Specifically, the materials detail:

- How students, families, and staff will be engaged to inform leadership profiles for each school

# OVERVIEW

# St. Anthony–New Brighton

## *Principal Hiring Engagement Plan*

### January 2026

## Principal Hiring Engagement Plan

### Purpose

St. Anthony–New Brighton Schools (SANB) is preparing to hire two key building leaders — one for Wilshire Park Elementary (WP) and one for St. Anthony Village High School (SAVHS) — at a moment when community trust, belonging, and stability matter more than ever. The selection of these principals will shape not only the daily experience of students and staff, but also the district’s ability to lean into its strategic commitments around dignity, belonging, and effective instruction. For this reason, SANB is approaching the principal hiring process with intentionality, transparency, and a deep commitment to listening.

The purpose of this engagement plan is to ensure that students, families, and staff are meaningfully involved in shaping the leadership profile for each school. Their voices will inform a clear and community-rooted understanding of what each building needs academically, culturally, and relationally in its next principal. Throughout January, the district will gather broad and diverse perspectives that reflect both the shared values of SANB and the unique identities of the elementary and high school communities.

The input collected will serve two essential functions:

1. First, it will guide the creation of a **candidate profile** for each school, providing a clear, values-aligned framework for screening, interviewing, and ultimately selecting leaders who can best support the success of every learner.
2. Second, the insights will form the foundation of a **strong entry plan** for the individuals who are hired.

These entry plans will be grounded in what the community says it needs most, ensuring that each new leader begins their tenure prepared to build trust, establish relationships, and respond to the hopes and concerns of their school community.

Rooted in SANB’s updated [brand architecture](#), which emphasizes authenticity, compassion, cooperation, and a belief in nurturing the brilliance of every child, this engagement process will model the very leadership qualities the district seeks to cultivate. By listening deeply, communicating clearly, and centering community

voice, SANB affirms its commitment to selecting principals who reflect its purpose, understand its people, and will lead with both head and heart.

# STUDENT FACILITATION

# Wilshire Park

## *GRADES 1-2 Focus Group*

### PURPOSE

The drawing and writing prompt is designed to give younger students a developmentally appropriate, engaging way to share their perspectives on what helps them feel safe, loved, seen, and supported at school. Children often express insights through imagery and simple language that reveal essential truths about belonging, relationships, and what they need from the adults who lead their school.

This activity aligns directly with SANB's brand promise to "embrace each child with audacious love" and its focus on dignity, belonging, and effective instruction. Young students' authentic voices offer powerful guidance in shaping the Wilshire Park principal profile and the entry plan for the hired leader.

### **Option 1: Drawing Prompt**

*Draw a picture of a great principal. Show what they do, how they help kids, or how they make school a better place.*

Students can depict scenes such as:

- A principal greeting them at the door
- Helping a friend
- Reading in classrooms
- Playing at recess
- Solving problems or calming conflicts
- Celebrating successes
- Creating a safe, joyful, caring environment

  - If I could tell our new principal one thing, I would say \_\_\_\_\_.
  - The most important thing for a principal to do is \_\_\_\_\_ because \_\_\_\_\_.

## GRADES 9-12 Sticky Wall (during lunch periods)

### PURPOSE

The SAVHS student sticky wall provides an informal, highly accessible way for students to share their perspectives during the school day. By inviting students to respond to a simple prompt in a familiar setting, this activity creates space for voices that may not participate in surveys or focus groups, including students who are less likely to self-select into structured engagement opportunities.

The sticky wall is designed to capture authentic, student-generated language about the skills, qualities, and actions students believe are most important in the next SAVHS principal. These responses will complement insights gathered through student focus groups and the Grades 9–12 student survey, helping to identify shared themes, reinforce patterns, and surface perspectives across a broad cross-section of the student body.

This engagement aligns with SANB’s commitment to dignity, belonging, and student voice, and ensures that the principal candidate profile and entry plan reflect how students experience leadership and what they believe will help SAVHS be a place where all students feel supported, respected, and able to succeed.

## STRUCTURE

- Location: High-traffic area near the cafeteria during lunch periods
  - Timing: Open during multiple lunch periods across 1–2 school days

## *Principal Hiring: HR Process & Interview Framework*

January 2026

### Principal Hiring: HR Process & Interview Framework

#### Purpose

St. Anthony–New Brighton Schools (SANB) is approaching the hiring of two key building leaders, one for Wilshire Park Elementary (WP) and one for St. Anthony Village High School (SAVHS), with a commitment to intentionality, transparency, and process fidelity.

To ensure the highest level of objectivity and integrity, this search is facilitated and managed by the Department of Human Resources in partnership with an independent consultant from the Center for Effective School Operations (CESO). This external oversight ensures that the process remains focused on standardized criteria, legal compliance, and community-rooted needs, providing an impartial framework for selecting the best leaders for our students.

#### Professional Hiring Standards

The following standards define the framework for the recruitment and selection process. These requirements ensure that every phase is professional, objective, and aligned with district values.

Standard	Operational Focus
LEGAL & ETHICAL	Ensure a fair, non-discriminatory process that adheres to documentation retention laws and strict confidentiality
LEADERSHIP PROFILE	Evaluate candidates through the lens of SANB's core values: Dignity, Effective Instruction, and Belonging.
INDEPENDENT FACILITATION	Utilization of an Independent Consultant to manage the process, mitigate bias, and ensure legal and ethical standards are adhered to.

## Recruitment and HR Screening Process

The recruitment phase ensures that only candidates who meet both the job requirements and the community's specific "profile" move forward		
Component	Engagement Activity	Details
POSTING	Targeted Recruitment	Posted for three weeks on the SANB website, social media, and professional boards.
INITIAL SCREENING	HR & Consultant Review	HR and the Independent Consultant review all applications to ensure candidates meet minimum qualifications and align with criteria from the Engagement Survey.
HR SCREENER	Preliminary Interview	HR/Consultant may conduct phone screeners to verify experience, leadership philosophy, and alignment with strategic commitments.

## Facilitated Interview Day: Multi-Component Insight

To ensure a holistic view, the interview day consists of multiple simultaneous components. This allows for diverse perspectives to be gathered in a single high-fidelity day.		
Component	Focus Area	Participant Groups
BUILDING STAKEHOLDER SESSION	School Culture & Community Fit	Students (HS) Parents/Guardians/Community Members Building Staff (up to one per dept/grade level).
DISTRICT AND UNION STAKEHOLDER SESSION	District & Union Leaders	District Office and Union Leadership Representatives.
PROFESSIONAL PERFORMANCE TASK	Analytical & Communication Competency: Evaluation of the candidate's ability to synthesize information and communicate effectively via a Written Exercise and/or a Live Presentation.	To be determined based on task: May include any combination of Stakeholder Groups or District Leadership.

## Process & Recommendation Framework

<b>HR and the Independent Consultant manage the transition from stakeholder insights to the final recommendation, ensuring every step is documented, objective, and verified.</b>	
Process Step	Action and Oversight
COMMITTEE FORMATION	HR sends an "interest call" to all building staff. To keep committees effective (10-12 members), HR selects a representative group ensuring one per department or grade-level band.
REPRESENTATION REVIEW	The HR Facilitation team reviews all rosters and works to ensure diversity across gender, race, age, and subject matter.
INDEPENDENT FACILITATION	The Independent Consultant and HR Director lead all sessions to provide objective oversight and ensure process fidelity.
FEEDBACK & ASSESSMENT SYNTHESIS	The HR Facilitation Team synthesizes all feedback from the two interview teams and the results of the Practitioner Assessment.
REFERENCE CHECKS	HR conducts professional reference checks for the top candidate(s) to verify past performance and leadership impact.
RECOMMENDATION	The HR Facilitation Team presents the complete, data-backed portfolio to the Superintendent for final selection and recommendation to the School Board.

## Committee Requirements and Logistics

<b>To maintain high standards of professionalism and equity, all interview team members must adhere to specific operational protocols.</b>	
<b>Requirement</b>	<b>Standards of Conduct</b>
CONFIDENTIALITY	No details may be shared with peers, friends, or colleagues outside the committee; only finalist names become public.
DOCUMENTATION RETENTION	All notes are collected by HR and kept per retention policies. Notes must be professional and objective.
NON-DISCRIMINATION	Questions regarding marital status, children, religion, age, or national origin are strictly forbidden.
BIAS MITIGATION	The orientation includes a Briefing on Unconscious Bias, focusing on recognizing "Mental Shortcuts" (e.g., Affinity Bias, Halo/Horn Effect) to ensure every candidate is evaluated on their merits.
PROCESS FIDELITY	No discussion of candidates occurs between members. To ensure consistency and fairness, members must use only approved questions. All individual feedback must be submitted directly to HR via the designated process.

# STAKEHOLDER PARTICIPATION

## Stakeholder Recruitment & Participation Groups

To ensure transparency and build community trust, HR issues a formal invitation to all eligible stakeholders. This process ensures that committee membership is based on interest and representative balance rather than internal appointment.

- **Communication Channels:** Email via District and Building listservs, social media platforms, and the SANB website.
- **The Invitation Content:** The invitation will clearly state the commitment required (full interview day and orientation), the values-alignment sought (Dignity, Belonging, and Effective Instruction), and the link to the Expression of Interest form.
- **Selection Logic:** To keep committees effective (targeting 10–12 members per team), HR will select participants from those who submitted an Expression of Interest form with a focus on:
  - *Instructional & Operational Balance:* Ensuring representation from various grade levels and departments, while intentionally balancing certified and non-certified staff perspectives.
  - *Organizational Perspective (Tenure):* Selecting a mix of staff based on Length of Tenure in the district—including both long-term "institutional veterans" and those with "fresh perspectives" who are newer to SANB.
  - *Diverse Lived Experiences:* Prioritizing individuals who bring a variety of personal and professional backgrounds to the table to support our DDP goals.
  - *Elevating Community & Family Voice:* Actively working to recruit a broad range of Family and Community members, including outreach beyond established advisory groups to ensure the committee reflects the diversity of the entire school population.

## Stakeholder Participation Groups

The recruitment phase ensures that only candidates who meet both the job requirements and the community's specific "profile" move forward		
Participation Group	Recruitment Source	Area of insight
Student Group (SAVHS)	Student Leadership & Open Application	Belonging: The candidate's ability to connect with students and foster a safe, inclusive school environment.
Family & Community Group	CLC, SEAC, and Parent Advisory Committees	Culture & Values: Alignment with the building-specific needs identified in the Community Engagement Survey.
Staff, Union, and Leadership Groups	Building-wide email & Union Leadership; Email to District Leadership	Instructional Leadership: Ability to support high-quality teaching, staff morale, and systemic collaboration.

Subject: American Indian Parent Advisory Committee (AIPAC)

---

### **Purpose**

The purpose of this memo is to outline our district's statutory obligations regarding the American Indian Parent Advisory Committee (AIPAC) and to address current gaps in our compliance and community engagement. Under Minnesota Statutes 2024, section 124D.78, any district with 10 or more American Indian students must maintain an active AIPAC to ensure the maximum involvement of parents in the education of their children. Currently, St. Anthony-New Brighton has over 10 students enrolled who report that they are American Indian students. The previous year's October 1 numbers are always used to determine the AIPAC numbers.

### **The Challenge**

While the district has worked earnestly to foster a connected and engaged AIPAC, we must candidly address that we have not yet successfully formed a committee that is active, consistent, or engaged in the statutory process. Despite our outreach efforts, we have encountered significant barriers in securing the necessary family participation to drive this work forward.

This presents a unique administrative challenge because the structure of AIPAC is legally distinct from other district committees. By design, the AIPAC is intended to be community-led, with the district's role strictly limited to providing support, data, and resources rather than direction. For the committee to be valid under Minnesota statutes, it must be driven by the families it represents.

Currently, this creates a compliance paradox for the district. We are prepared to facilitate the required review processes—including data sharing and the Program Plan Review—but we cannot complete these tasks unilaterally. The statute requires "meaningful and authentic collaboration" between the district and the committee to complete compliance documents. Without active family engagement to evaluate our educational offerings and determine if student needs are being met, the district cannot ethically or legally manufacture a "Vote of Concurrence" or effectively report on the committee's behalf.

### **Current Status and Implications**

Although the AIPAC School District Liaison position was filled as of November 2025 to help coordinate these efforts, the momentum relies on community presence. Consequently, while we have the

administrative capacity to report, we currently lack the "maximum involvement" of parents required to generate the substance of that report.

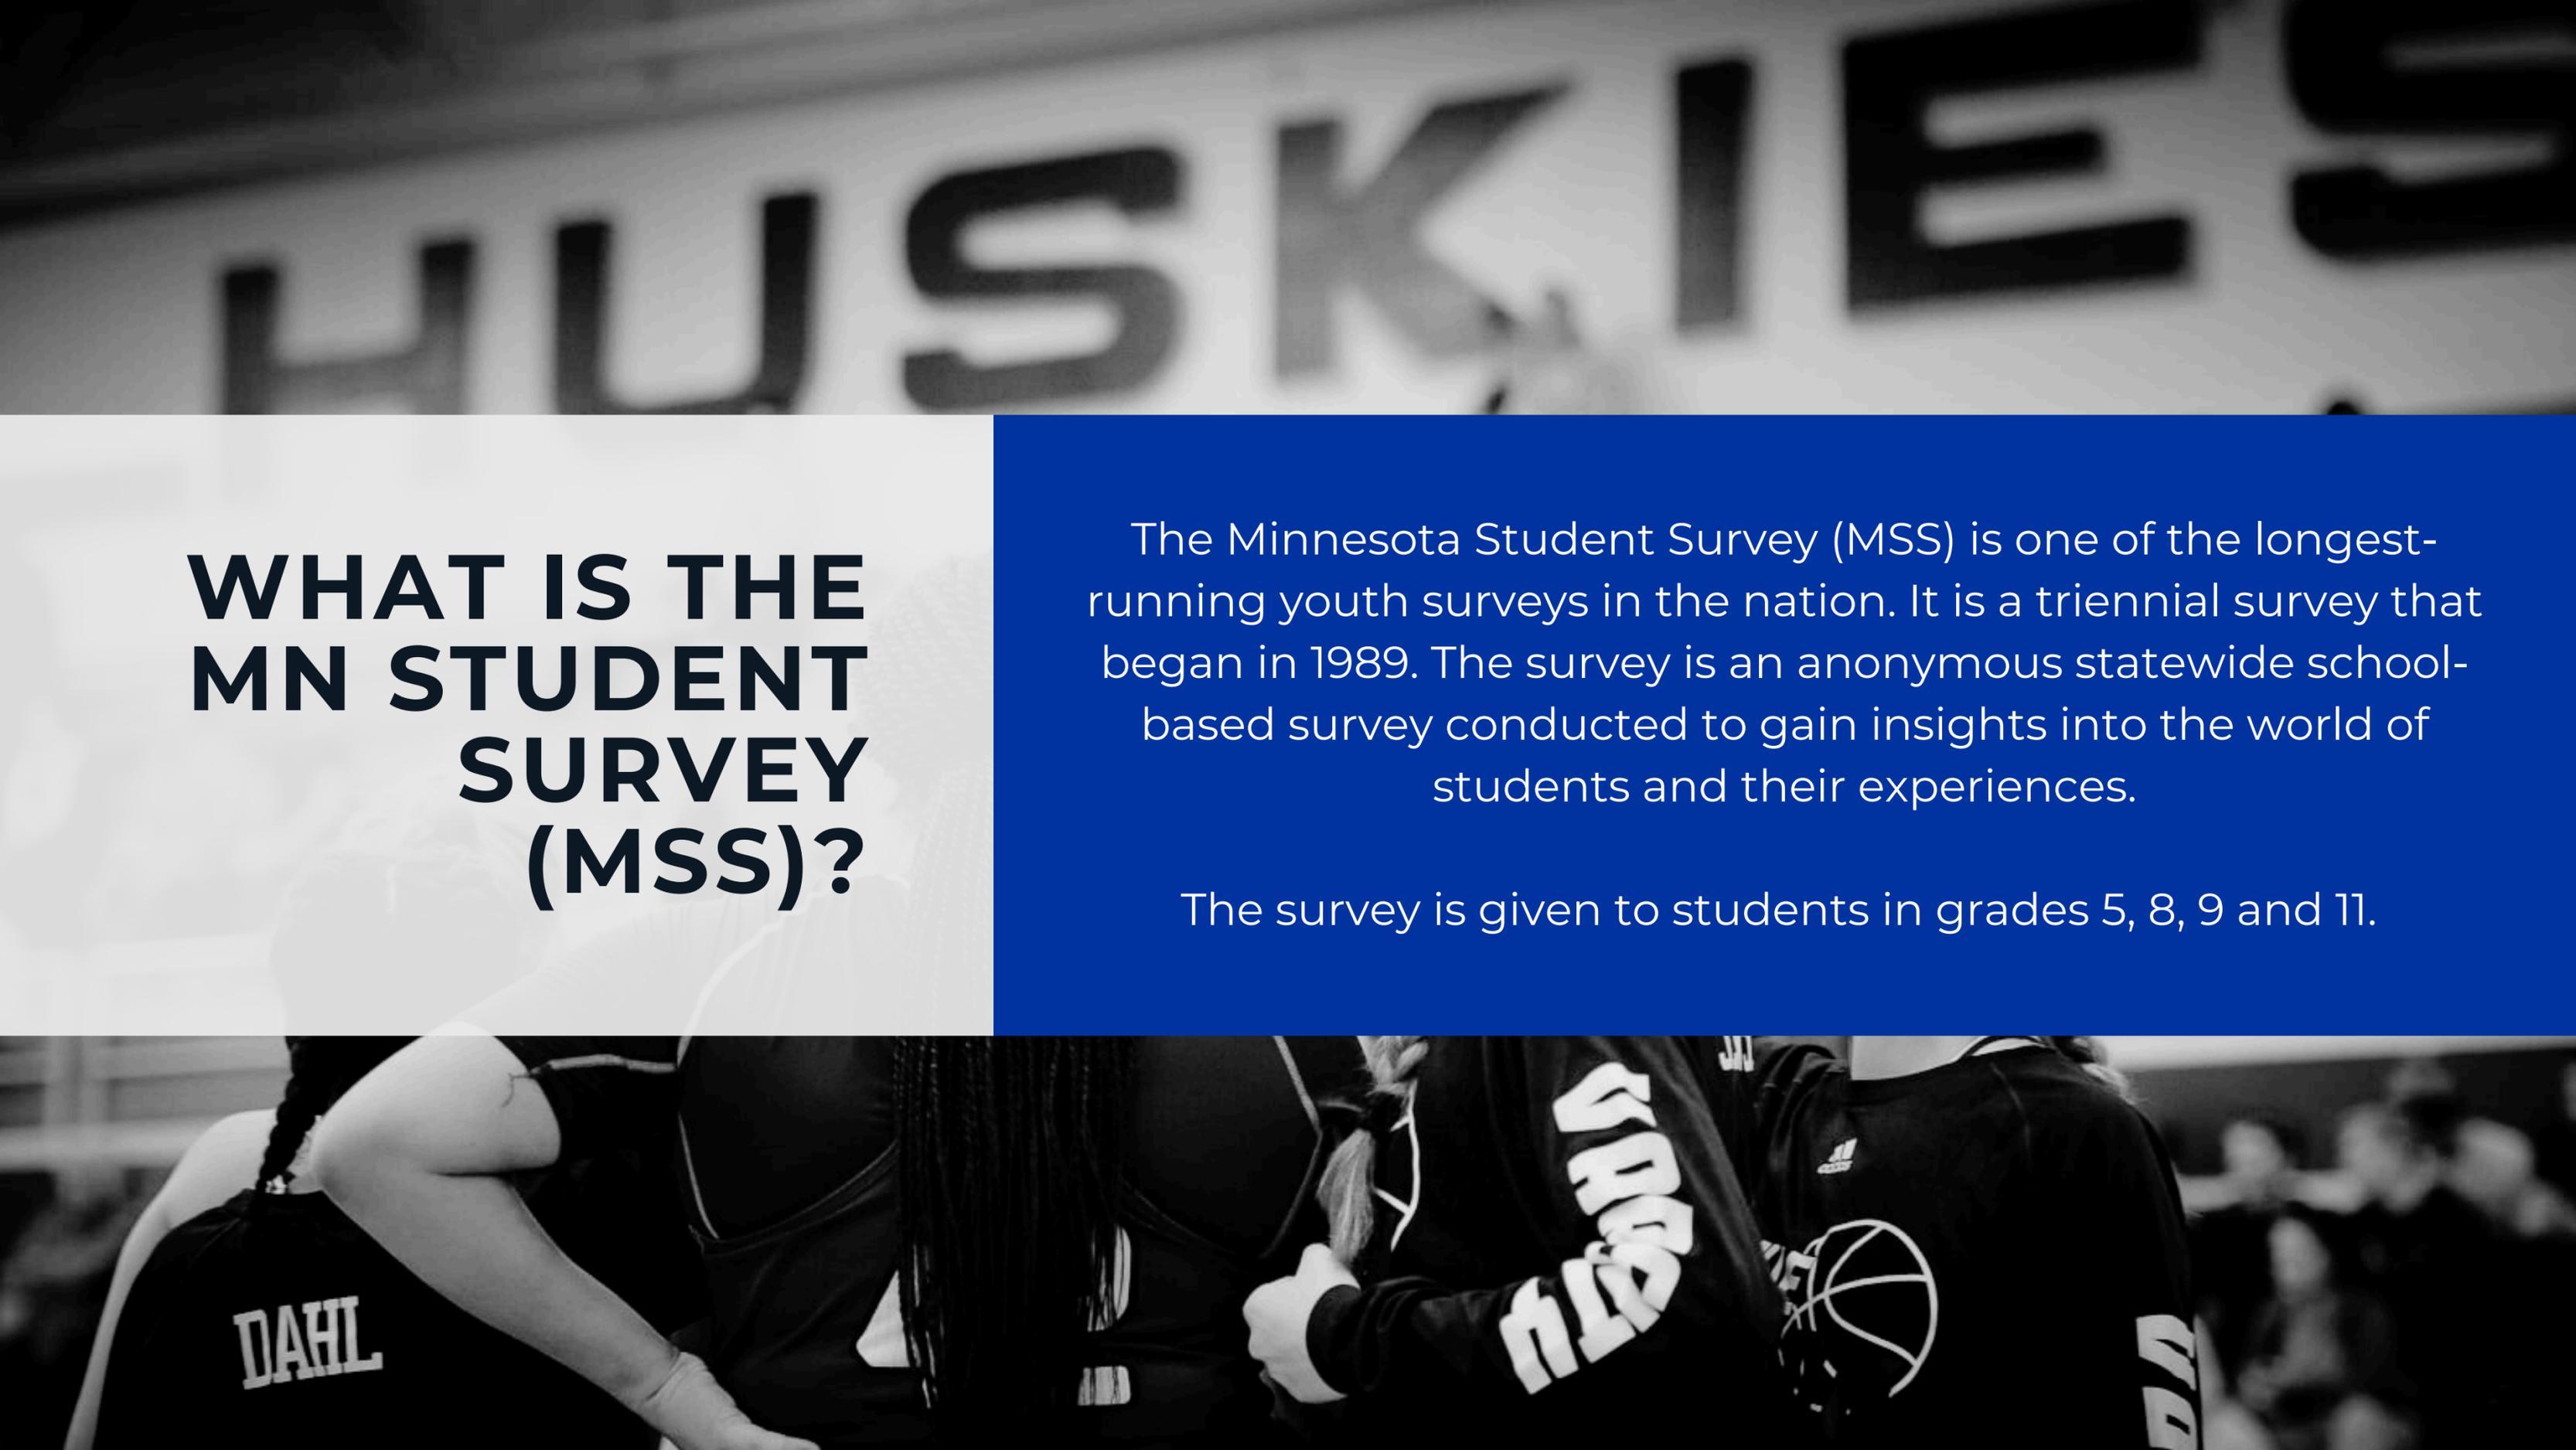

As we approach the March 1 deadline to submit our Annual Compliance/Vote of Concurrence/Nonconcurrence to the Office of American Indian Education (OAIE), we find ourselves in a position where we need to comply with our statutory obligations but lack the functioning body required to execute the vote. The vote is not merely a formality; it is a legal reflection of the district's accountability to the community. Therefore, our immediate focus must be resolving how to submit annual compliance documentation that accurately reflects this lack of engagement while demonstrating our continued commitment to forming a functional AIPAC.

Subject: Enrollment Projection for Budget

---

**Overall Context:**

This memo will further the discussion we started at our last school board meeting, Jan. 6th, regarding [student enrollment](#) and the first step in our budget development. As the board can recall, the first step in building the 2026-2027 school year budget is to determine the projected student enrollment.

It's important for the board to know that, at this time, district administration is **not** recommending an increase in student enrollment for the 2026-2027 school year.

Given the recent changes to the board and the need to hire several key administrative positions (principals), we believe maintaining stable enrollment is the most responsible path forward. Thanks to the careful and sound fiscal management by the previous school board, we are in a strong position to prioritize stability during this transition period.

Even if we don't recommend any changes in the enrollment for budgetary purposes, it remains essential for the school board to continue its exploration of school models and the effect of class size on all aspects of the educational experience.

### **What is Next?**

On January 27, the School Board will be asked to establish enrollment targets for the upcoming year. This annual action defines our open-enrollment capacity for the state and serves as the foundation for the 2026-27 planning process. By finalizing these targets now, we can confidently move forward with budget development.

Based on the projections above, administration will use an Average Daily Membership (ADM) of 1,840 for the 2026-27 budget.

### **Next Steps:**

As the Board builds the 2026–27 budget, it would be prudent to consider potential future revenue levels and other variables. Although the focus is on the 2026–27 budget, this should not preclude continued long-term financial planning and forward-looking budgeting.

- *Long-Term Revenue Stability:* Enrollment is the only true revenue source for school budgets. Currently, ISD282 would only have room to accept kindergarten students. The use of kindergartners also carries a high likelihood of retention through their 13-year K-12 career, providing a stable, multi-year revenue stream.
- *Class Size Adjustments:* Any increase in enrollment runs the possibility of increasing class size. The board can reference this [document](#) to understand the impact class size has on both the budget and learning. These conflicting issues and perceptions can create tension when building a fiscally responsible budget.
- *Application Trends:* Open enrollment demand is highest at kindergarten, sixth and ninth grade. Following these trends can help provide the board with data on future enrollment decisions.

District administration is advocating to keep enrollment stable for the 2026-27 school year. Keeping the "status quo" projections and building the budget based on the 1840 ADM will allow the district to keep its current staffing levels and models. This also provides the school board time to examine future budget and revenue options in the future.
