B. Budget Committee

The Budget Committee members are Mr. Szymanski, Mrs. Fowler, and Ms. Morhardt. Mr. Szymanski reported that there hasn't been any additional activity since the Board of Finance meeting last Wednesday. He noted that if the Budget Committee wants to be proactive, perhaps the Committee should schedule a meeting prior to or after the next regularly scheduled Board meeting on Monday, May 21, 2012, to begin discussions relative to what would happen if the referendum fails. The Committee members agreed to meet at 6 p.m. prior to the Board meeting on 5/21/12. Mr. Szymanski requested a refreshed list of possible reductions to review prior to the 5/21/12, meeting.

C. Curriculum Committee

Item VII. Superintendent's Reports

A. Middle School Honor Roll Report

Dr. Collin reported that the Board of Education discussed the middle school honor roll criteria on a number of occasions. At the start of the current school year, the following criteria applied:

- High Honors-A grade of 90 or higher in all subject areas
- Honors-A grade of 85 or higher in all subject areas

She noted that after consideration of the data presented on September 26, coupled with input from community members, the Board requested additional information in order to make an informed decision. The information was presented by Mr. Kenneth Valentine, Middle School Principal, and Mr. Greg Buonome, Middle School Assistant Principal, at the October 24, 2011, Board of Education meeting. At this meeting, the Board approved a change in criteria for Honors, to reflect a grade of 83 or above in all subjects, which was a decrease of 2 percentage points.

As a follow up to their decision, the Board requested an update relative to the significance of the change in criteria. An analysis of data by Middle School Administration reflects the following:

- There was a slight decrease (3%) in the average number of students who achieved high honors (2010-2011 as compared to 2011-2102);
- There was a slight decrease (1%) in the average number of students who achieved honors in term one (2010-2011 as compared to 2011-2012); and
- Since the institution of the new criteria effective term two of the current school year, there has been an increase of 10% in the average number of students who achieved honors, terms two through four. This increase is not considered to be significant.

Dr. Collin stated that Mr. Kenneth Valentine and Mr. Greg Buonome provided recommendations of which she is supportive and include maintaining the current criteria at a grade of 83 or above in all subjects, continuation of efforts to increase the rigor of curricula and of recognition initiatives.

Mr. Valentine stated that the outcome was predictable. The requirements were lowered, so more students made the honor roll.

Mr. Buonome stated that the program is working well.

There were no questions from Board members.

B. Head Start Report through April 2012

Dr. Collin presented the Basic Head Start grant report through April 30, 2012, as prepared by Ms. Meg Devlin, Business Manager. Awarded for the time period February 1, 2012, through June 30, 2012, the report indicates that the Basic Head Start grant fund 160 of \$25,577.02 has been expended. Dr. Collin noted that the balance of \$25,551.98 must be either expended or encumbered by June 30, 2012.

She reported that the Early Head Start grant, totaling \$17, 125, is for the time period February 1, 2012, through April 30, 2012, and that a detailed expense report was included in the Board packet, which indicates that \$12,584.89 has been expended. She noted that although the district has been informed that EASTCONN has received an extension of an additional four months at this time, the district has not yet received official notification, but will advise the Board, accordingly.

In compliance with the Head Start agreement, the program expense reports are being presented to the Board of Education. In addition, the reports are periodically presented to the Head Start Parent Policy Committee, which also reviews the minutes of BOE minutes in order to stay abreast of the Board's actions.

Dr. Collin stated that she, Ms. Michaud and Mrs. Devlin met with EASTCONN on Friday, May 4, 2012, regarding options for the program. EASTCONN is very willing to work with the district to provide services to students in the most cost-effective manner.

C. Cafeteria Profit and Loss through March 2012

Dr. Collin presented the Cafeteria Profit and Loss report through March 2012, as prepared by Ms. Beth LaPane, Supervisor of Food Services, and Mrs. Meg Devlin, Business Manager. She said that it shows a profit of \$6,347 for March, an increase of \$4,975 in profit as compared to the same period last year. The most recent report reflects a year-to-date profit of \$17,468, whereas, last year the report at this time reflected a profit of \$2,361.

Dr. Collin noted that Stafford was one of 23 communities in the northeast region of Connecticut selected to participate in the Department of Social Services and the Department of Education's summer program for families that receive free and reduced-price meals. The program is entitled, "Summer Meals on the Move: Bringing Nutrition Assistance to Children's Homes." Because there were more children in need than the program has the capacity to fund, our Food Services Program staff mailed 325 applications, of which 140 were returned and submitted for possible selection in a lottery. Of those 140 submissions, the families of 125 Stafford children received an Electronic Benefit Transfer card with \$60 for each of their school-aged children for each summer month.

Dr. Collin reported that as the school year comes to a close, menus will be planned based on current inventories to help control costs and eliminate waste. She commended Ms. LaPane and her staffs for their valuable roles in our Food Services program(s).

Mrs. Finch asked for clarification regarding the way the Summer Meals on the Move Program works, which Mrs. Devlin provided.

D. Update on Progress of Strategic Plan

Dr. Collin stated that at the Board of Education meeting on March 9, 2009, Board members approved the mission, belief statements, and goals as proposed by Stafford's Strategic Planning Committee. This committee was comprised of representatives from the community, including community leadership, BOE members, administrators, teachers, staff, parents, and students, who had worked for over a year and a half to develop the plan.

She noted that three of the four goals are directly linked to the 21st Century Skills, approved by the Board of Education on November 15, 2010, provided a copy for the Board's review. Each goal in the strategic plan is reported using the following descriptors: Present State (the status of the district with regard to the goal when the plan was developed); Developing; Progressing; and Achieving. Dr. Collin said that in preparation for tonight's presentation, Administrators were asked to report on progress using the aforementioned descriptors and to provide information to support these ratings.

She said that it should be noted that since the 2009-2014 plan was initially developed, numerous mandates have impacted the District's ability to achieve its goals as it has struggled to respond to these legislative demands. For example, the district was compelled to develop a continuum of interventions in an effort to implement CSDE's Scientific Research-Based Interventions framework. In addition, energy, time and action have also been diverted by our need to develop action plans to address the Annual Yearly Progress (AYP), graduation rates, school climate and Common Core Standards, to name a few.

Dr. Collin provided the Board with a document in the Board packet that detailed evidence of progress toward each goal. She said that as the district moves forward, we will need to address the following:

- More clearly articulate 21st century essential skills for success across all levels, beginning in the primary schools by providing access and facilitating discussion in horizontal (at each grade level) and vertical (between grade levels) team meetings and during faculty meetings;
- Once approved by the Board of Education, implement our new Technology Plan to promote achievement of goals relative to 21st Century essential skills;
- Communicate the expectation that technology integration must be evident in all school and across all classrooms and hold staff accountable;
- Ensure access to wireless environments and establish policies & regulations to address internet access to educational sites, Bring Your Own Technology (BYOT), etc.;
- Continue to provide district-wide professional development opportunities to address the vision of the strategic plan and implementation practices so that all students achieve mastery of identified 21st Century essential skills;
- Explore means to promote parent access to information through means such as the implementation of student management systems (e.g. PowerSchool, Edline) and collaborate with town officials to promote community access, as warranted, through emergency mass notification systems (e.g. Everbridge); and
- Continue to articulate the associated goals, standards, performance criteria and assessment levels through the Board of Education to the community to determine effectiveness, educational value and success, and financial impact.

Dr. Collin commended the administrative team and staffs for working hard toward the goals while dealing with all of the distractions previously mentioned. She also noted that she plans to work with administrators at the retreat in August.

Mrs. Fowler asked about the process for reviewing the 21st Century Skills, which were developed in 2009. Mr. Bednarz suggested that the district give this group of skills a shot, as they are great targets for the district. He said that Stafford is one of the few districts that have a list of 21st Century Skills, adding that the State doesn't yet have a list of the skills. Mrs. Fowler asked how the Board, during this budget process, could provide support for this plan. Dr. Collin stated that professional development and time for staff to collaborate in the schools is very important. Dr. Collin said that the plan can also be supported through policy. She also mentioned that the administrators will be holding the staff accountable regarding technology, possibly through the School Improvement Plans for next year.

Mr. Pelliccia stated that the 21st Century Skills will be very fluid, based on what technology is available and what the job force is requiring. He said that more oral and video presentations should be incorporated at the high school level.

Mr. Valentine stated that it is important not to lose sight of the 20th Century Skills. He said that the district needs to be sure that students can communicate in writing and be able to read fluently. He said that we must work to find a balance.

Ms. Morhardt stated that she also sees 21st Century Skills as how students relate to other cultures, ethnicities, economic status, etc. (i.e. How important is foreign language in the classroom?) and that 21st Century Skills differ at each grade level, as Dr. Ryan noted.

Item VIII. Public Forum

A member of the audience had a question regarding the upcoming referendum. Mrs. Fowler stated that if the budget passes in May, Staffordville School will remain open for at least one more school year. Mrs. Fowler stated that Mr. Skala would then not have an assistant principal next year, since it was not included in the original budget, but rather as part of the reconfiguration plan. However, Mrs. Fowler stated that the Board recognizes that this is a high priority for the 2012-2013 budget cycle.

There was a question regarding Bring Your Own Technology (BYOT) to school and how the use will be monitored.

Item IX. Old Business

There was no Old Business.

Item X. New Business

A. Review of New and Revised Board Policies

Dr. Collin stated that the policies being presented were initially discussed, reviewed and recommended by the Administrative Policy Committee (APC) to be forwarded to the Board Policy Committee (BPC), comprised of Mrs. Sandra Fowler (Chairperson), Mrs. Lisa Finch, Ms. Beth Ann Morhardt, and Mrs. Tracy Rummel, Alternate.

She said that although the Board typically presents policies for two meetings, because the policies listed below are suggested revisions and legislative updates to current policies, the Board may consider approving the policies and corresponding regulations after one review.

- **Policy/Regulation #5142.2 Students: Student Dismissal Precautions** (Revisions to current policy & regulation)
- **Policy #6200 Instruction: Continuing Education** (Existing policy with CAFE revision based on PA 11-126; included minor editorial comment as suggested by the BPC)

Dr. Collin noted that the two policies indicated below are either new or reflect substantive revisions to current policy, both of which have been reviewed by the Administrative and Board Policy Committees. She said that this meeting would serve as the first reading of these policies.

- **Policy/Regulation #5118.1 Students: Admission of Resident Students** (New: to address Residency Verification Guidelines)
- **Policy/Regulation #5118 Students: Nonresident Attendance** (Revision to current policy; allows for enrollment of BOE employees' children)

Ms. Morhardt made a motion, seconded by Mrs. Finch, that the Board of Education approve, at this time, the following policies and corresponding regulation, as warranted: #5142.2 Students: Dismissal Precautions; and #6200 Instruction: Continuing Education. Mrs. Finch, Ms. Morhardt, Ms. Shegogue and Mr. Szymanski, voted for the motion, which carried.

B. Acceptance of Gifts from 3M Corporation

Dr. Collin reported that she has been notified by Mr. Bednarz that Stafford Public Schools is the recipient of two generous gifts from 3M Corporation, as follows: two scholarships for middle school science teachers to attend a one-week Environmental Education conference in Colorado this summer (approximate value \$5,000); and 100 *Shoot 'n Share* camcorder projectors (approximate value \$29,900). She referred Board members to Mr. Bednarz's memorandum for additional information specific to each gift.

She noted that Stafford Public Schools has received gifts through the 3M Community Giving Program in the past and that the district extends its appreciation to Mr. Leif Owens, Plant Manager, and Mr. Richard Kosko, Engineering Manager, who were instrumental in this most recent outcome.

Mr. Bednarz stated that 3M has been very generous over the past couple of years, and said that they frequently give materials to the district, including gift packets for the senior class. He said he'd be willing to write a letter to 3M on behalf of the Board to thank them. He also said that the press would be invited in to the classroom once the teachers have had a chance to incorporate the equipment's use into lesson plans.

Dr. Collin stated that according to Stafford Board of Education Policy #3280, *the Board of Education may accept on behalf of and for the schools any bequest or gift of money or property for a purpose deemed by the Board of Education to be suitable, and to utilize such money or property so designated. . . . All gifts shall be accepted for the school district as a whole, and not for a particular school. At the discretion of the Superintendent, the gift may be used in a particular school.*

Mrs. Finch made a motion, seconded by Ms. Morhardt, that the Board accept the gifts from 3M Corporation as follows: two scholarships for middle school science teachers to attend a one-week summer conference about Environmental Education in Colorado and 100 *Shoot 'n Share* camcorder projectors.
