What is SAT?

SAT, which stands for Student Assistance Team, is a **GENERAL EDUCATION** process that is designed to address the needs of ALL students in the following areas: *Academic, Social-Emotional, and Behavioral*.

SAT should **not** be viewed only as a special education referral process; emphasis should be on early intervention for all students who are struggling in one or more of the areas listed above. SAT should also *not* be viewed as only a place to write up an ILP; SAT can be a place to go to, for brainstorming ideas for students who are struggling.

An ILP does not need to be written for all students receiving interventions. For example a student could receive interventions listed on the district intervention protocol list. If the student is making progress an ILP does not need to be written. Continue to progress monitor the student to ensure growth. When interventions and accommodations are no longer successful and a more intense intervention is needed the SAT team can help provide more strategies and next steps. This can lead to the writing of an ILP and potentially a special education referral.

What is the Purpose SAT?

The purpose of SAT is to support the progress of students struggling with the general education curriculum, despite the use of differentiated instruction and universal interventions. The members of SAT may help develop **Tier 2** interventions for “at-risk” students who are not responding to the Tier 1 (universal) interventions that all students receive. These students typically need supplemental, strategic, and/or individualized supports. **Tier 3** interventions are for “high-risk” students who are not responding to the Tier 2 interventions. These students require more individualized supports, intensive interventions, and oftentimes one-to-one instruction.

Please note: Tier 3 is **not** meant to serve as an automatic referral for a special education evaluation. Rather, it is an intensive, individualized intervention in the general education environment that must be developed, implemented, and revised (as needed) in conjunction with data collection and progress monitoring.

SAT vs ESOL

If a student is identified as ESOL they will have an ILP that addresses academic achievement and most academic needs should be met through that ILP. Students who only have an ESOL ILP should NOT be flagged as SAT. If it is determined that an ESOL student needs additional SAT services for academic goals in anticipation of a possible special education referral, both Learning Plans should be aligned. However, if the student needs behavioral support they will need both a ESOL ILP to address academic goals and a SAT ILP to address behavior needs.

SAT Tiers:

Breakdown of Social-Emotional Supports based on RTI Framework for USD 457

*Please refer to the document titled *SAT Intervention Process Flowchart* for more information on when to refer a child for a Special Education evaluation; there is a process that needs to be followed.

The Continuum of Intervention Services

1. STEP ONE (Tier 1):

- On one end of the continuum, the classroom teacher consults with colleagues, members of SAT, and parents in order to independently implement different strategies and accommodations based on the student's needs.

- If data supports that the student is not demonstrating progress, then a SAT referral should come next.

2. STEP TWO (Tier 2):

- SAT will meet as often as necessary and work with the student's teacher(s) and parent(s) to develop an Individual Learning Plan (ILP) that will outline appropriate accommodations and interventions, along with measurable goals and outcomes.

Foundational Practices of Social-Emotional Services

- Data-Based Decision Making, including data collection, analysis, and interpretation (attendance, Office Discipline Referrals and EVCs)
- Consultation and Collaboration: Family, school, and outside agency
- Research-based interventions: Responsive Practices, Positive Behavior Intervention Support, Second Step, and SAT framework

- Please reach out and invite a specialist to a SAT meeting if the student is not making adequate progress and additional support is needed.

3. STEP THREE (Tier 3):

- SAT continues to meet as often as necessary and reviews the Tier 2 and Tier 3 intervention data. If the student is not making sufficient progress and/or is regressing, then more individualized interventions and supports may be needed with continued data collection and progress monitoring, write an ILP.
 - This process should take place *FIRST* before referring a student for a special education evaluation.
- If the student is still not making sufficient progress and/or is regressing, despite intensive Tier 3 interventions and supports, then a referral for an initial special education evaluation can be made to the School Psychologist who will then review the SAT file and data accordingly.

- i. If the referral for an initial special education evaluation is approved by the School Psychologist, then a final approval for an initial referral will be made by the Director of Special Education.
- ii. **Note:** There are exceptions to every rule (e.g., a parent request for an evaluation, administrative decisions to “fast track” the student based on their level of need, etc.). Please refer to the special education Process Handbook for more information.
- c. **IMPORTANT:** If a parent writes a letter requesting a special education evaluation and the student is not yet in SAT, then he/she should be immediately referred to SAT by the building principal and parents should be notified.
 - i. **SAT** should **NOT** be bypassed!
 - ii. Parent requests for a special education evaluation should be in writing and sent to the School Psychologist who is assigned to your building, as written requests will no longer be directly sent to the Director of Special Education for initial review/approval.

NOTE: If a student goes through a special education evaluation and is **not** found eligible to receive special education and related services, then continued monitoring **should occur** through SAT with revised accommodations, interventions, and supports, along with measurable goals and outcomes.

Extra note: If a child is dismissed from special education, they may be referred back to SAT to continue receiving appropriate accommodations and/or interventions; data collection and progress monitoring should continue as well.

**It is the responsibility of the special education case manager who attended the IEP dismissal meeting to refer the student back to SAT.*

**An ILP should be completely rewritten each year if a student needs continued support.*

Definitions

Accommodations are tools and procedures in the areas of presentation, response, setting, and timing/scheduling that provide equitable access during instruction and assessments for all students. Accommodations do not reduce learning expectations; they provide access.

Accommodations are generally grouped into the following categories:

- **Presentation Accommodations**—Allow students to access information in ways that do not require them to visually read standard print. These alternate modes of access are auditory, multi-sensory, tactile, and visual. Examples: repeat directions, read aloud, use of larger bubbles on answer sheets, etc.
- **Response Accommodations**—Allow students to complete activities, assignments, and tests in different ways or to solve or organize problems using some type of assistive technology. Examples: mark answers in a book, use reference aids, point, use of computer, etc.

- **Timing/Scheduling Accommodations**—Increase the length of time to complete a test or assignment and/or change the way the time is organized. Examples: extended time, frequent breaks, etc.
- **Setting Accommodations**—Change the location in which a test or assignment is given or the conditions of the assessment setting. Examples: study carrel, special lighting, separate room, etc.

Interventions

- **Scientifically based research** (interventions/strategies) is defined in the NCLB legislation as “research that involves the application of rigorous, systematic, and objective procedures to obtain reliable and valid knowledge, relevant to education activities and programs.” (NCLB, 2002)

To say that an instructional program or practice is grounded in scientifically based research means there is reliable evidence that the program or practice works. For example, to obtain reliable evidence about a reading strategy or instructional practice, an experimental study may be done that involves using an experimental/control group design to see if the method is effective in teaching children to read.

Need Ideas?

Each school has a variety of resources that can be used for classroom intervention purposes. Listed below are some recommended books that offer strategies.

Reading

Improving Reading: *A Handbook of Strategies* by Jerry Johns and Susan Lenski.

(Each school should have several copies of this book. Check with your communications Instructional Leader.)

Learning and Behavior

Pre-Referral Intervention Manual (PRIM) by Stephen B. McCarney, Kathy Cummins Wunderlich and Angela Bauer. (Excellent resource to use with all students to individualize instruction.)

Behavior

Behavior Intervention Manual by Sam House. (Each SAT has a copy of this).

ACCOMMODATIONS VERSUS INTERVENTIONS

ACCOMMODATIONS: An accommodation eliminates obstacles that would interfere with a student's ability to perform or produce at the same standard of performance that is expected of general education students.

Think of this: Accommodations are *changes* to the classroom structure, both organizationally and instructionally, that allows a student to *participate*.

Examples of accommodations include, but are not limited to:

- Reading a test aloud to the student (w/ no additional help)
- Allowing extra time to take the same test or complete the same assignments as other general education peers
- Breaking down work into small segments but still expecting all segments to be completed
- Preferential seating
- Short breaks between lessons

Note: In many cases, students simply need accommodations, not interventions, in order to make progress and overcome their academic, social-emotional, and/or behavioral obstacles in the general education environment.

INTERVENTIONS: An intervention is a specific skill-building strategy that is implemented and monitored in order for a student to achieve adequate progress in a specific area and improve a targeted skill. This often involves changing instruction or providing *additional* instruction to a student in the area of academic, social-emotional, and/or behavioral difficulty.

Think of this: Interventions are additions to the curriculum that are designed to help a student make progress towards benchmarks; they teach the student a new *skill* or *strategy* to use when applying a particular skill.

Examples of approved intervention programs in our district can be found in the Curriculum Council Handbook linked below.

Behavior

Sped or ESL

IEPs may override rubric scores. Although retention is discouraged with students on an IEP, the IEP team can make the decision to retain if it is in the best interest of the child.

If language is a concern, retention may not be the answer. Regarding ESOL students, the teacher/school should have evidence to prove that the lack of academic progress (not language) is the reason for the retention. Additional data that should be evaluated includes KELPA and Language Screening results.

The attached [retention documentation form](#) must be completed for any student not making adequate progress and who may be a candidate for retention. Teachers should start conducting conversations with parents as early as possible and document each contact.

Identify the student's academic, social, behavioral, and personal strengths.

What standards or skills has the student mastered at a level that they do not require reteaching?

What standards or skills does the student require extensive reteaching and support?

Which skills should be prioritized during the first 6–9 weeks in order to successfully start the school year?

Apply a Tag in EduClimber

*Do not create any new tags for SAT documentation. Use either the SAT '25 - 26 or Behavior Plan '25-26 Tags that are already created. This is to ensure other buildings can find the SAT documentation when students move buildings.

1. On the student's profile page select the 'tag' tab.

2. Once on their tag window, select "Add student tag", then select the tag and year you wish to apply this tag.

3. Select the tag you wish to apply and select save.

Exiting ILP Student Plan

* Once a student has met their SAT goals or the team documents the student no longer needs support from SAT the following steps must be completed to remove tags identifying them as having a SAT Plan.

1. In EduClimber, go to the student's profile and select 'Tags'

The screenshot shows the EduClimber interface for a student's profile. At the top, there's a navigation bar with tabs for 'Incidents', 'Interventions', 'Tags', 'Comments', 'Thresholds', and 'Assessments'. The 'Tags' tab is highlighted with a red circle. Below the navigation bar, the 'Latest Assessment Scores' section is visible, showing scores for various literacy and language arts categories like AUTOREading, CBMreading, and KELPA. The 'Interventions' section on the left shows a search bar and a list of interventions.

2. Select the tag you wish to delete and then select delete on top

The screenshot shows the 'Student Tags' modal window. At the top, there's a header with '1 record selected' and buttons for 'Delete', 'Download', and 'Cancel'. The 'Delete' button is highlighted with a red circle. Below the header is a table with columns for 'Tag', 'School Year', and 'Description'. The table lists several tags, and the 'SAT '24-'25' tag is selected with a checkbox.

INITIAL EVALUATION FOR POSSIBLE SPECIAL EDUCATION SERVICES & ELIGIBILITY CRITERION

Additional information and eligibility indicators can be referenced at <https://www.ksde.org/Default.aspx?tabid=598>

SPECIAL EDUCATION INFORMATION ONLY

The Student Assistance Team (SAT) has determined that a referral for a comprehensive evaluation is appropriate and/or necessary to determine eligibility for special education services. The law requires a two-step process for eligibility for special education services. First, the student must meet the eligibility criteria for one of the disabilities/exceptionalities defined by law. Secondly, it must be determined that the student needs specially-designed instruction (SDI) in order to benefit from his/her education.

Definitions of Exceptionalities

Autism: means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age three but not necessarily so, that adversely affects a child's educational performance. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. The term shall not apply if a child's educational performance is adversely affected primarily because the child has an emotional disability.

Developmental Delay: "Developmental delay" means such a deviation from average development in one or more of the following developmental areas that special education and related services are required:

- (A) Physical;
- (B) Cognitive;
- (C) Adaptive Behavior;
- (D) Communication; or
- (E) Social or Emotional Development

The deviation from average development shall be documented and measured by appropriate diagnostic instruments and procedures.

Emotional Disability (KS): means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance:

- (1) An inability to learn that cannot be explained by intellectual, sensory or health factors;
- (2) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- (3) Inappropriate types of behavior or feelings under normal circumstances;
- (4) A general pervasive mood of unhappiness or depression; or
- (5) A tendency to develop physical symptoms or fears associated with personal or school problems.

The term includes schizophrenia, but shall not apply to children who are socially maladjusted, unless it is determined that they have an emotional disability.

Gifted: means performing or demonstrating the potential for performing at significantly higher levels of accomplishment in one or more academic fields due to intellectual ability, when compared to others of similar age, experience and environment.

Intellectual Disability: means significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, which adversely affects a child's educational performance.

Specific Learning Disability: means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia. The term shall not include learning problems that are primarily the result of any of the following: (1) Visual, hearing, or motor disabilities; (2) intellectual disability; (3) emotional disability; or 4) environmental, cultural, or economic disadvantage. b) A group evaluating a child for a specific learning disability may determine that the child has such a disability only if the following conditions are met: (A) the child does not achieve adequately for the child's

age or meet state-approved grade-level standards, if any, in one or more of the following areas, when the child is provided with learning experiences and instruction appropriate for the child's age and grade level: (i) oral expression; (ii) listening comprehension; (iii) written expression; (iv) basic reading skills; (v) reading fluency skills; (vi) reading comprehension; (vii) mathematics calculation; and (viii) mathematics problem solving; and (B) (i) the child does not make sufficient progress to meet age or state-approved grade level standards in one or more of the areas identified in paragraph (b) (1) (A) when using a process based on the child's response to scientific, research-based intervention' or (ii) the child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, grade level standards, or intellectual development that is determined by the group conducting the evaluation to be relevant to the identification of a specific learning disability, using appropriate assessments.

Multiple Disabilities: means coexisting impairments, the combination of which causes such severe educational needs that those needs cannot be accommodated in special education programs solely for one of the impairments. The term shall not include deaf-blindness.

Orthopedic Impairment: means a severe orthopedic impairment that adversely affects a child's educational performance and includes impairments caused by any of the following: (1) congenital anomaly, such as clubfoot or absence of a limb; 2) disease, such as poliomyelitis or bone tuberculosis; and 3) other causes, such as cerebral palsy, amputation, and fractures or burns that cause contractures.

Other Health Impairment: means having limited strength, vitality, or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the educational environment and that meets the following criteria: (1) is due to chronic or acute health problems, including asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette syndrome; and 2) adversely affects a child's educational performance.

Sensory Impairments:

- (1) **Hearing Impairment:** an impairment in hearing, whether permanent or fluctuating that adversely affects a child's educational performance but that does not constitute deafness as defined in this regulation.
- (2) **Deafness:** a hearing impairment that is so severe that it impairs a child's ability to process linguistic information through hearing, with or without amplification, and adversely affects the child's educational performance.
- (3) **Visual Impairment:** impairment in vision that, even with corrections, adversely affects a child's educational performance. The team includes both partial sight and blindness.
- (4) **Blindness:** a visual impairment that requires dependence on tactile and auditory media for learning.
- (5) **Deaf-blindness:** the combination of hearing and visual impairments that causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for the hearing impaired or the visually impaired.

Speech or Language Impairment: means a communication disorder including stuttering, impaired articulation, language impairment, or a voice impairment that adversely affects a child's educational performance.

Traumatic Brain Injury: means an acquired injury to the brain, caused by an external physical force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects educational performance. The term shall apply to open or closed head injuries resulting in impairments in one or more areas, including the following: (1) cognition; (2) language; (3) memory; (4) attention; (5) reasoning; (6) abstract thinking; (7) judgment; (8) problem-solving; (9) sensory, perceptual and motor abilities; (10) psychosocial behavior; (11) physical functions; (12) information processing; and (13) speech. The term shall not include brain injuries that are congenital or degenerative or that are induced by birth trauma.

Parent(s) Verbal Request for a Comprehensive Evaluation

School Staff Member's Title/Name: _____ School _____

Student's Name: _____ D.O.B. _____ Grade: _____

Parent(s) Name: _____ Date: _____

Parent(s) Concerns: (please document concerns parents have such as reading, math, behavior, etc.)

Procedure When Parents Request a Comprehensive Evaluation

- 1) If a parent(s) requests a comprehensive evaluation in writing, the letter is to be sent immediately to the school psychologist assigned to the student's school. This includes any letter given to classroom teachers, building principals, special education administrators or any school staff member. If a parent(s) verbally requests a comprehensive evaluation, whoever the parent(s) told about their request must complete the Parent(s) Verbal Request for a Comprehensive Evaluation form and send it to the school psychologist assigned to the student's school.
- 2) Upon receiving the written request from the parent(s) or the documentation form of parent(s)'s verbal request, the school psychologist will document on the letter/documentation form the day they received it. The school psychologist must respond within a reasonable period of time, which has been interpreted by the Kansas State Department of Education (KSDE) as being no more than 15 school days, unless there are unusual circumstances. The school psychologist will also inform the building principal about the written request.
- 3) The school psychologist will contact the parent(s) to discuss concerns and explain options such as a referral to the Student Assistance Team. If the parent(s) still wants to pursue an evaluation, the letter/documentation form is then given to the MIS secretary and treated as an initial referral for a comprehensive evaluation. If the parent(s) agrees to pursue other options such as a referral to the Student Assistance Team, the school psychologist will meet with the parent(s). This meeting may include the school principal and classroom teacher if deemed necessary. At this meeting, the parent(s) will sign the Prior Written Notice for Evaluation and Request For Consent form designated for refusing a parent(s) request. The school psychologist will give the parents a copy of their Parental Rights.
- 4) The school psychologist will document all contacts with the parent(s) and school personnel on the Documentation of Parent/Staff Contact form throughout this process.
- 5) The letter, Documentation of Parent/Staff Contact form, and Prior Written Notice for Evaluation and Request For Consent form is then given to the MIS secretary who will create a file where all documents will be kept for future reference if needed. This file will be housed in the Special Education Office at the Educational Support Center.
- 6) If the request is honored, the Student Assistance Team will complete the Initial Referral for an Evaluation packet and send it to the school psychologist.

If SAT process advances to an initial evaluation for possible special education services the following forms must be completed:

1. Parent(s) Verbal Request for a Comprehensive Evaluation
2. Initial Evaluation Referral Packet

504 Policy & Procedures

504 Guidelines

Overview:

Section 504 is a civil rights statute aimed at discrimination. Like other statutes such as Title VI (race) and Title IX (gender), Section 504 focuses on discrimination. It prohibits discrimination based on disability.

If a school receives any federal financial assistance, all programs or activities of the school are covered by Section 504 obligations.

No state or federal funding is provided to assist in complying with Section 504. All costs are the obligation of the local school. (Source: Kansas State Department of Education Section 504 ADA: Guidelines for Educators, 1997)

Section 504 states that no qualified person with a disability can be excluded from or denied benefits of any program receiving federal financial assistance. (Source: Kansas: A Parent Guide to Section 504 of the Rehabilitation Act of 1973, 1997)

History of Section 504:

With passage of the Rehabilitation Act of 1973, Congress required that school districts make their *programs and activities accessible and usable to all individuals with disabilities*. Section 504 of the Rehabilitation Act of 1973 was implemented by Congress in 1977. For many years, school districts perceived their main obligation as ensuring physical access to public buildings (i.e., ramps were installed, curbs were cut, elevators were added to multi-level buildings, restroom stalls were enlarged, etc.). Schools were at the same time committed to compliance with special education laws now referred to as the Individuals with Disabilities Education Act (IDEA).

Within the last several years, the Office for Civil Rights (OCR) has become active in assisting school districts in further defining access. *The definition of access means more than physical access; a student may require special accommodations such as modified assignments and/or curricular adaptations in order to benefit from his or her education*. (Source: Kansas: A Parent Guide to Section 504 of the Rehabilitation Act of 1973, 1997)

DEFINITIONS

Define “Appropriate Education”?

A free public appropriate education is one provided by the public elementary or secondary school, which includes general or special education and related aids and services that:

1. are designed to meet the individual educational needs of a person with a disability as adequately as the needs of nondisabled person are met, and
2. are based upon adherence to evaluation, placement and procedural safeguard requirements. (Source: Kansas: A Parent Guide to Section 504 of the Rehabilitation Act of 1973, 1997)

How Does Section 504 Define “Disability”?

Section 504 of the Rehabilitation Act of 1973 protects persons from discrimination upon their disability status.

A person is disabled within the definition of Section 504 if he or she:

- has a mental or physical impairment which sub-substantially limits one or more of a person’s major life activities;
- has a record of a physical or mental impairment that substantially limits one or more major life activities;
- or is regarded as having a physical or mental impairment that substantially limits one or more major life activities. (Source: Kansas: A Parent Guide to Section 504 of the Rehabilitation Act of 1973, 1997)

How Is “Major Life Activities” Defined?

Major life activities include functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working. When a condition does not substantially limit a major life activity, the individual does not qualify under Section 504. (Source: Kansas: A Parent Guide to Section 504 of the Rehabilitation Act of 1973, 1997)

How is Substantially Limited Defined?

To determine if a student’s disability is substantially limited, the team must consider the severity (intensity) and duration of the disability. The determination of whether or not a disability substantially limits a major life activity is subjective, since 504 does not provide any operational criteria of substantial limitation. (Reid & Katsiyannis 1995). School personnel collectively must use their professional judgment to make this determination by systematically considering the elements associated with substantial limitations. (Patton, 1998) USD 457 will use the Evaluation Data Form in Appendix A to help the team determine if the disability is substantially limited.

How is Timely Manner Defined?

USD 457 defines a timely manner as within 10 calendar days of the 504 staffing procedure. A medical diagnosis may be required to start services.

How is Modification Defined?

A modification is a change in the test administration procedure that in some way changes what is being measured. A student on a modification will not receive a curriculum that is grade level appropriate. (Source: USD 457 SAT Manual)

How is Accommodation Defined?

An accommodation is a change in instructional and/or assessment procedures so that the assessment results reflect the student’s ability with regard to what is being assessed. It does not change what is being measured. Accommodations are effective instructional and assessment practice and used so more students will be included in state and district wide testing. (Source: USD 457 SAT Manual)

How is Least Restrictive Environment Defined?

The handicapped student should be educated with non-handicapped students to the maximum extent appropriate to the needs of the handicapped student. The handicapped person shall be placed in the regular education environment unless it is demonstrated by the recipient that the education of the person in the regular environment with the use of supplementary aids and services cannot be achieved satisfactorily. (34CFR 104.34

(a) Section 504 Law) USD 457 believes that a continuum from least restrictive to most restrictive environment should be followed when considering services.

How is Discriminatory Practices Defined?

A School Discriminates:

1. Denies an individual with disabilities the opportunity to participate in or benefit from an aid or service that is afforded students without a disability.
2. Fails to give the individual with disabilities an equal opportunity to participate in, or benefit from the aid or service that is afforded others.
3. Fails to provide aids or services to the individual with disabilities that are as equally effective as those provided to individuals without disabilities. Note: "Equally effective" means equivalent as opposed to identical. Moreover, to be equally effective, an aid or service need not produce equal results; it must merely afford an equal opportunity to achieve equal results. (Comment to 34CFR 104.4 (b) (2))
4. Provides different or separate aids or services for students with disabilities unless such action is necessary for them to be as effective as the aids, benefits or services provided to other students.
5. Denies a person with disabilities the opportunity to participate as a member of a planning or advisory board strictly because of his/her disability.
6. Otherwise limits the enjoyment of any right, privilege, advantage or opportunity enjoyed by others.
7. In determining the site or location of a facility, makes selections that effectively exclude individuals with disabilities, denies them the benefits of, or otherwise subjects them to discrimination.

Examples of Discrimination:

1. A student with a disability is denied recognition as an honor roll student because one class is in the resource room.
2. A student is expelled from school for misbehavior that is related to his/her disability, without the school district providing a free and appropriate education.
3. The school provides a school day that is shorter in duration than that provided to students without disabilities.
4. The school refuses to allow a student with a disability the opportunity to audition for athletic teams, cheerleading, or other extra-curricular activities.
5. The school denies course credit to a student whose absenteeism is the result of a disability.
6. The school refuses to dispense medication to a student who needs it to benefit from education
7. The high school counselor fails to provide information about the special provisions of the college board examinations to students with disabilities.
8. The school refuses to provide a modified adaptive physical education program for a student who cannot participate in general physical education.
9. The school does not provide an interpreter for a deaf parent to attend a school meeting regarding his/her child.
10. An employee with cancer is assigned work hours that prevent access to chemotherapy treatments.

WHAT ARE A PARENT'S AND STUDENTS RIGHTS FOR 504 IDENTIFICATION, EVALUATION AND PLACEMENT?

The have the right to:

1. Have their child take part in, and receive benefits from, public education programs without discrimination because of his/her disability;
2. Have the school district advise them of your rights under federal law;
3. Receive notice with respect to identification, evaluation, or placement of their child'
4. Have their child receive a free appropriate public education. This includes the right to be educated with students without disabilities to the maximum extent appropriate. It also includes the right to have the school district make accommodations to allow their child an equal opportunity to participate in school and school-related activities;
5. Have their child educated in facilities and receive service comparable to those provided to students without disabilities;
6. Have evaluation, educational and placement decisions made based upon a variety of information sources, and by persons who know the student, the evaluation data, and placement options;
7. Have their child receive special education and related services if he/she is found to be eligible under Section 504 of the Rehabilitation Act.
8. Have transportation provided to and from an alternative placement setting at no greater cost to them than would be incurred if the student were placed in a program operated by the district.
9. Have their child be given an equal opportunity to participate in non-academic and extracurricular activities offered by the district;
10. Examine all relevant records relating to decisions regarding their child's identification evaluation, educational program, and placement;
11. Obtain copies of educational records at a reasonable cost unless the fee would effectively deny them access to the records;
12. Receive a response from the school district to reasonable requests for explanations and interpretations of their child's records;
13. Request amendment of their child's educational records if there is reasonable cause to believe that they are inaccurate, misleading or otherwise in violation of the privacy rights of their child. If the school district refuses this request for amendment, it shall notify them within a reasonable time, and advise them of the right to a hearing.
14. File a 504 grievance if they have a disagreement with the school;
15. Request mediation or an impartial due process hearing related to decisions or actions regarding their child's identification, evaluation, educational program or placement. The parent and the student may take part in the hearing and have an attorney represent them.

The Law

Eligibility

Section 504 is often referred to as the first civil rights act for individuals with disabilities. Section 504 applies to students, parents, employees, and other individuals with disabilities. The regulations implementing Section 504 have several major areas of emphasis: Subpart B - Employment Practice, Subpart C - program accessibility and Subparts D and E - requirements for preschool, elementary, secondary, and postsecondary education. USD 457 focuses on Subparts B, C, and D. (Source: Kansas State Department of Education Section 504 ADA: Guidelines for Educators, 1997)

Subpart B: Employment Practices

No qualified person shall, on the basis of his/her disability, be subjected to discrimination in employment by any program or activity that receives federal funds or is a public entity.

The school must make reasonable accommodations for qualified applicants or employees with known physical and mental impairments unless the accommodation would impose an undue hardship on the operation of the school's program.

Examples of reasonable accommodations would include: making facilities accessible to and usable by persons with disabilities, job restructuring, part time or modified work schedules, and acquisition or modification of equipment or devices.

The regulations mention the following factors to consider in determining of "Undue Hardship".

The overall size of the school's program with respect to the number of employees, number and type of facilities, and size of budget;

The type of the school's operation, including the composition and structure of its workforce; and

The nature and cost of the accommodation needed.

—

Subpart C: Program Accessibility

No individual with a disability shall be denied the benefits of, be excluded from participation in, or be otherwise subjected to discrimination under any program or activity because facilities are inaccessible or unusable. Building and program accessibility is applicable to any individual with disabilities accessing any activities or programs in that school building.

The regulation contains two standards to be used in determining whether programs and activities are accessible to individuals with disabilities. One standard deals with "existing" facilities; the other deals with "new" construction. The term "existing facility" means the facility was in existence or in the process of construction before June 3, 1977, the effective date of the regulation. The term "new construction" means groundbreaking that took place on or after the effective date of the regulation. Existing facility under ADA was January 26, 1992.

Leased facilities (mobile units) that are leased or constructed with federal funds are required to meet the standards of new construction. Other leased units are required to meet the standards of existing facilities.

The standard for a facility existing before June 3, 1977 for 504 or January 26, 1992 for ADA, requires that federally assisted programs or activities operated in that facility must, when viewed in their entirety, be readily accessible. This standard does not require that every facility or part be accessible, so long as the program or activity as a whole is accessible. Thus, recipients need not make structural changes to facilities that existed before June 3, 1977 for 504 or before January 26, 1992 ADA, where other alternative methods are effective in making programs and activities accessible, so long as priority consideration is given to offering the services in the most integrated setting appropriate.

One example of an alternative method in a school would be the relocation of classes, activities or services to an accessible site. Facility alteration or new construction is required to achieve program accessibility only if sufficient relocation of classes, activities or services cannot be housed in an existing facility. In meeting the objective of program accessibility, the school must take precautions not to isolate or concentrate students with disabilities in settings away from students without disabilities.

The regulation requires that all new construction began after June 3, 1977 for 504, or January 26, 1992 for ADA, as well as alterations to existing facilities, must be designed and constructed so as to make facilities accessible and usable by individuals with disabilities.

(Source: Kansas State Department of Education section 504 ADA: Guidelines for Educators, 1997)

Subpart D: Requirements for preschool, elementary, middle level, junior high, secondary education and adult education programs.

Preschool, elementary, middle level, junior high, secondary and adult education programs must take into account the needs of qualified persons with disabilities in determining the aid, benefits, or services to be provided under these programs or activities.

The school must provide a free appropriate public education to students with disabilities in its jurisdiction who are eligible under Section 504/ADA. Instruction must be individually designed to meet the needs of those students as adequately as the needs of students without disabilities. This standard of what is “appropriate” does not differ from the IDEA “appropriate” standard which requires the school to design a program reasonably calculated to confer educational benefit. An appropriate education under Section 504 requires that services be effective and equal.

Although Section 504/ADA does not require schools to develop an Individual Education Program with annual goals and objectives, it is required that the school document services and/or accommodations provided for each student eligible under Section 504/ADA. (*See 504 Accommodations and Modifications Documentation Book.*) If the Building Level Support Team (SAT) suspects a need for accommodation, a referral should be made, evaluations conducted, and eligibility determined by a team knowledgeable about the student.

The quality of educational services provided to individuals with disabilities must be equivalent to the services provided to individuals without disabilities. Teachers, administrators, staff, and parents should receive ongoing training in the instruction of individuals with disabilities and be knowledgeable about the disability, appropriate materials and equipment. The Section 504/ADA Coordinator will be responsible to develop and implement staff and parent training.

IDENTIFICATION, PLACEMENT and REVIEW Process for 504

Step One: Identification

The school personnel or parent identifies a student or the student can self-identify who needs consultation service and support (Appendix E).

Step Two: Referral

The school personnel or parent refers the student to the Student Assistance Team for consultation and support.

Step Three: Pre-Assessment

1. Pre-assessment activities occur and the Student Assistance Team determines if consideration for special education is appropriate, consideration of 504 is appropriate, or no further referral is needed.
2. A copy of the pre-assessment packet will remain with the Student Assistance Team for follow-up at the end of year.

Step Four: Evaluation

1. The Student Assistance Team will draw information from a variety of sources in the area of concern, assigning persons to collect needed evaluation data. This requires parental consent (Appendix G).
2. The Student Assistance Team or the 504 Coordinator may request a physician's statement on the disability.

Step Five: Staffing

1. The Student Assistance Team chairperson, principal or the designated building 504 coordinator will organize the staffing, using the section 504 Notice of Conference Form (Appendix F). The staffing is made up of the Student Assistance Team Chairperson, teachers that work with the child, other staff members work directly with the child, the parents, the child (optional) and principal or principal designee. Other people may attend the staffing and give opinions but may not vote as to whether a 504 is appropriate or not.
2. The 504 Staffing Committee meets and information is presented in the following order:
 - a. An overview is presented by the chairperson or principal, which includes a definition of 504.
 - b. Statement from classroom teacher(s) are made
 - c. Statement from others that have directly worked with child are made
 - d. Statement from SAT pre-assessment and other evaluations
 - e. Statement from parent (optional)
 - f. Statement from student (optional)
 - g. Statement from other people present at staffing (optional)
3. Team determines (decision should be made by consensus) if a 504 is appropriate.
 - If a student is found eligible for a 504, an accommodation plan is developed, using the Evaluation Summary and Accommodation/Services Form (Appendix H). Parental Rights are explained and parental permission obtained but is not required (Appendixes I & J). A team member is assigned the case manager.
 - If a student is not found eligible for a 504 the findings from the staffing should be recorded on the Evaluation Summary form (Appendix H) and signed by all in attendance. Team members are eligible at that time to write differing opinions from the staffing recommendation. The SAT team chairperson will decide if an individualized learning plan is appropriate.

Accommodations and Services for 504

1. Accommodations and services will begin within a reasonable time frame. (See definition of reasonable.)
2. All staff working with a child will document accommodations and services in the 504 Accommodations/Modifications Booklet.
3. All staff members providing services to a student will have a copy of the student's 504 plan and accommodations.

File Records

1. One compliance file is housed in the principal's or designee's office.
2. One compliance file is housed in the coordinator's office.
3. The 504 field on the student information system should be marked by the principal or their designee.
4. Once a student has left a school the file will be personally transported to the next school by parents. Students that leave the district will have their files sent to district 504 Coordinator.
5. Place flag (Appendix L) in the student's cumulative folder while the 504 folder is actually being managed by the 504 coordinators.

Re-evaluation

1. A re-evaluation (Appendix K) of needs to occur periodically as needed and at least once during the school year. The case manager, SAT chairperson, and principal are responsible to make sure this happens.

Please see the 504 handbook for additional information. All forms are located online

504 forms may be found with your building principal

MEMORANDUM

TO: Board of Education
THRU: Josh Guymon, Superintendent
FROM: Steve Nordby, Assistant Superintendent
DATE: June 23, 2026
RE: BLUE CROSS AND BLUE SHIELD OF KANSAS - PATHWAYS TO A HEALTHY KANSAS INITIATIVE - YOUTH PHYSICAL ACTIVITY PACKAGE - USD 457 - SIXTH GRADE AFTER-SCHOOL INTRAMURAL PROGRAM

ISSUE:

The Board of Education is asked to consider and approve the implementation of 6th grade intramurals at Bernadine Sitts and Charles Stones Intermediate Centers in partnership with Blue Cross Blue Shield and the Pathways to a Healthy Kansas Initiative Grant.

BACKGROUND:

Garden City Public Schools (USD 457), in partnership with LiveWell Finney County and the Blue Cross and Blue Shield of Kansas Pathways to a Healthy Kansas Initiative, proposes the implementation of a comprehensive after-school intramural program designed specifically for sixth-grade students attending Bernadine Sitts Intermediate Center and Charles Stones Intermediate Center.

The program will provide structured, no-cost physical activity opportunities that increase access to exercise. The program is intended to reduce barriers that often prevent youth participation in traditional sports, including cost, transportation, skill level, and limited opportunities for recreational play.

Community engagement activities conducted through the Pathways initiative identified a need for additional physical activity opportunities for middle-grade youth. This proposal responds directly to that need by creating a school-based, inclusive program focused on participation, skill development, and fun.

ALTERNATIVES:

Approve the implementation of 6th grade intramurals as proposed.

Deny the implementation of 6th grade intramurals as proposed.

RECOMMENDATION:

Administration recommends that the Board of Education consider and approve implementation of 6th grade intramurals in partnership with Blue Cross Blue Shield and the Pathways to a Healthy Kansas Initiative Grant.

FISCAL NOTE:

No cost to USD457. If approved, we would apply for and accept a noncompetitive Pathways Implementation Grant in an amount not to exceed \$25,000, and carry out the project as described in the attached Sixth Grade After-School Intramural Program Overview.

PROPOSAL OVERVIEW

Garden City Public Schools (USD 457), in partnership with LiveWell Finney County and the Blue Cross and Blue Shield of Kansas Pathways to a Healthy Kansas Initiative, proposes the implementation of a comprehensive after-school intramural program designed specifically for sixth-grade students attending Bernadine Sitts Intermediate Center and Charles Stones Intermediate Center.

The program will provide structured, no-cost physical activity opportunities that increase access to exercise. The program is intended to reduce barriers that often prevent youth participation in traditional sports, including cost, transportation, skill level, and limited opportunities for recreational play.

Community engagement activities conducted through the Pathways initiative identified a need for additional physical activity opportunities for middle-grade youth. This proposal responds directly to that need by creating a school-based, inclusive program focused on participation, skill development, and fun.

PROGRAM PURPOSE

The purpose of the Sixth Grade After-School Intramural Program is to:

- Increase physical activity among sixth-grade students.
- Provide equitable access to physical activity opportunities.

TARGET POPULATION

Primary Population:

All sixth-grade students attending Bernadine Sitts Intermediate Center and Charles Stones Intermediate Center.

A Spring 2026 Youth Physical Activity Survey received 49 total responses from parents of 4th, 5th, and 6th grade students. The survey was available in English and Spanish languages. Parents identified the top barriers to participation as the cost of sports, scheduling conflicts and lack of organized activities for specific sports.

A free, school-based after-school athletics program focused on soccer, basketball, and track and field would fit many of the needs identified by families. These activities were among the top interests selected by parents and would help remove key barriers by offering convenient, no-cost opportunities for students to be active after school.

PROGRAM GOALS

Goal 1:

Increase access to free, structured physical activity opportunities for sixth-grade students.

Goal 2:

Increase the number of students participating in regular physical activity outside of physical education classes.

Goal 3:

Establish a sustainable intramural program that can continue beyond Pathways funding and transition to middle school when sixth grade moves from intermediate school to junior high school in 2028.

PARTICIPATION TARGETS

The program will serve an estimated 75–150 unique sixth-grade students annually across both intermediate centers.

Students may participate in one season or multiple seasons throughout the school year.

PROGRAM STRUCTURE

The program will operate throughout the school year and will be provided at no cost to participants.

Schedule:

Two days per week (Tuesdays and Thursdays)

Time:

Immediately after school until approximately 5:00 p.m.

Locations:

- Bernadine Sitts Intermediate Center
- Charles Stones Intermediate Center
- USD 457 athletic facilities

TRANSPORTATION

Students will remain at school immediately following dismissal. Parents will be responsible for transportation from after school programming and students must be picked up by 5:15 pm.

FROM: Brandon Anderson, Director of Plant Facilities
DATE: 06/30/2026
RE: **Consider and Act on Bids received for Horace Good Re-Roof of areas G & J and authorize Plant Facilities Director to sign the contract for the job.**

ISSUE & BACKGROUND:

Under our Master Agreement with GMCN as our Architect of Record we approved proposed Service Order #3 back in January. This project was to re-roof areas B & C at Georgia Matthews Elementary with an estimated budget of \$575,000.

During the design phase it was realized that this project would have been a complete tear off as it was found that the gypsum decking was saturated with moisture. During further inspection it was then found that a lot of conduit and infrastructure was anchored to the gypsum deck and this would have made this project escalate in price and because of the need to remodel it would not be able to fit into the summertime project window.

We then shifted focus on areas G and J for re-roof at Horace Good. These areas are listed on the Long-Range Plan and similar in size to the Georgia Matthews project. We bid these areas out and received 4 bids for review and consideration.

Director of Plant Facilities, Brandon Anderson will be present and stand for questions.

ALTERNATIVES:

1. Take No Action
2. Accept Lowest Responsible Base Bid (Section G) Band Hall of \$97,500
3. Accept Lowest Responsible Base Bid (Section G) Band Hall and Alternate Bid (Section J) Lower Library Roof and Classrooms of \$258,300

RECOMMENDATION:

Staff's recommendation would be to approve the lowest responsible bid from D.V. Douglass, Garden City, KS for the base bid and the alternate with a total bid price of \$258,300 and authorize the Director of Plant Facilities to sign the contract.

FISCAL NOTE:

The original budget figure in the LRP for the Georgia Matthews Roof was \$575,000.

If approved the work would be during the Fall school session. We would create a work zone between the 2 areas and keep students and staff out of the construction zone.

§ 2.1.1.5.1.1 The Architect shall provide administration of the Contract between the Owner and the Contractor as set forth below and in AIA Document A201™-2017, General Conditions of the Contract for Construction. If the Owner and Contractor modify AIA Document A201-2017, those modifications shall not affect the Architect's services under this Agreement unless the Owner and the Architect amend this Agreement.

§ 2.1.1.5.1.2 The Architect shall advise and consult with the Owner during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect shall be responsible for the Architect's negligent acts or omissions, but shall not have control over or charge of, and shall not be responsible for, acts or omissions of the Contractor or of any other persons or entities performing portions of the Work.

§ 2.1.1.5.1.3 Subject to Article 4 of the Master Agreement and except as provided in Section 2.1.1.5.6.5, the Architect's responsibility to provide Construction Phase Services commences with the award of the Contract for Construction and terminates on the date the Architect issues the final Certificate for Payment.

§ 2.1.1.5.2 Evaluations of the Work

§ 2.1.1.5.2.1 The Architect shall visit the site at intervals appropriate to the stage of construction, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine, in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work.

§ 2.1.1.5.2.2 The Architect has the authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 2.1.1.5.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests shall be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 2.1.1.5.2.4 Interpretations and decisions of the Architect shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and decisions, the Architect shall endeavor to secure faithful performance by both Owner and Contractor, shall not show partiality to either, and shall not be liable for results of interpretations or decisions rendered in good faith. The Architect's decisions on matters relating to aesthetic effect shall be final if consistent with the intent expressed in the Contract Documents.

§ 2.1.1.5.2.5 Unless the Owner and Contractor designate another person to serve as an Initial Decision Maker, as that term is defined in AIA Document A201-2017, the Architect shall render initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 2.1.1.5.3 Certificates for Payment to Contractor

§ 2.1.1.5.3.1 The Architect shall review and certify the amounts due the Contractor and shall issue certificates in such amounts. The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's evaluation of the Work as provided in Section 2.1.1.5.2 and on the data comprising the Contractor's Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to (1) an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, (2) results of subsequent tests and inspections, (3) correction of minor deviations from the Contract Documents prior to completion, and (4) specific qualifications expressed by the Architect.

§ 2.1.1.5.3.2 The issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 2.1.1.5.3.3 The Architect shall maintain a record of the Applications and Certificates for Payment.

§ 2.1.1.5.4 Submittals

§ 2.1.1.5.4.1 The Architect shall review the Contractor's submittal schedule and shall not unreasonably delay or withhold approval of the schedule. The Architect's action in reviewing submittals shall be taken in accordance with the approved submittal schedule or, in the absence of an approved submittal schedule, with reasonable promptness while allowing sufficient time, in the Architect's professional judgment, to permit adequate review.

§ 2.1.1.5.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 2.1.1.5.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals.

§ 2.1.1.5.4.4 Subject to Article 4 of the Master Agreement, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth, in the Contract Documents, the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information.

§ 2.1.1.5.4.5 The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents.

§ 2.1.1.5.5 Changes in the Work

§ 2.1.1.5.5.1 The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to Article 4 of the Master Agreement, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 2.1.1.5.5.2 The Architect shall maintain records relative to changes in the Work.

§ 2.1.1.5.6 Project Completion

§ 2.1.1.5.6.1 The Architect shall:

1. conduct inspections to determine the date or dates of Substantial Completion and the date of final completion;
2. issue Certificates of Substantial Completion;
3. forward to the Owner, for the Owner's review and records, written warranties and related documents required by the Contract Documents and received from the Contractor; and,
4. issue a final Certificate for Payment based upon a final inspection indicating that, to the best of the Architect's knowledge, information, and belief, the Work complies with the requirements of the Contract Documents.

§ 2.1.1.5.6.2 The Architect's inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.

§ 2.1.1.5.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of

the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 2.1.1.5.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.

§ 2.1.1.5.6.5 Upon request of the Owner, and prior to the expiration of one year from the date of Substantial Completion, the Architect shall, without additional compensation, conduct a meeting with the Owner to review the facility operations and performance.

§ 2.1.1.5.1 General

§ 2.1.1.5.1.1 The Architect shall provide administration of the Contract between the Owner and the Contractor as set forth below and in AIA Document A201™-2017, General Conditions of the Contract for Construction. If the Owner and Contractor modify AIA Document A201-2017, those modifications shall not affect the Architect's services under this Agreement unless the Owner and the Architect amend this Agreement.

§ 2.1.1.5.1.2 The Architect shall advise and consult with the Owner during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the

BA 6-9-26

requirements of the Contract Documents. The Architect shall be responsible for the Architect's negligent acts or omissions, but shall not have control over or charge of, and shall not be responsible for, acts or omissions of the Contractor or of any other persons or entities performing portions of the Work.

§ 2.1.1.5.1.3 Subject to Article 4 of the Master Agreement and except as provided in Section 2.1.1.5.6.5, the Architect's responsibility to provide Construction Phase Services commences with the award of the Contract for Construction and terminates on the date the Architect issues the final Certificate for Payment.

§ 2.1.1.5.2 Evaluations of the Work

§ 2.1.1.5.2.1 The Architect shall visit the site at intervals appropriate to the stage of construction, to become generally familiar with the progress and quality of the portion of the Work completed, and to determine, in general, if the Work observed is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner (1) known deviations from the Contract Documents, (2) known deviations from the most recent construction schedule submitted by the Contractor, and (3) defects and deficiencies observed in the Work.

§ 2.1.1.5.2.2 The Architect has the authority to reject Work that does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable, the Architect shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not the Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, suppliers, their agents or employees, or other persons or entities performing portions of the Work.

§ 2.1.1.5.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of either the Owner or Contractor. The Architect's response to such requests shall be made in writing within any time limits agreed upon or otherwise with reasonable promptness.

§ 2.1.1.5.2.4 Interpretations and decisions of the Architect shall be consistent with the intent of, and reasonably inferable from, the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and decisions, the Architect shall endeavor to secure faithful performance by both Owner and Contractor, shall not show partiality to either, and shall not be liable for results of interpretations or decisions rendered in good faith. The Architect's decisions on matters relating to aesthetic effect shall be final if consistent with the intent expressed in the Contract Documents.

§ 2.1.1.5.2.5 Unless the Owner and Contractor designate another person to serve as an Initial Decision Maker, as that term is defined in AIA Document A201-2017, the Architect shall render initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 2.1.1.5.3 Certificates for Payment to Contractor

§ 2.1.1.5.3.1 The Architect shall review and certify the amounts due the Contractor and shall issue certificates in such amounts. The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's evaluation of the Work as provided in Section 2.1.1.5.2 and on the data comprising the Contractor's Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is entitled to payment in the amount certified. The foregoing representations are subject to (1) an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, (2) results of subsequent tests and inspections, (3) correction of minor deviations from the Contract Documents prior to completion, and (4) specific qualifications expressed by the Architect.

§ 2.1.1.5.3.2 The issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received

6/6-9-26

from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 2.1.1.5.3.3 The Architect shall maintain a record of the Applications and Certificates for Payment.

§ 2.1.1.5.4 Submittals

§ 2.1.1.5.4.1 The Architect shall review the Contractor's submittal schedule and shall not unreasonably delay or withhold approval of the schedule. The Architect's action in reviewing submittals shall be taken in accordance with the approved submittal schedule or, in the absence of an approved submittal schedule, with reasonable promptness while allowing sufficient time, in the Architect's professional judgment, to permit adequate review.

§ 2.1.1.5.4.2 The Architect shall review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 2.1.1.5.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials, or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review and take appropriate action on Shop Drawings and other submittals related to the Work designed or certified by the Contractor's design professional, provided the submittals bear such professional's seal and signature when submitted to the Architect. The Architect's review shall be for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect shall be entitled to rely upon, and shall not be responsible for, the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals.

§ 2.1.1.5.4.4 Subject to Article 4 of the Master Agreement, the Architect shall review and respond to requests for information about the Contract Documents. The Architect shall set forth, in the Contract Documents, the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing within any time limits agreed upon, or otherwise with reasonable promptness. If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to the requests for information.

§ 2.1.1.5.4.5 The Architect shall maintain a record of submittals and copies of submittals supplied by the Contractor in accordance with the requirements of the Contract Documents.

§ 2.1.1.5.5 Changes in the Work

§ 2.1.1.5.5.1 The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Subject to Article 4 of the Master Agreement, the Architect shall prepare Change Orders and Construction Change Directives for the Owner's approval and execution in accordance with the Contract Documents.

§ 2.1.1.5.5.2 The Architect shall maintain records relative to changes in the Work.

§ 2.1.1.5.6.2 The Architect's inspections shall be conducted with the Owner to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Contractor of Work to be completed or corrected.

§ 2.1.1.5.6.3 When Substantial Completion has been achieved, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 2.1.1.5.6.4 The Architect shall forward to the Owner the following information received from the Contractor: (1) consent of surety or sureties, if any, to reduction in or partial release of retainage or the making of final payment; (2) affidavits, receipts, releases and waivers of liens, or bonds indemnifying the Owner against liens; and (3) any other documentation required of the Contractor under the Contract Documents.

MEMORANDUM

TO: Board of Education
THRU: Randy Ralston, BOE President
FROM: Drew Thon, Deputy Superintendent
DATE: Tuesday, July 8, 2026
RE: KASB Policy Updates (June 2026)

ISSUE:

The Kansas Association of School Boards (KASB) has released its June 2026 policy updates, recommending revisions to several board policies due to changes in state and federal law, updated guidance from the Kansas State Department of Education (KSDE), and technical corrections. Administration is presenting these policies for a first read and requesting board review prior to adoption at a future meeting. They have been reviewed and approved by legal counsel.

BACKGROUND:

KASB periodically reviews and updates its recommended policy manual to ensure school districts remain compliant with legislative changes and evolving legal requirements. The June 2026 updates include revisions to policies related to district finances, emergency preparedness, student attendance, enrollment procedures, student records, food services, Title IX compliance, and student health services.

The following policies are being presented for first read:

CCA – Curriculum - Technical and legal updates.

DFE - Investment of Funds - Updates due to changes in Kansas law regarding school district investments.

EBBE - Emergency Drills - Aligns with new requirements for crisis drills and active shooter drill procedures.

EE - Food Services Management - Aligns district procedures with federal school meal requirements.

GAAC - Sex-Based Discrimination - Updates Title IX procedures and clarifies complaint processes.

JB - Attendance Records - Addresses student walkouts and attendance requirements under new state law.

JBC – Enrollment - Revises enrollment requirements for foster students.

JBCC - Enrollment of Nonresident Students - Updates procedures for foster care and foreign exchange students.

JBD - Absences and Excuses - Clarifies disciplinary procedures related to unexcused absences and student walkouts.

JGEC - Sex-Based Discrimination - Updates Title IX procedures for students and simplifies non-sexual harassment complaint procedures.

JGFGA - Administration of Emergency Opioid Antagonists - Requires schools to maintain a stock supply of Naloxone.

JGFGBA - Student Self-Administration of Medication - Updates terminology and procedures regarding emergency medications.

JQKA - Foreign Exchange Students - Revises enrollment procedures for foreign exchange students.

JRB - Release of Student Records - Requires expedited transfer of records for foster and certain special education students.

Several of these revisions are necessary to comply with new legislation enacted during the 2026 Kansas Legislative Session, while others are recommended best practices to maintain alignment with federal requirements and KASB guidance.

ADMINISTRATIVE OPINION:

ALTERNATIVES:

- Option 1: Adopt all recommended KASB policy revisions following the second reading to ensure the district's policies remain current and aligned with state and federal law.
- Option 2: Adopt only those policy revisions that are necessary to comply with new state or federal law and direct administration to further review optional or recommended policy changes before bringing them back to the Board.
- Option 3: Maintain the district's current policy manual without adopting the June 2026 KASB revisions.

RECOMMENDATION:

District administration, in consultation with legal counsel and appropriate department leaders, has reviewed the recommended revisions and believes they align with current district practices and legal obligations. Adoption of these revisions will ensure the district's policy manual remains current and compliant with state and federal requirements.

It is administrations recommendation that the Board of Education adopt all recommended KASB policy revisions following the second reading to ensure the district's policies remain current and aligned with state and federal law.

FISCAL NOTE:

There is no direct fiscal impact associated with adopting these policy revisions. Certain policies, including those related to emergency preparedness and stock supplies of Naloxone, may have minor operational implications; however, existing resources and state-supported programs are expected to minimize any additional costs.

ATTACHMENTS:

- KASB Policy Updates

Sincerely,

Drew Thon
Deputy Superintendent

DFE - Investment of Funds

The board shall designate the banks, savings and loan associations, and savings banks that shall serve as depositories of the district's funds and the officer(s) and employee(s) that shall serve as depositories of the board's funds on behalf of the district. Any changes in such designations shall be ratified by board action and recorded in board minutes. The depositories designated by the board shall be responsible for investment of school district monies, and no individual authorized to have custody of board and district funds shall deposit such funds other than at banks, savings and loan associations, and savings banks designated by the board.

Any monies not immediately required for the purposes for which the monies were collected or received may be invested as provided by current statute. Investment objectives are to protect the investment principal, provide liquidity, and maximize investment return.

All offerings of monies for investment shall state the type of investment, the amount to be invested, and the maturity date of each investment. All responses shall be directed to the superintendent, or one of the board's designated depositories as designated by the superintendent, and shall be specified on the basis of simple interest.

Posting Securities

All investments of district monies not covered by the Federal Deposit Insurance Corporation (F.D.I.C.) coverage shall be secured to 102% of the amount of district monies by a pledge of direct federal obligations, or direct guaranteed federal agency deposits in accordance with requirements of state law or by the public moneys pooled method. Any investments in savings deposits, demand deposits, time deposits, open accounts, certificates of deposit, or time certificates of deposit in excess of the amount insured or guaranteed by the F.D.I.C. shall be secured by the Pool Money Investment Board with the Kansas State Treasurer. All investments acquired by repurchase agreements shall be perfected in the name of the district and shall be delivered to a third-party custodian, which may be the Kansas State Treasurer. Exceptions to the required posting of securities shall be only as provided by law and with approval of the board.

Savings Investments

All banks, savings and loan associations, and savings banks (hereafter "financial institution(s)") with main or branch offices located within the district and the county or counties in which part of the district is located shall be given an opportunity to respond to requests for proposals on monies offered for investment. The depository institution shall have two business days to respond to the request for proposals. Proposals for savings type accounts will be for maturities of not more than two years. If one or

more financial institutions will pay an interest rate equal to or greater than the investment rate, the district shall select one or more of the eligible financial institutions.

Repurchase Investments

The district may also make requests for proposals to invest in repurchase agreements for direct obligations of, or obligations that are insured as the principal and interest by, the United States government or any agency thereof with financial institutions located in the district. If there is no financial institution in the district, or the in-district institutions are not willing to pay an interest rate equal to or greater than the investment rate, then the district may use financial institutions in the county or counties in which the district is located. If no financial institution listed above is willing to enter into an agreement at an interest rate equal to or greater than the investment rate, then the district may enter into agreements with financial institutions located within Kansas.

Selection of Proposals

Distribution of monies for investment shall be as follows:

A depository designated by the board shall inform each eligible financial institution of the total amount of money to be invested on a specified date, the maturity date of the investment, and the type of investment. Each financial institution responding shall submit a proposal for the type of investment and the rate of interest it would pay on each type of investment for all or part of the funds to be invested.

Monies shall be invested with the financial institution offering the highest interest rate in such amount as the financial institution will accept, and any remaining amounts shall be invested with the financial institution(s) offering the next highest interest rates in such amounts as it will accept until all funds offered for investment are invested. No financial institution shall be eligible to receive any funds in the same offering at a rate lower than its proposal rate on each type of investment.

No proposal less than the most recently determined investment rate as defined in K.S.A. 12-1675a shall be accepted unless otherwise authorized by K.S.A. 12-1675.

Monies available for reinvestment as a result of maturities may be reinvested with the financial institution holding such monies provided the financial institution agrees to pay the same or higher rate as that offered by the highest proposal at the time the requests for proposals were accepted.

In the event of identical high proposals, the allocation of monies to be invested between the financial institutions offering the high proposals shall be at the discretion of the depository designated by the board.

The district treasurer shall record the following information: the date of each request for proposal; the name of each financial institution notified; the name of the officer notified; the proposal for each type of investment; the amount of monies the financial institution is willing to accept at the rate proposed.

To be eligible to receive invested funds or deposits from the district, any otherwise eligible financial institution shall have on file in the office of the district treasurer a letter requesting its inclusion in any request for proposal and providing proper assurance of compliance with requirements of applicable laws and board policy relating to maintenance of proper security and assurance of its membership in good standing consistent with current federal regulations. The superintendent shall report monthly to the board on the district's investments.

Adopted: 11/18/91

Revised: 8/21/06; 7/22/24; 7/24/25; 7/30/26

EBBE - Emergency Drills

Building principals shall be responsible for scheduling and conducting emergency and safety drills as required by law and for ensuring students are instructed in the procedures to follow during the drills and in an actual emergency.

Each building principal shall develop a written plan for specific emergency drills required by law. The plan shall include specific arrangements for the evacuation of mobility impaired and other individuals who may need assistance from staff members to safely exit the building. Although plans for evacuation are essential, the state fire marshal may grant exemptions to the number or manner of drills required by law with regard to students receiving special education or related services, upon request.

Each principal shall conduct briefings with the staff concerning the emergency plan.

Each teacher shall explain relevant portions of the plan to students under their jurisdiction prior to a date established by the principal. Within one week thereafter, the building principal shall conduct a surprise drill. Other drills shall be held at times determined by the building principal.

The four fire drills and three crisis drills required by law may be scheduled at any time during the school year. "Crisis drills" includes intruder response drills, lockdown drills, and active shooter drills but does not include active shooter simulations. The two tornado drills required shall be conducted in September and March. All these drills must be conducted by each school during school hours and cannot be made part of regular dismissal at the close of the school day.

Each emergency and safety drill plan shall be reviewed by the superintendent and filed with the clerk.

Active Shooter Drills

For the purposes of this policy, terms have the following meanings.

"Active shooter drill" means an emergency preparedness drill designed to inform and instruct students, teachers, school personnel and other school staff on how to respond in the event that an armed intruder is on the school campus or an armed assailant is in the immediate vicinity of the school. "Active shooter drill" includes:

- For grades kindergarten through five, instruction through tabletop exercises and identification of appropriate places for students to locate during an emergency; and
- for grades six through 12, the information described earlier in this definition and the practice of active shooter drills.

"Active shooter drill" does not include any sensory components, activities or elements that mimic a real-life shooting. "Active shooter drill" is not an active shooter simulation.

“Active shooter simulation” means an emergency exercise, including full-scale or functional exercises, designed to inform and instruct adult teachers, school personnel and other school staff on how to respond in the event of an armed intruder on the school campus or an armed assailant in the immediate vicinity of the school. “Active shooter simulation” includes activities or elements mimicking a real-life shooting, including, but not limited to, simulation of tactical response by law enforcement. "Active shooter simulation" does not include active shooter drills.

“School” means any elementary or secondary public school maintained and operated by a school district and any accredited nonpublic school that provides any of the grades kindergarten through 12.

“Tabletop exercise” means an exercise designed to help students better understand their individual or group roles and responsibilities. “Tabletop exercises” may include constructive problem-solving as it relates to an armed intruder on the school property or an armed assailant in the immediate vicinity of the school and may incorporate age-appropriate written or video scenarios for students to follow.

The district shall conduct active shooter drills that are consistent with the guidelines published by the Kansas State Department of Education.

Once per year, the board shall review the efficacy and effect of active shooter drills and any impacts of such drills on the safety and mental health of students, teachers, and other school personnel and staff.

The principal in any district school where an active shooter drill, active shooter simulation, or tactical training exercise is to take place shall ensure a school employee notifies each parent or person acting as parent at least 24 hours prior to an active shooter drill, active shooter simulation, or tactical training exercise. The notice shall provide that the parent or person acting as parent may opt their student out of participation in such drill or simulation. Any student who is opted out of an active shooter drill or simulation shall have the opportunity to participate in alternative safety education and shall not receive any negative or punitive treatment for not participating in such drill or simulation. If notice cannot be provided at least 24 hours prior to an active shooter drill or simulation, notice shall be provided within 24 hours of the conclusion of the active shooter drill or simulation.

Nothing in this section shall be deemed to supersede or limit the ability of a parent or person acting as parent to opt their student out of participation in an active shooter drill or simulation; or require any school to conduct active shooter drills in a manner that conflicts with the guidelines published by the Kansas State Department of Education.

Except as otherwise provided in this policy regarding tactical training exercises with law enforcement, no school shall conduct, sponsor, or permit any active shooter simulation on school property where students in grades kindergarten through eight regularly attend school.

The board of education or governing body of a school may conduct, sponsor, or permit active shooter simulations on school property, if only students in grades 9 through 12 regularly attend school on such school property.

Nothing in this section shall prohibit law enforcement agencies and adult school personnel from conducting or participating in tactical training exercises on school property if:

- The exercises do not occur during regular school hours or any time when students are present or expected to be present;
- no student participates in such exercises; and
- the board has provided prior written authorization for the use of school property for such exercises.

EE - Food Services Management

(See EBBB)

A supervisor may be hired by the board to oversee the district's food service program.

Sanitation Inspections

The Nutrition Service Department shall inspect each cafeteria to ensure that proper sanitation procedures are being followed.

Records

The supervisor shall be responsible for keeping food service records required by state and federal laws and regulations.

The supervisor shall be under the direct supervision of the superintendent and shall have control over all aspects of the district's food service programs subject to board policy, rules and state and federal regulations.

Meal Prices

Meal prices shall be determined by the board.

Free or Reduced Price Meals

Parents or guardians of students attending schools participating in federal school meal programs must be informed of the availability of reimbursable school meals and provided with information about eligibility and the process for applying for free or reduced price meals on or before the start of school each year. Access to this policy will be provided to parents or guardians when they receive information regarding eligibility and applying for free or reduced price meals.

Unpaid Meal Charges

The district's meal charging requirements are as follows.

A charge account for students paying full or reduced price for meals may be established with the district. Students may charge no more than \$11.40 in the elementary grades, \$9.10 in the middle or junior high grades, and \$3.45 in the high school grades for the purchase of meals to this account. Charging of a la carte or extra items to this account will not be permitted.

Any student failing to keep a charge account solvent as required by this policy shall not be allowed to charge further meals until the negative account balance has been paid in full. However, such students will be allowed to purchase a meal if the student pays for the meal when it is received. Students who have charged the maximum allowance to this account and cannot pay out of pocket for a meal will be provided an alternate meal consisting of a peanut butter, nut butter alternative, or deli meat sandwich, fruit, vegetable, and milk. Care will be taken by staff members requesting and distributing any alternate meals per this policy to do so discretely, while protecting the privacy of the student and the student's

parent or guardian regarding negative account balances. When providing an alternate meal, district staff will provide reasonable accommodations to students with disabilities with special dietary needs.

At least one verbal and one written warning shall be provided to a student and the student's parent or guardian prior to denying meals for exceeding the district's charge limit. Access to this policy will be provided to the student's parent or guardian with the written warning. If payment of the negative balance is not received within 5 working days of the maximum charge limit being attained, the debt will be turned over to the superintendent or superintendent's designee for collection in accordance with board policy DP. If the debt is not paid within 10 days of mailing the final notice of the negative account balance under policy DP, it shall be considered bad debt for the purposes of federal law concerning unpaid meal charges. Bad debt must be written off as an operating loss and restored using non-Federal funds, even if it has been turned over for collection through other legal means.

Payments for school meals may be made at the school or district office, at the point of service of school meals, or online at <https://family.etrition.com/p/GC457> or the parent page of gckschools.com (EZ Meal Pay). Students, parents, and guardians of students are encouraged to prepay meal costs.

The district will provide a copy of this unpaid meal charges policy to all households at or before the start of school each year and to families and students that transfer into the district at the time of transfer. The terms of this policy will also be communicated to all district staff responsible for enforcing any aspect of the policy, a copy of the policy will be posted in district meal service facilities, and the policy will be made available on the district's website and social media accounts. Records of how and when it is communicated to households and staff will be retained.

“Dating violence” means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

“Decision-maker” reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and their representatives to prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator, investigator, or informal resolution facilitator.

“Domestic violence” includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of Kansas.

The informal resolution facilitator shall not be the Title IX Coordinator, investigator, decision-maker, or appeal-decision maker.

“Stalking” means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

“Supportive measures” mean non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent regardless of whether a formal complaint has been filed. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school, and other similar measures. The supportive measures provided to the complainant or respondent by the district must remain confidential to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

“Title IX Coordinator” is the individual designated at the district level who has the responsibility to coordinate compliance with Title IX of the Education Amendments of 1972. Reporting of Sex-Based Discrimination, including Sexual Harassment

The district takes all reports of sex-based discrimination, including sexual harassment, seriously and will respond meaningfully to every such report of which the district has actual knowledge.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Any person may make a verbal or written report of sex discrimination by any means and at any time.

Any act of retaliation or discrimination against any person who has opposed discrimination; filed a complaint; or testified, assisted, or participated in any investigation, proceeding, or appeal involving sex-based discrimination, including sexual harassment, is prohibited. The district will take appropriate available action to address retaliation, which may include student or employee discipline procedures.

It shall be a violation to discourage a student or an employee from filing a complaint, or to fail to

investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy shall result in appropriate disciplinary action.

False or malicious complaints of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the complainant.

False statements made in the course of an investigation of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the individual.

Complaint Process for Sex-Based Discrimination (Not Sexual Harassment)

Complaints of sex-based discrimination that do not allege sexual harassment will be investigated through the complaint procedure outlined in policy KN to determine whether, under the totality of the circumstances, the alleged behavior constitutes a violation of this policy. Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in appropriate discipline.

Grievance Process for Sexual Harassment

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the Title IX Coordinator, the employee's supervisor, or other designated district official. Employees who fail to appropriately report complaints or incidents of sexual harassment to the Title IX Coordinator, the employee's supervisor, or other designated district official may face disciplinary action.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education, the Equal Employment Opportunity Commission, or the Kansas Human Rights Commission.

The Title IX Coordinator, any investigator, decision-maker, appeal decision-maker, or any informal resolution facilitator shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias.

Investigators shall receive training on issues of relevance of questions and evidence in order to create investigative reports that fairly summarize relevant evidence. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Within 10 business days of any reports of sexual harassment, the Title IX Coordinator shall, contact the complainant and discuss the availability of supportive measures, with or without the filing of a formal complaint; consider the complainant's wishes as to supportive measures; and inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Informal Resolution Process for Sexual Harassment Complaints

At any time during the formal complaint process regarding alleged sexual harassment and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process requires:

- The informal resolution facilitator is to be a trained educational professional, consultant, or other individual selected by the Title IX Coordinator who has received training on their role;
- the parties to be provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- at any time prior to agreeing to a resolution, any party to have the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and to be informed of any consequences resulting from participating in the informal resolution process;
- that the parties voluntarily consent, in writing, to the informal resolution process; and
- that the informal resolution process is not used to resolve allegations that an employee has sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the agreement, provide a copy of the agreement to both parties, and forward it to the Title IX Coordinator. If the matter is not resolved, the informal resolution facilitator will notify the Title IX Coordinator, who will resume the formal complaint process.

Formal Grievance Process for Sexual Harassment Complaints

No formal investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

The procedures for filing a formal complaint are as follows.

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.

- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.
- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

Upon receipt of a formal complaint, the Title IX Coordinator shall either dismiss the formal complaint or initiate the formal grievance process by providing notice to the parties of the complaint.

Dismissal of a Formal Complaint of Sexual Harassment

The Title IX Coordinator must dismiss the complaint if it is determined that:

- Even if all the facts alleged are true, the conduct alleged in the formal complaint would not constitute sexual harassment as defined herein;
- the conduct did not occur in the recipient's education program or activity; or
- the conduct did not occur against a person in the United States.

During the course of the formal grievance process, the Title IX Coordinator may dismiss the complaint if:

- A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled or employed by the district; or
- specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon a dismissal of a complaint, the Title IX Coordinator must promptly send written notice of the dismissal and reason(s) therefor simultaneously to the parties.

Dismissal of a formal complaint does not preclude an investigation or disciplinary action under another district policy.

Initiation of Formal Grievance Process for Sexual Harassment Complaints

Upon filing of a formal complaint of sexual harassment, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.
- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, the Title IX Coordinator shall provide notice of the additional allegations to known parties.

Formal Complaint Investigations Regarding Sexual Harassment

To ensure a complete and thorough investigation of any sexual harassment complaint and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied by an advisor of their choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party or witness is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint of sexual harassment, including the investigative report, and the opportunity to respond to that evidence before a determination is made;

- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

The investigator shall prepare an initial investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors simultaneously.

The parties shall have 10 days to submit a written response to the initial report for the investigator's consideration.

Following the opportunity for the parties and their advisors to review and respond to the initial report, the investigator shall submit a final report to the parties and the Title IX Coordinator simultaneously. Upon receipt, the Title IX Coordinator shall provide a copy of the final report and supporting documentation to the decision-maker.

Decision-Maker's Determination Regarding Sexual Harassment Complaints

Upon receiving the investigator's final report, but prior to reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with any answers provided, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- include the findings of fact supporting the determination;
- address any district policies and/or conduct rules which apply to the facts;
- a statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- the procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend that, based on respondent's action, respondent be subject to disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in disciplinary action.

A copy of the written determination shall be provided to both parties and the Title IX Coordinator simultaneously.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

If the formal grievance process determines the actions constituted sexual harassment in violation of this policy, the respondent shall be subject to disciplinary action, up to and including termination for employees or expulsion for students. If the formal grievance process determines the actions were in violation of other policies but do not constitute sexual harassment, the respondent may be subject discipline under those policies.

If it is determined that sexual harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Appeals Regarding Sexual Harassment Complaints

The complainant or respondent may appeal the decision-maker's determination regarding responsibility of a sexual harassment complaint or a dismissal of a formal complaint, on any of the following:

- Procedural irregularity that affected the outcomes;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal of the complaint was made that could affect the outcome; and/or
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the investigator, the decision-maker, or informal resolution facilitator that participated in any level of the grievance process that led to the original determination.

The Title IX Coordinator shall notify the parties in writing of the filing of an appeal and implement appeal procedures equally for both parties.

The appeal decision-maker shall give the parties an equal opportunity to submit a written statement in support of, or challenging, the outcome of determination of responsibility. Within 30 days

after the appeal is filed, the appeal decision-maker shall issue a written decision, including the rationale for the decision, and

provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Recordkeeping

Records relating to sexual harassment complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

Dissemination of Policy

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be published in district handbooks and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices in district or school publications, publishing in local newspapers, , or distributing memoranda or other written communications to students and employees.

In addition, the district is required to include a statement of nondiscrimination in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

Resident Students

A “resident student” is any student who has attained the age of eligibility for school attendance and lives with a parent or a person acting as a parent who is a resident of the district. For purposes of this policy, “parent” means the natural parents, adoptive parents, step-parents, and foster parents. For purposes of this policy, “person acting as a parent” means a guardian or conservator, a person liable by law to care for or support the child, a person who has actual care and control of the child and provides a major portion of support, or a person who has actual care and control of the child with written consent of a person who has legal custody of the child.

Homeless Students

Any student who has attained the age of eligibility for school attendance may attend school in the district where the student resides or is staying if the student is homeless as defined by law. Details concerning the education of homeless students may be found in board policy JBCA.

Foster Students

Any student in the custody of the Secretary of the Department for Children and Families (“DCF”) who has attained the age of eligibility for school attendance shall be permitted to enroll in and attend school in any school district of the state or remain enrolled in and continue attending school in the student’s school of origin.

If a court or DCF changes the placement of a student across a school boundary within the school district, the student shall be permitted to:

- enroll in and attend the school where the student is placed; or
- remain enrolled in and continue attending the student’s school of origin.

DCF shall determine the child's enrollment and attendance based on the best interests of the child.

The district shall not deny or delay enrollment and attendance of any foster student whose placement has changed on the basis that the school district or school is not in possession of the student’s educational records.

Details concerning the education of foster students may be found in board policy JBCB.

Nonresident Students

Details concerning the enrollment and continued enrollment process for nonresident students may be found in board policy JBCC.

Military Students

Details concerning the enrollment and attendance of military students, as defined in state law, may be found in board policy JBCD.

Enrollment Restriction

Unless approved in advance by the board, no student, regardless of residency, who has been suspended or expelled from another school district will be admitted to the district until the period of such suspension or expulsion has expired.

Enrollment Procedures

The superintendent shall establish orderly procedures for enrolling all students, including pre-enrollment, changes in enrollment, normal enrollment times, and communication to parents and to the public.

Part-Time Students

The board allows any child to enroll part-time in the school district to allow the student to attend any courses, programs, or services offered by the school district if the child:

- Is also enrolled in a nonaccredited private elementary or secondary school or in any other private, denominational, or parochial school as required by law;
- requests to enroll part-time in the school district; and
- meets the age of eligibility requirements for school attendance.

District administrators shall make a good faith attempt to accommodate scheduling requests of students enrolling in the school district in these situations but shall not be required to make adjustments to accommodate every such request.

Part-time students, other than those specified previously in this policy may enroll with the administration's permission if they complete all paperwork in a timely fashion and are in attendance no later than September 20. Such part-time students may be admitted only to the extent that staff, facilities, equipment, and supplies are available, and the students follow the district's student conduct policies and rules.

Identification of Students

All students enrolling in the district for the first time shall provide required proof of identity. Students enrolling in kindergarten or first grade shall provide a certified copy of their birth certificate, a certified copy of the court order placing the child in the custody of DCF, or other documentation which the board determines to be satisfactory. Students enrolling in grades 2-12 shall provide a certified transcript, similar pupil records or data, or other documentary evidence the board deems satisfactory.

The above requirements are not to serve as barriers to immediate enrollment of students designated as homeless or foster children as required by the Every Student Succeeds Act (ESSA) and the

McKinney-Vento Act as amended by ESSA. The district shall work with DCF, the school last attended, or other relevant agencies to obtain necessary enrollment documentation.

If proper proof of identity is not provided within 30 days of enrolling, the superintendent shall notify local law enforcement officials as required by law and shall not notify any person claiming custody of the child.

Enrollment Information

The enrollment documentation shall include a student's permanent record card with a student's legal name as it appears on the birth certificate or as changed by a court order and the name, address, and telephone number of the lawful custodian. The records shall also provide proper proof of identity.

Unless otherwise provided herein, the superintendent shall assign students to the appropriate building. Any student desiring to attend a school outside the attendance area in which the student resides may do so only with the prior written permission of the superintendent.

Assignment to a particular grade level or particular classes shall be determined by the building principal based on the educational abilities of the student. If the parents disagree, the principal's decision may be appealed to the superintendent. If the parents are still dissatisfied with the assignment, they may appeal in writing to the board.

Transferring Credit

In middle school and high school, full faith and credit shall be given to units earned in other accredited schools at the time the student enrolls in the district, unless the principal determines there is valid reason for not doing so. For online credit approval procedures after enrollment, see board policy IIBGB.

Transfers from Non-Accredited Schools

Students transferring from non-accredited schools will be placed by the principal. Initial placement will be made by the principal after consultation with parents or guardians and guidance personnel. Final placement shall be made by the principal based on the student's documented past educational experiences and performance on tests administered to determine grade level placement.

JBCC - Enrollment of Nonresident Students

(See JBC, JBCA, JBCB, and JQKA)

Kansas law requires the board to allow nonresident students to enroll in and attend the schools of the district if the board's capacity determination finds there are open seats for such students. In order to determine the district's capacity to accept nonresident students at each grade level in each district school, the board has adopted this policy.

Details concerning the nonresident enrollment and continued enrollment processes for nonresident students may be found in this policy, while general processes on enrollment documentation, assignment to buildings and classes, etc., may be found in board policy JBC.

Any student in custody of the Department for Children and Families who has attained the age of eligibility for school attendance shall be permitted to enroll in and attend any school in any school district of the state or remain enrolled in and continue attending school in the student's school of origin without application and acceptance through this policy.

Any foreign exchange student who resides, or will reside, with a host family in the district may be permitted to enroll in and attend school in the district as if the student were a resident and shall not be subject to the open-seat lottery for enrollment and attendance purposes.

- B. an institution that provides a temporary residence for individuals intended to be institutionalized; or
- C. a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for humans.

Except as otherwise provided in this policy, "nonresident student" means a child of school age, pursuant to Kansas law, who resides in Kansas and is enrolled and in attendance at or seeking to enroll and attend a school located in a district where such student is not a resident.

"Parent" means and includes natural parents, adoptive parents, stepparents, and foster parents.

"Person acting as parent" means:

- A. A guardian or conservator; or
- B. a person, other than a parent, who:
 - i. Is liable by law to maintain, care for or support the child;
 - ii. has actual care and control of the child and is contributing the major portion of the cost of support of the child;
 - iii. has actual care and control of the child with the written consent of a person who has legal custody of the child; or
 - iv. has been granted custody of the child by a court of competent jurisdiction.

"Receiving school district" means a school district of nonresidence of a student who attends school in such school district.

"Sibling" means a brother or sister of the whole or half blood, adoptive brother or sister, a stepbrother or stepsister or a foster brother or foster sister.

Determining Capacity for Nonresident Enrollment

The superintendent or designee has the responsibility for studying capacity in each school of the school district and at each grade level within each school and for making recommendations to the board regarding the district's capacity to accept nonresident students. To make recommendations to the board to assist with determining capacity, the superintendent or the superintendent's designee(s) shall do the following.

The superintendent or designee shall develop recommendations on capacity and classroom student-to-teacher ratios in each grade level in each school serving kindergarten students and students in grades one through eight. Such recommendations may be based on, but not be limited to, the following factors:

- Present classroom student-teacher ratios in each grade level in each school;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends; and

- maximum capacity of the classroom and associated learning, activity, and common area spaces.

The superintendent or designee shall develop recommendations on capacity and student-to-teacher ratios for each school building or program serving students in grades nine through twelve. Such recommendations may be based on, but not be limited to, the following factors:

- Present building or program student-teacher ratios;
- projected enrollment shifts based on the resident student population, which may include a percentage adjustment for anticipated growth or decline based on documented enrollment trends;
- anticipated demand for particular courses or programming; and
- maximum capacity of the classroom and associated learning, activity, and common area spaces.

On or before May 1st of each year, the superintendent shall present the recommendations concerning capacity and student-to-teacher ratios to the board for adoption or modification, and the board shall determine, for each grade level in each school building of the school district for the next succeeding school year, the following:

- Capacity based on the study conducted by the superintendent or the superintendent's designee;
- the number of students expected to attend school in the school district; and
- the number of open seats available to nonresidents at each grade, building, or program level.

On or before June 1st of each year, the district shall publish the number of open seats available to nonresident students in each grade level for each school building of the district for the next succeeding school year on the school district's website.

From January 1st through June 15th, district administration shall accept applications from nonresident students seeking to enroll in and attend the district in the next school year.

If the number of applications for a grade level in a school building is fewer than the number of available seats for that grade level in the school building, the nonresident students shall be accepted for enrollment and attendance at the school district, unless the nonresident student is deemed not in good standing.

If the number of applications for a grade level in a school building is greater than the number of available seats for the grade level in the school building, district administration shall randomly select nonresident students deemed in good standing using a confidential, open-seat lottery process. This process shall be completed on or before July 15th of each year.

The district shall provide to the parent or person acting as a parent of a nonresident student who was not accepted for or denied enrollment at such school district the reason for the nonacceptance or denial and an explanation of the nonresident student selection process on or before July 30th of each year.

Priority in Filling Open Seats

Regardless of capacity determinations, any nonresident student whose parent or person acting as parent is employed by the district shall be allowed to enroll as if a resident student while the parent or person acting as a parent remains employed by the district, and the student is deemed to be in good standing by district administration.

Subject to having capacity to enroll nonresident students, the district shall give priority in enrollment to the following nonresident students deemed in good standing to enroll. These students shall receive open seats without necessity of being selected through any open-seat lottery:

- Any sibling of a nonresident student who is enrolled in and attending school in the district or who is accepted to enroll in and attend school in the district, with priority given when the nonresident student is first accepted and, if necessary, at any other time the district considers transfer applications; and
- any nonresident student who is a military student as defined in K.S.A. 72-5139, with priority given when the student is first accepted and, if necessary, at any other time the district considers transfer applications.

If one of these exceptions no longer applies to the student, the student's enrollment status would be subject to review based upon the considerations for determining good standing in this policy.

Prohibitions Regarding Open Enrollment Provisions of this Policy

The district shall not:

- Charge tuition or fees to any nonresident student who transfers to the district pursuant to this policy, except fees that are otherwise charged to every student enrolled in and attending school in the district; or
- accept or deny a nonresident student transfer based on ethnicity; national origin; gender; income level; disabling condition; proficiency in the English language; or measure of achievement, aptitude, or athletic ability.

Except for a child in the custody of the Department for Children and Families or a child who is experiencing homelessness, a nonresident student shall not transfer more than once per school year to one or more receiving school districts pursuant to the provisions of this policy or authorizing Kansas law.

Transportation of Students

Neither a resident school district nor a receiving school district shall be required to provide transportation to nonresident students unless otherwise required by applicable law. If space is available on district transportation vehicles, the district may assign nonresident students an in-district bus stop to and from which transportation may be provided by the district for nonresident students. The receiving district may provide transportation from the student's residence by notifying the sending district of the receiving district's intent to provide transportation. The district shall ensure that transportation for nonresident homeless students is provided comparably to that of housed students.

KSHSAA Eligibility

Nothing in this policy or state law shall exempt a nonresident student who transfers into the district from the requirements of the Kansas State High School Activities Association ("KSHSAA") regarding eligibility to participate in KSHSAA activities.

Information Share with the Kansas State Department of Education

The superintendent shall annually submit, or have submitted, to the Kansas State Department of Education this policy, the number of nonresident student transfers approved and denied in each grade level, and whether the denials were based on capacity or in accordance with the policy's terms.

Nonresident Student Continued Enrollment

A nonresident student who has been accepted for enrollment and attendance at a district school shall be permitted to continue enrollment and attendance in the district until such student graduates from high school, reaches the age of 21 (if the student is a student with an exceptionality, not solely eligible for gifted services under an individualized education program), or receives a G.E.D., unless such student is no longer deemed by district administration to be in good standing.

Except as otherwise specified herein, nonresident students who were enrolled in and attending the district during school year 2023-2024, who were attending the district as a resident student in 2023-2024 but have since moved out of the district, or who have been accepted for enrollment by the school district on or after June 1, 2024, will be allowed to continue enrollment in the district as specified above. The district will not require parents of such students or adult or emancipated students to resubmit a new application each school year.

Determining Good Standing

Regardless of capacity to accept nonresident students at a nonresident student's grade level or in the student's designated school or program, an individual student may be denied enrollment or continued enrollment for not being in good standing. Nonresident student applicants for enrollment and nonresident students already enrolled in and attending school in the district shall be evaluated by district administration to determine standing for enrollment or continued enrollment.

Students may be denied enrollment or continued enrollment for the next school year based on the results of these evaluations. However, if the student has a disability, the student's ability to meet these expectations shall be considered prior to denying continued enrollment in the district. Similarly, administration shall consider the adverse impact of homelessness on a student's attendance and any resulting suspensions or expulsions before making a determination on the enrollment or continued enrollment of a student who is homeless. As part of this reflection, administration shall consider the obstacles a homeless student faces to arrive at school on time or each day due to housing instability, lack of transportation, or lack of other basic resources that can hinder consistent attendance.

A student meeting one or more of the following criteria shall automatically be deemed not in good standing and may be denied enrollment or continued enrollment based solely thereon.

- The nonresident student failed to maintain a 90% attendance rate in the last school year, excluding excused absences under board policy JBD and/or any relevant student handbook language;
- the nonresident student or the student's parent or person acting as a parent provided false or fraudulent information in the application process;
- the nonresident student is not a Kansas resident;
- the student is currently under a period of suspension or expulsion from any Kansas school district, and such suspension or expulsion will not expire until after the next school year has begun.
- the student has had three or more out-of-school suspensions in the current school year, excluding suspensions determined to be a manifestation of the student's disability or a failure on the part of school staff to implement an individualized education program, Section 504 plan, or behavior intervention plan; or
- the student has been given a long-term suspension or expulsion by a school district in the current school year.

Parents shall be informed of any administrative decision not to enroll or to discontinue enrollment of a nonresident student.

If district administration denies the enrollment application of a nonresident student due to the school district deeming the nonresident student as not in good standing, the parent or person acting as a parent of such student may appeal the decision to the board. A current nonresident student who is determined not to be in good standing shall not be entitled to the appeal process outlined herein.

Any student who has been denied enrollment or continued enrollment due to being deemed not in good standing may reapply for nonresident enrollment in subsequent school years.

Appeal Process

If a nonresident student's application for enrollment is denied because the student is determined not to be in good standing, the parent or person acting as a parent may appeal the administrative decision to the board.

If a parent or person acting as a parent wishes to appeal this decision, a written request for an appeal must be submitted to the clerk of the board within 10 days of receiving notice the student's application has been denied for lack of good standing. Such request shall include the individual's reasons for disagreeing with the administration's decision.

The board shall consider any appeal of these decisions and any supplemental documentation provided therewith at the next regularly scheduled board meeting following receipt of the request for appeal, and the board's designee shall notify the requestor of the result of the appeal in writing within 10 days of the board's decision thereon.

Enrollment of Out-of-State Students

If capacity for nonresident student enrollment remains after the aforementioned application, enrollment, and the disenrollment process has concluded, district administration may consider applications for enrollment submitted by students who are not Kansas residents. However, priority in enrollment shall be given to Kansas residents.

If a student who is an out-of-state resident is in good standing and has a parent or a person acting as a parent who is employed by the district, district administration may allow the student to enroll in and attend school in the district as if they were a resident of the district.

JBD - Absences and Excuses

(See AEB, IHEA, JB, JBE, JBH, and JDD)

When a student is absent from school, an attempt shall be made to contact the parent or guardian to determine the reason for the absence. The principal has been designated to determine the acceptability and validity of excuses presented by the parent(s) or the student.

Procedures for notifying parents on the day of a student's absence shall be published in the student handbook.

Excused/Unexcused Absences

The definition of "excused absence" includes the following:

- Personal illness;
- Health-related treatment, examination, or recuperation;
- Serious illness or death of a member of the family;
- Obligatory religious observances;
- Participation in a district-approved or school sponsored activity or course;
- Absences prearranged by parents and approved by the principal; and
- Students of active-duty military personnel may have additional excused absences at the discretion of the principal for visitations relative to leave or deployment.

All absences which do not fit into one of the above categories would be considered an unexcused absence and would subject a student to appropriate disciplinary action. A student serving a period of suspension or expulsion from the district shall not be considered inexcusably absent.

Significant Part of a School Day

An absence of two or more hours in any school day shall be considered an absence for a significant part of the school day.

Make-Up Work

It is the student's responsibility to obtain make-up assignments from teachers following an excused or unexcused absence.

JGEC – Sex-Based Discrimination

(See GAAC, GAAD, GAF, JDDC and KN)

The board of education is committed to providing a positive and productive working and learning environment, free from discrimination on the basis of sex, including sexual harassment. The district does not discriminate on the basis of sex in admissions, employment, or the educational programs or activities it operates. Discrimination on the basis of sex, including sexual harassment, of employees or students of the district in any district education program or activity will not be tolerated in the school district and is strictly prohibited.

Sex-based discrimination, including sexual harassment, is unlawful discrimination under Title IX of the Education Amendments of 1972. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs, or events within the United States.

The Deputy Superintendent, 1205 Fleming St., Garden City, KS 67846, 620-805-7020, has been designated to coordinate compliance with nondiscrimination requirements contained in Title IX of the Education Amendments of 1972. Information concerning the provisions of this Act, and the rights provided thereunder, are available from the Title IX Coordinator. Inquiries about the application of Title IX to the district may be referred to the Title IX Coordinator; to the Assistant Secretary for Civil Rights at the U.S. Department of Education, Office of Civil Rights, 400 Maryland Avenue, SW, Washington D.C. 20202-1100, (800)421-3481; at OCR@ed.gov; or both.

Definitions

For the purposes of this policy, the following definitions apply.

“Appeal decision-maker” reviews the appeal along with written statements in support of, or challenging, the outcome of the written determination regarding responsibility, and other relevant documentation collected during the formal grievance process. The appeal decision-maker shall not be the Title IX Coordinator, investigator, decision-maker, or formal resolution facilitator.

“Complainant” means an individual who is alleged to be a victim of conduct that could constitute sexual harassment.

“Dating violence” means violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship, and the frequency of interaction between the persons involved.

“Decision-maker” reviews all the evidence and prepares an impartial written responsibility determination as to whether the alleged conduct occurred and provides an opportunity for the parties and

their representatives to prepare written questions to be answered by the other party. The decision-maker shall not be the Title IX Coordinator, investigator, appeal decision-maker, or formal resolution facilitator.

“Domestic violence” includes felony or misdemeanor crimes committed by a current or former spouse or intimate partner of the victim under the family or domestic violence laws of Kansas.

“Formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent and requesting that the district investigate the allegation of sexual harassment.

“Informal resolution facilitator” is a neutral person, designated by the Title IX Coordinator, who has been trained to assist the parties through the voluntary informal resolution process. The informal resolution facilitator shall not be the Title IX Coordinator, investigator, decision-maker, or appeal-decision maker.

“Investigator” is the person who carries out the investigation after the formal complaint is filed and conducts interviews of the witnesses, collects and documents evidence, and drafts an investigative report. The investigator shall not be the Title IX Coordinator, decision-maker, appeal decision-maker, or informal resolution facilitator.

“Respondent” is an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

“Sex-based discrimination” means any unfair treatment, unequal opportunity, or harassment on the basis of sex in the district’s programs or activities.

“Sexual assault” means an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation.

“Sexual harassment” means conduct on the basis of sex involving one or more of the following: (1) A district employee conditioning the provision of an aid, benefit, or service of the district on an individual’s participation in unwelcomed sexual conduct; (2) unwelcomed conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district’s educational program or activity; or (3) sexual assault, dating violence, domestic violence, or stalking.

“Stalking” means engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or the safety of others or to suffer substantial emotional distress.

“Supportive measures” mean non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent regardless of whether a formal complaint has been filed. Such measures are designed to restore or

preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the recipient's educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the school, and other similar measures. The supportive measures provided to the complainant or respondent by the district must remain confidential to the extent that maintaining such confidentiality would not impair the ability of the district to provide the supportive measures. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

“Title IX Coordinator” is the individual designated at the district level who has the responsibility to coordinate compliance with Title IX of the Education Amendments of 1972. The Title IX Coordinator’s responsibilities include, but are not limited to: developing materials and ensuring professional development occurs for staff involved in Title IX compliance, creating systems to centralize records, gathering relevant data, contacting the complainant (and/or parents or guardians, if applicable) once the district has actual knowledge of alleged sexual harassment, coordinating the implementation of supportive measures, signing a formal complaint to initiate a grievance process, and ensuring any remedies are implemented.

Reporting of Sex-Based Discrimination, including Sexual Harassment

The district takes all reports of sex-based discrimination, including sexual harassment, seriously and will respond meaningfully to every such report of which the district has actual knowledge.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. Any person may make a verbal or written report of sex discrimination by any means and at any time.

Any act of retaliation or discrimination against any person who has opposed discrimination; filed a complaint; or testified, assisted, or participated in any investigation, proceeding, or appeal involving sex-based discrimination, including sexual harassment, is prohibited. The district will take appropriate available action to address retaliation, which may include student or employee discipline procedures.

It shall be a violation to discourage a student or an employee from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy. Violation of this policy shall result in appropriate disciplinary action.

False or malicious complaints of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the complainant.

False statements made in the course of an investigation of sex-based discrimination, including sexual harassment, may result in corrective or disciplinary action against the individual.

Complaint Process for Sex-Based Discrimination (Not Sexual Harassment)

Complaints of sex-based discrimination that do not allege sexual harassment will be investigated through the complaint procedure outlined in policy KN to determine whether, under the totality of the circumstances, the alleged behavior constitutes a violation of this policy.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in appropriate discipline.

Grievance Process for Sexual Harassment

Any employee who witnesses an act of sexual harassment or receives a complaint of harassment from another employee or a student shall report the complaint to the Title IX Coordinator, the employee's supervisor, or other designated district official. Employees who fail to appropriately report complaints or incidents of sexual harassment to the Title IX Coordinator, their supervisor, or other designated district official may face disciplinary action.

Use of this complaint procedure is not a prerequisite to the pursuit of any other remedies including the right to file a complaint with the Office for Civil Rights of the U.S. Department of Education.

The Title IX Coordinator, any investigator, decision-maker, appeal decision-maker, or any informal resolution facilitator shall not have a conflict of interest or bias for or against the complainant or respondent. These individuals shall receive training on the definition of sexual harassment; the scope of the education program and activities; how to conduct an investigation, including appeals and informal resolution processes; and how to serve impartially, including avoiding prejudgment of the facts, conflicts of interest, and bias.

Investigators shall receive training on issues of relevance of questions and evidence in order to create investigative reports that fairly summarize relevant evidence. Decision-makers shall receive training on issues of relevance of questions and evidence, including when questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Within 10 business days of any reports of sexual harassment, the Title IX Coordinator shall contact the complainant and discuss the availability of supportive measures, with or without the filing of a formal complaint; consider the complainant's wishes as to supportive measures; and inform the complainant of the right to a formal complaint investigation consistent with Title IX and the informal resolution process.

Informal Resolution Process for Sexual Harassment Complaints

At any time during the formal complaint process regarding alleged sexual harassment and prior to reaching a determination regarding responsibility, the district may facilitate an informal resolution process, such as mediation, that does not involve a full investigation and determination of responsibility.

The informal resolution process requires:

- The informal resolution facilitator is to be a trained educational professional, consultant, or other individual selected by the Title IX Coordinator who has received training on their role;
- the parties to be provided a written notice disclosing the allegations, the requirements of the informal resolution process, and information on when it may preclude the parties from resuming a formal complaint arising from the same allegations;
- at any time prior to agreeing to a resolution, any party to have the right to withdraw from the informal resolution process and resume the investigation of the formal complaint and to be informed of any consequences resulting from participating in the informal resolution process;
- that the parties voluntarily consent, in writing, to the informal resolution process; and
- that the informal resolution process is not used to resolve allegations that an employee has sexually harassed a student.

If the matter is resolved to the satisfaction of the parties, the facilitator shall document the nature of the complaint and the resolution, have both parties sign the agreement, provide a copy of the agreement to both parties, and forward it to the Title IX Coordinator. If the matter is not resolved, the informal resolution facilitator will notify the Title IX Coordinator, who will resume the formal complaint process.

Formal Grievance Process for Sexual Harassment Complaints

No formal investigation of alleged sexual harassment may occur until after a formal complaint has been filed.

The procedures for filing a formal complaint are as follows.

- At the time of filing a formal complaint, a complainant must be participating in or attempting to participate in the education program or activity of the district concerning which the formal complaint is filed.
- A formal complaint should be filed in writing and contain the name and address of the person filing the complaint. The complaint should briefly describe the alleged violation. Filing of the complaint with the Title IX Coordinator may be done in person, by mail, or by email. If an individual does not wish to file a written complaint, and the matter has not been

adequately resolved, the Title IX Coordinator may initiate the complaint. Forms for filing written complaints are available in each school building office and the central office.

- A complaint should be filed as soon as possible after the conduct occurs, but not later than 180 calendar days after the complainant becomes aware of the alleged violation, unless the conduct forming the basis for the complaint is ongoing.

Upon receipt of a formal complaint, the Title IX Coordinator shall either dismiss the formal complaint or initiate the formal grievance process by providing notice to the parties of the complaint.

Dismissal of a Formal Complaint of Sexual Harassment

The Title IX Coordinator must dismiss the complaint if it is determined that:

- Even if all the facts alleged are true, the conduct alleged in the formal complaint would not constitute sexual harassment as defined herein;
- the conduct did not occur in the recipient's education program or activity; or
- the conduct did not occur against a person in the United States.

During the course of the formal grievance process, the Title IX Coordinator may dismiss the complaint if:

- A complainant notifies the Title IX Coordinator in writing that the complainant would like to withdraw the formal complaint or any allegations therein;
- the respondent is no longer enrolled in or employed by the district; or
- specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon a dismissal of a complaint, the Title IX Coordinator must promptly send written notice of the dismissal and reason(s) therefor simultaneously to the parties.

Dismissal of a formal complaint does not preclude an investigation or disciplinary action under another district policy.

Initiation of Formal Grievance Process for Sexual Harassment Complaints

Upon filing of a formal complaint of sexual harassment, the district shall provide written notice to the known parties including:

- Notice of the allegations of sexual harassment including sufficient details to prepare a response before any initial interview including:
 - the identities of the parties involved, if known;
 - the conduct allegedly constituting sexual harassment; and
 - the date and location of the alleged incident, if known.

- The district's investigation procedures, including any informal resolution process;
- A statement that the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility will be made by the decision-maker at the conclusion of the investigation;
- Notice to the parties they may have an advisor of their choice and may inspect and review any evidence; and
- Notice to the parties of any provision in the district's code of conduct or policy that prohibits knowingly making false statements or knowingly submitting false information.

If, in the course of an investigation, the investigator decides to investigate allegations about the complainant or respondent that are not included in the notice initially provided, the Title IX Coordinator shall provide notice of the additional allegations to known parties.

Formal Complaint Investigations Regarding Sexual Harassment

To ensure a complete and thorough investigation of any sexual harassment complaint and to protect the parties, the investigator shall:

- Ensure that the preponderance of the evidence burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rests on the district and not the parties;
- Provide an equal opportunity for the parties to present witnesses and evidence;
- Not restrict either party's ability to discuss the allegations under investigation or to gather and present relevant evidence;
- Allow the parties to be accompanied by an advisor of their choice;
- Provide written notice of the date, time, location, participants, and purpose of any interview or meeting at which a party or witness is expected to participate;
- Provide the parties equal access to review all the evidence collected which is directly related to the allegations raised in a formal complaint of sexual harassment, including the investigative report, and the opportunity to respond to that evidence before a determination is made;
- Be impartial and objectively evaluate all relevant evidence without relying on sex stereotypes;
- Not have conflicts of interest or bias for or against complainants or respondents;
- Not make credibility determinations based on the individual's status as complainant, respondent, or witness.

The investigator shall prepare an initial investigative report that fairly summarizes relevant evidence and share the report with the parties and their advisors simultaneously.

The parties shall have 10 days to submit a written response to the initial report for the investigator's consideration.

Following the opportunity for the parties and their advisors to review and respond to the initial report, the investigator shall submit a final report to the parties and the Title IX Coordinator simultaneously. Upon receipt, the Title IX Coordinator shall provide a copy of the final report and supporting documentation to the decision-maker.

Decision-Maker's Determination Regarding Sexual Harassment Complaints

Upon receiving the investigator's final report, but prior to reaching a determination regarding responsibility, the decision-maker must afford each party the opportunity to submit written, relevant questions that a party wants asked of any party or witness, provide each party with any answers provided, and allow for additional, limited follow-up questions.

The decision-maker must issue a written determination regarding responsibility based on a preponderance of the evidence. The decision-maker's written determination shall:

- Identify the allegations potentially constituting sexual harassment;
- describe the procedural steps taken, including any notifications to the parties, site visits, methods used to gather evidence, and interviews;
- include the findings of fact supporting the determination;
- address any district policies and/or conduct rules which apply to the facts;
- a statement of, and rational for, the result as to each allegation, including a determination regarding responsibility; and
- the procedures and permissible bases for the complainant and/or respondent to appeal the determination.

The written determination may, but is not required to, recommend that, based on respondent's action, respondent be subject to disciplinary sanctions and any remedies designed to preserve access to the educational program or activity that may be provided by the district to the complainant.

Actions determined to be in violation of this policy shall result in disciplinary action, up to and including termination for employees and expulsion for students. Actions which are in violation of other policies but do not constitute sex-based discrimination may also result in disciplinary action.

A copy of the written determination shall be provided to both parties and the Title IX Coordinator simultaneously.

The decision becomes final on the date the parties receive the results of an appeal, if any appeal is filed, or on the date the opportunity for an appeal expires.

If the formal grievance process determines the actions constituted sexual harassment in violation of this policy, the respondent shall be subject to disciplinary action, up to and including termination for employees or expulsion for students. If the formal grievance process determines the actions were in violation of other policies but do not constitute sexual harassment, the respondent may be subject to discipline under those policies.

If it is determined that sexual harassment has occurred, the district will take prompt, remedial action to prevent its reoccurrence.

Appeals Regarding Sexual Harassment Complaints

The complainant or respondent may appeal the decision-maker's determination regarding responsibility of a sexual harassment complaint or a dismissal of a formal complaint, on any of the following:

- Procedural irregularity that affected the outcomes;
- new evidence that was not reasonably available at the time the determination regarding responsibility or dismissal of the complaint was made that could affect the outcome; and/or
- the Title IX Coordinator, investigator, or decision-maker had a conflict of interest or bias against either party that affected the outcome.

The request to appeal shall be made in writing to the Title IX Coordinator within 10 days after the date of the written determination. Appeals shall be a review of the record by an attorney, an independent hearing officer appointed by the board, or the board. The appeal decision-maker may not be the Title IX Coordinator, the investigator, the decision-maker, or informal resolution facilitator that participated in any level of the grievance process that led to the original determination.

The Title IX Coordinator shall notify the parties in writing of the filing of an appeal and implement appeal procedures equally for both parties.

The appeal decision-maker shall give the parties an equal opportunity to submit a written statement in support of, or challenging, the outcome of the determination regarding responsibility. Within 30 days after the appeal is filed, the appeal decision-maker shall issue a written decision, including the rationale for the decision, and

provide the written decision simultaneously to both parties and to the Title IX Coordinator.

Recordkeeping

Records relating to sexual harassment complaints filed and their resolution shall be maintained by the Title IX Coordinator for seven years.

Dissemination of Policy

A summary of this policy and the complaint procedures including how to report or file a formal complaint of sex discrimination or sexual harassment shall be published in district handbooks and on the district's website as directed by the Title IX Coordinator. Notification of the policy may include posting informational notices in district or school publications, publishing in local newspapers, publishing in newspapers and magazines operated by the school, or distributing memoranda or other written communications to students and employees.

In addition, the district is required to include a statement of nondiscrimination in any bulletins, announcements, publications, catalogs, application forms, or other recruitment materials that are made available to participants, students, applicants, or employees.

JGFGA - Administration of Emergency Opioid Antagonists

Kansas law creates standards governing the use and administration of emergency opioid antagonists approved by the U.S. Food and Drug Administration (“FDA”) to inhibit the effects of opioids and for the treatment of an opioid overdose. Any first responder or school nurse is authorized to possess, store, distribute, and administer emergency opioid antagonists as clinically indicated, provided that all personnel with access to emergency opioid antagonists are trained in proper protocol.

Similarly, Kansas law allows a patient or bystander (meaning a family member, friend, caregiver, or other person in a position to assist a person who the bystander believes to be experiencing an opioid overdose) to acquire and utilize emergency opioid antagonists.

Therefore, to further prioritize student health and safety in its schools, programs, and activities, the district shall obtain, store, and administer the emergency opioid antagonist Naloxone, which is commonly known by the brand name Narcan, for emergency use in its schools. A stock supply of Naloxone may consist of one or more standard-dose prepackaged nasal spray devices. The school nurse and other properly trained and designated district staff members may administer such medication in emergency situations to an individual who displays the signs and symptoms of opioid overdose at school, on school property, or at a school-sponsored event if such school nurse or designated school staff member reasonably believes that an individual is exhibiting the signs and symptoms of an overdose. Opioid antagonists may be available during the regularly scheduled school day. They may be available at other times at the discretion of the superintendent.

The board establishes the following rules governing the utilization and administration of emergency opioid antagonists, such as, but not necessarily limited to, Naloxone, by members of district staff.

Training

If obtaining the emergency opioid antagonist through a pharmacy, the providing pharmacy of the emergency opioid antagonist (hereafter “the product”) shall provide written education and training materials to the individual to whom the product is dispensed. First Aid for Opioid Overdose must be obtained by each school nurse and other staff members designated by the superintendent to respond to potential opioid overdose situations. In addition, all district staff members with access to emergency opioid antagonists shall be trained, at a minimum, on the following:

- Techniques to prevent opioid overdose, to recognize signs of such an overdose and to effectively respond thereto;
- Standards and procedures to safely store the emergency opioid antagonist where readily accessible to the school nurse, if applicable, or other designated school staff members responsible for distribution and administration of the emergency opioid antagonist;

- Spotting potential side effects or adverse events that may occur as a result of administering an emergency opioid antagonist;
- Emergency follow-up procedures, including the requirement to summon emergency medical services either immediately before or immediately after administering an emergency opioid antagonist to a patient;
- Inventory requirements, recordkeeping, and reporting any administration of an emergency opioid antagonist to the school nurse or another healthcare provider; and
- Availability of drug treatment programs.

District staff members personally acquiring such products for use as a patient or bystander are encouraged to inform the school nurse or the superintendent's designee, so that they may be trained in proper protocol and included in the school or district's crisis response plan regarding potential opioid overdose.

Procurement of the Product

The school nurse or other staff member(s) designated by the superintendent will be responsible for the procurement of the product.

Storage

The following storage protocols shall be followed:

- The product will be clearly marked and stored in an accessible place at the discretion of the school nurse or the superintendent's designee.
- The product will be stored in accordance with the manufacturer's instructions to avoid extreme cold, heat, and direct sunlight.
- Inspection of the product shall be conducted at least quarterly.
- The individual responsible for the product's safekeeping shall check, document, and track the expiration date found on the box. Pursuant to Kansas law, "emergency opioid antagonist" is defined to include an expired emergency opioid antagonist up to 10 years past the products expiration date. Therefore, the individual responsible for the product's safekeeping shall replace the product on or before the 10th anniversary of its expiration date.

Use of the Product

In case of a suspected opioid overdose, the school nurse, designee, or other individual shall follow the protocols outlined in the training or product instructions in administering the product.

Follow-up

- After administration of the product, the school nurse, or other designated staff, will report appropriate information to emergency services, parents (guardians), central office personnel, and if determined necessary, the patient will be transported to a hospital.
- The school nurse or other designated staff will complete the designated incident report and file the report with the school nurse or district office, whichever is applicable.

Limitations on School Nurses

While Kansas law supports the use of emergency opioid antagonists for up to 10 years after their expiration dates, school nurses are not to prescribe, dispense, distribute, or furnish expired emergency opioid antagonist, in order to protect their professional licenses.

Gifts, Grants, and Donations

The board is authorized by law to accept monetary gifts, grants, and donations to provide a stock supply of Naloxone for emergency use in its schools or may accept Naloxone nasal spray devices from manufacture or wholesalers.

Protection from Liability

Any patient, bystander, school nurse, a first responder, or technician operating under a first responder agency, who, in good faith and with reasonable care, receives and administers an emergency opioid antagonist pursuant to this policy to a person experiencing a suspected opioid overdose shall not, by an act or omission, be subject to civil liability or criminal prosecution, unless personal injury results from the gross negligence or willful or wanton misconduct in the administration of the emergency opioid antagonist.

Publish Policies and Procedures

The district shall publish information related to its Naloxone policies and procedures in student handbooks and any other locations, as determined by appropriate by the superintendent.

JRB - Release of Student Records

(See BCBK, CN, CNA, ECA, IDAE, JGGA, JR et seq. and KBA)

Individual student files are not available for public inspection. Except as provided in IDAE with regard to student records which are student data submitted to or maintained in a statewide longitudinal data system, the custodian of student records shall disclose the student's educational records only as provided for in this policy.

Directory Information

Annual notice shall be given to parents and eligible students concerning their rights with regard to student records. In addition, the custodian of the educational records shall give annual public notice of the class of records the institution has designated as directory information and of the right of the parent or eligible student to opt-out of the release of directory information without prior written consent. The appropriate forms for providing notice shall be on file in the office of the custodian of the educational records.

After giving notice and allowing a reasonable period of time for parents or eligible students to inform the district that any or all of the directory information should not be released without prior written consent, the custodian of records may make directory information available without parental or eligible student's consent.

The custodian of records shall make student recruiting information (including student name, address, and telephone listing) available to military recruiters and postsecondary institutions unless parents or eligible students provide a written request to the district providing that the specified information not be released without prior written consent. Notice of the option to opt-out of the release of recruitment information shall be provided to parents and eligible students in the district's annual notice of rights under the Family Educational Rights and Privacy Act.

For the purposes of this policy, school official means teacher, administrator, other certified employee, or board of education. The district may disclose, without the parents or eligible students' consent, personally identifiable information to school officials with a legitimate educational interest. A school official is a person employed by the school as an administrator, supervisor, instructor, or support-staff member (including health or medical staff and law enforcement unit personnel); the school board (in executive session); a person or company with whom the school has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

The custodian may disclose students' education records to the following persons without the prior consent of the parents:

- Other school officials, including teachers within the district who have legitimate educational interests;
- Officials of other schools or school systems in which the student intends to enroll. The school district will forward student records to such institutions without further notice to the parents or eligible student when the disclosure is initiated by a parent or eligible student, or an annual notice provided to parents and eligible students by the district informs them that such records will be automatically disclosed to these institutions for the purposes of enrollment or transfer of the student;
- Authorized persons to whom a student has applied for or from whom a student has received financial aid;
- State and local officials or authorities to whom such information is specifically required to be reported or disclosed pursuant to state statutes;
- Organizations conducting studies for educational agencies for the purpose of developing, validating or administering student tests or programs;
- Accrediting organizations;
- Parents of a student 18 years of age if parents claim the student as a dependent for income tax purposes;
- Appropriate persons if knowledge of any information is necessary to protect the health or safety of the student or other persons in an emergency;
- An agency caseworker or representative of a state or local child welfare agency or tribal organization who has the right to access a student's case plan when such agency or organization is legally responsible for the care and protection of the student and when any further disclosure of such information thereby will be limited in accordance with law; and
- In compliance with a lawfully issued subpoena or judicial order.

Access will be granted to any third party upon written authorization of the eligible student, parent or guardian.

No personally identifiable information contained in personal school records shall be furnished to any person other than those named herein. When there is written instruction from the student's parents, guardian or the eligible student specifying the records, the reasons and the person(s) to whom the release is to be made, a copy of the records to be released shall be made available to the student, parents or

guardian upon request. When information is requested in compliance with a judicial order or pursuant to any lawfully issued subpoena, parent(s)/guardian and the student shall be notified of the orders or subpoenas in advance of compliance with the order or subpoena unless:

- the order or subpoena specifically forbids such disclosure; or
- the order is issued in the context of a court proceeding where a parent is a party and the proceeding involves child abuse and neglect or dependency matters.

Nothing contained in this policy shall preclude authorized representatives of the Comptroller General of the United States, the Secretary and an administrative head of an educational agency or state authorities from having access to student or other records which may be necessary in connection with the audit and evaluation of federally supported education programs or the enforcement of the federal legal requirements which relate to these programs.

The data collection by such official with respect to individual students shall not include information (including social security numbers) which would permit the personal identification of students or their parents or guardian on the data collected and provided.

All persons, agencies or organizations desiring access to the records of a student shall be required to sign a form, which shall be kept permanently with the student's file, but only for inspection by the parents/guardian, the student or a school official responsible for record maintenance. The form signed shall indicate the specific educational or other interest of each person, agency or organization has in seeking this information.

Personal information shall be transferred to a third party only on the condition that such party shall not permit any other party to have access to such information without the written consent of the student's parents or the eligible student. The board and staff shall protect the rights of privacy of students and their families in connection with any surveys or data-gathering activities conducted, assisted or authorized by the board or administration.

Regulations established under this policy shall include provisions controlling the use, dissemination and protection of such data.

Prohibition on Withholding Pupil Records

Administrators shall forward student's school records upon request and may not withhold them for any reason.

Expedited Transfer of Exceptional Student Records

All records of an exceptional student, who is transferred to another district or across a school boundary within the district, shall be transferred at the same time that the student is transferred, or as soon thereafter as possible.

If an exceptional student's transfer is a result of the student's change in placement by the Department for Children and Families ("DCF"), the Kansas Department of Corrections, or the Office of Juvenile Justice and Delinquency Prevention, it shall be the duty of the respective secretary or commissioner to notify the affected school district or districts that the student's placement has changed and request that student's records be transferred.

It shall be the duty of the school district and school in possession of any records pertaining to the student to cooperate with the secretary or commissioner and transfer all such records to the school district or school where such student is transferred. Such records shall be transferred as soon as possible following receipt of such notice, but not later than two business days following the business day that such notice was received by the school district.

Records of Transferred Foster Care Students

The school district and school in possession of any records pertaining to a foster care student transferred due to a change in placement from one school district to another or across a school boundary within the district shall cooperate with DCF and transfer all school records of the student to the school district or school where the student is transferred. These records shall be transferred as soon as possible following receipt of notice of the student's change of placement, but not later than two business days following the business day that such notice was received by the school district.

As used in this policy, "business day" means any weekday from Monday through Friday in which the school district or school's administrative office is open. "Business day" does not include any federal or state holiday, any weekday that the school district or school's administrative office is closed, or any weekday in which the school day has been canceled due to inclement weather or any other unforeseen circumstance.

MEMORANDUM

TO: Board of Education

THRU: Mark Hinde, BOE President

FROM: Drew Thon, Deputy Superintendent

DATE: July 14, 2026

RE: District Approved Social Media and Communication Platforms

ISSUE:

In accordance with Board Policy IIBGC, Staff Online Activities, administration is recommending the Board formally designate the district-approved social media and communication platforms that staff may use for school-related communication with students and families.

BACKGROUND:

During the 2026 legislative session, the Kansas Legislature adopted House Bill 2299, requiring every school district to establish policies governing online communication between employees and students. In response, the Board adopted Policy IIBGC, which prohibits private or direct communication with students through social media and limits district communication to approved platforms.

To provide clarity and consistency for staff, students, and families, administration is recommending the following district-approved platforms:

District Approved Social Media Platforms

- Facebook
- Instagram
- X (formerly Twitter)

These platforms are approved for public, one-way communication, including but not limited to:

- Announcements
- Program updates
- Event information
- Celebrations and recognition
- Scores and results

District Approved Communication Platforms

- Thrillshare
- ClassDojo
- Bound (Athletics and Activities Management and Communication Platform)

These platforms are approved for district, school, classroom, athletic, and activity-related communication in accordance with district expectations and applicable state law. Use of approved communication platforms shall remain subject to all requirements of Policy IIBGC and state law, including restrictions on private

communications with students.

SPECIAL NOTES:

1. Approval of a platform does not require or permit its use by every employee, team, club, or activity. Board approval simply identifies the platforms that may be used for school-related communication if a district employee, team, club, or activity elects to communicate through that medium.
2. Any platform not specifically approved by the Board of Education shall not be used for school-related communication with students.
3. Any future additions to the list of approved platforms must receive prior approval from the Board of Education.

ADMINISTRATIVE OPINION:

Administration believes establishing a board-approved list of social media and communication platforms provides clear expectations for staff, ensures compliance with House Bill 2299 and Board Policy IIBGC, and promotes consistency in district communication practices. Establishing approved platforms also creates clear boundaries regarding the communication tools that may be used with students and families while preserving Board oversight of future additions.

ALTERNATIVES:

- Option 1: Approve the district-approved social media and communication platforms as presented and require Board approval for any future additions.
- Option 2: Approve the concept but add or remove platforms from the recommended list.
- Option 3: Continue operating without a formally approved list of communication platforms.

RECOMMENDATION:

Administration recommends Option 1 because it establishes clear, consistent, and legally compliant parameters for school-related communication while maintaining Board oversight of future communication platforms.

The purpose of this recommendation is to establish clear, consistent, and legally compliant parameters for the communication tools that may be used by district employees and programs.

FISCAL NOTE:

There is no direct fiscal impact associated with designating these approved platforms. Existing district subscriptions and communication tools will continue to be utilized.

MEMORANDUM

TO: Board of Education
THRU: Josh Guymon, Superintendent
FROM: Brandon Anderson, Director of Plant Facilities
DATE: 07/01/2026
RE: Consider and Act on accepting proposal for Scope of Work (SOW) for the Core Facilities Conditions Assessment (FCA) for Garden City Public School District #457 campuses.

ISSUE:

As we discussed during the LRP discussion last month, it would be beneficial to have an assessment done of all mechanical components in the district. The need for this information done by an independent assessment would (and will) be vital to make district decisions regarding long range decisions in the coming years. This Facilities Conditions Assessment would cost \$129,332.77 and would cover everything listed in the proposal (HVAC, Electrical, Generators, Hot Water Heaters, Backflows and All Nutrition equipment) for an optional cost of \$27,500 it would rate roofs as well.

Director of Plant Facilities, Brandon Anderson will be available for questions.

BACKGROUND:

There are many reasons to have an assessment like this done by an independent company. This information would be a baseline system for us to use when making long range planning decisions as well as a one of the many bits of information which will be needed as the district makes larger decisions in the near future regarding renewing a bond or considering campus needs. With Directors relatively new to their positions in Plant Facilities and Nutrition it would be beneficial to those departments and would encompass them all in one software moving forward.

ALTERNATIVES:

1. Take No Action
2. Accept proposal for the Scope of Work to do a Facilities Condition Assessment of all USD #457 components listed for a cost of \$129,332.77.
3. Accept proposal for the SOW to do the FCA of all USD #457 components listed plus all USD #457 roofs for a cost of \$156,832.77.

RECOMMENDATION:

I believe having an assessment done that is completely integrable with our existing FMX software would be key. We can do this through the TIPS buying cooperative and this would alleviate the bidding requirement for this service. Staff recommendation is to move forward with the FCA for the scope of work covered. We currently have a flooring and roofing plan that is current and can be utilized for those assets.

FISCAL NOTE:

This is the addition to our current FMX Work Order System implemented last Summer that we moved to from our old TMA System. The current FMX Work Order module cost the district around \$12,000 annually to run. The additional module needed for this Capital Planning will cost the district around \$11,000 annually with a one-time \$5000 implementation fee. As a note of reference, the old TMA Work Order System was running around \$60,000 annually. This is an unbudgeted expense but would be very beneficial to Plant Facilities and Nutrition to assess our current equipment status and needs.

During the assessment, our team will inventory all fixed, visible, and accessible building equipment as outlined in Table 2. Relevant nameplate data will be entered into FMX, including Manufacturer, Model, Serial Number, Capacity Information, and Age, provided this information is readily accessible, legible, and safe to obtain. This process will focus on major mechanical, electrical, and plumbing (MEP) equipment as detailed in Table 2.

The team will also evaluate the condition of each item and assign an estimated replacement cost and replacement date. Additionally, asset photos will be captured, including the QR code tag, the asset itself, and its nameplate (if present). Each asset's location will be identified, and QR codes will be applied as specified in Table 2.

To ensure safety and efficiency, assets will not be powered off, unplugged, relocated, or opened to access manufacturer data plates. When such plates are inaccessible, the information will be recorded as "Unknown."

Interactive Mapping

The FMX team will set up interactive maps for the district using the FMX interactive mapping product as per the scope outlined in Table 2.

With Interactive Mapping, organizations can record the physical location of their assets, spaces, and even users to create a visual paradigm of their organization. Interactive Mapping gives employees an easy-to-update and interactive guide of where assets, work, and events are located across an organization which is critical to deploy the right people, at the right time, to the right locations.

Floorplans are provided by the customer and must be received at least 14 days prior to the on-site work beginning.

***Note that interactive mapping has an annual fee component that is included in a contract separate from this Core FCA scope of services.*

Capital Planning Dashboard

The FMX team will also utilize the replacement costs and replacement dates to create a Capital Planning dashboard for Garden City Unified School District 457.

Develop a long-term capital plan by projecting asset replacement costs and aligning them with future budget allocations.

FMX's Capital Planner empowers organizations to optimize their budget allocation. This optimization enables them to prioritize strategic enhancement and improvement investments. The tool provides clear visibility into future asset replacement costs and upcoming project costs against projected budgets, ensuring financial readiness and long-term sustainability.

Improve financial planning by providing a clear overview of future capital expenditures.

Support long-term strategic goals by aligning capital investments with organizational and community priorities.

Enhance data-driven capital investment decision making, ensuring resources are allocated effectively.

Improve community and organization conditions by promptly addressing issues.

Mitigate unexpected asset failure risk by identifying potential replacement costs and planning accordingly.
