School District Policy: Participation in Extracurricular Activities and Transition Roles by Former Students

Policy Title: Eligibility for Participation in Extracurricular Activities and Transition Roles

Policy Number: [Insert Number]

Adopted: [Insert Date]

Purpose

This policy establishes clear eligibility criteria for participation in extracurricular activities and school-based transition or support roles within the [School District Name].

Policy Statement

1. Eligibility Limited to Enrolled Students

Participation in school-sponsored extracurricular activities, including but not limited to athletics, clubs, performing arts, and team support positions such as team managers, is limited to individuals who are **currently enrolled students** of the Garfield School District.

2. Former Students Not Eligible

Individuals who have **withdrawn from high school, completed their high school program, graduated, or otherwise exited the district's K–12 educational program** are **not eligible** to participate in or assist with extracurricular activities in any student capacity, including positions such as team manager or student assistant.

3. Adult or Post-Secondary Program Participants

Adults participating in the district's adult education, community education, or postsecondary transition programs are **not considered enrolled high school students** and are therefore **not eligible** to serve in student extracurricular roles.

Such individuals may participate only through officially approved adult volunteer or employment positions, as authorized by district administration and subject to background checks.

4. Volunteer and Employment Exceptions

Former students who wish to assist the district may do so only as approved adult volunteers or employees. Such participation must be clearly distinct from student roles and comply with all district volunteer or employment policies.

Rationale

This policy preserves clear boundaries between student participation and adult involvement, ensures compliance with state and federal education regulations, and protects the integrity and safety of school-based programs. It also ensures that transition case management and student support responsibilities remain under the direction of qualified school district staff.

Responsibility

The Superintendent or designee shall ensure that this policy is implemented and communicated to all staff overseeing extracurricular activities, transition programs, and special education services.
