Letter of Proposal

RE: 2102 NW Lindy Avenue, Lawton, Oklahoma 73505

16 June 2020

Impact Community Center, Inc. (ICC) is a 501c3 Non-Profit Organization on a mission to impact the community of Lawton/Ft. Sill one life at a time by offering a hand up, not just a handout. To more effectively fulfill this mission, the acquirement of a facility will support the function of the programs that will outreach to the community.

The property located at 2102 NW Lindy Avenue, formerly known as Andrew Jackson Elementary School, has the potential to serve as the facility that will be a hub to Zone Two and the Lawton/Ft. Sill Community. With classroom space, a kitchen facility, a large auditorium, storage space, offices, and more: it's not hard for us to envision ICC operating there.

Considering the age and state of the building and the time that has passed since it was operational as a school facility, many changes, construction projects and updates need to be invested into the property. After acquiring quotes from several different companies for the purchase of air conditioning units, roof repair, interior and exterior painting, window repair, and professional cleaning services, we estimate that the property will need upward of $194,000 of investment.

With these financial figures in mind, we would like to propose that ICC lease the property located at 2102 NW Lindy Avenue for $1.00 per year for five (5) years. On the sixth year, ICC will purchase this property for the amount of $10,000. This would include the purchase of the outside storage areas and the acquirement of the items remaining within the building.

Should you have any questions or need to contact us, please don't hesitate to reach us at icclawton.info@gmail.com or you can contact me at 580-458-1536.

Sincerely,

Ray Garcia, Director

Minutes of the Lawton Public Schools Board of Education Special Meeting Held on Monday, June 1, 2020

The Board of Education of Independent School District I-8, Comanche County, Oklahoma, met on Monday, June 1, 2020 at 5:00 PM in Shoemaker Center Auditorium, 753 NW Fort Sill Blvd, Lawton, Oklahoma.

CALL TO ORDER, PLEDGE OF ALLEGIANCE AND ROLL CALL

Carla Clodfelter, President, called the meeting to order. Superintendent Kevin Hime led the flag salute at his first LPS board meeting. Roll call indicated the following board members were present:

Carla Clodfelter, President
Patty Neuwirth, Vice-President
Kelly Edwards
Mary Bradley
Zeldon Rice

*Col. Don King, Ex-Officio, was absent

SPECIAL GUESTS/SPECIAL RECOGNITION

Superintendent Hime introduced Dr. Jason James, the district's new Chief Operating Officer, who was attending his first LPS board meeting as well. There were no other special guests or special recognitions.

ARCHITECT AND CONSTRUCTION MANAGER AT RISK UPDATE

Architect Cory Miller of Architects in Partnership and Josh Jacox of Crossland Construction both provided an overview of the written updates they provided the board on the status of the Eisenhower Middle School construction project as well as other various projects around the district. Some of the additional information shared by Mr. Miller was:

- Detailed schedule will be presented to LPS for review on how Crossland plans to complete the project in time for teacher occupancy the week of August 10, 2020.
- Interlocking walls concern – according to his written explanation, "specifications required interlocked corners where CMU walls intersected, however when construction began, the subcontractor did not interlock the first walls that were erected at the gyms. The subcontractor was given notice of the requirement and told to interlock the CMU moving forward, but neglected to do so which led to quality control problems in some areas. The architect requested that the subcontractor return the cost savings to LPS for the method of installation that was used". Concerns were voiced by Superintendent Hime and Ms. Clodfelter regarding the amount being return to the district, as Mr. Miller stated the amount being presented ($22,640.00) is the value the contractor felt was fair and equitable because it took less time to do it another way. Mr. Hime questioned Mr. Miller over the amount being put back into the contingency fund, instead of lowering the GMP. Mr. Miller stated that at the end of the project all the contingency funds will go back to the district, then on the final Change Order, the GMP will be lowered. Superintendent Hime asked what would happen if at the end of the project there was no contingency left, would the district just lose the money? Mr. Miller stated he could do it a different way and do the change order now, and lower the GMP, instead of the original plan at the end of the project.

Ms. Clodfelter stated she wants the project as they approved, with interlocking walls.

Ms. Edwards voiced concerns with transparency and trust with the community, noting past experiences with projects that did not go as planned (Freedom Elementary), adding the community chose to invest and tust the district on this project that the board must deliver all that they have promised, working hard to rebuild trust. She requested confirmation that there will be oversight daily on the project going forward to ensure no other issues arise and to pass along how disappointed the board is to not have the plans followed.

School Attorney, Chuck Wade, stated there is a breach of contract with multiple parties, and that he recommends that the district go no further on the matter until an investigation takes place, noting specifically the sub-contractor is culpable, and potentially the architect and Crossland Construction as well.

Mr. Miller reassured the board that the building is sound, explaining that bricklayers do this method more often as it takes less time than interlocking the corners. Ms. Neuwirth voiced concerns that a sub-contractor would do what he chose to do instead of what bid specifications and the owner requested.

There were questions by Superintendent Hime and board members on Crossland's notation that the project was "89% complete" as Superintendent Hime told him that he had just visited the site and it appeared to him to be more like 70% complete. Mr. Miller responded that the project is 89% complete "per billing" and that the completion calculations are based more on billing payouts, adding that the costs of the remaining 10% are approximately $4 million.

- Whittier – issues with runoff, meeting this week with civil engineers to address concerns. Final plans to be presented when complete.
- Food Service Warehouse Freeze and Refrigerator Replacement - substantial completion projected mid-July, there will be a 40-day acclimation period, plans for temporary units if not ready for start of school year.
- MHS auditorium, gym, admin HVAC – to be completed before school starts.
- CMS HVAC repair – new unit will not be working until new equipment arrives, projected date mid-September. Staff will start the school year with same level of a/c they have had.
  Ron Stephens Stadium Wall repair – to be placed out to bid soon.

Superintendent Hime informed the board that he has postponed the design of any new projects until the concerns associated with the Whittier Safe Room, Food Service Freezer/Refrigerator Replacement and EMS construction projects have all been settled.

Josh Jacox shared the following additional information regarding the EMS project:

- Confirmed that the building is 89% complete, projected completion date August 3, 2020, however due to delay in auditorium seating, the auditorium will not be completed at that time.
- Meeting with AIP June 16 to review punch list items.
- Classroom furniture to be shipped July 13, remaining furniture July 20.
- Sheetrock wall/tape-texture pain in Admin offices and auditorium to begin June 8
- Interlocking walls - he stated that the AIP Architect approved the aesthetic (not structural) design change from interlocking walls on the gymnasium walls after it was discovered that the masons had already completed the corners of the east and west gymnasium walls with the industry standard instead of the interlocking style, but had not yet completed the north walls. He noted that the subcontractors were told that all remaining walls going forward were to be interlocking. He stated the only areas not interlocked are the gym, music/band, weight/wrestling rooms, adding that the kitchen, auditorium, and restrooms in classrooms are all interlocking.

Ms. Clodfelter requested documentation showing the approval of this design change. Mr. Miller also stated that he would also look for the documentation adding that the matter was discussed with the Superintendent and Sodexo

representatives at that time, although not with the board. Regarding Ms. Clotfelter's statement of feeling blind sighted by this matter, Mr. Jacox stated that although it was just an aesthetic change and not a structural issue, it probably should have gone to the board, and that they are attempting to rectify the issue by returning what they feel is a fair amount to the district, and Superintendent questioned whether he thought $22,000 on a $4 million project was rectifying it. Mr. Jacox reminded him that it is just the corners, not entire walls.

Superintendent Hime discussed with Mr. Jacox the issue he has with the credit of $22,640.00 for the "cost savings" to the district on the aforementioned design change, specifically how it was returned to the contingency fund instead of lowering the GMP on the project.

Ms. Edwards asked Mr. Jacox if there were any other issues not known to the board besides the interlocked masonry issue at EMS, and he made shared that at the beginning of the EMS project, there was an issue with the surveyor's work, as he pulled from the wrong benchmark, causing the site to be 5" too tall. He stated that they were able to adjust the grade and slope on some of the concrete and tie-ins for the utilities, but not changing anything with the building or parking lot which has a little bit more slope to it in certain areas. Mr. Miller added that the civil engineer did review that situation and felt like the grading would be fine, and that they could massage the grades around the perimeter of the site. He stated there was no cost change to the district in that situation and that when it was disclosed that the site was 5" too tall, the foundations were already in place.

Ms. Clodfelter voiced how frustrating it is finding out now of all these issues after being updated at every board meeting by the Architect and Construction Manager at Risk with no mention of these issues, making the board think all was going well with the projects. Mr. Miller stated again that the changes were discussed with the project team for the district and that they were not asked to share the information with the board. When asked if he was referring to Sodexo as part of the team, he said he would have to review minutes of the meetings to see who was present, but that district employees were present as well. Superintendent Hime requested that he share with him those meeting notes to see who from the district was present when the Whittier and EMS issues were being discussed.

In regards to Whittier, Mr. Jacox noted that the new safe room sits in the correct spot, but the contractor doing the dirt work made the detention pond sit 14" too low. He shared that they are working currently to fix erosion control issues there, running pipes underground over to the detention pond, and then off the site out to the city's sewer system, as they did at another one of the new saferoom projects. He reassured the board that it will get fixed and they will make it right for the school.

When asked if the issue with EMS sitting 5" too high would pose concerns for EHS, Mr. Miller stated that they have underground drainage all being piped to the south that will pour into the city's storm sewer system.

Mr. Jacox apologized to the board for not bringing the issues to them as they occurred, stating they were brought up and discussed at the owner's meetings. He assured them that going forward he be ensure that all issues and concerns are brought to them.

DEPARTMENTAL REPORTS

As an information item, updated reports from Business Operations and Educational Services were provided to the board, sharing both recent and pending activities in their departments, ensuring the board members stay informed about the district functions and initiatives. There were no questions or comments from the board on the reports.

REPORT OF THE SUPERINTENDENT

Superintendent Hime gave an update on the COVID-19 situation, sharing that he hopes the district will be able to return to the 2020-2021 school year in normal fashion, stating the situation continues to improve over time, but that he and district leaders will have a flexible plan in place, if necessary. He made note that he does not plan to make any changes to the current LPS school calendar. He stated that he and district leadership are reviewing existing policy and procedures, like the district's current transfer policy, stating he has no plans to make changes during his first year unless of course it impacts students in a positive way. He also shared with the board his desire to increase the

marketing of Lawton Public Schools, sharing the successes of students and staff, which will help impact the district's image and hopefully become the district of choice for people in this area. He informed the board that 12-month and Shoemaker/Media employees will be working 4-day workweeks with Fridays off throughout the summer, which will help the summer mowing staff and allow the Shoemaker and Media Center buildings to be disinfected on Thursday evenings.

Congratulations to EHS graduate Joseph Kelly who will be attending the U.S. Military Academy at West Point, New York and to MHS graduate Sydney Gunter who will be attending the U.S. Air Force Academy at Colorado Springs, Colorado.

Ms. Relf,

The emergency purchase orders were necessary due to vendors canceling shipments because of COVID, Grand spending deadlines, and Grant Budget closure.

Respectfully,

Reagan Hall-Ousley

Ms. Relf,

The DIGI requisition is an emergency due to the error/miscommunication between Tech and AIP. The installation of security systems was approved at the new Eisenhower Middle School. No purchase order was put on. It was misunderstood that AIP would be responsible for the installation, but Lawton Public Schools is responsible. Therefore, the Purchase Order is required. To pay the Purchase Order, in needs to be put on in this fiscal year.

This issue was brought to my attention today 6/18/2020

Respectfully,

AJ Watson

Administration

Authority for Activity Funds

Oklahoma statutes (70 O.S. 5-129A) require the board of education of each school district to adopt appropriate policies and regulations governing the receipt and expenditure of school activity funds. The law requires that a custodian be appointed to make a full and true accounting for all funds, which may come into his/her possession or under his/her control.

Board of Education

The Lawton Board of Education will exercise control over all funds on hand hereafter received or collected, as herein provided, from student or other extra curricular activities conducted in the school district. The board of education, at the beginning of each fiscal year, will approve all school activity fund subaccounts, all subaccount fundraising activities and all purposes for which the monies collected can be expended.

Activity Fund Custodian

The board of education shall designate an activity fund custodian. The activity fund custodian shall have oversight responsibility in implementing the prescribed system of accounting at each location throughout the district. Such records of receipts, expenditures, transfers, fund balances and other financial information shall be made available to administrators, custodians, sponsors, and to the general public.

Site Administrator

The principal of the school is designated as the site administrator and shall be responsible for the proper administration of the financial activities of each account within the fund in accordance with state laws, state board of education regulations, board policies, and administrative regulations. The site administrator can delegate the daily duties required to maintain the activity fund accounts.

Establishment and Amendment of Activity Fund Accounts

The establishment and amendment of all school activity fund accounts must be made with the approval of the board of education. This includes approval of the purpose and revenue sources of the accounts. Continuous accounts will be ongoing from one year to the next. These are approved prior to the beginning of the new fiscal year. To establish or amend an account, the site

administrator will be responsible for initiating the Establish or Amend Activity Accounts form (Appendix A-1).

Accounting System

The activity fund custodian or designee shall maintain an accounting system for all school activity funds. Such accounting system shall provide a complete record of receipts, expenditures, transfers, and fund balances of each account of the school activity fund. **School activity funds shall not carry a negative balance at anytime.**

Bank statement of school activity fund shall be reconciled on a monthly basis by the activity fund custodian or his/her designee. The school activity fund shall be balanced to the bank statement and any discrepancies noted shall be immediately resolved. Reconciled bank statements shall be kept in the business office.

Reporting

The activity fund custodian shall provide a report to the board of education at a regularly scheduled meeting each month presenting the financial information of each account of the school activity fund, including beginning balances, receipts, expenditures, transfers, and ending balances of each account for the previous month.

The activity fund custodian shall also provide a detailed report to the board of education at the end of the fiscal year showing beginning balances, receipts, expenditures, transfers, and ending balances of each account of the school activity fund as of the close of the fiscal year.

Investment Income

The school district treasurer or designee shall invest any available funds in authorized interest-bearing instruments/accounts as authorized and approved by the board of education policies and state statutes.

House Bill 1294 (1981) permits school activity funds to be deposited in interest-bearing accounts including certificates of deposit.

Oklahoma School Law (1983) Section 80 F (3) provides that the income from the activity fund investment account may be transferred to the general fund for general operations.

Audits

The board of education shall contract for an annual audit of all school district funds each fiscal year, which shall include all school activity funds. The original report of such audit shall be delivered to the superintendent and the board of education. The audit cost will be paid from the activity fund interest in LPS Miscellaneous Expense.

Bonding

The custodian is required to give a surety bond in such amounts as the board may deem necessary, but not less than $1,000. The premium of the surety will be paid from activity funds.

The board of education may direct in writing that any balance in excess of the amount needed to fulfill the purpose for which an account was established may, after consultation with the school principal or custodian of the school account, be transferred to another account by the custodian. In this manner an account may be closed. All transfers require board approval.

Excess revenues may be transferred from a continuous account and must be transferred from a temporary account into another activity account or into the district's general operational fund either at the request of the building administrator with the approval of the board of education or by the board of education.

1. The activity fund sponsor must first determine the following before a fundraiser can begin:

    a. Is the fundraiser a board approved fundraiser?

2. If the answer to the above question is yes, then the activity fund sponsor must complete and submit the Permission for Activity Fundraiser form (Appendix A-3) to the principal for approval.

3. The following documentation must be attached to the permission form before submitting to the principal for approval:

    a. Completed Activity Purchase Order and Authority To Pay Voucher (ATP)(Appendix D).

    c. **REMINDER: All agreements/contracts must be submitted to the clerk of the board for approval by the board of education before fundraiser begins. Approved agreements/contracts will be returned to the building financial secretary after board approval. Agreements/contracts needing board approval must be submitted 10 days before the scheduled board meeting.**

4. After the principal's final review and approval, the activity fund sponsor can begin the fundraiser.

5. Upon approval, the principal will forward a copy of the approval documentation listed above to the financial/principal secretary to be maintained in that office for audit purposes.

6. The activity fund sponsor will comply with all activity fund procedures for the fundraiser.

Student Participation in Fundraising Activities

1. When school fundraising activities involve the sale of products outside of the school, principals must:

    a. Secure written parent permission for a student to participate in the fundraiser activity.

    b. Inform parents that students participating in fundraising activities are discouraged from selling door-to-door.

    c. Advise parents that if they permit their student to sell "door-to-door" the student should be accompanied by an adult.

1. The activity fund sponsor will track fundraising items given to each student:
   - Dollar amount of fundraising items given to each student.
   - Dollar amount of fundraising items returned by student.
   - Dollar amount of items sold by student.
   - Date monies are received from student for items sold.
   - Total dollar amount collected from each student.
   - Remaining dollar amount due from student.

2. The Fundraiser Record Keeping Form (Appendix A-4) will be totaled and agreed with daily deposits. A **copy** of the said form will be given to the financial secretary with the daily deposit. The secretary will file the Fundraiser Record Keeping Form with the deposit information. The form and deposit must agree. See example Appendix C.

Payment of Fundraisers

1. Any unsold fundraising items will be returned to the vendor before the fundraising bill can be paid.

2. The fundraising bill must be paid in a timely manner to avoid any late charges or finance charges.

3. The fundraising bill must be paid before the profits are spent.

Reconciliation of Fundraiser

1. When the fundraiser is completed, the secretary can print the project details report to assist in preparing the Profit/Loss Form (Appendix A-5).

2. The Profit/Loss Form must be signed by the principal and sponsor and stapled to the fundraising approval documentation. The process for the Profit/Loss Form is in the profit/loss section of this manual.

RECEIPTS AND DEPOSITS

Funds shall be deposited to the credit of the sub-account maintained for the benefit of the particular activity within a school activity fund.

The principal is responsible for ensuring deposits are made in compliance with state law. State law requires deposit of funds shall be made by the end of the next business day; however, if the deposit for a day totals less than One Hundred Dollars ($100.00), a school district may accumulate monies required to be deposited into the fund on a daily basis until the total accumulated balance of deposits equals or exceeds One Hundred Dollars ($100.00). Provided, a school shall deposit accumulated monies into the fund not less than one (1) time per week, regardless of whether the monies total One Hundred Dollars ($100.00). Money shall not, however, be left overnight in schools unless the school has a vault.

The finance office at Shoemaker Center will issue pre-numbered receipt books to the individual school sites. The site administrator or designee will issue the receipt books to individual sponsors. The site administrator or designee will maintain a Receipt Book Issue Log (Appendix A-6) of all receipt books issued. The log includes:

- The name of the activity sponsor to receive the receipt book. (Only one receipt book should be issued per sub-account).
- The sub-account name and number.
- Date.
- Receipt number range.
- Last date the receipt book was checked in.

At the end of the year the receipts will be turned over to the secretary and logged into the Receipt Book Issue Log as returned. The log and receipt books will be maintained by the financial secretary for audit purposes.

In the following instances, a pre-numbered receipt does not need to be issued to every individual:

- Concession sales.
- Daily food sales.
- Student store sales.
- Ticket sales.
- All receipts under $10.00. However, a Teacher/Sponsor Receipt List form is required (Appendix A-7).
- Liquidation of investments.
- Returned check redeposits.
- Transfers between sub-accounts.
- Bank errors.
- When closing out one bank account and opening a new bank account.

Completion of Receipts

All receipts and logs of money collected should be completed in ink and signed by the person receiving the funds. Amounts should be verified in the presence of the remitter. Duplicate receipts should be maintained in the receipt book. Original receipts should be distributed as follows:

a. Sponsor's Receipt issued to students/parents: The original receipt will be given to the student/parent and the duplicate will remain in the receipt book.

b. Principal's Receipt issued by financial secretary: The original receipt will be stapled to the corresponding sequence of student receipts in the Sponsor's Receipt Book. The duplicate receipt will remain in the Principal's Receipt book.

Whenever a receipt is voided, for any reason, the receipt must be retained in the receipt book for inspection. The word "VOID" shall be clearly written across the face of the receipt.

Sponsor's Receipt to Students/Parents:

Collections under $10.00: If the amount collected is less than $10.00, the sponsor may opt to maintain a Receipts Under $10.00 form (Appendix A-7) which lists student names and amounts remitted in lieu of individual pre-numbered receipts. The form should be totaled and signed by the person collecting the funds. A receipt for the "Under $10.00 Collections" should be receipted into the Sponsor's Receipt Book weekly. The original receipt should be stapled to "Receipts Under $10.00" form. This deposit should be added to the total daily deposit presented to the financial secretary. The financial secretary should maintain the original form for documentation purposes.

Collections in excess of $10.00: Each sponsor of a school activity fund shall issue individual receipts for student collections, which are in excess of $10.00. He or she will issue a receipt showing the date, receipt number, payer's name, purpose for which the money is being paid, and the amount. The sponsor will sign the receipt and give the original copy to the remitter. Duplicate receipts shall be maintained in the receipt book. The receipt book should be presented to the financial secretary with the funds to be deposited. The secretary should reconcile the deposit to the receipt book. **The deposit must agree with the applicable sequence of receipts in the Sponsor's Receipt Book.** The secretary should issue a pre-numbered receipt from the Principal's Receipt Book to the sponsor verifying the amount to be deposited.

The receipt should include the date, amount, sponsor name, purpose of funds, activity fund account name and the corresponding sequence of student receipt numbers. The secretary and sponsor should sign the principal's receipt. The secretary should staple the original principal's receipt to the corresponding sequence of receipts in the Sponsor's Receipt Book.

Student sales: The sponsor or staff member is required to issue a receipt to the student when money is turned over to the school staff member for student sales. See instructions for completing receipts above. Sales of school supplies are exempt from this requirement.

Principal's Daily Deposits

At the end of the day the secretary will deposit all monies receipted for the day in compliance with board policies, state laws, and school activity fund procedures. Procedures are as follows:

1. The secretary will reconcile the amount of monies received for the day with the Principal's Receipt Book. The amount of money received should match the amount receipted in the Sponsor's Receipt Book.

2. Complete the Statement of Credit forms, which are ordered through the Instructional Media/Technology Center. The Statement of Credit is to be completed in three copies with each revenue source listed separately. The secretary should ensure that the Statement of Credit includes the correct OCAS revenue source code (Appendix C), the correct sub-account name and account number, and the origin of funds. All receipts for one day can be deposited on one Statement of Credit – it is not necessary to make separate deposits for each account or receipt.

3. Along with Statement of Credit form, the bank deposit slip should also be completed. Remember to stamp your school check endorsement on the bank deposit slip and include **one** stamped calculator tape. The deposit slip should include the following:

    a. Date of the deposit.
    b. List the receipt range from the Principal's Receipt Book that makes up the deposit.
    c. List the amount of monies to be deposited.

4. The secretary will verify that the money totals and receipt totals agree and initial the deposit slip for verification.

5. The Statement of Credit and the deposit slip should be distributed as follows:

    a. White and yellow copies of the Statement of Credit and of the deposit slip should be included with the deposit in the bank bag.
    b. The secretary should file pink copies of the Statement of Credit and deposit slip.

6. The secretary will maintain a ledger containing deposits and expenditures by day. This ledger should be balanced to the computer-generated Activity Fund Summary and Project Details report at the end of each month. A Month-End Reconciliation Report form (Appendix A-8) should be completed and filed with your monthly report.

Lost or Stolen Money

Any monies lost or stolen due to negligence or noncompliance shall be repaid by the person(s) who had care, custody and control of the funds at the time the funds were lost or stolen.

Monies collected for the school activity fund by any district employee is not the property of the district employee and cannot be diverted for any purpose, temporary or otherwise. All monies raised must be receipted and deposited.

All monies raised by an organization will be receipted and submitted to the financial secretary on a daily basis. The financial secretary will make deposits in compliance with state law.

Check Cashing

Exchanging or cashing checks from money that has been collected is prohibited.

Failure to comply with Lawton Public Schools activity fund procedures could result in disciplinary action and/or termination.

COLLECTION OF FEES AND TUITION – X-TENDED TIME

See Separate Manual.

EXPENDITURES

Disbursements from activity accounts will be made by check signed by activity fund custodian and countersigned by assistant custodian/treasurer, positions appointed by the board of education. Such funds will not be used for any purpose other than that for which the account was originally created or amended.

New Vendors

All vendors will be established through the purchasing department. Before entering into an agreement with an individual or company, there are forms and information necessary to be completed before a vendor can be established. (Appendix A-12, A-12a, A-12b, A-12c) ATP's can not be issued without a pre-issued vendor number.

Contracts/Agreements

The board of education is the approving authority for all obligations of the school district. No employee has the authority to sign any document on behalf of the district. Rentals, fundraisers, consultants, DJ services, are just a few examples that usually have a contract or agreement. All contracts/agreements must be submitted to the clerk of the board for approval by the board of education before the order is placed or arrangements are made on behalf of the district. Approved agreements/contracts will be returned to the building financial secretary after board approval. Approved agreement/contract should be attached to ATP when submitted for payment. Agreements/contracts needing board approval must be submitted 10 days before the scheduled board meeting.

Purchases

1. All Activity Purchase Order and Authority to Pay Vouchers (ATP's) (Appendix D) should be approved and signed by site administrator prior to ordering goods/services.

2. After the ATP is signed by the site administrator the order may be placed (at the building site).

3. Purchases of $750 to $7,499.99 for a single item of a non-recurring nature are required to have three written price quotes **prior** to purchasing the item. The quotes must be attached to the ATP when it is submitted for payment.

4. A single item in excess of $7,500 will be formally bid by the purchasing department. The completed ATP is to be submitted to the activity fund custodian **prior** to the item being purchased. The activity fund custodian will submit the request for approval at the next board meeting. If the board approves the purchase, the approval date will be noted on the ATP, which will be returned to the principal to place the order. When the order is satisfactorily completed, the invoice will be attached to the approved ATP and sent to the activity fund office for payment.

5. Original ATP with invoices attached should be forwarded to Shoemaker Education Center, attention Activity Fund for payment.

Expenditures/Payments

1. Clothing worn by coaches is not furnished by the district. Items such as sweaters, jackets, etc. are obtained by each coach at his or her own expense. Separate accounts may be set up in order that coach's items can be purchased if coaches, not students, earn the funds.

2. Gifts shall not be purchased from any account where funds have been generated by student participation in fundraising activities. Flowers/gifts for sympathy or as a gratuity may be purchased from a subaccount only if the funds were collected or donated for that specific purpose, and the original purpose approved by the board of education stated that the subaccount will be used as a clearing account for such funds.

3. Advances from the school activity accounts shall be made to sponsors only when they are accompanying students to an activity. Funds shall not be used to purchase meals for staff members/adults unless they are accompanying students in a supervisory capacity or unless they are attending an event as a representative of the district.

4. For advances, a check will be made payable to the activity fund sponsor who shall sign the ATP acknowledging responsibility for the funds. Provided; however, that **within forty-eight hours** upon completion of the trip, the activity fund sponsor must submit any unused funds, along with itemized invoices and/or receipts, to the secretary to account for the full amount advanced prior to the trip. A copy of the Statement of Credit along with the original receipts will then be forwarded to the activity fund office. Activity fund sponsor further understands that he/she will be held personally liable for any shortage of funds.

5. Checks for building change – See first section "Administration."

6. Use of personal funds by principals and other staff to purchase school materials ***should be minimized***. All ATP forms require an itemized invoice and a detailed description of the purchase on the front of the form with the correct coding. The Claim for Reimbursement form (A-11) should be completed and signed by employee. If principal is the one seeking reimbursement, the supervisor at Shoemaker Center will have to approve.

7. Employees planning reimbursement from activity fund for travel expenses should complete the Professional Leave and Claim for Reimbursement form (Appendix D). All expenses relating to that travel should be claimed on this form. The building principal/designee will need to approve before it is submitted to Educational Services Division at Shoemaker Center for approval. Once approval has been received, the school financial secretary should prepare the ATP for reimbursement to the employee. The claim portion (right-hand side) of the Professional Leave form should be filed within 10 working days after the expenses have been incurred.

8. Payment for equipment, materials, staff development workshops and conference expenses with activity funds is authorized if these expenditures are specified on the "purpose" of the account.

9. A completed ATP form with the appropriate invoices will be submitted for payment. Invoice numbers should be entered on the form along with a description of the items being bought.

10. A "Standing" ATP can be issued for any vendor to which we make several payments throughout the year. Any orders made against the "standing" will follow the same ordering procedures. Invoices submitted for payment using the "standing" ATP will require 3 signatures, the third signature is the financial authorization (just like signing an original ATP every time). The "Standing" ATP needs to be board approved prior to orders being placed. Vendor name and estimated amount of expenditures must be in activity fund office 10 days before the scheduled board meeting.

11. Schools and sponsors will find it necessary to plan carefully in advance so that fundraising and collecting are completed early enough to allow time for making deposits, properly placing orders and making payments as indicated in the previous section. This is especially true when a sponsor needs an advance.

    a. ATP forms, which require no special handling, will normally be paid within 10 days after they are received by the activity fund clerk.

b. Orders that exceed $7,500; i.e., yearbooks, cheer/dance clothing, will need board approval prior to the order being made. That ATP will be considered a "Standing", we will make partial payments throughout the year. Once the board has approved the order, there would be no need for further board approval for payments. Order information must be in activity fund office 10 days before the scheduled board meeting.

   In the event the order wasn't approved prior to ordering, any payment over $7,500 will need board approval before payment can be made.

c. Purchases of a SINGLE item, which exceed $7,500, require board approval **PRIOR** to ordering. These purchases must be in the activity fund office 10 days before the scheduled board meeting.

d. Each school sponsor should audit and balance their books with the Project Details Report and the Outstanding Batches Report on a monthly basis. The reports are available from the school financial/principal secretary through Report Manager. The activity fund custodian should be called immediately if there is a discrepancy.

12. Proper invoices must be attached or the ATP will be returned. Payment **cannot** be made from a company statement. We must have an itemized invoice. Hand-written changes on the invoice are not acceptable. Company must provide a separate credit invoice or a corrected invoice for the order to balance. If no invoice is available, a signed document should be attached to the ATP. The document should explain why there is no invoice and the reason for the expenses and must be signed by the principal and the sponsor.

    When filing for a reimbursement, itemized receipts and a completed Claim for Reimbursement form (Appendix A-11) must be attached to the ATP. We will not reimburse for any lost receipt. Disbursements will be made by check signed by activity fund custodian and countersigned by assistant custodian/treasurer, positions appointed by the board of education. Checks will be issued at the district-level activity fund office from ATP's signed, not initialed or stamped with a facsimile, by principals and sponsors. Invoices to support each check issued will be attached to each voucher. ATP's, issued for purposes other than to pay invoices, will contain a detailed statement indicating the purpose for the payment; i.e., advances. Paid vouchers will be filed in the activity fund office at Shoemaker Education Center for future reference.

Wages or services paid from the Activity Account

Wages paid to employees of LPS are considered taxable wages. This includes all wages, which are currently being paid through the activity fund for services rendered to the district regardless of their nature.

Because of the need to collect income and social security taxes on these wages, payment will be made through the payroll system. The account that is paying for the service will cover the employer matching FICA tax and teachers retirement (if applicable).

To pay for services rendered by a district employee using activity funds, the situation must be approved by Human Resources Department prior to the service being performed. Request for Payment of Services District Employee (Lavender form Appendix A-10) should be completed and sent to the activity fund custodian. Employees will receive payment through the payroll department on the 10th of the month following completion of services rendered. The Request for Payment of Services form should be sent to activity fund custodian by the end of the month services were completed. The activity fund custodian must have all paperwork submitted to payroll department by the last working day of the month so that payments can be made on the 10th of the following month.

Payments made to non-district employees for services rendered and related expenses require a social security or taxpayer identification number (Appendix A-12a). If the number is not provided, 30% of the services rendered or labor and materials will be withheld for backup withholdings as required by law. (Note: The vendor number will not be assigned without the W-9 form being completed by the individual or organization.) An IRS Form 1099 will be issued for services in excess of $600 per year. Wages and expenses paid to non-district employees require the following procedures:

1. Complete an ATP with the appropriate activity fund account number.

2. Attach an invoice from the individual or organization.

MISCELLANEOUS

Check Cashing

Personal checks of school employees and students are not to be cashed from available cash collections. The activity fund is not a bank, and all revenue collected should be deposited in its original form.

Contribution to Charities

Contributions to charitable organizations can only be made with prior approval from the building principal and the district activity fund custodian. These contributions can only be made from funds raised for that specific purpose and the club majority vote. Funds raised shall not be used to make any donation unless the donor has a clear understanding that they are to be used as a donation to a specific group.

Contributions or Donations from Individuals or Groups

Contributions or donations received from foundations, individuals, or organizations for which no repayment or special service to the contributor is expected.

For contributions/donations of $100.00 or more the Donation Form (Appendix D) should be completed and the yellow copy sent with the deposit and the white copy given to the contributor. The form can be completed for contributions/donations less than $100.00 if the contributor would like a copy. If the purpose of the contribution/donation is going to be drawn out over a period of time, the deposit should be made to the Designated Contributions/Donations account #984. There might be a time when an accounting of the contribution/donation would need to be provided to the contributor.

Faculty Fund

Faculty funds may be included in school activity funds or kept in a bank chosen by the school. Faculty funds are subject to audit at the district's discretion.

1. Faculty funds may be raised by contributions from faculty members, profits from garage sales, and faculty/lounge coffee sales. The faculty is not authorized to conduct sales to students or to advertise to the students' parents if the funds are going to the faculty fund.

2. Gifts purchased for retiree's and employees should be paid from this account.

Grants (this is not a donation)

Funds received that were REQUESTED from foundations, individuals, or organizations that we must do something for the contributor. (i.e., usually an application that someone has completed to explain the purpose of the request, how the funds will be spent, and then file a report to prove how the funds were spent.)

Call the finance/business office at Shoemaker Center.

Jury Duty

Jury duty checks are to be endorsed and turned into the payroll department for verification of jury duty leave. Payroll will keep a copy of the check and give the original check to the district treasurer or designee to be deposited to the board of education reimbursement account. In the event mileage is paid on a jury duty check, mileage reimbursement will be returned to the employee.

Receipts for Damages to School Property

Funds received for payment or reimbursement of lost equipment, breakage or repair of equipment purchased with district funds shall be deposited to the Board of Education Reimbursement account (Project 863, Source of Revenue 41530, Site 353).

Receipts for Lost or Damaged Textbooks

Funds received for payment or reimbursement of lost or damaged textbooks shall be deposited to the Board of Education Textbook account (Project 945, Source of Revenue 41590, Site 353).

Returned Checks

It is the responsibility of the check writer to notify the LPS finance office of the returned check. Upon notification of the returned check arrangements will be made to make restitution. There will be a $25.00 Returned Check Fee assessed on all returned checks. All restitution will be made in the exact amount of the check plus the fee. All restitution will be paid in cash or by money order. No personal checks will be accepted. Upon completion of the check processing by LPS, and no contact has been made by the check writer, the check will be turned over to the Comanche County District Attorney's Office. Once the check has been taken to the District Attorney's office, LPS can no longer accept restitution. These checks will then be charged back to the original account in which they were deposited. If that account does not have sufficient funds to cover the returned check, the school's general account (850) will be charged for the check. After restitution has been received, the funds will be redeposited back into the appropriate account. If no restitution is made, the check writer's name will be added to a list in which we will no longer accept checks for payment of any services. **Schools should not attempt to collect returned checks under any circumstances. Please send the check writer to the district finance office.**

Student Fees

Students should not be charged a fee to participate in an activity, but may be required to place a refundable deposit for items such as uniforms for band, cheerleading, drill team, etc. The deposit or a portion of the deposit may be used to clean, repair or replace the items it was intended to cover if those items are not returned in acceptable condition.

Technology-Related Equipment and Software

ALL purchases relating to technology (i.e., audio visual, sound equipment, speakers, etc), computers and software/licenses MUST be approved by the Instructional Media/Technology Center BEFORE ordering. Forward the ATP to the Media Center and they will contact you with any questions or concerns and notify you of approval.

Transfers See following page(s).

Transportation Accounting

A bus request form should be accurately completed in order for the correct account to be charged. Non-instructional trips will be charged to the appropriate account number. All activity trip transportation charges will show on your monthly report with the reference number beginning with TR.

Travel Out-of-State

All travel, which involves the expenditure of district funds or activity fund money and takes students out of the state of Oklahoma, shall be approved by the board of education PRIOR to the initiation of any activity connected to said trip. A Request for Field Trip form (Appendix A-15) shall be submitted to the building principal and forwarded to the executive director of elementary/secondary schools. This form will be presented to the board of education at the next regular meeting for approval. The request should outline the scope of the activity, the dates of its occurrence, the number of students and teachers involved, the number of school days students and sponsors will be absent from school and the total amount of funds to be expended on the activity.

Record Keeping

All receipts, deposit slips, picture folders and other financial records should be kept in the school for audit purposes. Sponsors will turn in all fundraising/activity documentation to the site financial secretary at the end of each fundraiser/activity. The financial secretary will verify and forward to site administrator for approval. All records should be kept on file for a minimum for five (5) years in addition to the current year. Only the June 30 report needs to be kept.

TRANSFER OF FUNDS

Monies from school activity accounts may be transferred to other approved school activity accounts. Transfers shall be made upon request by the account sponsor and approval by the site administrator.

C. Athletic accounts are designated for specific athletic purposes. Funds within Athletic Account 840 can be reassigned between sports (OCAS program account codes) without needing board approval. If funds are to be transferred for a non-athletic purpose, the request must have board of education approval before the transfer can be made.

D. The individual(s) who creates a negative balance in any sub-account, for whatever reasons, will be held responsible for causing the negative balance and will be held personally liable.

E. Any transfer of excess balances in an account shall be subject to approval by the board of education, as required by state statutes (70 O.S. & 5-129A).

Part 1 – Company Information – Potential Profit

A. List the total amount of money that would be collected if all the products were sold. This information should be available from the fundraiser company usually from a computer printout listing items sold and prices and the total amount to be collected. If this information is not available from the company, multiply the total number of items purchased by the sales price of the merchandise purchased. This will give you the total amount to be collected.

B. List the cost of the items to be sold. This amount would be the amount due on the fundraising company's invoice.

C. Calculate the Potential Net Profit by subtracting Line B from Line A.

D. Calculate the Potential Profit Percentage by dividing Line C by Line A.

Part 2 – Adjustments to Potential Profit

E. List Amounts Not Remitted To Sponsor By Students. The amount listed here should be sales value of the product not cost of the product.

F. List any additional Miscellaneous Adjustments to the amounts invoiced on Line B. The amounts used here should also be sales value not product cost.

G. Calculate the Adjusted Net Profit by adjusting Line A by Lines B, E & F. This amount should agree with the amount deposited by the sponsor.

Part 3 – School Information

H. List the total amount deposited during the fundraiser. This amount should come from the computer-generated Project Details report.

I. List the total amount actually paid to the fundraising company. This amount should come from the computer-generated Project Details report.

J. Calculate the Actual Net Profit by Subtracting Line I from Line H. This amount should match the amount on Line G - Adjusted Net Profit.

K. Calculate the Actual Percentage Profit by dividing Line J by Line H. This amount should agree with the amount in Line D - Potential Profit Percentage.

Part 4 – Signatures

The sponsor should sign and date the form when completed and then forward to building principal for review, signature and date.

The financial secretary should sign the Profit/Loss Form when completed.

Ticket Reconciliation Process – Non-Athletic Events

Important Notice: School staff is required to comply with all applicable state statutes, board policies, and school activity fund procedures, regarding school activity fund reporting. Staff is responsible for understanding this requirement.

For secondary school ATHLETIC events, contact the athletic office for the proper forms and procedures. For all other activity fund events use the procedures and forms in this book.

A. Every school is required to use pre-numbered tickets for the following events:

1. Athletic events
2. School-sponsored plays, dramas, band and choir concerts, and assemblies when there is an admission fee.

B. When requested, the financial/principal secretary will issue pre-numbered tickets along with the Ticket Reconciliation Form (Appendix A-14) to each ticket seller. The principal must approve ticket sellers.

C. The financial secretary should fill-in the following information on the reconciliation form.

1. The school's name and number.
2. The event and date.
3. The name of the ticket seller.
4. The first ticket number of the pre-numbered tickets to be sold.
5. The selling price for tickets sold (unit price).
6. Beginning change issued if applicable (list check number written for cash change next to space denoted as beginning cash on the form).

D. The seller will verify and initial the beginning unsold ticket number.

E. The financial secretary cannot sell tickets and also complete the reconciliation process. The reconciliation process or the ticket sale should be split between two individuals (e.g. principal, assistant principal, teacher, etc.).

F. After the event, the principal or designee will go through a "check out" process with each ticket seller. The ticket seller must be present during this process.

Part 1

1. The principal or designee will post the Ending Ticket Number (the first unsold ticket number) on the Ticket Reconciliation Form - Part 1.

2. Subtract the Beginning Ticket Number from the Ending Ticket Number to determine the Number of Tickets Sold.

3. Multiply the Number of Tickets Sold by the Ticket Selling Price to determine Total Value of Tickets Sold.

4. Add the Total Value of Tickets Sold Column to determine the Cash Due - Ticket Sales (A).

Part 2 – Cash On Hand

5. The ticket seller will count the monies in the presence of the principal or designee.

6. The principal or designee will post the amount of Cash on Hand by denomination on the Ticket Reconciliation Form.

Part 3 – Total Sales + Beginning Change

7. The principal or designee will enter the Cash Due – Ticket Sales (A) calculated in Part 1 onto the applicable line in part 3.

8. Add Beginning Change Issued to the Total Cash Due From Sales to equal the Total Sales + Beginning Change (B).

Part 4 – Actual Cash

9. Enter the actual Amount to Deposit – this should be the same as the total Cash on Hand in Part 2.

10. Enter and explain any overage or shortage of cash and any adjustments to the Cash on Hand.

11. Add or subtract the adjustments to/from the deposit to determine the Total Adjusted Cash.

12. The Total Adjusted Cash should equal the Total Sales + Beginning Cash.

13. The principal or designee will issue a receipt to the ticket seller for the monies collected and list the receipt number and receipt date on the Ticket Reconciliation Form.

14. The principal and ticket seller will both sign the Ticket Reconciliation Form.

15. All discrepancies between the deposit and the Total Sales + Beginning Cash should be explained by the ticket seller and properly documented. However, if the amount is +/-$50.00 at any one event, then the ticket seller should not be allowed to be a ticket seller again.

16. This same process should be followed for each ticket booth operated during the event.

17. When all monies have been collected and receipted, the monies will be deposited at the school's bank night deposit box the same night of the event. Contact the activity fund office for night deposit information. Money should not be left unsecured at the school site overnight. Under no circumstances should money be taken home overnight by any individual to be deposited the next day. Not following this policy could result in being personally liable for missing or lost funds.

18. The next school day the principal or principal's designee will give the financial/principal secretary the Ticket Reconciliation Forms, unsold tickets, and receipt issued.

19. The financial/principal secretary will post the receipt on the computer system.

G. The financial/principal secretary will match the last ticket sold with the first unsold ticket as verification. The financial/principal secretary will post this first unsold ticket number to the next reconciliation form.

H. For high school athletics and other school events, cash change may be obtained from the financial/principal secretary to a maximum of $300.00 by issuing a check to the person who will be responsible for collecting money. The amount allowable for middle schools is $200.00 and for elementary schools the amount is $100.00.

I. The ticket taker will have a secure box or place to deposit the used tickets after they are torn in half in the presence of the purchaser.

J. Complete a Profit/Loss Form (Appendix A-5).

REQUEST FOR FIELD TRIP

ACTIVITY FUND

The Lawton Board of Education will exercise control over all funds on hand or hereafter received or collected, as herein provided, from student or other extracurricular activities conducted in the school district. Such funds shall be deposited to the credit of the subaccount maintained for the benefit of the particular activity within a school activity fund. State law requires deposit of funds shall be made by the end of the next business day; however, if the deposit for a day totals less than One Hundred Dollars ($100.00), a school district may accumulate monies required to be deposited into the fund on a daily basis until the total accumulated balance of deposits equals or exceeds One Hundred Dollars ($100.00). Provided, a school district shall deposit accumulated monies into the fund not less than one (1) time per week, regardless of whether the monies total One Hundred Dollars ($100.00).

Disbursements from activity accounts will be by check signed by the school activity fund custodian and countersigned by assistant custodian or district treasurer. Such funds will not be used for any purpose other than that for which the account was originally created or amended. The board of education, at the beginning of each fiscal year, will approve all school activity funds subaccounts, all subaccount fund raising activities and all purposes for which the monies collected can be expended. The board of education may direct in writing that any balance in excess of the amount needed to fulfill the purpose for which an account was established may, after consultation with the school principal or custodian of the school account, be transferred to another account by the custodian. In this manner an account may be closed. All transfers require board approval.

ACTIVITY FUND

RESPONSIBILITIES FOR THE ACTIVITY FUND

1. Authority for Activity Funds

Oklahoma State Law requires the board of education to adopt appropriate rules and regulations governing the handling and expenditure of school activity funds. The law requires that a custodian be appointed to make a full and true accounting for all funds that may come into his or her possession, or under his or her control.

2. Bonding

The custodian is required to give a surety bond in such amounts as the board may deem necessary, but not less than $1,000. The premium of the surety will be paid from the LPS Miscellaneous Expense account.

3. Accounting System

The central bookkeeping system which shows a complete record of all activity funds will be maintained at the district-level offices. Such records will be available to school principals, sponsors, and to the general public. **No activity fund account will show a deficit at any time.** Orders and purchases shall not be made unless funds are on deposit in the account and sufficient to cover the order /purchase as well as all other outstanding obligations of the account. Grouped accounts of the district athletic department will not show a deficit group balance at any time.

Bank statement of activity fund shall be reconciled on a monthly basis by the activity fund custodian or his/her designee. The account shall be balanced to the bank statement and any discrepancies noted shall be immediately resolved. Reconciled bank statements shall be kept at the district-level office.

4. Audit Required

The Lawton Board of Education will provide for the annual audit of all activity funds. The original report of such audits will be delivered to the superintendent of schools. The audit cost will be paid from the LPS Miscellaneous Expense account .

5. Honesty Blanket Public Official's Bond

All employees of the board of education are covered by the honesty blanket public official's bond in the amount of $5000. The bond premium is paid from the LPS Miscellaneous Expense account.

6. Report of Funds

The custodian will present a detailed report to the board of education at a regularly scheduled meeting each month showing receipts, disbursements, and balance of each account.

ACTIVITY FUND cont.

The site financial secretary will provide reports, generated through computer accounting system, to each sponsor for account reconciliation on a monthly basis. Any difference in account balance should be reported to the activity fund custodian immediately.

7. Earned Interest

Oklahoma law permits school activity funds to be deposited in interest bearing accounts including certificates of deposit. Interest earned from investments will be credited to the investment account for payment of school postage, annual activity fund auditing, and financial bonding expenses.

Oklahoma law provides that the income from the activity fund investment account may be transferred to the general fund for general operations.

ACTIVITY FUND RECEIPTS

1. Responsibility

   Every school employee who is responsible for receiving money will have an individual pre-numbered receipt book. All buildings should be using a principal's receipt book. This is used to receipt money into the office that is collected by teachers and other individuals such as parents or students paying for textbooks.

2. Class-Wide Function

   Teachers and other sponsors collecting money for class-wide functions such as school plays, field trips, or ID cards that cost $10.00 or under, may use a class roster signed and dated by the sponsor or Receipts Under $10.00 form to receipt the money rather than issue individual receipts to students. . Individual pre-numbered receipts shall be issued for items costing $10.01 or more when items are sold to the student: e.g., uniforms, hats, books, etc.

3. Receipt Procedures

   When an employee receives money, he or she will issue a receipt showing the date, receipt number, payer's name, purpose for which the money is being paid, and the amount. The employee will sign the receipt and give the original copy to the payer.

4. Disposition of Collected Money

   Money receipted by employees will be turned into the financial secretary by the next business day where it will be recorded in the principal's receipt book. Amounts should be verified in the presence of the remitter. The original receipt will be stapled to the corresponding sequence of student receipts in the sponsor's receipt book. If the money collected does not exceed $100.00 it can be turned in at least once per week. The employee's receipts will be turned into the financial secretary by the end of the current fiscal year to be kept on file for an annual audit.

5. Non-Receipts

   Postdated checks, cash advance slips, or IOU's will not be accepted as receipts for activity fund expenditures.

6. Student Fees

   Students should not be charged a fee to participate in an activity, but may be required to place a refundable deposit for items such as uniforms for cheerleading, drill team, etc. The deposit or a portion of the deposit may be used to clean, repair or replace the items it was intended to cover if those items are not returned in acceptable condition.

ACTIVITY FUND DEPOSITS

When?

Monies receipted for the day will be deposited by the next business day in compliance with state law, board policy, and school activity fund procedures. During the summer months when no building delivery service is furnished, principals, or their designee, will bring deposits to the finance office. The finance office will deposit the funds in the bank. Exceptions: all money must be deposited on the last working day of the week or the last working day before a holiday. No money should be left in the building over the weekend or during a holiday.

How?

Deposits are to be made on "Statement of Credit" forms which may be ordered through the Instructional Media/Technology Center. The statement of credit form is to be completed in three copies with each revenue source listed separately. The original and one copy go to the depository bank with the deposit. The third copy is retained for school files. After checking to see that checks are complete, they should be endorsed with the name of the school and labeled "For Deposit Only."

Check Cashing

Personal checks of school employees and students are not to be cashed from available cash collections. The activity fund is not a bank, and all revenue collected should be deposited in its original form.

Special Accounts

Reimbursement of Board of Education (Clearing Account)

Money collected in the amount of $1.00 or less for lost or damaged textbooks, lost or damaged equipment, overtime, rent or sale of property of the board of education, the repair of equipment which has been purchased with board of education funds, or other collections, will be deposited in the Board of Education Reimbursement (Clearing) Account. No payments other than refunds of a deposit of $1.00 or less may be made from this account. Any deposit that exceeds $1.00 will be deposited with the school treasurer in accordance with Oklahoma Law. The balance of the clearing account must be zeroed out and transferred to the general fund on or before June 30 of each year.

Corrections

School deposit slips and bank receipts will be picked up from a depository bank the working day following the deposit and checked by the treasurer or designee. If any changes have been made by the bank, correction notices will be sent to the schools. If more than one account is listed on the deposit that is changed, the treasurer or designee will contact the school to see which account should be corrected.

ACTIVITY FUND, DEPOSITS cont.

Returned Checks

The district and a check collection agency have established a service agreement for the purpose of collecting all returned checks received by the district. The collection agency has 45 days to collect on the insufficient checks, after 45 days the checks not collected on will be returned to the district. These checks will then be charged back to the original fund in which they were deposited. If that account does not have sufficient funds to cover the returned check, the school's general (850) account will be charged for the check. The check will then be processed for filing with the District Attorney's Office for collection. After restitution is made, the funds will be redeposited back into the appropriate account. If no resitiution is made, the check writer's name will be added to a list in which we will no longer accept checks for payment of any services. Schools should not attempt to collect returned checks under any circumstances. Please send the check writer to the district finance office.

Jury Duty

Jury duty checks are to be endorsed and turned in to the payroll department for verification of jury duty leave. Payroll will keep a copy of the check and give the original check to the district treasurer or designee to be deposited to the board of education reimbursement account. ACTIVITY FUND EXPENDITURES

ACTIVITY PURCHASE ORDER & AUTHORITY TO PAY VOUCHER (ATP)

Disbursements from activity accounts will be made by check signed by activity fund custodian and countersigned by assistant custodian/treasurer, positions appointed by the board of education. Such funds will not be used for any purpose other than that for which the account was originally created or amended.

NEW VENDORS

All vendors will be established through the purchasing department. Before entering into an agreement with an individual or company, there are forms and information necessary to be completed before a vendor can be established.

PURCHASES

All Activity Purchase Order and Authority to Pay Vouchers (ATP's) should be submitted by the sponsor of the sub-account to the site administrator prior to ordering any goods or services.

After the ATP is signed by the site administrator, the order may be placed by site personnel.

Purchases of $750 to $7,499.99 for a single item or project could be bid or at least three written quotes secured prior to order being made. The quotes must be attached to the ATP when submitted for payment.

A single item or project in excess of $7,500 will be bid by the purchasing department. The completed ATP is to be submitted to the activity fund custodian prior to the item being ordered. The activity fund custodian will submit the request for approval at the next board meeting. If the board approves that the item can be ordered, the approval date will be noted on the ATP which will be returned to the site so that order can be made. When the order is satisfactorily completed, the invoice will be attached to the approved ATP and sent to the activity fund office for payment.

EXPENDITURE PAYMENTS

Sites and sponsors will find it necessary to plan carefully in advance so that fundraising and collecting are completed early enough to allow time for making deposits, properly placing orders and making payments. This is especially true when a sponsor needs an advance.

ATP's which require no special handling will normally be paid within 10 days after they are received by the activity fund clerk.

ACTIVITY FUND ACCOUNTS, EXPENDITURES (cont.)

Orders that exceed $7,500 will need board approval prior to the order being made. Once the board has approved the order, there will be no need for further board approval for payments to be made. Order information must be in the activity fund office ten days before the scheduled board meeting. In the event the order wasn't approved prior to ordering, any payment over $7,500 will need board approval before payment can be made.

Purchases of a single item which exceed $7,500 require board approval prior to ordering. These purchases must be in the activity fund office ten days before the scheduled board meeting.

Proper invoices must be attached to the ATP. Payment cannot be made from a company statement. The invoice must be itemized. Hand-written changes on the invoice are not acceptable. Company must provide a separate credit invoice or a corrected invoice for the order to balance.

Each sub-account should be balanced on a monthly basis by the financial secretary and the sponsor. Reports are available to assist in the balancing process. The activity fund custodian should be called immediately if there is a discrepancy.

VENDOR PAYMENTS

All disbursements will be made by check. Checks should be signed by the person appointed by the board of education and countersigned by the activity fund custodian. Checks will be issued at the district-level office from Activity Purchase Order and Authority to Pay (ATP) signed, not initialed or stamped with a facsimile, by site administrator and sponsors. Itemized invoices to support each check issued will be attached to each ATP r and filed at the district-level office for future reference.

TRANSPORTATION ACCOUNTING

A bus request should be accurately completed in order for the correct account to be charged. Non-instructional trips are charged to an account by transfer vouchers printed on the computer, and a copy is sent to the school for its records. Likewise, if all of the school's instructional allocation is used, the activity account of the requesting organization will be charged.

ACTIVITY FUND
SCHOOL SUPPORT GROUPS AND CLUBS

The establishment and amendment of all school activity fund accounts must be made with the approval of the board of education. This includes approval of the purposes and revenue sources of the accounts. Continuous accounts will be ongoing from one year to the next. These are approved prior to the beginning of the new fiscal year. The purposes and revenue sources may be amended during the year with approval of the board of education.

To establish or amend an account, the site administrator will be responsible for initiating the ESTABLISH OR AMEND ACTIVITY ACCOUNTS form.

A carryover of revenues from one year to the next is authorized for continuous accounts but is limited to the specified purposes of the account.

Excess revenues may be transferred from a continuous account and must be transferred from a temporary account into another activity account or into the district's general operational fund ~~either:~~

~~1. At the request of the building administrator with the approval of the board of education.~~
~~2.~~ ~~Or~~ as directed by the board of education.

Records for compliance with these procedures are subject to local and state audits. All receipts, deposit slips, fundraising documents, expenditures, and cumulative reports should be kept at the site for audit purposes. Sponsors will turn in all fundraising/activity documentation to the site financial secretary at the end of the fundraiser/activity. The financial secretary will verify and forward to site administrator for approval. All records should be kept on file for a minimum of five (5) years in addition to the current year. Only the June 30 reports need to be kept.

Use of personal funds by principals and other staff to purchase school materials should be minimized. All authority-to-pay forms require an itemized invoice and a detailed description of the purchase. This is especially true when principals reimburse themselves or their staff members. The CLAIM FOR REIMBURSEMENT form must be completed by the employee, approved by supervisor, and submitted with the ATP when an employee is seeking reimbursement for items purchased. Employee reimbursements should be filed within 10 working days after the expenses have been incurred.

Employee filing for mileage and toll fees should indicate destination, date, and purpose of the trip on the REQUEST FOR PROFESSIONAL LEAVE AND CLAIM FOR REIMBURSEMENT form. These forms are ordered from the Instructional Media/Technology Center.

ACTIVITY FUND, SCHOOL SUPPORT GROUPS AND CLUBS (cont.)

Money from the activity fund accounts shall be spent according to the board approved purposes.

The sponsor or staff member is required to issue a receipt to the student when money is turned over to the school staff member for student sales. Items sold through a 'school store' or 'concession stand' are tallied on the Concession/Student Store Inventory and Profit/Loss form and should be completed after every event sale. A copy of the form will be kept with the Principal's Receipt Book.

Clothing worn by coaches is not furnished by the district. Items such as sweaters, jackets, etc. are obtained by each coach at his or her own expense. Separate accounts may be set up in order that coaches' items can be purchased if coaches, not students, earn the funds.

Gifts shall not be purchased from any account where funds have been generated by student participation in fund-raising activities. Flowers/gifts for sympathy or as a gratuity may be purchased from a subaccount only if the funds were collected or donated for that specific purpose, and the original purpose approved by the board of education states that the subaccount will be used as a clearing account for such funds.

Advances from the school activity fund shall be made to sponsors only when they are accompanying students to an activity. Funds shall not be used to purchase meals for staff members/adults unless they accompany students in a supervisory capacity or unless they are attending an event as a representative of the district.

BOOSTER CLUBS

Secondary school booster clubs can be of great assistance to the Lawton Public School System through their support of school activities. They may work with their club members and school principals to decide in which areas they can provide assistance and support.

The Lawton Public School System supplies athletic teams with equipment, travel, meals, and award jackets in sufficient quantity. They should not need assistance in these areas.

All athletic contests and tournaments are handled through each individual school and the Director of Athletics of the Lawton Public School System.

SEE CFBB, Sanctioning of Parent Organizations and Booster Clubs

SANCTIONING OF PARENT ORGANIZATIONS AND BOOSTER CLUBS

The board of education shall annually sanction parent organizations and booster clubs (hereinafter referred to as organizations) which exist to promote a positive relationship between the district and the community by assisting and supporting the schools in recognizing and promoting student activities. Close communication will be maintained to ensure that the goals of the organizations are in compliance with the goals and policies of the district. The district shall incur no liability for the acts, errors or omissions of any sanctioned organization. The board will determine whether to sanction an organization by taking action on the recommendation of the superintendent. Sanctioning will be contingent on compliance with the following criteria:

A. The organization must be managed or operated by adults, rather than students, and will present its by-laws and/or constitution to the board. These will differentiate the parent organization or booster club from any student organizations and will provide details of their structure including:

1. Officers' names and addresses
2. Details of the process to elect officers and the length of each officer's term
3. Purpose and goals
4. Detailed breakdown of the dues structure for the membership and officers
5. Itemized projection for the use of funds generated by both item and cost

B. The organization must include one representative from the school faculty as a sponsor.

C. No fund raising activities will be conducted within the school during school hours by adults or students unless approved by the principal.

D. The organization may not use school materials in advertising its activities. Requests for the use of school property will comply with district regulations.

E. All funds raised will be used to achieve the stated purposes and goals of the organization.

The IRS has taken the position that payments to district employees by sanctioned organizations for services or gifts are subject to income and employment taxes as if they had been paid by the district. Therefore,

- Payments for services to Lawton Public Schools employees must be made through the District's payroll system in order to comply with IRS regulations. Any such services must have prior approval by the Director of Human Resources. The organization will reimburse the District the compensation amount plus employer FICA and teacher retirement.

SANCTIONING OF PARENT ORGANIZATIONS AND BOOSTER CLUBS (cont'd)

- Gifts related to the teacher's or sponsor's employment with the Lawton Public Schools are also considered taxable compensation. The exception is de minimus (value less than $100) gift of items (not cash or gift cards) that are given occasionally (e.g. holiday gifts).
- Gifts of de minimus (value less than $100) of cash or gift cards related to the teacher's or sponsor's employment with the Lawton Public Schools are never excludable from income. The District's Chief Financial Officer must be notified of any instances of such payment.
- Payment for services to district employees in cash or gift cards are not allowed.
- District employees may be reimbursed for qualified business expenses without tax consequences. Such expenses must have appropriate receipts to substantiate the business purposes and are to be kept by the organization as the "invoice" for payment.
- If a sanctioned group wishes to give a teacher a gift card to purchase classroom supplies without it being taxable to the teacher, the card should be donated to the school and kept in the school's financial office. The teacher can then check out the gift card and return the appropriate receipts which substantiate the business purpose of the purchases.

F. Contributions to Lawton Public School organizations will not be accepted unless approved by the superintendent or designee and shall comply with Title IX and all other state or federal equity regulations.

G. The organization must maintain bank and financial records separate from the district and provide to board annually or upon request a complete set of financial records.

H. The organization will require the president, vice president and treasurer to annually complete the ***district's*** financial responsibility training. The organization will attach the principal's verification form to the organization's "Application for Sanctioning of Parent Organizations and Booster Club" form at the beginning of each new school year

I. The organization's financial records must be inspected to see if they comply with the district's established Guidelines for Financial Responsibility. If the gross annual receipts are less than $10,000.00, this inspection must be completed annually during the months of June, July and August by an Accountant, Professional Bookkeeper or an inspection committee of not fewer than three (3) members of the organization's general membership (cannot include officers). WAGES PAID FROM THE ACTIVITY FUND

Wages paid to employees of Lawton Public Schools are considered taxable wages. This includes all wages which are currently being paid through the activity fund for services rendered to the district regardless of their nature.

Because of the need to collect income and social security tax on these wages, payment will be made through the payroll system. The account that is paying for the service will cover the employer matching FICA tax and teachers retirement (if applicable).

To pay wages to employees of Lawton Public Schools using activity fund money, the following procedure should be used:

The REQUEST FOR PAYMENT OF SERVICES DISTRICT EMPLOYEE should be completed and sent to the activity fund custodian. Employees will receive payment through the payroll department on the tenth of the month following completion of services rendered. The form should be sent to activity fund custodian by the end of the month services were completed. The activity fund custodian must have paperwork submitted to payroll department by the last working day of the month so that payment can be made on the tenth of the following month.

PRICES, CONTRACT AND DELIVERY

Prices are subject to change without notice unless otherwise stated in writing. Stenographic or clerical errors are subject to correction. Any customs, sales use, excise or other transactional tax or charges imposed upon the sale, shipment or use of the materials shall be paid by the buyer. We will not be liable for nondelivery of goods or delay in the performance of orders or contracts or in the delivery shipment of goods, or for any damages suffered by buyer by reason of such nondelivery or delay when such nondelivery or delay is directly or indirectly caused by or in any manner arises from acts of God, casualties of wars, shortage of materials or suppliers or interruption or delay in the delivery thereof, plant breakdown or disability or interruptions for any cause whatsoever, strikes or other labor disturbances, delays or interruption in transportation facilities, requirements or regulations or policies of any government, or any other disabling causes or contingencies or any condition causing delays in our plant or otherwise affecting our production which is reasonably beyond our control. The materials are sold for delivery at buyer's expense. All prices are F.O.B. seller's factory.

PAYMENT-CANCELLATION

The term of payment are subject at all times to our approval and in case of doubt arising as to Customer's financial responsibility, production may be stopped, and shipments may be suspended or sent draft attached to negotiable or other bill of lading, until satisfactory assurance of Customer's responsibility is received. Invoices for material delivered under this order are payable only to our office in Atlanta, GA. If the invoice is not paid when due, the outstanding balance shall bear interest at the rate of 1.5% per month or the highest interest rate allowed by law from the date when due. If legal process is necessary to enforce this indebtedness then the customer agrees to pay all reasonable attorney's fees necessary to enforce the indebtedness. Orders placed with us cannot be cancelled or countermanded without our consent.

CUSTOMER'S METAL

We do not count Customer's metal until we begin processing the metal. We reserve the right to revise our acknowledgment if we do not receive all items listed, because quantity frequently governs the price.

WARRANTY

All goods sold hereunder are warranted to be free from defects in material and workmanship, and this express warranty is in lieu of and EXCLUDES ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED BY OPERATION OF LAW OR OTHERWISE. Defective material may be returned to us after inspection by our representative and upon receipt of definite shipping instructions for us. Goods returned will be replaced or repaired by us without charge, but we shall not be liable for loss, damage, or expense directly, or indirectly arising from the use of the material or from any other cause, our liability being expressly limited to the replacement or repair of defective material. Seller's liability shall not exceed the purchase price of the goods. All claims for shortage and damage shall be waived unless buyer notifies seller of the same within ten days after receipt of the materials to which the claim relates. In no event shall seller have any liability for any such claim unless seller verifies that shortages represent a difference between the quantity shipped and the quantity determined by an inspection by a representative. Every claim on account of defective material, workmanship, non-conformity, or for any other cause shall be deemed waived by Customer unless made in writing within sixty (60) days from the date of the receipt by the customer of goods to which such claim relates. If the Customer's metal fabrication is damaged in the finishing process our liability shall be limited to the repair of fabrication but in no case to exceed $0.50 per pound unless a higher valuation is declared by the customer on purchase order and agreed to by us. Such excess valuation shall be cause for adjustment of any quoted price which we may have made.

ENTIRE AGREEMENT-MODIFICATION-GOVERNING LAW

These conditions of sale and any other written contract executed by seller, under which this sale is made, constitute the full understanding of the parties and a complete and exclusive statement of the terms of the agreement. No modification or waiver of such agreement shall be of any force or effect unless made in writing and signed by an authorized officer of seller. Seller accepts buyer's order for material on the express condition that buyer assent to any different or additional terms contained herein. If seller does not receive buyer's assent and seller nevertheless delivers the material, such delivery constitutes seller's counter-offer to sell the material to buyer on these terms and conditions only. Acceptance of seller's counter-offer is limited to its terms and may be made by buyer in any reasonable manner, including execution of a packing list, or accepting, using or paying for the material. This contract shall be governed by and construed in accordance with the laws of Georgia.

EXCEPT AS SET FORTH IN THIS ENTIRE WARRANTY, SOUTHERN ALUMINUM FINISHING COMPANY MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO THE PRODUCT, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE. UNDER NO CIRCUMSTANCES SHALL SAF BE RESPONSIBLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGE OF ANY KIND OR NATURE.

WAIVER

No provision hereof and no breach of any provision shall be deemed waived by reason of any previous waiver of such provision or of any breach thereof. Our failure to object to provisions contained in any communication from customer shall not be deemed a waiver of the provisions of our acknowledgment of order.

(e) If (i) any of the rights granted to Beverage Provider herein are materially restricted or limited during the Term or (ii) if there is a closing of any material component of the Campus, or (iii) a Team

fails to play all of its scheduled home games on the Campus for a period of more than thirty (30) consecutive days during its scheduled season, (iv) the Schools' enrollment declines below ninety percent (90%) or the standard school year is shortened; or (v) government or other regulation limits or prohibits the availability of Beverages as outlined in Section 4; (whether or not due to a cause beyond the reasonable control of District including a strike or other work stoppage), then in addition to any other remedies available to Beverage Provider, Beverage Provider may elect, at its option, to adjust the Sponsorship Funding to be paid to District for the then remaining portion of the Term (and District shall pay to Beverage Provider as required by **Exhibit B** and a pro rata refund of the costs of refurbishing and installing the Equipment), or to extend the Term of this Agreement, to reflect the diminution of the value of rights granted hereunder to Beverage Provider. STANDARD SERVICE PURCHASE AND SOFTWARE LICENSE TERMS

The Terms and Conditions contained in this document (the "**Standard Terms**") apply to any transaction whereby we (sometimes referred to in this document as "**we**" "**us**" or "**our**") provide to you our customer (referred to as "you" or "your" as identified in more detail on the applicable Order Form ("**Order Form**")) (1) license rights to use our Software for a fixed term, (2) Materials for use with the Software, or (3) Professional Services. These Standard Terms are an integral part of an agreement (the "**Agreement**") that consists of (in order of precedence) an Order Form, these Standard Terms, and any documents incorporated by reference into either the Order Form or Standard Terms. You acknowledge that the Order Form and the Standard Terms constitute the entire agreement between the parties and will supersede and replace any provisions in your purchase order or other contracting or purchasing documents that do not exactly mirror these terms. The Agreement will be effective as of the Order Date specified on the Order Form and will be binding when the Order Form has been executed by you. We reserve the right to require your submission of one or more purchase orders in accordance with the terms outlined in your Order Form. Capitalized terms used throughout the Agreement are defined in the Order Form, in section 5.0 (below), and elsewhere in these Standard Terms. These Standard Terms may only be superseded or amended by other terms and conditions you and we have specifically documented in a signed Order Form.

1.0 SOFTWARE: The following terms and conditions will apply to your transaction with us as described in more detail on the Order Form:

1.1 General License Terms. All Software license rights that we grant you are specifically subject to the following general terms and conditions:

1.1.1 All licenses are non-exclusive, non-transferable and non-assignable.

1.1.2 We either own or have licensed from third parties all rights necessary to grant the licenses being granted you in the Software. We or our licensors own and retain all rights, title and interest in and to the Software and all ideas, concepts, methodologies, formats, specifications, and other know- how furnished by us or our licensors in connection with this Agreement, as well as all related intellectual property rights.

1.1.3 All access and use of Software under this Agreement will be subject to our Privacy Policy, which can be found at http://www.edmentum.com/Privacy which is expressly made a part of this Agreement.

1.1.4 Licenses granted under this Agreement will be automatically revoked if this Agreement is terminated and automatically terminate on the license expiration date as identified on the Order Form. We reserve the right to suspend or revoke any license granted under this Agreement if you breach this Agreement.

1.1.5 We reserve the right to terminate access to any Software to the extent we end of life or similar the Software. If we exercise this right we will transition you to an appropriate alternative Software product that we own or license.

1.2 Restrictions. You and your Users will use the Software solely for the purposes stated in the applicable license grants and will not: (i) modify, copy or create derivative works based on the Software; (ii) frame or mirror any content forming part of the Software, other than for your own internal educational or training purposes during the license term and not in violation of any use or User restrictions; (iii) reverse engineer, decompile or disassemble the Software; (iv) access or allow others to access the Software in order to build, market or offer a competitive product or service, or copy any ideas, features, functions, answers, questions, contents or graphics of the Software; (v) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share or otherwise commercially exploit or make the Software available to any third party, other than to Users as contemplated by this Agreement; (vi) send spam or otherwise unsolicited messages in violation of applicable laws; (vii) send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (viii) intentionally send or store any viruses, worms, time bombs, Trojan horses or other harmful or malicious code, files, scripts, agents or programs; (ix) interfere with or disrupt the integrity or performance of the Software or the data contained therein; (x) attempt to gain unauthorized access to the Software or its related systems or networks; or (xi) publicly display or publicly perform the Software without our prior written permission.

1.3 Software Operability:

1.3.1 Maintenance and Access. During the Subscription Period, we will use commercially reasonable efforts to make the Software available (subject to routine maintenance windows and unavailability not caused by us) to you and your Users via the Internet 24 hours a day, 7 days a week. All access rights for you and your Users will be via the worldwide web using a browser and Internet connection compliant with the System Requirements (described in section 1.4).

1.3.2 Outage Periods. The term "**Outage Period**" means a period of more than 48 consecutive hours in which your Users are prevented from accessing the Software due to factors completely within our control during a period that you are not in breach of this Agreement. Outage Periods exclude (a) planned downtime and (b)any Force Majeure event. If you experience an Outage Period, then upon your written request we will issue you a credit for the pro-rated share of fees you have paid for usage during the month during which the Outage Period occurs. Your request for this credit must be made within 30 days after the end of the Outage Period. Your sole and exclusive remedy for an Outage Period will be the above credit.

1.4 System Requirements. Our System Requirements document (found at http://www.edmentum.com/support) ('System Requirements") details the necessary hardware, software, system configuration, network infrastructure, bandwidth and other operational requirements necessary for you to successfully operate and use the Software. The System Requirements are subject to periodic change. You acknowledge that you are responsible for the cost, operation and availability of, and you and your Users compliance with, all elements of the System Requirements.

1.5 Responsibility for User Activity. You are responsible for all activities that occur in User accounts and for compliance by your Users with these Standard Terms. You will: (i) have sole responsibility for the accuracy, quality, integrity, legality, reliability, and appropriateness of all Customer Data; (ii) use commercially reasonable efforts to prevent unauthorized access to, disclosure of or use of the Software, and notify us promptly of any such unauthorized access or use; and (iii) in connection with this Agreement, comply (and ensure compliance by your Users) with all applicable local, state and federal laws, rules and regulations.

1.6 Intellectual Property

1.6.1 Reservation of Rights. The Software we are providing is licensed to you, not sold. Subject to the limited rights expressly granted to you and your Users herein, we reserve all rights, title and interest in and to the Software and any Materials we provide, including all related intellectual property rights (except for those owned by our third-party vendors and licensors, which are reserved to them). No other rights are granted to you or your Users.

1.6.2 Rights to Customer Data. As between you and us, you own all rights, title and interest in and to all Customer Data. You hereby grant us a non-exclusive, royalty free license to perpetually use, modify, distribute and work with the Customer Data to the extent that we do so in compliance with applicable law and our Online Learning Programs Privacy Policy.

1.6.3 Suggestions. We will have a royalty-free, worldwide, transferable, sub-licensable, irrevocable, perpetual license to use or incorporate into the Software any suggestions, enhancement requests, recommendations or other feedback provided by you or your Users relating to the Software.

1.6.4 Custom Learning Paths

a. **Rights to Custom Learning Paths**. Certain Software allows you to customize the instructional content of the Software to suit your instructional needs. "**Your Learning Paths**" refers to the custom learning paths you create using this feature of the Software. We make no warranties or commitments related to your ability to access or use Your Learning Paths during the term of your licenses or at the expiration or termination of your licenses.

b. **Our Use of Your Learning Paths**. We may use or modify Your Learning Paths and may provide them to our other customers.

c. **Customer Created, Modified or Stored Content**. Certain Software enables you to create, customize or store content, documentation or otherwise. If you do, you accept, agree and acknowledge that (i) we can use and disseminate such items, (ii) at the expiration or termination of your licenses, we will not be returning these items to you and you have no rights in such items and (iii) you are responsible for ensuring that all laws, regulations and judicial precedence is followed in such creation, customization, disclosure or storage, including but not limited to intellectual property laws.

1.7 Limited Warranty for Software. Subject to the terms of Section 4.6, we warrant that the Software will perform in substantial accordance with the applicable Documentation during the Subscription Period. This warranty is contingent on your use of the Software in accordance with this Agreement and the applicable Documentation. If we breach this express warranty, and you promptly inform us of such in writing, we will at our option and expense: (a) modify the affected Software to generally conform with the applicable Documentation, or (b) provide a replacement for the affected Software which generally conforms with that Documentation, or (c) refund you the portion of your license price related to the applicable Software that is attributable to the remaining Subscription Period. This will be our sole obligation, and your sole remedy, with respect to any breach of this warranty. EXCEPT FOR THE EXPRESS WARRANTY PROVIDED IN THIS SECTION, THE SOFTWARE IS PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITHOUT ANY ADDITIONAL WARRANTIES OF ANY KIND. WE DO NOT WARRANT THAT THE SOFTWARE WILL PERFORM UNINTERRUPTED OR BE ERROR-FREE OR THAT THE SOFTWARE WILL MEET YOUR PARTICULAR REQUIREMENTS.

2.0 THIRD PARTY SOFTWARE AND SERVICES. The following terms and conditions will apply to all Third-Party Software and Third Party Services.

2.1 Subject to Third Party's Warranties and Terms. Third Party Software and Third Party Services are distributed by us as a licensor, distributor or reseller. These products and services are provided subject to the separate license and sale terms, conditions and restrictions required by the third party. WE DO NOT PROVIDE, AND WE EXPRESSLY DISCLAIM ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, ON ANY THIRD-PARTY SOFTWARE AND SERVICES WE SUPPLY OR MAKE AVAILABLE TO YOU. IN ADDITION, WE DO NOT GUARANTEE THE AVAILABILITY OF SUCH THIRD-PARTY SOFTWARE OR SERVICES AND SUCH SOFTWARE OR SERVICES MAY BE MODIFIED OR REMOVED AT ANY TIME.

2.2 Warranty Claims. We will use reasonable commercial endeavors to facilitate warranty claims you may make against the third party supplying such products or services. **This is our sole obligation relative to these products or services.**

3.0 PROFESSIONAL SERVICES. Professional Services listed on the Order Form will be provided subject to the following terms and conditions:

3.1 Mutual Cooperation. You and we mutually agree to cooperate with each other in a professional and courteous manner in the performance of our respective duties in the delivery of Professional Services.

3.2 Scheduling Changes Caused by You. You agree to notify us at least 5 business days in advance of your intention to reschedule previously confirmed on-site Professional Services sessions. If you do not provide such notice, and we are unable to re-assign the resources scheduled to provide your Professional Services, we reserve the right to charge you a cancellation fee of up to $750 for each day cancelled without such notice.

3.3 Scheduling Changes Caused by Us. If we are required to reschedule (except for reasons caused in whole or in part by you or that are outside our reasonable control) a previously confirmed on-site Professional Services delivery session, we will use all reasonable efforts to provide you at least 5 business days' notice. If we do not provide such notice, and you incur reasonable direct, non-refundable expenses which you have made good faith efforts to avoid, we will upon your written request (which must include documentation of these expenses) provide you a credit for such expenses. In no case, however, will the amount of credit exceed $750.

3.4 Acceptance of Services and Warranty.

3.4.1 Warranty and Acceptance. We warrant that the Professional Services we provide will be performed in a workmanlike manner. If you reasonably determine that the Professional Services have not met this standard, you must provide us written notice specifying any deficiencies in detail within 10 business days after the service delivery. We will then use reasonable commercial efforts to cure any such deficiencies promptly which may include our providing additional Professional Services at our expense. If you do not provide notice of any deficiencies to us within the 10-day period, your acceptance of the Professional Services will be considered final.

3.4.2 Failure to Cure. If you give us notice under subsection 3.4.1 and we are unable to cure the deficiency within 60 days after your notice, you may terminate the directly affected portions of service and obtain a refund of amounts you have paid for the terminated

Professional Services.

3.4.3 Sole remedies. The remedies specified in this section 3.4 are your only Professional Services related remedies.

3.5 Compliance with Workplace Rules. We will have the person or persons we assign to perform the Professional Services comply with those of your lawful workplace rules you have provided to us and them in writing in advance.

3.6 Subcontractors. We may, in our reasonable discretion, use third parties, including, but not limited to agents, to perform any of our obligations regarding delivery of the Professional Services.

4.0 GENERAL TERMS

4.1 Fees and Payment

4.1.1 Fees. You agree to timely pay all amounts due to us as shown on the Order Form and acknowledge that by submitting a signed Order Form, you are representing to us that the employee or agent signing on your behalf has the requisite authority to bind you to the terms and conditions of the Agreement, including the payment obligations identified on the Order Form. Except if specified in the Order Form or in section 1.3.2 (re Outages) all such amounts are non- cancellable and non-refundable. To the extent that you fail to timely pay all amounts due as identified on the applicable Order Form, you accept that we can institute any and all collection efforts and legal claims that we deem appropriate and that you shall pay us for all costs and expenses (including attorney's fees) we incur in connection with such collection efforts and claims.

4.1.2 Taxes. Except to the extent you provide us with a valid tax exemption certificate authorized by the appropriate taxing authority covering all applicable taxes otherwise due and payable, we will invoice you for and you will pay any applicable direct or indirect local, state, federal or foreign taxes, levies, duties or similar governmental assessments of any nature, including, but not limited to, value-added, gross receipts, sales, use or withholding taxes associated with your license or purchases under this Agreement, except for taxes based on our net income or real property.

4.1.3 Acceptance. All Software will be deemed accepted upon our making it available to you online and will thereafter be subject to the limited warranty provision of this Agreement.

4.2 Confidentiality

4.2.1 Definition of Confidential Information. "**Confidential Information**" means all confidential and proprietary information disclosed by one party (the "**Discloser**") to the other (the "**Receiver**") and that is either designated as confidential or of a type that should be reasonably expected to be confidential. Confidential Information includes the Customer Data, our Software, business and marketing plans, technology and technical information, product designs, and business processes, but does not include any information that, without breach of obligation owed to Discloser: (a) is or becomes generally known to the public; (b) was known to the Receiver prior to its disclosure by the Discloser; (c) was independently developed by the Receiver; or (d) is received from a third party. As a state entity, OU is subject to the Oklahoma Open Records Act (OORA), which states that information may otherwise be considered as confidential, may be required to be disclosed under the OORA.

4.2.2 Protection. The Receiver will not disclose or use any Confidential Information of the Discloser for any purpose outside the scope of this Agreement, except with the Discloser's prior written permission. The Receiver will protect the Confidential Information of the Discloser as if it were the Receiver's own Confidential Information, and at a minimum, with reasonable care. This obligation will survive termination of this Agreement for a period of 3 years. You accept and acknowledge that you input the information and data into our Software, including any Student personal information that you deem necessary and that we have no control over such input, that certain third parties may have access to such information and data to assist in enhancing the Software and in facilitating your Users use and access of the Software and that we may retain the data and information that you provide in accordance with our normal retention and destruction practices on certain or our servers, SAN and/or cloud backups.

4.2.3 Compelled Disclosure. If by court order, legal requirement or regulatory authority the Receiver is forced to disclose Confidential Information of the Discloser, the Receiver will (to the extent legally permitted) give the Discloser prompt notice of the order and will provide, at the Discloser's request and cost, reasonable assistance to contest the disclosure.

4.2.4 Remedies. If the Receiver discloses or uses (or threatens to disclose or use) any Confidential Information of the Discloser in breach of this section, the Discloser will have the right, in addition to any other available remedies, to seek injunctive relief to prevent further (or the threatened) disclosure.

4.3 Indemnities

4.3.1 Our Indemnification of You. Subject to the conditions described below and the provisions of section 4.6, we will defend, indemnify and hold you harmless against any loss, damage or costs (including reasonable attorneys' fees) incurred in connection with claims, demands, suits, or proceedings (collectively called "Claims") made or brought against you by a third party, as follows:

a. **For Personal Injury or Property Damage.** Our indemnity covers Claims alleging personal injury or property damage to the extent caused by the willful misconduct or gross negligence of our personnel while on your premises.

b. **For Infringement.** Our indemnity covers Claims alleging that your Users use of the Software in accordance with the terms of this Agreement, or any Materials furnished by us in connection with this Agreement infringes the intellectual property rights of a third party. We will have no indemnification obligations or other liability for any claim of infringement or misappropriation to the extent (a) based on specifications or directions you provided, (b) your use of a superseded or altered version of some or all of the Software or Materials if infringement would have been avoided by the use of a subsequent or unaltered release of the Software or Materials provided to you or (iii) your use occurs in a jurisdiction other than the United States. If the Software becomes, or in our opinion is likely to become, the subject of an infringement claim, we may, at our option and expense, either procure for you the right to continue using the Software; replace or modify the Software so that it becomes non-infringing and remains functionally equivalent; or require the return of the affected Software and refund you the portion of your purchase price attributable to the returned product for the remaining Subscription Period.

4.3.2 Your Indemnification of Us. Except for those indemnities above described in Section 4.3.1 of this Agreement, each party will be responsible for its own negligent and intentional acts and omission with the UNIVERSITY's liability governed by the terms of the Oklahoma Governmental Tort Claims Act, 51 Okl. St. §§ 151 et seq.

4.3.3 Conditions. These indemnities will be conditioned on the party seeking indemnity: (a) promptly providing the other with a written notice of the Claim; (b) giving the other party sole control of the defense and settlement of the Claim, provided that the other party may not settle any Claim unless the party seeking indemnity is unconditionally released from liability; and (c) at no charge, providing the other party with all reasonable assistance relative to the defense of the Claim.

4.3.4 Exclusive Remedies. Our and your exclusive indemnification responsibilities are stated in this section 4.3.

4.4 Care of Customer Data. We will make periodic backups of Customer Data you enter into our Software and will otherwise use reasonable commercial care, consistent with general industry practice, to protect such Customer Data against loss. We are not responsible for lost Customer Data. You will be responsible for the maintenance of Customer Data held in our Software or learning management systems and for replacing it if it is lost or destroyed for any reason.

4.5 Force Majeure. The term "**Force Majeure**" means circumstances beyond the reasonable control of a party (such as acts of God, government restrictions, wars, insurrections, labor strife, or failure of suppliers, communication or data systems, subcontractors, or carriers) which delay or prevent the party from performing under the terms of this Agreement. Affected performance obligations will be suspended during the duration of the Force Majeure. In the event the Force Majeure persists for more than 90 days, the other party may terminate the affected portions of this Agreement upon written notice.

4.6 Disclaimers, Limitations and Exclusions.

4.6.1 Warranty Disclaimer. EXCEPT AS EXPRESSLY PROVIDED IN SECTIONS 1.7 OR 3.4 OF THIS AGREEMENT, WE MAKE NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, AND WE SPECIFICALLY DISCLAIM ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.

4.6.2 Limitation of Liability. EXCEPT FOR BREACHES OF CONFIDENTIALITY OBLIGATIONS (WHICH ARE LIMITED TO $50,000 IN THE AGGREGATE FOR ALL CLAIMS AGAINST EITHER PARTY IN ANY CALENDAR YEAR), IN NO EVENT WILL EITHER PARTY'S MAXIMUM AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE SOFTWARE PRODUCTS AND SERVICES AGREEMENT, WHETHER IN CONTRACT, TORT, INDEMNIFICATION OR UNDER ANY OTHER THEORY OF LIABILITY, EXCEED THE AMOUNTS ACTUALLY PAID BY YOU TO US UNDER THE APPLICABLE ORDER FORM DURING THE PRIOR TWELVE MONTHS. THE ABOVE LIMITATION WILL NOT APPLY TO EITHER PARTY IN THE EVENT YOUR STATE STATUTES ARE FOUND TO GOVERN THIS AGREEMENT AND THEY SPECIFICALLY PROHIBIT A LIMITATION OF LIABILITY PROVISION.

4.6.3 Exclusion of Consequential and Related Damages. IN NO EVENT WILL EITHER PARTY HAVE ANY LIABILITY TO THE OTHER FOR ANY LOST PROFITS OR FOR ANY INDIRECT, SPECIAL, LIQUIDATED, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

4.7 U.S. Governmental Users. The Software and Documentation are "Commercial Items," as defined at 48 C.F.R. §2.101, and are licensed subject to Restricted Rights applicable to Commercial Items and only with those rights expressly granted under this Agreement. The U.S. Government will not be entitled to technical information that is not customarily provided to the public or to use, modify, reproduce, release, perform, display, or disclose the Software or Documentation except as allowed under this Agreement.

4.8 Term and Termination

4.8.1 Term of this Agreement. This Agreement will begin on the Order Form Date and will, unless earlier terminated in accordance with this section, continue in effect until the end of the last Subscription Period identified in the applicable Order Form.

4.8.2 Termination for Cause. A party may terminate this Agreement for cause: (i) 30 days after written notice of a material breach to the other party if such breach remains uncured at the expiration of such period; or (ii) if the other party ceases to conduct business in the ordinary course, files a petition for liquidation bankruptcy, fails to have an involuntary petition for bankruptcy dismissed or converted to a non-liquidation bankruptcy within 60 days after filing, or makes an assignment of essentially all assets for the benefit of creditors.

4.8.3 Outstanding Fees. Termination will not relieve you of the obligation to pay any fees payable to us prior to the effective date of termination.

4.9 Surviving Provisions. The following provisions will survive any termination or expiration of this Agreement for a period of 12 months from the date termination or expiration: 1.6, 1.7, 2.1, 4.2, 4.3.1, 4.3.2, 4.3.4, 4.6, 4.9 and 5.0.

4.10 Assignment. Neither party may assign any of its rights or obligations hereunder, whether by operation of law or otherwise, without the prior written consent of the other party (not to be unreasonably withheld). Notwithstanding the foregoing, we may assign this Agreement in its entirety without your consent, in connection with a transaction involving a sale of all or substantially all of our assets or equity through merger or otherwise. Any attempt by a party to assign its rights or obligations under this Agreement in breach of this section will be void and of no effect. Subject to the foregoing, this Agreement will bind and inure to the benefit of the parties, their respective successors and permitted assigns.

4.11 Student/Parent Consents and Communication. You are responsible for obtaining any necessary or legally required consents from students, parents and/or guardians related to your Users access and use of the Software. To the extent that your license includes our providing a virtual instructor associated with the licensed content, you accept and acknowledge that such virtual instructor may periodically be communicating with students and their parents and/or guardians.

4.12 Entire Agreement. This Agreement constitutes the entire agreement between the parties, and supersedes all prior agreements, proposals or representations, written or oral, concerning its subject matter. No modification, amendment, or waiver of any provision of this Agreement will be effective unless in writing and signed by both parties. To the extent of any conflict or inconsistency between the provisions in these

Standard Terms and an Order Form, the terms of the Order Form will prevail.

4.13 Governing Law. These Standard Terms are an integral part of an agreement (the "**Agreement**") that consists of (in order of precedence) an Order Form, these Standard Terms, and any documents incorporated by reference into either the Order Form or Standard Terms. You acknowledge that the Order Form and the Standard Terms constitute the entire agreement between the parties and will supersede and replace any provisions in your purchase order or other contracting or purchasing documents that do not exactly mirror these terms. The Agreement will be effective as of the Order Date specified on the Order Form and will be binding when the Order Form has been executed by you. We reserve the right to require your submission of one or more purchase orders in accordance with the terms outlined in your Order Form. Capitalized terms used throughout the Agreement are defined in the Order Form, in section 5.0 (below), and elsewhere in these Standard Terms. These Standard Terms may only be superseded or amended by other terms and conditions you and we have specifically documented in a signed Order Form.

1.7 Limited Warranty for Software. Subject to the terms of Section 4.6, we warrant that the Software will perform in substantial accordance with the applicable Documentation during the Subscription Period. This warranty is contingent on your use of the Software in accordance with this Agreement and the applicable Documentation. If we breach this express warranty, and you promptly inform us of such in writing, we will at our option and expense: (a) modify the affected Software to generally conform with the applicable Documentation, or (b) provide a replacement for the affected Software which generally conforms with that Documentation, or (c) refund you the portion of your license price related to the applicable Software that is attributable to the remaining Subscription Period. This will be our sole obligation, and your sole remedy, with respect to any breach of this warranty. EXCEPT FOR THE EXPRESS WARRANTY PROVIDED IN THIS SECTION, THE SOFTWARE IS PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITHOUT ANY ADDITIONAL WARRANTIES OF ANY KIND. WE DO NOT WARRANT THAT THE SOFTWARE WILL PERFORM UNINTERRUPTED OR BE ERROR-FREE OR THAT THE SOFTWARE WILL MEET YOUR PARTICULAR REQUIREMENTS.

3.1 Mutual Cooperation. You and we mutually agree to cooperate with each other in a professional and courteous manner in the performance of our respective duties in the delivery of Professional Services.

3.2 Scheduling Changes Caused by You. You agree to notify us at least 5 business days in advance of your intention to reschedule previously confirmed on-site Professional Services sessions. If you do not provide such notice, and we are unable to re-assign the resources scheduled to provide your Professional Services, we reserve the right to charge you a cancellation fee of up to $750 for each day cancelled without such notice.

3.3 Scheduling Changes Caused by Us. If we are required to reschedule (except for reasons caused in whole or in part by you or that are outside our reasonable control) a previously confirmed on-site Professional Services delivery session, we will use all reasonable efforts to provide you at least 5 business days' notice. If we do not provide such notice, and you incur reasonable direct, non-refundable expenses which you have made good faith efforts to avoid, we will upon your written request (which must include documentation of these expenses) provide you a credit for such expenses. In no case, however, will the amount of credit exceed $750.

4.2.3 Compelled Disclosure. If by court order, legal requirement or regulatory authority the Receiver is forced to disclose Confidential Information of the Discloser, the Receiver will (to the extent legally permitted) give the Discloser prompt notice of the order and will provide, at the Discloser's request and cost, reasonable assistance to contest the disclosure.

4.2.4 Remedies. If the Receiver discloses or uses (or threatens to disclose or use) any Confidential Information of the Discloser in breach of this section, the Discloser will have the right, in addition to any other available remedies, to seek injunctive relief to prevent further (or the threatened) disclosure.

4.3 Indemnities

4.3.1 Our Indemnification of You. Subject to the conditions described below and the provisions of section 4.6, we will defend, indemnify and hold you harmless against any loss, damage or costs (including reasonable attorneys' fees) incurred in connection with claims, demands, suits, or proceedings (collectively called "Claims") made or brought against you by a third party, as follows:

a. **For Personal Injury or Property Damage.** Our indemnity covers Claims alleging personal injury or property damage to the extent caused by the willful misconduct or gross negligence of our personnel while on your premises.

b. **For Infringement.** Our indemnity covers Claims alleging that your Users use of the Software in accordance with the terms of this Agreement, or any Materials furnished by us in connection with this Agreement infringes the intellectual property rights of a third party. We will have no indemnification obligations or other liability for any claim of infringement or misappropriation to the extent (a) based on specifications or directions you provided, (b) your use of a superseded or altered version of some or all of the Software or Materials if infringement would have been avoided by the use of a subsequent or unaltered release of the Software or Materials provided to you or (iii) your use occurs in a jurisdiction other than the United States. If the Software becomes, or in our opinion is likely to become, the subject of an infringement claim, we may, at our option and expense, either procure for you the right to continue using the Software; replace or modify the Software so that it becomes non-infringing and remains functionally equivalent; or require the return of the affected Software and refund you the portion of your purchase price attributable to the returned product for the remaining Subscription Period.

4.3.2 Your Indemnification of Us. Except for those indemnities above described in Section 4.3.1 of this Agreement, each party will be responsible for its own negligent and intentional acts and omission with the UNIVERSITY's liability governed by the terms of the Oklahoma Governmental Tort Claims Act, 51 Okl. St. §§ 151 et seq.

4.3.3 Conditions. These indemnities will be conditioned on the party seeking indemnity: (a) promptly providing the other with a written notice of the Claim; (b) giving the other party sole control of the defense and settlement of the Claim, provided that the other party may not settle any Claim unless the party seeking indemnity is unconditionally released from liability; and (c) at no charge, providing the other party with all reasonable assistance relative to the defense of the Claim.

4.3.4 Exclusive Remedies. Our and your exclusive indemnification responsibilities are stated in this section 4.3.

4.4 Care of Customer Data. We will make periodic backups of Customer Data you enter into our Software and will otherwise use reasonable commercial care, consistent with general industry practice, to protect such Customer Data against loss. We are not responsible for lost Customer Data. You will be responsible for the maintenance of Customer Data held in our Software or learning management systems and for replacing it if it is lost or destroyed for any reason.

4.5 Force Majeure. The term "**Force Majeure**" means circumstances beyond the reasonable control of a party (such as acts of God, government restrictions, wars, insurrections, labor strife, or failure of suppliers, communication or data systems, subcontractors, or carriers) which delay or prevent the party from performing under the terms of this Agreement. Affected performance obligations will be suspended during the duration of the Force Majeure. In the event the Force Majeure persists for more than 90 days, the other party may terminate the affected portions of this Agreement upon written notice.

4.6 Disclaimers, Limitations and Exclusions.

4.6.1 Warranty Disclaimer. EXCEPT AS EXPRESSLY PROVIDED IN SECTIONS 1.7 OR 3.4 OF THIS AGREEMENT, WE MAKE NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, AND WE SPECIFICALLY DISCLAIM ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.

4.6.2 Limitation of Liability. EXCEPT FOR BREACHES OF CONFIDENTIALITY OBLIGATIONS (WHICH ARE LIMITED TO $50,000 IN THE AGGREGATE FOR ALL CLAIMS AGAINST EITHER PARTY IN ANY CALENDAR YEAR), IN NO EVENT WILL EITHER PARTY'S MAXIMUM AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE SOFTWARE PRODUCTS AND SERVICES AGREEMENT, WHETHER IN CONTRACT, TORT, INDEMNIFICATION OR UNDER ANY OTHER THEORY OF LIABILITY, EXCEED THE AMOUNTS ACTUALLY PAID BY YOU TO US UNDER THE APPLICABLE ORDER FORM DURING THE PRIOR TWELVE MONTHS. THE ABOVE LIMITATION WILL NOT APPLY TO EITHER PARTY IN THE EVENT YOUR STATE STATUTES ARE FOUND TO GOVERN THIS AGREEMENT AND THEY SPECIFICALLY PROHIBIT A LIMITATION OF LIABILITY PROVISION.

4.6.3 Exclusion of Consequential and Related Damages. IN NO EVENT WILL EITHER PARTY HAVE ANY LIABILITY TO THE OTHER FOR ANY LOST PROFITS OR FOR ANY INDIRECT, SPECIAL, LIQUIDATED, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

4.7 U.S. Governmental Users. The Software and Documentation are "Commercial Items," as defined at 48 C.F.R. §2.101, and are licensed subject to Restricted Rights applicable to Commercial Items and only with those rights expressly granted under this Agreement. The U.S. Government will not be entitled to technical information that is not customarily provided to the public or to use, modify, reproduce, release, perform, display, or disclose the Software or Documentation except as allowed under this Agreement.

4.8 Term and Termination

4.8.1 Term of this Agreement. This Agreement will begin on the Order Form Date and will, unless earlier terminated in accordance with this section, continue in effect until the end of the last Subscription Period identified in the applicable Order Form.

4.8.2 Termination for Cause. A party may terminate this Agreement for cause: (i) 30 days after written notice of a material breach to the other party if such breach remains uncured at the expiration of such period; or (ii) if the other party ceases to conduct business in the ordinary course, files a petition for liquidation bankruptcy, fails to have an involuntary petition for bankruptcy dismissed or converted to a non-liquidation bankruptcy within 60 days after filing, or makes an assignment of essentially all assets for the benefit of creditors.

4.8.3 Outstanding Fees. Termination will not relieve you of the obligation to pay any fees payable to us prior to the effective date of termination.

4.9 Surviving Provisions. The following provisions will survive any termination or expiration of this Agreement for a period of 12 months from the date termination or expiration: 1.6, 1.7, 2.1, 4.2, 4.3.1, 4.3.2, 4.3.4, 4.6, 4.9 and 5.0.

4.10 Assignment. Neither party may assign any of its rights or obligations hereunder, whether by operation of law or otherwise, without the prior written consent of the other party (not to be unreasonably withheld). Notwithstanding the foregoing, we may assign this Agreement in its entirety without your consent, in connection with a transaction involving a sale of all or substantially all of our assets or equity through merger or otherwise. Any attempt by a party to assign its rights or obligations under this Agreement in breach of this section will be void and of no effect. Subject to the foregoing, this Agreement will bind and inure to the benefit of the parties, their respective successors and permitted assigns.

4.11 Student/Parent Consents and Communication. You are responsible for obtaining any necessary or legally required consents from students, parents and/or guardians related to your Users access and use of the Software. To the extent that your license includes our providing a virtual instructor associated with the licensed content, you accept and acknowledge that such virtual instructor may periodically be communicating with students and their parents and/or guardians.

This Agreement constitutes the entire agreement between the parties, and supersedes all prior agreements, proposals or representations, written or oral, concerning its subject matter. No modification, amendment, or waiver of any provision of this Agreement will be effective unless in writing and signed by both parties. To the extent of any conflict or inconsistency between the provisions in these

Standard Terms and an Order Form, the terms of the Order Form will prevail.

4.13 Governing Law. This Agreement will be governed by the internal laws of the State of Minnesota, without regard to its conflicts of laws rules unless the statutes or applicable rules governing your activities where your sitused require that the laws of the State where your sitused apply, in which case they will, without regard to the conflict or laws rules. As such, the laws of the State of Oklahoma shall govern this Agreement.

If any provision of this Agreement is held by a court of competent jurisdiction to be contrary to law, the provision will be subject to modification by the court and interpreted so as best to accomplish the objectives of the original provision to the fullest extent permitted by law, and the remaining provisions of this Agreement will remain in effect.

You acknowledge that the Order Form and the Standard Terms constitute the entire agreement between the parties and will supersede and replace any provisions in your purchase order or other contracting or purchasing documents that do not exactly mirror these terms. The Agreement will be effective as of the Order Date specified on the Order Form and will be binding when the Order Form has been executed by you. We reserve the right to require your submission of one or more purchase orders in accordance with the terms outlined in your Order Form. Capitalized terms used throughout the Agreement are defined in the Order Form, in section 5.0 (below), and elsewhere in these Standard Terms. 4.2 Confidentiality

4.2.1 Definition of Confidential Information. "**Confidential Information**" means all confidential and proprietary information disclosed by one party (the "**Discloser**") to the other (the "**Receiver**") and that is either designated as confidential or of a type that should be reasonably expected to be confidential. Confidential Information includes the Customer Data, our Software, business and marketing plans, technology and technical information, product designs, and business processes, but does not include any information that, without breach of obligation owed to Discloser: (a) is or becomes generally known to the public; (b) was known to the Receiver prior to its disclosure by the Discloser; (c) was independently developed by the Receiver; or (d) is received from a third party. As a state entity, OU is subject to the Oklahoma Open Records Act (OORA), which states that information may otherwise be considered as confidential, may be required to be disclosed under the OORA.

4.2.2 Protection. The Receiver will not disclose or use any Confidential Information of the Discloser for any purpose outside the scope of this Agreement, except with the Discloser's prior written permission. The Receiver will protect the Confidential Information of the Discloser as if it were the Receiver's own Confidential Information, and at a minimum, with reasonable care. This obligation will survive termination of this Agreement for a period of 3 years. You accept and acknowledge that you input the information and data into our Software, including any Student personal information that you deem necessary and that we have no control over such input, that certain third parties may have access to such information and data to assist in enhancing the Software and in facilitating your Users use and access of the Software and that we may retain the data and information that you provide in accordance with our normal retention and destruction practices on certain or our servers, SAN and/or cloud backups.

4.2.3 Compelled Disclosure. If by court order, legal requirement or regulatory authority the Receiver is forced to disclose Confidential Information of the Discloser, the Receiver will (to the extent legally permitted) give the Discloser prompt notice of the order and will provide, at the Discloser's request and cost, reasonable assistance to contest the disclosure.

4.2.4 Remedies. If the Receiver discloses or uses (or threatens to disclose or use) any Confidential Information of the Discloser in breach of this section, the Discloser will have the right, in addition to any other available remedies, to seek injunctive relief to prevent further (or the threatened) disclosure.

4.3 Indemnities

4.3.1 Our Indemnification of You. Subject to the conditions described below and the provisions of section 4.6, we will defend, indemnify and hold you harmless against any loss, damage or costs (including reasonable attorneys' fees) incurred in connection with claims, demands, suits, or proceedings (collectively called "Claims") made or brought against you by a third party, as follows:

a. **For Personal Injury or Property Damage.** Our indemnity covers Claims alleging personal injury or property damage to the extent caused by the willful misconduct or gross negligence of our personnel while on your premises.

b. **For Infringement.** Our indemnity covers Claims alleging that your Users use of the Software in accordance with the terms of this Agreement, or any Materials furnished by us in connection with this Agreement infringes the intellectual property rights of a third party. We will have no indemnification obligations or other liability for any claim of infringement or misappropriation to the extent (a) based on specifications or directions you provided, (b) your use of a superseded or altered version of some or all of the Software or Materials if infringement would have been avoided by the use of a subsequent or unaltered release of the Software or Materials provided to you or (iii) your use occurs in a jurisdiction other than the United States. If the Software becomes, or in our opinion is likely to become, the subject of an infringement claim, we may, at our option and expense, either procure for you the right to continue using the Software; replace or modify the Software so that it becomes non-infringing and remains functionally equivalent; or require the return of the affected Software and refund you the portion of your purchase price attributable to the returned product for the remaining Subscription Period.

4.3.2 Your Indemnification of Us. Except for those indemnities above described in Section 4.3.1 of this Agreement, each party will be responsible for its own negligent and intentional acts and omission with the UNIVERSITY's liability governed by the terms of the Oklahoma Governmental Tort Claims Act, 51 Okl. St. §§ 151 et seq.

4.3.3 Conditions. These indemnities will be conditioned on the party seeking indemnity: (a) promptly providing the other with a written notice of the Claim; (b) giving the other party sole control of the defense and settlement of the Claim, provided that the other party may not settle any Claim unless the party seeking indemnity is unconditionally released from liability; and (c) at no charge, providing the other party with all reasonable assistance relative to the defense of the Claim.

4.3.4 Exclusive Remedies. Our and your exclusive indemnification responsibilities are stated in this section 4.3.

4.4 Care of Customer Data. We will make periodic backups of Customer Data you enter into our Software and will otherwise use reasonable commercial care, consistent with general industry practice, to protect such Customer Data against loss. We are not responsible for lost Customer Data. You will be responsible for the maintenance of Customer Data held in our Software or learning management systems and for replacing it if it is lost or destroyed for any reason.

4.5 Force Majeure. The term "**Force Majeure**" means circumstances beyond the reasonable control of a party (such as acts of God, government restrictions, wars, insurrections, labor strife, or failure of suppliers, communication or data systems, subcontractors, or carriers) which delay or prevent the party from performing under the terms of this Agreement. Affected performance obligations will be suspended during the duration of the Force Majeure. In the event the Force Majeure persists for more than 90 days, the other party may terminate the affected portions of this Agreement upon written notice.

4.6 Disclaimers, Limitations and Exclusions.

4.6.1 Warranty Disclaimer. EXCEPT AS EXPRESSLY PROVIDED IN SECTIONS 1.7 OR 3.4 OF THIS AGREEMENT, WE MAKE NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, AND WE SPECIFICALLY DISCLAIM ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW.

4.6.2 Limitation of Liability. EXCEPT FOR BREACHES OF CONFIDENTIALITY OBLIGATIONS (WHICH ARE LIMITED TO $50,000 IN THE AGGREGATE FOR ALL CLAIMS AGAINST EITHER PARTY IN ANY CALENDAR YEAR), IN NO EVENT WILL EITHER PARTY'S MAXIMUM AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE SOFTWARE PRODUCTS AND SERVICES AGREEMENT, WHETHER IN CONTRACT, TORT, INDEMNIFICATION OR UNDER ANY OTHER THEORY OF LIABILITY, EXCEED THE AMOUNTS ACTUALLY PAID BY YOU TO US UNDER THE APPLICABLE ORDER FORM DURING THE PRIOR TWELVE MONTHS. THE ABOVE LIMITATION WILL NOT APPLY TO EITHER PARTY IN THE EVENT YOUR STATE STATUTES ARE FOUND TO GOVERN THIS AGREEMENT AND THEY SPECIFICALLY PROHIBIT A LIMITATION OF LIABILITY PROVISION.

4.6.3 Exclusion of Consequential and Related Damages. IN NO EVENT WILL EITHER PARTY HAVE ANY LIABILITY TO THE OTHER FOR ANY LOST PROFITS OR FOR ANY INDIRECT, SPECIAL, LIQUIDATED, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT THE PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

4.7 U.S. Governmental Users. The Software and Documentation are "Commercial Items," as defined at 48 C.F.R. §2.101, and are licensed subject to Restricted Rights applicable to Commercial Items and only with those rights expressly granted under this Agreement. The U.S. Government will not be entitled to technical information that is not customarily provided to the public or to use, modify, reproduce, release, perform, display, or disclose the Software or Documentation except as allowed under this Agreement.

4.8.2 Termination for Cause. A party may terminate this Agreement for cause: (i) 30 days after written notice of a material breach to the other party if such breach remains uncured at the expiration of such period; or (ii) if the other party ceases to conduct business in the ordinary course, files a petition for liquidation bankruptcy, fails to have an involuntary petition for bankruptcy dismissed or converted to a non-liquidation bankruptcy within 60 days after filing, or makes an assignment of essentially all assets for the benefit of creditors.

4.8.3 Outstanding Fees. Termination will not relieve you of the obligation to pay any fees payable to us prior to the effective date of termination.

4.9 Surviving Provisions. The following provisions will survive any termination or expiration of this Agreement for a period of 12 months from the date termination or expiration: 1.6, 1.7, 2.1, 4.2, 4.3.1, 4.3.2, 4.3.4, 4.6, 4.9 and 5.0.

4.10 Assignment. Neither party may assign any of its rights or obligations hereunder, whether by operation of law or otherwise, without the prior written consent of the other party (not to be unreasonably withheld). Notwithstanding the foregoing, we may assign this Agreement in its entirety without your consent, in connection with a transaction involving a sale of all or substantially all of our assets or equity through merger or otherwise. Any attempt by a party to assign its rights or obligations under this Agreement in breach of this section will be void and of no effect. Subject to the foregoing, this Agreement will bind and inure to the benefit of the parties, their respective successors and permitted assigns.

4.11 Student/Parent Consents and Communication. You are responsible for obtaining any necessary or legally required consents from students, parents and/or guardians related to your Users access and use of the Software. 4.13 Governing Law. This Agreement will be governed by the internal laws of the State of Minnesota, without regard to its conflicts of laws rules unless the statutes or applicable rules governing your activities where your sitused require that the laws of the State where your sitused apply, in which case they will, without regard to the conflict or laws rules. As such, the laws of the State of Oklahoma shall govern this Agreement.

2. Renewal Policy:
The initial term of the service plan is one year from the date of purchase (i.e. shipped from Fulcrum Biometrics) of your software. The "effective anniversary date" (EAD) of the subscription is the first day of the first full month after the anniversary of date of purchase. The subscription will automatically renew for the next twelve (12) months when Fulcrum Biometrics receives your payment. A renewal payment not remitted within 30 days of the effective anniversary date will cause the subscription to be canceled. In the case of a canceled or lapsed subscription, to receive support, you must either a) make the subscription current by paying any monies owed from the renewal date forward, or b) remunerate the current hourly technical support fees assessed by Fulcrum Biometrics. To receive support, the remedies outlined previously in this paragraph apply. Maintenance and support for licenses (seat or server) purchased between the initial purchase and the effective anniversary date will be added to the total licenses owned, and the subscriber will only need to remit one time a year (on the EAD) for all licenses being used.

This subscription may be terminated by Fulcrum Biometrics immediately and without notice if the subscriber fails to comply with any term or condition of this Agreement, or if a subscriber exceeds reasonable use of the subscription. If Fulcrum Biometrics chooses not to renew a subscription on the basis of excessive usage, such determination shall not be deemed to preclude customer support from Fulcrum Biometrics on a pay-as-you-go basis or under a limited incident plan, if available. From time to time Fulcrum Biometrics may change the terms or conditions of this subscription plan, method of delivering or accessing the subscription and/or the subscription fee.

3. Definition of an Incident:

The technical support representative will determine if any additional incidents may be handled during the course of the telephone or electronic contact.

During the term of the subscription, subscriber will receive support for an unlimited number of incidents. Fulcrum Biometrics reserves the right to limit each contact (telephone or electronic) to one incident as defined above. Fulcrum Biometrics may also choose to limit, terminate, or not renew support service for any subscriber who uses the service in an irregular, excessive, abusive, or fraudulent manner. Terms, conditions, support features, procedures, pricing and support availability for future periods are subject to change at any time without notice. Coverage is non- transferable and is valid for the subscriber only. Response to Request for Quotation

May 19th, 2020

Lawrence Ross Jr.
Email: Lawrence.ross@verizonwireless.com
Phone: 405.508.0858

Thank you for the opportunity to submit the attached quotation for Verizon Wireless products and services.
We recommend purchasing utilizing the pre-negotiated pricing, terms, and conditions offered by Verizon Wireless through the State of Tennessee contract RSWC-3830-DATA/RSWC-321 VOICE (the "State Contract") effective June 1, 2002/June 1, 2001 respectively, as amended, which offers a significantly higher discount than your organization would otherwise qualify for as a single entity purchasing under a stand-alone contract.

The pricing on this quotation is offered under the terms and conditions of the State Contract (which has pre-negotiated terms, conditions, and pricing) and is valid for ninety (90) days from the date of this letter, except for promotional pricing which may expire sooner. Other than the terms and conditions of the State Contract, this quotation does not incorporate or include any other prior written or oral communications, materials, documents, representations or presentations of any kind. In the event of any inconsistency between this quotation and the State Contract, the terms and pricing of the State Contract will be controlling.

In the event you award your business to Verizon Wireless, the Agreement between the parties shall be governed by the terms and conditions of the State Contract. For your convenience, we have included price plan terms and conditions for the plans quoted as well as information about other wireless plans available under the State Contract at the end of the quotation.

Verizon Wireless would like to recommend the following price plan offers. Please also refer to the Verizon Wireless Pricing Sheet attached in the proposal for all details.

CAMERON UNIVERSITY/LAWTON PUBLIC SCHOOLS
OFF-CAMPUS CONCURRENT ENROLLMENT

MEMORANDUM OF UNDERSTANDING AY 2020-2021

This MOU describes a partnership between Cameron University (CU) and any Lawton Public School high school referred to as "Partner School" throughout the document.

The concurrent program at CU allows eligible high school students to enroll in college courses prior to completion of high school graduation requirements. To be eligible to participate, high school students must meet admission and placement requirements as per Oklahoma State Regents for Higher Education (OSRHE) policy. Eligible students may enroll in courses offered on the CU Lawton Campus, CU Duncan Campus, online, or at approved select sites and partner schools.

By providing early access to higher education to students in CU's Southwest Oklahoma service area the concurrent enrollment program endeavors to increase the number of students graduating from college and to facilitate graduation in a shorter period of time and at reduced overall expense.

The concurrent enrollment program is the result of collaborating partnerships between CU and participating high schools in Southwest Oklahoma. These partnerships require commitments on the part of CU and those schools as detailed below.

CU is dedicated to serving high school students while helping develop a seamless and accessible transition to higher education. This MOU describes the agreement with the Partner School to increase the number of students obtaining college credit during their high school career.

Purpose

The purpose of this agreement is to foster increased access to college courses for high school students who have demonstrated the academic ability to complete a rigorous course of study. Through this opportunity, high school juniors and seniors can participate in college courses during regular high school hours in a collegiate environment. Students will earn high school academic credit and college credit, referred to as dual credit, as established by Oklahoma Statute (OS) 70.628.13. The parties understand and agree that course changes may be included in this agreement, and those courses will be set forth in a revised addendum and attached to this agreement. Any addendum shall be governed by the terms, provisions, and conditions set forth in this agreement.

Terms

The agreement will be in continuous effect beginning in the fall semester and terminating at the end of the spring semester of the academic year for which the Memorandum of Understanding is signed unless terminated in writing by either institution. Either party shall have the right to terminate this memorandum of understanding with or without cause by giving ninety (90) days prior written notice of intent to terminate pursuant to this provision, specifying the date of termination. The parties agree to work in good faith to avoid any such termination. The rationale for the requested termination may be stated with the request, and the parties may attempt to resolve any disputes in a mutually satisfactory way. Any future agreements will be subject to their own terms for termination, which may differ from this memorandum of understanding.

Operations

Cameron University

Cameron University (CU) Off-Campus Concurrent Enrollment provides:

- An opportunity to earn transferable college credits while also satisfying high school course requirements through dual-credit
- An introduction to college academics and rigor
- An economical head-start paying for college through the concurrent tuition waiver for select courses taught on campus, online, or at approved concurrent sites.
- Access to CU Center for Writers, Math Lab, Center for Academic Success, Library, and online resources
- Access to CU academic, financial aid, and career advisement

- CU will offer lower division, general education courses to a minimum of **15** pre-enrolled students per course section. Enrollment for concurrent courses at the Partner School will be open only to the Partner School students. Enrollment forms should be submitted to the Concurrent Advisor by December 1 for spring courses and June 1 for fall courses. Enrollments in addition to the minimum of **15** students may be added until the section fills or until the end of the first week of the semester.

- As per OSRHE policy 3.10.6, a higher education institution offering an off-campus concurrent course shall have direct oversight of all aspects of the course. Off-campus concurrent enrollment courses are the same content and rigor as on-campus courses. Students will be held to the same standard of achievement as students in on-campus courses. Department chairs will review and monitor content and rigor of all off-campus concurrent classes.

- CU faculty and administration have approved the following courses for face-to-face (synchronous) delivery at the Partner Schools:
  - COMM 1113: *Principles of Communication*
  - ENGL 1113: *English Composition I*
  - ENGL 1213: *English Composition II*
  - PSY 1113: *General Psychology*

- Other courses may be offered depending on student demand and availability of qualified faculty.
- CU academic advisors are available to counsel concurrent students on issues concerning academic success and higher education goals.
- CU will endeavor to provide courses during the requested term of instruction; however, CU cannot guarantee course availability at a particular site.
- During concurrent hour(s), the classroom teacher is a Cameron University Adjunct Instructor
  - Content management occurs through Cameron University Course Management System.
  - Discipline issues during Cameron class time are handled according to the Student Handbook/Code of Conduct at Cameron University through Cameron's chain of command (Instructor, Department Chair, Dean)
- Since classes follow the Cameron University calendar, it is possible additional class time will be available prior to the start of or after the end of university classes. If additional time is available, study skills and UNIV 1001 content may be used to prepare students for success in their university classes. Cameron departmental chairs or their designee will work with the school-based faculty to set the course calendar each semester. They will use

the school activity calendar to schedule all meeting times considering pep rallies, assemblies, holidays, professional development days, etc. when constructing the course calendar for the semester.

- Study hall may be offered for the 5th class of the week at the discretion of the cooperating high school.
- All faculty must meet Higher Learning Commission (HLC) expectations for qualifications of faculty. Common expectations for faculty credentials include completion of a program of study in the discipline or subfield in which they teach with a degree at least one level above that of the courses being taught; the completion of 18 graduate credit hours in the discipline in which he or she is teaching; or tested experience that includes breadth and depth of experience outside of the classroom in real-world situations relevant to the discipline in which the faculty member would be teaching.
- Before teaching an off-campus concurrent enrollment course, faculty must participate in an orientation provided by CU. Professional development provided by CU may include pedagogy, instructional design, course management, and student engagement strategies.
- Faculty members teaching an off-campus concurrent enrollment course will receive appraisals and consideration for continued employment according to the CU Faculty Handbook.
- CU will provide curriculum for all off-campus concurrent courses that matches courses offered on campus.
- CU faculty will comply with policies, practices, and procedures as outlined in the CU Faculty Handbook at all times.
- CU will administer courses to follow a 16 week format and students will follow the established CU calendar as it relates to add/drop dates, withdrawal dates, finals schedule, holidays and unscheduled closings.
- Off-site concurrently-enrolled students will be eligible to obtain CU student ID cards at the current published rate. The ID card will provide students with access to campus events and resources equivalent to that of other off-campus, part-time Cameron students.
- Students may participate in courses on the CU campus as well as in the off-campus concurrent courses as approved by LPS; however, additional fees for courses taken on campus will apply. Enrollments not covered by the merit tuition waivers specified in the Financial Arrangements section of this document will be charged full CU tuition.
- CU's Concurrent Advisor will serve as the liaison between the Partner and CU.
- CU will send an electronic spreadsheet of mid- and end-of-term grades for all concurrent enrollment students to the Partner high school.

Partner

The Partner School will ensure the following:

Facility/Materials/Technology

- The Partner will ensure that each student has textbooks and instructional materials as required for each course and that no student is denied an opportunity to participate due to the inability to purchase textbooks and instructional materials.
- The site will provide high speed internet, multimedia equipment, computer hardware and software as needed for college instruction.
- The site will provide dedicated classroom space for 20 to 25 students per course. Only students enrolled as a concurrent student may be present during the class.
- The site will provide a collegiate environment free from classroom interruptions.

Advisement for High School Graduation

- Partner high school counselors and advisers will advise concurrent students on all issues concerning high school education, graduation, and college application requirements.
- The Partner is responsible for ensuring that students have an opportunity to enroll in courses necessary for high school graduation. CU courses may not be available or convenient for all students. CU courses should not be depended on as the sole source for completing high school graduation requirements (as per OS 70-11-103.6.G.5).
- The Partner will provide program information and enrollment due dates to parents and students prior to registration periods.
- The Partner will designate a representative as the liaison between the Partner and CU. The Partner liaison provides program information and guidance to students, parents, and faculty.
- The Partner high school principal will offer support and help guide the development and integrity of the program.
- The Partner will display CU brochures, guides, posters and other promotional materials that CU provides in a designated, on-site area. Examples include the high school guidance office or the classrooms where CU courses are taught.

Calendar/Scheduling/Attendance

- The Partner will comply with the CU academic calendar including the two-hour CU semester finals schedule.
- As per OSRHE policy 3.19.3, all classes are expected to meet for sixteen weeks. The semester-credit-hour is the standard unit of credit used by CU in evaluating a student's educational attainment and progress. Semester-hour of credit is calculated as follows:
    - One semester-hour of credit is awarded for completion of a course meeting for 800 instructional minutes (50 minutes per week for sixteen weeks). A three-hour class on campus will meet 50 minutes a day 3 days a week for a total of 2400 minutes. In order to ensure off campus classes meet an adequate number of minutes, all classes held at the High School will meet 4 times per week.
- Cameron departmental chairs or their designee will work with the school-based faculty to set the course calendar each semester. They will use the school activity calendar to schedule the 4 meeting times considering pep rallies, assemblies, holidays, professional development days, etc. when constructing the course calendar for the semester.
- If the high school closes and CU does not, students will be expected to complete any homework or assigned readings.
- Even when CU is closed, students should keep up with the course agenda and check the course management system for updates on assignments.
- The attendance policies outlined in the concurrent course syllabus must be followed. When there are time conflicts between the CU course schedule and the Partner site, students and CU faculty will follow the CU schedule. This includes high school events such as pep rallies and assemblies. There is no excused absence policy.
- Concurrent students will be accountable for all course content and assignment requirements, regardless of participation in school-sponsored extra-curricular activities.
- All attendance policies are defined in the course syllabus. Concurrent students are college students. Cameron University departmental attendance and tardy policies (if they exist) will be adjusted to reflect the 4-day meeting schedule. For example, if 5 absences are allowed for classes meeting 2 times a week; 10 absences may

be allowed for classes meeting 4 times per week. Absence policies, if applicable, are set by the instructor with input from the chair.

- When a Partner-site faculty member must cancel a concurrent class, the faculty member should contact the CU Department Chair, the site Principal and the students enrolled in the course. The faculty member should follow the Partner site's procedures; however high school substitute teachers will not teach the concurrent course. CU department chairs will work with the Partner-site faculty member to determine if a CU faculty member will substitute in the class.
- CU concurrent courses typically will run in four-day per week sessions and adhere to a Partner's school class schedule and bell system. During the time that students are not in their concurrent course, students may receive college-readiness instruction or tutoring.

Student Policies

- The Partner will allow students to comply with all CU student policies during CU class time.
- The Partner agrees to support the instructor and the student through standards set by CU, as outlined in the CU Student Handbook/Code of Conduct and CU Faculty Handbook.
- Concurrent students are required to use their CU email address for digital communication within and regarding their CU course.
- When concurrent students withdraw from a CU course offered at a Partner site, they must be removed from the CU class within two (2) class days and moved to another class or to the school's alternative education program for that course.
- If student discipline issues arise, the Partner-site faculty will adhere to standard policies found in the CU Student Handbook and specific classroom management procedures in the course syllabus. Teacher-faculty should also apprise their site head principal of disciplinary issues.

GRIEVANCE PROCEDURE FOR FILING, PROCESSING AND RESOLVING COMPLAINTS ALLEGING DISCRIMINATION, Cont.

The Coordinator conducts a complete and impartial investigation within 10 days of receiving the complaint, to the extent reasonably possible, which shall include but not be limited to, interviewing the Grievant and any witnesses, review of documents and interviewing the Respondent. The Coordinator will ask the Respondent to (a) confirm or deny facts; (b) indicate acceptance or rejection of the Grievant's requested action; and (c) outline alternatives.

As to complaints of discrimination by students, parents or guardians and school employees, the Coordinator will disclose the complaint, the identity of the Grievant and information regarding the person who allegedly committed the discriminatory act only to the extent necessary to fully investigate the complaint and only when the disclosure is required or permitted by law. If a Grievant wishes to remain anonymous, the Coordinator will advise him or her that such confidentiality may limit the District's ability to fully respond to the complaint. If a Grievant asks to remain anonymous, the Coordinator will still proceed with the investigation.

Within five days after completing the investigation, the applicable Coordinator will issue a written decision to the Grievant and Respondent.

If the Grievant or Respondent is not satisfied with the decision, he or she must notify the applicable Coordinator, in writing, within five days and request an appeal to the Superintendent. The written appeal shall contain a specific statement explaining the basis for the appeal. If the Superintendent is also the Coordinator, then the appeal shall proceed directly to the Board of Education.

Within five days after receiving the appeal request, the applicable Coordinator will refer the matter to the Superintendent for a hearing. If the Superintendent is the person alleged to have committed the discriminatory act(s), then a different decision maker will be appointed to maintain impartiality. The Coordinator will schedule the hearing with the Grievant, the Respondent and the Superintendent. The hearing will be conducted within 10 days after the Coordinator refers the matter to the Superintendent for a hearing.

At the hearing, the Superintendent will review the information collected through the investigation and may ask for additional oral or written evidence from the parties and any other individual he or she deems relevant. The applicable Coordinator will make arrangements to audiotape any oral evidence presented. In circumstances involving allegations of sexual harassment, the Coordinator may determine that it is appropriate and reasonable to separate the individual who is allegedly being sexually harassed from the alleged harasser in the hearing.

Within five days after completing the investigation, the Superintendent will issue a written decision to the Grievant and Respondent.

If the Grievant or Respondent is not happy with the decision, he or she must notify the Superintendent, in writing, and request an appeal to the Board of Education. The written appeal shall contain a specific statement explaining the basis of the appeal.

GRIEVANCE PROCEDURE FOR FILING, PROCESSING AND RESOLVING COMPLAINTS ALLEGING DISCRIMINATION, Cont.

The Superintendent will notify the Board of Education, in writing, within five days after receiving the appeal. The clerk will place the appeal on a board agenda within 30 days from the date of notification to the Board of Education.

The Board will act as an appellate body by reviewing the decisions and the oral and written evidence presented below and making a decision. At the board meeting, the Board may ask for oral or written evidence from the parties and any other individual it deems relevant. The clerk will make arrangements to audiotape any oral evidence presented. Within five days of the meeting, the Board will issue a final decision in writing to all parties involved.

General Provisions

Extension of time: Any time limits set by these procedures may be extended by mutual consent of the parties involved. The total number of days from the date the complaint is filed until the Board of Education issues a final decision, shall be no more than 120 days.

Access to Regulations: Upon request, the Coordinator shall provide copies of any regulations prohibiting discrimination on the basis of race, color, national origin, religion, sex, age or disability.

Confidentiality of Records: Complaint records will remain confidential, to the extent allowed by law, unless permission is given by the parties involved to release such information. All complaint records will be kept separate from any other records of the District. No complaint record shall be entered in any personnel file unless adverse employment action is taken against an employee. Complaint records shall be maintained on file for three years after complaint resolution.

Representation: The Grievant and the Respondent may have a representative assist them through the grievance process and accompany them to any hearing.

Retaliation: The District prohibits retaliation, intimidation, threats, or coercion of any person for opposing discrimination or for participating in the District's discrimination complaint process or making a complaint, testifying, assisting, appealing, or participating in any other discrimination complaint proceeding or hearing. The District will take steps to prevent the alleged perpetrator or anyone else at the District from retaliating against the alleged victim or any person who acts to oppose discrimination or participates in the complaint process. These steps include notifying students and employees that they are protected from retaliation, making sure that victims know how to report future problems and making follow-up inquiries to see if there have been any new incidents. If retaliation occurs, the District will take strong responsive action.

Basis of Decision: At each step in the grievance procedure, the decision maker will take or recommend the taking of appropriate measures based on the facts, as revealed by the investigation and hearing, taken as a whole, and the totality of the circumstances, such as the nature, extent, context and gravity of the activities or incidents.

Notice: The District will notify all students, parents or guardians, members of the public and employees of the name, office and telephone number of each Coordinator and this grievance procedure in writing via school publications and/or postings at each school site to which employees or students are assigned.

Empowering Oklahomans with Disabilities

OKLAHOMA STATE DEPARTMENT OF EDUCATION
CHAMPION EXCELLENCE

The Workforce Innovation and Opportunity Act (WIOA) requires the Department of Rehabilitation Services (DRS) to collect and report Measurable Skill Gains for Youth.

In order to document these Measurable Skill Gains, Vocational Rehabilitation / Services to the Blind and Visually Impaired (VR/SBVI) counselors need to obtain copies of students' secondary transcripts with parent consent (if student is under 18) or student consent (if student is over 18, unless parent has guardianship).

The Oklahoma State Department of Education Special Education Services (OSDE-SES) and DRS are requesting that the Local Education Authority (LEAs) collaborate with their local VR/SBVI counselors to establish procedures to assist VR/SBVI counselors with obtaining students' secondary transcripts and/or report cards in order for them to meet compliance under the WIOA.

Here are some examples of effective procedures that VR/SBVI counselors have shared:

1. The VR/SBVI counselor obtains DRS signed releases from parents (see example) and provides the school with copies of them. Then the VR/SBVI counselor gets the students' transcripts from the counselor's office or special education teacher.
2. The VR/SBVI counselor obtains DRS signed releases from parents and provides the school with copies of them. The special education teacher sends students' transcripts to the VR/SBVI counselor at the end of each semester with the School Work Study (SWS) time sheets.
3. The VR/SBVI counselor sends out the following letter to students each semester and encloses a self-addressed stamped envelope:

> Dear [Client},
>
> The first (second) semester of this school year is almost over and I hope it has been a good semester for you! I am required to document in your vocational rehabilitation file the close of this semester. To do so, I need you to provide me with this semester's grades. Please return either a high school transcript for (insert the fall or spring semester and the year) or report card in the self-addressed stamped envelope that I have enclosed with this letter or email me at (insert counselor's email address). Please call me if you have any questions at all! Thank you so much!

Thanks for your support as we work to improve outcomes for students with disabilities.

STATE OF OKLAHOMA
DEPARTMENT OF REHABILITATION SERVICES
TRANSITION SCHOOL-TO-WORK: WORK STUDY

This agreement, consisting of fourteen (14) pages (the "Contract"), is hereby made between the Oklahoma Department of Rehabilitation Services ("DRS") and

Lawton Public Schools
P.O. Box 1009
Lawton OK 73502-1009

("Contractor"), and constitutes the entire agreement between the DRS and the Contractor, and no other representations are given or should be implied from written or oral agreements or negotiations that preceded the Contract.

RECITALS

WHEREAS, the Oklahoma Department of Rehabilitation Services is authorized to make and enter into all contracts necessary or incidental to the performance of its duties, and may purchase or lease equipment, furniture, materials and supplies, and incur such other expenses as may be necessary to maintain and operate the Department, 74 O.S. § 166.1.C; and

WHEREAS, the Individuals with Disabilities Education Act (IDEA) and the Rehabilitation Act both provide for transition services for children with disabilities to facilitate the child's movement from school to post-school activities including employment, 20 U.S.C. § 1401(34) and 29 U.S.C. § 721(a)(11)(D); and

WHEREAS, the Oklahoma Department of Rehabilitation Services is authorized by rules promulgated by the Oklahoma Commission for Rehabilitation Services, O.A.C. 612: 10-7-244 – 249, and by the State Plan for Vocational Rehabilitation Services to implement the Transition from School-to-Work Program; and

WHEREAS, in the School-to-Work program, there are many services needed. Some of these services are provided by the school under the IEP and some are provided by the Oklahoma Department of Rehabilitation Services under the IPE. Other services may be provided by the parents, Career Tech, and others. A major component of the Transition School-to-Work program is work-readiness training and work experience. The work experience can be provided through Work Adjustment Training or the three types of Work Study Programs.

NOW THEREFORE, the parties agree as follows:

I. Contract Period

The Contract is effective from the latest date of signature of both parties or July 1, 2020, whichever is the latter, through June 30, 2021. The Contract may be renewed for two additional one-year periods upon written agreement of the DRS and the Contractor.

II. Contract Services

A. Work Study Program

There are two types of Work Study through DRS:

1. School Work Study (SWS) allows students with disabilities to **work on the school campus**. The students are supervised or closely monitored by school personnel, and the school pays the students a wage with the **DRS making reimbursement to the school** for that payment. The **school maintains liability** for the students while working on campus.

2. Work Site Learning allows students with disabilities to **work in the community**. The students are supervised or closely monitored by school personnel, and the school pays the students a wage with the **DRS making reimbursement to the school** for that payment. The **school maintains liability** for the students while working off campus.

Participating students may work up to **15 hours per week during the school year** (i.e., during the day, evenings, weekends, or holidays). In each of the cases described above, the students must be given school credit for their participation during the school day, and the school staff and the DRS counselor will provide important guidance and instructional help around the work experience. If the student works after school hours, in the evening or on weekends, the school may also choose to give the student school credit and is encouraged to do so to support earning elective credits. The school will provide staff to work with the DRS counselor in the area of transition. The school will have at least one person designated to serve as the "Teacher/Transition Coordinator". Paraprofessionals could serve as Transition Coordinator or could also be assigned to help with the process and documentation. The Contractor agrees to provide designated staff time for performing the needed duties related to transition. The Contractor agrees to fully inform the staff responsible for carrying out the duties set forth in the Contract. This includes providing all necessary staff with a copy of the Contract.

B. Other Work Opportunities

This is not a Work Study through DRS:

1. Employer Work Study allows students with disabilities employment experience in **part-time jobs in the community** with the employers paying the wages/salary(ies). In this instance, the students are employees of the community employers, **employers maintain liability**, and **the DRS does not reimburse the employers for the wages/salary(ies)**.

If a student is utilizing the Employer Work Study, the two Work Study options through DRS should not be utilized.

Students eligible to participate include those DRS transition students:

- with documented disabilities (includes IEP, 504 Plan, or other documents), who:
  - have been determined eligible for DRS services; or
  - are on a trial work plan as determined by the DRS counselor;
- with an approved case;
- with an individualized plan for employment (IPE) in place;
- with SWS as a line of service on the IPE;
- who are at least 16 years of age; and
- who are attending high school.

DRS clients preauthorized to participate in Work Study may do so for **up to 24 total months**, as approved on an individual basis by the DRS counselor. The months do not need to be consecutive. Based on individual needs and barriers due to disability, there may be exceptions where the client requires more time to make additional progress. In that instance, the DRS counselor may authorize additional time. Summer months spent in Work Study count in the total 24 months. Transportation, scheduling, administrative or family convenience, or family/individual income needs are not acceptable reasons to extend Work Study beyond 24 months.

Students wishing to continue working 15 hours per week through the summer as part of Transition School-To-Work: Work Study may do so if the school's current contract, which expires June 30, is renewed for the following fiscal year that begins July 1st.

The school is required to continue supervising, monitoring, and reporting on students working in the school or in the community during the summer.

Paid work positions must reflect **real work/jobs** and include tasks that would normally be a function of that position. The students must be learning skills that will transfer to competitive, integrated employment in the community. Classroom instructional time does not count as work. The Contractor must ensure that students have access to a wide variety of work/job types and must also ensure the Contractor has enough work to cover the number of students intended to participate in the program. Examples of work/jobs within the school include, but are not limited to, the following.

- *Custodial/bus barn:* learning simple maintenance of school vehicles, detailing school vehicles.
- *Manager of sports teams:* scheduling, scorekeeping, ordering, inventory maintenance, hauling, moving.
- *Teacher's Aid/Assistant:* reading to groups of or individual children, cleaning, organizing, grading, designing bulletin boards.

- *Office Assistant:* Making ID badges, taking photos for badges, using a camera, laminating, answering phones, taking phone messages, greeting visitors and directing to locations, data entry, filing.
- *Information Technology Assistant:* use compressed air to clean computers and keyboards, replace batteries, replace mice, clean monitors, conduct virus scans, clean out old hard drives, organizing, inventory maintenance, stocking, ordering.

The same guidelines should be adhered to when selecting community placements for paid work experiences.
The final 9 months of their Work Study must be outside the school/district and **in the community** (unless approved by the DRS counselor in special circumstances).

Students may not work in their family owned business unless approved by the DRS Counselor. This includes farms and other businesses.

C. Contractor's Obligations

The designated Teacher/Transition Coordinator(s) will:

1. be knowledgeable about the contents and requirements of the Contract;
2. obtain written preauthorization from the DRS counselor before initiating services for students (i.e., not starting the student to work before DRS has approved in writing);
3. serve as a member of the IEP team and make decisions for job placement as a team;
4. provide information regarding the program to school personnel, students, and parents;
5. provide job readiness instruction and assistance to the students in the program prior to starting their jobs (e.g., helping them prepare for interviewing for the potential position) through transition services or five core Pre-Employment Transition Services;
    a. Job Exploration Counseling;
    b. Work-based Learning Experiences
    c. Counseling on opportunities for enrollment in postsecondary education (college, CareerTech, trade education, professional certification, etc.);
    d. Workplace Readiness, including social and independent living skills;
    e. Self-advocacy, including peer mentoring;
6. assist with job placement and regular follow-up on the students' progress;
7. complete the DRS Student Case Sheet for each client prior to participation in DRS services to ensure eligibility and other essential dates of the case;
8. maintain an updated copy of the DRS Student Case Sheet in each client's folder;
9. work with the DRS Counselor to maintain a list of all authorized participating students, the place of employment, job title, and tasks learned or practiced, at least one time per semester or updated as new students join or jobs/job duties change;
10. assist with the coordination of the individualized education program (IEP) and the individualized plan for employment (IPE) to reflect the SWS services provided by DRS, including, but not limited to, present levels of performance, services, and annual education/training or employment goals on the IEP;
11. document such transition services or Pre-Employment transition services provided and completed by participating students;

12. provide such documentation to DRS counselor at the end of each semester;
13. submit by the 15th of the following month (or whenever payroll is run by the school for their payment cycle), at the same time, monthly time sheets, progress reports, and proof of payment to students for reimbursement of the wages paid for students participating in School Work Study or Work Site Learning; and
14. ensure the electronic copy of the contract is routed to the appropriate person for signature and returned electronically to DRS.

If claiming mileage reimbursement for teacher coordinator travel to/from job sites of DRS clients, submit monthly itineraries and travel claims which are each signed and verified by the school district superintendent.

D. DRS's Obligations

The DRS Counselor will:

1. provide Teacher/Transition Coordinators written preauthorization prior to initiation of services for each student approved to work;
2. accept referrals, process applications, and assist with the coordination of the IEP and the IPE and offer input to the IEP employment goals;
3. serve as a member of the IEP team and make decisions for job placement as a team;
4. organize his or her work schedule in order to be available to confer with the school personnel, the students in the program, parents, employers and other partners in the process;
5. arrange and provide services as needed, including vocational evaluations, and counseling and guidance;
6. provide upon request Teacher/Transition Coordinators blank copies of the DRS Student Case Sheet;
7. provide Teacher/Transition Coordinators updated information (as available) as requested;
8. assist with job placement and regular follow-up on the students' progress;
9. work with the school staff/teachers to maintain a list of all authorized participating students, the place of employment, job title, and tasks learned or practiced, at least one time per semester or updated as new students join or jobs/job duties change;
10. regularly monitor students at job sites;
11. ensure the school/district is submitting monthly time sheets, progress reports, proof of payment to students, and documentation of transition services or Pre-Employment Transition Services (as completed);
12. provide reimbursement for the wages of students participating in School Work Study and Work Site Learning; and
13. provide mileage reimbursement at the state rate for teacher coordinator travel to/from job sites of DRS clients participating in School Work Study and Work Site Learning.

E. Student Wage

1. The DRS and the Contractor agree that students who are employed by a school as part of a training program are not independent contractors, but employees of the school. **The Contractor agrees to deduct state and federal income tax from wages paid to the student.** The Contractor is responsible for costs incurred for workman's compensation or other expenses not included in the minimum wage reimbursed by the DRS, as part of its contribution toward providing coordinated transition services outlined in the Individuals with Disabilities Education Act (IDEA) and the Workforce Innovation and Opportunity Act (WIOA).

2. The DRS and the Contractor further agree that **IRS regulations provide that services performed by a student, who is employed by the school in which the student is enrolled, are not considered "employment" for purposes of FICA (Federal Insurance Contribution Act—Social Security and Medicare) and FUTA (Federal Unemployment Tax Act—employment tax)** payroll deductions. 26 C.F.R. § 31.3121(b)(10)-2(a)(1) and § 31.3306(c)(10)-2(b). The rules provide that the services performed by the student must be incident to and for the purposes of pursuing a course of study at the school. Section 31.3121(b)(10)-2(c). **The DRS and the Contractor agree that students who are employed by a school as part of a training program are not subject to FICA or FUTA.** The employee/student must be enrolled and regularly attending classes at the school at which the employee is employed to have the status of a student within the meaning of the regulations. This exemption does not apply if the student is working for a private employer through Employer Work Study, rather than the school, as part of an internship program. *The student must be employed by the school in order for the exception to apply.* The Oklahoma Employment Security Act provides that employment as part of a work-training program is exempt from the definition of "employment" and, therefore, not subject to the Act and, therefore, should not be documented as wages paid in quarterly submissions to the OESC. 40 O.S. §1-210 (15)(I). **At the end of the calendar year, students are to be provided with a W-2, Wage and Tax Statement, and <u>not</u> a 1099-Misc Form for Independent Contractors.**

3. For the school to be reimbursed for the student's wage, the student must have a trial work plan and/or an Individualized Plan of Employment (IPE) with the Oklahoma Department of Rehabilitation Services, and be participating in School Work Study or Work Site Learning. **Additionally, the school must have received in writing preauthorization for students to begin working before payments will be issued.**

4. The maximum number of hours of training per student reimbursable by the DRS cannot exceed 15 hours per week during the school year. The number of hours worked may exceed 15 for summer work only, when pre-approved by the DRS counselor; however, the DRS will reimburse 100% of the wages for up to 20 hours per week for wages paid by the school. Students may begin working up to 20 hours per week beginning with the first day of summer break; however, upon the first day back to school, the students must go back to working only up to 15 hours per week. If students intend on working more than the specified 15 hours per

week in the summer, any hours over the 15 and up to 20 per week must be preapproved by the DRS Counselor. All Child Labor Laws apply and must be adhered to.

https://www.dol.gov/general/topic/youthlabor

5. Students who are completing high school at the end of the school year and who are participating in services through the Contract must cease work upon their last day of school/graduation. They may not continue to work through School Work Study or Work Site Learning beyond their last day of high school.

III. Compensation

A. Contract Amount

The DRS shall reimburse the Contractor as follows:

- School Months – $7.25 an hour, which is the current federal minimum wage. EXEMPT from FICA and FUTA, thus should not be taken out of students check.
- Summer Months – $7.25 an hour, which is the current federal minimum wage, plus FICA and FUTA, as summer months are NOT exempt due to the student not being enrolled at least half-time in school.

Payment will be made upon receipt of properly completed and approved invoices/pay stubs, time sheets and progress reports documenting the provision of services, and/or a proper claim for reimbursement of Contractor-paid travel expenses pursuant to the contract for services. By law the DRS cannot pay in advance. Neither the Contractor nor any other parties may rely upon any amount set by the DRS in the Contract, or otherwise, as a guaranty, warranty, or any other promise of receipt or payment of that amount, except for those goods and/or services provided to and accepted by the DRS pursuant to the Contract. The DRS will cancel the Contract if procedures are not followed (e.g., putting students to work before authorized, inappropriate job placements, delayed billing, not submitting proper documentation as outlined in the contract). If a settlement agreement must be reached between the Contractor and the DRS, the Contractor will receive only 50% of the funds for which it is seeking reimbursement.

The Oklahoma State Constitution, Article 10, Section 23 states, "Balanced Budget - Procedures. The state shall never create or authorize the creation of any debt or obligation, or fund or pay any deficit, against the state, or any department, institution or agency thereof, regardless of its form or the source of money from which it is to be paid, except as may be provided in this section and in Sections 24 and 25 of Article X of the Constitution of the State of Oklahoma."

An express or written contract is a document evidencing, among other things, the mutual consent of the contracting parties. The written document becomes effective when the parties have signified their mutual consent by the act of signing it. The act of signing occurs when it occurs and applies only to events in the future.

To ensure you stay within the law and that you receive full compensation for services provided, please wait for official written documentation from your DRS counselors as to when a service may actually begin for an approved DRS client. The DRS CAN NOT backdate in order to pay for services for any youth with disabilities.

According to 70 O.S. § 5-142 school districts must conduct national criminal record background searches and fingerprinting on prospective employees. Therefore, the DRS will reimburse the school district up to $45.00 per client who:

* Is going to participate in School Work Study or Work Site Learning;
* Is at least 18 years of age; and
* Who has not previously had a criminal background check completed by the school district or any other school district in Oklahoma.

This reimbursement will occur upon request and submission of properly completed documentation to the DRS counselor. If the Contractor chooses to request the expedited background check ($58.00) from the Oklahoma State Department of Education, the Contractor will be responsible for any additional fees beyond the $45.00.

B. Payment

The State of Oklahoma has forty-five (45) days from receipt of a proper invoice, timesheets and progress reports documenting the provision of services, and/or a proper claim for reimbursement of Contractor-paid travel expenses pursuant to the contract for services to make payment to the Contractor. Invoices, time sheets and progress reports shall be sent to the DRS counselor who authorized services for each DRS client. **DRS cannot reimburse wages for work study hours that are not preapproved in writing by the DRS counselor.**

The DRS counselor's name, address, and telephone number are shown on each DRS client's Authorization for Purchase. If the State of Oklahoma fails to make payment within the forty-five (45) days, the Contractor is eligible to receive interest on the unpaid balance due per State of Oklahoma Statutes. The Contractor is responsible for claiming the interest.

All students who are placed in the Transition Work Study program must be active VR/VS clients and have a trial work plan and/or an IPE in place in order for the school/district to be reimbursed for wages paid through School Work Study or Work Site Learning, or for the student to participate in Employer Work Study.

C. Lapse Of Invoices/Claims

Proper invoices documenting the provision of services, and/or proper claims for reimbursement of Contractor-paid travel expenses pursuant to the contract for services shall be submitted within ninety (90) calendar days of the provision of those services, and/or incurrence of those travel expenses. Supporting encumbrances may be cancelled upon a lapse of six (6) months from the actual provision of services, and/or incurrence of travel expenses pursuant to the contract for services, unless specified otherwise in the Contract.

IV. Standard Terms

A. Equal Opportunity/Non-Discrimination

(2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

C. Debarment And Suspension

In accordance with Presidential Executive Orders 12549 and 12689, the Contractor certifies that neither it nor its principals are presently debarred, suspended or otherwise disqualified for participation in federal assistance programs.

D. Drug-Free Workplace

The Contractor certifies compliance in providing or continuing to provide a drug-free workplace in accordance with the Drug-Free Workplace Act of 1988.

E. Modification

The Contract may only be modified by mutual consent of the parties in writing.

F. Cancellation

1. With Cause: In the event the Contractor fails to meet the terms and conditions of the Contract or fails to provide services in accordance with the provisions of the Contract, the DRS may upon written notice of default transmitted via Certified Mail to Contractor, cancel the Contract effective upon receipt of notice or at 5:00 PM on the fifth calendar day from the date DRS mailed the notice, whichever occurs first. Such cancellation shall not be an exclusive remedy, but shall be in addition to any other rights and remedies provided for by law. In the event a Notice of Cancellation is issued, the Contractor shall have the right to request a review of such decision as provided by the rules and regulations promulgated by the State of Oklahoma, Office of Management and Enterprise Services.

2. Without Cause: It is further agreed that the Contract may be canceled by either party by providing thirty (30) days prior written notice.

G. Access To And Retention Of Records

The Contractor shall maintain adequate and separate accounting and fiscal records and account for all funds provided by any source to pay the cost of the Contract. Authorized personnel of the U.S. Department of Education, or other pertinent federal agencies, and authorized personnel of the Oklahoma Department of Rehabilitation Services, State Auditor and Inspector, and other appropriate state entities shall have the right of access to any books, documents, papers, or other records of contract which are pertinent to the performance or payment of the Contract in order to audit, examine, make excerpts, and/or transcripts. The Contractor shall be required to maintain all records for three (3) years after the DRS makes final payment and all other pending matters are closed.

H. Subcontracting

The services to be performed under the Contract shall not be subcontracted, in whole or in part, to any other person or entity without written approval by the DRS. The terms of the Contract, and such additional terms as the DRS may require, shall be included in any subcontract. Approval of the subcontract shall not relieve the Contractor of any responsibility for performing the Contract.

I. Compliance With State And Federal Laws

The Contractor shall comply with all applicable state and federal laws, rules and regulations relevant to the performance of the Contract. Compliance shall be the responsibility of the Contractor, without reliance on or direction by the DRS.

J. Travel

The travel expenses to be incurred by the Contractor pursuant to the Contract shall be included in the total amount of the contract award. The DRS will only pay travel expenses (including per diem) specified in and charged against the total amount of the contract award. In addition, the DRS will not reimburse travel expenses in excess of the rate established by the Oklahoma State Travel Reimbursement Act, 74 O.S. § 500.1-37. The Contractor shall be responsible for all travel arrangements, and provide supporting documentation for reimbursement.

K. Client Confidentiality

The Contractor assures compliance with DRS requirements pertaining to the protection, use, and release of personal information. II. Contract Services

A. Contractor's Obligations

1. The Contractor agrees to submit a proposal initially to start a program or as requested by DRS staff. A proposal should include a description of the referral process, staff qualifications, admission criteria, individualized assessment tools, individualized training plan forms, curriculum, progress assessment and reporting methods and tools, a plan for post-training services, and information about facilities and equipment to be utilized. Upon approval, a contract will be issued to the Contractor. **The Transition Work Adjustment Training program is designed to prepare high school age youth with the most significant disabilities or equally significant barriers for competitive integrated employment in the community by developing important work habits, attitudes and personal and social adjustment skills.** Services such as these are made possible by the Workforce Innovation and Opportunity Act (WIOA) of 2014.

2. DRS clients preauthorized to participate in WAT may do so for up to 18 consecutive months, as approved on an individual basis by the DRS counselor. If the client requires more time to make additional progress, the DRS counselor may authorize additional time. Summer months spent in WAT count in the total consecutive 18 months if provided. **The Contractor agrees to fully inform the staff responsible for carrying out the duties set forth in the Contract. This includes providing all necessary staff with a copy of the Contract and pertinent documents.**

Students eligible to participate include those DRS transition students:

3. There are rare cases where students NOT on an IPE may participate in WAT under a Trial Work Plan, as approved by the DRS counselor. In either case, no services may begin without prior written authorization from DRS.

4. Students who are completing high school at the end of the school year and who are participating in services through the Contract must cease participation upon

their last day of school/graduation. They may not continue to participate in WAT

beyond their last day of high school (unless in rare cases and only with DRS Counselor approval).

The Contractor will assist each client in developing a realistic vocational goal upon completion of one school year (i.e., 9 months) in the work adjustment training center program. This will include working with clients to identify strengths, interests, abilities, challenges, job matches and mismatches, and researching alternative jobs within various career fields. This vocational goal shall be shared with the DRS counselor upon development with the intent of aligning this goal with the IPE goal and jointly planning activities to reach the goal. The Contractor will also assist each DRS client with developing a transportation plan for employment upon completion of services (e.g., city bus, call-a-ride, taxi, walking, carpooling, parent driving, driving self, riding a bicycle, Uber). III. Compensation

A. Contract Amount

In consideration of the satisfactory performance of said services, the DRS agrees to pay the Contractor as per the amounts set forth below.

1. The DRS will pay a fixed rate to the Contractor up to $375.00 per month for half day (3 hour) training periods, $250.00 per month for 2 hour per day training periods, or $125.00 per month for 1 hour per day training periods per individual client. The Contractor will be paid at the full amount for clients who participate in trainings for at least 61% of school days in each month. A school day is defined as a day in which school is in session and students are expected to be in attendance. Snow days do not count as school days. Participation of 60% or less must be prorated accordingly. For example, if a student was present 12 out of the 20 possible school days in a month (i.e., 60%) and was in the program daily for at least 2 hours (i.e., $250), the Contractor would bill the DRS for $150.00 (i.e., 60% of $250). A school month begins effective the first day the student is authorized to attend. For example, if school starts August 1, but the student is not authorized to attend until August 15, the school days that month available to that student begin on August 15.
2. For all school months containing fewer than 10 school days, the DRS will pay to the Contractor on a prorated daily rate per individual client. The daily rates to be utilized are as follows.

    - Daily rate for clients participating for 3 hours at $375.00 per month-- $18.75 per day.
    - Daily rate for clients participating for 2 hours at $250.00 per month-- $12.50 per day.
    - Daily rate for clients participating for 1 hour at $125.00 per month-- $6.25 per day.

3. For example, if a student was present 9 out of the 9 school days for the month of December (100% of the days in the short month) and was in the program daily for at least 3 hours (which would be at the $375.00 per month amount), the Contractor would bill the DRS at a daily rate of $18.75 for each day (i.e., $168.75, which is $18.75 times 9 school days).
4. This daily rate is to account for the months in which a school incurs a long holiday or significant break of any kind in which the students would not be attending school the typical number of days in a month (i.e., an average of 20 school days), and to account for schools that go year-round.
5. A student is considered in attendance for the day if the student is present at least 50% of the time that day that they are designated to be in Work Adjustment Training. For example, if a student is enrolled in Work Adjustment Training for 3 hours per day, and they are present in the program for at least 1 ½ hours of the program that day, they are considered in attendance. If they are present less than that amount of time due to illness or other reason, they are considered not

in attendance. If they are enrolled in 2 hours, they would need to be present for at least 1 hour that day, and for 1 hour of enrollment, they would need to be present for at least a half an hour that day to be counted in attendance. Billing invoices must be adjusted if a student averages less time during the month than which he or she was originally authorized (e.g., a student who is authorized 3 hours a day who really ends up averaging about 2 hours a day over the month shall only be billed at 2 hours that month).

6. Time in WAT begins when instruction or employment readiness/practice begins and ends when said instruction/readiness ends. Breaks are not allowable billed time for DRS WAT programs. Travel time to get to the WAT facility does not count toward billable time.
7. There are no "free/excused" absences that may still be billed for by the Contractor. Daily student attendance must be counted.
8. The School Contractor providing WAT for its students and the Community Rehabilitation Provider (CRP) providing WAT services to students are responsible for providing transportation for DRS transition clients to and from community employment activities (unless other arrangements are made between the school and CRP) and may not seek reimbursement from the DRS for travel expenses. Schools are responsible for transporting their students to and from the CRP who is providing the WAT program for their students.
9. If an individual does not participate in training during any given month, payment will not be made for that month. Payment will be made upon submission of properly completed and approved progress reports and time sheets documenting services. By law the DRS cannot pay in advance. Neither the Contractor nor any other parties may rely upon any amount set by the DRS in the Contract, or otherwise, as a guaranty, warranty, or any other promise of receipt or payment of that amount, except for those goods and/or services provided and accepted by the DRS pursuant to the Contract.
10. Contractor may use funds to develop, enhance, and implement the WAT program. All funds paid to Contractor by DRS must be put back into the program and used for implementing the program. Examples of ways in which funds may be spent include, but are not limited to:

    a. WAT staff salaries and compensation package;
    b. facility and maintenance costs;
    c. substitutes to cover staff when at trainings;
    d. training costs for WAT staff to attend the Annual Oklahoma Transition Institute (OTI), job coach training, and other training relevant to fulfilling the requirements of the WAT contract (and may include registration fees, hotel, per diem, mileage, and parking for WAT staff);
    e. curriculum;
    f. gas for transporting DRS clients to and from community businesses for the required minimum 6 community visits;
    g. WAT vehicle maintenance, repairs, and depreciation;
    h. program materials; and

i. uniforms or protective clothing and equipment required by community business partners.

11. DRS funds shall NOT be used to purchase food without the written permission from the designated DRS contract monitor and solely for the purpose of teaching independent living skills. DRS will only authorize the use of funds for food in situations in which independent living skills are taught to DRS clients, and the clients have a role in planning the menu, preparing shopping lists, budgeting, shopping, preparing and cooking, serving, and cleaning after the skills instruction.
12. Upon request, Contractor will submit to DRS monitor an expenditure report or other proof of purchase/payment for expenditures of DRS funds.

B. Payment

The State of Oklahoma has forty-five (45) days from receipt of a proper invoice documenting the provision of services and/or a proper claim for reimbursement of Contractor-paid travel expenses pursuant to the contract for services, timesheets, and progress reports documenting the provision of services to issue payment to the Contractor. Invoices/claims, time sheets and progress reports shall be sent to the DRS counselor who authorized services for each DRS client. The DRS counselor's name, address, and telephone number are shown on each DRS client's Authorization for Purchase. If the State of Oklahoma fails to make payment within the forty-five (45) days, the Contractor is eligible to receive interest on the unpaid balance due per State of Oklahoma Statutes. The Contractor is responsible for claiming the interest. DRS cannot make payment for services that are not preapproved in writing by the DRS Counselor.

All students who are placed in the Transition Work Adjustment Training program must be active VR/VS clients and have a trial work plan and/or an Individualized Plan of Employment (IPE) in place in order for the training facility to be paid a fixed rate.

C. Lapse Of Invoices/Claims

Proper invoices documenting the provision of services and/or proper claims for reimbursement of Contractor-paid travel expenses pursuant to the contract for services shall be submitted within ninety (90) calendar days of the provision of those services and/or incurrence of those travel expenses. Supporting encumbrances may be cancelled upon a lapse of six (6) months from the actual provision of services and/or incurrence of travel expenses pursuant to the contract for services, unless specified otherwise in the Contract.

IV. Standard Terms

(2) If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal grant or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

cancel the Contract effective upon receipt of notice or at 5:00 PM on the fifth calendar day from the date DRS mailed the notice, whichever occurs first. Such cancellation shall not be an exclusive remedy, but shall be in addition to any other rights and remedies provided for by law. In the event a Notice of Cancellation is issued, the Contractor shall have the right to request a review of such decision as provided by the rules and regulations promulgated by the State of Oklahoma, Office of Management and Enterprise Services.

2. Without Cause: It is further agreed that the Contract may be canceled by either party by providing thirty (30) days prior written notice.

G. Access To And Retention Of Records

Authorized personnel of the U.S. Department of Education, or other pertinent federal agencies, and authorized personnel of the Oklahoma Department of Rehabilitation Services, State Auditor and Inspector, and other appropriate state entities shall have the right of access to any books, documents, papers, or other records of contract which are pertinent to the performance or payment of the Contract in order to audit, examine, make excerpts, and/or transcripts. The Contractor shall be required to maintain all records for three (3) years after the DRS makes final payment and all other pending matters are closed.

H. Subcontracting

The services to be performed under the Contract shall not be subcontracted, in whole or in part, to any other person or entity without written approval by the DRS. The DRS will only pay travel expenses (including per diem) specified in and charged against the total amount of the contract award. In addition, the DRS will not reimburse travel expenses in excess of the rate established by the Oklahoma State Travel Reimbursement Act, 74 O.S. § 500.1-37. The Contractor shall be responsible for all travel arrangements, and provide supporting documentation for reimbursement.

K. Client Confidentiality

The Contractor assures compliance with DRS requirements pertaining to the protection, use, and release of personal information. The Contractor will hold confidential all personal information regarding individuals, including lists of names, addresses, photographs, records of evaluation, and all other records of the DRS client. This information may not be disclosed, directly or indirectly, unless consent is obtained in writing or as otherwise required by law.

L. Unallowable Costs

In the event any audit, audit resolution, review, monitoring, or other oversight results in the determination that the Contractor has expended DRS funds on unallowable costs on this or any previous contract, the Contractor shall reimburse the DRS in full for all such costs on demand. The DRS may, at its sole discretion, deduct and withhold such amounts from subsequent payments to be made to the Contractor under this or other contracts.

The Contractor's fiscal managers and appropriate oversight bodies shall review the auditor's latest external quality control review report prior to the audit being conducted. DRS retains the right to examine the work papers of said auditor.

   The Contractor shall submit two copies of the annual audit report to the Department of Rehabilitation Services - Contracts Unit 3535 N.W. 58th Street, Suite 300, Oklahoma City, Oklahoma 73112, plus a copy of the

management letter, if applicable, and corrective action plan to all audit findings, and the auditor's latest external quality control review report within 120 days of the Contractor's fiscal year end. In the event the Contractor is unable to provide the audit report within the time specified, the Contractor shall submit a written request to the address listed above for an extension citing the reason for delay. DRS reserves the right to suspend payment to the Contractor for costs owed pursuant to this Contract if DRS has not received the prior year audit.

N. Clean Air Act

The Contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 *et seq.* The Contractor agrees to report each violation to DRS and understands and agrees that DRS will, in turn, report each violation as required to assure notification to the appropriate Environmental Protection Agency Regional Office.

O. Employment Relationship

The Contract does not create an employment relationship. Individuals performing services required by the Contract are not considered employees of the State of Oklahoma or the DRS for any purpose, and as such shall not be eligible for benefits accruing to state employees. The Contractor shall comply with all applicable laws regarding workers' compensation insurance.

P. Insurance

If the Contractor is not a self-insured governmental entity, the Contractor is hereby required to carry liability insurance adequate to compensate persons for injury to their person or property occasioned by an act of negligence by the Contractor, its agents or employees. Said policy must provide that the carrier may not cancel or transfer the policy without giving the DRS thirty (30) days written notice prior to the cancellation or transfer. The Contractor shall timely renew the policies to be carried pursuant to this section throughout the term of the Contract, and provide the DRS with evidence of such insurance and renewals upon request.

Q. Punitive Actions

The Contractor understands that payment for services to DRS clients pursuant to the Contract shall be made by the DRS. Accordingly, the Contractor shall not restrict or refuse services under the Contract to DRS clients based on nonpayment by the DRS. No actions shall be taken against the DRS client, including collection actions for any service covered under the Contract, or for any late payment for which the DRS has responsibility. In addition, the Contractor agrees that no punitive actions will be taken against any client of the DRS for late payment of any tuition, fees, books, supplies, etc. for which the DRS has responsibility. This includes, but is not limited to, withholding grades, Pell or other financial aids, or delaying enrollment.

Re: 2020-2021 OSAG Workers' Compensation Insurance Quote

Dear Mr. Hime,

Thank you for helping to make OSAG the largest provider of workers' compensation to public schools in Oklahoma. Your 2020-2021 OSAG renewal quote is as follows:

2020-2021 OSAG Premium ***BEFORE*** Discounts:	$868,000
Financial Relief Benefit for 2020-21:	$127,000
Total 2020-2021 OSAG Workers' Compensation Renewal Premium Minus Awards/Credits:	**$741,000**

Your OSAG policy also contains Employers' Liability Limits of $1,000,000/$1,000,000/$1,000,000

Active membership in the Oklahoma School Assurance Group provides an array of benefits for your district, including continued membership *performance dividend awards*. The following example reflects the ***current and potential*** dividend awards for Lawton School District **if** membership remains active, and district loss records qualify:

2021-2022 Estimated Financial Relief Benefit	*$57,150*
2021-2022 Possible Membership Dividend	*$274,620*
2022-2023 Possible Membership Dividend	$213,970
2023-2024 Possible Membership Dividend	$231,527
Total Possible Future Membership Dividend:	**$777,267**

About the OSAG Proposal:

*OSAG is a group policy, therefore Experience Modification Factors are not applicable for our school district members.

*The Membership Dividend is the maximum amount that may be awarded to an active member as a performance dividend. This figure is based on individual district loss performance.

*All members that renew with OSAG have a *Membership Dividend* associated with active membership. ***In order to receive the Membership Dividend, a member must be active with paid premium for the 2020-2021 policy year.***

CompSource Mutual has declared a $60,000,000 dividend to be paid out to the benefit of policyholders with the potential of OSAG members receiving significant benefits for their membership in OSAG. This dividend would provide OSAG members record benefits and premium savings/reductions for each individual member. School district members would receive award amounts in addition to the Membership Dividend listed above.

RE: LEGAL SERVICES FOR 2020-2021

Dear Mr. Hime:

This letter is intended to establish the terms and conditions of this firm's representation of Lawton Public Schools ("School District"). This agreement must be approved by the Board pursuant to an agenda item at a duly called meeting of the Board.

Legal services rendered by this law firm are on an "as needed" basis and encompass work requested to be performed by the Superintendent or the Board of Education. A schedule of the current billing rates of our shareholders, associates, legal assistants, law clerks and interns is attached. This schedule is subject to change from time to time when the firm implements a general change of rates for its school district clients, or to reflect additional experience or expertise gained by the firm's professional staff. In addition, newly hired professional staff may be added. The billing rates for new professionals will be set based upon their experience. The firm will provide an updated schedule of billing rates upon request at any time.

This firm will provide the School District a monthly statement for legal services rendered which will fully set out what services were provided and how much time was spent in performing them. In addition, you will be provided with a monthly statement of cash advanced on behalf of the School District. This will include funds expended on the School District's behalf for copying, research computer time, travel expenses and the like.

From time to time, it may be possible for an associate of this firm to provide part of the legal services needed by the School District. Since associate time is billed at an hourly rate lower than mine, such may represent a lower expense to the School District. Of course, I will monitor all work performed by associates.

On or about the 15th of each month, the School District will receive an invoice for services rendered the previous month along with a statement of cash advanced. If you have any questions regarding any invoice which you receive, please call it to my attention immediately.

I trust that the above will be to your satisfaction. If this is the case and following approval by the Board, I would ask that the person designated by the Board execute this copy of the letter and return it to me for our file. Another copy with my original signature should be maintained for the School District's file.

This agreement may be terminated at any time without cause by either party upon written notice to the other. This agreement shall be deemed renewed on July 1 of each year unless one of the parties advises the other on or before June 30 that it wishes to withhold ratification and/or to terminate the Agreement.

If you have any questions regarding the above or wish to discuss the terms further, please do not hesitate to contact me.

With kind regards,

Karen L. Long

In the event any portion of this agreement is deemed invalid or unenforceable by a court of law, public policy or statute, such finding shall not affect the validity or enforceability of any other portion of this agreement.

Our rights under this agreement shall be cumulative and our failure to exercise any rights given hereunder shall not operate to forfeit or waive any of said rights and any extension, indulgence or change by us in the method, mode or manner of payment or any of its other rights shall not be construed as a waiver of any of its rights under this agreement.

NOTES

Important Points To Consider: 1) Alliant is a very robust policy that provides broad coverage typically unmatched by other companies and is fully insured with A rated carriers, they are not a pool. They continue to provide full blanket replacement cost coverage (including rooftops) and have no cosmetic damage exclusion. Other larger districts (Jenks, Union, Edmond & Putnum City) are insured with Alliant & OSIG. OSIG is financially strong and insures around 450 schools in Oklahoma. A copy of their financial statement is attached. 2) OSIG's General Liability, Sexual Abuse and School Board Legal Liability coverage does not have an annual aggregate. In the event of multiple large claims in one year, you would not have to worry about exhausting the available policy limits. 3) OSIG's Sexual Abuse coverage is included in the General Liability coverage on an occurrence form. This is preferable since some states are expanding the statute of limitations for sexual misconduct which can affect future claims and exposure to the school significantly. 4) The OSIG School Board Legal Liability coverage is on a claims made form which means that they only cover claims made on or after the policy retroactive date and within the policy term. Should you decide to leave OSIG, we recommend that you strongly consider the purchase of a 2 year extended reporting tail for any claims that may have been incurred, but have not yet been reported to the district. The cost for a 2 year Extended Reporting Period/Tail is $163,078 and is the maximum term offered by OSIG. 5) The OSIG auto liability deductible of $1000 does not apply to bodily injury. It only applies to property damage. 6) The Alliant policy includes Pollution Liability coverage. 7) As requested, the approximate increase in premium to add the new 40M Eisenhower Middle School project upon completion is $58,845/year. However, you will also receive a credit for removing the old EMS building which will help offset the additional premium.

Lawton Public Schools Renewal Summary 2020/2021

Alliant appraised the primary buildings for LPS fall of 2016 at no cost to the district. A complete copy of the appraisals were furnished to LPS. This year Alliant applied a trend factor of .07% for your buildings and a trend factor of 2.04% your business personal property for renewal. As a general rule, the company estimates 15-20% of the building value for contents/business personal property for primary buildings. A few of the Title 1 schools have increased limits above the standard. The Alliant policy includes coverage up to 25M for new additions and course of construction at no additional cost. They also include 50M for increased cost of construction, ordinance or law and demolition, 50M extra expense and money & securities 2.5M. Catastrophic auto physical damage coverage is included in your property policy for the past several years, subject to a $25,000 deductible with no over the road coverage provided. In 2017 the board elected to add primary auto physical damage coverage to OSIG, subject to a $1000 deductible comprehensive and collision and subject to a $100,000 per occurrence limit.

The property deductible remains $25,000 per occurrence for all perils except for wind, hail, flood & earthquake. The wind & hail deductible remains $500,000 per occurrence due to the adverse weather we have experienced in Oklahoma for the past few years. As in previous years, we have included a quote to purchase a wind/hail deductible buyback policy to reduce the deductible from $500,000 to $100,000 per occurrence. Flood coverage is excluded for property in flood zones A&V. LPS has 1 location at 1101 SW 17th that is in flood zone A. However, Alliant does not consider sewer backup within the flood peril, so that particular coverage extends to this location as well.

The total values included for rating are: $556,069,565 for buildings, $118,736,170 for business personal property, $358,791 for contractors equipment, $14,586,715 for EDP & $11,708,839 for the catastrophic auto physical damage coverage and $288,000 catastrophic coverage for the security cameras in your buses, including the older buses that do not have any physical damage coverage. Cameras values are included @ $1800 each and $54,900 of GPS equipment in specified buses @ $450 each. Total insured value $701,802,980. Special Note: As requested by Dr. Tom Thomas, coverage for Taft & Wilson were reduced to a stated value of $500,000 each in preparation for the upcoming sale of the property.

In 2018 LPS added ACTIVE ASSAILANT coverage. This provides coverage for property damage,business interruption/extra expenses & closure of premises. It also includes many additional costs like public relation costs, counseling, costs, medical payments, job retraining, temporary security and relocation costs. The coverage trigger is physical damage to your property or 3 or more persons physically present and injured or mentally affected by the attack. **This year, Alliant is offering an alternate/broader Deadly Weapons coverage form that includes 3rd party liability coverage. In addition, coverage includes "threat" of a deadly weapons attack, a broader definition of deadly weapon and has no minimum number of people injured requirement before coverage is triggered. They have offered a $500,000 limit and alternate $1,000,000 limit for your consideration.**

The Alliant property policy includes coverage through Beazley/Lloyds for basic Cyber liability coverage for a member annual aggregate of $2,000,000. The core program includes a $500,000 limit for privacy notification costs. This limit increases to $1,000,000 when Beazley vendors are used. Subject to a $100,000 retention/deductible. It also includes 1st & 3rd Party coverages including regulatory defense & penalties and website media content liability. Please refer to the Cyber optional quotes enclosed for dedicated limits of coverage specific to LPS. The options are enhanced & excess coverage and are outside of the shared limit with other members written in the Alliant Program. Last year LPS elected to take the 250,000 lives notification in the event of a security breach due to the number of private records stored.

NOTES

Important Points to Consider: *The OSRMT (Oklahoma School Risk Management Trust) has been endorsed by the OSSBA since 2009. They are a pool and purchase reinsurance from companies above a $250,000 self insured retention based upon a 168 hour single occurrence period. Their primary reinsurer for property is Hartford, Lexington & RSUI. The primary insurer for the general liability and auto is GeneralRe(Genesis) and school board legal liability is Lloyds of London. A copy of the OSRMT financial statement is attached and is published on the Oklahoma Insurance Dept website under: www.oid.ok.gov/public-information/interlocals. We would recommend that you review it carefully. The OSRMT currently has less than 100 members in the program in Oklahoma, with the largest being Norman.*
The OSRMT policy is specific coverage tailored to each school district and includes a coinsurance provision on the property. The policy also includes a cosmetic damage exclusion for roofs and it does not provide replacement cost coverage for roofs over 15 years old.
Other differences in the OSRMT program vs. OSIG is the way they insure abuse & molestation. The OSRMT writes the coverage on a claims made form which means that claims are covered for losses that occur on or after the policy retroactive date and are reported within the policy period. If you decide to leave the OSRMT, the maximum term that they offer for an extended reporting period/tail is 2 years for claims that may have been incurred, but have not yet been reported to the company. In addition, they only offer a 1 year extended reporting period/tail for school board legal liability. Both of these extensions are an additional premium charge, quite the same as the quote that we have included for the OSIG 2 year ERP/tail for the School Board Legal Liability coverage. OISG only requires the ERP/tail offer on the SBLL since it is the only coverage written on a claims made coverage form. While the OSRMT quote does include full prior acts for the School Board Legal Liability, we strongly recommend that you consider purchasing the extended reporting period tail due to their exclusion for any wrongful act where any employee knew or could have "reasonably foreseen" that a wrongful act could lead to a claim.
The OSRMT has a $1000 auto liability deductible that applies to both bodily injury and property damage.
The OSRMT program offers a maximum limit of $1,000,000 for cyber. $1,000,000 for law enforcement liability and $500,000 for active assailant coverage. These limits are lower than your current coverage. The active assailant coverage included in the OSRMT quote is comparable to the deadly weapon quote offered by Alliant and includes 3rd party liability coverage.
The General Liability and Sexual Abuse and Molestation coverage has a 2M Aggregate. That is the most they will pay in any policy year. The OSIG policy does not contain an aggregate limitation.
The OSRMT program excludes flood coverage for the following location: 1101 SW 17th. It is in a flood zone and is not covered by Alliant or OSRMT. The maximum limit offered by the OSRMT for money & securities is $250K.Your current limit with Alliant is $2.5M.
As requested the approximate increase in premium to add the Eisenhower Middle School project at 40M upon completion is $90,341/yr, However, you will be given credit when the old EMS building is deleted.

The OSRMT program is scheduled coverage specific to each district so various property had to be scheduled whereas the Alliant APIP policy has a broad definition of property with coverage extended. Please refer to the coverage proposals attached. The OSRMT computes their total insured values different than Alliant. The proposal attached reflects $556,069,565 for buildings (less $110,788 for signs that they schedule under the inland marine) plus $118,736,170 for business personal property and $100,000,000 for increased cost of construction & demolition for a total of $774,694,947. The OSRMT determines the inclusion amount for Increased Cost of Construction and demolition in their rating platform. In addition, they calculate inland marine, EDP/computer and auto values separately. The items listed for inland marine cpverage are at a lower $10,000 deductible. Both programs (Alliant/OSIG and the OSRMT) are dedicated to insuring schools in Oklahoma and offering options to retain competitive rates.Coverage and deductibles vary by program.

NOTES

The premium has decreased $64,000 compared to the 19/20 term. Attached is an updated claim summary by location, as well as the incurred dollar amount by department. As an incentive towards continued improvement,2 years ago your policy was moved into the Participating Dividend Plan.This means that if a dividend is declared & your losses are 40% or less than the premium paid, you could receive a dividend in future years. Good safety equates to a profitable program that yields dividends. As a reminder, for renewal rating purposes OSAG is unable to use the current term claim history since it does not reflect a full 12 month view and there are potential claims that have been incurred but have not yet been reported.

Historically Workers Compensation has been one of the largest insurance expense for your district. Throughout the 19/20 school year the LPS Safety committee has worked with Healthcare Safety Solutions continually improving and implementing loss control. Congratulations to the LPS staff and the LPS Safety Committee for your commitment to a substantially improved safety culture. Your hard work combined with the 2014 Oklahoma Workers Compensation reform helped to cut the Workers Comp expense more than 50% in the past 5 years. 2015-16 the district paid $1,696,382 for Workers Comp and the year prior to that is was $1,791,535. As in the past, OSAG has included the reduction in premium for 2020/21 for ongoing loss control implementation & monitoring with Healthcare Safety Solutions.

We obtained alternate quote indications from 2 companies (Zenith & United Heartland) and neither one could compete with OSAG. Zenith's quote indication was $1.4M & United Heartlands quote indication was between $915,000-$965,000.

ALLIANT Property Quote Proposal

Lawton Board of Education ID #8

2020 – 2021

Alliant Property Insurance Program (APIP)

Presented on June 4, 2020 by:

Robert Shearer
Executive Vice President

Monica Y. Krause
Account Manager

ALLIANT PROPERTY INSURANCE PROGRAM (APIP)

July 1, 2020 – July 1, 2021

EXECUTIVE SUMMARY

Attached please find the renewal summary of the Alliant Property Insurance Program (APIP) for the 2020-2021 period. An overview of the most significant issues concerning this years' renewal are discussed here.

The challenging market conditions that began in 2018 have worsened through the first half of 2020 and are expected to remain very difficult through the remainder of the year. Prior to the market change in 2018, the Property insurance market was in a "soft" cycle with record amounts of capacity entering the market in search of financial return. Historic natural catastrophe losses such as Hurricanes Harvey, Irma and Maria in 2017 and the California Wildfires in 2018 were key drivers of the shift in the market. These catastrophes along with increased attritional losses resulted in an unprofitable commercial insurance industry over the last several years. Lack of profitability resulted in carriers re-evaluating their books and seeking increased pricing while offering reduced terms and conditions. Rate increases were sought for most insureds in 2018 and 2019, but were more severe for insureds that experienced losses or had significant natural catastrophe exposure. This general trend has continued into early 2020; however, the market has recently become even more challenging due to the Coronavirus pandemic. As a result, insureds will continue to realize rate increases over expiring and, in many cases, a reduction in limits. Those insureds that have significant shock loss(es) or persistent attritional losses will experience even larger rate increases. In keeping with the programs' general history; however, we still expect overall rates to, in most cases, remain below that which can be achieved in the open market for similar coverage.

For the 2020/21 renewal, Lexington, Lloyd's and U.S. domestic underwriters will continue to provide coverage for the first $25,000,000 of the program. Excess limits up to $1,000,000,000 will be placed with London, Bermudian, European, and U.S domestic markets with all A.M. Best Rated at least A- VII. Insureds should note several key highlights for this year's renewal:

- Boiler & Machinery cover for participating insureds of the APIP Boiler Program will be maintained with Hartford Steam Boiler (HSB), who will also continue to perform required jurisdictional inspections.
- Cyber (Privacy Liability) Coverage for both 1st and 3rd parties from the Beazley Syndicate at Lloyd's, A.M. Best Rated A XV, (for those eligible insureds) with coverage as outlined on the following proposal will be maintained. Additional excess options are available, if requested. **Please note claims reporting timeframe limitations for this coverage**
- Pollution Coverage for both 1st and 3rd parties from Interstate Fire & Casualty Insurance Company, A.M. Best Rated A+ XV, (for those eligible insureds) with coverage as outlined on the following proposal will be maintained. **Please note claims reporting timeframe limitations for this coverage**
- Vehicles/Contractor's Equipment – please note on the attached proposal whether the vehicle/contractors equipment valuation is Replacement Cost (new) or Actual Cash Value (ACV). If Replacement Cost (new) valuation is needed, the insured must submit a schedule of vehicles or a vehicle valuation reporting form (provided in the pre-renewal packet) and vehicles must be valued at today's Replacement Cost (new). If values are not reported at Replacement Cost (new), the vehicle/contractor's equipment valuation basis will be ACV

Alliant Business Services (ABS) continues to play a significant role not only in providing various types of loss control services, but also in providing appraisal services. For the program, property valuations continue to be a key focus. As a reminder, it is underwriters' intent to have all buildings with a scheduled value of $5,000,000 or more appraised once every seven years. This service is included in the total program cost. Insureds may also choose to have lower valued buildings appraised. The cost to have all, or specific buildings appraised that are valued on an insureds schedule between $25,000 and $5,000,000 will be quoted at the time the request is made.

Please review important Disclosure and Loss Notification information included in your renewal materials. Your review and acknowledgement of these documents are required via your signature, once you authorize a request to bind coverage with your Alliant representative.

The following table depicts key financial statistics relative to last year:

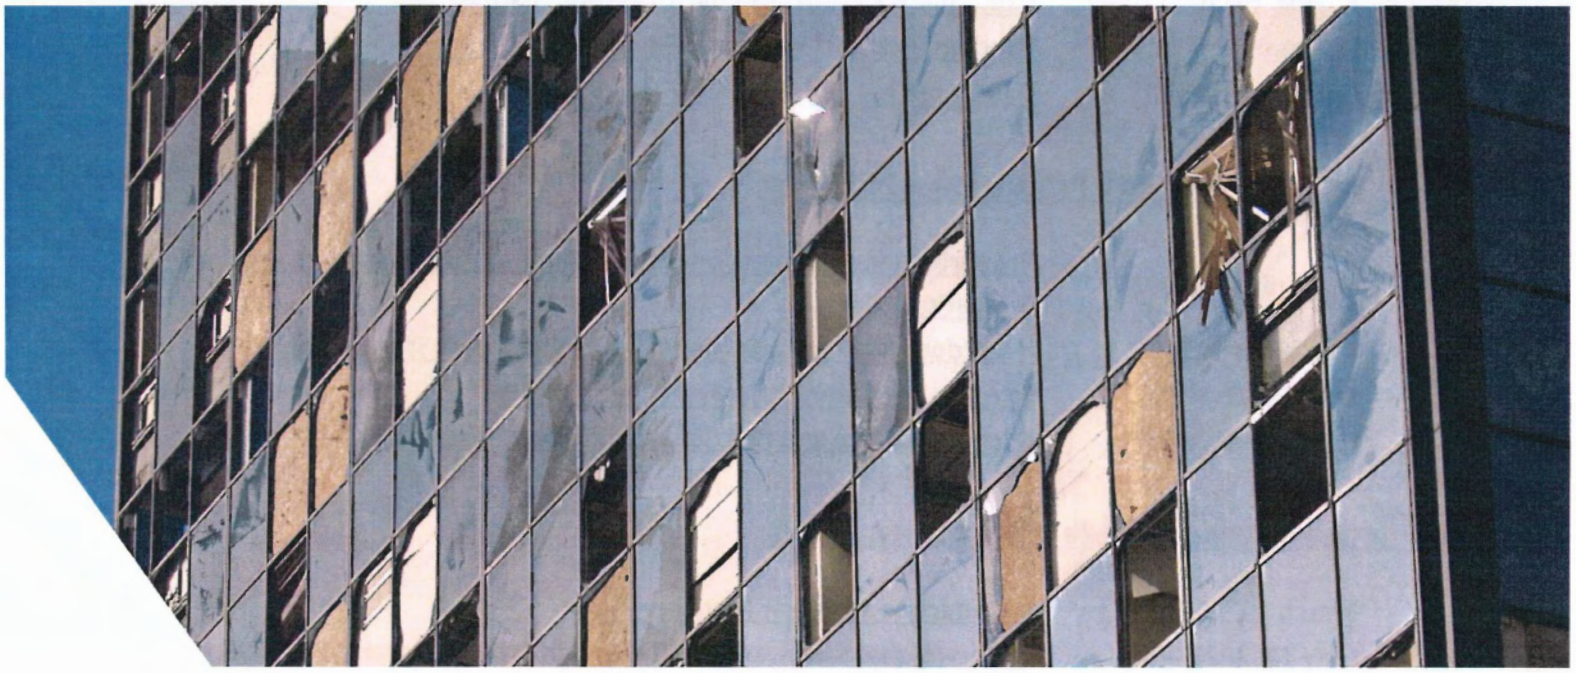
APPRAISAL SERVICES

After a property loss you don't need another unpleasant surprise



Suffering a property loss is bad enough without discovering the property was undervalued and you won't recover enough to replace or restore it. The reason for your dilemma: an inaccurate or poorly documented appraisal of the property that created a false sense of security that you were fully covered for the loss.

APPRAISAL SERVICES

If your assets are undervalued, or the values cannot be defended, the replacement costs paid by your insurance carrier will not adequately cover your losses. To ensure that commercial and public sector organizations do not face this kind of unpleasant surprise, Alliant Appraisal Services provides clients with accurate, fully documented appraisals they can trust.

Each property valuation is conducted by a licensed, experienced real estate appraiser who utilizes valuation techniques that conform to the federal reporting requirements of the Uniform Standards of Professional Appraisal Practice (USPAP). To ensure accuracy, all appraisals are submitted for peer review.

CLIENT BENEFITS

Clients benefit from our appraisals in a variety of ways, including:

- Identifying inaccuracies in value based on occupancy or building characteristics
- Identifying inaccuracies in square footage, which impacts value
- Updating values to include building additions and renovations and to capture buildings not previously recorded
- Flagging demolished, relocated, or out-of-service structures, thereby reducing insured value
- Documenting and updating COPE (Construction, Occupancy, Protection, Exposures) data, which may help to lower premiums
- Collecting additional data as requested, including secondary earthquake characteristics and GPS coordinates

COMMERCIAL APPRAISALS

The depth and diversity of our commercial appraisal knowledge and experience set Alliant Appraisal Services apart from other consultants. Besides our own vast knowledge base, we are able to capitalize on our access to Alliant's vast nationwide appraisal and cost databases to meet specialized appraisal needs for nearly every type of commercial client.

In addition to appraising income-producing real property—including industrial, office, multifamily, and commercial—we have extensive expertise in appraising such unique assets as medical facilities, entertainment venues, hospitality sites, construction equipment, and power generation plants, to name only a few.

PUBLIC ENTITY APPRAISALS

Establishing accurate replacement values for such public sector assets as infrastructure, public facilities, and specialized equipment requires extensive knowledge of both the type of public entity and type of property. Among the unique public assets we appraise are water distribution systems, sewage treatment facilities, power generation plants, medical treatment facilities, school gymnasiums, fire-fighting equipment, communication towers, roadways, bridges, and many others.

REPORT FORMATS

Our appraisal reports can be customized to a client's particular requirements, ranging from a spreadsheet that summarizes key data to standalone reports for each asset. Clients can be confident that our appraisal reports will be consistent and supported by reliable market data.

PUBLIC ENTITY

PROPERTY INSURANCE PROGRAM FOR PUBLIC ENTITIES

The property public entities oversee are incredibly diverse and complex. Because of this, Alliant created the Alliant Property Insurance Program (APIP) to give public entities across the country access to thoughtful insurance solutions and price stability through APIP's group purchasing power. This strength is fueled by APIP's nearly 10,000 covered entities in 45 states and over $500 billion in total insurance values (TIV). **APIP is among the largest property placements worldwide.** Exclusive price controls, innovative program design, and responsive service APIP coverage is significantly broader and typically 10% to 20% less expensive than similar placements offered by competitors. **The program offers per occurrence limits up to $1 billion.** APIP's size gives members competitive pricing and access to large earthquake, flood, and wind limits with a carefully managed spread of risk.

In addition, APIP members can count on getting their claims paid in a timely manner. Highly rated global insurers and reinsurers with minimum AM Best rating of A- category VII provide coverage that includes:

- Per occurrence limits up to $1 billion
- Broad insuring agreements
- Coverage for all property of every description of an insurable nature—both real and personal—of the insured

APIP's strength is fueled by nearly 10,000 covered entities in 45 states and $500 billion in total insurance values (TIV).

- Coverage for property of others in the care, custody, or control of the insured for which the insured is liable wherever located in the United States
- Replacement costs for physical damage, including comprehensive and collision damage as an option for automobiles
- Automatic acquisition of new locations which allows entities to grow without having to wait for underwriting approval
- Blanket fine arts coverage (if scheduled)
- Municipal bond and tax revenue interruption coverage
- Course of construction coverage including delay in start-up
- Property appraisals for all real property over $5 million
- Boiler and machinery coverage
- Access to Alliant's proprietary OASYS-Net software system, the program provides property schedules, claims, vendor certificates, and places certificate requests online. It allows clients to update their property locations, report a claim, or request a certificate of insurance.

Coverage for Boiler and Machinery

APIP includes coverage for boilers and machinery with limits up to $100 million. Established boiler and machinery authorized inspection agencies are used for both jurisdictional and consultative services. This ensures you receive board-certified engineering expertise in machinery, equipment, electronics, and HVAC through a nationwide field network.

To manage a wide range of critical exposures, the program also provides our clients with electrical loss prevention surveys, infrared thermography, industry and technical consultation, a key account service plan, transformer oil gas analysis, boiler operation and maintenance training, and boiler and pressure vessel inspection services for non-code vessels (and vessels located in jurisdictions that do not require inspections).

Environmental Risk Coverage

Our team of dedicated underwriters has extensive experience in environmental risk and a strong understanding of the unique needs of public entities. To protect your organization from the catastrophic impacts environmental liabilities can have on the physical and financial infrastructure of an organization, APIP members receive first and third party pollution protection against the broad range of environmental risks facing public entities. This coverage includes premises, covered operations, transportation, bodily injury/property damage from pollution conditions, pollution clean-up, mold, and both above-ground storage tanks (ASTs) and underground storage tanks (USTs) coverage.

APPRAISAL CLAUSE AMENDMENT

This endorsement modifies insurance provided under the following:

ALL COVERAGE PARTS

This endorsement replaces any and all other provisions regarding appraisal.

If we and you disagree on the value of the property or the amount of loss, either party may request, in writing, an appraisal of the value of the property and/or the amount of loss. An appraisal may then take place only if the other party agrees in writing to participate in the appraisal process pursuant to terms of a written agreement between the parties. At a minimum, the written agreement between the parties will specify a protocol for the selection of a disinterested, competent, and impartial appraiser (who does not have a financial interest in the claim and/or appraisal award, including a contingent interest in the outcome of the claim or appraisal award), the inspection of the property by the appraisers, the selection of an umpire, communications between and among the appraisers and umpire, specific itemization of each item in dispute, and an award form. If the parties cannot agree on a written agreement specifying the protocol, an appraisal will not take place.

If appraisal moves forward, the two appraisers will select an umpire, who is disinterested, competent, and impartial. If the two appraisers cannot agree to an umpire within 15 days of either appraiser proposing one or more umpires, the two appraisers may jointly request that the selection of a competent and impartial umpire be made by a judge of a court in the county of the loss or damage. If either party to the appraisal, without notice to the other party, asks a judge to select an umpire, any such umpire selection shall be invalidated and the selection of a new umpire shall be required. If the appraisers do not agree to jointly request the appointment of an umpire, either the insurer or insured can unilaterally end the appraisal with written notice to the other. The appraisers will state separately the value of the property and amount of loss. Specific itemization of each item and amount in dispute is required, including, but not limited to, building-by-building, floor-by-floor, unit-by-unit, and area-by-area allocation. If the appraisers fail to agree, they will submit their differences to the umpire. A decision agreed to by any two will be binding.

Each party will:

a. pay its chosen appraiser; and

b. bear the other expenses of the appraisal and the umpire's fee equally.

In connection with the appraisal proceeding, neither the appraisers nor the umpire shall have authority to decide questions of law. Neither the appraisers nor the umpire shall attempt to resolve any issue of insurance coverage, policy exclusions, compliance with the policy terms and conditions, or any issues concerning the Limits of Insurance available under the Policy.

At any time after the request for appraisal, we will retain our right to demand compliance with all applicable Duties in the Event of Loss as described in this Policy. We may require completion of any of the Duties in the Event of Loss, or any other policy condition, prior to continuance of the appraisal proceeding.

If there is an appraisal, we will still retain our right to deny the claim.

Where applicable, the parties agree that during the pendency of an appraisal all required responses and cures to any Civil Remedy Notices are extended until 30 days after the appraisal is concluded.

By voluntarily agreeing to the appraisal process, both parties acknowledge that there are irreconcilable differences that exist regarding the value of the property and/or the amount of loss. Since appraisal is voluntary, you are not required to submit to, or participate in, any appraisal of the loss as a precondition to action against us.

Policy No.: **Effective:**

This Endorsement Changes The Policy. Please Read It Carefully.

ASBESTOS EXCLUSION

This endorsement modifies insurance provided under the following:

ALL COVERAGE PARTS

This policy does not apply to any loss, demand, claim or suit arising out of or related in any way to asbestos or asbestos-containing materials.

The company shall have no duty of any kind with respects to any such loss, demand, claim or suit.

- Any changes in fire or theft protection such as the installation of or disconnection of sprinkler systems, burglar alarms, etc. This includes any alterations to the system.
- Immediate notification of any changes to a scheduled of equipment, property, vehicles, electronic data processing, etc.
- Property of yours that is in transit, unless previously discussed and/or currently insured.

Certificates of Liability Insurance / Evidence of Property Insurance

A Certificate or Evidence is issued as a matter of information only and confers no rights upon the recipient. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy. Nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or recipient.

You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

In addition to providing a Certificate or Evidence of insurance, you may be required to name your landlord, client or customer on your policy as loss payee on property insurance or as an additional insured on liability insurance. Adding a party as an additional insured is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

By naming the Certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.
- An additional insured endorsement will most likely not provide notification of cancellation. Some insurance companies use a "blanket" additional insured endorsement that provides automatically when it is required in a written contract. Most insurance companies do not want to be notified of all additional insureds when there is a blanket endorsement on the policy. If a notice of cancellation is required for the additional insured party, you must notify us immediately and we will request an endorsement from your insurance company. There may be an additional premium for adding a notice of cancellation endorsement for an additional insured.

Re: Lawton Board of Education ISD#8

Dear OSIG Agent:

Attached is the OSIG proposal for your school client. Please review the quotation carefully and let us know if you have any questions or changes. Please keep the following facts in mind while reviewing this proposal with your school client:

- Coverages available in the program include: Property, Boiler, Crime, Automobile, General Liability, School Board Legal Liability, Cyber Liability, Pollution Liability, School Violent Acts Protection
- Optional increased deductible quotes can be provided upon request if the members seek alternatives to reduce their insurance costs.
- The non-profit structure of our program aids in stabilizing rates. OSIG retains the underwriting profit and investment income, and is designed to be a long term insurance solution for Oklahoma schools.
- Gallagher, the administrator for OSIG, brings a level of expertise to the table that should make you and your schools feel comfortable.

We urge you to be prepared and understand the importance of OSIG's excellent financial condition and to be familiar with the financial hurdles of our competitor.

For the 2020-2021 plan year, we are requiring the resolution to be signed by the member's Board of Education and returned to OSIG in order to bind coverage effective 07/01/20.

Please feel free to contact us to discuss this proposal and conditions in the marketplace in detail. We are here to assist you in protecting your schools districts.

Sincerely,

OSIG Program Administration

RE: Membership Proposal Effective 7/1/2020

Dear Kevin Hime:

We are very pleased to provide you with the attached proposal for insurance coverages with Oklahoma Schools Insurance Group (OSIG).

OSIG is not a conventional insurance program. We are a public entity in the state of Oklahoma formed by an Interlocal Agreement and made up of member public school districts. Our organization is non-profit, member owned, and controlled by a board of your peers. Our sole mission is to serve our member schools. Our promise is to provide quality insurance coverage and superior service at stable pricing. We are pleased that 449 school districts are members of OSIG. Our membership is strong and committed.

OSIG's financial position is excellent. No other Oklahoma school insurance program can provide you with this security. Our organization is constantly growing, improving and looking for new ways to serve Oklahoma schools. The group purchasing power of OSIG and a non-profit structure provides competitive insurance rates even in tough financial times.

Included in this proposal is information on OSIG's financial condition and summaries of enhanced coverages that only OSIG provides.

For the 2020-2021 plan year, we are requiring the resolution to be signed by the member's Board of Education and returned to OSIG in order to bind coverage effective 07/01/2020.

Loss control, risk management services, and specialized insurance coverages included in OSIG program are:

- Enhanced Property and Liability Coverage
- Cyber Liability, Crime, Pollution, School Violent Acts Protection
- Online Training in many different areas for your school employees
- Loss Control Site Surveys / Safety Inspections
- Member Only Risk Management Library at www.osig.org
- StopIt Anonymous Incident Reporting Mobile App & Web App

If you have any questions about the insurance procurement process or this proposal, please contact your local agent or any member of the OSIG administration team. Contact names and phone numbers are included in the proposal.

Sincerely,

OSIG Program Administration

OSIG
Oklahoma Schools Insurance Group

Overview

Background

The Oklahoma Schools Insurance Group (OSIG) is a public entity of the State of Oklahoma, formed as an Interlocal Agreement in accordance with 74 O.S. 1004(f), for the purpose of joining together a group of Oklahoma public school districts. OSIG will allow member districts to more efficiently and more economically obtain and manage their insurance programs.

OSIG obtained approval to operate from the Oklahoma Attorney General on June 28, 2001. Effective July 1, 2002, OSIG began full operation by providing its member districts with broad insurance coverage through "A" rated insurance carriers and professional risk management services. Over the past 18 years, OSIG's membership has grown to 449 and the program insures more than $16 Billion in school property across Oklahoma.

Structure

OSIG is a **non-profit, member-owned,** public entity program whose management is completely controlled by a Board of your peers. Our singular mission is to provide quality insurance coverage and service to our members. OSIG's mission statement is

> ***"The mission of Oklahoma Schools Insurance Group (OSIG) is to provide quality, cost effective risk management products and services to member schools".***

The group purchases insurance and reinsurance from "A" rated carriers. OSIG's insurance providers are long term partners and committed to OSIG and Oklahoma schools.

OSIG has contracted with Arthur J. Gallagher & Company in Tulsa to administer the program. Gallagher is one of the largest insurance brokers in the world and manages programs similar to OSIG across the country.

It is important to know that the insurance coverage provided by OSIG was specifically tailored to meet the needs of Oklahoma schools. The coverage is what you need to protect your schools' property, your students, and patrons.

The strength of the liability portion of OSIG's offering is also important during these tough times. The program is backed by the foremost specialist in school liability insurance in the country. United Educators Insurance Company is second to none.

Losses are a part of life. Only OSIG has the collective strength and staying power to provide the protections you need. By sticking together as a group, OSIG will be able to continue to provide you with the quality, fair-priced insurance and risk management services you need to protect your schools' assets, your board, your staff and most importantly your children.

Financial Strength

OSIG is financially solid and we have the funds (cash) we need to pay your claims. OSIG has returned more than $9 million to our members over the years as distributions. Surplus at year ended 6/30/19 was more than $11.8 million and our assets were more than $27 million.

We believe in complete transparency. We submit to an annual financial audit each year end and share the operating results at our annual members meeting held each year.

The financial condition of an insurance group should be of utmost importance to you when choosing an insurance partner for your district. If your insurer can't pay their claims, then the policy is a worthless stack of paper.

We urge you to obtain and review audited financial statements from every insurance provider that may offer your school district a quote. Financial statements are required by law and can be obtained at www.ok.gov/oid. Click on Interlocals under the Quick Links section of the home page. Your school's auditor can help in analyzing the statements.

OSIG
Oklahoma Schools Insurance Group

Revised

Important Plan Information

It is important to understand that OSIG is not an insurance company, but rather a non-profit, cooperative risk management program owned and directed by Oklahoma Schools. Its mission is to reduce insurance costs and stabilize rates by aggregating purchasing power with an intense focus on controlling member losses. When losses are controlled, OSIG's member schools retain the underwriting profit and investment income thereby increasing fund reserves for future years. OSIG purchases per occurrence and liability aggregate protection for its member schools. The per occurrence insurance protects member schools up to $500,000,000 for property losses and $1,000,000 for liability claims in each and every occurrence. The aggregate insurance protection is purchased in the unlikely event that sum total of all OSIG losses are significantly more than actuarially projected. Additional excess liability limits are available for members requiring higher limits.

This proposal is an outline of the coverages proposed by insurers based on the information provided by your school district. It does not include all the terms, coverages, exclusions, limitations, and conditions of the actual contract language. Please refer to the plan document for the details.

Actuarial Review

An independent actuary has been retained by OSIG to make projections as to anticipated claims and losses the program should expect on an annual basis. The OSIG actuary has relied on the historical loss experience and exposures provided to OSIG by the member school districts to make projections of OSIG's expected losses. OSIG adequately funds to, or in excess of, the expected loss projections through member contributions (insurance cost) and our own surplus.

Membership contributions are used to buy insurance, pay administrative expenses, and fund for members' claims. Similar successful programs throughout the country for schools and municipalities are protected using the same insurance structure as OSIG has deployed. As with any insurance mechanism, OSIG does not guarantee full funding in the event unimaginable losses would materialize that are many times greater than what is indicated by past history. The OSIG board is charged with developing a plan to address under funding in this unlikely event.

Independent Auditor's Report

The Board of Trustees
Oklahoma Schools Insurance Group

Report on the Financial Statements

We have audited the accompanying financial statements of Oklahoma Schools Insurance Group, which comprise the statements of net position, as of June 30, 2019 and 2018, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oklahoma Schools Insurance Group as of June 30, 2019 and 2018, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and loss development information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Overview of the Financial Statements

This report consists of the MD&A (this part), the statements of net position, the statements of revenues, expenses and changes in net position and the statements of cash flows. These statements provide financial information on OSIG as a whole.

These statements include all assets and liabilities using the accrual basis of accounting, which is consistent with the accounting used by private-sector institutions. All of the current year's revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid. Capital assets are capitalized and depreciated over their useful lives.

This financial report is designed to provide member school districts, creditors and suppliers with a general overview of OSIG's finances.

The statements of net position: The statements of net position and the statements of revenues, expenses and changes in net position report OSIG's net position and how it has changed over the stated period. Net position, the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, is one measure of OSIG's financial health or position. OSIG has no deferred outflows or inflows at June 30, 2019, 2018 or 2017. The following summarizes OSIG's assets, liabilities and net position as of June 30, 2019, 2018 and 2017:

Insurer's Liability:

LMA 3333
(RE)INSURERS LIABILITY CLAUSE
(Re)insurer's liability several not joint
The liability of a (re)insurer under this contract is several and not joint with other (re)insurers party to this contract. A (re)insurer is liable only for the proportion of liability it has underwritten. A (re)insurer is not jointly liable for the proportion of liability underwritten by any other (re)insurer. Nor is a (re)insurer otherwise responsible for any liability of any other (re)insurer that may underwrite this contract.

The proportion of liability under this contract underwritten by a (re)insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp. This is subject always to the provision concerning "signing" below.

In the case of a Lloyd's syndicate, each member of the syndicate (rather than the syndicate itself) is a (re)insurer. Each member has underwritten a proportion of the total shown for the syndicate (that total itself being the total of the proportions underwritten by all the members of the syndicate taken together). The liability of each member of the syndicate is several and not joint with other members. A member is liable only for that member's proportion. A member is not jointly liable for any other member's proportion. Nor is any member otherwise responsible for any liability of any other (re)insurer that may underwrite this contract. The business address of each member is Lloyd's, One Lime Street, London EC3M 7HA. The identity of each member of a Lloyd's syndicate and their respective proportion may be obtained by writing to Market Services, Lloyd's, at the above address.

Proportion of liability
Unless there is "signing" (see below), the proportion of liability under this contract underwritten by each (re)insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together) is shown next to its stamp and is referred to as its "written line".

Where this contract permits, written lines, or certain written lines, may be adjusted ("signed"). In that case a schedule is to be appended to this contract to show the definitive proportion of liability under this contract underwritten by each (re)insurer (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of the syndicate taken together). A definitive proportion (or, in the case of a Lloyd's syndicate, the total of the proportions underwritten by all the members of a Lloyd's syndicate taken together) is referred to as a "signed line". The signed lines shown in the schedule will prevail over the written lines unless a proven error in calculation has occurred.

Although reference is made at various points in this clause to "this contract" in the singular, where the circumstances so require this should be read as a reference to contracts in the plural.

Order Hereon: 100% of 100%

Basis of Written Lines: Percentage of whole.

LINES CLAUSE * to apply if not written 100%
This Insurance, being signed for the percentage detailed under Order Hereon insures only that proportion of any loss, whether total or partial, including but not limited to that proportion of associated expenses, if any, to the extent and in the manner provided in this Insurance.

10/6/19

Signing Provisions:

In the event that the written lines hereon exceed 100% of the order, any lines written "to stand" will be allocated in full and all other lines will be signed down in equal proportions so that the aggregate signed lines are equal to 100% of the order without further agreement of any of the (re)insurers.

However:

a) in the event that the placement of the order is not completed by the commencement date of the period of insurance then all lines written by that date will be signed in full;

b) the Insured may elect for the disproportionate signing of (re)insurers lines, without further specific agreement of (re)insurers, providing that any such variation is made prior to the commencement date of the period of insurance, and that lines written "to stand" may not be varied without the documented agreement of those (re)insurers.

c) the signed lines resulting from the application of the above provisions can be varied, before or after the commencement date of the period of insurance, by the documented agreement of the Insured and all (re)insurers whose lines are to be varied. The variation to the contracts will take effect only when all such (re)insurers have agreed, with the resulting variation in signed lines commencing from the date set out in that agreement.

Written Lines:

In a co-insurance placement, following (re)insurers may, but are not obliged to, follow the premium charged by the lead (re)insurer.

(Re)insurers may not seek to guarantee for themselves terms as favourable as those which others subsequently achieve during the placement.

Line Conditions:

None.

Insurance producers are authorized by their license to confer with insurance purchasers about the benefits, terms and conditions of insurance contracts; to offer advice concerning the substantive benefits of particular insurance contracts; to sell insurance; and to obtain insurance for purchasers. The role of the producer in any particular transaction typically involves one or more of these activities.

Compensation will be paid to the producer, based on the insurance contract the producer sells. Depending on the insurer(s) and insurance contract(s) the purchaser selects, compensation will be paid by the insurer(s) selling the insurance contract or by another third party. Such compensation may vary depending on a number of factors, including the insurance contract(s) and the insurer(s) the purchaser selects. In some cases, other factors such as the volume of business a producer provides to an insurer or the profitability of insurance contracts a producer provides to an insurer also may affect compensation.

The insurance purchaser may obtain information about compensation expected to be received by the producer based in whole or in part on the sale of insurance to the purchaser, and (if applicable) compensation expected to be received based in whole or in part on any alternative quotes presented to the purchaser by the producer, by requesting such information from the producer.

Certificates / Evidence of Insurance

- A certificate is issued as a matter of information only and confers no rights upon the certificate holder. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy. Nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or certificate holder.

- You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

  In addition to providing a certificate of insurance, you may be required to name your client or customer on your policy as an additional insured. This is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

  By naming the certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.

Commercial Property Coverage

*Property Co-insurance: Most property insurance policies contain a co-insurance clause. In exchange for a reduced rate, the insured agrees to carry at least the stated percentage of insurance to the total insurable value of the property. If, at the time of loss, the amount of insurance carried is less than this percentage, the loss payment will be reduced proportionately.

Other Disclosures / Disclaimers - Continued

Changes and Developments

It is important that we be advised of any changes in your operations, which may have a bearing on the validity and/or adequacy of your insurance. The types of changes that concern us include, but are not limited to, those listed below:

- Changes in any operations such as expansion to another states, new products, or new applications of existing products.
- Travel to any state not previously disclosed.
- Mergers and/or acquisition of new companies and any change in business ownership, including percentages.
- Any newly assumed contractual liability, granting of indemnities or hold harmless agreements.
- Any changes in existing premises including vacancy, whether temporary or permanent, alterations, demolition, etc. Also, any new premises either purchased, constructed or occupied
- Circumstances which may require an increased liability insurance limit.
- Any changes in fire or theft protection such as the installation of or disconnection of sprinkler systems, burglar alarms, etc. This includes any alterations to the system.
- Immediate notification of any changes to a scheduled of equipment, property, vehicles, electronic data processing, etc.
- Property of yours that is in transit, unless previously discussed and/or currently insured.

Certificates / Evidence of Insurance

- A certificate is issued as a matter of information only and confers no rights upon the certificate holder. The certificate does not affirmatively or negatively amend, extend or alter the coverage afforded by a policy. Nor does it constitute a contract between the issuing insurer(s), authorized representative, producer or certificate holder.

- You may have signed contracts, leases or other agreements requiring you to provide this evidence. In those agreements, you may assume obligations and/or liability for others (Indemnification, Hold Harmless) and some of the obligations that are not covered by insurance. We recommend that you and your legal counsel review these documents.

  In addition to providing a certificate of insurance, you may be required to name your client or customer on your policy as an additional insured. This is only possible with permission of the insurance company, added by endorsement and, in some cases, an additional premium.

  By naming the certificate holder as additional insured, there are consequences to your risks and insurance policy including:

- Your policy limits are now shared with other entities; their claims involvement may reduce or exhaust your aggregate limit.
- Your policy may provide higher limits than required by contract; your full limits can be exposed to the additional insured.
- There may be conflicts in defense when your insurer has to defend both you and the additional insured.

Commercial Property Coverage

*Property Co-insurance: Most property insurance policies contain a co-insurance clause. In exchange for a reduced rate, the insured agrees to carry at least the stated percentage of insurance to the total insurable value of the property. If, at the time of loss, the amount of insurance carried is less than this percentage, the loss payment will be reduced proportionately.

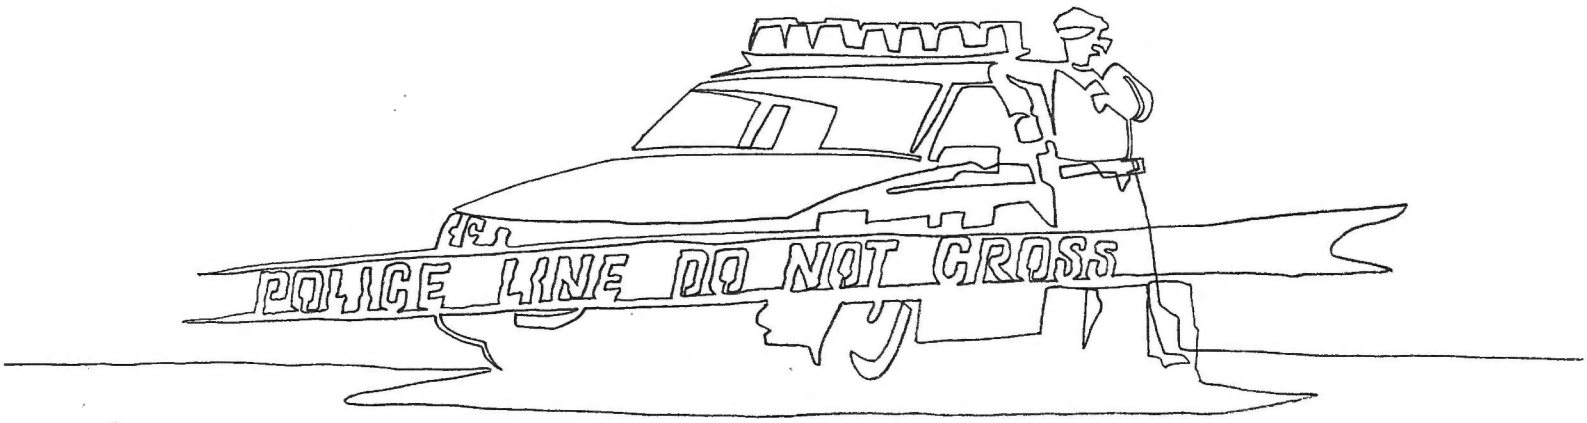
Beazley Deadly Weapons Protection

Eliminating the risk of a malicious attack is impossible but preparing for one is essential.



Beazley

Deadly Weapons Protection

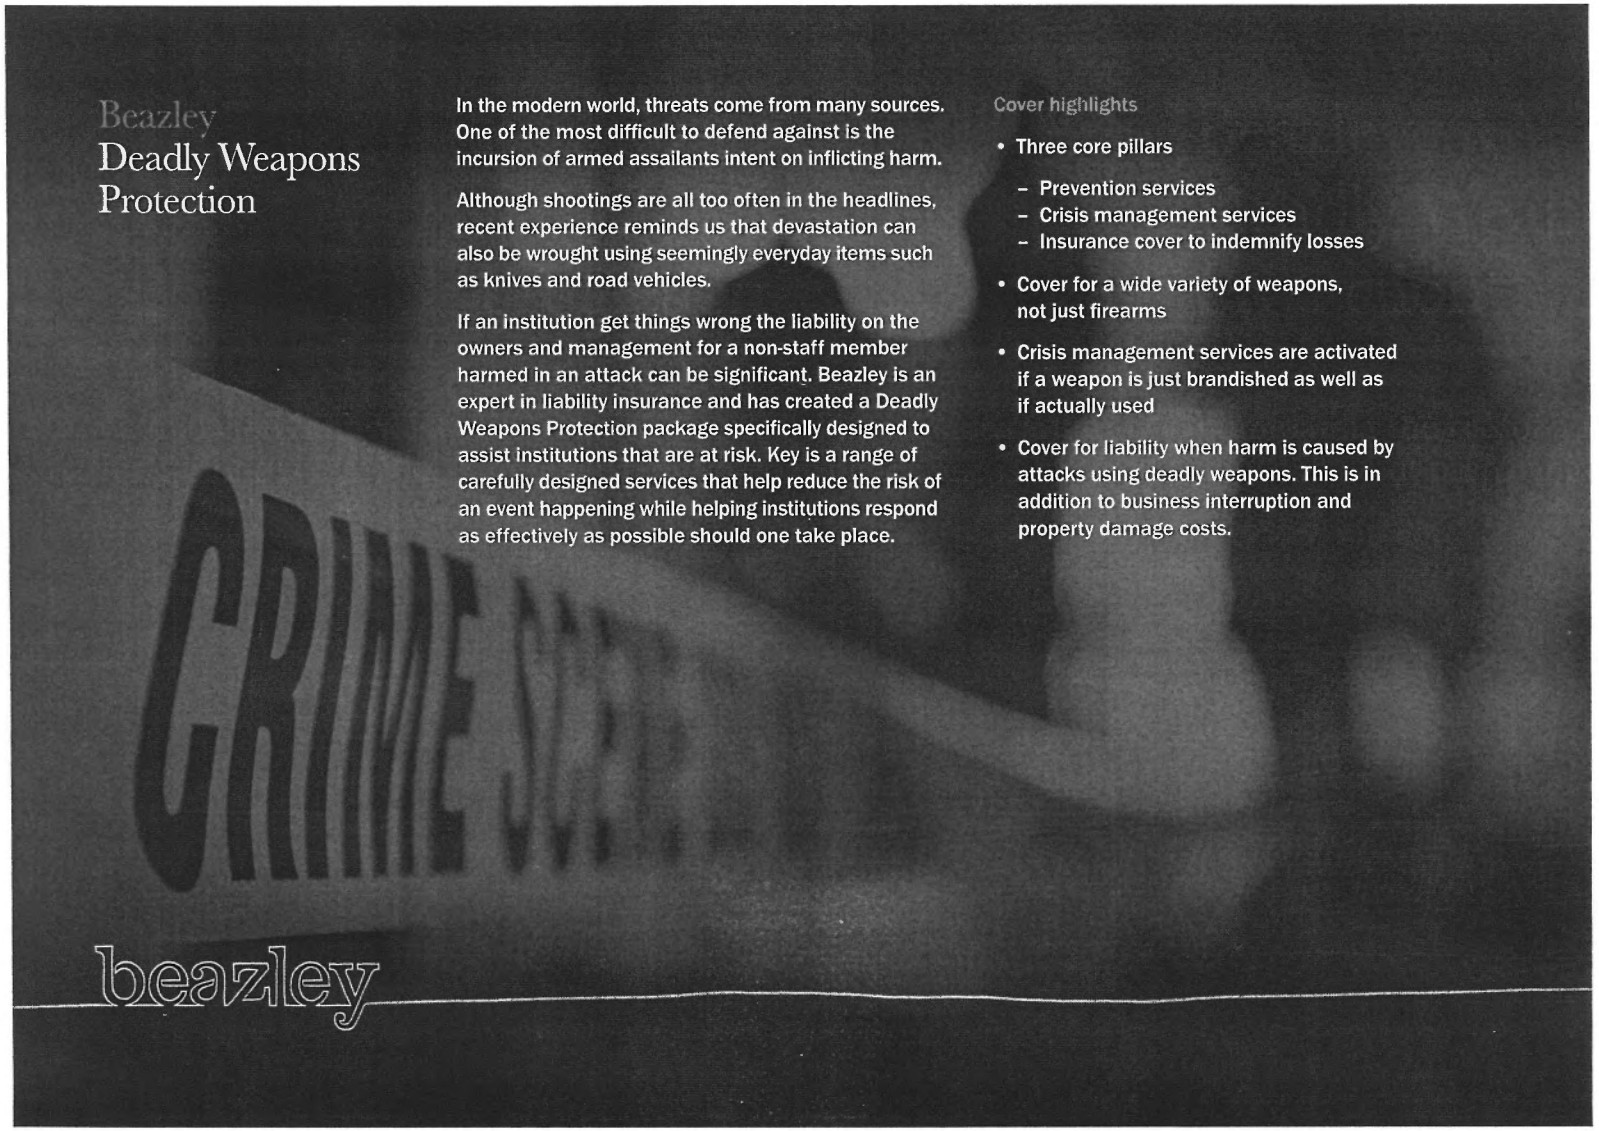
In the modern world, threats come from many sources. One of the most difficult to defend against is the incursion of armed assailants intent on inflicting harm.

Although shootings are all too often in the headlines, recent experience reminds us that devastation can also be wrought using seemingly everyday items such as knives and road vehicles.

If an institution get things wrong the liability on the owners and management for a non-staff member harmed in an attack can be significant. Beazley is an expert in liability insurance and has created a Deadly Weapons Protection package specifically designed to assist institutions that are at risk. Key is a range of carefully designed services that help reduce the risk of an event happening while helping institutions respond as effectively as possible should one take place.

Cover highlights

- Three core pillars
  - Prevention services
  - Crisis management services
  - Insurance cover to indemnify losses
- Cover for a wide variety of weapons, not just firearms
- Crisis management services are activated if a weapon is just brandished as well as if actually used
- Cover for liability when harm is caused by attacks using deadly weapons. This is in addition to business interruption and property damage costs.



beazley

Beazley Deadly Weapons Protection

What is a deadly weapons event?

An incident involving an individual or group of people actively engaged in killing or attempting to kill people using a deadly weapon at a location of the insured.

More than just fire arms incidents

Our policy covers incidents involving a wide variety of deadly weapons, including:

- Any portable firearm (whether loaded or unloaded)
- Explosive device
- Knife
- Syringe
- Medical instrument
- Corrosive substance
- Any other handheld device or instrument which is used to deliberately cause death or bodily injury
- Any road vehicle that is occupied and used by an assailant to deliberately cause death or bodily injury.

Factors that affect the level of premium paid

- Locations
- Industry sector
- Security protocols
- Third party footfall
- Number of employees.

Claims scenarios

Mass shooting with multiple casualties naturally attract significant media attention however there are an array of incidents involving a range of weapons that Beazley Deadly Weapons Protection has been designed for. For example, these include:

Disagreement in a casino

- A disagreement over a card game at a casino results in one of the players drawing a gun and firing at their opponent with bystanders being hit by stray shots.

Syringe rage in a shopping mall

- A homeless drug addict who takes exception to being moved on by security personnel in a shopping mall reacts by using a used syringe to attack families passing by.

Acid attack in a bar

- A jealous woman throws acid at her ex-boyfriend and new partner on the crowded dance floor of a nightclub soaking those around in the process.

Disgruntled ex-employee

- Having been sacked the previous day, a humiliated administrative worker returns to the office brandishing a hunting knife and, in front of his former colleagues, screams a stream of threats at the supervisor.

Automobile rampage at a school

- A former pupil who had been bullied while at high school seeks revenge by driving a car at a group of students one morning as they arrive for the start of classes.

Three core pillars included as standard

Prevention services

Total immunity from risk is impossible, but effective risk management can reduce it, while reinforcing an institution's commitment to the highest standards of safety. Our clients therefore automatically receive a security vulnerability review and are invited to attend a safety action plan webinar.

- **Post underwriting review:** This is a remote post underwriting review in order to analyse and evaluate the security protocols of the client as well as to highlight any current exposures, threats and dangers. A risk analysis report of findings and general recommendations are provided to the client.
- **Action plan webinar:** This covers issues such as incident awareness, typical profiles of an assailant, how to respond to an incident, creating an emergency action plan, and raising awareness of key behaviours.

Crisis management services

Should a deadly weapons event take place we will provide a crisis management response team of qualified professionals to give guidance and resources.

The support falls into four categories, but not limited to:

- Investigation on behalf of the client to determine the facts of the event to help inform the client's response.
- Advice and support with the management of the situation. For example, counselling and communication strategies.
- When required post an event, the provision of temporary security enhancement such as armed or unarmed agents.
- Advice for clients who may be aware of a circumstance that could potentially result in a deadly weapon attack occuring at their location.

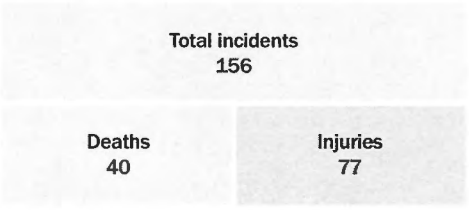
Crisis services are provided by CrisisRisk, one of the leading crisis and risk management providers in the US, with a vast experience of effectively managing a broad range of high profile incidents.

Insurance cover to indemnify losses

- Primary liability cover for lawsuits arising from harm caused by attacks using deadly weapons.
- Flexibility to set excesses and policy limits to suit the insureds' needs (access to policy limits up to $30,000,000 through the Lloyd's Deadly Weapons Consortium).
- Physical damage sublimit of $500,000 included as standard. Full policy limit also available.
- Business interruption policy extension available.
- Primary physical damage and business interruption caused by terrorism and sabotage.
- Accidental death and dismemberment sublimit of $50,000 and medical expenses sublimit of $25,000.
- Coverage against the threat of a deadly weapon attack.

Beazley Deadly Weapons Protection

Number on average per day in the US (2018)



Source: Gun Violence Archive (gunviolencearchive.org)

On average there is more than one gun violence incident in the US every 10 minutes.

Many industry settings are vulnerable

Educational establishments along with businesses, such as retail and entertainment venues, are the most likely to be targeted but others such as religious institutions and healthcare facilities are not immune. The reasons are clear. They can be hard to secure and the high volume of people present each day increases the chances of an armed individual entering unchallenged.

21. **Sanctions**

The **Coverage Provider** shall not be deemed to provide cover and the **Coverage Provider** shall not be liable to pay any claim or provide any benefit hereunder to the extent that the provision of such cover, payment of such claim or provision of such benefit would expose the **Coverage Provider** to any sanction, prohibition or restriction under the trade or economic sanctions, laws or regulations of the United States of America.

22. **Situation**

This Plan of Coverage provides coverage for property located at the addresses stated in the Schedule/Declaration.

23. **Subrogation**

Any release from liability entered into in writing by the **Member** prior to loss hereunder shall not affect this Plan of Coverage or the right of the **Member** to recover hereunder. The right of subrogation against any of the **Member's** subsidiary or affiliated companies or any other companies associated with the **Member** through ownership or management is waived.

In the event of any payment under this Plan of Coverage, the **Coverage Provider** shall be subrogated to the extent of such payment to all the **Member's** right of recovery therefor. The **Member** shall execute all papers required, shall cooperate with the **Coverage Provider** and, upon the **Coverage Provider's** request, shall attend hearings and trials and shall assist in effecting settlements, securing and giving evidence, attaining the attendance of witnesses and in the conduct of suits and shall do anything that may be necessary to secure such right. The **Coverage Provider** will act in concert with all other interests concerned (including the **Member**) in the exercise of such rights of recovery. If any amount is recovered as a result of such proceedings, such amount shall be distributed in the following priorities:

(a) Any interest, (including the **Member's**), exclusive of any deductible, waiting period or self-insured retention, suffering a loss of the type covered by this Plan of Coverage and in excess of the coverage under this Plan of Coverage shall be reimbursed up to the amount of such loss (excluding the amount of the deductible);

(b) Out of the balance remaining, the **Coverage Provider** shall be reimbursed to the extent of payment under this Plan of Coverage;

(c) The remaining balance, if any, shall inure to the benefit of the **Member**, or any Coverage Provider or Insurer providing coverage primary to this Plan of Coverage, with respect to the amount of such primary coverage, deductible, waiting period, self-insured retention, and/or loss of a type not covered by this Plan of Coverage.

The expense of all proceedings necessary to the recovery of any such amount shall be apportioned between the interests concerned, including that of the **Member**, in the ratio of their respective recoveries as finally settled. If there should be no recovery and proceedings are instituted solely on the initiative of the **Coverage Provider**, the expense thereof shall be borne by the **Coverage Provider**.

24. Valuation

In respect of Section 1 – Property Damage and Section 2 – Demolition, settlement shall be based upon the cost of repairing or reinstating (whichever is the least) property on the same site, or nearest available site (whichever incurs the least cost) with material of like kind and quality without deduction for depreciation, subject to the following provisions:

(a) The repairs or reinstatement must be executed with due diligence and dispatch;

(b) Until repairs or reinstatement have been effected the amount of liability under this Plan of Coverage in respect of loss shall be limited to the **Actual Cash Value** at the time of loss;

(c) If repairs or reinstatement with material of like kind and quality is restricted or prohibited by any by-laws, ordinance or law, any increased cost of repairs or reinstatement due thereto shall not be covered by this Plan of Coverage.

(d) With respect to Section 2 – Demolition, as a condition of collecting under this Section, any expenditure must be unplanned as of the date of loss.

The **Coverage Provider's** liability for loss under this Plan of Coverage shall not exceed the smallest of the following amounts:

(a) The Plan of Coverage limit applicable to the destroyed or damaged property,

(b) The replacement cost of the property or any part thereof which was intended for the same occupancy and use, as calculated at the time of the loss,

(c) The amount actually and necessarily expended in repairing said property or any part thereof.

The **Coverage Provider** will normally expect the **Member** to carry out repair of the covered property, but if the **Member** and the **Coverage Provider** agree that it is not practicable or reasonable to do this, the **Coverage Provider** will pay the **Member** an amount based on the repair costs, less an allowance for fees and associated costs which are not otherwise incurred. The **Coverage Provider** will only pay the **Member** up to the **Aggregate Limit of Liability** shown in the Schedule/Declaration.

25. Service of Suit

This Service of Suit Clause is only applicable to **Members** domiciled in the USA.

This Service of Suit Clause will not be read to conflict with or override the obligations of the parties to arbitrate their disputes as provided for in the Arbitration provision within this Plan of Coverage. This Clause is intended as an aid to compelling arbitration or enforcing such arbitration or arbitral award, not as an alternative to such Arbitration provision for resolving disputes arising out of this contract of coverage.

It is agreed that in the event of the failure of the **Coverage Provider** to pay any amount claimed to be due hereunder, the **Coverage Provider**, at the request of the **Member**, will submit to the jurisdiction of a Court of competent jurisdiction within the United States and will comply with all requirements necessary to give such court jurisdiction and all matters arising hereunder shall be determined in accordance with the law and practice of such court.

Nothing in this Clause constitutes or should be understood to constitute a waiver of the **Coverage Provider's** rights to commence an action in any Court of competent jurisdiction in the United States, to remove an action to a United States District Court, or to seek a transfer of a case to another Court as permitted by the laws of the United States or of any State in the United States.

Further, pursuant to any statute of any state, territory or district of the United States which makes provision therefore, the **Coverage Provider** hereon hereby designate the Superintendent or other officer specified for that purpose in the statute, or their successor or successors in office, as their true and lawful attorney upon whom may be served any lawful process in any action, suit or proceeding instituted by or on behalf of the **Member** hereunder arising out of this contract of coverage, and hereby designate the above- named as the person to whom the said officer is authorized to mail such process or a true copy thereof.

Lawton Board of Education, ISD#8 – Supplemental Answers for OSRMT SBLL Application 7-1-20/21:

PAGE 2 of OSRMT SCHOOL BOARD LEGAL LIABILITY APPLICATION:

If the school district is participating in a Special Education Cooperative, does the District provide any of the Special Education Programs?

We do not participate in a COOP Special Education Program

Do we have written procedures for the development of an IEP for each student? LPS does not have written procedures because we follow and use the State Department guidelines as outlined in Oklahoma Special Education Process Guide as well as the Oklahoma Special Education Handbook.

Page 6 of OSRMT SCHOOL BOARD LEGAL LIABILITY APPLICATION:

Has the School District ever been required to conduct a Special Education hearing under the Handicapped Children's Protection Act or the Individuals with Disabilities Education Act (IDEA)?

Just this past December, there was a Due Process filed against LPS. We were given the opportunity for RESOLUTION MEETING prior to any hearing and that Resolution Meeting was successful. We DID HAVE TO PAY less than $500 for the Hearing Officer because he had started researching/preparing for a hearing. There never was a hearing. Had there been, we would have had to pay for plaintiff's expenses, hearing officer, etc.

OKLAHOMA AUTO SUPPLEMENT

Applicant/Named Member	Plan of Coverage Effective Date:
Company: Oklahoma Schools Risk Management Trust (OSRMT)	Producer:

Oklahoma law permits you to make certain decisions regarding Uninsured Motorist Coverage. This document briefly describes this coverage and the options available.

You should read this document carefully and contact us or your agent if you have any questions regarding Uninsured Motorist Coverage and your options with respect to this coverage.

This document includes general descriptions of coverage. However, no coverage is provided by this document. You should read your plan of coverage and review your Declaration page(s) and/or Schedule(s) for complete information on the coverages you are provided.

OKLAHOMA UNINSURED MOTORIST COVERAGE LAW

Oklahoma law gives you the right to buy Uninsured Motorist Coverage in the same amount as your bodily injury liability coverage. THE LAW REQUIRES US TO ADVISE YOU OF THIS VALUABLE RIGHT FOR THE PROTECTION OF YOU AND OTHER PEOPLE WHO MAY BE HURT WHILE RIDING IN YOUR COVERED VEHICLE. YOU SHOULD SERIOUSLY CONSIDER BUYING THIS COVERAGE IN THE SAME AMOUNT AS YOUR LIABILITY COVERAGE LIMIT.

Uninsured Motorist Coverage, unless otherwise provided in your plan of coverage, pays for bodily injury damages to you and other people riding in your car who are injured by: (1) an uninsured motorist, (2) a hit-and-run motorist or (3) an insured motorist who does not have enough liability insurance to pay for bodily injury damages to any covered person. Uninsured Motorist Coverage, unless otherwise provided in your plan of coverage, protects you and others while riding in any vehicle or while a pedestrian. THE COST OF THIS COVERAGE IS SMALL COMPARED WITH THE BENEFITS!

You may make one of four choices about Uninsured Motorist Coverage by indicating below what Uninsured Motorist coverage you want:

1. _____ I want the same amount of Uninsured Motorist Coverage as my bodily injury liability coverage.

2. ___X___ I want the minimum Uninsured Motorist Coverage ($25,000 per person/$50,000 per occurrence).

3. _____ I want Uninsured Motorist Coverage in the following amount:
   $_____ per person / $_____ per occurrence.

4. _____ I want to reject Uninsured Motorist Coverage.

_____ _____

(Member) (Date)

THIS FORM IS NOT A PART OF YOUR PLAN OF COVERAGE AND DOES NOT PROVIDE COVERAGE.

Coverage is generally described here. Only your plan of coverage provides you with a complete description of the coverage and their limitations.

I understand these coverage selections/rejections will apply to all future renewals, continuations and changes in my plan of coverage, unless I notify you otherwise in writing.

COVERAGE PLACEMENT POLICY

POLICY: Coverage cannot be bound with an insurer: (1) with an A.M. Best rating of less than A- (Excellent),and a Best's Financial Size Category (FSC) of VI or larger: or (2)with a non-rated insurer; until (1) approved by the Branch Manager or Senior Management, and (2) the Insured executes a notarized **DISCLAIMER OF FINANCIAL CONDITION OF INSURER**. Following is an example of the **DISCLAIMER** that should be amended for each situation.

Financial analysis of insurance companies is a complex process that requires specialized knowledge. We rely upon opinions expressed by A. M. Best Company, an independent rating service that provides evaluations of the financial strength and size of insurance providers. INSURICA makes no representations or warranties concerning the financial condition of any insurance provider, nor do we make any representation or warranty concerning the A.M. Best rating of any insurance provider (which may change from time to time). INSURICA, its shareholders, members, officers, employees and associates will not be liable for any financial loss including, but not limited to: failure to pay claims to, or on behalf of, any insured; failure of an insurer to refund premiums to any insured; and any other amounts due from an insurer to any insured.

At your request and direction, we have placed your insurance coverage with Oklahoma Schools Risk Management Trust (OSRMT). OSRMT is not rated by A.M. Best Company. OSRMT does not operate on an admitted basis in Oklahoma, and therefore there will be no potential for reimbursement from the Oklahoma Property and Casualty Insurance Guaranty Association in the event of financial impairment of OSRMT.

INSURED'S ACKNOWLEDGEMENT AND AGREEMENT: I understand and agree that INSURICA does not warrant the financial stability of any insurance provider. This letter serves as your authority to place coverage with Oklahoma Schools Risk Management Trust (OSRMT). This ACKNOWLEDGMENT AND AGREEMENT remains in full force and effect until written notice of revocation is delivered to INSURICA.

INSURED:_____
BY:_____
NAME AND TITLE:_____
DATE:_____

Note: When a qualified insurer is downgraded to a rating of less than A- by A.M. Best Company, this DISCLAIMER will be required for the renewal policy.

Note: No **DISCLAIMER** is required for Lloyd's of London policies, or for polices issued by non-qualified insurers specifically approved by Executive Management.

PURPOSE: To place clients' coverage with financially strong insurers.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Trust's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

INDEPENDENT AUDITORS' REPORT - CONTINUED

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Oklahoma Schools Risk Management Trust as of June 30, 2019 and 2018, and the results of its operations and changes in net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Emphasis of Matter

As discussed in the Notes to Financial Statements, the liabilities for unpaid losses and loss adjustment expenses in the accompanying financial statements are based upon evaluations by the Trust's independent actuary. Management believes that these estimates are reasonable. However, these estimates are subject to change and the changes can be material in relation to the financial statements taken as a whole. No assurance can be given that the actual losses will not be more or less than the current estimate. Our opinion is not modified with respect to this matter.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This annual report consists of the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. Along with the notes, they provide detailed financial information concerning Oklahoma Schools Risk Management Trust ("OSRMT" or the "Trust"). This section, the Management's Discussion and Analysis, is intended to provide an overview of the Oklahoma Schools Risk Management Trust's financial condition, results of operations, and other key information.

Using this Annual Report

OSRMT is a public entity self-insurance pool that provides property and casualty coverage to its participating members. Membership is open to all public school districts and career techs in the state of Oklahoma. This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position provide information about the financial activities of OSRMT. These are followed by the Statement of Cash Flows, which presents detailed information about the changes in OSRMT's cash position during the year.

Financial Overview

This annual statement consists of three parts - Management's Discussion and Analysis, the basic financial statements, and required supplemental information. The basic financial statements provide both long-term and short-term information about OSRMT's financial status. OSRMT uses the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. These statements reflect only the risk carried by OSRMT, which also includes any potential unrecoverable reinsurance claims. The three basic financial statements are presented as follows:

- Statement of Net Position - This statement presents information reflecting OSRMT's assets, liabilities, and net position.

- Statement of Revenues, Expenses and Changes in Net Position - This statement reflects the operating and nonoperating revenue for the previous two fiscal years. Operating revenue consists primarily of member contributions with the major sources of operating expenses being claims and claims adjustment expense, general and administrative expenses, and reinsurance costs. Nonoperating revenue consists primarily of investment income and changes in the fair value of investments.

- Statement of Cash Flows - This statement is presented on the direct method of reporting and reflects cash flows from operating and investing activities. Cash collections and payments are reflected in this statement to arrive at the net increase or decrease in cash for the fiscal year.

Financial Overview - Continued

In OSRMT's financial position, it is important to recognize the mission of OSRMT. From a financial perspective, OSRMT's general objectives are to formulate, develop, and administer, on behalf of the members, a program of coverages that are broad in scope at a competitive cost. As of June 30, 2019, 2018, and 2017, 105, 159, and 152 educational institutions, respectively, within the State of Oklahoma participate in OSRMT.

OSRMT is a member of the School Leaders Risk Management Association. This affiliation gives each OSRMT member access to a broad range of expertly written white papers as well as checklists provided to assist school district members in accomplishing internal audits of many federally mandated programs as well as ensuring that the district is maintaining proper standards and records.

The OSRMT Board of Trustees is selected from the ranks of elected school board members, school superintendents, and school business managers of member districts. OSRMT feels members are best embodied by a diverse board allowing for each member to be fairly represented.

Condensed Financial Information

The Statement of Net Position reports OSRMT's net position. Net position is the difference between OSRMT's assets and liabilities and is one way to measure OSRMT's financial health or position. Over time, increases and decreases in OSRMT's net position are an indicator of whether its financial health is improving or deteriorating, respectively. Summarized financial information is as follows:

	June 30,

Net position	$ (2,161,399)	$ (974,024)	$ 51,539

The following table shows the major components of income from operations for the current year, compared to the prior two years:

	Year Ended June 30,		
	2019	2018	2017
Revenues			
Member contributions	$ 11,188,731	$ 14,576,246	$ 12,954,984

Other income	49,517	76,867	59,767

Member reserve/initiation contribution	(4,565)	(2,297)	30,246
Total Increase (Decrease) in Net Position	$ (1,187,374)	$ (1,025,564)	$(168,051)

Total provision for claims, as noted above, is dependent on many factors and will change from year to year based on these factors.

In addition to net position, when assessing the overall health of OSRMT, the reader needs to consider nonfinancial factors, such as the legal climate in the state, the general state of the financial markets, and the level of loss prevention undertaken by OSRMT and its members.

Condensed Financial Highlights

- Overall, the OSRMT's net position decreased by $1,025,564 from $51,539 in 2017 to $(974,025) in 2018 and decreased by $1,187,374 to $(2,161,399) in 2019.

- Member contributions increased by $1,621,262 from $12,954,984 in 2017 to $14,576,246 in 2018 and decreased by $3,387,515 to $11,188,731 in 2019.

Condensed Financial Highlights - Continued

- **Incurred claims and claims adjustment expenses, net of reinsurance recoveries were $4,655,955, $5,152,028, and $4,723,396 for the years ended June 30, 2019, 2018, and 2017, respectively. The change is related to the number of open and closed claims and loss experience. Incurred claims and claims adjustment expenses vary from year to year as they are driven by many factors outside OSRMT's control.**

Economic Factors and Contribution Rates

Property reinsurance rates have been rising in recent years due to increased frequency and severity of weather related events globally. As a result, contributions for members increased this year and may increase next year. OSRMT will continue to monitor the property reinsurance market place to make certain that coverages are not compromised or reduced.

OSRMT will continue to select and add public school districts that meet membership criteria.

The provision for claim payments is expected to be consistent with historical trends and we are unaware of any economic events or legislative events that would have a significant impact on the operations of OSRMT.

NOTE 1 - ORGANIZATION OF TRUST

The Oklahoma Schools Risk Management Trust ("OSRMT" or the "Trust") is a cooperative association of public school districts established on June 17, 2009. Approval was obtained from the Office of Attorney General, State of Oklahoma through the Interlocal Cooperative Agreement - Oklahoma Schools Risk Management Trust Agreement - (AG #ICA-09-003). The Trust was established as a group self-insurance program to indemnify each member for covered property/casualty losses as an alternative to insurance coverage from a commercial insurance carrier.

Members are required to make annual contributions as determined by the Board of Trustees. Such contributions are intended to cover estimated loss payments and related costs and administrative and operational expenses. Public school districts joining the Trust must remain members for a minimum of one plan period unless terminated by the Board of Trustees. Subsequent to this initial term, a member may withdraw its membership at the end of any plan period.

In the event of dissolution of OSRMT, surplus funds developed that are not needed to pay claims and other expenses of OSRMT would be distributed to members, past and current, in accordance with the by-laws as determined by the Board of Trustees.

The Trust is comprised of 105 Oklahoma public school districts as of June 30, 2019, and 159 districts as of June 30, 2018.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting and reporting policies of the Trust conform to accounting principles generally accepted in the United States of America, governmental accounting standards and prevailing practices within the insurance industry. Except as otherwise noted, the Trust carries its assets and liabilities principally on the historical cost basis and follows the accrual method of accounting.

Cash and Cash Equivalents

For purposes of the Statements of Cash Flows, cash and cash equivalents include only cash in checking, savings or money market accounts, and other depository instruments with maturities of three months or less at the time of acquisition.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Earnings

Investment earnings, including changes in fair value of investments, are recognized as non operating revenue in the Statements of Revenues, Expenses and Changes in Net Position.

Contributions Receivable

Contributions receivable are stated at net invoice amounts. Collectibility of balances is reviewed periodically. Any amounts deemed to be uncollectible are written off at that time. Management has determined amounts are collectible and no allowance for doubtful accounts is required.

Reserve Contributions Receivable

In prior years, the Trust recorded a member reserve contribution when a member joined the Trust on or before June 30, 2015. Amounts are stated at net amounts expected to be collected as estimated by management.

Initiation Contributions

The Trust recorded an initiation contribution receivable and a member initiation contribution when a member joined the Trust between June 30, 2015 and June 30, 2017. The total required initiation contribution was computed at 24 percent of the member's first year contribution and was billed to the member over a 24-month period. The total initiation contribution was recognized as income in the first year of membership. Amounts are stated at net amounts expected to be collected as estimated by management. At June 30, 2019 and 2018, management has recorded reserve contributions receivable of approximately $-0- and $5,000, respectively, which are net of an allowance for doubtful accounts of approximately $-0- and $3,000, respectively.

Contributions

Contributions are earned on a straight-line basis over the coverage period. The portion of the contribution that will be earned in the future is deferred and reported as unearned contribution. Contributions received prior to the beginning of a coverage year are reported as advance contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Prepaid Expenses and Other Assets

Reinsurance premiums are recognized as expenses over the related coverage period. Certain payments reflect costs applicable to future activities. Those payments are recorded as prepaid expenses when paid and expensed when appropriate.

Unpaid Losses and Loss Adjustment Expenses

The liability for unpaid losses and loss adjustment expenses includes the estimated costs of investigating and settling all claims incurred as of the balance sheet date as well as an estimate for claims that occurred as of the balance sheet date but have not been reported. Such amounts are determined on the basis of an evaluation of the Trust's losses as prepared by the Trust's independent actuary. The liability for unpaid losses and loss adjustment expenses has been discounted for the time value of money.

Contribution Deficiency

Anticipated investment income is considered in determining if a contribution deficiency exists and no such deficiency exists.

Income Tax Exemption

The Oklahoma Schools Risk Management Trust, including The Trust, is a governmental entity and, thus, is exempt from Federal income taxes under Internal Revenue Code Section 115.

Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the Statements of Net Position and Statements of Revenues, Expenses and Changes in Net Position, as well as the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Fair Value Measurements

U.S. Generally Accepted Accounting Principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs in valuation techniques used to measure fair value. The hierarchy gives the highest priority to

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fair Value Measurements - Continued

unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below

Level 1 - Inputs are unadjusted quoted prices for identical assets in active markets.

Level 2 - Inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in active markets; or valuations based on models where the significant inputs are observable (e.g., interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.

Level 3 - Inputs are unobservable and based on management estimate.

NOTE 3 - FAIR VALUE MEASUREMENTS

Assets recorded at fair value, as discussed above, are summarized below:

	June 30, 2019			
	Level 1	Level 2	Level 3	Total
Equity securities	$ 1,191,597	$ --	$ --	$ 1,191,597

The Trust did not have any Level 3 assets at any point during the years ended June 30, 2019 and 2018. There were no transfers between Level 1 and Level 2 during the years ended June 30, 2019 and 2018.

For the year ended June 30, 2019, the equity securities above include fixed income and equity exchange traded funds (ETF's).

	$ 838,261	$ 821,959	$ 25	$(16,327)

NOTE 4 - INVESTMENT SECURITIES - CONTINUED

Proceeds from sales of investment securities for the years ended June 30, 2019 and 2018 were approximately $2,134,000 and $2,006,000, respectively. Gross gains of approximately $60,000 and $49,100 and gross losses of approximately $47,000 and $8,300, respectively, were realized on these sales.

Information pertaining to securities with gross unrealized losses at June 30, 2019 and June 30, 2018, respectively, aggregated by length of time individual securities have been in a continuous loss position, is as follows:

	June 30, 2019					
	Less than 12 Months		12 Months or Greater		Total	
	Estimated Fair Market Value	Gross Unrealized Losses	Estimated Fair Market Value	Gross Unrealized Losses	Estimated Fair Market Value	Gross Unrealized Losses
Equity security	$ 59,631	$ (218)	$ --	$ (--)	$ 59,631	$ (218)

	June 30, 2018					
	Less than 12 Months		12 Months or Greater		Total	
	Estimated Fair Market Value	Gross Unrealized Losses	Estimated Fair Market Value	Gross Unrealized Losses	Estimated Fair Market Value	Gross Unrealized Losses
Corporate bonds	$ 747,923	$ (15,051)	$ 44,374	$ (1,276)	$ 792,297	$ (16,327)
Equity security	41,888	(3,225)	--	(--)	41,888	(3,225)
	$ 789,811	$ (18,276)	$ 44,374	$ (1,276)	$ 834,185	$ (19,552)

The unrealized loss on 1 equity security at June 30, 2019 and 2018 was caused primarily by normal stock price fluctuations. The severity of the impairment (minimal and 7%, respectively) is consistent with the individual variability of a stock price over a short-term period of time.

The unrealized losses on 16 debt securities at June 30, 2018 were caused primarily by rising interest rates. The severity of the impairment (ranging from minimal to 4%) is consistent with the general trend in debt securities.

NOTE 4 - INVESTMENT SECURITIES - CONTINUED

The Trust has evaluated the near-term prospects of the issuers in relation to the severity and duration of the above impairments and has the intent and ability to hold these investments for a reasonable period of time sufficient for a forecasted recovery of fair value. Further, the Trust has evaluated each issuer and noted no issuer with compelling evidence that any of these losses are permanent. Based on this analysis, the Trust does not consider these investments to be other-than-temporarily impaired at June 30, 2019 and 2018.

NOTE 5 - REINSURANCE

The Trust has purchased reinsurance for protection against losses in excess of the applicable retention. Reinsurance contracts do not relieve the Trust from its obligations to members. Failure of reinsurers to honor their obligations could result in losses to the Trust. Accordingly, the Trust evaluates the financial condition of its reinsurers to minimize its exposure to significant losses from reinsurers' insolvency. As of June 30, 2019 and 2018, reinsurance recoverable on unpaid losses and loss adjustment expenses of approximately $1,364,000 and $1,001,000, respectively, were associated with a single reinsurance carrier and deducted from reserves.

The Trust has obtained the following reinsurance for the 2018/2019 and 2017/2018 program years:

The Trust obtained property-specific reinsurance with limits of up to $500,000,000 any one loss occurrence for June 30, 2019 and $750,000,000 any one loss occurrence for June 30, 2018, $250,000 for flood coverage, and $250,000 for earth movement.

The Trust obtained property aggregate excess of loss reinsurance with limits up to $1,500,000 in 2018/2019 and 2017/2018, to limit its aggregate retention under the property excess of loss coverage.

The Trust obtained general liability and automobile liability excess of loss reinsurance for limits up to $2,000,000 on a per member district, per occurrence or claim made, per line of business basis. The coverage is subject to an annual aggregate combined single limit of $2,000,000 per member district in respect to general liability, as per the primary plans of coverage.

The Trust obtained equipment breakdown reinsurance coverage up to $100,000,000.

The Trust obtained school board legal liability (E&O) reinsurance coverage for limits up to $5,000,000 in 2018/2019 and 2017/2018.

The Trust obtained cyber liability coverage up to $1,000,000 in 2018/2019 and 2017/2018.

NOTE 6 - UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSES

Unpaid losses and loss adjustment expenses are based upon an evaluation of the Trust's losses as prepared by the Trust's independent actuary. This evaluation of the Trust's losses is a significant estimate which is subject to change and the change can be material in relation to the financial statements taken as a whole. This estimate includes an estimated provision for incurred but not reported losses (IBNR) as well as trending of reported losses. For the years ended June 30, 2019 and 2018, the undiscounted IBNR totaled approximately $1,467,000 and $1,640,000, respectively. For the years ended June 30, 2019 and 2018, the liability for unpaid losses and loss adjustment expenses has been discounted to its net present value in the accompanying financial statements. The reserves were discounted utilizing loss payout patterns provided by management at discount rates ranging from 3.0% to 3.5%. The discounted reserves represents the present value of the net reserves. The unpaid losses and loss adjustment expenses were discounted by approximately $109,000 at June 30, 2019 and $100,000 at June 30, 2018, net of the effects of discounting the reinsurance recoverable on unpaid losses.

The independent actuary provided a range of losses as of June 30, 2019, of approximately $3,879,000 to $4,902,000 (undiscounted). The losses recorded were approximately $4,160,000 (undiscounted) and was approximately $374,000 less than the actuary's point estimate. This creates further uncertainty as to the ultimate level of losses for the year ended June 30, 2019. The independent actuary provided a range of losses as of June 30, 2018, of approximately $3,353,000 to $4,030,000 (undiscounted) The losses recorded were approximately $3,462,000 (undiscounted) and was approximately $199,000 less than the actuary's point estimate. This creates further uncertainty as to the ultimate level of losses for the year ended June 30, 2018.

At June 30, 2019 and 2018, unpaid losses and loss adjustment expenses are shown net of reinsurance recoverables on unpaid losses and loss adjustment expenses of approximately $1,364,000 and $1,001,000, respectively. The losses and loss adjustment expenses are net of the effect of changes in recoveries recognized under the reinsurance contracts referred to in Note 5.

Any increase or decrease in the estimate of ultimate incurred losses and loss adjustment expenses as compared to the prior year will result in a direct increase or decrease in the current year's operating income. Increases or decreases of this nature occur as the result of claim settlements during the current year, and as additional information is received regarding individual claims, causing changes from the original estimates of the cost of these claims. Recent loss development trends are also taken into account in evaluating the overall adequacy of unpaid losses and loss adjustment expenses. In addition, there are no premium adjustments made based on loss development, as there are no retrospectively rated policies.

NOTE 6 - UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSES - CONTINUED

At June 30, 2019 and 2018, losses and loss adjustment expenses included approximately $577,000 and $888,000, respectively, of service fees. A portion of these fees are for loss control in addition to the claims administration fees. However, the contract does not have a breakdown of what portion are for loss control services.

Activity in the liability for unpaid losses and loss adjustment expenses is summarized as follows:

	2019	2018
Balance at June 30,	$ 4,456,174	$ 5,464,872

NOTE 7 - ROYALTY AGREEMENT/RELATED PARTY TRANSACTIONS

The Trust has a royalty agreement with Oklahoma State School Boards Association ("OSSBA"). The agreement grants the Trust the exclusive right and license to use the OSSBA name and logo in connection with the marketing and administration of the insurance programs offered by the Trust. At June 30, 2019 and 2018, royalty expense totaled approximately $131,000 and $292,000, respectively, of which approximately $6,000 and $45,000, remained payable at June 30, 2019 and 2018, respectively.

NOTE 8 - CONCENTRATIONS

All members who participate in the Trust are public school districts and vocational technical school districts within the State of Oklahoma.

The Trust maintains cash in demand deposit accounts with federally insured banks. At times, the balances in these accounts may be in excess of federally insured limits.

NOTE 9 - UNCERTAINTIES

The Trust's investments are exposed to a variety of uncertainties, including interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is possible that changes in the values of these investments could occur in the near term. Such changes could materially affect the amounts reported in the financial statements of the Trust.

NOTE 10 - POLICY YEAR-END CHANGE

During the year ended June 30, 2018, the Board of Trustees approved transitioning all members to a July 1st renewal date beginning with the plan year ending June 30, 2019. Accordingly, the Trust no longer has unearned premiums.

NOTE 11 - ADVANCE PAYMENTS BY REINSURER

During the year ended June 30, 2019, the Trust received approximately $784,000 from a reinsurer in advance of actual claim disbursements.

NOTE 12 - GOING CONCERN AND MANAGEMENT'S PLANS

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of OSRMT as a going concern. OSRMT has sustained decreases in net position in the past two years totaling approximately $1,187,000 and $1,026,000 for the years ended June 30, 2019 and 2018, respectively. The largest impact on the net position is due to a 44 percent increase in effective property reinsurance rates between the years ending June 30, 2019 and 2016. The Board of Trustees has initiated actions as detailed below to improve the overall financial position of OSRMT. Management believes that actions presently being taken to revise OSRMT's operating and financial requirements provide the opportunity for OSRMT to continue as a going concern.

NOTE 12 - GOING CONCERN AND MANAGEMENT'S PLANS - CONTINUED

As noted above, property reinsurance rates have increased significantly in recent years due to increased frequency and severity of catastrophic weather-related events globally. Management believes this trend will continue. Management continues to work aggressively to keep reinsurance expenses as low as possible without increasing the risk retained by OSRMT.

OSRMT has experienced a loss of membership over the last two years. OSRMT will aggressively market the program to increase membership and to maintain a competitive marketplace for public schools.

The Board of Trustees approved a 25 percent rate increase for the year ending June 30, 2020. The Board of Trustees also approved classifying a portion of the above increase as reserve (capital) contribution which carries no associated commissions, royalties or other fees. Going forward, it is anticipated that there will be contributions charged to address any deficit in the net position.

NOTE 13 - SUBSEQUENT EVENTS

Management considered subsequent events through December 4, 2019, the date the financial statements were available to be issued.

OLIVER WYMAN

ACTUARIAL STATEMENT OF OPINION
OKLAHOMA SCHOOLS RISK MANAGEMENT TRUST
As of June 30, 2019

IDENTIFICATION

I, Natasha Dimitrienko, am a Principal for Oliver Wyman Actuarial Consulting, Inc. I am a member of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to perform the actuarial opinion contained herein. I am also a Fellow of the Casualty Actuarial Society.

SCOPE

Oklahoma Schools Risk Management Trust (OSRMT or the Company) is a self-insurance trust established in 2009 providing various property and casualty coverage needs of Oklahoma School Districts. Effective November 1, 2015 the State of Oklahoma requires an actuarial opinion to certify the amount and adequacy of reserves for loss and loss adjustment expenses, including amounts for Incurred But Not Reported (IBNR) claims, and the adequacy of premiums. This opinion provides an estimate of OSRMT's liability related to these exposures.

I have examined the actuarial assumptions and methods used in determining reserves listed in the table below, as shown in the Financial Statements as prepared for filing with the state regulatory officials, as of June 30, 2019.

Unpaid losses and loss adjustment expenses	5,372,319
Reinsurance recoverable on unpaid losses	(1,363,585)
Net unpaid losses and loss adjustment expenses	4,008,734

The earned member contributions (i.e. premiums) for the year ending June 30, 2019 are $11,188,731 per Page 11 of the Financial Statements.

In forming my opinion of the loss, loss adjustment expense reserves and premiums, I relied upon data prepared by OSRMT and The Sandner Group, which is the OSRMT's administrators. I evaluated that data for reasonableness and consistency.

OPINION

In my opinion, giving consideration to the issues herein, the amounts identified above:

A. meet the requirements of the self-insurance laws of Oklahoma;

B. are consistent with reserves computed in accordance with accepted loss reserving standards and principles;

C. make reasonable provision, in the aggregate, for all unpaid loss and loss adjustment expense obligations of the Company under the terms of its policies and agreements. However, the premiums are inadequate as exhibited by the Net Position being $(2,161,399) per Page 11 of the Financial Statements.

RELEVANT COMMENTS

A. Risk of Material Adverse Deviation
The greatest risks to the OSRMT's loss reserve adequacy are associated with adverse development on large claims. However, the excess reinsurance mitigates this risk. A general risk is the lack of diversification, since all policies are related to exposure in the state of Oklahoma. I believe that these and potential other risks and uncertainties could result in material adverse deviation in the loss and loss adjustment expense reserves. In consideration of the use of this opinion for purposes of solvency monitoring, I consider $400,000 to be material for this Company, calculated 10% of loss and loss adjustment expense reserves.

B. Other Disclosures
There are no additional disclosures.

C. Reinsurance
We assume that all reinsurance is valid and fully collectible.

D. IRIS Ratios
Not applicable.

E. Methods and Assumptions
There are no changes to methods or assumptions.

F. Additional Comments
Unpaid loss and loss adjustment expense reserves are subject to inherent uncertainty due to the variability of fortuitous outcomes of contingent events which may affect loss and loss adjustment expense costs. In evaluating whether the reserves make a reasonable provision for unpaid losses and loss adjustment expenses, it is necessary to project future loss and loss adjustment expense emergence and payments. It is virtually certain that actual future losses and loss adjustment expenses will not develop exactly as projected and may, in fact, vary significantly from the projections. No warranty is expressed or implied that this will not occur.

I have neither examined the assets of the Trust nor formed any opinion as to the value or validity of the assets. My review was limited to the items noted in the scope paragraph and did not include an analysis of any income statement or other balance sheet items. My opinion that the

reserves make a reasonable provision in the aggregate for the unpaid loss and loss adjustment expense obligations of the Trust presumes that these reserves are backed by valid assets and that these assets reflect suitably scheduled maturities and/or sufficient liquidity to meet cash flow requirements.

This statement of opinion is intended solely for the use of, and only to be relied upon, the Trust and the State of Oklahoma.

An actuarial report and underlying work papers supporting the findings expressed in this Statement of Actuarial Opinion are being provided to the Company to be retained for a period of seven years at its administrative offices and available for regulatory examination.

Re: 2020-2021 OSAG Workers' Compensation Insurance Quote

Dear Mr. Hime,

Thank you for helping to make OSAG the largest provider of workers' compensation to public schools in Oklahoma. Your 2020-2021 OSAG renewal quote is as follows:

2020-2021 OSAG Premium ***BEFORE*** Discounts:	$868,000
Financial Relief Benefit for 2020-21:	$127,000
Total 2020-2021 OSAG Workers' Compensation Renewal Premium Minus Awards/Credits:	**$741,000**

Your OSAG policy also contains Employers' Liability Limits of $1,000,000/$1,000,000/$1,000,000

Active membership in the Oklahoma School Assurance Group provides an array of benefits for your district, including continued membership *performance dividend awards*. The following example reflects the ***current and potential*** dividend awards for Lawton School District **if** membership remains active, and district loss records qualify:

2021-2022 Estimated Financial Relief Benefit	*$57,150*
2021-2022 Possible Membership Dividend	*$274,620*
2022-2023 Possible Membership Dividend	$213,970
2023-2024 Possible Membership Dividend	$231,527
Total Possible Future Membership Dividend:	**$777,267**

About the OSAG Proposal:

*OSAG is a group policy, therefore Experience Modification Factors are not applicable for our school district members.

*The Membership Dividend is the maximum amount that may be awarded to an active member as a performance dividend. This figure is based on individual district loss performance.

*All members that renew with OSAG have a *Membership Dividend* associated with active membership. ***In order to receive the Membership Dividend, a member must be active with paid premium for the 2020-2021 policy year.***

CompSource Mutual has declared a $60,000,000 dividend to be paid out to the benefit of policyholders with the potential of OSAG members receiving significant benefits for their membership in OSAG. This dividend would provide OSAG members record benefits and premium savings/reductions for each individual member. School district members would receive award amounts in addition to the Membership Dividend listed above.

THE AUDITORS' COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

OKLAHOMA SCHOOL ASSURANCE GROUP

JUNE 30, 2019

ROSE ROCK
CPAs

To the Board of Trustees
Oklahoma School Assurance Group
Oklahoma City, Oklahoma

We have audited the financial statements of Oklahoma School Assurance Group ("OSAG") for the year ended June 30, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and *Government Auditing Standards*, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 16, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by OSAG are described in Note A to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during the year ended June 30, 2019. We noted no transactions entered into by OSAG during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting OSAG's financial statements were:

- OSAG's allowance for doubtful accounts is based on the length of time a receivable is past due, previous payment history and an analysis of the collectability of individual accounts. We evaluated the key factors and assumptions used to develop the allowance in determining that it is reasonable in relation to the financial statements taken as a whole.
- Management's estimate of the fair value of investments is based on valuations provided by the third-party entities that hold the investments for OSAG. We evaluated the key factors and assumptions used to estimate the fair value of the investments. Based on our evaluation, the estimated fair value for the investments appeared reasonable.
- OSAG's liability for policy and contract retention reserves is generally limited to the prior three policy periods. Each individual member's liability is limited to its specific retention level for each policy period. Actual member claims in excess of the retention level for a policy are covered by a stop-loss insurance agreement with CompSource Mutual. Any policy and contract retention reserves not required for claims will be used to reduce future premium costs of the active members. OSAG bases its estimate on claims data existing at June 30, 2019 and estimates of incurred but not reported claims; however, these liabilities are limited to OSAG's retention levels. Further, any contract retention reserves not required for claims will be used to reduce future premium costs of active members. We evaluated the key factors and assumptions used to develop OSAG's estimates and concluded that management's estimate is reasonable.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

- The disclosure regarding contingencies associated with OSAG's insurance agreements with CompSource Mutual in Note F to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to OSAG's financial statements taken as a whole. Adjustments are detailed on Appendix A to this letter.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated November 22, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to OSAG's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as OSAG's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management's discussion and analysis, which is required supplementary information ("RSI") that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

Restriction on Use

This information is intended solely for the information and use of the Board of Directors and management of OSAG and is not intended to be, and should not be, used by anyone other than these specified parties.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2019

The following Management's Discussion and Analysis ("MD&A") of the activities and financial performance of Oklahoma School Assurance Group ("OSAG") provides an introduction to the financial statements for the years ended June 30, 2019 and 2018.

OSAG, established in June 1994, is an Interlocal Cooperation Act Agency of schools offering membership to public and vocational technical school districts in Oklahoma with the mission of providing efficient and economical workers' compensation services to its members.

Financial and Activity Highlights

Our operations for the years ended June 30, 2019 and 2018 resulted in increases to net position of approximately $231,000 and $117,000, respectively. These increases are a result of tight budget practices and investment management.

The school superintendents who preside over the OSAG program have played an integral part in the formation and critical decisions of OSAG. All member schools have a voice in OSAG, since this is a school-owned program, run by its peers and solely in business to serve Oklahoma schools.

OSAG is an inter-local and operates under the Oklahoma Open Meeting Act similar to school districts. OSAG is a member of various educational organizations and pays sponsorship to those organizations for membership. As of June 30, 2019, OSAG membership is comprised of 496 school districts.

Overview of the Financial Statements and Financial Analysis

This report consists of Management's Discussion and Analysis (this part), the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position, and the Statements of Cash Flows. These statements provide financial information on OSAG as a whole.

These statements include all assets and liabilities using the accrual basis of accounting. All of the revenues and expenses are recognized when earned or incurred regardless of when cash is received or paid.

This financial report is designed to provide member school districts, creditors, and suppliers with a general overview of OSAG's finances.

The Statements of Net Position and the Statements of Revenues, Expenses and Changes in Net Position report OSAG's net position and how it has changed. Net position, the difference between assets plus deferred outflows and liabilities plus deferred inflows, is one way to measure OSAG's financial health or position.

The following summarizes OSAG's assets, liabilities and net position as of June 30 (OSAG has no deferred outflows or inflows):

The Statements of Cash Flows

The primary purpose of the Statements of Cash Flows is to provide information about the cash receipts and disbursements of an entity during a period. This statement also aids in the assessment of an entity's ability to generate future cash flows, ability to meet obligations as they come due, and needs for external financing. The following summarizes OSAG's cash flows for the years ended June 30:

	2019	2018	2017
Cash provided by (used in):			
Operating activities	$ (161,107)	$ (1,034,138)	$ (2,554,374)
Noncapital financing activities	16,790	17,240	23,800
Investing activities	(698,272)	599,892	(673,225)
Net decrease in cash and cash equivalents	(842,589)	(417,006)	(3,203,799)
Cash and cash equivalents, beginning of year	2,428,443	2,845,449	6,049,248
Cash and cash equivalents, end of year	$ 1,585,854	$ 2,428,443	$ 2,845,449

OSAG's overall liquidity decreased during the year ended June 30, 2019 primarily due to a decrease in cash received for claims covered by stop-loss insurance of approximately $1,442,000, an increase in cash payments for stop-loss insurance, claims, marketing and general and administrative fees and other operating expenses of approximately $1,074,000, plus net purchases of investments, net of related investment income, of approximately $698,000. These decreases in liquidity were partially offset by increases in cash received for member performance dividends of approximately $1,646,000 and a decrease in benefit payments to policy holders of approximately $1,250,000. OSAG's overall liquidity decreased during the year ended June 30, 2018 primarily due to a decrease in premium income received of approximately $2,267,000 and a decrease in cash received from claims covered by stop-loss insurance of approximately $3,901,000, offset by a decrease in cash payments for stop-loss insurance, claims, marketing and general administrative fees, and other operating expenses of approximately $1,935,000, and decreases in benefits paid to policyholders of approximately $5,754,000 plus net proceeds from investment sales and maturities and related investment income of approximately $600,000. OSAG's overall liquidity decreased during the year ended June 30, 2017 primarily due to a decrease in premium income received of approximately $15,685,000, offset by a decrease in cash payments for stop-loss insurance, claims, marketing and general administrative fees, and other operating expenses of approximately $7,367,000, and decreases in benefits paid to policyholders of approximately $2,321,000 and net purchases of certificates of deposit of approximately $673,300. Cash transactions in operating activities are primarily related to receipts of member contributions for the years ended June 30, 2019, 2018 and 2017 and for the prepayment of member contributions for fiscal years 2019, 2018 and 2017, offset by insurance and management disbursements of OSAG. Cash provided by or used in investing activities relates to proceeds from the sale or maturity of investments and income earned on investments net of investment purchases.

Capital Asset and Debt Administration

OSAG had no capital asset and debt administration activity during the years ended June 30, 2019, 2018, or 2017.

Overview of the Financial Statements and Financial Analysis, Continued

Economic Factors and Premium Rates

OSAG's management considered many factors when developing the annual operating budget for the fiscal year ending June 30, 2019.

The budget for the fiscal year ending June 30, 2019 was developed based upon the following key assumptions:

- Premium contributions are based upon the cost of excess insurance quoted by CompSource Mutual plus administrative costs.
- Investment income is projected to be approximately 1 percent of the market value of total investments.
- Stop-loss premiums deviate annually based on current workers' compensation market levels and profitability of the group.

Independent Auditors' Report

To the Board of Trustees
Oklahoma School Assurance Group
Oklahoma City, Oklahoma

Report on the Financial Statements

We have audited the accompanying financial statements of Oklahoma School Assurance Group ("OSAG"), which comprise the statements of net position as of June 30, 2019 and 2018, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to OSAG's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of OSAG's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of OSAG as of June 30, 2019 and 2018, and the changes in its net position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization: Oklahoma School Assurance Group ("OSAG") was established by an agreement with an effective date of June 1, 1994, and a duration of fifty years, unless sooner dissolved or extended. OSAG is an Interlocal Cooperation Act Agency of schools offering membership to Oklahoma public and vocational technical school districts with the mission of providing efficient and economical workers' compensation services to its members.

OSAG has created a Workers' Compensation Plan Fund and an Operating Fund. The purpose of the Workers' Compensation Plan Fund is to provide workers' compensation coverage through CompSource Mutual Insurance Company ("CompSource Mutual") to participating school districts in the state of Oklahoma as required by the Oklahoma Workers' Compensation Act. One basic insurance plan exists for covered employee claims of participating school districts. Covered employees include management, teachers, volunteers, and other full and part-time employees. The purpose of the Operating Fund is to provide management to the Workers' Compensation Plan Fund. For financial statement presentation purposes, the two funds have been combined with all inter-fund activity eliminated.

All affairs of OSAG are governed by a Board of Trustees elected by and from its members. Trustee responsibilities include reviewing and ensuring compliance with OSAG's policies and services as contemplated in its establishing agreement. For the years ended June 30, 2019 and 2018, the Board of Trustees contracted with Consolidated Benefits Resources to be the third-party administrator responsible for claims processing and management for OSAG members and The Beckman Company to serve as the marketing agent and professional insurance consultant. Fees payable to Consolidated Benefits Resources and The Beckman Company are determined on a member-by-member basis at the time the risk is underwritten.

Title to all assets acquired by OSAG is vested in it. In the event of termination, such property shall belong to the then members of OSAG in equal shares. Each participating school district pays for all costs, premiums, or other fees attributable to its respective participation in any plan, policy, or service created in the establishing agreement and the service agreement with CompSource Mutual. Each school district is responsible for its obligation under any contract entered into with OSAG.

Financial Statement Presentation: OSAG's financial statements are presented in accordance with requirements of the Governmental Accounting Standards Board ("GASB") specific to enterprise fund activities. Under these requirements, OSAG is required to present a statement of net position classified between current and noncurrent assets and liabilities, a statement of revenues, expenses and changes in net position, with separate presentation for operating and nonoperating revenues and expenses and a statement of cash flows, using the direct method.

Basis of Accounting: For financial reporting purposes, OSAG is considered a special-purpose government entity engaged only in business-type activities. Accordingly, OSAG's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred.

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--CONTINUED

Revenue Recognition: Insurance contracts with member school districts are for a one-year period beginning July 1 through June 30. Premiums are determined on a member-by-member basis and are due at the beginning of each contract period and are recognized as revenue over the period of the contract. Each school district's premium is based on its loss history for the last five years with the last three years having greater significance. Premiums received in advance are amounts received in excess of amounts due and for which coverage has not yet been provided.

Each premium includes an amount designated to cover administrative expenses of OSAG, which is determined annually by the Board of Trustees.

Cash, Cash Equivalents and Other Deposits: OSAG considers all demand deposit accounts and investments with original maturities of 90 days or less, excluding money market mutual funds held in OSAG's investment portfolio, to be cash equivalents. As circumstances dictate, amounts in each fund's main checking account are swept into interest-bearing accounts that are insured or collateralized by U.S. government securities. Non-negotiable certificates of deposit with original maturities of 90 days or more are classified as investments for financial reporting purposes.

Investments: OSAG reports most types of investments at fair value in the statements of net position and reports all investment income, including changes in fair value of investments, as revenue in the statements of revenues, expenses, and changes in net position.

Investments are classified as current and noncurrent consistent with the contractual maturities of investments that mature within a year and greater than a year, respectively. All investments with no stated maturity are considered current. Investments in pooled investment funds and U.S. Govt securities-based-mutual funds are reported as current in the accompanying statements of net position as OSAG has the ability to redeem these investments on at least a weekly basis. For purposes of interest rate risk disclosure (see Note B), the average maturities of the fund holdings are used to indicate interest rate risk. OSAG's investments can be liquidated and converted into cash based on management's determination; however, penalties may be incurred with an early redemption.

Premiums Receivable, net: Premiums receivable consists of amounts billed to members for insurance premiums. OSAG determines its allowance for premiums receivable by considering a number of factors, including length of time accounts receivable are past due and the previous payment history. Once an allowance for doubtful accounts has been established, OSAG continues collection efforts and any payments subsequently received on such receivables are credited to the operating expenses. The allowance for doubtful accounts was $45,906 and $0 at June 30, 2019 and 2018, respectively.

Due to CompSource Mutual: Due to CompSource Mutual consists of retention claims paid by CompSource Mutual for which OSAG is responsible for reimbursement. In December 2017, CompSource Mutual began paying OSAG retention claims using Compsource Mutual paper. Any OSAG retention claims paid by CompSource Mutual subsequent to December 1, 2017 are the responsibility of OSAG, and OSAG is required to reimburse CompSource Mutual for these cumulative retention payments.

NOTE A--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--CONTINUED

Due to Members: Retention credits and performance dividends are accrued by OSAG and applied toward future member policy premiums. Due to members consists of $1,703,632 in retention credits and $1,646,104 in performance dividends as of June 30, 2019. The retention credits will be applied toward fiscal year 2020 member premiums while the performance dividends are expected to be applied to fiscal year 2021 member premiums that will be billed in May of 2020. Due to members consisted of $1,007,398 as of June 30, 2018 and was applied toward fiscal year 2019 member premiums.
