Mental Health Intervention Team Program Memorandum of Agreement

THIS AGREEMENT effective this 1st of July, 2026, by and between Unified School District (USD) # **113** (hereinafter referred to as "USD # **113**") and the Kansas Department of Aging and Disability Services ("KDADS").

WHEREAS, pursuant to K.S.A. 72-1131, USD # **113** is a Kansas unified school district possessing the usual powers of a corporation for public purposes which provides educational services to its students; and

WHEREAS, pursuant to Section 1 of Chapter 57 of the 2018 Session Laws of Kansas and K.S.A. 72-9943 creates the Mental Health Intervention Team Program ("MHIT"); and

WHEREAS KDADS is charged with the oversight and implementation of the MHIT in accordance with the requirements of Kansas, House Bill No. 2513; and

Intent: That the purposes of the mental health intervention team program are to: Provide greater access to behavioral health services for students enrolled in kindergarten or any of the grades one through 12 and establish a coherent structure between school districts and mental health intervention team providers to optimize scarce behavioral health resources and workforce; identify students, communicate with families and link students and their families to the statewide behavioral health systems and resources within the network of mental health intervention team providers; alleviate the shortage of staff with specialized degrees or training such as school counselors, psychologists and social workers and reduce the competition for such staff between school districts and other private and governmental service providers to provide broader-based and collaborative services to students, especially in rural districts that do not have enough students to justify a full-time staff position; provide and coordinate mental health services to students throughout the calendar year, not only during school hours over nine months of the school year; and reduce barriers that families experience to access mental health services and maintain consistency for a child to attend recurring sessions and coordination between the child's classroom schedule and the provision of such services. Funds shall be expended to provide treatment and services for students under the MHIT program who are uninsured or underinsured. Further, any fees assessed to families with private insurance must be provided to the family through transparency prior to the start of service and based on an agreed upon payment policy that reduces costs to families whenever possible. No child shall be denied mental health services due to inability to pay.

Scope of Work:

- 1) The secretary for the Kansas Department for Aging and Disability Services (KDADS) shall appoint a mental health intervention team program manager and, within the limits of appropriations therefore, such additional staff as necessary to support such manager.
- 2) That the above agency shall oversee and implement the mental health intervention team program in accordance with the requirements of this proviso and the policies and procedures established by the above agency pursuant to this proviso.

- 3) That during fiscal year 2026, the board of education of a school district may apply to the above agency to establish or maintain a mental health intervention team program within such school district. Applications for review by KDADS shall be submitted by the assigned due date each year.
- 4) That the application shall be in such form and manner as the above agency requires and submitted at a time determined and specified by such agency.
- 5) That each application submitted by a school district shall specify the mental health intervention team provider that the school intends to coordinate with to provide school-based services to students who need assistance during the applicable school year.
- 6) That the school district shall provide notice to the mental health intervention team provider as soon as they are able of their intent to partner for the following school year.
- 7) That the above agency shall establish an application review committee that shall include representatives from mental health intervention team providers and the department of education.
- 8) That if a school district and mental health intervention team provider are approved to establish or maintain a mental health intervention team program, the school district shall enter a memorandum of understanding with a partnering mental health intervention team provider:
- 9) That if the school district chooses to partner with more than one mental health intervention team provider, the school district shall enter a separate memorandum of understanding with each such mental health intervention team provider.
- 10) That the above agency may establish requirements for a memorandum of understanding, including contractual provisions that are required to be included in each memorandum of understanding and that are optional and subject to agreement between the school district and the mental health intervention team provider.
- 11) That each memorandum of understanding shall be submitted to the above agency for final approval.
- 12) That the above agency may authorize another category of provider other than a mental health intervention team provider to serve as a partnering provider under the mental health intervention team program pursuant to this proviso.
- 13) That such category of provider shall provide the required services and otherwise meet the requirements of a partnering mental health intervention team provider under this proviso.
- 14) That if the above agency authorizes another category of provider other than a mental health intervention team provider, such agency shall provide notification of this decision to the mental health intervention team provider that provides services in that county.
- 15) That subject to appropriations therefore, a school district and mental health intervention team provider that have been approved by the above agency to establish or maintain a mental health intervention team program shall be eligible to receive a mental health intervention team program grant and a mental health intervention team provider pass-through grant.
- 16) That the amount of a school district's mental health intervention team program grant shall be determined in each school year by calculating the total amount of the salary and fringe benefits paid by the school district to each school liaison.
- 17) That the amount of a school district's mental health intervention team provider pass-through grant shall be an amount equal to 35% of the amount of the school district's mental health intervention team grant.
- 18) That moneys provided to a school district for the mental health intervention team provider pass-through grant shall be paid to any mental health intervention team provider that partners with the school district.

- 19) That if the amount of appropriations are insufficient to pay in full the amount of all grants school districts are entitled to receive for the school year, the above agency shall prorate the amount appropriated among all school districts.
- 20) That the above agency shall be responsible for the allocation and distribution of grants in accordance with appropriation acts.
- 21) That the above agency may make grant payments by way of reimbursement and may make any necessary adjustments for any overpayment to a school district.
- 22) That the above agency shall not award any grant to a school district unless such district has entered a memorandum of understanding with a partnering mental health intervention team provider.

- 24) That the above agency shall seek advice from mental health intervention team providers prior to awarding any grant under this subsection.
- 25) That the above agency may waive the requirement that a school district employ a school liaison and may instead authorize a mental health intervention team provider that partners with the school district to employ a school liaison.
- 26) That such waiver shall only be granted by the above agency in limited circumstances.
- 27) That a school district that is granted a waiver pursuant to this proviso shall continue to be eligible to receive the mental health intervention team program grant and the mental health intervention team provider pass-through grant authorized pursuant to this proviso.
- 28) That the amount of the mental health intervention team program grant shall be determined in the same manner as provided under this proviso as though the school liaison was employed by such school district.
- 29) That upon receipt of any moneys awarded pursuant to the mental health intervention team program grant to any such school district, the school district shall direct payment of such amount to the mental health intervention team provider that employs the school liaison.
