- MCCA STATE: Banquet January 30th, 2026
- MCCA STATE: Competition January 31th, 2026

612.1 DEVELOPMENT OF PARENT AND FAMILY ENGAGEMENT POLICIES FOR TITLE I PROGRAMS

[Note: This policy reflects recent federal statutory changes made by Every Student Succeeds Act (ESSA) which require school districts and schools to meet with parents and jointly develop parent and family engagement policies at both a district wide and school building level. This policy lists the required components of the parent and family engagement policies described herein and serves as a framework for their development. The policies and these components are mandatory in order for the school district to receive federal funds under this program.]

I. PURPOSE

The purpose of this policy is to encourage and facilitate involvement by parents of students participating in Title I in the educational programs and experiences of students. The policy shall provide the framework for organized, systematic, ongoing, informed and timely parental involvement in relation to decisions about the Title I services within the school district. The involvement of parents by the school district shall be directed toward either public or private school children whose parents are school district residents or whose children attend school within the boundaries of the school district.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to plan and implement, with meaningful consultation with parents of participating children, programs, activities and procedures for the engagement of parents and families in its Title I programs.
- B. The policy of the school district is to fully comply with 20 U.S.C. § 6318 which requires the school district to develop jointly with, agree upon with, and distribute to parents of children participating in Title I programs written parent and family engagement policies.

III. DEVELOPMENT OF DISTRICT LEVEL POLICY

The school board will direct the administration to develop jointly with, agree upon with, and make available to parents and family members via the District Webpage, a parent and family engagement policy that will be incorporated into the school district's Title I plan. The policy will establish the expectations for meaningful parent and family involvement and describe how the school district will:

- A. Involve parents and family members in the joint development of the school district's Title I plan and the development of support and improvement plans;
- B. Provide the coordination, technical assistance, and other support necessary to assist and build the capacity of all participating schools within the school district in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance, which may

include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education;

- C. Coordinate and integrate parent and family engagement strategies with similar strategies, to extend feasible and appropriate, with other relevant federal, state, and local laws and programs;
- D. Conduct, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the schools served, including identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, disabled, have limited English proficiency, have limited literacy, or who are of a racial or ethnic minority background); the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and strategies to support successful school and family interactions;
- E. Use the findings of such evaluations to design evidence-based strategies for more effective parental involvement and to revise, if necessary, the district-level and school-level parent and family engagement policies; and
- F. Involve parents in the activities of the schools, which may include establishing a parent advisory board comprised of a sufficient number and representative group of parents and family members served by the school district to adequately represent the needs of the population served by the school district for the purposes of developing, revising, and reviewing the parent and family engagement policy.

IV. DEVELOPMENT OF SCHOOL LEVEL POLICY

The school board will direct the administration of each school to develop (or amend an existing parental involvement policy) jointly with, and distribute to—make available to, parents and family members of children participating in Grades Kindergarten through Fifth a written parent and family engagement policy the Student-Parent-School Partnership Plan, agreed upon by such parents and families, that shall describe the means for carrying out the federal requirements of parent and family engagement. Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents can understand. Such policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

- A. The policy will describe the means by which each school with a Title I program will:
 - 1. Convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation in Title I programs, and to explain to parents of participating children the program, its requirements, and their right to be involved;

2. Offer a flexible number of meetings, such as meetings in the morning or evening, and may provide with Title I funds transportation, childcare, or home visits, as such services relate to parental involvement;
 3. Involve parents in an organized, ongoing, and timely way, in the planning, review, and improvement of the parental involvement programs, including the planning, review, and improvement of the school parent and family engagement policy, Student-Parent-School Partnership Plan and the joint development of the school-wide program plan, except that if a school has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children;
 4. Provide parents of participating children in Grades Kindergarten through Fifth with: timely information about the School-Wide Title I programs; a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging state academic standards; if requested by parents, opportunities for regular meetings to formulate suggestions, and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible; and
 5. If the school-wide program plan is not satisfactory to the parents of participating children in Grades Kindergarten through Fifth, submit any parent's comments on the plan when it is submitted to the school district.
- B. As a component of this policy, each school shall jointly develop with parents a school/parent compact/Student-Parent-School Partnership Plan (printed in both English and Spanish) which outlines how parents, staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact shall:
1. Describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to meet state student academic achievement standards;
 2. Describe the ways each parent will be responsible for supporting his or her child's learning by volunteering in his or her child's classroom, and participating, as appropriate, in decisions relating to his or her child's education and use of extracurricular time.
 3. Address the importance of communication between teachers and parents on an on-going basis through the use of:
 - a. Annual parent-teacher conferences to discuss the Windom Area Elementary School-Wide compact/Student-Parent-School Partnership Plan and the child's achievement;
 - b. Frequent progress reports to the parents; and

- c. Reasonable access to staff, opportunities to volunteer, participate in the child's class, and observe in the child's classroom.
 - d. Ensuring regular two-way, meaningful communication between family members and school staff and, to the extent practicable, in a language that family members can understand.
- C. To ensure effective involvement of parents and to support a partnership among the school, parents, and community to improve student academic achievement, the policy will describe how each school and the school district will:
 - 1. Provide assistance to participating parents in understanding such topics as the state's academic content standards and state academic achievement standards, state and local academic assessments, Title I requirements, and how to monitor a child's progress and work with educators to improve the achievement of their children;
 - 2. Provide materials and training to assist parents in working with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement;
 - 3. Educate school staff, with the assistance of parents, in the value and utility of contributions of parents and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and school;
 - 4. Coordinate and integrate parental involvement programs and activities with other federal, state, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children to the extent feasible and appropriate;
 - 5. Ensure, to the extent practicable, that information about school and parent meetings, programs, and activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand; and
 - 6. Provide such other reasonable support for parental involvement activities as requested by parents.
- D. The policy will also describe the process to be taken if the school district and school choose to:
 - 1. Involve parents in the development of training for school staff to improve the effectiveness of such training;
 - 2. Provide necessary literacy training with funds received under Title I programs if all other funding has been exhausted;
 - 3. Pay reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to

enable parents to participate in school-related meetings and training sessions;

4. Train parents to enhance the involvement of other parents;
 5. Arrange meetings at a variety of times or conduct in-home conferences between teachers or other educators, who work directly with participating children, and parents who are unable to attend such conferences at school in order to maximize parental involvement and participation in school-related activities;
 6. Adopt and implement model approaches to improving parental involvement;
 7. Develop appropriate roles for community-based organizations and business in parental involvement activities; and
 8. Establish a district-wide parent advisory council to provide advice on all matters related to parental involvement in Title I programs.
- E. To carry out the requirements of parent and family engagement, the school district and schools, to the extent practicable, will provide opportunities for the informed participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports in a format and, to the extent practicable, in a language that is understandable by the parents.
- F. The school district and each school shall inform parents and parent organizations of the existence of family engagement in education programs.

The policies will be updated periodically to meet the changing needs of parents and the school.

PART V. ADOPTION

Windom School District Parental Involvement Policy has been developed and/or revised jointly with, and agreed on with, parents of children participating in Title I programs. Windom Elementary Leadership Team (made up of teachers, administration, parents), Windom Elementary PTO (made up of teachers, administration, parents), as well as families that attend the monthly Family Engagement Nights have had input in this Parent Involvement Policy. This Parent Involvement Policy was approved by Windom School Board on **April 28, 2025** and will be in effect for the period of the following school year. Windom Public Schools will distribute this policy to all parents of participating School Wide Title I children on or before Fall Conferences in **2025**. This Parent Involvement Policy is also available on the school district webpage.

04282025

Member _____ introduced the following Resolution and moved its adoption:

RESOLUTION REGARDING THE USE OF EMPLOYEES' PERSONAL VEHICLES FOR
EXTRACURRICULAR ACTIVITIES

WHEREAS, Minnesota law authorize the School Board to adopt District policies, procedures, and processes;

WHEREAS, the School Board adopted District Policy 710 - Extracurricular Transportation on December 14, 2011;

WHEREAS, the District has evaluated the financial, personnel, and other resources required for District provided transportation for extracurricular activities and has determined that providing transportation for extracurricular activities is not feasible in all circumstances;

WHEREAS, District Policy 710 dictates that, if the District makes no arrangements for extracurricular transportation, District students who wish to participate in the extracurricular are responsible for arranging for or providing their own transportation;

WHEREAS, District Policy 710 generally prohibits District employees from undertaking independent arrangement, scheduling, and coordination of transportation for extracurricular activities unless specifically directed or approved by the District's administration;

WHEREAS, District Policy 710 generally prohibits District employees from using their personal vehicles to transport District students for extracurricular activities absent an emergency circumstance;

WHEREAS, District employees may be the parent/guardian of a District student and responsible for arranging transportation for their own student/child for extracurricular activities;

WHEREAS, the School Board has determined that it does not intend to curtail District employees, acting as the parent/guardian of their own District student, from transporting other District students as part of a carpool for extracurricular activities;

WHEREAS, the District understands the rulings in *Verhel v. Indep. Sch. Dist. No. 709*, 359 N.W.2d 579 (Minn. 1984), and *Fenrich v. The Blake School*, 920 N.W.2d 195 (Minn. 2018), which generally relate to liability for transportation for extracurricular activities;

WHEREAS, the District has evaluated the safety considerations specific to the District providing transportation for extracurricular activities and specific to alternative transportation for extracurricular activities, including transportation provided by a District employee who is the parent/guardian of a District student participating in the extracurricular activity;

WHEREAS, the District has evaluated the possible legal consequences specific to the District providing transportation for extracurricular activities and specific to District employees who are the parent/guardian of a District student providing transportation, as well as the immunities the District has under Minnesota law, including Minnesota Statutes Section 466.03, subdivision 6; and

WHEREAS, the District has evaluated other social and political factors specific to the District providing transportation for extracurricular activities and specific to District employees who are the parent/guardian of a District student providing transportation.

NOW, THEREFORE, BE IT RESOLVED by the School Board of Independent School District No. 177, Windom Area Schools, as follows:

1. In light of the District's balancing of policy objectives as described in this resolution, the District will allow District employees, who are the parent/guardian of a District student, to use their personal vehicles to transport other District students for extracurricular activities when the District has not provided transportation for the extracurricular activity and when their own student/child is also a passenger in the vehicle and participating in the extracurricular activity. The Board determines that under these circumstances, such District employees are acting in their personal capacity as parents/guardians to District students and, as such, are not acting in a manner inconsistent with the requirements of District Policy 710.
2. In light of the District's balancing of policy objectives as described in this resolution, the District will not provide any supervision for District employees engaged in the transportation of District students pursuant to this resolution. The District will not coordinate, oversee, or provide instruction or guidance regarding any transportation arrangement a District employee makes with another student's parents/guardians pursuant to this resolution. Parents/guardians who choose to allow their student to be transported to an extracurricular by a District employee pursuant to this resolution shall be solely responsible to supervise, provide, arrange for, and/or ensure safe and law-abiding transportation for extracurricular activities and shall assume all liability related to such transportation.

Commented [KN1]: Consider whether you want to limit it to just these circumstances or whether you want to strike this language, which would broaden it to allow such employees to drive their kids' friends home even when a bus is available. If you have other restrictions in place to excuse a kid from riding the bus, such as written parental consent authorizing a student to ride with another kid's parents, that same requirement would still apply.

Commented [KN2]: I would recommend limiting it to these circumstances to more clearly maintain the argument that the employee is acting in a personal capacity, but if you'd like to adjust any of this, we certainly can.

The motion for the adoption of this Resolution was duly seconded by _____ and upon a vote being taken, the following voted in favor of this Resolution:

And the following voted against this Resolution:

Whereupon this Resolution was declared duly passed and adopted.

Rev. 20~~22~~12

710 EXTRACURRICULAR TRANSPORTATION

I. PURPOSE

The purpose of this policy is to make clear to students, parents, and staff the school district's policy regarding extracurricular transportation.

II. GENERAL STATEMENT OF POLICY

The determination as to whether to provide transportation for students, spectators, or participants to and from extracurricular activities shall be made solely by the school district administration. This determination shall include, but is not limited to, the decision to provide transportation, the persons to be transported, the type or method to be utilized, all transportation scheduling and coordination, and any other transportation arrangements or decisions. Employees who are involved in extracurricular activities shall be advised by the administration as to the transportation arrangements made, if any.

III. ARRANGEMENT OF EXTRACURRICULAR TRANSPORTATION

School district employees shall not undertake independent arrangement, scheduling, or coordination of transportation for extracurricular activities unless specifically directed or approved by the school district administration. All transportation arrangements made by a school district employee must be approved by a building administrator. If the school district makes no arrangements for extracurricular transportation, students who wish to participate are responsible for arranging for or providing their own transportation.

IV. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

[Note: This policy provides that employees may use a personal vehicle to transport students in an emergency or other unforeseeable circumstance. An "emergency or other unforeseeable circumstance" does not include situations where regular transportation is available or scheduled.]

For example, if a scheduled extracurricular event occurs outside of the school district and the school district transports a team or group of students to and from the event, an employee would be prohibited by law from using a personal vehicle to transport some students to the event. In contrast, if a student attending this same event became ill or injured and required immediate transportation home or to a health care facility, the exigent need to transport one student would not constitute regular or scheduled transportation. An employee would have authority to transport the student in a personal vehicle under these circumstances, if using a vehicle that is properly registered and insured. The expectation of the school district is that the employee would immediately contact administration about these circumstances to ensure oversight of the employee's use of this exception.

Nonregular and nonscheduled transportation also would include situations where some notice may be provided of the need for transportation to a nonscheduled event for which transportation generally is not provided by the school district. For example, a group of students may participate in a scheduled debate competition for which regular school district transportation is provided. Two students advance to a regional competition the following day. Transportation would not have been scheduled to the regional competition as the students' advancement was not predicted. These circumstances may justify an employee's use of a personal vehicle to transport the two students to the regional competition, if the vehicle is properly registered and insured. Because the employee has sufficient time to contact an administrator, advance written permission by an administrator would be expected for the purpose of overseeing that the reasons for an employee using a personal vehicle comply with the requirements of the law.]

V. FEES

In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.

407 EMPLOYEE RIGHT TO KNOW – EXPOSURE TO HAZARDOUS SUBSTANCES

[NOTE: School districts are not required by statute to have a policy addressing these issues. However, the provisions of this policy accurately reflect the requirements of Minnesota Statutes, section, 182.653.]

I. PURPOSE

The purpose of this policy is to provide school district employees a place of employment and conditions of employment free from recognized hazards that are likely to cause death or serious injury or harm. (~~Minn. Stat. § 182.653, Subd. 2~~)

II. GENERAL STATEMENT OF POLICY

~~It is the~~ The policy of this school district is to provide information and training to employees who may be “routinely exposed” to a hazardous substance, harmful physical agent, ~~or~~ infectious agent, or blood borne pathogen.

III. DEFINITIONS

- A. “Blood borne pathogens” means a pathogenic microorganisms that ~~are~~ is present in human blood and can cause disease in humans. ~~These pathogens~~ This definition includes, but ~~are~~ is not limited to, hepatitis B virus (HBV) and human immunodeficiency virus (HIV).
- B. “Commissioner” means the Minnesota Commissioner of Labor and Industry.
- C. “Harmful physical agent” means a physical agent determined by the commissioner as a part of the standard for that agent to present a significant risk to worker health or safety or imminent danger of death or serious physical harm to an employee. This definition includes, but is not limited to, radiation, whether ionizing or nonionizing.
- D. “Hazardous substance” means a chemical or substance, or mixture of chemicals and substances, which:
1. is regulated by the Federal Occupational Safety and Health Administration under the Code of Federal Regulations; or
 2. is either toxic or highly toxic; an irritant; corrosive; a strong oxidizer; a strong sensitizer; combustible; either flammable or extremely flammable; dangerously reactive; pyrophoric; pressure-generating; compressed gas; carcinogen; teratogen; mutagen; reproductive toxic agent; or that otherwise, according to generally accepted documented medical or scientific evidence, may cause substantial acute or chronic personal injury or illness during or as a direct result of any customary or reasonably foreseeable accidental or intentional exposure to the chemical or substance; or

3. is determined by the commissioner as a part of the standard for the chemical or substance or mixture of chemicals and substances to present a significant risk to worker health and safety or imminent danger of death or serious physical harm to an employee as a result of foreseeable use, handling, accidental spill, exposure, or contamination.
- E. "Infectious agent" means a communicable bacterium, rickettsia, parasites, virus, or fungus determined by the commissioner by rule, with approval of the commissioner of health, which, according to documented medical or scientific evidence, causes substantial acute or chronic illness or permanent disability as a foreseeable and direct result of any routine exposure to the infectious agent. Infectious agent does not include an agent in or on the body of a patient before diagnosis.
 - F. "Routinely exposed" means that there is a reasonable potential for -exposure during the normal course of assigned work or when an employee is assigned to work in an area where a hazardous substance has been spilled.

IV. TARGET JOB CATEGORIES

Training Annual training will be provided to all full- and part-time employees who are "routinely exposed" to a hazardous substance, harmful physical agent, ~~or~~ infectious ~~-substance agent, or blood borne pathogen~~ as set forth above.

V. TRAINING SCHEDULE

Training will be provided to employees before beginning a job assignment as follows:

- A. Any newly hired employee assigned to a work area where he or she is determined to be "routinely exposed" under the guidelines above.
- B. Any employee reassigned to a work area where he or she is determined to be "routinely exposed" under the above guidelines.

Rev. 202215

420 STUDENTS AND EMPLOYEES WITH SEXUALLY TRANSMITTED INFECTIONS AND DISEASES AND CERTAIN OTHER COMMUNICABLE DISEASES AND INFECTIOUS CONDITIONS

[Note: School districts are not required by statute to have a policy addressing these issues. However, ~~Minn. Stat. §Minnesota Statutes section~~ 121A.23 provides that school districts must have a program that incorporates the provisions contained in this policy.]

I. PURPOSE

Public concern that students and staff of the school district be able to attend the schools of the district without becoming infected with serious communicable or infectious diseases, including, but not limited to, Human Immunodeficiency Virus (HIV), Acquired Immunodeficiency Syndrome (AIDS), Hepatitis B, and Tuberculosis, requires that the school board adopt measures effectively responding to health concerns while respecting the rights of all students, employees, and contractors, including those who are so infected. The purpose of this policy is to adopt such measures.

II. GENERAL STATEMENT OF POLICY

A. Students

The policy of the school board is that students with communicable diseases not be excluded from attending school in their usual daily attendance setting so long as their health permits and their attendance does not create a significant risk of the transmission of illness to students or employees of the school district. A procedure for minimizing interruptions to learning resulting from communicable diseases will be established by the school district in its IEP and Section 504 team process, if applicable, and in consultation with community health and private health care providers. Procedures for the inclusion of students with communicable diseases will include any applicable educational team planning processes, including the review of the educational implications for the student and others with whom the student comes into contact.

B. Employees

The policy of the school board is that employees with communicable diseases not be excluded from attending to their customary employment so long as they are physically, mentally, and emotionally able to safely perform tasks assigned to them and so long as their employment does not create a significant risk of the transmission of illness to students, employees, or others in the school district. If a reasonable accommodation will eliminate the significant risk of transmission, such accommodation will be undertaken unless it poses an undue hardship to the school district.

C. Circumstances and Conditions

1. Determinations of whether a contagious individual's school attendance or job performance creates a significant risk of the transmission of the illness to students or employees of the school district will be made on a case by case

basis. Such decisions will be based upon the nature of the risk (how it is transmitted), the duration of the risk (how long the carrier is infectious), the severity of the risk (what is the potential harm to third parties), and the probabilities the disease will be transmitted and will cause varying degrees of harm. When a student is disabled, such a determination will be made in consultation with the educational planning team.

2. The school board recognizes that some students and some employees, because of special circumstances and conditions, may pose greater risks for the transmission of infectious conditions than other persons infected with the same illness. Examples include students who display biting behavior, students or employees who are unable to control their bodily fluids, who have oozing skin lesions, or who have severe disorders which result in spontaneous external bleeding. These conditions need to be taken into account and considered in assessing the risk of transmission of the disease and the resulting effect upon the educational program of the student or employment of the employee by consulting with the Commissioner of Health, the physician of the student or employee, and the parent(s)/guardian(s) of the student.

D. Students with Special Circumstances and Conditions

The school (title), along with the infected individual's physician, the infected individual or parent(s)/guardian(s), and others, if appropriate, will weigh risks and benefits to the student and to others, consider the least restrictive appropriate educational placement, and arrange for periodic reevaluation as deemed necessary by the state epidemiologist. The risks to the student shall be determined by the student's physician.

E. Extracurricular Student Participation

Student participation in nonacademic, extracurricular, and non-educational programs of the school district are subject to a requirement of equal access and comparable services.

F. Precautions

The school district will develop routine procedures for infection control at school and for educating employees about these procedures. The procedures shall be developed through cooperation with health professionals taking into consideration any guidelines of the Minnesota Department of Education and the Minnesota Department of Health. (These precautionary procedures shall be consistent with the school district's procedures regarding blood-borne pathogens developed pursuant to the school district's employee right to know policy.)

G. Information Sharing

1. Employee and student health information shall be shared within the school district only with those whose jobs require such information and with those who have a legitimate educational interest (including health and safety) in such information and shall be shared only to the extent required to accomplish legitimate educational goals and to comply with employees' right to know requirements.
2. Employee and student health data shall be shared outside the school district only in accordance with state and federal law and with the school district's

policies on employee and student records and data.

H. Reporting

If a medical condition of student or staff threatens public health, it must be reported to the Minnesota Commissioner of Health.

I. Prevention

The school district shall, with the assistance of the Minnesota Commissioners of Health and -Education, implement a program to prevent and reduce the risk of sexually transmitted diseases in accordance with Minn. Stat. §Minnesota Statutes section 121A.23 ~~which that~~ includes:

1. planning materials, guidelines, and other technically accurate and updated information;
2. a comprehensive, developmentally appropriate, technically accurate, and updated curriculum that includes helping students to abstain from sexual activity until marriage;
3. cooperation and coordination among school districts and Service Cooperatives;
4. a targeting of adolescents, especially those who may be at high risk of contracting sexually transmitted diseases and infections, for prevention efforts;
5. involvement of parents and other community members;
6. in-service training for district staff and school board members;
7. collaboration with state agencies and organizations having a sexually transmitted infection and disease prevention or sexually transmitted infection and disease risk reduction program;
8. collaboration with local community health services, agencies and organizations having a sexually transmitted infection and disease risk reduction program; and
9. participation by state and local student organizations.
10. The program must be consistent with the health and wellness curriculum.
11. The school district may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources, including public health funds and foundations, department professional development funds, federal block grants, or other federal or state grants.

J. Vaccination and Screening

The school district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis screenings in keeping with current state and federal law. The procedures shall provide that the Hepatitis B vaccination series be offered to all who have occupational exposure at no cost to the employee.

423 EMPLOYEE-STUDENT RELATIONSHIPS

I. PURPOSE

The school district is committed to an educational environment in which all students are treated with respect and dignity. Every school district employee is to provide students with appropriate guidance, understanding, and direction while maintaining a standard of professionalism and acting within accepted standards of conduct.

II. GENERAL STATEMENT OF POLICY

- A. This policy applies to all school district employees at all times, whether on or off duty and on or off of school district locations.
- B. At all times, students will be treated by teachers and other school district employees with respect, courtesy, and consideration and in a professional manner. Each school district employee is expected to exercise good judgment and professionalism in all interpersonal relationships with students. Such relationships must be and remain on a teacher-student basis or an employee-student basis.
- C. Teachers must be mindful of their inherent positions of authority and influence over students. Similarly, other school district employees also may hold positions of authority over students of the school district and must be mindful of their authority and influence over students.
- D. Sexual relationships between school district employees and students, without regard to the age of the student, are strictly forbidden and may subject the employee to criminal liability.
- E. Other actions that violate this policy include, but are not limited to, the following:
 - 1. Dating students.
 - 2. Having any interaction/activity of a sexual nature with a student.
 - 3. Committing or attempting to induce students or others to commit an illegal act or act of immoral conduct which may be harmful to others or bring discredit to the school district.
 - 4. Supplying alcohol or any illegal substance to a student, allowing a student access to such substances, or failing to take reasonable steps to prevent such access from occurring.
- F. School district employees shall, whenever possible, employ safeguards against improper relationships with students and/or claims of such improper relationships.

[Note: Such safeguards may include the following: avoiding altogether or minimizing physical contact, keeping doors open when talking or meeting with students one-on-one, and/or making sure that such meetings with a

student take place in rooms with windows and/or others nearby.]

- G. Excessive informal and social involvement with individual students is unprofessional, is not compatible with employee-student relationships, and is inappropriate.
- H. School district employees will adhere to applicable standards of ethics and professional conduct in Minnesota law.

III. REPORTING AND INVESTIGATION

- A. Complaints and/or concerns regarding alleged violations of this policy shall be handled in accordance with MSBA/MASA Model Policy 103 (Complaints – Students, Employees, Parents, Other Persons) unless other specific complaint procedures are provided within any other policy of the school district.
- B. All employees shall cooperate with any investigation of alleged acts, conduct, or communications in violation of this policy.

IV. SCHOOL DISTRICT ACTION

Upon receipt of a report, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. It also may include reporting to appropriate state or federal authorities, including the Minnesota Professional Educator Licensing and Standards Board or the appropriate licensing authority and appropriate agencies responsible for investigating reports of maltreatment of minors and/or vulnerable adults. School district action taken for violation of this policy will be consistent with requirements of applicable collective bargaining agreements, Minnesota and federal law, and school district policies.

V. SCOPE OF LIABILITY

Employees are placed on notice that if an employee acts outside the performance of the duties of the position for which the employee is employed or is guilty of malfeasance, willful neglect of duty, or bad faith, the school district is not required to defend and indemnify the employee for damages in school-related litigation.

530 IMMUNIZATION REQUIREMENTS

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

The purpose of this policy is to require that all students receive the proper immunizations as mandated by law to ensure the health and safety of all students.

II. GENERAL STATEMENT OF POLICY

All students are required to provide proof of immunization, or appropriate documentation exempting the student from such immunization, and such other data necessary to ensure that the student is free from any communicable diseases, as a condition of enrollment.

III. STUDENT IMMUNIZATION REQUIREMENTS

- A. No student may be enrolled or remain enrolled, on a full-time, part-time, or shared-time basis, in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted to the designated school district administrator the required proof of immunization. Prior to the student's first date of attendance, the student or the student's parent or guardian shall provide to the designated school district administrator one of the following statements:
1. a statement from a physician, advanced practice registered nurse, physician assistant, or a public clinic which provides immunizations (hereinafter "medical statement"), stating affirming that the student received the immunizations required by law, consistent with medically acceptable standards; or
 2. a medical statement ~~from a physician or a public clinic which provides immunizations, stating affirming~~ that the student received the primary schedule of immunizations required by law and has commenced a schedule of the remaining required immunizations, indicating the month and year each immunization was administered, consistent with medically acceptable standards.
- B. The statement of a parent or guardian of a student or an emancipated student may be substituted for the medical statement ~~of a physician or public clinic which administers immunizations~~. If such a statement is substituted, this statement must indicate the month and year each immunization was administered. Upon request, the designated school district administrator will provide information to the parent

or guardian of a student or an emancipated student of the dosages required for each vaccine according to the age of the student.

- C. The parent or guardian of persons receiving instruction in a home school shall submit one of the statements set forth in Section III.A. or III.B., above, or statement of immunization set forth in Section IV., below, to the superintendent of the school district by October 1 of the first year of their home schooling in Minnesota and the grade 7 year.
- D. When there is evidence of the presence of a communicable disease, or when required by any state or federal agency and/or state or federal law, students and/or their parents or guardians may be required to submit such other health care data as is necessary to ensure that the student has received any necessary immunizations and/or is free of any communicable diseases. No student may be enrolled or remain enrolled in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted the required data.
- E. The school district may allow a student transferring into a school a maximum of 30 days to submit a statement specified in Section III.A. or III.B., above, or Section IV., below. Students who do not provide the appropriate proof of immunization or the required documentation related to an applicable exemption of the student from the required immunization within the specified time frames shall be excluded from school until such time as the appropriate proof of immunizations or exemption documentation has been provided.
- F. If a person who is not a Minnesota resident enrolls in a school district online learning course or program that delivers instruction to the person only by computer and does not provide any teacher or instructor contact time or require classroom attendance, the person is not subject to the immunization, statement, and other requirements of this policy.

IV. EXEMPTIONS FROM IMMUNIZATION REQUIREMENTS

Students will be exempt from the foregoing immunization requirements under the following circumstances:

- A. The parent or guardian of a minor student or an emancipated student submits a **physician's** signed **medical** statement **stating affirming** that the immunization of the student is contraindicated for medical reasons or that laboratory confirmation of the presence of adequate immunity exists; or
- B. The parent or guardian of a minor student or an emancipated student submits his or her notarized statement stating the student has not been immunized because of the conscientiously held beliefs of the parent, guardian or student.

V. NOTICE OF IMMUNIZATION REQUIREMENTS

- A. The school district will develop and implement a procedure to:
 - 1. notify parents and students of the immunization and exemption requirements by use of a form approved by the Department of Health;
 - 2. notify parents and students of the consequence for failure to provide required documentation regarding immunizations;
 - 3. review student health records to determine whether the required information has been provided; and
 - 4. make reasonable arrangements to send a student home when the immunization requirements have not been met and advise the student and/or the student's parent or guardian of the conditions for re-enrollment.

[See Attachments A, B, C, and D.]

- B. The notice provided shall contain written information describing the exemptions from immunization as permitted by law. The notice shall be in a font size at least equal to the font size and style as the immunization requirements and on the same page as the immunization requirements.

VI. IMMUNIZATION RECORDS

- A. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student attains the age of majority.
- B. Upon request, the school district may exchange immunization data with persons or agencies providing services on behalf of the student. Immunization data is private student data and disclosure of such data shall be governed by Policy 515 Protection and Privacy of Pupil Records.
- C. The designated school district administrator will assist a student and/or the student's parent or guardian in the transfer of the student's immunization file to the student's new school within 30 days of the student's transfer.
- D. Upon request of a public or private post-secondary educational institution, the designated school district administrator will assist in the transfer of the student's immunization file to the post-secondary educational institution.

VII. OTHER

Within 60 days of the commencement of each new school term, the school district will forward a report to the Commissioner of the Department of Education stating the number of students attending each school in the school district, including the number of students receiving instruction in a home school, the number of students who have not been immunized, and the number of students who received an exemption. The school district

also will forward a copy of all exemption statements received by the school district to the Commissioner of the Department of Health.

701 ESTABLISHMENT AND ADOPTION OF SCHOOL DISTRICT BUDGET

[NOTE: The provisions of this policy substantially reflect the requirements of Minnesota Statutes.]

I. PURPOSE

The purpose of this policy is to establish lines of authority and procedures for the establishment of the school district's revenue and expenditure budgets.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to establish its revenue and expenditure budgets in accordance with the applicable provisions of law. Budget planning is an integral part of program planning so that the annual budget will effectively express and implement school board goals and the priorities of the school district.

III. REQUIREMENT

- A. The superintendent or such other school official as designated by the superintendent or the school board shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected. When projected expenditures exceed projected revenues, the school board may consider use of an available fund balance, if one exists.
- B. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with Minnesota Statutes, section 123B.76.
- C. Prior to July 1 of each year, the school board shall approve and adopt its initial revenue and expenditure budgets for the next school year. The adopted expenditure budget document shall be considered the school board's expenditure authorization for that school year. No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.
- D. Each year, the school district shall publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in the form prescribed by the ~~Minnesota~~ Commissioner of the Minnesota Department of Education (Commissioner) within one week of the acceptance of the final audit by the school board, or November 30, whichever is earlier. A statement shall be included in the publication that the complete budget in detail may be inspected by any resident of the school district upon request to the superintendent. A summary of this information and the address of the

school district's official website where the information can be found must be published in a newspaper of general circulation in the school district. At the same time as this publication, the school district shall publish the other information required by Minnesota Statutes section 123B.10.

- E. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.
- F. The school district must also post the materials specified in Paragraph III.D. above on the school district's official website, including a link to the school district's school report card on the Minnesota Department of Education's website, and publish a summary of information and the address of the school district's website where the information can be found in a qualified newspaper of general circulation in the district.

IV. IMPLEMENTATION

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but the superintendent maintains the ultimate responsibility for this function.
- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or the superintendent's designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. Other funds to be expended in a subsequent school year may not be encumbered prior to budget adoption unless specifically approved by the school board.
- E. The school district shall make such reports to the ~~Minnesota~~ Commissioner of Education as required relating to initial allocations of revenue, reallocations of revenue, and expenditures of funds.

612.1 DEVELOPMENT OF PARENT AND FAMILY ENGAGEMENT POLICIES FOR TITLE I PROGRAMS

[Note: This policy reflects recent federal statutory changes made by Every Student Succeeds Act (ESSA) which require school districts and schools to meet with parents and jointly develop parent and family engagement policies at both a district wide and school building level. This policy lists the required components of the parent and family engagement policies described herein and serves as a framework for their development. The policies and these components are mandatory in order for the school district to receive federal funds under this program.]

I. PURPOSE

The purpose of this policy is to encourage and facilitate involvement by parents of students participating in Title I in the educational programs and experiences of students. The policy shall provide the framework for organized, systematic, ongoing, informed and timely parental involvement in relation to decisions about the Title I services within the school district. The involvement of parents by the school district shall be directed toward either public or private school children whose parents are school district residents or whose children attend school within the boundaries of the school district.

II. GENERAL STATEMENT OF POLICY

- A. The policy of the school district is to plan and implement, with meaningful consultation with parents of participating children, programs, activities and procedures for the engagement of parents and families in its Title I programs.
- B. The policy of the school district is to fully comply with 20 U.S.C. § 6318 which requires the school district to develop jointly with, agree upon with, and distribute to parents of children participating in Title I programs written parent and family engagement policies.

III. DEVELOPMENT OF DISTRICT LEVEL POLICY

The school board will direct the administration to develop jointly with, agree upon with, and make available to parents and family members via the District Webpage, a parent and family engagement policy that will be incorporated into the school district's Title I plan. The policy will establish the expectations for meaningful parent and family involvement and describe how the school district will:

- A. Involve parents and family members in the joint development of the school district's Title I plan and the development of support and improvement plans;
- B. Provide the coordination, technical assistance, and other support necessary to assist and build the capacity of all participating schools within the school district in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance, which may

include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education;

- C. Coordinate and integrate parent and family engagement strategies with similar strategies, to extend feasible and appropriate, with other relevant federal, state, and local laws and programs;
- D. Conduct, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the schools served, including identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, disabled, have limited English proficiency, have limited literacy, or who are of a racial or ethnic minority background); the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and strategies to support successful school and family interactions;
- E. Use the findings of such evaluations to design evidence-based strategies for more effective parental involvement and to revise, if necessary, the district-level and school-level parent and family engagement policies; and
- F. Involve parents in the activities of the schools, which may include establishing a parent advisory board comprised of a sufficient number and representative group of parents and family members served by the school district to adequately represent the needs of the population served by the school district for the purposes of developing, revising, and reviewing the parent and family engagement policy.

IV. DEVELOPMENT OF SCHOOL LEVEL POLICY

The school board will direct the administration of each school to develop (or amend an existing parental involvement policy) jointly with, and distribute to—make available to, parents and family members of children participating in Grades Kindergarten through Fifth a written parent and family engagement policy the Student-Parent-School Partnership Plan, agreed upon by such parents and families, that shall describe the means for carrying out the federal requirements of parent and family engagement. Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents can understand. Such policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school.

- A. The policy will describe the means by which each school with a Title I program will:
 - 1. Convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation in Title I programs, and to explain to parents of participating children the program, its requirements, and their right to be involved;

2. Offer a flexible number of meetings, such as meetings in the morning or evening, and may provide with Title I funds transportation, childcare, or home visits, as such services relate to parental involvement;
 3. Involve parents in an organized, ongoing, and timely way, in the planning, review, and improvement of the parental involvement programs, including the planning, review, and improvement of the school parent and family engagement policy, Student-Parent-School Partnership Plan and the joint development of the school-wide program plan, except that if a school has in place a process for involving parents in the joint planning and design of the school's programs, the school may use that process, if such process includes an adequate representation of parents of participating children;
 4. Provide parents of participating children in Grades Kindergarten through Fifth with: timely information about the School-Wide Title I programs; a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging state academic standards; if requested by parents, opportunities for regular meetings to formulate suggestions, and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible; and
 5. If the school-wide program plan is not satisfactory to the parents of participating children in Grades Kindergarten through Fifth, submit any parent's comments on the plan when it is submitted to the school district.
- B. As a component of this policy, each school shall jointly develop with parents a school/parent compact/Student-Parent-School Partnership Plan (printed in both English and Spanish) which outlines how parents, staff, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the state's high standards. The compact shall:
1. Describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to meet state student academic achievement standards;
 2. Describe the ways each parent will be responsible for supporting his or her child's learning by volunteering in his or her child's classroom, and participating, as appropriate, in decisions relating to his or her child's education and use of extracurricular time.
 3. Address the importance of communication between teachers and parents on an on-going basis through the use of:
 - a. Annual parent-teacher conferences to discuss the Windom Area Elementary School-Wide compact/Student-Parent-School Partnership Plan and the child's achievement;
 - b. Frequent progress reports to the parents; and

- c. Reasonable access to staff, opportunities to volunteer, participate in the child's class, and observe in the child's classroom.
 - d. Ensuring regular two-way, meaningful communication between family members and school staff and, to the extent practicable, in a language that family members can understand.
- C. To ensure effective involvement of parents and to support a partnership among the school, parents, and community to improve student academic achievement, the policy will describe how each school and the school district will:
 - 1. Provide assistance to participating parents in understanding such topics as the state's academic content standards and state academic achievement standards, state and local academic assessments, Title I requirements, and how to monitor a child's progress and work with educators to improve the achievement of their children;
 - 2. Provide materials and training to assist parents in working with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement;
 - 3. Educate school staff, with the assistance of parents, in the value and utility of contributions of parents and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and school;
 - 4. Coordinate and integrate parental involvement programs and activities with other federal, state, and local programs, including public preschool programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children to the extent feasible and appropriate;
 - 5. Ensure, to the extent practicable, that information about school and parent meetings, programs, and activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand; and
 - 6. Provide such other reasonable support for parental involvement activities as requested by parents.
- D. The policy will also describe the process to be taken if the school district and school choose to:
 - 1. Involve parents in the development of training for school staff to improve the effectiveness of such training;
 - 2. Provide necessary literacy training with funds received under Title I programs if all other funding has been exhausted;
 - 3. Pay reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to

enable parents to participate in school-related meetings and training sessions;

4. Train parents to enhance the involvement of other parents;
 5. Arrange meetings at a variety of times or conduct in-home conferences between teachers or other educators, who work directly with participating children, and parents who are unable to attend such conferences at school in order to maximize parental involvement and participation in school-related activities;
 6. Adopt and implement model approaches to improving parental involvement;
 7. Develop appropriate roles for community-based organizations and business in parental involvement activities; and
 8. Establish a district-wide parent advisory council to provide advice on all matters related to parental involvement in Title I programs.
- E. To carry out the requirements of parent and family engagement, the school district and schools, to the extent practicable, will provide opportunities for the informed participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports in a format and, to the extent practicable, in a language that is understandable by the parents.
- F. The school district and each school shall inform parents and parent organizations of the existence of family engagement in education programs.

The policies will be updated periodically to meet the changing needs of parents and the school.

Cross References: None

PART V. ADOPTION

Windom School District Parental Involvement Policy has been developed and/or revised jointly with, and agreed on with, parents of children participating in Title I programs. Windom Elementary Leadership Team (made up of teachers, administration, parents), Windom Elementary PTO (made up of teachers, administration, parents), as well as families that attend the monthly Family Engagement Nights have had input in this Parent Involvement Policy. This Parent Involvement Policy was approved by Windom School Board on **April 28, 2025** and will be in effect for the period of the following school year. Windom Public Schools will distribute this policy to all parents of participating School Wide Title I children on or before Fall Conferences in **2025**. This Parent Involvement Policy is also available on the school district webpage.

04282025

Member _____ introduced the following Resolution and moved its adoption:

RESOLUTION REGARDING THE USE OF EMPLOYEES' PERSONAL VEHICLES FOR
EXTRACURRICULAR ACTIVITIES

WHEREAS, Minnesota law authorize the School Board to adopt District policies, procedures, and processes;

WHEREAS, the School Board adopted District Policy 710 - Extracurricular Transportation on December 14, 2011;

WHEREAS, the District has evaluated the financial, personnel, and other resources required for District provided transportation for extracurricular activities and has determined that providing transportation for extracurricular activities is not feasible in all circumstances;

WHEREAS, District Policy 710 dictates that, if the District makes no arrangements for extracurricular transportation, District students who wish to participate in the extracurricular are responsible for arranging for or providing their own transportation;

WHEREAS, District Policy 710 generally prohibits District employees from undertaking independent arrangement, scheduling, and coordination of transportation for extracurricular activities unless specifically directed or approved by the District's administration;

WHEREAS, District Policy 710 generally prohibits District employees from using their personal vehicles to transport District students for extracurricular activities absent an emergency circumstance;

WHEREAS, District employees may be the parent/guardian of a District student and responsible for arranging transportation for their own student/child for extracurricular activities;

WHEREAS, the School Board has determined that it does not intend to curtail District employees, acting as the parent/guardian of their own District student, from transporting other District students as part of a carpool for extracurricular activities;

WHEREAS, the District understands the rulings in *Verhel v. Indep. Sch. Dist. No. 709*, 359 N.W.2d 579 (Minn. 1984), and *Fenrich v. The Blake School*, 920 N.W.2d 195 (Minn. 2018), which generally relate to liability for transportation for extracurricular activities;

WHEREAS, the District has evaluated the safety considerations specific to the District providing transportation for extracurricular activities and specific to alternative transportation for extracurricular activities, including transportation provided by a District employee who is the parent/guardian of a District student participating in the extracurricular activity;

WHEREAS, the District has evaluated the possible legal consequences specific to the District providing transportation for extracurricular activities and specific to District employees who are the parent/guardian of a District student providing transportation, as well as the immunities the District has under Minnesota law, including Minnesota Statutes Section 466.03, subdivision 6; and

WHEREAS, the District has evaluated other social and political factors specific to the District providing transportation for extracurricular activities and specific to District employees who are the parent/guardian of a District student providing transportation.

NOW, THEREFORE, BE IT RESOLVED by the School Board of Independent School District No. 177, Windom Area Schools, as follows:

1. In light of the District's balancing of policy objectives as described in this resolution, the District will allow District employees, who are the parent/guardian of a District student, to use their personal vehicles to transport other District students for extracurricular activities when the District has not provided transportation for the extracurricular activity and when their own student/child is also a passenger in the vehicle and participating in the extracurricular activity. The Board determines that under these circumstances, such District employees are acting in their personal capacity as parents/guardians to District students and, as such, are not acting in a manner inconsistent with the requirements of District Policy 710.
2. In light of the District's balancing of policy objectives as described in this resolution, the District will not provide any supervision for District employees engaged in the transportation of District students pursuant to this resolution. The District will not coordinate, oversee, or provide instruction or guidance regarding any transportation arrangement a District employee makes with another student's parents/guardians pursuant to this resolution. Parents/guardians who choose to allow their student to be transported to an extracurricular by a District employee pursuant to this resolution shall be solely responsible to supervise, provide, arrange for, and/or ensure safe and law-abiding transportation for extracurricular activities and shall assume all liability related to such transportation.

Commented [KN1]: Consider whether you want to limit it to just these circumstances or whether you want to strike this language, which would broaden it to allow such employees to drive their kids' friends home even when a bus is available. If you have other restrictions in place to excuse a kid from riding the bus, such as written parental consent authorizing a student to ride with another kid's parents, that same requirement would still apply.

Commented [KN2]: I would recommend limiting it to these circumstances to more clearly maintain the argument that the employee is acting in a personal capacity, but if you'd like to adjust any of this, we certainly can.

The motion for the adoption of this Resolution was duly seconded by _____ and upon a vote being taken, the following voted in favor of this Resolution:

And the following voted against this Resolution:

Whereupon this Resolution was declared duly passed and adopted.

Adopted: _____

MSBA/MASA Model Policy 710

Orig. 1995

Revised: _____

Rev. 20~~22~~12

710 EXTRACURRICULAR TRANSPORTATION

I. PURPOSE

The purpose of this policy is to make clear to students, parents, and staff the school district's policy regarding extracurricular transportation.

II. GENERAL STATEMENT OF POLICY

The determination as to whether to provide transportation for students, spectators, or participants to and from extracurricular activities shall be made solely by the school district administration. This determination shall include, but is not limited to, the decision to provide transportation, the persons to be transported, the type or method to be utilized, all transportation scheduling and coordination, and any other transportation arrangements or decisions. Employees who are involved in extracurricular activities shall be advised by the administration as to the transportation arrangements made, if any.

III. ARRANGEMENT OF EXTRACURRICULAR TRANSPORTATION

School district employees shall not undertake independent arrangement, scheduling, or coordination of transportation for extracurricular activities unless specifically directed or approved by the school district administration. All transportation arrangements made by a school district employee must be approved by a building administrator. If the school district makes no arrangements for extracurricular transportation, students who wish to participate are responsible for arranging for or providing their own transportation.

IV. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

[Note: This policy provides that employees may use a personal vehicle to transport students in an emergency or other unforeseeable circumstance. An "emergency or other unforeseeable circumstance" does not include situations where regular transportation is available or scheduled.]

For example, if a scheduled extracurricular event occurs outside of the school district and the school district transports a team or group of students to and from the event, an employee would be prohibited by law from using a personal vehicle to transport some students to the event. In contrast, if a student attending this same event became ill or injured and required immediate transportation home or to a health care facility, the exigent need to transport one student would not constitute regular or scheduled transportation. An employee would have authority to transport the student in a personal vehicle under these circumstances, if using a vehicle that is properly registered and insured. The expectation of the school district is that the employee would immediately contact administration about these circumstances to ensure oversight of the employee's use of this exception.

Nonregular and nonscheduled transportation also would include situations where some notice may be provided of the need for transportation to a nonscheduled event for which transportation generally is not provided by the school district. For example, a group of students may participate in a scheduled debate competition for which regular school district transportation is provided. Two students advance to a regional competition the following day. Transportation would not have been scheduled to the regional competition as the students' advancement was not predicted. These circumstances may justify an employee's use of a personal vehicle to transport the two students to the regional competition, if the vehicle is properly registered and insured. Because the employee has sufficient time to contact an administrator, advance written permission by an administrator would be expected for the purpose of overseeing that the reasons for an employee using a personal vehicle comply with the requirements of the law.]

V. FEES

In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.

407 EMPLOYEE RIGHT TO KNOW – EXPOSURE TO HAZARDOUS SUBSTANCES

[NOTE: School districts are not required by statute to have a policy addressing these issues. However, the provisions of this policy accurately reflect the requirements of Minnesota Statutes, section, 182.653.]

I. PURPOSE

The purpose of this policy is to provide school district employees a place of employment and conditions of employment free from recognized hazards that are likely to cause death or serious injury or harm. (~~Minn. Stat. § 182.653, Subd. 2~~)

II. GENERAL STATEMENT OF POLICY

~~It is the~~ The policy of this school district is to provide information and training to employees who may be "routinely exposed" to a hazardous substance, harmful physical agent, ~~or~~ infectious agent, ~~or blood borne pathogen.~~

III. DEFINITIONS

- A. "Blood borne pathogens" means a pathogenic microorganisms that ~~are~~ is present in human blood and can cause disease in humans. ~~These pathogens~~ This definition includes, but ~~are~~ is not limited to, hepatitis B virus (HBV) and human immunodeficiency virus (HIV).
- B. "Commissioner" means the Minnesota Commissioner of Labor and Industry.
- C. "Harmful physical agent" means a physical agent determined by the commissioner as a part of the standard for that agent to present a significant risk to worker health or safety or imminent danger of death or serious physical harm to an employee. This definition includes, but is not limited to, radiation, whether ionizing or nonionizing.
- D. "Hazardous substance" means a chemical or substance, or mixture of chemicals and substances, which:
1. is regulated by the Federal Occupational Safety and Health Administration under the Code of Federal Regulations; or
 2. is either toxic or highly toxic; an irritant; corrosive; a strong oxidizer; a strong sensitizer; combustible; either flammable or extremely flammable; dangerously reactive; pyrophoric; pressure-generating; compressed gas; carcinogen; teratogen; mutagen; reproductive toxic agent; or that otherwise, according to generally accepted documented medical or scientific evidence, may cause substantial acute or chronic personal injury or illness during or as a direct result of any customary or reasonably foreseeable accidental or intentional exposure to the chemical or substance; or

3. is determined by the commissioner as a part of the standard for the chemical or substance or mixture of chemicals and substances to present a significant risk to worker health and safety or imminent danger of death or serious physical harm to an employee as a result of foreseeable use, handling, accidental spill, exposure, or contamination.
- E. "Infectious agent" means a communicable bacterium, rickettsia, parasites, virus, or fungus determined by the commissioner by rule, with approval of the commissioner of health, which, according to documented medical or scientific evidence, causes substantial acute or chronic illness or permanent disability as a foreseeable and direct result of any routine exposure to the infectious agent. Infectious agent does not include an agent in or on the body of a patient before diagnosis.
 - F. "Routinely exposed" means that there is a reasonable potential for -exposure during the normal course of assigned work or when an employee is assigned to work in an area where a hazardous substance has been spilled.

IV. TARGET JOB CATEGORIES

Training Annual training will be provided to all full- and part-time employees who are "routinely exposed" to a hazardous substance, harmful physical agent, ~~or~~ infectious ~~-substance agent, or blood borne pathogen~~ as set forth above.

V. TRAINING SCHEDULE

Training will be provided to employees before beginning a job assignment as follows:

- A. Any newly hired employee assigned to a work area where he or she is determined to be "routinely exposed" under the guidelines above.
- B. Any employee reassigned to a work area where he or she is determined to be "routinely exposed" under the above guidelines.

420 STUDENTS AND EMPLOYEES WITH SEXUALLY TRANSMITTED INFECTIONS AND DISEASES AND CERTAIN OTHER COMMUNICABLE DISEASES AND INFECTIOUS CONDITIONS

[Note: School districts are not required by statute to have a policy addressing these issues. However, ~~Minn. Stat. §Minnesota Statutes section~~ 121A.23 provides that school districts must have a program that incorporates the provisions contained in this policy.]

I. PURPOSE

Public concern that students and staff of the school district be able to attend the schools of the district without becoming infected with serious communicable or infectious diseases, including, but not limited to, Human Immunodeficiency Virus (HIV), Acquired Immunodeficiency Syndrome (AIDS), Hepatitis B, and Tuberculosis, requires that the school board adopt measures effectively responding to health concerns while respecting the rights of all students, employees, and contractors, including those who are so infected. The purpose of this policy is to adopt such measures.

II. GENERAL STATEMENT OF POLICY

A. Students

The policy of the school board is that students with communicable diseases not be excluded from attending school in their usual daily attendance setting so long as their health permits and their attendance does not create a significant risk of the transmission of illness to students or employees of the school district. A procedure for minimizing interruptions to learning resulting from communicable diseases will be established by the school district in its IEP and Section 504 team process, if applicable, and in consultation with community health and private health care providers. Procedures for the inclusion of students with communicable diseases will include any applicable educational team planning processes, including the review of the educational implications for the student and others with whom the student comes into contact.

B. Employees

The policy of the school board is that employees with communicable diseases not be excluded from attending to their customary employment so long as they are physically, mentally, and emotionally able to safely perform tasks assigned to them and so long as their employment does not create a significant risk of the transmission of illness to students, employees, or others in the school district. If a reasonable accommodation will eliminate the significant risk of transmission, such accommodation will be undertaken unless it poses an undue hardship to the school district.

C. Circumstances and Conditions

1. Determinations of whether a contagious individual's school attendance or job performance creates a significant risk of the transmission of the illness to students or employees of the school district will be made on a case by case

basis. Such decisions will be based upon the nature of the risk (how it is transmitted), the duration of the risk (how long the carrier is infectious), the severity of the risk (what is the potential harm to third parties), and the probabilities the disease will be transmitted and will cause varying degrees of harm. When a student is disabled, such a determination will be made in consultation with the educational planning team.

2. The school board recognizes that some students and some employees, because of special circumstances and conditions, may pose greater risks for the transmission of infectious conditions than other persons infected with the same illness. Examples include students who display biting behavior, students or employees who are unable to control their bodily fluids, who have oozing skin lesions, or who have severe disorders which result in spontaneous external bleeding. These conditions need to be taken into account and considered in assessing the risk of transmission of the disease and the resulting effect upon the educational program of the student or employment of the employee by consulting with the Commissioner of Health, the physician of the student or employee, and the parent(s)/guardian(s) of the student.

D. Students with Special Circumstances and Conditions

The school (title), along with the infected individual's physician, the infected individual or parent(s)/guardian(s), and others, if appropriate, will weigh risks and benefits to the student and to others, consider the least restrictive appropriate educational placement, and arrange for periodic reevaluation as deemed necessary by the state epidemiologist. The risks to the student shall be determined by the student's physician.

E. Extracurricular Student Participation

Student participation in nonacademic, extracurricular, and non-educational programs of the school district are subject to a requirement of equal access and comparable services.

F. Precautions

The school district will develop routine procedures for infection control at school and for educating employees about these procedures. The procedures shall be developed through cooperation with health professionals taking into consideration any guidelines of the Minnesota Department of Education and the Minnesota Department of Health. (These precautionary procedures shall be consistent with the school district's procedures regarding blood-borne pathogens developed pursuant to the school district's employee right to know policy.)

G. Information Sharing

1. Employee and student health information shall be shared within the school district only with those whose jobs require such information and with those who have a legitimate educational interest (including health and safety) in such information and shall be shared only to the extent required to accomplish legitimate educational goals and to comply with employees' right to know requirements.
2. Employee and student health data shall be shared outside the school district only in accordance with state and federal law and with the school district's

policies on employee and student records and data.

H. Reporting

If a medical condition of student or staff threatens public health, it must be reported to the Minnesota Commissioner of Health.

I. Prevention

The school district shall, with the assistance of the Minnesota Commissioners of Health and -Education, implement a program to prevent and reduce the risk of sexually transmitted diseases in accordance with Minn. Stat. §Minnesota Statutes section 121A.23 ~~which-that~~ includes:

1. planning materials, guidelines, and other technically accurate and updated information;
2. a comprehensive, developmentally appropriate, technically accurate, and updated curriculum that includes helping students to abstain from sexual activity until marriage;
3. cooperation and coordination among school districts and Service Cooperatives;
4. a targeting of adolescents, especially those who may be at high risk of contracting sexually transmitted diseases and infections, for prevention efforts;
5. involvement of parents and other community members;
6. in-service training for district staff and school board members;
7. collaboration with state agencies and organizations having a sexually transmitted infection and disease prevention or sexually transmitted infection and disease risk reduction program;
8. collaboration with local community health services, agencies and organizations having a sexually transmitted infection and disease risk reduction program; and
9. participation by state and local student organizations.
10. The program must be consistent with the health and wellness curriculum.
11. The school district may accept funds for sexually transmitted infection and disease prevention programs developed and implemented under this section from public and private sources, including public health funds and foundations, department professional development funds, federal block grants, or other federal or state grants.

J. Vaccination and Screening

The school district will develop procedures regarding the administration of Hepatitis B vaccinations and Tuberculosis screenings in keeping with current state and federal law. The procedures shall provide that the Hepatitis B vaccination series be offered to all who have occupational exposure at no cost to the employee.

423 EMPLOYEE-STUDENT RELATIONSHIPS

I. PURPOSE

The school district is committed to an educational environment in which all students are treated with respect and dignity. Every school district employee is to provide students with appropriate guidance, understanding, and direction while maintaining a standard of professionalism and acting within accepted standards of conduct.

II. GENERAL STATEMENT OF POLICY

- A. This policy applies to all school district employees at all times, whether on or off duty and on or off of school district locations.
- B. At all times, students will be treated by teachers and other school district employees with respect, courtesy, and consideration and in a professional manner. Each school district employee is expected to exercise good judgment and professionalism in all interpersonal relationships with students. Such relationships must be and remain on a teacher-student basis or an employee-student basis.
- C. Teachers must be mindful of their inherent positions of authority and influence over students. Similarly, other school district employees also may hold positions of authority over students of the school district and must be mindful of their authority and influence over students.
- D. Sexual relationships between school district employees and students, without regard to the age of the student, are strictly forbidden and may subject the employee to criminal liability.
- E. Other actions that violate this policy include, but are not limited to, the following:
 - 1. Dating students.
 - 2. Having any interaction/activity of a sexual nature with a student.
 - 3. Committing or attempting to induce students or others to commit an illegal act or act of immoral conduct which may be harmful to others or bring discredit to the school district.
 - 4. Supplying alcohol or any illegal substance to a student, allowing a student access to such substances, or failing to take reasonable steps to prevent such access from occurring.
- F. School district employees shall, whenever possible, employ safeguards against improper relationships with students and/or claims of such improper relationships.

[Note: Such safeguards may include the following: avoiding altogether or minimizing physical contact, keeping doors open when talking or meeting with students one-on-one, and/or making sure that such meetings with a

student take place in rooms with windows and/or others nearby.]

- G. Excessive informal and social involvement with individual students is unprofessional, is not compatible with employee-student relationships, and is inappropriate.
- H. School district employees will adhere to applicable standards of ethics and professional conduct in Minnesota law.

III. REPORTING AND INVESTIGATION

- A. Complaints and/or concerns regarding alleged violations of this policy shall be handled in accordance with MSBA/MASA Model Policy 103 (Complaints – Students, Employees, Parents, Other Persons) unless other specific complaint procedures are provided within any other policy of the school district.
- B. All employees shall cooperate with any investigation of alleged acts, conduct, or communications in violation of this policy.

IV. SCHOOL DISTRICT ACTION

Upon receipt of a report, the school district will take appropriate action. Such action may include, but is not limited to, warning, suspension, exclusion, expulsion, transfer, remediation, termination, or discharge. It also may include reporting to appropriate state or federal authorities, including the Minnesota Professional Educator Licensing and Standards Board or the appropriate licensing authority and appropriate agencies responsible for investigating reports of maltreatment of minors and/or vulnerable adults. School district action taken for violation of this policy will be consistent with requirements of applicable collective bargaining agreements, Minnesota and federal law, and school district policies.

V. SCOPE OF LIABILITY

Employees are placed on notice that if an employee acts outside the performance of the duties of the position for which the employee is employed or is guilty of malfeasance, willful neglect of duty, or bad faith, the school district is not required to defend and indemnify the employee for damages in school-related litigation.

530 IMMUNIZATION REQUIREMENTS

[Note: The provisions of this policy substantially reflect statutory requirements.]

I. PURPOSE

The purpose of this policy is to require that all students receive the proper immunizations as mandated by law to ensure the health and safety of all students.

II. GENERAL STATEMENT OF POLICY

All students are required to provide proof of immunization, or appropriate documentation exempting the student from such immunization, and such other data necessary to ensure that the student is free from any communicable diseases, as a condition of enrollment.

III. STUDENT IMMUNIZATION REQUIREMENTS

- A. No student may be enrolled or remain enrolled, on a full-time, part-time, or shared-time basis, in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted to the designated school district administrator the required proof of immunization. Prior to the student's first date of attendance, the student or the student's parent or guardian shall provide to the designated school district administrator one of the following statements:
1. a statement from a physician, advanced practice registered nurse, physician assistant, or a public clinic which provides immunizations (hereinafter "medical statement"), stating affirming that the student received the immunizations required by law, consistent with medically acceptable standards; or
 2. a medical statement ~~from a physician or a public clinic which provides immunizations, stating affirming~~ that the student received the primary schedule of immunizations required by law and has commenced a schedule of the remaining required immunizations, indicating the month and year each immunization was administered, consistent with medically acceptable standards.
- B. The statement of a parent or guardian of a student or an emancipated student may be substituted for the medical statement ~~of a physician or public clinic which administers immunizations~~. If such a statement is substituted, this statement must indicate the month and year each immunization was administered. Upon request, the designated school district administrator will provide information to the parent

or guardian of a student or an emancipated student of the dosages required for each vaccine according to the age of the student.

- C. The parent or guardian of persons receiving instruction in a home school shall submit one of the statements set forth in Section III.A. or III.B., above, or statement of immunization set forth in Section IV., below, to the superintendent of the school district by October 1 of the first year of their home schooling in Minnesota and the grade 7 year.
- D. When there is evidence of the presence of a communicable disease, or when required by any state or federal agency and/or state or federal law, students and/or their parents or guardians may be required to submit such other health care data as is necessary to ensure that the student has received any necessary immunizations and/or is free of any communicable diseases. No student may be enrolled or remain enrolled in any elementary or secondary school within the school district until the student or the student's parent or guardian has submitted the required data.
- E. The school district may allow a student transferring into a school a maximum of 30 days to submit a statement specified in Section III.A. or III.B., above, or Section IV., below. Students who do not provide the appropriate proof of immunization or the required documentation related to an applicable exemption of the student from the required immunization within the specified time frames shall be excluded from school until such time as the appropriate proof of immunizations or exemption documentation has been provided.
- F. If a person who is not a Minnesota resident enrolls in a school district online learning course or program that delivers instruction to the person only by computer and does not provide any teacher or instructor contact time or require classroom attendance, the person is not subject to the immunization, statement, and other requirements of this policy.

IV. EXEMPTIONS FROM IMMUNIZATION REQUIREMENTS

Students will be exempt from the foregoing immunization requirements under the following circumstances:

- A. The parent or guardian of a minor student or an emancipated student submits a **physician's** signed **medical** statement **stating affirming** that the immunization of the student is contraindicated for medical reasons or that laboratory confirmation of the presence of adequate immunity exists; or
- B. The parent or guardian of a minor student or an emancipated student submits his or her notarized statement stating the student has not been immunized because of the conscientiously held beliefs of the parent, guardian or student.

V. NOTICE OF IMMUNIZATION REQUIREMENTS

- A. The school district will develop and implement a procedure to:
 - 1. notify parents and students of the immunization and exemption requirements by use of a form approved by the Department of Health;
 - 2. notify parents and students of the consequence for failure to provide required documentation regarding immunizations;
 - 3. review student health records to determine whether the required information has been provided; and
 - 4. make reasonable arrangements to send a student home when the immunization requirements have not been met and advise the student and/or the student's parent or guardian of the conditions for re-enrollment.

[See Attachments A, B, C, and D.]

- B. The notice provided shall contain written information describing the exemptions from immunization as permitted by law. The notice shall be in a font size at least equal to the font size and style as the immunization requirements and on the same page as the immunization requirements.

VI. IMMUNIZATION RECORDS

- A. The school district will maintain a file containing the immunization records for each student in attendance at the school district for at least five years after the student attains the age of majority.
- B. Upon request, the school district may exchange immunization data with persons or agencies providing services on behalf of the student. Immunization data is private student data and disclosure of such data shall be governed by Policy 515 Protection and Privacy of Pupil Records.
- C. The designated school district administrator will assist a student and/or the student's parent or guardian in the transfer of the student's immunization file to the student's new school within 30 days of the student's transfer.
- D. Upon request of a public or private post-secondary educational institution, the designated school district administrator will assist in the transfer of the student's immunization file to the post-secondary educational institution.

VII. OTHER

Within 60 days of the commencement of each new school term, the school district will forward a report to the Commissioner of the Department of Education stating the number of students attending each school in the school district, including the number of students receiving instruction in a home school, the number of students who have not been immunized, and the number of students who received an exemption. The school district

also will forward a copy of all exemption statements received by the school district to the Commissioner of the Department of Health.

701 ESTABLISHMENT AND ADOPTION OF SCHOOL DISTRICT BUDGET

[NOTE: The provisions of this policy substantially reflect the requirements of Minnesota Statutes.]

I. PURPOSE

The purpose of this policy is to establish lines of authority and procedures for the establishment of the school district's revenue and expenditure budgets.

II. GENERAL STATEMENT OF POLICY

The policy of the school district is to establish its revenue and expenditure budgets in accordance with the applicable provisions of law. Budget planning is an integral part of program planning so that the annual budget will effectively express and implement school board goals and the priorities of the school district.

III. REQUIREMENT

- A. The superintendent or such other school official as designated by the superintendent or the school board shall each year prepare preliminary revenue and expenditure budgets for review by the school board or its designated committee or committees. The preliminary budgets shall be accompanied by such written commentary as may be necessary for them to be clearly understood by the members of the school board and the public. The school board shall review the projected revenues and expenditures for the school district for the next fiscal year and make such adjustments in the expenditure budget as necessary to carry out the education program within the revenues projected. When projected expenditures exceed projected revenues, the school board may consider use of an available fund balance, if one exists.
- B. The school district must maintain separate accounts to identify revenues and expenditures for each building. Expenditures shall be reported in compliance with Minnesota Statutes, section 123B.76.
- C. Prior to July 1 of each year, the school board shall approve and adopt its initial revenue and expenditure budgets for the next school year. The adopted expenditure budget document shall be considered the school board's expenditure authorization for that school year. No funds may be expended for any purpose in any school year prior to the adoption of the budget document which authorizes that expenditure for that year, or prior to the adoption of an amendment to that budget document by the school board to authorize that expenditure for that year.
- D. Each year, the school district shall publish its adopted revenue and expenditure budgets for the current year, the actual revenues, expenditures, and fund balances for the prior year, and the projected fund balances for the current year in the form prescribed by the ~~Minnesota~~ Commissioner of the Minnesota Department of Education (Commissioner) within one week of the acceptance of the final audit by the school board, or November 30, whichever is earlier. A statement shall be included in the publication that the complete budget in detail may be inspected by any resident of the school district upon request to the superintendent. A summary of this information and the address of the

school district's official website where the information can be found must be published in a newspaper of general circulation in the school district. At the same time as this publication, the school district shall publish the other information required by Minnesota Statutes section 123B.10.

- E. At the public hearing on the adoption of the school district's proposed property tax levy, the school board shall review its current budget and the proposed property taxes payable in the following calendar year.
- F. The school district must also post the materials specified in Paragraph III.D. above on the school district's official website, including a link to the school district's school report card on the Minnesota Department of Education's website, and publish a summary of information and the address of the school district's website where the information can be found in a qualified newspaper of general circulation in the district.

IV. IMPLEMENTATION

- A. The school board places the responsibility for administering the adopted budget with the superintendent. The superintendent may delegate duties related thereto to other school officials, but the superintendent maintains the ultimate responsibility for this function.
- B. The program-oriented budgeting system will be supported by a program-oriented accounting structure organized and operated on a fund basis as provided for in Minnesota statutes through the Uniform Financial Accounting and Reporting Standards for Minnesota School Districts (UFARS).
- C. The superintendent or the superintendent's designee is authorized to make payments of claims or salaries authorized by the adopted or amended budget prior to school board approval.
- D. Supplies and capital equipment can be ordered prior to budget adoption only by authority of the school board. If additional personnel are provided in the proposed budget, actual hiring may not occur until the budget is adopted unless otherwise approved by the school board. Other funds to be expended in a subsequent school year may not be encumbered prior to budget adoption unless specifically approved by the school board.
- E. The school district shall make such reports to the ~~Minnesota~~ Commissioner of Education as required relating to initial allocations of revenue, reallocations of revenue, and expenditures of funds.
