Transfers made in such instances shall be announced at the next regularly scheduled meeting of the Board of Education and a written explanation of such transfer shall be provided to the Board of Finance and Board of Selectmen and transfers subsequently ratified by the Board at any such meeting shall not be counted in the limitation on the authority of the Superintendent to make transfers.

The Board of Education may transfer any unexpended or unencumbered portion of any appropriation for school purposes to any other item within that appropriation. The Board of Education shall not expend more than the amount of the appropriation and the amount of

~~money received from other sources for school purposes. If any occasion arises whereby additional funds are needed by the Board of Education, the Chairperson of the Board shall notify the Board of Finance and the Board of Selectmen and submit a request for such necessary additional funds. No additional funds shall be expended unless such supplemental appropriation is granted and no supplemental expenditures shall be made in excess of those so authorized.~~

Motorized Bicycle and Personal Transportation Device

Purpose

Weston Public Schools is committed to maintaining a safe, secure, and orderly environment for students, employees, families, visitors, and members of the community. The increased use of electric bicycles, electric scooters, and other motorized personal transportation devices presents safety concerns on school campuses, particularly in areas with significant pedestrian, student, school bus, and vehicle traffic. These devices may also present fire and electrical hazards associated with lithium-ion batteries.

The purpose of this policy is to establish clear, reasonable restrictions governing the possession, operation, parking, storage, and charging of motorized bicycles and personal transportation devices on Weston Public Schools property while recognizing that certain lawful devices may be used as a means of transportation by older students, employees, and visitors.

Scope

This policy applies to all property owned, leased, operated, or controlled by the Weston Board of Education, including school buildings, parking lots, roadways, sidewalks, walkways, athletic fields, tracks, playgrounds, courtyards, grassy and landscaped areas, recreational areas, and other District property.

Standard, non-motorized, human-powered bicycles are not prohibited by this policy; however, their operation and parking remain subject to applicable law, school rules, and directions issued by school administration, security personnel, and School Resource Officers.

Covered Devices

For purposes of this policy, motorized bicycles and personal transportation devices include, but are not limited to:

- Electric bicycles (e-bikes), including Class 1, Class 2, and Class 3 electric bicycles;
- Electric scooters and motorized scooters;
- Pedal-assist bicycles;
- Mopeds and motor-driven cycles;
- Mini-motorcycles, electric motorcycles, and similar motorized vehicles;
- Hoverboards, self-balancing boards, motorized skateboards, motorized unicycles, and similar electric mobility devices; and
- Any bicycle, scooter, or similar device that has been modified to increase its motorized speed, power, or performance beyond its original design specifications or statutory classification.

Mobility devices used by an individual with a disability for their intended accessibility purpose are not subject to this policy except as necessary to address an immediate safety hazard.

Student Restrictions

Students under the age of sixteen (16) are prohibited from bringing, operating, riding, or parking an e-bike, e-scooter, moped, motorized scooter, or other motorized personal transportation device on Weston Public Schools property.

Students age sixteen (16) or older may bring a motorized device onto school property only when all of the following conditions are met:

- The device may legally be operated by that student under applicable Connecticut law;
- The student possesses any driver's license, registration, endorsement, insurance, or other authorization required by Connecticut law for that particular type of vehicle or device;
- When operating or riding an electric bicycle, the student is wearing a properly fitted and fastened bicycle helmet that complies with applicable Connecticut law, together with any other protective equipment required by law for the particular device;
- The device is operated only on designated school roadways and parking areas; and
- The device is parked only in an area specifically designated or approved by school administration.

Permission to bring an otherwise lawful device onto school property does not create a right to operate the device elsewhere on campus. School administration may restrict or suspend permission to bring a device onto school property when necessary to address safety, traffic, operational, or facility concerns.

Prohibited Areas and Conduct

Motorized bicycles and personal transportation devices may not be operated on:

- Sidewalks or pedestrian walkways;
- Playgrounds;
- Athletic fields or tracks;
- Grass or landscaped areas;
- Courtyards;
- Areas immediately surrounding school entrances;
- School bus loading or unloading areas;
- Bicycle racks, unless specifically designated by the administration for motorized devices; or
- Any other area designated as restricted by school administration or security personnel.

Reckless operation, excessive speed, weaving through pedestrians or traffic, carrying unauthorized passengers, performing stunts, or operating a device in a manner that creates a risk to students, employees, visitors, property, or school operations is prohibited.

Students must comply immediately with directions from school administrators, School Resource Officers, security personnel, or other authorized school employees concerning the operation, parking, securing, or removal of a device.

Modified, High-Speed, and Misclassified Devices

A device represented, sold, or marketed as an electric bicycle does not necessarily qualify as an electric bicycle under Connecticut law.

Any electric bicycle, scooter, or similar device that has been modified, altered, programmed, equipped, or otherwise configured to exceed the speed, motor-power, or operating limitations applicable to its statutory classification is prohibited on Weston Public Schools property unless it is otherwise legally classified, registered, insured, and operated in accordance with all applicable Connecticut motor vehicle laws and District requirements.

Devices capable of operating in a mode that causes the device to fall outside Connecticut's statutory definition of an electric bicycle may be treated as a motor-driven cycle, motorcycle, or other motor vehicle as provided by Connecticut law.

School administrators, School Resource Officers, or security personnel may prohibit the operation or presence of any such device on school property when there is a reasonable basis to believe that the device does not meet the requirements for lawful operation or presents a safety concern. Nothing in this section limits Weston Public Schools' authority to impose reasonable restrictions on otherwise lawful devices while on District property.

Battery Charging and Storage

Charging of e-bikes, e-scooters, motorized bicycles, motorized personal transportation devices, or their removable batteries, including lithium-ion batteries, is strictly prohibited on all Weston Public Schools property unless specifically authorized by the Superintendent or designee for an approved District operational purpose or as an approved accessibility accommodation.

Students, employees, visitors, contractors, and members of the public may not connect such devices or batteries to any District electrical outlet, charging station, extension cord, power strip, or other electrical source.

Removable batteries from covered devices may not be brought into a school building for the purpose of charging or storage. Covered devices may not be stored inside school buildings unless specifically authorized by school administration for a documented District purpose.

Any battery or device that appears damaged, swollen, leaking, unusually hot, emitting an odor, smoking, or otherwise showing signs of failure shall not be brought into a school building and must be reported immediately to school administration, security personnel, or other appropriate District staff.

Violations and Enforcement

A student who brings or operates a prohibited device, or who operates an otherwise permitted device in violation of this policy, may be directed to discontinue use immediately and remove the device from the prohibited area.

When a student brings or operates a device in violation of this policy:

- The device may be secured by school administration or security personnel in a designated safe location;
- The student's parent or guardian will be notified when appropriate;

- A secured device may be released only to a parent, guardian, or other authorized adult when determined appropriate by school administration; and
- The student may be subject to disciplinary action consistent with Weston Public Schools policies, regulations, the Student Code of Conduct, and the applicable student handbook.

Repeated violations, reckless operation, refusal to comply with staff direction, or conduct that creates a substantial safety risk may result in additional disciplinary consequences. Violations of Connecticut motor vehicle or traffic laws, conduct creating an immediate threat to public safety, or property damage may be referred to the Weston Police Department.

Employees, Visitors, and Other Persons

Employees, visitors, contractors, and members of the public operating a legally permitted motorized vehicle or personal transportation device on school property must comply with Connecticut law and all Weston Public Schools traffic, parking, charging, storage, and safety restrictions.

Such devices are limited to designated roadways and parking areas unless their use is specifically authorized by the District or necessary as an accessibility device.

Exceptions

This policy does not apply to:

- Law enforcement, fire, emergency medical, or other emergency response personnel acting in the performance of their duties;
- Weston Public Schools vehicles or equipment;
- Vehicles or devices specifically authorized by the Superintendent or designee for school operations or an approved school activity; or
- Mobility devices used by individuals with disabilities for accessibility purposes.

School Authority

Nothing in this policy limits the authority of school administrators, School Resource Officers, security personnel, or other authorized District personnel to restrict access to or operation of any vehicle or device when necessary to protect the safety of students, employees, visitors, school operations, or school property.

Weston Public Schools reserves the right to designate additional restricted areas, establish approved parking locations, or prohibit a particular device when its presence or use presents a safety, traffic, facility, or operational concern.

Compliance With Law

This policy is intended to supplement, not replace, applicable Connecticut statutes, regulations, and Town of Weston ordinances governing bicycles, electric bicycles, electric scooters, motor-driven cycles, motorcycles, and other motorized vehicles. Where applicable law imposes a more restrictive requirement, that requirement shall control.

Building administrators, security personnel, School Resource Officers, and other authorized District staff shall implement these procedures in a reasonable and consistent manner to maintain student safety, facility security, and orderly school operations.

Nothing in these regulations expands or limits the rights, restrictions, or exceptions established by Board policy.

1. Communication and Policy Awareness

At the beginning of each school year and as required thereafter, building administrators shall communicate the requirements of the policy clearly to students, parents/guardians, and staff through one or combination of the following:

- Student handbooks and codes of conduct
- Direct websites, email or District communication notifications to parents/guardians
- Appropriate signage at campus entrances, parking areas, and other locations identified by school administration

2. Enforcement and Campus Access Protocols

School staff and security personnel shall address violations of the policy when observed.

If a student under sixteen (16) years of age attempts to enter school property with a prohibited motorized personal transportation device, the student shall be instructed that the device may not be brought onto school property. When practical, the student shall remain off District property with the device and contact a parent/guardian or make other appropriate arrangements for its removal.

If a student age sixteen (16) or older enters school property with a motorized device, staff may verify compliance with applicable District requirements, including but not limited to:

- Whether the device may legally be operated by the student;
- Whether any license, registration, insurance, endorsement, or other authorization required by law is in place;
- Whether required helmet use and other protective equipment requirements are being followed;
- Whether the device is being operated only on designated roadways or parking areas; and
- Whether the device is parked only in an approved location.

If a device or its operation appears unsafe, unlawful, modified beyond its lawful classification, or otherwise inconsistent with District policy, the student may be directed to discontinue use immediately and remove the device from the restricted area.

School personnel are not required to conduct mechanical inspections, speed testing, wattage testing, or other technical evaluations of a device. Questions regarding classification or legality may be referred to school administration, the School Resource Officer, security personnel, or the Weston Police Department.

3. Securing, Logging, and Retrieval Procedures

When a device is brought onto District property or operated in violation of Board policy, administrators may take the following actions as appropriate:

1. School administrators or security personnel may secure the device in a designated safe location.
2. The administrator or designee should document the incident, including but not limited to the following information:
 - Student name and grade level;
 - Date, time, and location;
 - Device description, including brand, color, and serial number if readily available;
 - Nature of the violation;
 - Name of the staff member securing the device; and
 - Disposition or release of the device.
3. Administration shall notify the student's parent/guardian when appropriate based on the nature of the violation.
4. When a device is secured by the District, school administration may require that it be released only to a parent, guardian, or other authorized adult.
5. Repeated violations, reckless operation, refusal to comply with staff direction, or conduct creating a substantial safety risk may result in a parent/administrator conference and disciplinary action consistent with Board policy, the Student Code of Conduct, and the applicable student handbook.

4. Battery Charging, Storage, Community Use, and Police Coordination

Charging of e-bikes, e-scooters, motorized bicycles, motorized personal transportation devices, or removable batteries is strictly prohibited on Weston Public Schools property except when specifically authorized by the Superintendent or designee for an approved District operational purpose or accessibility accommodation.

Removable batteries may not be brought into school buildings for charging or storage. Covered devices may not be stored inside school buildings unless specifically authorized for a documented District purpose.

Any device or battery that appears damaged, swollen, leaking, unusually hot, smoking, emitting an odor, or otherwise showing signs of failure shall not be brought into a school building and shall be reported immediately to administration, security personnel, or other appropriate District staff.

Employees, visitors, contractors, and members of the public operating lawful devices on school property shall comply with all District restrictions concerning roadways, parking, charging, storage, and safe operation.

Violations involving suspected motor vehicle or traffic law violations, reckless operation creating a significant public safety risk, refusal to comply with lawful direction, or property damage may be referred to the Weston Police Department.
