MEMORANDUM

Date: March 12, 2025

To: Mr. John Robinzine, Superintendent & Board of Education

From: Teresa A. Bishop, Executive Director of Finance & Operations/CSBO

Subject: Approval of Summer Camps – Summer 2025

Recommended Action

To discuss the proposed Summer 2025 Summer Camps; these are the same camps that ran last year. Formal board approval will be requested at the March 25 board meeting.

TFN: Band, Baseball, Basketball (Boys), Basketball (Girls), Cheer, Drama, Football, Soccer (Boys), Soccer (Girls), Tennis (Girls), Volleyball, and Cross Country (Boys & Girls)

TFS: Badminton, Band, Baseball, Basketball (Boys), Basketball (Girls), Drama, Football, Tennis (Boys & Girls), Volleyball, and Wrestling

Background

Staff submit proposals to run each camp annually. The total number of camps per school does not increase from year to year, but a new camp may be substituted for an old one. Each camp is required to have a minimum number of registrants. Camps with a registration response lower than the minimum will be cancelled.

Attached is the chart of the 2025 Summer Camp proposals. Fees have been standardized across all camps at \$25 per student per camp. The fees collected from each camp will be used by that camp to purchase t-shirts and other supplies needed.

Funding source if applicable: Education Fund general funds, \$106,730

Attachment: Proposed 2025 Summer Camps Schedule

MEMORANDUM

Date: March 12, 2025

To: Mr. John Robinzine, Superintendent/Board of Education

From: Becky Szuba, Assistant Superintendent of Teaching and Learning; LaQuesha Martin Dean, Director of Teaching and Learning

Subject: Math Supports and Interventions

Recommended Action

For information sharing only

Background

In November 2023, with the approval of the curriculum guide, the Board approved the restructuring of Algebra extended time courses. This allowed District to implement math supports and interventions during the school day for the 2024-2025 school year. Attached is an update on those supports and interventions.

Funding source if applicable: N/A

Attachment Math support and intervention update

Algebra 1 Intervention Program Overview 2024-2025

This program is designed to provide targeted support for students based on their specific needs with pre-identified algebraic concepts. The goal of the program is to ensure that each student gains a deeper understanding of the content and has the opportunity to improve his/her/their grade.

Students are recommended by their algebra 1 teacher to attend the intervention session during the first half of their lunch period for two to three weeks. During each session, the intervention teacher offers practice opportunities and individualized support for the students.

At the conclusion of each session, students complete an assessment provided by their Algebra 1 teacher. This assessment measures their understanding of the topic and helps improve their performance in Algebra 1. Overall, at least 75% of students who have participated in the program have improved their assessment score in their algebra class.

Algebra Intervention			
TFS	September 20th	Q1	Q2

MEMORANDUM

Date: March 12, 2025

To: Mr. John Robinzine, Superintendent/Board of Education

From: Paul Wakefield, Chief Technology Officer

Subject: IT Department Structure

Recommended Action

This is an informative presentation to the Board of Education. Future personnel recommendations are planned to come before the Board in alignment with the vision presented.

Background

At the October 11, 2023, Committee of the Whole Meeting, the Board of Education was presented with a plan to structure the organization of the IT Department to best support the growing technology infrastructure in the District. The proposal included two phases as follows:

- Phase 1 (Complete)– Establish a Technology Operations Team lead by the Director of Technology Operations. Add a new position of Network and Security Engineer.
- Phase 2 – Establish a Technology Services Team led by the Director of Technology Services. Add a position of Systems and Applications Engineer to the Technology Services Team.

The Board was supportive of the vision for the Department and Phase 1 of the proposal. It is intended that Phase 2 will be implemented for the 2025-2026 school year. Attached you will find a proposed IT Department Organizational Chart that depicts the final department structure.

Rationale

The growth of technology in education continues at an exponential pace. Technology is no longer a support of the district but is intertwined with everyday operations – from the classroom to the business office. Over the past four years, District 215 has added or completely overhauled technology systems and has improved user satisfaction.

- 1:1 Chromebook initiative – supporting an additional 3500 devices
- 300 laptops in the hands of teaching and support staff
- Enhanced classroom technology systems
- Schoology Learning Management System
- Unified Insights Data Dashboard
- Physical security systems including cameras and card access

Each of these systems takes man hours of support to ensure proper functionality – from updates to security enhancements, end of year rollover and maintenance processes. While the department has been able to absorb as much of this additional work through efficiencies, it is not feasible to continue to add systems without additional resources. Technology has many pending requests for data reporting, new systems, and classroom technology. Additionally, there is a continued need for security and infrastructure related projects that, while not in the forefront, are paramount to the operation of the district. To continue to perform at a high level of productivity and customer satisfaction, it is necessary to look to add department resources.
