**

1. What was the most useful part of this advertisement? Why?

_____

2. What was the least useful part of the advertisement? Why?

_____

3.<u>What additional information do I need?</u>

How to Teach Kids How to Introduce Themselves to Others

Instructions

1. Make eye contact and listen carefully as your child speaks to you. Children often mimic behaviors portrayed by surrounding adults. Teach children how to effectively communicate early on by setting a good example.

2. Demonstrate how to use open body language so that other children feel comfortable approaching your child. Teach children to make eye contact, smile and to keep their body turned to the person they are speaking to.

3. Bring your child to local functions, school events or public play areas. Encourage your child to introduce herself to other children in her age group. Speak with other parents to set up play groups.

4. Speak with your child about kindness, sharing and patience. Display how to properly share toys and kind words with friends. Remind your child that she needs patience when meeting new people.
5. Invite children over to your home and allow your child to bring home friends. Allowing new children the opportunity to spend time with your child will increase their chances of making new friends.
6. Bring your child with you when attending to errands or visits to homes of family or friends. Improve your child's social skills by encouraging her to make introductions with people in your community.
7. Sign up younger children for a playgroup or push older children to join a sports team or school club. Show your support by becoming a parent chaperone, attending games or by hosting an event.
8. Stress the importance of having a positive attitude when making new friends and dealing with problems that may arise in those friendships. Portray how to maintain open communication in any type of situation.
9. Give your child examples on how she could begin a conversation with another child. Explain to your child that asking questions, such as asking for a name or what grade the other child is in, could potentially start a friendship.
10. Remind your child to always be herself to gain respect and to be happy. Point out that others can usually tell when you are being dishonest or pretending to be something that you are not.

Meeting New People

- FamilyEducation.com states that when children meet a new adult, they should stand up, make eye contact, and shake hands, as is the polite tradition. They should try to make conversation by asking open-ended questions.
    - I'm _ , nice to meet you.
    - How are you today?
    - Have you had a good day?
    - I like your shirt.

Matching Behaviors and Outcomes Activity

Instructions: Cut the sections apart, mix them up and distribute to students who have been placed in groups. Have them match the behavior with a possible outcome of that behavior.

Taking medicine that belongs to my Mother	**Become sick and have to go to the emergency room.**
Riding in a car without a safety belt	**Driver gets a ticket**
Getting 8 hours of sleep	**Energy for daily activities**
Eating lots of unhealthy snacks	**Stomach ache**
Getting 60 minutes of exercise each day	**Have a healthy body weight**
Talking to a stranger in my neighborhood	**Could be taken away from family**
Sniffing strong fumes from unsafe products	**Become light-headed and dizzy**
Smoking a cigarette	**Could become addicted to tobacco**
Making healthy choices	**Feel good about myself – Building a healthy lifestyle**
Forget to brush and floss my teeth	**Cavities will form**

Mississippi School Immunization Laws

In order to enroll in any public or private kindergarten, elementary, or secondary school in Mississippi, a student must provide the school with a:

Certificate of Immunization Compliance (Form 121) - MUST be signed by the District Health Officer, a physician, or a nurse.

Or a

Certificate of Medical Exemption (Form 122) - **is not computer generated**. This form **MUST** be signed by the District Health Officer (refer to the Medical Exemption section for specific information.)

The list of immunizations required is specified by the State Health Officer and is promulgated at least annually as directed by state statute. All vaccines are to be given at the appropriate age and intervals according to ACIP recommendations. The required vaccines are listed below.

MS School Entry Immunization Requirements 2012-2013[a]

Vaccine/antigen	No. of doses
Diphtheria, Tetanus, Pertussis (DTaP) [b]	5[c]
Polio (IPV)	4[d]
Hepatitis B	3
Measles, Mumps, Rubella (MMR)	2[e]
Varicella (chickenpox)	2[f]
Tdap	1[g]

a- All children entering a Mississippi school (any grade) for the first time will be required to have the above listed immunizations. **This includes Pre-K 4 year olds – 12th grade.**

b- Children entering a Mississippi school after their 7th birthday, who do not meet the above DTaP requirements, will need at least 3 total doses of diphtheria/tetanus containing vaccine (Td). Tdap should be used as one of the three diphtheria/tetanus containing vaccines (preferably as the first of the 3 doses) for children age 10 years and older. Refer to the Advisory Committee on Immunizations Practices (ACIP) catch up schedule at https://www.cdc.gov/

c- If the 4th dose is received on or after the 4th birthday, a 5th dose is not required.

d- The final dose in the series should be administered at age >4 years of age, regardless of number of previous doses.

e- MMR vaccine may only be waived if there is a documented physician's diagnosis of previous infection with measles, mumps and rubella disease or a serological confirmation of immunity to measles, mumps and rubella.

f- Varicella vaccine will be waived for evidence of past infection, including past history of chickenpox or a serological confirmation of immunity to chickenpox.

g- Beginning 2012-2013 school year all students entering, advancing to 7th grade, transferring into 7th grade will need proof of an adolescent whooping cough (pertussis) booster, Tdap immunization, before entry into school in the fall. Tdap vaccine given on or after the 7th birthday meets the new school requirement.

MY PLATE CHECKLIST

Eating Healthier Foods and Making Healthier Choices

TIP #	MESSAGE	COMPLETED
	Balance activity with exercise	
	Stop eating when your stomach is full	
	Watch portion sizes	
	Foods you should eat every	
	Goodness of fruits and vegetables	
	Low fat dairy foods	
	Healthy whole grains that are high in fiber	
	Make healthy choices when eating out	
	Lower sodium food choices	
	Water is a healthy choice for drinking	

911 Scenarios

Instructions: Choose one emergency, then practice what you could say if you were calling 911.

You're watching TV at home when you notice flames coming out a window of your neighbor's house.

You call 911.

You're playing ball in your yard with your babysitter when all of a sudden she falls to the ground. She's having trouble breathing.

You call 911.

You're playing at your friend's house when you hear a loud crash. A car has hit a tree, and the driver is hurt.

You call 911.
You call 911.

This is the 911 operator. What is your emergency?

What's your name?

Where are you? What's your address?

Can you tell me what happened?

Is anyone hurt?

Is anyone else with you?

Are you safe where you are?

OK, stay on the phone. Help is on the way!

Personal Health Goal Chart

	Exemplary	Accomplished	Developing	Beginning	Score
	4 points	3 points	2 points	1 point	
Delivery	Interesting, well-rehearsed with smooth delivery that holds audience attention.	Relatively interesting, rehearsed with a fairly smooth delivery that usually holds audience attention.	Delivery not smooth, but able to hold audience attention most of the time.	Delivery not smooth and audience attention lost.	
Originality	Product shows a large amount of original thought. Ideas are creative and inventive.	Product shows some original thought. Work shows new ideas and insights.	Uses other people's ideas (giving them credit), but there is little evidence of original thinking.	Uses other people's ideas, but does not give them credit.	
Time length	30-45 seconds long; pre-produced	30 seconds; performed in class	20-29 seconds; performed in class	15-19 seconds; performed in class	
Use of Class Time	Used time well during each class period. Focused on getting the project done. Never distracted others.	Used time well during each class period. Usually focused on getting the project done and never distracted others.	Used some of the time well during each class period. There was some focus on getting the project done but occasionally distracted others.	Did not use class time to focus on the project OR often distracted others.	

Respect Box Activity

Directions:

Teacher will provide students with paper strips. As the student observes another student communicating care, consideration, or respect for others, they will write the student's name and their act of care, consideration or respect on the paper strip.

Students will place the strip in the Respect Box.

The teacher will read the strips out loud to the class at different times during the day.

Respect Cards

Directions: Teacher will distribute a copy of "Respect Cards" to each student. Students will make two columns on notebook paper titled "Respectful" and "Disrespectful."
Students will then cut and glue cards on notebook paper under appropriate title.

1. I say 'thank you' when someone does something nice for me.	9. I exercise four to five times a week to keep my body healthy.
2. I call people names that I don't like.	10. I draw on my desk at school.
3. If someone makes a mistake, I laugh at them	11. I help a classmate when they spill their pencil box.
4. I do my homework without being told.	12. I raise my hand to speak.
5. I eat healthy snacks.	13. I mimic an adult when they are not looking.
6. I interrupt my mom while she is on the phone.	14. I ask before using someone's supplies.
7. I always put on my seatbelt in the car.	15. I run back to my room and slam my door when I am corrected.
8. I look someone in the eyes when they are talking to me.	16. I cough without covering my mouth.

Role-play or Skit Rubric

	Excellent 4 Points	Good 3 Points	Average 2 Points	Needs Improvement 1 Point	Total
Accuracy	**All information accurate**	**Almost all information accurate**	**Most information accurate**	**Very little information accurate**	
Role	**Excellent character development; student contributed in a significant manner**	**Good character development; student contributed in a cooperative manner**	**Fair character development; student may have contributed**	**Little or no character development; student did not contribute much at all**	
Knowledge Gained	**Can clearly explain several ways in which his/her character "saw" things differently than other characters and can explain why**	**Can clearly explain several ways in which his/her character "saw" things differently than other characters**	**Can clearly explain one way in which his/her character "saw" things differently than other characters**	**Cannot explain any way in which his/her character "saw" things differently than other characters**	
Props	**Used several props and showed considerable creativity**	**Used 1 or 2 appropriate props that made the presentation better**	**Used 1 or 2 props that made the presentation better**	**Used no props to make the presentation better**	
Required Elements	**Included more information than required**	**Included all required information**	**Included most required information**	**Included less information than required**	

Scenario Rubric

	Excellent	Accomplished	Needs Improvement	Unsatisfactory	Score
	4 Points	**3 Points**	**2 Points**	**1 Point**	
Comprehension	Shows complete understanding of the issues and grasps implications beyond the immediate issue	Asks for more details to clarify understanding of the issue	Shows partial understanding of the issue but does not ask for clarification	Resists attempts to get clarification	
Strategizing	Develops realistic strategies that would provide a satisfactory conclusion	Chooses appropriate strategies that may satisfy	Shows evidence of strategy that may or may not satisfy	Needs assistance to choose a strategy	
Innovation	Devises more than one resolution to the problem	Offers a solution	Offers a solution with a limited point of view	Shows some understanding of the problem	
Communications	Convincingly communicates resolution	Explains solution so others can understand	Conveys an opinion	Unsure of how to explain	

Scenarios – Conflict Resolution and Refusal Skills

#1 – Someone takes your seat at the lunch table.

#2 – Someone pushes ahead of you in line.

#3 – Your best friend wants you to let her cheat off your test paper.

#4 – A boy in math class called you something that was not nice.

#5 – You see your friend take an item out of another student's backpack.

#6 – Your best friend wants you to tell a lie so that he can get out of trouble.

Scenarios for Negative/Positive Communication Skills

Scenario 1:

You and William have gone to the ball game. You cheer for one team and William cheers for the other. William's team wins by a landslide. You get mad and walk off rapidly. William catches up with you and asks what is wrong.

You reply in a loud voice that his team cheated. William laughs and offers his hand in friendship. What should you do?

Scenario 2:

Your Mom is on the phone and you need her to get something for you, now. What should you do to get her attention?

Scenario 3:

Someone in your class makes a mistake reading. You laugh at them. They excuse themselves from the room.

How could you have handled the situation better and what should you do now?

Scenario 4:

You ran your bike into the neighbors fence. The neighbor calls your Dad and your Dad proceeds to tell you what you did wrong. You run back to your room and slam the door.

What could you have done differently in this situation?

Scenario 5:

There is a new girl at school. She is very pretty and all the boys like her. You don't like her because she is getting all the attention, so you put a nasty note on her desk. She is devastated and cries.

What should do to correct this situation?

Scenarios for Peer Pressure

Scenario 1:

You and two friends are in a department store. The following takes place:

"Now!" whispered Jan. "Quick, while the clerk's not looking."

Heart pounding, Amy leaned against the store's unattended makeup display and slid two tubes of lipstick into her purse. She looked bored and detached as she followed her friends Jan and Brenda out of the store, but inside she felt panicked.

"I can't believe you made me do that," Amy wailed.

"Relax," said Brenda. "Everybody does it sometimes. And we didn't make you do it."

She said nothing, but Amy knew she wouldn't have done that on her own. She'd just had a big dose of peer pressure.

Scenario 2:

You are at a party with several of your friends. The following takes place:

“Oh, come on, John, it's just one beer, and everyone else is having one.” “One beer is not going to hurt anything.”

Kevin replies, “But I don’t want a beer.”

Jimmy says, “Don’t be a baby, it must be OK. Everyone else is doing it. They must know what they're doing."

Scenario 3:

You have a first date with Patrick and are going to the movie with another couple. The following takes place:

“Hey, let’s skip the movie and go the Devil’s Point,” said Patrick. “What’s at Devil’s Point?” replies Denise.

“Nothing but the night sky,” say Wayne.

“I don’t think so, I told my parents we were going to the movies,” say Wanda. “Oh come on, Wanda, no one will know. We will have a good time,” shouts Patrick.

Denise says, “Yeah, Wanda, are you chicken? Everyone goes to Devil’s Point, it is the happening place.”

STORIES TO BE USE WITH THE RIGHT THING TO DO

1. Keesha had a cold. Her nose was stuffy. Keesha thought she needed some medicine, but no one else was home. Keesha decided to find some medicine by herself and take it. Did Keesha do the right thing?

2. Jamie's bedtime is 8 p.m. One night he stayed up until 9:30 because he was watching TV. The next day he had to get up and go to school. When Jamie woke up, he felt so tired. Did Jamie do the right thing when he stayed up late?

3. Yvonne likes the taste of her chewable vitamin tablet. Her mother gives her one every day. One day Yvonne got the bottle and decided to eat three vitamins for a snack. Was this a good thing for Yvonne to do?

4 Ferris and his friend Peter were playing at Peter's apartment. Peter's babysitter said they could have some cookies for a snack. Peter wanted to eat all the cookies in the bag. Ferris thought that too many cookies could make him sick. He ate only two cookies. Did Ferris do the right thing?

5. Rolanda was on the playground at school. Her friend Carmen showed her a little pink pill. Carmen said it came from her house. She wanted Rolanda to swallow it. Rolanda said that she would take the pill. Did Rolanda do the right thing?

6. Billy's dad told him to brush his teeth. Billy was in a hurry to go outside. He got his toothbrush wet and put it back in the rack. He did not brush his teeth. Did he do the right thing?

7. Percy noticed his fingernails were getting long and had dirt under them. He asked his dad to help him scrub his nails and trim them. Did Percy do the right thing?

8. Pepe felt sick when he woke up. His throat was sore and his ears hurt. Pepe wanted to play outside so he did not tell anyone that he felt sick. Did Pepe do the right thing?

9. Marie was on a swing at the playground. A big boy walked over to her. He wanted to give her some candy. Marie did not know this boy. She said no and did not take the candy. Did she do the right thing?

10. Vanessa was walking home from school and saw a medicine bottle on the sidewalk. Instead of picking it up, she ran home and told her mother. Did Vanessa do the right thing?

11. Rene noticed a bottle of wine on the kitchen counter. A little bit of wine was in the bottle. She took a sip of wine to see what it tasted like. Did Rene do the right thing?

12. Raymond found his grandpa's pouch of chewing tobacco. He knew it could make him sick. Raymond left the chewing tobacco where he found it. Did Raymond do the right thing?

Strange and Funny but True Health Facts*

1. Girls have a better sense of smell than boys.
2. The human brain has the capacity to store everything that we can experience.
3. When you take a step, you are using up to 200 muscles.
4. Our eyes are always the same size from birth, but our nose and ears never stop growing.
5. Our ears secrete more earwax when we are afraid then when we are not afraid.
6. 50% of pizzas made in America are pepperoni.
7. A person can overdose on caffeine.
8. Blueberry juice boosts memory.
9. It takes food seven seconds to get from your mouth to your stomach.

*Teachers are encouraged to add other funny but true health facts to this list.

Teacher's Classroom Checklist

Name_____
School_____Room
or Area_____Date Completed _____
Signature _____

Assess the status of the following and answer either Y for yes; N for no; or N/A for does not apply by each entry. Use this checklist to identify areas of indoor air quality concerns.

1. **General Cleanliness:**
   - _____Room is dusted and vacuumed regularly
   - _____Room free of clutter
   - _____Trash is removed daily
   - _____Food is not stored in classroom overnight
   - _____If animal food is present, it is stored in tightly sealed container
   - _____Room is free of pests and vermin
   - _____Used, unscented, school approved cleaners and air fresheners, if any in room
2. **Animals in Classroom:**
   - _____There is a minimized exposure to animal allergens
   - _____Animals are kept in cages (as much as possible)
   - _____Animal cages are cleaned regularly
   - _____Animal cages are placed away from supply and return vents
   - _____Have consulted with school nurse about student allergies or sensitivities
   - _____Have identified potential allergies of students
   - _____Moved sensitive students away from animals and habitats
3. **Drain Traps in the Classroom:**
   - _____Water is poured down floor drains once per week (approximately I quart of water)
   - _____Water is run in sinks at least once per week (about 2 cups of water)
   - _____Unused toilets are flushed once each week
4. **Excess Moisture in Classrooms:**
   - _____Condensate is wiped from windows, windowsills, and window frames
   - _____Cold water pipes are free of condensate
   - _____Indoor surfaces of exterior walls are free of condensate
   - _____Areas around or under classroom sinks are free of leaks
   - _____Classroom lavatories are free of leaks
   - _____Ceiling tiles and walls are free of leaks
   - _____Spills are cleaned up promptly

4. **Thermal Comfort:**
   _____Moderate temperature is achieved (should generally be 72 – 76 degrees)
   _____There are no signs of draftiness
   _____Students are not seated in direct sunlight
   _____Indoor humidity is maintained at acceptable levels (between 30 and 60 percent)
5. **Ventilation:**
   _____The unit ventilator has been located
   _____The air supply and return vents have been located
   _____Air is flowing from supply vent
   _____Air pathway is not obstructed
   _____No vehicle exhaust, kitchen/food, and chemical odors are in the classroom
   _____There are no signs of mold or mildew
   _____Windows operate correctly
6. **Educational Supplies (Art and Science):**
   _____Supplies are properly labeled
   _____Materials Safety Data Sheets are accessible
   _____Spill and clean-up procedures are developed and implemented
   _____Supplies are stored correctly
   _____Procedures for disposal of used substances are understood and followed
   _____Diluted substances rather than concentrates are used whenever possible
   _____There is a minimized exposure to hazardous materials

Background Information for Teacher's Classroom Checklist

General Cleanliness:

Regular and thorough classroom cleaning helps to ensure good indoor air quality (IAQ). While custodians typically clean the classrooms, teachers also play an important role in promoting and maintaining classroom cleanliness. The presence of dirt, moisture, and warmth stimulates the growth of molds and other biological contaminants. Unsanitary conditions attract insects and vermin, leading to possible IAQ problems from animal or insect allergens. Excessive or improper use of pesticides for secondary control of insects, vermin, and head lice can also cause IAQ problems.

Animals in the Classroom:

Some people are allergic to common indoor pollutants, such as pet dander. Isolated or repeated single exposure to allergens may cause a previously non-allergic or non-sensitive person to become allergic to that allergen. Pay attention to the needs of sensitive students, especially those with asthma.

Drain Traps:

Drain traps, if present, can become a problem when the water in the drain trap of a pipe evaporates due to infrequent use, allowing sewer gases to enter the room.

Excess Moisture:

Excess moisture contributes to mold growth. Mold can trigger allergic reactions and asthma in sensitive individuals. Mold can also cause odors and other IAQ problems. Note any signs of present or excess moisture and follow these guidelines:

- Monitor for condensate (condensed water or fog on cold surfaces)
- Check for leaks or signs of moisture from plumbing or roofs
- Clean spills promptly

Thermal Comfort:

Temperature and relative humidity are aspects of IAQ that can affect comfort. Changing thermostat settings or opening windows to control temporary fluctuations in temperature can not only worsen comfort problems but also have an adverse effect on other areas of the school. A practical goal for climate comfort is that 80 % of the occupants are comfortable.

Ventilation:

Ventilation is the process by which air is circulated throughout the school and your classroom. Stale indoor air is exhausted to the outside, and fresh, (outdoor) air is drawn into the building. Schools may either have mechanical ventilation (supplied by fans) or natural ventilation (i.e., operable windows). Improperly-operated or poorly-maintained ventilation systems can cause serious IAQ problems. In addition, the ventilation system can carry air pollutants from one location in the school to another.

If you have mechanical ventilation, confirm that air is flowing into the room from the air supply vent(s). Check airflow by holding a piece of tissue paper near the air supply vent(s); if air is flowing, the tissue will flutter away from the supply vent. Never obstruct the airflow with books, papers, furniture, or other obstacles. Never place anything on top of unit ventilators.

If you have mechanical ventilation, confirm that air is flowing from the room into the air return grille(s). Check for airflow at air return grille(s) in the same manner as above. If air is flowing, the tissue will be pulled toward the return.

Check for unexplained odors. Odors, or the need to use scented air fresheners, may indicate ventilation problem. Remember that the ventilation system can carry air contaminants from another location in the school to your classroom.

In addition, maintenance vehicles or buses should never idle near the outside air intake vents. If your school or state has anti-idling policies in place, locate and review these.

Educational Supplies:

Ensure that you are familiar with all your supplies. Read labels and identify precautions regarding fumes or ventilation. Follow good safety, handling and storage practices. Develop appropriate procedures and have cleaning supplies available in case of spills.

Art Supplies:

Art supplies may emit contaminants during use and storage. By federal law, potentially toxic supplies must have appropriate warning labeling. The Labeling of Hazardous Art Materials Act (Public Law 100-695) requires that all art materials be reviewed to determine their potential for causing a chronic hazard and be labeled accordingly. The U.S. Consumer Product Safety Commission recommends that parents and others buying art materials, school supplies, and toys (such as crayons or paint sets) purchase only those products that are labeled "Conforms to ASTM D-4236."

In classrooms, teachers should ensure that safety precautions are followed. Examples of art supplies that can contribute to IAQ problems include solvents, inks, adhesives, glues, wax varnishes, lacquers, powered pigments, acids, clays, paints, and firing kilns. Check whether your supplies are listed as toxic or nontoxic. Read labels and identify precautions regarding fumes or ventilation. If you make purchasing decisions or recommend products for purchase, confirm that supplies are safe to use.

Vaccine Administration Record for Children and Teens

Patient name: _____

Birthdate: _____

Chart number: _____

Before administering any vaccines, give copies of all pertinent Vaccine Information Statements (VISs) to the child's parent or legal representative and make sure he/she understands the risks and benefits of the vaccine(s). Always provide or update the patient's personal record card.

Vaccine	Type of Vaccine[1]	Date given (mo/day/yr)	Funding Source (F,S,P)[2]	Site[3]	Vaccine		Vaccine Information Statement (VIS)		Vaccinator[5] (signature or initials & title)
					Lot #	Mfr.	Date on VIS[4]	Date given[4]	
Hepatitis B[6] (e.g., HepB, Hib-HepB, DTaP-HepB-IPV) Give IM.[7]									
Diphtheria, Tetanus, Pertussis[6] (e.g., DTaP, DTaP/Hib, DTaP-HepB-IPV, DT, DTaP-IPV/Hib, Tdap, DTaP-IPV, Td) Give IM.[7]									
***Haemophilus influenzae* type b[6]** (e.g., Hib, Hib-HepB, DTaP-IPV/Hib, DTaP/Hib) Give IM.[7]									
Polio[6] (e.g., IPV, DTaP-HepB-IPV, DTaP-IPV/Hib, DTaP-IPV) Give IPV SC or IM.[7] Give all others IM.[7]									
Pneumococcal (e.g., PCV7, PCV13, conjugate; PPSV23, polysaccharide) Give PCV IM.[7] Give PPSV SC or IM.[7]									
Rotavirus (RV1, RV5) Give orally (po).									

See page 2 to record measles-mumps-rubella, varicella, hepatitis A, meningococcal, HPV, influenza, and other vaccines (e.g., travel vaccines).

How to Complete This Record

1. Record the generic abbreviation (e.g., Tdap) or the trade name for each vaccine (see table at right).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or IN (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting may want to keep a reference list of vaccinators that includes their initials and titles.
6. For combination vaccines, fill in a row for each antigen in the combination.
7. IM is the abbreviation for intramuscular; SC is the abbreviation for subcutaneous.

Abbreviation	Trade Name & Manufacturer
DTaP	Daptacel (sanofi); Infanrix (GlaxoSmithKline [GSK]); Tripedia (sanofi pasteur)
DT (pediatric)	Generic (sanofi pasteur)
DTaP-HepB-IPV	Pediarix (GSK)
DTaP/Hib	TriHIBit (sanofi pasteur)
DTaP-IPV/Hib	Pentacel (sanofi pasteur)
DTaP-IPV	Kinrix (GSK)
HepB	Engerix-B (GSK); Recombivax HB (Merck)
HepA-HepB	Twinrix (GSK); can be given to teens age 18 and older
Hib	ActHIB (sanofi pasteur); Hiberix (GSK); PedvaxHIB (Merck)
Hib-HepB	Comvax (Merck)
IPV	Ipol (sanofi pasteur)
PCV13	Prevnar 13 (Pfizer)
PPSV23	Pneumovax 23 (Merck)
RV1	Rotarix (GSK)
RV5	RotaTeq (Merck)
Tdap	Adacel (sanofi pasteur); Boostrix (GSK)
Td	Decavac (sanofi pasteur), Generic (MA Biological Labs)

Technical content reviewed by the Centers for Disease Control and Prevention, March 2011.

This form was created by the Immunization Action Coalition • www.immunize.org • www.vaccineinformation.org

Vaccine Administration Record for Children and Teens

Patient name: _____

Birthdate: _____

Chart number: _____

Before administering any vaccines, give copies of all pertinent Vaccine Information Statements (VISs) to the child's parent or legal representative and make sure he/she understands the risks and benefits of the vaccine(s). Always provide or update the patient's personal record card.

Vaccine	Type of Vaccine[1]	Date given (mo/day/yr)	Funding Source (F,S,P)[2]	Site[3]	Vaccine		Vaccine Information Statement (VIS)		Vaccinator[5] (signature or initials & title)
					Lot #	Mfr.	Date on VIS[4]	Date given[4]	
Measles, Mumps, Rubella[6] (e.g., MMR, MMRV) Give SC.[7]									
Varicella[6] (e.g., VAR, MMRV) Give SC.[7]									
Hepatitis A (HepA) Give IM.[7]									
Meningococcal (e.g., MCV4; MPSV4) Give MCV4 IM[7] and MPSV4 SC.[7]									
Human papillomavirus (e.g., HPV2, HPV4) Give IM.[7]									
Influenza (e.g., TIV, inactivated; LAIV, live attenuated) Give TIV IM.[7] Give LAIV IN.[7]									
Other									

See page 1 to record hepatitis B, diphtheria, tetanus, pertussis, *Haemophilus influenzae* type b, polio, pneumococcal, and rotavirus vaccines.

How to Complete this Record

1. Record the generic abbreviation (e.g., Tdap) or the trade name for each vaccine (see table at right).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or IN (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting may want to keep a reference list of vaccinators that includes their initials and titles.
6. For combination vaccines, fill in a row for each antigen in the combination.
7. IM is the abbreviation for intramuscular; SC is the abbreviation for subcutaneous; IN is the abbreviation for intranasal.

Abbreviation	Trade Name & Manufacturer
MMR	MMRII (Merck)
VAR	Varivax (Merck)
MMRV	ProQuad (Merck)
HepA	Havrix (GlaxoSmithKline [GSK]); Vaqta (Merck)
HepA-HepB	Twinrix (GSK)
HPV2	Cervarix (GSK)
HPV4	Gardasil (Merck)
LAIV (Live attenuated influenza vaccine)	FluMist (MedImmune)
TIV (Trivalent inactivated influenza vaccine)	Afluria (CSL Biotherapies); Agriflu (Novartis); Fluarix (GSK); FluLaval (GSK); Fluvirin (Novartis); Fluzone (sanofi)
MCV4	Menactra (sanofi pasteur); Menveo (Novartis)
MPSV4	Menomune (sanofi pasteur)

	PCV13	*8/2/2010*	*F*	*LA*	*E44433*	*PFI*	*12/9/08*	*8/2/10*	*DCP*
Rotavirus (RV1, RV5) Give orally (po).									

DTaP-HepB-IPV (Pediarix)

DTaP-Hib (TriHIBit): 2 lot #s, 2 different VISs

Pediarix: 3 different VIS dates

Example

See page 2 to record measles-mumps-rubella, varicella, hepatitis A, meningococcal, HPV, influenza, and other vaccines (e.g., travel vaccines).

How to Complete This Record

1. Record the generic abbreviation (e.g., Tdap) or the trade name for each vaccine (see table at right).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or IN (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting may want to keep a reference list of vaccinators that includes their initials and titles.
6. For combination vaccines, fill in a row for each antigen in the combination.
7. IM is the abbreviation for intramuscular; SC is the abbreviation for subcutaneous.

Abbreviation	Trade Name & Manufacturer
DTaP	Daptacel (sanofi); Infanrix (GlaxoSmithKline [GSK]); Tripedia (sanofi pasteur)
DT (pediatric)	Generic (sanofi pasteur)
DTaP-HepB-IPV	Pediarix (GSK)
DTaP/Hib	TriHIBit (sanofi pasteur)
DTaP-IPV/Hib	Pentacel (sanofi pasteur)
DTaP-IPV	Kinrix (GSK)
HepB	Engerix-B (GSK); Recombivax HB (Merck)
HepA-HepB	Twinrix (GSK); can be given to teens age 18 and older
Hib	ActHIB (sanofi pasteur); Hiberix (GSK); PedvaxHIB (Merck)
Hib-HepB	Comvax (Merck)
IPV	Ipol (sanofi pasteur)

Vaccine Administration Record for Children and Teens

Patient name: *Emily Jacobs*

Birthdate: *6/2/2005*

Chart number: _____

Before administering any vaccines, give copies of all pertinent Vaccine Information Statements (VISs) to the child's parent or legal representative and make sure he/she understands the risks and benefits of the vaccine(s). Always provide or update the patient's personal record card.

Vaccine	Type of Vaccine[1]	Date given (mo/day/yr)	Funding Source (F,S,P)[2]	Site[3]	Vaccine		Vaccine Information Statement (VIS)		Vaccinator[5] (signature or initials & title)
					Lot #	Mfr.	Date on VIS[4]	Date given[4]	
Measles, Mumps, Rubella[6] (e.g., MMR, MMRV) Give SC.[7]	*MMRV*	*6/2/2006*	*P*	*RA*	*0857M*	*MRK*	*1/15/03*	*6/2/06*	*DLW*
	MMRV	*8/2/2010*	*P*	*LA*	*0522F*	*MRK*	*5/21/10*	*8/2/10*	*DCP*
Varicella[6] (e.g., VAR, MMRV) Give SC.[7]	*MMRV*	*6/2/2006*	*P*	*RA*	*0857M*	*MRK*	*12/16/98*	*6/2/06*	*DLW*
	MMRV	*8/2/2010*	*P*	*LA*	*0522F*	*MRK*	*5/21/10*	*8/2/10*	*DCP*
Hepatitis A (HepA) Give IM.[7]	*HepA*	*6/2/2006*	*P*	*LA*	*0524L*	*MRK*	*8/4/04*	*6/2/06*	*DLW*

Other									

Example

See page 1 to record hepatitis B, diphtheria, tetanus, pertussis, *Haemophilus influenzae* type b, polio, pneumococcal, and rotavirus vaccines.

How to Complete this Record

1. Record the generic abbreviation (e.g., Tdap) or the trade name for each vaccine (see table at right).
2. Record the funding source of the vaccine given as either F (federal), S (state), or P (private).
3. Record the site where vaccine was administered as either RA (right arm), LA (left arm), RT (right thigh), LT (left thigh), or IN (intranasal).
4. Record the publication date of each VIS as well as the date the VIS is given to the patient.
5. To meet the space constraints of this form and federal requirements for documentation, a healthcare setting may want to keep a reference list of vaccinators that includes their initials and titles.
6. For combination vaccines, fill in a row for each antigen in the combination.
7. IM is the abbreviation for intramuscular; SC is the abbreviation for subcutaneous; IN is the abbreviation for intranasal.

Abbreviation	Trade Name & Manufacturer
MMR	MMRII (Merck)
VAR	Varivax (Merck)
MMRV	ProQuad (Merck)
HepA	Havrix (GlaxoSmithKline [GSK]); Vaqta (Merck)
HepA-HepB	Twinrix (GSK)
HPV2	Cervarix (GSK)
HPV4	Gardasil (Merck)
LAIV (Live attenuated influenza vaccine)	FluMist (MedImmune)
TIV (Trivalent inactivated influenza vaccine)	Afluria (CSL Biotherapies); Agriflu (Novartis); Fluarix (GSK); FluLaval (GSK); Fluvirin (Novartis); Fluzone (sanofi)
MCV4	Menactra (sanofi pasteur); Menveo (Novartis)
MPSV4	Menomune (sanofi pasteur)

Written Report Checklist

_____/16 Preparation
_____/28 Organization
_____/24 Thoroughness
_____/19 Extra Materials
_____/13 Final Report

Preparation:

1. **_____/2 Information written (neatly)**
2. **_____/2 Sources used listed**
3. **_____/5 Worked every day (did not waste time)**
4. **_____/5 Has all materials ready for use**
5. **_____/2 Cooperative**

Organization

1. **_____/2 Report in a logical order**
2. **_____/2 Interesting manner**
3. **_____/20 Notebook check**
4. **_____/2 Understanding of topic**
5. **_____/2 Spelling and sentence structure (do not copy from books)**

Thoroughness

1. **_____/5 Main points given**
2. **_____/5 Details to explain given**
3. **_____/5 Information presented clearly**
4. **_____/4 More than one source used**
5. **_____/5 Extra materials are appropriate**

Extra Materials

1. **_____/2 Neatness**
2. **_____/7 Creativity**
3. **_____/2 Dramatic value**
4. **_____/3 Useful**
5. **_____/5 Correctness**

Final Report

1. **_____/3 Written clearly**
2. **_____/2 Organized**
3. **_____/2 Sources documented correctly**
4. **_____/2 Spelling**
5. **_____/2 Grammar**

NHES7	X	X	X	X	X	X	X	X	X
NHES8	X	X	X	X	X	X	X	X	X

NHES 1: Students will comprehend concepts related to health promotion and disease prevention to enhance health.

1.12.1 Predict how healthy behaviors can affect health status.
1.12.2 Describe the interrelationships of emotional, intellectual, physical, and social health.
1.12.3 Analyze how environment and personal health are interrelated.
1.12.4 Analyze how genetics and family history can impact personal health.
1.12.5 Propose ways to reduce or prevent injuries and health problems.
1.12.6 Analyze the relationship between access to health care and health status.
1.12.7 Compare and contrast the benefits of and barriers to practicing a variety of healthy behaviors.
1.12.8 Analyze personal susceptibility to injury, illness, or death if engaging in unhealthy behaviors.
1.12.9 Analyze the potential severity of injury or illness if engaging in unhealthy behaviors.

NHES 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.

2.12.1 Analyze how the family influences the health of individuals.
2.12.2 Analyze how the culture supports and challenges health beliefs, practices, and behaviors.
2.12.3 Analyze how peers influence healthy and unhealthy behaviors.
2.12.4 Evaluate how the school and community can affect personal health practice and behaviors.
2.12.5 Evaluate the effect of media on personal and family health.
2.12.6 Evaluate the impact of technology on personal, family, and community health.
2.12.7 Analyze how the perceptions of norms influence healthy and unhealthy behaviors.
2.12.8 Analyze the influence of personal values and beliefs on individual health practices and behaviors.
2.12.9 Analyze how some health risk behaviors can influence the likelihood of engaging in unhealthy behaviors.
2.12.10 Analyze how public health policies and government regulations can influence health promotion and disease prevention.

NHES 3: Students will demonstrate the ability to access valid information, products, and services to enhance health.

3.12.1 Evaluate the validity of health information, products, and services.
3.12.2 Use resources from home, school, and community that provide valid health information.
3.12.3 Determine the accessibility of products and services that enhance health.
3.12.4 Determine when professional health services may be required.
3.12.5 Access valid and reliable health products and services.

NHES 4: Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.

4.12.1 Use skills for communicating effectively with family, peers, and others to enhance health.

4.12.2 Demonstrate refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.

4.12.3 Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.

4.12.4 Demonstrate how to ask for and offer assistance to enhance the health of self and others.

NHES 5: Students will demonstrate the ability to use decision-making skills to enhance health.

5.12.1 Examine barriers that can hinder healthy decision making.

5.12.2 Determine the value of applying a thoughtful decision-making process in health-related situations.

5.12.3 Justify when individual or collaborative decision making is appropriate.

5.12.4 Generate alternatives to health-related issues or problems.

5.12.5 Predict the potential short-term and long-term impact of each alternative on self and others.

5.12.6 Defend the healthy choice when making decisions.

5.12.7 Evaluate the effectiveness of health-related decisions.

NHES 6: Students will demonstrate the ability to use goal-setting skills to enhance health.

6.12.1 Assess personal health practices and overall health status.

6.12.2 Develop a plan to attain a personal health goal that addresses strengths, needs, and risks.

6.12.3 Implement strategies and monitor progress in achieving a personal health goal.

6.12.4 Formulate an effective long-term personal health plan.

NHES 7: Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.

7.12.1 Analyze the role of individual responsibility for enhancing health.

7.12.2 Demonstrate a variety of healthy practices and behaviors that will maintain or improve the health of self and others.

7.12.3 Demonstrate a variety of behaviors to avoid or reduce health risks to self and others.

NHES 8: Students will demonstrate the ability to advocate for personal, family, and community health.

8.12.1 Utilize accurate peer and societal norms to formulate a health-enhancing message.

8.12.2 Demonstrate how to influence and support others to make positive health choices.

8.12.3 Work cooperatively as an advocate for improving personal, family, and community health.

8.12.4 Adapt health messages and communication techniques to a specific target audience.

English Language Arts (6-12)

College and Career Readiness Anchor Standards for *Reading*

Key Ideas and Details

CCR1: Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

CCR2: Determine central ideas or themes of a text, and analyze their development; summarize the key supporting details and ideas.

CCR3: Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

Craft and Structure

CCR4: Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

CCR5: Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.

CCR6: Assess how point of view or purpose shapes the content and style of a text.

Integration of Knowledge and Ideas

CCR7: Integrate and evaluate content presented in diverse formats and media, including visually and quantitatively, as well as in words.

CCR8: Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.

CCR9: Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

Range of Reading and Level of Text Complexity

CCR10: Read and comprehend complex literary and informational texts independently and proficiently. Mathematics (High School)

College and Career Readiness Anchor Standards for *Writing*

Text Types and Purposes

CCW1: Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
CCW2: Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.

CCW3: Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

Production and Distribution of Writing

CCW4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

CCW5: Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.

CCW6: Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Research to Build and Present Knowledge

CCW7: Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.

CCW8: Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.

CCW9: Draw evidence from literary or informational texts to support analysis, reflection, and research.

Range of Writing

CCW10: Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

College and Career Readiness Anchor Standards for *Speaking and Listening*

Comprehension and Collaboration

CCSL1: Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

CCSL2: Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

CCSL3: Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Presentation of Knowledge and Ideas

CCSL4: Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.

CCSL5: Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

CCSL6: Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

College and Career Readiness Anchor Standards for *Language*

Conventions of Standard English

CCL1: Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

CCL2: Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Knowledge of Language

CCL3: Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Vocabulary Acquisition and Use

CCL4: Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

CCL5: Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

CCL6: Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Appendix D: Mississippi House Bill 999

MISSISSIPPI LEGISLATURE
2011 Regular Session
To: Education
By: Representatives Clarke, Mayo, Hines, Broomfield, Brown, Burnett, Calhoun, Clark, Coleman (29th), Coleman (65th), Dedeaux, Evans (70th), Flaggs, Fredericks, Gardner, Gibbs, Harrison, Lane, Smith (27th), Straughter, Thomas, Scott

House Bill 999

(As Sent to Governor)

AN ACT TO AMEND SECTION 37-13-171, MISSISSIPPI CODE OF 1972, TO REQUIRE EACH LOCAL SCHOOL BOARD TO ADOPT A SEX-RELATED EDUCATION POLICY TO IMPLEMENT ABSTINENCE-ONLY OR ABSTINENCE-PLUS EDUCATION INTO ITS LOCAL SCHOOL DISTRICT'S CURRICULUM BY JUNE 30, 2012, OR TO REQUIRE THE LOCAL SCHOOL BOARD TO ADOPT THE PROGRAM DEVELOPED BY THE MISSISSIPPI DEPARTMENT OF HUMAN SERVICES AND THE DEPARTMENT OF HEALTH; TO REQUIRE THE STATE DEPARTMENT TO APPROVE EACH DISTRICT'S CURRICULUM FOR SEX-RELATED EDUCATION AND ESTABLISH A PROTOCOL TO BE USED BY DISTRICTS TO PROVIDE CONTINUITY IN TEACHING THE APPROVED CURRICULUM; TO PROVIDE THAT INSTRUCTION IN SCHOOL DISTRICTS IMPLEMENTING ABSTINENCE-PLUS EDUCATION INTO THE CURRICULUM MAY BE EXPANDED BEYOND THE INSTRUCTION FOR ABSTINENCE-ONLY EDUCATION WITHIN PARAMETERS APPROVED BY THE DEPARTMENT; TO DEFINE ABSTINENCE-PLUS EDUCATION; TO REMOVE THE AUTHORITY GIVEN TO LOCAL SCHOOL BOARDS TO VOTE IN FAVOR OF TEACHING SEX EDUCATION WITHOUT ANY INSTRUCTION ON ABSTINENCE; TO PROHIBIT ANY TEACHING THAT ABORTION CAN BE USED TO PREVENT THE BIRTH OF A BABY; TO REQUIRE BOYS AND GIRLS TO BE SEPARATED INTO DIFFERENT CLASSES BY GENDER AT ALL TIMES WHEN SEX-RELATED EDUCATION IS DISCUSSED OR TAUGHT; TO REQUIRE THE DEPARTMENT OF HUMAN SERVICES AND THE DEPARTMENT OF HEALTH TO DEVELOP CERTAIN PROGRAMS AND STRATEGIES PROMOTING PREGNANCY PREVENTION AND PROVIDING INFORMATION ON THE CONSEQUENCES OF UNPROTECTED, UNINFORMED AND UNDERAGE SEXUAL ACTIVITY; TO PROVIDE FOR THE REPEAL OF THIS SECTION ON JULY 1, 2016; TO AMEND SECTION 37-13-173, MISSISSIPPI CODE OF 1972, RELATING TO PARENTAL NOTICE; TO AMEND SECTION 2, CHAPTER 507, LAWS OF 2009, TO REVISE THE DUTIES OF THE TEEN PREGNANCY PREVENTION TASK FORCE AND TO EXTEND THE DATE OF THE REPEAL ON THE TASK FORCE TO JULY 1, 2016; TO REQUIRE THE STATE DEPARTMENT OF HEALTH AND THE STATE DEPARTMENT OF EDUCATION, SUBJECT TO THE AVAILABILITY OF FUNDS, TO ESTABLISH A PILOT PROGRAM IN EACH HEALTH CARE DISTRICT, TO BE LOCATED IN A SCHOOL DISTRICT IN A COUNTY HAVING THE HIGHEST NUMBER OF TEEN PREGNANCIES; TO REQUIRE THOSE AGENCIES TO PROVIDE CERTAIN EDUCATIONAL SERVICES THROUGH QUALIFIED PERSONNEL; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 37-13-171, Mississippi Code of 1972, is amended as follows:

37-13-171. (1) The local school board of every public school district shall adopt a policy to implement abstinence-only or abstinence-plus education into its curriculum by June 30, 2012, which instruction in those subjects shall be implemented not later than the start of the 2012-2013 school year or the local school board shall adopt the program which has been developed by the Mississippi Department of Human Services and the Mississippi Department of Health. The State Department of Education shall approve each district's curriculum for sex-related

education and shall establish a protocol to be used by districts to provide continuity in teaching the approved curriculum in a manner that is age, grade and developmentally appropriate.

(2)Abstinence-only education shall remain the state standard for any sex-related education taught in the public schools. For purposes of this section, abstinence-only education includes any type of instruction or program which, at an appropriate age and grade:

(a) Teaches the social, psychological and health gains to be realized by abstaining from sexual activity, and the likely negative psychological and physical effects of not abstaining;

(b) Teaches the harmful consequences to the child, the child's parents and society that bearing children out of wedlock is likely to produce, including the health, educational, financial and other difficulties the child and his or her parents are likely to face, as well as the inappropriateness of the social and economic burden placed on others;

(c) Teaches that unwanted sexual advances are irresponsible and teaches how to reject sexual advances and how alcohol and drug use increases vulnerability to sexual advances;

(d) Teaches that abstinence from sexual activity before marriage, and fidelity within marriage, is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases and related health problems. The instruction or program may include a discussion on condoms or contraceptives, but only if that discussion includes a factual presentation of the risks and failure rates * * * of those contraceptives. In no case shall the instruction or program include any demonstration of how condoms or other contraceptives are applied;

(e) Teaches the current state law related to sexual conduct, including forcible rape, statutory rape, paternity establishment, child support and homosexual activity; and

(f) Teaches that a mutually faithful, monogamous relationship in the context of marriage is the only appropriate setting for sexual intercourse.

(3) A program or instruction on sex-related education need not include every component listed in subsection (2) of this section for abstinence-only education. However, no program or instruction under an abstinence-only curriculum may include anything that contradicts the excluded components. For purposes of this section, abstinence-plus education includes every component listed under subsection (2) of this section that is age and grade appropriate, in addition to any other programmatic or instructional component approved by the department, which shall not include instruction and demonstrations on the application and use of condoms.

Abstinence-plus education may discuss other contraceptives, the nature, causes and effects of sexually transmitted diseases, or the prevention of sexually transmitted diseases, including HIV/AIDS, along with a factual presentation of the risks and failure rates.

(4) Any course containing sex-related education offered in the public schools shall include instruction in either abstinence-only or abstinence-plus education. * * *

(5) Local school districts, in their discretion, may host programs designed to teach parents how to discuss abstinence with their children.

(6)There shall be no effort in either an abstinence-only or an abstinence-plus curriculum to teach that abortion can be used to prevent the birth of a baby.

(7)At all times when sex-related education is discussed or taught, boys and girls shall be separated according to gender into different classrooms, sex-related education instruction may not be conducted when boys and girls are in the company of any students of the opposite gender.

(8)This section shall stand repealed on July 1, 2016.

SECTION 2. (1) The Mississippi Department of Human Services shall develop programs to accomplish the purpose of one or more of the following strategies:

(a) Promoting effective communication among families about preventing teen pregnancy, particularly communication among parents or guardians and their children;

(b) Educating community members about the consequences of unprotected, uninformed and underage sexual activity and teen pregnancy;

(c) Encouraging young people to postpone sexual activity and prepare for a healthy, successful adulthood, including teaching them skills to avoid making or receiving unwanted verbal, physical, and sexual advances;

(d) Providing medically accurate information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy and reduce the risk of contracting sexually transmitted infections, including HIV/AIDS; or

(e) Providing educational information, including medically accurate information about the health benefits and side effects of all contraceptives and barrier methods, for young people in those communities who are already sexually active or are at risk of becoming sexually active and inform young people in those communities about the

responsibilities and consequences of being a parent, and how early pregnancy and parenthood can interfere with educational and other goals.

(2) The State Department of Health shall develop programs with the following strategies:

(a) To carry out activities, including counseling, to prevent unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens;

(b) To provide necessary social and cultural support services regarding teen pregnancy;

(c) To provide health and educational services related to the prevention of unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens;

(d) To promote better health and educational outcomes among pregnant teens; and

(e) To provide training for individuals who plan to work in school-based support programs regarding the prevention of unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens.

(3) It shall be the responsibility of school nurses employed by local school districts implementing the program developed by the State Department of Health under subsection (2) of this section to carry out the functions of those strategies to promote consistency in the administration of the program.

SECTION 3. Section 37-13-173, Mississippi Code of 1972, is amended as follows:

37-13-173. Each school providing instruction or any other presentation on human sexuality in the classroom, assembly or other official setting shall be required to provide no less than one (1) week's written notice thereof to the parents of children in such programs of instruction. The written notice must inform the parents of their right to request the inclusion of their child for such instruction or presentation. The notice also must inform the parents of the right, and the appropriate process, to review the curriculum and all materials to be used in the lesson or presentation. Upon the request of any parent, the school shall excuse the parent's child from such instruction or presentation, without detriment to the student.

SECTION 4. Section 2, Chapter 507, Laws of 2009, is amended as follows:

Section 2. (1) There is created the Teen Pregnancy Prevention Task Force to study and make recommendation to the Legislature on the implementation of sex-related educational courses through abstinence-only or abstinence-plus education into the curriculum of local school districts and the coordination of services by certain state agencies to reduce teen pregnancy and provide prenatal and postnatal training to expectant teen parents in

Mississippi. The task force shall make an annual report of its findings and recommendations to the Legislature beginning with the 2012 Regular Session.

(2) The task force shall be composed of the following seventeen (17) members:

(a) The Chairmen of the Senate and House Public Health and Welfare Committees, or their designees;

(b) The Chairmen of the Senate and House Education Committees, or their designees;

(c) The Chairman of the House Select Committee on Poverty;

(d) One (1) member of the Senate appointed by the Lieutenant Governor;

(e) The Executive Director of the Department of Human Services, or his or her designee;

(f) The State Health Officer, or his or her designee;

(g) The State Superintendent of Public Education, or his or her designee;

(h) The Executive Director of the Division of Medicaid, or his or her designee;

(i) The Executive Director of the State Department of Mental Health, or his or her designee;

(j) The Vice Chancellor for Health Affairs and Dean of the University of Mississippi Medical Center School of Medicine, or his or her designee;

(k) Two (2) representatives of the private health or social services sector appointed by the Governor;

(l) One (1) representative of the private health or social services sector appointed by the Lieutenant Governor; ***

(m) One (1) representative of the private health or social services sector appointed by the Speaker of the House of Representatives; and

(n)One (1) representative from a local community-based youth organization that teaches or has taught a federal or local school district approved curriculum.

(3) Appointments shall be made within thirty (30) days after the effective date of this act, and, within fifteen (15) days thereafter on a day to be designated jointly by the Speaker of the House and the Lieutenant Governor, the task force shall meet and organize by selecting from its membership a chairman and a vice chairman. The vice chairman shall also serve as secretary and shall be responsible for keeping all records of the task force. A majority of the members of the task force shall constitute a quorum. In the selection of its officers and the adoption of rules, resolutions and reports, an affirmative vote of a majority of the task force shall be required. All members shall be notified in writing of all meetings, the notices to be mailed at least fifteen (15) days before the date on

which a meeting is to be held. If a vacancy occurs on the task force, the vacancy shall be filled in the manner that the original appointment was made.

(4) Members of the task force who are not legislators, state officials or state employees shall be compensated at the per diem rate authorized by Section 25-3-69 and shall be reimbursed in accordance with Section 25-3-41 for mileage and actual expenses incurred in the performance of their duties. Legislative members of the task force shall be paid from the contingent expense funds of their respective houses in the same manner as provided for committee meetings when the Legislature is not in session. However, no per diem or expense for attending meetings of the task force may be paid to legislative members of the task force while the Legislature is in session. No task force member may incur per diem, travel or other expenses unless previously authorized by vote, at a meeting of the task force, which action shall be recorded in the official minutes of the meeting. Nonlegislative members shall be paid from any funds made available to the task force for that purpose.

(5) The task force shall use clerical and legal staff already employed by the Legislature and any other staff assistance made available to it by the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid. To effectuate the purposes of this section, any department, division, board, bureau, commission or agency of the state or of any political subdivision thereof shall, at the request of the chairman of the task force, provide to the task force such facilities, assistance and data as will enable the task force properly to carry out its duties.

(6) In order to carry out the functions and responsibilities necessary to study and make recommendations to the Legislature, the Teen Pregnancy Prevention Task Force shall:

(a) Form task force subgroups based on specific areas of expertise;

(b) Review and consider coordinated services and plans and related studies done by or through existing state agencies and advisory, policy or research organizations to reduce teen pregnancy and provide the necessary prenatal and postnatal training to expectant teen parents;

(c) Review and consider statewide and regional planning initiatives related to teen pregnancy;

(d) Consider efforts of stakeholder groups to comply with federal requirements for coordinated planning and service delivery; * * *

(e) Evaluate the implementation of sex-related educational courses through abstinence-only or abstinence-plus education in local school districts throughout the state;

(f)Evaluate the effect of the adoption of a required sex education policy on teen pregnancy rates and dropout rates due to teen pregnancy on the local school district and statewide levels;

(g)Compare and analyze data in districts adopting and implementing abstinence-only education to districts adopting abstinence-plus education;

(h)Require the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid to conduct a study of community programs available throughout the state, and the areas wherein they are located, which provide programs of instruction on sexual behavior and assistance to teen parents; and

(i) Work through the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid to cause any studies, assessments and analyses to be conducted as may be deemed necessary by the task force.

(7) This section shall stand repealed on July 1, 2016.

SECTION 5. (1) Beginning with the 2012-2013 school year, to the extent that federal or state funds are available and appropriated by the Legislature for the purposes of establishing and implementing the Prevention of Teen Pregnancy Pilot Program authorized by Section 41-79-5, the State Department of Health in conjunction with the State Department of Education shall establish a pilot program in each of the nine (9) health districts as defined by the State Department of Health, to be located in a school district in a county in that district having the highest number of teen pregnancies.

(2) The State Department of Health and the State Department of Education shall jointly provide education services through qualified personnel to increase awareness of the health, social and economic risks associated with teen pregnancy. The services and curriculum provided shall have a primary emphasis on reducing the teenage pregnancy rate in those pilot districts.

SECTION 6. This act shall take effect and be in force from and after July 1, 2011.

Appendix E: Mississippi Senate Bill 2472 – Nathan's Law

MISSISSIPPI LEGISLATURE
2011 Regular Session
To: Judiciary, Division A
By: Senator(s) McDaniel, Watson, Yancey, Montgomery, Hyde-Smith, King, Lee (35th), Chassaniol, Ward, Gollott, Flowers, Hewes, Mettetal, Hudson, Jackson (15th), Moffatt, Fillingane, Brown, Davis, Burton, Dearing

SENATE BILL NO. 2472
(As Sent to Governor)

AN ACT TO CREATE "NATHAN'S LAW"; TO AMEND SECTION 63-3-615, MISSISSIPPI CODE OF 1972, TO CLARIFY THE OFFENSE OF PASSING A SCHOOL BUS WHEN STOPPED TO LOAD OR UNLOAD STUDENTS AND TO REVISE THE PENALTY THEREFORE; TO REQUIRE THE STATE DEPARTMENT OF EDUCATION TO DEVELOP CURRICULUM GUIDELINES FOR SCHOOL BUS SAFETY; TO AMEND SECTION 63-1-73, MISSISSIPPI CODE OF 1972, TO PROHIBIT THE USE OF WIRELESS COMMUNICATION DEVICES BY BUS DRIVERS; TO AMEND SECTION 97-3-7, MISSISSIPPI CODE OF 1972, IN CONFORMITY; TO AMEND SECTION 63-1-33, MISSISSIPPI CODE OF 1972, TO REVISE THE DRIVER'S LICENSE EXAMINATION REQUIREMENTS TO ENSURE COVERAGE THEREON OF SCHOOL BUS SAFETY ISSUES; TO AUTHORIZE CAMERAS ON SCHOOL BUS STOP ARMS; TO AUTHORIZE THE DEPARTMENTS OF TRANSPORTATION AND EDUCATION TO CONDUCT A PUBLIC EDUCATION CAMPAIGN ON SCHOOL BUS SAFETY; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 63-3-615, Mississippi Code of 1972, is amended as follows:

63-3-615. (1) (a) The driver of a vehicle upon a street or highway upon meeting or overtaking any school bus that has stopped on the street or highway for the purpose of receiving or discharging any school children shall come to a complete stop at least ten (10) feet from the school bus before reaching the school bus when there is in operation on the school bus the flashing red lights provided in Section 63-7-23, or when a retractable, hand-operated stop sign is extended; the driver *** * *** shall not proceed until the children have crossed the street or highway and the school bus has resumed motion or the flashing red lights are no longer actuated and the hand-operated stop sign is retracted.

(b) The driver of a vehicle upon a highway that has four (4) lanes or more, whether or not there is a median or turn lane, need not stop upon meeting or passing a school bus that is on a different roadway or when upon a controlled-access highway if the school bus is stopped in a loading zone that is a part of or adjacent to the highway and where pedestrians are not permitted to cross the roadway.

(2) (a) Except as provided in paragraph (b), any person violating the provisions of subsection (1) of this section shall be guilty of a misdemeanor and upon a first conviction thereof shall be fined not less than Three Hundred Fifty Dollars ($350.00) nor more than Seven Hundred Fifty Dollars ($750.00), or imprisoned for not more than one (1) year, or both. For a second or subsequent offense, the offenses being committed within a period of five (5) years, the person shall be guilty of a misdemeanor and, upon conviction, shall be fined not less than Seven Hundred Fifty Dollars ($750.00) nor more than One Thousand Five Hundred Dollars ($1,500.00), or imprisoned for not more than one (1) year, or both. In addition, the Commissioner of Public Safety or his duly authorized designee, after conviction for a second or subsequent offense and upon receipt of the court abstract, shall suspend the driver's license and driving privileges of the person for a period of ninety (90) days.

(b) A conviction under this section for a violation resulting in any injury to a child who is in the process of boarding or exiting a school bus shall be a violation of Section 54 97-3-7, and a violator shall be punished under subsection (2) of that section.

(3) This section shall be applicable only in the event the school bus shall bear upon the front and rear thereon a plainly visible sign containing the words "school bus" in letters not less than four (4) inches in height.

(4) If the driver of any vehicle is witnessed by a law enforcement officer or the driver of a school bus to have violated this section and the identity of the driver of the vehicle is not otherwise apparent, it shall be a rebuttable inference that the person in whose name the vehicle is registered committed the violation. If charges are filed against multiple owners of a motor vehicle, only one (1) of the owners may be convicted and court costs may be assessed against only one (1) of the owners. If the vehicle that is involved in the violation is registered in the name of a rental or leasing company and the vehicle is rented or leased to another person at the time of the violation, the rental or leasing company may rebut the inference of guilt by providing the law enforcement officer or prosecuting authority with a copy of the rental or lease agreement in effect at the time of the violation.

SECTION 2. Section 63-1-73, Mississippi Code of 1972, is amended as follows:

63-1-73. (1) For purposes of this section, the following terms shall have the meanings ascribed in this subsection, unless the context clearly indicates otherwise:

(a) "Cellular telephone" means an analog or digital wireless telephone authorized by the Federal Communications Commission to operate in the frequency bandwidth reserved for cellular radiophones.

(b) "Personal digital assistant" means a wireless electronic communication device that provides for data communications other than by voice.

(c)The term "E911" shall have the meaning ascribed in Section 19-5-303.

(d)"Wireless communication device" means a device that uses a commercial mobile service, as defined by 47 USC Section 332, including a cellular telephone or personal digital assistant.

(2) (a) A person who is authorized to drive under an intermediate license, a temporary learning permit or a temporary driving permit shall not operate a motor vehicle on a highway while using a wireless communication device to send or receive a written message while the motor vehicle is in motion.

(b)A person shall not use a wireless communication device while operating a passenger bus with a minor passenger on the bus, except for an emergency or in the case of a school bus driver for official school business or in an emergency.

(3) This section does not apply to any of the following:

(a) Law enforcement and safety personnel;

(b) Drivers of authorized emergency vehicles;

(c) * * * A person who is reporting reckless or negligent behavior;

(d) * * * A person who believes that the person or another person is in physical danger * * *;

(e) Written messages sent or received while the vehicle is parked; * * *

(f) The use of a wireless communication device for the sole purpose of communicating with any of the following regarding an emergency situation:

(i) An emergency response or E911 operator;

(ii) A hospital, physician's office or health clinic;

(iii) A provider of ambulance services;

(iv) A provider of firefighting services;

(v) A law enforcement agency;

(g) The use of technology utilizing a cellular connection to a vehicle to relay vehicle operational information between the vehicle and a call center or repair facility; and

(h) A vehicle navigation system utilizing a cellular connection to update databases and provide real-time traffic information.

(4) (a) A violation of this section is a misdemeanor, and upon conviction, is punishable by a fine not to exceed Five Hundred Dollars ($500.00).

(b) If the person violates this section at the time that he is involved in a motor vehicle accident, then the S. B. No. 2472 violations is punishable by a fine not to exceed One Thousand Dollars ($1,000.00).

(c) A law enforcement officer investigating a motor vehicle accident in which a person is cited for violating subsection (2)(b) or (c) of this section * * * shall indicate on the written accident report * * * the use of a wireless communication device in violation of this section * * * at the time of the accident.

SECTION 3. Section 97-3-7, Mississippi Code of 1972, is amended as follows:

97-3-7. (1) A person is guilty of simple assault if he (a) attempts to cause or purposely, knowingly or recklessly causes bodily injury to another; or (b) negligently causes bodily injury to another with a deadly weapon or other means likely to produce death or serious bodily harm; or (c) attempts by physical menace to put another in fear of imminent serious bodily harm; and, upon conviction, he shall be punished by a fine of not more than Five Hundred Dollars ($500.00) or by imprisonment in the county jail for not more than six (6) months, or both. However, a person convicted of simple assault (a) upon a statewide elected official, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker or family protection specialist or family protection worker employed by the Department of Human Services or another agency, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, or a judge of a circuit, chancery, county, justice, municipal or youth court or a judge of the Court of Appeals or a justice of the Supreme Court, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender, while such statewide elected official, judge or justice, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver,

district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender is acting within the scope of his duty, office or employment; (b) upon a legislator while the Legislature is in regular or extraordinary session or while otherwise acting within the scope of his duty, office or employment; or (c) upon a person who is sixty-five (65) years of age or older or a person who is a vulnerable adult, as defined in Section 43-47-5, shall be punished by a fine of not more than One Thousand Dollars ($1,000.00) or by imprisonment for not more than five (5) years, or both.

(2) A person is guilty of aggravated assault if he (a) attempts to cause serious bodily injury to another, or causes such injury purposely, knowingly or recklessly under circumstances manifesting extreme indifference to the value of human life; *** * *** (b) attempts to cause or purposely or knowingly causes bodily injury to another with a deadly weapon or other means likely to produce death or serious bodily harm; or (c) causes any injury to a child who is in the process of boarding or exiting a school bus in the course of a violation of Section 63-3-615; and, upon conviction, he shall be punished by imprisonment in the county jail for not more than one (1) year or in the Penitentiary for not more than twenty (20) years. However, a person convicted of aggravated assault (a) upon a statewide elected official, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker employed by the Department of Human Services or another agency, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, or a judge of a circuit, chancery, county, justice, municipal or youth court or a judge of the Court of Appeals or a justice of the Supreme Court, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender, while such statewide elected official, judge or justice, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of

the court, or public defender is acting within the scope of his duty, office or employment; (b) upon a legislator while the Legislature is in regular or extraordinary session or while otherwise acting within the scope of his duty, office or employment; or (c) upon a person who is sixty-five (65) years of age or older or a person who is a vulnerable adult, as defined in Section 43-47-5, shall be punished by a fine of not more than Five Thousand Dollars ($5,000.00) or by imprisonment for not more than thirty (30) years, or both.

(3) A person is guilty of simple domestic violence who commits simple assault as described in subsection (1) of this section against a current or former spouse or a child of that person, a person living as a spouse or who formerly lived as a spouse with the defendant or a child of that person, other persons related by consanguinity or affinity who reside with or formerly resided with the defendant, a person who has a current or former dating relationship with the defendant, or a person with whom the defendant has had a biological or legally adopted child and, upon conviction, the defendant shall be punished as provided under subsection (1) of this section; however, upon a third or subsequent conviction of simple domestic violence, whether against the same or another victim and within five (5) years, the defendant shall be guilty of a felony and sentenced to a term of imprisonment not less than five (5) nor more than ten (10) years. In sentencing, the court shall consider as an aggravating factor whether the crime was committed in the physical presence or hearing of a child under sixteen (16) years of age who was, at the time of the offense, living within either the residence of the victim, the residence of the perpetrator, or the residence where the offense occurred.

(4) A person is guilty of aggravated domestic violence who commits aggravated assault as described in subsection (2) of this section against, or who strangles, or attempts to strangle, a current or former spouse or a child of that person, a person living as a spouse or who formerly lived as a spouse with the defendant or a child of that person, other persons related by consanguinity or affinity who reside with or formerly resided with the defendant, a person who has a current or former dating relationship with the defendant, or a person with whom the defendant has had a biological or legally adopted child. Upon conviction, the defendant shall be punished by imprisonment in the custody of the Department of Corrections for not less than two (2) years; however, upon a third or subsequent conviction of aggravated domestic violence, whether against the same or another victim and within five (5) years, the defendant shall be guilty of a felony and sentenced to a term of imprisonment of not less than ten (10) nor more than twenty (20) years. In sentencing, the court shall consider as an aggravating factor

whether the crime was committed in the physical presence or hearing of a child under sixteen (16) years of age who was, at the time of the offense, living within either the residence of the victim, the residence of the perpetrator, or the residence where the offense occurred. Reasonable discipline of a child, such as spanking, is not an offense under this subsection (4). A person convicted of aggravated domestic violence shall not be eligible for parole under the provisions of Section 47-7-3(1)(c) until he shall have served one (1) year of his sentence.
For the purposes of this section, "strangle" means to restrict the flow of oxygen or blood by intentionally applying pressure on the neck or throat of another person by any means or to intentionally block the nose or mouth of another person by any means.

(5) "Dating relationship" means a social relationship as defined in Section 93-21-3.

(6) Every conviction of domestic violence may require as a condition of any suspended sentence that the defendant participate in counseling or treatment to bring about the cessation of domestic abuse. The defendant may be required to pay all or part of the cost of the counseling or treatment, in the discretion of the court.

(7) When investigating allegations of a violation of subsection (3) or (4) of this section, law enforcement officers shall utilize the form prescribed for such purposes by the Office of the Attorney General in consultation with the sheriff's and police chief's associations.

(8) In any conviction of assault as described in any subsection of this section which arises from an incident of domestic violence, the sentencing order shall include the designation "domestic violence." The court shall forward a copy of each sentencing order bearing the designation "domestic violence" to the Office of the Attorney General.

SECTION 4. The State Department of Education shall develop and issue curriculum guidelines to school districts relating to the implementation of a school bus safety curriculum for implementation in Kindergarten through Grade 3.

SECTION 5. Section 63-1-33, Mississippi Code of 1972, is amended as follows:

63-1-33. (1) Except as otherwise provided under subsection(6) of this section, it shall be the duty of the license examiner, when application is made for an operator's license or temporary driving permit, to test the applicant's ability to read and understand road signs and to give the required signals as adopted by the National

Advisory Committee on Uniform Traffic Control Devices and the American Association of Motor Vehicle Administrators.

(2) Except as otherwise provided under subsection (6) of this section, the commissioner shall have prepared and administer a test composed of at least ten (10) questions relating to the safe operation of a motor vehicle and testing the applicant's knowledge of the proper operation of a motor vehicle. Every examination shall ensure adequate knowledge on the part of the applicant as to school bus safety requirements.

(3) Prior to the administration of the test, the license examiner shall inspect the horn, lights, brakes, inspection certificate and vehicle registration of the motor vehicle which the applicant expects to operate while being tested, and if he finds that any of the aforementioned items are deficient, no license or endorsement shall be issued to the applicant until same have been repaired.

(4) An applicant for a Mississippi driver's license who, at the time of application, holds a valid motor vehicle driver's license issued by another state shall not be required to take a written test.

(5) Except as otherwise provided by Section 63-1-6, when application is made for an original motorcycle endorsement or a restricted motorcycle operator's license, the applicant shall be required to pass a written test which consists of questions relating to the safe operation of a motorcycle and a skill test similar to the "Motorcycle Operator Skill Test," which is endorsed by the American Association of Motor Vehicle Administrators. The commissioner may exempt any applicant from the skill test if the applicant presents a certificate showing successful completion of a course approved by the commissioner, which includes a similar examination of skills needed in the safe operation of a motorcycle.

(6) The Department of Public Safety may accept the certification of successful completion of an individual's training in the knowledge and skills needed for the proper and safe operation of a motor vehicle from a driver education and training program at a secondary school that meets the standards of the department, in lieu of the department administering the examination of the individual for the purpose of obtaining a driver's license. The commissioner and the State Board of Education shall jointly promulgate rules and regulations for the administration of this subsection.

SECTION 6. Every school district is authorized to mount a camera on any retractable, hand-operated stop sign that is a part of the equipment of a school bus.

SECTION 7. To the extent that state, federal or other funds are available or appropriated, the Department of Transportation and the Department of Education shall cooperate to conduct an information campaign to educate drivers concerning the provisions of this act and the importance of school bus safety.

SECTION 8. (1) There is created the Mississippi School Bus Safety Task Force which shall be composed of nine (9) members as follows:

(a) Three (3) members appointed by the Speaker of the House of Representatives, one (1) of whom shall be appointed from the membership of the House of Representatives;

(b) Three (3) members appointed by the Lieutenant Governor, one (1) of whom shall be appointed from the membership of the Senate; and

(c) Three (3) members appointed by the Governor.

(2) At its first meeting, the task force shall elect a chairman and vice chairman from its membership and shall adopt rules for transacting its business and keeping records. Members of the task force shall receive a per diem in the amount provided in Section 25-3-69 for each day engaged in the business of the task force. Members of the task force other than legislative members shall receive reimbursement for travel expenses incurred while engaged in official business of the task force in accordance with Section 25-3-41; legislative members of the task force shall receive the expense allowance provided for in Section 5-1-47.

(3) The duties of the task force shall be to:

(a) Make a comprehensive study of school bus safety designs and technology related to safety and law enforcement.

(b) Examine and study approaches taken by other states in the implementation and costs of school bus safety.

(c) Research and develop recommendations relating to school bus safety.

(4) The task force shall publish its findings and recommendations with any proposed legislation in a report to the Governor and the Legislature to be made on or before December 31, 2011.

(5) The task force shall stand dissolved on January 1, 2012. S. B. No. 2472 *SS26/R171SG* 11/SS26/R171SG PAGE 13 ST: Nathan's law; increase penalty for unlawful passing of school bus.

SECTION 9. This act shall take effect and be in force from and after July 1, 2011.

The Research and Curriculum Unit (RCU), located in Starkville, MS, as part of Mississippi State University, was established to foster educational enhancements and innovations. In keeping with the land-grant mission of Mississippi State University, the RCU is dedicated to improving the quality of life for Mississippians. The RCU enhances intellectual and professional development of Mississippi students and educators while applying knowledge and educational research to the lives of the people of the state. The RCU works within the contexts of curriculum development and revision, research, assessment, professional development, and industrial training.

Acknowledgments

The Contemporary Health (9-12) curriculum was presented to the Mississippi Board of Education on September 21, 2012. The following persons were serving on the state board at the time:

Dr. Lynn House, Interim State Superintendent of Education
Dr. O. Wayne Gann, Chairman
Mr. Howell "Hal" N. Gage, Vice-Chairman
Mrs. Kami Bumgarner
Mr. William Harold Jones
Dr. John R. Kelly
Mr. Charles McClelland
Mr. Richard Morrison
Mrs. Martha "Jackie" Murphy
Mr. Simon F. Weir, II

The Office of Healthy Schools and the Office of Career and Technical Education have partnered to combine their two previously separate curricula into one statewide curriculum. New state and national laws and standards emphasize teaching functional health information. This collaborative curriculum will support a wide range of activities to ensure academic success and the development of healthy behaviors for Mississippi's students.

Special thanks are extended to the teachers who contributed teaching and assessment materials that are included in the framework and supporting materials. Members who contributed were as follows:

Amanda Champagne, Ocean Springs High School, Ocean Springs, MS
Taryn Dempsey, Houlka Attendance Center, Houlka, MS
Joe Gatschet, Gautier Middle School, Gautier, MS
Janet Hankins, Retired, Clinton Public School District, Clinton, MS
Betty Kennedy, Byram Middle School, Terry, MS
Pam Piazza, Byram Middle School, Terry, MS
Dixie Pogue, South Panola School District, Batesville, MS
Susann Sanders, West Lauderdale High School, Collinsville, MS

Appreciation is expressed to the following professionals who provided guidance and insight throughout the development process:

Dale Dieckman, STC, CSCS, Physical Education Specialist, Office of Healthy Schools, Mississippi Department of Education, Jackson, MS

Dianne Different, Family and Consumer Sciences Program Coordinator, Mississippi Department of Education, Jackson MS

Christine Philley, M.Ed., CFCS, School Health Administrator, Office of Healthy Schools, Mississippi Department of Education, Jackson, MS

Standards

Standards are superscripted in each unit and are referenced in the appendices. Standards in the *Contemporary Health (9-12) Curriculum Framework and Supporting Materials* are based on the following:

National Health Education Standards

The National Health Education Standards were developed by a joint committee consisting of the American Association for Health Education, the American Public Health Association, the American School Health Association, and the Society of State Leaders of Health and Physical Education. The standards are published by the Centers for Disease Control and Prevention, meant for public use, and not subject to copyright law protections. Permission is not required for use of public domain items.

Common Core State Standards Initiative

The Common Core State Standards provide a consistent, clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young people need for success in college and careers. With American students fully prepared for the future, our communities will be best positioned to compete successfully in the global economy. Copyright 2010, National Governors Association Center for Best Practices and Council of Chief State School Officers. All rights reserved. States and territories of the United States as well as the District of Columbia that have adopted the Common Core State Standards in whole are exempt from this provision and no attribution to the National Governors Association Center for Best Practices and Council of Chief State School Officers is required. Reprinted from http://www.corestandards.org/.

National Educational Technology Standards for Students (NETS-S)

21st Century Skills and Information and Communication Technologies Literacy Standards

In defining 21st century learning, the Partnership for 21st Century Skills has embraced five content and skill areas that represent the essential knowledge for the 21st century: global awareness; civic engagement; financial, economic, and business literacy; learning skills that encompass problem solving, critical thinking, and self-directional skills; and Information and Communication Technology (ICT) literacy.

Industry Certification

This curriculum is based on state and national standards, Mississippi Department of Education Subject Area Testing Program Academic Standards, American Association of Family and Consumer Sciences Standard and National Health Education Standards.

Preface

Secondary education programs in Mississippi are faced with many challenges resulting from sweeping educational reforms at the national and state levels. Schools and teachers are increasingly being held accountable for providing true learning activities to every student in the classroom. This accountability is measured through increased requirements for mastery and attainment of competency as documented through both formative and summative assessments.

The courses in this document reflect the statutory requirements as found in Section 37-3-49, Mississippi Code of 1972, as amended (Section 37-3-46); Section 37-13-134, Mississippi Code of 1972, as amended (37-13-134); Section 37-13-171, Mississippi Code of 1972, as amended (37-13-171); and Nathan's Law, Section 63-3-615, Mississippi Code of 1972, as amended (Sections 63-1-73, 97-3-7, and 63-1-33). In addition, this curriculum reflects guidelines imposed by federal and state mandates (Laws, 1988, ch. 487, §14; Laws, 1991, ch. 423, §1; Laws, 1992, ch. 519, §4 eff. from and after July 1, 1992; No Child Left Behind Act of 2001; and Carl D. Perkins Vocational Education Act IV, 2007).

Contemporary Health (9-12) Executive Summary

Course Description

Contemporary Health (9-12) is a one-semester high school course (offering .5 Carnegie units of credit), which includes classroom and hands-on experiences that help students acquire the knowledge, attitudes, and skills necessary for making health-promoting decisions, achieving health literacy, adopting health-enhancing behaviors, and promoting the health of others. In this course of study, emphasis is placed on personal, social, and mental health in today's society. It includes instruction on human growth and development, disease prevention and control, substance abuse and prevention, community and environmental health, nutrition and wellness, and safety and first aid. Students will be provided with instruction that is clearly relevant to today's rapidly changing world. Classes and projects will be designed to spark student interest and enthusiastic participation as well as provide a rationale for content relevancy, thus enabling students to connect what they learn in school to other aspects of their lives, including their futures.

Industry Certification

This curriculum is based on state and national standards, Mississippi Department of Education Subject Area Testing Program Academic Standards, American Association of Family and Consumer Sciences Standards, National Health Education Standards, as well as 21st Century Skill Standards.

Assessment

No statewide assessment will be provided for this curriculum.

Student Prerequisites

No prerequisites are necessary. This is a required course for graduation. Academic credit will be issued as .5 Carnegie units.

Licensure Requirements

Beginning with Academic Year 2013-2014, academic education Contemporary Health (9-12) teachers will be required to hold one of these two educator licenses: **142 Health Education (7-12)** or **143 Health Education (K-12)**.

The requirements for the **142/143**-educator endorsements are as follows:

1. Education
    a. Applicants must have a bachelor's degree or higher in Teacher Education from a state-approved or NCATE-approved program from a regionally/nationally-accredited institution of higher learning.
    b. Applicants must pass the Praxis II (Principles of Learning and Teaching Test).
    c. Applicants must pass the Praxis II (Specialty Area Test) in degree program.
2. Technology Literacy and Related Assessment of that Competency
    a. Applicants must validate technology competency by attaining the established minimum score or higher on an assessment approved by the Mississippi Department of Education (MDE). The assessment must be directly related to technology competency required by the grade level and subject matter being taught. Approved assessments for this license are IC3, Propulse, or other specific assessment created by third-party vendors, authorized by the Local Education Agency (LEA), and approved by the MDE.
3. Teacher Education Preparation and Related Assessment(s) of that Education

a. Applicants must successfully complete the Contemporary Health (9-12) workshop, module, or course that is approved by the MDE.

Note: The applicant who meets all requirements listed above will be issued a 142 or 143 endorsement, which is a 5-year license. For applicants who do not meet all requirements, a 3-year endorsement license will be issued, but all requirements stated above must be satisfied prior to the ending date of that license.

Beginning with Academic Year 2013-2014, career and technical education Contemporary Health (9-12) teachers will be required to hold one of three educator licenses: **321 Vocational Home Economics/Family and Consumer Sciences (non-education)** or **322 Home Economics/Family and Consumer Sciences (education)** or **961 Career Pathway: Health Sciences**. Teachers who hold a currently valid 321, 322, or 961 endorsement are additionally required to successfully complete the Contemporary Health—Grades 9-12 workshop, module, or course that is approved by the MDE. Teachers who do not hold a currently valid 321, 322 or 961 endorsement must successfully complete the requirements and apply for the appropriate license as described below.

The requirements for the **322**-educator endorsement are as follows:

1. Education
    a. Applicants must have a bachelor's degree or higher in Home Economics/Family and Consumer Sciences Education (includes student teaching) from a state-approved or NCATE-approved program from a regionally/nationally-accredited institution of higher learning.
    b. Applicants must pass the Praxis II (Principles of Learning and Teaching Test).
    c. Applicants must pass the Praxis II (Specialty Area Test) in degree program.
2. Technology Literacy and Related Assessment of that Competency
    a. Applicants must validate technology competency by attaining the established minimum score or higher on an assessment approved by the MDE. The assessment must be directly related to technology competency required by the grade level and subject matter being taught. Approved assessments for this license are IC3, Propulse, or other specific assessment created by third-party vendors, authorized by the LEA, and approved by the MDE.
3. Teacher Education Preparation and Related Assessment(s) of that Education
    a. Applicants must successfully complete the Contemporary Health (9-12) workshop, module, or course that is approved by the MDE.

Note: The applicant who meets all requirements listed above will be issued a 322 endorsement, which is a 5-year license. For applicants who do not meet all requirements, a 3-year license will be issued, but all requirements stated above must be satisfied prior to the ending date of that license.

The requirements for the **321**-educator endorsement are as follows:

1. Education
    a. Applicants must have a bachelor's or higher degree in Family and Consumer Sciences from an accredited institution of higher education (non-education degree).
2. Technology Literacy and Related Assessment of that Competency
    a. Applicants must validate technology competency by attaining the established minimum score or higher on an assessment approved by the MDE. The assessment must be directly related to technology competency required by the grade level and subject matter being taught. Approved assessments for this license are IC3, Propulse, or other specific assessment created by third-party vendors, authorized by the LEA, and approved by the MDE.
3. Occupational Experience and Related Assessment of that Experience
    a. Applicants must have verification of at least one year of full-time occupational experience in the past 10 years. This experience must be appropriate to the subject area being taught. A degree in the subject area exempts an applicant from any additional occupational-competency testing.

b. Applicant must enroll immediately in the Vocational Instructor Preparation (VIP) program and must complete the individualized professional development plan (PDP) requirements of the VIP program prior to the expiration date of the 3-year vocational license.

4. Teacher Education Preparation and Related Assessment(s) of that Education
    a. Applicants must successfully complete the Contemporary Health (9-12) workshop, module, or course that is approved by the MDE.

Note: The applicant who meets all requirements listed above will be issued a 321 endorsement, which is a 5-year license. For applicants who do not meet all requirements, a 3-year license will be issued, but all requirements stated above must be satisfied prior to the ending date of that license.

Requirements for the **961**-educator endorsement:

1. Education
    a. Applicant must be a Registered Nurse who is a graduate of an accredited School of Nursing with a 2-year (associate) degree or higher.
2. Technology Literacy and Related Assessment of that Competency
    a. Applicant must validate technology competency by attaining the established minimum score or higher on an assessment approved by the MDE. The assessment must be directly related to technology competency required by the grade level and subject matter being taught. Approved assessments for this license are IC3, Propulse, or other specific assessment created by third-party vendors, authorized by the LEA, and approved by the MDE.
3. Occupational Experience and Related Assessment of that Experience
    a. Applicants with an associate degree must have at least two years of verifiable occupational experience in the past 10 years. Experience must be appropriate to the subject being taught.
    b. Applicants with a bachelor's or higher degree must have at least one year of verifiable occupational experience in the past 10 years. Experience must be appropriate to the subject being taught.
    c. Applicant must possess and maintain an unrestricted Mississippi Registered Nurse License.
    d. Applicant must possess and maintain CPR certification through the American Heart Association (this certification is a prerequisite to the Health-Care Provider Basic Life Saver, Instruction Level certification).
    e. Applicant must possess and maintain a Health-Care Provider Basic Life Saver, Instructor Level certification through the American Heart Association.
4. Teacher Education Preparation and Related Assessment(s) of that Education
    a. Applicant must enroll immediately in the VIP program or the College and Career Readiness Educator Program (CCREP).
    b. Applicant must complete the individualized PDP requirements of the VIP or CCREP program prior to the expiration date of the 3-year vocational license.
    c. Applicant must successfully complete a certification for an online learning workshop, module, or course that is approved by the MDE.
    d. Applicant must successfully complete the Health Science and Healthcare and Clinical Service certification workshop, module, or course that is approved by the MDE.
    e. Applicant must successfully complete the Contemporary Health (9-12) workshop, module, or course that is approved by the MDE.

Note: The applicant who meets all requirements listed above will be issued a 961 endorsement, which is a 5-year license. For any applicants who do not meet all requirements, a 3-year license will be issued, but all requirements stated above must be satisfied prior to the ending date of that license.

Professional Learning

It is suggested that instructors participate in professional learning related to the following concepts:

- New topics related to the curriculum and new standards
- Differentiated instruction – To learn more about differentiated instruction, please go to http://www.paec.org/teacher2teacher/additional_subjects.html and click on Differentiated Instruction. Work through this online course and review the additional resources.

The professional learning itinerary for instructors can be found at http://www.rcu.msstate.edu/ProfessionalLearning/OnlinePD/CourseListing.aspx.
If you have specific questions about the content of any training session provided, please contact the Professional Learning Specialist at the Research and Curriculum Unit, 662.325.2510.

Course Outlines

Course Description: Contemporary Health (9-12) is a course that develops skills related to personal, social, and mental health in today's society. It includes instruction on human growth and development, disease prevention and control, substance abuse and prevention, community and environmental health, and safety and first aid. This course is designed to satisfy the graduation requirement for health in grades 9-12. (1 Semester, 0.5 Carnegie units)

Contemporary Health (9-12)—Course Code: 340133

Unit Number	Unit Name	Hours
1	Personal and Consumer Health	6
2	Mental Health	7
3	Family/Social Health	5
4	Human Growth and Development	10
5	Disease Prevention and Control	10
6	Nutrition and Fitness	10
7	Substance Abuse Prevention	7
8	Community and Environmental Health	5
9	Safety and First Aid	10
Total		70

Contemporary Health (9-12) Research Synopsis

Introduction

Today's health education curricula reflect the growing body of research that emphasizes teaching functional health information, shaping personal values and beliefs that support healthy behaviors, influencing group norms to value a healthy lifestyle, and developing the essential health skills necessary to adopt, practice, and maintain health-enhancing behaviors.

According to various reviews, an effective health-education curriculum has the following characteristics:

1. Focuses on clear health goals and related behavioral outcomes.
2. Is research based and theory driven.
3. Addresses individual values, attitudes, and beliefs.
4. Addresses individual and group norms that support health-enhancing behaviors.
5. Focuses on reinforcing protective factors and increasing perceptions of personal risk and harmfulness of engaging in specific unhealthy practices and behaviors.
6. Addresses social pressures and influences.
7. Builds personal competence, social competence, and self-worth by addressing skills.
8. Provides functional health knowledge that is basic, accurate, and directly contributes to health-promoting decisions and behaviors.
9. Uses strategies designed to personalize information and engage students.
10. Provides age-appropriate and developmentally appropriate information, learning strategies, teaching methods, and materials.
11. Incorporates learning strategies, teaching methods, and materials that are culturally inclusive.
12. Provides adequate time for instruction and learning.
13. Provides opportunities to reinforce skills and positive health behaviors.
14. Includes teacher information and plans for professional development and training that enhance effectiveness of instruction and student learning.

Rationale

Research suggests that educational experiences influence the development of health-related knowledge, attitudes, and skills. If health education begins early and continues throughout a child's development and growth, national objectives for wellness and well-being can be achieved. Well-designed summative and formative evaluations integrated with developmentally appropriate health subjects will help to increase the likelihood of favorable outcomes for students.

Premature deaths and disabilities of people of all ages are related to poor health decisions and unhealthy behaviors/practices. The ultimate goal of school-based health education is to prevent premature deaths and disabilities by empowering children and youth with appropriate and current health information. Health-enhancing practices can be successfully learned in school-based health education programs, enabling children and youth to begin to apply knowledge and practice skills to promote their health in all aspects of their lives. Students who can use functional health-related knowledge and apply personal and social skills have better health statuses and, as adults, will be better prepared consumers of information to manage stress and conflict, and to make better decisions in the face of conflicting messages, thus assisting them to live healthier lives.

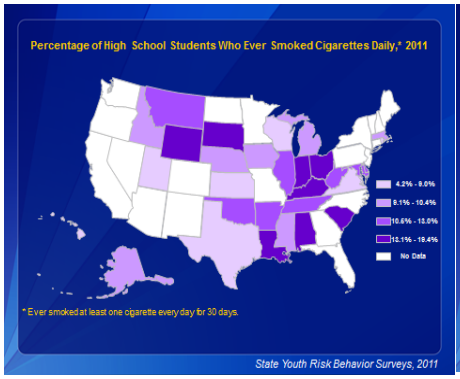
Need for Health Education in Mississippi

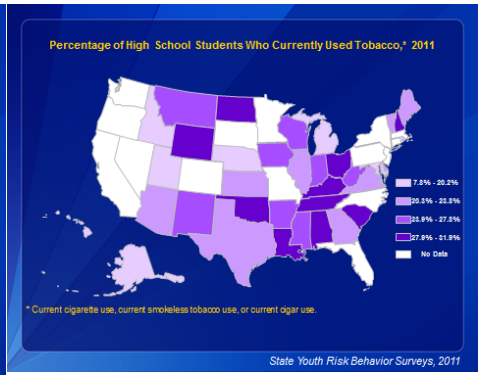
The Youth Risk Behavior Surveillance System (YRBSS) monitors priority health-related risk behaviors that contribute markedly to the leading causes of death, disability, and social problems among youth and adults in the United States. These behaviors, often established during childhood and early adolescence, include tobacco use,

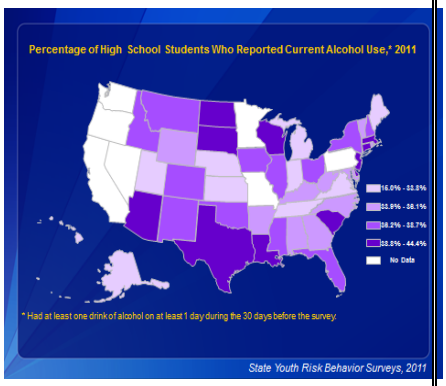
unhealthy dietary behaviors, inadequate physical activity, alcohol and other drug use, sexual behaviors that contribute to unintended pregnancy and sexually transmitted diseases, including HIV infection, and behaviors that contribute to unintentional injuries and violence. In addition, the YRBSS monitors the prevalence of obesity and asthma (see YRBSS Web site, http://www.cdc.gov/HealthyYouth/yrbs/index.htm, for complete information).

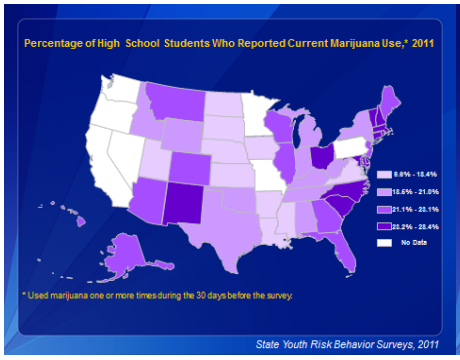
The2011 YRBSS shows that Mississippi's youth are most at risk in the areas of drug usage, sexual behavior, and obesity. The charts below compare Mississippi with the rest of the United States.

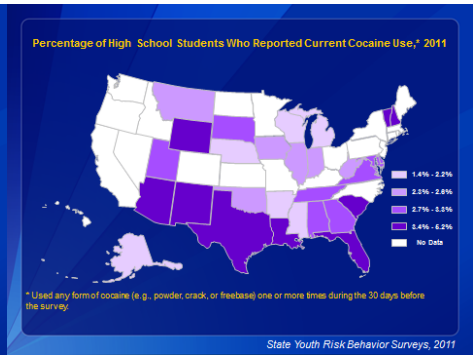
Tobacco, Alcohol, and Illegal Drug Usage:

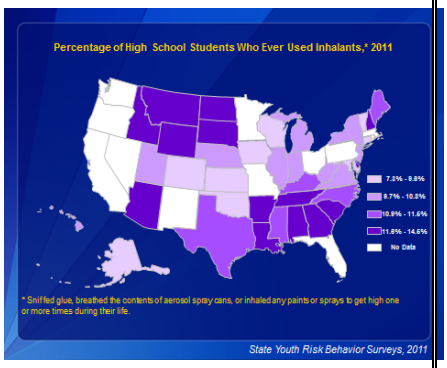


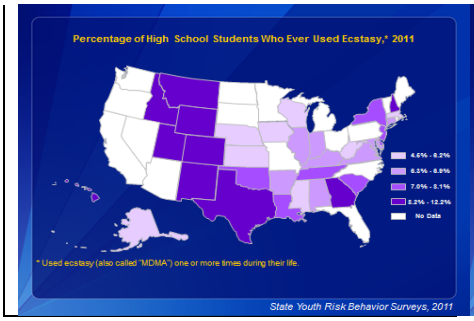


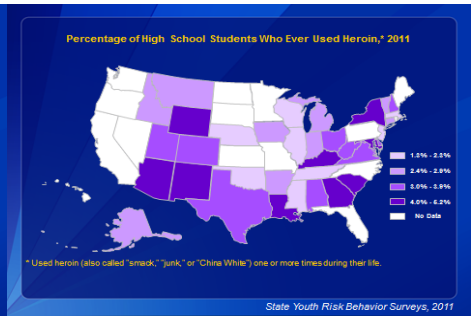


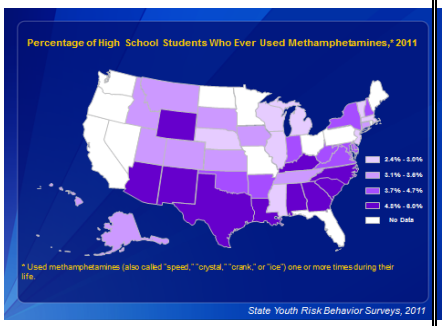




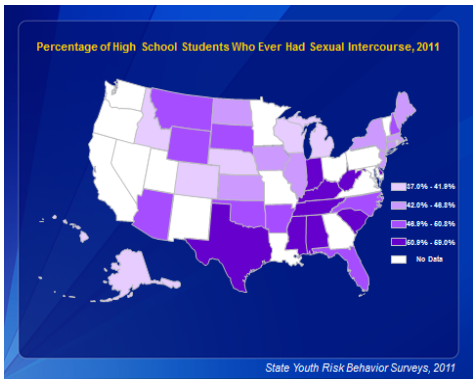


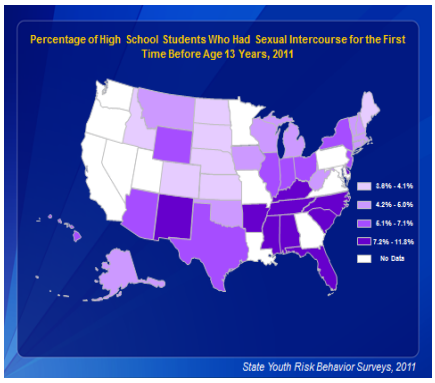


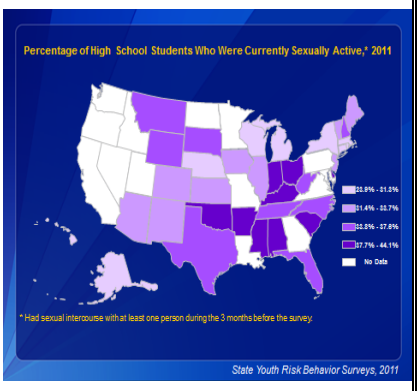




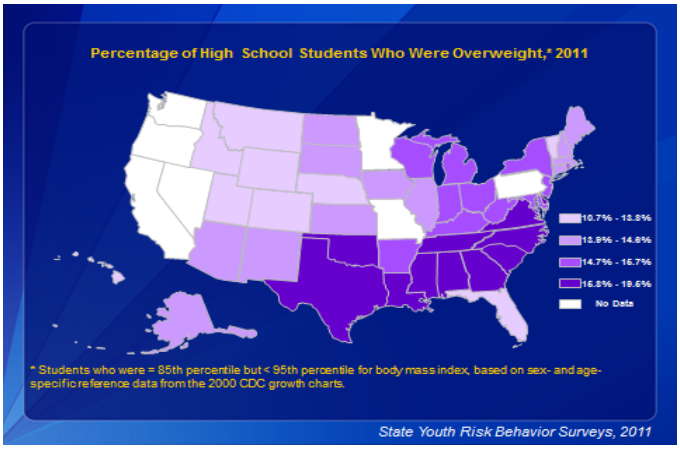
Sexual Behaviors:

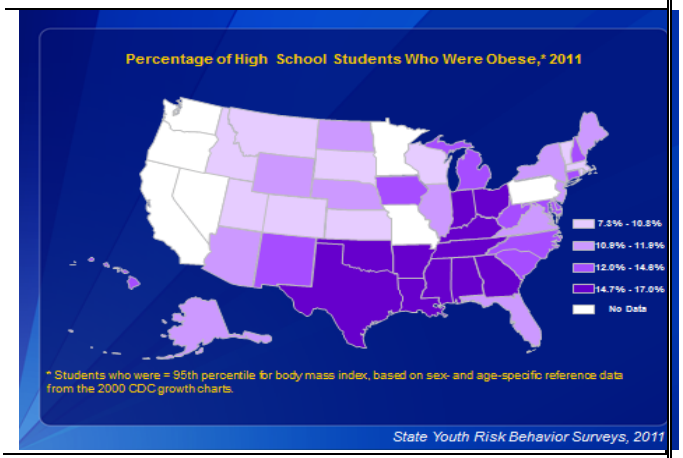






Obesity:





Note: 2011 national, state, and local results were released in early summer of 2012. See YRBSS Web site (http://www.cdc.gov/healthyyouth/yrbs/slides/index.htm) for complete information.

With one of the highest rates of teen pregnancy in the nation, Mississippi is implementing abstinence-only or abstinence-plus into local school districts in the fall of 2012 (See House Bill 999: http://billstatus.ls.state.ms.us/documents/2011/html/HB/0900-0999/HB0999SG.htm).

The 2007 STD/HIV Epidemiologic Profile (http://msdh.ms.gov/msdhsite/_static/resources/3591.pdf) provides detailed information about the current HIV/AIDS epidemic in Mississippi, specifically from 2003 to 2007. The report describes the population of Mississippi, people living with or infected by HIV/AIDS, and people at risk for HIV infection. The profile is an essential planning tool for HIV/AIDS prevention and care throughout the state.

Particularly in consideration of these current trends, health education continues to be a critical component of Mississippi's educational structure. The Contemporary Health (9-12) curriculum is designed to address these issues in the context of educating our youth to make healthy lifestyle choices.

Curriculum Content

Summary of Standards: The standards to be included in the Contemporary Health (9-12) curriculum are the National Health Education Standards, 21st Century Skills, Common Core State Standards, and the National

Educational Technology Standards for Students (NETS-S). Together, these standards will ensure that this curriculum is both an effective teaching and learning tool and a thorough guide of the objectives and assessments to be achieved throughout the course.

- Industry Standards (See Crosswalk Table—Appendix C)
- 21st Century Skills Standards (See Crosswalk Table—Appendix D)
- Applied Academic Credit (See Common Core Standards Crosswalk Table—Appendix E)
- Technology Standards (See National Educational Technology Standards for Students Crosswalk—Appendix F)

Case Studies

According to the School Health Policies and Programs Study (SHPPS) of 2006, 72% of all states required or encouraged districts or schools to follow health-education standards or guidelines based specifically on the National Health Education Standards (http://www.cdc.gov/HealthyYouth/shpps/index.htm).

In 2007, the Mississippi legislature enacted the Mississippi Healthy Students Act (Mississippi Code of 1972 Annotated Section 37-13-134) to address the state's high rates of childhood obesity by improving nutrition, physical activity, and health education in public schools. The act includes the following provisions:

- mandates minimum requirements for health education and physical education in public schools:
  - For grades K-8, 150 minutes per week of physical education and 45 minutes per week of health education, and
  - For grades 9-12, 0.5 Carnegie units in physical education or physical activity for graduation.
- requires local school-wellness plans to promote increased physical activity, healthy eating habits, and abstinence from tobacco and illegal drugs;
- designates an appropriation for a physical activity coordinator at the State Department of Education;
- makes the statutory duties of local school health councils mandatory rather than permissive; and
- directs the State Board of Education to adopt regulations that address healthy food and beverage choices, healthy food preparation, marketing of healthy food choices to students and staff, food preparation ingredients and products, minimum and maximum time allotments for lunch and breakfast periods, the availability of food items during lunch and breakfast periods, and methods to increase participation in the Child Nutrition School Breakfast & Lunch Programs.

The Center for Mississippi Health Policy is evaluating the impact of the Mississippi Healthy Students Act and has released two reports summarizing key findings from the first two years of research https://mshealthpolicy.com/.

Assessment

There is no statewide assessment for this curriculum.

Best Practices

Innovative Instructional Technologies: Students in today's society are immersed in technology. Teachers will incorporate the use of technology, which will provide a learning environment that will stimulate student interaction and active involvement in the learning process. Each classroom should have access to a television set with VCR/DVD combo, multiple computers with access to the Internet, SMART Board (whiteboard) or Promethean board with projector, laptop, digital video camera, and digital camera. Using this equipment will allow teachers to make use of communication tools on the Internet, create and model various presentations, and present online scenarios to students for in-depth study. Also, by using

"clickers" (components of the SMART Board) as a classroom assessment method, students will be able to have instant feedback on assignments.

Differentiated Instruction: Differentiated instruction is a method of teaching that appreciates the various education and experience backgrounds of students. According to Tomlinson (1995), there are four characteristics that define instruction and learning in a differentiated classroom:

1. Instruction is focused on concepts and driven by principles.
2. Assessment of student readiness and growth is built into the curriculum.
3. Students work in a variety of patterns.
4. Students actively explore the content, and teachers guide that exploration.

The curriculum can be broken down into three elements: content, process, and products. These elements can be differentiated in order to accommodate students' learning styles in the classroom. Content can be differentiated by providing several different vehicles for introducing information, such as using outside resources, Internet resources, videos, or sensory experiences. The process is considered the "how" of the curriculum. Process can be differentiated by using flexible grouping. The product is the assessment part of the curriculum. This element can be differentiated to meet the needs of the students by allowing students to self-select products. The overall goal for the differentiated instruction method is to amplify individual student development and success.

The Contemporary Health (9-12) curriculum is written to allow teachers the flexibility to create a differentiated classroom. Teachers are encouraged to incorporate technology, which greatly expands resources to reach and teach all types of learners. The curriculum also provides various methods for content presentation, hands-on activities, and assessment tools.

Cooperative Learning: Cooperative learning is a powerful method of instruction in a diverse classroom. Because of the new emphasis on teamwork in the workplace, the use of cooperative learning in the classroom prepares students for the workforce environment. Cooperative learning is a way of organizing instruction that involves students working in small groups together to reach a common goal. This method allows students to learn from each other and improves and enhances interpersonal skills, social skills, communication skills, and problem-solving skills. Cooperative learning enhances trust building, decision making, and conflict management. The cooperative learning method can easily be applied into the Contemporary Health Education classroom by utilizing the flexible grouping methods discussed in differentiated instruction.

Dynamic Instruction/Assessment: Dynamic instruction is re-teaching content that students did not comprehend in a different method. Identification of the content that needs to be re-taught is accomplished through data analysis of assessment. Dynamic instruction is considered to be a best practice for instruction because it ensures student success in the classroom.

Conclusions

Health education in Mississippi is crucial. The health of Mississippians does not depend on major medical breakthroughs, but rather on the everyday practice of good health habits taught and begun at a young age. The Contemporary Health (9-12) curriculum addresses the needs of students by providing a healthy environment in which to support a wide range of activities to ensure academic success and the development of healthy behaviors.

Using this Document

Unit Number and Title

Suggested Time on Task
The suggested time on task amounts to an estimated number of clock hours of instruction that should be required to teach the competencies and objectives of the unit. A minimum of 70 hours of instruction is required for 0.5 Carnegie units credit. The curriculum framework should account for approximately 75–80% of the time in the course.

Competencies and Suggested Performance Indicators
A competency represents a general concept or performance that students are expected to master as a requirement for satisfactorily completing a unit. Students will be expected to receive instruction on all competencies. The suggested performance indicators represent the enabling and supporting knowledge and performances that will indicate mastery of the competency at the course level.

Suggested Teaching Strategies
Suggested teaching strategies are research based and intended to enable students to master each competency. Emphasis has been placed on strategies that reflect active-learning methodologies. Teachers should feel free to modify or enhance these suggestions based on needs of their students and resources available in order to provide optimum learning experiences for their students.

Suggested Assessment Strategies
This section indicates research-based strategies that can be used to measure student mastery. Examples of suggested strategies include rubrics, class participation, reflection, and journaling. Again, teachers should feel free to modify or enhance these suggested assessment strategies based on local needs and resources.

Integrated Academic Topics, 21st Century Skills and Information and Communication Technology Literacy Standards, ACT College Readiness Standards, and Technology Standards for Students
This section identifies related academic topics as required in the Subject Area Testing Program (SATP) in Algebra I, Biology I, English II, and U.S. History from 1877, which are integrated into the content of the unit. Research-based teaching strategies also incorporate ACT College Readiness standards. This section also identifies the 21st Century Skills and Information and Communication Technology Literacy skills. In addition, national technology standards for students associated with the competencies and suggested objectives for the unit are also identified.

References
A list of suggested references is provided for each unit. The list includes some of the primary instructional resources that may be used to teach the competencies and suggested objectives. Again, these resources are suggestions, and the list may be modified or enhanced based on needs and abilities of students and upon available resources.

Unit 1: Personal and Consumer Health

Understandings and Goals

Enduring Understandings

In this unit, the student will

- define health and wellness.
- recognize correct hygiene habits.
- practice decision making skills.
- recognize the role of values in decision making.
- identify the rights of consumers.
- analyze the costs of health care.
- determine reliable and valid sources of information.
- identify the influences for decision making.

Essential Questions

- What is the difference between health and wellness?
- Why is personal hygiene an important health skill?
- What are your values and how do they guide your decisions?
- What are the rights of consumers?
- What are the options for assistance to help pay for health care?
- How can you tell if the information you use is reliable or valid?
- Who and what are the influences that persuade your decisions?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Describe ways to achieve and maintain a healthy lifestyle. (DOK 1, NHES6)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Define health and list characteristics of a healthy person.	Describe ways to achieve and maintain a healthy lifestyle. Discuss the characteristics of a healthy person and have students prepare a list of these characteristics. Discuss the benefits of having a local school health council and student involvement on that council. Have a school health council representative speak to the class.	Evaluate the students' lists of healthy characteristics. Student Class Participation Rubric – Appendix A Guest Speaker Evaluation Forms– Appendix A
b. State good personal hygiene habits, including dental, skin, hair, ear, eye, and nail care.	Have the students participate in a discussion of personal hygiene habits. Invite health care professionals to demonstrate the various techniques of basic hygiene and discuss the various functions of teeth, skin, hair, ears, eyes, and nails.	Observe student participation in class discussion and demonstration. Student Class Participation Rubric – Appendix A

Competency 2: Demonstrate the ability to use goal-setting and decision-making skills to enhance health. (DOK 3, NHES6)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify the steps in the decision-making model.	Explain the relationship between current health decisions and future wellness. Have students respond to this statement: I am young. Why should I care about my health? Have the students participate in a class discussion on the decision-making model.	Observe participation in class discussion. Student Class Participation Rubric – Appendix A
b. Apply the decision-making model to solve a personal problem. Note: *If you choose the topic of abstaining from pre-marital sex, you* should *check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 - Appendix G)*	Divide the class into groups and give groups a personal problem situation where they must write a solution utilizing the decision-making model. (Reasons for abstaining from premarital sex, abstaining from use of drugs and alcohol, etc.)	Critique and grade group written assignments. Group Participation or Group Work Rubric – Appendix A

c. Define a value system and identify the relationship of values to actions.	Have students complete an anonymous value inventory. Have students participate in a class discussion on values and their role in the decision making process.	Student Class Participation Rubric – Appendix A

Competency 3: Recognize the benefits of being a wise consumer. (DOK 2, NHES3)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify rights and responsibilities as a consumer.	Recognize the benefits of being a wise consumer. Have students participate in class discussion about consumer rights and responsibilities, the Consumer Bill of Rights, etc.	Observe student participation in class discussion. Student Class Participation Rubric – Appendix A
b. Identify the activities of agencies that protect the consumer.	Have students search the Web and report on the various consumer protection agencies.	Presentation Assessment Rubric – Appendix A
c. Identify popular types of deceptive advertising and product fraud.	Have students use magazines and other print media to select advertisements that represent different forms of deceptive advertising and product fraud to be included in a brochure.	Evaluate selection of advertisements for deception and fraud. Brochure Rubric – Appendix A
d. Recognize medical fraud in the marketplace.	Invite a pharmacist to describe medical fraud in the marketplace. Have students complete a guest speaker evaluation form. Ask for volunteers to share evaluation with the class.	Observation Guest Speaker Evaluation Forms – Appendix A Student Class Participation Rubric – Appendix A
e. Examine costs and options for paying for health care services.	Divide students into groups to research various health care services (such as prenatal care, out-patient care, preventive health, etc.) with and without health insurance, Medicaid, or Medicare. Have groups complete a written cost analysis of health services.	Evaluate the student groups' written cost analysis of health care services. Group Work Assessment – Appendix A Unit Test

Competency 4: Analyze the influence of culture, media, technology, and other factors on health. (DOK 3, NHES2)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Evaluate the implications of modern technology on societal health.	Have students bring articles from media sources and search Web for current information and resources. Have students discuss relevance of Web sites to determine reliability of health information.	Evaluate students' participation in the open-ended discussion.

		Student Class Participation Rubric – Appendix A
b. Analyze the influences of different cultural beliefs on health behaviors.	Have students research data regarding other cultures and how it relates to disease (i.e., eating habits, physical activity, doctor visits, availability of health services, etc.). Have students compare and contrast the data from other cultures to the United States using various presentation methods.	Presentation Rubric – Appendix A

Performance Task

Performance Task Title: Health Insurance Policies—Comparative Research

Objective: Students will be able to compare and contrast health insurance policies.

The teacher will ask students to use the Internet to research health insurance policies. Students will compare and contrast health insurance policies. Medicaid and Medicare policies should be included in their analyses. Each analysis should include cost of premiums, cost of deductibles, and cost of co-pays. Students should also examine the limits of the policies.

Once the students have collected and reported their data, their analyses will be given to the teacher. The teacher will grade each analysis using a rubric.

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Personal and Consumer Health. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports, either as regular or extra-credit assignments.

1. *Oh the Things That You Can Do That are Good for You*
   Author – Tish Rabe
   ISBN – 10: 0375810986

2. *Germs Make Me Sick*
   Author – Melvin Berger
   Publisher – Harper Collins Publishers, Inc.

3. *Make Lemonade*
   Author – Virginia Wolff
   Publisher – Henry Holt and Company
   IBSN – 978-0805080704

Unit 2: Mental Health

Understandings and Goals

Enduring Understandings

In this unit, the student will

- learn how mental health contributes to personality.
- describe how the effects of stress influence mental health and the harmful effects of stress affect the body.
- will be able to identify and describe symptoms of mental disorders.
- be able to identify treatment centers where assistance can be provided.

Essential Questions

- What is a mental disorder and how does one acquire/develop one?
- How can stress contribute to our mental health?
- What is the difference between functional and organic mental disorders?
- What are ways to cope once one is identified with a mental disorder?
- What are the signs and symptoms of eating disorders?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Demonstrate the ability to practice health-enhancing behaviors that contribute to positive mental health. (DOK 2, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Explain how an individual's mental and physical health habits affect what he or she thinks about himself or herself.	Explain how mental health contributes to personality. Have students compile a list of personality traits during a brainstorming session; circle the traits that contribute to mental health.	Observe student participation in class discussion and activity. Student Class Participation Rubric – Appendix A
b. Identify nonthreatening ways of being assertive.	Divide the class into groups to role-play assertive strategies, with each group given a specific situation.	Observe student participation in role-play. Role-Play or Skit Rubric – Appendix A
c. Identify common defense mechanisms.	Discuss healthy and unhealthy defense mechanisms (coping skills). Using a scenario, have students list healthy and unhealthy defense mechanisms.	Student Class Participation Rubric – Appendix A

Competency 2: Describe how stress influences mental health. (DOK 1, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify the harmful physiological and psychological effects of stress.	Describe how stress influences mental health. Have students rate their personal stressors on a given chart, and then, using their top three stressors, explain the body's response. Have students list how stress leads to heart disease, cancer, stroke, and high blood pressure.	Written Report Rubric – Appendix A Stress Chart – Appendix A
b. Develop a stress management plan.	Have students outline a personal stress management plan (using Stress Chart from Suggested Teaching Strategy 2a), indicating activities and relaxation techniques to be utilized.	Written Report Rubric – Appendix A

Competency 3: Define functional and organic mental disorders and state controls for each. (DOK 1, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify different mental health disorders and recognize signs of each. CCL4	Define functional and organic mental disorders and state controls for each. Invite mental health resource personnel for class presentation.	Written Test Guest Speaker Evaluation Forms – Appendix A

b. Identify available resources for treatment of mental illness.	Have students prepare a list of questions about the signs of mental health problems and their treatments. Invite a mental health professional or school nurse to be interviewed by the students. Research state, county, or local mental health resources and have students create a brochure.	Brochure Rubric – Appendix A
c. Identify warning signs of suicide and demonstrate intervention strategies.	Have students watch a video on suicide and compile a list of warning signs as described during the video. Divide the class into groups and role-play a scenario showing signs of suicide and intervention strategies.	Group Rubric and/or Role-Play or Skit Rubric – Appendix A
d. Identify the relationship between psychological factors and eating disorders.	Have students participate in a class discussion, and complete a worksheet on eating disorders using textbooks as references. Have students view and discuss video on eating disorders. Determine healthy weight ranges according to table and body fat calculation (i.e., Body Mass Index).	Student Class Participation Rubric – Appendix A. Written Test

Performance Task

Performance Task Title: Mental Health Disorders—Research and Presentations

Objective: Students will be able to identify different mental disorders, identify the symptoms, and locate treatment centers where help can be received. Their research will be presented through a poster or pamphlet/brochure.

The teacher will assign student groups, giving each group a different mental disorder to research and present. The students will be able to use their textbooks, the Internet, and other reliable sources approved by the teacher. A rubric will be used for assessment purposes.

The students will give a definition of the disorder, symptoms of the disorder, how the individual and families cope with the disorder, and how the disorder can be treated.

Once the student groups have collected their data, they will present a poster or brochure/pamphlet to the class with the information found.

The students will also evaluate each group's project.

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Mental Health. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports on the content, either as regular or extra-credit assignments.

1. *When Sophie Gets Angry – Really, Really Angry …*
   Author – Molly Bang
   Publisher – The Blue Sky Press (Scholastic)
   ISBN 0-590-18979-4

2. *Mick Harte was Here*
   Author – Barbara Park
   Publisher - Yearling

3. Taking A.D.D. to School
   Author – Ellen Weiner
   Publisher – JayJo Books

4. *Taking Depression to School*
   Author – Kathy Khalsa
   Publisher – JayJo Books

5. *The Berenstain Bears and Too Much Pressure*
   Authors – Stan and Jan Berenstain
   Publisher – Randon House, New York

6. *Diary of an Anorexic Girl*

Author – Morgan Menzie
Publisher – Thomas Nelson Publishing
ISBN – 978-1416925422

Unit 3: Family/Social Health

Understandings and Goals

Enduring Understandings

In this unit, the student will

- use effective interpersonal skills with family, friends, and others.
- communicate support for a healthy family.
- effectively manage conflicts.
- advocate improving the health of self and others.
- determine difficulties the family system may face.

Essential Questions

- What is “communication” and how can we apply strategies of communication to the issues/problems of today’s society?
- What are the characteristics of healthy communication?
- What are characteristics of a healthy and unhealthy family?
- How can we prevent breakdowns in the family system?
- What coping skills can we use to help with family conflicts and problems?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Describe how the skills of communication, cooperation, and advocacy are essential for healthy relationships. (DOK 1, NHES4)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify strategies for choosing abstinence when faced with sexual pressures. *Note: Check to see if your district chose abstinence-only or abstinence-plus (Mississippi House Bill 999 – Appendix G)*	Describe how the skills of communication and cooperation are essential for healthy relationships. Have students participate in a classroom discussion and facilitate the group's role-playing of assertive strategies to resist sexual pressures and advances.	Observe student participation in class discussion and role-play activity. Role-Play or Skit Rubric and Student Class Participation Rubric – Appendix A
b. Identify qualities that are important in close friends.	Have students brainstorm about the personal qualities important in friends and write a list on the board. Have students narrow the list to ten qualities and discuss the results.	Observe student participation in brainstorming session. Student Class Participation Rubric – Appendix A
c. Discuss conflict-resolution styles and components of communication that can aid in resolving conflicts.	Have students role-play situations that involve resolving conflict.	Observe student participation in role-play situations. Look for their conflict-resolution styles and communication techniques. Role-Play or Skit Rubric – Appendix A
d. Demonstrate the ability to work cooperatively when advocating for healthy individuals.	Have students write recommendations to the school health council on ways to improve the health of students (i.e., school environment, health services, physical activity, etc.).	Written Report Rubric – Appendix A Exit Card – Appendix A Teacher Observation

Competency 2: Describe why the family is the basic social unit of society. (DOK 1, NHES2)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Describe elements that healthy families have in common and ways to	Describe why the family is the basic social unit of society. Play the song, *Cats in the Cradle*, sung by James Taylor. Ask students to note the positive and	Observe student participation in class discussion.

maintain family health.	negative things about the family situation related in the song. Have each student prepare a list of elements from a healthy family and one from an unhealthy family. Have students participate in a class discussion to suggest ways to make the unhealthy family healthy.	Student Class Participation Rubric – Appendix A
b. Explain factors that may cause a family system to break down (to include spousal and child abuse.)	Have students participate in a class discussion about factors that may cause a family to break down. Have students anonymously submit a question on one of the following subjects: divorce, family alcoholism, drug abuse, financial problems, physical or sexual abuse, emotional abuse, or runaways. Invite guest speaker to address student questions.	Guest Speaker Evaluation Forms – Appendix A Unit Test
c. Define the role of the family in the transmission of values, attitudes, behavior, personalities, and responsibilities of its members.	Lead the students in a brainstorming session about their thoughts when they hear the word "family." Using the letters in the word family, have students identify a positive element of the family for each letter. Discuss their word choices.	Student Class Participation Rubric – Appendix A

Performance Task

Performance Task Title: Communication is Key in a Healthy Marriage and Family

Objective: Students will analyze ways that married couples communicate in a healthy marriage.

The teacher describes how important good communication is for a successful marriage and to maintain a healthy family environment. The teacher should include points such as concern for the spouse's feelings and needs. Then students will be divided into pairs, given descriptions of various challenging scenarios commonly encountered in marriage, and asked to demonstrate good communication techniques to resolve the situation. Some of the situations that should be provided by the teacher include job issues, caring for ill family members, and paying the bills. The students should then develop a short skit to demonstrate how they would resolve the situation and then perform it for the class.

The evaluation of the task will consist of the teacher observing the pairs as they share their skits with the class and asking other class members questions such as:

1. What is the situation the pair chose to highlight?

2. How did the students resolve the situation?

3. Did they show empathy for their "spouse"?

Attachments for Performance Task

Lessons plans for teaching Family and Social Health are listed below.

Bumps in the Road and How to Fix Them – H836
Making a Marriage Work – H-835
It's Family Time – H-452
All Families are not the Bradys – H-258
The Good Ole Days vs Today's Modern Times – H257
Health – I Got Skills – H-233
I'm So Lonesome I Could Cry – H-691
I Want a Family. . . Just Not Now! – H-609
I Want to Know What Love Is . . . – H-607
Is One Really the Lonliest Number? – H-606

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Family and Social Health. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports on the content, either as regular or extra-credit asssignments.

1. *Breathing Underwater*
   Author – Alex Flinn
   Publisher – HarperTempset

2. *At Daddy's on Saturdays*
   Author – Linda Walvoord Girard
   Publisher – Albert Whitman

Unit 4: Human Growth and Development

Understandings and Goals

Enduring Understandings

In this unit, the student will

- know how genetic traits are passed on from one generation to another.
- explain the process of human reproduction from conception to birth.
- identify the characteristics and tasks of adolescence, early adulthood, and late adulthood.

Essential Questions

- How are genetic traits passed on from one generation to another?
- What health practices should be considered before, during, and after pregnancy?
- What is the process of human reproduction from conception to birth?
- What are some methods of family planning? *Note: Check to see if your district chose abstinence-only or abstinence-plus (see law – House Bill 999 – Appendix G).*

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Summarize how genetic traits are passed on from one generation to another. (DOK 2, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Define the role heredity plays in determining physical traits and distinguish between dominant and recessive genes.	Summarize how genetic traits are passed on from one generation to another. Show and have the students discuss how genes are passed from parents to their children by putting a diagram on the board. Use uppercase and lowercase letters to represent dominant and recessive genes.	Written Test Student Class Participation Rubric – Appendix A
b. Identify various genetic and environmental birth defects.	Using the Internet, have students research a specific birth defect and prepare an oral report that includes description, causes, detection, and treatment of the birth defect.	Presentation Assessment Rubric – Appendix A

Competency 2: Examine health practices to be considered before, during, and after pregnancy. (DOK 2, NHES5)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. List reasons that parents decide to have children.	Examine health practices to be considered before, during, and after pregnancy. Have students brainstorm reasons that parents decide to have children.	Evaluate students' knowledge of health practices to be considered before, during, and after pregnancy. Observe student participation in class discussion. Student Class Participation Rubric – Appendix A
b. Discuss various methods of family planning. *Note: Check to see if your district chose abstinence-only or abstinence-plus (Mississippi House Bill 999 – Appendix G)*	Invite a nurse from the school or health department. Have students participate in class discussion. Have students summarize the guest speaker's presentation in a written report, and grade.	Guest Speaker Evaluation Forms – Appendix A Written Report Rubric – Appendix A.
c. Explain the process of human reproduction from conception to birth.	Have students participate in class discussion on the importance of prenatal development using models, diagrams, or charts.	Observe student participation in class discussion. Student Class Participation Rubric – Appendix A

d. Describe the stages of the birth process.	Invite a guest speaker to describe the stages of the birth process.	Guest Speaker Evaluation Forms – Appendix A

Competency 3: Identify physical, mental, and emotional changes that occur from childhood through adolescence. (DOK 1, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Trace developmental stages of infancy, childhood, and adolescence.	Identify physical, mental, and emotional changes that occur from childhood through adolescence. Divide the class into groups and role-play various assigned developmental stages from childhood through adolescence.	Observe student participation in class discussion. Student Class Participation Rubric – Appendix A Role-play or Skit Rubric – Appendix A
b. Name the physical, mental, and emotional changes that happen during adolescence and state how these changes affect identity and interpersonal relationships.	Divide the class into groups and have students create a skit portraying the physical, mental, and emotional changes that occur during adolescence.	Observe student participation in skit and grade. Role-play or Skit Rubric – Appendix A

Competency 4: Examine the aging process from adulthood through death. (DOK 2, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify the tasks and characteristics of adulthood.	Examine the aging process from early adulthood through late adulthood. Divide the class into groups and brainstorm tasks and opportunities of young, middle, and older adults. Have students interview adults in various stages of life and compile interview information for class discussion.	Observe participation in class discussion. Student Class Participation Rubric – Appendix A
b. Identify ways to cope with death and dying.	Invite a guest speaker (i.e., hospice professional or grief counselor) to explain the coping mechanisms used during and after the dying process. Have students summarize guest speaker's presentation using Guest Speaker form (Appendix A).	Guest Speaker Evaluation Forms – Appendix A. Unit Test

Performance Task

Performance Task Title: Class Project – Teen Survey – Abstinence vs. Being Sexually Active

Objective: Students will gain knowledge concerning teen pregnancy and sexually transmitted diseases in Mississippi and gain information concerning the opinions of high school students about remaining abstinent-vs.-engaging in sexual activity.

Students will research teen pregnancy and STD data for the state of Mississippi using the following data sites: http://msdh.ms.gov/phs/stat2009.htm and http://www.cdc.gov/nchs/data/nvsr/nvsr59/nvsr59_01.pdf. Using this data and information presented in the Human Growth and Development Unit, students will create an anonymous opinion survey about sexual activity vs. remaining abstinent. The survey should include no more than ten questions and the survey should be simple to complete. The students, with teacher assistance, will request permission to distribute the survey to students at their school.

Note: There may be better survey results if teachers distribute the surveys in homeroom classes.

Once the surveys are collected, the class will work together to compile the results. Each student will prepare a two-page report giving their thoughts about the survey. The report should include a discussion of the survey results and the compiled data.

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Human Growth and Development. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports on the content, either as regular or extra-credit asssignments.

1. *Taking Down Syndrome to School*
   Author – Jenna Glatzer
   Publisher – JayJo Books

2. *Taking Seizure Disorders to School – a Story about Epilepsy*
   Author – Kim Gosselin
   Publisher – JayJo Books

Unit 5: Disease Prevention And Control

Understandings and Goals

Enduring Understandings

In this unit, the student will

- identify types of common communicable diseases.
- describe how to protect against various pathogens.
- understand the function of the immune system.
- identify common sexually transmitted diseases.
- explain the prevention and treatment of sexually transmitted diseases.
- describe the symptoms, mode of transmission, prevention, and treatment of HIV and AIDS.
- identify the causes, transfer, and prevention of noncommunicable diseases.

Essential Questions

- What are the four kinds of pathogens?
- How are pathogens spread?
- What are the five major barriers that protect the body from infection?
- What is the best way to avoid getting STDs?
- What is the difference between HIV and AIDS?
- Name at least six noncommunicable diseases?
- How can noncommunicable diseases be treated?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Recognize the causes, transfer, and control of common communicable diseases. (DOK 1, NHES2)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify the pathogens that cause communicable disease and how they are transmitted.	Explain the difference between the types of pathogens.	Written Test
b. Describe the transmission, symptoms, treatment, and prevention of communicable diseases.	Explain the causes, transfer, and control of common communicable diseases. Have students create pamphlets illustrating causes, stages, treatment, and prevention of communicable diseases.	Observe student presentation of pamphlet. Presentation Assessment Rubric – Appendix A Written Test
a. Describe the function of the immune system.	Discuss the five major barriers that protect the body from infection.	Written Test

Competency 2: Recognize the ways to prevent HIV infection and STDs. (DOK 1, NHES2)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Describe the symptoms, mode of transmission, and prevention and treatment of sexually transmitted diseases. *Note: Check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 – Appendix G)*	Recognize the ways to prevent STDs. Invite a speaker from the State Board of Health to discuss the symptoms, transmission, and control of STDs. Have students write a short story on a teenager who has acquired an STD.	Observe student participation in class discussion led by guest speaker. Guest Speaker Evaluation Forms – Appendix A Grade completion of short story assignment. Written Report Checklist or Rubric – Appendix A. Written Test
b. Describe the symptoms, mode of transmission, prevention, and treatment of HIV and AIDS. *Note: Check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 – Appendix G)*	Divide the class into groups. Provide open-ended statements about HIV. Each groups selects a spokesperson to share ideas with the class. Correlate current HIV-infection data and extrapolate infection trends for the current year.	Observe student participation in class discussion.

Competency 3: State causes, signs, and control of noninfectious diseases. (DOK1, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Name the different kinds of cardiovascular diseases and their risk factors.	State causes, signs, and control of noninfectious diseases. Divide the class into groups. Have each group illustrate one cardiovascular disease on a poster. Each poster should include a description of the disease, detection and treatment, and prevention measures.	Observe student participation in and completion of poster activity. Poster Rubric – Appendix A.
b. Describe the warning signs of cancer and the ways to reduce personal risk, including breast and/or testicular cancer.	Invite a medical professional to discuss breast and testicular cancer and demonstrate procedures using models or instructional video (gender separation recommended). Have students write down and complete the following statements: Cancer is…; Cancer may be…; Cancer is not….	Observe student participation in class discussion led by guest speaker. Guest Speaker Evaluation Forms – Appendix A
c. Explain the types, prevention, and treatments for diabetes, arthritis, and other chronic diseases including those requiring, long-term care.	Invite a medical professional to discuss diabetes, arthritis, other chronic diseases, and how to establish a healthy lifestyle at an early age. Have students create and record a public service announcement on the prevention of diabetes, arthritis, or other chronic diseases.	Guest Speaker Evaluation Forms – Appendix A Public Service Rubric Give Unit Test on disease prevention and control.

Performance Task

Performance Task Title: Communicable Diseases – One-Act Play

Objective: Students will gain knowledge concerning the immune system and how it fights off infection.

Using the information presented in the Disease Prevention and Control Unit, the teacher will divide the class into small groups and ask each group to create a one-act play that presents the immune system's specific response to infection. Instruct students that plays can be created as a dramatic mystery or as a comedy, but every one-act play should inform the audience about the immune system's response. Have groups perform their plays for the class.

Performance Task Title: Non-communicable Diseases – Epinephrine

Objective: Students will gain knowledge concerning how allergic reactions can be treated with epinephrine.

Using the textbook from the Disease Prevention and Control Unit, the teacher will ask a volunteer to read aloud the description of epinephrine and how it is used to treat the symptoms of a severe allergic reaction. The teacher will then explain that epinephrine is a hormone that is naturally produced by the adrenal gland and that, as a medicine, epinephrine has several purposes, one of which is to treat allergies. Divide the class into pairs and ask each pair to research epinephrine using library or online resources. Students should answer these questions during their research: What is epinephrine? How does it help severe allergic reactions?

Have students prepare a brief report of their findings. Ask volunteers to share what they have learned.

Performance Task Title: Sexually Transmitted Diseases (STDs)

Objective: Students will gain knowledge concerning sexually transmitted diseases.

The teacher will divide the class into seven groups, assigning each group one of the common STDs discussed in the text. Challenge each group to prepare a short lesson about its assigned STD. Then have each group take a turn teaching the class about that STD.

Unit 6: Nutrition And Fitness

Understandings and Goals

Enduring Understandings

In this unit, the student will

- learn to make responsible food choices.
- determine food sources for each of the six classes of nutrients and the function they play in the human body.
- explain the path of food through the digestive systems.
- evaluate meal plans by calculating caloric value.
- identify diseases associated with poor nutrition.
- explain the physical and psychological benefits of exercise.
- identify the four parts of physical fitness and the two types of exercise.
- develop skills needed to achieve lifetime fitness.

Essential Questions

- How do responsible food choices lead to nutritional health?
- How does a regular fitness plan benefit a person physically and psychologically?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Summarize how responsible food choices lead to nutritional health. (DOK 2, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Explain the organization of MyPlate.	Make responsible food choices using MyPlate. Have students participate in class discussion and invite resource person (dietician, food service director, etc.) to class.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A
b. Identify six classes of nutrients and describe their functions in the human body.	Write a list of nutrients on the board and have students participate in class discussion of the nutrients and their functions in the human body. Ask students to write a report researching a specific nutrient. Have them include the function and food source of the nutrient in their report.	Written Report Rubric – Appendix A
c. Trace the path of food through the digestive system.	Show the anatomy of the digestive system (model, chart, or transparency) and have students trace flow of food throughout the system.	Observe student participation in activity and class discussion. Student Class Discussion Rubric – Appendix A
d. Identify kinds of information provided on a food label.	Have students bring in food labels and facilitate class discussion.	Observe student participation in activity and class discussion. Student Class Discussion Rubric – Appendix A
e. Create a daily meal plan for students' own families and calculate the number of calories	Have students record daily meals and calculate number of calories for each meal. Based on results, have students create a healthier meal plan for their families.	Evaluate meal plans.
f. Recognize diseases associated with poor nutrition.	Discuss how poor nutrition leads to disease (diabetes, heart disease, obesity, etc.). Create a brochure on the connection between nutrition and disease.	Brochure Rubric – Appendix A

Competency 2: Discover the importance of fitness. (DOK 2, NHES1, NHES6)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Explain the physical and psychological benefits of exercise.	Have students research the benefits that exercise provides for physical, mental and emotional, and social health.	Observe participation in class discussion. Student Class Discussion Rubric – Appendix A

	Have students participate in a class discussion on exercise and write ideas on the board.	
b. Develop a regular plan of exercise using the four parts of physical fitness and two types of exercise.	Describe exercises that improve strength, endurance, flexibility, and body composition (guest speaker). Have students participate in small-group brainstorming sessions using different forms of aerobic and anaerobic exercise. Have students use the FITT (Frequency, Intensity, Time, and Type) principle to develop a personal exercise plan.	Evaluate Fitness Plan. Give Unit Test on nutrition and fitness.
c. Develop skills needed to achieve lifetime fitness.	Have students complete physical fitness tests that assess fitness components (strength, endurance, flexibility, etc.).	Fitness Test

Performance Task

Performance Task Title: Personal Exercise Plan for 5K Run/Walk Race

Objective: Students will develop a written personal exercise plan for participation in a 5K run/walk race. Their plan will include both fitness and a nutrition components and will be shared with the class in an oral report.

a) <u>Fitness</u>

1. Perform a pre-assessment to determine your current fitness level and include your findings in this report.
    a. What three assessments should be performed to determine your fitness level?
    b. What activities can be used to measure each?
2. From the information gathered in the pre-assessment, use the FITT principle to develop the training plan.

b) <u>Nutrition</u>

3. Identify each food group and the number of servings of each that is needed for proper health according to age, gender, and activity level.
4. Using the food groups, identify where each of the six nutrients may be found.
5. Using the food groups and recommended number of servings from each group, construct one day of meals divided into breakfast, snack, lunch, snack, and dinner. Then show how the meal of your choice would appear on MyPlate. (Answers will vary.)
6. Select one food from your day of meals and trace it through the digestive tract.
7. In your written discussion, explain
    a. the roles that nutrients play in helping you reach your fitness goal.
    b. how exercise and proper nutrition can help prevent disease and promote positive physical and psychological benefits. (Answers should be in-line with earlier class discussion on these two topics.)
8. Share your findings with the class in a short oral report.

Written Report Assessment Rubric – Appendix A
Oral Report Rubric – Appendix A

Supplementary Lesson Plans

Supplementary lesson plans can be found at the following Web site:
http://www.mde.k12.ms.us/ohs/home - (click on Health In Action)

Lessons plans for teaching Nutrition and Fitness are listed below.

You are What You Eat – H138
What You are is What You Eat – H227
It's So Good, But is it Good for You? – H228
The Importance of Good Health – Vocabulary Builder – H231
You'd Better Know What You're Eating – H236
Eating Cabbage Soup on South Beach with Dr. Atkins While Watching Weight – H241
There are no Shortcuts to Glory – H243
Let's Get Physical – H451
Exercise and Your Health – H576
More Exercise and Your Health – H577
Read My… – H578
Fitness Should be Fun…Not Dangerous – H585

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Nutrition and Fitness. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports, either as regular or extra-credit assignments.

1. *Want Fries With That?: Obesity and the Supersizing of America*
   Author – Scott Ingram
   Publisher – Franklin Watts, 2005
   ISBN – 0531167569

2. *Gregory, the Terrible Eater*
   Author – Mitchell Sharmat
   Publisher – Simon and Schuster Books for Young Readers

3. *Murphy Meets the Treadmill*
   Author – Harriet Ziefert
   Publisher – Houghton Mifflin

Unit 7: Substance Abuse Prevention

Understandings and Goals

Enduring Understandings

In this unit, the student will

- understand the effects of tobacco usage.
- explain the short- and long-term effects alcohol has on individuals, their families, and society.
- identify legal and illegal drugs.
- explain the benefits of medicines and harmful effects of drugs.
- describe the dangers associated with the use of inhalants.
- demonstrate ways to help a friend dependent on drugs or inhalants.

Essential Questions

- Why do people continue to smoke when they know the dangers?
- What are some short- and long-term effects of alcohol on the body?
- How do legal drugs differ from illegal drugs?
- What are some harmful effects of drugs and the benefits of medicines?
- How are some common types of dangerous inhalants used today?
- What techniques can you use to refuse drugs or inhalants?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Examine the health hazards of tobacco. (DOK 3, NHES7, NHES8)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. List major reasons why people either abstain from or use tobacco.	Present the health hazards of tobacco. Have students participate in class discussion on reasons people continue to smoke even though they are aware of the dangers of smoking.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A
b. Describe long-term effects of tobacco use and the dangers of smoking.	Show diagrams of a normal lung and a cancerous lung. Have students write a report on the effects of tobacco usage.	Grade the written reports. Written Report Checklist or Rubric – Appendix A.

Competency 2: Summarize the health hazards of alcohol. (DOK 2, NHES7, NHES8)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify the short- and long-term effects of alcohol on the body.	Present the health hazards of alcohol. Have students participate in class discussion on short- and long-term effects of alcohol on the body. Have students write articles about the health risks and dangers of using alcohol to submit to the school newspaper.	Evaluate articles. Written Report Checklist or Rubric – Appendix A.
b. Explain the impact of alcohol on alcoholics, their families, and society.	Have students participate in a class discussion on the truth of newspaper and magazine advertisements for alcohol products. Have students post examples of alcohol advertisements around the room.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A

Competency 3: Analyze the health hazards of drugs and the benefits of medicines. (DOK 3, NHES7, NHES8)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Differentiate between legal and illegal drugs and explain the benefits of medicines and harmful effects of illegal drugs.	Present the health hazards of drugs. Invite a law enforcement officer to discuss and display legal and illegal drugs and their effects on the body. Have students prepare a short written summary of the presentation.	Grade the written assignment. Written Report Checklist or Rubric – Appendix A Guest Speaker Evaluation Forms – Appendix A

b. Describe the side effects of drugs and how drugs are commonly abused.	Show a video that discusses the side effects of drugs and how drugs are commonly abused. Have students discuss the video.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A
c. Illustrate how drug use, misuse, and abuse cause problems in society.	Invite drug task force and mental health personnel to lead class discussion on various drug topics.	Observation Guest Speaker Evaluation Forms – Appendix A
d. Explain how medicines benefit the life of human beings.	Invite health professional to lead class discussion on the proper use of medicine.	Observation Guest Speaker Evaluation Forms – Appendix A

Competency 4: Illustrate the health hazards of inhalants. (DOK 1, NHES7, NHES8)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Discuss various types of inhalants and identify dangers associated with the use of inhalants.	Have students participate in a KWL (What I Know, What I Want to Know, and What I Learned) activity. Introduce various types of inhalants. Have students research the various types of inhalants and list dangers associated with the use of inhalants. Have students use this information to develop a poster on inhalants and the dangers associated with inhalants.	Observation of students Poster Rubric – Appendix A

Competency 5: Discuss refusal and intervention skills. (DOK 1, NHES4, NHES7)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Develop refusal skills for all forms of drugs and inhalants.	Discuss refusal and intervention skills. Divide the class into small groups and create a public service announcement (PSA) emphasizing ways to refuse all forms of drugs and inhalants.	Evaluate PSA and student participation. Public Service Announcement Rubric – Appendix A
b. Demonstrate ways to intervene and help a drug-dependent friend.	Have students compile a list of agencies and individuals available to assist with the treatments for drug dependency. Role-play ways to help a drug-dependent friend.	Evaluate list. Role-play or Skit Rubric – Appendix A Give Unit Test.
c. Describe how individuals can help reduce the misuse and abuse of drugs.	Invite drug task force and mental health personnel to lead class discussion on various drug topics.	Guest Speaker Evaluation Forms – Appendix A

d. Explain how alcohol and drugs can increase the vulnerability to unwanted sexual advances. *Note: Check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999 – Appendix G)*	Discuss the effect that alcohol and drugs have on the central nervous system that alters a person's ability to think clearly and to reason. Discuss sex, drugs, and alcohol and the impact of the media on each, both positively and negatively. Have students brainstorm ways that they can avoid becoming vulnerable to unwanted sexual advances. Have students research and report on MS laws that relate to unwanted sexual advances.	Presentation Rubric – Appendix A

Performance Task

Performance Task Title: Here's What Drugs Can Do For You!

Objective: Students to will demonstrate the effects of drugs on society, especially on young people.

The teacher will lead the students as they work in cooperative groups of five to six students, each to create cemetery headstones from cardboard boxes. The headstones will be for famous celebrities who have died from drug and alcohol abuse. The students will place the headstones around the school building and the school grounds to illustrate how deadly drugs can be. The students should especially focus on young celebrities who have died to show that it can happen to young people their age.

The evaluation of the task will consist of the teacher observing the students as they work in their groups. The teacher critiques the final project (a celebrity headstone) for artistic creativity as well as emotional impact.

Attachments for Performance Task

Lessons plans for teaching Substance Abuse Prevention are listed below.

Alcohol + Brain = Trouble – H-412
All That Health…Up In Smoke – H-267
Do You Want This In Your Body? – H-269
DUI and You May Die – H-414
How 'Bout a Chaw? – H-353
No Smoking in Our Town – H-271
Under Age…and Under Arrest – H-384
What's Hiding In That Bottle? – H-355

Generation Free (FREE) Grades 9-12 – Lesson 13 – H-1268
Generation Free (FREE) Grades 9-12 – Lesson 12 – H-1287
Generation Free (FREE) Grades 9-12 – Lesson 9 – H-1284
Generation Free (FREE) Grades 9-12 – Lesson 8 – H-1283
Go Ahead and Smoke…I Know You Want To Be Cool! – H-268
Just Because You Smoke, Don't Pollute My Air! – H-270
When Drinking Goes Too Far – H-890
Whiskey, Wine, and Beer…They're All Dangerous – H-385

Health Literacy – Using Books to Teach Health Concepts and Skills

Books listed below can be used while teaching the unit on Substance Abuse Prevention. They may be helpful for introducing unit topics or as sources for student-prepared oral or written reports, either as regular or extra-credit assignments.

1. *The House That Crack Built*
   Author – Clark Taylor
   Publisher – Chronicle Books

2. *In a Perfect World*
   Author – Marie Lindquist
   Publisher – Hazelden
   ISBN – 978-0894867750

3. *Choosing the Best Path*, 4th Edition
   Copyright 2008
   Publisher – Choosing the Best
   ISBN –978-0-9724890-2-7 (Student)
   ISBN – 978-0-9724890-5-8 (Leader/teacher)

4. *Choosing the Best Life*, 4th Edition
   Copyright 2008
   Publishing – Choosing the Best
   ISBN – 0-9724890-1-0 (student)
   ISBN – 978-0-9724890-7-2 (Leader/teacher)

Unit 8: Community And Environmental Health

Understandings and Goals

Enduring Understandings

In this unit, the student will

- identify community health-care agencies.
- identify health-care careers.
- describe the importance of family medical records.
- describe the causes and effects of pollution.
- identify how to keep air and water clean.
- describe ways to conserve natural resources.
- list organizations that protect the environment.
- demonstrate decision-making skills to choose environmentally friendly products.

Essential Questions

- What services do community health-care agencies provide?
- What are five health career opportunities?
- Why is it important to have medical history information available for each member of a family?
- What is pollution?
- How can pollution, natural disasters, over-population, and community violence affect our environmental health?
- What are the biggest sources of air, water, noise, radiation, and ground pollution? What are ways to prevent these types of pollution?
- What is conservation, and why is it important?
- What are ways to conserve heat, electricity, and water?
- What government agencies help protect people from environmental dangers?
- What is the green movement, and why is it important?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Identify community health-care agencies, health careers, and the importance of family medical records. (DOK 1, NHES3)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Describe organizations and services that assist the community and individuals in health promotion.	Identify community health-care agencies and their functions. Have students participate in a class discussion about community health-care agencies, their functions, and services provided.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A
b. List career opportunities in health.	Divide students into groups and assign each group a specific health career to research and present to the class.	Presentation Rubric – Appendix A
c. Explain the importance of family medical records.	Discuss the value of family medical history. Have students complete the generic family medical form from a specific scenario.	Case Study/Scenario Rubric and Medical History Worksheet – Appendix A

Competency 2: Explain how the environment affects people and how people affect the environment. (DOK 2, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Determine how pollution, natural disasters, over-population, and community violence affect our environmental health.	Explain how the environment affects people and how people affect the environment. Have students participate in a class discussion and list the environmental threats found in the local community. Have students bring clippings from newspapers and magazines that relate to environmental concerns and present an oral report to the class.	Observe student participation in class discussion, participation in class activity, and presentation of an oral report to the class. Presentation Rubric – Appendix A
b. Name sources of air, water, noise, radiation, and ground pollution.	Have students create bumper-sticker designs and slogans to inform the public about global pollution of air, water, noise, radiation, and ground. Invite a guest speaker (DEQ – Department of Environmental Quality) to discuss various pollution issues.	Evaluate bumper sticker/slogan. Guest Speaker Evaluation Forms – Appendix A
c. Describe government agencies that protect the environment.	Have students participate in class discussion. Include the names of government agencies that protect the environment and explain the functions of the agencies.	Observe student participation in class discussion. Student Class Discussion Rubric – Appendix A

		Give Unit Test on community and environmental health.
d. Identify the importance of conserving natural resources and the green movement.	Discuss the importance of "going green." Create a flyer with ideas and tips on how to use the "going green" concepts.	Brochure Rubric – Appendix A

Performance Task

Performance Task Title: Pollution – What Can We Do?

Objective: Students will gain knowledge concerning methods to reduce pollution.

The teacher will have students choose one method of reducing air and water pollution, either from the text or from another source. Instruct them to write a plan that will incorporate this method of reducing pollution into their daily lives. The teacher will instruct the students to try the method in their daily lives for 5 days, have them write about the experience, and compare the new experience to their old habits. Encourage students to evaluate the impact of their change on the environment.

Attachments for Performance Task

Textbook – Bronson, M. H., Cleary, M. J., & Hubbard, B. M. (2007). *Teen health.* Woodland Hills, CA: Glencoe/McGraw Hill.
Workbook – Bronson, M. H., Cleary, M. J., & Hubbard, B. M. (2007). *Teen health.* Woodland Hills, CA: Glencoe/McGraw Hill.

Written Report Assessment Rubric – Appendix A

Supplementary Lesson Plans

Supplementary lesson plans can be found at the following Web site:
http://www.mde.k12.ms.us/ohs/home - (click on Health In Action)

Lessons plans for teaching Community and Environmental Health are listed below.

What Public Health Services Are There to Help You? – H568
Just Because You Smoke, Don't Pollute My Air! – H270

Unit 9: Safety And First Aid

Understandings and Goals

Enduring Understandings

In this unit, the student will

- explain how to stay safe at home and school.
- develop safe habits.
- describe how to avoid injuries.
- explain how to stay safe during severe weather.
- identify various weather emergencies and natural disasters.
- explain universal precautions.
- identify the steps to take in an emergency.
- assemble a first aid kit.
- explain first aid treatments for common injuries.
- recognize when to call for medical assistance.
- explain different kinds of life-threatening emergencies.
- identify the symptoms of shock.
- explain how to help someone who is choking.

Essential Questions

- What are the strategies for preventing accidents at home and school?
- What are universal precautions?
- What are four kinds of weather emergencies?
- What is the difference between a weather watch and a weather warning?
- What are the four universal precautions to take when administering first aid?
- How can you help an injured person until professional medical help arrives?
- What are the symptoms of heat exhaustion?
- What are the symptoms of heat stroke?
- What is the universal sign for choking?

- What are the symptoms of shock?

Vocabulary

Vocabulary terms and definitions can be found in Appendix B.

Suggested Learning Experiences

Competency 1: Discuss promotion of safety and prevention of accidents. (DOK 1, NHES1)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Describe behaviors that promote home safety.	Discuss promotion of safety and prevention of accidents. Divide class into small groups to brainstorm ideas for prevention of accidents in the home.	Observe student participation in class discussion and brainstorming session. Student Class Discussion Rubric – Appendix A
b. Describe ways to prepare for natural disasters in the community.	Have students participate in class discussion on potential natural disasters (earthquake, tornadoes, etc.). Divide the class into groups and have each group develop a plan to cope with each disaster listed above.	Observe student participation in class discussion and completion of written assignment. Student Class Discussion Rubric – Appendix A Written Report Rubric or Checklist – Appendix A
c. Identify basic safety rules that help prevent accidents at work and school.	Have students participate in a class discussion, review school safety and emergency rules and procedures, and write safety rules on the board. Discuss Senate Bill 2473 (Nathan's Law) regarding use of a cellular phone while driving (see Senate Bill 2472 in Appendix H).	Observe student participation in class discussion. Student Class Participation Rubric – Appendix A
d. Recognize recreational-related injuries and how to prevent them.	Discuss common recreational-related injuries (sprains, cuts and bruises, fractures, heat exhaustion, heat stroke, hypothermia, etc.). Invite a professional to speak to students about common recreational-related injuries.	Observation of students. Guest Speaker Evaluation Forms – Appendix A
e. Explain ways to promote vehicle safety, including regular use of seat belts for all ages.	Invite a guest speaker (EMT, etc.) to discuss automobile accidents he or she has worked where the victims could have been saved if seat belts had been used. Have students participate in a class discussion on the importance of driver's education.	Guest Speaker Forms – Appendix A Student Class Participation Rubric – Appendix A

f. Recognize dangerous situations, including rape, assault, misuse of social networking, and gang-related activities, and how to avoid them *Note: Check to see if your district chose abstinence-only or abstinence-plus. (Mississippi House Bill 999–Appendix G)*	Have students research dangerous situations. Group students by situation and have them create a fact sheet or poster on measures to avoid dangerous situations. Invite a guest speaker (police officer) to discuss recognizing and avoiding violent situations.	Poster Rubric – Appendix A Guest Speaker Evaluation Forms – Appendix A

Competency 2: Discuss and demonstrate procedures for emergency situations. (DOK 2, NHES3)		
Suggested Performance Indicators	**Suggested Teaching Strategies**	**Suggested Assessment Strategies**
a. Identify, assess, and learn to respond to emergency situations using CPR procedures and an AED. *Note: Senate Bill 2185, signed into law in 2015, mandates that CPR/AED instruction is required for high school graduation.*	Discuss and demonstrate procedures for emergency situations including CPR using American Heart Association Guidelines. http://bethebeat.heart.org/ (click on Lesson Plans) Use resources found on the Office of Healthy Schools website http://www.mde.k12.ms.us/ohs/home to teach CPR/AED as required by law. Invite guest speaker/trainer to supplement classroom instruction. An appropriate guest should have expertise in CPR/AED training such as: nurse, EMT, AHA/Red Cross trainer, or hospital based educator.	Observe student participation in skills and class discussion. Guest Speaker Evaluation Forms – Appendix A
b. Assemble contents of a basic first aid kit.	Discuss and demonstrate how to assemble a first aid kit for the class. Have students assemble a small first aid kit.	Observe student participation.
c. Practice first aid emergency procedures, including reporting accidents and providing first aid for wounds, choking, fractures, heart attacks, seizures, and poisonings.	Have guest speaker demonstrate and discuss first aid emergency procedures to class. Have students demonstrate first aid procedures.	Give Unit Test on safety and first aid.

Performance Task

Performance Task Title: First Aid Training and You!

Objective: Students will be trained in basic first aid using American Red Cross First Aid Training.

The teacher will have a representative from the American Red Cross instruct the class on basic first aid. The representative will also give instruction on the procedures for being a first responder in any emergency situation. (Note: This may be taught by the instructor if he or she is Red Cross Certified.) Students will demonstrate their skills by role-playing an emergency situation.

Attachments for Performance Task

Role-Play or Skit Rubric – Appendix A

Supplementary Lesson Plans

Supplementary lesson plans can be found at the following Web site:

Student Competency Profile

Student's Name: _____

This record is intended to serve as a method of noting student achievement of the competencies in each unit. It can be duplicated for each student, and it can serve as a cumulative record of competencies achieved in the course.

In the blank before each competency, place the date on which the student mastered the competency.

Unit 1: Personal and Consumer Health		
	1.	Describe ways to achieve and maintain a healthy lifestyle. (DOK 1)
	2.	Demonstrate the ability to use goal setting and decision making skills to enhance health. (DOK 3)
	3.	Recognize the benefits of being a wise consumer. (DOK 2)
	4.	Analyze the influence of culture, media, technology, and other factors on health. (DOK3)
Unit 2: Mental Health		
	1.	Demonstrate the ability to practice health-enhancing behaviors that contribute to positive mental health. (DOK2)
	2.	Describe how stress influences mental health. (DOK1)
	3.	Define functional and organic mental disorders and state controls for each. (DOK1)
Unit 3: Family/Social Health		
	1.	Describe how the skills of communication, cooperation, and advocacy are essential for healthy relationships. (DOK1)
	2.	Describe why the family is the basic social unit of society. (DOK1)
Unit 4: Human Growth and Development		
	1.	Summarize how genetic traits are passed on from one generation to another. (DOK2)
	2.	Examine health practices to be considered before, during, and after pregnancy. (DOK2)
	3.	Identify physical, mental, and emotional changes that occur from childhood through adolescence. (DOK1)
	4.	Examine the aging process from adulthood through death. (DOK2)
Unit 5: Disease Prevention and Control		
	1.	Recognize the causes, transfer, and control of common communicable diseases. (DOK1)
	2.	Recognize the ways to prevent HIV infection and STDs. (DOK1)
	3.	State causes, signs, and control of noninfectious diseases. (DOK1)
Unit 6: Nutrition and Fitness		
	1.	Summarize how responsible food choices lead to nutritional health. (DOK2)
	2.	Discover the importance of fitness. (DOK2)
Unit 7: Substance Abuse Prevention		
	1.	Examine the health hazards of tobacco. (DOK3)

	2.	Summarize the health hazards of alcohol. (DOK2)
	3.	Analyze the health hazards of drugs and benefits of medicines. (DOK3)
	4.	Illustrate the health hazards of inhalants. (DOK1)
	5.	Discuss refusal and intervention skills. (DOK2)
Unit 8: Community and Environmental Health		
	1.	Identify community health-care agencies, health careers, and the importance of family medical records. (DOK1)
	2.	Explain how environment affects people and how people affect the environment. (DOK2)
Unit 9: Safety and First Aid		
	1.	Discuss promotion of safety and prevention of accidents. (DOK1)
	2.	Discuss and demonstrate procedures for emergency situations. (DOK2)

Appendix A: Activities and Rubrics

Answer Key for Fitness and Nutrition Performance Task

Performance Task Title: Personal Exercise Plan for a 5K Run/Walk Race (Page 46)

Objective: Students to develop a written personal exercise plan for participation in a 5K run/walk race. Their plan will include both fitness and nutrition components and will be shared with the class in an oral report.

Answers may vary.

a) <u>Fitness</u>

1. Perform a pre-assessment to determine your current fitness level and include your findings in this report.

    a. What three assessments should be performed to determine your fitness level?
        1. Strength
        2. Flexibility
        3. Endurance
    b. What activities can be used to measure each?
        1. **Strength – curl ups, squats, leg press, push ups**
        2. Flexibility – sit & reach
        3. Endurance – step test, 1-mile timed run/walk

2. From the information gathered in the pre-assessment use the F.I.T.T. Principal to develop the training plan.

    Frequency
        Strength – 2-3 days a week
        Flexibility – daily
        Endurance – 3-5 days a week
    Intensity
        Strength – moderate
        Flexibility – moderate
        Endurance – depending on cardio endurance Low to Moderate
    Time
        Strength – 2-3 sets/8-12 reps each set
        Flexibility – 4 reps/15-60 seconds hold on each
        Endurance – 3-5 days/week, 20-60 minutes each
    Type
        Strength – Free and/or machine weights
        Flexibility – Static stretch: yoga, etc.
        Endurance – 80 %

b) <u>Nutrition</u>

3. Identify each food group and the number of servings of each that is needed for proper health.
    1. **Grains – 6-8oz/equivalent**
    2. **Vegetable- 2 ½-3 cups**
    3. **Fruit – 1 ½-2 cups**
    4. **Meat & Beans – 5-6oz/equivalent**
    5. **Milk – 3 cups**
    6. **Oil – 5-6 teaspoons**

4. Using the food groups, identify where each of the 6 nutrients may be found.
    1. **Carbohydrates = grains & vegetables**
    2. **Fiber = whole grains, fruits & vegetables**
    3. **Proteins = meat, beans, nuts, milk & whole grains**
    4. **Lipid= animal fats & tropical oils**
    5. **Vitamins = all food groups**
    6. **Minerals = all food groups**

5. Using the foods and number of servings from each of the food groups construct one day of meals broken down into breakfast, snack, lunch, snack, and dinner. Then show how the portions and foods would appear on MyPlate.

    Answers will vary.

6. Select one food from your day of meals and trace it through the digestive tract.

    The first stage in the digestive process begins with ingestion, by the mouth. Ingestion involves the teeth, salivary glands, and tongue. The teeth break down the food into small pieces. The salivary glands produce the first digestive juice that break down starches and sugars in food into smaller particles. Then the tongue forms chewed food into a size and shape that can be swallowed. Food then enters the esophagus by swallowing. As food moves down the esophagus it empties into the stomach. Once in the stomach food is mixed with gastric juices and converted into chyme (food), the chyme is moved into the small intestine. Once in the small intestine, the juices of two other digestive organs mix with the food to continue the digestive process. First is the pancreas, it produces enzymes that break down carbohydrates, fats, and proteins in foods. Second is the liver, it produces bile that breaks down and assist in the absorption of fats. The unabsorbed material, in the form of liquid and fiber, moves into the colon or large intestine. The main function of the large intestine is to absorb water, vitamins, and salts, and to eliminate wastes.

7. In a written discussion, explain the following:

a. The roles that nutrients play in helping you reach your fitness goal.
b. How exercise and proper nutrition can help prevent disease and promote positive physical and psychological benefits.

Answers should be in-line with earlier class discussion on these two topics.

8. Share your findings with the class in a short oral report.

Brochure/Bulletin Board/Visual Display Assessment Rubric

Category	Possible Points	Points Earned
Title: Eye-catching, states a purpose, and conveys a message	10	_____
Appropriate Use of Space: Layout and design is creative and easily read	10	_____
Accuracy of Information: Major points are clearly defined	20	_____
Correct use of grammar and spelling	10	_____
Artistic Appeal: Border applied	10	_____
Attractive color scheme	20	_____
Neatly presented artwork, drawings, cut-outs, and lettering	20	_____
	100	_____

Case Study/Scenario Assessment Rubric

	Excellent	Accomplished	Needs Improvement	Unsatisfactory	Score
	4 Points	**3 Points**	**2 Points**	**1 Point**	
Comprehension	Shows complete understanding of the issues and grasps implications beyond the immediate issue	Asks for more details to clarify understanding of the issue	Shows partial understanding of the issue but does not ask for clarification	Resists attempts to get clarification	
Strategizing	Develops realistic strategies that would provide a satisfactory conclusion	Chooses appropriate strategies that may satisfy	Shows evidence of strategy that may or may not satisfy	Needs assistance to choose a strategy	
Innovation	Devises more than one resolution to the problem	Offers a solution	Offers a solution with a limited point of view	Shows some understanding of the problem	
Communications	Convincingly communicates resolution	Explains solution so others can understand	Conveys an opinion	Unsure of how to explain	

EXIT TICKETS

Description: A short, written assessment strategy given at the end of class that allows students to combine learned information, skills, and processes. An Exit Ticket provides immediate feedback to the teacher.

Purpose: To enable the teacher to quickly assess his/her own teaching and to engage students in summarizing their learning.

Procedure:

1. Students will need to get out a sheet of paper for writing.
2. The teacher will ask students one or two assessment question(s).
3. Students will have five to ten minutes at end of class to write their answers.
4. Students will give teacher Exit Tickets as they exit the classroom.
5. The teacher will analyze the tickets.

Response Ideas:

Two things I learned in class today are _____.

One question I still have is _____.

Briefly explain _____. Give an example of _____.

3 words I think are important to this topic:

1 connection I made: _____

1 thing I did not like: _____

Guest Speaker Evaluation Form

Student Name: _____
Date: _____

Name of Speaker: _____

1. List 5 main ideas expressed in the presentation:

1. _____
2. _____
3. _____
4. _____
5. _____

2. Write a brief summary relating the topics of the presentation to your life.

_____
_____
_____
_____
_____
_____
_____
_____
_____
_____
_____

Guest Speaker Evaluation

Student name: _____
Guest Speaker's Name: _____
Date: _____

1. Please evaluate the following statements with a check mark in the appropriate space:
Key: SA – Strongly Agree, A – Agree, N – Neutral, D – Disagree, SD – Strongly Disagree

	SA	A	N	D	SD	
The presentation stimulated my interest.	**( )**	**( )**	**( )**	**( )**	**( )**	
The content was clearly presented.		**( )**	**( )**	**( )**	**( )**	**( )**
The content was challenging.		**( )**	**( )**	**( )**	**( )**	**( )**
The handouts and materials were helpful.		**( )**	**( )**	**( )**	**( )**	

2. Please rate the guest speaker:
____ Extraordinary ____Excellent ____ Good ____ Fair ____Poor

Additional Comments:

3. What was your favorite element of the presentation?

4. What career or lifestyle knowledge did you take from the presentation?

5. How would you improve or change the presentation?

6. What do you still need or want to know?

Group Participation Assessment Rubric

	Beginning	Developing	Accomplished	Exemplary	Score
	1 point	2 points	3 points	4 points	
Group Discussions	Rarely contributed to discussions of the group	Contributed good effort to discussions of the group	Contributed great effort to discussions of the group	Contributed exceptional effort to discussions of the group	
On-task Behavior	Exhibited on-task behavior inconsistently	Exhibited on-task behavior some of the time	Exhibited on-task behavior most of the time	Exhibited on-task behavior consistently	
Helping Others	Did not assist other group members	Seldom assisted other group members	Occasionally assisted other group members	Consistently assisted other group members	
Listening	Ignored ideas of group members	Seldom listened to ideas of group members	Occasionally listened to ideas of group members	Always listened to ideas of group members	

Group Work Assessment Rubric

	Highly Successful	Meeting Success	Experiencing Difficulty	Score
	3 points	2 points	1 point	
Sharing	Shared ideas with others	Occasionally shared ideas with others	Seldom shared ideas with others	
Listening	Always listened to peers	Occasionally listened to peers	Ignored ideas of peers	
Respecting	Interacted with, encouraged, and supported ideas of others	Occasionally encouraged and supported others	Seldom encouraged and supported others	
Participating	Shared task equally with group members	Did most of the task	Did very little of the task	

Medical History Scenario

After months of training, Bridget Ann Clark finally made the soccer team at her local high school in Sparks, MS. Her coach informed all of the new players that they needed to have a physical. Bridget was nervous because she had always seen the same doctor and did not know what to expect. Bridget's coach assured her that all she would need was her basic health information and a good general knowledge of her family's medical history. Bridget still felt nervous but knew she could answer questions about herself. She was born May 1, 1997. She lived with her parents, Doris and Joe Clark, at 507 South Street, Sparks, MS, 57058. Her home phone number was 605-489-1111, her cell phone number was 605-713-2191, and her e-mail was bclark@gmail.com. "Let's see, what else?" she thought to herself. "Oh yeah, medical history." Bridget could remember all of the shots that she had gotten when she was five: Tetanus, Hepatitis A/B, Influenza, Pneumococcal, and Polio. Her doctor has prescribed a Ventolin inhaler for her asthma. She knew she was allergic to Sulfa because she would get a bad rash every time she took it. Bridget did not take any type of drugs that were harmful to her since she was an athlete. She had oral surgery in 2010 to remove four wisdom teeth. Bridget's mother began having asthma attacks at age six, and her grandmother had breast cancer at age forty-five. Her dad had been diagnosed with high cholesterol at age fifty.

Mental Health Project Rubric

Poster Presentation Criteria

Content	Design	Efficiency
The poster/brochure will include the types of information: • **Title** • **Symptoms** • **Causes** • **Treatments** • **Treatment centers, local services, and resources** • **References of all sources where the information was found**	**The poster/brochure will include:** • **A team product rather than individual work** • **Easy-to-follow content objectives** • **Creative use of visual components, to include coloring, spacing, lettering**	**The poster will include traits that make the subject easy to understand:** • **Content is easy to read and interpret.** • **The information is presented in clear writing.** • **The content of the poster/brochure is informative.**

Poster Assessment Rubric

	Exemplary	Accomplished	Developing	Beginning	Score
	4 Points	3 Points	2 Points	1 Point	
Required Content	The poster includes all required content elements as well as additional information.	All required content elements are included on the poster.	All but one of the required content elements are included on the poster.	Several required content elements were missing.	
Labels	All items of importance on the poster are clearly labeled and easy to read.	Almost all items of importance on the poster are clearly labeled and easy to read.	Many items of importance on the poster are clearly labeled and easy to read.	Labels are too small to read, or no important items were labeled.	
Attractiveness	The poster is exceptionally attractive in terms of design, layout, and neatness.	The poster is attractive in terms of design, layout, and neatness.	The poster is acceptably attractive though it may be a bit messy.	The poster is distractingly messy or very poorly designed.	
Grammar	There are no grammatical or mechanical mistakes on the poster.	There are 1 to 2 grammatical or mechanical mistakes on the poster.	There are 3 to 4 grammatical or mechanical mistakes on the poster.	There are more than 4 grammatical or mechanical mistakes on the poster.	

Presentation Assessment Rubric

	Exemplary	Accomplished	Developing	Beginning	Score
	4 points	3 points	2 points	1 point	
Content	Clear, appropriate, and correct	Mostly clear, appropriate, and correct	Somewhat confusing, incorrect, or flawed	Confusing, incorrect, or flawed	
Clarity	Logical, interesting sequence	Logical sequence	Unclear sequence	No sequence	
Presentation	Clear voice and precise pronunciation	Clear voice and mostly correct pronunciation	Low voice and incorrect pronunciation	Mumbling and incorrect pronunciation	
Visual Aids	Attractive, accurate, and grammatically correct	Adequate, mostly accurate, and few grammatical errors	Poorly planned, somewhat accurate, and some grammatical errors	Weak, inaccurate, and many grammatical errors	
Length	Appropriate length	Slightly too long or short	Moderately too long or short	Extremely too long or short	
Eye Contact	Maintains eye contact, seldom looking at notes	Maintains eye contact most of time but frequently returns to notes	Occasionally uses eye contact but reads most of information	No eye contact because reading information

	Exemplary	Accomplished	Developing	Beginning	Score
	4 points	**3 points**	**2 points**	**1 point**	
Delivery	Interesting, well-rehearsed with smooth delivery that holds audience attention.	Relatively interesting, rehearsed with a fairly smooth delivery that usually holds audience attention.	Delivery not smooth, but able to hold audience attention most of the time.	Delivery not smooth and audience attention lost.	
Originality	Product shows a large amount of original thought. Ideas are creative and inventive.	Product shows some original thought. Work shows new ideas and insights.	Uses other people's ideas (giving them credit), but there is little evidence of original thinking.	Uses other people's ideas, but does not give them credit.	
Length	30-45 seconds long; pre-produced	30 seconds; performed in class	20-29 seconds; performed in class	15-19 seconds; performed in class	
Use of Class Time	Used time well during each class period. Focused on getting the project done. Never distracted others.	Used time well during each class period. Usually focused on getting the project done and never distracted others.	Used some of the time well during each class period. There was some focus on getting the project done but occasionally distracted others.	Did not use class time to focus on the project OR often distracted others.	

Role-play or Skit Assessment Rubric

	Excellent 4 Points	Good 3 Points	Average 2 Points	Needs Improvement 1 Point	Total
Accuracy	All information accurate	Almost all information accurate	Most information accurate	Very little information accurate	
Role	Excellent character development; student contributed in a significant manner	Good character development; student contributed in a cooperative manner	Fair character development; student may have contributed	Little or no character development; student did not contribute much at all	
Knowledge Gained	Can clearly explain several ways in which his/her character "saw" things differently than other characters and can explain why	Can clearly explain several ways in which his/her character "saw" things differently than other characters	Can clearly explain one way in which his/her character "saw" things differently than other characters	Cannot explain any way in which his/her character "saw" things differently than other characters	
Props	Used several props and showed considerable creativity	Used 1 or 2 appropriate props that made the presentation better	Used 1 or 2 props that made the presentation better	Used no props to make the presentation better	
Required Elements	Included more information than required	Included all required information	Included most required information	Included less information than required	

Stress Chart

Stress can be both negative and positive. Negative stress is called distress and positive stress is called eustress. It can take time to adapt to both positive and negative stress.

Sources of conflict that may cause stress are stated below. Rate each one, 1 being most stressful for you, and 5 being least stressful.

	Most				Least
School (grades)	1	2	3	4	5
Money	1	2	3	4	5
Social matters	1	2	3	4	5
Curfew	1	2	3	4	5
Chores	1	2	3	4	5
Respecting parents	1	2	3	4	5

Which source of conflict above causes you the most stress? Explain.

Life Events:

If any of the following has happened in your life, put a check in the box.

Changes in eating habits	
Major change in sleeping habits	
Change in residence	
Major change in living condition	
Death of a loved one	
Learning you were adopted	
Personal Injury or Illness	
Minor Violations with the law	
Going through a parents' divorce	
Having a newborn sister or brother	
Having a parent lose his job	
Being accepted to college	

Would you consider any of the life changes listed above as positive? Explain.

Student Class Participation Rubric

	Beginning	Developing	Accomplished	Exemplary	Score

Discussions	Rarely contributed to discussions	Contributed good effort to discussions	Contributed great effort to discussions	Contributed exceptional effort to discussions	
Listening	Ignored ideas of other class members	Seldom listened to ideas of other class members	Occasionally listened to ideas of other class members	Always listened to ideas of other class members	
On-task Behavior	Exhibited on-task behavior inconsistently	Exhibited on-task behavior some of the time	Exhibited on-task behavior most of the time	Exhibited on-task behavior consistently	

Student Critique of Project

1. **By observing each group's poster/brochure, which one did you find most interesting? Explain.**

2. **By observing each group's poster/brochure, which did you find least interesting? Explain.**

3. **Which poster/brochure was your favorite and why?**

4. **How can the information presented by each group about the different mental disorders help you in the future?**

5. **What did you find most interesting or surprising about the mental disorder you researched?**

Written Report Assessment Rubric

	Exemplary	Accomplished	Developing	Beginning	Score
	4 points	3 points	2 points	1 point	
Content	Clear thesis and focus that remain apparent	Thesis and focus that remain apparent	Addresses subject matter with minimal support	Does not focus on topic	
Grammar	Correct and effective use of grammar and mechanics	Occasional errors in use of grammar and mechanics	Problems in use of grammar and mechanics	Repeated errors in use of grammar and mechanics	
Organization	Ideas flow smoothly and logically with clarity and coherence	Logical order and appropriate sequencing of ideas with adequate transition	Some evidence of an organizational plan or strategy	Lacks organization	

Written Report Checklist

_____/16 Preparation
_____/28 Organization
_____/24 Thoroughness
_____/19 Extra Materials
_____/13 Final Report

Preparation:

1. **_____/2 Information written (neatly)**
2. **_____/2 Sources used listed**
3. **_____/5 Worked every day (did not waste time)**
4. **_____/5 Has all materials ready for use**
5. **_____/2 Cooperative**

Organization

1. **_____/7 Report in a logical order**
2. **_____/7 Interesting manner**
3. **_____/7 Understanding of topic**
4. **_____/7 Spelling and sentence structure (do not copy from books)**

Thoroughness

1. **_____/5 Main points given**
2. **_____/5 Details to explain given**
3. **_____/5 Information presented clearly**
4. **_____/4 More than one source used**
5. **_____/5 Extra materials are appropriate**

Extra Materials

1. **_____/2 Neatness**
2. **_____/7 Creativity**
3. **_____/2 Dramatic value**
4. **_____/3 Usefulness**
5. **_____/5 Correctness**

Final Report

1. **_____/3 Written clearly**
2. **_____/2 Organized**
3. **_____/2 Sources documented correctly**
4. **_____/2 Spelling**
5. **_____/2 Grammar**
6. **_____/2 Neatness**

Appendix B: Glossary

Unit 1 – Personal and Consumer Health

Consumer: anyone who uses products and services.

Consumer skills: techniques that enable you to make wise and informed purchases.

Health: a combination of physical, mental/emotional, and social well-being.

Health care system: the medical services available to a nation's people and the manner in which these services are paid for.

Health fraud: intentional misrepresentation of health care practices by a provider.

Health insurance: a plan in which private companies or government programs pay part of a person's medical costs.

Hygiene: habits that keep the body clean.

Preventive Care: the steps taken to keep disease or injury from happening or getting worse.

Reliable: trustworthy or dependable.

Valid: a legitimate source.

Wellness: a state of well-being or total health.

Unit 2 – Mental Health

Anorexia nervosa: eating disorder in which a person doesn't eat enough food to maintain a healthy body weight.

Binge eating disorder: abnormal behavior related to food in which a person suffers from the uncontrollable urge to eat large amounts of food.

Bulimia: eating disorder in which a person experiences uncontrollable eating binges, and then follows them by purging, or removing, the food from their bodies.

Clinical psychologist: a professional trained to recognize and treat behavior that is not normal.

Depression: feelings of sadness and/or hopelessness, which may last for months.

Eating disorder: mental disorder that reveals itself through abnormal behaviors related to food.

Mental disorder: illness that affects the mind and reduces a person's ability to function, to adjust to change, or to get along with others.

Psychiatric social worker: a professional trained to help people with mental disorders and their families to accept and adjust to the illness.

Psychiatrist: physician who can diagnose and treat mental disorders.

Unit 3 – Social and Family Health

Abstinence: the conscious decision to avoid harmful behaviors, including sexual activity before marriage and the use of tobacco, alcohol, and other drugs.

Active listening: really paying attention to what someone is saying and feeling.

Advocate: someone who speaks out for another person or cause.

Assertive: standing up for your own rights, in firm but positive ways.

Body language: nonverbal communication through gestures, facial expressions, and behaviors.

Child abuse: physical harm, including sexual abuse, or emotional harm to a child.

Clique: a small, narrow circle of friends usually with similar backgrounds or tastes that excludes people they view as outsiders.

Communication: a process through which you send messages to and receive messages from others.

Constructive criticism: non-hostile comments that point out problems and have the potential to help change a person.

Cooperation: working together for the good of all.

Crisis center: a facility equipped to handle emergencies and make referrals for persons who need help.

Custody: a legal decision about who has the right to make decisions that affects the children and who has the physical responsibility of caring for them.

Domestic violence: any acts of violence involving family members.

Emotional abuse: a pattern of behavior that attacks a child's emotional development and sense of self-worth.

Family counseling: therapy to restore healthy relationships in a family.

Family values: values, especially of a traditional or conservative kind, which are held to promote the sound functioning of the family and strengthen the fabric of society.

Friendship: a significant relationship between two people based on caring, consideration, and trust.

"I" message: a statement in which a person tells you how he or she feels using the pronoun "I".

Neglect: a failure to provide a child's physical or emotional needs.

Peer pressure- the control and influence people your age may have over you.

Personality: a complex set of characteristics that makes you unique and sets you apart from everyone else.

Platonic friendship: a relationship with a member of the opposite gender in which there is affection, but no sexual activity.

Refusal skills: techniques that can help you refuse when you are urged to take part in unsafe or unhealthful behaviors.

Relationship: a bond or connection between people.

Role: a part that you play in a relationship.

Spousal abuse: domestic abuse directed at a spouse.

Stereotype: an exaggerated and oversimplified belief about an entire group of people.

Values: beliefs and standards of conduct that you find important.

Unit 4 – Human Growth and Development

Abstinence: a deliberate decision to avoid harmful behaviors, including sexual activity before marriage and the use of tobacco, alcohol and other drugs.

Adolescence: the period from childhood to adulthood.

Chromosomes: threadlike structures found within the nucleus of a cell that carry the codes for inherited traits.

Cognition: the ability to reason and think our abstract solutions.

Developmental tasks: events that need to happen in order for person to continue growing toward becoming a healthy, mature adult.

DNA: the chemical unit that makes up chromosomes.

Emotional maturity: the state at which the mental and emotional capabilities of an individual are fully developed.

Fertilization: the union of a male sperm cell and a female egg cell; also known as conception.

Genes: the basic units of heredity.

Genetic disorders: disorders caused partly or completely by a defect in genes.

Heredity: the passing of traits from parents to their children.

Hormones: chemical substances that are produced in glands and help regulate many body's functions.

Physical maturity: the state at which the physical body and all its organs are fully developed.

Puberty: the time when a person begins to develop certain traits of adults of his or her own gender.

Unit 5 – Disease Prevention and Control

Antibodies: specific proteins that attach to antigens, keeping them from harming the body.
Antigens: substances that send the immune systems into action.

Arthritis: a disease of the joints marked by painful swelling and stiffness.

Bacteria: simple one-celled organisms.

Communicable disease: a disease that can be spread to a person from another person, an animal, or an object.

Contagious period: the length of time that a particular disease can be spread from person to person.

Disease: any condition that interferes with the normal or proper functioning of the body or mind.

Fungi: organisms that are more complex than bacteria, but cannot make their own food.

Germs: organisms that are so small they can only be seen through a microscope.

Hepatitis: disease characterized by an inflammation of the liver and yellowing of the skin and the white of the eyes.

Hygiene: cleanliness.

Immune system: a combination of body defenses made up of the cells, issues, and organs that fight pathogens in the body.

Immunity: the ability to resist the pathogens that cause a particular disease.

Infection: a condition that happens when pathogens enter the body, multiply, and cause harm.

Inflammation: the body's response to injury or disease, resulting in a condition of swelling, pain, heat, and redness.

Influenza (flu): a communicable disease characterized by fever, chills, fatigue, headache, muscle aches, and respiratory symptoms.

Juvenile rheumatoid arthritis (JRA): the most common form of arthritis in young people.

Lymphatic system: a secondary circulatory system that helps the body fight pathogens and maintains its fluid of balance.

Lymphocytes: special white blood cells in the blood and lymphatic system.

Mononucleosis: a viral disease characterized by a severe sire throat and swelling of the lymph glands in the neck and around the throat area.

Osteoarthritis: a chronic disease that is common in older adults and results from a breakdown in cartilage in the joints.

Pathogens: germs that cause diseases.

Pneumonia: a serious inflammation of the lungs.

Protozoa: one-celled organisms that are more complex than bacteria.

Rheumatoid arthritis: a chronic disease characterized by pain, inflammation, swelling, and stiffness of the joints.

Strep Throat: a sore throat caused by streptococcal bacteria.

Tuberculosis: a bacterial disease that usually affects the lungs.

Vaccine: a preparation of dead or weakened pathogens that is introduced into the body to cause an immune response.

Viruses: the smallest and simplest pathogens.

Unit 6 – Nutrition and Fitness

Nutrition

Calorie (kilocalories): units of heat that measure the energy used by the body and the energy that foods supply to the body.

Carbohydrates: the starches and sugars present in foods.

Complete proteins: a protein that contains an adequate amount of all nine essential amino acids.

Complex carbohydrate: starches found in certain types of foods.

Cross contamination: the spreading of bacteria or other pathogens from one food to another.

Dietary Guidelines for Americans: a set of recommendations for healthful eating and active living.

Fiber: an indigestible complex carbohydrate.

Food additives: substances intentionally added to food to produce a desired effect.

Food allergy: a condition in which the body's immune system reacts to substances in some foods.

Food intolerance: a negative reaction to a food or part of food caused by a metabolic problem, such as the inability to digest parts of food caused by a metabolic problem, such as the inability to digest parts of certain foods or food components.

Foodborne illness: food poisoning.

Incomplete proteins: a protein that lacks one or more of the essential amino acids.

Lipid: a fatty substance that does not dissolve in water.

Minerals: substances that the body cannot manufacture but that are needed for forming healthy bones and teeth and for regulating many vital body processes.

MyPlate: an illustrated dietary tool broken into the 5 food groups and related portion sizes.

Nutrients: substances in food that your body needs to grow, to repair itself, and to supply your energy

Nutrition: the process by which the body takes in and uses food.

Proteins: nutrients that help build and maintain body cells and tissues.

Pasteurization: the process of treating a substance with heat to destroy or slow the growth of pathogens.

Simple carbohydrate: sugars, such as fructose and lactose.

Vitamins: compounds that help regulate many vital body processes, including the digestion, absorption, and metabolism of other nutrients.

Fitness

Aerobic exercise: an activity that uses large muscle groups, is rhythmic in nature, and can be maintained continuously for at least 10 minutes three times a day or for 20 to 30 minutes at one time.

Anaerobic exercise: intense short bursts of activity in which the muscles work so hard that they produce energy without using oxygen.

Body composition: the ratio of body fat to lean body tissue, including muscle, bone, water, and connective tissue such as ligaments, cartilage, and tendons.

Cardiorespiratory endurance: the ability of the heart, lungs, and blood vessels to utilize and send fuel and oxygen to the body's tissues during long periods of moderate-to-vigorous activity.

Cool down: the activity that prepares the muscles to return to a resting state.

Exercise: is purposeful activity that is planned, structured, and repetitive and that improves or maintains personal fitness.

F.I.T.T. principle: frequency, intensity, time/duration, and type of activity.

Flexibility: the ability to move a body part through a full range of motion.

Metabolism: the process by which your body gets energy from food.

Muscle endurance: the ability of the muscles to perform physical tasks over a period of time without becoming fatigued.

Muscular strength: the amount of force a muscle can exert.

Overload: working the body harder than it is normally worked.

Physical activity: any form of movement that causes your body to use energy.

Physical fitness: the ability to carry out daily tasks easily and have enough reserve energy to respond to unexpected demands.

Progression: the gradual increase in overload necessary to achieve higher levels of fitness.

Resting heart rate: the number of times your heart beats in one minute when you are not active.

Specificity: particular exercise and activities that improve particular areas of health-related fitness.
Warm up: an activity that prepares the muscles for work.

Unit 7 – Substance Abuse Prevention

Addiction: a chronic relapsing condition characterized by compulsive drug-seeking and abuse and by long-lasting chemical changes in the brain.

Alcohol abuse: use of alcoholic beverage to excess, either on individual occasions or as a regular practice.

Alcoholism: physical dependence on alcohol to the extent that stopping alcohol use will bring on withdrawal symptoms.

Heroin: semisynthetic drug derived from morphine.

Inhalant: any breathable chemical vapor.

Marijuana: a very common street and recreational drug that comes from the marijuana plant.

Nicotine: an alkaloid (a nitrogen-containing chemical) made by the tobacco plant.

NIDA: National Institute of Drug Abuse.

Prescription: a physician's order for the preparation and administration of a drug or device for a patient.

Substance abuse: the excessive use of a substance, especially alcohol or a drug.

Tobacco: a South American herb, formally known as Nicotiana tabacum, whose leaves contain 2-8% nicotine and serve as the source of smoking and smokeless tobacco.

Withdrawal symptoms: abnormal physical or psychological features that follow the abrupt discontinuation of a drug that has the capability of producing physical dependence.

Unit 8 – Community and Environmental Health

Acid rain: rain that is more acidic than normal rain.

Air: the mixture of invisible odorless, tasteless nitrogen and oxygen gases that surrounds the earth.

Biodegradable: easily broken down in the environment.

Career: a profession for which one trains and which is undertaken as a permanent calling.

Community: people with common interest living in a particular area.
Conservation: the saving of resources.

Environmental Protection Agency (EPA): an agency of the U.S. government that is dedicated to protecting the environment.

Fossil fuels: the oil, coal, and natural gas that are used to provide energy.

Groundwater: water that collects under the earth's surface.

Hazardous wastes: human-made liquid, solid, sludge, or radioactive wastes that may endanger human health or the environment.

Landfill: huge, specially designed pits where waste materials are dumped and buried.

Natural disaster: an event caused by nature those results in widespread damage.

Noise: loud, confused, or senseless shouting or outcry.

Nonrenewable resources: substances that cannot be replaced once they are used.

Occupational Safety and Health Administration (OSHA): a branch of the U.S. Department of Labor that protects American workers.

Ozone: a gas made of three oxygen atoms.

Pollution: dirty or harmful substances in the environment.

Radiation: energy radiated in the form of waves or particles.

Sewage: human waste, garbage, detergents, and other household waste washed down drains and toilets.

Smog: a yellow/brown haze that forms when sunlight reacts with air pollution.

Water: the liquid that descends from the clouds as rain, forms streams, lakes, and seas.

Unit 9 – Safety and First Aid

Accident: any event that was not intended to happen.

Accident chain: a series of events that include a situation, an unsafe habit, and an unsafe action.

Accidental injuries: injuries that result from an accident.

First aid: the immediate, temporary care given to an injured or ill person until he or she can get professional help.

Heat exhaustion: a life threatening condition characterized by faintness, nausea, rapid heartbeat, and hot, red, dry, or sweaty skin.

Shock: a life threatening condition in which the circulatory system fails to deliver enough blood to vital tissues and organs.

Universal precautions: actions taken to prevent the spread of disease by treating all blood as if it were contaminated.

NHES5					X				
NHES6	X					X			
NHES7							X		
NHES8							X		

NHES 1: Students will comprehend concepts related to health promotion and disease prevention to Enhance health.

1.12.1 Predict how healthy behaviors can affect health status.
1.12.2 Describe the interrelationships of emotional, intellectual, physical, and social health.
1.12.3 Analyze how environment and personal health are interrelated.
1.12.4 Analyze how genetics and family history can impact personal health.
1.12.5 Propose ways to reduce or prevent injuries and health problems.
1.12.6 Analyze the relationship between access to health care and health status.
1.12.7 Compare and contrast the benefits of and barriers to practicing a variety of healthy behaviors.
1.12.8 Analyze personal susceptibility to injury, illness, or death if engaging in unhealthy behaviors.
1.12.9 Analyze the potential severity of injury or illness if engaging in unhealthy behaviors.

NHES 2: Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.

2.12.1 Analyze how the family influences the health of individuals.
2.12.2 Analyze how the culture supports and challenges health beliefs, practices, and behaviors.
2.12.3 Analyze how peers influence healthy and unhealthy behaviors.
2.12.4 Evaluate how the school and community can affect personal health practice and behaviors.
2.12.5 Evaluate the effect of media on personal and family health.
2.12.6 Evaluate the impact of technology on personal, family, and community health.
2.12.7 Analyze how the perceptions of norms influence healthy and unhealthy behaviors.
2.12.8 Analyze the influence of personal values and beliefs on individual health practices and behaviors.
2.12.9 Analyze how some health risk behaviors can influence the likelihood of engaging in unhealthy behaviors.
2.12.10 Analyze how public health policies and government regulations can influence health promotion and disease prevention.

NHES 3: Students will demonstrate the ability to access valid information, products, and services to enhance health.

3.12.1 Evaluate the validity of health information, products, and services.
3.12.2 Use resources from home, school, and community that provide valid health information.
3.12.3 Determine the accessibility of products and services that enhance health.
3.12.4 Determine when professional health services may be required.
3.12.5 Access valid and reliable health products and services.

NHES 4: Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.

4.12.1 Use skills for communicating effectively with family, peers, and others to enhance health.
4.12.2 Demonstrate refusal, negotiation, and collaboration skills to enhance health and avoid or reduce health risks.
4.12.3 Demonstrate strategies to prevent, manage, or resolve interpersonal conflicts without harming self or others.
4.12.4 Demonstrate how to ask for and offer assistance to enhance the health of self and others.

NHES 5: Students will demonstrate the ability to use decision-making skills to enhance health.
5.12.1 Examine barriers that can hinder healthy decision making.
5.12.2 Determine the value of applying a thoughtful decision-making process in health-related situations.
5.12.3 Justify when individual or collaborative decision making is appropriate.
5.12.4 Generate alternatives to health-related issues or problems.
5.12.5 Predict the potential short-term and long-term impact of each alternative on self and others.
5.12.6 Defend the healthy choice when making decisions.
5.12.7 Evaluate the effectiveness of health-related decisions.

NHES 6: Students will demonstrate the ability to use goal-setting skills to enhance health.
6.12.1 Assess personal health practices and overall health status.
6.12.2 Develop a plan to attain a personal health goal that addresses strengths, needs, and risks.
6.12.3 Implement strategies and monitor progress in achieving a personal health goal.
6.12.4 Formulate an effective long-term personal health plan.

NHES 7: Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.
7.12.1 Analyze the role of individual responsibility for enhancing health.
7.12.2 Demonstrate a variety of healthy practices and behaviors that will maintain or improve the health of self and others.
7.12.3 Demonstrate a variety of behaviors to avoid or reduce health risks to self and others.

NHES 8: Students will demonstrate the ability to advocate for personal, family, and community health.
8.12.1 Utilize accurate peer and societal norms to formulate a health-enhancing message.
8.12.2 Demonstrate how to influence and support others to make positive health choices.
8.12.3 Work cooperatively as an advocate for improving personal, family, and community health.
8.12.4 Adapt health messages and communication techniques to a specific target audience.

English Language Arts (6-12)

College and Career Readiness Anchor Standards for *Reading*

Key Ideas and Details

CCR1: Read closely to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.

CCR2: Determine central ideas or themes of a text, and analyze their development; summarize the key supporting details and ideas.

CCR3: Analyze how and why individuals, events, and ideas develop and interact over the course of a text.

Craft and Structure

CCR4: Interpret words and phrases as they are used in a text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

CCR5: Analyze the structure of texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.

CCR6: Assess how point of view or purpose shapes the content and style of a text.

Integration of Knowledge and Ideas

CCR7: Integrate and evaluate content presented in diverse formats and media, including visually and quantitatively, as well as in words.

CCR8: Delineate and evaluate the argument and specific claims in a text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.

CCR9: Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

Range of Reading and Level of Text Complexity

CCR10: Read and comprehend complex literary and informational texts independently and proficiently.
Mathematics (High School)

College and Career Readiness Anchor Standards for *Writing*

Text Types and Purposes

CCW1: Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
CCW2: Write informative/explanatory texts to examine and convey complex ideas and information clearly and accurately through the effective selection, organization, and analysis of content.

CCW3: Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

Production and Distribution of Writing

CCW4: Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

CCW5: Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.

CCW6: Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.

Research to Build and Present Knowledge

CCW7: Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.

CCW8: Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.

CCW9: Draw evidence from literary or informational texts to support analysis, reflection, and research.

Range of Writing

CCW10: Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

College and Career Readiness Anchor Standards for *Speaking and Listening*

Comprehension and Collaboration

CCSL1: Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.

CCSL2: Integrate and evaluate information presented in diverse media and formats, including visually, quantitatively, and orally.

CCSL3: Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric.

Presentation of Knowledge and Ideas

CCSL4: Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.

CCSL5: Make strategic use of digital media and visual displays of data to express information and enhance understanding of presentations.

CCSL6: Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.

College and Career Readiness Anchor Standards for *Language*

Conventions of Standard English

CCL1: Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

CCL2: Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

Knowledge of Language

CCL3: Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

Vocabulary Acquisition and Use

CCL4: Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.

CCL5: Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

CCL6: Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

CSS1-21st Century Themes

CS1 Global Awareness

1. Using 21st century skills to understand and address global issues
2. Learning from and working collaboratively with individuals representing diverse cultures, religions, and lifestyles in a spirit of mutual respect and open dialogue in personal, work, and community contexts
3. Understanding other nations and cultures, including the use of non-English languages

CS2 Financial, Economic, Business, and Entrepreneurial Literacy

1. Knowing how to make appropriate personal economic choices
2. Understanding the role of the economy in society
3. Using entrepreneurial skills to enhance workplace productivity and career options

CS3 Civic Literacy

1. Participating effectively in civic life through knowing how to stay informed and understanding governmental processes
2. Exercising the rights and obligations of citizenship at local, state, national, and global levels
3. Understanding the local and global implications of civic decisions

CS4 Health Literacy

1. Obtaining, interpreting, and understanding basic health information and services and using such information and services in ways that enhance health
2. Understanding preventive physical and mental health measures, including proper diet, nutrition, exercise, risk avoidance, and stress reduction
3. Using available information to make appropriate health-related decisions
4. Establishing and monitoring personal and family health goals
5. Understanding national and international public health and safety issues

[1] *21st century skills.* (n.d.). Washington, DC: Partnership for 21st Century Skills.

CS5 Environmental Literacy

1. Demonstrate knowledge and understanding of the environment and the circumstances and conditions affecting it, particularly as relates to air, climate, land, food, energy, water, and ecosystems.
2. Demonstrate knowledge and understanding of society's impact on the natural world (e.g., population growth, population development, resource consumption rate, etc.).
3. Investigate and analyze environmental issues, and make accurate conclusions about effective solutions.
4. Take individual and collective action toward addressing environmental challenges (e.g., participating in global actions, designing solutions that inspire action on environmental issues).

CSS2-Learning and Innovation Skills

CS6 Creativity and Innovation

1. Think Creatively
2. Work Creatively with Others
3. Implement Innovations

CS7 Critical Thinking and Problem Solving

1. Reason Effectively
2. Use Systems Thinking
3. Make Judgments and Decisions
4. Solve Problems

CS8 Communication and Collaboration

1. Communicate Clearly
2. Collaborate with Others

CSS3-Information, Media and Technology Skills

CS9 Information Literacy

1. Access and Evaluate Information
2. Use and Manage Information

CS10 Media Literacy

1. Analyze Media
2. Create Media Products

CS11 ICT Literacy

1. Apply Technology Effectively

CSS4-Life and Career Skills

CS12 Flexibility and Adaptability

1. Adapt to change
2. Be Flexible

CS13 Initiative and Self-Direction

1. Manage Goals and Time
2. Work Independently
3. Be Self-directed Learners

CS14 Social and Cross-Cultural Skills

1. Interact Effectively with others
2. Work Effectively in Diverse Teams

CS15 Productivity and Accountability

1. Manage Projects
2. Produce Results

CS16 Leadership and Responsibility

1. Guide and Lead Others
2. Be Responsible to Others

T1 Creativity and Innovation
T2 Communication and Collaboration
T3 Research and Information Fluency
T4 Critical Thinking, Problem Solving, and Decision Making
T5 Digital Citizenship
T6 Technology Operations and Concepts

T1 Creativity and Innovation
Students demonstrate creative thinking, construct knowledge, and develop innovative products and processes using technology. Students do the following:
a. Apply existing knowledge to generate new ideas, products, or processes.
b. Create original works as a means of personal or group expression.
c. Use models and simulations to explore complex systems and issues.
d. Identify trends and forecast possibilities.

T2 Communication and Collaboration
Students use digital media and environments to communicate and work collaboratively, including at a distance, to support individual learning and contribute to the learning of others. Students do the following:
a. Interact, collaborate, and publish with peers, experts, or others employing a variety of digital environments and media.
b. Communicate information and ideas effectively to multiple audiences using a variety of media and formats.
c. Develop cultural understanding and global awareness by engaging with learners of other cultures.
d. Contribute to project teams to produce original works or solve problems.

T3 Research and Information Fluency
Students apply digital tools to gather, evaluate, and use information. Students do the following:
a. Plan strategies to guide inquiry.
b. Locate, organize, analyze, evaluate, synthesize, and ethically use information from a variety of sources and media.
c. Evaluate and select information sources and digital tools based on the appropriateness to specific tasks.

d. Process data and report results.

T4 Critical Thinking, Problem Solving, and Decision Making

Students use critical-thinking skills to plan and conduct research, manage projects, solve problems, and make informed decisions using appropriate digital tools and resources. Students do the following:

a. Identify and define authentic problems and significant questions for investigation.
b. Plan and manage activities to develop a solution or complete a project.
c. Collect and analyze data to identify solutions and/or make informed decisions.
d. Use multiple processes and diverse perspectives to explore alternative solutions.

T5 Digital Citizenship

Students understand human, cultural, and societal issues related to technology and practice legal and ethical behavior. Students do the following:

a. Advocate and practice safe, legal, and responsible use of information and technology.
b. Exhibit a positive attitude toward using technology that supports collaboration, learning, and productivity.
c. Demonstrate personal responsibility for lifelong learning.
d. Exhibit leadership for digital citizenship.

T6 Technology Operations and Concepts

Students demonstrate a sound understanding of technology concepts, systems, and operations. Students do the following:

a. Understand and use technology systems.
b. Select and use applications effectively and productively.
c. Troubleshoot systems and applications.
d. Transfer current knowledge to learning of new technologies.

Appendix G: Mississippi House Bill 999

MISSISSIPPI LEGISLATURE
2011 Regular Session
To: Education
By: Representatives Clarke, Mayo, Hines, Broomfield, Brown, Burnett, Calhoun, Clark, Coleman (29th), Coleman (65th), Dedeaux, Evans (70th), Flaggs, Fredericks, Gardner, Gibbs, Harrison, Lane, Smith (27th), Straughter, Thomas, Scott

House Bill 999

(As Sent to Governor)

AN ACT TO AMEND SECTION 37-13-171, MISSISSIPPI CODE OF 1972, TO REQUIRE EACH LOCAL SCHOOL BOARD TO ADOPT A SEX-RELATED EDUCATION POLICY TO IMPLEMENT ABSTINENCE-ONLY OR ABSTINENCE-PLUS EDUCATION INTO ITS LOCAL SCHOOL DISTRICT'S CURRICULUM BY JUNE 30, 2012, OR TO REQUIRE THE LOCAL SCHOOL BOARD TO ADOPT THE PROGRAM DEVELOPED BY THE MISSISSIPPI DEPARTMENT OF HUMAN SERVICES AND THE DEPARTMENT OF HEALTH; TO REQUIRE THE STATE DEPARTMENT TO APPROVE EACH DISTRICT'S CURRICULUM FOR SEX-RELATED EDUCATION AND ESTABLISH A PROTOCOL TO BE USED BY DISTRICTS TO PROVIDE CONTINUITY IN TEACHING THE APPROVED CURRICULUM; TO PROVIDE THAT INSTRUCTION IN SCHOOL DISTRICTS IMPLEMENTING ABSTINENCE-PLUS EDUCATION INTO THE CURRICULUM MAY BE EXPANDED BEYOND THE INSTRUCTION FOR ABSTINENCE-ONLY EDUCATION WITHIN PARAMETERS APPROVED BY THE DEPARTMENT; TO DEFINE ABSTINENCE-PLUS EDUCATION; TO REMOVE THE AUTHORITY GIVEN TO LOCAL SCHOOL BOARDS TO VOTE IN FAVOR OF TEACHING SEX EDUCATION WITHOUT ANY INSTRUCTION ON ABSTINENCE; TO PROHIBIT ANY TEACHING THAT ABORTION CAN BE USED TO PREVENT THE BIRTH OF A BABY; TO REQUIRE BOYS AND GIRLS TO BE SEPARATED INTO DIFFERENT CLASSES BY GENDER AT ALL TIMES WHEN SEX-RELATED EDUCATION IS DISCUSSED OR TAUGHT; TO REQUIRE THE DEPARTMENT OF HUMAN SERVICES AND THE DEPARTMENT OF HEALTH TO DEVELOP CERTAIN PROGRAMS AND STRATEGIES PROMOTING PREGNANCY PREVENTION AND PROVIDING INFORMATION ON THE CONSEQUENCES OF UNPROTECTED, UNINFORMED AND UNDERAGE SEXUAL ACTIVITY; TO PROVIDE FOR THE REPEAL OF THIS SECTION ON JULY 1, 2016; TO AMEND SECTION 37-13-173, MISSISSIPPI CODE OF 1972, RELATING TO PARENTAL NOTICE; TO AMEND SECTION 2, CHAPTER 507, LAWS OF 2009, TO REVISE THE DUTIES OF THE TEEN PREGNANCY PREVENTION TASK FORCE AND TO EXTEND THE DATE OF THE REPEAL ON THE TASK FORCE TO JULY 1, 2016; TO REQUIRE THE STATE DEPARTMENT OF HEALTH AND THE STATE DEPARTMENT OF EDUCATION, SUBJECT TO THE AVAILABILITY OF FUNDS, TO ESTABLISH A PILOT PROGRAM IN EACH HEALTH CARE DISTRICT, TO BE LOCATED IN A SCHOOL DISTRICT IN A COUNTY HAVING THE HIGHEST NUMBER OF TEEN PREGNANCIES; TO REQUIRE THOSE AGENCIES TO PROVIDE CERTAIN EDUCATIONAL SERVICES THROUGH QUALIFIED PERSONNEL; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 37-13-171, Mississippi Code of 1972, is amended as follows:

37-13-171. (1) The local school board of every public school district shall adopt a policy to implement abstinence-only or abstinence-plus education into its curriculum by June 30, 2012, which instruction in those subjects shall be implemented not later than the start of the 2012-2013 school year or the local school board shall adopt the program which has been developed by the Mississippi Department of Human Services and the Mississippi Department of Health. The State Department of Education shall approve each district's curriculum for sex-related education and shall establish a protocol to be used by districts to provide continuity in teaching the approved curriculum in a manner that is age, grade and developmentally appropriate.

(2) Abstinence-only education shall remain the state standard for any sex-related education taught in the public schools. For purposes of this section, abstinence-only education includes any type of instruction or program which, at an appropriate age and grade:

(a) Teaches the social, psychological and health gains to be realized by abstaining from sexual activity, and the likely negative psychological and physical effects of not abstaining;

(b) Teaches the harmful consequences to the child, the child's parents and society that bearing children out of wedlock is likely to produce, including the health, educational, financial and other difficulties the child and his or her parents are likely to face, as well as the inappropriateness of the social and economic burden placed on others;

(c) Teaches that unwanted sexual advances are irresponsible and teaches how to reject sexual advances and how alcohol and drug use increases vulnerability to sexual advances;

(d) Teaches that abstinence from sexual activity before marriage, and fidelity within marriage, is the only certain way to avoid out-of-wedlock pregnancy, sexually transmitted diseases and related health problems. The instruction or program may include a discussion on condoms or contraceptives, but only if that discussion includes a factual presentation of the risks and failure rates *** * *** of those contraceptives. In no case shall the instruction or program include any demonstration of how condoms or other contraceptives are applied;

(e) Teaches the current state law related to sexual conduct, including forcible rape, statutory rape, paternity establishment, child support and homosexual activity; and

(f) Teaches that a mutually faithful, monogamous relationship in the context of marriage is the only appropriate setting for sexual intercourse.

(3) A program or instruction on sex-related education need not include every component listed in subsection (2) of this section for abstinence-only education. However, no program or instruction under an abstinence-only curriculum may include anything that contradicts the excluded components. For purposes of this section, abstinence-plus education includes every component listed under subsection (2) of this section that is age and grade appropriate, in addition to any other programmatic or instructional component approved by the department, which shall not include instruction and demonstrations on the application and use of condoms. Abstinence-plus education may discuss other contraceptives, the nature, causes and effects of sexually transmitted diseases, or the prevention of sexually transmitted diseases, including HIV/AIDS, along with a factual presentation of the risks and failure rates.

(4) Any course containing sex-related education offered in the public schools shall include instruction in either abstinence-only or abstinence-plus education. *** * ***

(5) Local school districts, in their discretion, may host programs designed to teach parents how to discuss abstinence with their children.

(6) There shall be no effort in either an abstinence-only or an abstinence-plus curriculum to teach that abortion can be used to prevent the birth of a baby.

(7) At all times when sex-related education is discussed or taught, boys and girls shall be separated according to gender into different classrooms, sex-related education instruction may not be conducted when boys and girls are in the company of any students of the opposite gender.

(8) This section shall stand repealed on July 1, 2016.

SECTION 2. (1) The Mississippi Department of Human Services shall develop programs to accomplish the purpose of one or more of the following strategies:

(a) Promoting effective communication among families about preventing teen pregnancy, particularly communication among parents or guardians and their children;

(b) Educating community members about the consequences of unprotected, uninformed and underage sexual activity and teen pregnancy;

(c) Encouraging young people to postpone sexual activity and prepare for a healthy, successful adulthood, including teaching them skills to avoid making or receiving unwanted verbal, physical, and sexual advances;

(d) Providing medically accurate information about the health benefits and side effects of all contraceptives and barrier methods as a means to prevent pregnancy and reduce the risk of contracting sexually transmitted infections, including HIV/AIDS; or

(e) Providing educational information, including medically accurate information about the health benefits and side effects of all contraceptives and barrier methods, for young people in those communities who are already sexually active or are at risk of becoming sexually active and inform young people in those communities about the responsibilities and consequences of being a parent, and how early pregnancy and parenthood can interfere with educational and other goals.

(2) The State Department of Health shall develop programs with the following strategies:

(a) To carry out activities, including counseling, to prevent unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens;

(b) To provide necessary social and cultural support services regarding teen pregnancy;

(c) To provide health and educational services related to the prevention of unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens;

(d) To promote better health and educational outcomes among pregnant teens; and

(e) To provide training for individuals who plan to work in school-based support programs regarding the prevention of unintended pregnancy and sexually transmitted infections, including HIV/AIDS, among teens.

(3) It shall be the responsibility of school nurses employed by local school districts implementing the program developed by the State Department of Health under subsection (2) of this section to carry out the functions of those strategies to promote consistency in the administration of the program.

SECTION 3. Section 37-13-173, Mississippi Code of 1972, is amended as follows:

37-13-173. Each school providing instruction or any other presentation on human sexuality in the classroom, assembly or other official setting shall be required to provide no less than one (1) week's written notice thereof to

the parents of children in such programs of instruction. The written notice must inform the parents of their right to request the inclusion of their child for such instruction or presentation. The notice also must inform the parents of the right, and the appropriate process, to review the curriculum and all materials to be used in the lesson or presentation. Upon the request of any parent, the school shall excuse the parent's child from such instruction or presentation, without detriment to the student.

SECTION 4. Section 2, Chapter 507, Laws of 2009, is amended as follows:

Section 2. (1) There is created the Teen Pregnancy Prevention Task Force to study and make recommendation to the Legislature on the implementation of sex-related educational courses through abstinence-only or abstinence-plus education into the curriculum of local school districts and the coordination of services by certain state agencies to reduce teen pregnancy and provide prenatal and postnatal training to expectant teen parents in Mississippi. The task force shall make an annual report of its findings and recommendations to the Legislature beginning with the 2012 Regular Session.

(2) The task force shall be composed of the following seventeen (17) members:

(a) The Chairmen of the Senate and House Public Health and Welfare Committees, or their designees;

(b) The Chairmen of the Senate and House Education Committees, or their designees;

(c) The Chairman of the House Select Committee on Poverty;

(d) One (1) member of the Senate appointed by the Lieutenant Governor;

(e) The Executive Director of the Department of Human Services, or his or her designee;

(f) The State Health Officer, or his or her designee;

(g) The State Superintendent of Public Education, or his or her designee;

(h) The Executive Director of the Division of Medicaid, or his or her designee;

(i) The Executive Director of the State Department of Mental Health, or his or her designee;

(j) The Vice Chancellor for Health Affairs and Dean of the University of Mississippi Medical Center School of Medicine, or his or her designee;

(k) Two (2) representatives of the private health or social services sector appointed by the Governor;

(l) One (1) representative of the private health or social services sector appointed by the Lieutenant Governor; * * *

(m) One (1) representative of the private health or social services sector appointed by the Speaker of the House of Representatives; and

(n) One (1) representative from a local community-based youth organization that teaches or has taught a federal or local school district approved curriculum.

(3) Appointments shall be made within thirty (30) days after the effective date of this act, and, within fifteen (15) days thereafter on a day to be designated jointly by the Speaker of the House and the Lieutenant Governor, the task force shall meet and organize by selecting from its membership a chairman and a vice chairman. The vice chairman shall also serve as secretary and shall be responsible for keeping all records of the task force. A majority

of the members of the task force shall constitute a quorum. In the selection of its officers and the adoption of rules, resolutions and reports, an affirmative vote of a majority of the task force shall be required. All members shall be notified in writing of all meetings, the notices to be mailed at least fifteen (15) days before the date on which a meeting is to be held. If a vacancy occurs on the task force, the vacancy shall be filled in the manner that the original appointment was made.

(4) Members of the task force who are not legislators, state officials or state employees shall be compensated at the per diem rate authorized by Section 25-3-69 and shall be reimbursed in accordance with Section 25-3-41 for mileage and actual expenses incurred in the performance of their duties. Legislative members of the task force shall be paid from the contingent expense funds of their respective houses in the same manner as provided for committee meetings when the Legislature is not in session. However, no per diem or expense for attending meetings of the task force may be paid to legislative members of the task force while the Legislature is in session. No task force member may incur per diem, travel or other expenses unless previously authorized by vote, at a meeting of the task force, which action shall be recorded in the official minutes of the meeting. Nonlegislative members shall be paid from any funds made available to the task force for that purpose.

(5) The task force shall use clerical and legal staff already employed by the Legislature and any other staff assistance made available to it by the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid. To effectuate the purposes of this section, any department, division, board, bureau, commission or agency of the state or of any political subdivision thereof shall, at the request of the chairman of the task force, provide to the task force such facilities, assistance and data as will enable the task force properly to carry out its duties.

(6) In order to carry out the functions and responsibilities necessary to study and make recommendations to the Legislature, the Teen Pregnancy Prevention Task Force shall:

(a) Form task force subgroups based on specific areas of expertise;

(b) Review and consider coordinated services and plans and related studies done by or through existing state agencies and advisory, policy or research organizations to reduce teen pregnancy and provide the necessary prenatal and postnatal training to expectant teen parents;

(c) Review and consider statewide and regional planning initiatives related to teen pregnancy;

(d) Consider efforts of stakeholder groups to comply with federal requirements for coordinated planning and service delivery; * * *

(e) Evaluate the implementation of sex-related educational courses through abstinence-only or abstinence-plus education in local school districts throughout the state;

(f) Evaluate the effect of the adoption of a required sex education policy on teen pregnancy rates and dropout rates due to teen pregnancy on the local school district and statewide levels;

(g) Compare and analyze data in districts adopting and implementing abstinence-only education to districts adopting abstinence-plus education;

(h) Require the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid to conduct a study of community programs available throughout the state, and the areas wherein they are located, which provide programs of instruction on sexual behavior and assistance to teen parents; and

(i) Work through the Department of Health, the Mississippi Department of Human Services, the Department of Mental Health, the State Department of Education and the Division of Medicaid to cause any studies, assessments and analyses to be conducted as may be deemed necessary by the task force.

(7) This section shall stand repealed on July 1, 2016.

SECTION 5. (1) Beginning with the 2012-2013 school year, to the extent that federal or state funds are available and appropriated by the Legislature for the purposes of establishing and implementing the Prevention of Teen Pregnancy Pilot Program authorized by Section 41-79-5, the State Department of Health in conjunction with the State Department of Education shall establish a pilot program in each of the nine (9) health districts as defined by the State Department of Health, to be located in a school district in a county in that district having the highest number of teen pregnancies.

(2) The State Department of Health and the State Department of Education shall jointly provide education services through qualified personnel to increase awareness of the health, social and economic risks associated with teen pregnancy. The services and curriculum provided shall have a primary emphasis on reducing the teenage pregnancy rate in those pilot districts.

SECTION 6. This act shall take effect and be in force from and after July 1, 2011.

Appendix H: Mississippi Senate Bill 2472 – Nathan's Law

MISSISSIPPI LEGISLATURE
2011 Regular Session
To: Judiciary, Division A
By: Senator(s) McDaniel, Watson, Yancey, Montgomery, Hyde-Smith, King, Lee (35th), Chassaniol, Ward, Gollott, Flowers, Hewes, Mettetal, Hudson, Jackson (15th), Moffatt, Fillingane, Brown, Davis, Burton, Dearing

SENATE BILL NO. 2472
(As Sent to Governor)

AN ACT TO CREATE "NATHAN'S LAW"; TO AMEND SECTION 63-3-615, MISSISSIPPI CODE OF 1972, TO CLARIFY THE OFFENSE OF PASSING A SCHOOL BUS WHEN STOPPED TO LOAD OR UNLOAD STUDENTS AND TO REVISE THE PENALTY THEREFORE; TO REQUIRE THE STATE DEPARTMENT OF EDUCATION TO DEVELOP CURRICULUM GUIDELINES FOR SCHOOL BUS SAFETY; TO AMEND SECTION 63-1-73, MISSISSIPPI CODE OF 1972, TO PROHIBIT THE USE OF WIRELESS COMMUNICATION DEVICES BY BUS DRIVERS; TO AMEND SECTION 97-3-7, MISSISSIPPI CODE OF 1972, IN CONFORMITY; TO AMEND SECTION 63-1-33, MISSISSIPPI CODE OF 1972, TO REVISE THE DRIVER'S LICENSE EXAMINATION REQUIREMENTS TO ENSURE COVERAGE THEREON OF SCHOOL BUS SAFETY ISSUES; TO AUTHORIZE CAMERAS ON SCHOOL BUS STOP ARMS; TO AUTHORIZE THE DEPARTMENTS OF TRANSPORTATION AND EDUCATION TO CONDUCT A PUBLIC EDUCATION CAMPAIGN ON SCHOOL BUS SAFETY; AND FOR RELATED PURPOSES.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MISSISSIPPI:

SECTION 1. Section 63-3-615, Mississippi Code of 1972, is amended as follows:

63-3-615. (1) (a) The driver of a vehicle upon a street or highway upon meeting or overtaking any school bus that has stopped on the street or highway for the purpose of receiving or discharging any school children shall come to a complete stop at least ten (10) feet from the school bus before reaching the school bus when there is in operation on the school bus the flashing red lights provided in Section 63-7-23, or when a retractable, hand-operated stop sign is extended; the driver *** * *** shall not proceed until the children have crossed the street or highway and the school bus has resumed motion or the flashing red lights are no longer actuated and the hand-operated stop sign is retracted.

(b) The driver of a vehicle upon a highway that has four (4) lanes or more, whether or not there is a median or turn lane, need not stop upon meeting or passing a school bus that is on a different roadway or when upon a controlled-access highway if the school bus is stopped in a loading zone that is a part of or adjacent to the highway and where pedestrians are not permitted to cross the roadway.

(2) (a) Except as provided in paragraph (b), any person violating the provisions of subsection (1) of this section shall be guilty of a misdemeanor and upon a first conviction thereof shall be fined not less than Three Hundred Fifty Dollars ($350.00) nor more than Seven Hundred Fifty Dollars ($750.00), or imprisoned for not more than one (1) year, or both. For a second or subsequent offense, the offenses being committed within a period of five (5) years, the person shall be guilty of a misdemeanor and, upon conviction, shall be fined not less than Seven

Hundred Fifty Dollars ($750.00) nor more than One Thousand Five Hundred Dollars ($1,500.00), or imprisoned for not more than one (1) year, or both. In addition, the Commissioner of Public Safety or his duly authorized designee, after conviction for a second or subsequent offense and upon receipt of the court abstract, shall suspend the driver's license and driving privileges of the person for a period of ninety (90) days.

(b) A conviction under this section for a violation resulting in any injury to a child who is in the process of boarding or exiting a school bus shall be a violation of Section 54 97-3-7, and a violator shall be punished under subsection (2) of that section.

(3) This section shall be applicable only in the event the school bus shall bear upon the front and rear thereon a plainly visible sign containing the words "school bus" in letters not less than four (4) inches in height.

(4) If the driver of any vehicle is witnessed by a law enforcement officer or the driver of a school bus to have violated this section and the identity of the driver of the vehicle is not otherwise apparent, it shall be a rebuttable inference that the person in whose name the vehicle is registered committed the violation. If charges are filed against multiple owners of a motor vehicle, only one (1) of the owners may be convicted and court costs may be assessed against only one (1) of the owners. If the vehicle that is involved in the violation is registered in the name of a rental or leasing company and the vehicle is rented or leased to another person at the time of the violation, the rental or leasing company may rebut the inference of guilt by providing the law enforcement officer or prosecuting authority with a copy of the rental or lease agreement in effect at the time of the violation.

SECTION 2. Section 63-1-73, Mississippi Code of 1972, is amended as follows:

63-1-73. (1) For purposes of this section, the following terms shall have the meanings ascribed in this subsection, unless the context clearly indicates otherwise:

(a) "Cellular telephone" means an analog or digital wireless telephone authorized by the Federal Communications Commission to operate in the frequency bandwidth reserved for cellular radiophones.

(b) "Personal digital assistant" means a wireless electronic communication device that provides for data communications other than by voice.

(c) The term "E911" shall have the meaning ascribed in Section 19-5-303.

(d) "Wireless communication device" means a device that uses a commercial mobile service, as defined by 47 USC Section 332, including a cellular telephone or personal digital assistant.

(2) (a) A person who is authorized to drive under an intermediate license, a temporary learning permit or a temporary driving permit shall not operate a motor vehicle on a highway while using a wireless communication device to send or receive a written message while the motor vehicle is in motion.

(b) A person shall not use a wireless communication device while operating a passenger bus with a minor passenger on the bus, except for an emergency or in the case of a school bus driver for official school business or in an emergency.

(3) This section does not apply to any of the following:

(a) Law enforcement and safety personnel;

(b) Drivers of authorized emergency vehicles;

(c) * * * A person who is reporting reckless or negligent behavior;

(d) * * * A person who believes that the person or another person is in physical danger * * *;

(e) Written messages sent or received while the vehicle is parked; * * *

(f) The use of a wireless communication device for the sole purpose of communicating with any of the following regarding an emergency situation:

(i) An emergency response or E911 operator;

(ii) A hospital, physician's office or health clinic;

(iii) A provider of ambulance services;

(iv) A provider of firefighting services;

(v) A law enforcement agency;

(g) The use of technology utilizing a cellular connection to a vehicle to relay vehicle operational information between the vehicle and a call center or repair facility; and

(h) A vehicle navigation system utilizing a cellular connection to update databases and provide real-time traffic information.

(4) (a) A violation of this section is a misdemeanor, and upon conviction, is punishable by a fine not to exceed Five Hundred Dollars ($500.00).

(b) If the person violates this section at the time that he is involved in a motor vehicle accident, then the S. B. No. 2472 violations is punishable by a fine not to exceed One Thousand Dollars ($1,000.00).

(c) A law enforcement officer investigating a motor vehicle accident in which a person is cited for violating subsection (2)(b) or (c) of this section * * * shall indicate on the written accident report * * * the use of a wireless communication device in violation of this section * * * at the time of the accident.

SECTION 3. Section 97-3-7, Mississippi Code of 1972, is amended as follows:

97-3-7. (1) A person is guilty of simple assault if he (a) attempts to cause or purposely, knowingly or recklessly causes bodily injury to another; or (b) negligently causes bodily injury to another with a deadly weapon or other means likely to produce death or serious bodily harm; or (c) attempts by physical menace to put another in fear of imminent serious bodily harm; and, upon conviction, he shall be punished by a fine of not more than Five Hundred Dollars ($500.00) or by imprisonment in the county jail for not more than six (6) months, or both. However, a person convicted of simple assault (a) upon a statewide elected official, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker or family protection specialist or family protection worker employed by the Department of Human Services or another agency, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, or a judge of a circuit, chancery, county, justice, municipal or youth court or a judge of the Court of Appeals or a justice of the Supreme Court, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor,

court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender, while such statewide elected official, judge or justice, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender is acting within the scope of his duty, office or employment; (b) upon a legislator while the Legislature is in regular or extraordinary session or while otherwise acting within the scope of his duty, office or employment; or (c) upon a person who is sixty-five (65) years of age or older or a person who is a vulnerable adult, as defined in Section 43-47-5, shall be punished by a fine of not more than One Thousand Dollars ($1,000.00) or by imprisonment for not more than five (5) years, or both.

(2) A person is guilty of aggravated assault if he (a) attempts to cause serious bodily injury to another, or causes such injury purposely, knowingly or recklessly under circumstances manifesting extreme indifference to the value of human life; *** * *** (b) attempts to cause or purposely or knowingly causes bodily injury to another with a deadly weapon or other means likely to produce death or serious bodily harm; or (c) causes any injury to a child who is in the process of boarding or exiting a school bus in the course of a violation of Section 63-3-615; and, upon conviction, he shall be punished by imprisonment in the county jail for not more than one (1) year or in the Penitentiary for not more than twenty (20) years. However, a person convicted of aggravated assault (a) upon a statewide elected official, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker employed by the Department of Human Services or another agency, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, or a judge of a circuit, chancery, county, justice, municipal or youth court or a judge of the Court of Appeals or a justice of the Supreme Court, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender, while such statewide elected official, judge or justice, law enforcement officer, fireman, emergency medical personnel, public health personnel, social worker, family protection specialist, family protection worker, youth detention center personnel, training school juvenile care worker, any county or municipal jail officer, superintendent, principal, teacher or other instructional personnel, school attendance officer, school bus driver, district attorney, legal assistant to a district attorney, county prosecutor, municipal prosecutor, court reporter employed by a court, court administrator, clerk or deputy clerk of the court, or public defender is acting within the scope of his duty, office or employment; (b) upon a legislator while the Legislature is in regular or extraordinary session or while otherwise acting within the scope of his duty, office or employment; or (c) upon a person who is sixty-five (65) years of age or older or a person who is a

vulnerable adult, as defined in Section 43-47-5, shall be punished by a fine of not more than Five Thousand Dollars ($5,000.00) or by imprisonment for not more than thirty (30) years, or both.

(3) A person is guilty of simple domestic violence who commits simple assault as described in subsection (1) of this section against a current or former spouse or a child of that person, a person living as a spouse or who formerly lived as a spouse with the defendant or a child of that person, other persons related by consanguinity or affinity who reside with or formerly resided with the defendant, a person who has a current or former dating relationship with the defendant, or a person with whom the defendant has had a biological or legally adopted child and, upon conviction, the defendant shall be punished as provided under subsection (1) of this section; however, upon a third or subsequent conviction of simple domestic violence, whether against the same or another victim and within five (5) years, the defendant shall be guilty of a felony and sentenced to a term of imprisonment not less than five (5) nor more than ten (10) years. In sentencing, the court shall consider as an aggravating factor whether the crime was committed in the physical presence or hearing of a child under sixteen (16) years of age who was, at the time of the offense, living within either the residence of the victim, the residence of the perpetrator, or the residence where the offense occurred.

(4) A person is guilty of aggravated domestic violence who commits aggravated assault as described in subsection (2) of this section against, or who strangles, or attempts to strangle, a current or former spouse or a child of that person, a person living as a spouse or who formerly lived as a spouse with the defendant or a child of that person, other persons related by consanguinity or affinity who reside with or formerly resided with the defendant, a person who has a current or former dating relationship with the defendant, or a person with whom the defendant has had a biological or legally adopted child. Upon conviction, the defendant shall be punished by imprisonment in the custody of the Department of Corrections for not less than two (2) years; however, upon a third or subsequent conviction of aggravated domestic violence, whether against the same or another victim and within five (5) years, the defendant shall be guilty of a felony and sentenced to a term of imprisonment of not less than ten (10) nor more than twenty (20) years. In sentencing, the court shall consider as an aggravating factor whether the crime was committed in the physical presence or hearing of a child under sixteen (16) years of age who was, at the time of the offense, living within either the residence of the victim, the residence of the perpetrator, or the residence where the offense occurred. Reasonable discipline of a child, such as spanking, is not an offense under this subsection (4). A person convicted of aggravated domestic violence shall not be eligible for parole under the provisions of Section 47-7-3(1)(c) until he shall have served one (1) year of his sentence.
For the purposes of this section, "strangle" means to restrict the flow of oxygen or blood by intentionally applying pressure on the neck or throat of another person by any means or to intentionally block the nose or mouth of another person by any means.

(5) "Dating relationship" means a social relationship as defined in Section 93-21-3.

(6) Every conviction of domestic violence may require as a condition of any suspended sentence that the defendant participate in counseling or treatment to bring about the cessation of domestic abuse. The defendant may be required to pay all or part of the cost of the counseling or treatment, in the discretion of the court.

(7) When investigating allegations of a violation of subsection (3) or (4) of this section, law enforcement officers shall utilize the form prescribed for such purposes by the Office of the Attorney General in consultation with the sheriff's and police chief's associations.

(8) In any conviction of assault as described in any subsection of this section which arises from an incident of domestic violence, the sentencing order shall include the designation "domestic violence." The court shall forward a copy of each sentencing order bearing the designation "domestic violence" to the Office of the Attorney General.

SECTION 4. The State Department of Education shall develop and issue curriculum guidelines to school districts relating to the implementation of a school bus safety curriculum for implementation in Kindergarten through Grade 3.

SECTION 5. Section 63-1-33, Mississippi Code of 1972, is amended as follows:

63-1-33. (1) Except as otherwise provided under subsection(6) of this section, it shall be the duty of the license examiner, when application is made for an operator's license or temporary driving permit, to test the applicant's ability to read and understand road signs and to give the required signals as adopted by the National Advisory Committee on Uniform Traffic Control Devices and the American Association of Motor Vehicle Administrators.

(2) Except as otherwise provided under subsection (6) of this section, the commissioner shall have prepared and administer a test composed of at least ten (10) questions relating to the safe operation of a motor vehicle and testing the applicant's knowledge of the proper operation of a motor vehicle. Every examination shall ensure adequate knowledge on the part of the applicant as to school bus safety requirements.

(3) Prior to the administration of the test, the license examiner shall inspect the horn, lights, brakes, inspection certificate and vehicle registration of the motor vehicle which the applicant expects to operate while being tested, and if he finds that any of the aforementioned items are deficient, no license or endorsement shall be issued to the applicant until same have been repaired.

(4) An applicant for a Mississippi driver's license who, at the time of application, holds a valid motor vehicle driver's license issued by another state shall not be required to take a written test.

(5) Except as otherwise provided by Section 63-1-6, when application is made for an original motorcycle endorsement or a restricted motorcycle operator's license, the applicant shall be required to pass a written test which consists of questions relating to the safe operation of a motorcycle and a skill test similar to the "Motorcycle Operator Skill Test," which is endorsed by the American Association of Motor Vehicle Administrators. The commissioner may exempt any applicant from the skill test if the applicant presents a certificate showing

successful completion of a course approved by the commissioner, which includes a similar examination of skills needed in the safe operation of a motorcycle.

(6) The Department of Public Safety may accept the certification of successful completion of an individual's training in the knowledge and skills needed for the proper and safe operation of a motor vehicle from a driver education and training program at a secondary school that meets the standards of the department, in lieu of the department administering the examination of the individual for the purpose of obtaining a driver's license. The commissioner and the State Board of Education shall jointly promulgate rules and regulations for the administration of this subsection.

SECTION 6. Every school district is authorized to mount a camera on any retractable, hand-operated stop sign that is a part of the equipment of a school bus.

SECTION 7. To the extent that state, federal or other funds are available or appropriated, the Department of Transportation and the Department of Education shall cooperate to conduct an information campaign to educate drivers concerning the provisions of this act and the importance of school bus safety.

SECTION 8. (1) There is created the Mississippi School Bus Safety Task Force which shall be composed of nine (9) members as follows:

(a) Three (3) members appointed by the Speaker of the House of Representatives, one (1) of whom shall be appointed from the membership of the House of Representatives;

(b) Three (3) members appointed by the Lieutenant Governor, one (1) of whom shall be appointed from the membership of the Senate; and

(c) Three (3) members appointed by the Governor.

(2) At its first meeting, the task force shall elect a chairman and vice chairman from its membership and shall adopt rules for transacting its business and keeping records. Members of the task force shall receive a per diem in the amount provided in Section 25-3-69 for each day engaged in the business of the task force. Members of the task force other than legislative members shall receive reimbursement for travel expenses incurred while engaged in official business of the task force in accordance with Section 25-3-41; legislative members of the task force shall receive the expense allowance provided for in Section 5-1-47.

(3) The duties of the task force shall be to:

(a) Make a comprehensive study of school bus safety designs and technology related to safety and law enforcement.

(b) Examine and study approaches taken by other states in the implementation and costs of school bus safety.

(c) Research and develop recommendations relating to school bus safety.

(4) The task force shall publish its findings and recommendations with any proposed legislation in a report to the Governor and the Legislature to be made on or before December 31, 2011.

(5) The task force shall stand dissolved on January 1, 2012. S. B. No. 2472 *SS26/R171SG* 11/SS26/R171SG PAGE 13 ST: Nathan's law; increase penalty for unlawful passing of school bus.

SECTION 9. This act shall take effect and be in force from and after July 1, 2011.

The Office of Healthy Schools is a part of the Mississippi Department of Education and is located in Jackson, MS. In coordination with the Office of Healthy Schools, the Mississippi Department of Education continues to focus on and promote educational enhancements and innovations relating to healthy students and schools.

Acknowledgments

The Physical Education (K-12) curriculum was presented to the Mississippi Board of Education on April 18, 2013. The following persons were serving on the state board at the time:

Dr. Lynn House, Interim State Superintendent
Dr. O. Wayne Gann, Chair
Mr. Howell “Hal” N. Gage, Vice Chair
Ms. Kami Bumgarner
Mr. William Harold Jones
Dr. John R. Kelly
Mr. Charles McClelland
Mr. Richard Morrison
Ms. Martha “Jackie” Murphy
Mr. Simon F. Weir, II

Scott Clements, Bureau Director for the Office of Healthy Schools, provided guidance as the taskforce committee was assembled and provided input throughout the development of the Physical Education Curriculum (K-12). Members of this taskforce were as follows:

Dr. Aaron Beighle	University of Kentucky
Joyce Aycock	Cleveland School District
Dr. Carol Barnes	Mississippi College
Dr. Tamika Bradley	Jackson State University
Joe Clark	Jackson County School District
Matt Dalrymple	Delta State University
Rose Hickey	Oxford Public School District
Dr. Sue Moen	Madison County School District
Payton Ragon	Biloxi Public School District
Brandi Shappley	Senatobia School District

Appreciation is expressed to the following Office of Healthy Schools staff member who provided guidance and insight throughout the development process:

Christine Philley, M.Ed., CFCS
School Health Administrator
Office of Healthy Schools
Mississippi Department of Education, Jackson, MS

Preface

The Mississippi Healthy Students Act of 2007 strengthened physical education and health education requirements in Mississippi and mandated that schools provide programming that will aid in reducing obesity in the state. Data indicates that the earlier that students begin participating in physical activity and are introduced to health education skills, the greater the chance that they will build life skills to help them to be healthier. The Mississippi Healthy Students Act also strengthened the child nutrition program and school health councils in the state. Prior to the passing of this law, health education was already a graduation requirement in grades 9-12.

As a result of this legislation, forty-five minutes of health education and 150 minutes of physical education/physical activity are required each week for students in grades K-8 and a ½ Carnegie Unit for graduation for grades 9-12.

This bill is referenced at http://www.mde.k12.ms.us/docs/healthy-schools/senatebill2369.pdf?sfvrsn=2.

The results of a quality daily physical education program can have a dynamically positive and long-lasting effect on those who participate. According to the Centers for Disease Control's *Physical Activity Guidelines for Americans (2008)* the following are benefits of physical activity:

- Assists in the reduction of obesity;
- Reduces the risks of developing type II diabetes, cardiovascular disease and other chronic health conditions;
- Improves respiratory efficiency and reduces the risk of respiratory diseases such as asthma;
- Helps build and maintain healthy bones and muscles;
- Reduces feelings of depression and anxiety; and
- Promotes psychological well-being.

Physical Education (K-12) Executive Summary

PHILOSOPHY

The purpose of the 2013 Mississippi Physical Education Framework is to provide Mississippi physical educators in the public schools with a foundation for developing a quality physical education curriculum. This model provides consistency for physical education programs in the state. The 2013 Mississippi Physical Education Framework uses terminology and a format consistent with other Mississippi subject area curriculum frameworks. It is flexible enough to allow opportunities for creativity by individual teachers.

A high quality physical education program should address the physical development and skills (psychomotor), mental (cognitive), and social/emotional development (affective)of every child and incorporate fitness education and assessment to help children understand, improve, and/or maintain their physical well-being.

-NASPE Definition of Quality Physical Education

Quality physical education is an essential component of a student's overall education. Every student in Mississippi will benefit physically, emotionally, and mentally from an educational process which provides the skills, attitudes and knowledge needed to develop and maintain a physically active and healthy lifestyle.

Physical education is delivered through a sequential developmentally appropriate curriculum utilizing best instructional practices. A variety of student-centered activities are utilized to teach movement skills and concepts in a safe-positive environment. Students are provided the opportunity to achieve and maintain their own level of physical activity. In addition, students are taught social and personal responsibility while being provided with the confidence in their physical skills requisite for a lifetime of physical activity.

MISSION STATEMENT

This framework was designed for Mississippi educators who teach physical education in the public schools. It was developed as a model to provide consistency for physical education programs in the state. It is flexible enough to allow opportunities for creativity by individual teachers.

Quality daily physical education is an integral part of the total educational process in Mississippi schools. A sequentially-planned program will result in students who:

- Participate regularly in physical activity;
- Know the implications of and the health benefits derived from involvement in physical activities;
- Value physical activity and its contributions to a healthy lifestyle;
- Are physically fit; and
- Learn skills and acquire knowledge necessary to perform a variety of physical activities.

YOUTH AND PHYSICAL ACTIVITY

Physical activity can help control weight, reduce the risk of heart disease and some cancers, strengthen bones and muscles, and improve mental health. *The Physical Activity Guidelines for Americans* recommend that children and adolescents aged 6-17 years should have 60 minutes (1 hour) or more of moderate to vigorous physical activity (MVPA) each day. It is important to encourage young people to participate in physical activities that are appropriate for their age, that are enjoyable, and that offer variety.

Youth Physical Activity Guidelines

- **Aerobic:** Most of the 60 or more minutes a day should be either moderate- or vigorous-intensity aerobic physical activity and should include vigorous-intensity physical activity at least 3 days a week.
- **Muscle-strengthening:** As part of their 60 or more minutes of daily physical activity, children and adolescents should include muscle-strengthening physical activity on at least 3 days of the week.
- **Bone-strengthening:** As part of their 60 or more minutes of daily physical activity, children and adolescents should include bone-strengthening physical activity on at least 3 days of the week.

-Source: U.S. Department of Health and Human Services. *Physical Activity Guidelines for Americans*. Washington, DC: U.S. Department of Health and Human Services; 2008.

NATIONAL STANDARDS FOR PHYSICAL EDUCATION

The National Association for Sports and Physical Education (NASPE) established national content standards for physical education school programs that clearly identify what all students should know and be able to do as a result of participation in a quality education program. The competencies chosen for the framework were taken directly from the NASPE content standards for physical education. The National Standards for Physical Education are as follows:

A physically educated person:

- Demonstrates competency in motor skills and movement patterns needed to perform a variety of physical activities;
- Demonstrates an understanding of movement concepts, principles, strategies, and tactics as they apply to the learning, development and performance of physical activities;
- Exhibits a physically active lifestyle;
- Achieves and maintains a health-enhancing level of physical fitness;
- Exhibits responsible personal and social behavior that respects self and others in physical activity settings; and
- Values physical activity for health, enjoyment, challenge, self-expression, and/or social interaction.

SUGGESTED GUIDELINES FOR SUCCESSFUL FRAMEWORK IMPLEMENTATION

ELEMENTARY

- Provide daily physical education for all students.
- Recommend maximum class size of thirty-five students per class for a minimum of thirty minutes per day.
- Engage students for a minimum of fifty percent of the class period.
- Implement the 2013 Mississippi Physical Education Framework competencies in daily lessons.
- Require daily lesson plans with objectives and strategies.
- Provide certified physical education teachers for all classes.
- Provide adequate equipment and facilities specifically designated for physical education classes.

MIDDLE SCHOOL

- Require daily physical education for all students.
- Recommend maximum class size of thirty-five students per class.
- Engage students using the lesson's primary objectives for a minimum of fifty percent of the class period.
- Implement the 2013 Mississippi Physical Education Framework competencies in daily lessons.
- Require daily lesson plans with objectives and strategies.
- Provide certified physical education teachers for all classes.
- Provide adequate equipment and facilities specifically designated for physical education classes.
- Require physical education classes that are not designated for practice time or workout time for athletics.

SECONDARY

- Require a minimum of two semesters of physical education for graduation with a focus on lifetime activities which encourage a physically active lifestyle.
- Provide options for students to take elective courses in physical education that emphasize lifetime and fitness activities which do not include varsity athletic practice.
- Recommend maximum class size of forty students per class.
- Engage students using the lesson's primary objectives for a minimum of fifty percent of the class period.
- Implement the 2013 Mississippi Physical Education Framework competencies in daily lessons.
- Require daily lesson plans with objectives and strategies.
- Require a minimum of fifty minutes per class.
- Provide adequate equipment and facilities specifically designated for physical education class.

ORGANIZATION

The 2013 Mississippi Physical Education Framework ensures that all students will have opportunity to gain information and skills appropriate to age level and apply skills to everyday decisions.

A general description is provided for each grade level (K-2, 3-5, 6-8, 9-12) that includes the purpose and overview. The framework is organized so that each grade level has six competencies that focus on physical education. Each competency has suggested objectives, suggested teaching strategies and assessments designed to reinforce the competency.

COMPETENCIES

The National Association for Sports and Physical Education (NASPE, 2004) established national content standards for physical education school programs that clearly identify what all students should know and be able to do as a result of participation in a quality physical education program. The competencies chosen for this framework were taken directly from the NASPE content standards for physical education.

The 2013 Mississippi Physical Education Framework competencies are based on these national standards and are required to be taught to all students. The six competencies do not have to be taught in the order presented within this framework. The competencies are intentionally broad to allow school districts and teacher's flexibility in developing curriculum unique to their students' needs.

OBJECTIVES

Each objective provided in the sample paragraph is a direct reflection of the competencies of the framework. The objectives are the means for achieving the competencies at each grade level listed in this framework. Each school district may adopt the suggested objectives and are encouraged to add additional objectives that meet the needs of the students in their district.

SUGGESTED TEACHING STRATEGIES

The suggested teaching strategies included in the framework are to be considered as examples or recommendations for teaching the objectives. Teachers in physical education settings have a variety of teaching styles, methodologies and facilities that may influence how the objectives will be taught. Therefore, each teaching strategy used should continually be examined relative to the competencies.

SAMPLE LESSON PLANS

The sample lesson plans listed under each competency can be accessed through the website listed below. Register at the “Health In Action” website below with your email address. Click on the grade level that you teach, click continue, then click on physical education. You can identify the topic that you are teaching in the box to locate lesson plans for that topic or you can get a listing of all topics under the physical education category for each grade level.

Supplementary lesson plans can be found at the following website:
www.healthyschoolsms.org/healthinaction.html

ASSESSMENT METHODS

Assessment is the mechanism used to measure educational achievement. Assessment is important because it affects how the students view themselves and the way parents, community, and governing bodies evaluate schools and districts. The assessment methods suggested in this framework are also to be considered only as examples for assessing competencies and objectives. Teachers should correlate their assessment methods with the assignments chosen for instruction. Listed below are some examples of assessment methods.

1. **Activity Log**
2. **Checklist**
3. **Fitness Test**
4. **Interview**
5. **Observation/Teacher**
6. **Parent Report**
7. **Peer Assessment**
8. **Portfolio**
9. **Role Play**
10. **Self Assessment**
11. **Skill Test**
12. **Student Contract**
13. **Student Journal**
14. **Written Assignment**
15. **Written Test**

2013 MISSISSIPPI PHYSICAL EDUCATION FRAMEWORK OVERVIEW

Grades Kindergarten-Two

Kindergarten through grade two is dedicated to the development of fundamental motor skills, movement concepts, manipulative, non-manipulative, and perceptual motor skills. The instruction at each level will be progressive and focus on basic skills, the value of being physically active and the ability to display appropriate behaviors and attitudes during activity.

Grades Three-Five

Grades three through five continues the development of fundamental motor skills, movement concepts, manipulative, non-manipulative, and perceptual motor skills. Students are provided the opportunity to refine these basic skills and apply these skills in a movement form. The instruction will be progressive and focus on basic skills, the value of being physically active and the ability to display appropriate behaviors and attitudes during activity.

Grades Six- Eight

Physical Education in grades six through eight is dedicated to developing competency in many movement forms and their relation to an active lifestyle. The focus is to apply previously introduced skills and to acquire knowledge necessary for participation. The instruction at each level focuses on basic skills, lead-up activities and knowledge that demonstrate competency in each activity.

Grades Nine-Twelve

Grades nine through twelve are dedicated to the development of achieving competency in more complex versions of various movement forms and proficiency in a few movement forms. The focus of this instruction should be on individual/dual sports, team sports, physical fitness, and lifetime activities. It is recommended that students take one credit of physical education yearly.

Skills and Concepts

Movement Patterns/Concepts			
Body Awareness	**Spatial Awareness**	**Quality of Movement**	**Relationships**
Shapes	General	Time/Speed	Far/Near
Balance	Personal	Force	Above/Below
Transfer of body weight	Direction	Flow	Front/Behind
Flight	Levels		On/Off
Landing	Pathways		Together/Apart
	Planes		Around/Through

GENERAL ACTIVITY BY CATEGORY

The following list is not meant to be all-inclusive. These are merely some examples of different types of activities, and skills used while participating in the activities being taught in grades K-12. Teachers may select some or all of these activities.

Team Sports	Individual Sports	Lifetime Sports	Fitness
Basketball	Tennis	Canoeing	Aerobics
Softball	Pickleball	Hunter Education	Weight Training
Volleyball	Badminton	Archery	Running/Walking
Ultimate Frisbee	Bowling	Rollerblading	Walking/Running
Table Tennis	Golf	Dance	Pilates
Soccer	Gymnastics	Swimming/Water Sports	Yoga
Team Handball	Frisbee Golf	Biking	
Field Hockey		Orienteering	
Track and Field		Cooperative Education	
Flag Football			
Speedball			

CYCLE

The Mississippi content area frameworks are on a six (6) year cycle. Implementation of the framework begins in the school year, 2013-2014.

KINDERGARTEN - SECOND GRADE

The emphasis of physical education in **Kindergarten-Second grade** is to assist student development in fundamental motor skills, manipulative skills and movement experiences. Cognitive concepts associated with movement and fitness will enable the student to develop positive attitudes toward healthy lifestyles and physical activities.

Kindergarten-Second grade students begin to understand and model acceptable behaviors for the physical activity setting. Safe practices, classroom rules and procedures are prominent issues during instruction. Concepts of cooperation are introduced through small group activities, involving sharing equipment and space. Kindergarten students must be encouraged to participate in physical activities in and out of the classroom setting. Teachers must reinforce to students the importance of practice in order to learn and that it is acceptable to be a beginner when trying new skills.

Teachers in **first grade** should reinforce the benefits of participating in physical activity. Since young students can only focus on one or two concepts at a time, instructions for game activities should be simple and concrete.

Teachers in **second grade** should reinforce that changes in motor skills occur gradually over many years and that learning many different motor skills provides more choices for movement as they get older.

The physical education framework follows a developmentally appropriate sequence. Activities should be taught from the simple to the complex. ***The competencies are required to be taught*** through a variety of instructional strategies a district may develop. Competencies are not hierarchal or chronologically ordered. Competencies provide a general guideline of on-going instruction.

The suggested objectives are optional, not mandatory. Objectives indicate skills that enable fulfillment of competencies, describe competencies in further detail, or show the progression of concepts throughout the grades. School districts may adopt the objectives or modify them and are encouraged to add their own objectives to meet the competencies for instructing students in their school district.

KINDERGARTEN – SECOND GRADE

Content Strands

Gross Motor Skills Development (GM)
Fine Motor Skills Development (FM)
Social Skills (S)
Personal Skills (P)
Cognitive Development (C)
Lifelong Learning/Participation (L)
Fitness (F)
Adapted Physical Education (AP)

* See glossary

1. Demonstrate competency in motor skills and movement patterns/concepts needed to perform a variety of physical activities (GM, FM, F)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Develop fundamental locomotor*/non-locomotor*skills at an introductory level.	Students should follow specific instructions while performing basic activities, such as jumping with feet together from point A to point B.	**5**
Demonstrate clear contrasts between fast and slow.	Teachers may instruct students to mimic running speed of known animals (i.e., turtle, rabbit, and cheetah). Students should use a variety of *locomotor skills (i.e., jumping, galloping, and walking).	**5, 11**
Explore manipulative skills at an introductory level.	Students should locate body parts and identify which skill would be performed with each (i.e., have students bounce and catch a ball with both hands). Have students roll a ball back and forth with a partner or kick a sock ball.	**5**
Demonstrate rhythmic movements, timing, and following a beat at an introductory level.	Have students demonstrate a variety of locomotor movements to slow and fast music.	**12**

GRADE ONE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Develop fundamental locomotor*and nonlocomotor*skills at the basic level.	Have students walk, run, jump, hop, skip, gallop, slide and leap around the designated play area as directed. Some skills can be performed forward and backward or side to side.	**11**
Develop manipulative* skills at the introductory level.	Have students demonstrate throwing in an underhand and overhand movement pattern while stepping with the opposite foot.	**8, 11**

GRADE TWO

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate locomotor* movements at the intermediate level.	Teachers can have students participate in activities that include changes in the speed of movement, and direction. Students will demonstrate these commands with verbal cues from the teachers such as relay races and/or obstacle courses.	**5, 12**
Demonstrate non-locomotor* movements with proficiency.	Teacher will lead the class in a sequence of stretching exercises as a warm-up that can lead into an aerobic* or anaerobic* type activity	**5**
Demonstrate manipulative* movements at the beginner level.	Give students instruction on basic steps to jumping rope. Guide students into jumping rope at a fast pace, slow pace, and while in a forward motion.	**2**
Demonstrate rhythmic movements, timing, and following a beat.	Have students participate in basketball drills-shooting and dribbling, hula-hoop activities, and volleyball activities.	**2**

COMPETENCY 1. SAMPLE LESSON PLANS

P-1177 Look At Me **P-1186 Tomorrow is a Brand New Day** **P-177 Locomotor Basic Skills(Part 1)** **P-204 Locomotor Basic Skills(Part 2)**	**P -1178 Look At Me** **P-1110 Underhand Throwing Skills** **P-589 Hula Hoops (Part 1-5)** **P-205 Locomotor Basic Skills (Part 3)**	**P-1179 Look At Me** **P-207 Manipulative Skills 1** **P-251 Manipulative Skills 2** **P-206 Non-Locomotor Skills** **P-1182 Reach**

2. Demonstrate understanding of movement principles, strategies, and tactics as they apply to the learning, development and performance of physical activities. (GM, C, FM, AP, F)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify body parts (i.e., knee, foot, arm, etc.) and apply these to different movement activities.	Have students perform the musical game "Hokey Pokey."("You put your right hand in, take your right hand out")	**5**
Demonstrate awareness of immediate surroundings using a variety of movement skills while transferring weight in various directions and pathways.	Have students change direction of the movement on signal (may include north, south, east, and west).	**5**
	Have students identify and apply the concept of personal space and general space.	**5**

GRADE ONE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify body parts and movement of body parts during performance of motor skills.	Have students participate in the "Hokey Pokey."	**10**
Identify and apply fundamental locomotor* and non-locomotor* skills.	Have students use locomotor and non-locomotor combinations called out by teacher such as four jumps, three stretches, and five skips.	**10, 12**

Display manipulative skills* at the introductory level through a variety of activities.	Have students toss or bounce a ball to a designated target.	**5, 11**

GRADE TWO

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify the different body planes (i.e., front, back, side) and involve each while performing locomotor skills.	Have students participate in a line dance to music. Rhythm and balance should be identified as key elements. Have students participate in aerobic activities that include dance steps along with stretching exercises.	**5**
Apply movement concepts and principles to a variety of basic skills.	Perform locomotor skills (i.e., running, hopping, skipping, leaping, etc.) to a beat. When the beat changes, the locomotor skill changes to that which is specified by the teacher.	**5, 11**
Understand the benefits of trying new or difficult tasks.	Students should attempt to correct/improve their skill level based on feedback from the teacher. Feedback should be offered to students as soon as possible after the performance.	**5**

COMPETENCY 2. SAMPLE LESSON PLANS

P-1059 Parachute: Part 1	**P-1181 Reach**	**P-1111 Rainy Day Recess 1**
P-1060 Parachute: Part 2	**P-1111 Rainy Day Recess 1**	
P-1061 Parachute: Part 3	**P-1112 Rainy Day P.E.**	
P-1062 Parachute: Part 4	**P-254 Tying My Shoes**	
P-1063 Parachute: Part 5		
P-1180 Reach		

3. Participates regularly in physical activity (GM, L, F, C, L, S)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Regularly participate in a variety of non-structured physical activities in school settings and out of school settings (recess, home) individually and as a group.	Have students engaged in teacher-led exercises by participating in a tag game for aerobic activity (i.e., Freeze Tag, Heart Healthy Tag, or Amoeba Tag: Physical Best Activity Guide, Elementary level).	**5, 8**

GRADE ONE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply activities learned during physical education in other settings.	Provide students with a checklist of after-school activities. Have students check which activities they participated in for the week. Discuss activities that are healthy and physically beneficial. Such activities may include dance, gymnastics, bicycling, sports, and walking.	**2**

GRADE TWO

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Engage in moderate to vigorous activities* such as bike riding, swimming, etc., outside of class. Discover the positive effects physical activity has on the body (i.e., enhances respiratory functions, stimulates muscle growth, decreases hyperactivity, increases heart rate).	Have students draw pictures of people involved in different types of vigorous activities and identify feelings associated with each (i.e., happy, sad, tired, etc.). Give students a list of activities and have them identify how each of the activities makes them feel.	**15**

COMPETENCY 3. SAMPLE LESSON PLANS

P-1158 Getting Active with Jack the Apple **P-1155 I'm Healthy** **P-1184 The Heart Song** **P-1113 Posture**	**P-1187 Tomorrow is a Brand New Day** **P-1123 Cardio-Respiratory Fitness** **P-1153 The Freeze Game** **P-1124 Speed and Power**	**P-1188 Tomorrow is a Brand New Day** **P-1156 Paper War** **P-1154 Mental Energizers**

4. Achieve and maintain a health-enhancing level of physical fitness. (GM, FM, C, F, L)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Vigorously*participate in physical activity for a sustained amount of time.	Have students run back and forth across a specified distance at a pace that gets faster each minute (i.e., FITNESSGRAM Pacer test).	**5**
Recognize the change in heart rate and respiration as a result of physical activity.	Have students locate the heart with the right hand and show speed of heart beating by opening and closing left hand.	**5**

GRADE ONE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify changes in the body that occur at different levels of physical activity.	Have students identify changes in heart rate, perspiration, and breathing patterns while they participate in aerobic activities (i.e., jumping rope, running, walking).	**3**
Participate in basic exercises and physical activities with moderate efficiency.	Introduce students to the exercises that are assessed in the ***President's Challenge on Physical Fitness and/or FITNESSGRAM*** **www.fitnessgram.net** **www.presidentialyouthfitnessprogram.org** (aerobic capacity, body composition, muscular strength, muscular endurance, and flexibility).	**3**
Engage regularly in moderate to vigorous activity*, emphasizing muscular strength*, flexibility*, and cardiovascular endurance*.	Students will walk, jog, or run laps for a specified amount of time around an area designated by the teacher. At the end of each lap the student is given a straw to keep count. Have students' complete pre-post test. Students will use a clock as the measurement of time.	**5, 11**
Accomplish and retain physical fitness goals set at the introductory level.	Have students participate in a teacher constructed fitness test at the beginning and the end of the school year.	**3, 9**

GRADE TWO

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Engage in and recognize the benefits of sustained physical activity that causes increased heart rate and respiration.	The teacher can have students participate in moderate to vigorous physical activity (MVPA*) such as, (running, jogging, jumping jacks) and then compare and contrast the changes in heart rate and perspiration. Students can compare their heart rate before and after MVPA by counting the heart rate for six seconds and adding a zero.	**15**
Recognize components of physical fitness such as muscular strength, muscle endurance, and flexibility at an introductory level.	Students will complete and discuss all 5 activities (i.e., curl-ups, endurance run, pacer, pull-ups or right angle push-ups, shuttle run, V sit reach or sit and reach, or shoulder stretch) of the ***President's Challenge to Physical Fitness and Sports Test*** or ***Fitnessgram*** and compare/contrast fall test scores to spring test scores. **www.fitnessgram.net** **www.presidentialyouthfitnessprogram.org**	**3, 15**
Perform activities that result in the development of muscle strength and endurance, flexibility, and coordination at an introductory level.	Teacher will have students perform muscular strength and endurance exercises that include but are not limited to crunches, push-ups, and pull-ups. Students will also perform basic flexibility exercises for the upper and lower extremities and explain the benefits of flexibility.	

COMPETENCY 4. SAMPLE LESSON PLANS

P-1291- P-1305 Moving with Fruits and Vegetables **P-1114 Balance**	**P-1144 Body Composition** **P-1119 Warm-Up/Cool-Down**	**P-1140 Strength and Endurance** **P-1129 Training Principles** **P-1125 Fitness** **P-1115 Coordination and Agility**

5. Exhibit responsible personal and social behavior that respect s self and others in physical activity settings. (L, F, P, S, AP)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Follow rules, procedures and safety practices while recognizing inappropriate behavior.	Students should follow specific instructions from the teacher while performing basic activities, such as jumping with feet together from point A to point B.	**5**
Follow directions and work cooperatively with others during physical activity.	Have students choose a partner and then decide on a skill to practice (i.e., push-up, curl-up, balance beam, etc.).	**8**
Demonstrate proper use and care of equipment.	Explain to students the importance of properly using and caring for equipment. Provide specific instructions for students to follow when they are finished with equipment.	**5**

GRADE ONE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply rules, procedures, and safety practices with little reinforcement from teacher.	Students will identify a skill that is challenging to them and demonstrate a positive attitude while practicing this skill. Reinforce that challenging skills will vary from student to student.	**5**
Demonstrate proper courtesy, cooperation and sportsmanship with others.	While participating in games such as "Duck, Duck Goose" students should demonstrate the ability to share space.	**5**
Respect the physical and performance differences of others.	Students will use locomotor skills on a low balance beam (1"x4"h, 2"x4"w or painted lines on the parking lot can be substituted for the balance beam). Reinforce the importance of students encouraging other students.	**5**

GRADE TWO

Apply rules, procedures, and safe practices with little or no reinforcement.	Perform locomotor skills (i.e., running, hopping, skipping, leaping, etc.) to a beat. When the beat changes, the locomotor skill changes to that which is specified by the teacher.	**11**
Work cooperatively with a partner or group and recognize the enjoyment of shared play.	Instruct students on the correct form of kicking a soccer ball while running. Have students practice a number of drills using the soccer ball (i.e., dribbling and passing, etc.).	**5, 11**
Recognize and experience physical activities from other cultures.	Have students participate in games from other countries. Such examples include the "Corkscrew" (England), "Peteca" (Brazil), "Catch Your Tail" (Nigeria), "Spearing the Disk" (Ethiopia), "Catching Fishes in the Dark" (China), and "Ladder Jump" (Australia). Have students use maps to locate the country and/or continent where the game originated. (Resource- *Multicultural Games*, Human Kinetics, 1997)	**5, 12**

COMPETENCY 5. SAMPLE LESSON PLANS

P-1189 Safe Routes to School - K-2 - Lesson 1	**P-1193 Safe Routes to School - First Grade - Lesson 1**	**P-1157 Diversity Elementary: Abilities**
P-1191 Safe Routes to School - Kindergarten - Lesson 2	**P-1170 Math Fact Fun**	**P-1145 Fitness Addition**
	P-1128 What If You Lose When You Play to Win?	**P-1120 All Fit Workout**
		P-1116 I've Got It

6. Value physical activity for health, enjoyment, challenge, self-expression, and/or social interaction. (P, S, AP, L, C)

KINDERGARTEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Express a positive outlook during physical activity and enjoy interaction with others.	Have students choose a partner and then decide on a skill to practice (i.e., passing a soccer ball, basketball, or volleyball etc.). Instruct students to exercise when the music is on and rest when the music is off.	**8**
Develop skills while participating in different activities individually and while working with others.	Have students choose a partner and then decide on a skill to practice (i.e., bouncing a ball, tossing a ball with a partner, etc.). Instruct students to exercise when the music is on and rest when the music is off.	**8**

GRADE ONE

Recognize the feelings resulting from challenges, successes, and failures during physical activity.	Students will discuss how they feel when participating in various physical education activities.	**12**
Exhibit a positive outlook while encouraging peers during physical activity.	Students will use locomotor skills on a low balance beam (1"h x 4"w, 2"h x 4"w or painted lines on the parking lot can be substituted for the balance beam). Reinforce the importance of students encouraging other students.	**5**
Express a willingness to try new activities and continue to participate when not successful on the first try.	Students will identify a skill that is challenging to them and demonstrate a positive attitude while practicing this skill. Reinforce that challenging skills will vary from student to student.	**5**

GRADE TWO

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Cooperate in helping others to achieve goals. Be aware of the feelings resulting from challenges, successes, and failures during physical activity.	The teacher will have students identify a partner and work cooperatively with their partner to complete the task assigned. Have students express feelings they associate with physical activity.	**15**

COMPETENCY 6. SAMPLE LESSON PLANS

P-1189 Safe Routes to School - K-2 - Lesson 1 **P-1143 Heads, Shoulders, Knees and Toes**	**P-1199 The Tortoise and the Hare - Grades 1 & 2** **P-1141 The Butterfly** **P-1118 Mighty Me Training Camp**	**P-1142 Fitness Spelling** **P-1138 Rock the Baby** **P-1136 Dog and Cat**

THIRD-FIFTH GRADE

The emphasis of physical education in **third-fifth grades** is to demonstrate a mature form in fundamental motor skills, and continue the development of manipulative skills and movement experiences. Students will begin to use non-locomotor skills in combination with movement skills. Cognitive concepts associated with movement will enable the student to demonstrate positive attitudes toward healthy lifestyles and physical activities.

Third and fourth grade students will model acceptable behaviors for the physical activity setting. Safe practices, classroom rules, and procedures are prominent issues during instruction. Concepts of cooperation are reinforced through large group activities. Students should recognize the value of rules, fair play, safety and respect for others.

Teachers should reinforce the physical and mental benefits of aerobic activity. Teachers should also reinforce the importance of visual focus (see glossary) while performing a skill. Lead- up activities are emphasized for application of learned skills. Students should be able to follow specific rules, procedures, and etiquette involved in physical activity.

The physical education framework follows a developmentally appropriate sequence. Activities should be taught from the simple to the complex. ***The competencies are required to be taught*** through a variety of instructional strategies a district may develop. Competencies are not hierarchal or chronologically ordered. Competencies provide a general guideline of on-going instruction.

The suggested objectives are optional, not mandatory. Objectives indicate skills that enable fulfillment of competencies, describe competencies in further detail, or show the progression of concepts throughout the grades. School districts may adopt the objectives or modify them and are encouraged to add their own objectives to meet the competencies for instructing students in their school district.

THIRD-FIFTH GRADE

Content Strands

Gross Motor Skills Development (GM)
Fine Motor Skills Development (FM)
Social Skills (S)
Personal Skills (P)
Cognitive Development (C)
Lifelong Learning/Participation (L)
Fitness (F)
Adapted Physical Education (AP)

* See glossary

COMPENTENCIES and Suggested Objectives:

1. Demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activities. (GM, FM)

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Begin to use locomotor* and nonlocomotor* skills to perform rhythmic activities.	Students will perform a game of Hopscotch. Balance and smooth transition should be identified as necessary skills to be successful.	**15**
Demonstrate an intermediate form of manipulative skills.	Have students demonstrate mirroring/matching, meeting/parting, leading/following, and moving over/under. (Mirroring – Have students face one another and simultaneously do the same movements (i.e., jumping jacks, hopping on one foot, waving, etc.) as their partner. Matching – Have students repeat a motion after seeing a partner demonstrate a movement (i.e., jumping, jacks, hopping on one foot, waving, etc.).	**15**
Perform fundamental movement skills* in a variety of settings.	Students should complete a teacher-constructed obstacle course that requires a variety of locomotor movements, nonlocomotor movements, and manipulative skills (i.e., push, pull, rope climb, balance beam, beanbag toss, under, over, etc).	**2**

Apply manipulative* skills to accomplish the objective of the activity.	With a partner, students will use proper form (i.e., positioning of hands depending on the height of the throw, bending of elbows to absorb the force, catching the ball with hands) when receiving a ball.	**2, 11**

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply manipulative skills* to enhance participation in physical activity settings.	Have students participate and learn rules in lead-up games such as one base baseball, sideline soccer, 2 on 1 hockey, and basketball, Frisbee to demonstrate manipulative skills* (i.e., bouncing, throwing, kicking, rolling, striking, and trapping the ball, puck, or Frisbee).	**5, 17**
Employ fundamental movement skills* in various settings.	Students will use proper form (i.e., positioning of hands depending on the height of the throw, bending of elbows to absorb the force, catching the ball with hands only) when receiving a ball from a partner.	**5**

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate smooth combinations of fundamental movement skills through rhythmic patterns.	Have students learn and perform simple dances in time with music, such as, polka step (hop-step-together-step), Electric Slide, Cha-Cha Slide.	**11**
Demonstrate improvement of form, strength, and accuracy in performing	Have students practice overhand/underhand throwing, catching, shooting, dribbling, kicking, and striking	**2**

manipulative skills*. Demonstrate movement skills with productivity during team activities.	activities at varying distances. Play “Rip Flag” (i.e., Two teams will have different color flags attached at the waist level with Velcro. Each team must attempt to capture the other team’s flags using chasing and fleeing skills).	**5**

COMPETENCY 1 SAMPLE LESSON PLANS.		
P-1121 Rainy Day Recess 1: Intermediate Grades **P-909 Math Battle Field** **P-853 Scientific Head Shoulders Knees and Toes 1** **P-852 Scientific Head Shoulders Knees and Toes 2**	**P-973 Classroom Olympics** **P-859 Jumping to Learn** **P-891 Multiplicity Volleyball**	**P-910 Three Facts and a Fib** **P-900 Jump the Solar System** **P-847 Virus Attack**

2. Demonstrate an understanding of movement concepts, principles, strategies, and tactics as they apply to the learning and performance of physical activities. (C, L, GM, FM)

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Adapt body movements according to particular obstacles.	Students should complete a teacher-constructed obstacle course that requires a variety of locomotor movements, non-locomotor movements, and manipulative skills (i.e., push, pull, rope climb, balance beam, beanbag toss, under, over, etc).	**2**
Understand how appropriate practice improves performance.	Have students engage in activities such as horseshoes, basketball, and soccer. Have students identify which skill is being used and why. (For example, when playing horseshoes, the students should use the underhand toss instead of the	**5**

	overhand throw so the landing of the horseshoe is much softer.)	
Improve performance by participating in new and difficult tasks.	Students will use proper form (i.e., positioning of hands depending on the height of the throw, bending of elbows to absorb the force, catching the ball with hands only) when receiving a ball from a partner.	**2, 11**

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply specific direction and force to manipulative skills.	Have students demonstrate the proper grip on a tennis racket to perform the forehand groundstroke. Explain how the amount of force applied determines the distance that the ball lands.	**5**
Incorporate basic offensive and defensive strategies (i.e., one –on- one, arms out for balance on the balance beam, alignment of players in volleyball, etc.) in a variety of settings.	Students will participate in a game of "Capture the Flag". Each team has a designated area called "base". "Base" is where each team's flag is located. Each team also attempts to capture the opponent's flag while protecting their flag. Observe students to determine if they are incorporating learned skills into game settings.	**5**

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Plan basic offensive and defensive strategies designed for team activities.	Have students create a routine using basketball passing skills (i.e., three-on- three dribble/pass, three-on-two, two-on- one full court drill.	**5**
Recognize the critical elements that would enhance a peer's performance of a specialized skill (i.e., grip in tennis, dribbling with finger tips in basketball, etc.).	Use task cards or sheets for peers to critique another student's technique of specialized skills (i.e., passing, dribbling, striking, and shooting).	**8**

COMPETENCY 2. LESSON PLANS

P-1309 Basketball Basics – Dribbling	**P-1320 Playground Ball Basics - Passing and Catching**	**P-1321 Playground Ball - Four Square**
P-1310 Basketball Basics – Passing	**P-1319 Soccer Basics – Heading**	**P-1314 Measuring the Basketball Court**
P-1311 Basketball Basics - Shooting	**P-1315 Football Basics - Passing**	**P-1122 Rainy Day P.E.: Intermediate Grades**
P-1318 Soccer Basics – Dribbling	**P-1317 Football Basics - Punting a Football**	**P-1008 Chinese Jump Rope MCT2 Review**
P-1316 Football Basics – Running With the Ball	**P-981 String Games**	**P-978 Fantastic Fun Stunts**
P-975 3-Rs	**P-971 Historical Who Am I**	**P-946 Space Exercises**
P-945 Flying Lid Football	**P-940 Snowball Math**	**P-942 The Tug of the Civil War**
P-908 Arm Yourself	**P-787 International Hopscotch**	

3. Participates regularly in physical activity (GM, L, F, C, L, S, AP).

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Engage in moderate to vigorous* physical activities.	Students will engage in a series of exercises (i.e., running, walking, jumping, hopping, calisthenics*, etc.) to improve aerobic endurance for a specified amount of time. Students should identify changes that occur in the functions of their body.	**11**
Explain the importance of a physically active lifestyle.	Students will develop an individual plan to exhibit a physically active lifestyle.	**8**

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate regularly in a variety of physical activities.	Teacher will have students participate in physical activities that will improve the student's cardiovascular health and enhance their skill level.	**12**
Maintain participation in activities outside of the school setting.	Encourage students to participate in moderate to vigorous physical activities such as intramural sports offered by the school or local community programs. Have students write about physical activity experiences in other settings.	
Identify benefits derived from physical activities.	Students will identify their strengths and weaknesses by participating in fitness tests, such as "Presidential Challenge to Physical Fitness" **www.presidentialyouthfitnessprogram.org**	

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify opportunities in the school and community for regular participation in physical activity.	Keep a daily log of activities students perform outside the classroom (i.e., church league, boys and girls club, YMCA, city league).	**15**
Participate in physical activities that will help prevent a sedentary lifestyle.	Encourage students to participate in activities such as walking, bicycling, and fishing. Discuss how these activities help prevent a sedentary lifestyle.	**2**

COMPETENCY 3. SAMPLE LESSON PLANS		
P-951 World Cup Soccer **P-860 Membrane Mayhem**	**P-939 Dictionary Dash** **P-848 Skeletal Simon Says**	**P-915 Toxic H2O**

4. Achieve and maintain a health-enhancing level of physical fitness (F, L, C)

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Maintain aerobic* physical activity (i.e., continuous training, circuit training, etc.) for a specific time frame.	Engage in selected activities that maintain the heart rate within the target heart rate*zone for a specified amount of time. See glossary on how to calculate target heart rate zone. Students should use basic multiplication, addition, and subtraction to calculate heart rate and target heart rate zone.	**9**
Identify the importance of leading a healthy lifestyle.	Students will bring magazine pictures or drawings showing people with and without characteristics of a healthy lifestyle. Compare/contrast pictures.	**11**

Associate specific physical activities with the components of health-related fitness (muscular strength*, muscular endurance*, flexibility*, body composition*, and aerobic fitness*).	Students will engage in a series of exercises (i.e., running, walking, jumping, hopping, calisthenics*, etc.) to improve aerobic endurance for a specified amount of time. Students should identify changes that occur in the functions of their body.	**11**

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in moderate*to vigorous*physical activities (MVPA) on a daily basis.	Have students participate in calisthenics*, lead-up games, or individual skills (i.e., balancing, running, hopping, skipping, throwing, catching, striking, kicking, etc.) to improve performance in activities that require students to use many skills.	**5**
Understand health related fitness standards (muscular strength*, muscular endurance*, flexibility*, aerobic fitness*, and body composition*) as defined by fitness testing* and demonstrate physical fitness.	Students will identify their strengths and weaknesses by participating in fitness tests, such as ***"Fitnessgram"*** or the ***Presidential Youth Fitness Program.*** **www.fitnessgram.net** **www.presidentialyouthfitnessprogram.org**	**12, 15**

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Meet health-related fitness standards (i.e., muscular strength*, muscular endurance*, flexibility*, aerobic fitness*, and body composition*) as defined by fitness testing.	Administer pre and post fitness tests to measure cardiovascular endurance, muscular strength/endurance, body composition*, and flexibility. Have students write a summary about their perception of the fitness test results.	**3**
Demonstrate several activities involving each component of health-related fitness (muscular strength*, muscular endurance*, flexibility*, aerobic fitness*, and body composition*)	Keep a daily log of activities students perform outside the classroom (i.e., church league, boys and girls club, YMCA, city league). `	**15**

COMPETENCY 4. SAMPLE LESSON PLANS

P-953 Progressive Storytelling	**P-937 Geography Walk**	**P-913 Noun Master**
P-911 Number Line Up	**P-907 Foul Ball**	**P-904 Jumping Out of this World**
P-897 Buzz Walking	**P-896 Minute Marathon**	**P-849 Skeleton Race**
P-801 Camera Walk	**P-627 Fitness Testing for the Classroom**	**P-295 Break it Down**
P-260 No Couch Potato		

5. Exhibit responsible personal and social behavior that respects **self and others in physical activity settings. (P, S, L, AP)**

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply rules, procedures, and safety principles to any type of physical activity.	Have small groups of students create rules and procedures for a throwing and catching activity. Each group will then teach the activity to the class. After understanding the rules and procedures, have students participate in the different activities.	**5, 8**
Work with others to obtain the common goal of an activity.	Have students work in groups to create and perform a dance routine to music from different cultures based on a story from that country. Have students demonstrate movements (running, jumping, falling, throwing, etc.), to show feelings (happy, sad, etc.) of the characters.	**5, 8**
Respect the limitations and abilities of themselves and others during physical activity.	Have students create props that explain the setting (country).	

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Work cooperatively and productively with a partner or in a group setting. Accept and respond to winning and losing with dignity and understanding.	Have students work with a partner or group and complete a circuit of exercises that address health-related components of fitness. Have students write three sentences on the feelings they have when winning/losing and three sentences about the positive outcomes gained by participation in the game/sport.	

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate an understanding of various roles within group activities.	Assign students different roles within physical activities (i.e., student leader, umpire, scorekeeper, equipment manager, etc.) Rotate roles throughout the activity. Have students write about the responsibilities and importance of each role.	**5, 16**
Recognize and follow rules and procedures while maintaining ethical behavior during physical activities.	Have small groups of students create rules and procedures for a throwing and catching activity. Each group will then teach the activity to the class. After understanding the rules and procedures, have students participate in the different activities.	**11**
Identify areas of concern for safety of self and others in physical activities.	Have students list safety procedures for specific activities according to the level of involvement (i.e., player wearing helmet, player remaining in on-deck circle, spectator remaining aware of surroundings, umpire wearing	**16**

Work cooperatively with peers who demonstrate variations in skill development.	protective gear, media remaining in designated areas, etc.). Use task cards or sheets for peers to critique another student's technique of specialized skills (i.e., passing, dribbling, striking, and shooting).	**8**

COMPETENCY 5. SAMPLE LESSON PLANS

P-1313 Measuring the Bounce	**P-1312 How Far Will They Roll?**	**P-1308 History of Soccer Scavenger Hunt**
P-1307 History of Football Scavenger Hunt	**P-1306 History of Basketball Scavenger Hunt**	**P-1222 Bicycle Safety Skills - Grade 5**
P-1212 Behaviors of Safe Bikers - Grade 4	**P-1127 Street Games**	**P-970 Name Them All**
	P-950 Funnel Cloud Fun	**P-949 Prey and Predator**
P-954 Rope Ball	**P-938 Girl Power**	**P-903 Name Game Show Off**
P-948 Roadway Math	**P-899 Ships and Sailors**	**P-858 Knots of Fun**
P-902 What is Your Angle?	**P-805 Turkey Trot with Thankful Hearts**	**P-304 Famous American Circuit**
P-857 Get Up Glyphs	**P-285 Shadow Tag**	**P-264 Rock, Paper, Scissors, Compute**
P-301 Who's the Leader?		

6. Value physical activity for health, enjoyment, challenge, self-expression, and/or social interaction. (S, C, F, L, P, A)

GRADE THREE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Assist peers to achieve success in physical activity settings.	Have students teach a skill identified by the teacher to a lower grade level or assist a peer in skill development.	**5**

GRADE FOUR

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Express enjoyment while participating in physical activity. Recognize personal challenges and experiences in physical activities.	Encourage students to participate in moderate to vigorous physical activities such as intramural sports offered by the school or local community programs. Have students write about physical activity experiences in other settings. Have students select and practice a skill that he/she needs to improve.	**12** **12**

GRADE FIVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Recognize positive feelings that result from participation in physical activities.	Create drawings, posters, or cartoons for the school/local newspaper that display the benefits of participating in physical activity.	**5, 11**

COMPETENCY 6. SAMPLE LESSON PLANS

P-1217 Safe Routes to School - Pollution - Grades 4, 5, and 6	**P-1214 Safe Routes to School - Cost - Grade 5**	**P-1213 Bicycle Rodeo - Grades 5 & 6**
P-1192 Safe Routes to School - Grades 3-5 - Lesson 1	**P-972 BAM! Body and Mind**	**P-969 Mystery Ball**
P-944 Rainforest Expedition	**P-943 Synonym Paired Virginia Reel**	**P-914 What Time is It?**
P-905 Spelling Cheer	**P-898 Punctuation Power**	**P-893 Paper Skating**
P-892 Silent Spelling Bee	**P-856 Sport Alliterations**	**P-855 Metaphors and Similes in Motion**
P-802 Find It and Phrase It	**P-794 Chicken Dance Fun**	**P-793 Recreate Please**

P-628 Pop Walk **P-290 Rhyme Mine** **P-280 Biome Boogie**	**P-302 Password Pantomime** **P-289 Lights, Camera, Action**	**P-292 Question of the Day** **P-282 Travel the Magnolia State**

SIXTH-EIGHTH GRADE

Physical education for **sixth-eighth grade** students should provide experiences for social interaction while following rules, regulations, and safety procedures. It should provide a positive setting for students to compete, gain respect for others, and to build self-confidence. Students will be challenged by high levels of competition and by learning new and/or different activities. Most skills should be practiced as a whole so that rhythm is maintained.

Fitness is a major component of the **sixth-eighth grade** framework. Students should participate in numerous fitness activities for varying lengths of time. Participation in these activities should enable students to develop diversity.

The teacher should reinforce consistency in performing complex skills in complex environments. Students should be aware that individuals learn skills at different rates and mastery is not solely based on the amount of time spent performing the skill. Teachers should also reinforce short-term goals, independence and healthy lifestyles so students can easily identify personal successes.

The physical education framework follows a developmentally appropriate sequence. Activities should be taught from the simple to the complex. Competencies may be taught in any format a district may develop. ***The competencies are required to be taught.*** Competencies are not ranked in order of importance; rather, the sequence of competencies relates to the broader K-12 framework. Competencies provide a general guideline of on-going instruction.

The suggested objectives are optional, not mandatory. Objectives indicate skills that enable fulfillment of competencies, describe competencies in further detail and show the progression of concepts throughout the grades. School districts may adopt the objectives and modify them and are encouraged to write their own objectives to meet the competencies for students in their school district.

SIXTH-EIGHTH GRADE

Content Strands

Gross Motor Skills Development (GM)
Social Skills (S)
Cognitive Development (C)
Fitness (F)
Fine Motor Skills Development (FM)
Personal Skills (P)
Lifelong Learning/Participation (L)
Adapted Physical Education (AP)

* See glossary

COMPETENCIES and Suggested Objectives:

1. Demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activities. (GM, FM, C)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate smooth combinations of fundamental movement skills through rhythmic patterns.	Teach rhythmic activities using a variety of sports equipment (i.e., dribbling to music, using stretch bands, performing rhythmic parachute activities).	**8**
Demonstrate improvement of form, strength, and accuracy in performing manipulative skills*.	Play dribble tag. Have two to four students dribble a ball while chasing other students. The students who are being chased should be required to use a variety of locomotor* skills, such as running, hopping, skipping and to change them on command. Have students assume various roles during activity.	**5, 8**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate competency with increasing proficiency in movement skills while participating in team and individual sports.	The opponent will return the serve in tennis using the forehand or backhand stroke. Have students field the ball (i.e., softball or baseball) using the correct technique.	**2, 13**
Perform continuous (possibly using rhythmic activities) and discrete skills (i.e. discrete skills have a defined beginning and end and continuous skills are ongoing).	Encourage students to exhibit positive peer interaction while participating in various activities that include non-traditional sports (e.g., Field hockey, fencing, archery).	**5**
Develop offensive and defensive strategies in individual and team sports.	Use bouncing a ball to music, jumping rope to music, and/or tinikling (National dance for the Philippines that combines physical education and music).	**8**

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate increased proficiency in movement skills while participating in team and individual sports.	Have students demonstrate various physical activities that include locomotor* and non-locomotor* movements.	**2, 13,**
Perform continuous and discrete skills (i.e., discrete skills have a defined beginning and end and continuous skills are ongoing).	Have students practice discrete skills (i.e., forearm volleyball pass, bowling) and continuous skills (i.e., juggling, dribbling a basketball).	**5**
Execute offensive and defensive strategies in individual and team sports.	Have students participate in scrimmage game (i.e., badminton or soccer) to apply learned skills.	**5**

COMPETENCY 1. SAMPLE LESSON PLANS

P-1134 Sport Stacking: Day 1	**P-368 Geography Golf: Day 5**	**P-1098 Lead-Up Soccer 1**
P-1146 Sport Stacking: Day 2	**P-1105 Stack It Up!**	**P-1099 Lead-Up Soccer 2**
P-1147 Sport Stacking: Day 3	**P-1104 Volley Up!**	**P-1100 Lead-Up Soccer 3**
P-1148 Sport Stacking: Day 4	**P-1103 Lead-Up Volleyball]**	**P-1102 Lead-Up Soccer 4**
P-1149 Sport Stacking: Day 5	**P-1076 Pushup/Chair Dip Challenge**	**P-1101 Lead-Up Soccer 5**
P-1087 Quick Muscle Pump 1	**P-1077 Ball Activity Warm-Up Day 1**	**P-1089 Squat it Out! 1**
P-1082 Jump Start the Class 1	**P-1078 Ball Activity Warm-Up Day 2**	**P-1066 Grab that Flag: Team Play**
P-1083 Jump Start the Class 2	**P-1079 Ball Activity Warm-Up Day 3**	**P-941 Deck Tennis: Serve It Up!**
P-1084 Jump Start the Class 3	**P-1080 Ball Activity Warm-Up Day 4**	**P-813 Lane Soccer**
P-1086 Jump Start the Class 4	**P-1081 Ball Activity Warm-Up Day 5**	**P-774 Two-on-One Soccer**
P-343 Geography Golf: Day 1	**P-1106 BB/FT Ball**	**P-611 Moving with Adverbs**
P-356 Geography Golf: Day 2		**P-550 Reading Trivia Tag**
P-357 Geography Golf :Day 3		**P-1108 Pickleball**
P-367 Geography Golf: Day 4		**P-1107Speed Ball**

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics as they apply to the learning and performance of physical activities. (C, F, L, GM)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessment
Analyze the critical elements that would enhance a peer's performance in a specialized skill.	Have students create a checklist according to activity to determine if a peer is using appropriate techniques to enhance performance.	**8**
Comprehend the importance of warm-up* and cool down* techniques during physical activity.	Teach proper warm-up*/cool down* techniques to prevent injury. Have students warm-up and cool-down before and after all activities (i.e., hold stretching and walking to reduce heart rate after running).	**8**
Create and modify activities that provide practice of selected skills to help improve physical performance, begin offensive and defensive strategies	Explain/demonstrate proper technique for specific activities. Watch teacher-made video on correct/ incorrect form of specialized skill (i.e., throwing, catching, shooting, movement skills, etc.) and critique performance of that skill.	**2, 5**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Create and modify activities that provide practice of selected skills to help improve physical performance.	Teacher can have students return a serve in tennis using the forehand or backhand stroke. Have students field the ball (i.e., softball or baseball) using the correct technique.	**2, 13**
Identify the basic training principles (i.e., FITT*, Warm-up/Work-Out/Cool Down, specificity, overload, intensity).	Discuss the changes (i.e., increased heart rate, perspiration, increased respiration, etc.) that occur after performing physical activity based on the FITT principal (Frequency, Intensity, Time, and Type of activity). Have students identify the weakest area and create a plan for improvement.	**12**
Discuss concepts that impact the quality of proper practice techniques.	Explain the skills necessary to maximize student's success in performing the underhand serve in the following phases of volleyball. <u>Preparation phase</u>- feet in comfortable stride, weight evenly distributed, and eyes on ball <u>Execution Phase</u>- swing arm back, transfer weight, contact ball with heel of open hand, and contact ball below center <u>Follow through</u>- swing striking hand forward to top of net, and transfer weight to front foot. Have students observe a peer performing one or all of the components of this skill and provide feedback.	**2,4,11,12**

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Create offensive and defensive strategies in physical activities.	Devise a game using offensive and defensive strategies in specific sports. (i.e., When students are playing capture the flag, have them decide how many will stay to protect the flag and how many will attempt to capture the other team's flag. Have students determine if man-to-man coverage or zone coverage in a game of basketball would be the best strategy to maximize chances of success.)	**8**
Apply appropriate warm-up and cool down* techniques while participating in a variety of physical activities.	Perform warm-up* and cool-down* exercises before and after activities throughout the year and discuss the importance of each. Observe students to ensure that proper stretching techniques are being used.	**5**
Utilize principles of training and conditioning (FITT*, Warm-up-Work out- Cool down*, specificity*, intensity*, overload*) to improve physical fitness.	Research safety practices for basic muscular strength and endurance principles and create a fitness plan that includes principles of training and conditioning. Students will share this information with their class.	**5,8,15**
Understand how biomechanics (i.e., human movement from a variety of perspectives) affects performance.	Have students understand how proper hip rotation improves performance of striking skills and how knee extension improves performance of a kicking skill. Have students demonstrate these proper techniques.	**5,8**

COMPETENCY 2. SAMPLE LESSON PLANS

P-1131 Clowning 101: Part 1	**P-1075 Seasons of the Year: The Kinesthetic Way**	**P-825 Foot/Basket Ball**
P-1132 Clowning 101: Part 2	**P-1074 Math Basketball**	**P-503 Too Close for Comfort**
P-1085 Four Square: Ready for Fitness	**P-1067 Synaptic Tag**	**P-383 Synaptic Tag: The Brain on Drugs**

3. Participates regularly in physical activity (GM, L, F)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in physical activities in and out of the school's physical education setting.	Students will complete a group project to identify places for physical activity in school/community. Students should be encouraged to exhibit responsible personal and social behavior.	**15**
Participate in moderate to vigorous physical activity (MVPA) on a regular basis.	Use pedometer to count steps throughout the day. Record results in a physical activity log.	**9**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in physical activities based on individual interests or capabilities.	List personal interests and abilities and have student's research opportunities available in these areas to meet their fitness needs.	**1**
Explore different lifelong physical activities.	At the beginning of the year give an interest survey on lifelong physical activities. The teacher should incorporate the results in yearlong	**15**

	planning.	

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in games, sports, dance, and/or other activities in a variety of settings that are based on personal interests.	Have students participate in a variety of activities based on their own interests. Reinforce that these activities could be different for everyone and that mastery of a skill is not necessary for enjoyment. Use survey to determine activities.	**15**
Set personal physical fitness goals based upon the results of fitness assessments.	Use fitness test results to have students determine if they are achieving their fitness goals. Design meaningful fitness goals based on the results of the ***Presidential Youth Fitness Program*** test or other instructor initiated fitness test. www.presidentialyouthfitnessprogram.org	**3**
Participate and apply basic muscular strength and endurance principles and safety practices both inside and outside of school.	Research safety practices for basic muscular strength and endurance principles. Share information with class.	**16**

COMPETENCY 3. SAMPLE LESSON PLANS

P-1093 Crunch Those Abs! 1	**P-1092 Pump It Up Please!**	**P-1058 Pace Yourself**
P-1094 Crunch Those Abs! 2	**P-1090 Squat it Out! 2**	**P-916 Modern Day Tinikling**
P-1095 Crunch Those Abs! 3	**P-1064 Hoops for Heart**	**P-279 Fitness Stations**
P-1096 Crunch Those Abs! 4	**P-612 Fitness Four Square**	**P-1097 Crunch Those Abs!**

4. Achieve and maintain a health-enhancing level of physical fitness. (L, C)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify each health-related fitness component (i.e., cardiovascular endurance*, muscle strength*, flexibility*, muscular endurance*, and body composition*) and the impact of physical participation on these components.	Have students participate in health related fitness activities and explain the importance of each component. Reinforce science skills by explaining how physical activity and proper nutrition affect the major organs of the body.	**9**
Establish and monitor progress toward appropriate personal fitness goals in each of the components of health-related fitness.	Have students maintain his/her target heart rate zone* (see glossary) for 20 minutes while participating in an activity of their choice.	**3**
Examine pre-and post-fitness test scores after participation in fitness-enhancing activities.	Have students graph pre- and post-fitness test scores and compare results. Have students answer questions about fitness levels and improvements.	**17**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in fitness assessment and developmentally appropriate health-related activities for the purpose of improving skill performance and physical fitness.	Administer a health related fitness test. ***Presidential Youth Fitness Program*** www.presidentialyouthfitnessprogram.org Use health related activities from Physical Best or other fitness curricula. ***Physical Best***- www.aahperd.org	**3**

Design a personal fitness plan*.	Based on fitness scores have students develop a fitness plan that improves body composition, muscular strength, muscular endurance, flexibility, aerobic fitness, etc.	**15**
Engage in physical activity at an increased heart rate for a minimum of 20 minutes at least three times per week.	Record heart rates obtained through a variety of endurance activities within a 20-minute time frame. Have students explain the difference between resting and exercising heart rate based on how vigorous the exercise was (i.e., heart rate after walking, heart rate after running, etc.). Collectively compile data and create a chart listing each student's heart rates.	**9, 15**

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply each health-related fitness component (i.e., muscular strength, endurance, flexibility, body composition, aerobic fitness) and explain how participation in physical activity impacts personal fitness.	Participate in activities designed to improve or maintain muscular strength and endurance, flexibility, cardio-respiratory endurance, and body composition in a variety of settings.	**15**
Examine and discuss pre- and post-fitness test scores after participation in fitness-enhancing activities.	Use fitness test results to have students determine if they are achieving their fitness goals. Design meaningful fitness goals based on the results of ***FitnessGram*** or ***Presidential Youth Fitness Program*** testing.	**3**
Implement a personal fitness plan to accomplish a physical fitness goal.	Use fitness test results to have students determine if they are achieving their fitness goals. Design meaningful fitness goals based on the results of ***Presidential Youth Fitness Program or FitnessGram.*** **www.fitnessgram.net** **www.presidentialyouthfitnessprogram.org**	**15**

COMPETENCY 4. SAMPLE LESSON PLANS		
P-1054 Fitnessgram: Day 1 **P-1055 Fitnessgram: Day 2** **P-1056 Fitnessgram: Day 3** **P-1057 Fitnessgram: Day 4**	**P-1133 The Musculoskeletal System**	P-1168 **Body Image and Self Esteem**

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings.(S, P, L)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Follow rules and procedures and display sportsmanship while participating in physical activities.	Provide students with scenarios of game situations. Have students explain the importance of accepting a controversial call and appropriately handling conflicts.	**15**
Practice responsible decision-making during specific activities.	Students will complete a group project to identify places for physical activity in school/community. Students should be encouraged to exhibit responsible personal and social behavior.	**14,15**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Follow rules and regulations and respect others.	Provide students with scenarios of inappropriate use of equipment and space. Have students demonstrate the appropriate use.	**5**
Exhibit characteristics of a positive role model by following rules and procedures and displaying sportsmanship during physical activities.	Encourage students to exhibit positive peer interaction while participating in various activities that include non-traditional sports (e.g., Field hockey fencing, archery).	**5, 8**

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Exhibit characteristics of a positive role model.	Discuss the influence of role models, listing positive and negative examples. Discuss the importance of displaying positive character traits to other students. Have student's role play being a role model/mentor. Distinguish/Identify the traits exhibited by a person that students consider a good role model and how they differ from a negative role model (traits not actions). Allow proper debate when opinions differ.	**5, 10**
Solve conflicts in physical activity by determining potential solutions.	The teacher can have students serve in various roles in physical education class such as team captain, game official, and coach of a team.	**5,8**

COMPETENCY 5. SAMPLE LESSON PLANS

P-1221 Bicycle Safety Skills - Grades 6-8	**P-1216 Safe Routes to School - Counting Vehicles**	**P-1208 Safety Behaviors for Pedestrians - Grades 7 & 8**
P-1211 Behaviors of Safe Bikers - Grades 6 - 8	**P-1207 Safety Behaviors for Pedestrians - Grade 6**	**P-1162 Criticism: Striving For Perfection**
P-1161 Respect for Property and Authority	**P-1160 Bicycle Safety and You**	**P-1159 Trust Me: Learning to Be Responsible**

6. Value physical activity for health, enjoyment, challenge, self-expression, and/or social interaction. (P, L, F, C)

GRADE SIX

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Describe and practice positive feelings associated with physical fitness.	Describe ways the body can be used to express and/or communicate ideas and feelings.	**5**
Identify physical changes that occur in our bodies associated with physical activity.	Have students identify changes in heart rate, perspiration, and muscle development through participation in physical activity. Discuss how being active reduces stress, decreases hyperactivity, etc.	**5, 15**

GRADE SEVEN

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Use the physical activity setting as an opportunity to improve social skills (i.e., self-expression, social interaction, etc.).	List personal interests and abilities and have student's research opportunities available in these areas to meet their fitness needs.	**1**
Analyze physical fitness experiences regarding social, emotional, and health benefits.	Write one paragraph on how participation in physical activity promotes a healthy lifestyle (i.e., social, emotional, etc.).	**15**

GRADE EIGHT

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Engage in physical activities that provide challenge, problem solving, decision-making and risk taking.	Provide opportunities for students to engage in challenging activities (i.e., team sports, game settings). Observe students to see if they are using skills learned in a variety of settings.	**5**

COMPETENCY 6. SAMPLE LESSON PLANS

P-1219 Safe Routes to School - Pollution Contest - Grade 6 **P-1215 Safe Routes to School - Cost - Grade 6** **P-1194 Safe Routes to School - Grades 6-8 - Lesson 1**	**P-1220 Safe Routes to School - Questionnaire - Grades 7 & 8** **P-1209 Bicycle Rodeo - Grades 7 & 8** **P-1167 Our Flexible Frame**	**P-1218 Safe Routes to School - Pollution - Grades 7 & 8** **P-1171 At Your Own Risk** **P-1163 The Motion Potion**

GRADES NINTH – TWELVE

Grades nine through twelve are dedicated to mastery in more complex versions of various movements and proficiency in most activities. These should include a minimum of six themes:

Team	Aquatics
Dual and Individual Sports	Fitness activities
Gymnastics	Rhythms/dance

Non-traditional activities should be included where facilities and instructional expertise are available. The primary focus of instruction should be on the application and mastery of activity skills that would encourage students to lead an active lifestyle. The application of these motor skills in instructor supervised physical activities will help students learn and apply the social skills (i.e., cooperation, fair play, playing by the rules, etc.) necessary to function appropriately in society. Additionally, students should plan, execute and alter, as needed, a fitness program that encourages them to be physically fit/active for a lifetime.

Teacher should encourage students to use skills in unpredictable environments and reinforce that mental practice can increase performance, particularly at higher skill levels. They should understand that regular physical activity and mastering skills will continue with them throughout their lifetime. Family, school, and community attitudes are influenced by an individual's commitment to a fitness plan.

The physical education framework follows a developmentally appropriate sequence. Activities should be taught from the simple to the complex. Competencies may be taught in any format a district may develop. ***The competencies are required to be taught.*** Competencies are not ranked in order of importance rather the sequence of competencies relates to the broader K-12 framework. Competencies provide a general guideline of on-going instruction.

The suggested objectives are optional, not mandatory. Objectives indicate skills that enable fulfillment of competencies, describe competencies in further detail, and show the progression of concepts throughout the grades. School districts may adopt the objectives or modify them, and are encouraged to write their own objectives to meet the competencies for students in their school district.

GRADES NINE - TWELVE

Content Strands

Gross Motor Skills Development (GM)	Fine Motor Skills Development (FM)
Social Skills (S)	Personal Skills (P)
Cognitive Development (C)	Lifelong Learning/Participation (L)
Fitness (F)	Adapted Physical Education (AP)

* See glossary

COMPETENCIES and Suggested Objectives:

1. **Demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activities. (GM, FM, C)**

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate proficiency in numerous movement forms.	Students will participate in team and individual activities that allow them to practice, improve, and apply previously learned motor skills in activities taken from the suggested activity list.	**5, 12, 15**
Use technology to evaluate a variety of movement forms.	Students will use professionally prepared and teacher prepared videos and computer programs (i.e., aerobic videos, physical activity instructional videos, fitness testing software) to analyze and assess the improvement of their physical skills. ***FitnessGram*** **www.fitnessgram.net** ***Presidential Youth Fitness Program*** **www.presidentialyouthfitnessprogram.org**	**11, 3**

GRADES TEN – TWELVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Demonstrate proficiency in team-oriented skills	Have students participate in a tennis match. Students should display skills such as developing strategy, playing by the rules, scorekeeping, proper grip, force, etc.	**5, 11**
Improve upon a variety of advanced manipulative skills.	Have students demonstrate strategy while participating in activities such as racquetball, tennis, soccer, badminton, and/ or volleyball.	**11, 13**

COMPETENCY 1. SAMPLE LESSON PLANS

P-563 Track-Shot Put and Discus	**P-569 End of Year Fitness Testing**	**P-486 Jump Rope for Heart**
P-561 Track-Long Jump and Triple Jump	**P-844 Footwork and Change of Direction**	**P-435 Core Muscle Exercises**
P-560 Track-High Jump	**P-480 Take Your Medicine - Leg Exercises**	**P-434 Weight Room-Back Exercises**
P-557 Track-High and Intermediate Hurdles	**P-477 Short Response Drills**	**P-433 Weight Room-Leg Exercises**
P-556 Track-Relays	**P-476 Long Response Drills**	**P-432 Weight Room-Arm Exercises**
P-554 Track-Middle Distance	**P-475 Rapid Response Drills**	**P-431 Weight Room-Shoulder Exercises**
P-410 Jump into Plyometrics	**P-351 Soccer Drills-Trapping**	**P-413 Weight-Room Chest Exercises**
		P-305 Ultimate Frisbee-Freelance Throwing

2. Demonstrate understanding of movement concepts, principles, strategies, and tactics as they apply to the learning and performance of physical activities. (C, L, P, AP)

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Identify and analyze the movement skills of self and peers during various physical activities.	Using a teacher provided checklist or rubric; students will observe and evaluate the motor skills of peers in selected areas.	**2, 11**
Design self-improvement plan to achieve a higher skill level in a movement activity.	Video students during physical activities. Have students watch video and use the checklist/rubric to evaluate movement skills. Design activities to improve movement skills.	**2, 8**

GRADES TEN – TWELVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Analyze peer performance on specific movement skills.	Have students create a rubric to observe and analyze the movement skills of two other students.	**2, 11**
Determine offensive and defensive strategies while participating in team and individual sports.	Have students demonstrate strategy while participating in activities such as racquetball, tennis, soccer, badminton, and/or volleyball.	**2, 5**
Use the outcomes of strategic decisions to encourage the improvement of personal performance.	Have students evaluate and document ways to improve their performance or the performance of their team following an activity.	**11,14,15**

COMPETENCY 2. SAMPLE LESSON PLANS

P-845 How to Punt	**P-824 Volleyball Serving Drill**	**P-650 BMI Check**
P-831 Kicking a Football	**P-778 Set Yourself Before You Wreck Yourself**	**P-649 What is Your Body Type?**
P-830 Receivers Routes-Angles	**P-777 Dig It?**	**P-645 How Active are You?**
P-829 Receivers Routes-Estimating Distance	**P-776 Would You Like Fries with that Serve?**	**P-644 Check Your Attitude**
P-828 Catching a Football	**P-775 Volleyball - The Basics**	**P-485 How Hard Are You Working?**
P-827 Football-Drive it	**P-653 Am I Eating Because I'm Sad?**	**P-484 FITT**
P-826 Mechanics of Throwing a Football	**P-458 Posture Check**	**P-481 Are You Alive?**
P-342 Running Lessons-Biomechanics of Jogging	**P-411 Antagonistic Muscle Groups**	**P-436 Applying Newton's First Law**
P-315 Soccer Drills-Long Kicks	**P-348 Fast Twitch Muscle Fibers vs. Slow Twitch Muscle Fibers**	**P-438 Applying Newton's Second law**
P-317 Soccer Drills-Inside the Foot Passing	**P-314 Disc Golf-Play**	**P-440 Applying Newton's Third Law**
P-318 Soccer Drills-Passing Using the Outside of the Foot	**P-313 Disc Golf-Rules**	
P-140 How Much Do You Eat?	**P-275 Ultimate Frisbee-Backhand Throw**	
P-132 A Quality Physical Education Program : Part I	**P-276 Ultimate Frisbee-Forehand Throw**	
P-133 A Quality Physical Education Program : Part II	**P-277 Ultimate Frisbee-Proper Catching**	
	P-278 Ultimate Frisbee-Hammer Throw	

3. Participates regularly in physical activity. (GM, L, F, C, L, S)

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Recognize the value of participating in vigorous activities over a sustained period of time.	Students will complete a weekly physical activity log that includes a minimum of 10 physical activities. It should include activities in a variety of settings. Have students write a one-page essay identifying behavior changes needed to continue a healthy active lifestyle.	**11, 15**
Establish personal physical activity goals based on previous assessments.	Assist students as they assess their fitness levels based on the five health related components of fitness (muscular strength, endurance, flexibility, aerobic fitness, body composition). Have students identify their weakest component and design a plan to improve it.	**3, 12**

GRADES TEN – TWELVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in a variety of health-related movement activities, which encourages a lifetime of physical fitness.	Have students use different methods to monitor the five health-related components of fitness (muscular strength, endurance, flexibility, aerobic fitness, body composition) and identify any correlation in data that would indicate fitness.	**2, 3**
Select activities that promote a physically active lifestyle by determining the health and fitness benefits of team, dual, individual, and lifetime activities.	In order to demonstrate the knowledge of activities that promote a physically active lifestyle, students will select two activities that improve fitness levels in each of the health related components of fitness.	**2, 16**
Create a plan to maximize success in a variety of activities (i.e., picnic, camping trip, picking up litter, etc.).	Have students create a list of supplies and materials they would need to go on an overnight backpacking trip. Encourage them to execute the plan with family.	**5, 16**

COMPETENCY 3. SAMPLE LESSON PLANS

P-870 Agility-Rabbit Drill	**P-651 Skinfold Test**	**P-570 End of Year Fitness Testing**
P-871 Agility-Ball Toe Taps	**P-631 Is This Your Gym?**	**P-615 Crazy Fit Test**
P-565 Yoga-What is it?	**P-483 MHR**	**P-478 Push-up day**
P-567 OOOOMMMMMM.....That Hurts!!!	**P-479 Take Your Medicine-Shoulders**	**P-474 Get on the Ball-Core Stability**
P-470 Dynamic Stretching vs. Static Stretching	**P-469 So....How Strong Are You? Deadlift**	**P-146 Tour De France Project: Stage One - Time Trial**
P-457 Design Your Own Workout	**P-468 So... How Strong Are You? Shoulder Press**	**P-147 Tour De France: Stage Two-Intermediate Hills**
P-337 How Much Do You Walk In A Day?	**P-467 So....How Strong Are You? Squat**	**P-148 Tour De France Project: Stage Three – Flats**
P-338 Running Lessons-Finding Your Pace: Part 1	**P-456 So...How Strong Are You? - Bench Press**	**P-149 Tour De France Project: Stage Four - Big Hills**
		P-150 Tour De France Project: Stage

P-339 Running Lessons-Finding Your Pace: Part 2 **P-334 Walking Math** **P-156 History of the President's Physical Fitness Challenge**	**P-325 Soccer Drills-Dribbling Slalom** **P-160 Marathon Mania** **P-135 Keeping Daily Fitness Journals** **P-473 Get on the Ball-Leg Exercises**	**Five - Intermediate Hills** **P-151 Tour De France Project: Stage Six - Modest Hills** **P-152 Tour De France Project: Stage Seven - More Modest Hills** **P-155 Tour De France Project: Final Stage-Sprint**

4. Achieve and maintain a health-enhancing level of physical fitness. (F, L, C, AP)

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate in a nationally recognized fitness test to assess personal fitness.	Complete the ***FITNESSGRAM*** ***www.fitnessgram.net*** or ***Presidential Youth Fitness Program*** **www.presidentialyouthfitnessprogram.org**.	**3**
Utilize various resources including technology to enhance personal fitness.	Students will use professionally prepared and teacher prepared videos and computer programs (i.e., aerobic videos, physical activity instructional videos, ***FITNESSGRAM***, **www.fitnessgram.net** fitness testing software) to analyze and assess the improvement of their physical skills.	**3, 12**
Design and participate in a personal fitness program.	Students will use fitness assessment data to plan a personal fitness program to increase the five health related components (muscular strength, muscular endurance, aerobic fitness, flexibility, and body composition).	**2, 11**

GRADES TEN – TWELVE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Develop and participate in an appropriate physical fitness program to improve personal fitness over an extended period of time.	Have students create a fitness plan that focuses on body composition. The fitness plan should include warm-up and cool down exercises (i.e., stretching), aerobic fitness exercises, and muscular strength and endurance exercises. Students should also plan for a nutritious appropriate diet using MyPlate. www.choosemyplate.gov	**9, 16**
Maintain the five health related fitness components (i.e., aerobic fitness, muscular strength, muscular endurance, flexibility, body composition) to live a healthy lifestyle through the development of a fitness plan.	Have students create an outline explaining the activities, principles, and methods they plan to participate in to maintain aerobic endurance, muscular strength and endurance, flexibility, and body composition.	**2, 3, 16**
Develop and participate in an appropriate physical fitness program to improve personal fitness over an extended period of time.	Have students record the fitness, intensity, time, and type of activity (FITT) that he/she engaged in for a specific amount of time. Identify likes/dislikes of the activity and needs for improvement.	**1, 14, 15**

COMPETENCY 4. SAMPLE LESSON PLANS

P-1065 Fitnessgram: Day 5	**P-841 Maslow's Challenge**	**P-846 Circuit Workout**
P-840 Running from a Heart Attack	**P-839 Don't Fumble with this Jumble**	**P-838 Active Down Time**
P-648 How Skilled are You?	**P-647 Skill Related Fitness**	**P-646 Leave an Impression-Feet Type**

P-635 You Want Me to Buy What? **P-632 What is That?** **P-487 Jumping to Better Fitness** **P-158 Student Fitness Testing : Day One** **P-159 Student Fitness Testing : Day Two**	**P-634 Flexibility Evaluation** **P-616 Researching Aerobic Programs** **P-472 Get on the Ball And Stay** **P-335 Walking a Mile With Math** **P-143 Mowing For Your Heart**	**P-633 Muscular Endurance Test** **P-614 Health Related Fitness** **P-471 Get on the Ball-Chest Exercises** **P-336 Determining Stride Length**

5. Exhibit responsible personal and social behavior that respects self and others in physical activity settings. (C, S, P, L GM, AP)

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Apply rules, procedures, and safe practices based upon teacher instruction.	Have students develop rules and serve as the official for the designed activity.	**5, 15**
Demonstrate sportsmanship and fair play during physical activities.	Students will show proper etiquette in various physical activities or competitions.	**5**
Recognize and understand the value of cultural diversity in physical activity.	Have students recognize the similarities and differences in games from various cultures (i.e., the music from various cultures has different rhythms).	**15, 16**
Develop strategies for including persons with different ability levels.	Have students participate in a game that will require all team members make at least one pass to different team mates before their team can score.	**5, 12**

GRADES TENTH – TWELFTH

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Engage in physical activities that encourage self-motivation and goal setting.	Have students use health-related fitness testing data to recognize their various ability levels and indicate their strengths and weaknesses. Students should create a list of ideas for short-term goals to improve weak areas. These short-term goals are designed to meet long-term goals of students. The more proficient an individual becomes, the more likely he/she will continue to engage in physical activity.	**1, 9, 11, 14**
Cooperate with peers personally and socially through physical activities.	Students will show proper etiquette while participating in various physical activities or competitions.	
Acknowledge differences in peer abilities while working together to achieve physical activity goals.	Have students recognize the various ability levels in individuals and indicate strengths and weaknesses. Students should create a list of ideas for short-term goals to improve weak areas. These short-term goals are designed to meet long-term goals of students. The more proficient an individual becomes, the more likely he/she will continue to engage in physical activity.	
Identify the effects of age on lifelong physical activity preferences and participation.	Have students complete an assignment that identifies activities that will aid the students maintain a physically active lifestyle when they become independent of physical education instruction.	**16**

COMPETENCY 5. SAMPLE LESSON PLANS		
P-816 Survival 101 **P-817 Survival 102-Fire** **P-818 Survival 103-Shelter** **P-819 Survival 104-Food** **P-820 Survival 105-Injury** **P-821 Survival 106-Lost** **P-822 Survival 107-Water** **P-823 Survival 108-Leave No Trace**	**P-1165 Skills for Healthy Living: Dealing With Disabilities** **P-1164 Setting Goals for Healthy Living** **P-837 Spell Your Way to Fitness** **P-453 Weight Room 101-The Rules** **P-454 Weight Room 101- Proper Etiquette** **P-455 Weight Room 101-Basic Terms and Principles**	**P-874 Teamwork-Passing Relay** **P-873 Teamwork-Team Relay** **P-872 Teamwork-Cross the River** **P-321 Soccer Drills-Ball Tag** **P-319 Soccer Drills-Practice Passes** **P-307 Ultimate Frisbee-Play** **P-162 Ultimate Diamond Frisbee** **P-230 Ultimate Frisbee-Spirit of the Game**

6. Value physical activity for health, enjoyment, challenge, self-expression, and/or social interaction. (S, L, F, GM, AP)

GRADE NINE

Suggested Objectives	Suggested Teaching Strategies	Sample Assessments
Participate regularly in health enhancing and self-rewarding physical activities.	Participate in an activity based on personal enjoyment. Have students write a speech on why they enjoy the activity and the health benefits of the activity. Present the speech to the class.	**11**
Recognize the extensive variety of physical activities, including those that will challenge the traditional notion of physical fitness.	Students will participate in a variety of non- traditional activities that include strategy games (i.e., capture-the-flag, fitness activities, orienteering, rappelling, scavenger hunts, roller blading, water sports, unicycling). Have students write in journal describing challenges of nontraditional games.	**8, 15**

GRADES TENTH – TWELFTH

Interact with peers in a fun and challenging environment while participating in group-related physical activities.	Teacher can divide students into work groups. Have each work group develop an activity that includes all students regardless of skill-level.	**2, 5, 15**
Understand the value and benefits of physical activity which lead to a healthier lifestyle.	Students will prepare a report identifying reasons for participating (i.e., weight loss, reduce medical complications, relieve stress, socialization) or reasons for not participating (i.e., slowing of reflexes, loss of muscle strength, eye sight, possibility of injury, etc) in certain lifelong physical activities.	**11, 16**

COMPETENCY 6. SAMPLE LESSON PLANS

P-551 The Olympic Games **P-137 What is the Impact of Physical Activity on Mood?**	**P-344 Walking the USA**	**P-145 Tour De France Project: Part 1 - History**

ASSESSMENT DEFININTIONS

1. **Activity Log –** A listing of bodily movements produced by the contraction of skeletal muscles that result in energy expenditure.

2. **Checklist –** A listing of items that the student checks off as each item is completed or accomplished.

3. **Fitness Test –** A test of a student's state of physical and mental well-being that allows the body to do work-related tasks.

4. **Interview –** An interview is a conversation between two or more people where questions are asked by the teacher to elicit facts or statements from the students.

5. **Observation –** A means of assessing the achievement of learning outcomes by looking at a student's individual actions.

6. **Other –** Any other method of assessment that the teacher might choose to use.

7. **Parent Report –** Parents are notified in writing concerning their student's performance in classroom activities.

8. **Peer Assessment –** An assessment method whereby students analyze the performance of other students.

9. **Portfolio –** A collection of student work – usually a combination of student-chosen ad required material – that demonstrates achievement of program goals.

10. **Role Play –** Students take on different roles, assuming a profile of a character or personality an interest and participate in diverse and complex learning settings.

11. **Rubric –** A set of scoring guidelines for assessing student work.

12. **Self Assessment –** An assessment method whereby students use rubrics of critical elements, journals, or logs to monitor their own progress.

13. **Skill Test –** Testing a student to determine if they have the capability for doing a specific task well. Skills improve with practice.

14. **Student Contract –** A written agreement between student and teacher addressing how classroom goals will be met.

15. **Student Journal –** A journal is a written account from the perspective of the individual. The student writes their thoughts concerning a specific topic.

16. **Written Assignment –** An assignment that requires a written response from the student.

17. **Written Test –** A test that requires a written response. The test may be administered orally, on paper or on a computer.

GLOSSARY

Adapt-To be able to use learned skills in situations other than the setting the skills were learned.

Aerobic- Energy produced by the utilization of oxygen.

Aerobic Activities- Exercise that requires a continuous use of oxygen over an extended period of time (i.e., briskly walking, running, etc.).

Anaerobic Exercise- Exercise in which the body's demand for oxygen is greater than the supply.

Assessment- Interpretation of measurements for the purpose of making decisions about placement, program planning, learning, and performance objectives.

Balance- A skill-related component of fitness that relates to the maintenance of equilibrium while stationary or moving.

Body Composition- A health-related component of fitness that relates to the relative amounts of muscle, fat, bone, and other vital body parts.

Calisthenics- Exercises that develop muscle tone and improve physical well being.

Cardiovascular Endurance- Health-related fitness component that relates to the ability of the circulatory and respiratory system to supply oxygen during sustained physical activity.

Centers for Disease Control and Prevention (CDC) - Federal agency within the United States Public Health Service responsible for tracking disease incidence and taking action to control the incidence of such diseases.

Classroom assessment- An assessment developed, administered, and scored by teacher /teachers with the purpose of evaluating individual or classroom student performance on a topic.

Cognitive (C) - Observing, studying and reading about an activity, focusing on the proper technique.

Content Standards- Expectations of what students should know and be able to do in particular subjects and grade levels.

Continuous Skills- Skills that do not have a defined beginning and end.

Cool-down Exercises- A necessary phase of physical activity (walking and stretching) that enables the body to gradually return to the non-exercising state.

Coordination- A skill-related component of fitness that relates to the ability to use the senses, such as sight and hearing, together with body parts in performing motor tasks smoothly and accurately.

Curriculum- A body of material that defines the content to be taught and the methods to be used.

Developmentally Appropriate Activities – Programs of activities suited for the developmental needs, capacities and limitations of students in physical education.

Differences in Individuals- Relating to the skill levels of individuals.

Discrete skills- Skills that have a defined beginning and end.

Endurance- The ability to continue performance of a movement activity.

Equilibrium- The state of a system whose motion is not being changed, accelerated, or decelerated.

Evaluation- Judgment requiring the quality, value, or worth of a response, product, or performance based on established criteria and usually based on multiple sources of information.

Exercise- Planned, structured, and repetitive body movement done to improve or maintain physical fitness.

Feedback- A verbal gesture, and/or physical consequence given immediately after a student responds to a cue.

Fine Motor Skills (FM)- Movement of small muscles, (e.g., writing, sewing, drawing, initiating facial gestures, pronouncing words).

Fitness- State of physical and mental well-being that allows the body to do work-related tasks.

Fitness Tests- tests (Pre-test, Post- test) that are given before a series of participation in physical activity and after a series of participation to determine an individual's progress.

FITT- Fitness, Intensity, Time, and Type of activity.

Flexibility-The ability of the joints, muscles and tendons to move freely with their full range of motion.

Fundamental Movement Skills-The basic skills necessary to improve performance.

Gross Motor Skills (GM) - Activities that require large muscle groups, (e.g., walking, running, standing on one leg, hopscotch).

Heart Rate-Number of times the heart beats per minute.

Intermediate form- Competent.

Instructional Alignment- Congruence of student outcomes, learning experiences and assessments.

Lifetime Activity- Skills and sports that can be used or played throughout life, not just at that particular time.

Limitations- Disadvantages an individual may have that limits his/her ability.

Locomotor- Moving that requires a series of actions to be repeated over and over (i.e., walk, run, jump, hop, skip, gallop, slide, leap).

Manipulative Activities- Activities such as jumping rope, keeping a foot bag in the air using repetitive foot contact, and juggling with scarves which require the use of manipulative skills (i.e., bounce, throw, kick, roll, hit, strike, trap). Manipulative activities develop both hand-eye coordination and dexterity.

Manipulative Skills- A skill in which an individual must handle an object with the hands, feet, or other body part.

Mastery- The capability to perform an activity repeatedly without error or hesitation at one's highest possible potential (proficient).

Mature form- The critical elements of a skill performed in a smooth a continuous motion.

Maximum Heart Rate- Highest heart rate value attainable during an all-out effort to the point of exhaustion (220–Age).

Metabolism- The total of all chemical reactions that occur in the body during the production of energy for work.

Moderate Activity- Exercising at a rate between resting and target heart rate.

Muscular Endurance- The ability of a muscle or muscle group to perform repeated

contractions without fatigue.

Muscular Strength- The amount of force exerted or resistance overcome by a muscle for a single repetition.

Nonlocomotor- Movements (i.e., push/pull, bend/stretch, twist/turn, swing/sway, fall/ride) one can do from a stationary position.

Performance Assessment- Assessment that requires students to construct a response, create a product, or perform a demonstration.

Performance Task- Authentic, meaningful task that requires the students to synthesize knowledge and skills learned and apply them to construct a response, create a product and/or performance that demonstrates understanding.

Physical Activity- Bodily movement produced by the contraction of skeletal muscles that results in energy expenditure.

Physically Educated Person- A person who has learned skills necessary to perform a variety of physical activities; is physically fit; participates in physical activities, knows the implications and benefits of such activity; and values its contributions to wellness.

Portfolio- A collection of student work over time.

Proficiency- The mastery of a specific skill.

Progression- Gradually increasing the intensity and duration of an activity.

Reaction Time- The interval of time from a suddenly presented, unanticipated stimulus until the beginning of a response.

Resting Heart Rate- The heart rate at rest, usually 60-80 beats per minute.

Rubric- A set of scoring guidelines for assessing student work.

Skill Development- Goals of a physical education program, learned by practicing fundamentals of movement in a planned sequential manner.

Skills- The ability of students to use knowledge effectively and readily in performance, the ability to transform knowledge into action.

Standards- Statements of specific expectations.

Strength- The amount of force a muscle can exert.

Specialized Skill- A skill that is necessary for an individual to perform in a certain task.

Sportsmanship- The ability to follow the rules of the game, show courtesy to other participants, etc.

Tactics- Individual movements of players or teams to accomplish an immediate goal or accommodate the specific situation. Tactics take place within the game as an ongoing part of game play and include decisions an individual makes about when, why, and how to respond to a particular situation.

Target Heart Rate-Maintaining an exercise heart rate between 60 and 80 percent of the maximum heart rate (See maximum heart rate).

Technique- The skill an individual uses to perform a specific task.

Trap- Method of stopping an object.

Understanding- Insight into key ideas, as reflected in thoughtful and effective use of knowledge and skills in varied situations.

Vigorous Activity- Exercising at target heart rate (See target heart rate).

Visual Focus- Where an individual should be looking when performing a skill (Example: When a student is attempting to balance his/her body they should be focused on a specific stationary place).

INTRODUCTION TO SOCIAL EMOTIONAL LEARNING (SEL)

Social emotional learning (SEL) is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions (CASEL, 2020). SEL advances educational equity and excellence through authentic school-family-community partnerships to establish learning environments and experiences that feature trusting and collaborative relationships, rigorous and meaningful curriculum and instruction, and ongoing evaluation. SEL can help address various forms of inequity and empower young people and adults to co-create thriving schools and contribute to safe, healthy, and just communities.

Social emotional learning can be further defined by understanding that we are all social beings, each with our individual emotions. As we interact with others, our words, actions, and other behaviors are in response to the given context. We have thoughts based on this context which causes us to have emotions and then behaviors based on these emotions we feel. This process is called the Cognitive Behavioral Theory (CBT). In turn, our behaviors begin the CBT (thoughts, feelings, and behaviors) in others. It's this cyclical process that is the foundation for interactions. By simply changing one aspect of the context (e.g., the person, setting, time, etc.), this changes our interactions beginning with our thoughts, feelings, and then behaviors. In this respect, social skills and emotions are interwoven in our daily lives. Additionally, we experience emotions apart from others (e.g., when home alone). However, these emotions outside of interactions still include the same process - a given context that produces a thought, which leads to an emotion and then subsequently to behavior(s).

Because learning is a social process, schools must teach, utilize, and support social emotional skills in daily routines (Hodson & Hodson, 2018). This document provides school leaders, teachers, and other essential staff with key information, standards, strategies, and teaching resources to implement school-wide SEL.

WHY SEL?

The development of SEL skills fosters social competencies and increases positive social skills, reduces behavioral problems, decreases emotional stress, and improves academic outcomes for students (Greenberg et al., 2003). Additionally, social emotional competence increases our

ability to form relationships and build social awareness and enhances our ability to connect with individuals of diverse perspectives, cultures, languages, histories, identities, and abilities. When SEL is implemented on a macro-level, more equitable, better performing schools and communities can result. This type of cultural change creates environments in which all students acquire the skills necessary for life and learning.

As an educational approach, SEL recognizes students as complex human beings whose learning and behavior are just as impacted by their emotions – and their control over those emotions – as they are by discipline and quality of academic instruction. Student academic success is strongly linked to the development of necessary skills, behaviors, attitudes, and strategies that are critical to academic performance, but which may not be reflected in cognitive test scores (Farrington et al., 2012). The ability to recognize and manage emotions and establish and maintain positive relationships impacts both readiness and ability to learn.

In 2011, a team of researchers conducted a comprehensive meta-analysis of school-based universal social emotional interventions, which included 213 schools and 270,034 students ranging from kindergarten through high school (Durlak et al., 2011). The researchers found that, on average, students receiving social emotional interventions improved significantly compared to those not receiving an intervention. The results indicated that social emotional skills, social behaviors, and academic performance increased, attitudes towards self and others were more positive, conduct problems were reduced, and emotional distress lessened.

The results from the meta-analysis (Durlak et al., 2011) found the most growth was among students receiving classroom-based interventions administered by their regular classroom teachers. This finding held true across all education levels (elementary, middle, and high school), and across urban, suburban, and rural schools. Based on a small subset of studies, the same meta-analysis of interventions found a positive association between social emotional learning programs and academic achievement, including an 11 percent gain in academic performance. These results build upon a growing body of research that indicate SEL programming enhances students' connection to school, classroom behavior, and academic achievement (Zins et al., 2004). Social emotional learning interventions strategically develop non-cognitive abilities, such as *goal-directed efforts* (e.g., perseverance, self-control, growth mind-set), *healthy social relationships* (e.g., gratitude, emotional intelligence, social belonging), and *sound judgement* and *decision making* (e.g., curiosity, open-mindedness). Longitudinal research confirms that such qualities can predict academic, economic, social, psychological, and physical well-being (Almlund et al., 2011).

ADULT SEL COMPETENCE

In order to promote students' social and emotional competence, it's important for schools to simultaneously foster a supportive staff environment that cultivates the social and emotional competence and capacity of the adults in the building. Through their research, CASEL has learned that schools are more effective at teaching and reinforcing SEL for students when they also cultivate SEL competencies in adults. Successful SEL implementation depends on how well staff work together to facilitate SEL instruction, foster a positive school community, and model social and emotional competence. This requires a focus on adults' professional growth as educators as well as their own social and emotional learning (Jones et al., 2018).

Successful implementation of SEL will call on every available adult to take an active role in promoting social and emotional learning. Adults must possess and model the social emotional competencies they hope to develop in their students. This is not an easy task when research has found that teaching is one of the most stressful occupations in the U.S. (Gallup, 2014). Stress affects teachers' health and well-being, job satisfaction, job turnover, and student outcomes (Greenberg et al., 2016). For these reasons, it's crucial that adults foster their own social emotional skill development in order to effectively support, empower, and build relational trust with students and peers. A study by the Yale Center for Emotional Intelligence found that adults who recognize, understand, label, and regulate their own emotions are less likely to report burnout, demonstrate higher levels of patience and empathy, encourage healthy communication, and create safe student learning environments. In schools where educators develop strong communication and trust, teachers are more likely to learn from each other, stay in the profession, and boost student performance.

PURPOSE & GOALS

The overarching purpose of the Mississippi SEL Standards is to address the social and emotional needs of all students to ensure their success in school and in life. Developing SEL skills improves student capacity to engage in academic learning and prepares them to meet college and career readiness standards (CCRS). The Mississippi SEL Standards assists school staff with their respective roles in integrating social emotional learning into daily classroom and school experiences of students.

The goals of the Mississippi SEL Standards are to:

- ☐ Provide knowledge, skills, tools, and other resources to all school staff to help improve student social and emotional learning skills and encourage students to exhibit positive social behaviors
- ☐ Enhance the knowledge of all school staff of what teaching practices that focus on SEL look like in the classroom and in other areas of the school campus
- ☐ Describe examples of adult and student behaviors that foster teaching practices to promote SEL skills
- ☐ Enhance the ability of all school staff to knowledgeably engage in dialogue on SEL skills
- ☐ Provide strategies and resources to all school staff to help create a positive classroom experience for all students through defining clear expectations of good practice as well as opportunities for adults to reflect and grow from those experiences

SCHOOL-WIDE IMPLEMENTATION

Research supports the idea that in order for high quality and sustained implementation of social emotional learning (SEL) to occur, it must be integrated and aligned with frameworks and/or initiatives already existing within the school community (Meyers, Domitrovich, Dissi, Trejo, & Greenberg, 2018). These frameworks or initiatives include but are not limited to, academic content, Multi-Tiered System of Supports (MTSS), Positive Behavioral Interventions and Supports (PBIS), mental health and wellness, employability and work force readiness, and character education and development. Just as important as alignment and integration, is the commitment of all staff, not just administrators and teachers, but lunchroom monitors, bus drivers, librarians, and specialist to implementing SEL with high fidelity and to participate in ongoing planning and sustainability efforts (Shafer, L. 2016).

The Collaborative for Academic, Social, and Emotional Learning (CASEL) identifies four focus areas (https://schoolguide.casel.org/rubric/) in the implementation of school-wide SEL. They are *building foundational support*, *strengthening adult SEL*, *promoting SEL with students*, and *establishing practices for continuous improvement*. Building foundational support includes identifying SEL team members and assigning roles and responsibilities, raising the level of SEL awareness, and developing and adopting a school-wide vision. Building foundational support also includes assessing the school's current needs and resources in order to develop and implement a plan that includes clear goals, action steps, and assigned ownership. Strengthening adult SEL, the second area of focus calls for adults to engage in their own SEL development and to continuously model SEL throughout the school and in their interactions with students.

Promoting SEL and supporting students across the school, classrooms, home, and community is the third area of focus. The fourth and last area of focus, establishing practices for continuous improvement, involves creating a systematic process for collecting data regarding implementation fidelity and student outcomes and analyzing that data to evaluate practices and to ensure continuous improvement of SEL for staff and students (CASEL.org).

As systems are being developed for school-wide implementation, individual teachers can begin to utilize Mississippi's K -12 SEL Standards to view the overarching anchor standards and individual performance standards for their specific grade levels under each of the domains. By aligning academic content, teachers can integrate SEL skills into lessons, activities, and daily routines without an increase in overall workload. The teaching strategies serve as a bank of ideas teachers can utilize to begin the alignment of SEL with academics. Teachers can seek further professional development with aspects of SEL in order to become more knowledgeable and confident in their teaching efforts and day-to-day routines.

SEL SCHOOL-WIDE TEAM

The SEL team is responsible for the initial development of systems and practices that promote alignment and integration with existing frameworks or initiatives. The team will meet monthly to review implementation data, analyze student outcomes, and identify next steps for continuous improvement.

The team should include a broad representation of stakeholders, administrators, school staff, students, community members, and family members. Specific roles and responsibilities should be assigned. Please see below for an example of CASEL's team roles and responsibilities.

SEL SCHOOL-WIDE TEAM	
Role	**Responsibilities**
Facilitator	Leads the team through the agenda and discussion for each planned item. Reviews the team's working agreements as an initial agenda item.
Timekeeper and Redirector	Ensures that the team uses its time wisely and sticks to the allotted time for each agenda item. Redirects the conversation if it goes off task.
Data Lead	Presents data to monitor progress toward SEL goals (e.g., dashboard reports, observation data, survey results, etc.). Leads the team through a discussion about the implications of the data and guides the team to identify next steps.
Note Taker	Ensures that conversations, decisions, and next steps are accurately recorded and assigned. The note taker sends out notes, action steps, and details about the next meeting as a follow up. As necessary, the note taker updates the next agenda.
Communicator	Prepares and sends/posts communication about progress and next steps to share with the larger school community.
Equity Monitor	Monitors airtime and social dynamics within the meeting and reports general observations (e.g. ratio of comments by gender, by race, by administrator: other staff, frequency of interruptions), to the group to ensure all team members are listened to and treated equitably. Reminds the team to consider the perspectives of stakeholders outside the meeting as well -- particularly groups that are often marginalized in the school's decision-making.
Welcome Captain	Focuses on the "climate" of the meeting by greeting team members as they arrive, planning and leading a short welcome activity, and bringing a snack.

FIVE CORE SOCIAL AND EMOTIONAL COMPETENCIES

Mississippi identifies five social and emotional domains aligned to CASEL's five core competencies, each of which is composed of multiple skills and abilities (CASEL, 2013)

Domain 1: Self-awareness is the ability to identify one's thoughts, values and emotions and recognize how these shape behaviors. Self-awareness involves the assessment of one's abilities (i.e., strengths and areas of growth) and includes the need for confidence, optimism and knowledge of which areas can be improved.

Domain 2: Self-management is the ability to self-regulate emotions, thoughts and behaviors across settings and to set and work towards personal and academic goals.

Domain 3: Social awareness is the ability to empathize with and relate to others, including those from diverse backgrounds. Social awareness involves understanding societal norms for behavior and contribution to community well-being.

Domain 4: Relationship skills include the ability to effectively communicate, cooperate, seek and provide support to others, manage conflict, and effectively handle peer pressure in order to establish and maintain positive relationships.

Domain 5: Decision-making skills includes the ability to make constructive choices and problem-solve based on safe, ethical, and social norms while evaluating the outcomes of previous choices.

MISSISSIPPI K-12 SOCIAL EMOTIONAL LEARNING STANDARDS

The SEL standards are comprised of 5 domains aligned to content and the national model from the Collaborative for Academic and Social Emotional Learning (CASEL) as well as other states including Tennessee and Illinois.

The graphic below details the 5 domains and their corresponding anchor standards.

Domain 1: Self-Awareness

Self-awareness is the ability to identify one's thoughts, values and emotions and recognize how these shape behaviors. Self-awareness involves the assessment of one's abilities (i.e., strengths and areas of growth) and includes the need for confidence, optimism and knowledge of which areas can be improved.

1A. Identify emotions and related feelings in one's self.

1B. Develop an accurate perception of one's self (i.e., beliefs, values, skills, talents, and interests).

1C. Determine one's strengths and areas for growth.

1D. Develop personal responsibilities and a feeling of one's abilities, qualities and judgment.

Domain 2: Self-Management

Self-management is the ability to self-regulate emotions, thoughts and behaviors across settings and to set and work towards personal and academic goals.

2A. Develop skills necessary to control impulses and appropriately manage thoughts, stress, emotions, and behaviors in school, home and community life.

2B. Identify and utilize skills needed in organization and self-motivation.

2C. Demonstrate ability to set and accomplish specific tasks and goals.

Domain 3: Social Awareness

Social awareness is the ability to empathize with and relate to others, including those from diverse backgrounds. Social awareness involves understanding societal norms for behavior and contribution to community well-being.

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.

3B. Develop an awareness of and respect for individual differences, including cultural diversity.

3C. Identify and develop an understanding of societal norms for the well-being of school, home, and community.

Domain 4: Relationship Skills

Relationship skills include the ability to effectively communicate, cooperate, seek and provide support to others, manage conflict, and effectively handle peer pressure in order to establish and maintain positive relationships.

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.

4B. Develop and maintain positive relationships with others.

4C. Demonstrate the ability to successfully manage and resolve conflict in relationships.

Domain 5: Responsible Decision-Making

Responsible decision-making includes the ability to make constructive choices and problem-solve based on safe, ethical, and social norms while evaluating the outcomes of previous choices.

5A. Develop, implement, and model effective choice-making skills at school, at home, and in the community.

5B. Analyze outcomes of decisions including the consideration of their effects on others.

Each domain is divided into 4 grade bands (i.e., K-2, 3-5, 6-8, and 9-12) and contains measurable performance standards that students should be able to master before exiting the given grade band.

SELF-AWARENESS

Self-awareness is the ability to identify one's thoughts, values and emotions, and recognize how these shape behaviors. Self-awareness involves the assessment of one's abilities (i.e., strengths and areas of growth) and includes the need for confidence, optimism and knowledge of which areas can be improved.

Anchor Standards:

1A. Identify emotions and related feelings in one's self.

1B. Develop an accurate perception of one's self (i.e., beliefs, values, skills, talents, and interests).

1C. Determine one's strengths and areas for growth.

1D. Develop personal responsibilities and a feeling of one's abilities, qualities and judgment.

1A. Identify emotions and related feelings in one's self.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. With prompting, identify positive and negative emotions (i.e., happy, sad, mad, angry, surprised, loved, embarrassed, anxious, afraid, proud) based on characteristics associated with each emotion. 2. With prompting, determine the antecedents to own emotions. 3. Utilize words or gestures to communicate own feelings.	• Discuss with students what facial features are associated with various emotions using pictures (e.g., photos, graphic visuals, in books, on websites, etc.). Include faces from different cultures. • Use words to label own emotions to students. • Read/view age-appropriate books to students and discuss the emotions of the characters, labeling their emotions and discussing incidents that happened before specific emotions that may have triggered them. • Post a check-in chart for students to use to communicate their emotions by having clips with their names and pictures on them that they use to clip to a labeled graphic of an emotion. • Play games using dice, a spinner, drawing out of a hat of emotion choices and have students act out an emotion, tell what they do when they have a certain feeling, and describe a specific time when they have experienced a certain emotion.
3-5	4. Identify range of emotions experienced. 5. Describe situations that cause range of emotions.	• Have students role-play or watch videos of different situations that trigger a variety of emotions. • Read/view stories and discuss emotions experienced by characters in a story and how behavior was affected by emotions.

1792

1A. Identify emotions and related feelings in one's self.		
Grade Band	**Performance Standards**	**Strategies**
	6. Identify physical responses to intense emotions. 7. Communicate emotions through appropriate means (i.e. appropriate words, gestures, tone, facial expressions, etc.). Describe how emotions impact behavior.	• Use visuals, such as a thermometer, to discuss how emotions can go up and down and how physical responses can vary. • Create a calm space where students can choose to go and reflect on feelings. • Use journaling or drawing to have students' express range of emotions experienced in various situations.
6-8	8. Identify and label a variety of emotional states. 9. Describe emotional states associated with different situations (e.g., stressful, sad, exciting, frustrating, disappointing, etc.) 10. Determine typical physical responses to a variety of emotions. 11. Describe ways to communicate one's emotions in a socially acceptable manner. 12. Identify how different emotional states impact one's ability to problem solve.	• Utilize an emotions chart to discuss a variety of emotions students may experience (e.g., surprise, disgust, confusion, exhaustion, etc.) • Discuss varying situations and the emotions that typically result (e.g., a failed test results in shock, sadness, frustration, etc.) • Have students create a "map" of where emotions are felt in their bodies or create one as a class. • Role-play or view scenarios of typical ways students express different emotions. Discuss interpersonal problems that may arise from this type of communication. Role-play or view scenarios of more appropriate ways to communicate those emotions. • Discuss emotions experienced by literary characters and how their choices were affected by emotions. • Have students journal about a situation that occurred that day, their emotions during the situation and choices they made as a result of their emotions.
9-12	13. Identify and label emotions. 14. Identify feelings and behaviors associated with specific emotions. 15. Analyze and evaluate how emotions affect responsible decision making. 16. Analyze and evaluate how one's emotions impact relationships. 17. Develop socially appropriate communication strategies to express emotions and feelings.	• Teach vocabulary for a wide range of emotions (e.g., Emotion Wheel). • Discuss how one feels and acts with differing emotions. • Ask students to journal about a time when their reaction to a situation positively and/or negatively impacted a relationship. • Ask students to role-play how an emotion positively and/or negatively impacted a decision in their lives.

1B. Develop an accurate perception of one's self (i.e., beliefs, values, skills, talents, and interests).		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Distinguish between own likes and dislikes. 2. Describe skills and special abilities. 3. Identify personal qualities that assist in making good choices.	• Utilize a picture-based interest inventory to assist students in gauging areas they like versus areas they do not. • Prepare an "All About Me" activity for students to complete. • Graph students' likes regarding a specific topic or question. • Give students choices among items or books and comment on their interests based on choices made (e.g., "I see you like books about animals." or "You wear boots a lot. What do you like about them?"). • Incorporate time in the schedule for a weekly "Show and Tell." • Discuss own areas of interest, skills, talents, values, etc. • Read/view age-appropriate books to students and discuss character interests, skills, talents, beliefs, and values. • Provide students with choices among and within activities (e.g., learning center to visit, type of writing utensil to use, partner for a collaboration activity, etc.). • Encourage students to draw something they like or do well, or a time when they made a good choice, etc.
3-5	4. Identify personal qualities and characteristics one possesses. 5. Describe benefits of personal qualities and characteristics. 6. Describe how personal qualities and interests impact decision-making. 7. Compare and contrast qualities and interests of self.	• Allow students to create self-portraits using any medium such as sketching, drawing, or painting. It's good to do this more than once during the year to see how perceptions have changed. • Have students complete a "Who Am I" questionnaire about their likes, dislikes, what makes them happy, sad, scared, etc. • Have students create a collage of pictures, words, or symbols of things they enjoy, people they admire or careers they desire. • Allow students to create an "About Me" art piece to share using the letters of their name to describe qualities or interests about themselves. For example, Ben could be described as a Big brother, Energetic, and Nice.

		Students would create a visual representation to share.
6-8	8. Identify positive attributes and qualities about oneself including talents, interests, physical characteristics, etc. 9. Describe characteristics that are important to oneself (i.e., loyalty, honesty, etc.) 10. Describe how one's personal qualities, interests, beliefs and academic/career goals impact decision making.	• Have students create a list of personal qualities starting with "I am" (e.g., I am kind, I am good at art, I am interested in animals, I am a hard worker.) Students could also use their lists to create a piece of art, video or slideshow. • Have students divide into pairs in class or online and interview one another. Students then introduce each other to the class. • Instruct students to complete a "What's Important to Me" worksheet. • Have students create a collage using words, symbols, pictures that describe individual characteristics, interests, values, etc. • Role-play or view situations involving different peer pressure situations. Discuss how students feel when the group was trying to pressure them to change their behavior against their personal values.
9-12	11. Identify areas of likes, dislikes, skills, talents, interests, strengths, and areas of growth. 12. Create strategies that promote a more optimistic/positive outlook. 13. Utilize one's beliefs and personal qualities in planning and decision making. 14. Explore and identify cultural norms, customs, and beliefs of one's family.	• Have students take an inventory of their personal strengths and describe them through journal writing, creating a PowerPoint presentation, graphic novel, collage, etc. • Ask students to create and implement a plan to further develop areas of strength. • Provide opportunities for students to develop critical thinking skills through prompts, literature, and/or small group discussions. • Ask students to interview family members regarding culture, customs, and beliefs. Using the information gathered from the interviews have students create a presentation, (e.g., essay, power point, artwork) that represents these three elements.

1C. Determine one's strengths and areas for growth.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Identify instances of strength. 2. Describe areas where help is needed. 3. With support, develop connections between personal strengths and corresponding skills and talents.	• Point out successes and things each student does well. • Designate a Cool Kid of the week/day either by something s/he wears (e.g., cape, hat, button) or through a classroom job.

1C. Determine one's strengths and areas for growth.		
Grade Band	**Performance Standards**	**Strategies**
		Encourage the other students to randomly compliment the successes of this student. ● Encourage students to draw instances in which they need help and then discuss what the commonalities are among these instances. ● Host a class or school-wide Talent Show. After the show, discuss with children how they chose which talent (i.e., skill) to include in the show. ● Use a chart with arrows and graphics to assist students in understanding how strengths lead to skills and talents.
3-5	4. Identify strengths and areas for growth. 5. Describe personal skills in need of further development. 6. Describe how personal strengths impact choices.	● Have students create/draw a personal shield divided into sections about themselves including things they do well, things they want to improve, favorite things, goals/aspirations, etc. ● Use journaling activities for students to identify easy or challenging tasks for them in school. ● Have students compose lists of their interests and strengths and allow them to share with peers. ● Utilize cooperative learning activities to support student strengths.
6-8	7. Inventory personal strengths and areas for growth. 8. Identify ways to utilize strengths to build skills in an area for growth. 9. Identify how individual strengths and areas of growth impact success in specific activities.	● Have students complete a strengths inventory. Discuss strengths and then discuss areas that were not scored highly and may be areas for growth. ● Use journaling prompts for students to discuss an identified strength and activities they are successful in as a result of that strength. ● Have students journal about an area for growth that could be impacted by one of their strengths. ● Have students make a list of mistakes, weaknesses or obstacles. Then instruct them to "flip" them so they are positive (e.g.," I failed a math quiz" would flip to "I will ask

1C. Determine one's strengths and areas for growth.		
Grade Band	**Performance Standards**	**Strategies**
		teacher for help understanding the concepts from that quiz.")
9-12	10. Accurately identify strengths and areas of growth. 11. Develop and implement a plan to address areas in need of growth. 12. Utilize identified areas of likes, dislikes, skills, talents, interests, strengths, and areas of growth to create postsecondary plans. 13. Exhibit confidence in one's self based on accurate identification of skills, talents, interests, and strengths.	• Provide a prompt and have students write a bio about themselves to include beliefs and personal qualities. • Have students create a postsecondary plan (i.e., work, college, internship, vocational/trade school) based on information provided through completing a personal inventory. • Ask students to create a system to monitor and evaluate progress of postsecondary plan. • Have students create and implement a plan to address areas identified in need of growth. • Ask students to research required skills and knowledge for specific postsecondary activities (e.g. college, work, trade school). • Have students develop a resume based on identified areas of skill, talent, interest, and strengths.

1D. Develop personal responsibilities and a feeling of one's abilities, qualities, and judgment.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. With support, identify responsibility as it relates to school-wide expectations and rules. 2. Distinguish differences in good choices and bad choices. 3. Identify the importance(s) of taking ownership of bad choices. 4. Takes care of own and others' belongings.	• Create and teach school-wide expectations and rules to students, ensuring that responsibility is included in the expectations. • Create a chart with two columns with visuals - one for good choices and one for bad choices. Discuss the rationale for the placement of each choice. • Play stop and go by having students create a sign using a craft stick with a red stop on one side and a green go on the other. Describe a behavior, reflect back on a classroom incident, or read about a character's actions. Have students hold up either the stop or go sign to indicate if the choice was good or bad. • Provide a space for student belongings. Teach students the procedures/rules regarding handling others' belongings (e.g., how to use

1D. Develop personal responsibilities and a feeling of one's abilities, qualities, and judgment.		
Grade Band	**Performance Standards**	**Strategies**
		words to ask to borrow/use items, only touch things in own cubby). ● Demonstrate appropriate ways to manipulate belongings at school and explain why we care for each item in the way that we do. Create a short song or chant about caring for items to say/sing. ● After a science lesson on parts of the body, have students sit or lie down in a relaxed position with their eyes closed. Ask them to think about a time earlier in the day or yesterday when a part of the body (e.g., arm, ears, eyes, leg, hands, etc.) had done something amazing. Relate what the students share to following expectations and rules, making good choices, and taking care of items.
3-5	5. Define personal responsibility and identify ways to exhibit it in daily life. 6. Identify how personal choices affect self and others. 7. Describe benefits of personal responsibility. 8. Demonstrate responsible behaviors.	● Have students write or share aloud things they are responsible for at home and school. ● Have students create "Helpful Hands" coupons for tasks they will do at home or school to help others and reflect on why helping others is important. ● Create and assign class jobs for students. ● Role-play with students or have students watch videos of different scenarios depicting responsible choices and actions. ● Have students reflect in a journal on their responsibilities at home and school.
6-8	9. Define personal responsibility and apply in different scenarios. 10. Identify outcomes of responsible and safe behaviors versus risky, unsafe behaviors. 11. Analyze areas of one's life that are within one's control. 12. Demonstrate ability to set and adhere to personal boundaries.	● Lead a classroom discussion on personal responsibility. Discuss the personal responsibilities in different scenarios. ● Show a video of characters making responsible and safe behaviors versus risky and unsafe behaviors. Discuss the results of these behaviors. ● Have students create a piece of art (drawing, video, PowerPoint, skit) or journal about areas of their life that they can control (e.g., completing homework) and those they cannot (e.g., the people in their family.)

1D. Develop personal responsibilities and a feeling of one's abilities, qualities, and judgment.		
Grade Band	**Performance Standards**	**Strategies**
		• Provide a "Setting and Respecting Boundaries" worksheet for individuals or groups of students to complete.
9-12	13. Describe one's personal responsibility to family, friends, schools, community, and society as a whole. 14. Develop and apply decision-making skills that promote personal responsibility. 15. Analyze how personal responsibility affects individual and group relationships. 16. Demonstrate the ability to take personal responsibility for one's behavior.	• Ask students to create a system to document weekly responsibilities (e.g., student planner, online calendar, online reminders). • Have students reflect and share, in small groups, on a time when they did and did not accept personal responsibility and the outcome. • Ask students to write an essay or create a PowerPoint, skit, or any other type of multimedia presentation that depicts the impact of personal responsibility and relationships. • Have students organize a school or community event that provides needed information or service.

SELF-MANAGEMENT

Self-management is the ability to self-regulate emotions, thoughts and behaviors across settings and to set and work towards personal and academic goals.

Anchor Standards:

2A. Develop skills necessary to control impulses and appropriately manage thoughts, stress, emotions, and behaviors in school, home and community life.

2B. Identify and utilize skills needed in organization and self-motivation.

2C. Demonstrate ability to set and accomplish specific tasks and goals.

2A. Develop skills necessary to control impulses and appropriately manage thoughts, stress, emotions, and behaviors in school, home and community life.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. With support, describe connections among thoughts, emotions (i.e., feelings) and behaviors (e.g., if my sister makes me mad, I might want to yell at her). 2. Use simple, developmentally appropriate words to express thoughts and emotions (i.e., feelings – e.g., mad, sad, happy). 3. Begin to develop the ability to self-regulate when experiencing negative emotions. 4. Demonstrate the ability to wait (e.g., for a turn, for a response, for an item, etc.).	• Utilize a Wiggle Cool Down to prepare students to be ready to learn by counting backwards with the students from 10 to 1, getting quieter as they count and having them roll their shoulders back on 3 and take a deep breath at 2. • Ask students an academic content related question and instruct them to hold on to the answer. Play the "hot potato" game with a potato or ball being tossed around from student to student while music plays. When the music stops, the student with the item should give the answer to the question. After the game, discuss whether anyone felt nervous or anxious to remember how to play or to have the correct answer. Develop strategies to use when anxious (e.g., keep saying the instructions in head, take a deep breath to relax, give others helpful hints, etc.). • Read books and/or view social stories with students and ask them questions about how the characters expressed their feelings/emotions and exhibited behaviors in response to negative behaviors. Discuss with them other ways the characters could have expressed their feelings/emotions, responded, and what would be a good plan for next time. • Practice simple breathing strategies (e.g., STAR, balloon, pretzel, drain) as a group, and encourage students to use them when they experience negative emotions.

1800

2A. Develop skills necessary to control impulses and appropriately manage thoughts, stress, emotions, and behaviors in school, home and community life.		
Grade Band	**Performance Standards**	**Strategies**
		• During wrap-up at the end of the day, reflect on situations that occurred during the day at home or at school regarding self-regulation, using words, and waiting - providing positive feedback for good choices and thoughts for next time on poor choices. • Play Simon Says. After the game, ask students what it felt like to have to not do something they really wanted to do. Discuss with students how just like in Simon Says we have to stop and think before we follow our thoughts through with actions.
3-5	5. Identify the relationship between thoughts, stress, emotions (i.e. feelings) and behavior. 6. Identify situations that cause self to experience negative emotions (e.g., sadness, anger, anxiety, disappointment, etc.). 7. Demonstrate ability to appropriately express emotions. 8. Develop strategies to use when angry or stressed (e.g., walk away, counting to 10, seek help, etc.). 9. Identify strategies for controlling impulses and demonstrate the utilization of at least one (e.g., deep breathing, self-talk, seek help, etc.).	• Provide students opportunities to practice addressing thoughts, emotions and behaviors through "I" messages (e.g. I feel __ when you __. I would like for you to __). • Use books, videos, or role play to discuss what characters might be thinking and feeling and how it impacts their behavior. Reflect on whether their response was appropriate. • Provide opportunities for students to practice calming techniques such as self-talk, deep breathing, or counting to 10. • Use journaling or drawing activities for students to reflect on situations where they were stressed, how they handled their stress, and what they could have done differently. • Use games such as Red-Light Green-Light, Freeze Frame, or Simon Says to demonstrate and reinforce self-control skills.
6-8	10. Analyze the connection between one's thoughts, emotions and behavior. 11. Utilize strategies to monitor one's emotions, stress level and behavior. 12. Identify how appropriately and inappropriately expressing one's emotions affects others. 13. Demonstrate the ability to use self-regulation skills to reduce anger, stress or anxiety.	• Have students create a timeline and then journal about a problem they encountered, what their thoughts and feels were about the situation and their resulting behaviors. • Create a class Emotional Planner on the board or online. Have class identify upsetting or anxiety producing activities. As a class determine the emotions related to thoughts about these activities. Discuss & list strategies students can use to effectively manage the situations.

2A. Develop skills necessary to control impulses and appropriately manage thoughts, stress, emotions, and behaviors in school, home and community life.		
Grade Band	**Performance Standards**	**Strategies**
	14. Demonstrate ability to control impulses through use of self-control strategies (e.g., self-talk, Stop, Think, Go technique, counting to 3, controlled breathing, setting a goal, self-reinforcement).	• Discuss and practice different self-management strategies such as deep-breathing, yoga, self-talk, etc. • Have students complete a stress questionnaire that rates their level of stress during different situations. • Allow students to create a slideshow, art piece, or video about the situations that cause them the most stress and strategies they will use to manage stressful situations. • Have students create comic strips showing appropriate and inappropriate ways to communicate emotions. • Discuss and practice different self-control strategies, including breathing, that are useful for impulse control. • Have students create a plan to use one or more self-control strategies in an area of their life where controlling impulses is difficult. Create an impulse journal to document successes and roadblocks.
9-12	15. Analyze how thoughts and emotions impact one's decisions. 16. Apply self-monitoring techniques (e.g., note to self, visual cue, recording form, identifying and avoiding triggers). 17. Evaluate the impact of appropriate and inappropriate emotional expression on self and others. 18. Identify specific self-regulatory strategies that can be used across settings (i.e., school, home, community). 19. Demonstrate self-regulatory strategies. 20. Demonstrate the ability to utilize multiple impulse control strategies (e.g., Stop and Think about Consequence for oneself and others).	• Ask students to identify past situations where thoughts and feelings led to behaviors with a negative and positive outcome. • Have students research effective age-appropriate self-regulatory techniques (belly breathing, yoga, counting to 10, self-talk, relaxation exercises, mental rehearsal) and write a paper on the technique(s) they feel are best suited for them and why. • Have students demonstrate a technique(s) they will implement when feeling overwhelmed with negative emotions utilizing small groups. • Ask students to keep a journal of when and how they used self-monitoring techniques and evaluation of effectiveness of regulating their behavior. • Have students read a book where a character did not demonstrate impulse control and what the possible consequences could be for the character as well as others.

2B. Identify and utilize skills needed in organization and self-motivation.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Demonstrate frequent participation with minimal teacher prompting. 2. With encouragement, demonstrate the ability to complete a task and/or work towards a goal over time. 3. Identify multiple ways to stay organized in different aspects of life (e.g., keeping things tidy, labeling where items go, using lists, having a daily schedule). 4. With reminders, participate in cleaning up own space and items used at home and at school.	• Provide students with the opportunity to create focus binoculars using toilet paper tubes, yarn, and various art supplies. Practice using the binoculars to follow directions, limit distractions, and focus in on one item. • Limit distractions in the classroom for the whole class, and keep in mind individual distractions and attention spans when doing things such as seating students, pairing students together, etc. • Provide students with activities that will need more than one sitting to be completed (e.g., art activities like a Paper Mache animal, science activities like nurturing a seed to a plant, writing activities that are longer). • Have students pretend to be a superhero in order to finish difficult tasks they have started and are struggling to finish (e.g., complete a puzzle, write a 4-sentence paragraph, a chore at home). • Model organization for students by keeping an orderly classroom (e.g., labels for spaces and items, a tidy teacher's desk, a home for every item, etc.). • Make time in the daily schedule to have students clean/put up after each big routine. At the beginning of the year, model for students how to clean and put away things in each area and/or for each routine. Encourage families to do the same. • Show students pictures of various spaces at school, home, and the community. Discuss which ones are organized and which ones aren't and why. Facilitate conversations about how organized spaces help us to be successful (e.g., quickly gathering supplies we need) and how unorganized spaces cause us stress (e.g., losing a needed item, no space to complete a task, etc.). • Encourage students to draw pictures or make lists of things that need to be completed.
3-5	5. Demonstrate the ability to stay on task with limited distractions.	• Use polls or surveys to allow student input into what assignments will be based on selected topics.

2B. Identify and utilize skills needed in organization and self-motivation.		
Grade Band	**Performance Standards**	**Strategies**
	6. Develop willingness to attempt new tasks and share ideas with others. 7. Identify strategies for persevering through difficult situations or tasks. 8. Determine supports needed to organize aspects of home and school life.	• Provide students with choices within the classroom such as where to work, what materials to use, and how to represent what they've learned. • Use "ticket out" activities where students write out or share what they learned from a lesson and how it is or will be useful in their lives. • Allow students the opportunity to lead lessons or share the steps they used to solve a problem. • Use journaling or art activities to allow students to identify situations or tasks that were difficult, what they did in response, and whether that response was helpful. • Provide students with multiple tools for organization such as planners, cubbies or lockers, and designated locations for materials or assignments. • Allow students to create their own organizational tools such as checklists, daily/weekly schedules, folders, etc.
6-8	9. Demonstrate the ability to maintain focus and use time wisely in order to complete a task. 10. Demonstrate the ability to break a large assignment into smaller parts. 11. Utilize strategies for persevering through challenges and setbacks. 12. Identify and utilize a variety of organizational strategies (e.g., planner, graphic organizers, checklists, time limits, etc.)	• When assigning a project, have students break it down into smaller parts then create a checklist with a timeline of the smaller parts to monitor progress and ensure completion of the project. • Role-play or view scenarios that involve a frustrating task such as a difficult math problem. Use words that students' typically use when frustrated or stuck. Have students describe the situation and then provide options for working through the problem. • Have students journal about tasks that were challenging and strategies they use to persevere and complete the task. • Discuss and provide examples of different organizational strategies. Have students create a booklet, video or PowerPoint of each strategy with pictures and examples of tasks for which it would be beneficial. • As a class, create an anchor chart of the different organizational strategies. • Prior to an assignment, have students identify and journal about an organizational strategy they

2B. Identify and utilize skills needed in organization and self-motivation.		
Grade Band	**Performance Standards**	**Strategies**
		will use. At the end of the assignment, have them journal about the pros and cons of the strategy used.
9-12	13. Demonstrate the ability to stay focused on different tasks and to use time effectively and efficiently in order to reach a goal. 14. Demonstrate the ability to initiate and complete tasks individually and in groups. 15. Analyze and apply motivation strategies to persevere through difficult situations, tasks, or goals. 16. Utilize organization skills to plan, schedule activities, meet deadlines, research resources, and meet goals.	• Have students create a task analysis of necessary resources and timeframe to reach a specific goal. • Have students work in small groups to complete a task while rotating the role of the leader. • Provide various written prompts of an obstacle or challenge. Distribute prompts to small groups and have the groups brainstorm solutions to the obstacle or challenge and then report out to the larger group the solution and how to apply it to the situation. • Ask students to identify specific tools they will use to help with organization (e.g. student planner, online calendar, timer, graphic organizer).

2C. Demonstrate ability to set and accomplish specific tasks and goals.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Determine tasks and goals that need accomplishing in daily routines. 2. Complete small tasks and/or simple goals independently, with few requests for assistance (e.g., assignment, brush teeth, feed pet, etc.). 3. Seek assistance from trusted adults for steps in a task or objectives of a goal that are difficult to complete (e.g., student packing up to go home and asks teacher for help with the zipper that got off track, student checking out books from a community library and asks librarian where the easy reader section is).	• Provide students with tasks to complete and routines to engage in, including choices as the activities allow. Encourage families to do the same. • Have students write down their daily/weekly homework and/or review the homework tasks with them each day. • Review the schedule with students daily, discussing specific routines or tasks that may be new, difficult, or of special interest. Encourage families to do the same. • Encourage students to ask for help when needed and teach students safe ways to illicit help from adults in the community. View visuals of community members and have students say whether or not this is a safe adult and what kind of help might be asked of him or her. Be sure to include visuals of people from various cultures.

2C. Demonstrate ability to set and accomplish specific tasks and goals.		
Grade Band	**Performance Standards**	**Strategies**
		• Respond to requests for help.
3-5	4. Describe steps necessary for setting and achieving tasks and goals. 5. Differentiate between short- and long-term goals. 6. Complete short- or long-term goal with minimal assistance. 7. Monitor progress toward achieving personal or academic goals. 8. Determine home and school supports or resources needed to complete tasks or goals.	• Have students compile lists of previous accomplishments and the steps they took to achieve them. • Allow students to select a class project to work on together and identify steps necessary to achieve it. • Have students create a bucket list of things they want to accomplish in the short and long term. • Allow students to create a vision board using pictures or words that represent their goals. • Use a progression visual (e.g. steps, ladder, etc.) to help students break down their goals into manageable steps. • Allow students to track their progress with a visual chart or graph. • Have students play a matching game of various home and school supports or resources and the services they provide, such as teachers, counselors, doctors, police officers, etc.
6-8	9. Set a short-term goal and develop a plan to achieve it. 10. Set a long-term goal with assistance front teacher and develop a plan to achieve it. 11. Determine how to evaluate progress toward a goal and modify accordingly. 12. Identify factors that influenced whether a goal was achieved. 13. Determine supports that are available within the family, school or community.	• Allow students to create a poster or PowerPoint that highlights support available to them in their family, school and community. • Provide a "SMART Goal Planner" worksheet to assist students in identifying a short-term goal (e.g., completing homework for 1 week) and a long-term goal. • Provide students with a daily chart or goal setting app to chart when they complete steps toward their goal. • If obstacles occur allow students to brainstorm options for modifying the goal or steps to reach the goal (e.g., I have basketball practice at night, and I struggle to find time to read. He might read when he gets home from school instead of playing video games.) • Provide a journaling prompt for students to reflect on why they met or did not meet their goal.
9-12	14. Create short- and long-term goals (postsecondary).	• Support students in setting short and long-term postsecondary goals incorporating personal

2C. Demonstrate ability to set and accomplish specific tasks and goals.		
Grade Band	**Performance Standards**	**Strategies**
	15. Develop an action plan that includes necessary resources, specific steps, timeframe, and evaluation of both short- and long-term goals. 16. Apply strategies to overcome obstacles or barriers to goal achievement. 17. Identify family, community, school, and peer resources and supports.	interests (e.g., hobby, work, exercise, sports, academics). ● Have students research components of an effective action plan and develop a template. ● Ask each student to set an achievable goal within a month or two, related to an area of interest (e.g., a sport, hobby, musical instrument). ● Facilitate follow-up discussions regarding progress and accomplishment of the stated goals. ● Ask students to develop a plan to monitor and evaluate achievement of short- and long-term goals. ● Have students organize a Resource Fair with "vendors" from the community, families, school, and peers. ● Ask students to reflect on a time when they overcame an obstacle to accomplish something that was important to them, and then share their accomplishments through small-group discussion. ● Have students role play situations, obstacles, and/or barriers that may prevent them from reaching identified long- or short-term goals.

SOCIAL AWARENESS

Social awareness is the ability to empathize with and relate to others, including those from diverse backgrounds. Social awareness involves understanding societal norms for behavior and contribution to community well-being.

Anchor Standards:

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.

3B. Develop an awareness of and respect for individual differences, including cultural diversity.

3C. Identify and develop an understanding of societal norms for the well-being of school, home, and community.

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Identify behaviors associated with emotions (e.g., sad - crying, mad - yelling and grimacing, happy - smiling, angry - tantruming and physical aggression, excited - squealing and jumping, etc.). 2. Recognize the emotions of others by the behaviors they display. 3. Determine whether/how to approach others based on their current emotion(s). 4. Make connections between own words and actions and others' emotions. 5. Recognize that another person can think differently than self about the situation (e.g., that the Lego structure needs to be wider to build the airport instead of taller or that playing basketball is a fun thing to do).	• Have students view pictures of faces and discuss what emotions they think each person/face is feeling. Be sure to include pictures of people from various cultures. • Play "What Would I Do" with students by stating/listing an emotion and having them reply with the behaviors that might display if they were feeling that way. • Encourage students to use words to communicate what emotions they are feeling. • Using a short scenario of an event, a story, or a real-life example from the classroom or at home, ask students to think about if and why they would interact with the people/characters. For example, Frederica fell on the playground and is crying. When and how would you approach her (e.g., get her a Band-Aid, hug her, wait until she stops crying if she is crying loudly, etc.)? • Point to an instance that happened during the day between two or more students or have students dictate a family occurrence. Then, have students think about and discuss the correlation between the actions of one or more and the feelings of the others. • After reading a book to the class or viewing a social story, discuss the relationship among what one character says and does and how it makes another character feel (e.g., sharing,

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.		
Grade Band	**Performance Standards**	**Strategies**
		complimenting, snatching, tattling, lying, helping, hitting, tone of voice used, etc.). Also, discuss the different emotions of each of the characters they are in the same situations. Ask students why two characters could feel differently about the same thing?
3-5	6. Recognize the emotions of others using verbal and visual cues. 7. Recognize non-verbal social cues from others and their impact on emotions. 8. Identify how one's own behavior impacts others' emotions. 9. Identify multiple perspectives or viewpoints in different situations.	• Allow students to work together in small groups to discuss and share how different verbal and visual cues indicate how others are feeling. • Allow students to play Charades with various emotions by acting them out with no words and having other students guess which emotion they are demonstrating. • Use a journaling activity for students to reflect on situations where someone else's behavior affected their emotions and situations where their behavior affected others' emotions. • Role-play or watch videos of social situations from books or history where students act out and discuss how the characters were feeling and how it impacted their behavior. • Lead a whole-group discussion with students about why it's important for various jobs to look at different perspectives (e.g. police, judge, teacher, etc.).
6-8	10. Recognize and respond to social cues in an appropriate manner. 11. Analyze ways one's behavior may affect the feelings of others. 12. Demonstrate respect for other people's opinions. 13. Identify ways to provide support and encouragement to others in need.	• Have students role-play or view interview situations where they must respond to the social cues of the interviewer. • Have students write alternate endings to stories through changing the behavior of one character. • On the outside of a paper bag have students make a collage of how they think others feel about an issue, and on the inside have them put pictures/words of how they feel about that issue. • Assign students a current topic and ask them to interview important people in their lives to gather their opinions and perspectives on the topic. Then have students share their results with the class through a mode of their choice (e.g., writing, art, slideshow, etc.).

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.		
Grade Band	**Performance Standards**	**Strategies**
		• Discuss behaviors that show respect for others and behaviors that show disrespect for others. Have students create an art piece that depicts the importance of showing respect to others. • Hold class meetings in person or online where students are given the opportunity to support one another.
9-12	14. Develop the ability to connect specific feelings (e.g., sad, angry, happy,) and one's behavior. 15. Develop the ability to read and respond appropriately to social cues. 16. Demonstrate the ability to recognize the impact of one's behavior on others' emotions and corresponding behavior. 17. Analyze perspectives which differ from oneself and compare and contrast. 18. Demonstrate the ability to express empathy and concern for people with differing perspectives. 19. Decipher meaning of communication of others through the use of verbal (tone of voice, rate of speech, volume) and non-verbal (facial expression, body language, and proximity) communication.	• Have students write an essay, create a PowerPoint, comic strip, piece of art, etc. to share a time when feelings led to behaviors that resulted in positive and/or negative outcomes. • Have students work in pairs using nonverbal communication to express and identify a variety of emotions and what might be an appropriate response to those specific emotions/feelings. • Have students label emotions and behaviors by responding to various age/school/community pictures or video snippets (e.g., not getting asked to prom, being cyber-bullied/online conflict, sitting alone at lunch, rumor circulating in school). Discuss why they chose the specific label and how they identified the behavior. • Using students' own neighborhoods, ask them to identify different types of diversity: old people, young people, people of different professions, people with disabilities, and people of different political beliefs. Discuss the opinions/perspectives that are similar and different from one's own. • As a large group, discuss the aspects of different cultures, language, food, religion, customs and traditions, child rearing etc. from their neighborhoods. Divide the students into small groups and have them create a PowerPoint describing a culture they create. Each group will present the PowerPoint to the class discussing why they chose each of the aspects. • Ask students to answer the following question: "How does where you are from influence who you are?" This might include religion, region, ethnicity, how old parents/caregivers are, what beliefs you share as a family, whether you come from a single or two-family home, whether or not you have siblings. Discuss how these things

3A. Demonstrate an understanding of others' emotions and perspectives, including social cues.		
Grade Band	**Performance Standards**	**Strategies**
		impact the perception and understanding of others. ● Have students work in pairs, using cards with the name of an emotion written on it, to try to convey the emotion using verbal and nonverbal communication.

3B. Develop an awareness of and respect for individual differences, including cultural diversity.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Participate in the study of cultures (e.g., learning facts, celebrations). 2. With prompting, identify commonalities between self and other(s) (e.g., physical characteristics, likes/dislikes, family members, etc.). 3. Identify differences between self and other(s). 4. Determine whether own actions result in fair and safe treatment of others.	● Hold celebrations in class of various cultural events as they occur over the school year. Invite families of that culture to share information about themselves during the celebration. ● As part of a science or math activity, encourage students to use measuring utensils and the properties of science to create a "family heritage" dish to (and bring to school, if possible). Or, have students share recipes of their family heritage dish and discuss both the cultural and math/science aspects of the recipe/dish. ● Travel the world all year or unit long. Create passports for students, and visit a county each week, month, or day. Using visuals and videos, discuss what should be packed in your suitcases for each country's trip as well as types of customs, foods, celebrations, and facts unique to that country. ● Using a built-in "All About Me" activity, have students identify their likes and dislikes by drawing or writing them. Have students share with each other. ● As an extension of a math concept, have students work together as a class to create a graph of their likes, dislikes, physical characteristics, and family members (e.g., favorite type of ice cream with columns for chocolate, vanilla, strawberry, etc.; eye color; who has a brother, sister, dog, cat, etc.).

3B. Develop an awareness of and respect for individual differences, including cultural diversity.		
Grade Band	**Performance Standards**	**Strategies**
		• Use Show and Tell as a way for students to communicate their likes and information about their culture. • After reading/viewing a story, have students show a thumbs up or a thumbs down corresponding to whether each action to another in the story was safe/unsafe. Do this again for how fair the action is. • Have students view pictures or visual recordings of unfair or unsafe situations and have them discuss why the behavior in these instances is not appropriate (e.g., hitting others, making fun of others, snatching items from others, etc.).
3-5	5. Recognize the existence of various groups based on social and cultural factors (e.g., race, gender, age, religion, disability, etc.) 6. Identify similarities between various social and cultural groups. 7. Develop strategies for building relationships with individuals who are different from self. 8. Explain the definition of stereotyping, prejudice, and discrimination. 9. Identify bullying behaviors and their impact on others.	• Allow students to participate in a Culture Fair where each student or small group of students create projects to present information about various social and cultural groups. • Use a Bubble Map to have students compare and contrast information about various social groups. • Have students create a list of rules for treating others with fairness and kindness. Discuss these as a whole group and create a classroom contract all students sign in agreement. • Allow students to role play or watch videos of various situations where they interact with someone of a different background. Provide examples and non-examples of appropriate interactions. • Discuss historical people or events, current news topics, or literary examples of stereotyping, prejudice and discrimination with students. • Provide examples and non-examples of bullying behavior for students using fictional examples and literary or media representations. Allow students to identify or list the bullying behaviors, discuss how it makes them feel, and ways they can avoid bullying behaviors.
6-8	10. Demonstrate respect for the values, traditions and practices of different cultures or social groups.	• Read *To Kill a Mockingbird* or *Charlie and the Chocolate Factory*. Discuss the value of the different groups in the story. • Identify different cultures within the community and have students choose one to research including commonalities between the student's

3B. Develop an awareness of and respect for individual differences, including cultural diversity.		
Grade Band	**Performance Standards**	**Strategies**
	11. Recognize the value of perspectives, cultures or social groups different from oneself. 12. Identify examples of stereotyping, discrimination and prejudice and the negative impact they have on others. 13. Develop strategies to prevent or stop bullying.	culture and the one researching. Students may present their research through slideshows, written essays or a tri-fold board presentation. ● Discuss different groups within the school (cheerleaders, athletes, math club, yearbook staff, etc.) Have students select a group with which they are involved and present a slideshow describing what participation in their group entails. ● Discuss the definition of stereotypes. Provide individuals or small groups with a different social group (i.e., men, women, older people, cheerleaders, athletes, construction workers, etc.) Have students list characteristics or qualities of their chosen social group. Discuss the qualities and whether they are true for everyone in that group or not. ● Read current event articles about prejudice and discrimination and evaluate the response of the community giving suggestions for improvement where appropriate. ● Define the different levels of the Pyramid of Hate. Provide examples and have students determine which example goes with each level. Students then journal about ways to prevent the escalation of hate. ● Have students complete a questionnaire about being bullied. Lead a discussion about how bullying feels. Discuss different strategies to prevent bullying. Have students develop a slideshow depicting different ways students can prevent or stop bullying.
9-12	14. Demonstrate the ability to recognize the positive contributions of other cultures and perspectives to the well-being of society. 15. Exhibit behaviors that communicate an understanding and respect (avoid judgements, imposing one's own values, and stereotyping) for perspectives, differences, and cultures that differ from oneself.	● Have students identify all of the social groups (e.g., athletics, academicians, artists, student government, yearbook) in a high school setting and their contributions to the school community. Discuss what the community might be like without the variety of cultures and perspectives and how this relates to society as a whole. ● Have students generate a list of beliefs they have for a culture/background different from their own. Then, have students interview a person from that culture/background and compare and contrast the

3B. Develop an awareness of and respect for individual differences, including cultural diversity.		
Grade Band	**Performance Standards**	**Strategies**
	16. Analyze the origins of prejudice, stereotypes, and discrimination and why they sustain. 17. Develop an understanding of one's own prejudice, stereotypes and discrimination and how they impact one's behavior and relationships with others. 18. Recognize and create strategies to address behaviors associated with bullying (poor impulse control, lack of empathy, intolerance of others) in oneself and others.	person's responses with their original list. Discuss how misconceptions may impact one's behavior. ● Have students generate a list of appropriate/respectful responses to cultures/customs that are unfamiliar to them and then role play the situation using the response (e.g., eating a specific type of food, greetings, personal space). ● Have students choose a medium to present their research to the class on the beginnings of stereotypes, prejudices and discrimination for a particular group or culture. ● Have students generate a list of behaviors associated with bullying. Develop school wide strategies and processes to prevent and to stop bullying behaviors.

3C. Identify and develop an understanding of societal norms for the well-being of school, home, and community.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Distinguish the differences among rules at school, rules at home, and rules in various community settings. 2. Identify ways to help others in multiple settings. 3. Use words, drawings, or other means to show why helping others is important. 4. Differentiate between safe and unsafe behaviors.	● At the beginning of the school year before class/school rules are shared with students, have students share some of their rules at home. Then, have them share some of the "rules" their parents say to them when they are in the community. Discuss similarities and differences in the rules (e.g., voice level, walking vs. running, wearing uniforms, etc.). ● Use a Venn Diagram as a visual way to represent the similarities and differences in school, home, and community rules or even various places in the community. ● Have students list with words or by drawing the ways they help their family, friends, and people in their neighborhood. Link it to a phonetic skill by having them list helping behaviors that start or end with a specific sound, that rhyme a particular way, that have a specific number of syllables in a word, etc.

3C. Identify and develop an understanding of societal norms for the well-being of school, home, and community.		
Grade Band	**Performance Standards**	**Strategies**
		• Allow each student to choose a community helper and draw or write how this person helps in the community and why that is important. • Assign daily/weekly class jobs. Discuss with students how these jobs are helpful to the functioning of the classroom. Create a list of the causes that might occur if students didn't have class jobs. • Create a stop/go sign for each student by taping/gluing a red circle to one side of a craft stick and green circle to the other side of the craft stick. Have students view pictures of actions or read a specific line or two of a story and then hold up the stop side if they think the behavior was unsafe or the go side if they think the behavior was safe. • Provide students with a list of words or pictures of actions and have students circle or highlight the ones they think are safe.
3-5	5. Identify different social norms in the school and community. 6. Recognize ways to help peers complete tasks, goals, or address needs. 7. Identify how helping behaviors impact self and others.	• Have students list different societal norms for home and community. Compare and contrast similarities and differences between the norms. • Allow students to create a poster or bulletin board with pictures of individuals with helping roles in school or community, and how they help others. • Allow students to identify and participate in a service project that helps others in the school or community. • Promote cooperative learning groups and encourage students to work together and help each other on certain assignments or projects. • Have students trace their hands and write examples of how helping impacts self and others. Share "helping hands" around the classroom. • Use a journaling or art activity for students to describe ways they can help others, how helping makes them feel, and why it's important.

3C. Identify and develop an understanding of societal norms for the well-being of school, home, and community.		
Grade Band	**Performance Standards**	**Strategies**
6-8	8. Explain why societal norms are important in school and community. 9. Recognize the importance of helping others in one's family, school and community. 10. Explore a school, community or global need and generate possible solutions. 11. Explain how individual decisions and behaviors positively and negatively affect the well-being of their school and community.	• Discuss the definition of "social norms." Have students identify different norms in school and the community. • Have students journal, create an art piece or slide show about the importance of following social norms. • Have students research about kids who have made a difference in their community or in the world. Have them pick one person and write a paper about the impact that student has made by helping others. • Have students look at global needs and discuss what they would do to help if they were in charge. • Have students draw an "Impact web" of how their actions could potentially affect others, or how a historical figure's actions affected society.
9-12	12. Analyze the origins of societal norms. 13. Demonstrate an understanding of societal norms and the impact on society as a whole. 14. Develop the ability to positively contribute to society. 15. Analyze how one's behavior impacts relationships, family, school, and the community.	• Ask students to research various societal norms (e.g., handshaking, eye contact when speaking to someone, personal space) and provide a brief presentation to the class. • Have students create hypotheses and describe a world where social norms did not exist. • Have students create a plan of action (who, what, when, how) to address an identified school or community need that would improve the well-being of its members. • Have students create a scenario where they had to decide to follow societal norms or to behave in a way that was contradictory to societal norms. Create a mapping of how far reaching the decision expands (e.g., a relationship, school, family members, community and/or society as a whole).

RELATIONSHIP SKILLS

Relationship skills include the ability to effectively communicate, cooperate, seek and provide support to others, manage conflict, and effectively handle peer pressure in order to establish and maintain positive relationships.

Anchor Standards:

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.

4B. Develop and maintain positive relationships with others.

4C. Demonstrate the ability to successfully manage and resolve conflict in relationships.

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Identify appropriate words, gestures, and other forms of nonverbal communication, and appropriately use more than one in interactions with others. 2. Share, take turns, and engage cooperatively with others, especially when encouraged by trusted adults. 3. Determine how to identify when someone is in need of assistance, and provide needed assistance, as age appropriate. 4. With encouragement from trusted adults, identify and practice ways to put others' wants, needs, opinions, choices, etc. before own.	• Plan instructional activities for students where they work together in a small group to complete simple activities or projects. • Encourage students to use their (kind) words, especially when they are exhibiting negative behaviors and when others are exhibiting negative behaviors that include them (e.g., taking items, pouting, not waiting for a turn, etc.). • Play board, card, and other games in small groups. Emphasize the communication and social skills needed in order to successfully play the game. Encourage families to play games at home. • Instead of using a 1:1 ratio, provide a limited amount of supplies needed to complete cooperative activities so that students will have to use their words, engage socially with others, and assist others in order to complete tasks. • Discuss with students what "clues" they notice from people who need help. Utilize video clips, stories, role play etc. to make the discussion more robust.
3-5	5. Utilize appropriate verbal and nonverbal communication with others (e.g. words, tone, facial expressions, gestures, etc.) 6. Determine cooperative group behaviors (e.g. listening, encouraging, acknowledging others'	• Allow students to role play or watch videos of various verbal and non-verbal communication and discuss what is and is not appropriate for positive communication. • Allow students to work in groups on a project, such as building a structure with limited materials. Have students discuss how they

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.		
Grade Band	**Performance Standards**	**Strategies**
	perspectives, compromising, and reaching agreement). 7. Identify ways to encourage and support others and their contributions. 8. Demonstrate good sportsmanship by playing fairly and being gracious in winning and losing. 9. Demonstrate ability to give and receive compliments appropriately.	worked together to build the structure and why cooperation is important. ● Designate a Day of Encouragement where students can share words of encouragement and support to all classmates verbally, in notes/letters, and/or social media posts. ● Use teachable moments when playing games to discuss good sportsmanship and provide examples and non-examples. ● Read and discuss the book "Have You Filled a Bucket Today?" Then, create a class bucket for students to give compliments to each other.
6-8	10. Determine the positive and negative impact of one's verbal and nonverbal communication on other people when interacting with them. 11. Demonstrate the ability to determine roles in a cooperative group. 12. Demonstrate the ability to encourage and support peers. 13. Identify appropriate and inappropriate posts on social media and the potential consequences. 14. Exhibit the ability to respond non-defensively to constructive criticism.	● Have students role play or view videos of different scenarios where characters use appropriate and inappropriate verbal and nonverbal interactions. Discuss the positive and negative impacts of the scenarios. ● Assign a small group task. Discuss different roles for the group based on the class (i.e., in literature the roles may be researcher, facilitator, and wordsmith; while in math the roles may be questioner, summarizer and clarifier). Provide students with the tasks for each role and questions the person in that role may ask during the group work. This may be done in class or given as an outside assignment that students can complete through online meetings. ● As a class, brainstorm ways to encourage and support others. Have students journal about specific instances when they have received encouragement and how it made them feel as well as times, they provided encouragement and how it made them feel. ● Invite a representative from a human resources department to speak (in class or during an online meeting) about how a person's social media use is used for hiring decisions. ● Lead a discussion on appropriate and inappropriate posts on social media. Have students create an art piece, journal, or slide show of the possible consequences of each.

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.		
Grade Band	**Performance Standards**	**Strategies**
		• Show a video or read a passage from a book depicting a character providing constructive criticism with appropriate and inappropriate responses from another character.

4A. Demonstrate the ability to effectively communicate, utilize social skills, and support others.		
Grade Band	**Performance Standards**	**Strategies**
9-12	15. Analyze the effects of one's communication (verbal and nonverbal) and social skills in interactions with family, peers, and adults. 16. Demonstrate the ability to work cooperatively in various roles within groups (e.g., leader, recorder, timekeeper) to successfully reach a goal or to complete a school or community project. 17. Identify and obtain support for one's self and provide support to others. 18. Analyze own and others' posts on social media and the impact they may have on relationships.	• Have students use effective communication skills to select/assign roles (providing support for the decision) for a group project. • Have students participate in group projects serving different roles to reach a goal at school or in the community. • Have students identify needed support to reach a goal or complete a project. • Have students use a graphic organizer depicting those who support them and those who they support in various areas of their lives (e.g., school, community, family) in reaching goals or completing a project. • Have students analyze sample digital footprints from two characters on social media. Have students use critical thinking skills about how their own digital footprints can lead others to draw conclusions, both positive and negative, about who they are.

4B. Develop and maintain positive relationships with others.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Initiate interactions with others appropriately (e.g., tapping them on shoulder, using words to communicate the desire to join in, etc.). 2. Identify reasons why people befriend one another. 3. Engage in behaviors that promote positive relationships with others (e.g., using kind words, following others' interests, helping others, etc.). 4. Identify helpful and harmful behaviors in relationships. 5. Use words and/or illustrations to define peer pressure.	• Provide opportunities for students to interact with one another. Display visuals and/or review appropriate ways to get others' attention, join in interactions, and suggest a plan/next step for the interaction. • Make a collage with words, pictures, drawings, etc. of the reasons why two people are friends with each other. • Provide specific positive feedback to students who are using behaviors of positive relationships with others. • Read a book or view a video clip. Discuss the characters' interactions and friend choices. List appropriate initiation of interactions, positive friend choices, and behaviors that promote positive relationships the characters used in the book. • Read a book, asking for children to be on the lookout for helpful and harmful behaviors the characters in the book display towards one another. Play thumbs up/thumbs down - with thumbs down for harmful behaviors and thumbs up for helpful behaviors. Designate one or two students to keep a tally of each type of behavior and then discuss which behavior (helpful or harmful) was used more in the book. • Ask children to write or draw their own definition of peer pressure, an example of peer pressure, or about a time when they experienced peer pressure.
3-5	6. Determine and demonstrate qualities of good friends. 7. Describe and utilize more than one strategy to build positive relationships with peers, family, and others. 8. Differentiate among safe and unsafe behaviors in relationships with others. 9. Identify the six types of peer pressure (e.g., spoken, unspoken, direct, indirect, negative and positive).	• Allow students to compare and contrast characteristics a good friend should have with their own personal characteristics. • Have students journal about or discuss what friendship means to them. This could include examples of people they consider good friends, what qualities their friends possess (positive and negative), how friends make them feel, ways their friends help them/they help friends, and why friends are important. • Discuss with students the characteristics of building relationships such as making eye contact, introducing yourself, asking about the

4B. Develop and maintain positive relationships with others.		
Grade Band	**Performance Standards**	**Strategies**
	10. Develop strategies for resisting negative peer pressure.	other person, sharing about yourself, and finding common interests. Provide opportunities and activities for students to interact. For example, students can participate in a New Friend Scavenger Hunt where they complete a form with information and characteristics about themselves (e.g. favorite color, favorite food, hobbies, birthday month, etc.) and find classmates that have matching information. ● Read social stories with students or have them read on their own and discuss harmful and helpful behaviors and characteristics of good friends. ● Provide examples of positive and negative peer pressure. Have students discuss what makes each positive or negative. ● Discuss with students strategies for dealing with negative peer pressure (e.g. walking away, peer mediation, adult assistance, etc.) Have students role-play various scenarios using the strategies.
6-8	11. Demonstrate ability to maintain positive relationships (e.g., participating in shared interests/activities, spending time together, helping one another, and practicing forgiveness). 12. Determine the difference between behaviors of healthy relationships versus behaviors of unhealthy relationships (e.g. adult-child relationships, peer-peer relationships, and romantic relationships). 13. Distinguish impact of positive and negative peer pressure on self and others. 14. Demonstrate different strategies to resist negative peer pressure (i.e., say “no”, the delay tactic, offer an alternative, code word with parents, etc.).	● Have students journal, create a piece of art or a slide show describing the qualities they would like in a friend. Then have the students determine what they would need to do in order to develop a relationship with that type of person. ● Have students brainstorm about behaviors that indicate a healthy relationship and behaviors that would indicate an unhealthy relationship in different types of relationships. Have students create a story with characters that exhibit behaviors of a healthy relationship and characters that exhibit behaviors of an unhealthy relationship. ● Show video scenarios, role play or discuss scenarios in a book where characters employ positive and negative peer pressure. Have students identify: 1. who is pressuring, 2. what words or gestures they use to pressure others, 3. the effect of those words or gestures,

4B. Develop and maintain positive relationships with others.		
Grade Band	**Performance Standards**	**Strategies**
		4. is this a positive or negative influence? ● Have students journal about a time they experienced negative peer pressure including words or gestures that were used and how they felt. ● Provide different scenarios of negative peer pressure to individuals or small groups. Allow the students to identify ways to resist the pressure to conform. Have students present their ideas to the class.
9-12	15. Exhibit the ability to develop and maintain positive relationships based on shared values, interest, goals, and reciprocity of support. 16. Analyze types of peer pressure (positive and negative) and evaluate the impact on initiating and maintaining relationships. 17. Demonstrate the ability to resist peer/social pressure to engage in unwanted, unsafe, unethical behavior.	● Have students create a "perfect friend" using an avatar, picture, drawing etc., and have the student provide a description of why they are the perfect friend. Discuss what attributes they possess that they themselves want to develop and what steps they might take to initiate and maintain a relationship. ● Provide visuals of adolescents participating in a variety of appropriate (e.g., working, graduating, volunteering, exercising) and inappropriate (e.g., smoking, texting while driving, cheating on tests, drinking alcohol). Have students evaluate the pictures as positive or negative behaviors. ● Utilizing the positive and negative behavior pictures have students discuss consequences of each behavior in the pictures and create strategies for responding to peers regarding all behaviors.

4C. Demonstrate the ability to successfully manage and resolve conflict in relationships.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Identify examples of conflict that occur in relationships at school and at home (e.g., not sharing or taking turns with others, using harsh words, lying, misunderstanding/miscommunicating, bullying, gossiping, etc.). 2. Recognize emotions and behaviors that result in relational conflict. 3. With supports from a trusted adult, determine and utilize appropriate solutions in order to resolve conflicts with others. 4. Recognize that peer pressure can either be helpful or harmful.	• Make a chart of conflicts that students experience. Have students draw a check beside each conflict they have experienced. Discuss the conflicts, particularly those most experienced. • Create a "life cycle of a conflict" sheet with pre-written or pre-drawn conflicts. Have students write or draw the emotions and behaviors that occur before the given conflict. • Read a book or view a video clip. Discuss the resolution to the conflict, the other possible solutions that occurred before the resolution that did not work, and the differences between them. • Analyze real life conflicts that occur in the classroom and at home. Discuss the emotions and behaviors that occur before the conflicts, whether or not the chosen solutions were good choices, and if the solutions were bad choices, what could be done differently for the next time. • Using completed writing samples and/or drawings about peer pressure (4B), sort each by paper or electronic picture into two stacks - peer pressure that results in positive outcomes and peer pressure that results in negative outcomes.
3-5	5. Recognize that conflict occurs as a natural part of life. 6. Identify causes and effects of conflict and how one's response impacts self and others. 7. Utilize steps of a simple conflict resolution/problem solving process such as identifying problems, active listening, expressing emotions, brainstorming solutions, evaluating solutions, etc. 8. Describe proactive ways to prevent conflict. 9. Recognizes the difference between constructive and destructive ways of handling conflict and peer pressure.	• Have students discuss (verbally or in writing) situations at home and school where there might be disagreements and conflict and how they can handle them. • Use naturally occurring situations in the classroom to discuss when students did or did not handle conflict successfully. Ask students to reflect and problem solve how they could respond differently. • Have students read or watch fictional and non-fictional/historical stories that demonstrate conflict and discuss the causes and effects of each. • Use role playing scenarios or have students watch videos that show the causes and effects of conflict and peer pressure and options for peaceful resolution.

4C. Demonstrate the ability to successfully manage and resolve conflict in relationships.		
Grade Band	**Performance Standards**	**Strategies**
		• Allow students to create a visual checklist of problem-solving steps and various solutions to common conflict or peer pressure situations.

4C. Demonstrate the ability to successfully manage and resolve conflict in relation		
Grade Band	**Performance Standards**	**Strategies**
6-8	10. Demonstrate an understanding of the conflict cycle (e.g., event - emotion - reaction - outcome) and which part one has control over to shape the outcome of the conflict. 11. Identify behaviors that create conflict (e.g., spreading rumors, inappropriate posts or texts on social media, wrongful accusations, and insult or put downs). 12. Apply conflict resolution skills in order to de-escalate, defuse and resolve a conflict. 13. Determine strategies for avoiding or resolving conflicts related to destructive peer pressure.	• Utilize the conflict cycle diagram to explain and discuss each part of the cycle. Have students complete a blank handout of the diagram with a real or hypothetical conflict. Discuss how changing one's reaction can change the outcome of the conflict. • Lead a discussion of behaviors that often create conflict. Have small groups of students write conflict scenarios and perform them for the class or have individual students create conflict scenarios through slideshows and present to the class. Have the class identify the behaviors that led to the conflict and how that behavior could be changed in order to have a peaceful ending. • In literature, discuss the cycle of any conflicts and how changing the reaction could change the outcome of the conflict. • Teach students about the six steps to conflict resolution (e.g., cool off; use "I" messages; restate the conflict; take responsibility, brainstorm solutions, and affirm, forgive, or thank). Role play or view conflict scenarios using the six steps depicting conflicts resolved using the six steps. • Discuss different types of destructive peer pressure (e.g., pressure to engage in bullying, drugs or alcohol, sexual behavior, stealing, or dangerous behaviors.). Have students select a type of peer pressure and create a plan to avoid or resolve the conflict.
9-12	14. Analyze and define causes of various types of conflict, (e.g., internal conflict, conflict among peers, conflict with authority).	• Have students role play types of conflict while other students, working in small groups, identify the cause and create ideas for solutions. Have

	15. Demonstrate appropriate conflict resolution skills (e.g., communication, problem solving, stress management, active listening) to achieve mutually agreeable solutions. 16. Identify and implement strategies to successfully avoid and/or address peer conflict on social media. 17. Exhibit skills and strategies to avoid and escape bullying (as target and bystander), threats, physical violence, and harassment to maintain personal safety.	the small groups share findings with the larger group. ● Have students research the components of the conflict cycle (e.g., relationship, event, emotion, assumptions, reaction, and outcome) and describe (orally or in writing) a conflict in their lives and their behavior through the stages of the cycle. Did they demonstrate appropriate conflict resolution skills? What was the outcome? ● Have students create and submit a plan of action (e.g., delete post, block sender, report to adult, no response) to address social media conflict. ● Have students create and distribute to peers a list of resources (e.g., people, literature, training) to support others in developing skills and strategies to address various types of conflict.

RESPONSIBLE DECISION-MAKING

Responsible decision-making includes the ability to make constructive choices and problem-solve based on safe, ethical, and social norms while evaluating the outcomes of previous choices.

Anchor Standards:

5A. Develop, implement, and model effective choice-making skills at school, at home, and in the community.

5B. Analyze outcomes of decisions including the consideration of their effects on others.

5A. Develop, implement, and model effective choice-making skills at school, at home, and in the community.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Determine instances where the problem-solving process should be used. 2. Identify the steps of the problem-solving process. a. Identify the problem. b. Think of possible solutions. c. Analyze solutions. d. Choose a solution and try it. 3. With support, develop more than one solution to a problem and appropriately communicate the chosen solution to others. 4. For relational problems, appropriately communicate the chosen solution to others.	• Intentionally teach the problem-solving process to students by using a visual of the problem-solving process and real-life problems. • Display visual(s) of the problem-solving process in the room and refer to it when students have a problem to solve or decision to make. • Use the National Center for Pyramid Model Innovations' "We Can Be Problem Solvers" social story and activity to practice solving problems. • Read a book through a problem between/among characters and stop. Brainstorm possible solutions to the problem.
3-5	5. Describe steps of decision-making process and utilize more than one. 6. Identify choices or solutions to various situations at home, school, or in community and demonstrate ability to make appropriate selections. 7. Develop criteria for evaluating decisions and consequences for self and others.	• Discuss steps of decision-making process with students and allow students to role play, read social stories, or watch examples of characters making decisions. Allow students to reflect on each step of the process and why it is important. • Provide students with examples of common problems at home, school, and in the community. Have students identify choices or solutions and reflect on which is best for each situation. • Allow students to create a list of pros and cons for choices to common home, school, or

5A. Develop, implement, and model effective choice-making skills at school, at home, and in the community.		
Grade Band	**Performance Standards**	**Strategies**
		community situations. Discuss what makes them good or bad choices. ● Have students journal about times they made good and bad decisions (e.g. what happened, why was it good or bad, how did they feel, how did others feel, what could they have done differently?).
6-8	8. Identify and apply the five-step decision making process (identify problem or goal, gather information, weigh consequences, make the decision, and evaluate the decision) for a school-based decision. 9. Analyze how decision-making skills regarding study habits at home affect academic performance. 10. Apply the decision-making process to a community issue considering ethical, safety and societal norms. 11. Model appropriate decision making at school (i.e., choosing to follow the school rules, choosing not to follow peer pressure to bully, choosing to answer questions in class instead of talking with a peer, etc.). 12. Demonstrate the ability to take personal responsibility for the decisions and choices one makes.	● Have students brainstorm different decisions or choices that are made regarding school (i.e., to skip school, to study for a big test, to follow friends in making fun of a new student, etc.) or provide scenarios (written or video). Individually or in small groups have students work through the five steps of the decision-making process. Have students present their choices and how they arrived at that choice. ● Have students read excerpts from literature that shows characters using the decision-making processes to make effective or ineffective choices. Have students describe the steps the character uses to solve the problem or make the decision. ● For one testing cycle in one subject, have students journal, create an art piece or slide show depicting how their decisions each day to complete homework and study impacted their grade on the test. ● Provide a list of different community issues. Have individuals or groups of students apply the decision-making steps to determine an ethical, safe and appropriate decision for the issue. ● Have a community leader speak to the class about how decisions are made at the community or city level. ● Lead a class or online discussion about what it means to take personal responsibility for our decisions and choices. Discuss what taking responsibility looks like in different scenarios and what it does not look like (e.g., blaming others for mistakes one makes or failing to complete tasks one agreed to complete). ● Have students identify a decision or choice he or she will make in the next week (e.g.,

5A. Develop, implement, and model effective choice-making skills at school, at home, and in the community.		
Grade Band	**Performance Standards**	**Strategies**
		completing homework, completing chores at home, standing up for a friend when they are teased, etc.). Have students journal about how they took responsibility for their decision and the outcome.
9-12	14. Implement decision making processes by gathering and analyzing information, brainstorming options and barriers, thinking through the consequence (outcome), and reflecting on and evaluating the impact on others. 15. Demonstrate the ability to take personal responsibility in making ethical decisions. 16. Model decision making skills to develop positive interpersonal relationships at home, school, and in the community.	• Have students create a flowchart of the decision-making process. Utilizing the flowchart, have students work through a real-life decision. • Have students read literature involving decision making (e.g., Lord of the Flies, Othello, Things Fall Apart, Beloved, and The Stranger) and discuss the ethical dilemma, the decision, and the consequence (outcome) of the decision. • Have students research historical events and how the world might be if different decisions were made (e.g., U.S. decides not to enter WWII). • Create a fictional scenario involving a big decision and write four different outcomes on slips of paper. After reading the scenario to the class, have students work in groups to randomly select one outcome and put together a skit showing what happens. Once all the groups have performed their skits, • discuss which outcome was the best solution, which was the poorest choice, and how these decisions affected everyone involved.

5B. Analyze outcomes of decisions including the consideration of their effects on others.		
Grade Band	**Performance Standards**	**Strategies**
K-2	1. Reflect on whether solutions to similar past problems were appropriate or inappropriate when considering solutions to current problems (e.g., I really want the red marker he has. Last time I snatched something from him, it broke. This time a good solution would be to…).	• Using a life applicable problem or one from a book or video clip, ask students to reflect on a time when they experienced a similar problem and how the outcome of their solution played out with the resolution. Then, have students apply that to this current problem in deciding which solutions might be more appropriate than others. Was it safe? Was it fair? How did others feel?

5B. Analyze outcomes of decisions including the consideration of their effects on others.		
Grade Band	**Performance Standards**	**Strategies**
	2. Determine whether possible solutions to problems are safe. 3. For relational problems, identify the feelings others might have as a result of each possible solution. 4. With prompting, use reflection practices to determine if a recent decision was a good or bad choice.	• Using visuals of faces, ask students what sort of solution to a problem might have just occurred for that person to make a face like the one in the visual. • Play a matching game where students match solutions to problems by way of word and/or visual to associated emotion on visuals of faces. • Play "What If" with students. Ask students questions that begin with "what if" like what if we don't go outside for recess today, what if I extend free choice time by 10 minutes, what if I give you extra homework, what if I didn't talk to you all day, etc. Have students tell you how these "choices" would make them feel. Make connections between these choices and solutions to problems regarding feelings associated with each. • Play stop and go using a craft stick with a go sign attached to one side and a stop sign attached to the other. While discussing a problem and its solutions from a book, video clip, or recent occurrence at school or at home, have children hold up the sign indicating whether the solution is a good one or not.
3-5	5. Identify examples of ethical behaviors (e.g. fairness, honesty, respect, etc.) in decision making and demonstrate more than one. 6. Demonstrate knowledge of social norms and how they affect decision making. 7. Explain why safety and ethical considerations are important in making decisions. 8. Evaluate impact of past and present choices and decisions on self and others.	• Allow students to role play, read social stories, or watch examples of characters making ethical decisions. Have students discuss what ethical behaviors they observed the characters portraying and how that impacted their decision. • Provide examples of social problems that might occur at school, home, or in the community and have students discuss and identify solutions that are socially acceptable, safe, and ethical. • Allow students to play "Chutes and Ladders" and discuss the positive and negative consequences of different choices within the game. • Have students journal and reflect on previous decisions they have made and whether they were safe and ethical. If not, what could they have done differently? How did their choices impact them? How did they impact others?

5B. Analyze outcomes of decisions including the consideration of their effects on others.		
Grade Band	**Performance Standards**	**Strategies**
		What factors will they consider when making a similar decision in the future?
6-8	9. Demonstrate the ability to gather information from different sources (i.e., news sources, respected adults, medical websites, community leaders, teachers, church leaders, etc.) that can be used to make safe, ethical and socially appropriate decisions. 10. Identify different influences on one's personal decisions or choices. 11. Analyze how standing up for others when they are teased, insulted, or left out impacts that person as well as others. 12. Determine the effectiveness of a previous choice or decision in solving a problem or meeting a short-term goal.	• Have students choose a social, community or school problem. Then, have students gather information from different sources to help them identify a solution for the problem that is safe, ethical, and socially appropriate. • Have students use a decision log for 24 hours to identify different influences on their decisions. • Have students watch a video depicting a character standing up for a friend who is being bullied. Have students discuss or journal about how that choice impacted the friend as well as others who were witnesses. • Have students review different social media posts and list how each post could impact other people. • Have students journal about a choice or decision they have made, how they made that decision, and whether the choice they made was effective in solving the problem or meeting their goal.
9-12	13. Analyze various sources of information (e.g., print, social media, news, respected adults) and the impact on one's ability to make safe, socially appropriate, and ethical decisions. 14. Analyze and evaluate the impact of culture and how it influences societal norms, safety, and ethics in the decision-making process. 15. Analyze and evaluate current and past decisions for ethics, safety, and societal norms and the impact on intrapersonal and interpersonal relationships. 16. Analyze and evaluate past and current decisions and how they impacted short- and long-term goals.	• Ask students to pick a topic (e.g., climate change, immigration, gun control) and research how different sources present information and how that might impact decision making. • Ask students to create a list of values they think are important and describe how their culture, family, peers, and community impacted their list. Have the students explain how these identified values play a part in their decision-making process. • Have students think back over the previous day and make a list of all the decisions they made. They may have chosen to hit the snooze button rather than get up, study for a test instead of eating lunch, or not do the assigned reading for an afternoon class. Ask them to look at each decision and consider what their choices reveal about what's important to them. Have them write a reflective paragraph in which they consider the potential and obvious results?

5B. Analyze outcomes of decisions including the consideration of their effects on others.		
Grade Band	**Performance Standards**	**Strategies**
		• Ask teens to make a list of school subjects, activities and hobbies they enjoy and then list one potential career that aligns with each item on the list. Have them choose one career they would each like to have someday and list the skills and special training they would need to hold these jobs. Create action plans of how they might achieve this career. This will get them thinking about how the choices they're currently making could keep them from their goals.

1834

MISSISSIPPI K-12 SOCIAL EMOTIONAL LEARNING STANDARDS
PERFORMANCE STANDARDS SEQUENCE

Grade Band K - 2	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• With prompting, identify positive and negative emotions (i.e., happy, sad, mad, angry, surprised, loved, embarrassed, anxious, afraid, proud) based on characteristics associated with each emotion. • With prompting, determine the antecedents to own emotions. • Utilize words or gestures to communicate own feelings. • Distinguish between own likes and dislikes. • Describe skills and special abilities. • Identify personal qualities that assist in making good choices. • Identify instances of strength.	• With support, describe connections among thoughts, emotions (i.e., feelings) and behaviors (e.g., if my sister makes me mad, I might want to yell at her). • Use words to express thoughts and emotions (i.e., feelings). • Begin to develop the ability to self-regulate when experiencing negative emotions. • Demonstrate the ability to wait (e.g., for a turn, for a response, for an item, etc.). • Demonstrate frequent participation with minimal teacher prompting.	• Identify behaviors associated with emotions (e.g., sad - crying, mad - yelling and grimacing, happy - smiling, angry - tantruming and physical aggression, excited - squealing and jumping, etc.). • Recognize the emotions of others by the behaviors they display. • Determine whether/how to approach others based on their current emotion(s). • Make connections between own words and actions and others' emotions.	• Identify appropriate words, gestures, and other forms of nonverbal communication, and appropriately use more than one in interactions with others. • Share, take turns, and engage cooperatively with others. • Determine how to identify when someone is in need of assistance, and provide needed assistance, as age appropriate. • With encouragement from trusted adults, identify and practice ways to put others' wants, needs, opinions, choices, etc. before own.	• Determine instances where the problem-solving process should be used. • Identify the steps of the problem-solving process. • Identify the problem. • Think of possible solutions. • Analyze solutions. • Choose a solution and try it. • With support, develop more than one solution to a problem and appropriately communicate the chosen solution to others. • For relational problems, appropriately communicate the chosen solution to others.

1835

Grade Band K - 2	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• With support, develop connections between personal strengths and corresponding skills and talents. • With support, identify responsibility as it relates to school-wide expectations and rules. • Distinguish differences in good choices and bad choices. • Identify the importance(s) of taking ownership of bad choices. • Takes care of own and others' belongings.	• With encouragement, demonstrate the ability to complete a task and/or work towards a goal over time. • Identify multiple ways to stay organized in different aspects of life (e.g., keeping things tidy, labeling where items go, using lists, having a daily schedule). • With reminders, participate in cleaning up own space and items used at home and at school. • Determine tasks and goals that need accomplishing in daily routines. • Complete small tasks and/or simple goals independently, with few requests for assistance (e.g., assignment, brush teeth, feed pet, etc.).	• Recognize that another person can think differently than self about the situation (e.g., that the Lego structure needs to be wider to build the airport instead of taller or that playing basketball is a fun thing to do). • Participate in the study of cultures (e.g., learning facts, celebrations). • With prompting identify commonalities between self and other(s) (e.g., physical characteristics, likes/dislikes, family members, etc.). • Identify differences between self and other(s).	• Initiate interactions with other appropriately (e.g., tapping them on shoulder, using words to communicate the desire to join in, etc.). • Identify reasons why people befriend one another. • Engage in behaviors that promote positive relationships with others (e.g., using kind words, following others' interests, helping others, etc.). • Identify helpful and harmful behaviors in relationships. • Use words and/or illustrations to define peer pressure.	• Reflect on whether solutions to similar past problems were appropriate or inappropriate when considering solutions to current problems (e.g., I really want the red marker he has. Last time I snatched something from him, it broke. This time a good solution would be to…). • Determine whether possible solutions to problems are safe. • For relational problems, identify the feelings others might have as a result of each possible solution. • With prompting, use reflection practices to determine if a recent decision was a good or bad choice.

1836

Grade Band K - 2	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence		• Seek assistance from trusted adults for steps in a task or objectives of a goal that are difficult to complete (e.g., student packing up to go home and asks teacher for help with the zipper that got off track, student checking out books from a community library and asks librarian where the easy reader section is).	• Determine whether own actions result in fair and safe treatment of others. • Distinguish the differences among rules at school, rules at home, and rules in various community settings. • Identify ways to help others in multiple settings. • Use words, drawings, or other means to show why helping others is important. • Differentiate between safe and unsafe behaviors.	• Identify examples of conflict that occur in relationships at school and at home (e.g., not sharing or taking turns with others, using harsh words, lying, misunderstanding, miscommunicating, bullying, gossiping, etc.). • Recognize emotions and behaviors that result in relational conflict. • With supports from a trusted adult, determine and utilize appropriate solutions in order to resolve conflicts with others. • Recognize that peer pressure can either be helpful or harmful.	1837

Grade Band 3 - 5	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Identify range of emotions experienced. • Describe situations that cause range of emotions. • Identify physical responses to intense emotions. • Communicate emotions through appropriate means (i.e., appropriate words, gestures, tone, facial expressions, etc.). • Describe how emotions impact behavior. • Identify personal qualities and characteristics one possesses. • Describe benefits of personal qualities and characteristics. • Describe how personal qualities and interests impact decision-making. • Compare and contrast qualities and interests of self and others.	• Identify the relationship between thoughts, stress, emotions (i.e. feelings) and behavior. • Identify situations that cause self to experience negative emotions (e.g., sadness, anger, anxiety, disappointment, etc.). • Demonstrate ability to appropriately express emotions. • Develop strategies to use when angry or stressed (e.g., walk away, counting to 10, seek help, etc.). • Identify strategies for controlling impulses and demonstrate the utilization of at least one (e.g., deep breathing, self-talk, seek help, etc.). • Demonstrate the ability to stay on task with limited distractions.	• Recognize the emotions of others using verbal and visual cues. • Recognize non-verbal social cues from others and their impact on emotions. • Identify how one's own behavior impacts others' emotions. • Identify multiple perspectives or viewpoints in different situations. • Recognize the existence of various groups based on social and cultural factors (e.g., race, gender, age, religion, disability, etc.). • Identify similarities between various social and cultural groups. • Develop strategies for building relationships with individuals who are different from self.	• Utilize appropriate verbal and nonverbal communication with others (e.g. facial expressions, gestures, etc.) • Determine cooperative group behaviors (e.g. listening, encouraging, acknowledging others' perspectives, compromising, and reaching agreement). • Identify ways to encourage and support others and their contributions. • Demonstrate good sportsmanship by playing fairly and being gracious in winning and losing. • Demonstrate ability to give and receive compliments appropriately. • Determine and demonstrate qualities of good friends.	• Describe steps of decision-making process and utilize more than one. • Identify choices or solutions to various situations at home, school, or in community and demonstrate ability to make appropriate selections. • Develop criteria for evaluating decisions and consequences for self and others. • Identify examples of ethical behaviors (e.g. fairness, honesty, respect, etc.) in decision making and demonstrate more than one. • Demonstrate knowledge of social norms and how they affect decision making.

1838

Grade Band 3 - 5	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Identify strengths and areas for growth. • Describe personal skills in need of further development. • Describe how personal strengths impact choices. • Define personal responsibility and identify ways to exhibit it in daily life. • Identify how personal choices affect self and others. • Describe benefits of personal responsibility. • Demonstrate responsible behaviors.	• Develop willingness to attempt new tasks and share ideas with others. • Identify strategies for persevering through difficult situations or tasks. • Determine supports needed to organize aspects of home and school life. • Describe steps necessary for setting and achieving tasks and goals. • Differentiate between short- and long-term goals. • Complete short- or long-term goal with minimal assistance. • Monitor progress toward achieving personal or academic goals. • Determine home and school supports or resources needed to complete tasks or goals.	• Explain the definition of stereotyping, prejudice, and discrimination. • Identify bullying behaviors and their impact on others. • Identify different social norms in the school and community. • Recognize ways to help peers complete tasks, goals, or address needs. • Identify how helping behaviors impact self and others.	• Describe and utilize more than one strategy to build positive relationships with peers, family, and others. • Differentiate among safe and unsafe behaviors in relationships with others. • Identify the six types of peer pressure (e.g., spoken, unspoken, direct, indirect, negative and positive). • Develop strategies for resisting negative peer pressure. • Recognize that conflict occurs as a natural part of life. • Identify causes and effects of conflict and how one's response impacts self and others.	• Explain why safety and ethical considerations are important in making decisions. • Evaluate impact of past and present choices and decisions on self and others. 1839

Grade Band 3 - 5	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence				• Utilize steps of conflict resolution/problem solving process such as identifying problems, active listening, expressing emotions, brainstorming solutions, evaluating solutions, etc. • Describe proactive ways to prevent conflict.	

1840

Grade Band 6 - 8	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Identify and label a variety of emotional states. • Describe emotional states associated with different situations (e.g., stressful, sad, exciting, frustrating, disappointing, etc.) • Determine typical physical responses to a variety of emotions. • Describe ways to communicate one's emotions in a socially acceptable manner. • Identify how different emotional states impact one's ability to problem solve. • Identify positive attributes and qualities about oneself including talents, interests, physical characteristics, etc. • Describe characteristics that are important to oneself (i.e., loyalty, honesty, etc.)	• Analyze the connection between one's thoughts, emotions and behavior • Utilize strategies to monitor one's emotions, stress level and behavior. • Identify how appropriately and inappropriately expressing one's emotions affects others. • Demonstrate the ability to use self-regulation skills to reduce anger, stress or anxiety. • Demonstrate the ability to maintain focus and use time wisely in order to complete a task. • Demonstrate the ability to break a large assignment into smaller parts. • Utilize strategies for persevering through challenges and setbacks.	• Recognize and respond to social cues in an appropriate manner. • Analyze ways one's behavior may affect the feelings of others. • Demonstrate respect for other people's opinions. • Identify ways to provide support and encouragement to others in need. • Demonstrate respect for the values, traditions and practices of different cultures or social groups. • Recognize the value of perspectives, cultures or social groups different from oneself. • Identify examples of stereotyping, discrimination and prejudice and the negative impact they have on others.	• Determine the positive and negative impact of one's verbal and nonverbal communication on other people when interacting with others. • Demonstrate the ability to determine roles in a cooperative group. • Demonstrate the ability to encourage and support peers. • Identify appropriate and inappropriate posts on social media and the potential consequences. • Exhibit the ability to respond non-defensively to constructive criticism.	• Identify and apply the five-step decision making process (identify problem or goal, gather information, weigh consequences, make the decision, and evaluate the decision) for a school-based decision. • Analyze how decision-making skills regarding study habits at home affect academic performance. • Apply the decision-making process to a community issue considering ethical, safety and societal norms.

Grade Band 6 - 8	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Describe how one's personal qualities, interests, beliefs and academic/career goals impact decision making. • Inventory personal strengths and areas for growth. • Identify ways to utilize strengths to build skills in an area for growth. • Identify how individual strengths and areas of growth impact success in specific activities. • Define personal responsibility and apply in different scenarios. • Identify outcomes of responsible and safe behaviors versus risky, unsafe behaviors. • Analyze areas of one's life that are within one's control. • Demonstrate ability to set and adhere to personal boundaries.	• Identify and utilize a variety of organizational strategies (e.g., planner, graphic organizers, checklists, time limits, etc.). • Set a short-term goal and develop a plan to achieve it. • Set a long-term goal and develop a plan to achieve it. • Determine how to evaluate progress toward a goal and modify accordingly. • Identify factors that influenced whether a goal was achieved. • Determine supports that are available within the family, school or community.	• Develop strategies to prevent or stop bullying. • Explain why societal norms are important in school and community. • Recognize the importance of helping others in one's family, school and community. • Explore a school, community or global need and generate possible solutions. • Explain how individual decisions and behaviors positively and negatively affect the well-being of their school and community.	• Determine the difference between behaviors of healthy relationships versus behaviors of unhealthy relationships (e.g. adult-child relationships, peer-peer relationships, and romantic relationships). • Distinguish impact of positive and negative peer pressure on self and others. • Demonstrate different strategies to resist negative peer pressure (i.e., say "no", the delay tactic, offer an alternative, code word with parents, etc.). • Demonstrate an understanding of the conflict cycle (e.g., event - emotion - reaction - outcome) and which part one has control over to shape the outcome of the conflict.	• Model appropriate decision making at school (i.e., choosing to follow the school rules, choosing not to follow peer pressure to bully, choosing to answer questions in class instead of talking with a peer, etc.). • Demonstrate the ability to take personal responsibility for the decisions and choices one makes. • Demonstrate the ability to gather information from different sources (i.e., news sources, respected adults, medical websites, community leaders, teachers, church leaders, etc.) that can be used to make safe, ethical and socially appropriate decisions.

1842

Grade Band 6 - 8	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence				• Identify behaviors that create conflict (e.g., spreading rumors, inappropriate posts or texts on social media, wrongful accusations, and insult or put downs). • Apply conflict resolution skills in order to de-escalate, defuse and resolve a conflict. • Determine strategies for avoiding or resolving conflicts related to destructive peer pressure.	• Identify different influences on one's personal decisions or choices. • Analyze how standing up for others when they are teased, insulted, or left out impacts that person as well as others. • Determine the effectiveness of a previous choice or decision in solving a problem or meeting a short-term goal. 1843

Grade Band 9 - 12	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Identify and label emotions. • Identify feelings and behaviors associated with specific emotions. • Analyze and evaluate how emotions affect responsible decision making. • Analyze and evaluate how one's emotions impact relationships. • Develop socially appropriate communication strategies to express emotions and feelings. • Identify areas of likes, dislikes, skills, talents, interests, strengths, and areas of growth. • Create strategies that promote a more optimistic/positive outlook. • Utilize one's beliefs and personal qualities in planning and decision making.	• Analyze how thoughts and emotions impact one's decisions. • Apply self-monitoring techniques (e.g., note to self, visual cue, recording form, identifying and avoiding triggers). • Evaluate the impact of appropriate and inappropriate emotional expression on self and others. • Identify specific self-regulatory strategies that can be used across settings (i.e., school, home, community). • Demonstrate self-regulatory strategies. • Demonstrate the ability to utilize multiple impulse control strategies (e.g., Stop and Think about Consequence for oneself and others).	• Develop the ability to connect specific feelings (e.g., sad, angry, happy,) and one's behavior. • Develop the ability to read and respond appropriately to social cues. • Demonstrate the ability to recognize the impact of one's behavior on others' emotions and corresponding behavior. • Analyze perspectives which differ from oneself and compare and contrast. • Demonstrate the ability to express empathy and concern for people with differing perspectives.	• Analyze the effects of one's communication (verbal and nonverbal) and social skills in interactions with family, peers, and adults. • Demonstrate the ability to work cooperatively in various roles within groups (e.g., leader, recorder, timekeeper) to successfully reach a goal or to complete a school or community project. • Identify and obtain support for one's self and provide support to others. • Analyze own and others' posts on social media and the impact they may have on relationships.	• Implement decision making processes by gathering and analyzing information, brainstorming options and barriers, thinking through the consequence (outcome), and reflecting on and evaluating the impact on others. • Demonstrate the ability to take personal responsibility in making ethical decisions. • Model decision making skills to develop positive interpersonal relationships at home, school, and in the community.

Grade Band 9-12	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Explore and identify cultural norms, customs, and beliefs of one's family. • Accept and respect beliefs, likes, dislikes, and interests of others. • Accurately identify strengths and areas of growth. • Develop and implement a plan to address areas in need of growth. • Utilize identified areas of likes, dislikes, skills, talents, interests, strengths, and areas of growth to create postsecondary plans. • Exhibit confidence in one's self based on accurate identification of skills, talents, interests, and strengths. • Describe one's personal responsibility to family, friends, schools, community, and society as a whole.	• Demonstrate the ability to stay focused on different tasks and to use time effectively and efficiently in order to reach a goal. • Demonstrate the ability to initiate and complete tasks individually and in groups. • Analyze and apply motivation strategies to persevere through difficult situations, tasks, or goals. • Utilize organization skills to plan, schedule activities, meet deadlines, research resources, and meet goals. • Create short- and long-term goals (postsecondary). • Develop an action plan that includes necessary resources, specific steps, timeframe, and evaluation of both short- and long-term goals.	• Decipher meaning of communication of others through the use of verbal (tone of voice, rate of speech, volume) and non-verbal (facial expression, body language, and proximity) communication. • Demonstrate the ability to recognize the positive contributions of other cultures and perspectives to the well-being of society. • Exhibit behaviors that communicate an understanding and respect (avoid judgements, imposing one's own values, and stereotyping) for perspectives, differences, and cultures that differ from oneself. • Analyze the origins of prejudice, stereotypes, and discrimination and why they sustain.	• Exhibit the ability to develop and maintain positive relationships based on shared values, interest, goals, and reciprocity of support. • Analyze types of peer pressure (positive and negative) and evaluate the impact on initiating and maintaining relationships. • Demonstrate the ability to resist peer/social pressure to engage in unwanted, unsafe, unethical behavior. • Analyze and define causes of various types of conflict, (e.g., internal conflict, conflict among peers, conflict with authority).	• Analyze various sources of information (e.g., print, social media, news, respected adults) and the impact on one's ability to make safe, socially appropriate, and ethical decisions. • Analyze and evaluate the impact of culture and how it influences societal norms, safety, and ethics in the decision-making process. • Analyze and evaluate current and past decisions for ethics, safety, and societal norms and the impact on intrapersonal and interpersonal relationships. • Analyze and evaluate past and current decisions and how they impacted short- and long-term goals.

1845

Grade Band 9-12	Self-Awareness	Self-Management	Social-Awareness	Relationship Skills	Decision Making
Performance Standards Sequence	• Develop and apply decision-making skills that promote personal responsibility. • Analyze how personal responsibility affects individual and group relationships. • Demonstrate the ability to take personal responsibility for one's behavior.	• Apply strategies to overcome obstacles or barriers to goal achievement. • Identify family, community, school, and peer resources and supports.	• Develop an understanding of one's own prejudice, stereotypes and discrimination and how they impact one's behavior and relationships with others. • Recognize and create strategies to address behaviors associated with bullying (poor impulse control, lack of empathy, intolerance of others) in oneself and others. • Analyze the origins of societal norms. • Demonstrate an understanding of societal norms and the impact on society as a whole. • Develop the ability to positively contribute to society. • Analyze how one's behavior impacts relationships, family, school, and the community.	• Demonstrate appropriate conflict resolution skills (e.g., communication, problem solving, stress management, active listening) to achieve mutually agreeable solutions. • Identify and implement strategies to successfully avoid and/or address peer conflict on social media. • Exhibit skills and strategies to avoid and escape bullying (as target and bystander), threats, physical violence, and harassment to maintain personal safety.	1846

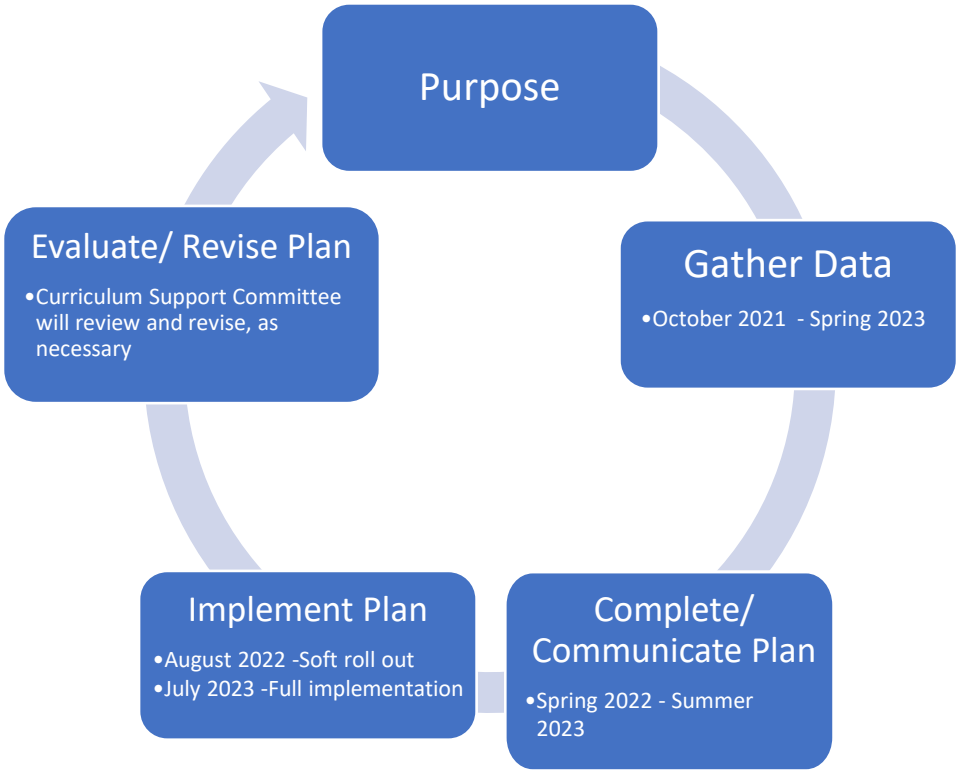
JCSD BEST PRACTICES
EXPECTATIONS AND ACCOUNTABILITY

Purpose:

Investigate and leverage the use of curriculum resources and academic best practices to provide consistency and improve JCSD accountability ranking to top 25% on the Mississippi Coast.



Data Gathering (Needs Assessment):

- Director of Curriculum and Instruction-

  - ✓ Conduct classroom walkthroughs – After analyzing data, visit classrooms on each campus to become more aware of curriculum utilization and instructional practices throughout the school district
  - ✓ Conduct principal interviews – Meet with each principal to discuss strengths and weaknesses in test data (data chats), scheduling of interventions, scheduling of SPED students, use of assessments, and other topics to gain insight and best practice ideas
  - ✓ Reach out to districts that are successful in our weak areas. Inquire about professional development, scheduling, resources, and curriculum department practices
  - ✓ Analyze 2020-2021 and 2021-2022 state test data and 2022-2023 formative test data to inform discussions with principals and prioritize walkthroughs
  - ✓ Establish a Curriculum Support Committee (work with elementary, middle, and high school administrators)

- Curriculum Specialists –

  - ✓ Conduct classroom walkthroughs – After analyzing data, visit classrooms on each campus to determine the use of curriculum resources and identify those using instructional best practices
  - ✓ Work with instructional technology specialists to determine technology best practices in instruction
  - ✓ Audit assessments used (i-Ready, benchmarks, standards mastery, Mastery Connect common assessments, 9-weeks exams, etc.) across the district
  - ✓ Collect data and usage information (surveys and one-on-one teacher interviews) to determine the effectiveness of current resources in each subject area/ grade level to ensure a rigorous and effective curriculum program
  - ✓ Analyze lesson plans for curriculum content and resource utilization

Complete Plan:

- ✓ Compile a list of best practices (instructional, school scheduling, use of assessments, professional development practices, and other categories)
- ✓ Complete an assessment plan to encompass all tested subject areas/ grade levels
- ✓ Prepare a list and schedule of required professional learning trainings for the entire school year
- ✓ Create a comprehensive improvement plan that includes academic best practices, required resources, instructional pacing, assessment plan, and professional learning schedule. It should also include an accountability process for teachers and administrators which uses evidence such as lesson plans, classroom evaluations, and other methods

Communicate Plan:

- Curriculum staff will train administrators and teacher leaders in the plan and associated expectations
- Curriculum staff, administrators, and department/grade-level chairs will lead PLCs to train teachers in best practice expectations

Implement Plan:

- Soft roll out at the beginning of the 2022-2023 school year
- Full implementation at the beginning of the 2023-2024 school year
- Curriculum staff, administrators, and department/grade-level chairs will participate in learning walks across the district to observe instructional best practices
- Curriculum staff will monitor the implementation of the plan through classroom walkthroughs and interviews with teachers and administrators

Evaluate and Revise Plan:

- Curriculum staff will continue to gather and analyze curriculum usage and academic best practice data in order to evaluate and revise the plan

Section: Scheduling

Placement Card Directions

The most important step is to make sure you have the correct color card that corresponds to the ELA scale score.

Circle ALL that apply. Write WINGS at the top.

Securely attach picture. If picture is not available, write student's name, gender, and race.

Write your name here.

Write specific grade equivalent. (2.4, .08, etc.)

Write Y or N. If Y, list grade level retained.

Circle the student's house.

Write the specific scale score in the correct box. (423, 547, etc.)

Check all that apply.

Check all interventions that apply.

Include medical diagnosis, treatment (if any), or relevant discussions.

Comments should be helpful and objective for the child's next teacher. Include items discussed during conferences or TST meetings.

ELL TST INCLUSION RESOURCE SPEECH/F SPEECH/G 504

Current Teacher: _____ **STAR Grade Equivalent:** ____

Has student repeated a grade? _____ **What grade?** _____ **House:** A B M O U

Student needs to be in a separate class from _____

	ELA Scale Score		MATH Scale Score		Interventions		Check All That Apply
	> 1 Level Below (Pink)		> 1 Level Below		Imagine Learning		Custody Alert
	< 1 Level Below (Yellow)		< 1 Level Below		Lexia		Foster
	Early (Green)		Early		Sonday		Backpack Buddy
	Mid (Blue)		Mid		Imagine Math		Easily Distracted
	Late (Purple)		Late		Reasoning Mind		Easily Frustrated
	Above (White)		Above		Behavior Plan		Other:

Medical Information: _____

Comments: _____

Please include any strategies you may have used to help this student academically, emotionally, or socially.

Special Ed - Pre-School		
Elementary	132001	**EARLY INTERVENTION**
		Comprised of 3-4 year old students with disabilities served in a community-based
		program, including Head Start, private day care, home or other agency.
Elementary	132032	**PRESCH DD/OTHER COMB AGES 3-5**
		School based program comprised of a majority of students ruled DD and may include other
		disabilities based on comparable functioning levels.
Special Ed - Disability Codes		
Elementary/Middle	132008	**ELEM (K-8) MENTALLY RETARDED (MR/EMR)/OTHER**

		COMBINATION Comprised of students ruled ED(EMR) only or comprised of a majority of students ruled
		ED(EMR) and includes other students with other disabilities based on comparable functioning
		levels. Must not include SLD students.
Elementary/Middle	132012	**ELEM (K-8) RET (MR/EMR)/SPECIFIC LEARNING**
		DIS COMBO Comprised of students ruled (EMR) and SLD students only or comprised of a majority of
		(EMR) and SLD students and includes other students with other disabilities based on
		comparable functioning levels. The 224 endorsement is valid for grades 7-8 only.
Elementary/Middle	132010	**ELEM (K-8) SPECIFIC LEARNING DISABILITY**
		(SLD)/OTHER COMBINATION Comprised of students ruled SLD only or
		comprised of a majority of students ruled SLD and includes other students with other
		disabilities based on comparable functioning levels. Must not include any ED(EMR) students.
Elementary/Middle	132026	**ELEM AUTISM/OTHER COMBINATION GRADES K-6**
		Comprised of a majority of students ruled AU and may include other disabilities based on
		comparable functioning levels.
Elementary	132024	**ELEM DD/OTHER COMBINATION (K-2)**
		Comprised of a majority of students ruled DD and may include other disabilities based on
		comparable functioning levels ages 5 and up (who are 5 years old by Sept. 1).
All grades	132002	**LANGUAGE/SPEECH (L/S) THERAPY**
		Comprised of students with a L/S ruling. Services are provided by means of individual or group therapy.
All grades	132020	**HOME/HOSPITAL**
		Children 6-21 who receive educational programs in homebound/hospital placement. Includes children
		and youth with disabilities placed in and receiving education in hospital programs or homebound programs.
All grades	132021	**SPECIAL EDUCATOR/ASSESSMENT TEAM MEMBER**
		Limited to one period per day for Minimum Program Funds.
Elementary/Middle	132028	**MS AUTISM/OTHER COMBINATION GRADES 5-8**
		Comprised of a majority of students ruled AU and may include other disabilities based on
		comparable functioning levels. The 224 endorsement is valid for grades 07-08 only.
Special Ed - Subject Area Codes		
All grades	132128	**SPECIAL EDUCATION READING K - 8**
Elementary	132117	**COMMUNICATION SKILLS - ELEMENTARY**
		Receptive and expressive language/communication skills; may include an augmentative or alternative means of
		communication. Comprised only of students whose Significant Cognitive Disability (SCD)
		data element has been set to Y.
Elementary	132103	**COMMUNITY LIVING SKILLS - ELEMENTARY**
		Community living skills necessary for the moderate or severly involved student to

		function independently and safely in the community. Comprised only of students whose
		Significant Cognitive Disability (SCD) data element has been set to Y.
Elementary/Middle	132134	**ELEMENTARY INCLUSION GRADES K-6**
		Students with disabilities are served in a regular classroom the majority of the day by a
		special education teacher.
Elementary	132121	**FUNCTIONAL WRITING - ELEMENTARY**
		Functional writing skills for moderate or severely involved students that facilitate
		effective written communication.
Elementary	132107	**HOUSEHOLD MANAGEMENT & LIVING SKILLS -**
		Basic living skills for the moderate or severely involved student to function as
		independently as possible. Comprised only of students whose Significant Cognitive
		Disability (SCD) data element has been set to Y.
Elementary	132113	**INTERPERSONAL SKILLS - ELEMENTARY**
		Basic skills that will enable moderate or severely involved students to function in diverse interpersonal
		and social situations. Comprised only of students whose Significant Cognitive Disability (SCD) data element has
		been set to Y.
Elementary/Middle	132146	**MONITORED/CONSULTATIVE SERVICES ELEMENTARY**
		GRADES K-6 Students with disabilities are monitored in the regular ed. program and consultative
		services are provided to instructional and support staff.
Elementary	132190	**MOTOR SKILLS - ELEMENTARY**
		Gross and/or fine motor skills for moderate or severly involved students that facilitate the
		development of ambulating and manipulative skills. Comprised only of students whose
		Significant Cognitive Disability (SCD) data element has been set to Y.
Elementary	132164	**PRE-VOCATIONAL SKILLS - ELEMENTARY**
		Pre-employment skills for moderate or severely involved students to prepare for work, follow
		rules and policies in the workplace, demonstrate appropriate interpersonal skills
Elementary	132198	**RECREATION/LEISURE ACTIVITIES - ELEMENTARY**
		Participation for moderate orseverely involved students in recreational and leisure
		activities associated with the use of free time. Comprised only of students whose
		Significant Cognitive Disability (SCD) data element has been set to Y.
Elementary	132186	**SELF HELP SKILLS - ELEMENTARY**
		Skills for moderate or severely involved students that develop functional independence
		in toileting,drinking/eating, dressing, personal cleanliness and grooming. SCD = 'Y' students only.
Elementary	132194	**SPECIAL EDUCATION HEALTH - ELEMENTARY**
		Basic knowledge for remediation or instruction in the areas of physical, social and mental

		dimensions of people; explores the nine health stands.
Elementary	132202	**SPECIAL EDUCATION LEARNING STRATEGIES/TUTORIAL - ELEMENTARY**
		The student will acquire and apply study skills and strategies to gain knowledge in the
		content areas; also includes tutorial assistance.
Elementary/Middle	132139	**MIDDLE SCHOOL INCLUSION GRADES 5-8**
		Students with disabilities are served in a regular classroom the majority of the day by a
		special education teacher. The 224 endorsement is valid for grades 07-08 only.
Middle	132204	**SPECIAL EDUCATION TUTORIAL/STUDY SKILLS - SECONDARY**
		Tutorial assistance is provided through the resource program; may include
		study skills and strategies to gain knowledge in the content areas.
Elementary/Middle	132157	**DAY TREATMENT MIDDLE SCHOOL GRADES 5-8**
		Students with disabilities are served in a middle school day treatment program in
		conjunction with support services staff from Mental Health. The 224 endorsement is valid
		for grades 07-08 only.
Elementary/Middle	132142	**MIDDLE SCHOOL ALTERNATIVE SCHOOL - GRADES 5-8**
		Students with disabilities are served in an alternative school or in an alternative
		setting by a special education teacher. The 224 endorsement is valid for grades 07-08 only.
Elementary/Middle	132148	**MONITORED/CONSULTATIVE SERVICES MIDDLE SCHOOL GRADES 5-8**
		Students with disabilities are monitored in the regular ed. program and consultative
		services are provided to instructional and support staff. The 224 endorsement is valid for grades 07-08 only.
Secondary	132101	**DAILY LIVING SKILLS SECONDARY**
Secondary	132102	**LEARNING STRATEGIES GRADES 9-12**

Additional resources:

Canvas Learning Management / Instructure	Online subscription to a website that provides a mechanism for housing and otherwise managing curriculum. (K-12)
CorelDraw	Design software for fabrication
Discovery Ed	Instructional Videos (K-12)
Edgenuity - Sept renewal	Online courses for students 8th–– 12th grades (Yearly subscription)
Edmentum - July renewal	Adaptive Intervention Solution - Diagnostic and benchmark assessments. (9-12)
Flocabulary/ Nearpod	Flocabulary: Online vocabulary building program/ Nearpod: Interactive instructional presentation tool
Gizmos	Online math and science simulation program
Imagine Math/ Bluebird	Adaptive Intervention Solution - Diagnostic assessments. (K-12 Math)
Instructure - Benchmark Assessments and Test Item Bank	Online testing tool used to create assessments, which are formatted like the MAAP assessment. Benchmark and ACT prep assessments are included.(3rd - high school)
Kesler Science	Supplemental science program (4-8)
KUTA Math Softfware	Math Assessment and Worksheet Generator (6-12)
Lexia Learning Systems - July renewal	Online intervention for Reading and Language Orton-Guillingham based (K-12)
MackinVIA- GCEIC	Online e-book subscription for secondary schools (6-12)
Problem Attic	Online platform with assessment items (K-12) all subjects
Ready Teacher and Student Instructional Books with iReady Subscription	Blended learning program containing instructional books for students and teachers in reading and Math. Formative assessment tool with built-in online instruction for grades (K - 8th)
Ready Math Classroom	Blended learning for math. (Grades K-8th)
iReady Subscription - High School	Formative assessment tool for reading and math with built-in online instruction for grades - used as high school intervention
Reflex Math and Frax (Explore Learning)	Math supplemental online instructional tool - adding Frax and Gizmos to it this year (add-on components)
School Status	Data dashboard, teacher evaluation, and parent communication program
Teq (OTIS)	Online technology integration in instruction professional development.
Turn-It-In/Integration - July renewal	Turn It In reveals content matches in student writing.It helps students take ownership of their work and practice proper citation. Helps teachers increase efficiency in grading writing assignments.
USA Test Prep (Progress Learning) -July renewal	Online instructional software for ACT Science, Reading, and Math

JACKSON COUNTY SCHOOL DISTRICT

POSITIVE BEHAVIOR INTERVENTIONS AND SUPPORTS

(PBIS)

The PBIS is a broad range of **systemic** and **individualized** strategies for achieving important **social and learning outcomes** while preventing problem behaviors with **all** students.

Purpose

The purpose of the PBIS plan is to establish and maintain safe and effective school environments that maximizes academic achievement and behavioral competence of all students.

Guiding Principles

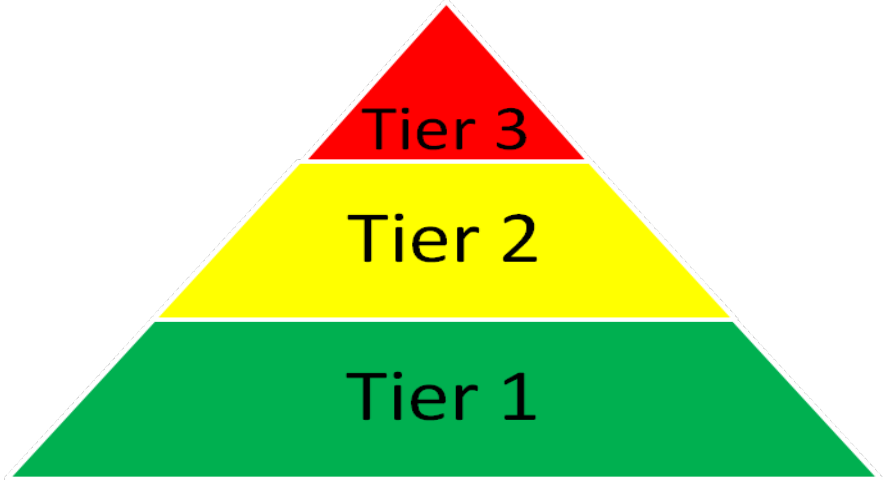
Academic achievement and behavior competence are the results of school personnel along with families working together to provide a continuum of support for all learners. A continuum of academic and behavioral support includes:

1. Broad-spectrum behavioral support for all learners (Tier 1)
2. Specialized interventions for learners who are at risk for academic or social failure due to behavior challenges (Tier 2)
3. Individualized interventions for students with intense/chronic behavior challenges that negatively affect academic achievement (Tier 3)

Major Components:

- Common approach to discipline
- Positively stated expectations for all students and staff (Code of Conduct)
- Procedures for teaching these expectations to students
- Programs for encouraging demonstration and maintenance of these expectations
- Procedures for discouraging undesirable and/or unproductive behavior
- Universal behavior screening to identify emotionally and behaviorally at-risk students three times annually

System for Student Success:
A Continuum of Supports



Tier 1 Supports: Provided for all students, Preventive, Proactive

- Effective Teacher Procedures and Routines (schoolwide, classroom, and bus)
- Universal Behavior Screener (as required by district)
- Common Classroom Management Systems
- Positive Behavior Incentives

Tier 2 Supports: Provided for At-Risk Students, Specialized, Targeted

- Individual/Group Counseling – Guidance (school and bus)
- Specialized Behavior Plan
- School-based support procedures (ex. mentoring programs, ISI, support meetings, etc.)
- Offer training and support to teachers and staff
- Online Progress Tracking

Tier 3 Supports: Provided for High-Risk Students

- Functional Behavioral Assessment
- Behavior Intervention Plan (school and bus)
- Individual / Group Counseling – Guidance (school and bus)
- School-based support procedures (ex. mentoring programs, ISI, support meetings, etc.)
- Risk assessment (if applicable)
- Offer training and support to teachers and staff
- Online Progress Tracking

PBIS Team Expectations

The PBIS team will meet at least monthly and have the following:

- Regular meeting format/agenda
- Minutes
- Defined meeting roles
- Current Tier 1, 2, and 3 action plans

PBIS Team Members

- Parent
- Teacher(s)
- School Administrator
- MTSS Coordinator
- Counselor
- Student (high schools only)

**Individuals must collectively provide applied behavioral expertise, coaching expertise, knowledge of student academic and behavior patterns, and knowledge of the school across grade levels and programs. High schools must have student representation.

Tier 1:

- School-Wide and Classroom Procedures and Routines: School PBIS plan must include school-wide procedures and routines for bus, classroom, restroom, hallway, cafeteria, etc. All teachers must develop class-level procedures and routines.
- School-Wide Expectations: School PBIS plan must have five or fewer positively stated behavioral expectations specified for each setting/location in the school.
- School-Wide PBIS Training: A plan for teaching the expectations to students and teachers should be explicitly explained in the PBIS document.
- Common Classroom Management System: Clear consequences and definitions as well as a determination of what constitutes staff managed or office managed behavior problems. This can be achieved in a discipline flowchart.
- Positive Behavior Incentives: A plan for acknowledging/rewarding positive behavior must be included in the PBIS document.
- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

Tier 2:

Tier 2 supports are linked to Tier 1 supports in place.

- Individual Support: School must have a plan to offer individual or group counseling to accommodate students' needs. (HLP8 provide positive and constructive feedback to guide students' learning and behavior.)
- Support Procedures: School PBIS team must develop a plan to provide school-based support for students. (HLP7 Establish a consistent, organized, and respectful learning environment. HLP9 Teach social behaviors.)
- Behavior Plan: School must develop a specialized behavior plan for Tier 2.
- Training: Schools must provide training for teachers and staff regarding behavior.
- Progress Tracking: Online progress tracking is implemented by the school to monitor student progress.

- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

Tier 3:

Tier 3 supports are linked to Tier 1 and Tier 2 supports in place.

- Functional Behavioral Assessment: Completed by school in a timely manner for students receiving Tier 3 support. (HLP10 Conduct functional behavioral assessments to develop individual student behavior support plans.)
- Behavior Intervention Plan: Completed by the school in a timely manner for students receiving Tier 3 support. (HLP10 Conduct functional behavioral assessments to develop individual student behavior support plans.)
- Support Procedures: School PBIS team must develop a plan to provide intensive school-based support for students. (HLP7 Establish a consistent, organized, and respectful learning environment. HLP9 Teach social behaviors.)
- Progress Tracking: Online progress tracking is implemented by the school to monitor student progress following protocol for Tier 3 interventions and support.
- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

- Behavior Intervention Plan (school and bus)
- Individual / Group Counseling – Guidance (school and bus)
- School-based support procedures (ex. mentoring programs, ISI, support meetings, etc.)
- Risk assessment (if applicable)
- Offer training and support to teachers and staff
- Online Progress Tracking

PBIS Team Expectations

The PBIS team will meet at least monthly and have the following:

- Regular meeting format/agenda
- Minutes
- Defined meeting roles
- Current Tier 1, 2, and 3 action plans

PBIS Team Members

- Parent _____
- Teacher(s) _____
- School Administrator _____
- MTSS Coordinator _____
- Counselor _____
- Student (high schools only) _____

**Individuals must collectively provide applied behavioral expertise, coaching expertise, knowledge of student academic and behavior patterns, and knowledge of the school across grade levels and programs. High schools must have student representation.

Tier 1:

- School-Wide and Classroom Procedures and Routines:
  -
  -
  -
  -
  -
- School-Wide Expectations:
  -
  -
  -
  -
  -
- School-Wide PBIS Training:
  -
  -
  -
  -
  -
- Common Classroom Management System:
  -
  -
  -
  -
  -
- Positive Behavior Incentives:
  -
  -
  -
  -
  -
- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

Tier 2:

Tier 2 supports are linked to Tier 1 supports in place.

- Individual Support:
  -
  -
  -
  -
  -

- Support Procedures:
  -
  -
  -
  -
  -

- Behavior Plan: School must develop a specialized behavior plan for Tier 2.
- Training: Schools must provide training for teachers and staff regarding behavior.
- Progress Tracking: Online progress tracking is implemented by the school to monitor student progress.
- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

Tier 3:

Tier 3 supports are linked to Tier 1 and Tier 2 supports in place.

- Functional Behavioral Assessment: Completed by school in a timely manner for students receiving Tier 3 support. (HLP10 Conduct functional behavioral assessments to develop individual student behavior support plans.)
- Behavior Intervention Plan: Completed by the school in a timely manner for students receiving Tier 3 support. (HLP10 Conduct functional behavioral assessments to develop individual student behavior support plans.)

- Support Procedures: School PBIS team must develop a plan to provide intensive school-based support for students. (HLP7 Establish a consistent, organized, and respectful learning environment. HLP9 Teach social behaviors.)
- Progress Tracking: Online progress tracking is implemented by the school to monitor student progress following protocol for Tier 3 interventions and support.
- Universal Behavior Screening Schedule: Each school will complete comprehensive behavior screenings as directed by the district MTSS Coordinator.

MTSS Academic Flowchart

Tier I

- Tier I is data-driven, differentiated core instruction in the regular classroom setting using district mandated programs and curriculum.
  - i-Ready
  - Ready
  - Reflex/Frax
  - Project Read
  - Heggerty
  - Teacher Created Material

Tier II

Typically 10-15% of the school's population

- Students who are not progressing in Tier I and need additional support should be given Tier II interventions. Tier II interventions should focus on specific, identified gaps. Tier II interventions should be data-driven and follow a progression of skills. Intervention sessions should be in a one-on-one or small group setting 20-30 minutes 3-5 days per week. (Review at 4 and 8 weeks)
  - Edgenuity (8-12)
  - Focus Math (3-5)
  - Imagine Math/Bluebird Math (K-12)
  - Phonics for Reading (3-5)
  - Lexia (K-8)
  - Reflex/Frax (2-5)
  - Sonday System 1 and 2 (K-8)
  - Teacher Created Materials Math Interventions (K-8)
  - Small group Instruction
  - One-on-One Instruction

Progress Monitoring: Every other week using the same tool as baseline.

1900

Tier III

Typically 1-5% of the school's population

- Students who are not progressing at Tier II should be moved to Tier III interventions. Tier III instruction should be designed to increase an individual student's rate of progress, close gaps between the student and their peers, based on the student's need as determined by assessment data. Tier III interventions should occur as outlined by the intervention program, in accordance with the individualized plan, or 30-60 minutes daily. Students receiving Tier III interventions should be progress monitored weekly. (Review no later than 8 weeks after implementation and the cummulative documented review no later than 16 weeks after implementation).
  - Focus Math (3-5)
  - Imagine Math/Bluebird Math (K-12)
  - Lexia (K-8)
  - Phonics for Reading (3-5)
  - Sonday System (K-8)
  - Small Group Instruction
  - One-on-one Instruction

Progress Monitoring: Every week using the same tool as baseline.

MTSS Behavior Flowchart

Tier I

- Tier I includes best practices that should be school, program, and/or facility wide and included in every classroom (PBIS). (Includes all teachers and teachers' assistants)
- Each student is universally screened three times per year using the district's behavior screener
  - School wide PBIS model: establish expectations, teach expectations, positive reinforcement, restorative consequences
  - Core social-emotional learning weekly

Tier II

- Tier II includes best practices for those students who are not making progress with Tier I supports. Behavioral interventions at Tier II include an idividualized reinforcement and consequence system. (Includes all teachers, teachers' assitants, PBIS specialist, MTSS support)
- Behavior is monitored by staff and PBIS specialist (If needed, PBS or mental health supports are implemented.)
  - Check-in and check-out
  - Check and connect
  - Behavioral contracting
  - Teaching of social emotional skills
  - Organizational aides
  - Increasing executive funtioning through games, breaks, etc.

Tier III

- Tier III includes best practices for students who are not making progress with Tier II supports. The supports provided at Tier III should be indvidualized for each student. A functional behavioral assessment (FBA) should be used to provide information from multiple sources in the form of observations, interviews, and anecdotal notes. The data collected through the FBAs make it possible to develop function based behavior support plans (BIP), individualized to each student. BIPs define the target behavior(s), provide information on current behavior(s), and detail interventions to use in order to assist the student in meeting the target behavior(s). (Includes all teachers, teacher assistants, PBIS specialist, MTSS support, PBS)
- Staff implement BIP developed by the counselor or PBS (SPED). Behavior is monitored by staff (PBIS, PBS, and SPED Teachers). Individual supports are provided (PBIS, PBS, and counselors, etc.).
  - Individualized reinforcement and consequence systems with specific reinforcement options gathered through an interest inventory and/or observation
  - Individualized Schedules
  - Replacement behaviors

JCSD Professional Learning Plan

2023-2024

Needs Assessment – The JCSD Professional Development Committee convened and reviewed multiple sources of data to determine the goals and direction that should be included in the JCSD Professional Development Plan. This plan will adhere to the Standards of Professional Learning as directed by MDE and will align with JCSD goals. Data sources that were consulted include student attendance, student achievement, student discipline, and professional development-related survey results from JCSD teachers and administrators. As a result of the 2022-2023 Needs Assessment data analysis, the focus of 2023-2024 professional development should be Canvas, Classroom Management, Co-teaching Planning and Implementation, Student Engagement, Identifying and Remediating the Low 25%, Standards-Aligned Instruction, Subject Area Strategies, and Technology Integration.

Standard	Indicators	Actions/Strategies	Who is Responsible?	Timeline	Evidence
Learning Communities	All educators participate in professional learning communities that align collaborative work with school improvement goals and focus on continuous improvement.	District-wide guidelines and procedures for Professional Learning Communities will continue.	JCSD Professional Development Committee	This will be reviewed and/or revised annually.	• JCSD PLC Guidelines • JCSD Professional Development Plan
Leadership	Teachers serve in a variety of leadership roles.	Implement "Teacher Choice" PLCs that culminate in a model classroom status in the category/content area of the PLC. Teachers who complete the PLCs will serve as leaders for other teachers in subsequent PD opportunities.	Curriculum Department	This will continue annually with monitoring and adjusting for improvement.	• Teacher Choice PLC Rubrics • JCSD Professional Development Plan
Resources	Resources are allocated for technology to support student and educator learning.	Subscribe to the online PD program, OTIS. This allows teachers to complete professional development modules at their own pace and earn CEUs through William Carey University.	Curriculum Department and Instructional Technology Specialists	Ongoing throughout the school year	• Curriculum Budget • JCSD Professional Development Plan • Program Data • Annual Educator Needs Assessment
Data	Teachers/ teams analyze student data to make decisions about student progress and ongoing adjustments needed to increase student learning.	The district will provide data resources to be utilized by teachers/ teams to inform instruction.	District officials will purchase resources as per teachers/ admin. recommendation	This is ongoing.	• School-level data analysis • PLC minutes
Learning Designs	School and district plans provide multiple practices of the new learning with feedback and coaching.	Curriculum Specialists, instructional technology specialists, and professional development providers will work together to follow up professional learning with coaching at the school level.	Administrators, Curriculum Department, and Technology Department	Ongoing throughout the school year. Follow-up and feedback methods will be reviewed and/or revised annually.	• JCSD Professional Development Plan • Professional Development Schedule • Curriculum Specialists Documentation • Instructional Technology Specialist Documentation
Implementation	School and district leaders provide and align resources to initiate and sustain implementation.	Expanding upon the implementation of Canvas and curriculum alignment, teacher-developed resources will be provided in the JCSD Canvas Commons.	Curriculum Department, Technology Department, & School and District Admin	Implementation will be ongoing. Professional development opportunities will take place at district and school settings as continuous follow-up and support for teachers and administrators.	• LMS Purchase Agreement • Curriculum Committee agendas and sign-in sheets showing the progress toward implementation. • Professional Development sign-in sheets.
Outcomes	Educator learning is focused on student learning outcomes.	Teacher PLC groups collaborate to target areas of need for student learning outcomes.	Administrators and Teachers	Ongoing throughout the school year	• PLC Agendas and minutes • Interviews with administrators • Interviews with teachers

	Monica Douglas	Vancleave Upper Elementary
	Dr. Samantha Benson	Vancleave Lower Elementary
District (JCTC)	Heather Allen Hudson	Jackson County Technology Center

JCSD Professional Development Committee

- Conduct annual professional development needs assessment.
- Develop and revise annually the JCSD Professional Learning Plan.
- Prepare Annual Professional Learning Plan District Report.

JCSD School-Level Professional Development Coordinators

- Serve on the school leadership team to help develop the School Professional Learning Plan.
- Work with school-level administration to reinforce the implementation of Professional Learning Communities based on goals and needs that align with school and district professional learning goals.
- Facilitate the PLC cycle within their schools.
- Serve as the school data coach.
- Prepare and submit required PLC reports.
    - School-Based PLC Grouping Plan (as directed by school administration) - This will be submitted to Dr. Tanya Sonnier at the beginning of each school year.
        - Using JCSD PLC Grouping Plan Form
    - PLC Team Smart Goals (team level) – These will be kept on file at the school level.
        - Using JCSD PLC Team Smart Goal Form
    - Agendas and Minutes (team level) – These will be kept on file at the school level.
        - Using JCSD PLC Meeting Documentation Form
    - Principal Verification Document (as completed by school principal) – This will be submitted to Dr. Tanya Sonnier at the end of each school year.
        - Using JCSD Principal PLC Verification Form

- **See General Expectations for due dates.**

PLC Vision:

School-level PLC Teams will provide structured, relevant professional development in a collaborative format to support and advance JCSD goals.

1. Increased Student Achievement
2. Sound Financial Management
3. Improved Facilities and Infrastructure
4. Positive Educational Experience
5. Effective Leadership

General Expectations:

- Each certified teacher should participate in one or more PLC teams. These should be structured by grade level or subject area or to meet the specific needs of each school.
- The focus of the teams will be to support the most current school and district professional learning goals.
- Plans to meet goals should be data-driven.
- A minimum requirement for each team to meet will be 2 times per month.
- The duration should be no longer than 45 – 60 minutes per meeting.
- Each meeting should follow a pre-set agenda.
- Documentation of each certified teacher's PLC participation will be included in the JCSD PLC Reports. See below for specific requirements.

    - **Professional Learning Plan for 2023-2024** (School Level) – This will be completed by the school vision team and submitted to Dr. Tanya Sonnier at the beginning of each school year.
        - Using Professional Learning Plan (School Level) template
        - **Due August 31, 2023** (Submit in Canvas)
    - **School-Based PLC Grouping Plan** (as directed by school administration) - This will be submitted to Dr. Tanya Sonnier at the beginning of each school year.
        - Using JCSD PLC Grouping Plan Form
        - **Due August 31, 2023** (Submit in Canvas)
    - **PLC Team Smart Goals (team level)** – *These will be kept on file at the school level.*
        - Using JCSD PLC Team Smart Goal Form
    - **Agendas and Minutes (team level)** – *These will be kept on file at the school level*.
        - Using JCSD PLC Meeting Documentation Form
    - **Principal Verification Document** (as completed by school principal) – This will be submitted to Dr. Tanya Sonnier at the end of each school year.
        - Using JCSD Principal PLC Verification Form
        - **Due June 7, 2024** (Submit in Canvas)
    - **Professional Learning Plan for 2024-2025** (School Level) – This will be completed by the school vision team and submitted to Dr. Tanya Sonnier at the beginning of each school year.
        - Using Professional Learning Plan (School Level) template
        - **Due June 7, 2024** (Submit in Canvas)

PLC Team Timeline

Beginning →	Developing →	Growing →	Sustaining
August	September– May		August – June
Build the Team • Define PLC • Discuss Vision • Discuss Team Cycle • Develop Team Norms • Establish Meeting Dates, Times, Locations • Analyze Data • Look at common assessment calendar (elementary: i-Ready, STAR Reading, unit assessments, secondary: SRI, District Assessments, Benchmark Assessments, unit assessments) • Determine Smart Goals based on school Learning Plan and data analysis	**Begin Implementation of Team Cycle** • Determine instructional focus • Share learning strategies and use them in the classroom • Consider appropriate assessment data relevant to goal to use, and then plot on calendar • Bring together data and look for trends • Address areas of strengths and weaknesses • Remediate students who did not reach proficiency • Enrich those who reached proficiency		**Continuous Evaluation** • Continually monitor student progress • Repeat team cycle process throughout the school year • Build each other through coaching activities (Develop safe environment where this can take place) • Read Norms at each meeting and modify as needed • Read Smart Goal(s) at each meeting and modify as needed • Determine practices that will continue the following year

Expanding
Coming Soon
Developing Teacher Leaders • Teacher Initiated PLCs • Build and lead professional learning opportunities for fellow teachers

Establishing Norms

Facilitator Tips

- **What are norms?** Norms are the frameworks from which team members commit to conduct business. Attention to their development and adherence to them help ensure the success of the group and facilitate successful solutions to critical issues.
- **Elements of norms to address:**
  - **Time**
    - **When will we meet?**
    - **Where will we meet?**
    - **Will we have a time schedule to follow?**
  - **Listening**
    - **How will we listen to our peers?**
    - **Will all ideas be welcomed?**
    - **Will we discourage verbal interruptions when others are speaking?**
  - **Confidentiality**
    - **What content will be held in confidence?**
    - **What can be shared after the meeting?**
  - **Decision Making**
    - **How will we arrive at a decision?**
    - **What will we do if everyone doesn't agree with the group decision?**
  - **Participation**
    - **Is participation optional?**
    - **Will we have an attendance policy?**
    - **What will we do if a member consistently misses meetings?**
  - **Expectations**
    - **What do we expect from team members?**
    - **Do we need a method ensuring that each member comes prepared with appropriate data or other items?**
- **Examples of Team Norms:**
  - **We will maintain a positive attitude during team meetings.**
  - **We will stay on topic and follow the agenda.**
- **Norm-developing best practices:**
  - **Teams develop their own norms.**
  - **Read the norms at each meeting.**
  - **Less is more.**
  - **Norm violations should be addressed.**
  - **Team member signatures on established norm document will solidify its meaning and importance.**

Norms Development Template

Elements to Consider	Group-Proposed Norms

• **Time**
  ○ **When will we meet?**
  ○ **Where will we meet?**
  ○ **Will we have a time schedule to follow?**	

• **Listening**
  ○ **How will we listen to our peers?**
  ○ **Will all ideas be welcomed?**
  ○ **Will we discourage verbal interruptions when others are speaking?**	

• **Confidentiality**
  ○ **What content will be held in confidence?**
  ○ **What can be shared after the meeting?**	

• **Decision Making**
  ○ **How will we arrive at a decision?**
  ○ **What will we do if everyone doesn't agree with the group decision?**	

• **Participation**
  ○ **Is participation optional?**
  ○ **Will we have an attendance policy?**
  ○ **What will we do if a member consistently misses meetings?**	

• **Expectations**
  ○ **What do we expect from team members?**
  ○ **Do we need a method ensuring that each member comes prepared with appropriate data or other items?**

SMART Goals

SMART goals are set with the purpose of increasing student achievement.

SMART goals are specific in that they clarify precisely what students should learn, the level of the learning (proficiency level), the assessments that will be used to make the proficiency determination and a time frame.

A *SMART* Goal is:

- ***Specific*** - Linked to the SIP goals. It focuses on specific student learning and answers WHO and WHAT.
- ***Measurable*** - Student success is measured by assessment. It answers the question – HOW.
- ***Attainable*** -The goal should be set high but within reason. High goals are not always attained but this does not mean it was a failure.
- ***Results Oriented/Relevant/Rigorous*** - Supporting the SIP, results tell you who has achieved proficiency. These results determine which students need remediation or enrichment.
- ***Time Bound*** – All goals are bound by a clearly-defined time frame.

- SMART Goal Examples

1. _____ % of grade 9 math students will increase their _____ scores by _____% by the end of the second nine weeks as measured on the (assessment) _____.

2. Fifty-two percent of my writing students will increase their average writing scores by one point by the end for the first nine weeks as measured by the (assessment) _____.

- **NOT** *SMART* Goals:
  1. My students will do better on their math tests.
  2. The team's students will increase their understanding of expository writing.
  3. My reading students will complete 80% of their homework.

JCSD PLC Team Smart Goals (Example)

School: Anywhere Elementary School **Team:** 5th Grade Math **Facilitator:** Mrs. Smith
District Goal Increase student achievement.
School Goal(s) Increase the percentage of students scoring at or above Proficient on the Math MS Map Test by 20%.
Team Members: Team Member 1, Team Member 2, Team Member 3, Team Member 4
Date: MM/DD/YYYY

Plan	**Analyze the data and define the focus/goal.**	**What is the data telling us?**	61 % of our currently enrolled 5th grade students scored an achievement level of three or higher on the 4th grade Math state test. Source: State MAP results Subtests of least growth include Algebra -12% and Measurement - 7%. Source: State MAP results
		Our goal: Proficiency Level: 80%	Increase the percentage of students scoring proficient in the two Math MAP subtest categories to 80%.
Do	**Implementation Strategies:**	**Our action plan**	Students will be identified who need assistance in the two subtests. Source: MAP results (List specific strategies.)
Check	**Assessing, Maintaining & Monitoring**	**What Is The Timeline? How And When Will We Assess The Students?**	We will be administering common formative assessments every two weeks to monitor student progress. These assessments will be written by the team members. Data will be recorded on a Test Item Analysis spreadsheet and graphed. This plan will begin (date). The plan will be amended as needed to ensure that students are progressing toward standard mastery of the two math subtest categories.
Act	**Response**	**Our Remediate Or Enrichment Plan**	Lists of students who did, and did not, demonstrate adequate growth toward mastery of standards will be maintained and updated twice monthly. Student in need of remediation will be (plan) _____. Students who are being enriched will be (plan) _____.

JCSD PLC Team Smart Goals

School: _____ **Team:** _____ **Facilitator:** _____

District Goal: _____

School Goal(s) _____

Team Members: _____

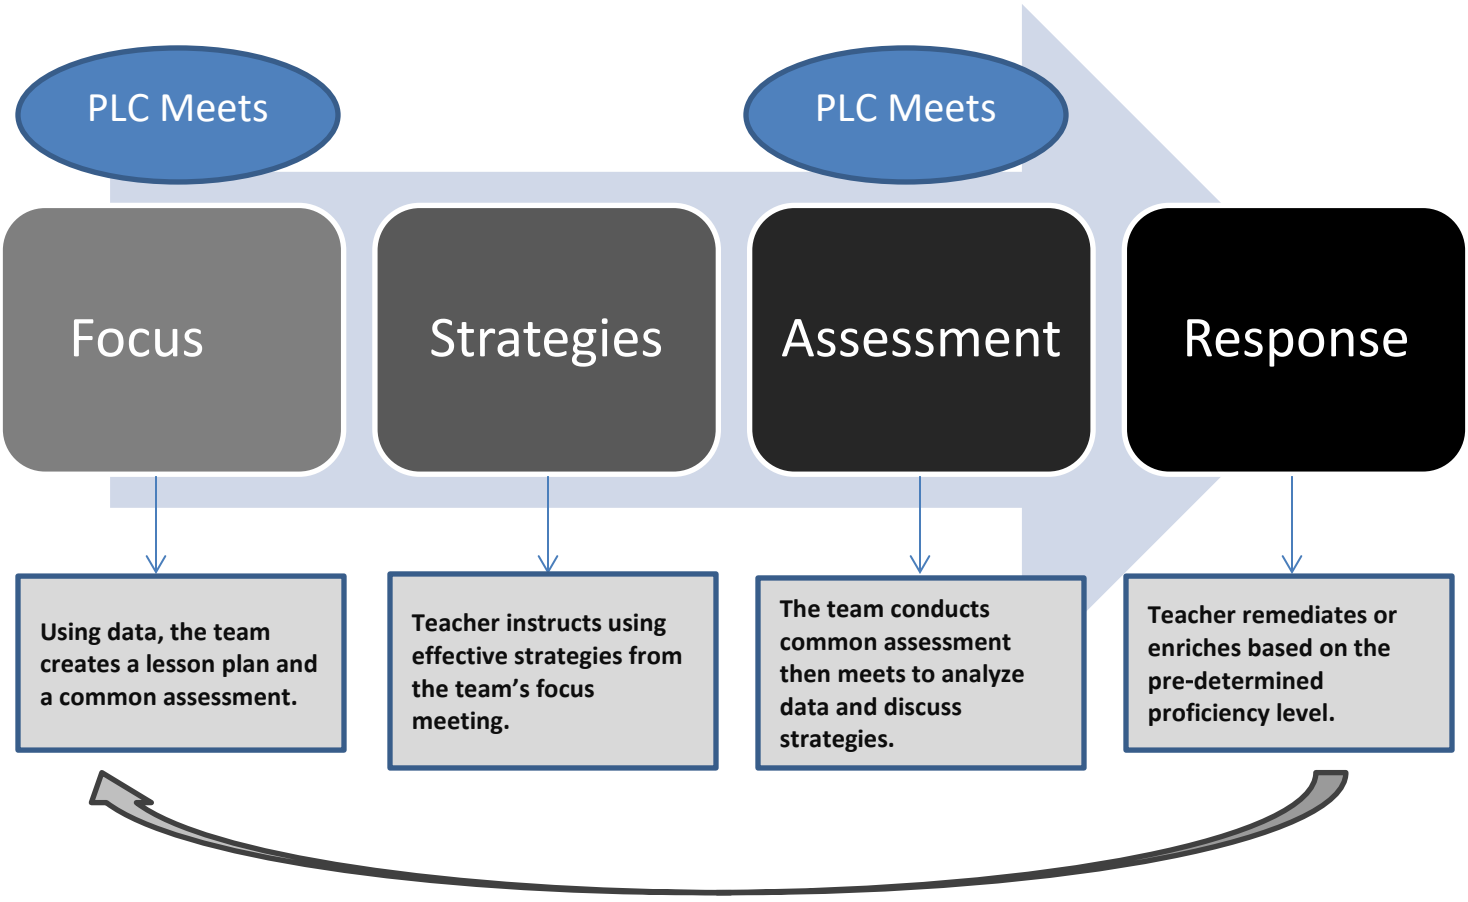
Date:_____

Plan	**Analyze the data and define the focus/goal.**	**What is the data telling us?**	
		Our goal: Proficiency Level: ___%	
Do	**Implementation Strategies:**	**Our action plan**	
Check	**Assessing, Maintaining & Monitoring**	**What Is The Timeline? How And When Will We Assess The Students?**	
Act	**Response**	**Our Remediate Or Enrichment Plan**	

Four Driving Questions

1. What is the instructional focus?
2. What are the instructional strategies?
3. How will we know when they have learned it?
4. How will we respond when they need remediation or enrichment?

The Team Cycle



Data Sources

Test	District or School level	Grade Band	Alignment	Test Type	Frequency	Subject(s)
ACT	State/ National	High	CCSS	Formative and summative to measure college readiness	Formative: 1 per year for all 11th graders (fall) Summative: 1 per year for all 11th graders (spring)	Math, English, Science, Reading
Mastery Connect Benchmark and Teacher-made Assessments	District Required	3-12	MS College & Career Readiness Standards for all tested subjects	Assessments (formative and summative) to determine progress toward standards mastery	Benchmarks are given 2 times per school year or course. Teacher made tests are given as needed	Math, ELA, Science, Algebra I, Biology, and English II, US History
i-Ready Diagnostic	District Required	Elementary/ Middle	MS College & Career Readiness Standards (MCCRS), Lexile, and Quantile	Diagnostic and formative to comprehensively check placement and growth based on norms	3 times per year (beginning, middle, end)	Reading and Math
i-Ready Progress Monitoring	Optional, but used for TST	Elementary/ Middle	(MCCRS)	Formative to "quick" check growth based on norms	As needed, determined at school level	Reading and Math
i-Ready Standards Mastery	District Required	Elementary/ Middle	(MCCRS)	Formative to "quick" check growth toward standards mastery	Approx. 1 time per month	Reading and Math
MAAP	State	3-12	MCCRS	Summative	Once per year (high schools may administer the assessment more than once per year, but a student will only typically take it once per year, depending on when the course is taken.)	Math, ELA, Algebra I, Biology, US History, and English II
Pre-ACT	District	9-10	CCSS	Summative to measure college readiness	Once per year in the spring	Math, English, Science, Reading
Unit or Common Assessments	District/ School Required	Elementary/ Middle / High	MCCRS	These tests can be derived from available textbooks and other resources. Teachers should be careful to use sources that are aligned to MCCRS and at the appropriate rigor. *Ideally, there should be pre, formative, and post assessments that comprise the unit assessments.*	As designated, before, during, and after an instructional unit.	All Subjects
Progress Learning	District Required	High/Middle	The most current standards/framework as designated by MDE	Formative to check for growth toward framework objectives.	As needed based on school/teacher determination	6-12

Listed above are <u>some</u> of the valuable assessment options available for teachers in JCSD. Of course, other methods of assessment are suitable for formative and summative assessments, as needed, and as agreed upon by PLC teams.

Mandatory Lesson Plan Components

All lesson plans must provide evidence of the following in accordance with Mississippi's Professional Growth System and JCSD expectations of best practice:

1. Co-planning between general education and IDEA teacher(s)
    a. Name of general education teacher and IDEA teacher (when applicable)
    b. Differentiation/specialized instruction to meet needs of all learners
2. Alignment to current MS CCR standards/framework and JCSD pacing
    a. Listing of standards and pacing week/unit
3. Appropriate assessment opportunities
    a. Formative and summative—including student self-assessment opportunities
4. Coherent sequence of learning with connections to prior/future learning/experiences
    a. Multiple representations of concepts, discussion, and effective questioning through rigorous instruction
5. Cross-discipline connections and real-world applications
6. Effective use of time and resources
    a. Technology, activities, assignments, etc.

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

Term 1

Reading Literature

RL K.4 Ask and answer questions about unknown words in a text.
RL K.6 With prompting and support, name the author and illustrator of a story and define the role of each in telling the story
RL K.7 With prompting and support, describe the relationship between illustrations and the story in which they appear (e.g., what moment in a story an illustration depicts).
RL K.10 Actively engage in group reading activities with purpose and understanding.

Reading Information

RI K.5 Identify the front cover, back cover, and title page of a book**.**
RI K.6 Name the author and illustrator of a text and define the role of each in presenting the ideas or information in a text.
RI K.7 With prompting and support, describe the relationship between illustrations and the text in which they appear (e.g., what person, place, thing, or idea in the text an illustration depicts)
RI K.10 Actively engage in group reading activities with purpose and understanding.

1945

Reading Foundations

RF K.1 Demonstrate understanding of the organization and basic features of print.
a. Follow words from left to right, top to bottom, and page by page.
b. Recognize that spoken words are represented in written language by specific sequences of letters.
c. Understand words are separated by spaces in print.
d. Recognize and name all upper- and lower-case letters of the alphabet.

RF K.2 Demonstrate understanding of spoken words, syllables, and sounds (phonemes).
a. Recognize and produce rhyming words.
b. Count, pronounce, blend, and segment syllables in spoken words.
c. Blend and segment onsets and rimes of single-syllable spoken words.
d. Isolate and pronounce the initial, medial vowel, and final sounds (phonemes) in three-phoneme (consonant vowel-consonant, or CVC) words.* (This does not include CVCs ending with /l/, /r/, or /x/.)

RF K.3 Know and apply grade-level phonics and word analysis skills in decoding words.
a. Demonstrate basic knowledge of one-to-one letter-sound correspondences by producing the primary or many of the most frequent sounds for each consonant.
b. Associate the long and short sounds with common spellings (graphemes) for the five major vowels.

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

c. Read common high frequency words by sight (e.g., the, of, to, you, she, my, is, are, do, does).

RF K.4 Read emergent-reader texts with purpose and understanding.

Writing

W K.1 Use a combination of drawing, dictating, and writing to compose opinion pieces in which they tell a reader the topic or the name of the book they are writing about and state an opinion or preference about the topic or book (e.g., My favorite book is...).

W K.3 Use a combination of drawing, dictating, and writing to narrate a single event or several loosely linked events, tell about the events in the order in which they occurred, and provide a reaction to what happened.

Speaking and Listening

SL K.1 Participate in collaborative conversations with diverse partners about kindergarten topics and texts with peers and adults in small and larger groups.

a. Follow agreed-upon rules for discussions (e.g., listening to others and taking turns speaking about the topics and texts under discussion).

b. Continue a conversation through multiple exchanges.

SL K.4 Describe familiar people, places, things, and events and, with prompting and support, provide additional detail.

SL K.6 Speak audibly and express thoughts, feelings, and ideas clearly.

Language

L K.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing or keyboarding) or speaking.

a. Print many upper- and lowercase letters.

b. Use frequently occurring nouns and verbs.

d. Understand and use question words (interrogatives (e.g., who, what, where, when, why, how).

e. Use the most frequently occurring prepositions (e.g., to, from, in, out, on, off, for, of, by, with).

L K.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on kindergarten reading and content.

a. Identify new meanings for familiar words and apply them accurately (e.g., knowing duck is a bird and learning the verb to duck).

L K.5 With guidance and support from adults, explore word relationships and nuances in word meanings.

a. Sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories represent.

b. Demonstrate understanding of frequently occurring verbs and adjectives by relating them to their opposites (antonyms).

L K.6 Use words and phrases acquired through conversations, reading and being read to, and responding to texts.

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

Term 2
Reading Literature
RL K.1 With prompting and support, ask and answer questions about key details in a text. **RL K.5** Recognize common types of texts (e.g., storybooks, poems). Continue to teach, review and reinforce **Reading Literature (RL K.6, RL K.7, RL K.10).**
Reading Information
RI K.1 With prompting and support, ask and answer questions about key details in a text. **RI K.4** With prompting and support, ask and answer questions about unknown words in a text Continue to teach, review and reinforce **Reading Information (RI K.5, RI K.6,RI K.7, RL K.10)**

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

Reading Foundations

RF K.2 Demonstrate understanding of spoken words, syllables, and sounds (phonemes).
- e. Add or substitute individual sounds (phonemes) in simple, one-syllable words to make new words.

RF K.3 Know and apply grade-level phonics and word analysis skills in decoding words.
- d. Distinguish between similarly spelled words by identifying the sounds of the letters that differ.

Continue to teach, review and reinforce **Reading Foundations (RF K.1a-d, RF K.2a-d, RF K.3a-c, RF K.4).**

Writing

W K.2 Use a combination of drawing, dictating, and writing to compose informative/explanatory texts in which they name what they are writing about and supply some information about the topic.
W K.5 With guidance and support from adults, respond to questions and suggestions from peers and add details to strengthen writing as needed.
Continue to teach, review and reinforce **Writing (W K.1).**

Speaking and Listening

SL K.2 Confirm understanding of a text read aloud or information presented orally or through other media by asking and answering questions about key details and requesting clarification if something is not understood.
SL K.3 Ask and answer questions in order to seek help, get information, or clarify something that is not understood.
Continue to teach, review and reinforce **Speaking and Listening (SL K.1a-b, SL K.4, SL K.6).**

Language

L K.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing or keyboarding) or speaking.
- c. Form regular plural nouns orally by adding /s/ or /es/ (e.g., dog, dogs; wish, wishes).

L K.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
- c. Write a letter or letters for most consonant and short vowel sounds (phonemes).
- d. Spell simple words phonetically, drawing on knowledge of sound-letter relationships.

L K.5 With guidance and support from adults, explore word relationships and nuances in word meanings.
- c. Identify real-life connections between words and their use (e.g., note places at school that are colorful).

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

Continue to teach, review and reinforce **Language (L K.1a,b, L K.4a, L K.5a,b, L K.6).**

Term 3
Reading Literature

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

RL K.2 With prompting and support, retell familiar stories, including key details.
RL K.3 With prompting and support, identify characters, settings, and major events in a story.
RL K.9 With prompting and support, compare and contrast the adventures and experiences of characters in familiar stories.
Continue to teach, review and reinforce **Reading Literature (RL K.7, RL K.10).**

Reading Information

RI K.2 With prompting and support, identify the main topic and retell key details of a text.
RI K.3 With prompting and support, describe the connection between two individuals, events, ideas, or pieces of information in a text.
RI K.8 With prompting and support, identify the reasons an author gives to support points in a text.
RI K.9 With prompting and support, identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).
Continue to teach, review and reinforce **Reading Information (RI K.6, RI K.7, RI K.10).**

1950

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF K.2a-e, RF K.3a-d, RF K.4).**

Writing

Continue to teach, review and reinforce **Writing (W K.1, W K.2, W K.5).**

Speaking and Listening

Continue to teach, review and reinforce **Speaking and Listening (SL K.1a-b, SL K.2, SL K.3, SL K.4, SL K.6).**

Language

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

L K.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing or keyboarding) or speaking**.**

f. Produce and expand complete sentences in shared language activities.

L K.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Capitalize the first word in a sentence and the pronoun I.

b. Recognize and name end punctuation.

L K.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on kindergarten reading and content.

b. Use the most frequently occurring inflections and affixes (e.g., -ed, -s, re-, un-, pre-, -ful, -less) as a clue to the meaning of an unknown word.

Continue to teach, review and reinforce **Language (L K.1b,e, L K.2d, L K.4a, L K.6).**

Term 4

Reading Literature

1951

Spiral Review all standards. (Reteach standards of deficit).

Reading Information

Spiral Review all standards. (Reteach standards of deficit).

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF K.2a-e, RF K.3a-d, RF K.4).**

Writing

W K.6 With guidance and support from adults, explore a variety of digital tools to produce and publish writing, including in collaboration with peers.
W K.7 Participate in shared research and writing projects (e.g., explore a number of books by a favorite author and express opinions about them).

JCSD Kindergarten ELA Scope and Sequence 23-24 School Year

W K.8 With guidance and support from adults, recall information from experiences or gather information from provided sources to answer a question.

Speaking and Listening

SL K.5 Add drawings or other visual displays to descriptions as desired to provide additional detail.
Continue to teach, review and reinforce **Speaking and Listening (SL K.1a-b, SL K.2, SL K.3, SL K.4, SL K.6).**

Language

L K.5 With guidance and support from adults, explore word relationships and nuances in word meanings.

d. Distinguish shades of meaning among verbs describing the same general action (e.g., walk, march, strut, prance) by acting out the meanings.

Continue to teach, review and reinforce **Language (L K.1f, L K.2d, L K.4a,b, L K.6).**

1964

* Refer to Scope and Sequence Document for ongoing Reading Foundations, Writing, Speaking and Listening, and Language Standards to be taught listed in pacing guide.

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Term 1
Reading Literature
RL 1.1 Ask and answer questions about key details in a text. **RL 1.3** Describe characters, settings, and major events in a story, using key details. **RL 1.4** Identify words and phrases in stories or poems that suggest feelings or appeal to the senses. **RL 1.10** With prompting and support, read prose and poetry of appropriate complexity for grade 1.
Reading Information
RI 1.1 Ask and answer questions about key details in a text **RI 1.3** Describe the connection between two individuals, events, ideas, or pieces of information in a text. **RI 1.4** Ask and answer questions to help determine or clarify the meaning of words and phrases in a text. **RI 1.10** With prompting and support, read informational texts appropriately complex for grade 1.
Reading Foundations

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

RF 1.1 Demonstrate understanding of the organization and basic features of print.
- a. Recognize the distinguishing features of a sentence (e.g., first word, capitalization, ending punctuation).

RF 1.2 Demonstrate understanding of spoken words, syllables, and sounds (phonemes).
- a. Distinguish long from short vowel sounds in spoken single-syllable words.
- b. Orally produce single-syllable words by blending sounds (phonemes), including consonant blends.
- c. Isolate and pronounce initial, medial vowel, and final sounds (phonemes) in spoken single-syllable words.
- d. Segment spoken single-syllable words into their complete sequence of individual sounds (phonemes).

RF 1.3 Know and apply grade-level phonics and word analysis skills in decoding words.
- a. Know the spelling-sound correspondences for common consonant digraphs.
- b. Decode regularly spelled one-syllable words.
- c. Know final -e and common vowel team conventions for representing long vowel sounds.
- d. Use knowledge that every syllable must have a vowel sound to determine the number of syllables in a printed word.
- e. Decode two-syllable words following basic patterns by breaking the words into syllables.
- f. Read words with inflectional endings.
- g. Recognize and read grade-appropriate irregularly spelled words.

RF 1.4 Read with sufficient accuracy and fluency to support comprehension.
- a. Read grade-level text with purpose and understanding.
- b. Read grade-level text orally with accuracy, appropriate rate, and expression on successive readings.
- c. Use context to confirm or self-correct words recognition and understanding, rereading as necessary.

1966

Writing

W 1.5 With guidance and support from adults, focus on a topic, respond to questions and suggestions from peers, and add detail to strengthen writing as needed.

W 1.6 With guidance and support from adults, use a variety of digital tools to produce and publish writing, including in collaboration with peers.

W 1.8 With guidance and support from adults, recall information from experiences or gather information from provided sources to answer a question.

Speaking and Listening

SL 1.1 Participate in collaborative conversations with diverse partners about grade 1 topics and texts with peers and adults in small and larger groups.
- a. Follow agreed-upon rules for discussions (e.g., listening to others with care, speaking one at a time about the topics and texts under discussion).
- b. Build on others' talk in conversations by responding to the comments of others through multiple exchanges.
- c. Ask questions to clear up any confusion about the topics and texts under discussion.

SL 1.2 Ask and answer questions about key details in a text read aloud or information presented orally or through other media.

SL 1.3 Ask and answer questions about what a speaker says in order to gather additional information or clarify something that is not understood.

SL 1.4 Describe people, places, things, and events with relevant details, expressing ideas and feelings clearly.

SL 1.5 Add drawings or other visual displays to descriptions when appropriate to clarify ideas, thoughts, and feelings.

SL 1.6 Produce complete sentences when appropriate to task and situation.

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Language

L 1.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing or keyboarding) or speaking.

a. Print all upper-and lowercase letters.
b. Use common, proper, and possessive nouns.
c. Use singular and plural nouns with matching verbs in basic sentences (e.g., He hops; We hop).
f. Use frequently occurring adjectives.
h. Use determiners (e.g., articles, demonstratives).
j. Produce and expand complete simple and compound declarative, interrogative, imperative, and exclamatory sentences in response to prompts.

L 1.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Capitalize holidays, product names, and geographic names.
b. Use end punctuation for sentences.
c. Use commas in dates and to separate single words in a series
d. Use conventional spelling for words with common spelling patterns and for frequently occurring irregular words.
e. Spell untaught words phonetically, drawing on phonemic awareness and spelling conventions.

L 1.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 1 reading and content, choosing flexibly from an array of strategies.

a. Use sentence-level context as a clue to the meaning of a word or phrase.

L 1.5 With guidance and support from adults, demonstrate understanding of word relationships and nuances in word meanings.

a. Sort words into categories (e.g., colors, clothing) to gain a sense of the concepts the categories represent.
b. Define words by category and by one or more key attributes (e.g., a duck is a bird that swims; a tiger is a large cat with stripes)
c. Identify real-life connections between words and their use (e.g., note places at home that are cozy).
d. Distinguish shades of meaning among verbs differing in manner (e.g., look, peek,, glance, stare, glare, scowl) and adjectives differing in intensity (e.g., large, gigantic) by defining or choosing them or by acting out the meaning.

L 1.6 Use words and phrases acquired through conversations, reading and being read to, and responding to texts, including using frequently occurring conjunctions to signal simple relationships.s (e.g., because).

Term 2

Reading Literature

RL 1.2 Retell stories, including key details, and demonstrate understanding of their central message or lesson.
RL 1.6 Identify who is telling the story at various points in a text.
RL 1.7 Use illustrations and details in a story to describe its characters, setting, or events.
Continue to teach, review and reinforce **Reading Literature RL 1.10.**

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Reading Information

RI 1.2 Identify the main topic and retell key details of a text.
RI 1.6 Distinguish between information provided by pictures or other illustrations and information provided by the words in a text.
RI 1.7 Use the illustrations and details in a text to describe its key ideas.
Continue to teach, review and reinforce **Reading Information RI R.10.**

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF1.2a-d, RF1.3a-g, RF1.4a-c).**

Writing

W 1.2 Write informative/explanatory texts in which they name a topic, supply some facts about the topic, and provide some sense of closure.
Continue to teach, review and reinforce **Writing (W 1.5, W1.6, W 1.8).**

1968

Speaking and Listening

Continue to teach, review and reinforce **Speaking and Listening (SL 1.1a-c**, **SL 1.2, SL 1.3, SL 1.4, SL1.5, SL1.6).**

Language

L 1.1d Use personal, possessive, and indefinite pronouns (e.g., I, me, my; they, them, their, anyone, everything).
L 1.1e Use verbs to convey a sense of past, present, and future (e.g.Yesterday I walked home; Today I walk home; Tomorrow I will walk home).
L 1.1g Use frequently occurring conjunctions (e.g., and, but, or, so, because)**.**
L 1.4b Use frequently occurring affixes as a clue to the meaning of a word.
L 1.4c Identify frequently occurring root words (e.g., look) and their inflectional forms (e.g., looks, looked, looking).
Continue to teach, review and reinforce **Language (L 1.1c, L 1.1h, L 1.1j, L 1.2b-e, L 1.4a, L 1.5a-d, L 1.6).**

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Term 3

Reading Literature

RL 1.5 Explain major differences between books that tell stories and books that give information, drawing on a wide reading of a range of text types.
RL 1.9 Compare and contrast the adventures and experiences of characters in stories.
Continue to teach, review and reinforce **Reading Literature RL 1.10.**

Reading Information

RI 1.5 Know and use various text features (e.g., headings, tables of contents, glossaries, electronic menus, icons) to locate key facts or information in a text.
RI 1.8 Identify the reasons an author gives to support points in a text.
RI 1.9 Identify basic similarities in and differences between two texts on the same topic (e.g., in illustrations, descriptions, or procedures).
Continue to teach, review and reinforce **Reading Information RI R.10**

1969

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF1.2a-d, RF1.3a-g, RF1.4a-c).**

Writing

W 1.3 Write narratives in which they recount two or more appropriately sequenced events, include some details regarding what happened, use temporal words to signal event order, and provide some sense of closure.
Continue to teach, review and reinforce **Writing (W 1.5, W1.6, W 1.8).**

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Speaking and Listening
Continue to teach, review and reinforce **Speaking and Listening (SL 1.1a-c**, **SL 1.2, SL 1.3, SL 1.4, SL1.5, SL1.6).**
Language
L 1.1i Use frequently occurring prepositions (e.g., during, beyond, toward). Continue to teach, review and reinforce **Language (L 1.1c-e, L 1.1h, L 1.1j, L 1.2b-e, L 1.4a-c, L 1.5a-d, L 1.6).**

Term 4
Reading Literature
Spiral Review all standards. (Reteach standards of deficit).
Reading Information
Spiral Review all standards. (Reteach standards of deficit).
Reading Foundations
Continue to teach, review and reinforce **Reading Foundations (RF 1.2a-d, RF 1.3a-g, RF 1.4a-c).**

JCSD 1st Grade ELA Scope and Sequence 23-24 School Year

Writing

W 1.1 Write opinion pieces, in which they introduce the topic or name the book they are writing about, state an opinion, supply a reason for the opinion, and provide some sense of closure.
W 1.7 Participate in shared research and writing projects (e.g., explore a number of "how-to" books on a given topic and use them to write a sequence of instructions).
Continue to teach, review and reinforce **Writing (W 1.5, W1.6, W 1.8).**

Speaking and Listening

Continue to teach, review and reinforce **Speaking and Listening (SL 1.1a-c**, **SL 1.2, SL 1.3, SL 1.4, SL1.5, SL1.6).**

Language

L 1.1i Use frequently occurring prepositions (e.g., during, beyond, toward).
Continue to teach, review and reinforce **Language (L 1.1c-e, L 1.1h-j, L 1.2b, d, e, L 1.4a-c, L 1.5a-d, L 1.6).**

JCSD 2nd Grade ELA Year at a Glance 23-24 School Year

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

Term 1

Reading Literature

RL 2.1 Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text.
RL 2.3 Describe how characters in a story respond to major events and challenges.
RL 2.4 Describe how words and phrases (e.g., regular beats, alliteration, rhymes, repeated lines) supply rhythm and meaning in a story, poem, or song.
RL 2.10 By the end of the year, read and comprehend literature, including stories and poetry, in the grades 2–3 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Reading Information

RI 2.1 Ask and answer such questions as who, what, where, when, why, and how to demonstrate understanding of key details in a text.
RI 2.3 Describe the connection between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text.
RI 2.4 Determine the meaning of words and phrases in a text relevant to a grade 2 topic or subject area.
RI 2.10 By the end of year, read and comprehend informational texts, including history/social studies, science, and technical texts, in the grades 2–3 text complexity band proficiently, with scaffolding as needed at the high end of the range.

1983

Reading Foundations

RF 2.3 Know and apply grade-level phonics and word analysis skills in decoding words.

a. Distinguish long and short vowels when reading regularly spelled one syllable words.
b. Know spelling-sound correspondences for additional common vowel teams.
c. Decode regularly spelled two-syllable words with long vowels.
d. Decode words with common prefixes and suffixes.
e. Identify words with inconsistent but common spelling-sound correspondences.
f. Recognize and read grade appropriate irregularly spelled words.

RF 2.4 Read with sufficient accuracy and fluency to support comprehension.

a. Read on-level text with purpose and understanding.
b. Read on-level text orally with accuracy, appropriate rate, and expression on successive readings.
c. Use context to confirm or self-correct word recognition and understanding, rereading as necessary.

Writing

W 2.5 With guidance and support from adults and peers, focus on a topic and strengthen writing as needed by revising and editing.
W 2.6 With guidance and support from adults, use a variety of digital tools to produce and publish writing, including in collaboration with peers.
W 2.8 Recall information from experiences or gather information from provided sources to answer a question.

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

Speaking and Listening

SL 2.1 Participate in collaborative conversations with diverse partners about grade 2 topics and texts with peers and adults in small and larger groups.

a. Follow agreed-upon rules for discussions (e.g., gaining the floor in respectful ways, listening to others with care, speaking one at a time about the topics and texts under discussion).
b. Build on others' talk in conversations by linking their comments to the remarks of others.
c. Ask for clarification and further explanation as needed about the topics and texts under discussion.

SL 2.2 Recount or describe key ideas or details from a text read aloud or information presented orally or through other media.

SL 2.3 Ask and answer questions about what a speaker says in order to clarify comprehension, gather additional information, or deepen understanding of a topic or issue.

SL 2.6 Produce complete sentences when appropriate to task and situation in order to provide requested detail or clarification**.** (See grade 2 Language standards 1 for specific expectations.)

Language

1984

L 2.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

a. Use collective nouns (e.g., group).
b. Form and use frequently occurring irregular plural nouns (e.g., feet, children, teeth, mice, fish).
c. Use reflexive pronouns (e.g., myself, ourselves).
d. Form and use the past tense of frequently occurring irregular verbs (e.g., sat, hid, told).
e. Use adjectives and adverbs, and choose between them depending on what is to be modified.
f. Produce, expand, and rearrange complete simple and compound sentences (e.g., The boy watched the movie; The little boy watched the movie; The action movie was watched by the little boy).

L 2.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Capitalize holidays, product names, and geographic names.
d. Generalize learned spelling patterns when writing words (e.g., cage -> badge; boy -> boil).
e. Consult reference materials, including beginning dictionaries, as needed to check and correct spellings.

L 2.3 Use knowledge of language and its conventions when writing, speaking, reading, or listening.

a. Compare formal and informal uses of English.

L 2.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 2 reading and content, choosing flexibly from an array of strategies.

a. Use sentence-level context as a clue to the meaning of a word or phrase.
b. Determine the meaning of the new word formed when a known prefix is added to a known word (e.g., happy/unhappy, tell/retell)**.**
c. Use a known root word as a clue to the meaning of an unknown word with the same root (e.g., addition, additional).
d. Use knowledge of the meaning of individual words to predict the meaning of compound words (e.g., birdhouse, lighthouse, housefly; bookshelf, notebook, bookmark).
e. Use glossaries and beginning dictionaries, both print and digital, to determine or clarify the meaning of words and phrases.

L 2.5 Demonstrate understanding of word relationships and nuances in word meanings.

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

a. Identify real-life connections between words and their use (e.g., describe foods that are spicy or juicy).
b. Distinguish shades of meaning among closely related verbs (e.g., toss, throw, hurl) and closely related adjectives (e.g., thin, slender, skinny, scrawny).

L 2.6 Use words and phrases acquired through conversations, reading and being read to, and responding to texts, including using adjectives and adverbs to describe (e.g., When other kids are happy that makes me happy).

Term 2

Reading Literature

RL 2.2 Recount stories, including fables and folktales from diverse cultures, and determine their central message, lesson, or moral.
RL 2.6 Acknowledge differences in the points of view of characters, including by speaking in a different voice for each character when reading dialogue aloud.
RL 2.7 Use information gained from the illustrations and words in a print or digital text to demonstrate understanding of its characters, setting, or plot**.**
Continue to teach, review and reinforce **Reading Literature (RL 2.10).**

1985

Reading Information

RI 2.2 Identify the main topic of a multi-paragraph text as well as the focus of specific paragraphs within the text.
RI 2.6 Identify the main purpose of a text, including what the author wants to answer, explain, or describe**.**
RI 2.7 Explain how specific images (e.g., a diagram showing how a machine works) contribute to and clarify a text.
Continue to teach, review and reinforce **Reading Information (RI 2.10).**

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF 2.3a-f, RF 2.4a-c).**

Writing

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

W 2.2 Write informative/explanatory texts in which they introduce a topic, use facts and definitions to develop points, and provide a concluding statement or section.
Continue to teach, review and reinforce **Writing (W 2.5, W 2.6, W 2.8).**

Speaking and Listening

SL 2.4 Tell a story or recount an experience with appropriate facts and relevant, descriptive details, speaking audibly in coherent sentences**.**
Continue to teach, review and reinforce **Speaking and Listening (SL 2.1a-c**, **SL 2.2, SL 2.3, SL2.6).**

Language

L 2.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

b. Use commas in greetings and closings of letters.
c. Use an apostrophe to form contractions and frequently occurring possessives.

Continue to teach, review and reinforce **Language (L 2.1 a-f, L 2.2 a, d-e, L 2.3 a, L 2.4a-e, L 2.5a-b, L 2.6).**

Term 3

Reading Literature

RL 2.5 Describe the overall structure of a story, including describing how the beginning introduces the story and the ending concludes the action**.**
RL 2.9:Compare and contrast two or more versions of the same story (e.g., Cinderella stories) by different authors or from different cultures.
Continue to teach, review and reinforce **Reading Literature (RL 2.10).**

Reading Information

RI 2.5 Know and use various text features (e.g., captions, bold print, subheadings, glossaries, indexes, electronic menus, icons) to locate key facts or information in a text efficiently.

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

RI 2.8 Describe how reasons support specific points the author makes in a text.
RI 2.9 Compare and contrast the most important points presented by two texts on the same topic.
Continue to teach, review and reinforce **Reading Information (RI 2.10).**

Reading Foundations

Continue to teach, review and reinforce **Reading Foundations (RF 2.3b-f, RF 2.4a-c).**

Writing

W 2.3 Write narratives in which they recount a well-elaborated event or short sequence of events, include details to describe actions, thoughts, and feelings, use temporal words to signal event order, and provide a sense of closure.
Continue to teach, review and reinforce **Writing (W 2.5, W 2.6, W 2.8).**

Speaking and Listening

1987

Continue to teach, review and reinforce **Speaking and Listening (SL 2.1 a-c**, **SL 2.2, SL 2.3, SL 2.4, SL2.5, SL2.6).**

Language

Continue to teach, review and reinforce **Language (L 2.1 a-f, L 2.2 a-e, L 2.3 a, L 2.4 a-e, L 2.5 a-b, L 2.6).**

Term 4

Reading Literature

JCSD 2nd Grade ELA Scope and Sequence 23-24 School Year

Spiral Review all standards. (Reteach standards of deficit).
Reading Information
Spiral Review all standards. (Reteach standards of deficit).
Reading Foundations
Continue to teach, review and reinforce **Reading Foundations (RF 2.3b-f, RF 2.4a-c).**
Writing
W 2.1 Write opinion pieces in which they introduce the topic or book they are writing about, state an opinion, supply reasons that support the opinion, use linking words (e.g., because, and, also) to connect opinion and reasons, and provide a concluding statement or section. **W 2.7** Participate in shared research and writing projects (e.g., read a number of books on a single topic to produce a report; record science observations). Continue to teach, review and reinforce **Writing (W 2.5, W 2.6, W 2.8).**
Speaking and Listening
SL 2.5 Create audio recordings of stories or poems; add drawings or other visual displays to stories or recounts of experiences when appropriate to clarify ideas, thoughts, and feelings. Continue to teach, review and reinforce **Speaking and Listening (SL 2.1a-c**, **SL 2.2, SL 2.3, SL 2.4, SL 2.6).**
Language
Continue to teach, review and reinforce **Language (L 2.1a-f, L 2.2a-e, L 2.3a, L 2.4a-e, L 2.5a-b, L 2.6).**

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

Term 1
Reading Literature (RL)
RL.3.1 Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.
RL.3.2 Recount stories, including fables, folktales, and myths from diverse cultures; determine the central message, lesson, or moral and explain how it is conveyed through key details in the text.
RL.3.3 Describe characters in a story (e.g., their traits, motivations, or feelings) and explain how their actions contribute to the sequence of events.
RL.3.4 Determine the meaning of words and phrases as they are used in a text, distinguishing literal from nonliteral language.
Reading Informational Text (RI)
RI.3.1 Ask and answer questions to demonstrate understanding of a text, referring explicitly to the text as the basis for the answers.
RI.3.2 Determine the main idea of a text; recount the key details and explain how they support the main idea.
RI.3.3 Describe the relationship between a series of historical events, scientific ideas or concepts, or steps in technical procedures in a text using language that pertains to time, sequence, and cause/effect.
RI.3.4 Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 3 topic or subject area.
Writing
W.3.2 Write informative/explanatory texts to examine a topic and convey ideas and information clearly. a. Introduce a topic and group related information together; include illustrations when useful to aid comprehension. b. Develop the topic with facts, definitions, and details. c. Use linking words and phrases (e.g., also, another, and, more, but) to connect ideas within categories of information.

1989

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

d. Provide a concluding statement or section.	
Writing Standards W.3.4- 3.10 will be implemented throughout the year **W.3.4** With adult guidance and support, produce writing in which the development and organization are appropriate to the task and purpose. **W.3.5** With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing. (Editing for conventions should demonstrate command of Language standards 1-3 up to and including grade 3). **W.3.6** With guidance and support from adults, use technology to produce and publish writing (using keyboarding skills) and interact and collaborate with others. **W.3.8** Recall information from experiences or gather information from print and digital sources; take brief notes on sources and sort evidence into provided categories.	
Speaking and Listening	
SL.3.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 3 topics and texts, building on others' ideas and expressing their own clearly. a. Come to discussions prepared, having read or studied required material; explicitly draw on that preparation and other information known about the topic to explore ideas under discussion. b. Follow agreed-upon rules for discussions (e.g., gaining the floor respectfully, listening to others with care, and speaking one at a time about the topics and texts under discussion). c. Ask questions to check understanding of the information presented, stay on topic, and link their comments to the remarks of others. d. Explain their own ideas and understanding in light of the discussion.	1990
SL.3.2 Determine the main ideas and supporting details of a text read aloud or information presented in diverse media and formats, including visually, quantitatively, and orally.	
SL.3.3 Ask and answer questions about information from a speaker, offering appropriate elaboration and detail.	
SL.3.4 Report on a topic or text, tell a story, or recount an experience with appropriate facts and relevant, descriptive details, speaking clearly at an understandable pace.	

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

SL.3.5 Create engaging audio recordings of stories or poems that demonstrate fluid reading at an understandable pace; add visual displays when appropriate to emphasize or enhance certain facts or details.

SL.3.6 Speak in complete sentences when appropriate to the task and situation to provide the requested detail or clarification. (See grade 3 Language standards 1 and 3 for specific expectations.)

Language

L.3.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

a. Explain the function of nouns, pronouns, verbs, adjectives, and adverbs in general and their functions in particular sentences.
b. Form and use regular and irregular plural nouns.
c. Use abstract nouns (e.g., childhood).
d. Form and use regular and irregular verbs.
e. Form and use the simple (e.g., I walked; I walk; I will walk) verb tenses.
f. Ensure subject-verb and pronoun-antecedent agreement.

1991

L.3.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Capitalize appropriate words in titles.
b. Use commas in addresses.

e. Use conventional spelling for high-frequency and other studied words and for adding suffixes to base words (e.g., sitting, smiled, cries, happiness).
f. Use spelling patterns and generalizations (e.g., word families, position-based spellings, syllable patterns, ending rules, meaningful word parts) in writing words.
g. Consult reference materials, including beginning dictionaries, as needed to check and correct spellings.

L.3.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening.

a. Choose words and phrases for effect.

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

L.3.4 Determine or clarify the meaning of unknown and multiple-meaning word and phrases based on grade 3 reading and content, choosing flexibly from a range of strategies. a. Use sentence-level context as a clue to the meaning of a word or phrase. b. Determine the meaning of the new word formed when a known affix is added to a known word (e.g., agreeable/disagreeable, comfortable/uncomfortable, care/careless, heat/preheat). c. Use a known root word as a clue to the meaning of an unknown word with the same root (e.g., company, companion). d. Use glossaries or beginning dictionaries, both print and digital, to determine or clarify the precise meaning of keywords and phrases.
L.3.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings. a. Distinguish the literal and nonliteral meanings of words and phrases in context (e.g., take steps). b. Identify real-life connections between words and their use (e.g., describe people who are friendly or helpful).

Term 2
Reading Literature
RL.3.4 Determine the meaning of words and phrases as they are used in a text, distinguishing literal from nonliteral language.
RL.3.5 Refer to parts of stories, dramas, and poems when writing or speaking about a text, using terms such as chapter, scene, and stanza; describe how each successive part builds on earlier sections.
RL.3.6 Distinguish their own point of view from that of the narrator or those of the characters.
Reading Informational Text
RI.3.4 Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 3 topic or subject area.

1992

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

RI.3.5 Use text features and search tools (e.g., keywords, sidebars, hyperlinks) to locate information relevant to a given topic efficiently.

RI.3.6 Distinguish their own point of view from that of the author of a text.

Writing

W.3.3 Write narratives to develop real or imagined experiences or events using effective techniques, well-chosen details, and well-structured event sequences.

a. Establish a situation and introduce a narrator and/or characters; organize an event sequence that unfolds naturally.
b. Use dialogue and descriptions of actions, thoughts, and feelings to develop experiences and events or show the response of characters to situations.
c. Use temporal words and phrases to signal event order.
d. Provide a sense of closure.

Continue to teach, review and reinforce **Writing (W 3.2 a-d, W.3.4, W.3.5, W.3.6, W.3.8)**

Speaking and Listening

Continue to teach, review and reinforce **Speaking and Listening (SL.3.1, SL.3.2, SL.3.3, SL.3.4, SL.3.5, SL.3.6)**

Language

L.3.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

g. Form and use comparative and superlative adjectives and adverbs, and choose between them depending on what is to be modified.
h. Use coordinating and subordinating conjunctions.
i. Produce simple, compound, and complex sentences.

L.3.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

c. Use commas and quotation marks in dialogue.
d. Form and use possessives.
e. Use conventional spelling for high-frequency and other studied words and for adding suffixes to base words (e.g., sitting, smiled, cries, happiness).

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

f. Use spelling patterns and generalizations (e.g., word families, position-based spellings, syllable patterns, ending rules, meaningful word parts) in writing words.
L.3.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 3 reading and content, choosing flexibly from a range of strategies. d. Use glossaries or beginning dictionaries, both print and digital, to determine or clarify the precise meaning of keywords and phrases.
L.3.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings. a. Distinguish the literal and nonliteral meanings of words and phrases in context (e.g., take steps). b. Identify real-life connections between words and their use (e.g., describe people who are friendly or helpful). c. Distinguish shades of meaning among related words that describe states of mind or degrees of certainty (e.g., knew, believed, suspected, heard, wondered).
L.3.6 Acquire and use accurately grade-appropriate conversational, general academic, and domain-specific words and phrases, including those that signal spatial and temporal relationships (e.g., After dinner that night, we went looking for them).
Continue to teach, review and reinforce **Language (L.3.1a-f, L.3.2a-b, L.3.2e-g L.3.3a, L.3.4a-d, L.3.5a-b)**

1994

Term 3
Reading Literature
RL.3.7 Explain how specific aspects of a text's illustrations contribute to what is conveyed by the words in a story (e.g., create mood, emphasize aspects of a character or setting).

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

RL.3.9 Compare and contrast the themes, settings, and plots of stories written by the same author about the same or similar characters (e.g., in books from a series).
Continue to review and reinforce (RL.3.1, RL.3.2, RL.3.3, RL.3.4, RL.3.5, RL.3.6)
Reading Informational Text
RI.3.7 Use the information gained from illustrations (e.g., maps, photographs) and the words in a text to demonstrate understanding of the text (e.g., where, when, why, and how key events occur).
RI.3.8 Describe the logical connection between particular sentences and paragraphs in a text (e.g., comparison, cause/effect, first/second/third in a sequence)**.**
RI.3.9 Compare and contrast the most important points and key details presented in two texts on the same topic.
Continue to review and reinforce (RI.3.1, RI 3.2, RI.3.3, RI.3.4, RI.3.6)
Writing
W.3.1 Write opinion pieces on topics or texts, supporting a point of view with reasons. a. Introduce the topic or text they are writing about, state an opinion, and create an organizational structure that lists reasons. b. Provide reasons that support the opinion. c. Use linking words and phrases (e.g., because, therefore, since, for example) to connect opinion and reasons. d. Provide a concluding statement or section.
Continue to teach, review and reinforce **Writing (W.3.2a-d, W.3.4, W.3.5, W.3.6, W.3.8),**

1995

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

Speaking, and Listening
Continue to teach, review and reinforce **Speaking and Listening (SL.3.1a-c, SL.3.2, SL.3.3, SL.3.4, SL.3.5, SL.3.6)**
Language
L.3.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening. b. Recognize and observe differences between the conventions of spoken and written standard English. **L.3.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.** c. Distinguish shades of meaning among related words that describe states of mind or degrees of certainty (e.g., knew, believed, suspected, heard, wondered).
Continue to teach, review and reinforce **Language (L.3.1a-i, L.3.2a-f, L.3.3a, L.3.4a-d, L.3.5a-c, L.3.6)**

1996

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

Term 4
Reading Literature
RL.3.10 By the end of the year, read and comprehend literature, including stories, dramas, and poetry, at the high end of the grades 2–3 text complexity band independently and proficiently. **Spiral Review all standards. (Reteach standards of deficit).**
Reading Information
RL.3.10 By the end of the year, read and comprehend informational texts, including history/social studies, science, and technical texts, at the high end of the grades 2–3 text complexity band independently and proficiently. **Spiral Review all standards. (Reteach standards of deficit).**
Writing
W.3.7 Conduct short and more sustained research projects based on focused questions, demonstrating an understanding of the subject under investigation. **W.3.10** Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.
Continue to teach, review and reinforce **Writing Standards.**
Speaking and Listening
Continue to teach, review and reinforce **Speaking and Listening**.

1997

JCSD 3rd Grade ELA Scope and Sequence 23-24 School Year

Term 4
Reading Literature
RL.3.10 By the end of the year, read and comprehend literature, including stories, dramas, and poetry, at the high end of the grades 2–3 text complexity band independently and proficiently. **Spiral Review all standards. (Reteach standards of deficit).**
Reading Information
Language
Continue to teach, review and reinforce **Language (L.3.1, L.3.2, L.3.3, L. 3.4, L.3.5, L.3.6)**

1998

Reading Foundations Standards
RF.3.3 Know and apply grade-level phonics and word analysis skills in decoding words. a. Identify and know the meaning of the most common prefixes and derivational suffixes. b. Decode words with common Latin suffixes. c. Decode multisyllabic words. d. Read grade-appropriate irregularly spelled words. **RF.3.4 Read with sufficient accuracy and fluency to support comprehension.** a. Read grade-level text with purpose and understanding. b. Read grade-level prose and poetry orally with accuracy, appropriate rate, and expression on successive readings. c. Use context to confirm or self-correct word recognition and understanding, rereading as necessary.

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

Term 1

Reading Literature (RL)

RL.4.1 Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.
RL.4.2 Determine a theme of a story, drama, or poem from details in the text; summarize the text.
RL.4.3 Describe in depth a character, setting, or event in a story or drama, drawing on specific details in the text (e.g., a character's thoughts, words, or actions).
RL.4.4 Determine the meaning of words and phrases as they are used in a text, including those that allude to significant characters found in mythology (e.g., Herculean).

Reading Informational Text (RI)

2012

RI.4.1 Refer to details and examples in a text when explaining what the text says explicitly and when drawing inferences from the text.
RI.4.2 Determine the main idea of a text and explain how key details support it; summarize the text.
RI.4.3 Explain events, procedures, ideas, or concepts in a historical, scientific, or technical text, including what happened and why, based on specific information in the text.
RI.4.4 Determine the meaning of general academic and domain-specific words or phrases in a text relevant to a Grade 4 topic or subject area.

Writing

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

W.4.2 Write informative/explanatory texts to examine a topic and convey ideas and information clearly.

a. Introduce a topic clearly and group related information in paragraphs and sections; include formatting (e.g., headings), illustrations, and multimedia when useful to aiding comprehension.
b. Develop the topic with facts, definitions, concrete details, quotations, or other information and examples related to the topic.
c. Link ideas within categories of information using words and phrases (e.g., another, for example, also, because).
d. Use precise language and domain-specific vocabulary to inform about or explain the topic.
e. Provide a concluding statement or section related to the information or explanation presented.

W.4.4 Produce clear and coherent writing in which the development and organization are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

W.4.5 With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, and editing. (Editing for conventions should demonstrate command of Language standards 1-3 up to and including grade 4.)

W.4.6 With some guidance and support from adults, use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills.

W.4.8 Recall relevant information from experiences or gather relevant information from print and digital sources; take notes and categorize information, and provide a list of sources.

W.4.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply Grade 4 Reading standards to literature (e.g., "Describe in depth a character, setting, or event in a story or drama, drawing on specific details in the text [e.g., a character's thoughts, words, or actions].").
b. Apply Grade 4 Reading standards to informational texts (e.g., "Explain how an author uses reasons and evidence to support particular points in a text").

2013

W.4.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Speaking and Listening

SL.4.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on Grade 4 topics and texts, building on others' ideas and expressing their own clearly.

a. Come to discussions prepared, having read or studied required material; explicitly draw on that preparation and other information known about the topic to explore ideas under discussion.
b. Follow agreed-upon rules for discussions and carry out assigned roles.
c. Pose and respond to specific questions to clarify or follow up on information, and make comments that contribute to the discussion and link to the remarks of others.
d. Review the key ideas expressed and explain their own ideas and understanding in light of the discussion.

SL.4.2 Paraphrase portions of a text read aloud or information presented in diverse media and formats, including visually, quantitatively, and orally.

SL.4.4 Report on a topic or text, tell a story, or recount an experience in an organized manner, using appropriate facts and relevant, descriptive details to support main

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

ideas or themes; speak clearly at an understandable pace.

Language

L.4.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

a. Use relative pronouns (who, whose, whom, which, that) and relative adverbs (where, when, why).
b. Form and use the progressive (e.g. I was walking; I am walking; I will be walking) verb tenses.
c. Use modal auxiliaries (e.g., can, may, must) to convey various conditions.
d. Order adjectives within sentences according to conventional patterns (e.g., a small red bag rather than a red small bag).

L.4.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Use correct capitalization.
b. Use commas and quotation marks to mark direct speech and quotations from a text.

L.4.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening.

a. Choose words and phrases to convey ideas precisely.
b. Choose punctuation for effect.

L.4.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 4 reading and content, choosing flexibly from a range of strategies.

a. Use context (e.g., definitions, examples, or restatements in text) as a clue to the meaning of a word or phrase.
b. Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., telegraph, photograph, autograph).
c. Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation and determine or clarify the precise meaning of keywords and phrases.

2014

L.4.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

a. Explain the meaning of simple similes and metaphors (e.g., as pretty as a picture) in context.
b. Recognize and explain the meaning of common idioms, adages, and proverbs.
c. Demonstrate understanding of words by relating them to their opposites (antonyms) and to words with similar but not identical meanings (synonyms).

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

Term 2:
Reading Literature
RL.4.4 Determine the meaning of general academic and domain-specific words or phrases in a text relevant to a Grade 4 topic or subject area. **RL.4.5**: Refer to parts of stories, dramas, and poems when writing or speaking about a text, using terms such as chapter, scene, and stanza; describe how each successive part builds on earlier sections. Continue to teach, review and reinforce (**RL.4.1, RL.4.2, RL.4.3)**
Reading Informational Text
RI.4.4 Determine the meaning of general academic and domain-specific words or phrases in a text relevant to a Grade 4 topic or subject area. **RI.4.5** Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 3 topic or subject area. Continue to teach, review and reinforce (**RI.4.1, RI.4.2, RI.4.3)**

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

Writing

W.4.3 Write narratives to develop real or imagined experiences or events using effective techniques, descriptive details, and clear event sequences.

a. Orient the reader by establishing a situation and introducing a narrator and/or characters; organize an event sequence that unfolds naturally.
b. Use dialogue and description to develop experiences and events or show the responses of characters to situations.
c. Use a variety of transitional words and phrases to manage the sequence of events.
d. Use concrete words and phrases and sensory details to convey experiences and events precisely.
e. Provide a conclusion that follows from the narrated experiences or events.

Continue to teach, review and reinforce **Writing (W.4.4, W.4.5, W.4.6, W.4.8, W.4.9, W.4.10)**

Speaking and Listening

SL.4.3 Identify the reasons and evidence a speaker provides to support particular points.
SL.4.6 Differentiate between contexts that call for formal English (e.g., presenting ideas) and situations where informal discourse is appropriate (e.g., small group discussion); use formal English when appropriate to task and situation.
Continue to teach, review and reinforce **Speaking and Listening (SL.4.1a-d, SL.4.2, SL.4.4)**

2016

Language

L 4.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

c. Use a comma before a coordinating conjunction in a compound sentence.
d. Spell grade-appropriate words correctly, consulting references as needed.

L.4.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening.

c. Differentiate between contexts that call for formal English (e.g., presenting ideas) and situations where informal discourse is appropriate (e.g.,

small-group discussion).

L.4.6 Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, including those that signal precise actions, emotions, or states of being (e.g., quizzed, whined, stammered) and that are basic to a particular topic (e.g., wildlife, conservation, and endangered when discussing animal preservation).

Continue to teach, review and reinforce **Language (L.4.1a-d, L.4.2a-b, L.4.3a-b, L.4.4a-c, L.4.5a-c)**

2017

Term 3
Reading Literature

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

RL.4.6 Distinguish their point of view from that of the narrator or the characters.
RL.4.7: Make connections between the text of a story or drama and a visual or oral presentation of the text, identifying where each version reflects specific descriptions and directions in the text.
RL 4.9: Compare and contrast the treatment of similar themes and topics (e.g., the opposition of good and evil) and patterns of events (e.g., the quest) in stories, myths, and traditional literature from different cultures.
Continue to review and reinforce (RL.4.1, RL.4.2, RL.4.3, RL.4.4, RL.4.5)

Reading Informational Text

RI.4.6 Use text features and search tools (e.g., keywords, sidebars, hyperlinks) to locate information relevant to a given topic efficiently.
RI 4.7: Interpret information presented visually, orally, or quantitatively (e.g., in charts, graphs, diagrams, timelines, animations, or interactive elements on Web pages) and explain how the information contributes to an understanding of the text in which it appears.
RI.4.8: Explain how an author uses reasons and evidence to support particular points in a text.
RI 4.9: Integrate information from two texts on the same topic in order to write or speak about the subject knowledgeably.
Continue to review and reinforce (RI.4.1, RI 4.2, RI.4.3, RI.4.4)

2018

Writing

W.4.1 Write opinion pieces on topics or texts, supporting a point of view with reasons and information.

a. Introduce a topic or text clearly, state an opinion, and create an organizational structure in which related ideas are grouped to support the writer's purpose.
b. Provide reasons that are supported by facts and details.
c. Link opinion and reasons using words and phrases (e.g., for instance, in order to, in addition).
d. Provide a concluding statement or section related to the opinion presented

Continue to teach, review and reinforce the **(W.4.2 a-e, W.4.4, W.4.5, W.4.6, W.4.8, W.4.9)**

Speaking and Listening

JCSD 4th Grade ELA Scope and Sequence 23-24 School Year

2049

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

Term 1
Reading Literature (RL)
RL.5.1 Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text. **RL.5.2** Determine a theme of a story, drama, or poem from details in the text, including how characters in a story or drama respond to challenges or how the speaker in a poem reflects upon a topic; summarize the text. **RL.5.3** Compare and contrast two or more characters, settings, or events in a story or drama, drawing on specific details in the text (e.g., how characters interact). **RL.5.4** Determine the meaning of words and phrases as they are used in a text, including figurative language such as metaphors and similes.
Reading Informational Text (RI)
RI.5.1 Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text. **RI.5.2** Determine two or more main ideas of a text and explain how key details support them; summarize the text. **RI.5.3** Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text. **RI.5.4** Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 5 topic or subject area.
Writing
W.5.2 Write informative/explanatory texts to examine a topic and convey ideas and information clearly.

2050

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

a. Introduce a topic clearly, provide a general observation and focus, and group related information logically; include formatting (e.g., headings), illustrations, and multimedia when useful to aiding comprehension.
b. Develop the topic with facts, definitions, concrete details, quotations, or other information and examples related to the topic.
c. Link ideas within and across categories of information using words, phrases, and clauses (e.g., in contrast, especially).
d. Use precise language and domain-specific vocabulary to inform about or explain the topic.
e. Provide a concluding statement or section related to the information or explanation presented.

Writing Standards W.5.4- 5.10 will be implemented throughout the year.

W.5.4 Produce clear and coherent writing in which the development and organization are appropriate to the task, purpose, and audience.

W.5.5 With guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.

W.5.6 With some guidance and support from adults, use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills.

W.5.8 Recall relevant information from experiences or gather relevant information from print and digital sources; summarize or paraphrase information in notes and finished work; and provide a list of sources.

W.5.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grade 5 Reading standards to literature (e.g., "Compare and contrast two or more characters, settings, or events in a story or a drama, drawing on specific details in the text [e.g., how characters interact]").
b. Apply grade 5 Reading standards to informational texts (e.g., "Explain how an author uses reasons and evidence to support particular points in a text, identifying which reasons and evidence support which point[s]").

2051

W.5.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Speaking and Listening

SL.5.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 5 topics and texts, building on others' ideas and expressing their own clearly.

a. Come to discussions prepared, having read or studied required material; explicitly draw on that preparation and other information known about the topic to explore ideas under discussion.
b. Follow agreed-upon rules for discussions and carry out assigned roles.
c. Pose and respond to specific questions by making comments that contribute to the discussion and elaborate on the remarks of others.
d. Review the key ideas expressed and draw conclusions in light of information and knowledge gained from the discussions.

SL.5.2 Summarize the points a speaker makes and explain how each claim is supported by reasons and evidence.

SL.5.4 Report on a topic or text or present an opinion, sequencing ideas logically and using appropriate facts and relevant, descriptive details to support main ideas or themes; speak clearly at an understandable pace.

SL.5.5 Include multimedia components (e.g., graphics, sound) and visual displays in presentations when appropriate to enhance the development of main ideas or themes.

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

Language
L.5.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking. a. Explain the function of conjunctions, prepositions, and interjections in general and their function in particular sentences. c. Use verb tense to convey various times, sequences, states, and conditions. **L.5.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.** a. Use punctuation to separate items in a series. b. Use a comma to separate an introductory element from the rest of the sentence. d. Use underlining, quotation marks, or italics to indicate titles of works. e. Spell grade-appropriate words correctly, consulting references as needed.
L.5.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening. a. Expand, combine, and reduce sentences for meaning, reader/listener interest, and style. **L.5.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on Grade 5 reading and content, choosing flexibly from a range of strategies.** a. Use context (e.g., cause/effect relationships and comparisons in text) as a clue to the meaning of a word or phrase. b. Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., photograph, photosynthesis). c. Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation and determine or clarify the precise meaning of keywords and phrases. **L.5.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.** a. Interpret figurative language, including similes and metaphors, in context. b. Recognize and explain the meaning of common idioms, adages, and proverbs. c. Use the relationship between particular words (e.g., synonyms, antonyms, homographs) to better understand each of the words.

2052

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

Term 2
Reading Literature
RL.5.4 Determine the meaning of words and phrases as they are used in a text, including figurative languages such as metaphors and similes. **RL.5.5** Explain how a series of chapters, scenes, or stanzas fits together to provide the overall structure of a particular story, drama, or poem. **RL.5.6** Describe how a narrator's or speaker's point of view influences how events are described. Continue to teach, review and reinforce **(RI.5.1, RI 5.2, RI.5.3)**
Reading Informational Text
RI.5.4 Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a grade 5 topic or subject area. **RI.5.5** Compare and contrast the overall structure (e.g., chronology, comparison, cause/effect, problem/solution) of events, ideas, concepts, or information in two or more texts. **RI.5.6** Analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent. Continue to teach, review and reinforce **(RL.5.1, RL 5.2, RL.5.3)**
Writing
W.5.3 Write narratives to develop real or imagined experiences or events using effective techniques, well-chosen details, and well-structured event sequences.

2053

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

a. Orient the reader by establishing a situation and introducing a narrator and/or characters; organize an event sequence that unfolds naturally.
b. Use narrative techniques, such as dialogue, description, and pacing to develop experiences and events or show the responses of characters to situations.
c. Use a variety of transitional words, phrases, and clauses to manage the sequence of events.
d. Use concrete words and phrases and sensory details to convey experiences and events precisely.
e. Provide a conclusion that follows from the narrated experiences or events.

Continue to teach, review and reinforce **Writing (W.5.2 a-e, W.5.4, W.5.5, W.5.6, W.5.8, W.5.9a-b, W.5.10)**

Speaking and Listening

SL.5.3 Summarize the speaker's points and explain how each claim is supported by reasons and evidence.
SL.5.6 Adapt speech to a variety of contexts and tasks, using formal English when appropriate to the task and situation.
Continue to teach, review and reinforce **Speaking and Listening (SL.5.1a-d)**

2054

Language

L.5.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.
b. Form and use the perfect (e.g., I had walked; I have walked; I will have walked) verb tenses.
d. Recognize and correct inappropriate shifts in verb tense.

L.5.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.
e. Use correlative conjunctions (e.g., either/or, neither/nor).

L.5.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
c. Use a comma to set off the words yes and no (e.g., Yes, thank you), to set off a tag question from the rest of the sentence (e.g., It's true, isn't it?), and to indicate direct address (e.g., Is that you, Steve?).
d. Use underlining, quotation marks, or italics to indicate titles of works.
e. Spell grade-appropriate words correctly, consulting references as needed.

L.5.3 Use knowledge of the language and its conventions when writing, speaking, reading, or listening.
b. Compare and contrast the varieties of English (e.g., dialects, registers) used in stories, dramas, or poems.

L.5.6 Acquire and use accurately grade-appropriate general academic and domain-specific words and phrases, including those that signal contrast, addition, and other logical relationships (e.g., however, although, nevertheless, similarly, moreover, in addition).

Continue to teach, review and reinforce **Language (L.5.1a-c, L.5.2a-b, L.5.3a-b, L.5.4a-c, L.5.5a-c)**

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

2055

Term 3
Reading Literature
RL.5.6 Describe how a narrator's or speaker's point of view influences how events are described. **RL.5.7** Analyze how visual and multimedia elements contribute to the meaning, tone, or beauty of a text (e.g., graphic novel, multimedia presentation of fiction, folktale, myth, poem). **RL.5.9** Compare and contrast stories in the same genre (e.g., mysteries and adventure stories) on their approaches to similar themes and topics. **Continue to review and reinforce (RL.5.1, RL 5.2, RL.5.3, RL.5.4, RL.5.5)**

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

Reading Informational Text

RI.5.7 Draw on information from multiple print or digital sources, demonstrating the ability to locate an answer to a question quickly or to solve a problem efficiently.
RI.5.9 Integrate information from several texts on the same topic in order to write or speak about the subject knowledgeably.

Continue to review and reinforce (RI.5.1, RI.5.2, RI.5.3, RI.5.4, RI.5.6)

Writing

2056

W.5.1 Write opinion pieces on topics or texts, supporting a point of view with reasons and information.

a. Introduce a topic or text clearly, state an opinion, and create an organizational structure in which ideas are logically grouped to support the writer's purpose.
b. Provide logically ordered reasons that are supported by facts and details.
c. Link opinions and reasons using words, phrases, and clauses (e.g., consequently, specifically).
d. Provide a concluding statement or section related to the opinion presented.

Continue to teach, review and reinforce **Writing (W.5.2a-e, W.5.4, W.5.5, W.5.6, W.5.8, W.5.9a-b, W.5.10)**

Speaking and Listening

Continue to teach, review and reinforce **Speaking and Listening (SL.5.1a-d, SL.5.2, SL5.3, SL.5.4, SL.5.5, SL.5.6)**

Language

JCSD 5th Grade ELA Scope and Sequence 23-24 School Year

L.5.1: Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

c. Use verb tense to convey various times, sequences, states, and conditions.

L.5.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

c. Use a comma to set off the words yes and no (e.g., Yes, thank you), to set off a tag question from the rest of the sentence (e.g., It's true, isn't it?), and to indicate direct address (e.g., Is that you, Steve?).

2059

JCSD Kindergarten Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**K.CC.1** Count to 100 by ones and by tens.	Kindermath	
2	**K.CC.3** Write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects). **K.CC.1** (Continue)	Kindermath	
3	**K.CC.4** Understand the relationship between numbers and quantities; connect counting to cardinality. a. When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object. b. Understand that the last number name said tells the number of objects counted. The number of objects is the same regardless of their arrangement or the order in which they were counted. c. Understand that each successive number refers to a quantity that is one larger. **K.CC.1, K.CC.3** (Continue)	Kindermath	2060
4	**K.MD.1** Describe measurable attributes of objects, such as length or weight. Describe several measurable attributes of a single object. **K.CC.1, K.CC.3, K.CC.4a-c** (Continue)	Kindermath	

JCSD Kindergarten Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
5	**K.MD.2** Directly compare two objects with a measurable attribute in common, to see which object has "more of"/ "less of" the attribute, and describe the difference. For example, directly compare the heights of two children and describe one child as taller/shorter. **K.CC.1, K.CC.3, K.CC.4a-c** (Continue) **K.MD..1** (Continue)	Kindermath	
6	**K.CC.1, K.CC.3, K.CC.4a-c** (Continue) **K.MD.1, K.MD.2** (Continue)	Kindermath	
7	**K.MD.3** Classify objects into given categories; count the numbers of objects in each category and sort the categories by count. **Limit category counts to be less than or equal to 10.** **K.CC.1, K.CC.3, K.CC.4a-c** (Continue) **K.MD.1, K.MD.2** (Continue)	Kindermath	2061
8	**K.G.2** Correctly name shapes regardless of their orientations or overall size. **K.CC.1, K.CC.3, K.CC.4a-c**(Continue) **K.MD.1, K.MD.2, K.MD.3** (Continue)	Kindermath	
9	**K.G.1** Describe objects in the environment using names of shapes, and describe the relative positions of these objects using terms such as	Kindermath

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	above, below, beside, in front of, behind, and next to. **K.CC.1, K.CC.3, K.CC4a-c** (Continue) **K.MD.1, K.MD.2, K.MD.3** (Continue) **K G.2** (Continue)		
Term 2	**Continued Standards** **Counting and Cardinality: K.CC.1, K.CC.3, K.CC.4a-c** **Measurement and Data: K.MD.1, K.MD.2, K.MD.3** **Geometry: K.G.1, K.G.2**	Kindermath iReady	
10	**K.CC.5** Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1-20, count out that many objects.		2062
11	**K.CC.6** Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies. **Include groups with up to ten objects.** **K.CC.5** (Continue)		
12	**K.CC.7** Compare two numbers between 1 and 20 presented as written numerals. **K.CC.5, K.CC.6** (Continue)		

JCSD Kindergarten Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
13	**K.CC.2** Count forward beginning from a given number within the known sequence (instead of having to begin at 1). **K.CC.5, K.CC.6, K.CC.7** (Continue)		
14	**K.OA.3** Decompose numbers less than or equal to 10 into pairs in more than one way, e.g., by using objects or drawings, and record each decomposition by a drawing or equation (e.g., 5 = 2 + 3 and 5 = 4 + 1). **K.NBT.1** Compose and decompose numbers from 11 to 19 into ten ones and some further ones to understand that these numbers are composed of ten ones and one, two, three, four, five, six, seven, eight, or nine ones. e.g., by using objects and drawings, and record each composition or decomposition by a drawing or equation (e.g., 18 = 10 + 8) **K.CC.2, K.CC.5, K.CC.7** (Continue)		
15	**K.G.3** Identify shapes as two dimensional (lying in a plane "flat") or		

JCSD Kindergarten Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	three dimensional ("solid"). **K.G.4** Analyze and compare two- and three dimensional shapes, in different sizes and orientations, using informal language to describe their similarities, differences, parts (e.g., number of sides and vertices/"corners") and other attributes (e.g., having sides of equal length). **K.CC.2, K.CC.5, K.CC.7** (Continued) **K.OA.3** (Continue) **K.NBT.1** (Continued)		
16	**K.G.5** Model objects in the world by drawing two-dimensional shapes and building three dimensional shapes. **K.G.6** Compose simple shapes to form larger shapes. For example, "Can you join these two triangles with full sides touching to make a rectangle?" **K.CC.2, K.CC.5, K.CC.7** (Continued) **K.NBT.1** (Continued)		2064
17	**K.CC.2, K.CC.5, K.CC.7** (Continued) **K.NBT.1** (Continued) **K.G.3, K.G.4, K G.5, K.G.6** (Continued)		
18	**REVIEW AND RETEACH**

2068

***Once instructed, all standards should be spiraled throughout the year in both assessment and instruction (small group and whole group).**

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**1.OA.5** Relate counting to addition and subtraction (e.g., by counting on 2 to add 2).	Ready Lesson 1, 6	iReady
2	**1.OA.4** Understand subtraction as an unknown-addend problem. For example, subtract 10 - 8 by finding the number that makes 10 when added to 8.	Ready Lesson 4	iReady
3	**1.OA.7** Understand the meaning of the equal sign, and determine if equations involving addition and subtraction are true or false. For example, which of the following equations are true, and which are false? 6=6, 7=8-1, 5+2=2+5, 4+1=5+2.	Ready Lesson 9	iReady
4	**1.OA.3** Apply properties of operations as strategies to add and subtract. Examples: If 8+3=11 is known, then 3+8=11 is also known. (Commutative property of addition.) To add 2+6+4, the second two numbers can be added to make a ten, so 2+6+4 = 2+10=12. (Associative property of addition.) **Students need not use formal terms for these properties.** **1.OA.6** Add and subtract within 20, demonstrating fluency for addition and subtraction within 10. Use strategies such as counting on; making ten (e.g., 8+6=8+2+4=10+4 =14); decomposing a number leading to a ten (e.g., 13-4=13-3-1=10- 1=9); using the relationship between addition and subtraction (e.g., known that 8+4=12, one knows 12-8=4); and creating equivalent but easier or known sums (e.g., adding 6+7 by creating the known equivalent 6+6+1 = 12+1=13).	Ready Lesson 3, Lesson 5 Ready Lesson 2, 10, 12, 13, 15	iReady

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
5	**1.OA.6** (Continued)		iReady
6	**1.OA.6** (Continued)		iReady
7	**1.NBT.2** Understand that the two digits of a two-digit number represent amounts of tens and ones. Understand the following as special cases: a. 10 can be thought of as a bundle of ten ones – called a "ten." b. The numbers from 11 to 19 are composed of a ten and one, two, three, four, five, six, seven, eight, or nine ones. c. The numbers 10, 20, 30, 40, 50, 60, 70, 80, and 90 refer to one, two, three, four, five, six, seven, eight, or nine tens (and 0 ones). **1.OA.6** (Continued)	Ready Lesson 11, 19, 21	iReady
8	**1.NBT.2a-c** (Continued)		iReady
9	**STANDARDS REVIEW & RETEACH**		

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
10	**1.OA.1** Use addition and subtraction within 20 to solve word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem.	Ready Lesson 7, 8, 17	iReady
11	**1.OA.2** Solve word problems that call for addition of three whole numbers whose sum is less than or equal to 20 (e.g., by using objects, drawings, and equations with a symbol for the unknown number to represent the problem).	Ready Lesson 14	iReady
12	**1.OA.8** Determine the unknown whole number in an addition or subtraction equation relating three whole numbers. For example,determine the unknown number that makes the equation true in each of the equations 8+? =11, 5= -3, 6+6= ▢ .	Ready Lesson 16	iReady
13	**1.NBT.1** Count to 120, starting at any number less than 120. In this range, read and write numerals and represent a number of objects with a written numeral.	Ready Lesson 20	iReady
14	**1.NBT.1** (Continued)		iReady
15	**1.NBT.3** Compare two two-digit numbers based on meanings of the tens	Ready Lesson 22	iReady

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	and ones digits, recording the results of comparisons with the symbols >, =, or <.		
16	**1.MD.3b** Identify the days of the week, the number of days in a week, and the number of weeks in each month. **1.MD.4** Organize, represent, and interpret data with up to three categories; ask and answer questions about the total number of data points, how many in each category, and how many more or less are in one category than in another.	Ready Lesson 18	iReady
17	**1.MD.4** (Continued)		iReady
18	**STANDARDS REVIEW & RETEACH**		
19	**1.NBT.4** Add within 100, including adding a two-digit number and a one-digit number, and adding a two-digit number and a multiple of 10, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used. Understand that in adding two-digit numbers, one adds tens and tens, ones and ones, and sometimes it is necessary to compose a ten. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)**	Ready Lesson 25, 27, 28, 29	iReady

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
20	**1.G.1** Distinguish between defining attributes (e.g., triangles are closed and three-sided) versus non-defining attributes (e.g., color, orientation, overall size); build and draw shapes to possess defining attributes. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **1.NBT.4** (Continued)	Ready Lesson 33	iReady
21	**OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **1.NBT.4** (Continued) **1.G.1** (Continued)		iReady
22	**1.NBT.5** Given a two digit number, mentally find 10 more or 10 less than the number without having to count; explain the reasoning used. **1.G.2** Compose two dimensional shapes (rectangles, squares, trapezoids, triangles, half-circles, and quarter circles) or three dimensional shapes (cubes, right rectangular prisms, right circular cones, and right circular cylinders) to create a composite shape, and compose new shapes from the composite shape. **Students do not need to learn formal names such as "right rectangular prism."** **OA (SPIRAL REVIEW AND WORK ON FLUENCY)**	Ready Lesson 26 Ready Lesson 34	iReady
23	**1.NBT.6** Subtract multiples of 10 in the range 10-90 from multiples of 10 in the range 10-90 (positive or zero differences), using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used.		iReady

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	OA (SPIRAL REVIEW AND WORK ON FLUENCY) **1.G.2** (Continued)		
24	**OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **1.NBT.6** (Continued)		iReady
25	**1.MD.1** Order three objects by length; compare the lengths of two objects indirectly by using a third object. **1.MD.2** Express the length of an object as a whole number of length units, by laying multiple copies of a shorter object (the length unit) end to end; understand that the length measurement of an object is the number of same-size length units that span it with no gaps or overlaps. Limit to contexts where the object being measured is spanned by a whole number of length units with no gaps or overlaps. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)**	Ready Lesson 30, 31 Ready Lesson 32	iReady
26	**1.MD.3a** Tell and write time in hours and half-hours using analog and digital clocks. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **1.MD.2** (Continued)	Ready Lesson 23	iReady
27	**STANDARDS REVIEW AND RETEACH**		

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
28	**1.MD.5a** Identify the value of all U.S. coins (penny, nickel, dime, quarter, half-dollar, and dollar coins). Use appropriate cent and dollar notation (e.g., 25¢, $1). **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)**	Ready Lesson 24	iReady
29	**1.MD.5b** Know the comparative values of all U.S. coins (e.g., a dime is of greater value than a nickel). **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)** **1.MD.5a** (Continued)		iReady
30	**1.MD.5c** Count like U.S. coins up to the equivalent of a dollar. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)**		iReady
31	**OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)** **1.MD.5c** (Continued)		iReady
32	**1.MD.5d** Find the equivalent value for all greater value U.S. coins using		iReady

JCSD 1st Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	like value smaller coins (e.g., 5 pennies equal 1 nickel; 10 pennies equal one dime, but not 1 nickel and 5 pennies equal 1 dime). **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)**		
33	**1.G.3** Partition circles and rectangles into two and four equal shares, describe the shares using the words halves, fourths, and quarters, and use the phrases half of, fourth of, and quarter of. Describe the whole as two of, or four of the shares. Understand for these examples that decomposing into more equal shares creates smaller shares. **OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)**	Ready Lesson 35	iReady
34	**OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)** **1.G.3** (Continued)		iReady
35	**OA (SPIRAL REVIEW AND WORK ON FLUENCY)** **NBT (SPIRAL REVIEW)**		iReady
36	**STANDARDS REVIEW AND RETEACH**

***Once instructed, all standards should be spiraled throughout the year in both assessment and instruction (small group and whole group).**

JCSD 3rd Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**3.NBT.1** Use place value understanding to round whole numbers to the nearest 10 or 100. **Fluency Standard** **3.OA.7** **Fluently** multiply and divide within 100, using strategies such as the relationship between multiplication and division (e.g., knowing that 8 × 5 = 40, one knows 40 ÷ 5 = 8) or properties of operations. Know from memory all products of two one-digit numbers and fully understand the concept when a remainder does not exist under division.	Ready Lesson 1	Reflex Math
2-3	**3.NBT.2** **Fluently** add and subtract (including subtracting across zeros) within 1000 using strategies and algorithms based on place value, properties of operations, and/or the relationship between addition and subtraction. Include problems with whole dollar amounts. **3. MD.1** Telling and write time to the nearest hour and half hour (Spiral throughout the year with bell ringers)	Ready Lesson 2, 3	
4	**3. OA.1** Interpret products of whole numbers, e.g., interpret 5 • 7 as the total number of objects in 5 groups of 7 objects each. For example, describe a context in which a total number of objects can be expressed as 5 × 7. **3.OA.3** Use multiplication and division within 100 to solve word problems in situations involving equal groups, arrays, and measurement quantities, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem. **3.OA.5** Apply properties of operations as strategies to multiply and divide. Examples: If 6 × 4 = 24 is known, then 4 × 6 = 24 is also known. (Commutative property of multiplication.) 3 × 5 × 2 can be found by 3 × 5 = 15, then 15 × 2 = 30, or by 5 × 2 = 10, then 3 × 10 = 30. (Associative property of multiplication.) Knowing that 8 × 5 = 40 and 8 × 2 = 16, one can find 8 × 7 as 8 × (5 + 2) = (8 × 5) + (8 × 2) = 40 + 16 = 56. (Distributive	Ready Lesson 4, 5

10	**3.OA.6** Understand division as an unknown-factor problem, where a remainder does not exist. . For example, find 32 ÷ 8 by finding the number that makes 32 when multiplied by 8 with no remainder. **3.OA.4** Determine the unknown whole number in a multiplication or division equation relating three whole numbers, with factors 0-10. For example, determine the unknown number that makes the equation true in each of the equations 8 × ? = 48, 5 = ? ÷ 3, 6 × 6 = ?	Ready Lesson 11 Ready Lesson 12	Reflex Math
11	**3.OA.4** (Continue) **3.OA.7** **Fluently** multiply and divide within 100, using strategies such as the relationship between multiplication and division (e.g., knowing that 8 × 5 = 40, one knows 40 ÷ 5 = 8) or properties of operations. Know from memory all products of two one digit numbers; and fully understand the concept when a remainder does not exist under division. **3.OA.9** Identify arithmetic patterns (including patterns in the addition table or multiplication table), and explain them using properties of operations.For example, observe that 4 times a number is always even, and explain why 4 times a number can be decomposed into two equal addends.	Ready Lesson 12 Ready Lesson 13	

JCSD 3rd Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
12	**3.MD.5** Recognize area as an attribute of plane figures and understand concepts of area measurement. a. A square with side length 1 unit, called "a unit square," is said to have "one square unit" of area, and can be used to measure area. b. A plane figure which can be covered without gaps or overlaps by *n* unit squares is said to have an area of *n* square units. **3.MD.6** Measure areas by counting unit squares (square *cm*, square *m*, square *in*, square *ft*, and improvised units).	Ready Lesson 14	
13	**3.MD.7** Relate area to the operations of multiplication and addition. a. Find the area of a rectangle with whole-number side lengths by tiling it, and show that the area is the same as would be found by multiplying the side lengths. b. Multiply side lengths to find areas of rectangles with whole-number side lengths (where factors can be between 1 and 10, inclusively) in the context of solving real world and mathematical problems, and represent whole-number products as rectangular areas in mathematical reasoning.	Ready Lesson 15	Reflex Math
14	**3.MD.7** Relate area to the operations of multiplication and addition. c. Use tiling to show in a concrete case that the area of a rectangle with whole-number side lengths a and b + c is the sum of a × b and a × c. Use area models to represent the distributive property in mathematical reasoning. d. Find areas of rectilinear figures by decomposing them into non overlapping rectangles and adding the areas of the non-overlapping parts, applying this technique to solve real world problems. Recognize the area as additive. **3.OA.3** Use multiplication and division within 100 to solve word problems in situations involving equal groups, arrays, and measurement quantities, e.g., by	Ready Lesson 16 Ready Lesson 17

	using drawings and equations with a symbol for the unknown number to represent the problem.		
15	**3.OA.3** (Continue) **3.OA.8** Solve two-step (two operational steps) word problems using the four operations. Represent these problems using equations with a letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation and estimation strategies including rounding. (Include problems with whole dollar amounts.)	Ready Lesson 17 Ready Lesson 18	Reflex Math
16	**3.NF.1** Understand a fraction 1/b as the quantity formed by 1 part when a whole is partitioned into b equal parts; understand a fraction a/b as the quantity formed by a parts of size 1/b. **Grade 3 expectations in this domain are limited to fractions with denominators 2,3,4,6, and 8.** **3.OA.8** (Continued)	Ready Lesson 20	

JCSD 3rd Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
17	**3.NF.2** Understand a fraction as a number on the number line; represent fractions on a number line diagram. a. Represent a fraction 1/b on a number line diagram by defining the interval from 0 to 1 as the whole and partitioning it into b equal parts. Recognize that each part has size 1/b and that the endpoint of the part based at 0 locates the number 1/b on the number line. b. Represent a fraction a/b on a number line diagram by marking off a lengths 1/b from 0. Recognize that the resulting interval has size a/b and that its endpoint locates the number a/b on the number line. **Limited to fractions with denominators 2, 3,4, 6, and 8.** **3.OA.8** (Continued)	Ready Lesson 21	
18	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #2)**		
19	**3.NF.3** Explain equivalence of fractions in special cases, and compare fractions by reasoning about their size. a. Understand two fractions as equivalent (equal) if they are the same size, or the same point on a number line. Recognize that comparisons are valid only when the two fractions refer to the same whole. **Introduce** **3.G.2** Partition shapes into parts with equal areas. Express the area of each part as a unit fraction of the whole. For example, partition a shape into 4 parts with equal area, and describe the area of each part as 1/4 of the area of the shape.	Ready Lesson 22	Reflex Math

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**5.NBT.1** Recognize that in a multi-digit number, a digit in one place represents 10 times as much as it represents in the place to its right and 1/10 of what it represents in the place to its left. (e.g., "In the number 3.33, the underlined digit represents 3/10, which is 10 times the amount represented by the digit to its right (3/100) and is 1/10 the amount represented by the digit to its left (3)). **5.NBT.5** Fluently multiply multi-digit whole numbers using the standard algorithm.	Ready Lesson 6 Ready Lesson 4	Ready iReady Reflex Nearpod
2	**5.NBT.2** Explain patterns in the number of zeros of the product when multiplying a number by powers of 10, and explain patterns in placing the decimal point when a decimal is multiplied or divided by a power of 10. Use whole-number exponents to denote powers of 10. **5.NBT.5** (Continued)	Ready Lesson 7	
3	**5.NBT.3** Read, write, and compare decimals to thousandths. a. Read and write decimals to thousandths using base-ten numerals, number names, and expanded form, e.g., 347.392 = 3 × 100 + 4 × 10 + 7 × 1 + 3 × (1/10) + 9 × (1/100) + 2 × (1/1000). **5.NBT.5** (Continued)	Ready Lesson 8	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
4	**5.NBT.3** Read, write, and compare decimals to thousandths. b. Compare two decimals to thousandths based on the meanings of the digits in each place, using >, =, and < symbols to record the results of comparisons. **5.NBT.4** Use place value understanding to round decimals to any place. **5.NBT.5** (Continued)	Ready Lesson 9	Ready iReady Reflex Nearpod
5	**Introduce** **5.NBT.6** Find whole-number quotients of whole numbers with up to four-digit dividends and two-digit divisors using strategies based on place value, the properties of operations, and/or the relationship between multiplication and division. Illustrate and explain the calculation by using equations, rectangular arrays, and/or area models.	Ready Lesson	
6	**5.NBT.7** Add, subtract, multiply, and divide decimals to hundredths, using concrete models (to include, but not limited to: base ten blocks, decimal tiles, etc.) or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used. **5.NBT.4** ,**5.NBT.5** (Continued)	Ready Lesson 10, 11 ● Add Decimals ● Subtract Decimals	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
7	**5.NBT.7** (Continued) **5.NBT.4** ,**5.NBT.5** (Continued)	Ready Lesson 15 ● Multiplying Decimals	
8	**5.NBT.7** (Continued) **5.NBT.4** ,**5.NBT.5** (Continued)	Ready Lesson	
9	**Review and Assess**		

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	Mastery Connect Predictive Assessment (Benchmark 1)		
10 Term 2	**5.MD.3** Recognize volume as an attribute of solid figures and understand concepts of volume measurement. a. A cube with side length 1 unit, called a "unit cube," is said to have "one cubic unit" of volume and can be used to measure volume**.** b. A solid figure which can be packed without gaps or overlaps using *n* unit cubes is said to have a volume of n cubic units.	Ready Lesson 1	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
11	**5.MD.4** Measure volumes by counting unit cubes, using cubic cm, cubic in, cubic ft, and improvised units. **5.MD.5** Relate volume to the operations of multiplication and addition and solve real world and mathematical problems involving volume. a. Find the volume of a right rectangular prism with whole-number side lengths by packing it with unit cubes, and show that the volume is the same as would be found by multiplying the edge lengths, equivalently by multiplying the height by the area of the base. Represent threefold whole-number products as volumes, e.g., to represent the associative property of multiplication. b. Apply the formulas V = l × w × h and V = b × h for rectangular prisms to find volumes of right rectangular prisms with whole-number edge lengths in the context of solving real world and mathematical problems. c. Recognize volume as additive. Find volumes of solid figures composed of two nonoverlapping right rectangular prisms by adding the volumes of the non-overlapping parts, applying this technique to solve real world problems.	Ready Lesson 2,3	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
12	**5.NBT.6** Find whole-number quotients of whole numbers with up to four-digit dividends and two-digit divisors using strategies based on place value, the properties of operations, and/or the relationship between multiplication and division. Illustrate and explain the calculation by using equations, rectangular arrays, and/or area models.	Ready Lesson 5	
13	**5.NBT.7** Add, subtract, multiply, and divide decimals to hundredths, using concrete models (to include, but not limited to: base ten blocks, decimal tiles, etc.) or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method and explain the reasoning used.	Ready Lesson 17 ● Division of Decimals	
14	**5.NF.1** Add and subtract fractions with unlike denominators (including mixed numbers) by replacing given fractions with equivalent fractions in such a way as to produce an equivalent sum or difference of fractions with like denominators. For example, 2/3 + 5/4 = 8/12 + 15/12 = 23/12. (In general, a/b + c/d = (ad + bc)/bd.)	Ready Lesson 12	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
15	**5.NF.2** Solve word problems involving addition and subtraction of fractions referring to the same whole, including cases of unlike denominators, e.g., by using visual fraction models or equations to represent the problem. Use benchmark fractions and number sense of fractions to estimate mentally and assess the reasonableness of answers. For example, recognize an incorrect result 2/5 + 1/2 = 3/7, by observing that 3/7 < 1/2. **5.NF.1** (Continued)	Ready Lesson 13, 14	
16	**5.NF.3** Interpret a fraction as a division of the numerator by the denominator (a/b = a ÷ b). Solve word problems involving the division of whole numbers leading to answers in the form of fractions or mixed numbers, e.g., by using visual fraction models or equations to represent the problem. For example, interpret 3/4 as the result of dividing 3 by 4, noting that 3/4 multiplied by 4 equals 3, and that when 3 wholes are shared equally among 4 people each person has a share of size 3/4. If 9 people want to share a 50-pound sack of rice equally by weight, how many pounds of rice should each person get? Between what two whole numbers does your answer lie? **5.NF.1, 5.NF.2** (Continued)	Ready Lesson 18	
17	**5.NF.3 ,5.NF.1, 5.NF.2** (Continued) **Review**		
18	**Mastery Connect Predictive Assessment (Benchmark #2) - Comprehensive)**		

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
19	**5.NF.4** Apply and extend previous understandings of multiplication to multiply a fraction or whole number by a fraction. a. Interpret the product (a/b) × q as a part of a partition of q into b equal parts; equivalently, as the result of a sequence of operations a × q ÷ b. For example, use a visual fraction model to show (2/3) × 4 = 8/3, and create a story context for this equation. Do the same with (2/3) × (4/5) = 8/15. (In general, (a/b) × (c/d) = (ac)/(bd.) b. Find the area of a rectangle with fractional side lengths by tiling it with unit squares of the appropriate unit fraction side lengths and show that the area is the same as would be found by multiplying the side lengths. Multiply fractional side lengths to find areas of rectangles, and represent fraction products as rectangular areas.	Ready Lesson 19, 20	
20	**5.NF.5** Interpret multiplication as scaling (resizing), by: a. Comparing the size of a product to the size of one factor on the basis of the size of the other factor without performing the indicated multiplication. b. Explaining why multiplying a given number by a fraction greater than 1 results in a product greater than the given number (recognizing multiplication by whole numbers greater than 1 as a familiar case); explaining why multiplying a given number by a fraction less than 1 results in a product smaller than the given number; and relating the principle of fraction equivalence a/b = (n × a)/(n × b) to the effect of multiplying a/b by 1.	Ready Lesson 21	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
21	**5.NF.6** Solve real world problems involving multiplication of fractions and mixed numbers, e.g., by using visual fraction models or equations to represent the problem. **5.NF.7** Apply and extend previous understandings of division to divide unit fractions by whole numbers and whole numbers by unit fractions. a. Interpret the division of a unit fraction by a nonzero whole number, and compute such quotients. For example, create a story context for (1/3) ÷ 4, and use a visual fraction model to show the quotient. Use the relationship between multiplication and division to explain that (1/3) ÷ 4 = 1/12 (1/12) × 4 = 1/3. b. Interpret division of a whole number by a unit fraction, and compute such quotients. For example, create a story context for 4 ÷ (1/5), and use a visual fraction model to show the quotient. Use the relationship between multiplication and division to explain that 4 ÷ (1/5) = 20 because 20 × (1/5) = 4.	Ready Lesson 22, 23	
22	**5.NF.7** Apply and extend previous understandings of division to divide unit fractions by whole numbers and whole numbers by unit fractions.	Ready Lesson 24	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	c. Solve real-world problems involving division of unit fractions by non-zero whole numbers and division of whole numbers by unit fractions, e.g., by using visual fraction models and equations to represent the problem. For example, how much chocolate will each person get if 3 people share 1/2 lb of chocolate equally? How many ⅓ cup servings are in 2 cups of raisins?		
23	**5.MD.2** Make a line plot to display a data set of measurements in fractions of a unit (1/2, 1/4, 1/8). Use operations on fractions for this grade to solve problems involving information presented in line plots. For example, given different measurements of liquid in identical beakers, find the amount of liquid each beaker would contain if the total amount in all the beakers were redistributed equally.	Ready Lesson 27	
24	**5.MD.1**.Convert among different-sized standard measurement units within a given measurement system (customary and metric) (e.g., convert 5 cm to 0.05 m), and use these conversions in solving multi-step, real world problems.	Ready Lesson 26	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
25	**5.G.3** Understand that attributes belonging to a category of two-dimensional figures also belong to all subcategories of that category. For example, all rectangles have four right angles, and squares are rectangles, so all squares have four right angles. **5.G.4** Classify two-dimensional figures in a hierarchy based on properties	Ready Lesson 28 Ready Lesson 29	
26	**5.OA.3** Generate two numerical patterns using two given rules. Identify apparent relationships between corresponding terms. Form ordered pairs consisting of corresponding terms from the two patterns, and graph the ordered pairs on a coordinate plane. For example, given the rule "Add 3" and the starting number 0, and given the rule "Add 6" and the starting number 0, generate terms in the resulting sequences, and observe that the terms in one sequence are twice the corresponding terms in the other sequence.Explain informally why this is so. **5.OA.1** Use parentheses, brackets, or braces in numerical expressions, and evaluate expressions with these symbols. **5.OA.2** Write simple expressions that record calculations with numbers, and interpret numerical expressions without evaluating them. For example, express the calculation "add 8 and 7, then multiply by 2" as 2 × (8 + 7). Recognize that 3 × (18,932 + 921) is three times as large as 18,932 + 921, without having to calculate the indicated sum or product.	Ready Lesson 33 Ready Lesson 30	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
27	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #3 - Comprehensive)**		
28	**5.OA.1, 5.OA.2, 5.OA.3** (Continued)		
29	**5.G.1** Use a pair of perpendicular number lines, called axes, to define a coordinate system, with the intersection of the lines (the origin) arranged to coincide with the 0 on each line and a given point in the plane located by using an ordered pair of numbers, called its coordinates. Understand that the first number indicates how far to travel from the origin in the direction of one axis, and the second number indicates how far to travel in the direction of the second axis, with the convention that the names of the two axes and the coordinates correspond (e.g., x-axis and x-coordinate, y-axis and y-coordinate). **5.G.2** Represent real-world and mathematical problems by graphing points in the first quadrant of the coordinate plane and interpret coordinate values of points in the context of the situation. **5.G.3, 5.G.4** (Continued)	Ready Lesson 31 Ready Lesson 32	

JCSD 5th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
30-36	**Use benchmark data to determine standards to reteach/review before MAAP testing.**		

JCSD 3rd Grade Science Pacing Guide 23-24 School Year

Physical Science and Earth and Space Science **Conceptual Understanding:** Matter is made up of particles that are too small to be seen. Even though the particles are very small, the movement and spacing of these particles determine the basic properties of matter. Matter exists in several different states and is classified based on observable and measurable properties. Matter can be changed from one state to another when heat (i.e., thermal energy) is added or removed. **P.3.5** Students will demonstrate an understanding of the physical properties of matter to explain why matter can change states between a solid, liquid, or gas dependent upon the addition or removal of heat.			
10		Kesler	Boiling Point

JCSD 3rd Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	P.3.5.1 Plan and conduct scientific investigations to determine how changes in heat (i.e., an increase or decrease) change matter from one state to another (e.g., melting, freezing, condensing, boiling, or evaporating).	Stemscopes	Change of State Condensation Freeze Gas Heat Liquid Matter Melt Particle Property Solid States of Matter
11	**P.3.5.2** Develop and use models to communicate the concept that matter is made of particles too small to be seen that move freely around in space (e.g., inflation and shape of a balloon, wind blowing leaves, or dust suspended in the air).	Kesler Stemscopes	
12	**P.3.5.3** Plan and conduct investigations that particles speed up or slow down with addition or removal of heat.	Kesler Stemscopes	

Physical Science and Earth and Space Science

Conceptual Understanding: Magnets are a specific type of solid that can attract and repel certain other kinds of materials, including other magnets. There are some materials that are neither attracted to nor repelled by magnets. Because of their special properties, magnets are used in various ways. Magnets can exert

JCSD 3rd Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
forces—a push or a pull—on other magnets or magnetic materials, causing energy transfer between them, even when the objects are not touching. **P.3.6** Students will demonstrate an understanding of magnets and the effects of pushes, pulls, and friction on the motion of objects.			
13	**P.3.6.1** Compare and contrast the effects of different strengths and directions of forces on the motion of an object (e.g., gravity, polarity, attraction, repulsion, or strength).	Kesler Stemscopes	Attraction Compare Contrast Direction Force Friction Gravity Magnet Pull Push Repulsion Research Strength
14	**P.3.6.2** Plan an experiment to investigate the relationship between a force applied to an object (e.g., friction, gravity) and resulting motion of the object.	Kesler Stemscopes	
15	**P.3.6.3** Research and communicate information to explain how magnets are used in everyday life.	Kesler Stemscopes	
16	**P.3.6.4** Define and solve a simple design problem by applying scientific ideas about magnets (e.g., can opener, door latches, paper clip holders, finding studs inwalls, magnetized paint). Use an engineering design process to define the problem, design, construct, evaluate, and improve the magnet.	Kesler Stemscopes

11-12	**P.4.6C.3** Obtain and communicate information about scientists who pioneered in the science of sound, (e.g., Alexander Graham Bell, Robert Boyle, Daniel Bernoulli, and Guglielmo Marconi). **P.4.6C.1, P.4.6C.2** (Continued)		Interpret Measurement Observe Pitch Sound Energy Vibrations
Earth and Space Science : Earth's Systems and Cycles **Conceptual Understanding:** Earth's atmosphere is a mixture of gases, including water vapor and oxygen. Water, which is found almost everywhere on Earth, including the atmosphere, changes form and cycles between Earth's surface to the air and back again. This cycling of water is driven by energy from the sun. The movement of water in the water cycle is a major process that influences weather conditions. Clouds form during this cycle and various types of precipitation result. **E.4.9A Students will demonstrate an understanding of how the water cycle is propelled by the sun's energy.**			
13-14	**E.4.9A.1** Develop and use models to explain how the sun's energy drives the water cycle. (e.g., evaporation, condensation, precipitation, transpiration, runoff, and groundwater).	Stemscopes Kesler Science Flocabulary	Condensation Energy Evaporation Precipitation Runoff Sun Water Cycle
Conceptual Understanding: Scientists record patterns in weather conditions over time and across the globe to make predictions about what kind of weather might occur next. Climate describes the range of an area's typical weather conditions and the extent to which those conditions vary over long periods of time. **E.4.9B Students will demonstrate an understanding of weather and climate patterns.**			

2137

JCSD 4th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
15-16	**E.4.9B.1** Analyze and interpret data (e.g., temperature, precipitation, wind speed/direction, relative humidity, or cloud types) to predict changes in weather over time. **E.4.9B.2** Construct explanations about regional climate differences by analyzing maps and long-term data from various regions. **E.4.9B.3** Design weather instruments utilized to measure weather conditions (e.g., barometer, hygrometer, rain gauge, anemometer,or wind vane).conditions (e.g., barometer, hygrometer, rain gauge, anemometer,or wind vane). *Use an engineering design process to define the problem, design, construct, evaluate, and improve the weather instrument.*	Stemscopes Kesler Science Flocabulary	Anemometer Barometer Climate Map Measure Precipitation Rain Gauge Regional Temperature Weather instruments Weather Patterns Wind Vane
Conceptual Understanding: Energy and fuels are derived from natural sources and human use of these materials affects the environment in multiple ways. Due to limited natural resources, humans are exploring the use of abundant solar, water, wind, and geothermal energy resources to develop innovative, high-tech renewable energy systems. **E.4.10 Students will demonstrate an understanding of the various sources of energy used for human needs along with their effectiveness and possible impacts.**			
17	**E.4.10.1** Organize simple data sets to compare energy and pollution output of various traditional, non-renewable resources (e.g. coal, crude oil, wood). **E.4.10.2** Use technology or informational text to investigate, evaluate, and communicate various forms of clean energy generation.		Coal Energy Nonrenewable Resources Impact Needs
18	**E.4.10.1, E.4.10.2** (Continued) **Assessment**		

2138

JCSD 4th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Conceptual Understanding: Earth's oceans and landforms can be affected in various ways by natural processes in one or more of Earth's spheres (i.e., atmosphere, biosphere, geosphere, and hydrosphere). Humans cannot eliminate natural hazards caused by these processes but can take steps to reduce their impacts. Human activities can affect the land and oceans in positive and negative ways. **E.4.9C Students will demonstrate an understanding of how natural processes and human activities affect the features of Earth's landforms and oceans.**			
19-20 **Term 3**	**E.4.9C.1** Analyze and interpret data to describe and predict how natural processes (e.g., weathering, erosion, deposition, earthquakes, tsunamis, hurricanes, or storms) affect Earth's surface. **E.4.9C.2** Develop and use models of natural processes to explain the effect of the movement of water on the ocean shore zone, including beaches, barrier islands, estuaries, and inlets (e.g., marshes, bays, lagoons, fjord, or sound).	Stemscopes Kesler Science Flocabulary	Deposition Earthquake Erosion Hurricane Landform Marsh/Swamp Tsunami Weathering
21-22	**E.4.9C.3** Construct scientific arguments from evidence to support claims that human activities, such as conservation efforts or pollution affect the land, oceans, and atmosphere of Earth. **E.4.9C.4** Research and explain how systems (i.e., the atmosphere, geosphere, and/or hydrosphere), interact and support life in the biosphere. **E.4.9C.5** Obtain and communicate information about severe weather phenomena (e.g., thunderstorms, hurricanes, or tornadoes) to explain steps humans can take to reduce the impact of severe weather events.		Atmosphere Biosphere Conservation Geosphere Hurricane Hydrosphere Pollution Severe Weather Tornado Weather

2139

JCSD 4th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Life Science: Hierarchical Organization **Conceptual Understanding:** All organisms need energy for growth and development. Animals have specialized structures and systems for obtaining and processing energy. These structures and systems cannot function properly without adequate nourishment. Living organisms can be adversely affected by environmental conditions or disease. **L.4.1 Students will demonstrate an understanding of the organization, functions, and interconnections of the major human body systems.**			
23-24	**L.4.1.1** Use technology or other resources to research and discover general system function (e.g., machines, water cycle) as they relate to human organ systems and identify organs that work together to create organ systems. **L 4.1.2** Obtain and communicate data to describe patterns that indicate the nature of relationships between human organ systems, which interact with one another to control digestion, respiration, circulation, excretion, movement, coordination, and protection from infection.	Stemscopes Kesler Science Flocabulary	Circulatory System Diet Digestive System Function Interactions Mechanical Energy Movement Muscular System Nervous System Organs Respiration Respiratory System
25-26	**L.4.1.3** Construct models of organ systems (e.g. circulatory, digestive, respiratory, muscular, skeletal, nervous) to demonstrate both the unique function of the system and how multiple organs and organ systems work together to accomplish more complex functions.		
27	**L.4.1.4** Research and communicate how noninfectious diseases (e.g. diabetes, heart disease) and infectious diseases (e.g. cold, flu) serve to disrupt the function of the body system. **L.4.1.5** Using informational text, investigate how scientific fields, medical specialties, and research methods help us find new ways to maintain a healthy body and lifestyle (e.g. diet, exercise, vaccines, and mental health).		Diet Exercise Function Interactions Movement Nervous System Organs Respiration

2140

JCSD 4th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Conceptual Understanding: Scientists have identified and classified many types of plants and animals. Each plant or animal has a unique pattern of growth and development called a life cycle. All of Earth's cycles are driven by energy which can be traced back to the sun. **L.4.2 Students will demonstrate an understanding of life cycles, including familiar plants and animals (e.g., reptiles, amphibians, or birds).**			
28-29 **Term 4**	**L.4.2.1** Compare and contrast life cycles of familiar plants and animals. **L.4.2.2** Develop and use models to explain the unique and diverse life cycles of organisms other than humans (e.g., flowering plants, frogs, or butterflies) including commonalities (e.g., birth, growth, reproduction, or death).	Stemscopes Kesler Science Flocabulary	Amphibian Diversity Flowering Plants Growth Life Cycles Plant Reproduction Reptile
30-36	**Core Idea: Science Foundation Standards** Identify and select appropriate science and engineering tools to collect, analyze, and communicate science and engineering data and information. **Comprehensive Review**	EMBEDDED SCIENCE and ENGINEERING PRACTICES ● Ask Questions and Define Problems ● Analyze and Interpret Data ● Plan and Conduct Investigations ● Engage in Scientific Argument from Evidence ● Obtain, Evaluate, and Communicate Information	

2141

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Physical Science **Conceptual Understanding:** Matter can be segregated into tiny particles that are too small to see, but can be detected by other methods. These tiny particles are referred to as atoms, which can be combined to form molecules. Substances exhibit specific properties that can be observed and measured. **P.5.5A Students will demonstrate an understanding of the physical properties of matter.**			
0 Term 1	**FOUNDATION STANDARDS** Identify and select appropriate science and engineering tools to collect, analyze, and communicate science and engineering data and information. Demonstrate effective questioning and observation skills	EMBEDDED SCIENCE and ENGINEERING PRACTICES ● Ask Questions and Define Problems ● Analyze and Interpret Data ● Plan and Conduct Investigations ● Engage in Scientific Argument from Evidence ● Obtain, Evaluate, and Communicate Information	
1-2	**P.5.5A.1** Obtain and evaluate scientific information to describe basic physical properties of atoms and molecules. **P.5.5A.2** Collect, analyze, and interpret data from measurements of the physical properties of solids, liquids, and gases (e.g., volume, shape, movement, and spacing of particles).	Stemscopes Kessler Science Flocabulary Nearpod	Hardness Physical Change Physical Properties Reflection Relative Density Solubility Magnetic Force Density Electrical Conductivity Thermal Conductivity
3			

2142

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	P.5.5A.3 Analyze matter through observations and measurements to classify materials (e.g., powders, metals, minerals, or liquids) based on their properties. **P.5.5A.4** Make and test predictions about how the density of an object affects whether the object sinks or floats when placed in a liquid.		Volume Powder
4	**P.5.5A.5** Design a vessel that can safely transport a dense substance (e.g., syrup, coins, marbles) through water at various distances and under variable conditions. Use an engineering design process to define the problem, design, construct, evaluate, and improve the vessel. **P.5.5A.4** (Continued)		
Conceptual Understanding: Substances of the same type can be classified by their similar, observable properties. Substances can be combined in a variety of ways. A mixture is formed when two or more kinds of matter are physically combined. Solutions are a special type of mixture in which one substance is distributed evenly into another substance. When the physical properties of the components in a mixture are not changed, they can be separated in different physical ways. **P.5.5B Students will demonstrate an understanding of mixtures and solutions.**			
5	**P.5.5B.1** Obtain and evaluate scientific information to describe what happens to the properties of substances in mixtures and solutions. **P.5.5B.2** Analyze and interpret data to communicate that the concentration of a solution is determined by the relative amount of solute versus solvent in various mixtures.		Dissolve Evaporation Filter Magnetic Mixture Properties Solution Substance Substances Precipitate Solute Solvent
6	**P.5.5B.3** Investigate how different variables (e.g., temperature change, stirring, particle size, or surface area) affect the rate at which a solute will dissolve.		

2143

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	P.5.5B.2 (Continued)		
7	**P.5.5B.4** Design an effective system (e.g., sifting, filtration, evaporation, magnetic attraction, or floatation) for separating various mixtures. Use an engineering design process to define the problem, design, construct, evaluate, and improve the system. **P.5.5B.3** (Continued)		
Conceptual Understanding: Physical properties can be observed and measured without changing the composition of matter. A physical change occurs when the matter's physical appearance is altered while leaving the composition of the matter unchanged. When two or more substances are mixed together, a new substance with different properties can sometimes be formed, but the total amount (i.e., mass) of the substances is conserved (i.e., total mass stays the same). In a chemical change, the composition of the original matter is altered to create a new substance. A different compound is present at the completion of the chemical change. **P.5.5C Students will demonstrate an understanding of the difference between physical and chemical changes.**			
8	**P.5.5C.1** Analyze and communicate the results of chemical changes that result in the formation of new materials (e.g., decaying, burning, rusting, or cooking). **P.5.5C.2** Analyze and communicate the results of physical changes to a substance that results in a reversible change (e.g., changes in states of matter with the addition or removal of energy, changes in size or shape or combining/separating mixtures or solutions). **P.5.5C.3** Analyze and interpret data to support claims that when two substances are mixed, the total weight of matter is conserved.		Physical Change Physical Property Chemical Change Chemical Property Precipitate

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
9	**Review** **Mastery Connect Predictive Assessment (Benchmark 1)**		
P.5.6 Motions, Forces, and Energy **Conceptual Understanding:** Gravity is a force that draws objects to Earth. This force acting on an object near Earth's surface pulls that object toward the planet's center. The motion of an object can be described in terms of its position, direction, and speed. Multiple factors determine the rate and motion of an object. Other than Earth, any celestial objects will exert varying gravitational pulls on other objects according to their mass and density. **P.5.6 Students will demonstrate an understanding of the factors that affect the motion of an object through a study of Newton's Laws of Motion.**			2145
10 Term 2	**P.5.6.1** Obtain and communicate information describing gravity's effect on an object. **P.5.6.2** Predict the future motion of various objects based on past observation and measurement of position, direction, and speed.	Stemscopes Kessler Science Flocabulary Nearpod	Balanced Forces Direction Force Friction Motion Movement
11			

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	P.5.6.3 Develop and use models to explain how the amount or type of force, both contact and non-contact, affects the motion of an object. **P.5.6.4** Plan and conduct scientific investigations to test the effects of balanced and unbalanced forces on the speed and/or direction of objects in motion.		Position Pull Push Speed Unbalanced Force
12	**P.5.6.5** Predict how a change of force, mass, and/or friction affects the motion of an object to convert potential energy into kinetic energy. **P.5.6.6** Design a system to increase the effects of friction on the motion of an object (e.g., non-slip surfaces or vehicle braking systems or flaps on aircraft wings). Use an engineering design process to define the problem, design, construct, evaluate, and improve the system.		
13	**P.5.5, P.5.6** (Continued)		

E.5.8 Earth and the Universe

Conceptual Understanding: Astronomy is the study of celestial objects in our solar system and beyond. A solar system includes one or more suns (stars) and all other objects orbiting in that system. Planets in our night sky change positions and are not always visible from Earth as they orbit our sun. Stars that can be seen in the night sky lie beyond our solar system and appear in patterns called constellations. Constellations can be used for navigation and appear to move together across the sky because of Earth's rotation and revolution around the sun.

E.5.8A Students will demonstrate an understanding of the locations of objects in the universe.

2146

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
14	**E.5.8A.1** Develop and use scaled models of Earth's solar system to demonstrate the size, composition (i.e., rock or gas), location, and order of the planets as they orbit the Sun. **E.5.8A.2** Use evidence to argue why the sun appears brighter than other stars.		Apparent Brightness Asteroid Asteroid Belt Astronomy Constellation Orbit Planet Revolution Solar System Star Sun
15	**E.5.8A.3** Describe how constellations appear to move from Earth's perspective throughout the seasons (e.g., Ursa Major, Ursa Minor, and Orion). **E.5.8A.4** Construct scientific arguments to support claims about the importance of astronomy in navigation and exploration, including the use of telescopes, compasses, and star charts.		

2147

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Conceptual Understanding: Earth orbits around the sun as the moon orbits around Earth. The revolution and rotation of Earth on a tilted axis provide evidence of patterns that can be observed, studied, and predicted **E.5.8B Students will demonstrate an understanding of the principles that govern moon phases, day and night, appearance of objects in the sky, and seasonal changes.**			
16	**E.5.8B.1** Analyze and interpret data from observations and research (e.g., from NASA, NOAA, or the USGS) to explain patterns in the location, movement, and appearance of the moon throughout a month and over the course of a year. **E.5.8B.2** Develop and use a model of the Earth-Sun-Moon system to analyze the cyclic patterns of lunar phases, solar and lunar eclipses, and seasons.	Stemscopes Kessler Science Flocabulary Nearpod	Axis Constellation Earth Eclipse Lunar Cycle Model Moon Rotate Season Solstice Sun Tilt
17	**E.5.8B.3** Develop and use models to explain the factors (e.g., tilt, revolution, and angle of sunlight) that result in Earth's seasonal changes. **E.5.8B.4** Obtain information and analyze how our understanding of the solar system has evolved over time (e.g., Earth-centered model of Aristotle and Ptolemy compared to the Sun-centered model of Copernicus and Galileo).

2149

JCSD 5th Grade Science Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
L.5.3 Ecology and Interdependence **Conceptual Understanding:** All organisms need energy to live and grow. Energy is obtained from the sun. Cells transform the energy that organisms need to perform essential life functions through a complex sequence of reactions in which chemical energy is transferred from one system of interacting molecules to another. **L.5.3A Students will demonstrate an understanding of photosynthesis and the transfer of energy from the sun into chemical energy necessary for plant growth and survival.**			
21	**L.5.3A.1** Research and communicate the basic process of photosynthesis that is used by plants to convert light energy into chemical energy that can be stored and released to fuel an organism's activities.		Carbon Dioxide Leaf Nutrient Transport Oxygen Photosynthesis Radiant Energy Root Stem
22	**L.5.3A.2** Analyze environments that do not receive direct sunlight and devise explanations as to how photosynthesis occurs, either naturally or artificially		Carbon Dioxide Leaf Nutrient Transport Oxygen Photosynthesis Radiant Energy Root Stem
Conceptual Understanding: A major role an organism serves in an ecosystem can be described by the way in which it obtains its energy. Energy is transferred within an ecosystem by producers, consumers, or decomposers. A healthy ecosystem is one in which a diverse population of life forms can meet their needs in a relatively stable web of life. **L.5.3B Students will demonstrate an understanding of a healthy ecosystem with a stable web of life and the roles of living things within a food chain and/or food web, including producers, primary and secondary consumers, and decomposers.**

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

Term 1:

Reading Literature

RL 6.1 Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RL 6.2 Determine a theme or central idea of a text and how it is conveyed through particular details; provide a summary of the text based upon this determination.
RL 6.3 Describe how the plot of a literary text unfolds in a series of episodes as well as how the characters respond or change as the plot moves toward a resolution.
RL 6.4 Determine the meaning of words and phrases as they are used in a text, including figurative and connotative meanings; analyze the impact of a specific word choice on meaning and tone.

Reading Information

RI 6.1 Cite textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RI 6.2 Determine a central idea of a text and how it is conveyed through particular details; provide a summary of the text distinct from personal opinions or judgments.
RI 6.3 Analyze in detail how a key individual, event, or idea is introduced, illustrated, and elaborated in a text (e.g., through examples or anecdotes).
RI 6.4 Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings.

Writing

W 6.2 Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

a. Introduce a topic; organize ideas, concepts, and information, using strategies such as definition, classification, comparison/contrast, and cause/effect; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aid comprehension.

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

b. Develop the topic with relevant facts, definitions, concrete details, quotations, or other information and examples.
c. Use appropriate transitions to clarify the relationships among ideas and concepts.
d. Use precise language and domain-specific vocabulary to inform about or explain the topic.
e. Establish and maintain a formal style.
f. Provide a concluding statement or section that follows from the information or explanation presented.

W 6.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards W1–3.)

W 6.5 With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grade 6.)

W 6.6 Use technology, including the Internet, to produce and publish writing as well as to interact and collaborate with others; demonstrate sufficient command of keyboarding skills.

W.6.8 Gather relevant information from multiple print and digital sources; assess the credibility of each source; and quote or paraphrase the data and conclusions of others while avoiding plagiarism and providing basic bibliographic information for sources.

W 6.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grade 6 Reading standards to literary texts (e.g., "Compare and contrast texts in different forms or genres [e.g., stories and poems; historical novels and fantasy stories] in terms of their approaches to similar themes and topics").
b. Apply grade 6 Reading standards to literary nonfiction and/or informational texts (e.g., "Trace and evaluate the argument and specific claims in a text, distinguishing claims that are supported by reasons and evidence from claims that are not").

W.6.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Speaking and Listening

SL 6.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 6 topics, texts, and issues, building on others' ideas and expressing their own clearly.

a. Come to discussions prepared, having read or studied required material; explicitly draw on that preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion.
b. Follow rules for collegial discussions, set specific goals and deadlines, and define individual roles as needed.
c. Pose and respond to specific questions with elaboration and detail by making comments that contribute to the topic, text, or issue under discussion.
d. Review the key ideas expressed and demonstrate understanding of multiple perspectives through reflection and paraphrasing.

SL 6.2 Interpret information presented in diverse media and formats (e.g., visually, quantitatively, orally) and explain how it contributes to a topic, text, or issue under study.

SL 6.4 Present claims and findings, sequencing ideas logically and using pertinent descriptions, facts, and details to accentuate main ideas or themes; use appropriate eye contact, adequate volume, and clear pronunciation.

SL 6.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grade 6 Language standards 1 and 3 for specific expectations.)

Language

L 6.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

a. Ensure that pronouns are in the proper case (subjective, objective, possessive).
b. Use intensive pronouns (e.g., myself, ourselves).
c. Recognize and correct inappropriate shifts in pronoun number and person.
d. Recognize and correct vague pronouns (i.e., ones with unclear or ambiguous antecedents).

L 6.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
a. Use punctuation (commas, parentheses, dashes) to set off nonrestrictive/parenthetical elements.
b. Spell correctly.

L 6.3 Use knowledge of language and its conventions when writing, speaking, reading, or listening.
a. Vary sentence patterns for meaning, reader/listener interest, and style.
b. Maintain consistency in style and tone.

L 6.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 6 reading and content, choosing flexibly from a range of strategies.
a. Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
b. Use common, grade-appropriate Greek or Latin affixes and roots as clues to the meaning of a word (e.g., audience, auditory, audible).
c. Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning or its part of speech.
d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

L 6.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
a. Interpret figures of speech (e.g., personification) in context.
b. Use the relationship between particular words (e.g., cause/effect, part/whole, item/category) to better understand each of the words.
c. Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., stingy, scrimping, economical, unwasteful, thrifty).

Term 2:

Reading Literature

RL 6.5 Analyze how a particular sentence, chapter, scene, or stanza fits into the overall structure of a text and contributes to the development of the theme, setting, or plot.
RL 6.6 Explain how an author develops the point of view of the narrator or speaker in a text.

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

Reading Information

RI 6.5 Analyze how a particular sentence, paragraph, chapter, or section fits into the overall structure of a text and contributes to the development of the ideas.
RI 6.6 Determine an author's point of view or purpose in a text and explain how it is conveyed in the text.
RI 6.8 Trace and evaluate the argument and specific claims in a text, distinguishing claims that are supported by reasons and evidence from claims that are not.

Writing

W 6.1 Write arguments to support claims with clear reasons and relevant evidence.

a. Introduce claim(s) and organize the reasons and evidence clearly.
b. Support claim(s) with clear reasons and relevant evidence, using credible sources and demonstrating an understanding of the topic or text.
c. Use words, phrases, and clauses to clarify the relationships among claim(s) and reasons.
d. Establish and maintain a formal style.
e. Provide a concluding statement or section that follows from the argument presented.

W 6.4, W 6.5, W 6.8, and W 6.10 (continued)

2170

Speaking and Listening

SL 6.3 Delineate a speaker's argument and specific claims, distinguishing claims that are supported by reasons and evidence from claims that are not.
SL 6.1 and SL.6.6 (continued)

Language

L 6.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

e. Recognize variations from standard English in their own and others' writing and speaking, and identify and use strategies to improve expression in conventional language.

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

L 6.6 Acquire and use accurately grade-appropriate general academic and domain specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression.
L 6.3 a-b, L 6.4 a-d, and L 6.5 a-c (continued)

Term 3:

Reading Literature

RL 6.7 Compare and contrast the experience of reading a story, drama, or poem to listening to or viewing an audio, video, or live version of the text, including contrasting what they "see" and "hear" when reading the text to what they perceive when they listen or watch.
RL 6.9 Compare and contrast texts in different forms or genres (e.g., stories and poems; historical novels and fantasy stories) in terms of their approaches to similar themes and topics.

Reading Information

RI 6.7 Integrate information presented in different media or formats (e.g., visually, quantitatively) as well as in words to develop a coherent understanding of a topic or issue.
RI 6.9 Compare and contrast one author's presentation of events with that of another (e.g., a memoir written by and a biography on the same person).

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

Writing

W 6.3 Write narratives to develop real or imagined experiences or events using effective technique, relevant descriptive details, and well-structured event sequences.

a. Engage and orient the reader by establishing a context and introducing a narrator and/or characters; organize an event sequence that unfolds naturally and logically.
b. Use narrative techniques, such as dialogue, pacing, and description, to develop experiences, events, and/or characters.
c. Use a variety of transition words, phrases, and clauses to convey sequence and signal shifts from one time frame or setting to another.
d. Use precise words and phrases, relevant descriptive details, and sensory language to convey experiences and events.
e. Provide a conclusion that follows from the narrated experiences or events.

W. 6.2 a-f, W 6.4, W 6.5, W 6.8, W 6.9 a-b, and W 6.10 (continued)

Speaking and Listening

SL 6.1 a-d (continued)

Language

L 6.3 a-b, L 6.4 a-d, L 6.5 a-c, and L 6.6 (continued)

Term 4:

Reading Literature Spiral Review of all standards and reteach standards of deficit using benchmark data.

RL.6.10 By the end of the year, read and comprehend literature, including stories, dramas, and poems, in the grades 6–8 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Reading Information Spiral Review of all standards and reteach standards of deficit using benchmark data.

RI.6.10 By the end of the year, read and comprehend literary nonfiction in the grades 6–8 text complexity band proficiently, with scaffolding as needed at the high end of the range.

JCSD 6th Grade ELA Scope and Sequence 23-24 School Year

Writing Spiral Review of all standards and reteach standards of deficit using benchmark data.
W 6.7 Conduct short research projects to answer a question, drawing on several sources and refocusing the inquiry when appropriate. W 6.4, W 6.8 and W 6.10 (continued)
Speaking and Listening Spiral Review of all standards and reteach standards of deficit using benchmark data.
SL.6.5 Include multimedia components (e.g., graphics, images, music, sound) and visual displays in presentations to clarify information.
Language Spiral Review of all standards and reteach standards of deficit using benchmark data.

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

Term 1:
Reading Literature
RL 7.1 Cite several pieces of textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. **RL.7.2** Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an accurate summary of the text based upon this analysis. **RL.7.3** Analyze how particular elements of a literary text interact (e.g., how setting shapes the characters or plot). **RL 7.4** Determine the meaning of words and phrases as they are used in a text, including figurative and connotative meanings; analyze the impact of specific word choice (e.g., alliteration) on meaning and tone.
Reading Information
RI 7.1 Cite several pieces of textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text. **RI.7.2** Determine a central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an accurate summary of the text based upon this analysis. **RI.7.3** Analyze the interactions between individuals, events, and ideas in a text (e.g., how ideas influence individuals or events, or how individuals influence ideas or events). **RI 7.4** Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the impact of a specific word choice on meaning and tone.
Writing
W 7.2 Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

a. Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information, using strategies such as definition, classification, comparison/contrast, and cause/effect; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aiding comprehension.
b. Develop the topic with relevant facts, definitions, concrete details, quotations, or other information and examples.
c. Use appropriate transitions to create cohesion and clarify the relationships among ideas and concepts.
d. Use precise language and domain-specific vocabulary to inform about or explain the topic.
e. Establish and maintain a formal style.
f. Provide a concluding statement or section that follows from and supports the information or explanation presented.

W 7.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards W 7.1–3.)

W 7.5 With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on how well the purpose and audience have been addressed. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grade 7.)

W 7.6 Use technology, including the Internet, to produce and publish writing and link to and cite sources as well as to interact and collaborate with others, including linking to and citing sources.

W 7.8 Gather relevant information from multiple print and digital sources, using search terms effectively; assess the credibility and accuracy of each source; and quote or paraphrase the data and conclusions of others while avoiding plagiarism and following a standard format for citation.

W 7.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grade 7 Reading standards to literary texts (e.g., “Compare and contrast a fictional portrayal of a time, place, or character and a historical account of the same period as a means of understanding how authors of fiction use or alter history”).
b. Apply grade 7 Reading standards to literary nonfiction and/or informational texts (e.g. “Trace and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient to support the claims”).

W 7.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Speaking and Listening

SL 7.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 7 topics, texts, and issues, building on others’ ideas and expressing their own clearly.

a. Come to discussions prepared, having read or researched material under study; explicitly draw on that preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion.
b. Follow rules for collegial discussions, track progress toward specific goals and deadlines, and define individual roles as needed.
c. Pose questions that elicit elaboration and respond to others’ questions and comments with relevant observations and ideas that bring the discussion back on topic as needed.
d. Acknowledge new information expressed by others and, when warranted, modify their own views.

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

SL 7.2 Analyze the main ideas and supporting details presented in diverse media and formats (e.g., visually, quantitatively, orally) and explain how the ideas clarify a topic, text, or issue under study.
SL 7.4 Present claims and findings, emphasizing salient points in a focused, coherent manner with pertinent descriptions, facts, details, and examples; use appropriate eye contact, adequate volume, and clear pronunciation.
SL 7.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grade 7 Language standards 1 and 3 for specific expectations.)

Language

L 7.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.
- a. Explain the function of phrases and clauses in general and their function in specific sentences.
- b. Choose among simple, compound, complex, and compound-complex sentences to signal differing relationships among ideas.
- c. Place phrases and clauses within a sentence, recognizing and correcting misplaced and dangling modifiers.

L 7.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
- a. Use a comma to separate coordinate adjectives (e.g., It was a fascinating, enjoyable movie but not He wore an old[,] green shirt).
- b. Spell correctly.

L 7.3 Use knowledge of language and its conventions when writing, speaking, reading, or listening.
- a. Choose language that expresses ideas precisely and concisely, recognizing and eliminating wordiness and redundancy.

L 7.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grade 7 reading and content, choosing flexibly from a range of strategies.
- a. Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
- b. Use common, grade-appropriate Greek or Latin affixes and roots as clues to the meaning of a word (e.g., belligerent, bellicose, rebel).
- c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning or its part of speech.
- d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

L 7.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
- a. Interpret figures of speech (e.g., literary, biblical, and mythological allusions) in context.
- b. Use the relationship between particular words (e.g., synonym/antonym, analogy) to better understand each of the words.
- c. Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., refined, respectful, polite, diplomatic, condescending).

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

Term 2:

Reading Literature

RL 7.5 Analyze how a drama's or poem's form or structure (e.g., soliloquy, sonnet) contributes to its meaning.
RL 7.6 Analyze how an author develops and contrasts the points of view of different characters or narrators in a text.

Reading Information

RI 7.5 Analyze the structure an author uses to organize a text, including how the major sections contribute to the whole and to the development of the ideas.
RI 7.6 Determine an author's point of view or purpose in a text and analyze how the author distinguishes his or her position from that of others.
RI 7.8 Trace and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient to support the claims.

Writing

W 7.1 Write arguments to support claims with clear reasons and relevant evidence.
a. Introduce claim(s), acknowledge alternate or opposing claims, and organize the reasons and evidence logically.
b. Support claim(s) with logical reasoning and relevant evidence, using accurate, credible sources and demonstrating an understanding of the topic or text.

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

c. Use words, phrases, and clauses to create cohesion and clarify the relationships among claim(s), reasons, and evidence.
d. Establish and maintain a formal style.
e. Provide a concluding statement or section that follows from and supports the argument presented.

W 7.4, W 7.5, W 7.8, and W 7.10 (continued)

Speaking and Listening

SL 7.3 Delineate a speaker's argument and specific claims, evaluating the soundness of the reasoning and the relevance and sufficiency of the evidence.
SL 7.1 a-d, SL 7.4, and SL 7.6 (continued)

Language

L 7.6 Acquire and use accurately grade-appropriate general academic and domain specific words and phrases; gather vocabulary knowledge when considering a word or phrase important to comprehension or expression.
L 7.1 a-c, L 7.3, L 7.4 a-d, L 7.5 a-c (continued)

Term 3:

Reading Literature

RL 7.7 Compare and contrast a written story, drama, or poem to its audio, filmed, staged, or multimedia version, analyzing the effects of techniques unique to each medium (e.g., lighting, sound, color, or camera focus and angles in a film).
RL 7.9 Compare and contrast a fictional portrayal of a time, place, or character and a historical account of the same period as a means of understanding how authors of fiction use or alter history.

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

Reading Information

RI 7.7 Compare and contrast a text to an audio, video, or multimedia version of the text, analyzing each medium's portrayal of the subject (e.g., how the delivery of a speech affects the impact of the words).
RI 7.9 Analyze how two or more authors writing about the same topic shape their presentations of key information by emphasizing different evidence or advancing different interpretations of facts.

Writing

W 7.3 Write narratives to develop real or imagined experiences or events using effective technique, relevant descriptive details, and well-structured event sequences.

a. Engage and orient the reader by establishing a context and point of view and introducing a narrator and/or characters; organize an event sequence that unfolds naturally and logically.
b. Use narrative techniques, such as dialogue, pacing, and description, to develop experiences, events, and/or characters.
c. Use a variety of transition words, phrases, and clauses to convey sequence and signal shifts from one time frame or setting to another.
d. Use precise words and phrases, relevant descriptive details, and sensory language to capture the action and convey experiences and events.
e. Provide a conclusion that follows from and reflects on the narrated experiences or events.

W 7.2 a-f, W 7.4, W 7.5, W 7.8, W 7.9 a-b, and W 7.10 (continued)

Speaking and Listening

SL 7.1 a-d (continued)

Language

JCSD 7th Grade ELA Scope and Sequence 23-24 School Year

L 7.3, L 7.4 a-d, L 7.5 a-c, and L 7.6 (continued)

Term 4:
Reading Literature Spiral Review of all standards and reteach standards of deficit using benchmark data.
RL.7.10 By the end of the year, read and comprehend literature, including stories, dramas, and poems, in the grades 6–8 text complexity band proficiently, with scaffolding as needed at the high end of the range.
Reading Information Spiral Review of all standards and reteach standards of deficit using benchmark data.
RI.7.10 By the end of the year, read and comprehend literary nonfiction in the grades 6–8 text complexity band proficiently, with scaffolding as needed at the high end of the range.
Writing Spiral Review of all standards and reteach standards of deficit using benchmark data.
W 7.7 Conduct short research projects to answer a question, drawing on several sources and generating additional related, focused questions for further research and investigation.
Speaking and Listening Spiral Review of all standards and reteach standards of deficit using benchmark data.
SL 7.5 Include multimedia components and visual displays in presentations to clarify claims and findings and emphasize salient points.
Language Spiral Review of all standards and reteach standards of deficit using benchmark data.

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

Term 1:

Reading Literature

RL.8.1 Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.
RL.8.2 Determine a theme or central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an accurate summary of the text based upon this analysis.
RL.8.3 Analyze how particular lines of dialogue or incidents in a literary text propel the action, reveal aspects of a character, or provoke a decision.
RL.8.4 Determine the meaning of words and phrases as they are used in a text, including figurative and connotative meanings; analyze the impact of specific word choices on meaning and tone, including analogies or allusions to other texts.

Reading Information

2206

RI.8.1 Cite the textual evidence that most strongly supports an analysis of what the text says explicitly as well as inferences drawn from the text.
RI.8.2 Determine a central idea of a text and analyze in detail its development over the course of the text, including how it emerges and is shaped and refined by specific details; provide an accurate summary of the text based upon this analysis.
RI.8.3 Analyze how a text makes connections among and distinctions between individuals, ideas, or events (e.g., through comparisons, analogies, or categories).
RI.8.4 Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the impact of specific word choices on meaning and tone, including analogies or allusions to other texts.

Writing

W 8.2 Write informative/explanatory texts to examine a topic and convey ideas, concepts, and information through the selection, organization, and analysis of relevant content.

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

a. Introduce a topic clearly, previewing what is to follow; organize ideas, concepts, and information into broader categories; include formatting (e.g., headings), graphics (e.g., charts, tables), and multimedia when useful to aid comprehension.
b. Develop the topic with relevant, well-chosen facts, definitions, concrete details, quotations, or other information and examples.
c. Use appropriate and varied transitions to create cohesion and clarify the relationships among ideas and concepts.
d. Use precise language and domain-specific vocabulary to inform about or explain the topic.
e. Establish and maintain a formal style. W.8.2
f. f Provide a concluding statement or section that follows from and supports the information or explanation presented.

W 8.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

W 8.5 With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on how well the purpose and audience have been addressed. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grade 8.)

W 8.6 Use technology, including the Internet, to produce and publish writing and present the relationships between information and ideas efficiently as well as to interact and collaborate with others.

W 8.8 Gather relevant information from multiple print and digital sources, using search terms effectively; assess the credibility and accuracy of each source; and quote or paraphrase the data and conclusions of others while avoiding plagiarism and following a standard format for citation.

W 8.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grade 8 Reading standards to literature (e.g., "Analyze how a modern work of fiction draws on themes, patterns of events, or character types from myths, traditional stories, or religious works such as the Bible, including describing how the material is rendered new").
b. Apply grade 8 Reading standards to literary nonfiction and/or informational texts (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient; recognize when irrelevant evidence is introduced").

2207

W 8.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.

Speaking and Listening

SL 8.1 Engage effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grade 8 topics, texts, and issues, building on others' ideas and expressing their own clearly.

a. Come to discussions prepared, having read or researched material under study; explicitly draw on that preparation by referring to evidence on the topic, text, or issue to probe and reflect on ideas under discussion.
b. Follow rules for collegial discussions and decision-making, track progress toward specific goals and deadlines, and define individual roles as needed.
c. Pose questions that connect the ideas of several speakers and respond to others' questions and comments with relevant evidence, observations, and ideas.
d. Acknowledge new information expressed by others, and, when warranted, qualify or justify their own views in light of the evidence presented.

SL 8.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grade 8 Language standards 1 and 3 for specific expectations.)

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

Language

L 8.1 Demonstrate command of the conventions of standard English grammar and usage when writing (printing, cursive, or keyboarding) or speaking.

a. Explain the function of verbals (gerunds, participles, infinitives) in general and their function in particular sentences.
b. Form and use verbs in the active and passive voice.
c. Form and use verbs in the indicative, imperative, interrogative, conditional, and subjunctive mood.
d. Recognize and correct inappropriate shifts in verb voice and mood.

L 8.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Use punctuation (comma, ellipsis, dash) to indicate a pause or break.
b. Use an ellipsis to indicate an omission.
c. Spell correctly.

L 8.4 Determine or clarify the meaning of unknown and multiple-meaning words or phrases based on grade 8 reading and content, choosing flexibly from a range of strategies.

a. Use context (e.g., the overall meaning of a sentence or paragraph; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
b. Use common, grade-appropriate Greek or Latin affixes and roots as clues to the meaning of a word (e.g., precede, recede, secede).
c. Consult general and specialized reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning or its part of speech.
d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

2208

L 8.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

a. Interpret figures of speech (e.g. verbal irony, puns) in context.
b. Use the relationship between particular words to better understand each of the words.
c. Distinguish among the connotations (associations) of words with similar denotations (definitions) (e.g., bullheaded, willful, firm, persistent, resolute).

Term 2:

Reading Literature

RL 8.5 Compare and contrast the structure of two or more texts and analyze how the differing structure of each text contributes to its meaning and style.
RL 8.6 Analyze how differences in the points of view of the characters and the audience or reader (e.g., created through the use of dramatic irony) create such effects as suspense or humor.

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

Reading Information

RI 8.5 Analyze the structure of a specific paragraph in a text, including the role of particular sentences in developing and refining a key concept.
RI 8.6 Determine an author's point of view or purpose in a text and analyze how the author acknowledges and responds to conflicting evidence or viewpoints.
RI 8.8 Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is sound and the evidence is relevant and sufficient; recognize when irrelevant evidence is introduced.

Writing

2209

W 8.1 Write arguments to support claims with clear reasons and relevant evidence.

a. Introduce claim(s), acknowledge and distinguish the claim(s) from alternate or opposing claims, and organize the reasons and evidence logically.
b. Support claim(s) with logical reasoning and relevant evidence, using accurate, credible sources and demonstrating an understanding of the topic or text.
c. Use words, phrases, and clauses to create cohesion and clarify the relationships among claim(s), counterclaims, reasons, and evidence.
d. Establish and maintain a formal style.
e. Provide a concluding statement or section that follows from and supports the argument presented.

W 8.4, W 8.5, W 8.8, and W 8.10 (continued)

Speaking and Listening

SL 8.2 Analyze the purpose of information presented in diverse media and formats (e.g., visually, quantitatively, orally) and evaluate the motives (e.g., social, commercial, political) behind its presentation.
SL 8.3 Delineate a speaker's argument and specific claims, evaluating the soundness of the reasoning and relevance and sufficiency of the evidence and identifying when irrelevant evidence is introduced.

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

SL 8.1 a-d and SL 8.6 (continued)

Language

L 8.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

a. Use punctuation (comma, ellipsis, dash) to indicate a pause or break.

L 8.1a-d, L 8.4a-d, L 8.5a-c and L 8.6 (continued)

Term 3:

Reading Literature

RL 8.7 Analyze the extent to which a filmed or live production of a story or drama stays faithful to or departs from the text or script, evaluating the choices made by the director or actors.

RL 8.9 Analyze how myths, traditional stories, or religious works such as the Bible influence themes, patterns of events, or character types in a modern work, including how the material is rendered new.

2210

Reading Information

RI 8.7 Evaluate the advantages and disadvantages of using different mediums (e.g., print or digital text, video, multimedia) to present a particular topic or idea.

RI 8.9 Analyze a case in which two or more texts provide conflicting information on the same topic and identify where the texts disagree on matters of fact or interpretation.

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

Writing

W 8.3 Write narratives to develop real or imagined experiences or events using effective technique, relevant descriptive details, and well-structured event sequences.

a. Engage and orient the reader by establishing a context and point of view and introducing a narrator and/or characters; organize an event sequence that unfolds naturally and logically.
b. Use narrative techniques, such as dialogue, pacing, description, and reflection, to develop experiences, events, and/or characters.
c. Use a variety of transition words, phrases, and clauses to convey sequence, signal shifts from one time frame or setting to another, and show the relationships among experiences and events.
d. Use precise words and phrases, relevant descriptive details, and sensory language to capture the action and convey experiences and events.
e. Provide a conclusion that follows from and reflects on the narrated experiences or events.

W 8.2 a-f, W 8.4, W 8.5, W 8.8, W 8.9a-b and W 8.10 (continued)

2211

Speaking and Listening

SL 8.1 a-d (continued)

Language

L 8.3 Use knowledge of language and its conventions when writing, speaking, reading, or listening.

a. Use verbs in the active and passive voice and in the conditional and subjunctive mood to achieve particular effects (e.g., emphasizing the actor or the action; expressing uncertainty or describing a state contrary to fact).

L 8.4a-d, L 8.5a-c and L 8.6 (continued)

Term 4:

JCSD 8th Grade ELA Scope and Sequence 23-24 School Year

Reading Literature Spiral Review of all standards and reteach standards of deficit using benchmark data.
RL.8.10 By the end of the year, read and comprehend literature, including stories, dramas, and poems, at the high end of grades 6–8 text complexity band independently and proficiently.
Reading Information Spiral Review of all standards and reteach standards of deficit using benchmark data.
RI.8.10 By the end of the year, read and comprehend literary nonfiction at the high end of the grades 6–8 text complexity band independently and proficiently.
Writing
W 8.7 Conduct short research projects to answer a question (including a self generated question), drawing on several sources and generating additional related, focused questions that allow for multiple avenues of exploration. W 8.4, W 8.8 and W 8.10 (continued)
Speaking and Listening Spiral Review of all standards and reteach standards of deficit using benchmark data.
SL 8.4 Present claims and findings, emphasizing salient points in a focused, coherent manner with relevant evidence, sound valid reasoning, and well-chosen details; use appropriate eye contact, adequate volume, and clear pronunciation. **SL 8.5** Integrate multimedia and visual displays into presentations to clarify information, strengthen claims and evidence, and add interest. SL 8.1 a-d (continued)
Language Spiral Review of all standards and reteach standards of deficit using benchmark data.

JCSD ENGLISH I Scope and Sequence 2023 - 2024 School Year

Term 1

Reading Literature

RL 9.1 Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RL 9.2 Determine the theme(s) or central idea(s) of a text and analyze in detail the development over the course of the text, including how details of a text interact and build on one another to shape and refine the theme(s) or central idea(s); provide an accurate summary of the text based upon this analysis.
RL 9.3 Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a literary text, interact with other characters, and advance the plot or develop the theme.
RL 9.4 Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).
RL 9.10 By the end of grade 9, read and comprehend literature, including stories, dramas, and poems, in the grades 9-10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Reading Information

RI 9.1 Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RI 9.2 Determine central idea(s) of a text and analyze in detail the development over the course of the text, including how details of a text interact and build on one another to shape and refine the central idea(s); provide an accurate summary of the text based upon this analysis.
RI 9.3 Analyze how the author unfolds an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.
RI 9.4 Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language of a court opinion differs from that of a newspaper).
RI 9.10 By the end of grade 9, read and comprehend literacy nonfiction in the grades 9- 10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Writing

W 9.2a Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aid in comprehension.
W 9.2b Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
W 9.2c Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
W 9.2d Use precise language and domain-specific vocabulary to manage the complexity of the topic.
W 9.2e Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
W 9.2f Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
W 9.3a Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
W 9.3b Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
W 9.3c Use a variety of techniques to sequence events so that they build on one another to create a coherent whole.
W 9.3d Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
W 9.3e Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.
W 9.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
W 9.5 Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 9–10.)
W 9.6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
W 9.8 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
W 9.9a Apply grades 9–10 Reading standards to literature (e.g., "Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]").
W 9.9b Apply grades 9–10 Reading standards to literary nonfiction and/or informational texts (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning").
W 9.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

2225

Speaking and Listening

SL 9.1a Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

SL 9.1b Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.

SL 9.1c Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.

SL 9.1d Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
SL 9.4 Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.
SL 9.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
SL 9.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grades 9–10 Language standards 1 and 3 for specific expectations.)

Language

L 9.1a Use parallel structure.
L 9.1b Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.
L 9.2b Use a colon to introduce a list or quotation.
L 9.2c Spell correctly.
L 9.4a Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
L 9.4b Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analyze, analytical; advocate, advocacy).
L 9.4c Consult general and specialized reference materials (e.g. dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
L 9.4d Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).
L 9.5a Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
L 9.5b Analyze nuances in the meaning of words with similar denotations.

Term 2

Reading Literature

RL 9.5 Analyze how an author's choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.
RL 9.6 Identify who is telling the story at various points in a text.
RL 9.7 Use illustrations and details in a story to describe its characters, setting, or events.
RL 9.9 Analyze how an author draws on and transforms source material in a specific work (e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare).
RL 9.10 By the end of grade 9, read and comprehend literature, including stories, dramas, and poems, in the grades 9-10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Reading Information

RI 9.5 Analyze in detail how an author's ideas or claims are developed and refined by particular sentences, paragraphs, or larger portions of a text (e.g., a section or chapter).
RI 9.6 Determine an author's point of view or purpose in a text and analyze how an author uses rhetoric to advance that point of view or purpose.
RI 9.7 Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account.
RI 9.8 Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning.
RI 9.9 Analyze seminal U.S. documents of historical and literary significance (e.g., Washington's Farewell Address, the Gettysburg Address, Roosevelt's Four Freedoms speech, King's "Letter from Birmingham Jail"), including how they address related themes and concepts.
RI 9.10 By the end of grade 9, read and comprehend literacy nonfiction in the grades 9- 10 text complexity band proficiently, with scaffolding as needed at the high end of the range.

Writing

W 9.1a Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence.
W 9.1b Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns.
W 9.1c Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
W 9.1d Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
W 9.1e Provide a concluding statement or section that follows from and supports the argument presented.
W 9.2a Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aid in comprehension.
W 9.2b Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
W 9.2c Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and

concepts.
W 9.2d Use precise language and domain-specific vocabulary to manage the complexity of the topic.
W 9.2e Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
W 9.2f Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).
W 9.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)
W 9.5 Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 9–10.)
W 9.6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.
W 9.7 Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.
W 9.8 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.
W 9.9a Apply grades 9–10 Reading standards to literature (e.g., "Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]").
W 9.9b Apply grades 9–10 Reading standards to literary nonfiction and/or informational texts (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning").
W 9.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

2228

Speaking and Listening

SL 9.1a Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
SL 9.1b Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
SL 9.1c Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
SL 9.1d Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.
SL 9.2 Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source
SL 9.3 Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.
SL 9.4 Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task
SL 9.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.
SL 9.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grades 9–10 Language standards 1 and 3 for specific expectations.)

Language
L 9.1a Use parallel structure. **L 9.1b** Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations. **L 9.2a** Use a semicolon (and perhaps a conjunctive adverb) to link two or more closely related independent clauses. **L 9.2b** Use a colon to introduce a list or quotation. **L 9.2c** Spell correctly. **L 9.4a** Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase. **L 9.4b** Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analysis, analytical; advocate, advocacy). **L 9.4c** Consult general and specialized reference materials (e.g. dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology. **L 9.4d** Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary). **L 9.5a** Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text. **L 9.5b** Analyze nuances in the meaning of words with similar denotations. **L 9.6** Acquire and use accurate general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

JCSD ENGLISH II Scope and Sequence 2023 - 2024 School Year

Term 1

Reading Literature

RL 10.1 Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RL 10.2 Determine the theme(s) or central idea(s) of a text and analyze in detail the development over the course of the text, including how details of a text interact and build on one another to shape and refine the theme(s) or central idea(s); provide an accurate summary of the text based upon this analysis.
RL 10.3 Analyze how complex characters (e.g., those with multiple or conflicting motivations) develop over the course of a literary text, interact with other characters, and advance the plot or develop the theme.
RL 10.4 Determine the meaning of words and phrases as they are used in the text, including figurative and connotative meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language evokes a sense of time and place; how it sets a formal or informal tone).
RL 10.10 By the end of grade 10, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 9–10 text complexity band independently and proficiently.

Reading Information

RI 10.1 Cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text.
RI 10.2 Determine central idea(s) of a text and analyze in detail the development over the course of the text, including how details of a text interact and build on one another to shape and refine the central idea(s); provide an accurate summary of the text based upon this analysis.
RI 10.3 Analyze how the author unfolds an analysis or series of ideas or events, including the order in which the points are made, how they are introduced and developed, and the connections that are drawn between them.
RI 10.4 Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings; analyze the cumulative impact of specific word choices on meaning and tone (e.g., how the language of a court opinion differs from that of a newspaper).
RI 10.10 By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9-10 text complexity band independently and proficiently.

Writing

W 10.2 Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

a. Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aid in comprehension.
b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
c. Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
d. Use precise language and domain-specific vocabulary to manage the complexity of the topic.
e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

W 10.3 Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences.

a. Engage and orient the reader by setting out a problem, situation, or observation, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events.
b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters.
c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole.
d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters.
e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.

W 10.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

W 10.5 Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 10–10.)

W 10.6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

W 10.8 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

W 10.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grades 9–10 Reading standards to literature (e.g., "Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]").
b. Apply grades 10–10 Reading standards to literary nonfiction and/or informational texts (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning").

W 10.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

2239

Speaking and Listening

SL 10.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.
b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

SL 10.4 Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

SL 10.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

SL 10.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grades 10–10 Language standards 1 and 3 for specific expectations.)

Language

L 10.1 Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.

a. Use parallel structure.
b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

L 10.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

b. Use a colon to introduce a list or quotation.
c. Spell correctly.

L 10.3 Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.

a. Write and edit work so that it conforms to the guidelines in a style manual (e.g., MLA Handbook, Turabian's Manual for Writers) appropriate for the discipline and writing type.

L 10.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grades 9–10 reading and content, choosing flexibly from a range of strategies.

a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analyze, analytical; advocate, advocacy).
c. Consult general and specialized reference materials (e.g. dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

L 10.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.

a. Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
b. Analyze nuances in the meaning of words with similar denotations.

L 10.6 Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Term 2

Reading Literature

RL 10.5 Analyze how an author's choices concerning how to structure a text, order events within it (e.g., parallel plots), and manipulate time (e.g., pacing, flashbacks) create such effects as mystery, tension, or surprise.
RL 10.6 Identify who is telling the story at various points in a text.
RL 10.7 Use illustrations and details in a story to describe its characters, setting, or events.
RL 10.9 Analyze how an author draws on and transforms source material in a specific work (e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare).
RL 10.10 By the end of grade 10, read and comprehend literature, including stories, dramas, and poems, at the high end of the grades 9–10 text complexity band independently and proficiently.

Reading Information

RI 10.5 Analyze in detail how an author's ideas or claims are developed and refined by particular sentences, paragraphs, or larger portions of a text (e.g., a section or chapter).
RI 10.6 Determine an author's point of view or purpose in a text and analyze how an author uses rhetoric to advance that point of view or purpose.
RI 10.7 Analyze various accounts of a subject told in different mediums (e.g., a person's life story in both print and multimedia), determining which details are emphasized in each account.
RI 10.8 Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning.
RI 10.9 Analyze seminal U.S. documents of historical and literary significance (e.g., Washington's Farewell Address, the Gettysburg Address, Roosevelt's Four Freedoms speech, King's "Letter from Birmingham Jail"), including how they address related themes and concepts.
RI 10.10 By the end of grade 10, read and comprehend literary nonfiction at the high end of the grades 9-10 text complexity band independently and proficiently.

Writing

W 10.1 Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.

a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence.
b. Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns.

c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims.
d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
e. Provide a concluding statement or section that follows from and supports the argument presented.

W 10.2 Write informative/explanatory texts to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.

a. Introduce a topic; organize complex ideas, concepts, and information to make important connections and distinctions; include formatting (e.g., headings), graphics (e.g., figures, tables), and multimedia when useful to aid in comprehension.
b. Develop the topic with well-chosen, relevant, and sufficient facts, extended definitions, concrete details, quotations, or other information and examples appropriate to the audience's knowledge of the topic.
c. Use appropriate and varied transitions to link the major sections of the text, create cohesion, and clarify the relationships among complex ideas and concepts.
d. Use precise language and domain-specific vocabulary to manage the complexity of the topic.
e. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the discipline in which they are writing.
f. Provide a concluding statement or section that follows from and supports the information or explanation presented (e.g., articulating implications or the significance of the topic).

W 10.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade-specific expectations for writing types are defined in standards 1–3 above.)

W 10.5 Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on addressing what is most significant for a specific purpose and audience. (Editing for conventions should demonstrate command of Language standards 1–3 up to and including grades 10–10.)

W 10.6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

W 10.7 Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

W 10.8 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

W 10.9 Draw evidence from literary or informational texts to support analysis, reflection, and research.

a. Apply grades 9–10 Reading standards to literature (e.g., "Analyze how an author draws on and transforms source material in a specific work [e.g., how Shakespeare treats a theme or topic from Ovid or the Bible or how a later author draws on a play by Shakespeare]").
b. Apply grades 10–10 Reading standards to literary nonfiction and/or informational texts (e.g., "Delineate and evaluate the argument and specific claims in a text, assessing whether the reasoning is valid and the evidence is relevant and sufficient; identify false statements and fallacious reasoning").

W 10.10 Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.

Speaking and Listening

SL 10.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

a. Come to discussions prepared, having read and researched material under study; explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

b. Work with peers to set rules for collegial discussions and decision-making (e.g., informal consensus, taking votes on key issues, presentation of alternate views), clear goals and deadlines, and individual roles as needed.
c. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.
d. Respond thoughtfully to diverse perspectives, summarize points of agreement and disagreement, and, when warranted, qualify or justify their own views and understanding and make new connections in light of the evidence and reasoning presented.

SL 10.2 Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, orally) evaluating the credibility and accuracy of each source.

SL 10.3 Evaluate a speaker's point of view, reasoning, and use of evidence and rhetoric, identifying any fallacious reasoning or exaggerated or distorted evidence.

SL 10.4 Present information, findings, and supporting evidence clearly, concisely, and logically such that listeners can follow the line of reasoning and the organization, development, substance, and style are appropriate to purpose, audience, and task.

SL 10.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance understanding of findings, reasoning, and evidence and to add interest.

SL 10.6 Adapt speech to a variety of contexts and tasks, demonstrating command of formal English when indicated or appropriate. (See grades 10–10 Language standards 1 and 3 for specific expectations.)

Language

L 10.1 Demonstrate command of the conventions of standard English grammar and usage when writing or speaking.
a. Use parallel structure.
b. Use various types of phrases (noun, verb, adjectival, adverbial, participial, prepositional, absolute) and clauses (independent, dependent; noun, relative, adverbial) to convey specific meanings and add variety and interest to writing or presentations.

L 10.2 Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.
a. Use a semicolon (and perhaps a conjunctive adverb) to link two or more closely related independent clauses.
b. Use a colon to introduce a list or quotation.
c. Spell correctly.

L 10.4 Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on grades 9–10 reading and content, choosing flexibly from a range of strategies.
a. Use context (e.g., the overall meaning of a sentence, paragraph, or text; a word's position or function in a sentence) as a clue to the meaning of a word or phrase.
b. Identify and correctly use patterns of word changes that indicate different meanings or parts of speech (e.g., analyze, analyze, analytical; advocate, advocacy).
c. Consult general and specialized reference materials (e.g. dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation of a word or determine or clarify its precise meaning, its part of speech, or its etymology.
d. Verify the preliminary determination of the meaning of a word or phrase (e.g., by checking the inferred meaning in context or in a dictionary).

L 10.5 Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.
a. Interpret figures of speech (e.g., euphemism, oxymoron) in context and analyze their role in the text.
b. Analyze nuances in the meaning of words with similar denotations.

L 10.6 Acquire and use accurately general academic and domain-specific words and phrases, sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when considering a word or phrase important to comprehension or expression.

Week	Target Standards (MCCCRS) 2022	Resources/Supplemental	Topics/Concepts
	(including Native Americans, African Americans, Japanese Americans, and women). **USH.7.8** Trace the way in which the U.S. government took control of the economy through rationing, price controls, limitations on labor unions, prohibition of discrimination in the defense industry, the sale of bonds, and wage controls. **USH.7.9** Discuss the impact and challenges faced by women and minorities during the war (including A. Phillip Randolph, Bracero Program, the Zoot Suit Riots, Double V Campaign, and Rosie the Riveter). **USH.7.10** Summarize the discrimination that Japanese Americans faced during WWII including internment and Korematsu vs. United States (1944).		
Term 2			
Unit: Post WWII: President Truman and President Eisenhower **USH.8 Assess the evolving role of the U.S. in global affairs and the domestic impact on national security, individual freedoms, and changing culture.**			
10	**USH.8.1** Distinguish between cold war and conventional war. **USH.8.2** Locate areas of conflict during the Cold War from 1945 to 1960 (including East and West Germany, Hungary, Poland, Cuba, Korea, and China). **USH.8.3** Analyze the breakdown of relations between the U.S. and U.S.S.R. after WWII.		

2254

JCSD US History Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS) 2022	Resources/Supplemental	Topics/Concepts
	USH.8.4 Identify and explain the steps the U.S. took to contain communism during the Truman and Eisenhower administrations. **USH.8.5** Describe how the Truman Doctrine and the Marshall Plan deepened the tensions between the U.S. and the U.S.S.R. **USH.8.6** Identify the importance of the following on Cold War tensions: Berlin Blockade, Berlin Airlift, NATO, Warsaw Pact, and Iron Curtain. **USH.8.7** Evaluate the role, function, and purpose of the United Nations (UN). **USH.8.8** Examine the United States' reaction to Communist takeover in China. **USH.8.9** Summarize the Korean War and its impact on the Cold War. **USH.8.10** Describe U.S. government efforts to control the spread of communism within the United States and impact of the Red Scare on individual freedoms. **USH.8.11** Discuss the role of the space race and the arms race in the Cold War (including Sputnik, the U-2 incident, and NASA). **USH.8.12** Explain the social and cultural changes in post war America (including the G.I. Bill, Interstate Highway Act, the Baby Boom, and the impact of television).		2255
President Kennedy, President Johnson, and President Nixon **USH.9 Demonstrate an understanding of domestic and international issues from each administration.**			

JCSD US History Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS) 2022	Resources/Supplemental	Topics/Concepts
11	**USH.9.1** Analyze the domestic events of Presidents Kennedy, Johnson, and Nixon (including The New Frontier, Great Society, the Silent Majority, the anti-war and counter-cultural movements, the Watergate scandal, and the Supreme Court case, U.S. vs. Nixon (1974)). **USH.9.2** Debate the reasons for the nation's changing immigration policy, with emphasis on how the Immigration Act of 1965 and successor actions have transformed American society. **USH.9.3** Analyze the impact of the African American Civil Rights Movement on other movements (including American Indian Movement (AIM), United Farm Workers (UFW), and the Disability Rights Movement). **USH.9.4** Describe the changing roles of women in society as reflected in the entry of more women into the labor force and the changing family structure (including the Equal Pay Act, and the modern women's movement). **USH.9.5** Analyze the impact of the environmental movement and the development of environmental protection laws. **USH.9.6** Explain how the federal, state, and local governments have responded to demographic and social changes, including population shifts to the suburbs, racial concentrations in the cities, Rustbelt-to-Sunbelt migration, and drug abuse. **USH.9.7** Analyze the international policies and actions taken as a response to the Cold War (including U.S. involvement in Cuba, the escalation of the war in Vietnam as a result of the Gulf of Tonkin Resolution, and de-escalation of Cold War tensions through détente).		2256

JCSD US History Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS) 2022	Resources/Supplemental	Topics/Concepts
Civil Rights Movement **USH.11 Evaluate the impact of the Civil Rights Movement on social and political change in the United States.**			
12	**USH.11.1** Explain the importance of President Truman's order to integrate the U.S. military and the federal government. **USH.11.2** Trace the federal government's involvement in the modern Civil Rights Movement (including the abolition of the poll tax, nationalization of state militias, Brown vs. Board of Education (1954), the Civil Rights Acts of 1957 and 1964, and the Voting Rights Act of 1965). **USH.11.3** Explain contributions of individuals and groups to the modern Civil Rights Movement (including Martin Luther King, Jr., James Meredith, Medgar Evers, Thurgood Marshall, Rosa Parks, Fannie Lou Hamer, the Southern Christian Leadership Conference (SCLC), the Student Nonviolent Coordinating Committee (SNCC), the Congress of Racial Equality (CORE), the National Association for the Advancement Colored People (NAACP), and the grassroots efforts of the Civil Rights movement (civil rights foot soldiers)). **USH.11.4** Describe the development of the Black Power Movement (including the ideology of self-defense which inspired the change in focus of the SNCC, the rise of Malcolm X, Stokely Carmichael, and the Black Panther Movement). **USH.11.5** Describe the significance of Martin Luther King Jr.'s "Letter from a Birmingham Jail" and his "I Have a Dream" speech. **USH.11.6** Describe the accomplishments of the modern civil rights movement (including the growth of the African American middle class, increased political power, and declining rates of African American poverty).		

2257

JCSD US History Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS) 2022	Resources/Supplemental	Topics/Concepts
	USH.11.7 Evaluate the effectiveness of major non-violent demonstrations and events on the Civil Rights Movement (including Montgomery Bus Boycott, sit-ins, Freedom Rides, the March on Washington, and Selma March).		
President Ford, President Carter, President Reagan, and President H.W. USH.10 Bush Explain the reaction to Carter's Administration and the emergence of the Conservative movement and its impact on domestic and international issues from 1974-1992.			
13	**USH.10.1** Evaluate the conservative movement as a response to social, economic, and environmental issues from 1974 to 1992 (including Moral Majority, Roe vs. Wade (1973), Regents of the University of California vs. Bakke (1978), and Three Mile Island, Reaganomics). **USH.10.2** Analyze President Reagan's and President Bush's international policies (including the Strategic Defense Initiative, Reagan Doctrine, Iran-Contra, End of the Cold War, Invasion of Grenada, Invasion of Panama, and Persian Gulf War). **USH.10.3** Analyze the response of the Carter administration to environmental issues, the Cold War, and conflicts in the Middle East.		
1992 to the Present USH.12 Explain key domestic issues as well as America's role in the changing world from 1992 to present.			
13 (continued)	**USH.12.1** Examine domestic issues (including Contract with America, Impeachment Trial of William "Bill" Clinton, Eminent Domain, No Child Left Behind, Hurricane Katrina, and Affordable Care Act of 2010). **USH.12.2** Describe the reactions to domestic and global terrorism (including Oklahoma City bombing, terrorist attack of

2259

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**6.NS.2** Fluently divide multi-digit numbers using the standard algorithm.	Ready Unit 2 Lessons 7-8	EnVision 1.1, 1.2 iReady
2	**6.NS.3** Fluently add, subtract, multiply, and divide multi-digit decimals using the standard algorithm for each operation.	Ready Unit 2 Lessons 7-8	EnVision 1.1, 1.2 iReady
3	**6.NS.1** Interpret and compute quotients of fractions, and solve word problems involving division of fractions by fractions, e.g., by using visual fraction models and equations to represent the problem. For example, create a story context for (2/3) ÷ (3/4) and use a visual fraction model to show the quotient; use the relationship between multiplication and division to explain that (2/3) ÷ (3/4) = 8/9 because 3/4 of 8/9 is 2/3. (In general, (a/b) ÷ (c/d) = ad/bc.) How much chocolate will each person get if 3 people share 1/2 lb of chocolate equally? How many 3/4-cup servings are in 2/3 of a cup of yogurt? How wide is a rectangular strip of land with length 3/4 mi and area 1/2 square mi?	Ready Unit 2 Lessons 9-10	EnVision 1.3, 1.4 iReady
4	**6.NS.4** Find the greatest common factor of two whole numbers less than or equal to 100 and the least common multiple of two whole numbers less than or equal to 12. Use the distributive property to express a sum of two whole numbers 1–100 with a common factor as a multiple of a sum of two whole numbers with no common factor. For example, express 36 + 8 as 4 (9 + 2).	Ready Unit 1 Lesson 6	EnVision 3.2 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
5	**Application/Real-world** **6.G.1** Find the area of right triangles, other triangles, special quadrilaterals, and polygons by composing into rectangles or decomposing into triangles and other shapes; apply these techniques in the context of solving real-world and mathematical problems. **6.G.2** Find the volume of a right rectangular prism with fractional edge lengths by packing it with unit cubes of the appropriate unit fraction edge lengths, and show that the volume is the same as would be found by multiplying the edge lengths of the prism. Apply the formulas V = lwh and V = bh to find volumes of right rectangular prisms with fractional edge lengths in the context of solving real-world and mathematical problems.	Ready Unit 1 Lessons 1-2 Unit 2 Lesson 11	EnVision 7.1-4, 7.8 iReady
6	**6.RP.1** Understand the concept of a ratio and use ratio language to describe a ratio relationship between two quantities. For example, "The ratio of wings to beaks in the bird house at the zoo was 2:1, because for every 2 wings there was 1 beak." "For every vote candidate A received, candidate C received nearly three votes."	Ready Unit 3 Lessons 12-15	EnVision 5.1-5.7 iReady
7	**6.RP.2** Understand the concept of a unit rate a/b associated with a ratio a:b with b ≠ 0, and use rate language in the context of a ratio relationship. For example, "This recipe has a ratio of 3 cups of flour to 4 cups of sugar, so there is 3/4 cup of flour for each cup of sugar." "We paid $75 for 15 hamburgers, which is a rate of $5 per hamburger."	Ready Unit 3 Lessons 12-15	EnVision 5.1-5.7 iReady
8	**6.RP.3** Use ratio and rate reasoning to solve real-world and mathematical problems, e.g., by reasoning about tables of equivalent ratios, tape diagrams, double number line diagrams, or equations. a. Make tables of equivalent ratios relating quantities with whole-number measurements, find missing values in the tables, and plot the pairs of values on the coordinate plane. Use tables to compare ratios.	Ready Unit 3 Lesson 16-18	EnVision 6.1-6.6 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	b. Solve unit rate problems including those involving unit pricing and constant speed. For example, if it took 7 hours to mow 4 lawns, then at that rate, how many lawns could be mowed in 35 hours? At what rate were lawns being mowed? c. Find a percent of a quantity as a rate per 100 (e.g., 30% of a quantity means 30/100 times the quantity); solve problems involving finding the whole, given a part and the percent. d. Use ratio reasoning to convert measurement units; manipulate and transform units appropriately when multiplying or dividing quantities.		
9	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #1)**		
10	**6.NS.5** Understand that positive and negative numbers are used together to describe quantities having opposite directions or values (e.g., temperature above/below zero, elevation above/below sea level, credits/debits, positive/negative electric charge); use positive and negative numbers to represent quantities in real-world contexts, explaining the meaning of 0 in each situation. **6.NS.6** Understand a rational number as a point on the number line. Extend number line diagrams and coordinate axes familiar from previous grades to represent points on the line and in the plane with negative number coordinates. a. Recognize opposite signs of numbers as indicating locations on opposite sides of 0 on the number line; recognize that the opposite of the opposite of a number is the number itself, e.g., -(-3) = 3, and that 0 is its own opposite. b. Understand signs of numbers in ordered pairs as indicating locations in quadrants of the coordinate plane; recognize that	Ready Unit 6 Lessons 23-24	EnVision 2.1, 2.2 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	when two ordered pairs differ only by signs, the locations of the points are related by reflections across one or both axes. c. Find and position integers and other rational numbers on a horizontal or vertical number line diagram; find and position pairs of integers and other rational numbers on a coordinate plane.		
11	**6.NS.8** Solve real-world and mathematical problems by graphing points in all four quadrants of the coordinate plane. Include use of coordinates and absolute value to find distances between points with the same first coordinate or the same second coordinate. **6.G.3** Draw polygons in the coordinate plane given coordinates for the vertices; use coordinates to find the length of a side joining points with the same first coordinate or the same second coordinate. Apply these techniques in the context of solving real-world and mathematical problems.	Ready Unit 6 Lesson 28	EnVision 4.10, 2.5, 2.6 iReady
12	**6.G.4** Represent three-dimensional figures using nets made up of rectangles and triangles, and use the nets to find the surface area of these figures. Apply these techniques in the context of solving real world and mathematical problems.	Ready Unit 1 Lesson 3	EnVision 7.5, 7.6, 7.7 iReady
13	**6.NS.7** Understand ordering and absolute value of rational numbers. a. Interpret statements of inequality as statements about the relative position of two numbers on a number line diagram. For example, interpret –3 > –7 as a statement that –3 is located to the right of –7 on a number line oriented from left to right. b. Write, interpret, and explain statements of order for rational numbers in real-world contexts. For example, write –3℃ >-7℃ to express the fact that –3℃ is warmer than -7℃.	Ready Unit 6 Lesson 25	EnVision 2.3 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	c. Understand the absolute value of a rational number as its distance from 0 on the number line; interpret absolute value as magnitude for a positive or negative quantity in a real-world situation. For example, for an account balance of –30 dollars, write |–30| = 30 to describe the size of the debt in dollars. d. Distinguish comparisons of absolute value from statements about order. For example, recognize that an account balance less than –30 dollars represents a debt greater than 30 dollars.		
14	**6.NS.9** Apply and extend previous understandings of addition and subtraction to add and subtract integers; represent addition and subtraction on a horizontal or vertical number line diagram. a. Describe situations in which opposite quantities combine to make 0. For example, a hydrogen atom has 0 charge because its two constituents are oppositely charged. b. Understand p + q as the number located a distance |q| from p, in the positive or negative direction depending on whether q is positive or negative. Show that a number and its opposite have a sum of 0 (are additive inverses). Interpret sums of integers by describing real-world contexts. c. Understand subtraction of integers as adding the additive inverse, p – q = p + (–q). Show that the distance between two integers on the number line is the absolute value of their difference, and apply this principle in real-world contexts. d. Apply properties of operations as strategies to add and subtract integers.	Ready Unit 6 Lesson 25	EnVision 2.3 iReady
15	**6.EE.1** Write and evaluate numerical expressions involving whole-number exponents.	Ready Unit 1 Lessons 4-5	EnVision 3.1, 3.3, 3.4, 3.5 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
16	**6.EE.2** Write, read, and evaluate expressions in which letters stand for numbers. a. Write expressions that record operations with numbers and with letters standing for numbers. For example, express the calculation "Subtract y from 5" as 5 – y. b. Identify parts of an expression using mathematical terms (sum, term, product, factor, quotient, coefficient); view one or more parts of an expression as a single entity. For example, describe the expression 2 (8 + 7) as a product of two factors; view (8 + 7) as both a single entity and a sum of two terms. c. Evaluate expressions at specific values of their variables. Include expressions that arise from formulas used in real-world problems. Perform arithmetic operations, including those involving whole-number exponents, in the conventional order when there are no parentheses to specify a particular order (Order of Operations). For example, use the formulas $V = s^3$ and $A = 6 s^2$ to find the volume and surface area of a cube with sides of length s = 1/2.	Ready Unit 1 Lessons 4-5	EnVision 3.1, 3.3, 3.4, 3.5 iReady
17	**6.EE.3** Apply the properties of operations to generate equivalent expressions. For example, apply the distributive property to the expression 3 (2 + x) to produce the equivalent expression 6 + 3x; apply the distributive property to the expression 24x + 18y to produce the equivalent expression 6 (4x + 3y); apply properties of operations to y + y + y to produce the equivalent expression 3y. **6.EE.4** Identify when two expressions are equivalent (i.e., when the two expressions name the same number regardless of which value is substituted into them). For example, the expressions y + y + y and 3y are equivalent because they name the same number regardless of which number y stands for.	Ready Unit 5 Lesson 19	EnVision 3.3, 3.4, 3.5, 3.6, 3.7 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
18	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #2)**		
19	**6.EE.6** Use variables to represent numbers and write expressions when solving a real-world or mathematical problem; understand that a variable can represent an unknown number, or, depending on the purpose at hand, any number in a specified set.	Ready Unit 5 Lesson 20	EnVision 4.1 iReady
20	**6.EE.5** Understand solving an equation or inequality as a process of answering a question: which values from a specified set, if any, make the equation or inequality true? Use substitution to determine whether a given number in a specified set makes an equation or inequality true.	Ready Unit 5 Lesson 20	EnVision 4.1 iReady
21	**6.EE.7** Solve real-world and mathematical problems by writing and solving equations of the form x + p = q and px = q for cases in which p, q and x are all nonnegative rational numbers.	Ready Unit 5 Lesson 21	EnVision 4.2, 4.3, 4.4 iReady
22	**6.EE.8** Write an inequality of the form x > c or x < c to represent a constraint or condition in a real-world or mathematical problem. Recognize that inequalities of the form x > c or x < c have infinitely many solutions; represent solutions of such inequalities on number line diagrams.	Ready Unit 6 Lesson 26	EnVision iReady
23	**6.EE.9** Use variables to represent two quantities in a real-world problem that change in relationship to one another. ● Write an equation to express one quantity, thought of as the dependent variable, in terms of the other quantity, thought of as the independent variable.	Ready Unit 5 Lesson 22	EnVision 4.8, 4.9, 4.10 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	• Analyze the relationship between the dependent and independent variables using graphs and tables, and relate these to the equation. For example, in a problem involving motion at constant speed, list and graph ordered pairs of distances and times, and write the equation d = 65t to represent the relationship between distance and time.		
24	**6.SP.1** Recognize a statistical question as one that anticipates variability in the data related to the question and accounts for it in the answers. For example, "How old am I?" is not a statistical question, but "How old are the students in my school?" is a statistical question because one anticipates variability in students' ages. **6.SP.2** Understand that a set of data collected to answer a statistical question has a distribution which can be described by its center, spread, and overall shape. **6.SP.3** Recognize that a measure of center for a numerical data set summarizes all of its values with a single number, while a measure of variation describes how its values vary with a single number.	Ready Unit 7 Lessons 29-33	EnVision 8.1-8.7 iReady
25	**6.SP.4** Display numerical data in plots on a number line, including dot plots, histograms, and box plots.	Ready Unit 7 Lessons 29-33	EnVision 8.1-8.7 iReady
26	**6.SP.5** Summarize numerical data sets in relation to their context, such as by: a. Reporting the number of observations. b. Describing the nature of the attribute under investigation, including how it was measured and its units of measurement. c. Giving quantitative measures of center (median and/or mean) and variability (interquartile range), as well as describing any overall pattern and any striking deviations from the overall	Ready Unit 7 Lessons 29-33	EnVision 8.1-8.7 iReady

JCSD 6th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	pattern with reference to the context in which the data were gathered. d. Relating the choice of measures of center and variability to the shape of the data distribution and the context in which the data were gathered.		
27	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #3 - Comprehensive)**		
28-36	Use benchmark data to determine standards to reteach/review before MAAP testing.

***Once instructed, all standards should be spiraled throughout the year in both assessment and instruction (small group and whole group).**

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**7.NS.1** Apply and extend previous understandings of addition and subtraction to add and subtract rational numbers; represent addition and subtraction on a horizontal or vertical number line diagram. a. Describe situations in which opposite quantities combine to make 0. For example, a hydrogen atom has 0 charge because its two constituents are oppositely charged. b. Understand p + q as the number located a distance |q| from p, in the positive or negative direction depending on whether q is positive or negative. Show that a number and its opposite have a sum of 0 (are additive inverses). Interpret sums of rational numbers by describing real-world contexts. c. Understand subtraction of rational numbers as adding the additive inverse, p – q = p + (–q). Show that the distance between two rational numbers on the number line is the absolute value of their difference, and apply this principle in real-world contexts. d. Apply properties of operations as strategies to add and subtract rational numbers.	Ready Unit 2 Lessons 7-10	EnVision 1-1, 1-3, 1-4, 1-5 iReady
2	**7.NS.2** Apply and extend previous understandings of multiplication and division and of fractions to multiply and divide rational numbers. a. Understand that multiplication is extended from fractions to rational numbers by requiring that operations continue to satisfy the properties of operations, particularly the distributive property, leading to products such as (–1)(–1) = 1 and the rules for multiplying signed numbers. Interpret products of rational numbers by describing real-world contexts. b. Understand that integers can be divided, provided that the divisor is not zero, and every quotient of integers (with non-zero divisor) is a rational number. If p and q are integers, then -	Ready Unit 3 Lessons 11- 13	EnVision 1-2, 1-6 through 1-10 iReady

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	(p/q) = (-p)/q = p/(-q). Interpret quotients of rational numbers by describing real-world contexts. c. Apply properties of operations as strategies to multiply and divide rational numbers. d. Convert a rational number to a decimal using long division; know that the decimal form of a rational number terminates in 0s or eventually repeats.		
3	**7.NS.3** Solve real-world and mathematical problems involving the four operations with rational numbers.	Ready Unit 3 Lesson 14	EnVision 1-2, 1-6 through 1-10 iReady
4	**7.RP.1** Compute unit rates associated with ratios of fractions, including ratios of lengths, areas and other quantities measured in like or different units. For example, if a person walks 1/2 mile in each 1/4 hour, compute the unit rate as the complex fraction $^{1/2}/_{1/4}$ miles per hour, equivalently 2 miles per hour.	Ready Unit 1 Lesson 2	EnVision 2-1, 2-2 iReady
5	**7.RP.2** Recognize and represent proportional relationships between quantities. a. Decide whether two quantities are in a proportional relationship, e.g., by testing for equivalent ratios in a table or graphing on a coordinate plane and observing whether the graph is a straight line through the origin. b. Identify the constant of proportionality (unit rate) in tables, graphs, equations, diagrams, and verbal descriptions of proportional relationships. c. Represent proportional relationships by equations. For example, if total cost t is proportional to the number n of items	Ready Unit 1 Lessons 3-5	EnVision 2-3 through 2-6 iReady

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	purchased at a constant price p, the relationship between the total cost and the number of items can be expressed as t = pn. d. Explain what a point (x, y) on the graph of a proportional relationship means in terms of the situation, with special attention to the points (0, 0) and (1, r) where r is the unit rate.		
6	**7.RP.3** Use proportional relationships to solve multistep ratio and percent problems. Examples: simple interest, tax, markups and markdowns, gratuities and commissions, fees, percent increase and decrease, percent error.	Ready Unit 5 Lesson 20-21	EnVision 3-1 through 3-6 iReady
7	**7.G.1** Solve problems involving scale drawings of geometric figures, including computing actual lengths and areas from a scale drawing and reproducing a scale drawing at a different scale.	Ready Unit 1 Lesson 1	EnVision 8-1 iReady
8	**Review**		
9	**Assess** **Mastery Connect Predictive Assessment (Benchmark #1)**		
10		Ready	EnVision 4-1, 4-2

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	7.EE.1 Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients.	Unit 4 Lesson 15	iReady
11	**7.EE.1** (continued)	Ready Unit 4 Lesson 15	EnVision 4-1, 4-2 iReady
12	**7.EE.2** Understand that rewriting an expression in different forms in a problem context can shed light on the problem and how the quantities in it are related. For example, a + 0.05a = 1.05a means that "increase by 5%" is the same as "multiply by 1.05."	Ready Unit 4 Lesson 16	EnVision 4-1, 4-2 iReady
13	**7.EE.2** (continued)	Ready Unit 4 Lesson 16	EnVision 4-1, 4-2 iReady
14-15	**7.EE.3** Solve multi-step real-life and mathematical problems posed with positive and negative rational numbers in any form (whole numbers, fractions, and decimals), using tools strategically. Apply properties of operations to calculate with numbers in any form; convert between forms as appropriate; and assess the reasonableness of answers using mental computation and estimation strategies. For example: If a woman making $25 an hour gets a 10% raise, she will make an additional 1/10 of her salary an hour, or $2.50, for a new salary of $27.50. If you want to place a towel bar 9 3/4 inches long in the center of a door that is 27 1/2 inches wide, you will need to place the bar about 9 inches from each edge; this estimate can be used as a check on the exact computation.	Ready Unit 4 Lesson 17-18	EnVision 4-3 through 4-5 iReady

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
16	**7.EE.3** (continued)		
		Ready Unit 4 Lesson 17-18	EnVision 4-3 through 4-5 iReady
17	**7.EE.4** Use variables to represent quantities in a real-world or mathematical problem, and construct simple equations and inequalities to solve problems by reasoning about the quantities. a. Solve word problems leading to equations of the form px + q = r and p(x + q) = r, where p, q, and r are specific rational numbers. Solve equations of these forms ***fluently***. Compare an algebraic solution to an arithmetic solution, identifying the sequence of the operations used in each approach. For example, the perimeter of a rectangle is 54 cm. Its length is 6 cm. What is its width? b. Solve word problems leading to inequalities of the form px + q > r or px + q < r, where p, q, and r are specific rational numbers. Graph the solution set of the inequality and interpret it in the context of the problem. For example: As a salesperson, you are paid $50 per week plus $3 per sale. This week you want your pay to be at least $100. Write an inequality for the number of sales you need to make, and describe the solutions.	Ready Unit 4 Lesson 19	EnVision 5-1 through 5-7 iReady
18	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #2)**		
19		Ready	EnVision 8-7, 8-4, 8-3

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	7.G.2 Draw (freehand, with ruler and protractor, and with technology) geometric shapes with given conditions. Focus on constructing triangles from three measures of angles or sides, noticing when the conditions determine a unique triangle, more than one triangle, or no triangle. **7.G.3** Describe the two-dimensional figures that result from slicing three-dimensional figures, as in plane sections of right rectangular prisms and right rectangular pyramids.	Unit 6 Lesson 27,29	iReady
20	**7.G.5** Use facts about supplementary, complementary, vertical, and adjacent angles in a multi-step problem to write and solve simple equations for an unknown angle in a figure.	Ready Unit 6 Lesson 28	EnVision 8-7, 8-4 iReady
21	**7.G.4** Know the formulas for the area and circumference of a circle and use them to solve problems; give an informal derivation of the relationship between the circumference and area of a circle.	Ready Unit 1 Lesson 6	EnVision 8-5, 8-6 iReady
22	**7.G.6** Solve real-world and mathematical problems involving area, volume and surface area of two and three-dimensional objects composed of triangles, quadrilaterals, polygons, cubes, and right prisms.	Ready Unit 6 Lesson 25, 26	EnVision 8-8, 8-9 iReady
23	**7.SP.1** Understand that statistics can be used to gain information about a population by examining a sample of the population; generalizations about a population from a sample are valid only if the sample is representative of that population. Understand that random sampling tends to produce representative samples and support valid inferences.	Ready Unit 5 Lessons 22- 24	EnVision 6-1 through 6-4 iReady
24		Ready	EnVision 6-1 through 6-4

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	7.SP.2 Use data from a random sample to draw inferences about a population with an unknown characteristic of interest. Generate multiple samples (or simulated samples) of the same size to gauge the variation in estimates or predictions. For example, estimate the mean word length in a book by randomly sampling words from the book; predict the winner of a school election based on randomly sampled survey data. Gauge how far off the estimate or prediction might be.	Unit 5 Lessons 22- 24	iReady
25	**7.SP.3** Informally assess the degree of visual overlap of two numerical data distributions with similar variabilities, measuring the difference between the centers by expressing it as a multiple of a measure of variability. For example, the mean height of players on the basketball team is 10 cm greater than the mean height of players on the soccer team, about twice the variability on either team; on a dot plot, the separation between the two distributions of heights is noticeable.	Ready Unit 5 Lessons 22- 24	EnVision 6-1 through 6-4 iReady
26	**7.SP.4** Use measures of center and measures of variability (i.e. inter-quartile range) for numerical data from random samples to draw informal comparative inferences about two populations. For example, decide whether the words in a chapter of a seventh-grade science book are generally longer than the words in a chapter of a fourth-grade science book.	Ready Unit 5 Lessons 22- 24	EnVision 6-1 through 6-4 iReady
27	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #3 Comprehensive)**		
28	**7.SP.5** Understand that the probability of a chance event is a number between 0 and 1 that expresses the likelihood of the event occurring. Larger numbers indicate greater likelihood. A probability near 0 indicates an unlikely event, a probability around 1/2 indicates an event	Ready Unit 7 Lessons 30- 31	EnVision 7-1 through 7-4 iReady

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	that is neither unlikely nor likely, and a probability near 1 indicates a likely event. **7.SP.6** Approximate the probability of a chance event by collecting data on the chance process that produces it and observing its long-run relative frequency, and predict the approximate relative frequency given the probability. For example, when rolling a number cube 600 times, predict that a 3 or 6 would be rolled roughly 200 times, but probably not exactly 200 times.		
29	**7.SP.7** Develop a probability model and use it to find probabilities of events. Compare probabilities from a model to observed frequencies; if the agreement is not good, explain possible sources of the discrepancy. a. Develop a uniform probability model by assigning equal probability to all outcomes, and use the model to determine probabilities of events. For example, if a student is selected at random from a class, find the probability that Jane will be selected and the probability that a girl will be selected. b. Develop a probability model (which may not be uniform) by observing frequencies in data generated from a chance process. For example, find the approximate probability that a spinning penny will land heads up or that a tossed paper cup will land open-end down. Do the outcomes for the spinning penny appear to be equally likely based on the observed frequencies? **7.SP.8** Find probabilities of compound events using organized lists, tables, tree diagrams, and simulation. a. Understand that, just as with simple events, the probability of a compound event is the fraction of outcomes in the sample space for which the compound event occurs. b. Represent sample spaces for compound events using methods such as organized lists, tables and tree diagrams. For an event described in everyday language (e.g., “rolling double sixes”),	Ready Unit 7 Lessons 32- 33	EnVision 7-5 through 7-7 iReady

JCSD 7th Grade Math Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	identify the outcomes in the sample space which compose the event. c. Design and use a simulation to generate frequencies for compound events. For example, use random digits as a simulation tool to approximate the answer to the question: If 40% of donors have type A blood, what is the probability that it will take at least 4 donors to find one with type A blood?

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
0-1	**8.NS.1** Know that numbers that are not rational are called irrational. Understand informally that every number has a decimal expansion; for rational numbers show that the decimal expansion repeats eventually, and convert a decimal expansion which repeats eventually into a rational number.	Ready Unit 6 Lessons 24-25	EnVision: Lesson 1-1, 1-2, 1-3 iReady
2	**8.NS.2** Use rational approximations of irrational numbers to compare the size of irrational numbers, locate them approximately on a number line diagram, and estimate the value of expressions (e.g., π^2). For example, by truncating the decimal expansion of $\sqrt{2}$, show that $\sqrt{2}$ is between 1 and 2, then between 1.4 and 1.5, and explain how to continue on to get better approximations.	Ready Unit 6 Lessons 24-25	EnVision: Lesson 1-1, 1-2, 1-3 iReady
3	**8.EE.1** Know and apply the properties of integer exponents to generate equivalent numerical expressions. For example, $3^2 \times 3^{-5} = 3^{-3} = 1/3^3 = 1/27$. **8.EE.3** Use numbers expressed in the form of a single digit times an integer power of 10 to estimate very large or very small quantities, and to express how many times as much one is than the other. For example, estimate the population of the United States as 3×10^8 and the population of the world as 7×10^9, and determine that the world population is more than 20 times larger.	Ready Unit 5 Lesson 19, 20, 21	EnVision: Lesson 1-6, 1-7 iReady
4	**8.EE.2** Use square root and cube root symbols to represent solutions to equations of the form $x^2 = p$ and $x^3 = p$, where p is a positive rational number. Evaluate square roots of small perfect squares and cube roots of small perfect cubes. Know that $\sqrt{2}$ is irrational.	Ready Unit 6 Lesson 23	EnVision: Lesson 1-4, 1-5 iReady

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
5	**8.EE.4** Perform operations with numbers expressed in scientific notation, including problems where both decimal and scientific notation are used. Use scientific notation and choose units of appropriate size for measurements of very large or very small quantities (e.g., use millimeters per year for seafloor spreading). Interpret scientific notation that has been generated by technology.	Ready Unit 5 Lesson 22	EnVision: Lesson 1-9, 1-10 iReady
6	**8.G.6** Explain a proof of the Pythagorean Theorem and its converse. **8.G.7** Apply the Pythagorean Theorem to determine unknown side lengths in right triangles in real world and mathematical problems in two and three dimensions.	Ready Unit 6 Lesson 27	EnVision: Lesson 7-3, 7-4 iReady
7	**8.G.8** Apply the Pythagorean Theorem to find the distance between two points in a coordinate system.	Ready Unit 6 Lesson 27	EnVision: Lesson 7-3, 7-4 iReady
8	**Review**		
9	**Assess** **Mastery Connect Predictive Assessment (Benchmark #1)**		
10		Ready	EnVision: Lesson 2-5, 2-6, 2-7

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	8.EE.5 Graph proportional relationships, interpreting the unit rate as the slope of the graph. Compare two different proportional relationships represented in different ways. For example, compare a distance-time graph to a distance-time equation to determine which of two moving objects has greater speed.	Unit 3 Lesson 8	iReady
11	**8.EE.6** Use similar triangles to explain why the slope m is the same between any two distinct points on a non-vertical line in the coordinate plane; derive the equation y = mx for a line through the origin and the equation y = mx + b for a line intercepting the vertical axis at b.	Ready Unit 3 Lesson 9	EnVision: Lesson 2-8, 2-9 iReady
12	**8.EE.7** Solve linear equations in one variable. a. Give examples of linear equations in one variable with one solution, infinitely many solutions, or no solutions. Show which of these possibilities is the case by successively transforming the given equation into simpler forms, until an equivalent equation of the form x = a, a = a, or a = b results (where a and b are different numbers). b. Solve linear equations and inequalities with rational number coefficients, including those whose solutions require expanding expressions using the distributive property and collecting like terms.	Ready Unit 3 Lesson 10, 11	EnVision: Lesson 2-2, 2-3, 2-4 iReady
13	**8.EE.8** Analyze and solve pairs of simultaneous linear equations. a. Understand that solutions to a system of two linear equations in two variables correspond to points of intersection of their graphs, because points of intersection satisfy both equations simultaneously. b. Solve systems of two linear equations in two variables algebraically, and estimate solutions by graphing the equations. Solve simple cases by inspection. For example, 3x + 2y = 5 and 3x + 2y = 6 have no solution because 3x + 2y cannot simultaneously be 5 and 6.	Ready Unit 3 Lesson 12, 13, 14	EnVision: Lesson 5-1, 5-2, 5-3, 5-4 iReady

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	c. Solve real-world and mathematical problems leading to two linear equations in two variables. For example, given coordinates for two pairs of points, determine whether the line through the first pair of points intersects the line through the second pair.		
14	**8.F.1** Understand that a function is a rule that assigns to each input exactly one output. The graph of a function is the set of ordered pairs consisting of an input and the corresponding output.	Ready Unit 4 Lessons 15-16	EnVision: Lesson 3-3, 3-4 iReady
15	**8.F.2** Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a linear function represented by a table of values and a linear function represented by an algebraic expression, determine which function has the greater rate of change.	Ready Unit 4 Lesson 17	EnVision: Lesson 3-3 iReady
16	**8.F.3** Interpret the equation y = mx + b as defining a linear function, whose graph is a straight line; give examples of functions that are not linear. For example, the function $A = s^2$ giving the area of a square as a function of its side length is not linear because its graph contains the points (1,1), (2,4) and (3,9), which are not on a straight line. **8.F.5** Describe qualitatively the functional relationship between two quantities by analyzing a graph (e.g., where the function is increasing or decreasing, linear or nonlinear). Sketch a graph that exhibits the qualitative features of a function that has been described verbally.	Ready Unit 4 Lesson 15-18	EnVision: Lesson 3-4,3-5,3-6 iReady
17	**8.F.4** Construct a function to model a linear relationship between two quantities. Determine the rate of change and initial value of the function from a description of a relationship or from two (x, y) values, including reading these from a table or from a graph. Interpret the rate of change and initial value of a linear function in terms of the situation it models, and in terms of its graph or a table of values.	Ready Unit 4 Lesson 15-18	EnVision: Lesson 3-4,3-5,3-6 iReady

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
18	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #2)**		
19	**8.G.1** Verify experimentally the properties of rotations, reflections, and translations a. Lines are taken to lines, and line segments to line segments of the same length. b. Angles are taken to angles of the same measure. c. Parallel lines are taken to parallel lines.	Ready Unit 1 Lesson 1	EnVision No lesson iReady
20	**8.G.2** Understand that a two-dimensional figure is congruent to another if the second can be obtained from the first by a sequence of rotations, reflections, and translations; given two congruent figures, describe a sequence that exhibits the congruence between them.	Ready Unit 1 Lesson 3	Envision Lessons 6-4, 6-5 iReady
21	**8.G.3** Describe the effect of dilations, translations, rotations, and reflections on two-dimensional figures using coordinates.	Ready Unit 1 Lesson 2	Envision Lessons 6-1, 6-2, 6-3 iReady
22	**8.G.4** Understand that a two-dimensional figure is similar to another if the second can be obtained from the first by a sequence of rotations, reflections, translations, and dilations; given two similar two-dimensional figures, describe a sequence that exhibits the similarity between them.	Ready Unit 2 Lessons 4-5	Envision Lessons 6-6, 6-7 iReady
23	**8.G.5** Use informal arguments to establish facts about the angle sum and exterior angle of triangles, about the angles created when parallel lines are cut by a transversal, and the angle-angle criterion for similarity of triangles. For example, arrange three copies of the same triangle so	Ready Unit 2 Lesson 6, 7	Envision Lessons 6-8, 6-9, 6-10 iReady

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	that the sum of the three angles appears to form a line, and give an argument in terms of transversals why this is so.		
24	**8.G.9** Know the formulas for the volumes of cones, cylinders, and spheres and use them to solve real-world and mathematical problems.	Ready Unit 6 Lesson 28	EnVision: Lesson 8-2,8-3, 8-4 iReady
25	**8.G.9** continued	Ready Unit 6 Lesson 28	EnVision: Lesson 8-2,8-3, 8-4 iReady
26	**Review**		
27	**Assess** **Mastery Connect Predictive Assessment** **(Benchmark #3-Comprehensive)**		
28	**8.SP.1** Construct and interpret scatter plots for bivariate measurement data to investigate patterns of association between two quantities. Describe patterns such as clustering, outliers, positive or negative association, linear association, and nonlinear association. **8.SP.2** Know that straight lines are widely used to model relationships between two quantitative variables. For scatter plots that suggest a linear association, informally fit a straight line, and informally assess the model fit by judging the closeness of the data points to the line.	Ready Unit 7 Lessons 29-30	EnVision: Lesson 4-1, 4-2, 4-3 iReady

JCSD 8th Grade Math Pacing Guide

Week	Target Standards (MCCCRS)	Resources	Supplemental Resources:
29	**8.SP.3** Use the equation of a linear model to solve problems in the context of bivariate measurement data, interpreting the slope and intercept. For example, in a linear model for a biology experiment, interpret a slope of 1.5 cm/hr as meaning that an additional hour of sunlight each day is associated with an additional 1.5 cm in mature plant height. **8.SP.4** Understand that patterns of association can also be seen in bivariate categorical data by displaying frequencies and relative frequencies in a two-way table. Construct and interpret a two-way table summarizing data on two categorical variables collected from the same subjects. Use relative frequencies calculated for rows or columns to describe possible association between the two variables. For example, collect data from students in your class on whether or not they have a curfew on school nights and whether or not they have assigned chores at home. Is there evidence that those who have a curfew also tend to have chores?	Ready Unit 7 Lessons 31-32	EnVision: Lesson 4-4, 4-5 iReady
30-36	**Use benchmark data to reteach and remediate skills before MAAP.**

JCSD Algebra I Pacing Guide 2023 - 2024

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
Term 1			
7	**N-RN.3** Explain why the sum or product of two rational numbers is rational; the sum of a rational number and an irrational number is irrational; and the product of a nonzero rational number and an irrational number is irrational. **N-Q.1** Use units as a way to understand problems and to guide the solution of multi-step problems; choose and interpret units consistently in formulas; choose and interpret the scale and the origin in graphs and data displays. **N-Q.2** Define appropriate quantities for the purpose of descriptive modeling. **N-Q.3** Choose a level of accuracy appropriate to limitations on measurement when reporting quantities. **A-SSE.1** Interpret expressions that represent a quantity in terms of its context. a. Interpret parts of an expression, such as terms, factors, and Coefficients. b. Interpret complicated expressions by viewing one or more of their parts as a single entity. *For example, interpret P(1+r)n as the product of P and a factor not depending on P.* **A-CED.1** Create equations and inequalities in one variable and use them to solve problems. Include equations arising from linear and quadratic functions, and simple rational and exponential functions.		

2288

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	A-CED.3 Represent constraints by equations or inequalities, and by systems of equations and/or inequalities, and interpret solutions as viable or non-viable options in a modeling context. *For example, represent inequalities describing nutritional and cost constraints on combinations of different foods.* **A-CED.4** Rearrange formulas to highlight a quantity of interest, using the same reasoning as in solving equations. *For example, rearrange Ohm's law, V = IR, to highlight resistance, R*. **A-REI.1** Explain each step in solving a simple equation as following from the equality of numbers asserted at the previous step, starting from the assumption that the original equation has a solution. Construct a viable argument to justify a solution method. **A-REI.2** Solve simple rational and radical equations in one variable, and give examples showing how extraneous solutions may arise.		
12	**A-CED.2** Create equations in two variables to represent relationships between quantities; graph equations on coordinate axes with labels and scales. **A-REI.10** Understand that the graph of an equation in two variables is the set of all its solutions plotted in the coordinate plane, often forming a curve (which could be a line). **F-BF.1** Write a function that describes a relationship between two quantities. a. Determine an explicit expression or steps for calculation from a context. **F-BF.3** Identify the effect on the graph of replacing f(x) by f(x) + k, k f(x), f(kx), and f(x + k) for specific values of k (both positive and negative); find the value of k given the graphs. Experiment with cases and illustrate		

2289

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	an explanation of the effects on the graph using technology. Include recognizing even and odd functions from their graphs and algebraic expressions for them. **F-IF.1** Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then f(x) denotes the output of f corresponding to the input x. The graph of f is the graph of the equation y = f(x). **F-IF.2** Use function notation, evaluate functions for inputs in their domains, and interpret statements that use function notation in terms of a context. **F-IF.3** Recognize that sequences are functions whose domain is a subset of the integers. **F-IF.4** For a function that models a relationship between two quantities, interpret key features of graphs and tables in terms of the quantities, and sketch graphs showing key features given a verbal description of the relationship. Key features include: intercepts; intervals where the function is increasing, decreasing, positive, or negative; relative maximums and minimums; symmetries; end behavior; and periodicity. **F-IF.5** Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. **F-IF.6** Calculate and interpret the average rate of change of a function (presented symbolically or as a table) over a specified interval. Estimate the rate of change from a graph. **F-IF.7** Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases.		

2290

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	a. Graph functions (linear and quadratic) and show intercepts, maxima, and minima. **F-IF.9** Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a graph of one quadratic function and an algebraic expression for another, say which has the larger maximum. **F-LE.1** Distinguish between situations that can be modeled with linear functions and with exponential functions. a. Prove that linear functions grow by equal differences over equal intervals and that exponential functions grow by equal factors over equal intervals. b. Recognize situations in which one quantity changes at a constant rate per unit interval relative to another. c. Recognize situations in which a quantity grows or decays by a constant percent rate per unit interval relative to another. **F-LE.2** Construct linear and exponential functions, including arithmetic and geometric sequences, given a graph, a description of a relationship, or two input-output pairs (include reading these from a table). **F-LE.5** Interpret the parameters in a linear or exponential function in terms of a context.		
7	**S-ID.1** Represent and analyze data with plots on the real number line (dot plots, histograms, and box plots). **S-ID.2** Use statistics appropriate to the shape of the data distribution to compare center (median, mean) and spread (interquartile range, standard deviation) of two or more different data sets.		

2291

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	S-ID.3 Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). **S-ID.5** Summarize categorical data for two categories in two-way frequency tables. Interpret relative frequencies in the context of the data (including joint, marginal, and conditional relative frequencies). Recognize possible associations and trends in the data. **S-ID.6** Represent data on two quantitative variables on a scatter plot, and describe how the variables are related. **a**. Fit a function to the data; use functions fitted to data to solve problems in the context of the data. Use given functions or choose a function suggested by the context. Emphasize linear, quadratic, and exponential models. **b**. Informally assess the fit of a function by plotting and analyzing residuals. **c**. Fit a linear function for a scatter plot that suggests a linear association. **S-ID.7** Interpret the slope (rate of change) and the intercept (constant term) of a linear model in the context of the data. **S-ID.8** Compute (using technology) and interpret the correlation coefficient of a linear fit. **S-ID.9** Distinguish between correlation and causation.		
6	**A-REI.5** Given a system of two equations in two variables, show and explain why the sum of equivalent forms of the equations produces the same solution as the original system. **A-REI.6** Solve systems of linear equations algebraically, exactly, and graphically while focusing on pairs of linear equations in two variables**.**		

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

2292

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	A-REI.11 Explain why the x-coordinates of the points where the graphs of the equations y = f(x) and y = g(x) intersect are the solutions of the equation f(x) = g(x); find the solutions approximately, e.g., using technology to graph the functions, make tables of values, or find successive approximations. Include cases where f(x) and/or g(x) are linear, quadratic, absolute value, and exponential functions.* **A-REI.12** Graph the solutions to a linear inequality in two variables as a half-plane (excluding the boundary in the case of a strict inequality), and graph the solution set to a system of linear inequalities in two variables as the intersection of the corresponding half-planes. **A-CED.2** (continued) **A-CED.3** (continued)		
8	**A-SSE.3** Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. c. Use the properties of exponents to transform expressions for exponential functions. For example the expression 1.15t can be rewritten as [1.151/12] 12t §12t to reveal the approximate equivalent monthly interest rate if the annual rate is 15% **F-IF.7** Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases. b. Graph square root and piecewise-defined functions, including absolute value functions. **A-CED.1** (continued) **A-CED.2** (continued) **A-REI.10** (continued) **A-REI.11** (continued) **F-IF.2** (continued)		

* Refer to Scope and Sequence Document for Writing, Language, and Speaking/Listening to be taught in addition to standards already listed in the pacing guide.

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
	F-IF.4 (continued) **F-IF.5** (continued) **F-IF.6** (continued) **F-IF.9** (continued) **F-BF.1a**(continued) **F-BF.3** (continued) **F-LE.1a-c**(continued) **F-LE.2**(continued) **F-LE.5**(continued)		
5	**Review all Standards and Assess**		
Term 2			
7	**A-APR.1** Understand that polynomials form a system analogous to the integers, namely, they are closed under the operations of addition, subtraction, and multiplication; add, subtract, and multiply polynomials. **A-SSE.2** Use the structure of an expression to identify ways to rewrite it. For example, see x4 – y4 as (x2)2 – (y2)2 thus recognizing it as a difference of squares that can be factored as (x2 – y2) (x2 + y2). **A-SSE.3** Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. b. Complete the square in a quadratic expression to reveal the maximum or minimum value of the function it defines. **A-SSE.1a-b** (continued)

DAYS	Target Standards (MCCCRS)	Resources	Supplemental Resources:
9	**A-SSE.3** Choose and produce an equivalent form of an expression to reveal and explain properties of the quantity represented by the expression. a. Factor a quadratic expression to reveal the zeros of the function it defines **A-APR.3** Identify zeros of polynomials when suitable factorizations are available, and use the zeros to construct a rough graph of the function defined by the polynomial (limit to 1st- and 2nd degree polynomials). **A-REI.4** Solve quadratic equations in one variable. a. Use the method of completing the square to transform any quadratic equation in x into an equation of the form (x – p)2 = q that has the same solutions. Derive the quadratic formula from this form. b. Solve quadratic equations by inspection (e.g., for x2 = 49), taking square roots, completing the square, the quadratic formula and factoring, as appropriate to the initial form of the equation. Recognize when the quadratic formula gives complex solutions. **F-IF.7** Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases. a. Graph functions (linear and quadratic) and show intercepts, maxima, and minima. **F-IF.8** Write a function defined by an expression in different but equivalent forms to reveal and explain different properties of the function. a. Use the process of factoring and completing the square in a quadratic function to show zeros, extreme values, and symmetry of the graph, and interpret these in terms of a context.

JCSD Foundations of Algebra Pacing Guide 2023-2024

Unit	Days	Target Standards (MCCCRS)	Vocabulary
Term 1			
Review of the Number System			
Number System Properties	7	6.NS.7 Understand ordering and absolute value of rational numbers. 7.NS.2 Apply and extend previous understandings of multiplication and division and of fractions to multiply and divide rational numbers. 7.EE.1 Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients. 7.EE.3 Solve multi-step real-life and mathematical problems posed with positive and negative rational numbers in any form (whole numbers, fractions, and decimals), using tools strategically. Apply properties of operations to calculate with numbers in any form; convert between forms as appropriate; and assess the reasonableness of answers using mental computation and estimation strategies. For example: If a woman making $25 an hour gets a 10% raise, she will make an additional 1/10 of her salary an hour, or $2.50, for a new salary of $27.50. If you want to place a towel bar 9 3/4 inches long in the center of a door that is 27 1/2 inches wide, you will need to place the bar about 9 inches from each edge; this estimate can be used as a check on the exact computation. 8.EE.2 Use square root and cube root symbols to represent solutions to equations of the form $x^2 = p$ and $x^3 = p$, where p is a positive rational number. Evaluate square roots of small perfect squares and cube roots of small perfect cubes. Know that √2 is irrational. N-RN.3 Explain why:	Rational Irrational Exponent Integer Expressions Absolute Value Coefficients Square root Cube root Addition Property of Equality Distributive Property Division Property of Equality Inverse Operation Isolate Multiplication Property of Equality Subtraction Property of Equality

2298

JCSD Foundations of Algebra Pacing Guide 2023-2024

Unit	Days	Target Standards (MCCCRS)	Vocabulary
		● the sum or product of two rational numbers is rational; ● the sum of a rational number and an irrational number is irrational; ● the product of a nonzero rational number and an irrational number is irrational.	
Equations and Inequalities			
Algebraic Expressions	7	1.Interpret key features of an expression (i.e., terms, factors, and coefficients). ● A-SSE.1a- Identify the different parts of the expression and explain their meaning within the context of a problem. 2.Create expressions that can be modeled by a real-world context. 3 Use the structure of an expression to identify ways to rewrite it. ● A-SSE.2 Use the structure of an expression to identify ways to rewrite it. For example, see x4 – y4 as (x2)2 – (y2)2, thus recognizing it as a difference of squares that can be factored as (x2 – y2) (x2 + y2). 4.Simplify and evaluate numerical and algebraic expressions. ● 7.EE.1 Apply properties of operations as strategies to add, subtract, factor, and expand linear expressions with rational coefficients.	Algebraic Equation Algebraic Expression Base Coefficient Constant Exponent Factor Term Variable Distributive Property Greatest Common Factor GCF Equivalent Expressions Inverse Like Terms Simplest Form
Linear Equations	10	5.Compare and contrast an expression and an equation and give examples of each. 6.Given an equation, solve for a specified variable of degree one (i.e. isolate a variable). ● 6.EE.7 Solve real-world and mathematical problems by writing	Algebraic Equation Algebraic Expression Coefficient Constant Variable Like Terms

2299

JCSD Foundations of Algebra Pacing Guide 2023-2024

Unit	Days	Target Standards (MCCCRS)	Vocabulary
		and solving equations of the form x + p = q and px = q for cases in which p, q and x are all nonnegative rational numbers., ● 7.EE.4 Use variables to represent quantities in a real-world or mathematical problem, and construct simple equations and inequalities to solve problems by reasoning about the quantities. 7.Fluently solve and check multi-step equations and inequalities with an emphasis on the distributive property, variables on both sides, and rational coefficients. Explain each step when solving a multi step equation and inequality. Justify each step using the properties of real numbers. 8.Solve word problems leading to equations of the form px + q = r and p (x + q) = r, where p, q, and r are specific rational numbers. Solve equations of these forms fluently. ● 7.EE.4a Solve word problems leading to equations of the form px + q = r and p (x + q) = r, where p, q, and r are specific rational numbers. Solve equations of these forms fluently. Compare an algebraic solution to an arithmetic solution, identifying the sequence of the operations used in each approach. For example, the perimeter of a rectangle is 54 cm. Its length is 6 cm. What is its width? 9 Solve word problems leading to inequalities of the form px + q > r or px + q < r, where p, q, and r are specific rational numbers. Solve inequalities of these forms fluently. ● 7.EE.4b Solve word problems leading to inequalities of the form px + q > r or px + q < r, where p, q, and r are specific rational numbers. Graph the solution set of the inequality and interpret it in the context of the problem. For example: As a salesperson, you are paid $50 per week plus $3 per sale. This week you want	Distributive Property Addition Property of Equality Division Property of Equality Inequalities Inverse Operation Isolate Multiplication Property of Equality Subtraction Property of Equality Combine Like Terms Number Line Solution Point Solution Set Infinite Linear Equations Solution(s) Closed Circle (With Respect to Graphing) Number Line Open Circle (With Respect to Graphing) Shading

Unit	Days	Target Standards (MCCCRS)	Vocabulary
		your pay to be at least $100. Write an inequality for the number of sales you need to make and describe the solutions. 10.Graph the solution point of an equation and the solution set of an inequality in one variable on a horizontal number line. For inequalities, be able to interpret and write the solution set in a variety of ways (e.g., set notation). 11.Justify when linear equations in one variable will yield one solution, infinitely many solutions, or no solution. ● 8.EE.7a Perform operations with numbers expressed in scientific notation, including problems where both decimal and scientific notation are used. Use scientific notation and choose units of appropriate size for measurements of very large or very small quantities (e.g., use millimeters per year for seafloor spreading). Interpret scientific notation that has been generated by technology.	
Functions			
Introduction of Functions	8	12.Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. Use function notation, where appropriate. ● F-IF.1 Understand that a function from one set (called the domain) to another set (called the range) assigns to each element of the domain exactly one element of the range. If f is a function and x is an element of its domain, then f(x) denotes the output of f corresponding to the input x. The graph of f is the graph of the equation y = f(x). ● F-IF.2 Use function notation, evaluate functions for inputs in	Constraints Continuous Discrete Domain Element Function Function Notation Input Output Range Relation

2301

JCSD Foundations of Algebra Pacing Guide 2023-2024

Unit	Days	Target Standards (MCCCRS)	Vocabulary
		their domains, and interpret statements that use function notation in terms of a context. 13.Compare and contrast a function and a relation. Use appropriate strategies to assess whether a given situation represents a function or a relation (e.g., the vertical line test). 14.Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. ● F-IF.7 Graph functions expressed symbolically and show key features of the graph, by hand in simple cases and using technology for more complicated cases.	Set (Notation) Nonlinear Vertical Line Test
Statistics			
Measures of Central Tendency and Spread	4	40.Without technology, fluently calculate the measures of central tendency (mean, median, mode), measures of spread (range, interquartile range), and understand the impact of extreme values (outliers) on each of these values. ● 6.SP.5 Recognize a statistical question as one that anticipates variability in the data related to the question and accounts for it in the answers. , ● 8.SP.1 Construct and interpret scatter plots for bivariate measurement data to investigate patterns of association between two quantities. Describe patterns such as clustering, outliers, positive or negative association, linear association, and nonlinear association. ● S-ID.3 Interpret differences in shape, center, and spread in the context of the data sets, accounting for possible effects of extreme data points (outliers). *Justify which measure is*	Box-And-Whisker Plot Interquartile Range Mean Median Mode Outlier Range

		appropriate to use when describing a data set or a real-world context.	

2303

JCSD Foundations of Algebra Pacing Guide 2023-2024

Unit	Days	Target Standards (MCCCRS)	Vocabulary
Scatter Plots	4	41.Construct and interpret scatter plots for bivariate measurement data to investigate patterns of association between two quantities. Describe patterns such as clustering, outliers, positive or negative association, linear association, and nonlinear association. ● 8.SP.1 Construct and interpret scatter plots for bivariate measurement data to investigate patterns of association between two quantities. Describe patterns such as clustering, outliers, positive or negative association, linear association, and nonlinear association. 42.Know when it is and is not appropriate to use a linear model to make predictions about a data set beyond a given set of values. Explain extrapolation and interpolation and the impact both have on predicted values. 43.For scatter plots that suggest a linear association, informally fit a straight line, and predict the equation for the line of best fit. ● 8.SP.2 Know that straight lines are widely used to model relationships between two quantitative variables. For scatter plots that suggest a linear association, informally fit a straight line, and informally assess the model fit by judging the closeness of the data points to the line. 44.Justify the relationship between the correlation coefficient and the rate of change for the line of best fit. 45.Understand the difference between correlation and causation and identify real-world contexts that depict each of them. ● S-ID.9 Distinguish between correlation and causation.	Association Correlation Line of Best Fit Negative Correlation No Correlation Positive Correlation Scatter Plot Linear Extrapolation Linear Interpolation Slope Slope-Intercept Form of An Equation Y-Intercept Causation

		information. Fluently convert between the point-slope, slope-intercept, and standard form of a line. 19 Create and identify the parent function for linear and quadratic functions in the Coordinate Plane. 20.Compare the properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a linear function represented by a table of values and a linear function represented by an algebraic expression, determine which function has the greater rate of change. (Limited to linear and quadratic functions only.) ● 8.F.2 Compare properties of two functions each represented in a different way (algebraically, graphically, numerically in tables, or by verbal descriptions). For example, given a linear function represented by a table of values and a linear function represented by an algebraic expression, determine which function has the greater rate of change. 21.Describe the following characteristics of linear and quadratic parent functions by inspection: domain/range, increasing/decreasing intervals, intercepts, symmetry, and asymptotic behavior. Identify each characteristic in set notation or words, where appropriate. ● Algebra III, standard 8 Determine characteristics of graphs of parent functions (domain/range, increasing/decreasing intervals, intercepts, symmetry, end behavior, and asymptotic behavior). 26.Perform simple translations on linear functions given in a variety of forms (e.g., two points, a graph, a table of values, a mapping, slope-intercept form, or standard form). Explain the impact on the parent function when the slope is greater than one or less than one and the effect of increasing/decreasing the y-intercept. Earth and Space Science - Earth and the Universe

Conceptual Understanding: The hierarchical organization of the universe is the result of complex structure and function. Current theories suggest that time began with a period of extremely rapid expansion. Presently, Earth's solar system consists of the Sun and other objects that are held in orbit by the Sun's gravitational force. The interactions of the Earth, the Moon, and the Sun have effects that can be observed on Earth. Various technologies have aided in our understanding of Earth's place in the universe.

E.6.8 Students will demonstrate an understanding of Earth's place in the universe and the interactions of the solar system (sun, planets, their moons, comets,

JCSD 6th Grade Science Pacing Guide 23-24 School Year

Life Science - Hierarchical Organization **Conceptual Understanding:** Living things are distinguished from nonliving things by several characteristics. All living things are comprised of one (unicellular) or more (multicellular) cells, which are the smallest units of life. Cells carry out life functions and undergo cell division using specialized structures that allow them to acquire energy and water, grow, reproduce, dispose of waste, and survive. Multicellular organisms are organized in a hierarchy of increasing complexity with related, specialized structures and functions. **L.6.1** Students will demonstrate an understanding that living things range from simple to complex organisms, are organized hierarchically, and function as whole living systems.			
19 (7 DAYS)	**L.6.1.1** Use arguments supported by evidence in order to distinguish between living and non-living things, including viruses and bacteria. **L.6.1.2** Obtain and communicate evidence to support the cell theory.	Stemscopes Kesler Science	Bacteria Cell Membrane Cell Wall Chloroplast Endoplasmic Reticulum Eukaryote Golgi Bodies Mitochondria Prokaryote Ribosomes Vacuole Viruses
20	**L.6.1.3** Develop and use models to explain how specific cellular components (cell wall, cell membrane, nucleus, chloroplast, vacuole, and mitochondria) function together to support the life of prokaryotic and eukaryotic organisms to include plants, animals, fungi, protists, and bacteria (not to include biochemical function of cells or cell part).	Stemscopes Kesler Science	
21	**L.6.1.4** Compare and contrast different cells in order to classify them as a protist, fungus, plant, or animal.	Stemscopes Kesler Science	Protist Fungus Unicellular Multi-Cellular

23	**L.6.1.6** Develop and use models to show relationships among the increasing complexity of multicellular organisms (cells, issues, organs, organ systems, organisms) and how they serve the needs of the organism.	Stemscopes Kesler Science	
Life Science - Ecology and Interdependence **Conceptual Understanding:** All organisms depend on biotic and abiotic factors for survival. When any environmental factor changes, a corresponding change in diversity and population of organisms will also occur. The environment and the organism in which it lives are therefore interdependent. **L.6.3** Students will demonstrate an understanding of the relationships among survival, environmental changes, and diversity as they relate to the interactions of organisms, populations, and the environment.			
24	**L.6.3.1** Use scientific reasoning to explain differences between biotic and abiotic factors that demonstrate what living organisms need to survive. Life Science - Adaptation and Diversity

Conceptual Understanding: Because living organisms are so diverse, scientists have created a system by which living things are organized into groups according to their characteristics (physical and/or genomic) for identification and research purposes. The kingdoms are very diverse but also have quite a bit in common. Organisms exhibit structural and behavioral characteristics such as adaptations, patterns of growth and development, and life cycles that increase their chances of reproduction and survival in a changing environment.

L.6.4 Students will demonstrate an understanding of classification tools and models such as dichotomous keys to classify representative organisms based on

JCSD 6th Grade Science Pacing Guide 23-24 School Year

Structure and Function

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
the characteristics of the kingdoms: Archaebacteria, Eubacteria, Protists, Fungi, Plants, and Animals.			
31	**L.6.4.1** Compare and contrast modern classification techniques (e.g., analyzing genetic material) to the historical practices used by scientists such as Aristotle and Carolus Linnaeus. **L.6.4.2** Use classification methods to explore the diversity of organisms in kingdoms (animals, plants, fungi, protists, bacteria). Support claims that organisms have shared structural and behavioral characteristics. Systems and Cycles

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Physical Science - Organization of Matter and Chemical Interactions **Conceptual Understanding:** Matter and its interactions can be distinguished by investigating physical properties (e.g., mass, density, solubility) using chemical processes and experimentation. Changes to substances can either be physical or chemical. **P.7.5A** Students will demonstrate an understanding of the physical and chemical properties of matter.			
0-1	**P.7.5A.1** Collect and evaluate qualitative data to describe substances using physical properties (state, boiling/melting point, density, heat/electrical conductivity, color, and magnetic properties).	Stemscopes Kesler	Boiling Point Chemical Change Chemical Property Conductivity Density Matter Melting Point Physical Change Physical Property Solubility Substance
2	**P.7.5A.2** Analyze and interpret qualitative data to describe substances using chemical properties (the ability to burn or rust).	Stemscopes Kesler	
3	**P.7.5A.3** Compare and contrast chemical and physical properties (e.g., combustion, oxidation, pH, solubility, reaction with water).	Stemscopes Kesler	
Conceptual Understanding: Atoms are the basic building blocks of ordinary elements. Compounds are substances composed of two or more elements. Chemical formulas can be used to describe compounds. The periodic table orders elements horizontally by the number of protons in the atom's nucleus and			

JCSD 7th Grade Science Pacing Guide 23-24 School Year

Systems and Cycles

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
places those with similar chemical properties in columns. The element position on the periodic table can also be used to predict the type of bonding that most commonly occurs between the elements. **P.7.5C** Students will demonstrate an understanding of the proper use of the periodic table to predict and identify elemental properties and how elements interact.			
4	**P.7.5C.1** Develop and use models that explain the structure of an atom. **P.7.5C.2** Use informational text to sequence the major discoveries leading to the current atomic model.	Stemscopes Kesler	Atom Bohr Model Electron Cloud Electrons Neutrons Nuclear Atomic Model Nucleus Orbitals Planetary Atomic Model Plum Pudding Atomic Model Protons Solid Sphere Atomic Model
5	**P.7.5C.3** Collect, organize, and interpret data from investigations to identify and analyze the relationships between the physical and chemical properties of elements, atoms, molecules, compounds, solutions, and mixtures.	Stemscopes Kesler	
Conceptual Understanding: Matter is made of atoms and/or molecules that are in constant motion. The movement of the atoms and molecules depends on the amount of energy in the system at the time. The changes of state that occur with variations in temperature or pressure can be described and predicted using these models of matter. **P.7.5B** Students will demonstrate an understanding about the effects of temperature and pressure on physical state, molecular motion, and molecular interactions.			
6	**P.7.5B.1** Make predictions about the effect of temperature and pressure on the relative motion of atoms and molecules (speed,	Stemscopes	Condensation Density

Systems and Cycles

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Earth and Space Science - Earth's Systems and Cycles **Conceptual Understanding:** Complex patterns in the movement of air and water in the atmosphere are major determinants of local weather. Global movements of water and its changes in form are propelled by sunlight and gravity. Variations in temperature drive a global pattern of interconnected currents. Interactions between sunlight, oceans, atmosphere, ice, landforms, and living things vary with latitude, altitude, and local and regional geography. Weather is difficult to predict; however, large-scale patterns and trends in global climate, such as the gradual increase in average temperature, are more easily observed and predicted. **E.7.9A** Students will demonstrate an understanding of how complex changes in the movement and patterns of air and water molecules caused by the sun, winds, landforms, ocean temperatures, and currents in the atmosphere are major determinants of local and global weather patterns.			
28	**E.7.9A.2** Analyze evidence to explain the weather conditions that result from the relationship between the movement of water and air masses. **E.7.9A.3** Interpret atmospheric data from satellites, radar, and weather maps to predict weather patterns and conditions.	Stemscopes Kesler	Air Mass (Low /High Pressure) Barometer Condensation Determinants Dew Point Evaporation Exosphere Front (Warm, Cold) Frontal Boundary Global Wind System Jet Stream Ozone Layer Precipitation Stratosphere Topography Troposphere Weather System
29	**E.7.9A.6** Research and use models to explain what type of weather (thunderstorms, hurricanes, and tornadoes) results from the movement and interactions of air masses, high and low pressure systems, and frontal boundaries. **E.7.9A.7** Interpret topographic maps to predict how local and regional geography affect weather patterns and make them difficult to predict.	Stemscopes Kesler	

JCSD 7th Grade Science Pacing Guide 23-24 School Year

Systems and Cycles

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
30	**E.7.9A.1** Analyze and interpret weather patterns from various regions to differentiate between weather and climate.	Stemscopes Kesler	Air Mass (Low /High Pressure) Barometer Condensation Determinants Dew Point Evaporation Exosphere Front (Warm, Cold) Frontal Boundary Global Wind System Jet Stream Ozone Layer Precipitation Stratosphere Topography Troposphere Weather System
31	**E.7.9A.4** Construct an explanation for how climate is determined in an area using global and surface features (e.g. latitude, elevation, shape of the land, distance from water, global winds and ocean currents). **E.7.9A.5** Analyze models to explain the cause and effect relationship between solar energy and convection and the resulting weather patterns and climate conditions.	Stemscopes Kesler	
Conceptual Understanding: Climate changes are defined as significant and persistent changes in an area's average or extreme weather conditions. Changes can occur if any of Earth's systems change (e.g., composition of the atmosphere, reflectivity of Earth's surface). The ocean exerts a major influence on weather and climate by absorbing energy from the sun, releasing it over time, and globally redistributing it through ocean currents. Greenhouse gases in the atmosphere absorb and retain the energy radiated from land and ocean surfaces, thereby regulating Earth's average surface temperature and keeping it habitable. Excess greenhouse gasses could cause a detrimental impact on climate over time. **E.7.9B** Students will demonstrate an understanding of the relationship between natural phenomena, human activity, and global climate change.			
32	**E.7.9B.1** Read and evaluate scientific or technical information	Stemscopes	Climate

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	assessing the evidence and bias of each source to explain the causes and effects of climate change. **E.7.9B.2** Interpret data about the relationship between the release of carbon dioxide from burning fossil fuels into the atmosphere and the presence of greenhouse gasses. **E.7.9B.3** Engage in scientific argument based on current evidence to determine whether climate change happens naturally or is being accelerated through the influence of man.	Kesler	Exosphere Global Climate Greenhouse Effect Mesosphere Ozone Layer Stratosphere Thermosphere Troposphere
Conceptual Understanding: The tilt of Earth's spin axis with respect to the plane of its orbit around the sun is important for a habitable Earth. The Earth's spin axis is tilted 23.5 degrees. Earth's axis points in the same direction in space no matter where Earth is in relation to the sun. The seasons are a result of this tilt and are caused by the differential intensity of sunlight on different areas of Earth across the year. **E.7.9C** Students will demonstrate an understanding that the seasons are the direct result of the Earth's tilt and the intensity of sunlight on the Earth's hemispheres.			
33	**E.7.9C.1** Construct models and diagrams to illustrate how the tilt of Earth's axis results in differences in intensity of sunlight on the Earth's hemispheres throughout the course of one full revolution around the Sun.	Stemscopes Kesler	Axis Axis Points (Poles) Equator Equinox Hemisphere Orbit Revolution Rotation Season Tilt
34	**E.7.9C.2** Investigate how variations of sunlight intensity experienced by each hemisphere (to include the equator and poles) create the four seasons.

Life Science - Reproduction and Heredity **Conceptual Understanding:** Organisms reproduce, either sexually or asexually, and transfer their genetic information to their offspring. The process of passing genetic information to offspring is inheritance. During sexual reproduction, genetic information is passed to offspring resulting in similarities and differences between parental organisms and their offspring. There are advantages and disadvantages of the two types of reproduction. **L.8.2A** Students will demonstrate an understanding of how sexual reproduction results in offspring with genetic variation while asexual reproduction results in offspring with identical genetic information.			
0-1	**L.8.2A.1** Obtain and communicate information about the relationship of genes, chromosomes, and DNA, and construct explanations comparing their relationship to inherited characteristics.	Stemscopes Kesler	Asexual Reproduction Binary Fission Budding Chromosome Fungi Mitosis Offspring Sexual Reproduction Vegetative Propagation
2	**L.8.2A.2** Create a diagram of mitosis and explain its role in asexual reproduction, which results in offspring with identical genetic information.	Stemscopes Kesler	
3	**L.8.2A.3** Construct explanations of how genetic information is transferred during meiosis. **L.8.2A.4** Engage in discussion using models and evidence to explain that sexual reproduction produces offspring that have a new combination of genetic information different from either parent. Cause and Effect

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
4	**L.8.2A.5** Compare and contrast advantages and disadvantages of asexual and sexual reproduction.	Stemscopes Kesler	
Conceptual Understanding: Inheritance is the key process causing similarities between parental organisms and their offspring. Organisms that reproduce sexually transfer genetic information (DNA) to their offspring. This transfer of genetic information through inheritance leads to greater similarity among individuals within a population than between populations. Genetic changes can accumulate through natural selection or mutation that can lead to the evolution of species. Humans can manipulate genetic information using technology. **L.8.2B** Students will demonstrate an understanding of the differences in inherited and acquired characteristics and how environmental factors (natural selection) and the use of technologies (selective breeding, genetic engineering) influence the transfer of genetic information.			
5	**L.8.2B.2** Use various scientific resources to research and support the historical findings of Gregor Mendel to explain the basic principles of heredity.	Stemscopes Kesler	Allele Dominant Trait Genotype Heredity Heterozygous Homozygous Phenotype Punnett Square Recessive Trait
6	**L.8.2B.3** Use mathematical and computational thinking to analyze data and make predictions about the outcome of specific genetic crosses (monohybrid Punnett Squares) involving simple dominant/recessive traits.	Stemscopes Kesler	
7	**L.8.2B.1** Construct an argument based on evidence for how environmental and genetic factors influence the growth of organisms.	Stemscopes Kesler	Artificial Selection Evolution Favorable Trait Genes Genetic Engineering Genotype

Stemscopes Kesler	Inherited Characteristics Natural Selection Pedigree Phenotype Selective Breeding Trait Variation
9	**Review and Assess** **Mastery Connect Predictive Assessment (Benchmark #1)**	Stemscopes Kesler	
Conceptual Understanding: Genes are located on the chromosomes of cells, with each chromosome pair containing two variations of each distinct gene. Each distinct gene chiefly controls the production of a specific protein, which in turn affects the traits of the individual. Changes (mutations) in genes can result in changes to proteins, which can affect the structures and functions of the organism and thereby change traits. **L.8.2C** Students will demonstrate an understanding that chromosomes contain many distinct genes and that each gene holds the instructions for the production of a specific protein, which in turn affects the traits of an individual.			
10	**L.8.2C.1** Communicate through diagrams that chromosomes contain many distinct genes and that each gene holds the instructions for the production of specific proteins, which in turn affects the traits of the individual (not to include transcription or translation).	Stemscopes Kesler	Proteins Mutation Chromosome Gene Gene Pool Protein Evolutionary History Variation

Cause and Effect

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Adaptation and Diversity **Conceptual Understanding:** The scientific theory of evolution underlies the study of biology and provides an explanation for both the diversity of life on Earth and similarities of all organisms at the chemical, cellular, and molecular level. Multiple forms of scientific evidence support the theory of evolution. Adaptations are physical or behavioral changes that are inherited and enhance the ability of an organism to survive and reproduce in a particular environment. **L.8.4A** Students will demonstrate an understanding of the process of natural selection, in which variations in a population increase some individuals' likelihood of surviving and reproducing in a changing environment.			
12	**L.8.4A.1** Use various scientific resources to analyze the historical findings of Charles Darwin to explain basic principles of natural selection. **L.8.4A.2** Investigate to construct explanations about natural selection that connect growth, survival, and reproduction to genetic factors, environmental factors, food intake, and interactions with other organisms.	Stemscopes Kesler	Natural Selection Population Variation Favorable Traits Theory of Evolution
Conceptual Understanding: Adaptation by natural selection acting over generations is one important process by which species change over time in response to changes in environmental conditions. The traits of organisms that survive a change in the environment are inherited by offspring and become more common in the population. The traits of organisms that cannot survive a change in the environment are not passed to offspring and become less common. In separated populations, the changes can be large enough that the populations evolve to become separate species. Extinction occurs when the environment changes and the adaptive characteristics of a species, including its behaviors, are insufficient to allow its survival. **L.8.4B** Students will demonstrate an understanding of how similarities and differences among living and extinct species provide evidence that changes have occurred in organisms over time and that similarity of characteristics provides evidence of common ancestry.			
13	**L.8.4B.1** Analyze and interpret data (e.g. pictures, graphs) to explain	Stemscopes	Adaptation

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	how natural selection may lead to increases and decreases of specific traits in populations over time. **L.8.4B.2** Construct written and verbal explanations to describe how genetic variations of traits in a population increase some organisms' probability of surviving and reproducing in a specific environment.	Kesler	Analogous Structures Common Ancestry Embryological Structures Generation Generic Variation Homologous Structures Natural Selection Population Speciation
14	**L.8.4B.3** Obtain and evaluate scientific information to explain that separated populations, that remain separated, can evolve through mutations to become a new species (speciation). **L.8.4B.4** Analyze displays of pictorial data to compare and contrast embryological and homologous/analogous structures across multiple species to identify evolutionary relationships.	Stemscopes Kesler	
Earth and Space Science: Earth's Structure and History **Conceptual Understanding:** Fossils are preserved remains or traces of organisms that lived in the past. Thousands of layers of sedimentary rock not only provide evidence of the history of Earth itself but also of changes in organisms whose fossil remains have been found in those layers. The collection of fossils and their placement in chronological order (e.g., through the location of rock layers or through radioactive dating) is collectively known as the fossil record. It documents the existence, diversity, extinction, and change of many life forms throughout the history of life on Earth. **E.8.7** Students will demonstrate an understanding of geological evidence to analyze patterns in Earth's major events, processes, and evolution in history.			
15	**E.8.7.1** Use scientific evidence to create a timeline of Earth's history that depicts relative dates from index fossil records and layers of rock (strata). **E.8.7.2** Create a model of the processes involved in the rock cycle and relate it to the fossil record. Earth's Systems and Cycles

Conceptual Understanding: Earth systems and cycles are characterized by cause and effect relationships. All Earth processes are the result of energy flowing and matter cycling within and among the planet's systems. Landforms and water distribution result from constructive and destructive processes. Physical and chemical interactions among rocks, sediments, water, air, and organisms produce soil. Water's movements—both on the land and underground—cause weathering and erosion. Plate tectonics is the unifying theory that explains the past and current crustal movements at the surface. This theory provides a framework for understanding geological history. Mapping land and water patterns based on investigations of rocks and fossils can help forecast the proximity and probability of future events.

E.8.9A Students will demonstrate an understanding that physical processes and major geological events (e.g., plate movement, volcanic activity, mountain building, weathering, erosion) are powered by the Sun and the Earth's internal heat and have occurred over millions of years.

JCSD 8th Grade Science Pacing Guide 23-24 School Year

Cause and Effect

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
19 (7 DAYS)	**E.8.9A.1** Investigate and explain how the flow of Earth's internal energy drives the cycling of matter through convection currents between Earth's surface and the deep interior causing plate movements. **E.8.9A.2** Explore and debate theories of plate tectonics to form conclusions about past and current movements of rocks at Earth's surface throughout history.	Stemscopes Kesler	Asthenosphere Convergent Boundary Divergent Boundary Geoscience Process Lithosphere Mid-Ocean Ridge Plate Boundary Plate Tectonics Topography Transform Boundary
20	**E.8.9A.3** Map land and water patterns from various time periods and use rocks and fossils to report evidence of how Earth's plates have moved great distances, collided, and spread apart. **E.8.9A.4** Research and assess the credibility of scientific ideas to debate and discuss how Earth's constructive and destructive processes have changed Earth's surface at varying time and spatial scales.	Stemscopes Kesler	
21	**E.8.9A.5** Use models that demonstrate convergent and divergent plate movements that are responsible for most landforms and the distribution of most rocks and minerals within Earth's crust.	Stemscopes Kesler	Weathering Erosion Minerals Surface Water Ground Water Topography Lithosphere
22	**E.8.9A.6** Design and conduct investigations to evaluate the chemical	Stemscopes

Cause and Effect

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Physical Science - Motions, Forces, and Energy **Conceptual Understanding:** Waves have energy that is transferred when they interact with various types of matter. A repeating pattern of motion allows the transfer of energy from place to place without overall displacement of matter. All types of waves have some features in common. When waves interact, they affect each other resulting in changes to the resonance. Many modern technologies are based on waves and their interactions with matter. **P.8.6** Students will demonstrate an understanding of the properties, behaviors, and application of waves.			
28	***USE BENCHMARK DATA TO DETERMINE THE ORDER AND PRIORITY OF THE STANDARDS FOR WEEKS 28-31. **P.8.6.1** Collect, organize, and interpret data about the characteristics of sound and light waves to construct explanations about the relationship between matter and energy. **P.8.6.2** Investigate research-based mechanisms for capturing and converting wave energy (frequency, amplitude, wavelength, and speed) into electrical energy. **P.8.6.3** Conduct simple investigations about the performance of waves to describe their behavior (e.g., refraction, reflection, transmission, and absorption) as they interact with various materials (e.g., lenses, mirrors, and prisms).	Stemscopes Kesler	Absorption Amplitude Crest Frequency Reflection Refraction Speed Transmission Trough Wavelength
29	**P.8.6.4** Use scientific processes to plan and conduct controlled	Stemscopes	Digitized Signals

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Cells as a System **Conceptual Understanding:** Biologists have determined that organisms share unique characteristics that differentiate them from non-living things. Organisms range from very simple to extremely complex. **BIO.1A Students will demonstrate an understanding of the characteristics of life and biological organization.**			
1-2 **Beginning of Course & Intro to Biology**	**BIO.1A.1** Develop criteria to differentiate between living and non-living things. **BIO.1A.2** Describe the tenets of cell theory and the contributions of Schwann, Hooke, Schleiden, and Virchow. **BIO.1A.3** Using specific examples, explain how cells can be organized into complex tissues, organs, and organ systems in multicellular organisms. **BIO.1A.4** Use evidence from the current scientific literature to support whether a virus is living or non-living.	• Candle Demonstration (Living or Nonliving)	Cell Organelle Cell Theory Eukaryote Homeostasis Law Prokaryote Scientific Claim Virus Bacteria
Cells as a System **Conceptual Understanding:** Organisms are composed of four primary macromolecules: carbohydrates, lipids, proteins, and nucleic acids. Metabolism is the sum of all chemical reactions between molecules within cells. Cells continuously utilize materials obtained from the environment and the breakdown of other macromolecules to synthesize their own large macromolecules for cellular structures and functions. These metabolic reactions require enzymes for catalysis. **BIO.1B Students will analyze the structure and function of the macromolecules that make up cells.**			
3		• Enzyme Reactivity Lab	Carbohydrate Enzyme

2350

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Organic Molecules	**BIO.1B.1** Develop and use models to compare and contrast the structure and function of carbohydrates, lipids, proteins, and nucleic acids (DNA and RNA) in organisms. **BIO.1B.2** Design and conduct an experiment to determine how enzymes react given various environmental conditions (i.e., pH, temperature, and concentration). Analyze, interpret, graph, and present data to explain how those changing conditions affect the enzyme activity and the rate of the reactions that take place in biological organisms.		Fatty Acids Lipid Monomer Nucleic Acid Polymer Protein
Cells as a System **Conceptual Understanding:** Cells are the basic units of all organisms, both prokaryotes and eukaryotes. Prokaryotic and eukaryotic cells differ in key structural features, but both can perform all functions necessary for life. **BIO.1C Students will relate the diversity of organelles to a variety of specialized cellular functions.**			
4	**BIO.1C.1** Develop and use models to explore how specialized structures within cells (e.g., nucleus,		Cell Membrane Cell Wall

2351

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Cells	cytoskeleton, endoplasmic reticulum, ribosomes, Golgi apparatus, lysosomes, mitochondria, chloroplast, centrosomes, and vacuoles) interact to carry out the functions necessary for organism survival. **BIO.1C.2** Investigate to compare and contrast prokaryotic cells and eukaryotic cells, and plant, animal, and fungal cells. **BIO.1C.3** Contrast the structure of viruses with that of cells and explain why viruses must use living cells to reproduce. **BIO.1A.1** (continued) **BIO.1A.2** (continued) **BIO.1A.3** (continued) **BIO.1A.4**(continued)		Mitochondria Chloroplast Nucleus Organelle Ribosome Vacuole Golgi Body Lysosome Endoplasmic Reticulum
Cells as a System **Conceptual Understanding:** The structure of the cell membrane allows it to be a selectively permeable barrier and maintain homeostasis. Substances that enter or exit the cell must do so via the cell membrane. This transport across the membrane may occur through a variety of mechanisms, including simple diffusion, facilitated diffusion, osmosis, and active transport. **BIO.1D Students will describe the structure of the cell membrane and analyze how the structure is related to its primary function of regulating transport in and out of cells to maintain homeostasis.**			
5 **Cell Membrane and Transport**	**BIO.1D.1** Plan and conduct investigations to prove that the cell membrane is semi-permeable, allowing it to maintain homeostasis with its environment through active and passive transport processes. **BIO.1D.2** Develop and use models to explain how the cell deals with imbalances of solute concentration across the	• Egg Osmosis Lab	Active Transport Diffusion Homeostasis Metabolism Osmosis Passive Transport Semi-Permeable

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	cell membrane (i.e., hypertonic, hypotonic, and isotonic conditions, sodium/potassium pump).		(selectively permeable)
Energy Transfer **Conceptual Understanding:** Organisms require energy to perform life functions. Cells are transformers of energy, continuously utilizing a complex sequence of reactions in which energy is transferred from one form to another, for example, from light energy to chemical energy to kinetic energy. Emphasis is on illustration the inputs and outputs of matter and the transfer and transformation of energy in photosynthesis and cellular respiration. Assessment is limited to identification of the phases (i.e., glycolysis, citric acid cycle, and electron transport chain) in cellular respiration as well as light and light-independent reactions of photosynthesis and does not include specific biochemical reactions within the phases. **BIO.2 Students will explain that cells transform energy through the processes of photosynthesis and cellular respiration to drive cellular functions.**			
6 **Cellular Energy**	**BIO.2.1** Use models to demonstrate that ATP and ADP are cycled within a cell as a means to transfer energy. **BIO.2.2** Develop models of the major reactants and products of photosynthesis to demonstrate the transformation of light energy into stored chemical energy in cells. Emphasize the chemical processes in which bonds are broken and energy is released, and new bonds are formed and energy is stored **BIO.2.3** Develop models of the major reactants and products of cellular respiration (aerobic and anaerobic) to demonstrate the transformation of the chemical energy stored in food to the available energy of ATP. Emphasize the chemical processes in which bonds are broken and energy is released, and new bonds are formed and energy is stored. **BIO.2.4** Conduct scientific investigations or computer simulations to compare aerobic and anaerobic cellular respiration in plants and animals, using real-world examples.	• Yeast Cell Respiration Lab	Adenosine Triphosphate Aerobic Cellular Respiration Anaerobic Cellular Respiration Cellular Respiration Electron Transport Chain Glucose Glycolysis Krebs Cycle Light-Dependent Reactions Light-Independent Reactions (Calvin Cycle) Photosynthesis Reactant

2353

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	BIO.2.5 **Enrichment:** Investigate variables (e.g., nutrient availability, temperature) that affect anaerobic respiration and current real-world applications of fermentation. **BIO.2.6** **Enrichment:** Use an engineering design process to manipulate factors involved in fermentation to optimize energy production.		
Cells as a System **Conceptual Understanding:** Cells grow and reproduce through a regulated cell cycle. Within multicellular organisms, cells repeatedly divide for repair, replacement, and growth,. Likewise, an embryo begins as a single cell that reproduces to form a complex, multicellular organism through the processes of cell division and differentiation. **BIO.1E Students will develop and use models to explain the role of the cell cycle during growth, development, and maintenance in multicellular organisms.**			
7 **Cell Cycle**	**BIO.1E.1** Construct models to explain how the processes of cell division and cell differentiation produce and maintain complex multicellular organisms **BIO.1E.2** Identify and describe the changes that occur in a cell during replication. Explore problems that might occur if the cell does not progress through the cycle correctly (cancer). **BIO.1E.3** Relate the processes of cellular reproduction to asexual reproduction in simple organisms (i.e., budding, vegetative propagation, regeneration, binary fission). Explain why the DNA of the daughter cells is the same as the parent cell. **BIO.1E.4** **Enrichment:** Use an engineering design process to investigate the role of stem cells in regeneration and		Anaphase Binary Fission Cancer Cell Cycle Cytokinesis DNA Replication Interphase Metaphase Mitosis Prophase Somatic Cell Stem Cell Telophase

2354

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
	asexual reproduction, then develop applications of stem cell research to solve human medical conditions.		
Reproduction and Heredity **Conceptual Understanding:** Somatic cells contain homologous pairs of chromosomes, one member of each pair obtained from each parent, that form a diploid set of chromosomes in each cell. These chromosomes are similar in genetic information but may contain different alleles of these genes. For sexual reproduction, an offspring must inherit a haploid set from each parent. Haploid gametes are formed by meiosis, a specialized cell division in which the chromosome number is reduced by half. During meiosis, members of a homologous pair may exchange information and then are randomly sorted into gametes resulting in genetic variation in sex cells. **BIO.3A Students will develop and use models to explain the role of meiosis in the production of haploid gametes required for sexual reproduction.**			
8 **Protein Synthesis**	**BIO.3A.1** Model sex cell formation (meiosis) and combination (fertilization) to demonstrate the maintenance of chromosome number through each generation in sexually reproducing populations. Explain why the DNA of the daughter cells is different from the DNA of the parent cell. **BIO.3A.2** Compare and contrast mitosis and meiosis in terms of reproduction. **BIO.3A.3** Investigate chromosomal abnormalities (e.g., Down syndrome, Turner's syndrome, and Klinefelter syndrome) that might arise from errors in meiosis (nondisjunction) and how these abnormalities are identified (karyotypes).		Allele Cell Cycle Chromosome Crossing Over Diploid Gametes Genetic Modification Haploid Meiosis Mutation Spore Trait
Reproduction and Heredity **Conceptual Understanding:** Gene expression results in the production of proteins and thus determines the phenotypes of the organism. Changes in the DNA occur throughout an organism's life. Mutations are a source of genetic variation that may have a positive, negative, or no effect on the organism.			

2355

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
BIO.3C Students will construct an explanation based on evidence to describe how the structure and nucleotide base sequence of DNA determines the structure of proteins or RNA that carry out essential functions of life.			
(continued)	**BIO.3C.1** Develop and use models to explain the relationship between DNA, genes, and chromosomes in coding the instructions for the traits transferred from parent to offspring **BIO.3C.2** Evaluate the mechanisms of transcription and translation in protein synthesis. **BIO.3C.3** Use models to predict how various changes in the nucleotide sequence (e.g., point mutations, deletions, and additions) will affect the resulting protein product and the subsequently inherited trait. **BIO.3C.4** Research and identify how DNA technology benefits society. Engage in scientific argument from evidence over the ethical issues surrounding the use of DNA technology. **BIO.3C.5** Enrichment: Investigate current biotechnological applications in the study of the genome (e.g., transcriptome, proteome, individualized sequencing, and individualized gene therapy).		Adenine Chromosome Codon Cytosine Double Helix Frameshift Mutation Gene Genetic Disorder Guanine Histone Messenger RNA (mRNA) Mutagen Nitrogen Base Nucleic Acid Nucleotide Peptide Bond Phosphate Point Mutation Ribosomal RNA Thymine Transcription Transfer RNA (tRNA) Translation Uracil
9	**Review and Assess**		Cumulative Review
Reproduction and Heredity			

2356

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
Conceptual Understanding: Offspring inherit DNA from their parents. The genes contained in the DNA (genotype) determine the traits expressed in the offspring;s phenotype. Alleles of a gene may demonstrate various patterns of inheritance. These patterns of inheritance may be followed through multiple generations within families. **BIO.3B Students will analyze and interpret data collected from probability calculations to explain the variation of expressed traits within a population.**			
10 **Genetics**	**BIO.3B.1** Demonstrate Mendel's law of dominance and segregation using mathematics to predict phenotypic and genotypic ratios by constructing Punnett squares with both homozygous and heterozygous allele pairs. **BIO.3B.2** Illustrate Mendel's law of independent assortment using Punnett squares and/or the product rule of probability to analyze monohybrid crosses. **BIO.3B.3** Investigate traits that follow non-Mendelian inheritance patterns (e.g., incomplete dominance, codominance, multiple alleles in human blood types, and sex-linkage). **BIO.3B.4** Analyze and interpret data (e.g., pedigrees, family, and population studies) regarding Mendelian and complex genetic traits (e.g., sickle-cell anemia, cystic fibrosis, muscular dystrophy, color-blindness, and hemophilia) to determine patterns of inheritance and disease risk.		Allele Codominance Crossing Over Dihybrid Cross Diploid Genetic Modification Genotype Haploid Heterozygous Homozygous Incomplete Dominance Inheritance Monohybrid Cross Phenotype Polygenic Recessive Sex-linked Trait
Adaptations and Evolution **Conceptual Understanding:** Evolution is a key unifying principle in biology. Differentiating between organic and chemical evolution and the analysis of the gradual changes in populations over time, helps students understand common features and differences between species and thus the relatedness between species. There are several factors that affect how natural selection acts on populations within their environments leading to speciation, extinction, and the current diversity of life on earth.			

2357

JCSD Biology I Pacing Guide 23-24 School Year

Week	Target Standards (MCCCRS)	Resources/Supplemental	Vocabulary
BIO.4 Students will analyze and interpret evidence to explain the unity and diversity of life.			
11 **Evolution**	**BIO.4.1** Use models to differentiate between organic and chemical evolution, illustrating the steps leading to aerobic heterotrophs and photosynthetic autotrophs. **BIO.4.2** Evaluate empirical evidence of common ancestry and biological evolution, including comparative anatomy (e.g., homologous structures and embryological similarities), fossil record, molecular/biochemical similarities (e.g., gene and protein homology), and biogeographic distribution. **BIO.4.3** Construct cladograms/phylogenetic trees to illustrate relatedness between species. **BIO.4.4** Design models and use simulations to investigate the interaction between changing environments and genetic variations in natural selection leading to adaptations in populations and differential success of populations **BIO.4.5** Use Darwin's Theory to explain how genetic variation, competition, overproduction, and unequal reproductive success acts as driving forces of natural selection and evolution. **BIO.4.6** Construct explanations for the mechanisms of speciation (e.g., geographic and reproductive isolation). **BIO.4.7** Enrichment: Construct explanations for how various disease agents bacteria, viruses, chemicals) can influence natural selection.		Anatomical Homologies Ancestry Biogeography Developmental Homologies Evolution Fossil Record Gradualism Homology (homologies) Molecular Homologies Punctuated Equilibrium Speciation Stasis Adaptation Biodiversity Biological Fitness Charles Darwin Genetic Variation Limiting Factor Natural Selection Overpopulation Population Reproductive Success Subspecies

12	**Review and Assess All Biology Standards**	• Benchmark 2	
Interdependence of Organisms and Their Environments **Conceptual Understanding:** Complex interactions within an ecosystem affect the numbers and types of organisms that survive. Fluctuations in conditions can affect the ecosystem's function, resources, and habitat availability. Ecosystems are subject to carrying capacities and can only support a limited number of organisms and populations. Factors that can affect the carrying capacities of populations are both biotic and abiotic. **BIO.5 Students will investigate and evaluate the interdependence of living organisms and their environment.**			
13 - 14 **Cycling of Matter**	**BIO.5.1** Illustrate levels of ecological hierarchy, including organism, population, community, ecosystem, biome, and biosphere. **BIO.5.2** Analyze models of the cycling of matter (e.g., carbon, nitrogen, phosphorus, and water) between abiotic and biotic factors in an ecosystem and evaluate the ability of these cycles to maintain the health and sustainability of the ecosystem. **BIO.5.3** Analyze and interpret quantitative data to construct an explanation for the effects of greenhouse gasses on the carbon dioxide cycle and global climate		Atmosphere Biogeochemical Cycles Biosphere Carbon Cycle Carrying Capacity Climate Community (communities) Denitrification Ecosystem Geosphere Global Warming Greenhouse Gas Niche Nitrification Nitrogen Cycle Nitrogen Fixation Nutrient Cycle Stimuli Water Cycle
15 **Flows of Energy & Relationships**	**BIO.5.4** Develop and use models to describe the flow of energy and amount of biomass through food chains, food webs, and food pyramids. **BIO.5.5** Evaluate symbiotic relationships (e.g., mutualism, parasitism, and commensalism) and other co-evolutionary		Food Chain Food Web Trophic Level Ecological Pyramid Primary Consumer Secondary Consumer Tertiary Consumer Quaternary Consumer Decomposer

History of Biology and Impacts on Society **Conceptual Understanding:** The history of science is a compilation of the works of many people. To understand science and its applications, the history of scientific experiments and developments must be understood. The needs of society have been the driving force behind numerous advances in science and technology. Advances in science and technology have forever and changed, and will continue to change, society. **FB.1 Students will relate the importance of significant historical biological experiments and their impact of these on research, development, and society.**			
1	**FB.1.1** Identify and communicate the contributions of famous scientists and their experiments that formed fundamental scientific principles (e.g., Robert Hooke, Schleiden/ Schwann/Virchow, Griffith, Avery/MacLeod/McCarty, Hershey/Chase, Rosalind Franklin, Gregor Mendel, Watson/Crick, Pasteur, and Charles Darwin). **FB.1.2** Trace and model the historical development of scientific ideas and theories (e.g., creation of the microscope, discovery of cells/cell theory, discovery of DNA/RNA, double helical shape of DNA, evolution/natural selection, endosymbiosis) through the development of a timeline. **FB.1.3** Research, analyze, explain, and communicate how scientific enterprise relates to society and classic inventions (e.g., microscope, blood typing, gel electrophoresis equipment, DNA sequencing technology). **FB.1.4 Enrichment:** Research, analyze, explain, and communicate the influence of society, including cultural components, on the direction and progress of science and technology (e.g., medical treatments, emerging viruses, antibiotic resistance, vaccinations, and re-emerging diseases, alternative energy development, and/or biomimicry. The Chemistry of Life

Conceptual Understanding: Living and nonliving things are composed of elements. Elements have the unique ability to form compounds and molecules based on their atomic structures. Water has unique properties that allow it to form solutions with a variety of compounds. Living organisms are composed of biological molecules that interact with water and through chemical reactions, help to maintain homeostasis.

FB.2 Students will demonstrate an understanding of the structure and interactions of matter and how the organization of matter supports living organisms.

2	**FB.2.1** Develop and use simple atomic models to describe the components of elements (e.g., relative position, charges of protons, neutrons, and electrons). **FB.2.2** Obtain and use information about elements (e.g., chemical symbol, atomic number, atomic mass, and group or family) to describe the organization of the periodic table. **FB.2.3** Relate chemical reactivity to an element's position on the periodic table. Use this information to determine what type of bond will form between elements (ionic, covalent, hydrogen). **FB.2.4** Analyze and interpret data to classify common solutions as acids, bases, or neutral. Communicate the importance of pH in living systems.		Anion Atom Atomic Mass Atomic Number Cation Compound Covalent Bond Electron Element Family (Group) Hydrogen Bond Ionic Bond Neutron Period Proton
3	**FB.2.5** Investigate how the properties of water (e.g., cohesion, adhesion, heat capacity, solvent properties) contribute to the maintenance of living cells and organisms. **FB.2.6** Explain the role of the major biomolecules (carbohydrates, proteins -including enzymes, lipids, and nucleic acids) to the survival of living organisms. **FB.2.7 Enrichment:** Explore the structure of biomolecules using molecular models. Relate the structure of biomolecules to their function in living things (discuss types bonding, importance of the		Adhesion Cohesion Hydrogen Bond Carbohydrate Lipid Protein Nucleic Acid Amino Acid Enzyme Specific Heat Solvent

JCSD Foundations of Biology Pacing Guide 2023 - 2024

	strength and weakness of the bond in function, energy in bonds, enzyme function).		
Organization and Energy in Living Systems **Conceptual Understanding:** : Cells are the basic unit of any living organism. All organisms are composed of one (unicellular) or many cells (multicellular). Living things use their cells to acquire energy from their environment to grow and reproduce, and then they respond and adapt to that environment for survival. **FB.3 Students will demonstrate an understanding of how the structure of living organisms supports the essential functions of life.**			
4	**FB.3.1** Compare and contrast prokaryotic/eukaryotic and plant/animal/bacteria cells. **FB.3.2** Use models to investigate and explain structures within living cells that support life (e.g., cytoplasm, cell membrane, cell wall, nucleus, mitochondria, chloroplasts, lysosomes, Golgi, vacuoles, ER, ribosomes, chromosomes, centrioles, cytoskeleton, nucleolus, nuclear membrane).		Animal Cell/PlantCell Bacteria Cellular Organelle (define all) Lysosome Prokaryote Nucleus Nucleolus Chloroplast Vacuole Mitochondria Eukaryote Centriole Ribosome Endoplasmic Reticulum Golgi Body (Apparatus)
5	**FB.3.3** Compare and contrast active and passive cellular transport. Analyze the movement of water across a cell membrane in hypotonic, isotonic, and hypertonic solutions.		Active Transport Hypertonic Hypotonic Isotonic Passive Transport

JCSD Foundations of Biology Pacing Guide 2023 - 2024

6	**FB.3.4** Analyze the relationship between photosynthesis and cellular respiration and explain that relationship in terms of the need for all living things to acquire energy from their environment. **FB 3.5** Use models to explain how ADP and ATP cycle to store and release chemical energy using inorganic phosphate.		Photosynthesis Cellular Respiration Facilitated Diffusion Diffusion Osmosis
7	**FB.3.6** Compare and contrast the processes and results of mitosis and meiosis. **FB.3.7 Enrichment:** Research and orally communicate the possible outcomes of a failure of mitosis (cancer) or meiosis (nondisjunction).		Mitosis Meiosis
Molecular Basis of Heredity **Conceptual Understanding:** One strand of DNA creates a chromosome. Chromosomes have genes, which are simply segments of DNA. The information stored in DNA (in genes on chromosomes) determines the unique characteristics of an individual. DNA is the blueprint for RNA through transcription, which in turn, allows for the creation of a protein through translation. Modern technologies allow humans to manipulate DNA, RNA, and proteins to solve human dilemmas. Using technology to manipulate genetic information is controversial. **FB.4 Students will demonstrate an understanding of how genetic information is transferred from parent to offspring.**			
8	**FB.4.1** Compare and contrast the basic structure and function of nucleic acids (e.g., DNA, RNA). **FB.4.2** Obtain and communicate information illustrating the relationships among DNA, genes, chromosomes, and proteins to the basis of life.		Chromosome Gene
9	**Review of Standards & Assess**		

JCSD Foundations of Biology Pacing Guide 2023 - 2024

10-11	**FB.4.3** Use models (e.g., Punnett squares) and mathematical reasoning to describe and predict patterns of inheritance of single genetic traits from parents to offspring (e.g., dominant, and recessive traits, incomplete dominance, codominance, multiple alleles, sex- linkage).		Allele Co-dominance Generation Genotype Incomplete Dominance Heterozygous Homozygous Phenotype Recessive Trait Sex-linked
12-13	**FB.4.4** Obtain and communicate information to describe how mutations may affect genetic expression and provide examples. **FB.4.5** Research and report genetic technologies that may improve the quality of life (e.g., genetic engineering, cloning, gene splicing, DNA testing). **FB.4.6 Enrichment:** Debate the pros and cons of using biotechnology to manipulate genetic information for human purpose (society).		Cloning Gene Modification Gene Splicing Genetic Engineering Genetic Modification Recombinant DNA
Biological Evolution **Conceptual Understanding:** The geologic time scale interpreted from rock strata and fossil evidence provides a way to organize major historical events in Earth's history. Rock strata can document the existence, diversity, extinction, and changes in many life forms. Adaptation by natural selection acting over generations is one important process by which species gradually change to respond to environmental pressures. **FB.5 Students will demonstrate an understanding of Earth's fossil record and its indication of the diversity of life over time.**			
14	**FB.5.1** Investigate through research the contributions of scientists to the theory of evolution and evolutionary processes (e.g., Needham, Spallanzani, Redi, Pasteur, Lyell, Lamarck, Malthus, Wallace, Darwin). **FB.5.2** Analyze and interpret data to support claims that different types of fossils provide evidence of the diversity of life that has existed on Earth and of the relationships between past and existing		Analogous Structres Biogenesis Diversity Embryology Evolution Fossil Fossil Record Homologous Structures

JCSD Foundations of Biology Pacing Guide 2023 - 2024

	life on Earth. **FB.5.3** Obtain and communicate information to explain how DNA evidence and fossil records support Darwin's theory of evolution.		Speciation Species Spontaneous Generation Vestigial Structures
15	**FB.5.4** Investigate how biological adaptations and genetic variations of traits in a population enhance the probability of survival in an environment (natural selection). **FB.5.5 Enrichment:** Create and analyze models that illustrate the relatedness between all living things (cladograms/phylogenetic trees).		Adaptation Diversity Extinction Gene Pool Generation Natural Selection Population Selective Breeding Variation
Ecological Principles **Conceptual Understanding:** Ecosystems are dynamic in nature, full of complex interactions that affect the numbers and types of organisms that can survive. Biotic and abiotic factors affect ecosystems, allowing for them to sustain only a limited number of organisms and populations, known as a carrying capacity. There is a delicate balance that exists between the living and nonliving things in an ecosystem. Humans can interrupt this balance, causing both local and global environmental issues. **FB.6 Students will understand the interdependence of living organisms and their environment.**			
16	**FB 6.1** Compare and contrast biotic and abiotic factors. **FB 6.2** Use models to analyze the cycling of matter in an ecosystem (e.g., water, carbon dioxide/oxygen, nitrogen). **FB.6.3** Obtain, evaluate, and communicate information to explain relationships that exist between abiotic and biotic components of an ecosystem. Explain how changes in biotic and abiotic components affect the balance of an ecosystem over time. **FB 6.4** Develop and use models to discuss the climate, flora, and		Abiotic Factor Biotic Factor Biome Biomass Flora Biome Fauna Biome Aquatic Biome Ecosystem Interdependence

JCSD Foundations of Biology Pacing Guide 2023 - 2024

	fauna of the terrestrial and aquatic biomes of the world.		
17	**FB 6.5** Use models to analyze the flow of energy through food chains, webs, and pyramids. **FB 6.6** Engage in scientific argument from evidence to distinguish organisms that exist in symbiotic (mutualism, parasitism, commensalism) or co-evolutionary (predator-prey, cooperation, competition, and mimicry) relationships within ecosystems. **FB 6.7 Enrichment:** Design solutions to reduce the impact of human activity on the ecosystem.		Autotroph Biomass Commensalism Competition Consumers Energy Food Chain Heterotroph Mimicry Mutualism Predator Producer
18	**Review and Assess** **Exam**		

JCSD Year at a Glance Foundations of Biology 2023 - 2024 School Year

Term	History of Biology and Impacts on Society	The Chemistry of Life	Organization and Energy in Living Systems	Molecular Basis of Heredity	Biological Evolution	Ecological Principles
First Nine Weeks	FB.1.1 FB.1.2 FB.1.3 FB.1.4	FB.2.1 FB.2.2 FB.2.3 FB.2.4 FB.2.5 FB.2.6 FB.2.7	FB.3.1 FB.3.2 FB.3.3 FB.3.4 FB.3.5 FB.3.6 FB.3.7	FB.4.1 FB.4.2

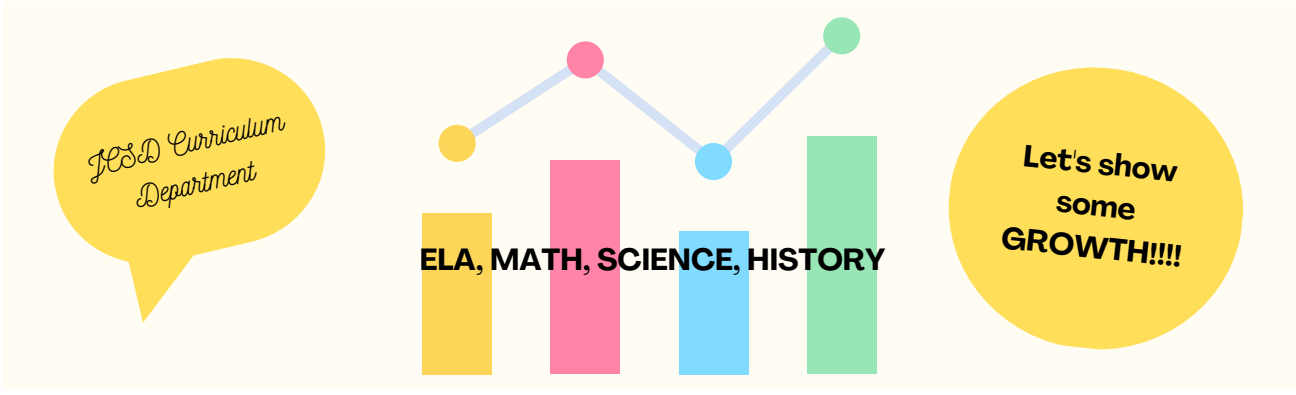
JCSD Assessment Plan

2023-2024

Dates	Grades K-8: 08/07/2023-09/01/2023
iReady Diagnostic 1	All students in grades K-8 will participate in diagnostic testing for math and ELA during the testing window.
Dates	Grades 3-5: 09/25/2023-09/28/2023 Grades 6-8: 09/27/2023-09/28/2023 High School: See attached
Benchmark 1- **Mastery Connect Predictive Assessment**	All students in grades 3-8 will participate in Benchmark 1 for math, ELA, and science (5th & 8th). Grades 6-8 will use the suggested grade provided by Mastery Connect as an exam grade. Benchmark items will cover standards from Term 1 on the JCSD pacing guide.
Dates	Grades 3-5: 12/11/2023-12/15/2023 Grades 6-8: 12/04/2023-12/15/2023 High School: See attached
Benchmark 2- **Mastery Connect Predictive Assessment**	All students in grades 3-8 will participate in Benchmark 2 for math, ELA, and science (5th & 8th). Grades 6-8 will use the suggested grade provided by Mastery Connect as an exam grade. Benchmark items will cover standards from Term 2 on the JCSD pacing guide.
Dates	Grades K-2: 11/27/2023-12/15/2023 Grades 3-8: 01/08/2024-01/19/2024
iReady Diagnostic 2	All students in grades K-8 will participate in diagnostic testing for math and ELA during the testing window.
Dates	Grades 3-5: 03/11/2024-03/14/2024 Grades 6-8: 03/12/2024-03/14/2024 High School: See attached
Benchmark 3- **Mastery Connect Predictive Assessment**	All students in grades 3-8 will participate in comprehensive benchmarks for math, ELA, and science (5th & 8th). In grades 6-8, the suggested grade provided by Mastery Connect will be used for an exam grade. A mock testing schedule is expected.
Dates	Grades K-2: 04/29/2024-05/10/2024 Grades 3-8: 03/18/2024-05/10/2024
iReady Diagnostic 3	Required for all K-5 as well as grades 6-8 SPED, Tier II, and Tier III



Course/Semester	1st Benchmark	2nd Benchmark	3rd Benchmark
Foundations to Algebra (Pre-test Algebra I)	Dec 1 - 16, 2023		
Algebra I / Semester	Sept 11 - 22, 2023	Oct 30 - Nov 10, 2023	
Algebra / Semester 2	Feb 26 - Mar 8, 2024	Apr 15 - 26, 2024	
Foundations to Biology (Pre-test Biology I)	Dec 1 - 16, 2023		
Biology / Semester 1	Sept 11 - 22, 2023	Oct 30 - Nov 10, 2023	
Biology / Semester 2	Feb 26 - Mar 8, 2024	Apr 15 - 26, 2024	
English II / Semester 1	Sept 11 - 22, 2023	Oct 30 - Nov 10, 2023	
English II / Semester 2	Feb 19 - Mar 1, 2024	Apr 15 - 26, 2024	
US History / Semester 1	Sept 11 - 22, 2023	Oct 30 - Nov 10, 2023	
US History / Semester 2	Feb 26 - Mar 8, 2024	Apr 15 - 26, 2024	
US History / Yearlong	Nov 6 -17, 2023	Jan 29 - Feb 9, 2024	Apr 8 - 19, 2024

JCSD Curriculum Technology Resources 2023-2024

Contact edtech@jcsd.ms if you have trouble with software.

Accessible Through	Icon	Resource	Grade Level(s)	Purpose
Clever https://clever.com/in/jcsdms		Canvas	K-12	Learning Management System; provides a mechanism for housing and otherwise managing curriculum
		ChalkTalk	11	ACT prep in College & Career Readiness courses
		Choosing the Best	Middle & High Schools	Abstinence/Sex-Ed Program
		DiscoveryEd	K-12	Online resources including videos, lessons, assessments; embedded inside of Canvas
		Edgenuity	8-12	Online courses; new users are added at the school by program admin
		Edmentum	9-12 (Interventions Only)	Adaptive intervention solution—diagnostic and benchmark assessments; new users are added at the school level by program admin
		Explore Learning: Gizmos & Reflex	Gizmos: 3-12 Science & Math Reflex: K-5 Math	Gizmos: Math & Science online simulations that help students make sense of math and science concepts through inquiry and exploration Reflex: Math supplemental online instructional tool
		Flocabulary	K-12	Online vocabulary building program
		Imagine Language & Literacy	ELL (Interventions Only)	Adaptive Intervention Solution–diagnostic assessments; new users are added at the school level by program admin
		Imagine Math/Bluebird	K-12 (Interventions Only)	Adaptive Intervention Solution–diagnostic assessments; new users are added at the school level by program admin
		i-Ready, Ready & Ready Math Classroom	K-8	Blended learning program containing instructional books for students and teachers in reading and math; formative assessment tool with built-in online instruction; blended learning for math
		Kesler Science	4-8 (Science only)	Supplemental science program
		Lexia Learning Systems	K-8 (Interventions Only)	Online intervention for reading and language Orton-Guillingham; new users are added at the school level by program admin
		MackinVIA	6-12	Online eBook subscription
		MajorClarity	7-12	Provides academic advising for all learners
		Mastery Connect	3-12	Online testing tool used to create assessments, which are formatted like the MAAP assessment; benchmark and ACT prep assessments are included; integrated into Canvas courses
		Nearpod	K-12	Interactive instructional presentation tool

JCSD Curriculum Technology Resources 2023-2024

Contact edtech@jcsd.ms if you have trouble with software.

Clever https://clever.com/in/jcsdms		Paper	3-12	Unlimited, 24/7, personalized online tutoring
		Problem Attic	K-12	Online platform with assessment items for all subjects
		Progress Learning	6-12	Online instructional software for ACT, science, reading, and math
		Renaissance Learning–Accelerated Reader	K-5	Reading comprehension building program with assessments; accessible through Renaissance App in Clever
		Renaissance Learning–myON	K-5	Online eBook subscription; accessible through Renaissance App in Clever
		SchoolStatus/TeachBoost	K-12 employees	Data dashboard, teacher evaluation with TeachBoost, and parent communication program; must put in username and password the first time logging in through Clever
		STEMScopes	3-8 & Biology	Comprehensive science curriculum which includes online, print, and hands-on kits
		Plagiarism Check	6-12 (ELA only)	Reveals content matches in student writing; helps students take ownership of their work and practice proper citation; helps teachers increase efficiency in grading writing assignments; integrated into Canvas courses
Google Dashboard workspace.google.com/dashboard		Help Desk	All Employees	Work request platform for Edtech, technology and maintenance requests
		Bark	K-12 Principals, Assistant Principals, & Counselors	Online safety solution that helps keep students safe online and in real life by monitoring school-issued accounts for potential dangers and mental health concerns
		Canvas	K-12	Learning Management System; provides a mechanism for housing and otherwise managing curriculum
		Google Apps for Education	K-12	Productivity apps for classrooms; Gmail, Drive, Docs, Slides, Sheets, Calendar
Other Resources		i-Ready–High School Subscription	K-12 (Placement Assessment & Intervention Only)	Formative assessment tool for reading and math with build-in online instruction
		KUTA Math	6-12 (Math only)	Math assessment and worksheet generator
		SAVVAS enVision Math	6-8 (Math Only)	Supplemental math program; will be integrated into Canvas courses

EAST CENTRAL LOWER ELEMENTARY

Jackson County School District

Test Security Plan 2023 - 2024

Section I

Assurances

We assure that East Central Lower Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards. We understand that there is one Security Plan governing the school district and also a Security Plan for each school. The District Test Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Ashley Dooley School Principal	Signature	9-21-23 Date
Deanna Collins School Test Coordinator	Signature	9-21-23 Date
Tanya Sonnier District Test Coordinator	Signature	9-21-23 Date

Section II

A. **Name of Tests**

- Kindergarten Readiness Assessment, ELPT- LAS LINKS, LAS LINKS Screener, MAAP-A

B. **Training**

The following documentation will be collected for each training session:

- A dated, detailed agenda of the training
- A copy of handouts and other materials used in the training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attend the training

C. **Studying Test Administrator Manuals**

- Testing manuals that are considered secure documents will be locked in a secure area. The test administrator will be allowed to review these manuals in the presence of the School Test Coordinator (STC) prior to testing. Secure manuals will not be removed from that room. Kindergarten Readiness Assessment manuals are available for test administrators (TA) without security measures being needed.

D. Handling Materials

1. Procedure for distributing materials to each test administrator:

- Testing tickets for online tests will be printed by the STC with another trained person present on the day of testing or the day prior and locked up with the secure testing materials until time for test administration. The STC and another trained person will distribute testing materials to the individual testing room. The distribution of secure test materials will be completed in pairs with at least one of the team being certified.

2. Outline the procedure to distribute materials to students and to account for materials before students leave the testing area.

- All test materials will be retrieved/picked up from the district office. The STC and another personnel member will transport East Central Lower test material back to campus after verifying all materials with the DTC and Mrs. Shelly Barnett (or another designee). Additionally, The STC and another personnel member from East Central Lower will return all test materials to the district office upon completion of the assessment.
- Before entering the testing room, the hall monitor will check the wrists of each student to ensure no students are wearing smart watches and make sure no students have cell phones in their pockets.
- Students will not enter the testing area until they are asked to do so. The students will be lined up in alphabetical order by last name and will be called into the testing room one at a time to be placed in their proper seat according to the seating chart.
- The TA and proctor will distribute student testing tickets according to the seating chart. The seating chart will list a numbered computer along with a student name. The test administrator and proctor will enter the students MSIS number, Date of Birth, and access code. Then the students will verify that their name is correct on the screen before beginning the test.
- The TA will take up tickets in order according to the seating chart prior to any students leaving the testing area.
- Homebound students will be tested by trained district personnel and proctors. The location for testing will be determined based upon the individual circumstances of the homebound student(s). Any testing materials for these students will be checked out from and returned to the secure storage room in the office area. The test materials will be in the presence of two trained employees, one of which will be certified, at all times during the transport of materials and during the administration of the assessment.
- Once a student has successfully completed and submitted his or her test, the student will close the computer and sit quietly until all other students have finished their tests. The TA and Proctor will collect testing tickets from students and then ask students to line up at the door one row at a time. Students will exit the testing room and return to their classroom while the TA and Proctor stay inside the testing room with the secure testing material.

3. Procedure for returning materials to the school test administrator.

- Teams of two trained staff members, one of which must be certified, will collect and count secure testing materials from each testing room. These materials will be returned to the secure testing storage area when testing is completed for that day. The LAS LINKS materials will be locked in the secure storage area after each testing session is completed each day of the LAS LINKS.

4. Describe the security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEPs.

- All Braille/large print test materials will be reviewed by the test administrator in the secure test storage area. Transferring of large print answers will be completed by the TA and proctor under the supervision of the STC.

5. List all individuals who have access to the secure storage area.

- Brandilyn Langley, the STC, is the only person who has a key to the secure testing storage area and will be accompanied by another properly trained employee when entering the secure storage area.

6. List of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. (Please note that the test administrators must be licensed in compliance with Appendix F. See Section IV, 5a).

- There will be a list of trained staff members in the testing binder who will be assisting with testing.

Section III

1. Access to secure storage areas for test materials (Review Appendix F).

When testing materials for any of the above-mentioned tests are delivered or printed at the school, the STC and an individual who has been properly trained in test security will immediately transfer all testing materials to the school's secure storage area. The school secure storage area for Kindergarten Readiness Assessment, and ELPT- LAS LINKS is located in the office area. There will be a sign stating "Authorized Personnel Only" posted on the door. When entry to this storage area is necessary, the STC and another properly trained employee will enter together. A sign-in sheet will be posted on the outside of the door. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and a Statement of Assurance.

Additional Procedures. In this section, describe in detail the procedures by which your staff will address the following areas:

2. **Student emergencies (bathroom, sudden illness).**

Properly trained staff members will actively monitor students in the computer labs during Kindergarten Readiness Assessment and ELPT-LAS LINKS testing to maintain security and to assist during emergencies within the testing room. Any test administrator who has an emergency will signal for the hall monitor. The hall monitor will move to the testing door to assist with the emergency. In case a student has to leave the testing room at any time during testing, the test administrator will have another properly trained person supervise the student. The student's test will be paused or stopped and the student will be logged back in when they return to the testing area. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate. The escort will remain with the student until they are able to return to the testing room. It is recommended that no more than one student at a time be allowed to use the restroom. Students will be supervised at all times between the testing room and the restroom.

In the event a test administrator or proctor becomes ill, another properly trained person will step into the testing room to relieve this person making sure there is always at least one certified person in each room.

3. **Disruptions due to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.**

For online testing, if an emergency occurs before the start of a unit, follow the protocol outlined below:

Proceed with testing only if the unit can be completed that day. If the unit cannot be completed, schedule the unit during make-up testing. Document the situation, noting the event, date, and time, students affected, and any other specific details regarding the situation.

For online testing, if an emergency occurs during the unit, follow the protocol outlined below:

If leaving the test environment, lock the door or take necessary steps to ensure the security of the test materials if time permits. Upon returning to the testing room, prepare students for the continuation of the unit. Students may need to be resumed in the MDE website for Kindergarten Readiness Assessment. Document the situation, noting the event, date, and time, students affected, and other specific details regarding the situation.

4. **Plan that prohibits against the possession and/or use of any electronic communication device, including, cell phones and personal digital assistance devices during the administration of scheduled statewide assessments.**

The Jackson County School District has a policy which prohibits student use or display of cell phones on school campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will also be informed that possession of a cell phone or electronic communication device during testing will result in the student's test being invalidated and disciplinary action taken. For the Post Kindergarten Readiness Assessment test, students will sign the Student Notification of Prohibition of Electronic Communication Devices During Statewide Tests Form prior to the administration of state tests. No test administrators or proctors will not have cell phones or smart watches in the testing room during test administration.

Consequences for possession and/or use of an electronic device:

- For staff: Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.
- For students: Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

The STC will contact the DTC and complete appropriate paperwork on that same day.

5. **Procedure for ensuring that no calculators used by students during a state assessment administration have any stored formulas, applications and/or programs.**

There is no calculator usage on the Kindergarten Readiness Assessment or ELPT-LAS LINKS.

6. **Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing rooms have been covered or removed.**

The STC and/or school administrator will check each room/computer lab utilized in test administration to ensure that all content relevant materials have been covered or removed prior to testing.

7. **Procedure for district monitoring of test administrators, proctors, students, and others involved in the testing process.**

Trained staff will actively monitor hallways and classrooms to ensure TA and proctors are actively monitoring students.

8. Procedures for multiple test administrations.
Students from various testing sessions will not be combined.

9. Procedure for online testing, and include procedures to address when disruptions occur (power outages, network problems, etc.)
The STC or one of her designees will contact the computer tech that is assigned to our school to assist with technical issues. All computer techs will be properly trained and will sign the security agreement. All test security guidelines will be followed.

10. Procedures used to prepare, verify, and maintain seating charts for students during assessments. To facilitate the testing process, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.

- The STC will take into consideration student needs and IEP directives, when making seating charts. The seating charts will be scanned and emailed to the DTC at the end of each testing window.

11. Guidelines for Testing Virtual Learners during the COVID-19 Pandemic

- Students must complete the Mississippi state-mandated assessments and East Central Lower Elementary will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
- Students will be subject to and held accountable for all federal and state assessments necessary for promotions and/or graduation. These will be administered onsite in accordance with the state testing calendar.

12. Procedures regarding medical monitoring devices using electronic devices with internet capacity during testing.

In regards to students requiring medical devices monitoring their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribed document should outline the procedures and accommodations specifically for the student and for the device. (EX. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating). Accommodations will be listed on the seating charts.

13. LAS Links Screener Procedures

- The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of EL students only.
- All potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student.
- The screener/placement test will be administered by the school counselor and scored by the school counselor to determine English Language proficiency level.
- The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
- These results will be placed in the student's cumulative record for future review and possible monitoring.

14. Food and/or Drinks in the Testing Area

- There will be no food or drink allowed in the testing room for students. This includes things like chewing gum, chips, and candy as well as water. The only exception to this is if a student has a documented medical need for food/drink that is in his or her 504 or IEP.
- The TA and Proctor will be allowed to have a bottle of water in the room as long as it is away from testing materials.

EAST CENTRAL LOWER ELEMENTARY

Jackson County School District

Test Security Plan 2023 - 2024

Section I

Assurances

We assure that East Central Lower Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards. We understand that there is one Security Plan governing the school district and also a Security Plan for each school. The District Test Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Ashley Dooley School Principal	Signature	9-21-23 Date
Deanna Collins School Test Coordinator	Signature	9-21-23 Date
Tanya Sonnier District Test Coordinator	Signature	Date

Section II

A. **Name of Tests**

- Kindergarten Readiness Assessment, ELPT- LAS LINKS, LAS LINKS Screener, MAAP-A

B. **Training**

The following documentation will be collected for each training session:

- A dated, detailed agenda of the training
- A copy of handouts and other materials used in the training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attend the training

C. **Studying Test Administrator Manuals**

- Testing manuals that are considered secure documents will be locked in a secure area. The test administrator will be allowed to review these manuals in the presence of the School Test Coordinator (STC) prior to testing. Secure manuals will not be removed from that room. Kindergarten Readiness Assessment manuals are available for test administrators (TA) without security measures being needed.

D. Handling Materials

1. Procedure for distributing materials to each test administrator:

- Testing tickets for online tests will be printed by the STC with another trained person present on the day of testing or the day prior and locked up with the secure testing materials until time for test administration. The STC and another trained person will distribute testing materials to the individual testing room. The distribution of secure test materials will be completed in pairs with at least one of the team being certified.

2. Outline the procedure to distribute materials to students and to account for materials before students leave the testing area.

- All test materials will be retrieved/picked up from the district office. The STC and another personnel member will transport East Central Lower test material back to campus after verifying all materials with the DTC and Mrs. Shelly Barnett (or another designee). Additionally, The STC and another personnel member from East Central Lower will return all test materials to the district office upon completion of the assessment.
- Before entering the testing room, the hall monitor will check the wrists of each student to ensure no students are wearing smart watches and make sure no students have cell phones in their pockets.
- Students will not enter the testing area until they are asked to do so. The students will be lined up in alphabetical order by last name and will be called into the testing room one at a time to be placed in their proper seat according to the seating chart.
- The TA and proctor will distribute student testing tickets according to the seating chart. The seating chart will list a numbered computer along with a student name. The test administrator and proctor will enter the students MSIS number, Date of Birth, and access code. Then the students will verify that their name is correct on the screen before beginning the test.
- The TA will take up tickets in order according to the seating chart prior to any students leaving the testing area.
- Homebound students will be tested by trained district personnel and proctors. The location for testing will be determined based upon the individual circumstances of the homebound student(s). Any testing materials for these students will be checked out from and returned to the secure storage room in the office area. The test materials will be in the presence of two trained employees, one of which will be certified, at all times during the transport of materials and during the administration of the assessment.
- Once a student has successfully completed and submitted his or her test, the student will close the computer and sit quietly until all other students have finished their tests. The TA and Proctor will collect testing tickets from students and then ask students to line up at the door one row at a time. Students will exit the testing room and return to their classroom while the TA and Proctor stay inside the testing room with the secure testing material.

3. Procedure for returning materials to the school test administrator.

- Teams of two trained staff members, one of which must be certified, will collect and count secure testing materials from each testing room. These materials will be returned to the secure testing storage area when testing is completed for that day. The LAS LINKS materials will be locked in the secure storage area after each testing session is completed each day of the LAS LINKS.

4. Describe the security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEPs.

- All Braille/large print test materials will be reviewed by the test administrator in the secure test storage area. Transferring of large print answers will be completed by the TA and proctor under the supervision of the STC.

5. List all individuals who have access to the secure storage area.

- Brandilyn Langley, the STC, is the only person who has a key to the secure testing storage area and will be accompanied by another properly trained employee when entering the secure storage area.

6. List of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. (Please note that the test administrators must be licensed in compliance with Appendix F. See Section IV, 5a).

- There will be a list of trained staff members in the testing binder who will be assisting with testing.

Section III

1. Access to secure storage areas for test materials (Review Appendix F).

When testing materials for any of the above-mentioned tests are delivered or printed at the school, the STC and an individual who has been properly trained in test security will immediately transfer all testing materials to the school's secure storage area. The school secure storage area for Kindergarten Readiness Assessment, and ELPT- LAS LINKS is located in the office area. There will be a sign stating "Authorized Personnel Only" posted on the door. When entry to this storage area is necessary, the STC and another properly trained employee will enter together. A sign-in sheet will be posted on the outside of the door. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and a Statement of Assurance.

Additional Procedures. In this section, describe in detail the procedures by which your staff will address the following areas:

2. **Student emergencies (bathroom, sudden illness).**

Properly trained staff members will actively monitor students in the computer labs during Kindergarten Readiness Assessment and ELPT-LAS LINKS testing to maintain security and to assist during emergencies within the testing room. Any test administrator who has an emergency will signal for the hall monitor. The hall monitor will move to the testing door to assist with the emergency. In case a student has to leave the testing room at any time during testing, the test administrator will have another properly trained person supervise the student. The student's test will be paused or stopped and the student will be logged back in when they return to the testing area. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate. The escort will remain with the student until they are able to return to the testing room. It is recommended that no more than one student at a time be allowed to use the restroom. Students will be supervised at all times between the testing room and the restroom.

In the event a test administrator or proctor becomes ill, another properly trained person will step into the testing room to relieve this person making sure there is always at least one certified person in each room.

3. **Disruptions due to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.**

For online testing, if an emergency occurs before the start of a unit, follow the protocol outlined below:

Proceed with testing only if the unit can be completed that day. If the unit cannot be completed, schedule the unit during make-up testing. Document the situation, noting the event, date, and time, students affected, and any other specific details regarding the situation.

For online testing, if an emergency occurs during the unit, follow the protocol outlined below:

If leaving the test environment, lock the door or take necessary steps to ensure the security of the test materials if time permits. Upon returning to the testing room, prepare students for the continuation of the unit. Students may need to be resumed in the MDE website for Kindergarten Readiness Assessment. Document the situation, noting the event, date, and time, students affected, and other specific details regarding the situation.

4. **Plan that prohibits against the possession and/or use of any electronic communication device, including, cell phones and personal digital assistance devices during the administration of scheduled statewide assessments.**

The Jackson County School District has a policy which prohibits student use or display of cell phones on school campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will also be informed that possession of a cell phone or electronic communication device during testing will result in the student's test being invalidated and disciplinary action taken. For the Post Kindergarten Readiness Assessment test, students will sign the Student Notification of Prohibition of Electronic Communication Devices During Statewide Tests Form prior to the administration of state tests. No test administrators or proctors will not have cell phones or smart watches in the testing room during test administration.

Consequences for possession and/or use of an electronic device:

- For staff: Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.
- For students: Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

The STC will contact the DTC and complete appropriate paperwork on that same day.

5. **Procedure for ensuring that no calculators used by students during a state assessment administration have any stored formulas, applications and/or programs.**

There is no calculator usage on the Kindergarten Readiness Assessment or ELPT-LAS LINKS.

6. **Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing rooms have been covered or removed.**

The STC and/or school administrator will check each room/computer lab utilized in test administration to ensure that all content relevant materials have been covered or removed prior to testing.

7. **Procedure for district monitoring of test administrators, proctors, students, and others involved in the testing process.**

Trained staff will actively monitor hallways and classrooms to ensure TA and proctors are actively monitoring students.

8. Procedures for multiple test administrations.
Students from various testing sessions will not be combined.

9. Procedure for online testing, and include procedures to address when disruptions occur (power outages, network problems, etc.)
The STC or one of her designees will contact the computer tech that is assigned to our school to assist with technical issues. All computer techs will be properly trained and will sign the security agreement. All test security guidelines will be followed.

10. Procedures used to prepare, verify, and maintain seating charts for students during assessments. To facilitate the testing process, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.

- The STC will take into consideration student needs and IEP directives, when making seating charts. The seating charts will be scanned and emailed to the DTC at the end of each testing window.

11. Guidelines for Testing Virtual Learners during the COVID-19 Pandemic

- Students must complete the Mississippi state-mandated assessments and East Central Lower Elementary will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
- Students will be subject to and held accountable for all federal and state assessments necessary for promotions and/or graduation. These will be administered onsite in accordance with the state testing calendar.

12. Procedures regarding medical monitoring devices using electronic devices with internet capacity during testing.

In regards to students requiring medical devices monitoring their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribed document should outline the procedures and accommodations specifically for the student and for the device. (EX. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating). Accommodations will be listed on the seating charts.

13. LAS Links Screener Procedures

- The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of EL students only.
- All potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student.
- The screener/placement test will be administered by the school counselor and scored by the school counselor to determine English Language proficiency level.
- The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
- These results will be placed in the student's cumulative record for future review and possible monitoring.

14. Food and/or Drinks in the Testing Area

- There will be no food or drink allowed in the testing room for students. This includes things like chewing gum, chips, and candy as well as water. The only exception to this is if a student has a documented medical need for food/drink that is in his or her 504 or IEP.
- The TA and Proctor will be allowed to have a bottle of water in the room as long as it is away from testing materials.

East Central Upper Elementary

Test Security Plan

Jackson County School District

Assurances

We assure that East Central Upper Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards. We understand that there is one Security Plan governing the school district and also a Security Plan for each school. The District Test Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Jackson County School District District	East Central Upper Elementary School	
Donna Knight School Principal	Donna Knight Signature	09/27/2023 Date
Mari Anne Jenne School Test Coordinator	Mari Anne Jenne Signature	9/27/2023 Date
Dr. Tonya Sonnier District Test Coordinator	Tonya Sonnier Signature	9-27-23 Date

Section II

A. Name of Tests: MAAP, MAAP-A, 3rd Grade Reading Alternate Assessment, ELPT, LAS Links Screener, and NAEP.

B. Training. The following documentation for each training session held will be attached:

- A dated, detailed agenda of the training
- A copy of handouts and other materials used in the training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all in attendance for the training

C. Handling Materials.

Procedures used for receiving and securing materials from District Office. Include specific information about where materials will be delivered and stored and about who will have access to the secure storage areas.

When testing materials are available at the district office, the School Test Coordinator (STC), and a certified individual (who has been test security trained), will travel to the district office to inventory and sign for all secure materials under the supervision of the DTC and Marsha Miller, or another trained designee.

Secure test material will then travel from the district office to the East Central Upper Elementary School campus with the STC and trained certified staff member.

The materials will be promptly stored and locked in the secure testing storage closet. A sign will be posted on the door of the secure closet designating personnel authorized. Designated personnel will sign in/out upon entering/exiting the secure closet on the log attached to the door. This room will remain locked and only the STC and Assistant STC have access to the key. When materials are needed from the testing closet, two trained personnel (who are authorized to enter the area) will follow these procedures to enter and retrieve the necessary materials. Testing materials will remain with at least one certified, test trained individual and one test trained individual at all times.

When online Authorization Codes for individual students are printed and any other secure testing documents received, these will be locked securely in the test storage closet. The printing/organizing of codes or test documents will be completed by two trained personnel. One must be certified. At the completion of testing, student testing documents, scratch paper, testing codes, and student rosters with passwords will be collected. Test administrators will document this on a tracking form. These items will be locked away until time to shred these documents. All printed testing tickets and testing codes will be shredded. All scratch paper will be shredded. Students sitting next to each other in a computer lab will use cardboard dividers or other forms of security will be utilized to ensure computer screens cannot be viewed by any other student during testing.

Procedures for Test Administrator and Proctor to pick up and account for testing materials before testing.

- All secure test materials are accounted for before, during, and after testing.
- Two trained individuals (one certified) will disperse the materials to the test administrator and the proctor using a cart. The testing cart will NOT enter the testing building until the building is secure.
- Test administrator and proctor will check the testing roster, count test codes sheets, and seating chart. They will sign and complete the test transfer document sheet.
- When the test transfer document is complete, the designated dispersing individuals will sign indicating the testing material has been securely transferred to the test administrator and the proctor.
- The test administrator and proctor will remain together and return to their designated classroom.
- Test Administrator and Proctor will check the seating chart and place a signed copy of the seating chart on the door.
- Test Administrator and Proctor will place a red "Do Not Disturb" sign on the door.

Procedures to distribute materials to students and to account for materials before students leave the testing area.

- Material will be distributed to students by test administrator and proctor utilizing a seating chart.
- The seating chart will list the student name and a seat number.
- The student seat will be labeled with the number indicated on the seating chart.

- Teachers will place a copy of the seating chart on the door and keep a copy in the room for reference.

In the incident a student has accommodations that require the test to go beyond lunch, the test materials will be accounted for and returned to the secure testing closet by the STC and a certified trained individual. The student, Test Administrator, and Proctor will remain together and lunch will be delivered to them. The STC and a certified trained individual will return the test materials to the Test Administrator and Proctor who will inventory the test materials prior to resuming the test.

Procedures for returning materials to the school test coordinator and district test coordinator.

At the conclusion of testing, the STC, ATC, or other designated test security trained individual will inventory the testing roster, authorization codes, and seating chart and indicate by signature that all secure test materials have been accounted for prior to leaving the testing area. This must be completed before the students are allowed to leave the testing area.

Materials will remain with two trained individuals, one must be certified, until locked securely in the testing closet

Homebound students will be tested by trained district personnel and proctors. The location for testing will be determined based upon the individual circumstances of the homebound student(s). Any testing materials for these students will be checked out from and returned to the School Secure Storage Site. The test materials will be in the presence of two trained employees at all times during the transport of materials and during the administration of the assessment.

When all testing is complete, the STC and another trained staff member will organize and prepare all test materials for transport from the ECU campus back to the district office. Upon being accounted for, the STC and one other test trained certified individual will transport the secure test material back to the district office. Materials will then be inventoried by the DTC and Marsha Miller, or another designee. (All materials will be inventoried and verification forms completed for return to the District Secure Storage room). All secure materials will be returned according to the schedule published by the Office of Student Assessment. In the event that a secure testing document has been contaminated by bodily fluids or other health-related hazards, the district test coordinator will follow procedures for disposal as outlined during DTC training. All 'scratch paper' and online test codes will be kept secure on campus until appointed district shred day has been announced. On the specified date, shredding will occur at ECU by the STC and another certified, trained individual. A shred document will be completed and submitted to the DTC.

Describe the security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP's.

All Braille/large print test materials will be reviewed by the test administrator in the secure test storage area. Transferring of large print answers will be completed by the test administrator and proctor under the supervision of the school test coordinator or an administrator. Any accommodations made for students will be aligned with the Testing Accommodation manual.

Testing students with accommodations #78:

The student's response will be transcribed exactly as written on the answer document. Their computer will have the extra features disabled. The student will use note pad to type his response. The test will be administered with all persons, TA and proctor signing confidentiality agreements. The test administrator will do the transcription when the student is through. The proctor will also be in the room during the testing and transcription. Transcription means that any spelling errors must be transcribed as they exist; the person transcribing needs to be very award of this. All punctuation must be exactly as it is in the original. All directions specified by OSA and Questar will be adhered to.

List all individuals who have access to the secure storage area.

STC & ATC

List or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. (Please note that the test administrators must be licensed in compliance with Appendix F. See Section IV. Sa).

This will be an attachment of all our trained staff members who will be assisting with testing. All test administrators will be licensed in compliance with Appendix F. Section IV, Sa. All test administrators, proctors, hall monitors, and relief personnel involved with test administration, will receive test security training.

Describe the procedure for ensuring that no calculators used by students during a state assessment **administration have** any **stored** formulas, **applications** and/or **programs.**

For grades 3-5, calculators are allowed for students with accommodations only. At the current time, no ECU students have this accommodation.

D. Additional Procedures. In this section, describe in detail the procedures by which your staff will address the following areas:

Access to secure storage areas for test materials (Review Appendix F).

When testing materials for any of the above-mentioned tests are delivered or printed at the school, the School Test Coordinator and an individual who has been appropriately trained in test security will immediately transfer all testing materials to the school secure storage area. The school secure storage area for all secure testing materials is located in the guidance office area. Only the STC or ATC may unlock the secure area to retrieve materials with an additional test security trained individual. When entry to this storage area is necessary, two test security trained individuals will enter together. A sign-in sheet will be posted on the outside of the door of the secure storage area. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and a Statement of Assurance.

Student emergencies (bathroom, sudden illness§.

Test security trained staff members will be monitoring our computer labs and classrooms during testing to maintain security and to assist during emergencies within the testing room. Any test administrator

who has an emergency will signal for the hall monitor using a colored cone. The hall monitor will move to the testing door to assist with the emergency. In case a student has to leave the testing room at any time during testing, the test administrator will have the monitor supervise the student. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate. The escort will remain with the student until they are able to return to the testing room. No more than one student at a time be allowed to use the restroom. Students will be supervised at all times between the testing room and the restroom.

In the event a test administrator or proctor becomes ill, one of the hall monitors will step into the testing room to relieve this person. If the proctor becomes ill, the relief person does not have to be certified only trained on test security.

When administering more than one testing session in a day, students are permitted to go to lunch and the restroom before beginning another testing session. Before leaving the testing area, the STC will collect and account for all testing material and return them to the locked storage area.

Addition of statement regarding medical monitoring devices using electronic devices with internet capacity during testing:

In regards to students requiring medical devices monitoring their health, the appropriate documentation, such as an IEP, 504, or medical plan, will be kept in the testing audit binder. The ascribed document should outline the procedures and accommodations specifically for the student and for the device. (EX. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating). Accommodations will be listed on the seating charts.

Disruptions due to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.

If an emergency occurs before the start of a unit, follow the protocol outlined below:

Proceed with testing only if the unit can be completed that day. If the unit cannot be completed, schedule the unit during make-up testing. Document the situation, noting the event, date, and time, students affected, and any other specific details regarding the situation.

If an emergency occurs during the unit, follow the protocol outlined below:

If possible, note the time of the disruption so that the remaining time for the unit can be calculated. If leaving the test environment, lock the door or take necessary steps to ensure the security of the test materials if time permits. Upon returning to the testing room, prepare students for the continuation of the unit. Test administrators must inform students how many minutes remain in the unit. Test administrators must write on the board the updated start time and stop time of the unit. Students may need to be resumed. Document the situation, noting the event, date, and time, students affected, and other specific details regarding the situation.

Prohibitions against the possession and/or use of any electronic communication device, including, cell phones and personal digital assistance devices during the administration of scheduled statewide assessments.

The Jackson County School District prohibits student use of cell phones on any school campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will also be informed that possession of a cell phone or electronic communication device during testing will result in the student's test being invalidated and disciplinary action taken. Students will sign the Student Notification of Prohibition of Electronic Communication Devices during Statewide Tests Form prior to the administration of state tests. All test administrators and proctors will leave cell phones, watches, or fit bits in their vehicle or turn into the front office at morning arrival. Once testing is complete, administration will release these devices to staff. At the time of arrival and turning in of electronic items, staff will sign a document provided by STC stating that all devices are either in the car or have been turned in. The Notification of Prohibition of Electronic Communication Devices will be signed by the student and teacher before each session of test administration. The district office has provided us with a designated computer technician that can use a cellphone during testing to provide technology support.

If a student is observed with any prohibited materials, the student will be dismissed from the testing environment. Before dismissing the student, the test administrator must exit the student's test. The test may be invalidated later by the state education agency. The school test coordinator will complete a Testing Irregularity or Security Breach form.

Staff Violation Consequences:
Any staff member that violates state testing by bringing in an electronic device will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to 3 days. This includes both violations by the teacher for bringing in an electronic device as well as procedural violations in which a student is permitted (whether intentional or unintentional) to bring in an electronic device.

Students Violation Consequences:
Any student who violates testing by bringing in an electronic device will receive an office referral which may include up to 3 days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing rooms have been covered or removed.

The school test coordinator and/or school administrator will check each classroom/computer lab utilized in test administration to ensure that all content relevant materials have been removed prior to testing.

Plans for multiple test administrations and procedures to prevent students from discussing test items.

There will be morning and afternoon testing as needed to complete all testing during the allotted timeframe provided on the MOE testing calendar. The importance of test security will be discussed with students. Teachers will encourage students to not discuss the test.

Procedures for online testing to follow during disruptions, i.e., power outages, network problems.

If the network is down or too slow to conduct scheduled testing, the classes scheduled to test will be made up as soon as possible on a make-up day or later on the same day as scheduled, if time permits. Before changing the scheduled day of testing, the designated computer technician will be contacted to have them verify that the network is down. If a TA experiences any network problems during testing, they will place a colored cone outside their door for assistance. The computer technician will be contacted for support.

District monitoring of test administrators, proctors, students, and others involved in the testing process.

Each test administration site will be monitored a minimum of one-time during test administration by a district staff member.

Procedures used to prepare, verify, and maintain seating charts for students during assessments. To facilitate the testing process, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.

Test Administrators will create seating charts, taking into consideration student needs and IEP, 504 directives. Seating charts will be turned into the School Test Coordinator before testing begins. Each student's name and MSIS number must be on the seating chart. Seating charts will include the name of the school, date, test administration, printed names and signatures of the test administrator, proctor, and school test coordinator. Makeup testing will be provided for students who are absent during the regularly scheduled test administration.

Procedure for students who finish early.

Students who complete the test before time is completed may read a library book. Students will not be allowed to bring books related to the subject area being tested into the testing lab. If during extended time testing for special education students, the majority of students complete their test, the test administrator and proctor will account for all secure materials and allow students who have completed the test to exit the room. The students with extended time who have not completed the test, may continue to test.

Describe additional procedures for online testing.

Online Authorization Codes and Seal Codes:

Once the Online Authorization Codes and Seal Codes are downloaded and printed, these will be secured and locked in a secure area and accompanied by individuals, one of whom must be a certified individual. Authorization codes will be sent to the district office for shredding after all students have finished testing.

If students are sitting next to one another in a computer lab, cardboard dividers or other forms of security will be utilized to ensure computer screens cannot be viewed by any other person than the user of each computer.

All 'scratch paper' and online test codes will be kept secure on campus until appointed district shred day has been announced. On the specified date, shredding will occur at ECU by the STC and another certified, trained individual. A shred document will be completed and submitted to the OTC.

Testing Students with Read Aloud Accommodations for Online Testing.

Two trained individuals, one of whom must be certified, will be present for the administration of a Read Aloud Accommodation for an online test. No reading will occur from a test booklet. All reading will take place from the online version of the test.

Testing students with other special accommodations.

If special accommodations are requested for (i.e. accommodation 24 and/or 25) you must complete a Planning Template for Accommodation 24 and/or 25 for each student.

Additional Procedures for the Test Administrator and Proctor.

Both a test administrator and a proctor are present and actively monitoring students during the entire test administration. Actively monitoring means that test administrators and proctors are observing the conduct of students and others in the testing room to ensure that they are complying with all testing rules and not disturbing others in the testing room. Test administrators and proctors will follow all the guidelines of Appendix F. Test administrators and proctors will not view test content or student responses on computer screen or scratch paper. They will not stand directly behind or next to students. They will not make facial expressions at students during testing or tell student to, "keep trying" or "nice job" or provide any similar feedback. There will be no coaching or interference with a student's response on the test. There will be two people present from the time testing materials are distributed to the test administrator until all test materials have been returned to the STC. The seating chart must be used to seat students for the test. Absent students should be indicated on the seating chart. The seating chart must be signed and dated by the test administrator, proctor, and school test coordinator. Tests will be administered according to the standard procedures defined in the test administrator's manuals, related documents, and according to the schedule published by the Office of Student Assessment.

Testing Virtual Learners during the COVID-19 Pandemic

Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

Students who are virtual learners and receive accommodations will receive the necessary accommodations. Each student who is a virtual learner will be scheduled to test within the testing window.

LAS Links Screener Procedures

The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only. All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results. These results will be placed in the student's cumulative record for future review and possible monitoring.

TEST SECURITY PLAN

EAST CENTRAL HIGH SCHOOL

JANUARY 2024 – DECEMBER 2024

Mississippi Statewide Assessment System

Office of Student Assessment

Mississippi Department of Education

Section III - SCHOOL PLAN

We assure that East Central High School will be in full compliance with the testing requirements as set forth in Appendix F of the current version of the Mississippi Public School Accountability Standards and Mississippi Code §37-16-4.

Jackson County School District

East Central High School

James Hughey, Principal

Signature _____ Date 9/27/23

Melinda Sharpton, School Test Coordinator (STC)

Signature _____ Date 9/27/23

Tanya Sonnier, District Test Coordinator (DTC)

Signature _____ Date 9-27-23

Name of Test(s): **ACT, ACT WorkKeys, MAAP, MAAP-A, ELPT: LASLinks**

B. Training:

The School Test Coordinator (STC) will conduct all school level training, in addition to any district level training school level personnel may have attended, for all test administrators, proctors, hall monitors and school personnel prior to the administration of each statewide assessment. The STC will maintain and have immediate access to the following documentation (paper or digital) for each training session held:

- A dated, detailed agenda of the training done in preparation for this test
- A copy of handouts and/or other materials used in training
- Documentation showing participants were informed of consequences of testing violations
- Signatures in blue ink of all who attended the training

Studying Test Administrator Manuals:

1. Describe when and where test administrators will study the manuals prior to testing?

Test administrator manuals are considered non-secure materials and test administrators will have access to those manuals for review prior to testing in print or digital format.

C. Handling Materials:

1. Procedure for receiving testing materials from District Test Coordinator.

Testing materials for any of the above-mentioned tests will be picked up at the District Secure Storage Area at the District Office 4700 Colonel Vickery Road, Vancleave, MS 39565 by the STC and another designated personnel member. The School Test Coordinator and an individual who has been appropriately trained in test security will view the DTC or designed personnel member counting all testing materials and then the STC will recount the testing materials for verification. The testing materials will then be transported back to the school and locked in the School Secure Storage Area. Only the individuals listed under the "access to storage" list in the Handling Documents section of the School Security Plan will have access to these materials during this time and two persons must always be present whenever test materials are being accessed. A sign-in sheet will be posted on the School Secure Storage Area to document persons having access to the secure test materials as well as the date and time of entry/exit. Any other persons needing access to the locking fireproof filing cabinet must be accompanied by one of the above listed persons. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and a Statement of Assurance.

2. Procedure for printing and storing students' online Authorization Tickets

Authorization tickets for the MAAP State tests will be printed upon registration for each testing session. The STC and additional trained personnel member will be present while printing is completed. Authorization tickets are checked for accuracy, cut apart, sorted by subject test and subject test rooms and stored in the locked fireproof filing cabinet in the Secure Storage Area until the tickets are needed for student testing.

3. Procedure for distributing materials to each test administrator

Two trained personnel will be with testing materials at all times. The School Test Coordinator and other trained personnel will distribute testing materials to the individual classrooms after the take-in bell sounds. Student authorization tickets with username and password will be counted first by the STC or other trained personnel and then by the Test Administrator inside the testing room. Both STC

and TA will confirm the correct count by signing the designated signature form located on the seating chart inside the testing room.

4. Outline the procedure to distribute materials to students and to account for materials before students leave the testing area

Test Administrators and Proctors will distribute all materials as laid out by the Test Administrators' Manual (TAM), including an authorization ticket, to each student according to the seating chart. The Test Administrator or Proctor will collect all materials as required by the TAM, including the authorization ticket and any scratch paper, from each student as he/she finish their test. The TA will count the materials and hold students until the STC/other personnel come to the testing room to confirm and sign for testing materials. Students will be released when the count is confirmed.

5. Procedure for returning materials to the school test administrator.

The School Test Coordinator and other trained personnel will pick up the test materials from the individual testing rooms. The test materials will be counted by these persons who will verify by signature all materials have been received. The test materials will then be returned to the Secure Storage Area by the STC and other trained personnel.

6. Security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP'S, etc.

Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a State Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.

In the event a student has a dictation accommodation for an online assessment, the following procedures will be in place:

This scribe will sign a Staff Statement of Assurance Security Agreement before this process.

The student will not test with any other students.

A scribe will be the third person in the room. (TA, Proctor, Scribe)

The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.

All other security measures will be maintained.

7. List of all individuals who have access to the secure storage area.

Melinda Sharpton, Lauren Guaggenti, Sherry Hart, Delicia Holloway-Lee, Kay Loris, Karen Dock, and Dennis McDuffie

8. List or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. (Please note that the test administrators must be licensed in compliance with Appendix F. (See Section IV, 5a.).

See testing list in STC's notebook or Auditor's notebook.

D. Additional Procedures:

1. Access to secure storage areas for test materials (Review Appendix F).

Test materials will be kept in a locked storage room commonly known as the Vault with keys only available to Guidance Office personnel. The STC and Counselor will have the only two keys to the fireproof locking file cabinet in the vault room where testing materials will be secured. A sign stating "Authorized Personnel Only with the names listed will be posted on the door of the vault, as well as the file cabinet.

2. Student emergencies (bathroom, sudden illness).

Monitors will be placed in the hallways/walkways to maintain security and to assist during emergencies within the classrooms. Any Test Administrator who has an emergency will signal for the hall monitor using a "Help Needed" sign. The hall monitor will move to the classroom door to assist with the emergency. In case a student has to leave the testing room at any time, the Test Administrator or Proctor will collect the student's authorization ticket and scratch paper and will document the student's name, the nature of the emergency and the time in/out of the classroom on a sheet provided them by the School Test Coordinator. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate, and the escort will remain with the student until they are able to return to the testing room or will escort the student to an office where he/she may wait until picked up by a parent or guardian. In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify the School Test Coordinator or office. Test Administrators must be relieved by a Hall Monitor or other trained personnel holding a Mississippi Educator's License.

3. Disruptions due to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.

In accordance with Section §37-11-5 of the Mississippi State Code and the Emergency Crisis Plan, Jackson County School District adheres to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedures. In the event of a unique threat which requires the use of evacuation procedures during a state assessment, we will adhere to the Emergency/Crisis Response Procedures set forth by the District to ensure the health and safety of our students and staff. The STC will work with the TAs to maintain the integrity of all secure test materials. The STC will inform the DTC of the unique threat requiring the use of evacuation procedures. The TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. The TA will document the time stopped for any test considered a timed test. Once materials have been secured, students will be dismissed and will receive further instructions from hall monitors. TAs and proctors will lock and exit the classroom after all students have vacated the secured environment. TA and Proctor will monitor students during the evacuation time for isolation purposes and discussion of testing information. After the threat of injury has subsided, the TA and proctor shall be the first to enter the secured classroom. Upon re-entry the TA and Proctor will account for all the test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.

4. Prohibitions against the possession and/or use of any electronic communication device, including cell phones and personal activity tracker devices during the administration of scheduled statewide assessments.

The Jackson County School District has a policy which prohibits student possession of electronic devices during the administration of scheduled statewide assessments. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed including smart watches and/or electronic activity trackers. Students will leave their book bags and other personal articles in the hallway.

Test Security: Electronic Communication Device Protocol for Staff

Staff Protocol – The term "staff" will refer to certified and noncertified staff.

- Certified and noncertified staff will sign the Prohibition of Electronic Communication Devices during Statewide Tests form
- Teachers will leave their electronic communication devices in the office, in their boxes, or in their personal vehicles. (No purses or other personal belongings will be allowed in the testing rooms)

- A school administrator (Principal or Assistant Principal) will use a metal detector wand to scan the staff members in the testing rooms before the tests are delivered to the testing rooms.

Staff Consequences

- If a staff member is found with an electronic communication device before the tests are administered, the administrator will escort the staff member to take the device to the office, their box, or their vehicle, and he/she will be given a written reprimand that will be included in the employee's file.

- If a staff member is found with an unauthorized electronic device when the state tests are being administered, the STC will document the incident and notify the DTC. A recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes both violations by the teacher for bringing in an electronic device as well as procedural violations in which a student is permitted (whether intentional or unintentional) to bring in an electronic device. The test results for the entire classroom may be invalidated, pending investigation from the Mississippi Department of Education's Office of Student Assessment.

Test Security: Electronic Communication Device Protocol for Students

Student Protocol

- Students will sign the Prohibition of Electronic Communication Devices during Statewide Tests form.

- Students will leave their bookbags and other personal belongings in the hallway.

- A school administrator (Principal or Assistant Principal) will use a metal detector wand to scan the students in the testing rooms before the tests are administered.

Student Consequences

- If a student is found with an electronic communication device before the tests are administered, the administrator will escort the student to his/her bookbag to store the device, the student will receive an office referral for up to three days of in-school detention.

- If a student is found with an unauthorized electronic device when the state tests are being administered, the STC will document the incident and notify the DTC. The test results for that student will be invalidated, and the student will receive an office referral, which may include up to three days of out-of-school suspension. The test results for the entire

classroom may also be invalidated, pending investigation from the Mississippi Department of Education's Office of Student Assessment.

5. Describe the procedure used for ensuring students are using only allowable calculators.

All students will use a school calculator which has been cleared of all stored formulas, applications and/or programs by a math teacher or STC properly trained by district personnel on the proper way to clear a calculator. A back up person will also be designated in the case the appointed teacher or the STC is not available. Students will not be allowed to utilize personal calculators. Prior to the assessment date, the designee will clear all school calculators of stored formulas, applications and/or programs. The calculators will be placed into a box/container who will verify they have been cleared and the STC will place the box/container of calculators in the secure test storage area. On the day of the math assessment, the calculators will be delivered with the secure testing materials and will be subject to all procedures of handling secure testing materials.

6. Describe the procedure used to ensure that all content relevant materials in testing areas have been covered or removed.

Teachers will be notified to remove or cover content-related materials before the testing window. The School Test Coordinator and a School Administrator will check each classroom utilized during test administrator to ensure that all content relevant materials have been removed prior to the distribution of testing materials on assessment days.

7. Describe district monitoring of Test Administrators, Proctors, students and any others involved in the testing process.

Trained staff will walk the testing area halls to guarantee the TAs and Proctors are actively monitoring the students and the students are on task.

8. Describe the plan for multiple test administrations (i.e. morning/afternoon, dates).

In the instance of a multiple test administration, students testing in the afternoon session will eat lunch before any lunch waves start in the day and then move to their testing sites. Students in the morning session, will be dismissed back to class and continue the school day. In accordance with the MDE guidance memo, the Jackson County School District will end all state assessments 30 minutes prior to the end of the regular school day dismissal time.

9. Procedure for online testing and procedures that address disruptions, i.e., power outages, network problems, etc.

In the instance testing has already started, students will continue working on their test without stopping. This is the recommendation of the testing software provider. Students' answers will update to the provider's server once network access has been restored. If network access is not returned, the software provider will be contacted by the STC to determine the correct procedure to follow according to the individual issue. If a power outage occurs, expecting to last more than 10 minutes, Testing Administrators will give directions for students to log out of the test (not submit) gather testing materials and wait until power is restored. Once again, the software provider will be contacted to determine the right course of action for this issue. If power is restored, the TA will follow the directions in D4 to return testing materials to students for testing to resume.

10. Describe the procedure used to create the seating charts for students during statewide assessments (alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc.)

The School Test Coordinator will assign students' seat assignments in alphabetical order within a testing room. Consideration will be given to moving students according to teacher recommendations, siblings and close relations. However, all IEP, 504, and/or ELL accommodations will be considered first in regards to student seating. Also, TA's and/or the STC may also be allowed to use their professional judgment regarding student seating if the need arises. Any changes made during the testing administration regarding student seating will be made on the seating chart.

11. Districts may choose to dismiss students who finish early or allow them to read library books or other material not related to the content of the test. Address the procedure for implementing this process while being sensitive to avoid excessive disruptions to those students requiring additional time who are still working.

First time test takers in a timed test will not be dismissed early. First time test takers will not be dismissed in an untimed testing session unless most of the students are finished testing. If this occurs, all test materials will be collected and inventoried by the Test Administrator and Proctor and then by the School Test Coordinator and one other trained person. Students who have completed the test will be quietly dismissed with an appropriate supervisor and the students who need to continue testing will remain in the same room. Retesters will be dismissed as they finish testing only after their test materials have been collected by the TA.

12. Testing schedule for the current school year.

See last page

13. Conducting lunch, restroom and/or stretch breaks during or between tests.

Breaks are scheduled during testing according to the qualifying TAM. If a student needs a restroom break during assessment, they will be escorted to the restroom and back to the assessment room by the hall monitor.

On occasions students need to break for lunch the following procedures will be followed: All testing materials will be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator and at least one other trained person will secure the testing materials in the testing site. Depending on the number of students still testing, the students will either remain in the classroom and lunch will be brought to them or they will be taken to the cafeteria as a group to sit in a designated area before all regular school lunch waves are finished for the day. The Test Administrator and Proctor will remain with the students during lunch and will ensure no discussion of the test is allowed. After an approximate thirty-minute lunch and bathroom break, the students will be escorted back to the testing site and resume testing.

14. Describe the Shredding Policy in accordance with the District Test Security Policy.

A Certificate of Shredding Form will be used to document the district's commitment of shredding used scratch paper and authorization tickets. On a date specified by the DTC, all secure testing materials including scratch paper and authorization tickets will be shredded on-site. The Certificate of Shredding Form will be completed and a scanned copy will be emailed to the DTC.

15. Describe the considerations given when more than one online assessment is given in the same testing room.

When the School Test Coordinator schedules more than one online assessment in the same room (English, Biology, US History, and/or Algebra), students will be seated in a way that they are separated by subject and each subject will have a separate container of materials and separate seating chart. The test administrator and proctor will be informed regarding which students are taking which assessments and given the materials for each test.

16. If special accommodations are requested, (i.e. accommodation 24 and/or 25) you must complete a Planning Template for Accommodation 24 and/or 25 for each student.

A template will be completed for each student and will be kept on file at the school for testing purposes. Timing guidelines will be followed as set out by the Mississippi Testing Accommodations Manual for the current school year.

17. Makeup Testing.

Students absent for any testing date will test when they return to school on a date determined by the STC in a makeup testing room or be added to another testing room with the same or similar directions and timing instructions. Students making up tests in a room may be testing different subjects and different accommodations. Students will be given accommodations as needed. Test administrators will have a separate seating chart and testing container for manuals, tickets, pencils and scratch paper for each test being given. Tickets will be counted separately and signatures will confirm count on each seating chart.

18. Consideration for Medical Monitoring Devices during testing

a. Medical monitoring refers to the monitoring of a medical device using an application monitored by a cellular device.

b. The student must have documentation of a medical condition requiring monitoring written in a school plan such as an IEP and or a 504.

c. Students will be allowed to have the monitoring device in the testing room with one additional personnel present in the testing room to keep watch over the medical device. The device must be silenced and away from other students testing in the room. In the case of an alert, the student will be removed from the room and his test paused noting the time of the stop. The student will be allowed to return to his/her test and complete the time left for testing.

d. The cellular device must have all long-range connectivity, such as cellular or Wi-Fi functions, turned OFF if it doesn't interfere with the monitoring.

e. The student will test in a small group or a regular testing session with an individual monitoring the device.

19. Consideration for Homebound and/or Incarcerated students during testing

a. Any student listed as Homebound status will be contacted before testing through ECHS counselors or Homebound teacher to make the student and guardians/parents aware of date and time of testing.

b. Parent/Guardian will bring students to school on the day of testing to participate in the state test within a small group or regular test session depending upon the status of whether there is an IEP or 504.

c. Parent/Guardian will be contacted when student has finished their testing for them to be picked up.

d. In the case where a homebound student is unable to come to school to test because of medical issues, the homebound teacher and a school proctor will be trained to go to the student's home to administer the state test. The test will be administered according to the state testing calendar beginning with the first day of the test opening to the end of the testing window.

e. In the case a student is incarcerated in the Youth Center, three trained personnel will go to the facility to administer the state test according to the state guidelines within the testing window.

f. In either the case of homebound status or incarceration, the IT department of the school district will be contacted to add the software to the computer and attempt to add an internet filter prohibiting the student from being able to go to any other web site other than the necessary testing web sites.

20. Guidelines for Testing Virtual Learners during the COVID-19 Pandemic

a. Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
b. Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

E. ACT/ACT WorkKeys Testing Procedures

ACT/ACT WorkKeys Test Administration will occur at East Central High School. Our school will be set up as a Certified ACT administration Site. All rules and regulations pertaining to the ACT/ACT WorkKeys administration will be included in training. All ACT/ACT WorkKeys rules and regulations regarding the receipt, disbursement, administration, security, and return of test materials will be followed.

F. LAS Links Screener Procedures

a. The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only.

b. All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student

c. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.

d. The EL/Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.

e. These results will be placed in the student's cumulative record for future review and possible monitoring.

Jackson County School District
East Central High School
Testing Schedule – 2023-2024

TEST	TEST TAKERS	DATE(S)	BEGIN TIME
Term 1 Exams	ECHS Students	September 27 and 28	TBA
PSAT	Top 20% in 10th and 11th	TBA	8:00 a.m.
MS-CPAS	VoTech Students	TBA	TBA
District ACT	Junior Class	October 17	8:00 a.m.
District ACT	Accommodated	October 17-27	8:00 a.m.
ACT WorkKeys	ECHS Juniors Fall CCR Class	November 13-17	8:00 a.m.
MAAP	Alg, Bio, Eng, and US His	December 4-8	8:00 a.m.
MAAP	Makeups	December 4-15	8:00 a.m.
Term 2 Exams	ECHS Students	December 14 and 15	TBA
PreACT	PreACT 9th and 10th	March 26	8:00 a.m.
ACT	ACT 11th Grade	March 26	8:00 a.m.
ACT Accom	ACT Accommodated	March 26 – April 4	8:00
Term 3 Exams	ECHS Students	March 13 and 14	8:00 a.m.

MS-CPAS	Vo-Tech Students	TBA	TBA
ACT WorkKeys	ECHS Juniors Spring CCR Class	TBA	8:00 a.m.
MAAP	Alg, Bio, Eng, and US His	May 1-6	8:00 a.m.
MAAP	Alg, Bio, Eng, and US His Makeups	May 1-17	8:00 a.m.
MAAP-A	MAAP-A Students	TBA	8:00 a.m.
AP	Psychology	May 9	12:00 p.m.
AP	US History	May 10	8:00 a.m.
AP	Calculus	May 13	8:00 a.m.
Term 4 Exams	ECHS Students	May 23 & 24	TBA

Dates and times subject to change
Melinda Sharpton, Testing Coordinator
07/31/23

Please refer to the ECHS testing calendar before planning any field trips or activities. There should be no activities planned for scheduled testing dates. If the schedule shows TBA, please refer to the MDE testing calendar for the testing window.

Jackson County School District
St. Martin East Elementary
Test Security Plan

We assure that St. Martin East Elementary (Jackson County School District) will be in full compliance with the testing requirements as set forth in Appendix F of the current version of the ***Mississippi Public School Accountability Standards*** and Mississippi Code 37-16-4. The following signatures must be included in the Security Plan

Dr. Jillian Vallo Principal	Dr. Jillian Vallo Signature	9/25/23 Date
Patti Fleming School Test Coordinator	Patti Fleming Signature	9/25/23 Date
Dr. Taynya Sonnier District Test Coordinator	Dr. Taynya Sonnier Signature	9-25-23 Date

Name of Test(s) Kindergarten Readiness Assessment (KRA), Mississippi Academic Assessment Program (MAAP), English Language Proficiency Test (ELPT), Mississippi Academic Assessment Program-Alternate (MAAP-A)

Training

The School Test Coordinator (STC) will conduct a training session for all test administrators, proctors, hall monitors and school personnel prior to the administration of each statewide assessment. Proper procedures for administering the test and test security regulations and consequences for violations will be discussed. A dated agenda and participant signature roll will be kept. The District and School Test Security Plan will also be discussed. A copy of all training materials will be given to each participant. A copy of the dated agenda, handouts, documentation of consequences of testing violations and any Power Points will be provided to the District Test Coordinator and kept on file in the School Test Coordinator's office. A copy of the materials should be uploaded into the district's SharePoint folder.

Handling Materials

1. **Describe the procedure for STC to receive materials from DTC.**
Test materials will be retrieved/picked up from the district office by the STC and at least one trained personnel member. The STC and trained personnel member will transport our school's materials back to our campus after verifying materials with the DTC and another designated member at the district office. Upon the completion of testing, the STC and trained personnel member will return all materials to the district office.

2. **Describe the procedure for distributing materials to each test administrator.**
The STC with an assistant will set up test materials on the testing cart each morning of testing. The Test Administrators (TA) will meet the STC and assistant in a designated room to count scratch paper, testing tickets, and all other testing materials. Once materials have been counted, Hall Monitors will escort TAs to testing rooms where the Proctors will be waiting with the class. Two trained people will be with the tests and testing tickets at all times. Testing tickets for online tests will be printed in advance. Testing tickets will be counted and signed for by each TA.

3. **Describe the procedure that test administrators will use to distribute materials to students and to account for materials before students leave the testing area.**
The TA and proctor will distribute all materials as laid out by the TAM, including an authorization ticket, to each student. The TA or proctor will collect all materials as required by the TAM, including the authorization ticket from each student, as he/she finishes the test. The TA will count the materials before submitting to STC.

4. **Describe the procedure for returning materials to the school test coordinator.**
The TA will be escorted by a hall monitor to the designated collection room. All authorization tickets, login codes, scratch paper, and testing materials will be counted. Two trained people (at least 1 certified) will deliver the materials to the testing storage cabinet. 2 trained people will be with the testing materials at all times. Authorization tickets and scratch paper will be shredded on the last day of the testing window.

5. **Describe the security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP'S, etc.**
Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a Staff Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.

In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:

   a. *This scribe will sign a Staff Statement of Assurance Security Agreement before this process.*
   b. *The student will not test with any other students.*

c. *A scribe will be the third person in the room. (TA, Proctor, Scribe)*
d. *The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.*
e. *All other security measures will be maintained.*

6. **List all individuals who have access to the secure storage area.**
Patti Fleming is the only person with a key to the testing file cabinet.

7. **Include a list or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Please note that the test administrators must be licensed in compliance with Appendix F. (See Section IV, 5a.)**
See Attached list.

Additional Procedures

1. **Describe your policy on secure storage access – (Review Appendix F).**
Test Materials will be kept in a locked file cabinet. The STC will be the only person with a key to the cabinet. A sign stating: "Authorized Personnel Only" with the names listed will be posted on the cabinet.

2. **Describe the plan for student emergencies (bathroom, sudden illness).**
If a student emergency occurs, the TA or proctor will signal the hall monitor with the appropriate sign. The student will be exited from the system. Once the student returns, the student will be resumed. The student can then login to continue the test. Students will go in the restroom one at a time (one male, one female).

3. **Describe the plan for severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.**
In accordance with Section 37-11-5 of the Mississippi School Safety manual, ***Jackson County School District*** *adheres to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedures. In the event of a unique threat which requires the use of evacuation procedures during a state assessment, we will adhere to the Emergency/Crisis Response Procedures set forth by the District to ensure the health and safety of our students and staff. The STC will work with the TAs to maintain the integrity of all secure test materials. In the event of a unique threat, the TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. Once materials have been secured, students will be dismissed and will receive further instructions from hall monitors. TAs and proctors will secure and exit the classroom after all students have vacated the secured environment. After the threat of injury has subsided, the TA and proctor shall be the first to enter the secured classroom. Upon re-entry, the TA and Proctor will account for all the test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.*

4. **Describe the plan that prohibits the possession and/or use of any electronic communication device, including but not limited to, cell phones and personal digital assistance devices, during the administration of scheduled statewide assessments.**
   Each student, Test Administrator, Hall Monitor, and Proctor will sign a statement ensuring that he/she understands that possession or use of electronic devices during active testing sessions are not allowed. Prior to the distribution of secure test materials, the STC, TA, Hall Monitors and Proctors will turn in all electronic devices to the office. Prior to the beginning of each test, the TA will remind the students that these devices are not allowed and will collect the electronic devices from the students and turned into the office. Once all test materials have been collected and returned to the STC, the proctor may return the devices to the students. If a student violates this policy, his/her testing materials will be retrieved by the TA, and the student will be escorted by a hall monitor to the principal's office for disciplinary action. The STC will document the incident and notify the DTC.

5. **Describe the procedure used for ensuring that students are using only allowable calculators.**
   Calculators are not allowable for grades Pre-K – 3.

6. **Describe the procedure used to ensure that all content relevant materials in testing areas have been covered or removed.**
   Teachers are notified before testing that content related materials should be removed or covered. Testing areas will be checked prior to testing to ensure that rooms are free from content related materials.

7. **Describe district monitoring of Test Administrators, Proctors, students and any others involved in the testing process.**
   Trained staff will walk the testing area halls, going from room to room to guarantee that the TAs and proctors are actively monitoring the students

8. **Describe the plan for multiple test administration (i.e. morning/afternoon) if applicable.**
   Test security will be maintained on days that assessments are administered multiple times. Students who have tested will not be placed with students who have not been tested. All personnel will have detailed lists of students who are testing and the times that they are testing. All personnel, including Test Administrators, Proctors, and Hall Monitors will assure that this procedure is followed.

9. **Describe the procedure for online testing, and include procedures to address when Disruptions occur (power outages, network problems, etc.)**
   Students will be verified according to procedures determined by MDE. A computer tech is assigned to our school during online testing to assist with technical issues. The computer tech will sign the security agreement that he/she has been trained. All test security guidelines will be followed. During Kindergarten/Pre-Kindergarten testing, assistants will be trained to help log in kindergarten students as permitted in the TAM.

10. **Describe the procedure used to create the seating charts for students during statewide assessments (alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc.)**
Students will be pre-arranged by the homeroom teacher who will make a seating chart for the days of testing. All IEP, 504, and/or EL accommodations will be considered first in regard to student seating. Also, TA's and/or the STC may also be allowed to use their professional judgment regarding student seating if the need arises. Any changes made during testing regarding student seating will be made on the seating chart.

11. **On an untimed test, students who finish early may be allowed to read library books or other material not related to the content of the test. This is a district decision. What will students in your school be allowed to do?**
With the new time frame of 180 minutes for the MAAP assessment, the school will use flexibility to dismiss students for other activities if all students complete the test earlier than the proposed time as suggested by the Office of Student Assessment. If the testing group is a small group testing or make-up testing, students may be permitted to return to their class based on judgment of the STC.

12. **If special accommodations are requested, (i.e. accommodation 24 and/or 25) you must complete a Planning Template for Accommodation 24 and or 25 for each student.**
A template will be completed for each student and will be submitted to MDE for approval and will be kept on file at the school.

13. **Guidelines for Testing Virtual Learners During the COVID-19 Pandemic**
    - *Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.*
    - *Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.*

14. **Medical Monitoring Devices Using Electronic Devices w/ Internet Capacity During Testing:**
In regards to students requiring medical devices monitoring their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribed document should outline the procedures and accommodations specifically for the student and for the device. (EX. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating). Accommodations will be listed on the seating charts.

Section III – SCHOOL PLAN

We assure that St Martin North Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the current version of the ***Mississippi Public School Accountability Standards*** and Mississippi Cody 37-16-4. The following signatures must be included in the Security Plan.

Jackson County School District — St Martin North Elementary School

Shannon Melton School Principal	Shannon Melton Signature	9/22/23 Date
Misty Santa Cruz School Test Coordinator (STC)	Misty Santa Cruz Signature	9/22/23 Date
Tanya Sonnier District Test Coordinator (DTC)	Tanya Sonnier Signature	9-22-23 Date

Name of Test(s)

Kindergarten Readiness Assessment (KRA), Mississippi Academic Assessment Program (MAAP), English Language Proficiency Test (ELPT): Las Links, Mississippi Academic Assessment Program-Alternate (MAAP-A), Las Links Screener/Placement Test

Training

The School Test Coordinator (STC) will conduct a training session for all test administrators, proctors and hall monitors prior to the administration of statewide assessments. Proper procedures for administering the test and test security regulations and consequences for violations will be discussed. A dated agenda and participant signature roll will be kept. The District and School Test Security Plan, will also be discussed. A copy of all training materials will be given to each participant. The STC will maintain and have immediate access to the following documentation (paper or digital) for each training session held:

- Dated, detailed agenda of the training done in preparation for this test
- Copy of hand-outs, slides, and/or other materials used in training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attended the training

Handling Materials

1. **Describe the procedures for STC to receive and return materials from/to DTC.**
   All test materials will be retrieved/picked up from the district office by the STC and another personnel member. The secure materials will be transported to the school campus after verifying all materials with the DTC and Mrs. Shelly Barnett (or another designee).
   The STC and another personnel member from the school will return all materials to the district office upon completion of the assessment.

2. **Describe the procedure for distributing materials to each test administrator (TA).**
Two trained personnel will be with testing materials at all times. The STC and other trained personnel will distribute testing materials to the individual classrooms. Test materials will be counted and signed for by the Test Administrator assigned to the testing room.

3. **Online Authorization Codes**
Once the Online Authorization Codes for individual students are downloaded and printed, they will be secured and locked in a secure area and accompanied by two individuals, one of whom must be a certified individual. Authorization codes will be shredded once the test session is completed and all students have finished testing. Certificate Shredding will be signed and executed as a districtwide shred day.

4. **Describe the procedure that test administrators will use to distribute materials to students and to account for materials before students leave the testing area.**
Test Administrators and Proctors will distribute authorization tickets utilizing the seating chart. The seating chart will include student's name and MSIS number. Student authorization tickets will be distributed to the students, once the student is logged into the test the student will place the authorization ticket on an available area next to them. The authorization ticket will remain there until the student finishes testing for the day. Once the student is logged out of the test the test administrator or proctor will pick up the student authorization ticket. Test administrators will count the materials before the students are dismissed from the testing area.

5. **Describe the procedure for returning materials to the school test coordinator.**
At the conclusion of testing each day, the Test Administrator or Proctor will signal that testing is complete. Two trained people (at least one certified) will collect all testing materials from the Test Administrator and proctor in each testing room. The student authorization tickets will be counted by the two trained people and they will verify by signature that all materials have been received. Two trained people (at least one certified) will deliver the materials to the secure storage area.

6. **Describe security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP's, etc.**
Scribing will be done under secure conditions with two trained people present for paper/pencil testing. In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:
    a. This scribe will sign a Statement of Assurance Security Agreement before this process.
    b. The student will not test with any other students.
    c. A scribe will be the third person in the room. (TA, Proctor, Scribe)
    d. The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.

e. All other security measures will be maintained.

All Braille/large print test materials will be reviewed by the Test Administrator in the same area that is utilized for review of all other test materials. Transferring of large print answers will be done by the Test Administrator under the supervision of the STC and one other trained person. Test Administrators and Proctors administering the read aloud accommodation, when allowed under the Accommodation Manual, to students with IEP's, 504 Plans or Language Service Plans will sign a confidentiality statement which includes Requirement 8 of Appendix F prior to the administration of the assessment. Any portion of the student booklet, which contains material that is non-allowable for the read, aloud accommodation under the Accommodation Manual will be secured by paper label by the STC in the presence of one other trained individual prior to the distribution of test materials.

7. **List of all individuals who have access to the secure storage area.**
   Misty Santa Cruz, School Test Coordinator
   Crystina Moran, School Counselor

8. **Include a list or schedule of test administrators, proctors, hall monitors and relief personnel who will be involved in each test administration (Please note that the test administrators must be licensed in compliance with Appendix F. (see Section IV, 5a)).**

Certified Trained JCSD Employees	Test Administrator/Proctor/Hall Monitor
Non-Certified Trained JCSD Employees	Proctor/Hall Monitor

Studying Test Administrator Manuals

Test Administrator will be given a copy of the TAM when available from the testing vendor.

Additional Procedures

1. **Describe your policy on secure storage access (Review Appendix F).**
   Test Material will be kept in a locked storage area. The STC and School Counselor will have the only two keys to the area. A sign stating "Authorized Personnel Only" with the names listed will be posted on the door along with a dated sign-in/out log.

2. **Describe the plan for student emergencies (bathroom, sudden illness).**
   If a student emergency occurs, the Test Administrator or proctor will signal the hall monitor with the appropriate sign. Trained monitors will be placed in the hallway to maintain security and to assist during emergencies within the classrooms. The hall monitor will move to the classroom door to assist with the emergency. In case a student has to leave the testing area at any time during testing, the Test Administrator or Proctor will collect the student's testing materials, the student will either pause the test or log off of the test and will document the student's name, nature of the emergency and the time in/out of the classroom on a student emergency log provided to them by the STC. The student will be escorted to the restroom (only one male and one female will be allowed to go to the restroom at a time) or office, whichever is appropriate, and the escort will remain with the

student until they are able to return to the testing area or will escort the student to an office where he/she may wait until picked up by a parent or guardian. In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify the STC.

3. **Describe the plan regarding medical monitoring devices using electronic devices with internet capacity during testing.**
   In regards to students requiring medical devices monitoring their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribed document should outline the procedures and accommodations specifically for the student and for the device. (EX. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating). Accommodations will be listed on the seating charts.

4. **Describe the plan for severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.**
   In accordance with Section 37-11-5 of the Mississippi School Safety manual, Jackson County School District adhere to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedures. In the event of a unique threat which requires the use of evacuation procedures during a state assessment, we will adhere to the Emergency/Crisis Response Procedures set forth by the District to ensure the health and safety of our students and staff. The STC will work with the Test Administrators to maintain the integrity of all secure test materials. In the event of a unique threat, the Test Administrators and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. Once materials have been secured, students will be dismissed and will receive further instructions from hall monitors. Test Administrators and Proctors will secure and exit the classroom after all students have vacated the secure environment. After the threat of injury has subsided, the Test Administrator and Proctor shall be the first to enter the secured classroom. Upon re-entry the Test Administrator and Proctor will account for all the test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.

5. **Describe the plan that prohibitions the possession and/or use of any electronic communication device, including cell phones and personal digital assistance devices, during the administration of scheduled statewide assessments.**
   Each student will sign a statement ensuring that he/she understands that these electronic devices are not allowed. Prior to the beginning of each test, the Test Administrator will remind the students that these devices are not allowed and will collect the electronic devices from the students. The electronic devices will be given to the principal outside the testing area. If a student violates this policy, his/her testing materials will be collected by the Test Administrator, and the student will be escorted by a hall monitor to the principal's office for disciplinary action. The STC will document the incident and notify the DTC. All Test Administrators and Proctors will also leave cell phones outside the testing area during test administration.

Students:
Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

Staff:
Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.

6. **Describe the procedure used for ensuring that students are using only allowable calculators.**
   Calculators are not allowable for grades Pre-K – 3.

7. **Describe the procedures used to ensure that all content relevant materials in testing areas have been covered or removed.**
   Teachers are notified before testing that all content related materials should be removed or covered. The STC and/or Administrator will check each classroom utilized in the test administration to ensure that all content relevant materials have been removed or covered prior to the distribution of testing materials on assessment days.

8. **Describe district monitoring of test administrators, proctors, students and any others involved in the testing process.**
   Trained staff will walk the testing area halls, going from room to room to guarantee that the Test Administrators and Proctors are actively monitoring the students, they will also make sure that students are on task. Each test administration site will be monitored a minimum of one time during each test administration by a district staff member.

9. **Describe the plan for multiple test administrations (i.e. morning/afternoon) if applicable.**
   Students from the morning session will not be combined with students in an afternoon session.

10. **Describe the procedure for online testing and include procedures that address when disruptions occur (i.e. power outages, network problems, etc.)**
    In the event that there is a power outage or network problems before beginning testing the following protocol will be followed: Proceed with testing only if the test can be completed that day, if the test cannot be completed, make-up testing will be scheduled.

In the event that there is a power outage or network problems that occurs during the test, the following protocol will be followed: The time of the power outage or time network difficulties develop so that the remaining time for the test can be calculated. Upon the power/network returning the students will be prepared for the continuation of the test, the TA will inform students how many minutes remain and the time on the will be updated. In both instances the situation will be documented, noting the event, date, and time, students affected, and any other specific details regarding the situation.

11. **Describe the procedures used to create the seating charts for students during statewide assessments. (Alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc.)**
    Most students will be seated pre-arranged by the class's homeroom teacher. However, all IEP, 504 and/or Language Service Plan accommodations will be considered first in regards to student seating. Also, Test Administrator's and/or the STC may also be allowed to use their professional judgement regarding student seating if the need arises. Any changes made during testing regarding student seating will be made on the seating chart.

12. **On an untimed test, students who finish early may be allowed to read library books or other material not related to the content of the test. This is a district decision. What will students in your school be allowed to do?**
    When the students are finished testing and they have logged out they may read library books or other reading material not related to the content of the test.

13. **If special accommodations are requested, (i.e. accommodation 24 and or 25) you must complete a Planning Template for Accommodation 24 and/or 25 for each student.**
    A template will be completed for each student and will be submitted to MDE for approval and will be kept on file at the school.

14. **Include the testing schedule for the current school year. Districts may simply attach the state calendar:** https://www.mdek12.org/OSA
    See attached

Where applicable, describe the procedures used for:

1. **Conducting lunch, restroom and/or stretch breaks during or between tests.**
   Restroom Breaks: During a test, individual restroom breaks may be provided at the discretion of the Test Administrator. Students will be supervised at all times between the testing room and the restroom by a trained individual. Only one girl and one boy at a time will be allowed to take a restroom break.
   Stretch Breaks: At the discretion of the Test Administrator, a classroom may take one "stand-and-stretch" break for up to three minutes during testing, and the Test Administrator may adjust unit time accordingly.
   Lunch: Tests are scheduled before lunch begins and after lunch ends.

2. **Setting Reasonable Time Limits for SATP2 exams. In a MDE guidance memo dated November 19, 2010, Superintendents and DTCs were instructed that reasonable time limits are appropriate as long as students are provided a minimum of four (4) hours to complete a test. You can view the memo at: http://tiny.cc/satptime**
   In accordance with the MDE guidance memo, the Jackson County School District will end all state assessments 30 minutes prior to the end of the regular school day dismissal time.

3. **Students Reading and Test Administrators Sitting. In a MDE guidance memo dated April 22, 2011, Superintendents and DTCs were instructed that it is permissible for: students to read a book or magazine after a test and teachers to occasionally sit during test administrations within certain reasonable parameters. You can view the entire memo at: http://tiny.cc/standandread**

4. **Guidelines for Testing Virtual Learners during the COVID-19 Pandemic**
   Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
   Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite on accordance with the state testing calendar.

5. **Procedures for LAS Links Screener**
   a. The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only.
   b. All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student
   c. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.
   d. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
   e. These results will be placed in the student's cumulative record for future review and possible monitoring.

Addendums

St. Martin Middle School
Test Security Plan
Jackson County School District
2023-2024

Section I
Assurances

*We assure that **St. Martin Middle School** will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards, 2012, and Mississippi Code 37 – 16-4. We understand that there is one Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.*

Jackson County School District **District**	St. Martin Middle School **School**
Leslie Beam **School Test Coordinator**	Leslie Beam 9/29/23 **Signature** **Date**
Wendell E. Ellis **School Principal**	Wendell Ellis 09/29/23 **Signature** **Date**
Dr. Tanya Sonnier **District Test Coordinator**	Tanya Sonnier 9-29-23 **Signature** **Date**

Section II

A. Name of Test(s): ELPT: LAS LINKS & THE LAS LINKS SCREENER/ PLACEMENT TESTS, MAAP-A, MAAP (SCI & 3-8), NAEP

B. Training:

The School Test Coordinator will conduct a training session at each school for all test administrators, proctors, hall monitors and school personnel prior to the administration of statewide assessments. Proper procedures for administering the test and test security regulations and consequences for violations will be discussed. A dated agenda and participant signature roll will be kept. The District and School Test Security Plan, will also be discussed. A copy of all training materials will be given to each participant. When requested, a copy of the dated agenda, handouts, documentation of consequences of testing violations and any Power Points will be provided to the District Test Coordinator. All documents will be kept on file in the School Test Coordinator's testing binder.

C. Studying Test Administrator Manuals:

1. When and where will test administrators be allowed to study the manual prior to testing?

Test Administrators will be allowed to review manuals once they are uploaded on the Questar Website. Test Administrators will also be allowed to review manuals in the *Conference Room or Library* in the presence of the School Test Coordinator or an Administrator several days prior to testing.

D. Handling Materials

1. Describe the procedure for distributing materials to each test administrator

Two trained personnel will be with testing materials at all times.

After all electronic devices have been collected from the testing rooms, the School Test Coordinator and other trained personnel will distribute testing materials to the individual classrooms. Testing Items will be counted and signed for by the Test Administrator at the classroom door. Once testing is complete the STC and other trained personnel will collect testing materials in individual classrooms. The STC and other trained staff will verify all secure testing material has been returned and sign off that it has been verified. Once collected all secure testing material will be returned to the testing closet.

2. Describe the procedure that test administrators will use to distribute materials to students and to account for materials before students leave the testing area

The TA and proctor will distribute all materials as laid out by the TAM, including an authorization ticket, to each student. The TA or proctor will ask the student their date of birth to verify they are receiving the correct test ticket. The TA or proctor will collect all materials as required by the TAM, including the authorization ticket from each student, as he/she finishes the test. The TA will count the materials before the students are dismissed from the testing area.

Homebound, Alternative, and any School 500 students will be tested by trained school personnel and proctors on the St. Martin Middle School campus. The location for this testing will be determined based upon the individual circumstances of the student(s). Any testing materials for these students will be checked out from and returned to the secure testing closet. The test materials will be in the presence of two trained employees (at least one certified) at all times during the transport of materials and during the administration of the assessments.

3. Describe the procedure for returning materials to the school test coordinator

Two trained personnel (at least one certified) will collect all testing materials from the TA and proctor in each testing room. Two trained personnel (at least one certified) will deliver the materials to the testing storage room and shred the authorization tickets when allowed. Two trained people will be with the testing materials at all times. Authorization tickets will be shredded once testing has concluded.

4. Describe the security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP'S, etc.

Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a Staff Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.

In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:

a. This scribe will sign a Staff Statement of Assurance Security Agreement before this process.
b. The student will not test with any other students.
c. A scribe will be the third person in the room (TA, Proctor, Scribe)
d. The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.
e. All other security measures will be maintained.

5. Storage and Access to Secure Test Materials

Leslie Beam (School Test Coordinator) and Brittany Walker (Assistant Principal) will have access to the secure storage closet.

6. Include a list or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Please note that the test administrators must be licensed in compliance with Appendix F. (See Section IV, 5a.)

See Attached list.

E. Additional Procedures

1. Describe your policy on secure storage access to secure storage areas for test materials (Review Appendix F)

The School Test Coordinator and another trained personnel member will drive to the district office to pick up testing materials, all material will be inventoried immediately. Upon return to school will immediately transfer all testing materials to the School Secure Storage Area. The return of the testing materials to the district office after testing is complete will also be done by the School Test Coordinator and another trained personnel member. The School Secure Storage Area for all tests will be located in the 8th grade hall storage closet. Only the individuals listed under #5 of Handling Documents of the School Security Plan will have access to these materials during this time and two trained people must always be present whenever test materials are onsite. A sign-in sheet will be posted on the outside of the door of the School Secure Storage Area documenting people entering/exiting the room as well as the date and time of entry/exit. Any other person needing access to the storage room must be accompanied by one of the above listed people. All personnel at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and Statement of Assurance.

2. Plan for student emergencies (bathroom, sudden illness)

Monitors will be placed in the hallways/walkways to maintain security and to assist during emergencies within the classrooms. Any Test Administrator who has an emergency will signal for the hall monitor using a "Help Needed" sign. The hall monitor will move to the classroom door to assist with the emergency. In case a student has to leave the testing situation at any time during testing, the Test Administrator or Proctor will collect the student's testing materials and will document the student's name, the nature of the emergency and the time in/out of the classroom on a sheet provided to them by the School Test Coordinator. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate, and the escort will remain with the student until they are able to return to the testing room or will escort the student to an office where he/she may wait until picked up by a parent or guardian. In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify the School Test Coordinator or office. Test Administrators must be relieved by a Hall Monitor that holds a Mississippi Educator's License.

3. Describe the plan for severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility

In accordance with Section 37-11-5 of the Mississippi School Safety manual, **Jackson County School District**, adhere to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedures. In the event of a unique threat which requires the use of evacuation procedures during a state assessment, we will adhere to the Emergency/Crisis Response Procedures set forth by the District to ensure the health and safety of our students and staff. The STC will work with the TAs to maintain the integrity of all secure test materials. In the event of a unique threat, the TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. Once materials have been secured, students will be dismissed and will receive further instructions from hall monitors. TAs and proctors will secure and exit the classroom after all students have vacated the secured environment. After the threat of injury has subsided, the TA and proctor shall be the first to enter the secured classroom. Upon re-entry the TA and Proctor will account for all the test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.
A trained Jackson County School District computer technician will be assigned to St. Martin Middle School during testing to assist with technical issues. In the event of a power outage the STC will contact customer support to document the number of students and classes impacted. If needed, the TA and proctor will quarantine and label student devices with the students' names and MSIS number. If power can't be restored and testing must resume at another time, the STC will submit an Irregularity form to the DTC for documentation purposes. If power is restored the TA will instruct students to log back in to their tests.

4. Describe the plan that prohibits the possession and/or use of any electronic communication device, including cell phones and personal digital assistance devices, during the administration of scheduled statewide assessments

Prior to the beginning of each test, the TA will remind the students that electronic devices are not allowed in the testing area. The TA will collect all electronic devices from the students and place them, along with the TA and proctor's in the bucket provided by the STC. Students, Test Administrators and Proctors will sign the *t Notification of Prohibition of Electronic Communication Devices during Statewide Tests* Form prior to administration of all state tests. The electronic devices will be collected by the hall monitors before testing and placed in the AP's office. Test material will then be distributed to classrooms. Once testing has concluded and all

test materials have been collected and returned to the STC, the proctor or TA will return all electronic devices. If a student violates this policy, his/her testing materials will be retrieved by the TA, and the student will be escorted by a hall monitor to the principal's office for disciplinary action. The STC will document the incident and notify the DTC.

Staff:

Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.

Students:

Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

5. Describe the procedure used for ensuring that students are using only allowable calculators

Students in high school can receive a graphing calculator. Graphing calculators used for Alg. I-SATP2 (First time test takers in 2011-2012 or after) and/or MAAP must be cleared before students are allowed to use them. In the event any student has a handheld calculator, the following will be in place:

a. Each high school and middle school principal will appoint a math teacher to make sure that every calculator used in a state assessment is completely cleared.
b. Each math teacher that serves in this role will be properly trained by district personnel on the proper way to clear a calculator. A back up person will also be trained in case of an emergency where the appointed person is not available.
c. Each calculator that is used in any state assessment will be cleared prior to use on the state assessment.
d. Each calculator will be locked up in the secure testing room immediately after being cleared and will only be used or leave the secure room for state assessments until the end of testing within the window.
e. TAs and Proctors will make sure students do not load programs, applications, or formulas back on the calculators (which require a second calculator & connector)
f. Calculators will be cleared again after each time of use before next use.

g. The principal, staff member who was responsible for actually clearing the calculators and the STC will sign a statement of assurance declaring that every calculator to be used in the state assessment was properly cleared and checked to be sure it was cleared.
h. Each STC will keep the signed statement of assurance regarding calculators in their Audit Folder. This folder is available for review by District or State personnel.

Students are NOT allowed to bring a personal calculator to use for any state assessment. Every student will be provided a school calculator to use if using a calculator.

6. Describe the procedure used to ensure that all content relevant materials in testing areas have been covered or removed

Teachers are notified before testing that content related materials should be removed or covered. Testing areas will be checked by the School Test Coordinator and/or a school administrator prior to testing to ensure that rooms are free from content related materials.

7. Describe district monitoring of Test Administrators, Proctors, students and any others involved in the testing process

Trained staff will walk the testing area halls, going from room to room to guarantee that the TAs and proctors are actively monitoring the students, they will also make sure that students are on task.

8. Describe the plan for multiple test administration (i.e. morning/afternoon) if applicable.

Students from the morning session will not be combined with students in an afternoon session.

9. Describe the procedure for online testing, and include procedures to address when Disruptions occur (power outages, network problems, etc.)

Students will be verified according to procedures determined by MDE.
A computer tech is assigned to our school during online testing to assist with technical issues. The computer tech will sign the security agreement that he/she has been trained. All test security guidelines will be followed.

10. **Describe the procedure used to create the seating charts for students during statewide assessments (alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc.)**

    Most students will be seated in alphabetical order. However, all IEP, 504, and/or ELL accommodations will be considered first in regards to student seating. Also, TA's and/or the STC may also be allowed to use their professional judgment regarding student seating if the need arises. Any changes made during testing regarding student seating will be made on the seating chart.

11. **On an untimed test, students who finish early may be allowed to read library books or other material not related to the content of the test. This is a district decision. What will students in your school be allowed to do?**

    Students are allowed to bring one book not related to the subject area content to read after they finish testing. This book will placed at the front of the room with a post-it note with the student's name. Once the student has finished testing, and the TA or proctor has collected the testing materials, he/she may read. All other possessions are placed at the front, back of the room, hallway or another room and will be returned upon exit.

12. **If special accommodations are requested, (i.e. accommodation 24 and/or 25) you must complete a Planning Template for Accommodation 24 and or 25 for each student**

    A template will be completed for each student and will be submitted to MDE for approval and will be kept on file at the school.

13. **Outline the procedure to ship scratch paper used during test administrations with secure test materials as outlined in the Test Administrators Manuals**

    Scratch paper will be shredded at St. Martin Middle School upon completion.

14. **Procedures for online testing:**

    Test administration procedures for state testing will be followed for all online testing which includes, but may not be limited to: Use of at least one (1) certified and one (1) other test trained individual (for every 25 testers) in the testing room at all times, use of dividers between computers, no electronic devices, and as much space as

possible between testing computers. Other precautions may be employed depending upon specific testing room scenarios. Once the Authorization Codes for individual students are downloaded and printed, they will be secured and locked in a secure area and accompanied by two individuals, one of whom must be a certified individual. Authorization Codes will be shredded once the test session is completed and all students have finished testing. Certificate of Shredding will be signed and executed.

15. Include the testing schedule for the current school year. Districts may simply attach the state calendar

This year's testing schedule is attached

16. At the conclusion of testing, the coding of student information and a review of answer documents for completeness of student administrative data is correct and to ensure there are no stray marks is completed. Indicate the individual(s) responsible for completing these tasks; when will it be done and where it will be done in order to ensure proper test protocols are followed and that test materials are not compromised

Student data is coded prior to testing by the School Test Coordinator and at least one other trained person or by two trained persons under the supervision of the School Test Coordinator or an administrator. Student test booklets are reviewed by the same personnel after testing in order to ensure that all data is accurate and complete and contains no stray marks or highlighter. The School Test Coordinator, the Principal and the Local Survey Chairperson must certify the coded information as correct.

17. Guidelines for Testing Virtual Learners during the COVID-19 Pandemic

- Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
- Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

18. Medical Monitoring Devices using Electronic Devices with Internet Capacity:

In regards to students requiring medical devices to monitor their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribes document should outline the procedures and accommodations specifically for the student and for the device. (i.e. A student requiring a cellular

device for glucose monitoring may be accommodated by small group testing, preferential seating) Accommodations will be listed on the seating charts.
• Any student using a cellular device application for medical monitoring will not have the device in his/her possession during state testing/or security reasons. However, the device will be in the hallway or testing room in close proximity to the student.
• For test administrations, the student will be tested following one of these guidelines: A student requiring medical monitoring may test in a small group or in a regular testing session with a test administrator, proctor, and an individual to monitor the device, or A student requiring medical monitoring may test individually with a test administrator and a proctor with the proctor monitoring the device in this situation. All individuals involved will be trained and sign a confidentiality form before testing.
•The student(s) will be seated near the device so that the readings and/or contact with the medical monitor can be maintained.
•The student(s) will sit in a place to avoid drawing attention to the cellular device, due to other student's concerns that cellular devices are now allowable in the testing area.

F. If Applicable, describe the procedures used for:

1. **Conducting lunch, restroom and/or stretch breaks during or between tests:**

There are no scheduled breaks during testing. If a student needs a restroom break during assessment, they will be escorted to the restroom and back to the assessment room by the hall monitor. Only one student at a time will be allowed to take a restroom break. On occasions that students need to break for lunch: The procedure will be to collect and secure all test materials and store them in the secure testing closet. Runners designated by the School Test Coordinator will take orders and cafeteria lunches will be brought to the testing room. Students and assessment personnel will eat in the room. Students will not talk during this time. Students testing will not have any contact with the rest of the student body during this time. When lunch is finished lunch materials will be disposed of, secured test materials will be distributed, and testing will resume.

G. New Procedures since last OSA template update:

1. Setting Reasonable Time Limits for SATP2 exams. In a MDE guidance memo dated November 19, 2010, Superintendents and DTCs were instructed that reasonable time limits are appropriate as long as students are provided with a minimum of four (4) hours to complete a test. You can view the memo at: http://tiny.cc/satptime.

In accordance with the MDE guidance memo, the Jackson County School District will end all state assessments 30 minutes prior to the end of the regular school day dismissal time.

2. Students Reading and Test Administrators sitting: In an MDE guidance memo dated April 22, 2011, Superintendents and DTCs were instructed that it is permissible for: Students to read a book or magazine after a test and teachers to occasionally sit during test administrations within certain reasonable parameters. You can view the entire memo at: http://tiny.cc/standardread.

H. LAS Links Screener Procedures:

1. The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of ELs only.
2. All potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student
3. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.
4. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
5. These results will be placed in the student's cumulative record for future review and possible monitoring.

I. Accommodation Verification:

Prior to starting any tests in accommodated rooms, the TA will verify that all students' accommodations are listed on the seating chart. The STC will provide the TA with a copy of the students testing accommodations and the TA and Proctor will verify that each students' correct accommodations are on their testing screen or they are provided all their accommodated testing material. The TA and proctor will sign off verifying that all accommodations were provided during their testing session.

J. Testing Procedures:

- All student bookbags, purses, and lunchboxes will be left in the hallway outside of their testing room. Administration will strongly encourage students to leave any unnecessary bags at home during testing.
- Students will stay in the testing room until all students have completed testing. The students will be instructed to sit quietly or put their head down. At the discretion of administration, completed testing rooms may be allowed to exit through the back-classroom door as to not disturb the other classes that are testing.
- No food or drinks will be allowed in the testing room, unless listed as an accommodation on the student's 504 or IEP.
- Hall monitors will not be allowed to sit or eat and must be actively monitor the halls.
- TA's and proctors must check that the student properly submitted their test.

2023-2024 Statewide Testing Calendar

Test Name	Details	Testing Window			Testing Population	
		Start Date	Finish Date	Maximum Duration in Minutes	Grade Levels	Retesters
Kindergarten Readiness Assessment (KRA)	Pretest	7/20/2023	9/22/2023	41	PK-K	No

*Key: TBD = To be determined; * ELA Session 1 (180 minutes) and 2 (75 minutes) will be 255 minutes total. Math Session 2 has been removed.*						
Mardi Gras is February 13, 2024; Easter is March 31, 2024; Spring Break typically will be March 11-15, 2024; Coastal Spring Break is TBD.						
Note: Testing days vary from a minimum of one (1) day to a maximum of three (3) days per student.						
Please see *K-3 Assessment Key Dates* document for further information on all dates related to the Literacy-Based Promotion Act and the *NAEP Key Dates* document for information on all dates related to the NAEP.						

St. Martin High School
Test Security Plan
Jackson County School District 2023-2024

Section I - ASSURANCES

We assure that St. Martin High School will be in full compliance with the testing requirements as set forth in Appendix F of the current version of the Mississippi Public School Accountability Standards and Mississippi Code 37-16-4. We understand that there is one Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Jackson County School District		St. Martin High School
Mrs. Shelley Leyens	Shelley Leyens	9-15-23
School Test Coordinator	Signature	Date
Mr. Shea Scarborogh	Shea Scarborough	9-15-23
School Principal	Signature	Date
Dr. Tanya Sonnier	Tanya Sonnier	9-15-23
District Test Coordinator	Signature	Date

Section II – ST. MARTIN HIGH SCHOOL TEST PLAN

- Administered Assessments:

MAAP/MAAP-A

Questar Platform:
- EOC-English II
- EOC-Algebra I

DRC Platform:
- EOC-Biology
- EOC-US History

ELPT-LAS Links
- LAS Links Screener
- LAS Links Placement
- LAS Links

ACT

ACT WorkKeys

- Training: The School Test Coordinator will conduct a training session at each school for all test administrators, proctors, hall monitors and school personnel prior to the administration of each statewide assessment.
    - Proper procedures for administering the test and test security regulations and consequences for violations will be discussed.
    - A dated agenda and participant signature roll will be kept.
    - The District and School Test Security Plan, will also be discussed.
    - A copy and/or email of all training materials will be given to each participant.
    - A copy of the dated agenda, handouts, documentation of consequences of testing violations and any Power Points will be provided to the District Test Coordinator and/or kept on file in the School Test Coordinator's office.
- Studying Test Administrator Manuals (TAM):
    - Test Administrators will be allowed to review manuals once they are uploaded on the Questar and/or DRC Websites.
    - Manuals can be reviewed in School Test Coordinator's office in the presence of the School Test Coordinator or an Administrator several days prior to testing.
- Handling Materials
    - Following all Security Measures, STC and another trained staff member will retrieve testing materials from District Office and deliver to secure area at St. Martin High School.
    - Materials are retrieved and transferred to school site as close to two weeks prior to the test administration as possible.
    - Student testing tickets and labels should not be printed more than 48 hours in advance of the start of the testing session.
    - The STC and another trained person will inventory the materials upon delivery at the school and verify the count.
    - Test materials will remain in the locked storage area while not in use.
- Distribution of Materials to Test Administrators
    - STC and another trained certified personnel will have secure materials in 100 Hallway.
    - Test Administrators and Proctor will obtain secure materials from STC and report to testing room TOGETHER.

- Returning of Materials to STC
  - Bring all secure and unsecure documents to STC and other certified staff member to 100 Hallway.
  - STC will check that all signatures, counts, and testing documents are correct and present.
- Security Measures for review of Braille and/or Large Print Materials
  - Scribing will be done under secure conditions with two people present with the STC for paper/pencil testing.
  - A "reader meeting" will be conducted for all human readers.
  - Readers will sign a Staff Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.
  - Procedures for a Dictation accommodation for an online assessment
    - Scribe will sign a Staff Statement of Assurance Security Agreement before this process.
    - Student will not test with any other students.
    - A scribe will be the third person in the room.
      - TA
      - Proctor
      - Scribe
    - Scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.
    - All other security measures will be maintained.
- List all individuals who have access to the secure storage area
  - STC, Shelley Leyens, is the only person that has a key to the secure area.
  - The other key is stored in the vault and maintained by campus administration.
- Secure storage Access Policy
  - Test Materials will be kept in a locked storage room or the locked fire proof cabinet.
  - The STC will have the only keys to the secure area.
  - The other key is housed in the vault in the protection of Administration
  - A sign stating: "Authorized Personnel Only" and "Do Not Enter" will be posted.
  - A sign-in and sign-out sheet is posted on door

- Student Restroom Plan
  - TA or Proctor will signal the hall monitor with the orange cone.
  - The student will exit the testing platform.
  - TA or Proctor will note the time of exit on the sign-in/out sheet.
  - Student will have a hall monitor escort to and from the restroom.
  - Enter restroom One at a time – no other student will be in contact.
  - Log back into assessment when returned to the testing room.
  - Note the sign in time.
- Severe Weather/Fire/Bomb Threat Emergency Plan
  - SMHS will adhere to procedures listed and be in accordance with the comprehensive list of Emergency/Crisis Management Procedures in Section 37-11-5 of the Mississippi School Safety manual.
  - STC will work with the TAs to maintain the integrity of all secure test materials.
  - TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom.
  - Once materials are secured, students will be dismissed and will receive further instructions from hall monitors.
  - TAs and Proctors will secure and exit the classroom after all students have vacated the secure environment.
  - Post threat – the TA and Proctor shall be the first to enter the secure classroom.
    - TA and Proctor will account for all test materials.
    - Any inconsistencies with security and/or integrity will be documented and reported to the STC.
    - STC will then report any inconsistencies to the DTC
    - Logged out students will be resumed.
- Prohibition of the Possession and/or Use of Any Electronic Communication Device Plan
  - This plan includes, but is not limited to: cell phones and personal digital assistance devices during the administration of scheduled statewide assessments.
  - Each student, TA, and Proctor will sign a statement ensuring that he/she understands that possession of use of electronic devices during active testing sessions are not allowed.
  - Prior to the distribution of secure testing materials, the STC will collect electronic devices from each TA and/or Proctor.

- TA will remind students prior to beginning of each test that any electronic devices during active testing sessions are not allowed.
- All electronic devices will be placed outside of the testing room.
- Violations of STAFF:
  - Receive a written reprimand
  - A recommendation will be made to the Superintendent for a suspension without pay for up to 3 days.
  - This includes violations by the staff member for bringing in an electronic device as well as procedural violations in which a student is permitted (whether intentional or unintentional) to bring in an electronic device.
- Violations of STUDENTS:
  - Receive an office referral which may include up to 3 days of Out of School Suspension
  - Test Scores may be invalidated- may result in student not meeting graduation and/or promotion requirements.

- Calculator Policy
  - Graphing calculators used for MAAP must be cleared before students use them.
  - Principal will appoint 2 math teachers to be in charge of the clearing of the calculators.
  - Each cleared calculator will be locked up in the secure testing room immediately after being cleared.
  - The calculators will only leave the secure room for state assessments until the end of the testing window.
  - TAs and Proctors will monitor that students do not load programs, applications, or formulas on the calculators.
  - Calculators will be cleared again after each time of use before next use.
  - The principal, staff member or calculating clearing designee, and the STC will sign a statement of assurance declaring that every calculator to be used in the state assessment was properly cleared and checked to be sure it was cleared and being housed in Audit Binder.
  - ACT Calculator Policy will be followed for designated assessment.
  - Students are NOT allowed to bring a personal calculator to use.
  - Every student will be provided a school calculator to use.

- Content Relevant Material Coverage and/or Removal
    - Teachers will be sufficiently notified before testing which material will be removed and/or covered.
    - Testing areas will be checked by trained school administrator prior to testing to ensure that material is content related free.
- Monitoring of Testing Process Staff
    - Anyone in the Testing area will have been trained prior to stepping foot into secure testing zone.
    - All staff will know the responsibilities of each testing role to ensure that all policies and procedures are being followed correctly.
    - Hall Monitors and STCs are actively monitoring the TAs and Proctors
    - TAs and Proctors are actively monitoring the testing students.
- Students from multiple test administrations (i.e. morning/afternoon, standard time vs. accommodated time) will not combine sessions
- Online Testing Verification Procedures
    - Procedures are verified by Mississippi Department of Education.
    - Computer tech/s is/are assigned to our school during online testing to assist with technical issues.
    - Computer Techs will sign the Security Agreement that he/she has been trained.
    - Once printed, online Authorization codes are considered secure materials and should be treated as such.
        - Contained in secure area
        - Accompanied by two individuals, one of whom is certified
        - Shredded upon completion of testing
    - Cardboard dividers will surround computer screens to ensure single viewer access.
    - All Read Aloud Accommodations will be through the "Text-to-Speech" Accommodation with headphones.
- Seating Arrangements
    - When applicable, students will be seated alphabetically.
    - All students with an IEP, 504, and/or ELL accommodations will be considered first in regard to placement.
    - TAs and/or STC may use professional judgement regarding student seating arrangement.
    - Any changes made will be reflected on the posted seating chart.

- Student will NOT be allowed to bring any type of reading material into the testing room.
- Guidelines for Testing Virtual Learners during the COVID-19 Pandemic
    - Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
    - Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation.
- Consideration for Medical Monitoring Devices during testing
    - Medical monitoring refers to the monitoring of a medical device using an application monitored by a cellular device.
    - Student must have documentation of a medical condition requiring monitoring written in a school plan such as an IEP and/or a 504.
    - Students will be allowed to have the monitoring device in the testing room with one additional personnel present in the testing room to keep watch over the medical device.
    - The device must be silenced and away from other students testing in the room.
    - In the case of an alert, the student will be removed from the room and their test paused noting the time of the stop.
    - The student will be allowed to return to his/her test and complete the time left for testing.
    - The cellular device must have all tong-range connectivity, such as cellular or Wi-Fi functions, turned OFF if it doesn't interfere with the monitoring.
    - The student will test in a small group or a regular testing session with an individual monitoring the device.
- Homebound and/or Incarcerated students during testing
    - Any student listed as Homebound status will be contacted before testing through SMHS counselors or Homebound teacher to make the student and guardians/parents aware of date and time of testing.
    - Parent/Guardian will bring students to school on the day of testing to participate in the state test within a small group or regular test session depending upon the status of whether there is an IEP or 504.
    - Parent/Guardian will be contacted when student has finished their testing for them to be picked up.
    - In the case where a homebound student is unable to come to school to test because of medical issues, the homebound teacher and a school

proctor will be trained to go to the student's home to administer the state test.
    - The test will be administered according to the state testing calendar beginning with the first day of the test opening to the end of the testing window.
- Guidelines for Testing Virtual Learners during the COVID-19 Pandemic
    - Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
    - Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation.
    - These assessments will be administered onsite in accordance with the state testing calendar.

2023-2024 TEST SECURITY PLAN
Vancleave Lower Elementary (026)
Jackson County Schools (3000)

ASSURANCES

We, the undersigned, assure that Vancleave Lower Elementary in the Jackson County School District will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards, 2012 and Mississippi Code 37-16-4. We, the undersigned, understand that there is one Test Security Plan governing the school district and one Test Security Plan for each school. This School Security Plan will be updated and signed by the appropriate personnel each year.

Krista Sablich **School Principal**	Krista Sablich Signature	9/29/23 Date
Lindsay Ditsworth **School Test Coordinator**	Lindsay Ditsworth Signature	9-29-23 Date
Brittany Downs **Assistant School Test Coordinator**	Brittany Downs Signature	9-29-23 Date
Dr. Tanya Sonnier **District Test Coordinator**	Tanya Sonnier Signature	9-29-23 Date

Name of Tests:

- English Language Proficiency Test (ELPT)
- Kindergarten Readiness Assessments Pre and Post Tests (KRA)
- LAS Links & LAS Links Screener/Placement Test
- Third Grade MS Academic Assessment Program: ELA Sessions 1 and 2 and Math (MAAP)
    - Third Grade MS Academic Assessment Program: ELA Session 1 Retests 1 & 2, if necessary
- Third Grade MS Academic Assessment Program-Alternate (MAAP-A)

Staff Training: The School Test Coordinator will train all essential staff following District level training. Each staff member must sign in before training begins and submit their Test Security and Confidentiality Agreement at the conclusion.

- Staff will receive printed copies of the following:
  - Training Agenda
  - Job Descriptions
  - Appendix F
- Staff will review, sign, and submit a Test Security and Confidentiality Agreement at the conclusion of training.
- Staff will be sent electronic copies of the following:
  - PowerPoints reviewed during training
  - Senate Bill 2258
  - MS Code of 1972
- If any staff are not present for training, an appointment must be made with the STC for training. If training is not complete, the staff member will not qualify for a role in State Testing and therefore cannot be a Test Administrator, Proctor, or Hall Monitor.
- Topics to be trained and discussed, but not limited to:
  - Test Security
  - Test Security Consequences
  - Electronic Device Notice
  - Testing Job Descriptions
  - Test Security Plans-District and School
  - Appendix F
  - Senate Bill 2258
  - MS Code of 1972
  - Accommodations
  - Testing Irregularities
  - Mississippi DoE PowerPoints, as required
  - Seating Charts
- After training, the STC will submit a copy of the required documentation to the DTC.
- The Training Agenda, Sign In Sheets, Test Security and Confidentiality Agreements, PowerPoints, and copies of Appendix F, Senate Bill 2258, MS Code of 1972 will be placed in the current year's VLE School Testing Notebook.

Handling Materials The following procedures will be used for tests administered during the school year.

Receiving and Storing secure test materials:

- If delivered to VLE, the STC/ASTC and one other test security trained person will inventory and document all materials received.
- If delivered to the District Office, the STC/ASTC and one other test security trained person will drive to the District Office to retrieve testing materials. Along with the DTC and other staff, the materials will be counted and documented before leaving. Once materials are transported back to VLE, the two people will sign the materials into the secure storage area and lock them in the filing cabinet.
- Student Tickets are considered secure, and once printed, they will be placed by the STC and one other test security trained person into the secure storage area.
  - Student Tickets will be printed with the STC and one other test security trained person present.

- All secure test materials will be stored in the secure storage area. When test materials are present, the School Test Coordinator must be notified before the storage area is accessed.
  Secure Storage Area: Vancleave Lower Elementary will use a locking fireproof cabinet which is acceptable according to the *Office of Student Assessment District Test Security Plan Guidance* document, section C, "Handling Materials."
- The following individuals have been trained in test security, have signed a Test Security/Confidentiality Agreement, and have access to the School Secure Storage Area
  Lindsay Ditsworth, School Test Coordinator *key holder
  Brittany Downs, Assistant School Test Coordinator *key holder
  Dana Wicker, Test Administrator
  Rachel Williams, Hall Monitor
- A sign in/out sheet is located on top of the filing cabinet and must be filled out each time test materials are accessed. The sheet requires the following information: date, time, test and materials to be signed in/out, and two signatures.
- The STC and ASTC will have a key to unlock the filing cabinet to place or remove secure test materials. Laptop carts will be locked and kept in the vault, when remaining in testing mode longer than one day of testing.
  - The District Test Coordinator or the DTC's designated personnel, STC/ASTC and properly trained individuals will have access to testing materials.
  - Two people must be present with materials at all times, one of which must be certified.

After each test administration, the following materials will be placed in the VLE testing notebook: Testing schedule, Seating charts, principal oath, communication logs during testing, and irregularity reports.

Procedure for distributing materials to each test administrator:

- The STC and one other test security trained person will retrieve required test materials from the secure storage area and deliver them to each testing room. The STC will leave testing materials in the testing area only if two test security trained people are in the testing room, one of whom must be certified **and** all persons in the room, students and staff, have signed Electronic Device Prohibition forms.
- For online assessments, student tickets and scratch paper must be counted and documented on the seating chart prior to the STC completing the distribution of materials and receiving signatures for their receipt.
  - When allowed scratch paper, students may receive an unlimited number of sheets. However, each sheet must have that student's seat number in the top left corner.
- Paper/Pencil test materials will be retrieved from the secure storage area and distributed to the testing area.

Procedure for returning materials to the STC and DTC:

- Upon each testing room's stated completion, the STC will verify each student's completion (for online assessments), collect and count student tickets and scratch paper (if applicable). Once all testing rooms are complete for the assessment, all materials will be taken by the STC and one other test security trained person to the secure storage area and kept there until the last day of the testing window, when shredding will occur. Paper/Pencil test materials will be kept in the secure storage area until the DTC notifies the STC of a date to return materials to the District Office.
- If materials are to be delivered to the DTC, the STC and one other test security trained person will collect the necessary materials from the secure storage area and drive them to the District Office where the DTC and the DTC's personnel will collect and count the materials to ensure all materials are accounted for.

Security procedures for allowing teachers to review materials, transfer answers for large print/Braille, and read tests that are allowed in the current Accommodations Manual.

- The Test's Administrator may review the test materials prior to the test administration. Once the test has been completed, the transferring of answers will be done by either:
  - Test Administrator/Proctor and STC
  - STC and one other trained person
- Test Administrator and proctors who administer read-aloud accommodations to students with an IEP, 504, or EL LSP will be reminded of their signature on the Test Security Agreement stating confidentiality requirement 8 of Appendix F.

Individuals who will assist in testing will include:

- Activity, Kindergarten, 1st Grade, 2nd Grade, and 3rd Grade Teachers
- Kindergarten, 1st Grade, 2nd Grade, and 3rd Grade Teacher Assistants
- Special Education Teachers
- Special Education Teacher Assistants
- EL Teachers
- School Test Coordinator

Additional Procedures

Policy for accessing secure storage area:

- The STC and ASTC will be key holders to the secure storage safe. A sign will be posted outside the storage area listing the personnel who have access to the safe. The testing Chromebook cart will be locked in the vault as well when in testing mode, with the STC holding the key to the cart.

Entering the testing environment:

- Students will leave backpacks and lunchboxes in the hallway. Students may bring one unmarked, clear water bottle in the testing room.
- Test Administrators and Proctors in the room will store all handbags, backpacks, and lunchboxes in a cabinet or outside the room.
- All electronic devices (Student or Teacher) must be turned off and left outside the testing area.

Plan for student emergencies (bathroom, illness, sleeping, etc.):

- Bathroom
  - TA/Proctor will hold the red card in the hallway to notify the Hall Monitor of assistance needed.
  - If a timed assessment, the student will pause their test while in the bathroom.
  - TA and Proctor must document the student request on the Sign In/Out sheet in the Testing Notebook for a student to leave for the bathroom.
  - Hall Monitor will escort one student at a time to the hallway bathroom for emergencies.
- Sudden Illness
  - TA/Proctor will hold the red card in the hallway to notify the Hall Monitor of assistance needed.
  - If a timed assessment, the student will pause the test while out of the room. If the student does not return, the test will be stopped.

- The Hall Monitor will walk the student to the nurse and await her diagnosis. If the student is allowed to return, the Hall Monitor will escort the student back. If the student is not allowed to return, the Hall Monitor will leave the student with the nurse and return to the testing area, informing the TA/Proctor that the student will not return.
- The STC must be notified of the student illness and inform the DTC of the issue.
- Test Administrator/Proctor Illness
  - If the Test Administrator is ill and the Proctor nor Hall Monitor are not certified, there will be a certified replacement on stand-by to take the TA's place.
  - If the Proctor is ill, the Hall Monitor will be the replacement in the testing room and another Hall Monitor will be placed.

- Sleeping
  - If a student is sleeping before their assessment is complete, the TA and Proctor will walk over to the student and tap them on the shoulder to wake them. Once awake, they will direct the student to finish their test. The TA and Proctor will document the action on the communication log in the testing notebook.

Plan for severe weather, fire, bomb threat, or other environmental emergency causing evacuation:

- If possible, the test materials will be collected as quickly as possible in the same manner as mentioned above. However, the STC will make the decision based on the safety of students and staff.
- If there is an immediate emergency, students and staff will leave all testing materials in the rooms and close the door until re-entry is allowed. Upon re-entering, the STC will meet with each classroom to verify the correct number of testing materials remain.
- The DTC will be notified of any emergency situations and will direct the STC to any documentation that needs to be filed.

Plan that prohibits the possession and/or use or any electronic communication device, including cell phones and personal digital assistant devices, during the administration of scheduled statewide assessments:

- Vancleave Lower Elementary has a policy which prohibits student possession of cell phones on campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will leave their book bags and other personal articles in their classroom, if testing in another room. Students will leave their book bags and other personal articles in the hallway, if testing in their classroom. As previously stated, Test Administrators and Proctors will leave cell phones, smart watches, walkie talkies, and other devices outside the testing room during test administration. All personnel who enter the testing room will sign the Electronic Device form, ensuring that they have removed all electronic devices from their person to enter the testing room. The Hallway Monitor and STC will be allowed to have walkie talkies for communication outside of the testing environment to address concerns.
  - Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.
  - Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

- For students requiring medical devices monitoring their health, appropriate documentation will be kept in the VLE Testing Notebook. A copy will also be placed in the Testing Notebook for the appropriate classroom. The document should outline the procedures and accommodations specifically for the student and for the device. Accommodations will be listed on the seating charts.

Procedure for ensuring that no calculators used by students during a state assessment administration have any stored formulas, applications and/or programs:

- Calculators are not used at our level.

Procedure used to ensure that all content relevant materials in the testing area have been covered or removed:

- The STC or ASTC will ensure all relevant materials have been removed or covered in every testing room. These materials include, but are not limited to:
  - Word Walls
  - Maps
  - Bulletin Boards with Curriculum
  - Vocabulary

Describe district monitoring of Test Administrators, Proctors, hallway monitors, students, and others involved in the testing process.

- Trained staff will walk the testing area, to guarantee that TAs, Proctors, and Hall Monitors are actively monitoring the students and the testing area. No one should be seated or otherwise engaged.

Plan for multiple test administration (i.e., morning/afternoon) if applicable:

- Students will complete their tests during their scheduled time. If students miss their scheduled time, they will be scheduled for a make-up time. Seating charts will reflect absences or irregularities.
- The STC will monitor completion of tests at the end of the testing day, and any incompletes will be scheduled for makeup at that time.
- Schedules will be arranged by homeroom, and clearly outlined on individual test schedules with TA, Proctors, Monitors, time and location noted. Testing Areas will be in testing mode at the scheduled times.
- If a break for lunch is needed, the STC and one other test security trained person will count and collect the test materials from the TA and Proctor and return them to the secure storage area. After a 30 minute lunch break, the STC and one other test security trained person will deliver the materials back to the testing room for the completion of the assessment.

Procedure for online testing, and include procedures to address when disruptions occur (power outages, network problems, etc.).

- Once the Online Authorization Codes (Student Tickets) are downloaded and printed by the STC, they will be secured and locked in a secure area and accompanied by two individuals, one of whom will be a certified individual. Authorization codes will be shredded once the test session is completed, all students have finished testing. The DTC will issue a district wide shred date, on which shredding of all applicable tickets should be completed.
- Students will be seated according to pre-written seating charts. The Test Administrator and Proctor will verify the student's identity with their authorization ticket, student badge, and/or verbal confirmation from the student. If students are sitting next to one another in a computer lab or in the classroom, cardboard dividers or other forms of security will be utilized to ensure

computer screens cannot be viewed by any other person than the user of each computer. The authorization tickets will remain by the student until each has completed their assessment.

- Once the assessment is complete, the Test Administrator will pick up the tickets, and note on the seating chart verification that all tickets have been accounted for. The Test Administrator and Proctor will give the tickets back to the STC, who will return all of the test materials to the secure storage area.
- Tickets will be kept until the designated shred date.
- Seating Charts will be signed and returned to the VLE Testing Notebook.
- **Power Outage**: Under advisement from the Technology Director, a student will remain on the assigned computer until the network comes back up, in case the page reloads correctly. The STC will attempt to contact the school's computer tech with any major issues in an attempt to resolve the issue quickly. In the event of a prolonged power outage, the session will be rescheduled as a make-up, and the incident reported as an irregularity to the STC, Principal and DTC using the irregularity form.

Procedure used to create the seating charts for students during statewide assessments (alphabetized, prearranged to separate friends, placement of students based on IEP or LSP listed):

- Either the STC or Homeroom teachers will create seating charts, taking into consideration student needs and IEP/LSP directives. Makeup testing seating charts will be created after determining the absences and any irregularities requiring make up sessions. Seating charts should include First and Last Name, State ID, and any accommodations.

Plan for an untimed test, how to dismiss those students while allowing additional time for students who are still working:

- We will not dismiss classes, unless the entire testing process is being held up by a minimal number of students. If this occurs, the School Test Coordinator will be notified and testing will be stopped. All test materials will be collected and inventoried by the Test Administrator and Proctor and then by the School Test Coordinator and one other trained person. Students who have completed the test will be dismissed with an appropriate supervisor and the students who need to continue testing will either remain in the same room or will be moved to another area. Test materials will be re-distributed to these students.

Describe the plan for documentation of special accommodations:

- IEP/LSP/504 documentation will be available in the VLE Testing Notebook, as well as noted on the seating chart for the group that the student is testing.
- A copy of the IEP/LSP/504 will be provided in the classroom testing notebook, as well as a copy of the Accommodations Explanation Page from the Accommodations Manual.

LAS Links Screener will be conducted to determine the level of proficiency, appropriate instruction, and placement of ELs only. Potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student. The screener will be administered and scored by the LEA local school counselor to determine the student's English language proficiency level. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the screener has valid, reliable results. The results will be placed in the student's cumulative record for future review and monitoring.

Procedures on how Students, Test Administrators, Proctors, and Teachers will enter and exit the room:

- Teachers, Test Administrator, and Proctor must remove all electronic devices upon arrival to the testing room. They must sign the electronic device form and then enter the room. Students will line

up at the classroom door with badges on. If a student does not have his/her badge on, the teacher or assistant will escort the student to the classroom to retrieve it. The TA will stand at the door and call each student's name; the proctor will direct/lead them to their assigned seat. When testing has concluded, students will be lined up by the TA and proctor in order of the seating chart and taken to the door for their teacher to retrieve.

- If testing is being conducted in the student's homeroom class, the students may enter the room with no other belongings, as previously stated. Before testing can begin, however, the students must have badges on in the event of a District or State Auditor entering the room.

How can we ensure there is no cheating:

- Teachers will ensure that students have their own, correct badge on. Student badges and Seating Charts will be checked to ensure the student is at the correct computer with the correct ticket. Students will be separated by either partitions or by the desktop towers in the computer lab. Walls/Posters/Signs, etc. in classrooms will be covered.

Vancleave Upper Elementary
Test Security Plan
Jackson County School District

Section I

Assurances

We assure that Vancleave Upper Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards. We understand that there is one Security Plan governing the school district and also a Security Plan for each school. The District Test Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Jackson County School District District	Vancleave Upper Elementary School
Dr. Kim Tilman School Principal	Signature
Amanda Nabors School Test Coordinator	Signature
Tanya Sonnier District Test Coordinator	Signature 10-3-23

Section II

A. **Name of Tests** NAEP, MAAP (EOC & 3-8), ELPT: Las Links & the Las Links Screener/Placement test, Mississippi Science Test (5th), MAAP-A

B. **Training** After each training session, the following documentation will be attached:

- A dated, detailed agenda of the training
- A copy of handouts and other materials used in the training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attending the training

C. **Studying Test Administrator Manuals**

Testing manuals that are considered secure documents will be locked in a secure area. The test administrator will be allowed to review these manuals in the presence of the School Test Coordinator and/or the Assistant School Test Coordinator prior to testing.

D. **Handling Materials**

1. Procedure for distributing materials to each test administrator

Two trained personnel will be with testing materials at all times. The School Test Coordinator and other trained personnel members will distribute testing materials to the individual classrooms. Items will be counted and signed for by the Test Administrator and Proctor at the classroom door.

2. Outline the procedure to distribute materials to students and to account for materials before students leave the testing area

The Test Administrator and proctor will distribute all materials as laid out by the TAM, including an authorization ticket, to each student. Test materials will be picked up by trained certified staff along with proctors when the testing session is completed. The Test materials will be picked up by the School Test Coordinator or other designated personnel, along with another trained adult before students leave the testing area.

3. Storing test material

All test material will be locked in a secure location with a sign-in/sign-out time sheet that will be signed upon each retrieval/return of secure testing material. Blue ink will be used for this sign-in/sign-out sheet.

4. Procedure for returning materials to the school test administrator.

Teams of two trained staff members, one of which must be certified, will collect secure testing materials to return to the secure testing storage area when testing is completed. The test materials must be counted when picked up and verified with a signature on the document tracking form. The test materials will then be returned to the Secure Storage Area. Two trained personnel will be with the testing materials at all times.

5. Security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP's

Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a Staff Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.
In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place.

a. This scribe will sign a Staff Statement of Assurance Security Agreement before this process.
b. The student will not test with any other students.

c. A scribe will be the third person in the room. (TA, Proctor, Scribe)
d. The scribe will input the answers exactly as the student dictates directly in the system in the presence of the TA and Proctor.
e. All other security measures will be maintained.

MAAP-A Transcribing: Following MAAP-A testing, the TA, Proctor, and STC will follow all test security procedures to ensure the validity of transcribing student responses into the online testing portal. Electronic devices are prohibited in transcription areas.

6. List all individuals who have access to the secure storage area

Amanda Nabors(School Test Coordinator) and Frankie Jones (TST Coordinator/Assistant School Test Coordinator)

7. Include a list of schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Test administrators must be licensed in compliance with Appendix F.

Any test trained individual

E. **Additional Procedures**

1. Access to secure storage areas for test materials (Review Appendix F)

When testing materials are picked up from the district office, the STC and another trained personnel member will verify all materials with the DTC. The STC and a trained personnel member will then transport the testing materials back to Vancleave Upper where the testing items will be locked in the secure storage area. When entry to this storage area is necessary, a test security trained individual will enter with either the School Test Coordinator or Assistant School Test Coordinator. A sign-in sheet will be posted on the outside of the door of the secure storage area. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement.

Upon completion of the assessment, the STC and another trained personnel member will return the testing materials to the district office. All testing materials will be inventoried and verified by the DTC.

Also upon the completion of the assessment, the student tickets, authorization codes, scratch paper, and any other testing materials considered secure will be shredded at Vancleave Upper on a day designated by the district office. A certificate of shred will be sent to DTC.

2. Entering the testing environment:

Students will enter their designated testing room free of backpacks and/or lunch boxes. Those who have electronics will have them taken up, in a labeled storage container, and stored in a secure location in the front office.

3. Student emergencies (bathroom, sudden illness)

Monitors will be placed in the hallways/walkways to maintain security and to assist during emergencies within the classrooms. Any Test Administrator who has an emergency will signal for the hall monitor with the appropriate sign. The hall monitor will move to the classroom door to assist with the emergency. In

case a student has to leave the testing situation at any time during testing, the Test Administrator or Proctor will have the student pause the testing. The Test Administrator will document the student's name, the nature of the emergency and the time in/out of the classroom on a sheet provided to them by the School Test Coordinator.

The student will be escorted to the restroom, school nurse, or office, whichever is appropriate, and the escort will remain with the student until they are able to return to the testing room or will escort the student to an office where he/she may wait until picked up by a parent/guardian.
In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify the School Test Coordinator or office. Test Administrators must be relieved by a Hall Monitor that holds a Mississippi Educator's License.

4. Plan for severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility

In the event an incident occurs which would result in the evacuation of the building during state testing, every effort will be made to take up and secure the test materials as previously addressed in the School Security Plan. However, safety of students and staff will become paramount if the building must be evacuated immediately. In that event, the test materials will be left in the room and the door will be locked, if at all feasible.

In the event an incident occurs, which would result in the evacuation of an individual testing room(s) during the administration of a state test, the test administrator will pause testing and will move the students, in a silent manner, to another testing room. Once students are settled in the new testing room, the test administrator will resume testing. In the event more than one room needs to be evacuated, students will be moved one room at a time in a silent manner.

5. Prohibitions against the possession and/or use of any electronic communication device, including, cell phones and personal digital assistance devices during the administration of scheduled statewide assessments

The Jackson County School District prohibits student use of cell phones on any school campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will also be informed that possession of a cell phone or electronic communication device during testing will result in the student's test being invalidated and disciplinary action taken. Students will leave their book bags in the hallway. Students will sign the Student Notification of Prohibition of Electronic Communication Devices during Statewide Tests Form prior to the administration of state tests. All test administrators and proctors will also leave cell phones outside the testing room during test administration. The Notification of Prohibition of Electronic Communication Devices will be signed by the student and teacher before each session of test administration.

If a student is observed with any prohibited materials, the student will be dismissed from the testing environment. Before dismissing the student, the test administrator must exit the student's test. The test may be invalidated later by the state education agency. The school test coordinator will complete a Testing Irregularity or Security Breach form.

Teachers must sign the electronic certification form prior to any testing that they are TA or proctoring.

Repercussions for electronic devices are as follows:

Staff:

Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.

Students:

Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

6. Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing rooms have been covered or removed.

The school test coordinator and/or school administrator will check each classroom/computer lab utilized in test administration to ensure that all content relevant materials have been removed prior to testing.

7. District monitoring of test administrators, proctors, students, and others involved in the testing process.

Trained staff will walk the testing area halls, going from room to room to guarantee that the TAs and proctors are actively monitoring the students.

8. Describe the plan for Multiple Test Administration

In the event that any students have not completed the test by the scheduled lunch break, the following procedures will be followed: All testing materials will be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator and at least one other trained person will then count and collect the materials and return them to the Secure Storage Area until lunch has been completed. The students who are still testing will remain in the testing room and lunch will be served to them in the classroom or they will be taken to the cafeteria as a group to sit in a designated area. The Test Administrator and Proctor will remain with the class during lunch and will ensure that no discussion of the test is allowed. After an approximately thirty minute lunch and bathroom break, the School Test Coordinator and at least one other trained person will return the test materials to the classroom. Materials will be distributed to the students according to those procedures listed in D2.

9. Procedures for online testing and procedures to address when disruptions occur (i.e., power outages, network problems, etc.)

If during testing or before beginning testing, the power goes out or network difficulties develop which prevent testing at the designated location, students will be moved to an alternate testing location. A computer tech is assigned to our school during online testing to assist with technical issues.

10. Procedures used to prepare, verify, and maintain seating charts for students during assessments. To facilitate the testing process, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.

Seating charts will be created for each class, taking student needs and 504/IEP directives into consideration. Any changes made regarding student seating will be made on seating charts.

In order to ensure that each student is testing in the appropriate seat, seating charts will be double-checked by TA on the day of testing.

11. Districts may choose to dismiss students who finish early or allow them to read library books or other material not related to the content of the test. Address the procedure for implementing this process while being sensitive to avoid excessive disruptions to those students requiring additional time who are still testing.

We will not dismiss students unless the entire testing process is being held up by a minimal number of students. If this occurs, the School Test Coordinator will be notified and testing will be stopped. All test materials will be collected and inventoried by the Test Administrator and Proctor and then by the School Test Coordinator and one other trained person. Students who have completed the test will be dismissed with an appropriate supervisor and the students who need to continue testing will either remain in the same room or will be moved to another area. Test materials will be re-distributed to these students according to the procedures listed in D2. Early finishers will be allowed to read a library book or other material not related to the content of the test. The reading material will be collected prior to the test distribution by the test administrator and/or proctor and will be distributed once the student's testing materials have been collected.

12. At the conclusion of testing, the coding of student information and a review of answer documents for completeness of student administrative data is correct and to ensure there are no stray marks is completed. Indicate the individual(s) responsible for completing these tasks: when will it be done and where it will be done in order to ensure proper test protocols are followed and that test materials are not compromised.

The School Test Coordinator and/or other trained individual will verify that all tests have been submitted online at the conclusion of the assessment. With paper/pencil tests, the STC and ASTC will ensure that all data is complete in a secure testing environment.

13. Include the testing schedule for the current school year. District may simply attach the state calendar.

Refer to state calendar

14. Testing Students with Read Aloud Accommodations for Online Testing.

Two trained individuals, one of whom must be certified, will be present for the administration of a Read Aloud Accommodation for an online test. No reading will occur from a test booklet. All reading will take place from the online version of the test.

15. Describe the security measures, if applicable, for allowing teachers to review Braille test materials , to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP's.

All Braille/large print test materials will be reviewed by the test administrator in the secure test storage area. Transferring of large print answers will be completed by the test administrator and proctor under the supervision of the school test coordinator or an administrator. Any accommodations made for students will be aligned with the Testing Accommodation manual.

Testing students with accommodations #78:

The student's response will be transcribed exactly as written on the answer document. Their computer will have the extra features disabled. The student will use notepad to type his response. The test will be administered with all persons, TA and proctor signing confidentiality agreements. The test administrator will do the transcription when the student is through. The proctor will also be in the room during the testing and transcription. Transcription means that any spelling errors must be transcribed as they exist; the person transcribing needs to be very award of this. All punctuation must be exactly as it is in the original. All directions specified by OSA and Questar will be adhered to.

16. Verification of accommodations:

The STC/assistant STC will verify accommodation of all accommodated students based on most current and up-to-date IEP/504/medical plan documentation. These will be double checked with the caseload manager for each student. Accommodation pages will be included in TA's testing binder and accommodations for each student will be listed on the seating chart.

17. Consideration for Medical Monitoring Devices during Testing

- Medical monitoring refers to the monitoring of a medical device using an application on a cellular device.
- The student must have documentation of a medical condition requiring monitoring in a school plan such as an IEP or a 504 plan.
- Any student using a cellular device application for medical monitoring may not have the device in his/her possession during state testing for security reasons. However, the device may be in the testing room in close proximity to the student.

- The student requiring medical monitoring may test in a small group or in a regular testing session with a test administrator, proctor, and an individual to monitor the device. The person assigned to monitor the device should be trained to do so. The student requiring medical monitoring may test individually with a test administrator and a proctor.

18. LAS Links Screener Procedures

· The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only.

· All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student

· The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.

· The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.

· These results will be placed in the student's cumulative record for future review and possible monitoring.

Vancleave Middle School
Test Security Plan
Jackson County School District
2023-2024 School Year

Section I
Assurances
We assure that Vancleave Middle School will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards, 2008, and Mississippi Code 37 – 16-4. We understand that there is one Security Plan and the School Test Security Plan must be updated and signed by the appropriate personnel each year.

Amanda Taylor

Dr. Tanya Sonnier
District Test Coordinator

Tanya Sonnier 9-13-23
Signature Date

Section II

A. Name of Test(s): ELPT, MAAP 3-8 ELA, MAAP 3-8 Math, MAAP 8th Grade Science, MAAP-A, LAS LINKS Screener/Placement Test, NAEP

B. Training

The following documentation for each training session held will be attached:

- Dated Agenda
- Copy of handouts, PowerPoints and other materials used in training
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attended the training
- Signed Test Security/Confidentiality agreements

1. Any person involved in any phase of the testing program has been trained in appropriate assessment administration and test security procedures. Test administrators shall be licensed school personnel.
2. Due to the need for the one-on-one administration of the English language proficiency test for English Language Learners, which includes component subtests such as reading, writing, speaking, listening, the test administrator may be a non-licensed employee as long as the proctor for the administration is a licensed staff member. 4 b. For only the

English language proficiency test for English Language Learners, if a licensed employee is the test administrator, the district is not obligated to provide a second person as proctor.

3. Test Administrators will receive a copy of the Test Manual at the time of training. Test Administrators will be given a printed testing manual, since it is not a secure document, and read it prior to final test training. Test Administrators will also have access to review manuals online on the Questar website. School Test Coordinator will review Test Administrator Manuals during training.

C. Handling Materials

1. Describe the procedure for distributing materials to each test Administrator.

Two trained personnel will be with testing materials at all times.

The School Test Coordinator and second trained personnel will be set up in a designated location with testing materials. Test administrators will come to the designated area to inventory testing materials in front of STC and designated second person. Once materials are verified as accurate, (two or more) test administrators will escort each other to the testing rooms on the same hall. Hall monitors will assist with Test Administrators getting into their testing rooms with a second person. Test booklets/answer sheets/authorization tickets will be counted and signed for by the Test Administrator. School Test Coordinator or designee will confirm Test Administrator has inventoried materials. Testing documents will only be left in the testing area with two-test security trained individuals, one of which will always be a certified individual. All secure testing materials will be locked in a secure testing vault until needed.

ELPT assessment will be administered in a secure room, and test materials will be stored in the secure testing vault. Administration of this assessment will be performed by a VMS certified teacher and proctored by the EL Teacher.

LAS Links Screener Procedures

- The Las Links screener/placement test will be conducted by the counselor to determine the level of proficiency and for appropriate instruction and placement of ELs only
- .All potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student
- The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.
- The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
- These results will be placed in the student's cumulative record for future review and possible monitoring.

All MAAP testing materials will be locked in the secure testing closet. Two trained members of the testing team will print and secure the testing tickets. At least one certified staff member is to be involved in printing test tickets. At the completion of testing, collection of student test tickets, reference sheets, seating charts, scratch paper, and student rosters will take place. These items are to be stored in a locked room/closet until time to shred. Completion of a certificate of shredding is to be signed at this time.

All testing materials are to be picked up from Central Office by VMS School Test Coordinator and a member of VMS Testing Team. Once the testing materials are inventoried at Central Office under the supervision of the DTC and one other designee, the STC and a second member of the VMS Testing Team will transport testing materials directly to the testing closet to be stored until testing is completed.

Once testing is complete, the STC and a second member of VMS Testing Team will return testing materials to Central Office, at which time the DTC and one other designee will inventory materials returned.

2. Describe the procedure that test administrators will use to distribute materials to students and to account for materials before students leave the testing area.

Test administrators and proctors will distribute student-testing tickets utilizing a seating chart. The seating chart will display the student's name, MSIS number and any applicable accommodations. For paper/pencil assessments, a classroom seating chart will be utilized with the same aforementioned information. Test Administrators and Proctors will count the materials and compare them to the delivered materials and indicate receipt of such with their signature on the security checklist, or other tracking log. Testing materials will be picked up by trained certified staff in pairs of two. All materials will be returned to the secure testing closet after testing and counted in by pairs of two.

Homebound, alternative, and any VMS students will be tested by trained school personnel and proctors on the VMS campus. The location for this testing will be determined based upon the individual circumstances of the student(s). Any testing materials for these students will be checked out from and returned to the secure testing vault. The test materials will be in the presence of two trained employees at all times during the transport of materials and during the administration of the assessments.

3. Describe the procedure for returning materials to the school test Coordinator.

At the conclusion of testing each day, the Test Administrator or Proctor will signal that testing is complete. Hall monitors will escort the Test Administrator back to the designated location with all the testing materials. If there are two or more Test Administrators who are ready to return testing materials, the Test Administrators will be the escort for each other. The testing materials will be counted by a member of the testing team who will verify by signature that all materials have been received. The test materials will then be returned by the school test coordinator and other trained personnel to the secure testing closet.

4. List all individuals who have access to the secure testing vault.

   Amanda Taylor and Martha Chenault will be the only two certified employees with keys to the secure testing vault. Other certified employees such as Kellie Parker, Jackie Hitt, Mandy Thomas, Megan Burney, and Victoria Wilson will have access to the room in the presence of Amanda Taylor (STC), Martha Chenault (Assistant to the STC), or Kellie Parker (Assistant Principal).

5. Include a list or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Please note that the test administrators must be licensed in compliance with Appendix F.
   See Attached

6. Security measures, if applicable, for allowing teachers to review test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with an IEP or 504.

   Test administrators and proctors administering the read aloud accommodation, when allowed under the Accommodation Manual, to students with an IEP, 504 Plan, or ELL Language Service Plan will sign a confidentiality statement, which includes Requirement 8 of Appendix F prior to the administration of the assessment.

   Three trained individuals, two of whom are certified, will be present for the administration of a Read Aloud Accommodation for any necessary paper/pencil testing.

   Three trained individuals, two of whom are certified, will be present for any transcription needed during testing.

7. Verifying accommodations for IEP, 504, and EL students will be completed by the STC, the assistant to the STC, the LSC (sped chair), and all Special Education Teachers.The LSC will provide the STC with a copy of each student's IEP accommodations page. The MTSS coordinator will provide the STC with a copy of each 504 plan. The EL district coordinator will provide the STC with a copy of each ELSP. These copies will be cross-referenced

with the school's accommodation spreadsheet (created by the LSC). Together, the STC and the LSC will enter accommodation information into the testing system verifying that all accommodations match the IEPs, 504s, and ELSPs. All Special Education teachers will also be required to review accommodations for their specific students and initial that all are correct.

D. Additional Procedures

1. Access to secure testing vaults for test materials (Review Appendix F).

All testing materials are to be picked up from Central Office by VMS School Test Coordinator and a member of VMS Testing Team. Once the testing materials are inventoried at Central Office under the supervision of the DTC and one other designee, the STC and second member of VMS Testing Team will transport testing materials directly to the testing vault to be stored until testing is completed. Only the individuals listed under #4 of Handling Documents of the School Security Plan will have access to these materials during this time and two persons must always be present whenever test materials are onsite. A sign-in sheet posted on the outside of the door of the secure testing vault documenting persons entering/exiting the room as well as the date and time of entry/exit. One of the above listed persons having access to the secure testing storage will accompany any other person who needs access to the testing storage. Once testing is complete, the STC and a second member of VMS Testing Team will return testing materials to Central Office, at which time the DTC and another designee will inventory materials returned. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement and Statement of Assurance.

2. Describe the plan for student emergencies (bathroom, sudden illness).

Monitors will be in the hallways/walkways to maintain security and to assist during emergencies within the classrooms. Any Test Administrator who has an emergency will signal for the hall monitor using a "Help needed" sign. The hall monitor will move to the classroom door to assist with the emergency. In case a student has to leave the testing environment at any time during testing, the Test Administrator or Proctor will collect the student's testing materials and will document the student's name, the nature of the emergency and the time in/out of the classroom on a sheet provided to them by the School Test Coordinator. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate, and the escort will remain with the student until they are able to return to the testing room or will escort the student to an office where he/she may wait until picked up by a parent or guardian. In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify

the School Test Coordinator or office. Only another certified teacher may relieve a Test Administrator from a testing room.

3. Describe the plan for disruptions due to severe weather, fire, bomb threat, internet outage, or any other form of emergency that would cause for an immediate evacuation of the facility.

In the event an incident occurs, which would result in the evacuation of the building during state testing, every effort will be made to take up and secure the test materials as previously addressed in the School Security Plan. However, safety of students and staff will become paramount if the building must be evacuated immediately. In that event, the test materials will remain in the room and the Test Administrator will lock the door, if possible.

In the event an incident occurs requiring the evacuation of an individual testing room(s) during the administration of a state test, all testing materials are to be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will then count and collect the materials and students will be moved, in a silent manner, to another testing room. Once students are settled in the new testing room, the School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will return the test materials to the classroom. Materials will be re-distributed to the students according to those procedures listed in D2. In the event more than one room needs to be evacuated, students will be moved one room at a time in a silent manner and the above procedure will be followed.

In the event of an internet outage during testing, students will save their testing progress and all testing materials are to be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will then count and collect the materials and transport them to the secure testing closet to be locked up until testing can resume.

4. Describe the plan that prohibits the possession and/or use or any electronic communication device, including cell phones and personal digital assistance devices, during the administration of scheduled statewide assessments.

Teachers will leave cell phones and other electronic devices secured in their car or leave them in the front office area prior to picking up testing materials. Prior to testing, Test Administrators and Proctors will instruct students to turn off cell phones and other electronic devices and store all electronic devices in their book bags which will be removed from the testing room and placed in the hallway. Teachers may also collect student cell phone in a box which will be

removed from the testing room. Test Administrators will verbally inform students in the testing room that cell phones or other electronic communication devices, including Apple watches, Airpods, Bluetooth accessibility, etc...) are prohibited in the testing room. Test Administrators or Proctors will read the statement from the Prohibited Electronic Devices form. An explanation of consequences (test invalidation and possible disciplinary action if possession of a cell phone or electronic communication device occurs during testing is determined) will be given to students. Test Administrators will ask students to check all pockets of their pants and jackets to confirm that no one is in possession of any cell phone or other electronic devices.
Students, Test Administrators and Proctors will sign the *Student Notification of Prohibition of Electronic Communication Devices during Statewide Tests* Form prior to the distribution of and administration of each state test.

All school employees and students will be notified of possible consequences before testing begins. Vancleave Middle School's consequences for violating any electronic device policies will be but are not limited to as follows (based on the individual violations, further consequences could be warranted):

Staff:
Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.

Students:
Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

Jackson County School Board Policy: Section I Instructional Program, Policy Code II: Testing Program: The Board of Education of the Jackson County School district, pursuant to 37-16-5, shall periodically assess student performance and achievement in each school. Such assessment programs shall be based upon local goals and objectives which are compatible with the state's plan for education and which supplement the minimum performance standards approved by the State Board of Education. Data from district assessment programs shall be provided by the State Department of Education when such data is required in order to evaluate specific instructional programs or processes or when the data is needed for other research or evaluation projects. This district may provide acceptable, compatible district assessment data to substitute for any assessment data needed at the state level when State Department of Education certifies that such data is acceptable for the purposes of Section 37-16-3, as pursuant 37-16-5 (1983).

The district adheres to all requirements of the Mississippi Assessment System.

The district adheres to all testing guidelines and procedures prescribed by the State Board of Education.

1. It is unlawful for anyone knowingly and willfully to do any of the following acts regarding mandatory uniform tests administered to students as required by the State Department of Education and the General Educational Development Test (GED):
    a. give examinees access to test questions prior to testing;
    b. copy or reproduce all or any portion of any secure test booklet;
    c. coach students during testing or alter or interfere with responses in any way;
    d. make answer keys available to examinees;
    e. fail to account for all secure test materials before, during, and after testing; or
    f. participate in, direct, aid, counsel, assist in, encourage or fail to report any of the acts prohibited in this section.

2. Any person violating any provisions or subsection (1) of this section is guilty of a misdemeanor and upon conviction shall be fined not more than One Thousand Dollars ($1,000.00), or be imprisoned for not more than ninety (90) days or both. Upon conviction, the State Board of Education may suspend or revoke the administrative or teaching credentials, or both, of the person convicted.
3. The district attorney shall investigate allegations of violations of this section, either on its own initiative following a receipt of allegations, or at the request of a school district or the State Department of Education.
4. The district attorney shall furnish to the State Superintendent of Education a report of the findings of any investigation conducted pursuant to this section.
5. The State Board of Education shall establish statistical guidelines to examine the results of state mandated tests to determine where there is evidence of testing irregularities resulting in false or misleading results in the aggregate or composite test scores of the class, grade, age group, or school district. When said irregularities are identified, the State Superintendent of Education may order that any group of students identified as being required to retake the test do so at the state's expense under state supervision. The school district shall be given at least thirty (30) days notice before the next test administration and shall comply with the order of the State Superintendent of Education. The results from the second administration of the test shall be for all uses of that data.

5. Describe the plan for Multiple Test Administration and what procedures you will use to prevent students from discussing test items. If applicable, explain how you will prevent students from looking back at the section of the test taken on the previous day.

In the event that any students have not completed the test by the scheduled lunch break, the following procedures will be used:

All testing materials will be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator and at least one other trained person will then count and collect the materials and return them to the secure testing vault until lunch has been completed. The students who are still testing will

remain in the testing room and lunch will be served to them in the classroom or they will be taken to the cafeteria as a group to sit in a designated area separate from student who have completed testing. The Test Administrator and Proctor will remain with these students to ensure that students remain silent. After a (approximately) thirty-minute lunch and bathroom break, the School Test Coordinator and at least one other trained person will return the test materials to the classroom. Materials will be distributed to the students according to those procedures listed in D2.

6. Districts may choose to dismiss students who finish early or allow them to read library books or other material not related to the content of the test. Address the procedure for implementing this process while being sensitive to avoid excessive disruptions to those students requiring additional time who are still testing.

Students will not be allowed to have a book or any writing/drawing materials at their desk in the testing classroom. **Only after all students have completed testing and all testing materials have been removed from the classroom** will students be able to have access to books/materials. Students will not be released as finished. Students will remain in the classroom until the whole group is finished testing.

7. Describe the procedure used to create the seating charts for students during statewide assessments (alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc.)

Teachers will create seating charts based on student needs, classroom layouts, IEPs and test accommodations (if applicable). Teachers will turn in seating charts to the STC approximately one week prior to testing.

8.Use of appropriate calculators on MAAP (Grades 7 & 8) and SATP Algebra I test. Beginning with the 2011-2012 school year, all formulas, applications, and/or programs (including, but not limited to, Zoom Math/Zoom Algebra) must be disabled or removed from the calculators to be used by students during any state test. Detailed directions on how to configure calculators are outlined at www.tiny.cc/dtcvideos. The District Test Security Plan should state explicitly how this policy will be implemented and who is responsible for disabling the calculators and who is responsible for verifying compliance.

When allowable, calculators cleared of all stored formulas, applications, and/or programs will be provided to students to use during the math portion of the assessment. Prior to assessment date, math teachers will be responsible for clearing all calculators of stored formulas, applications and/or programs. ALL calculators will be placed into a storage container and secured in the testing vault on the day prior to the assessment. On the day of the math assessment, the calculators will be delivered with the secure testing materials.

9.Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing areas have been covered or removed.

The school administrators will check each classroom utilized in testing to ensure that all content relevant materials have been removed or covered prior to the distribution of testing materials on assessment day.

10.Conducting lunch, restroom and/or stretch breaks during test.

There are no scheduled breaks during testing. If a student needs a restroom break during testing, the student will place a folder over his/her computer when leaving the room. The Test Administrator or proctor will notify a hall monitor by slipping a bathroom sign under the testing room door. Student will use the provided form to sign out from the room to go to the restroom. Student will be escorted to the restroom and then back to the testing room. Student will sign-in to the testing room upon returning from the restroom. Only one student at a time will be allowed in the restroom. If other students are waiting in line for the restroom in the hallway, a hall monitor must be present to space students out and prevent any talking.

On any occasion that students need to break for lunch, the procedure will be to collect and secure all test materials and return the test materials to the secure testing vault. Students will be escorted to another area to eat lunch under supervision to keep students from talking and having contact with other students. When lunch is finished, the secured test materials will be distributed with two trained personnel and testing will resume.

Any test administrators who need a restroom break will need to be replaced with a trained, certified teacher. TA will also utilize the sign in/sign out form. Any test proctors who need a restroom break will be replaced with a hall monitor. Proctors will also utilize the sign in/sign out form. Any hall monitors needing to use the restroom will be replaced with another hall monitor. Sign in/Sign out sheet is not necessary for hall monitors.

11. District monitoring of test administrators, proctors, students, and others involved in the testing process.

Monitoring school sites will be at the DTC's discretion.

12. At the conclusion of testing, who is responsible for checking the coding of student information and reviewing the answer documents for completeness of student administrative data and ensuring there are no stray marks. When will it be done and where will it be done in order to ensure proper test protocols are followed and that test materials are not compromised.

No demographic data will be completed due to all online assessments. For students who required a paper-pencil version of an assessment, the Test Administrator and the School Test Coordinator will meet in a designated location after all testing materials have been turned in and secured for the day. At such time, the Test Administrator and the School Test Coordinator will review the answer document(s) for completeness, stray marks, and accuracy of the student demographic information. For MAAP-A, the STC, TA, and Second Scorer will meet in a designated location to input the scores for each student.

13.Include the testing schedule for the current school year. Districts may simply attach the state calendar.

ELPT: See attached State Testing Calendar
MAAP-A: See attached State Testing Calendar
MAAP- SCI: See attached State Testing Calendar
MAAP 3-8: See attached State Testing Calendar
LAS LINKS Screener/Placement Test (as needed for new students)
NAEP: See attached State Testing Calendar

14.Outline the procedure to ship scratch paper used during test administrations with secure test materials as outlined in the Test Administrators Manual.

Scratch paper will be stored securely in the testing closet until School Test Coordinator is instructed to shred scratch paper by District Test Coordinator. After the completion of testing and at the designated time (a date determined for the entire district), scratch paper will be shredded at VMS, as directed by District Test Coordinator.

15.Guidelines for Testing Virtual Learners during the COVID-19 Pandemic.
Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order. Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These assessments will be administered onsite in accordance with the state testing calendar.

16.Guidelines for testing students who require electronic devices for medical monitoring during a state assessment.

Any student using a cellular device application for medical monitoring may not have the device in his/her possession during MAAP or MAAP-A testing for security reasons. However, the device may be in the testing room in close proximity to the student.

• The cellular device must have all long-range connectivity, such as cellular or Wi-Fi functions, turned OFF if it will not interfere with the medical function. Bluetooth may be left on to communicate with the monitoring device.
• For test administrations, the student may be tested following one of these guidelines:
__ If a student requires a medical device such as a hearing aid or amplification device only, the student may be tested in a regular classroom setting in close proximity the teacher with a TA and a proctor.
— A student requiring medical monitoring may test in a small group or in a regular testing session with a test administrator, proctor, and an individual to monitor the device, or
— A student requiring medical monitoring may test individually with a test administrator and a proctor.

JACKSON COUTY SCHOOL DISTRICT
VANCLEAVE HIGH SCHOOL
SCHOOL SECURITY PLAN 2024

Section A: Assurances

We assure that Vancleave High School will be in full compliance with the testing requirements set forth in Appendix F of the current version of the ***Mississippi Public School Accountability Standards*** and Mississippi Code 37-16-4. The following signatures must be included in the Security Plan.

Jackson County School District Name of the District	Vancleave High School Name of the School	
Courtney Henderson School Test Coordinator	Courtney Henderson Signature	9/21/23 Date
Raina Holmes Principal	Raina Holmes Signature	9-21-23 Date
Dr. Tanya Sonnier Name of the District Test Coordinator	Tanya Sonnier Signature	9-21-23 Date

Administered Assessments

MAAP – Algebra 1, English II, US History, Biology

ACT

ACT Work Keys

ELPT Las Links

Las Links Screener / Placement Test

MAAP –A

Section B: School Training Plan

All documentation will be kept in one binder. This documentation will include:

- District Training
- Dated, detailed agenda of the training including copy of handouts, PowerPoints, or other materials used in training
- Documentation that participants were informed of the consequences of testing violations (Test Security Agreement / Confidentiality Form)
- Signatures of all who attended the training (sign in sheet)

Section C: Handling Materials

1. Initial Retrieval of Test Materials
   All MAAP, MAAP-A, ACT and ELPT test materials will be retrieved from the central office and transported to the school by Courtney Henderson, STC and Kimberly Seymour (or another designee). All materials will be verified with Tanya Sonnier, DTC and another designee. Upon arrival on campus, the materials will be placed in a secure, locked room in the library.

2. Distribution of Student Authorization Tickets and Testing Materials to TA
   On the morning of the test, student authorization tickets and/or test booklets are delivered to the testing rooms by the STC and another trained employee immediately after morning announcements. Test Administrators and proctors should be in their assigned rooms by 8:30 am to receive test materials. Each TA will count the number of test items received, check the test booklet range (if applicable), and verify what they have received.

3. Procedures for TA Distribution and Collection of Test Materials
   The TA and proctor will hand test materials to each student individually according to the directions set forth in the TAM. As the students finish, the TA and proctor will collect all test materials from each student individually. The TA will instruct students to remain quiet until the test is complete. When all students complete the test, the TA will alert the hall monitor and the hall monitor will send for the STC and another trained employee. The STC and another trained employee will enter the testing room and collect all returned materials before students are dismissed from the testing area.
   Procedure for Returning Materials to STC
   The TA will notify a hall monitor after his/her class as completed all testing. The HM will notify the STC. Each TA will count the number of test items received, check the test booklet range (if applicable), and verify what they have received by initialing the student roster. The STC and another trained employee will pick up test materials from the classroom that has completed testing and verify that all test materials have been returned. The STC and another trained employee will count the number of test items received, check the test booklet range (if applicable), and verify all secure materials have been returned. The STC and another trained employee will return the materials to the secure area in the library.

4. Security Measures for Braille and/or Large Print Materials / Scribe and Reader Guidelines
   Scribing will be done under secure conditions with two people present for paper/pencil testing. A reader meeting will be conducted for all human readers. Readers will sign a Staff Statement of Assurance that they understand the guidelines for reading a test to students. In the event a student has a dictation accommodation for an online assessment, the following procedures will be in place. 1) the scribe will sign a Staff Statement of Assurance, 2) the student will not test with other students, 3) the scribe will not serve as the test administrator or proctor, 3) the scribe will input answers exactly as the student dictates directly into the system in the presence of the TA and proctor, All other security measures will be maintained.

5. Individuals with Access to Secure Materials
   The only people on campus that will have access to the locked closet containing secure materials are Courtney Henderson, STC, Sean Steverson, ASTC and Amy Campbell, Counselor. There will be a sign in and sign out sheet on the door and only the individuals listed above will be allowed to sign in and enter the room. All individual must be accompanied by another trained school employee while accessing and handling test materials.

6. Individuals Involved in Test Administration
   A schedule of testing dates and a list of all Test Administrators, proctors, hall monitors, and relief personnel who are involved in each test administration will be kept in the auditor's notebook. All test administrators will be licensed. Security/ Confidentiality agreements will be signed by all those involved in testing and kept in the auditor's notebook.

7. Returning test Materials to the Central Office
   All MAAP, MAAP-A, ACT and ELPT test materials and will be transported and returned to central office by Courtney Henderson, STC and another designee. All materials will be verified with Tanya Sonnier, DTC and another designee.

Section D: Student Procedures

1. Students Entering Testing Room

On the morning of the assessment, all students will report to first block class for morning announcements and attendance. At the conclusion of the announcements, the principal will dismiss all testing students to the testing area. Students will be informed of what room to report to prior to the test day.

The following steps will be taken to ensure no electronic devices are brought into the testing area.

Students will be instructed by their first block teachers to turn off all cellular devices / watches and store them in their bookbags. The principal will announce for all cellular devices / watches to be powered off and placed in bookbags. When the STC or designated employee get to the testing room with test materials, the students will once again be asked if they have an electronic device on their person. If they do, the device will be collected and stored in the counselor's office until the conclusion of the assessment. The test proctor will then read the electronic device agreement to the students in the testing room. The students will sign an agreement stating they do not have a cell phone, watch, or any other electronic device.

2. Students Exiting Testing Room

At the conclusion of the assessment, students will remain in the testing room until the STC and another trained employee gets to the room and accounts for all secure materials. Once all materials are accounted for, the students will be dismissed on a class-by-class basis and instructed to exit the testing area in a manner that does not disrupt any class that may be testing in close range. If a student finishes the assessment early, secure materials will be collected by the test administrator or proctor and the student will be instructed to lay his or her head on the desk until the conclusion of the timed test. Students testing in extended time rooms will be dismissed at the discretion of the STC.

3. Break Procedures

Restroom:

If a student must go to the restroom during a test, the test administrator will instruct the student to pause the test. The student will be monitored during the restroom break by the hall monitor. When the student returns to the testing room the test administrator will make sure the students sign back into and continues working on the test.

Lunch:

If the students need to eat lunch before the assessment is complete, the procedure will be to collect and account for all testing materials. The STC and another trained employee will secure the materials in the locked closet in the library. Students will then be escorted to the cafeteria and instructed not to talk during this time. Student testing will get their meal and bring it back to the testing room to eat. Once they are finished eating and trash is disposed of, the STC and another trained employee will return the testing materials from the secure storage area to the testing room.

4. Student Emergencies

If a student becomes sick during testing and is not able to complete the test, the test administrator will collect all test materials from the student and dismiss the student. The student will be escorted to the bathroom or office by a trained employee. If any test materials are ruined because a student becomes sick, the test materials will be placed in a sealed bag for disposal. The District Test Coordinator will be notified.

Section E: Additional Procedures:

1. Evacuation of Testing Room

In accordance with Section 37-11-5 of the Mississippi School Safety Manuel, Vancleave High School will adhere to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedures. In the event of a unique threat which will require the use of evacuation procedures during a state assessment, we will adhere to the Emergency/Crisis Response Procedures set forth by the district to ensure the health and safety of our students and staff. The STC will work with the TAs to maintain the integrity of all secure test materials. In the event of a unique threat, the TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. Once materials have been secured, students will be dismissed and will receive further instructions from the hall monitor. TAs and Proctors will secure and exit the classroom after all

students have vacated the secured environment. After the threat of injury has subsided, the TA and proctor shall be the first to enter the secured classroom. Upon re-entry the TA and Proctor will account for all the test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.

2. Calculator Policy
During testing, only the school's allowable calculators will be used. Each calculator will be reset and cleared of any stored formulas or applications before distributed to the students. Prior to the assessment date, the math department chair or her designee will clear all school calculators of stored formulas, applications, and/or programs. After they are cleared, the calculators will be locked in a secure area until the day of the Algebra I test. TAs and Proctors will

ensure students do not load programs, applications, or formulas back onto the calculators. On the day of the assessment, the calculators will be delivered to the testing rooms by the STC and another trained employee and will be subject to all procedures of handling secure materials. Students are NOT allowed to bring a personal calculator to use for any state assessment.

3. Covering Relevant Materials
Teachers will be notified before testing that any questionable material hanging on the walls of the testing rooms will be removed or covered prior to testing. The Assistant principal will go into each testing room to verify all relevant material has been covered or removed.

4. Monitoring During Test Administration
STC will do spot checks of testing room set up, seating chart reliability, and testing procedures during each test administration. If any questions arise during testing, the STC will contact the DTC.

5. Online Testing and Disruptions
The online test will begin when the TA reads the directions from the Test Administrator Manuel and instructs the students to log on using their Student Authorization Ticket. The online test will end when the student submits the test for scoring. If before or during testing, the power or network goes out, the students will be held in the testing room for no more than thirty minutes. They will be instructed by the TA not to speak to one another. If the outage lasts more than thirty minutes a decision will be made to reschedule the test (if it has not been started) or reassign tests in progress to the JCSD Career Technology Center or to Vancleave Middle School. If the test was in progress at the time of the outage and is a timed test, any time lost will be added back to the time given for the test. In addition, computer technicians employed by the Jackson County School District are assigned to individual schools for assistance. All technicians receive test security training and have a confidentiality agreement on file.

6. Seating Charts
Students seating location will be based on testing class rosters, and/or IEP directives. Seating charts include school, date, test administration, accommodations, students' name and MSIS number, printed names of TA, TP, and STC. TA, TP, and STC must sign the seating chart and confirm students are sitting in the correct spot. A copy of the seating chart will be placed on the door outside the testing room.

7. Multiple Same Day Test Administration
In the instance of a multiple test administration, students testing in the afternoon session will eat lunch before any lunch waves begin then move to their testing sites. Students in the morning session will be dismissed back to class and continue the school day. All state assessments will be completed by the end of the school day.

8. Virtual Learners
Virtual learners must complete Mississippi state-mandated assessments. VHS will provide proper safety precautions based on guidance from MDE and/or any Governor's Executive Order. Students will be subject to and held accountable for all federal and state assessments necessary for promotion and /or graduation. These will be administered onsite in accordance with the state testing calendars.

9 . Medical Monitoring

In the event a student uses a cellular device for medical monitoring, it must be documented in either an IEP or 504 plan. If either plan is not available, one must be written and include the appropriate documentation from a medical professional. The IEP or 504 plan including all pertinent information will be kept on file at the school and will be available to MDE upon request. Any student using a cellular device or application for medical monitoring may not have the device in his/her possession during MAAP or MAAP-A testing. However, the device may be in the testing room in close proximity to the student. The cellular device must have all long-range connectivity, such as cellular or Wi-Fi functions turned off if it will not interfere with the medical function. Bluetooth may be left on to communicate with the monitoring device. Guidelines for test administrators are as follows:

- A student requiring a medical monitoring device may test in a small group or in a regular testing session with a test administrator, proctor, and an individual to monitor the device, or
- A student requiring medical monitoring may test individually with a test administrator and proctor.

The individual monitoring the device will be trained to do so and will sign a confidentiality agreement prior to testing. The student will be seated near the back of the room with the medical device behind the student but in close proximity as not to interfere with the connection. No attention will be drawn to the cellular device.

10. LAS Links Screener Procedures

The LAS Links screener / placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only. All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and /or by the student. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results. The results will be placed in the student's cumulative record for future review and monitoring. The school counselor will be responsible for the LAS Links screener, and it will be kept in the secure storage area.

11. Verifying Accommodations

The STC will work with the SPED department to collect the state assessment page of the student's IEP. The IEP for all students receiving accommodations will be kept in the Auditor's Binder. The STC will enter the accommodations into the online platform DRC and/or Questar. The STC will print an accommodation roster via the online platform. The accommodation roster will be compared to the student's IEP to ensure the proper accommodations have been assigned to the student.

12.Assessment Transcription Process

If a student has a paper / pencil accommodation, the student will take a written version of the test. After the student completes the assessment, he or she will be dismissed from the testing room. At this time, the test administrator, test proctor, and another trained employee will transcribe the student responses into the online platform. Each person will have a role in the transcription process. The test administrator will login into the online platform and enter the student responses. The test proctor will read the student responses to the test administrator and the other trained employee will watch the test administrator to ensure they are entering the responses just as the test proctor verbalizes. At the conclusion, the three of them together will review the responses to make sure they entered exactly as the student answered in the paper version of the test. The test will then be submitted online.

13. Makeup Testing

Students absent for any testing date will test when they return to school on a date determined by the STC in a makeup testing room or be added to another testing room with the same or similar directions. and the same timing instructions. Students making up a test in a particular testing room may be testing a different subject area than the test originally scheduled in the room. If the student is absent for an extended amount of time, he or she will have until the end of the testing window to makeup the test.

14. Violation of the Electronic Device Agreement

The Jackson County School District policy prohibits the possession of a cell phone or a smart watch in the testing room or while handling secure materials. Every TA, TP, and student will sign an agreement that he/she is not in possession of a cell phone or any other electronic device. If this agreement is violated, the following consequences will be set forth.

Staff:

Any staff member that violates state testing by bringing in an electronic device will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to 3 days. This includes both violations by the teacher for bringing in an electronic device as well as procedural violations in which a student is permitted (whether intentional or unintentional) to bring in an electronic device.

Students:

Any student who violates testing by bringing in an electronic device will receive an office referral which may include up to 3 days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

SCHOOL PLAN

We assure that the ***Jackson County Technology Center*** will be in full compliance with the testing requirements as set forth in Appendix F of the current version of the ***Mississippi Public School Accountability Standards*** and Mississippi Code 37-16-4. The following signatures must be included in the security plan.

Jackson County School District	**Jackson County Technology Center**
District	School
Dr. Jerry. J. Morgan	Jerry J. Morgan 9/27/23
JCTC Director	**Signature** **Date**
Rebecca Wages	Rebecca Wages 9/27/23
JCTC Counselor /School Test Coordinator	**Signature** **Date**
Dr. Tanya Sonnier	Tanya Sonnier 10/2/23
Jackson County School District Test Coordinator	**Signature** **Date**

Name of Test(s)

NCCER/ASE Module testing Test window 8/1/2023-5/17/2024

2023-Fall National Certification Testing Window-November 6, 2023-December 4, 2023

(ServSafe)

2024- Spring National Ce誼fications-Testing Window-March 18, 2024-May 17, 2024

(TestOut-IT Fundamentals, TestOut-Network Pro Certification, CSWA-SolidWorks, ESBCertiport.,)

All testing sessions will be administered on-line in the Jackson County School District

- Guidelines for Testing Virtual Learners during the COVID-19 Pandemic

  - Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.
  - Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

Training

Any person involved in any phase of the testing program will be trained.

The School Test Coordinator will conduct a training session for all test administrators, proctors, hall monitors, and school personnel prior to the administration of each National Certification assessment. Proper procedures for administering the test and test security regulations and consequences for violations will be discussed. A dated agenda and participant signature roll will be kept.

The District and School Test Security Plan, will also be discussed. A copy of all training materials will be given to each participant. A copy of the dated agenda, handouts, documentation of consequences of testing violations, and all Power Points will be provided to the District Test Coordinator and kept on file in current version of the Mississippi Public School Test Coordinator's office. A copy of the materials should be uploaded into the districts SharePoint folder.

The following documentation is attached to this Test Security Plan:

- A dated, detailed agenda of the training completed in preparation for this test
- A copy of the handouts, transparencies, or other materials used in training completed in preparation for this test.
- Documentation that participants were informed of consequences of testing violations
- Signatures of all who attended the training

Handling Materials

1. **Describe the procedure for distributing materials to each test administrator.**
   This only applies to paper pencil version of testing. All test given at the Jackson County Technology Center are on line testing.
   J C T C does not use secure testing tickets for National Certifications. Students use their Mississippi Student I D Number (MSIS #) and /or a student set user name and password. Student user names and password cards will be kept on file for students to access other national certification testing.

The test administrators will use the testing script for the assigned test. Testing scripts are different for NCCER, ASE, IT Fundamentals, Network Pro Certification, SOLID WORKS, Entrepreneurship and Small Business Cert., ServSafe,

- The test administrator will use the assigned password depending on the test to log the students into the testing. Log in procedures vary with the test.
- JCTC testing locations will be the JCTC Testing Lab, other classrooms at the JCTC, and designated rooms at ECH, SMHS, and VHS.
- Prior to the testing dates, the computers will be set to handle the online testing by Rebecca Wages-Counselor/Test Coordinator, Heather Allen-Students Services person and the JCSD Tech support persons.
- NCCER and ASE module testing will follow the security procedures set forth by the testing companies.

2. **Describe the procedure that test administrators will use to distribute materials to students and to account for materials before students leave the testing area.**
The TA and proctor will distribute all materials as laid out by the TAM. Depending on the test, the scratch paper, basic calculator, formula sheets, and a log in and password will be each student. The TA or proctor will collect students' scratch paper, and log in information when testing is finished. The TA will account for all materials before the students are dismissed from the testing area. The TA will notify the hall monitor the testing is complete.

3. **Describe the procedure for returning materials to the school test coordinator.**
Two trained people (at least 1 certified) will be in each testing room. Two trained people will be with the testing materials at all times.
   - All scratch paper will be taken up after each group of testing. Scratch paper will be given to the STC-Rebecca Wages after testing. ALL scratch paper will be shredded at the JCTC when testing is complete.
   - This applies to test that will allow scratch paper.
   After testing all scratch paper and log in information will be collected. Scratch paper will be shredded when all testing is complete. Student generated passwords for National Certifications will be kept on file for the student to take other national certifications the following year. The STC will sign a shredding certificate after all testing is complete.

4. **Describe the security measures, if applicable for allowing teachers to review Braille test materials, to transfer answers for large print/ Braille, and to read test that are allowed under the Accommodations Manual to students with I E P's etc.**
Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a STAFF STATEMENT of ASSURANCE at this meeting that they understand the guidelines for reading a test to students.

   In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:
   a) *This scribe will sign a Staff Statement of Assurance Security Agreement before this process.*
   b) *The student will not test with any other students.*
   c) *A scribe will be the third person in the room. (TA, Proctor, & Scribe)*
   d) *The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.*
   e) *All other security measures will be maintained.*

At this time, the JCTC does not have any students who will need this accommodation for testing.

Testing students with Read Aloud Accommodations for Online Testing

Two trained individuals one of whom is a certified teacher will be present for the administration for the Read Aloud Accommodations for the online test. National Certification read aloud accommodations will be an over the shoulder read aloud from the student's computer. National Certification questions are randomly given to the students through the computer so you will have to test the students one at a time. Not in a small group.

5. **List all individuals who have access to the secure storage area.**
   For all online test we will not have to store secure test materials
   The test Coordinator's guide, auditor's notebook and student MSIS numbers will be stored in the Counselor's office until taken to the testing rooms. These items are not secure. All testing guides are located on line at the RCU website.
   - The following people will be made aware of the secure location. This is only for scratch paper until testing is complete: ***Dr. Jerry J. Morgan-Director of JCTC, Rebecca Wages –Counselor for JCTC & STC, Heather Allen- Student Services Coordinator for JCTC.***

6. **Include a list or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Please note that the test administrators must be licensed in compliance with Appendix F. (See Section IV, 5a.)**
   - Rebecca Wages-School Test Coordinator/Counselor Relief Personnel
   - Dr. Jerry. J. Morgan-Director/Relief Personnel
   - Brandi Devers-Proctor/ Hall Monitor/ Relief Personnel
   - Chris Fuller-Proctor/ Hall Monitor
   - Shawna Bicknell- Proctor/Hall Monitor
   - Heather Allen- Test Administrator/ Proctor/Hall Monitor
   - Bethany Kell- Test Administrator/Proctor/Hall Monitor
   - Lisa Green- Test Administrator/Proctor/Hall Monitor
   - Michael Bo Long- Test Administrator/Proctor/Hall Monitor
   - Brieanna Bean- Test Administrator/Proctor/Hall Monitor
   - Latisha Collier- Test Administrator/Proctor/Hall Monitor
   - Richard Humphreys- Test Administrator/Proctor/Hall Monitor
   - Nic Wages - Test Administrator/Proctor/Hall Monitor
   - Paul Heffner- Test Administrator/Proctor/Hall Monitor
   - Richard Keleher- Test Administrator/Proctor/Hall Monitor
   - Robin Pate- Test Administrator/Proctor/Hall Monitor
   - Fred Walton- Test Administrator/Proctor/Hall Monitor
   - Jennifer Knighton-Proctor/Hall Monitor
   - **Special Education Teachers from ECHS, SMHS, & VHS who will be providing the needed special accommodations from certain student's I E P.**
   - **Any trained substitute -** Proctor/Hall Monitor

Section III-School Plan (cont.)

Additional Procedures

1. **Describe your policy on secure storage access-(Review Appendix F).**

The NCCER, ASE, IT Fundamentals, Network Pro Certification, SOLID WORKS, Entrepreneurship and Small Business Cert., ServSafe, **are all on line exams. There are no secure test materials to store. Student MSIS numbers and student generated log in/passwords will be given to the student in the testing room prior to the students testing.**

If at any point we receive secure test materials, the secure test materials will be kept in a locked storage closet. The STC/Counselor will have the only key to the locked storage closet. A sign stating: ***"Authorized Personnel Only"*** *with the names listed will be posted on the door.*

2. **Describe the plan for student emergencies (bathroom, sudden illness).**

If a student emergency occurs, the TA or proctor will signal the hall monitor with the appropriate sign. The student will be exited from the room. The timer on the test will not stop. Once the student returns, the student can resume taking the test. Students will go in the restroom one at a time (one male, one female). No extra time is allowed for this absence of testing. The Test Administrator will document the student's name and the length of time he /she was out of the room. This documentation will be given to the STC. If the student has an emergency and cannot return to the test the TA will give documentation to the STC and the documentation will be sent to RCU.

Guidelines for testing students who require electronic devices for medical monitoring during a state assessment.

Any student using a cellular device application for medical monitoring may not have the device in his/her possession during MAAP or MAAP-A testing for security reasons. However, the device may be in the testing room in close proximity to the student.

• The cellular device must have all long-range connectivity, such as cellular or Wi-Fi functions, turned OFF if it will not interfere with the medial function. Bluetooth may be left on to communicate with the monitoring device.

• For test administrations, the student may be tested following one of these guidelines:

— A student requiring medical monitoring may test in a small group or in a regular testing session with a test administrator, proctor, and an individual to monitor the device, or

— A student requiring medical monitoring may test individually with a test administrator and a proctor.

3. **Describe the plan for severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility,**

In accordance with Section 37-11-5 of Mississippi School Safety manual. **The Jackson County School District** adheres to a comprehensive list of Emergency/Crisis Management Procedures. The response procedures are thorough, and employees are trained annually on the effective implementation of these procedure. In the event of a unique threat which requires the use of evacuation procedures during a state assessment. We will adhere to the Emergency/Crisis Response Procedure set forth by the District to ensure the health and safety of our students and staff. The STC will work with the TA to maintain the integrity of all secure test materials. In the event of a unique threat, the TA and Proctor will make every effort to account for all secure materials and log students out before allowing anyone to exit the classroom. Once materials have been secured, students will be dismissed and will receive further instructions from hall monitors. TAs and proctors will secure and exit the classroom after all students have vacated the secured environment. After the threat of injury has subsided, the TA and proctor shall be the first to enter the secured classroom. Upon re-entry, the TA and Proctor will account for all test materials. Any inconsistencies that could jeopardize the security and integrity of the assessment will be documented and reported to the STC. If students were able to be logged out, they will be resumed.

4. **Describe the plan that prohibits the possession and/ or use of any electronic communication device, including but not limited to, cell phones and personal digital assistance devices, during the administration of scheduled statewide assessments.**

Each student, Test Administrator, and Proctor will sign a statement ensuring that he/she understands that possession or use of electronic devices during active testing sessions are not allowed. Prior to the distribution of secure test materials, the STC will collect electronic devices from the students. The electronic devices will be placed outside the testing room in the hall. Once all test materials have been collected and returned to the STC, the proctor may release the students and return the devices to the students. If a student violates this policy, his/her testing materials will be retrieved by the TA, and the student will be escorted by the hall monitor to the principal's office for disciplinary action. The STC will document the incident and notify the DTC.

5. **Describe the procedure used to ensure that all content related materials in testing areas have been covered or removed.**

Students are NOT allowed to bring a personal calculator to use for any state assessment. Every student will be provided a school calculator to use.

Test Takers at the JCTC will be provided a basic function calculator during the testing if the test allows a calculator.

6. Describe the procedure used to ensure that all content relevant materials in testing areas have been covered or removed.

Teachers are notified before testing that content related materials should be removed or covered. Testing areas will be checked prior to testing to ensure that rooms are free from content related materials.

7. **Describe district monitoring of Test Administrators, Proctors, students and any others involved in the testing process.**
Trained staff will walk the testing area halls, going from room to room to guarantee that the TAs and proctors are actively monitoring the students

8. **Describe the plan for multiple test administration (i.e. morning /afternoon) if**

Applicable. Students from the morning session will not be combined with student in an afternoon session.

- **Testing at the JCTC will be planned during the student's class block time. Students are tested 1st, 2nd and 3rd blocks. Students will eat on their home campuses (ECHS, VHS, or SMHS) for lunch. Multiple Test Administrations are not for applicable for the test given at the JCTC. JCTC does not have a cafeteria to serve lunch for students.**

9. **Describe the procedure for online testing, and include procedures to address when disruptions occur (power outages, network problems, etc.)**
Students will be verified according to procedures determined by MDE. A computer tech is assigned to our school during online testing to assist with technical issues. The computer tech will sign the security agreement that he/she has been trained. All test security guidelines will be followed.

10. **Describe the procedure used for creating the seating charts for students during statewide assessments (alphabetized, pre-arranged to separate friends, placement of students at the front of the room based on I E P or special circumstances, etc.)**

Most students will be seated in alphabetical order. However, all IEP, 504, and / or ELL accommodations will be considered first regarding student seating. Also, TA's and/or the STC may also be allowed to use their professional judgement regarding student seating will be made on the seating chart.

11. **On an untimed test, students who finish early may be allowed to read library books or other material not related to the content of the test. This is a district decision. What will students in your school be allowed to do?**
All tests are **timed test** that are given at the JCTC. **Students are <u>not allowed</u> to read** a book when he/ she are finished with the test. All students will remain in the testing room until the time is completed, or majority of students are finished, and all scratch paper has been collected. NO other materials are allowed in the testing area.

12. **If special accommodations are requested, (i. e. accommodations 24 and/or 25) you must complete a Planning Template for Accommodations 24 and /or 25 for each student.**
At this time, we do not have any students who have Accommodations #24 or #25 AT THIS POINT WE HAVE A STUDENT WHO HAS THESE ACCOMMODATIONS,

A template will be completed for each student and will be submitted to MDE for approval. And will be kept on file at the school.

13. **Describe the procedure for coding student data (Title I, SPED, etc.) after students have completed testing. Who will do this and when?**

- The student data for (Title I, SPED, etc.) are marked in the school program SAMS. The STC will create a data file from SAMS that is uploaded to the Research and Curriculum Unit (RCU).This data is processed before testing.
- Each National Certification has it's own procedure and specifications regarding testing accommodations. The STC will apply for students' accommodations prior to testing.

St. Martin Upper Elementary
Test Security Plan
Jackson County School District

Section I – Assurances

We assure that St. Martin Upper Elementary will be in full compliance with the testing requirements as set forth in Appendix F of the Mississippi Public School Accountability Standards, 2012, and Mississippi Code 37-16-4. We understand that there is one Test Security Plan for St. Martin Upper Elementary and that it must be updated, approved by the school board, and signed by the appropriate personnel each year.

Section II

A. **Name of Test(s):** MAAP (EOC & 3-8), MAAP-A, ELPT-LAS Links & LAS Links Screener/Placement, 5 & 8 Mississippi Science, NAEP

B. **Training: After each training session, the following documentation will be attached:**

- A dated, detailed agenda of the training done in preparation for the above assessments
- Copy of hand-outs, power points, and/or other material used in training
- Documentation that participants were informed of consequences of testing violations
- Signed Test Security/Confidentiality Agreements
- Signatures of all who attended the training

C. **Studying Test Administrator Manuals:**

When and where will test administrators be allowed to study the manual prior to testing?

Test Administrators will be allowed to review manuals in the TST Office Room 401 or Conference Room in the presence of the School Test Coordinator or an Administrator several days prior to testing. If manuals are available for download, they will be sent digitally to all TA's.

D. **Handling Materials:**

1. **Retrieving and transporting test materials:** When scheduled, the school test coordinator and another test trained individual will retrieve all testing material from the district office. All testing materials will then travel to the school campus with both individuals, abiding by all test securing procedures.

2. **Describe the procedure for distributing materials to each test administrator.**
Two trained personnel will be with testing materials at all times. The School Test Coordinator and other trained personnel will distribute testing materials to the individual classrooms. Items will be counted and signed for by the Test Administrator at the classroom door.

Alternate procedure: Test Administrators and Proctors will pick up test materials from the Secure Storage Area. Materials will be counted and signed for by the Test Administrator.

3. **Outline the procedure to distribute materials to students and to account for materials before students leave the testing area.**
Test Administrators and Proctors will distribute test documents to students utilizing the seating chart. Test documents will be taken up as students complete the test. Test Administrators and Proctors will count the materials and compare the amount to the information on the Seating Chart to ensure that all materials have been accounted for. Test materials will be picked up by the School Test Coordinator or other designated personnel, along with another trained adult before students leave the testing area.

4. **Describe the procedure for returning materials to the school test Coordinator.**
At the conclusion of each testing session, the Test Administrator or Proctor will signal that testing is complete. The School Test Coordinator and other trained personnel will then pick up the test materials from the individual classrooms. The test material will be counted by these persons, who will verify by signature that all materials have been received. The test materials will then be returned to the Secure Storage Area.

5. **Security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read aloud tests that are allowed under the Accommodations Manual to students with IEP's, etc.**
Scribing will be done under secure conditions with two people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers. Readers will sign a Staff Statement of Assurance at this meeting that they understand the guidelines for reading a test to students.

In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:

a) The scribe will sign a Staff Statement of Assurance Security Agreement before the process begins.
b) The student will not test with any other students.
c) A scribe will be the THIRD person in the room (TA, Proctor, Scribe)
d) The scribe will put answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.
e) All other security measures will be maintained.

6. **List all individuals who have access to the secure storage area.**
Katrina Rutland (STC) will have access to the secure storage area. In the event that Katrina Rutland is absent and testing must continue, Holly Jackson (Interventionist) will have access to the secure storage area.

7. **List or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. Please note that the test administrators must be licensed in compliance with Appendix F (See Section IV, 5a). (attached-see testing schedule)**
- English Language Proficiency Test (ELPT): 3/1/2024-4/12/2024
- MS Academic Assessment Program – Alternate – (MAAP-A): 3/11/2024-5/3/2024
- MS Academic Assessment Program – ELA, Math, Science (5) - (MAAP): 4/8/2024-5/17/2024

E. LAS Links Screener

The LAS Links Screener/Placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of ELs only.

1. All potential ELs will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student.
2. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine the student's English Language Proficiency Level.
3. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
4. These results will be placed in the student's cumulative record for future review and possible monitoring.

Additional Procedures

1. **Access to secure storage areas for test materials (Review Appendix F).**

All test materials will be retrieved/picked up from the district office by the School Test Coordinator and an individual who has been appropriately trained in test security. They will verify all materials with the DTC and Mrs. Shelly Barnett, or other designee. Following verification, they will transport all test materials back to the school campus and immediately transfer all testing materials to the School Secure Storage Area. Materials will be inventoried within one week of receipt of materials. Additionally, upon completion of all assessments, the STC and a trained individual, who has been trained in test security, will return all test materials to the district office.

The School Secure storage area for the ELPT will be located in the PBIS Suite office closet. For all other tests, the School Secure storage area will be located in a locked/fireproof filing cabinet in the Counselor's office. Only the individuals listed under #5 of Handling Documents of the School Security Plan will have access to these materials during this time and two persons (both trained) must always be present whenever test materials are onsite. A sign-in sheet will be posted on the outside of the closest and/or cabinet of the School Secure Storage Area documenting persons accessing the secure materials, as well as the date and time of entry/exit. Any other persons needing access to the storage room must be accompanied by one of the above listed persons. A sign stating "Authorized Personnel Only" with the names listed will be posted on the cabinet.

2. Plan for student emergencies (bathroom, sudden illness).

If a student emergency occurs, the TA or proctor will signal the hall monitor with the appropriate sign. The student will be exited from the system. Once the student returns, the student will be resumed. The student can then login to continue the test. Students will enter the restroom one at a time (one male, one female). The TA or proctor will document the student emergency including the time out of the room and the time of the student's return.

3. Disruptions to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.

In the event an incident occurs which would result in the evacuation of the building during state testing, every effort will be made to take up and secure the test materials as previously addressed in the School Security Plan. However, safety of students and staff will become paramount if the building must be evacuated immediately. In that event, the test materials will be left in the room and the door will be locked, if at all feasible.

In the event an incident occurs, which would result in the evacuation of an individual testing room(s) during the administration of a state test, the test administrator will pause the test, secure the test materials and students will be moved, in a silent manner, to another testing room. Once students are settled in the new testing room, the test administrator will redistribute the testing materials and testing will resume. In the event more than one room needs to be evacuated, students will be moved one room at a time in a silent manner.

4. Prohibitions against the possession and/or use or any electronic communication device, including cell phones, SMART watches, and personal digital assistance devices, during the administration of scheduled statewide assessments.

The Jackson County School District has a policy which prohibits student possession of cell phones on any school campus.

Each student will sign a statement ensuring that he/she understands that these electronic devices are not allowed. Prior to the beginning of each test, the TA will remind the Students that these devices are not allowed and will collect the electronic devices from the students. All teachers will be provided with a container to place all electronic devices in that are in the possession of the students. The electronic devices will be placed in the front office. If a student violates this policy, his/her testing materials will be retrieved by the TA, and the student will be escorted by a hall monitor to the principal's office for disciplinary action. The STC will document the incident and notify the DTC.

Procedures for entering a testing area/classroom with cell phones: Cell phones are prohibited in all testing areas. While testing is in progress, no individual can enter the testing area with any form of electronic device on them. This includes but is not limited to cell phones, SMART watches, personal digital assistance devices, and/or any other electronic device. Students and teachers will sign the appropriate "Notification of Prohibition of Electronic Communication Devices during Statewide Tests" form, which indicates that it is understood that all electronics are not permitted in the testing area. With that said, any individual, student or teacher, that enters the testing area/classroom with a cell phone will be formally reprimanded. In addition, the STC will document the incident and notify the DTC.

Staff: Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive a written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision.

Students: Any student who violates testing procedures/protocols by bringing in an electronic device into designate testing areas will receive an office referral which may include up to three days of OSS (out of school suspension). Additionally, scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

5. Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing areas have been covered or removed.

Teachers are notified before testing that content related materials should be removed or covered. The School Test Coordinator and/or a school administrator will check each classroom utilized in test administrator to ensure that all content relevant materials have been removed prior to the distribution of testing materials on assessment days.

6. District monitoring of test administrators, proctors, students, and others involved in the testing process

Each test administration site will be monitored a minimum of one time during each test administration by a district staff member.

7. Describe the plan for Multiple Test Administration.

In the event that any students have not completed the test by the scheduled lunch break, the following procedures will be followed: All testing materials will be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator and at least one other trained person will then count and collect the materials and return them to the Secure Storage Area until lunch has been completed.

The students who are still testing will remain in the testing room and lunch will be served to them in the classroom or they will be taken to the cafeteria as a group to sit in a designated area. The Test Administrator and Proctor will remain with the class during lunch and will ensure that no discussion of the test is allowed. After an approximate thirty-minute lunch and bathroom break, the School Test Coordinator and at least one other trained person will return the test materials to the classroom. Materials will be distributed to the students according to those procedures listed in D2.

8. Procedure for online testing and procedures that address disruptions, i.e., power outages, network problems, etc.

If during testing or before beginning testing, the power goes out or network difficulties develop which prevent testing at the designated location, students will be moved to an alternate testing location. A computer tech is assigned to our school during online testing to assist with technical issues.

9.Procedures used to prepare, verify, and maintain seating charts for students during statewide assessments.

Various schools have chosen different methods: alphabetical, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc. To facilitate the test process, generally, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.

10. On an untimed test, schools may choose to dismiss students who finish early or allow them to read library books or other material not related to the content of the test. Address the procedure for implementing this process while being sensitive to avoid excessive disruptions to those students requiring additional time who are still working.

We will not plan to dismiss students unless the entire testing process is being held up by a minimal number of students. If this occurs, the School Test Coordinator will be notified and testing will be stopped. All test materials will be collected and inventoried by the Test Administrator and Proctor and then by the School Test Coordinator and one other trained person. Students who have completed the test will be dismissed with an appropriate supervisor and the students who need to continue testing will either remain in the same room or will be moved to another area. Test materials will be re-distributed to these students according to the procedures listed in D2.

11. If special accommodations are requested, (i.e. accommodation 24 and/or 25) you must include in your test security plan a description of procedures, addressing each of the following bullets located in section E-1, 2, 3, 6, 7, 8, 10, and 13 of the TSP for each test administration.

If special accommodations are requested, procedures in section E-1, 2, 3, 6, 7, 8 and 10 will be followed as put forth in the School Security Plan. If necessary to accommodate special accommodations, the testing schedule will be amended only with the approval of the MDE Office of Student Assessment. A copy of the amended testing schedule with verification of approval from MDE will be included in the School Security Test Plan.

12. Scratch paper:

Scratch paper will be shredded at the school level on a designated district shred day. A Certificate of Shred will be signed and executed.

13. Procedures for online testing:

Test administration procedures for state testing will be followed for all online testing which includes, but may not be limited to: Use of at least one (1) certified and one (1) other test trained individual (for every 25 testers) in the testing lab/classroom at all times, use of cardboard dividers between computers, no electronic devices, and as much space as possible between testing computers/desks. Other precautions may be employed depending upon specific testing lab scenarios.

Once the authorization codes for individual students are downloaded and printed, they will be secured and locked in a secure area and accompanied by two individuals, one of whom must be a certified individual. Authorization Codes will be shredded on the district wide shred day. Certificate of Shredding will be signed and executed.

Procedures for exiting the testing area: On test day, as testing is completed, students will remain in the classroom without movement/noise. Once a majority of the testing classrooms have completed testing, the STC and a trained individual will begin collecting testing materials, remaining together with materials at all times. After all materials are collected, testing will be concluded and students/teachers will resume normal scheduling.

If an entire classroom has completed testing that is located within the middle of a group of classrooms still testing, all testing materials will be collected from the room by the STC and a trained individual. The students will then be escorted silently out of the testing area by the TA and proctor into a non-testing area. This procedure will only be utilized if circumstances such as a scheduling concern presents itself, such as accommodating lunchroom scheduling.

14. Ensuring proper Accommodations:

Prior to testing, in an effort to ensure that all accommodations are listed on student IEPs, LSPs, and 504s, the STC will collect all accommodation documentation for each student case worker. Accommodations will be reviewed and a meeting with student case workers will take place to discuss student needs. Following, the STC will consolidate all forms into an excel document. This document will then be reviewed by all student case workers as a checks and balances procedure.

For online testing, the STC will use all documentation from IEPs, LSPs, and 504s to properly assign accommodations online. Once assigned to each student, the STC will run a report online showing all assigned accommodations for each test and check it against student accommodations sheets.

15. Testing Students with Read Aloud Accommodations for Online Testing:

Two trained individuals, one of whom must be certified, will be present for the administration of a Read Aloud Accommodation for an online test. No reading will occur from a test booklet. All reading will take place from the online version of the test.

16. Testing Student with accommodation #78:

The student's response will be transcribed exactly as written to the pre-coded answer booklet. Their computer will have the extra features disabled. The student will use note pad to type his response. The test will be administered by a TA and a proctor. All persons, TA and proctor, will sign confidentiality agreements. The Test Administrator will do the Transcription when the student has completed testing. The proctor will also be in the room during the testing and transcription. Transcription means that any spelling errors must be transcribed as they exist; the person transcribing needs to be very aware of this. All punctuation must be exactly as it is in the original. All directions specified by OSA and Questar will be adhered to.

17. MAAP-A Transcribing:

Following MAAP-A testing, the TA, proctor, and STC will follow all test security procedures to ensure the validity of transcribing student responses into the online testing portal. Electronic devices are prohibited in transcription areas.

18. Guidelines for Testing Virtual Learners during the COVID-19 Pandemic:

Students must complete Mississippi state mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order. Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

19. Medical Monitoring Devices using Electronic Devices with Internet Capacity:

In regards to students requiring medical devices to monitor their health, the appropriate documentation, such as an IEP or 504, will be kept in the testing audit binder. The ascribes document should outline the procedures and accommodations specifically for the student and for the device. (i.e. A student requiring a cellular device for glucose monitoring may be accommodated by small group testing, preferential seating) Accommodations will be listed on the seating charts.

New Procedures since last OSA template update:

1. Setting Reasonable Time Limits for SATP2 exams. In a MDE guidance memo dated November 19, 2010, Superintendents and DTCs were instructed that reasonable time limits are appropriate as long as students are provided with a minimum of four (4) hours to complete a test. You can view the memo at: http://tiny.cc/satptime.

   In accordance with the MDE guidance memo, the Jackson County School District will end all state assessments 30 minutes prior to the end of the regular school day dismissal time.

2. Students Reading and Test Administrators sitting: In a MDE guidance memo dated April 22, 2011, Superintendents and DTCs were instructed that it is permissible for: Students to read a book or magazine after a test and teachers to occasionally sit during test administrations within certain reasonable parameters. You can view the entire memo at: http://tiny.cc/standardread.

East Central Middle School
Test Security Plan

September 25, 2023

Mississippi Statewide Assessment System
Office of Student Assessment
Mississippi Department of Education

Section III - SCHOOL PLAN

A. Signatures:

The following signatures must be included in the Security Plan.

Jackson County School District District	East Central Middle School School
Sherie Tanner Principal	Sherie Tanner 10/9/23 Signature Date
Amanda K Williams STC	Amanda K Williams 10/9/23 Signature Date
Tanya Sonnier DTC	Tanya Sonnier 10-9-23 Signature Date

Name of Test(s) MAAP-A, MAAP, MAAP-SCI, ELPT-LAS Links, LAS Links Screener/Placement Test, NAEP

B. Training:

After each training session, the following documentation will be on file in the STC Notebook and the Auditors Notebook:

- A dated, detailed agenda of the training done in preparation for the test(s)
- A copy of handouts, PowerPoints, or other material used in training
- Documentation that participants were informed of consequences of testing violations
- Signed Test Security/Confidentiality agreements
- Signatures of all who attended the training

C. Handling Materials:

1. Procedure for receiving testing materials from the DTC.

When testing materials for any of the above-mentioned tests are picked up by the ECMS STC, and an individual who has been appropriately trained in test security, they will monitor the DTC, or other trained personnel, who will count all testing materials. The ECMS STC will recount the testing materials for verification and initial as indicated. The testing materials will then be taken to ECMS by the STC and the other trained personnel, to be locked in the School Secure Storage Area.

Upon completion of testing at ECMS, the ECMS STC, and an individual who has been appropriately trained in test security, will return all secure materials (kept locked in the School Secure Storage Area until notified by the DTC to deliver) to the DTC. The DTC, or other trained personnel, will count all secure testing materials and initial as indicated.

Only the individuals listed under the "access to storage" list in the Handling Documents section of the School Security Plan will have access to these materials during this time and two persons must always be present whenever test materials are being accessed. A sign-in sheet will be posted on the outside of the School Secure Storage Area documenting any persons entering/exiting the room as well as the date and time of entry/exit. Any other persons needing access to the Secure Storage Area must be accompanied by one of the trained persons listed on the school security plan. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement.

2. **Procedure for printing and storing student tickets.**

Student tickets for the MAAP State tests and MS Science test will be printed for each testing session. The STC and additional trained personnel member will be present while printing is completed. Authorization tickets are checked for accuracy, cut apart into individual tickets and stored in the Secure Storage Area until the tickets are needed for student testing.

3. **Procedure for distributing materials to each test administrator.**

When these materials are needed, two trained personnel will be with the secure testing materials at all times. The School Test Coordinator and other trained personnel will distribute testing materials to the individual testing rooms. The distribution of secure test materials will be completed in pairs with at least one of the team being certified. Testing documents will only be left in the testing area with two trained individuals, one being certified.

4. **Procedure for distributing materials to students and to account for materials before students leave the testing area.**

For the online assessments, Test Administrators and Proctors will distribute student testing tickets utilizing a seating chart. When testing tickets are distributed, the student will have to provide his/her name and birthdate. The Test Administrator will be provided with a roster to verify each student's birthdate. Test Administrators and Proctors will count the materials and compare the information to the delivered materials and indicate receipt of such with their signature on the seating chart. Test materials will be picked up by trained certified staff along with proctors when the testing session is completed.

5. **Procedure for returning materials to the school test coordinator.**

At the conclusion of testing each day, the Test Administrator or Proctor will signal that testing is complete. The School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will then pick up the test materials from the individual classrooms. The test materials will be counted by these persons who will verify that all materials have been received. The test materials will then be returned to the Secure Storage Area.

6. **Security measures, if applicable, for allowing teachers to review Braille test materials, to transfer answers for large print/Braille, and to read tests that are allowed under the Accommodations Manual to students with IEP'S, etc.**

   Scribing will be done under secure conditions with two trained people present for paper/pencil testing. A "reader meeting" will be conducted for all human readers, to ensure that human readers understand the guidelines for reading a test to students.

   In the event that a student has a dictation accommodation for an online assessment, the following procedures will be in place:

   The student will not test with any other students. A scribe will be the third person in the room. (TA, Proctor, Scribe) The scribe will input the answers exactly as the student dictates directly into the system in the presence of the TA and Proctor.
   All other security measures will be maintained.

7. **Ensuring security around the transcription process.**
   Tests that require transcription will be in the presence of two trained staff members at all times, the test administrator and the proctor. All test security measures will be in place during the transcription process, including, but not limited to, the electronic device policy. The test administrator will transcribe, and the proctor will verify, that the test has been correctly transcribed into the computer.

8. **List of all individuals who have access to the Secure Storage Area.**
   The following individuals will have access to the Secure Storage Area:

   Amanda K. Williams (School Test Coordinator)
   Keasha Smith (Counselor)
   Laura Harry (Assistant Principal)
   Kimberly Sutherland (Library/Media Specialist)

9. **List or schedule of test administrators, proctors, hall monitors, and relief personnel who will be involved in each test administration. (Please note that the test administrators must be licensed in compliance with Appendix F.**

See ECMS Test Coordinator or the Test Auditor Notebooks

D. **Additional Procedures:**

1. **Access to Secure Storage Area for test materials (Review Appendix F).**

When testing materials for any of the above mentioned tests are delivered to the school, School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will immediately transfer all testing materials to the School Secure Storage Area and materials will be inventoried on the day of delivery by the District Test Coordinator. The School Secure Storage Area for all tests will be located in the testing closet of room 616 at East Central Middle School. Only the individuals listed under #7 of Handling Documents of the School Security Plan will have access to these materials during this time and two persons must always be present whenever test materials are onsite. A sign-in sheet will be posted on the outside of the door of the School Secure Storage Area documenting persons entering/exiting the room as well as the date and time of entry/exit. Any other persons needing access to the storage room must be accompanied by one of the above listed persons. All persons at the district and school level involved in handling test materials will sign a Test Security Confidentiality Agreement.

2. **Student emergencies (bathroom, sudden illness).**

Monitors will be placed in the hallways/walkways to maintain security and to assist during emergencies within the classrooms. Any Test Administrator who has an emergency will signal for the hall monitor using a "HELP NEEDED" sign. The hall monitor will move to the classroom door to assist with the emergency. In case a student has to leave the testing situation at any time during testing, the Test Administrator or Proctor will collect the student's testing materials and will document the student's name, the nature of the emergency and the time in/out of the classroom on a sheet provided by the School Test Coordinator. The student will be escorted to the restroom, school nurse, or office, whichever is appropriate, and the escort will remain with the student until they are able to return to the testing room or will escort the student to an office where he/she may wait until picked up by a parent or guardian. In the event a Test Administrator or Proctor becomes ill, one of the hall monitors will step into the classroom to relieve that person and will notify the School Test Coordinator or office. Test Administrators must be relieved by a Hall Monitor that holds a Mississippi Educator's License.

3. **Disruptions due to severe weather, fire, bomb threat, or any other form of emergency that would cause for an immediate evacuation of the facility.**

   In the event an incident occurs which would result in the evacuation of the building during state testing, every effort will be made to take up and secure the test materials as previously addressed in the School Security Plan. However, safety of students and staff will become paramount if the building must be evacuated immediately. In that event, the test materials will be left in the room and the door will be locked, if at all feasible.

   In the event an incident occurs requiring the evacuation of an individual testing room(s) during the administration of a state test, all testing materials will be taken up and accounted for by the Test Administrator and Proctor. The School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will then count and collect the materials and students will be moved, in a silent manner, to another testing room. Once students are settled in the new testing room, the School Test Coordinator/Designated Personnel and an individual who has been appropriately trained in test security will return the test materials to the classroom. Materials will be re-distributed to the students according to those procedures listed in the Handling Materials section. In the event more than one room needs to be evacuated, students will be moved one room at a time in a silent manner and the above procedure will be followed.

4. **Prohibitions against the possession and/or use of any electronic communication device, including cell phones and personal digital assistance devices during the administration of scheduled statewide assessments.**

   The Jackson County School District has a policy which prohibits student possession of cell phones on any school campus. Announcements will be made prior to the test administration informing students that no cell phones or other electronic communication devices are allowed. Students will leave their book bags and other personal articles in the hallway before entering the testing area. Students will also be informed that possession of a cell phone or electronic communication device during testing will result in that student's test being invalidated and disciplinary action taken. Teachers and students will sign the *Student Notification of Prohibition of Electronic Communication Devices During Statewide Tests* Form prior to the administration of state tests. Also, all Test Administrators and Proctors will leave cell phones outside the testing room during test administration.

   Staff will be trained on test security procedures regarding the prohibition of electronic devices in or around the secure testing area. To ensure no electronic devices will enter the classroom, students will leave their backpack and all personal belongings in the hallway, they will not be allowed to bring any items into the testing classroom. As students enter the classroom, staff will have each student check their pockets and will also check wrists for smart watches. The students will complete a self-pat down to ensure they have not

forgotten about any electronic devices in their possession, and will verbally acknowledge to staff that they are not in possession of any electronic devices. The Test Administrator and Proctor will check with each other to ensure no electronic devices have been brought into the testing room. The TA will read the Electronic Device Prohibition policy and all students and testing staff will sign the form. If students/staff leave the testing area for a break, the testing staff will re-check students and each other as they re-enter the testing room. Any staff member who violates state testing procedures/protocols by bringing in an electronic device into designated testing areas will receive written reprimand. Additionally, a recommendation will be made to the Superintendent for a suspension without pay for up to three days. This includes violations by the teacher themselves as well as procedural violations by students under the teacher's supervision. Any student who violates testing procedures/protocols by bringing in an electronic device into designated testing areas will receive an office referral which may include up to three days of OSS (Out of School Suspension). Additionally, the student's test scores may be invalidated, which may result in the student not meeting graduation/promotion requirements.

5. **Procedure to ensure students are using only allowable calculators.**

   Students will not be allowed to utilize personal calculators. School calculators that are used on any state assessment will be cleared prior to use on the assessment. The calculators will be placed in containers. These containers will be placed in the secure test storage site at the school. On the day of the math assessment, the calculators will be delivered with the secure testing materials and will be subject to all procedures of handling secure testing materials.

6. **Procedure used to ensure that all content relevant materials (maps, word walls, bulletin boards with curricular content, etc.) in testing areas have been covered or removed.**

   The School Test Coordinator and/or a school administrator will check each classroom utilized for testing to ensure that all content relevant materials have been removed prior to the distribution of testing materials on assessment days.

7. **District monitoring of test administrators, proctors, students, and others involved in the testing process.**

   Each test administration site will be monitored a minimum of one time during each test administration by a trained district staff member.

8. **Procedure for online testing and procedures that address disruptions, i.e., power outages, network problems, etc.**

   If during testing or before beginning testing, the power goes out or network difficulties develop which prevents testing at the designated location, students will be moved to an alternate testing location. A computer tech will be assigned to our EC site to assist with

technical issues and will have signed the security agreement which can be found in the STC notebook.

9. **Procedures used to prepare, verify, and maintain seating charts for students during statewide assessments. Various schools have chosen different methods: alphabetical, pre-arranged to separate friends, placement of students at the front of the room based on IEP or special circumstances, etc. to facilitate the test process, generally, seating charts are prepared in advance and simply updated with annotations to reflect any student absences.**

   Teachers will assign seating charts and most students will be placed in alphabetical order. However, IEP, 504, and/or ELL accommodations will be considered first in regard to student seating. The STC OR TA may at any time move students based on professional judgement if the need arises. All changes will be notated on the seating chart.

10. **Districts may choose to dismiss students who finish early or allow them to read library books or other material not related to the content of the test. Address the procedure for implementing this process while being sensitive to avoid excessive disruptions to those students requiring additional time who are still working.**

    Students are allowed to bring one book not related to the subject area content to read after they finish testing. This book will be placed at the front of the room with a post-it note with the student's name. Once the student has finished testing, and the TA or proctor has collected the testing materials, he/she may read.

    When students are finished and have submitted their test, the TA and proctor will collect their materials. Students will sit quietly for the remainder of the testing period. After each testing class has completed and finished their test, the testing class may be released to another location away from the testing area. No testing class will be released before two hours have passed.

11. **Testing schedule for the current school year**

    See STC Notebook, Auditor Notebook, or JCSD SharePoint. All ECMS staff will be required to attend test security training on March 5, 2024. Any staff that did not attend training will be required to attend a make-up session on March 8, 2024.

12. **How student testing accommodations will be verified prior to starting testing.**
    The STC will review each IEP/504 state testing accommodations page and will assign accommodations within the testing programs. The STC will double check each accommodation and the MET chair will verify that all accommodations have been assigned correctly.

13. **If special accommodations are requested, (i.e. accommodation 24 and/or 25) you must include in your test security plan a description of procedures, addressing each of the following bullets located in section E-1, 2, 3, 6, 7, 8, 10, and 13 of the TSP for each test administration.**

    If special accommodations are requested, procedures in section E-1, 2, 3, 6, 7, 8 and 10 will be followed as put forth in the School Test Security Plan. If necessary to accommodate special accommodations, the testing schedule will be amended only with the approval of the MDE Office of Student Assessment. A copy of the amended testing schedule with verification of approval from MDE will be included in the School Test Security Plan.

14. **Procedure to shred scratch paper used during test administrations with secure test materials as outlined in Test Administrators Manuals.**

    Scratch paper will be shredded by two trained personnel on the day assigned by the DTC.

15. **Conducting lunch, restroom and/or stretch breaks during or between tests.**

    If a student needs a restroom break during assessment, they will be escorted to the restroom and back to the assessment room by the hall monitor. Only one student at a time will be allowed to take a restroom break. In the event that any students have not completed the test by the scheduled lunch break, the following procedures will be followed: All testing materials will be taken up and accounted for by the Test Administrator and Proctor. The students will leave the classroom/lab followed by the TA and proctor. The door will be locked and trained personnel will remain on duty in the hallway until the class returns from lunch. After approximately a thirty minute lunch and bathroom break, the TA and Proctor will enter the testing room followed by the students. The materials will be distributed to the students according to those procedures listed in the Handling Materials section.

16. **Testing Student with accommodation #78**

    The student's response will be transcribed exactly as written to the pre-coded answer booklet. Their computer will have the extra features disabled. The student will use note pad to type his/her response. All persons, TA and Proctor will sign confidentiality agreements. The Test Administrator will do the Transcription when the student has completed testing. The Proctor will also be in the room during testing and transcription.

    Transcription means that any spelling errors must be transcribed as they exist; the person transcribing needs to be very aware of this. All punctuation must be exactly as it is in the original. To ensure that exact transcription takes place, we ask that as soon as the transcription has occurred, the typed documents (rough draft and final) be shipped to Betina Brandon in the OSA by Fed Ex overnight with signature required. The OSA will keep the typed documents on file. The district must not retain a copy of the response, since that

response is considered secure material. The rough draft and final must be deleted from the computer in the presence of the DTC.

17. Medical Monitoring Devices during testing

Medical monitoring refers to the monitoring of a medical device using an application monitored by a cellular device.

a. The student must have documentation of a medical condition requiring monitoring written in a school plan such as an IEP and or a 504.

b. Students will be allowed to have the monitoring device in the testing room with one additional personnel present in the testing room to keep watch over the medical device. The device must be silenced and away from other students testing in the room. In the case of an alert, the student will be removed from the room and his test paused noting the time of the stop. The student will be allowed to return to his/her test and complete the time left for testing.

c. The cellular device must have all long-range connectivity, such as cellular or Wi--FI functions, turned OFF if it doesn't interfere with the monitoring. Preference would be Bluetooth capabilities only, with WIFI tuned off.

d. The student will test in a small group or a regular testing session with an individual monitoring the device.

18. Homebound and/or Incarcerated students during testing

a. Any student listed as homebound status will be contacted before testing through ECMS counselor or homebound teacher to make the student and guardians/parents aware of date and time of testing.

b. Parent/Guardian will bring students to school on the day of testing to participate in the state test within a small group or regular test session.

c. Parent/Guardian will be contacted when student has finished their testing for them to be picked up.

d. In the case where a homebound student is unable to come to school to test because of medical issues, the homebound teacher and a school proctor will be trained to go to the student's home to administer the state test. The test will be administered within the dates specified by the state testing calendar.

e. In the case a student is incarcerated in the Youth Center, three trained personnel will go to the facility to administer the state test. The test will be administered within the dates specified by the state testing calendar.

f. In either the case of homebound status or incarceration, the IT department of the school district will be contacted to add the software to the computer and attempt to add an internet filter prohibiting the student from being able to go to any other web site other than the necessary testing web sites.

19. List of all individuals who have access to the Secure Storage Area.

The ECMS STC and School Counselor will have the only keys to access the Secure Storage area located in Room 616. The outer locked door has a sign stating "Authorized Personnel Only". The inner locked door has a clipboard for signing in and out of the actual secure testing Area.

20. Guidelines for testing Virtual Learners during the COVID-19 Pandemic.

Students must complete Mississippi state-mandated assessments and each school will provide proper safety precautions, based on guidance from MDE and/or any Governor's Executive Order.

Students will be subject to and held accountable for all federal and state assessments necessary for promotion and/or graduation. These will be administered onsite in accordance with the state testing calendar.

21. LAS Links Screener Procedures

a. The Las Links screener/placement test will be conducted to determine the level of proficiency and for appropriate instruction and placement of Els only.
b. All potential Els will be identified by the Home Language Survey, which will indicate that a language other than English is spoken at home and/or by the student
c. The screener/placement test will be administered by the LEA local school counselor and scored by the local school counselor to determine English Language proficiency level.
d. The EL Coordinator/Interventionist will be responsible for training "new" school counselors to ensure that the test/screener has valid and reliable results.
e. These results will be placed in the student's cumulative record for future review and possible monitoring.
f. For security, the LAS screener will remain locked within a drawer in the counselor's office.

22. Steps that will be taken to limit the possibility of cheating.

All classroom walls will be free of any instructional wording and materials. Student desks will be spaced as far apart of physically possible to ensure students are not able to view the computer screen of other students. Students who have been known to cheat will have

preferential seating to ensure they cannot view other students' answers. Testing staff will be actively monitoring at all times. Staff will not sit or prop themselves anywhere within the testing room, they will walk around continuously to ensure active monitoring is taking place.

Section: J Students
Policy Code: JCD Alternative School Program
Policy:

Alternative Education Setting

The Jackson County Alternative School is established for the purpose of providing continued educational services to students whose behavior prevents them from continuing to attend their home school environment.

1. Evidence of intervention attempts at home school shall be documented. (Discipline forms are acceptable, if information is recorded that a parent contact was attempted. Administrators are encouraged to record notes of parent conference on discipline form or any other record utilized in the recording of information.)
2. The student should have been enrolled in the home school for nine (9) weeks or until intervention has been attempted and failed, or probation terms, as specified by school board, have been violated.

Categories for Placement

1. Placement of a student enrolled in the Jackson County School District by order of a chancellor or youth court judge can be done only with the consent of the Superintendent.
2. Placement in the alternative education setting will be at the discretion of the school board.

Procedures for Placement in Alternative Education Setting

1. The administrator will refer students who have reached Step 5 (Secondary Handbook) or Step 6 (Middle School Handbook) to the alternative education setting. The administrator will complete the **Alternative Education Setting Referral Form** and submit it to the superintendent or his/her designee for his/her review. ~~The superintendent will provide this information to the school board for review. Parents may approve the home school principal's recommendation for placement to the alternative education setting and select not to appear before the school board for placement determination.~~ The parent or guardian may waive their right to appeal the recommendation of the principal to the District Discipline Appeal Committee and the student shall be placed directly in the alternative setting. Students involved with drugs, alcohol, or weapons will be recommended to the school board for expulsion.
2. Student placed in alternative education setting remains in alternative education setting according to schedule described in "criteria to return to home school section."
3. Student referred back to home school. Remains in home school on probation as prescribed by the school board/school administrator. The student remains in his home school as long as behavior is acceptable. If student's behavior worsens, the administrator may refer the student back to the alternative school if he/she is still serving his/her probationary period as prescribed by the school board/school

administrator. If student's behavior worsens, the administrator may refer the student to the school board for the third offense for expulsion if he/she is still serving his/her probationary period as prescribed by the school board/school administrator. The student will not be allowed to return to the alternative education setting more than twice during the same school year. If a student is expelled from school he/she will be allowed to return to his/her home school the following year, after completing the remainder of the first offense at the alternative education setting.

4. The home school will complete the necessary information in the referral packet and send it to the principal at the time the student is referred to the alternative education setting. The principal will send copies to the school board secretary.
5. Students with special education rulings may be placed at the alternative education setting after an IEP review/revision. All due process procedures mandated by IDEA and the State Plan are to be followed. These procedures include giving written notice and Procedural Safeguards to parents, verifying receipt by parents and conducting an IEP meeting to recommend placement. IEP and other assessment data are then forwarded to the special education director at the Central Office.

The Jackson County Alternative School Setting is designed to meet the educational needs of the students while they are assigned to the alternative education setting. The employment of certified teachers and competent teacher assistants and a computer-assisted instructional program provide the means to accomplish this goal. As a result of the low enrollment at the school, students will receive small group instruction and will communicate regularly with home school teachers regarding academic work. Counselors will be available to counsel students with psychological needs. Local mental health professionals will be brought in to work with the students and parents when necessary. Positive behavior intervention specialists will also be available to work with students, as needed.

Criteria to be Reviewed for Return to the Home Schools Environment

1. The student will exhibit improvement while in the alternative setting. The home school personnel will maintain home/school correspondence. Progress reports and report cards will be given to students in the alternative education setting on the same schedule as all other students. Personnel of the alternative education setting or home school will notify parents as needed, in addition to progress reports and report cards, to keep them informed of the student’s academic and behavioral progress.
2. A student must attend (be present) in the alternative education setting for up to forty-five (45) school days. After attending the alternative education setting for up to 45 school days and having shown improvement (while attending the alternative education setting) with acceptable behavior, the student may return to his/her home school environment. If the student has not made improvement in his/her behavior, he/she will remain in the alternative education setting. Students may have two excused absences, as described in the district’s Students Handbook, without adding days to the original assignment. Students can reenter the home school environment only after they have met conditions as specified by the school board and the criteria listed above.
3. The home school principal, after consultation with teachers and other personnel involved with the students, may refer the student back to the home school environment.

4. When the home school principal approves for the student to return to his/her home school environment, the parent is to contact the principal of the home school and make an appointment to meet with him/her. This conference must be held prior to the student's returning to class. The parents, principal, and student must be present in the conference.

Reasons for Expulsion from Alternative Education Setting

1. Students enrolled in the Jackson County alternative education setting who are involved in any criminal activity, display violent behavior, or have in their possession a weapon on campus as defined by Section 97-37-17, MS Code, shall be expelled from the alternative education environment for the remainder of the school year. Students expelled for possession of a weapon may be expelled from school for a period of up to one year.
2. Failure to follow rules prescribed in the Student Handbook and terms of placement in the alternative education environment.

Terms of Assignment to the Alternative Education Setting

Student's Name_____

School_____

Principal's Name_____

Date of Hearing_____

The following behaviors must be adhered to while your child is assigned to the alternative education setting. Failure to comply with these terms may result in your child being expelled from school for the remainder of the semester.

_____ 1. Absences - shall not miss school, except for medical reasons.

_____ 2. Tardies - shall not be late to school unless brought to school and checked in by the parent/guardian.

_____ 3. Shall not create any disturbances/distractions, which would interfere with a teacher's right to teach and the other pupil's right to learn.

_____ 4. Shall be prepared each day for class. Each day the student will report to class with the materials designated by the teacher.

_____ 5. Shall not participate in or attend any extra-curricular activities during the time the student is assigned to the alternative education setting. This includes any (proms, dances, plays, etc.) activities held on the school's campus or school-sponsored activities, which may be held off campus.

_____ 6. Shall not drive a vehicle to the home school or to the alternative education setting while assigned to the alternative education setting. Middle school students shall ride the bus to the home school and transfer to the alternative education setting bus at designated pick-up place. Misbehavior on the bus to the home school and to and from the alternative education setting may result in expulsion from school.

_____ 7. Shall provide restitution to the school district for damages and/or theft prior to the end of the current school year. If restitution is not made in the time designated by the school, the student will not be allowed to enroll for the succeeding school year.

_____ 8. Discipline - The student shall follow the rules of conduct established for the alternative education setting. Failure to do so shall result in a recommendation for expulsion for the remainder of the semester. This includes misbehavior on the school bus to the home school and to and from the alternative education setting.

_____ 9. The parent shall meet with the alternative education setting staff after the student's assignment to plan cooperative interventions for the student.

_____ 10. The parent shall attend parenting workshops, if the principal and counselors deem it necessary.

_____ 11. The student and/or parent will participate in the services provided by the professional counselors on a periodic basis.

_____ 12. Upon return to your child's home school environment, he/she will be on probation for the remainder of the _____ school year.

The earliest date this student can return to his/her home school environment is _____. Failure to comply with the rules and regulations of the alternative education setting will result in the extension of time the student is assigned to the alternative education setting.

If the student transfers, drops out, or is expelled from the alternative education setting School, he/she will be reassigned to the alternative education setting upon his/her re-entry into the school district and will complete the time for which he/she was originally assigned to the alternative education setting.

Section: J Students

Policy Code: JDAA Student Discipline: Isolation, Suspension, and Expulsion

Policy:

~~Procedure for Dealing with Long-Term Suspension or Expulsion~~ Due Process

~~The Board of Education of the Jackson County School District wishes to establish an educational climate in which the important process of education can best be carried out. When unacceptable behavior cannot be corrected by the resources of the school, the Board hereby authorizes the school principal to suspend any student for violation of any published rule or regulation or for any other act of misconduct or insubordination as a final effort to influence the student's future behavior.~~

~~The principal may suspend students out of school for a period not to exceed five (5) school days. The principal, with the approval of the superintendent, may suspend students out of school for a period not to exceed ten (10) school days. Long-term suspension, or that in excess of ten (10) school days, or expulsion may be given only by action of the Board of Education, and then only after such student has been afforded notice, opportunity of a hearing, and other procedural rights consistent with state and federal due process requirements.~~

~~Section 1. Notice~~

~~A student facing suspension shall be given oral or written notice of the charges against him/her by the principal. If the student denies the charges, he/she shall be given an explanation of the evidence that the principal has against him/her. Whenever the principal seeks to impose a long-term suspension or expulsion, he/she shall notify, in writing, the parents/guardian no later than the end of the third school day following the day of alleged misconduct. This written notice shall include the following:~~

~~1. The rule allegedly violated, the acts of the student in alleged violation of the rule, and the summary of evidence against him/her.~~

~~2. The penalty that is recommended to the Superintendent and Board.~~

~~3. A statement that before long-term suspension or expulsion can be invoked, the student has a right to a hearing before the Board of Education.~~

~~Section 2. Right to hearing~~

~~If the student and his/her parents choose to waive the right to a hearing, then they must provide for the principal a signed statement to that effect. The student and his/her parents shall notify the school within twenty-four hours after receipt of notice of suspension/expulsion whether or not they will waive the right to a hearing. If the student and parents do not waive the right to a hearing before the Board, the hearing will be scheduled at the next board meeting after notification from the parents that a hearing is requested. The principal or school administration will inform a parent or parents and student of the date and time of the hearing. If the student is of mandatory school age, services will be provided at the alternative school or an alternative setting based on the recommendation of the principal and approval of an assistant superintendent.~~

~~Section 3. Witness Statements~~

~~At least two days prior to the hearing, the principal will make available in his/her office the~~

~~signed statements of staff members on whose information the charges are based and also the penalty recommended by the principal. Statements made in writing by the student may also be examined by parents/legal guardians, if requested.~~

~~Section 4. Conduct of the Hearing~~

~~The hearing for the student will be confidential, and the student may be represented by legal counsel and parents or legal guardians. The hearing may be attended only by the Board of Education, board attorney, the Superintendent of Schools, the assistant superintendent of the respective Attendance Center, the principal, the student, the parents, the student's legal counsel or other designated advocate, recording clerk(s), and witnesses who should only be present when they are giving information to the Board. At the discretion of the Board and with the concurrence of the student's parents (or the representative when acting in the place of the parents), the student may be excluded at times when his/her psychological or emotional problems are being discussed.~~

~~The student may speak in his own defense and may be questioned on his testimony, but he may choose not to testify, and, in such cases, he shall not be threatened with punishment.~~

~~Members of the Board, the superintendent, the principal, the student, the parents, or the representative of the student may question witnesses, including the principal and the student, about matters relevant to the charge against the student and to the proper disposition of the matter. The board president has authority to limit questioning which is unproductive or irrelevant.~~

~~The parents or legal guardians should be present at the hearing and should have an opportunity to answer questions and to make a statement to the Board concerning their feelings about the proper disposition of the case. Any statements made by the parents need not be filed with the principal before the hearing. Parents will be able to advise the student during the hearing.~~

~~If the student or his/her parents think that the student's interest can be protected better by the presence at the hearing of an adult besides the parents or guardian, the student may bring another adult to the hearing. This adult may act as a representative in the defense of the student in an advisory capacity.~~

~~Section 5. Disposition of the Case~~

~~Following the completion of the hearing, the Board may proceed in its deliberations and make its ruling on the minutes. If no misconduct is found, the matter is terminated, and no further action may be taken against the student. The decision of the Board is final.~~

The superintendent of schools and the principal of a school shall have the power to suspend or expel a pupil for good cause, including misconduct in the school or on school property, as defined in the Mississippi Code §37-11-29, on the road to and from school, or at any school-related activity or even when such conduct by a pupil, in the determination of the superintendent or principal, renders that pupil's presence in the classroom a disruption to the educational environment of the school or a detriment to the best interest and welfare of the pupils and teacher of such class as a whole, or for any reason for which such pupil might be

suspended, dismissed or expelled by the school board under state or federal law or any rule, regulation or policy of the school district.

A student who has been suspended for more than ten (10) days or expelled has the right to due process. All aspects, circumstances and records of the student's case shall be confidential and available only to authorized school officials dealing directly with the student or the student's parents, legal guardian(s) or attorneys for the student or the Board of Education. The following procedures provide notice and opportunity to heard in such matters.

For any suspension or more than ten (10) days or expulsions, a student shall have the right to

- a due process hearing
- representation by legal counsel
- the opportunity to review the evidence presented by the district prior to the hearing, and
- the opportunity to cross-examine witnesses presented by the district.

The student and the student's parent, legal guardian or person in custody of the student may appeal suspension of ten (10) or more days and expulsions to the District Discipline Appeal Committee. The standard of proof in all disciplinary proceedings shall be substantial evidence. The parent or guardian of the student shall be advised of this right to a hearing by the appropriate superintendent or principal and the proper form shall be provided for requesting such hearing. The notice of appeal shall be submitted to the superintendent's office, in writing, within five (5) days of any notice of suspension and/or expulsion. Failure to request a hearing within five (5) days of notice shall constitute a waiver of the right to appeal and result in the recommendation of the principal being final without further hearing.

The student and the student's parent, legal guardian, or person in custody of the student may appeal the decision of the District Discipline Appeal Committee to the Jackson County School District Board of Education. The notice of appeal shall be submitted to the superintendent's office, in writing, within five (5) days of any notice of the District Discipline Appeal Committee's recommendation at the conclusion of a preceding due process hearing. Failure to request a hearing within five (5) days of notice shall constitute a waiver of the right to appeal and result in the recommendation of the District Discipline Appeal Committed becoming final without further hearing.

All consideration of student disciplinary actions shall be conducted in accordance with the standard board procedure. All decisions of the board shall be final.

The superintendent or designee shall establish procedures for informal and formal hearing consistent with this policy.

Section: J Students
Policy Code: JCA Student Conduct
Policy:

Student Code of Conduct

In implementing conduct and personal appearance regulations, it should be kept in mind that the primary responsibility for the conduct and personal appearance of a student rests with the student and the parents. Every effort should be made to impress upon the students and the parents that discipline and order can only be maintained in the school when the school is not used as a vehicle for disruptive influences. In carrying out school regulations, students, parents, teachers and the administrative staff should observe the following:

1. Administrators and teachers shall hold students to strict account for disorderly conduct or misconduct at any school, on the way to and from school, on the playgrounds during recess, at school meetings, programs, functions and activities, and upon school buses. The Superintendent or principal/school administrator of any school may suspend any pupil from school for good cause.
   Any suspension of student for more than ~~five (5)~~ ten (10) days shall be forwarded to the Superintendent ~~and Board of Education~~ for review.
2. The superintendent or the principal/school administrator of a school shall have the power to suspend a pupil for any reason for which such pupil might be suspended, dismissed or expelled by the Board of Education, but such action of the superintendent or principal shall be subject to review ~~by and the approval or disapproval of the Board of Education.~~ the District Discipline Appeal Committee. The following steps should be followed by the parents should they wish to appeal a decision made by the administrator: Step 1 - ~~appeal to the Assistant Superintendent for the Attendance Center.~~ Appeal to the District Discipline Appeal Committee Step 2 - ~~appeal to the Superintendent. Step 3 - appeal to the School Board.~~ Appeal to the School Board
3. Courts have ruled that teachers must maintain their effectiveness and respect in order to perform their duties as a teacher. The effectiveness and respect must be maintained on or off the school premises and during or after school hours. (ref. MS Code 37-11-21)
4. The School Safety Act of 2001 provides a procedure for disciplining students whose behavior, as determined by the principal or designated administrator of each school, seriously interferes with the school environment as defined by the Act. The Superintendent is authorized to develop and implement this procedure in the Jackson County School District. These provisions of the School Safety Act of 2001 are cumulative and in addition to existing district discipline procedures.
   The superintendent or principals are authorized to institute appropriate disciplinary action including immediate suspension and/or recommendation for expulsion, if warranted, of any student for disorderly conduct or misconduct including but not limited to, the following:

   a. Fighting
   b. Disorderly conduct
   c. Harassment, intimidation or threats

d. Disruption of school operations, functions, purposes or activities
e. Disobedience
f. Disrespect
g. Insubordination
h. Insulting language
i. Insulting behavior
j. Obscene Language or Gestures
k. Vandalism
l. Malicious mischief
m. Theft or damage to Public or Private Property. Restitution shall be made within a reasonable period of time. If restitution is not made, students will not be allowed to attend school until complete restitution is made, the days missed will be unexcused, and work missed cannot be made up.
n. Unauthorized use of school property
o. Unauthorized entry of school premises
p. Loitering
q. Use of tobacco
r. Student attempting to sell or distribute an object or substance which has not been authorized for sale or distribution by the administration.
s. Public display of affection
t. Chewing gum on campus

Possession of:

a. Fireworks, explosives or incendiary materials
b. Knives, firearms, slingshots, or any item which would readily lend itself for the use as a weapon
c. Pornographic materials
d. Contraceptives
e. Stolen property
f. Tobacco
g. Cards or gambling paraphernalia
h. Noise making devices (this includes radios, tape players, and televisions)
i. Other disruptive materials
j. Other materials, possession of which is punishable by law
k. Chewing gum
l. All of the above will apply to students who are transported on a school bus

5. Students will be recommended for expulsion for the remainder of the semester for the following offenses:

a. Use of alcoholic beverages
b. Under the influence of alcoholic beverages
c. Use of illegal drugs
d. Under the influence of illegal drugs
e. Possession of illegal drugs

f. Possession of alcoholic beverages
g. Possession of drug paraphernalia
h. Indecent exposure
i. Public indecent displays or actions (including in cars parked in the vicinity of any school building or activity).

Any student who brings a firearm to school shall be expelled from school or placed in the Alternative School for a period of not less than one calendar year.

6. Student Search and Seizure -- Courts have ruled that teachers and school administrators are "in loco parentis" of students. This means that teachers and administrators are acting in place of parents during the school day and may do anything a parent would do to maintain discipline. In addition, school officials must protect all students from possible harm. Therefore, courts have ruled that school officials may conduct searches of students when there is reasonable suspicion that the student might possess items that might harm themselves, or other students (drugs or drug paraphernalia, alcohol, weapons, stolen items, tobacco, or any other items that might cause harm to the student or other students). These court rulings were made in order to protect all students from possible harm. "Emerging First and Fourth Amendment Rights of the Student, "1 J. Law and Education 449, 451 (1972). "In re Donaldson" 269 Cal. App. 2nd 509, 75 Cal. Rptr. 220 (1969) "Mercer v. State" 450 S.W. 2nd 715 (1970).
7. A student who is recommended for expulsion will be suspended out of school a minimum of ~~three (3)~~ five (5) days or until a hearing is held before ~~the school board~~ the District Discipline Appeal Committee. The parent has ~~three (3)~~ five (5) days in which to contact the superintendent's office to request ~~to be placed on the agenda~~ a hearing before the District Discipline Appeal Committee.
~~Should a student who is recommended for expulsion be placed on probation by the school board, the probationary period will be determined by the school board.~~
~~The student may be represented at such hearing by counsel of his/her choice. The hearing will be closed to the public to protect the student from adverse effects of any disclosure made at such a hearing.~~ Should the parent or guardian of the student be dissatisfied with the findings and recommendations of the District Discipline Appeal Committee, the parent or guardian may request in writing with five (5) days of receipt of notice of such findings, a hearing before the Board of Education.
8. Other disciplinary action may consist of corporal punishment under existing school policy, loss of privileges, lower grade in citizenship, denial of participation in school activities, probation, or a combination of one or more of such actions, including appropriate constructive assignments, depending on the seriousness and circumstances of the offense and the attitude of the student.

As a result of the violence and numerous shootings that have taken place nationally on school campuses, the Jackson County School District feels that it must take action to prevent an incident of this nature from occurring in our district. The following actions will be taken with students making threats to do bodily harm on a school campus or at a school function:

1. Students making threats, to other students, teachers, administrators, other school personnel or in the community that they would like to do bodily harm to someone on the school campus or at a school function will be reported to the sheriff's department. Students making these threats will be recommended to the school board for expulsion. Before the student returns to school, he/she will need to provide school officials with documentation that he/she has undergone counseling and/or psychological evaluation and that he/she poses no threat to students or school personnel.
2. Students who hear other students making threats to do bodily harm to students, teachers, administrators or other school personnel are encouraged to report this to a teacher or a school administrator. The names of students making such reports will be kept in confidence.

School personnel are aware of the unwritten code that you do not "tattle" on a fellow student, but feel that, when the lives of one or more students, teachers, administrators or other school personnel are threatened, this code does not apply. Students who withhold such information could face disciplinary action.

College of Education and Behavioral Science
Department of Educational Leadership, Curriculum, and Special Education

Memorandum of Understanding/Partnership Agreement

This agreement outlines relevant policies and current operational procedures between the Arkansas State University College of Education and Behavioral Science and the School District in providing internship experiences for university students.

This collaboration aims to improve our candidates' leadership qualities, characteristics, and skills and strengthen educational leadership programs to enhance joint research and inquiry. Arkansas State University and its P-12 school partnerships agree that the philosophy and concept of renewal are integral to developing future educators who know and demonstrate best practices. Continuous improvement is collaborative growth between partner schools and higher education institutions to create and refine more effective educational leadership programs simultaneously.

The agreement, made by and between Arkansas State University, an institution of higher education and an agency of the State of Arkansas, located at State University acting by and through its College of Education and Behavioral Science Arkansas and
_____ (School District Name)
_____(School District City or NCES Number.)

It is agreed by the parties to be of mutual interest and advantage for selected candidates (the student) of the program to be provided clinical education experiences at the Facility.
For consideration of the mutual covenants, it is further agreed by the aforesaid parties that:

1. Mutual Responsibilities:
   a) The Facility will accept the candidate selected by the program for a period of clinical education. The Facility and the Program shall mutually agree that the site mentor will serve no more than 5 Graduate Candidates at once.
   b) The schedule, content, and objectives of the internship experiences will be arranged in cooperation between the Candidate, Site-Mentor, and the Director of the Program or his/her designee.
   c) The rules and regulations of the Facility shall apply to the assigned Candidate.
   d) The Program shall be an independent contractor of the Facility.
   e) The Program and the Facility retain the privilege to exchange, and review materials relevant to the Candidate’s education.

2. The Program’s Responsibilities
   a) Provide the Graduate Candidate with a list of qualifying field activities that can be completed
   b) Provide the Graduate Candidate with the content and objectives of the Program

c) Ensure the Graduate Candidate has competence and knowledge of the Educational Leadership preparation standards.
d) Provide a schedule of on-site visits by the Program supervisor.
e) Ensure the Graduate Candidate has been made aware of all program requirements and regulations for the Internship course and the Professional Code of Ethics for the state of Arkansas

3. Candidate Responsibilities - The Graduate Candidate shall:
   a) Choose a Site Mentor to supervise the field activities at two (2) levels and two (2) sites. Obtain a signed agreement.
   b) Provide the Facility with a statement of the field activities to complete, content, and objectives of the Program.
   c) Ensure he/she has transportation as needed to fulfill responsibilities
   d) Ensure all program field activities will be completed and fulfilled.
   e) Notify the program no less than ten (10) working days in advance of a Candidate's change of placement
   f) Act professionally and ethically.
   g) Meet necessary academic requirements.

4. Facility Responsibilities - The Facility shall:
   a) Provide all reasonable information requested by the Program on Graduate Candidate's work performance.
   b) Provide Graduate Candidates opportunities to complete the required program requirements.

NOTE: Any Violations from the candidate can result in dismissal from the program.

Program Signatures:

MOU – Educational Leadership, Curriculum & Special Education
Frequently Asked Questions

1) Purpose of the Memorandum of Understanding (MOU) between the school district and A-State

   The MOU is a partnership between the school district and Arkansas State University. It defines how the university and school district will work together. The major purpose of this partnership is to bring all stakeholders together to improve the quality of teaching and learning for P-12 students. A partnership is based on mutual trust, respect and is seen as mutually beneficial to all partners as they collaborate. School partners work together over time, building relationships and commitment to their shared goals. In this commitment, they develop new strategies, roles, and relationships to support their work.

   As the University, we agree to:
   a) Provide the Graduate Candidate a list of qualifying field activities that can be completed
   b) Provide the Graduate Candidate the content and objectives of the Program
   c) Ensure the Graduate Candidate has competence and knowledge before enrolling in the Internship course.
   d) Provide a schedule of an on-site visit by the Program supervisor. (for candidates residing in the state of Arkansas)
   e) Ensure the Graduate Candidate has been made aware of all Program requirements and regulations for the Internship course and the Professional Code of Ethics for the state of Arkansas

   As the district will agree to:
   a) Provide all reasonable information requested by the Program on Graduate Candidate's work performance.
   b) Provide Graduate Candidate opportunities to complete the required field activities to meet course requirements.
   c) Complete and return all Graduate Candidate's evaluations and other paperwork required to the Program by the scheduled dates.

2) Purpose of MOU since it is an online program.
   a. Being an online program, we ask our students to complete approximately 225 hours of internship activities within a public/private school setting. The internship activities begin in the first course the candidate enrolls in. The program is a 30-33 hour, depending on the degree program enrolled.

3) Types of Internship Activities
   a. The activities consist of; leading curriculum committees, evaluating policies, attending board meetings, devising transportation plans, reporting on school safety, school finance, federal programs, and many more. A list is provided to the candidate in each course and in the internship course. We asked that the information gathered from a school be kept anonymous.

CLIENT SERVICES AGREEMENT

Soliant Health, LLC (hereafter referred to as "Soliant"), and **Jackson County School District** whose primary location is 4700 Colonel Vickrey Rd., Vancleave, MS 39565 hereafter referred to as "Client") enter into this non-exclusive Client Services Agreement for the purpose of referring and placing its employees ("Consultants") with Client. This Agreement shall govern the overall terms of the relationship, while a separate Assignment Confirmation (Addendum A) for each placement will outline specifics as to bill rates, personnel, and assignment lengths.

1. **Scope of Services.**
Soliant, a licensed staffing agency in the business of providing supplemental staffing to the public and private education sector and not a healthcare provider, will use its commercially reasonable efforts to provide Consultants for assignment with Client. Soliant will be responsible for payment of each Consultant's wages and applicable payroll taxes, deductions, and insurance, including workers' compensation, general liability and professional liability coverage for the benefit of the Consultants. If a Consultant is unable to complete the specified assignment, Soliant will use its commercially reasonable efforts to find a replacement in a timely manner.

2. **Independent Contractor.**
The parties hereto specify and intend that the relationship of each to the other is that of an independent contractor, that each Consultant shall be an employee of Soliant and that no qualified Consultant shall at any time be an employee of Client, unless the parties shall otherwise agree in writing. Soliant agrees to provide and maintain all payroll services for any qualified Consultant placed with Client, to maintain payroll records and to withhold and remit all payroll taxes and social security payments. Soliant does not ordinarily use subcontractors in providing services. Should the need to use a separate staffing firm or independent contractor arise, Soliant will notify Client in advance of the assignment in order to receive approval of this arrangement. 2544

3. **Telepractice Services.**
Soliant, at Client's specific request, may provide telepractice services through VocoVision. Should utilization of VocoVision occur, Client shall, at that time, receive in addition to Addendum A – Client Assignment Confirmation, an Addendum B – Teleservices Provisions, Addendum C – Duties and Responsibilities and Addendum D –VocoVision Equipment Policies which, collectively, outline specific terms and conditions regarding VocoVision's telepractice services.

4. **Insurance.**
Soliant will maintain at least the following minimum amounts of insurance:
   General Liability - $2,000,000 per occurrence and $4,000,000 aggregate.
   Workers Compensation - in accordance with state regulations.
   Employer's Liability - $1,000,000.
   Excess Liability over General Liability and Employer's Liability - $5,000,000 per occurrence and $5,000,000 aggregate.
   Professional Liability - $1,000,000 per occurrence and $3,000,000 aggregate.
   Sexual Abuse and Molestation - $1,000,000 per occurrence and $3,000,000 aggregate

5. **Competency and Licensing.**
Soliant will conduct comprehensive pre-employment screening to provide licensed Consultants who meet applicable professional standards. Soliant will endeavor to present only Consultant s who are qualified for Client's open position(s) on job requirements established by Client either verbally or in writing. While Soliant will make every effort to pre-screen job candidates based on these requirements, Client acknowledges the candidate assignment decision is ultimately the responsibility of the Client. To this end, Soliant will make available to Client all appropriate Consultant records that Soliant may permissibly disclose and will facilitate an interview between Client and Consultant in order to assist Client in the hiring decision. Soliant will do its due diligence to ascertain the professional and applicable Department of Education licensing and certification requirements for the Consultant discipline placed with Client, however, it is ultimately the responsibility of the Client to approve the Consultant's licensure and certifications as acceptable.

6. **On-Site Responsibility.**
Client is responsible for providing all orientation, support, facilities, training, direction, and means for the Consultant to complete the assignment. Client acknowledges that Soliant is not providing special education and/or related services, but rather is providing candidate identification and placement services. As such, Client is responsible for the Consultant's adherence to the applicable standard of practice and acknowledges that Soliant is not responsible for the Consultant's on-site performance given that Soliant does not have the capacity to provide direct, on-site supervision of daily activity. Client acknowledges that any deviation of the Client's policies and procedures as orientated to Soliant's Consultant should be reported in writing and directly to Soliant immediately so that Soliant may be provided an opportunity to offer correction and/or counseling of unacceptable practices by Consultant. Client warrants that its facilities and operations will comply at all times with all federal, state and local safety and health laws, regulations and standards, including OSHA standards, and that Client will be responsible for providing all safety training and equipment, and for each Consultant's compliance with health and safety requirements, including those instituted by Client.

7. **Employment of Consultants.**
Client agrees that it will not directly or indirectly, personally or through an agent or agency, contract with or employ any Consultant introduced or referred by Soliant for a period of one year after the latest date of introduction, referral,

placement, or end of the contract assignment. If Client or its affiliate enters into such a relationship or refers Consultant to a third party for employment, Client agrees to pay an amount equal to $21,500 or thirty-five (35) percent (whichever is greater) of the Consultant's first year's annual salary, including any signing bonus, as agreed upon at the time of hiring. Payment is due and payable to Soliant upon start date.

8. **Equal Opportunity.**
It is the policy of Soliant to provide equal opportunity to all Consultants for employment. Soliant and Client will screen based on merit only. All Consultants will be free from discrimination due to race, religion, color, sex, national origin, age, or disability.

9. **Timekeeping and Invoicing.**
Client will ensure that Consultants accurately record the start and stop times for all hours worked, in accordance with the Client's policies utilizing the Client designated method which may include the submission of Soliant's timesheet. Timesheets and/or timesheet approvals are due weekly by 12:00 PM on the Monday following the end of Client's designated workweek.

Soliant will generate an invoice for Client based on timesheets submitted. Client must review the invoice and notify Soliant of any errors, including billed hours or improper rates, within thirty (30) days of the date of invoice. Soliant shall resolve any error and provide corrected invoice mutually acceptable to both parties within a reasonable period. In the event client fails to dispute or report any errors within thirty (30) days, errors shall not be accepted as a disputed charge and invoices will be due and payable in full.

2545

10. **Payment Terms.**
Client will be billed on a weekly basis for all services provided during the previous week. Client will pay Soliant based on the service charges specified in the Consultant Assignment Confirmation included as an addendum to this Agreement. Soliant pays its Consultant(s) overtime in compliance with federal, state, and/or local laws. Soliant will bill Client at one and on-half times the regular bill rate for all hours Soliant is required to pay the Consultant(s) overtime. It is Client's responsibility to notify Soliant if pre-approval is required for any or all overtime hours prior to any such hours being worked. **Payment is due within fifteen (15) days of receipt of invoice.**

11. **Default Charges.**
Invoices shall be considered past due if not paid by the agreed-upon due date. Client agrees to pay all necessary collection costs of amounts past due, including reasonable attorney's fees and costs. Additionally, Soliant reserves the right to approve or to discontinue any extension of credit and the terms governing such credit.

12. **Limitation of Liability.**
NEITHER PARTY SHALL BE LIABLE TO THE OTHER WHATSOEVER FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, EXEMPLARY OR PUNITIVE DAMAGES, INCLUDING ANY DAMAGES ON ACCOUNT OF LOST PROFITS, LOST DATA, LOSS OF USE OF DATA, OR LOST OPPORTUNITY, WHETHER OR NOT PLACED ON NOTICE OF ANY SUCH ALLEGED DAMAGES AND REGARDLESS OF THE FORM OF ACTION IN WHICH SUCH DAMAGES MAY BE SOUGHT. THE FEES AND BILLINGS DUE UNDER THIS AGREEMENT ARE NOT CONSIDERED SPECIAL DAMAGES OR LOST PROFITS AND SHALL NOT BE LIMITED BY THESE PROVISIONS.

13. **Administrative Responsibilities**.
Client shall be responsible for orienting Consultant to Client's policies and procedures regarding the submission of any requisite paperwork which must be tendered for reimbursement by funding entities such as Medicare, Medicaid, or health insurance. Such paperwork may include, but is not limited to, patient care plans, comprehensive patient histories, individual education plans, or Client specific program plans. During the contracted assignment, should Consultant fail to submit paperwork as required per Client's policies and procedures, Client must notify Soliant in writing within three (3) business days of alleged failure. Failure to notify Soliant before assignment ends shall negate any Client claim to withhold payment due to untimely work and/or paperwork non-compliance by Consultant. Client agrees that all approved time sheets by Client's assigned representative are not subjected to billing dispute if Client fails to notify Soliant of time sheet and work performed discrepancies.

14. **Incident and Error Tracking.**
Client will report to Soliant any performance issues, incidents, errors and other events related to the care and services provided by Soliant employees. Soliant will document reported incidents in employee's personnel file and track all such events for quality assurance purposes. All supporting documentation is required within seventy-two (72) hours of the occurrence.

15. **Reporting of Work-Related Injuries.**
Client will maintain a safe working environment and provide all appropriate personal protective equipment as deemed appropriate for unit to which Soliant's Consultant has been assigned. Client ensures compliance with all applicable OSHA or state Department of Labor obligations to include general training on the reporting of work-place injuries, incidents, and occupational exposure to bloodborne pathogens occurring at Client facility. Records of such occurrences must be maintained by the Client and accessible to Soliant within guidelines set forth by governing entities. In the event of work-

place injury, incident or exposure, each affected Consultant will contact their immediate Client-appointed supervisor and report to the applicable treating department as per Client protocol. Consultant shall also report work-place injury, incident or exposure to Soliant concurrently with Client for the purpose of reporting such event to Soliant's workers compensation carrier. If Client's reporting requirements change during the term of this Agreement, Client is responsible for written notification of such information to both Soliant and Soliant's Consultant.

16. **Termination of Contracted Assignment with Cause.**
Immediately upon occurrence, Client has the obligation to report each deviation from the accepted standard of practice, policies and procedures as orientated to Consultant, behavior, and or any incident that would be considered adverse to the overall operation of Client. Client may request that Soliant facilitate the immediate removal of Consultant due to any of the issues preceding with written and/or verbal notice. The Client, however, may not immediately terminate a Consultant unless Soliant has been notified prior to final incident or unless a single incident warrants immediate dismissal prior to Soliant's notification. All supporting documentation specifying the reasons and facts of the termination is required within forty-eight (48) hours of termination. If the Client does not report such deviation(s) and subsequently terminates Consultant or if Client does not provide required documentation following a termination within the required timeframe, Client will be assessed as liquidated damages and not as a penalty, an amount equal to one (1) week of billing. The parties agree that Soliant's Consultant s are an integral part of its operation and a resource that may have been developed over a number of years. Any delay or absence of a written and verbal notice could result in lost revenue or other consequences not foreseen at this time and therefore the liquidated damages are not unreasonable to the probable loss to be suffered by Soliant in the event of your breach of this provision. Client will be responsible for all professional fees (and expenses if applicable) up to the point of termination. Termination with cause must be documented prior to termination in accordance with the Incident and Error Tracking procedures set forth in paragraph 14 of this agreement. Soliant shall have five (5) business days to refill the position in the event of termination with cause. Should Soliant identify a suitable Consultant, Client agrees to original terms or extended terms of the terminated Consultant s assignment.

25/46

17. **Termination of Contracted Assignment without Cause.**
Client may cancel an assignment with thirty (30) days written notice. Client is responsible for all charges and fees prior to cancellation date and through the 30-day period of notice. In the event Client is unable to provide thirty (30) days' notice of termination, Client will be billed for thirty (30) days at the agreed upon regular bill rate and minimum hours. In the event of termination without cause, Client will be responsible for any housing and travel costs actually incurred by Soliant as a result of such cancellation.

18. **Guaranteed Minimum Hours.**
Client agrees to provide Consultant the guaranteed number of work hours per week specified in the attached Assignment Confirmation Addendum A. Cancellation of prescheduled workdays or reduction in work hours by Client will be billed reflecting the guaranteed minimum work hours. Minimum work hours shall be reduced to reflect scheduled school closings for holidays and planning days.

19. **Paid Sick Leave.**
For those jurisdictions that have passed or will pass legislation requiring Paid Sick Leave, Paid Sick Time will be billed back to Client at the straight-time bill rate for all hours taken by any Consultant assigned to Client. This section is not applicable until the effective date of such legislation has been reached.

20. **Unscheduled Facility Closure Policy.**
Soliant will incur fixed expenses over the entire course of a Consultant's contract assignment with Client related to the Consultant's housing and per diem costs. The parties agree that in the event of an unforeseen or unexpected interruption in a Consultant's assignment resulting from an unscheduled closure, complete or partial, of Client's facilities due to natural or manmade disasters, such as, and without limiting the generality of the foregoing, fire, storms, flooding, earthquake, labor unrest, riots, and/or acts of terrorism or war (each an "Unscheduled Closure"), Client will transition to virtual services for all Consultants whose services can be performed in such a setting. Client shall be billed for services performed at the regular contracted hourly bill rate for all hours worked by Consultant. Virtual service hours shall be entered and processed according to the normal time submittal and approval process unless otherwise requested by Client and agreed upon by Soliant. Soliant and Client will mutually determine which contracted disciplines qualify for virtual services. For contracted services not eligible for virtual services, Client will be invoiced and shall pay for each such affected Consultant's services at the reduced rate of $200 per day for each day that the Consultant(s) is unable to work by virtue of such Unscheduled Closure.

21. **Multiple Locations.**
If client requires Consultant to travel to and perform services at more than one location, Client will compensate Soliant for travel time between facilities at the regular hourly bill rate and for mileage not to exceed the current acceptable IRS reimbursement rate.

22. **Issue Resolution.**

In the event Client encounters an issue that is not satisfactorily resolved by its Soliant representative, Client should escalate the issue to the appropriate Soliant manager by calling 800-849-5502. Please ask for your account representative's manager.

23. Indemnification.
To the extent permitted by law, each party will indemnify, defend and hold harmless the other against third party claims arising from breaches of the parties' respective obligations under this Agreement.

24. Confidentiality.
Each party acknowledges that as a result of this Agreement, they will learn confidential information of the other party. Confidential information is defined as that information which is private to each party but is shared by one to the other party as required to accomplish this Agreement and **includes bill rates, fees for permanent placements and terms and conditions of this Agreement.** It is agreed that neither party will disclose any confidential information of the other party to any person or entity. Neither will it permit any person nor entity to use said confidential information.

Disclosures required by law including properly executed Freedom of Information Act requests and information shared to the appropriate individuals within the respective organizations as necessary to execute this Agreement, shall be the only exceptions permitted under this Agreement.

Confidential Information of Soliant shall include, but is not limited to, any and all unpublished information owned or controlled by Soliant and/or its employees, that relates to the clinical, technical, marketing, business or financial operations of Soliant and which is not generally disclosed to the public including but not limited to employee information, technical data, policies, financial data and information to include contract terms and provisions, billing rates, permanent placement fees whether disclosed orally, in writing or by inspection. If the receiving party shall attempt to use or dispose of any of the Confidential Information, or any duplication or modification thereof, in any manner contrary to the terms of the foregoing, the disclosing party shall have the right, in addition to such other remedies which may be available to it, to obtain an injunctive relief enjoining such acts or attempts as a court of competent jurisdiction may grant, it being acknowledged that legal remedies are inadequate.

2547

25. Family Education Rights and Privacy Act.
Soliant shall comply with all laws, rules and regulations pursuant to the Family Educational Rights and Privacy Act, 20 USC 1232g ("FERPA") and acknowledges that certain information about the Client's students is contained in records maintained by Soliant and the Consultant and that this information can be confidential by reason of FERPA and related Client policies. Both parties agree to protect these records in accordance with FERPA and Client policy. To the extent permitted by law, nothing contained herein shall be construed as precluding either party from releasing such information to the other so that each can perform its respective responsibilities. As it applies, Consultant s assigned to Client will execute a FERPA Statement of Understanding outlining appropriate guidelines.

26. State Retirement System Notice.
This notice is intended to clarify the manner of payment in contemplation of a Consultant's mandatory or permissive participation in a state teacher retirement system, school employees' retirement system, and/or any similar or successor system applicable to the professionals provided by Soliant. Client acknowledges and agrees that if formal notice is required to be given to any Consultant that participation in any such retirement system/pension is either: 1) permitted by Consultant's election; or 2) is required by law, then Client is solely responsible for providing such notice to Consultant s and fulfilling all associated administrative duties. Client shall immediately notify Soliant if any Consultant is required to, or voluntarily elects to participate in any such system. In such event, Client shall advise Soliant of the withholding obligation percentages (both employer and employee share) so that invoices to Client and payment to the Consultant may be adjusted accordingly. The parties agree that Client shall withhold and pay to the retirement/pension both the employee and employer shares. The parties agree that the applicable employee and employer shares paid to the system by the Client shall be deducted from the amount owed to Soliant by the Client hereunder. The parties agree that the applicable employee share paid to the system by the Client shall be deducted from the amount due the Consultant by Soliant. The Client and Soliant expressly acknowledge and agree that if any Consultant is required to, or elects to participate in a retirement system/pension, the Client shall be solely responsible for: 1) creating an account for Consultant with the appropriate retirement system/pension; 2) all present and/or future obligations to make employee and employer cash payments/ contributions to the retirement system/pension as required by law and/or set by the retirement system/pension; and 3) otherwise administering all employer functions pertaining to the Consultant's interest in retirement system/pension.

27. Conflicts of Interest.
The parties acknowledge their respective obligation to report any conflict of interest and/or apparent conflict of interest that may interfere with their ability to perform their obligations hereunder objectively and effectively. To that end, the Parties hereby certify and represent that their officials, employees and agents do not have any significant financial or other pecuniary interest in the other party's business enterprise, and that no inducements of monetary or other value were offered or given to any officer, employee or agent of the other party. Each party agrees to promptly notify the other in the event it becomes aware of any conflict of interest or apparent conflict of interest.

28. Survival.

The parties' obligations under this Agreement which by their nature continue beyond termination, cancellation or expiration of this Agreement, shall survive termination, cancellation or expiration of this Agreement.

29. **Governing Law.**
This Agreement shall be governed by the laws of the state of Delaware.

30. **Notices.**
All notices required to be given in writing will be sent to the names/addresses listed below.

Soliant Health LLC	***To Client***
Contract Department 5550 Peachtree Parkway Suite 500 Peachtree Corners, GA 30092 ContractDepartment@soliant.com	Attention: Jackson County School District Address: 4700 Colonel Vickrey Rd., Vancleave, MS 39565

31. **Modification of Agreement.**
This Agreement may not be modified, amended, suspended, or waived, except by the mutual written agreement of the Parties who are authorized to execute the agreement.

2548

32. **Entire Agreement.**
This Agreement represents the entire agreement between the parties and supersedes any prior understandings or agreements whether written or oral between the parties respecting the subject matter herein. This Agreement may only be amended in a writing specifically referencing this provision and executed by both parties. This Agreement shall inure to the benefit of and shall be binding upon the parties hereto and their respective heirs, personal representatives, successors and assigns, subject to the limitations contained herein. The unenforceability, invalidity or illegality of any provision of this Agreement shall not render any other provision unenforceable, invalid or illegal and shall be subject to reformation to the extent possible to best express the original intent of the parties. This Agreement and attached Assignment Confirmation contain terms that may only be altered when agreed upon in writing by both parties.

COLLABORATIVE AGREEMENT BETWEEN

JACKSON COUNTY SCHOOL DISTRICT
AND
MILLCREEK SCHOOLS, LLC.

This agreement is between Jackson County School District and Millcreek School of Magee for the period of **August 2, 2023 through the end of Extended School Year, summer 2024.**

I. PURPOSE STATEMENT

The purpose of this agreement is to establish working procedures between ***The Jackson County School District (District)*** and ***Millcreek Schools, LLC (Facility)*** for the provision of services to children eligible for special education in compliance with Federal and Mississippi State Laws and Regulations.

2550

It is the intent of this Agreement to:

1. Define which service(s) will be provided by each Agency.

2. Ensure that children eligible for special education services receive a free and appropriate public education, as required by law, in the least restrictive environment.

3. Ensure that each Agency cooperatively maintains communication and shares leadership responsibilities at the local level to ensure that available resources are utilized in the most effective manner.

4. Ensure that cooperative arrangements between District and the facility are developed, implemented and preserved.

   This agreement applies to children ages six through twenty-one (6-21) who are eligible for special education services and to all other children enrolled in Millcreek School of Magee.

II. PROGRAM MANDATES

Responsibility of School District:

1. Provide services to children with disabilities on a mandatory basis following the Individual with Disabilities Act Amendments of July 1, 2004 (IDEA 04).

2. Provide children with disabilities ages six through twenty-one (6-21) a free appropriate public education (FAPE) including the development and implementation of the Individualized Education Program (IEP) procedural safeguards and the provision of related services, as deemed necessary.

3. Place children with disabilities in their least restrictive environment with an opportunity to interact with nondisabled peers to the maximum extent appropriate.

4. Work with appropriate community agencies to provide services to children with disabilities ages six through twenty-one (6-21).

Responsibility of Millcreek School of Magee:

1. Enroll and provide educational services to those students meeting entrance/admission requirements.

2. Provide assessment and evaluation of all enrolled children, establishing base-line data and identifying potential problems in all suspected areas.

3. Maintain communication with the previous educational provider securing the information necessary to ensure a global picture of the child's strengths and weaknesses

4. Work together with the referring agency to ensure children who are identified to be at risk receive the appropriate professional support and diagnostic evaluation.

5. Develop and implement Individual Education Plans (IEPs) for children with disabilities coordinating closely with the parent/guardian and referring school district.

6. Work closely with other community agencies as appropriate for each individual disabled child in order to provide strong transition/discharge.

III. PROGRAM DESCRIPTION

1. The Jackson County School District is a public-school district that provides special education services to individuals with disabilities. The District will provide these services to students whose IEP Committee has determined Jackson County School District setting to be their Least Restrictive Environment.

2. Millcreek School of Magee is a private facility, recognized by the Mississippi Department of Education as an approved Educable Child placement facility. Students served at this facility are referred by public school districts, The Department of Child Protective Services (DCPS), and parents.

IV. SERVICE IMPLEMENTATION

1. CHILD FIND/SCREENING

Jackson County School District will:

(a) Adhere to State/Federal Regulations in locating and identifying children with disabilities from birth to twenty-one (0-21) within their jurisdiction

(b) Issue Child Find releases; and

(c) Distribute Individual Child Find flyers.

Millcreek School of Magee will:

(a) Comply with Mississippi Department of Education regulations in conducting Child Find activities;

(b) Conduct agency needs assessments;

(c) Contact community agencies serving children with disabilities with referrals:

(d) Screen areas as noted:

1) Obtain signed Release of Information Form(s):

2) Obtain information from the previous education setting related to the functioning of the child;

3) Complete physical observation forms, as needed, by the District:

4) Complete hearing/vision:

5) Screen all areas of suspected problems through procedures set forth by the Mississippi Department of Education.

6) Complete a referral checklist with accompanying data collection as specified by the District; and

7) Participate in meetings with the District to determine the need for referral for possible evaluation for special education services.

2. REFERRAL FOR EVALUATION

Jackson County School District will:

(a) Ensure appropriate procedures and data collection requirements as mandated by the Mississippi Department of Education are followed.

Millcreek School of Magee will:

(a) Send Notice of Invitation to Committee meeting and Prior Written Notice (PWN) for Initial Evaluation and cover letter parent/guardian explaining cooperative agreement between the District and the Facility.

(b) Ensure a complete history of referral information/data has been collected on child being considered for referral for evaluation and assist in additional data collection, as deemed necessary, and

(c) Contact and obtain information regarding the child's functioning in the previous educational setting prior to the meeting to consider referral for evaluation:

(d) Inform facility staff that District has access to files referred for evaluation with parental and guardian approval; and

(c) Collect data as requested by the District and send a copy of this data to the District, including screening instruments/ documentation of suspected problem areas, physical observation and hearing/vision form and/or other screening information as requested and collected.

3. COMPREHENSIVE ASSESSMENT

Jackson County School District will:

(a) Establish and coordinate evaluation timelines; and

(b) Participate in meetings to determine data collection needs and determination of eligibility for children referred from the facility as deemed necessary by the District.

Millcreek of Magee will:

(a) Collect the data for Step B/curriculum-based assessment of functioning based on general education curriculums.

(b) Complete the data for Step C/administration of standardized assessment as warranted for the disability category:

4. INDIVIDUALIZED EDUCATION PROGRAM DEVELOPMENT

Millcreek of Magee will:

(a) Coordinate IEP paperwork and meetings:

(b) Send the Notice of Invitation for the Committee Meeting and Prior Written Notice (PWN) for Initial Placement;

2553

(c) Write IEP goals and objectives in cooperation with District personnel

(d) Determine with District personnel the time and place of IEP meeting;

(e) Assure participation of appropriate Facility/School District staff as part of the IEP Committee; and

(f) Obtain parental permission to place the child in special education services and coordinate the implementation of the IEP

(g) Supply information needed regarding District services for IEP goals and objectives; and

(h) Facilitate the active involvement of District personnel by ensuring strong communication and s working together during this process.

5. PLACEMENT

District will:

(a) Consider for services at school sites within the District all children who reside within the jurisdiction of District if the child's Least Restrictive Environment as determined by the IEP Committee is Hancock County Public Schools.

(b) Coordinate efforts to place a child with disabilities in the Least Restrictive Environment considering every opportunity to interact with non-disabled peers as appropriate;

Facility will:

(a) Provide services for children with disabilities whose IEP Committee has determined the least restrictive environment to be Millcreek School of Magee.

(b) Provide services for parent placed children as deemed appropriate by the IEP Committee. Jackson County School District may or may not be involved in the placement. Whether Jackson County School District is involved in the placement or is not involved, Millcreek of Magee will inform Jackson County School District of the parent placement...

6. SPECIFIC PROGRAM SERVICE DELIVERY

Jackson County School District will:

(a) Ensure appropriate personnel are located at school sites to provide special education and related services to those children who will be receiving services at this placement including speech and language services; and

Millcreek of Magee will:

(a) Coordinate communication between districts and Millcreek of Magee personnel to ensure services as outlined in the IEP are provided.

(b) Provide transportation and/or other arrangements to ensure the child is present at school for the provision of IEP services;

2554

(c) Cooperate in communication efforts with the district and Millcreek of Magee personnel to ensure services as outlined in the IEP are provided

(d) **For those children enrolled at Millcreek of Magee by Jackson County Public School District, the daily rate will be $179.32 for the 2023-2024 school year. If transportation is to be provided by Millcreek of Magee it will be calculated per student at $80.00 per day. If the IEP Committee determines a 1:1 is required, an additional $100.00 a day will be added.**
Millcreek is required to provide services for all our residents. Educational services are part of this component. All residential students are required to follow Millcreek's school year and ESY calendars. Billing will reflect these dates.

7. PROCEDURES FOR REVIEW/MONITORING CHILD'S PROGRESS

The Jackson County School District will:

(a) Coordinate procedures for implementation of IEP requirements as set forth in regulations of the Mississippi Department of Education.

(b) Coordinate IEP review meetings; and

(c) Ensure needed reevaluation for special education services.

Millcreek School of Magee will:

(a) Ensure Facility Personnel will complete reports of progress related to IEP requirements as set forth in regulations of the Mississippi Department of Education;

(b) Participate in IEP reviews meetings; and

(c) Participate and collect data as needed for reevaluation for special education services;

(d) Coordinate needed reevaluation for special education services.

V. CONFIDENTIALITY

The District and Facility shall follow the requirements outlined in the Family Education Rights and Privacy Act (FERPA) and the Individuals with Disabilities Education Act Amendments of 2004 (IDEA 04).

VI. TRAINING AND TECHNICAL ASSISTANCE

The Jackson County School District and Millcreek School of Magee will:

(a) Develop a system of staff needs assessment in the area of training:

(b) Coordinate training calendars; and

(b) Train staff regarding regulations and philosophy of provision of special education services

.

2555

VII. COUNTING AND REPORTING

The Jackson County School District will:

(a) Coordinate a system so that timelines and persons responsible for reporting are clear.

Millcreek of Magee will:

(a) Monitor staff regarding implementation of specific procedures and regulations as set forth by the Mississippi Department of Education.

VIII. TRANSITION

The Jackson County School District will:

(a) Develop a process for sharing information and data collected between Agencies:

(b) Coordinate in district services for those students who will be receiving additional services at school sites based on IEP Committee decisions; and

(c) Notify district personnel of changes in IEP services based on IEP Committee decisions.

Millcreek of Magee will:

(a) Begin discharge and transition planning back to the District at the time of admission and be coordinated throughout the child's stay at the Facility with the District.

(b) Release aftercare information in a timely manner to facilitate a smooth transition for the child from the Facility setting to the District setting on a full-time basis;

(c) Notify the District in a timely manner of any events that have occurred in the Facility that would impact services provided in the District setting; and

(d) Maintain open lines of communication to ensure a smooth transition for the child from the Facility setting to the District setting.

From: Dr. Jerry J. Morgan
CTE Director
Jackson County Technology Center

We have an exciting opportunity in Jackson County for Career and Technical Education beginning 2nd Semester in the 2023-2024 school year. The Pascagoula-Gautier School District has offered to include our students in a 3rd year Medical Program/Work Based Learning program. They are offering 3 slots to our St. Martin High School Medical Class in the Spring. This would allow seniors to have CNA and Phlebotomy training in high school. We tried this before Covid with Singing River Health Systems. The students will drive to Pascagoula to participate much like the Maritime Program currently at Ingalls Shipbuilding. This will be a pilot year and if successful, slots will open in the future for East Central and Vancleave students.

I am asking for your approval and to be included on the School Board Agenda in the October 16, 2023 meeting of the Jackson County Board of Trustees. Attaching is the Agreement with the Pascagoula-Gautier School District.

BRIDGE ACADEMIES
PASCAGOULA-GAUTIER SCHOOL DISTRICT

MEMORANDUM OF AGREEMENT

Re: Pascagoula - Gautier School District & Jackson County Schools

In-School Agreement: The following constitutes a Memorandum of Agreement ("Agreement") between Pascagoula Gautier School District and Jackson County Schools (Collectively "The Parties"). This agreement reflects a clear and concise understanding of the need for advanced career and technical education training for Health Science students in Jackson County, (CNA and Phlebotomy Certification Training), and the responsibilities of each party for the development, implementation, and operation of the program. 2559

Summary of the Justification of the need for Program: To meet the needs of local healthcare facilities and to prepare and help train a highly skilled and motivated entry level workforce. Singing River Health System recognizes the need for strong career and technical training programs and a workforce development program. This program will accomplish this training and is designed to expose Health Science students various high skilled and high wage in the following areas:

Certified Nurse Aide
Phlebotomy

Operation and Location of Training: The parties understand and agree that the lecture for both Certified Nurse Aide and Phlebotomy courses will be taught by Mrs. Jenne King at the CCTI, 2602 Market Street, Pascagoula, MS 39567. The lecture will begin promptly at 1230 on the designated days, and will be completed by 1530. The clinical hours will be obtained through the Health Plex and various Singing River Health System Medical Clinics. The designated times will be 1230-1630 on scheduled days. Attendance each week, both lecture and clinical, is mandatory and absences will be nonnegotiable. The student must provide his or her own transportation to and from lecture and clinical sites. Excessive unexcused absences will result in removal from the program (Any Fees paid up to that point are non-refundable, any remaining fees will be waived).

Obligations and agreement of the parties involved for the development, implementation, and operation of the Certified Nurse Aide and Phlebotomy programs: PGSD will allow the students of JCSD to participate in the above mentioned courses. Derek Read, Career Academy Director for PGSD, Jenne King, instructor for CCTI, and Kim Hunt, instructor with Workforce Development, will serve as primary

points of contact for the students involved, and will provide supervision, coordination of schedules, and implementation of the course requirements.

Additional Terms: Each student of JCSD will be solely responsible for his/her cost of the program. Costs include, but are not limited to, TB testing, drug screening, background checks, practice exams, National Certification exams, and program patches displayed on scrubs while attending clinical. A fee sheet will be provided for all participants.

SIGNATURES OF THE PARTIES:

The Parties agree with and understand their obligations under this In-School Branch Agreement. It is understood by the Parties that this Agreement is a binding contract and any deviation from this Agreement without a mutually-approved modification in writing may void or terminate this contract. This document serves as the initial agreement and desire to move forward with detailed plans for the Certified Nurse Aide and Phlebotomy programs. The Parties are not bound by any other statements, representations or understandings, whether written or oral, not set forth in this document.

Mississippi Office of Homeland Security
State and Local Cybersecurity Grant Program
Interest Survey and Memorandum of Understanding

As part of the State and Local Cybersecurity Grant Program (SLCGP), the Mississippi Office of Homeland Security (MOHS) is conducting a survey to determine the interests and needs of the eligible populations toward cybersecurity. Attached is an Interest Survey to participate in the program, as well Memorandum of Understanding (MOU) that will allow for the State and the MOHS to retain grant funds for the FY22 SLCGP. Funds retained from the award will provide a statewide needs and readiness assessment to determine gaps, vulnerabilities, and capabilities of local jurisdictions, with an emphasis in rural jurisdictions.

According to the Federal Emergency Management, local jurisdictions are defined as county, municipality, city, town, township, local public authority, school district, special district, intrastate district, council of governments (regardless of whether the council of governments is incorporated as a nonprofit corporation under State law), regional or interstate government entity, or agency or instrumentality of a local government; an Indian tribe or authorized tribal organization, or in Alaska a Native village or Alaska Regional Native Corporation; and a rural community, unincorporated town or village, or other public entity.

Interest Survey: The survey is designed to collect information from local government entities who are eligible to participate in the State and Local Cybersecurity Grant Program (SLCGP). This participation survey may include receiving state provided services, programming, and funding with the future year(s) of the SLCGP funding opportunities.

The survey is an assessment, designed to ascertain a local entity's interest and potential need for cybersecurity services outlined through the grant period of performance ending August 31, 2026. Information regarding the grant's requirements can be found on the Mississippi Office of Homeland Security Cybersecurity webpage at: https://www.homelandsecurity.ms.gov/grants/homeland-security-state-and-local-cybersecurity-grant-program-slcgp

A local government entity's participation in this survey signals an interest and an intention to participate in the SLCGP. Participation in the survey and needs assessment will be used to understand and prioritize the use of awarded funds, but survey participation does not guarantee funding will be available to meet the needs for all submissions.

Memorandum of Understanding: The attached MOU is a document signed by the local jurisdiction to support the MOU in the retention of grant award funds for the purpose of providing the state, local, and rural jurisdictions with a readiness assessment for the evaluation of gaps, vulnerabilities, and capabilities. Data provided from the assessments will provide a path forward toward securing local jurisdictions into more secure cybersecurity postures.

Please return both the Interest Survey and the MOU to the following email address, to be part of this program. If you have any questions regarding the survey, please contact mohsgrants@dps.ms.gov

REQUEST FOR PROPOSAL

TECHNICAL SERVICES AGREEMENT

JACKSON COUNTY SCHOOL DISTRICT

2567

REQUEST FOR PROPOSALS
Technical Services Agreement

The Jackson County School District is accepting proposals for **Technical Services Agreement** until **2:00 p.m. on December 6, 2023**. The proposals will be opened at the Jackson County Board of Education (4700 Col. Vickrey Rd, Vancleave, MS 39565) at 2:15 pm on December 6, 2023.

All proposals submitted after the 2PM deadline will not be considered and destroyed following the bid opening.

Proposals should be labeled:
Technical Services Agreement

Proposals may be submitted to:

Jackson County School District

Attention: Ryan Earley, Business Manager
4701 Col. Vickrey Rd
Vancleave, MS 39565
Telephone: (228) 826-4842
Fax: (228) 826-3871

The Jackson County School District reserves the right to reject any and/or all bids or any parts thereof, to waive any informality in any bid, to require a modification of the contract terms at any time, and to select the bidder who, in the opinion of the School District, will meet the best interests of the School District, provided that nothing herein shall be deemed to waive any requirement of federal, state or local law. Under no circumstances will the School District be responsible for the cost of preparing any bid.

General Instructions:

Proposals are to be:

* Submitted in duplicate unless otherwise indicated in the specifications
* For submissions made online they must contain all the documents listed below and be in a similar format
* Each copy must be bound in a one inch three ring binder
* Submitted using the blank proposal forms furnished.
* Submitted in a sealed opaque envelope utilizing the enclosed label, with the bidder's name and address in the upper left-hand corner.
* Made out and signed in the corporate, or other, name of bidder. In addition, an authorized person must fully and properly execute the bid.
* Sections of the Binder in the order Listed:
    1. The provided printed spreadsheet completed in excel with vendor pricing
    2. Required forms from this packet
    3. Description of services provided

Proposals received later than the time and date specified will not be considered.

Amendments to or withdrawal of proposals received later than the time and date set for the opening will not be considered.

Bidders or their representatives may be present at the bid opening.

The Jackson County School District may require further information and references on any individual or company placing a bid prior to the awarding of a bid.

The School Board reserves the right to amend and/or cancel the bid invitation prior to the time and date of the bid opening.

The School Board reserves the right to correct an award erroneously made as a result of a clerical error on the part of the Jackson County School District.

SPECIFICATIONS

For

Technical Services Agreement

Scope of Work:

This agreement will be from October 1, 2024, through June 30, 2029 (4 years and 9 months)

Introduction

Jackson County School District consists of three attendance centers: St. Martin, Vancleave, and East Central. St. Martin has two lower elementary schools, one upper elementary, on middle school and one high school. Vancleave and East Central each have a lower elementary, an upper elementary, a middle school, and a high school, a District Office, a career education site, and a FabLab site. At each of these schools there may be multiple buildings and multiple floors per building.

District Office (DO):
Jackson County Board of Education
4700 Col. Vickrey Rd
Vancleave, MS 39565

Quote request for on-site technical services. Please note that all positions are expected to be on-site. Remote or off-site services will not be entertained.

The district uses Office 365 and Google Education and is standardized on Cisco, Lenovo and Dell Desktops, a mixture Dell, HP and Lenovo notebooks running Windows 10 or ChromeOS.

The district is seeking proposals for providing seven on-site technicians with the following duties:

- Installing new computers
- Imaging/reimaging existing computers
- End user support of computers and software (Office products, Online Curriculum products, ActiveInspire, and others)
- Installation of printers and other peripherals
- Reconfiguration of existing smartboards and peripherals
- Configuration of computers with appropriate copiers
- Assist with security cameras, phone systems, network components when other resources are not available.
- Assist with Inventory and computer updates.
- Assist with Wireless networks when necessary.

We are seeking one on-site network technician with the following duties:

- Troubleshoot problems to determine hardware problems in a wide variety of systems, including but not limited to wireless networks wide area networks, local area networks, phones, phone servers, surveillance systems, and components as well as other technologies.
- Assist network administrator in all aspects of the infrastructure side of the department.
- Assist IT Servicing as needed.

We are seeking one on-site IT Manager that will perform the following duties:

- Trouble shooting issues associated with networking, pc repair, VoIP, as well as project management skills.

- Manage the helpdesk.
- Provide a direct point of contact with the principals and maintain excellent customer service.
- Manage the technicians and provide parts orders in a timely manner.
- Work with the District Test Coordinator to ensure all equipment is ready and suitable for state testing.
- Creating and maintaining all documentation relating to customer service issues.

We are seeking a Network Administrator

- Troubleshoot problems to determine hardware problems in a wide variety of systems, including but not limited to wireless networks wide area networks, local area networks, phones, phone servers, surveillance systems, and components as well as other technologies.
- Keep on hand inventory of essential parts as needed for maintenance and repairs.
- Fabricate components as needed such cabling, servers, housings, etc.
- Schedule summer preventive maintenance and projects with technology leadership.
- Install new wireless access points, switches, routers, phones, phone servers, surveillance systems, cameras, cabling, as well as other technologies used in conjunction with these systems.
- Design networks and maintain best practices.
- Maintain the district DNS and DHCP services.
- Manage all networking, surveillance, access control, phone and wireless projects.
- Perform any other duties as directed or assigned.

We are seeking one Technical Services Director:

- Oversee all aspects of the operational side of the IT department.
- Assist the IT Director in administration duties for the department.
- Experience in implementing networks, operating systems, software and peripherals.
- Experience in administrative data function.
- Knowledge of application of technology in the teaching process and instructional television as well as instructional computing.
- Ability to effectively communicate, orally and in writing.
- Ability to function on an advanced technical level with equipment representatives and software programmer/designers to include the writing of hardware and network specifications.
- Ability to effectively instruct personnel in the use of technology.
- Ability to troubleshoot hardware and software malfunctions and identify appropriate maintenance requirements.
- Engage in professional development activities to maintain up-to-date knowledge and skills in all areas of job responsibilities to include the obtaining of applicable certifications as new technologies evolve.
- Establish security and anti-virus systems for all networked and stand-alone computer units.
- Serve as contact person for inquiries on educational technology and technology planning.
- Perform such other duties specified in the job description for the computer technician and duties assigned by appropriate authority.

Total positions:

- 7 – IT Technicians
- 1 – Network Technician
- 1 – IT Manager
- 1 – Network Administrator
- 1 – Technical Services Administrator

All positions would be considered Full-Time. The district will allow up to ten absences for any one

position per year in addition to the normal holidays for the district. Any time in addition to the ten days for any one technician would be credited back to the district. The district would insist on being involved in choosing the best candidate for the manager/administrator/director position. Certifications for the manager/administrator/director position in areas such as project management, networking, and general PC repair are beneficial as are advanced degrees. At least an associate degree from an accredited college or university is required for the manager/administrator positions.

The district will pay for mileage for intra-attendance center travel.

The Technical Services Director, IT Manager, and Network Administrator will need to be able to have professional development (certification training) as well as attend 1 regional and 1 national conference. The expenses for these are to be invoiced at cost to the district. All positions will require cell phones. This will need to be paid for through the contract.

Contact: For any questions regarding specifications, please contact via email: TSA2024rfp-2@jcsd.ms (Chris Collins)

GENERAL TERMS AND CONDITIONS

All bids are subject to the General Terms and Conditions, Bid Specifications and Contract Proposal as provided.

Price: Bid prices will include delivery, F.O.B. destination, without extra compensation.

Taxes: The Jackson County School District is exempt from the payment of the Excise Taxes imposed by the Federal Government, and the Sales and Use Tax of the State of Mississippi. Such taxes should not be included in the bid price. Exemption certificates will be furnished to the successful bidder.

Award: The School Board reserves the right to make an award which, in her judgment and recommendation from the department, following bid evaluations; best meets the specifications and is deemed in the best interest of The School District. The School District reserves the right to increase or decrease all quantities indicated in this bid.

The School Board further reserves the right to reject any or all bids, in whole or in part; to award any item, group of items or total bid unless otherwise specified by the bidder, and to waive informality or technical defects, if, in his judgment, the best interests of the Jackson County School District will be so served.

Price Discrepancies:
In the event there is a discrepancy between the unit price and extended price the unit price will prevail.

In the event there is a discrepancy between the written price and numeric price the written price will prevail.

Laws: All deliveries shall comply in every respect with all applicable laws of the Federal Government and/or the State of Mississippi.

Permits:
It is the responsibility of the successful bidder to obtain all Federal, State and local permits when needed.

Hold Harmless & Indemnification Agreement:
The bidder assumes full responsibility for its negligent acts, errors or omissions and agrees to hold harmless and indemnify The Jackson County School District, its agents and servants, from and against any and all claims, suits, damages, costs, losses and expenses resulting from such negligent acts, errors or omissions while conducting activities associated with this bid.

Additionally, the bidder acknowledges and agrees that the Jackson County School district in accordance with state law may not offer indemnification. Therefore, any such language on purchasing agreements shall be considered void.

Payment:
To Prime Contractor: a.) Invoices for items ordered, delivered and accepted shall be submitted by the contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations). b.) Any payment terms requiring payment in less than 45 days will be regarded as requiring payment 45 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 45 days, however. c.) All goods or services provided under this

contract or purchase order, that are to be paid for with public funds, shall be billed by the contractor at the contract price, regardless of which public agency is being billed. d.) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized. e.) Unreasonable Charges. Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed.

Availability of Funds

It is understood and agreed between the parties herein that the agency shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement

Non-Collusive Bid Statement:

The bidder, being fully informed regarding the accuracy of the statements made herein, certifies that:

a. The bid has been arrived at by the bidder independently and has submitted without collusion with, and without any agreement, understanding, or planned common course of action with, any other vendor of materials, supplies, equipment, or services described in the invitation to bid, designed to limit independent bidding or competition, and,

b. The contents of the bid have not been communicated by the bidder or its employees or agents to any person not an employee or agent of the bidder or its surety on any bond furnished with the bid, and will not be communicated to any such person prior to the official opening of the bid.

The bidder further certifies that this statement is executed for the purposes of inducing The Jackson County School District to consider the bid and make an award in accordance therewith.

Non Discrimination Clause:

The Contractor hereby agrees that neither he nor his subcontractors will refuse to hire or employ or to bar or to discharge from employment an individual or to discriminate against him in compensation or in terms, conditions or privilege of employment because of race, color, religious creed age, sex, national origin or ancestry, except in the case of bona fide occupational qualification or need.

Safety Standards:

All contractors and their employees, agents and subcontractors are required to comply with all EPA, NFPA and OSHA safety standards at all times while working on site. The Contractor and employees, agents and subcontractors found to be in non-compliance may be removed from the work site, as well as subject to forfeiture of payment and/or contract termination. The School District reserves the right to inspect the work site at any time for safety compliance.

Debarment:

The Purchasing office reviews any bid being considered to assure that neither the contractor nor any subcontractor being utilized is subject to state or federal debarment based on published debarment lists.

Liability Insurance (If Applicable):

The General Terms and Conditions require the bidder awarded the contract to maintain in force during the performance of the work policies of worker's compensation insurance, employer's liability, bodily injury liability and property damage insurance covering the operations of the contractor and the use of all motor vehicles employed by the contractor. A certificate of insurance evidencing this fact that the contractor has secured the required insurance shall be filed with the Jackson County School District at the time of the execution of this contract. **It is further required that the Jackson County School District be named as an additional insured**. This should be shown under the description of operations portion of the certificate of insurance. All certificates should also indicate a notice of cancellation complying with state statute.

Minimum Requirements for Certificate of Insurance

A. Commercial General Liability
   - General Aggregate: $ 2,000,000.00
   - Product/Completed Operations Aggregate: $ 1,000,000.00
   - Occurrence Aggregate: $ 1,000,000.00

B. Automobile Liability
   - Liability Limit: $ 1,000,000.00

C. Excess (Umbrella Liability) Liability
   - The requirement that an umbrella policy be provided will depend on a case-by-case evaluation. Your exposure to catastrophic loss arising from the work or service being performed will determine the limit required.

D. Worker's Compensation & Employers Liability
   - Per Mississippi Statutes

Performance Bond (If new construction is to be performed):
Contractor shall supply a Performance Bond and Labor and Material Payment bond in the amount of 100% of the value of the contract for each bond. Include a certified and current copy of the power of attorney for the attorney–in–fact who executes the bonds.

Stipulations:
A contract issued as the result of a bid shall not be considered exclusive. The Jackson County School District reserves the right to contract with other vendors for similar services when deemed appropriate.

The Jackson County School District maintains the right to withhold payment for unsatisfactory materials and/or workmanship until such time that the defect is corrected. If the defect is not satisfactorily repaired within 60 days, the Jackson County School District may elect to have the repair made by an alternate vendor and subtract the cost from the contractor's invoice. The Jackson County School District also reserves the right to deduct from the vendor's billing any costs incurred as a result of inferior or unsatisfactory materials and/or workmanship.

The Jackson County School District reserves the right to cancel the contract at any time with no cost to the district. If the cancellation is for inadequate performance, then the cancellation shall be immediate. If the cancellation is for budgetary considerations or is based upon the discretionary right of the Jackson County School District then the cancellation shall be upon thirty (30) days written notice.

The Jackson County School District reserves the right not to award the continuation of a multiple year bid. The award of each year's contract is contingent upon adoption and approval of budgetary funds for this purpose.

CONTRACTOR INDEMNIFICATION

The Contractor shall at all times indemnify and save harmless the Jackson County School District (JCSD) and its officers, agents, and/or employees against any and all claims, demands, damages, losses, judgments, costs, worker's compensation payments, litigation expenses and counsel fees arising out of injuries to the person (including death) or damage to property alleged to have been sustained by:

a. officials, officers, agents and/or employees of the JCSD or;

b. the contractor, his subcontractors or material men or;

c. any other person, whose injuries are alleged to have occurred on or near the work or to have been caused in whole or in part by the acts, omissions or neglect of the Contractor or his sub-contractor or material men by reason of his or their use of faulty defective or unsuitable work.

The existence of insurance shall in no way limit the scope of this indemnification. The Contractor further undertakes to reimburse the JCSD for damage to property of the JCSD caused by the Contractor, or his employees, agents, subcontractors or material men or by faulty, defective or unsuitable material or equipment used by him or them.

The Contractor further acknowledges that Jackson County School District cannot and does not offer indemnification. Any such language on purchasing or billing documents of the contractor will be disregarded.

SPECIFICATIONS

For

Technical Services Agreement

Scope of Work:

This agreement will be from March 1, 2024, through September 30, 2024 (7 months/ESSER Funded)

Introduction

Jackson County School District consists of three attendance centers: St. Martin, Vancleave, and East Central. St. Martin has two lower elementary schools, one upper elementary, on middle school and one high school. Vancleave and East Central each have a lower elementary, an upper elementary, a middle school, and a high school, a District Office, a career education site, and a FabLab site. At each of these schools there may be multiple buildings and multiple floors per building.

District Office (DO):
Jackson County Board of Education
4700 Col. Vickrey Rd
Vancleave, MS 39565

Quote request for on-site technical services. Please note that all positions are expected to be on-site. Remote or off-site services will not be entertained.

The district uses Office 365 and Google Education and is standardized on Cisco, Lenovo and Dell Desktops, a mixture Dell, HP and Lenovo notebooks running Windows 10 or ChromeOS.

The district is seeking proposals for providing seven on-site technicians with the following duties:

- Installing new computers
- Imaging/reimaging existing computers
- End user support of computers and software (Office products, Online Curriculum products, ActiveInspire, and others)
- Installation of printers and other peripherals
- Reconfiguration of existing smartboards and peripherals
- Configuration of computers with appropriate copiers
- Assist with security cameras, phone systems, network components when other resources are not available.
- Assist with Inventory and computer updates.
- Assist with Wireless networks when necessary.

We are seeking one on-site network technician with the following duties:

- Troubleshoot problems to determine hardware problems in a wide variety of systems, including but not limited to wireless networks wide area networks, local area networks, phones, phone servers, surveillance systems, and components as well as other technologies.
- Assist network administrator in all aspects of the infrastructure side of the department.
- Assist IT Servicing as needed.

We are seeking one on-site IT Manager that will perform the following duties:

- Trouble shooting issues associated with networking, pc repair, VoIP, as well as project management skills.

- Manage the helpdesk.
- Provide a direct point of contact with the principals and maintain excellent customer service.
- Manage the technicians and provide parts orders in a timely manner.
- Work with the District Test Coordinator to ensure all equipment is ready and suitable for state testing.
- Creating and maintaining all documentation relating to customer service issues.

We are seeking a Network Administrator

- Troubleshoot problems to determine hardware problems in a wide variety of systems, including but not limited to wireless networks wide area networks, local area networks, phones, phone servers, surveillance systems, and components as well as other technologies.
- Keep on hand inventory of essential parts as needed for maintenance and repairs.
- Fabricate components as needed such cabling, servers, housings, etc.
- Schedule summer preventive maintenance and projects with technology leadership.
- Install new wireless access points, switches, routers, phones, phone servers, surveillance systems, cameras, cabling, as well as other technologies used in conjunction with these systems.
- Design networks and maintain best practices.
- Maintain the district DNS and DHCP services.
- Manage all networking, surveillance, access control, phone and wireless projects.
- Perform any other duties as directed or assigned.

We are seeking one Technical Services Director:

- Oversee all aspects of the operational side of the IT department.
- Assist the IT Director in administration duties for the department.
- Experience in implementing networks, operating systems, software and peripherals.
- Experience in administrative data function.
- Knowledge of application of technology in the teaching process and instructional television as well as instructional computing.
- Ability to effectively communicate, orally and in writing.
- Ability to function on an advanced technical level with equipment representatives and software programmer/designers to include the writing of hardware and network specifications.
- Ability to effectively instruct personnel in the use of technology.
- Ability to troubleshoot hardware and software malfunctions and identify appropriate maintenance requirements.
- Engage in professional development activities to maintain up-to-date knowledge and skills in all areas of job responsibilities to include the obtaining of applicable certifications as new technologies evolve.
- Establish security and anti-virus systems for all networked and stand-alone computer units.
- Serve as contact person for inquiries on educational technology and technology planning.
- Perform such other duties specified in the job description for the computer technician and duties assigned by appropriate authority.

Total positions:

- 7 – IT Technicians
- 1 – Network Technician
- 1 – IT Manager
- 1 – Network Administrator
- 1 – Technical Services Administrator

All positions would be considered Full-Time. The district will allow up to ten absences for any one

position per year in addition to the normal holidays for the district. Any time in addition to the ten days for any one technician would be credited back to the district. The district would insist on being involved in choosing the best candidate for the manager/administrator/director position. Certifications for the manager/administrator/director position in areas such as project management, networking, and general PC repair are beneficial as are advanced degrees. At least an associate degree from an accredited college or university is required for the manager/administrator positions.

The district will pay for mileage for intra-attendance center travel.

The Technical Services Director, IT Manager, and Network Administrator will need to be able to have professional development (certification training) as well as attend 1 regional and 1 national conference. The expenses for these are to be invoiced at cost to the district. All positions will require cell phones. This will need to be paid for through the contract.

Contact: For any questions regarding specifications, please contact via email: TSA2024rfp-1@jcsd.ms (Chris Collins)

GENERAL TERMS AND CONDITIONS

All bids are subject to the General Terms and Conditions, Bid Specifications and Contract Proposal as provided.

Price: Bid prices will include delivery, F.O.B. destination, without extra compensation.

Taxes: The Jackson County School District is exempt from the payment of the Excise Taxes imposed by the Federal Government, and the Sales and Use Tax of the State of Mississippi. Such taxes should not be included in the bid price. Exemption certificates will be furnished to the successful bidder.

Award: The School Board reserves the right to make an award which, in her judgment and recommendation from the department, following bid evaluations; best meets the specifications and is deemed in the best interest of The School District. The School District reserves the right to increase or decrease all quantities indicated in this bid.

The School Board further reserves the right to reject any or all bids, in whole or in part; to award any item, group of items or total bid unless otherwise specified by the bidder, and to waive informality or technical defects, if, in his judgment, the best interests of the Jackson County School District will be so served.

Price Discrepancies:
In the event there is a discrepancy between the unit price and extended price the unit price will prevail.

In the event there is a discrepancy between the written price and numeric price the written price will prevail.

Laws: All deliveries shall comply in every respect with all applicable laws of the Federal Government and/or the State of Mississippi.

Permits:
It is the responsibility of the successful bidder to obtain all Federal, State and local permits when needed.

Hold Harmless & Indemnification Agreement:
The bidder assumes full responsibility for its negligent acts, errors or omissions and agrees to hold harmless and indemnify The Jackson County School District, its agents and servants, from and against any and all claims, suits, damages, costs, losses and expenses resulting from such negligent acts, errors or omissions while conducting activities associated with this bid.

Additionally, the bidder acknowledges and agrees that the Jackson County School district in accordance with state law may not offer indemnification. Therefore, any such language on purchasing agreements shall be considered void.

Payment:
To Prime Contractor: a.) Invoices for items ordered, delivered and accepted shall be submitted by the contractor directly to the payment address shown on the purchase order/contract. All invoices shall show the state contract number and/or purchase order number; social security number (for individual contractors) or the federal employer identification number (for proprietorships, partnerships, and corporations). b.) Any payment terms requiring payment in less than 45 days will be regarded as requiring payment 45 days after invoice or delivery, whichever occurs last. This shall not affect offers of discounts for payment in less than 45 days, however. c.) All goods or services provided under this

contract or purchase order, that are to be paid for with public funds, shall be billed by the contractor at the contract price, regardless of which public agency is being billed. d.) The following shall be deemed to be the date of payment: the date of postmark in all cases where payment is made by mail, or the date of offset when offset proceedings have been instituted as authorized. e.) Unreasonable Charges. Under certain emergency procurements and for most time and material purchases, final job costs cannot be accurately determined at the time orders are placed.

Availability of Funds

It is understood and agreed between the parties herein that the agency shall be bound hereunder only to the extent of the funds available or which may hereafter become available for the purpose of this agreement

Non-Collusive Bid Statement:

The bidder, being fully informed regarding the accuracy of the statements made herein, certifies that:

a. The bid has been arrived at by the bidder independently and has submitted without collusion with, and without any agreement, understanding, or planned common course of action with, any other vendor of materials, supplies, equipment, or services described in the invitation to bid, designed to limit independent bidding or competition, and,

b. The contents of the bid have not been communicated by the bidder or its employees or agents to any person not an employee or agent of the bidder or its surety on any bond furnished with the bid, and will not be communicated to any such person prior to the official opening of the bid.

The bidder further certifies that this statement is executed for the purposes of inducing The Jackson County School District to consider the bid and make an award in accordance therewith.

Non Discrimination Clause:

The Contractor hereby agrees that neither he nor his subcontractors will refuse to hire or employ or to bar or to discharge from employment an individual or to discriminate against him in compensation or in terms, conditions or privilege of employment because of race, color, religious creed age, sex, national origin or ancestry, except in the case of bona fide occupational qualification or need.

Safety Standards:

All contractors and their employees, agents and subcontractors are required to comply with all EPA, NFPA and OSHA safety standards at all times while working on site. The Contractor and employees, agents and subcontractors found to be in non-compliance may be removed from the work site, as well as subject to forfeiture of payment and/or contract termination. The School District reserves the right to inspect the work site at any time for safety compliance.

Debarment:

The Purchasing office reviews any bid being considered to assure that neither the contractor nor any subcontractor being utilized is subject to state or federal debarment based on published debarment lists.

Liability Insurance (If Applicable):

The General Terms and Conditions require the bidder awarded the contract to maintain in force during the performance of the work policies of worker's compensation insurance, employer's liability, bodily injury liability and property damage insurance covering the operations of the contractor and the use of all motor vehicles employed by the contractor. A certificate of insurance evidencing this fact that the contractor has secured the required insurance shall be filed with the Jackson County School District at the time of the execution of this contract. **It is further required that the Jackson County School District be named as an additional insured**. This should be shown under the description of operations portion of the certificate of insurance. All certificates should also indicate a notice of cancellation complying with state statute.

Minimum Requirements for Certificate of Insurance

A. Commercial General Liability
   - General Aggregate: $ 2,000,000.00
   - Product/Completed Operations Aggregate: $ 1,000,000.00
   - Occurrence Aggregate: $ 1,000,000.00

B. Automobile Liability
   - Liability Limit: $ 1,000,000.00

C. Excess (Umbrella Liability) Liability
   - The requirement that an umbrella policy be provided will depend on a case-by-case evaluation. Your exposure to catastrophic loss arising from the work or service being performed will determine the limit required.

D. Worker's Compensation & Employers Liability
   - Per Mississippi Statutes

Performance Bond (If new construction is to be performed):
Contractor shall supply a Performance Bond and Labor and Material Payment bond in the amount of 100% of the value of the contract for each bond. Include a certified and current copy of the power of attorney for the attorney–in–fact who executes the bonds.

Stipulations:
A contract issued as the result of a bid shall not be considered exclusive. The Jackson County School District reserves the right to contract with other vendors for similar services when deemed appropriate.

The Jackson County School District maintains the right to withhold payment for unsatisfactory materials and/or workmanship until such time that the defect is corrected. If the defect is not satisfactorily repaired within 60 days, the Jackson County School District may elect to have the repair made by an alternate vendor and subtract the cost from the contractor's invoice. The Jackson County School District also reserves the right to deduct from the vendor's billing any costs incurred as a result of inferior or unsatisfactory materials and/or workmanship.

The Jackson County School District reserves the right to cancel the contract at any time with no cost to the district. If the cancellation is for inadequate performance, then the cancellation shall be immediate. If the cancellation is for budgetary considerations or is based upon the discretionary right of the Jackson County School District then the cancellation shall be upon thirty (30) days written notice.

The Jackson County School District reserves the right not to award the continuation of a multiple year bid. The award of each year's contract is contingent upon adoption and approval of budgetary funds for this purpose.

CONTRACTOR INDEMNIFICATION

The Contractor shall at all times indemnify and save harmless the Jackson County School District (JCSD) and its officers, agents, and/or employees against any and all claims, demands, damages, losses, judgments, costs, worker's compensation payments, litigation expenses and counsel fees arising out of injuries to the person (including death) or damage to property alleged to have been sustained by:

a. officials, officers, agents and/or employees of the JCSD or;

b. the contractor, his subcontractors or material men or;

c. any other person, whose injuries are alleged to have occurred on or near the work or to have been caused in whole or in part by the acts, omissions or neglect of the Contractor or his sub-contractor or material men by reason of his or their use of faulty defective or unsuitable work.

The existence of insurance shall in no way limit the scope of this indemnification. The Contractor further undertakes to reimburse the JCSD for damage to property of the JCSD caused by the Contractor, or his employees, agents, subcontractors or material men or by faulty, defective or unsuitable material or equipment used by him or them.

The Contractor further acknowledges that Jackson County School District cannot and does not offer indemnification. Any such language on purchasing or billing documents of the contractor will be disregarded.

HOWARD TECHNOLOGY SOLUTIONS SERVICE LEVEL AGREEMENT

This Agreement is made between Service Provider and Customer, both parties designated on the reverse side hereof. Customer agrees to obtain from Service Provider, and Service Provider agrees to provide to Customer, technical services as hereinafter described, subject to the terms and conditions stated on the front page of this Agreement and hereinafter.

1.0 TERM

1.1 Coverage under this Agreement begins at the later of the Agreement Inception Date stated on the front page of this Agreement or upon signature of this Agreement by both Service Provider and Customer.

1.2 Coverage under this Agreement shall terminate on the Agreement Expiration Date indicated on the front page unless coverage under this Agreement is terminated sooner pursuant to Section 5.0.

2.0 SERVICES PROVIDED

2.1 The Services to be provided to Customer pursuant to this Agreement include the duties assigned to the Position's job description per the accompanying Statement of Work. The Services also include any additional requirements as set forth on the reverse hereof.

2.2 The [Position] shall perform Services in accordance with and pursuant to the priorities provided by the Customer. Customer may request that the Service Provider provide a different [Position] if such person fails to provide the Services requested by Customer in a prudent and businesslike manner, and such request shall not be unreasonably denied by Service Provider. In the event the scope of work defined in this contract and accompanying referenced documentation is changed, Service Provider reserves the right to adjust billing rates accordingly.

3.0 INVOICING OF SERVICES

3.1 The Service Provider uses three definitions to classify time: Standard Time (Customer standard eight hour business day), Over Time (time outside of standard business day before midnight), and Premium Time (weekdays between 12:00 am and start of Customer standard business day, weekends, and holidays).

3.2 Invoicing shall be on a monthly basis.

4.0 RENEWALS

4.1 This Agreement may be renewed by Customer at Service Provider's then current Billing Rate for additional terms, provided Customer provides Service Provider with a written notice of renewal two weeks prior to the Agreement Expiration Date and further provided that all amounts due Service Provider from Customer are paid at the time of renewal and the [Position] is available for additional terms. Any renewals of this Agreement will be valid only with Service Provider's written consent. Renewals signed by Service Provider prior to the renewal date become effective upon expiration of this Agreement.

5.0 TERMINATION AND WITHDRAWAL

5.1 Customer may terminate this agreement by providing Service Provider with written notice, which shall become effective thirty (30) after receipt. In the event of such termination, Customer shall not receive any refund or pro-ration of any fees paid to Service Provider.

5.2 Either party may immediately terminate this Agreement by reason of the other party's noncompliance with this Agreement after providing said party with five (5) days written notice and opportunity to cure such non-compliance. Upon termination on account of Customer's noncompliance, Customer shall remain liable for the payment of Services hereunder for a period of two weeks from the date of such notice.

6.0 HIRING OF SPECIALIST BY CUSTOMER

6.1 SERVICE PROVIDER INVESTS A SUBSTANTIAL AMOUNT OF TIME AND EXPENSE IN CONJUNCTION WITH RECRUITING, HIRING, MAINTAINING, AND TRAINING ITS TECHNICAL STAFF. [CUSTOMER] WILL NOT EMPLOY, ENGAGE, OR OTHERWISE OBTAIN THE SERVICES OF THE CONTRACTED TECHNICIAN DIRECTLY OR THROUGH ANOTHER PROVIDER WITHOUT WRITTEN PERMISSION FROM HOWARD COMPUTERS. THIS CONDITION SHALL APPLY DURING THE CONTRACT PERIOD AND 180 DAYS FOLLOWING THE AGREEMENT TERMINATION.

7.0 LIMITATION OF LIABILITY

7.1 (a) SERVICE PROVIDER MAKES NO WARRANTIES OF ANY KIND, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OR MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

(b) IN NO EVENT WILL SERVICE PROVIDER BE LIABLE FOR ANY DAMAGES, LOST SAVINGS, OR OTHER ACTUAL, DIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, DAMAGES ARISING FROM THE USE, LOSS OF USE, OR PERFORMANCE OF CUSTOMER'S COMPUTER EQUIPMENT AND ATTACHMENTS THEREOF, EVEN IF SERVICE PROVIDER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM AGAINST CUSTOMER OR SERVICE PROVIDER BY ANY OTHER PARTY ARISING HEREUNDER.

(c) CUSTOMER AGREES TO INDEMNIFY PROVIDER TO THE EXTENT ALLOWED BY MISSISSIPPI LAW.

(d) SERVICE PROVIDER NOR IT'S EMPLOYEES WILL BE HELD LIABLE FOR VIRUS, RANSOMWARE OR MALWARE ATTACKS, BREACHES OR INCIDENTS.

(e) SERVICE PROVIDER'S LIABILITY HEREUNDER FOR DAMAGES FROM ANY CAUSE WHATSOEVER, AND REGARDLESS OF THE FORM OF ACTION, INCLUDING NEGLIGENCE, SHALL BE LIMITED TO MONIES ACTUALLY PAID BY CUSTOMER TO SERVICE PROVIDER FOR SERVICES HEREUNDER.

7.2 Neither party shall be liable for any delay in performance hereunder if such delay is caused by Acts of God, strikes or lock-out, war, riot, governmental acts or decrees, flood, fire, power outage, electrical fluctuation, telecommunications line failure, or any other event which is beyond that party's reasonable control and which is not caused by the negligence or misconduct of that party. However, none of the foregoing shall operate to excuse any failure to pay any amount due hereunder.

7.2.1 Provider agrees to provide each technician and director to customer for at least 220 of the customer's board approved 232 working days. For each technician and director the provider fails to provide the customer for at least 220 days, the provider agrees to provide the customer a credit on a per technician per day basis below 220 or a per manager per day basis below 220 as per contracted pricing provided based on per day cost to customer.

8.0 GENERAL

8.1 Any notice required or permitted hereunder, except a request for service by Customer, shall be in writing and delivered either by hand delivery or sent by certified mail, return receipt requested and postage prepaid, to the receiving party at the address of P.O. Box 1590 Laurel, MS 39441 or at such address and designated in writing by such party to the other.

8.2 The failure or delay by either party to enforce any provision of this Agreement shall not operate as a waiver of the right to enforce such provision or any other provision of this Agreement. No waiver of any provision of this Agreement shall act as a subsequent waiver of such provision, nor as a waiver of any other provision of this Agreement.

8.3 This Agreement constitutes the entire agreement with the parties with respect to the subject matter hereof. All prior and contemporaneous oral or written representations relating to the subject matter hereof are merged herein and shall not be used to contradict any provision of this Agreement. This Agreement may only be modified in writing and signed by both parties hereto. The terms and conditions stated herein shall prevail over any conflicting or additional terms contained in any purchase order or other document submitted by Customer unless Service Provider expressly accepts such conflicting or additional terms in writing.

8.4 This Agreement shall be governed by the laws of the State of Mississippi.

9.0 Employee Approved Absences

9.1 Employee time off that occurs during the normal business hours of the district must be approved by Technical Services Director and Jackson County School District Director of Information Technology prior to the employee submitting a vacation request form to Mike Jennings, Manager of Professional Services, for Howard Technology Solutions.

9.2 Approved employee absences that occur during the normal business hours of Jackson County School District will leave a vacancy in that position equal to the amount of time off that was approved. HTS does not keep a pool of technicians to backfill approved leave. If the district needs the position to be filled at all times, we can provided an updated quote to cover those times.

1.0 Employee Mileage Reimbursement

10.1 This contract does not include the cost of employee travel between district sites due to normal job functions. JCSD will reimburse the employee directly for any travel cost occurred as the direct result of normal job duties.

This is a new supplemental position to pay teachers a supplement for help with educational technology on their campus. This position has already been budgeted for the 2023-2024 school year so there is no additional budget cost. All of the teachers who will be chosen for this supplement are teachers who are currently going beyond their normal duties to help out their fellow teachers with educational technology.

Jackson County School District

CHILD NUTRITION

September 1, 2023

TO: Jackson County School District School Board of Trustees

FROM: Ashley Harris, MS, RD, SNS - Director of Child Nutrition

SUBJECT: Proposed New Policy – Job Description: Child Nutrition Field Supervisor

Proposed New Policy - Salary Scale: Child Nutrition Field Supervisor

---

Attached is the proposed new policy Job Description: Child Nutrition Field Supervisor. The position will be a federally funded, budget neutral position that is replacing the bookkeeper vacancy in the department. Therefore, it is recommended that the JCSD board of trustees support the restructuring of the Child Nutrition department and approve the new policy Job Description: Child Nutrition Field Supervisor based on, but not limited to the following justifications:

- 62% of the cafeteria managers have less than 5 years experience. The goal of this position would be to support new and existing cafeteria managers and food service staff.
- The Field Supervisor would substitute during an extended absence of a cafeteria manager, providing the stability that the school environment and food service team requires and deserves during that extended leave.
- On the job, consitent training would be available to new staff members district wide, relieving the pressure from the cafeteria manager, and ensuring consistency across the JCSD CN program.
- Regular monitoring of established standards is necessary to ensure consistent, quality practices among the program district wide.
- This is a value added position that would result in cost effectiveness with better inventory management district wide and the ability to shift supplies from sites among the district.
- Neighboring districts of this size have the same or similar position(s) in their program with comparable proposed salary.

The recommendation also includes the proposal for a new policy Salary Scale: Chid Nutrition Field Supervisor. Your consideration in this recommendation is greatly appreciated.

Section: G Personnel Proposed 2023

Policy Code: MSBA to assign

Policy: Salary Scale: Child Nutrition Field Supervisor

The base salary for Child Nutrition Field Supervisor shall be as follows:

Yrs. Exp	CN Field Supervisor

JACKSON COUNTY SCHOOL DISTRICT
STANDARD CONTRACT ADDENDUM

WHEREAS St. Martin High School is part of the Jackson County School District, a political subdivision of the State of Mississippi and as such is restricted from entering into contracts and/or agreements with terms and/or provisions contrary to or prohibited by Mississippi Law.

NOW, therefore, in consideration of the mutual benefit to both parties, the undersigned contracting party, Play Versus, Inc. (PlayVS) does hereby agree to the following standard terms, 2603 conditions and provisions of the Jackson County School District Standard Contract Addendum, and the same are hereby adopted and incorporated into, and shall apply to the Agreement between the Jackson County School District and Play Versus, Inc. (PlayVS), Q-09521 (Order Date 07/18/2023) as follows:

1. Term/No Automatic Renewal: There shall be no automatic renewals. Further, terms and provisions to the contrary notwithstanding, no contract can be entered into that binds a successor board.

2. Renewal/Extension of Term: Any extension or renewal of the agreement between the parties is subject to approval by the Board of Education of the Jackson County School District and shall be subject to the terms of this addendum.

3. Governing Law: Mississippi law shall govern the interpretation of the agreement between the parties and any dispute that may arise between the parties.

4. Indemnity: The Jackson County School District shall not be subject to the terms of any provision or term in the contract requiring it to defend or indemnify any entity or party to the contract, and shall not be liable under any scenario for the other party's legal fees.

5. Venue/Exclusive Jurisdiction: The Courts of the State of Mississippi shall have exclusive jurisdiction of any dispute between the parties and the venue of said disputes shall be in Jackson County, Mississippi. Further, any entity or business which contracts with the Jackson County School District submits to the personal jurisdiction of the courts of Jackson County, Mississippi.

6. No waiver of Warranties: Notwithstanding any provisions to the contrary, any contract provision seeking to limit the Jackson County School District's recovery resulting from the breach of an express warranty or any implied warranty of merchantability or fitness for a particular purpose shall be of no force or effect. 2604

7. No Waiver of Damages: Notwithstanding any provision to the contrary that may be found in the contract, supplemental terms or terms of use that may be referenced therein, any provision seeking to limit and/or waive the recovery by the Jackson County School District of any type of damages, including but not limited to consequential, special and/or punitive damages shall be of no force and effect. Further, any provision seeking to limit damages of the contracting party to the contract price or some other amount shall be of no force and effect.

8. Arbitration: The Jackson County School District shall not be subject to the terms of any provision contained in the contract, supplemental terms or terms of use that would require the Jackson County School District to submit the resolution of a dispute to binding arbitration and that any such term or provision requiring the same shall be deemed to be of no force or effect.

9. No Waiver of the Right of Trial by Jury: Notwithstanding any provision to the contrary, any provision seeking a waiver by the Jackson County School District to its right to a jury trial as to any aspect of a dispute between the parties hereto shall be of no force or effect.

10. No Waiver or Statute of Limitations: Notwithstanding any provision to the contrary, any provision seeking to limit or modify a statute of limitation for any purpose shall be of no force and effect.

11. No Waiver of Limitation of Rights or Remedies Under the Uniform Commercial Code: Notwithstanding any provision and/or language of the contract to the contrary, any provision seeking a waiver or to limit any rights and/or remedies of the Jackson County School District under the Uniform Commercial Code shall be of no force and effect.

12. Conflict of Terms: To the extent there is a conflict between the terms of this addendum or the terms of the contract, the terms of this addendum will control. Upon expiration or termination of this contract, the terms of this addendum shall survive and will apply with respect to any dispute that may exist between the parties. 2605

13. Amendment: Even if not specifically provided for herein, the terms, conditions and provisions of the Play Versus, Inc. (PlayVS), Q-09521 (Order Date 07/18/2023) and the Terms of Use (Pgs. 1-14) (Provisions 1-17.8), as well as the Privacy Policy set forth at www.PlayVS.com/privacy and any other document and/or documents made a part of the agreement between the parties are hereby amended and modified, where necessary and applicable and to the extent necessary to comply with Mississippi law as set forth in the Mississippi Code of 1972, as amended, and as interpreted by the Attorney General of Mississippi and the Mississippi Supreme Court.

Use of School Facilities

The Jackson County Board of Education encourages the use of school facilities for community purposes under provisions that permit board authority to determine, regulate and maintain such programs.

School facilities may be used for school-sponsored educational, social, or extra-curricular functions. It shall be the responsibility of the Superintendent to establish, maintain, and modify rules governing the use of the facilities, to provide for the protection of property, and to provide for the safety, welfare and health of persons using school properties. Copies of the rules shall be furnished to all groups authorized to use the school facilities. These rules are incorporated as part of the School Board Policies.

The use of the school facilities by organizations other than those sponsored by the Board of Education shall be limited to non-profit making functions, except when specific approval is given by the Board of Education. 2617

Permission to use school facilities does not include concession rights of any type, unless specified in writing.

Use of food service areas by organizations not connected with the school system is discouraged, but not prohibited. The use of food service areas shall require the presence of the cafeteria manager, or designee, and a minimum of one kitchen worker.

Fees and conditions for facilities usage shall be set by the Superintendent. Fees set shall include funds necessary to pay for the principal, or designee, other staff members, food, and supplies necessary for the activity being conducted.

The Jackson County School District, its employees, or the Board of Education, singly or collectively, hereby is held harmless and disclaims any and all liability of any kind in relation to this agreement.

The Jackson County School District, its employees, or the Board of Education, singly or collectively, hereby makes absolutely no warrant as to the condition or fitness of the facilities relative to this agreement.

RULES AND REGULATIONS
PERTAINING TO THE USE OF ANY SCHOOL FACILITIES

1. Request(s) for use of the school facilities by persons not officially connected with the school must be filed with the Superintendent two (2) weeks prior to the date for which it is requested.

2. Permit(s) for the use of the facilities will not be granted if the purpose or result of such use is personal gain to any individual or individuals, is of a political nature, or is sectarian in character.
3. All permits are revocable and shall not be considered as a lease. The Board of Education, or its authorized agents, may reject an application or cancel any permit. The charges will not be considered as rental charges, but will be limited to operating expenses with a reasonable allowance for wear and tear of the facilities.
4. In all cases the regular school activities or organizations of the school have preference when requesting the use of school facilities.
5. The applicant assumes responsibility for the preservation of order at the school facility and assumes strict observance of all regulations of the Board of Education with reference to the facilities.
6. The person or group requesting the permit shall provide sufficient bond for uniformed police protection. The person or group shall furnish proof that uniformed police protection is provided.
7. Smoking and possession or consumption of alcoholic beverages or non-prescriptive drugs on or at any part of the school facilities shall be prohibited. Exception shall be only for a recognized demonstrational program.

8. Pianos, motion picture projectors, scenery, or other apparatus shall not be moved onto the school facilities unless specific permission is granted.
9. The person or group requesting the permit shall provide sufficient bond for any damage sustained to the facility, except normal wear and tear.
10. Persons/Organizations who use their own equipment or property shall remove said equipment immediately following the activity and no later than noon the following day. The school will not be responsible for any equipment left at the building or grounds.
11. The Board of Education or its representative(s) shall at all times have free access to all parts of the school facilities. The Board reserves the right to revoke any permit should such action be necessary or desirable in the best interest of the school system and/or the public.
12. The Jackson County School District, its employees, or the Board of Education, singly or collectively, hereby is held harmless and disclaims any and all liability of any kind relative to this agreement.
13. The Jackson County School District, its employees, or the Board of Education, singly or collectively, makes absolutely no warrant as to the condition or fitness of the facilities relative to this agreement.
14. A duplicate of the application filed with the Superintendent, when approved, will be returned to the applicant as a permit.
15. All functions involving meal preparation and service shall require arrangements through the Food Service Office. For accounting purposes, requisitions for all food, supplies, and labor are to be put on separate requisition forms, designating the function for which these items are to be used. Food and supplies other than those requisitioned through the Central Office will not be permitted on school premises. Direct labor payments from any organization shall not be accepted as proper payroll procedures. Payroll procedures set by the Board of Education must be followed. The Central Office shall make the final determination of charges.

EMERGENCY TRAVEL AUTHORIZATION

School/Department: Jackson County Technology Center

Employee's Name: Dr. Jerry J. Morgan

Type of Travel: Non-Local

Trip/Name of Workshop: 2023 Perkins V Needs Assessment Meetings

Destination: Jones College

Deadline for Board Agenda Items (prior to travel): 10/09/2023

Date of Notification of Event (attach supporting documentation): 10/04/2023

Date(s) of Travel: Start: 10/30/2023 Return: 10/30/2023

Deadline for Board Agenda Items (following travel): 11/07/2023

Justification of how this travel was an emergency:

I was notified of this meeting via email on 10/04/2023 which was during the time that I was out of town on a family vacation. I returned to work on 10/09/2023 and began handling emails received during my vacation, while also preparing for the CMI Audit scheduled for 10/11/2023 and 10/12/2023.

CTE Director/Contact Person Meeting Follow-up

Brett Robinson <brobinson@mdek12.org> Wed, Oct 4, 2023 at 1:01 PM
To: "Dr. Jerry J. Morgan, Director" <jmj2025@jcsd.ms>

Good afternoon CTE!

This email serves as a follow-up to our meeting last Monday (9/25). I have attached the PP, and here is a link to the recording (Click Here).

Reminder that our next meeting is scheduled for Monday, Nov. 27 at 1:00pm. I will share a link to the meeting closer to time.

As always, our office is always available to support you in any way we can.

Have great end of the week!

Brett
