YOUR SOLAR PROJECT WILL IMPACT **OAKDALE PUBLIC SCHOOL** FOR OVER 30 YEARS

Energy costs continue to rise, increasing the financial burden on Oakdale Public School, which currently spends \$108,851 annually on electricity.

A Brightwell solar project can change this future.

Lower Costs

A better way to buy electricity *just arrived*

Electricity is a non-negotiable expense, but how you purchase it can be reimagined. A Brightwell solar project allows Oakdale Public School to lock in a lower cost of solar energy in year one while protecting against future rate increases. The 418.7 kW PV system will offset 52% of your facility's energy consumption, transforming \$1,708,096 of operating expenses into long-term cost savings that can go back into the programs and services that matter most.

GOING SOLAR IS AN EASY DECISION

Reduce Electric Costs

Switching to solar reduces electricity costs immediately and provides a long-term hedge against rising rates. By not going solar, Oakdale Public School risks continued exposure to unpredictable utility price increases.

Manage Capital Outlay

With Brightwell's Energy Management Service Agreement (EMSA), you can procure solar energy for less than the project price. Simply sign the agreement, pay a fraction of the project price at installation, and receive predictable energy costs through solar.

Flexibility to Buyout

The Brightwell EMSA provides the option to purchase the solar system in the future, shifting even more savings back to Oakdale Public School and increasing long-term financial benefits.

Frequently Asked Questions

How does this affect our insurance?

When going solar, the impact investor maintains general liability, excess liability, and property liability insurance. Brightwell will provide a **Certificate of Insurance (COI)** to the organization, which can be shared with the organization's insurance carrier. If your roof has a claim, the deductible will cover the uninstall - reinstall cost.

Will this affect our roof?

When installing solar, we evaluate your roof to optimize installation. We work with the installer to limit penetrations and obtain a structural engineer's stamp. **This is backed by a 5-year craftsmanship warranty, alleviating any roof concerns.**

Who services the panels?

Solar panels require minimal maintenance. However, the **EMSA includes monitoring and an annual maintenance inspection** to keep the system in peak condition.

Does Brightwell have solar expertise?

Design & Installation—Brightwell ensures top-tier energy solutions with an in-house team of solar architects, installation teams, structural engineers, certified electricians, and NABCEP PVIP-certified professionals. The Brightwell team has experience installing over 20 MW of solar projects.

What happens in bad weather?

Solar panels undergo rigorous testing during the manufacturing process to ensure their durability and resilience in harsh conditions. This includes exposure to extreme temperatures, humidity, and other environmental stressors.

Hail Warranty—Panels typically have warranties that cover up to 1" hail at 51.6 mph.

What happens if we have to repair our roof—do we have to take the panels off and put them back on?

The panels protect the portion of the roof they are on top of but if the roof is damaged requiring a re-roof, this will require an uninstall - reinstall of the solar system. In this situation, it could be 5-15% of the roof cost but this cost is covered by the same deductible as the deductible you pay for your roof. The system will be taken down, stored in a safe location, and reinstalled once the roof is complete.

What type of products does Brightwell use?

Brightwell focuses on top tier products that have the industries longest warranties to ensure our projects last for decades.

Tier 1 Designation. The bankable Tier 1 ranking is a classification system signifies a company is considered highly reliable and has a strong financial standing, making it more likely for banks to provide loans for projects using their panels. Ratings of solar companies as top-tier solar panel producers based on their financial strength and production capacity.

Industry Leading Warranties. The solar panels, inverters, and racking systems have best-in-class 25-year product warranties and 30-year panel performance warranties.

DISPUTES:

It is your responsibility to review your statement or other documentation regarding transactions on your Account, such as without limitation reports or notices, promptly upon receipt.

If you think there is an error on your statement, write to us at:

Credit Cardholder Services Disputes
P.O. Box 2087
Omaha, NE 68103-2087

or call us at 1-855-340-8771, and tell us your name, Account number, dollar amount of the suspected error, and a description of the problem.

You agree to provide notice of, and at our request, reasonable documentation, regarding the problem within a reasonable time (not to exceed sixty (60) calendar days) from the date of discovery or your receipt of the first statement, report, or notice reflecting the problem, whichever occurs first, unless applicable law provides otherwise. If you fail to notify us of any discrepancy within sixty (60) calendar days of receipt of a monthly statement containing such information, you shall be precluded from asserting such discrepancy against us, and we shall not be liable for any losses resulting from your failure to give timely notice.

BALANCE COMPUTATION METHOD: Here is how we compute the balance subject to finance charge: We figure the balance subject to finance charge on your Account by the "average daily balance" (including current transactions) method. To get the "average daily balance," we take the beginning balance on your Account each day, add any new purchases/advances/fees, and subtract any unpaid interest or other finance charges and any payments or credits. This gives us the daily balance. Then, we add all the daily balances for the billing cycle and divide the total by the number of days in the billing cycle. This gives us the "average daily balance," which will be the balance subject to the finance charge.

PAYING INTEREST: You will not pay a finance charge on Credit Purchases if you fully pay your Account each month by the due date shown on your statement.
