STUDENT PROGRESS MONITORING DATA

When reviewing the Progress Monitoring Reports in **FastBridge** teams examine the data for three possible patterns which indicate the success (or lack thereof) of the intervention being implemented. These three patterns indicate whether the intervention is very successful, somewhat successful, or not successful, and knowing the success (or lack thereof) will provide educators with corresponding next steps to follow, such as maintaining, adjusting, or changing the intervention for the student or students.

Encourage purposeful use of technology: research, collaboration, creative expression. Promote peer modeling and digital citizenship to build comfort and skills.

2. Reinforce Equity in Learning

Professional development focused on culturally responsive teaching and varied instructional methods will help meet diverse student needs.

3. Embed Feedback Loops

Strengthen assessment practices with clear rubrics, checkpoints, and peer/self-reflection strategies that align with traditional values of personal responsibility.

4. Celebrate Strengths Publicly

Recognize supportive classrooms and well-managed environments as models. Use staff meetings or newsletters to share what works.

5. Mentor New & Substitute Teachers

Ensure subs and new teachers are equipped with expectations, routines, and support to minimize instructional gaps.

Final Thoughts

Turtle Mountain High continues to honor tradition while stepping forward in growth. The increase in active learning and support shows that relationships and engagement are at the heart of the work. With a little focus on equity, digital tools, and feedback, we can keep climbing higher—together.
