After a salute to the flag, President Sciarrino requested the Secretary to call the roll. The following Board Members were present: Mr. Kaufman, Mr. Leffever, Mr. McMullen, Mr. Merkl-Gump, Mrs. Rash, Mrs. Sciarrino, Mrs. Taylor, Mr. Trauger, and Mr. Wurz. Mr. Kaufman, Mr. McMullen, and Mr. Wurz. Also present were Dr. Berrios, Dr. Palmer, Dr. Bloom, Mr. Daubert, Mr. Johnson, Dr. Doster, Solicitor Michael Miller, Board Secretary Mrs. Chenoweth, and approximately 75 guests while numerous guests watched via the livestream.

President's Report

Good evening again to everyone here tonight, and to everyone listening to us from home. Our staff and Board members have really hit the ground running this school year, and there is a lot of great work happening across the district.

In our Personnel Department, we continue to look for ways to improve efficiency and keep everyone informed. They will be providing the Board and community with a monthly Human Resources Staffing Summary. I think this will be a helpful way for us to stay informed about our staffing needs, our progress, and any challenges we may be facing throughout the year.

I am also very happy to share that our Summer 2026 facility projects have been completed successfully. A big thank you to Mr. Craig Bramble for overseeing all of these projects. This summer's work included a new roof at Central Middle School, a new boiler at West Rockhill, new hot water systems at both Deibler and Grasse, new generators at West Rockhill, temperature control improvements at Seylar, and a new scoreboard for the High School pool.

We take great pride in our schools, and we work hard to maintain them. It is important to us, and a priority, that our students and staff have safe, comfortable, and well-maintained buildings where they can learn and work every day.

I also want to continue encouraging everyone to watch our committee meetings. Links to the meetings can be found on our website. That is really where a lot of the work, discussion, and planning happens.

I especially encourage everyone to watch our September Curriculum Committee meeting. There was a lot of great information shared. The meeting began with an update on STEM+M, which, in a nutshell, is an exciting addition and opportunity for our seventh-grade students. The Teaching and Learning Department is also working on revamping our College and Career Readiness program. This will engage all of our high school students and help better prepare them for life after graduation.

Minutes of the September 28, 2026 meeting

The Teaching and Learning Department also reviewed our English Language Development program here at Pennridge. We currently have 200 English language learners representing more than 29 different languages. Seeing where we are today with this student population compared to where we were when I joined the Board almost three years ago is really wonderful.

I am very proud of the improvements we have made, the care our staff provides, and the purposeful work that continues every day to make sure all our students receive the education they deserve while continually looking for ways to improve the models and supports we provide.

So, thank you to our administrators, teachers, and staff for everything you do each and every day and congratulations to our students for a great start to the year. Keep up the great work! September has been a great month, and I'm excited about the year ahead and all the work we will continue to do to improve our students' experience here at Pennridge. Thank you.

Most Notable Observations/Patterns

In the space provided, record any of the comments and notable observations made as your team worked through the needs assessment that stand out as important to the challenge(s) you checked for consideration in your comprehensive plan.

The data shows that math remains an area for growth, with several math standards across Grades 6-8 performing below desired levels. Students with Disabilities, Economically Disadvantaged students, and Hispanic students continue to face the greatest achievement challenges, particularly in math. While some of these groups met growth expectations, proficiency levels either declined or remained below state targets, which indicates the need for a more rapid improvement academically. Attendance is also an area of concern, especially for Students with Disabilities, whose attendance rates decreased from the previous year. Overall, the data highlights the need for targeted support in math, attendance, and continued efforts to improve outcomes for key student groups. Note: Science was assessed however was a field test.

Priority Challenges

Analyzing Priority Challenges	Priority Statements
	Vocabulary instruction has not been sufficiently systematic or consistent across grade levels and content areas. Students need more explicit instruction in academic and discipline-specific vocabulary, repeated opportunities to apply vocabulary in context, and greater exposure to PSSA-aligned vocabulary tasks. Building-wide common practices and regular analysis of formative and benchmark data are needed to monitor student response and adjust instruction.
	Students demonstrate unfinished learning within foundational concepts and skills connected to Expressions and Equations. Instruction would benefit from greater

	coordination of priority skills, intentional spiral review, common formative assessment, and collaborative analysis of student work and LinkIt data so that misconceptions can be identified and addressed before they become persistent gaps.
	Although Mathematics performance improved for Students with Disabilities, achievement remains below expectations. Students need more consistent targeted practice, small-group intervention, accommodation support, and progress monitoring tied to identified standards. Strengthening the connection between core Mathematics instruction, formative assessment, and MTSS intervention will allow staff to respond more quickly when students are not progressing.
	Students with Disabilities require more consistent access to targeted Tier 1 supports and timely intervention based on individual student data. A more systematic MTSS process is needed to identify skill gaps, coordinate supports and accommodations, monitor progress, and adjust interventions when students are not demonstrating sufficient achievement.

Goal Setting

Priority: Students with Disabilities require more consistent access to targeted Tier 1 supports and timely intervention based on individual student data. A more systematic MTSS process is needed to identify skill gaps, coordinate supports and accommodations, monitor progress, and adjust interventions when students are not demonstrating sufficient achievement.

2. Operations Department Signage
A. Martino Signs proposal

Mr. Craig Bramble reviewed updated pricing for a proposed Operations Department sign. He added that at a previous meeting, a quote from KC Signs and Awnings was presented for approximately \$3,990.

Mr. Bramble explained that additional quotes were obtained, including a quote from Martino Signs and Awnings for \$2,104. The Martino quote indicated that engineering and permit acquisition fees could be additional. Mr. Bramble noted that based on discussions with the vendor, these fees could potentially add up to approximately \$1,800, although the actual amount would depend on the permitting process and engineering requirements.

Mr. Bramble explained that the proposed sign is a basic aluminum sign supported by two posts, with no anticipated need for significant engineering. Therefore, the full additional fee was considered unlikely. He added that even if the entire \$1,800 were incurred, the Martino quote would remain approximately \$100 less than the previously presented quote.

Mr. Bramble clarified that the original quote included a flat \$695 fee for obtaining permits and related services. He added that the proposed sign expense would be covered by funds already included in the budget.

Mr. Trauger expressed appreciation for obtaining additional quotes as requested at a previous meeting.

This item will move forward for approval.

3. Obsolete items for review:
A. Deibler Elementary School

- tables, Public Surplus, Lot #10-01
- laminator, recycle, Lot #10-02

These items will move forward for approval.

4. Approval of Bus Routes and Stops

- A. Approval of bus routes and stops for the 2026-2027 school year as developed by the Transportation Department.

Mr. Daubert noted that bus routes and stops require annual Board approval at the start of each school year and that day to day adjustments occur as needed. Dr. Palmer added that the district tries to maintain the same bus stops. He also noted that route information is required by state law and must be submitted as part of the applicable reporting requirements.

This item will move forward for approval.

2. Review contracts for approval:

- a. Children's Hospital of Philadelphia, educational services for student identified as 2027-05, \$68.59 per hour (\$66.59 ly), 2026-2027 (reviewed by solicitor)
- b. The Springtime School, educational services for student identified as 2027-06, \$615.44 per day tuition and paraprofessional plus \$57,913 for speech therapy, occupational therapy, and behavior services (reviewed by solicitor)

Mr. Daubert explained that the related services cost was calculated using the service hours identified by the District's special education supervisor and the applicable hourly rates. He added that services are governed by the student's IEP.

- c. LearnWell, educational services for student identified as 2027-07, \$64.65 per hour (\$61.55 ly) (reviewed by solicitor)
- d. SMart Center, psychotherapy consultations for student identified as 2027-08, psychotherapy \$150 per session, school consultation 30 minutes \$300 and 60 minutes \$500 (same as ly) (reviewed by solicitor)

Board members requested clarification regarding the total anticipated cost and the quantity of services covered by the contract. Mr. Daubert agreed to verify the anticipated service hours and total cost for the contract.

- e. ePlus Technology, renewal of Cisco phone system licensing and support, \$75,729.55 (\$49,124 ly), 2026-2027 (reviewed by solicitor)

There was discussion from the Board about the cost increase, the contract term, and the feasibility of transitioning to a less expensive cloud-based phone system. Mr. Daubert explained that Mr. Lezoche, Director of Technology, had begun investigating alternatives, including cloud-based systems that could potentially provide comparable functionality. He added that he will seek clarification regarding when the increased contract cost was communicated and what options were available to the District.

- f. Scholastic Book Fairs, North Middle School book fair, 11/30/26 to 12/4/26, parent paid (reviewed by solicitor)
- g. Bucks County Intermediate Unit, Truancy Agreement, 2026-2027, fee schedule attached (reviewed by solicitor)

Mr. Daubert explained that the agreement establishes a fee schedule for services used only when needed and added that utilization in the past has been minimal. Mr. Wurz asked if the rates are the same as in the past. Mr. Daubert stated that he will verify whether the truancy rates have changed from the previous year.

- h. Pennsylvania Economy League, enrollment projections 2026-2027, \$175 per hour (reviewed by solicitor)

Dr. Palmer explained that the PEL would update the enrollment models previously developed for the District approximately two years earlier. He added that the update would account for the enrollment changes and constructions phases. Dr. Palmer noted that because underlying models already exist, the work is expected to be relatively straightforward and less expensive than developing a new program or model.

These items will move forward for approval.

- 3. Student Activity Account as requested below:
 - a. High School Technology Student Association (TSA)-new

This item will move forward for approval.

- 4. Act 1 Index for Fiscal Year 2027-2028 set at 3.6%

Mr. Daubert reviewed the Act 1 Index for fiscal year 2027-2028, which was reported at 3.6%, an increase of 0.1 percentage point from the 3.5% index applicable to the current fiscal year. Mr. Wurz discussed the implications of the increase and reiterated the District's commitment to keep property taxes as low as possible while managing the school district's budget responsibly. Mr. Daubert noted that the District had anticipated a decrease in the Act 1 Index, based on preliminary information, instead the published index increased to 3.6%. He added that the Act 1 Index is primarily driven by inflationary factors.

- 5. Review 2027-2028 Budget Calendar
 - a. Act 1 Timeline
 - b. Non-Act 1 Timeline

Mr. Daubert explained that the Act 1 timeline is used when a school district is pursuing tax exceptions or a referendum. He added that the District will follow the Non-Act 1 timeline because, as a district receiving adequacy funding, it is no longer permitted under the applicable law to file for exceptions. Mr. Daubert explained that under the Non-Act 1 timeline, the District will follow its customary budget process, with budget votes scheduled in May and June. He added that the District is not required to obtain board approval of a preliminary budget in January or February under this process.

- 6. Act 1 Budget recommendation
 - a. 2027-2028 Act 1 Budget Resolution not to exceed Act 1 index of 3.6%.

Mr. Daubert presented the annual Act 1 budget resolution, establishing that the district's proposed budget will not exceed the Act 1 index of 3.6% for the upcoming budget year. He explained that, although state law restricts districts receiving adequacy funding from seeking certain exceptions to the Act 1 index, the statutory requirement for school boards to adopt the annual Act 1 resolution remains in effect.

Mr. Wurz asked how Central Bucks School District was able to pursue a tax increase above the index, given the restrictions affecting districts receiving adequacy funding. Mr. Daubert explained that, during the initial years of the adequacy funding program, some districts received no funding. He added that the state established a minimum adequacy funding amount of approximately \$50,000 for districts that had previously received none. This change was described as a response to political pressure from districts that had been excluded from the original funding allocations.

Mr. Daubert noted that the District received approximately \$89,000 in adequacy funding, which affects its eligibility to seek an exception to the Act 1 index.

Mr. Daubert clarified that the resolution establishes the district's commitment not to exceed the 3.6% Act 1 index and acknowledges the requirement to continue through the annual budget development and adoption process during May and June, as applicable. He noted that the statutory requirement to adopt the resolution remains in place despite the restrictions on seeking exceptions, describing the requirement as a procedural obligation that has not been reconciled with the limitations imposed by other provisions of state law.

This item will move forward for approval.

7. Finance update

Mr. Daubert presented an updated spreadsheet tracking expenditure reductions and budgetary savings implemented since the current year budget was adopted. He previously identified savings totaling approximately \$840,000; the updated total is approximately \$1.2 million.

Some savings discussed included:

- Approximately \$300,000 in student services savings.
- Savings associated with students returning to the district from outside placements.
- Savings resulting from a student completing an outside placement and graduating.
- Approximately \$100,000 is associated with recruiting cyber charter students into the district's cyber program.
- Additional savings through staffing reviews, changes to substitute procedures, and evaluating vacant positions to determine whether replacement is necessary or whether responsibilities can be reassigned internally.

Mr. Trauger recognized the administration's efforts to return students to district programs and reduce expenditures. Mrs. Sciarriano emphasized the importance of sustaining these savings and incorporating recurring reductions into future budgets where appropriate.

Mr. Daubert confirmed that staffing decisions are being reviewed individually and that additional savings opportunities will continue to be evaluated throughout the fiscal year.

Mr. Daubert reviewed preliminary year end estimates based on financial information available as of September 30. He explained that transferring the full \$6.144 million to the capital projects fund would result in an estimated year-end deficit of approximately \$1.271 million and a corresponding reduction in the General Fund balance. He added that reducing the capital projects transfer to approximately \$4.872 million would allow the district to break even for the fiscal year and preserve the general fund balance.

Board members discussed whether reducing the capital transfer would affect planned summer capital projects. Mr. Daubert indicated that the reduced transfer would align with approximately \$4 million in planned summer 2027 capital projects and would not require eliminating a project based on the information presented.

Mr. Daubert's recommendation was expressed in favor of the smaller transfer to avoid a year-end deficit and preserve the General Fund balance. He cautioned that the figures remain preliminary and may change as the annual audit progresses.

Mr. Daubert presented a new forecasting model developed to provide more timely financial information throughout the year. The model combines actual year-to-date results with estimates for the remaining fiscal months, using averages from the previous three years. He added that it will be updated monthly and incorporates identified expenditure savings.

Revenue projects discussed below:

- Actual revenue collected through September was approximately \$98 million, compared with approximately \$88.6 million during the same period in the prior year.
- The comparison was affected by the timing of state funding in the previous year, when state payments did not begin arriving until November.
- The model projected a revenue shortfall of approximately \$744,000 for the fiscal year.
- The projected shortfall reflected reductions in state basic education and special education subsidies, along with lower federal allocations.

Operating expenditure projections discussed below:

- Prior-year spending through the comparable period was approximately \$26.5 million.
- Current-year spending through September was approximately \$27.8 million.
- Projected annual operating expenditures were approximately \$154.7 million against a budget of approximately \$155.2 million.
- The model therefore projected an operating expenditure surplus of approximately \$521,000.

Mr. Daubert noted that after including debt service and transfers at their budgeted amounts, the overall forecast showed a projected deficit of approximately \$223,000. He emphasized that the forecast was based on only three months of actual data and would become more reliable as additional monthly results became available.

Mr. Wurz welcomed the new forecasting tool, noting that it provides improved financial visibility earlier in the year and supports planning before year-end results are available.

Mr. Trauger asked how approximately \$1.2 million in identified savings was reflected in the new forecast and whether the savings represented actual reductions already realized or annualized estimates. Mr. Daubert clarified that the savings spreadsheet reflects identified and anticipated annual savings, while the forecasting model uses actual year-to-date financial results and projected expenditures for the remaining months. He added that savings should become visible through actual expenditure trends as the year progresses.

A lengthy discussion took place on whether financial reports should include monthly budget-to-actual comparisons in addition to year-to-date figures and annual projections.

Mr. Daubert presented approximately ten years of historical revenue data covering FY 2016–2017 through FY 2025–2026. He noted that total district revenue increased by approximately \$27.7 million over the period, representing an average annual increase of approximately 2.12%. He added that revenue growth was below inflation over the period and that expenditure controls were necessary to maintain financial stability.

Mr. Daubert stated that basic education funding increased by approximately \$3.1 million over the ten-year period, with recent annual increases substantially lower than earlier increases. He added that special education funding increased by approximately \$780,000, despite special education being one of the district's fastest-growing expenditure areas. Regarding federal revenue, this has increased by approximately \$104,000 over the period, returning to approximately \$1.4 million after temporary increases associated with COVID-era federal funding.

Mr. Daubert noted that changes in state funding formulas, reductions in subsidies, and the expiration of temporary federal funding have complicated long-term financial planning.

Dr. Berrios explained that the District is facing financial challenges despite receiving significant increases in revenue over the past several years. Earned income tax revenue increased by nearly \$2 million between 2020 and 2021, and federal funding temporarily rose to more than \$4 million in 2022 due to additional pandemic-related assistance. Dr. Berrios went on to explain that earned income tax revenue growth has substantially slowed to below 2% per annum which is less than the inflationary pressure driving expenditure growth. Additionally, Dr. Berrios explained that federal funding provided during the covid era is no longer available to school districts which has returned federal funding to pre-pandemic levels. Dr. Berrios added that the District is now dealing with rising expenses, including special education, employee health insurance, fuel, and other operating costs. Dr. Berrios emphasized that these challenges are affecting school districts across Pennsylvania, not just Pennridge. He stated that the administration will continue looking for ways to reduce spending, including reviewing staffing positions and allowing some vacancies to remain unfilled, while trying to protect the quality of education, student programs, athletics, marching band, and employee wages.

Mr. Daubert reported that several previously available revenue sources have diminished or disappeared, leaving the district increasingly dependent on local revenue to support operations. He added that state and federal funding remains uncertain, with no clear indication of when additional funding may become available.

Mr. Daubert emphasized his continued efforts to control expenditures, including careful monitoring of revenues on a monthly basis and identifying opportunities to reduce costs. As part of its long-term financial planning, Dr. Berrios asked Mr. Daubert to conduct a review of proposed housing developments and potential future construction to estimate the additional revenue these projects could generate for the district. He noted that although the timing and financial impact of these developments remain uncertain, the analysis is intended to improve revenue forecasting and provide greater insight into future financial conditions.

Mr. Wurz expressed appreciation for the administration's proactive approach to financial planning, expenditure reductions, and improved financial forecasting. He noted that the additional forecasting tools provide greater visibility into the district's financial position and help reduce the likelihood of unexpected budget shortfalls. Mr. Wurz also acknowledged that the District appears to be approaching a balanced financial position for the upcoming year. He recognized that a significant financial challenge remains over the next three years as the district works to bridge the anticipated revenue gap and continued cost-saving measures and improved forecasting were identified as important factors in managing this transition.

Mrs. Rash also emphasized the distinction between costs the District can control and external factors beyond its control. She added that areas within the District's control include staffing, purchasing decisions, technology and systems investments, and extending the useful life of existing equipment and resources. She noted that rising costs for goods and supplies, along with changes in state and federal funding, create financial pressures that the district cannot directly influence.

Mrs. Rash stressed the importance of helping the community understand these external financial challenges and the broader importance of supporting public education. She noted that, if operating costs continue to rise and additional state or federal assistance is not available, increased local taxation may become necessary to sustain district operations.

LearnWell will provide direct instruction and administrative support based on the student's curriculum and/or IEP. LearnWell will perform the following specific actions to support your student:

1. 10 hours of educational services per week, delivered individually or in a classroom setting, by a certified teacher who is a direct employee of LearnWell
2. Ongoing communication via phone, fax, or e mail, with the applicable school officer to receive, complete and return the student's school work.

Payment Policy:

With the demand for services and clinical team member's time, we require a purchase order promising the total service fee payment or a signed contract no later than 3 days prior to services being rendered. Service payment is due four weeks following the service being rendered.

Cancellation Policy:

We ask for as much notice as possible prior to a scheduled consult if it needs to be rescheduled. We have a long waiting list for appointments and the sooner you let us know, the better the opportunity to allow for another patient in need of our services to take that time. We understand that unforeseen circumstances can cause an organization/family to cancel their appointment. Our office staff sends out reminders via email. ***If we receive less than 24 hours' notice that a consult time needs to be rescheduled, then the consult payment is still due as previously scheduled. Less than 24 hours' notice cancellations & no show appointments, unless a sudden emergency occurs where documentation can be provided, are not acceptable and payment is required for the no-show appointment.***

October 2026

A Proposal to Provide an Updated Comprehensive Analysis of Demographics, Housing and Related Activities, and Other Relevant Factors and Generate Aggregate Districtwide Projections of K-12 Enrollments in the Pennridge School District

I. PURPOSE

The purpose of this proposal is to define the study's objectives and the scope of services to be provided by the Pennsylvania Economy League, Central PA, LLC, to the Pennridge School District relative to an updated comprehensive analysis of demographics, housing and related activities, and other relevant factors and the projections of aggregate districtwide K-12 enrollments in the district, and the terms and conditions under which they would be provided.

II. OBJECTIVE

The objective of the proposed study is to determine the future patterns of K-12 enrollments in Pennridge with a view to providing a base of reliable data for use by administrators, board members, and the public in making important decisions regarding the district's future classroom, staffing, program, and operational needs.

III. SCOPE OF SERVICES

The Pennsylvania Economy League will perform the following:

- A. Update population trends, birth patterns, migration patterns, the proportion of children involved in non-district schools and educational program (or example, private/parochial schools, home schooling, charter schools, cyber schools, full-time area career and technical centers, full-time Intermediate Unit programs, state owned schools, full-time consortium-operated alternative schools, juvenile correctional facilities, etc...), and historical K-12 enrollment trends.
- B. Update housing and related activities including the annual number of building and/or occupancy permits issued for new and/or rehabilitated housing units during the recent past; new housing developments and related activity recently completed and underway or planned; turnover in existing housing; the relationship of children to housing units; the amount of undeveloped land available in the district; infrastructure considerations; and other factors capable of influencing growth.
- C. To the extent possible, update and organize data on planned dwelling unit construction or real estate trends by various attendance areas in order to give the district a clear indication of where planned new housing unit activity—by number and by type—will be concentrated over the next several years. Similarly, population and birth data will be presented for the district.

- D. Provide updated aggregate districtwide K-12 enrollment projections by grade and current grade alignment for the next 10 years. These projections will incorporate the recent experience in the district with respect to cohort survival rates and pupil progression and will be strongly influenced by the various demographics, birth, housing, and related information that will be analyzed as part of Work Items A and B.
- E. If data is available, provide updated K-12 enrollment projections by sending areas by grade and current grade alignment for the next 10 years. These projections will incorporate the recent experience in the district with respect to cohort survival rates and pupil progression and will be strongly influenced by the various demographics, birth, housing, and related information that will be analyzed as part of Work Items A and B.

IV. DELIVERABLES

PEL will provide a one-page update to enrollment projections every 2-3 years, as requested by the school district. In addition, PEL will provide detailed an Excel book detailing all updated projections. PEL will make itself available for a public meeting/presentation on the substance of the updated projections.

V. DATA TO BE FURNISHED TO PEL

All information, data, reports, records, and other documents necessary for carrying out the above items of work are to be furnished to PEL without charge by the district and/or its agent(s). A full data request will be provided upon acceptance of the proposal. If essential information cannot be provided to PEL by the district within 30 days of the project initiation date, the timetable may have to be altered accordingly. Similarly, failure of the district, its agents, or its municipalities to provide all data requested may preclude PEL from completing all phases of this project as proposed. Any charges to PEL by third parties for services or materials deemed necessary for the successful completion of this examination will be passed through to the Pennridge School District—provided PEL receives the prior written approval of the district.

VI. COOPERATION OF BOARD, STAFF, AND/OR AGENT(S)

It is understood that the successful completion of the study in the time proposed herein will require the full cooperation of the board, its staff, and/or its agent(s), and representatives of the district's member municipalities, and others whose data and judgments are needed, and that such cooperation will be provided to PEL. To help ensure this cooperation, when necessary and required, the district agrees to send a letter of introduction to appropriate representatives, such as the district's member municipalities, within two weeks of the initiation of the project and to provide PEL with the names, phone numbers, and addresses of appropriate individuals in order to facilitate interviews via Zoom or teleconference. If in-person meetings are required, reasonable travel costs will be invoiced separately, with receipts and documentation provided.

VII. COMPENSATION

PEL's charges for its services shall be \$175 per hour commencing upon approval of this proposal through a final determination by the Pennridge School District. The Consultant shall be reimbursed for mileage and reasonable out-of-pocket costs associated with any travel and related expenses. Payments to PEL shall be made monthly upon submission by PEL of invoices to Pennridge School District.

*PEL reserves the right to negotiate for additional compensation if it is necessary to address unknowns that might require additional expertise and/or analysis beyond the Scope of Work outlined in this proposal. Any additional compensation must be in writing and approved in advance by the Board of School Directors as an amendment to this Agreement.

Accelerated Budget Opt Out Resolution Certifying Tax Rate Within Inflation Index
(and No Need to Comply with Act 1 Accelerated Budget Procedures)
2027-2028 School Year

Background. Act 1 § 311(a), 53 P.S. § 6926.311(a), requires an accelerated budget adoption timeline and procedure unless a school district, no later than 110 days before the primary election, adopts a resolution containing the certifications incorporated in this resolution. The deadline this year is January 28, 2027. After adoption of a resolution containing such certifications, § 311(d) authorizes a school district to comply with pre-Act 1 budget adoption rules as set forth in School Code § 687, 24 P.S. § 6-687. The School Board has determined that the budget for the next fiscal year will be funded based on maintaining current tax rates or increasing taxes by an amount less than or equal to the Act 1 index. In lieu of the Act 1 budget adoption timeline and procedure, the School Board wishes to make the required certifications and comply with pre-Act 1 budget adoption rules.

RESOLVED, that the Board of School Directors of Pennridge School District, makes the following unconditional certifications:

1. The school district's various tax levies and other revenue sources will be sufficient to balance the school district final budget for the next fiscal year (2027-28) based on maintaining current tax rates or increasing tax rates by an amount less than or equal to the Act 1 index applicable to the school district as calculated by the Pennsylvania Department of Education.
2. The applicable index for the next fiscal year is 3.6%, and the School Board will not for the next fiscal year increase the rate of its real estate tax, or any other tax for the support of public education, by an amount that exceeds the applicable index.
3. The School Board has to date and in the future will comply with the rules set forth in School Code § 687 for adoption of the school district proposed and final budgets for the next fiscal year.
4. The School Board understands that the school district will not be eligible to use Act 1 referendum exceptions for the next fiscal year.

**Pennridge School District
Personnel Committee Meeting Minutes
Tuesday, October 13, 2026**

A meeting of the Pennridge School District Personnel Committee was held on October 13, 2026, at 6:30 p.m. in the Pennridge School District Board room and via livestream.

Board Members Present: Mrs. Carolyn Sciarrino, Mr. Nathaniel Leffever, Mr. Thomas Trauger, Mr. Chris Kaufman, Mr. Brian McMullen, Mr. Ron Wurz, Mr. Bradley Merkl-Gump, Mrs. Leah Rash

Administration Present: Dr. Bradley Palmer, Dr. Angelo Berrios, Dr. Andy Doster and Mr. Sean Daubert.

The meeting was called to order at 6:30 p.m.

1. Public Comment

No public comments were made.

2. Human Resources Update

Dr. Doster presented the monthly human resources update, noting that overall staff movement and internal shuffling have stabilized significantly compared to the beginning of the school year.

Recruitment Pipeline & Activity

- Active Interview Stage: 4 positions are currently in the active interview selection phase.
- Open Postings: 4 additional positions are actively posted, including:
 - Title I Teacher (5 applications received)
 - Teaching Assistant (TA) for the AS3 program (positions open at West Rockhill and Sellersville)
 - 900-hour Clerk
 - Upcoming Retirement Posting for Art Teacher at the High School (effective January 2027)
- Critical Vacancies: The School Psychologist position remains highly difficult to fill due to a limited applicant pool.

Process & Efficiency Metrics

- Job Posting Average: Positions stay posted for an average of 25 days.
- Onboarding Time: The average duration from an applicant accepting an offer to completing onboarding is 24 days across all employee categories.
- Professional staff coming from other school districts may legally be held by their previous employer for up to 60 days before joining the district.
- These figures establish a baseline to monitor future recruitment cycles and efficiency over time. Dr. Doster will provide updated comparative data at the next meeting.

Personnel Activity

There are 9 total personnel actions across three employee groups. Internal assignment changes are tracked separately from turnover and are not calculated as attrition:

- PEA (Professional Employee Association): 1 hire, 1 assignment change.
- PESPA (Support Staff): 2 assignment changes, 2 resignations, 1 termination.
- Nutritional Services: 1 assignment change, 1 termination.

Employee Wellness Hub

- Dr. Doster announced the launch of the district's new Employee Wellness Hub, which will be sent via email to all district staff later this week.
- The hub centralizes mental health resources for employees, with subsequent stages focusing on self-care.
- Special recognition was given to HR Administrative Assistant, Mrs. Emma Weiss for taking the initiative to design and gather resources for this project.

Exit Interview Process

- HR is actively collaborating with Mr. Trauger to revamp the exit interview process.
- The goal is to develop an easier, more accessible online format to capture honest feedback from departing staff to improve district retention.

Committee Discussion & School Board Feedback

Recruitment Postings Structure

- Board members questioned if open Teaching Assistant positions should continue to be posted by specific building locations or generalized as district-wide openings.
- Dr. Doster clarified that general Teaching Assistant openings are moving to district-wide postings. However, specialized roles—such as the AS3 program, life skills, or emotional support—will continue to explicitly name the location due to the unique programmatic requirements.

Requests for Historical Data & Metrics

- Board members requested to see historical data and year-over-year key metrics (e.g., recruitment durations, attrition rates, and exit metrics) to determine if district operations are improving.
- Dr. Doster acknowledged the request and noted that past records were not always kept fully intact or accurate. HR is currently auditing historical records to build reliable year-over-year comparisons.

3. PEA Memorandum of Understanding (MOU): Voluntary Sick Leave Donation

The committee reviewed an upcoming MOU slated for a full board vote on October 26.

- The MOU with the PEA establishes an individual, voluntary sick leave donation process for an identified employee experiencing extenuating circumstances.
- The PEA membership successfully voted to pass this agreement.
- A board member raised a procedural point, asking why this benefit is being handled via an individual MOU rather than being referred to the Policy Committee to become an official, district-wide HR policy. It was argued that establishing a policy would cut out bureaucratic red tape and prevent timeline delays if a support staff member (PESPA) faced a similar crisis in the future.
- Counterargument: Other members and administration noted that because sick leave donation requires bargaining unit members to voluntarily surrender contracted days, it modifies working conditions and traditionally must be negotiated as language within individual Collective Bargaining Agreements (CBAs).
- The committee agreed to consult the district solicitor to look at the big picture and obtain legal guidance on whether a comprehensive HR policy or individual collective bargaining MOUs are the best vehicle for this benefit.

4. Additional Items & Adjournment

- Two staff members will be up for a formal tenure vote at the upcoming October 26 School Board meeting.

The full recording of this meeting can be found here: [October 13 Personnel Committee Meeting](#)

5. Next Meeting – The next Personnel Committee Meeting is scheduled for Monday, November 9, 2026.

The meeting was adjourned at 6:50 p.m.

MEMORANDUM OF UNDERSTANDING

Voluntary Sick Leave Donation

This is a Memorandum of Understanding (“MOU”) by and between **PENNRIDGE SCHOOL DISTRICT** (“District”), on behalf of its elected and appointed officials, and **PENNRIDGE EDUCATION ASSOCIATION** (“Association”), collectively referred to as the “Parties.”

WHEREAS, the Association is the sole and exclusive bargaining representative for a bargaining unit comprised of classroom teachers and certain other employees (the “Bargaining Unit”); and

WHEREAS, the District and the Association are parties to a collective bargaining agreement covering the period July 1, 2023 through June 30, 2028 (the “CBA”); and

WHEREAS, the Parties wish to establish a process through which employees may voluntarily donate accumulated sick leave to a Bargaining Unit member experiencing a catastrophic or extended illness or injury; and

WHEREAS, the Parties wish to memorialize their agreement in writing.

NOW, THEREFORE, intending to be legally bound, the Parties hereby agree as follows:

1. Authorization of Donations

Upon written request from a Bargaining Unit member, the District shall authorize Bargaining Unit members, Act 93 employees, and cabinet members to voluntarily donate accumulated sick leave days to a specifically identified Bargaining Unit member who is absent due to a catastrophic or extended illness or injury and who has exhausted, or is expected to exhaust, their accumulated sick leave.

2. Voluntary Participation

Participation in any sick leave donation shall be entirely voluntary. No employee shall be required to donate sick leave, and prior donation of sick leave shall not be a condition of eligibility to receive donated leave.

3. Solicitation and Administration

Following District authorization, the District will solicit donations for the specifically identified Bargaining Unit member. The District shall administer all transfers and use of donated sick leave.

The District shall use one day from each person who donates in order of submission until the number of days reaches the last person. The District shall then go back to the top of the list and take a second day, starting with the first individual who donates more than one day and going to the end of the list. If all days are exhausted and more days are needed by the bargaining unit member, then the District shall have the right, but not the obligation to ask for more donations.

4. Use of Donated Leave

Donated sick leave may be used only after the receiving employee has exhausted their own accumulated sick leave. Donated leave shall be used solely for the absence for which the donation was authorized.

5. Transfer of Days

Sick leave days shall be transferred from donating employees only as needed by the receiving employee. Any days offered but not needed shall remain in the donating employee's accumulated sick leave balance. After donation, the donating employee shall have no right to a return of their donated sick leave.

6. Limits

Each bargaining unit member may donate seven (7) sick days.

The total number of donated days that may be used by the receiving employee for an authorized absence shall not exceed the duration of their eligibility as set forth above.

Donated days must be used by the end of the school year in which they are donated. Any days offered but not used by the end of the school year shall remain in the donating employee's accumulated sick leave balance, and a member who requires additional leave beyond the end of the school year must submit a new request.

7. No Sick Leave Bank or Entitlement

This MOU establishes an individual sick leave donation process for an identified employee only. It shall not establish or be construed as creating a sick leave bank, pooled leave account, or other continuing sick leave fund for any other employee or employee group. Authorization shall be considered on a case-by-case basis following the criteria established by this document.

8. The District is the administrator of the sick bank and makes any and all determination as to eligibility. The District agrees to indemnify and hold the Association harmless for any claims or actions brought against the Association as a result of the parties' administration of this MOU.

9. Collective Bargaining Agreement

Except as specifically provided herein, all other provisions of the CBA shall remain in full force and effect.

10. Effective Date

This MOU is subject to approval by the District's Board of School Directors and shall become effective immediately upon execution by all Parties.

Upon notice of retirement or resignation, employees hired prior to July 1, 2022, will be paid out any unused earned vacation from the prior year.

PENN RIDGE SCHOOL DISTRICT

BOARD OF SCHOOL DIRECTORS

Policy Committee Meeting Minutes

Pennridge District Administration Office – Board Room

October 5, 2026

A meeting of the Pennridge School District Policy Committee was held on October 5, 2026, at the Pennridge District Administration Office, Board Room. Present were Mrs. Carolyn Sciarrino, Mrs. Leah Foster-Rash, Mrs. Carly Taylor, Mr. Bradley Merkl-Gump, Mr. Brian McMullen, Mr. Tom Trauger, Dr. Bradley Palmer, Dr. Angelo Berrios, and Mr. Ernest Johnson.

Public Comment

Nate Smith-Grasse (Perkasie) provided public comment.

Lee Rush (Perkasie) provided public comment.

Lydia Ramer Hunter (Perkasie) provided public comment.

Policy Update Plan

Mr. Johnson reported that the Policy Update Plan had not changed since the previous committee meeting. The evening's agenda included a second reading of Policy 218, Student Discipline, and first readings of Policy 246, School Wellness and Policy 249, Bullying/Cyber Bullying.

Mr. Merkl-Gump requested renewed consideration of a responsible contractor policy. Discussion addressed concerns about the District's use of COSTARS, opportunities for open competitive bidding, contractor qualifications, apprenticeship programs, quality of work, and potential costs associated with change orders. These points were presented as considerations for further review, rather than established findings.

Several Board Members expressed support for further discussion. Dr. Berrios recommended gathering information from other districts and municipalities and developing language tailored to district needs, including possible project cost thresholds. Members emphasized the importance of an informational session before proceeding with a first reading.

November was identified as a tentative goal for further consideration, contingent on an information session and sufficient preparation.

Policy 218 — Student Discipline, Second Reading

Mr. Johnson described planned Bucks County IU training on restorative practices and restorative conferencing. Training will occur in December 2026 and February 2027, with participation by building administrators, counselors, MTSS specialists, and other district personnel.

Mr. Trauger discussed whether the policy should advance before training and the accompanying administrative regulation were completed. Concerns included the definition of restorative practices, consistent and fair implementation, staff readiness, decision-making authority, and the meaning of language such as “where applicable.” Mr. Trauger requested delaying the policy until additional implementation information was available. Mrs. Rash and Mrs. Sciarrino also shared their perspective while engaging in a discussion with Mr. Trauger. Mrs. Rash and Mrs. Sciarrino felt the policy could be moved forward while the administrative regulation could be written following policy approval.

Dr. Berrios, Dr. Palmer, and Mr. Johnson clarified that:

- Restorative practices would be an additional tool and would not replace existing disciplinary measures,
- Building administrators would determine appropriate use, with central office consultation as warranted,
- A limited group of staff could receive specialized training; individual classroom teachers would not independently determine disciplinary use,
- Participation and appropriateness would depend on the circumstances, including student and parent willingness, and
- Implementation would require training, administrative regulation revisions, legal consultation, and alignment of student handbooks, with handbook revisions anticipated as a part of the process.

Members (Mrs. Sciarrino, Mrs. Rash, and Mrs. Taylor) supporting advancement viewed the policy as a framework, with operational details addressed through administrative regulations. A sample or outline of the anticipated regulation was suggested to help address remaining concerns.

Mr. Johnson reviewed revised language addressing proximity and timing. Mr. Johnson reported that the solicitor had reviewed and supported the revised wording. Members expressed support for the clarification.

Mr. Johnson reviewed the definition of reasonable force. Mr. Johnson reported that the solicitor recommended combining existing and proposed language. Mr. McMullen raised concern about the reference to the language around “parent” within the definition. Mrs. Rash, Mrs. Taylor, Mr. Merkl-Gump and Mr. McMullen discussed what reasonable force may look like while recognizing and confirming that staff receive training in this area.

Policy 246 — School Wellness, First Reading

Mr. Johnson began with a focus on practical implementation and existing district practices for the policy. Mr. Johnson then shifted the focus to language in the policy regarding the Wellness Committee and nutrition. Mrs. Taylor suggested we scroll through the policy, and Members share their perspective and/or language concerns. Mr. Trauger and Mrs. Sciarrino asked clarifying questions about the brackets and choice within the policy. Mr. Johnson clarified what new language is versus old language. Mr. Johnson engaged in a discussion with Mrs. Rash, Mrs. Sciarrino, and Mr. Merkl-Gump around what is in the overall policy.

Members analyzed pages 2, 3, and 4. On page 4, Mrs. Taylor asked about the Advisory Health Council and inquired about who should be on it. Mr. Johnson suggested we maintain a School Wellness Committee while not creating an Advisory Health Council. Members agreed with the recommendation. Mrs. Taylor recognized the inclusiveness of the School Wellness Committee. Mr. Johnson suggested that the Director of Nutritional Services could lead or co-lead the committee and that useful advisory functions could be incorporated through the School Wellness Committee. Mrs. Sciarrino asked about the role of the Wellness Committee in surveying parents/guardians. Mrs. Taylor and Mr. McMullen shared their perspective focused on parent surveys and gathering information from our parents.

Mrs. Taylor asked about the “learning laboratory.” Several Members inquired about the learning laboratory. Mr. Johnson stated that he has not had experience with a learning laboratory. Members shared their desire to leave the learning laboratory out of the policy. The concept could be reconsidered if further information demonstrated its value and feasibility.

Members (Mrs. Taylor, Mrs. Sciarrino, Mr. Trauger, and Mr. Merkl-Gump) discussed farm-to-school activities, food waste, share tables, meal requirements, and the use of student or parent surveys to inform food service practices. Mrs. Taylor requested additional information about existing surveys and supported review of the nutrition provisions by the Director of Nutritional Services.

Mr. Trauger suggested the policy be reviewed by the Nutritional Services Department. Mr. Trauger’s recommendation received support from fellow Members.

The next section reviewed related to “Physical Activity.” Mrs. Sciarrino questioned whether all schools still complete the physical fitness test at the elementary level. Members also questioned the feasibility of the proposed daily physical activity expectations. Mr. Johnson returned to the idea shared by Mr. Trauger in terms of Nutritional Services engagement in a review of the policy. Mr. Trauger asked about the review of curriculum for physical education, wellness education, art, and other areas within the schools. Dr. Palmer explained that Health and Physical Education and other special-area subjects fall within the curriculum department and have designated coordinators and supervisors. Members recommended review of the relevant policy sections by Health and Physical Education personnel as well as the implications for schedules, resources, and consistency across schools. Mrs. Rash recognized our county as behind in multiple areas, including nutrition and wellness.

Mrs. Taylor asked us to provide clarity on the use of facilities outside of school hours. Dr. Berrios responded and described school and athletic use, summer access, and staffing and security considerations associated with early morning access. Dr. Berrios stated if it is the Board’s will to re-examine facilities use and the time for public use we could do so in the future.

Mr. Johnson drew the Members’ attention to proposed language concerning confidential BMI screening, social media, and safe drinking water, including changes presented as responses to legal requirements. Members supported further review by the appropriate district personnel, as recommended by Mr. Johnson.

The next area of focus related to safe routes to school. Mrs. Sciarrino asked if we already follow the language in the policy related to safe routes to school. Mrs. Taylor suggested the practices outlined in this part of the policy should allow us to engage our local representatives in discussion about safe routes to school. Mr. Trauger shared concern about the District's liability based on the language in the policy. Mr. Trauger shared specific concerns about the extent of the District's responsibility and whether the wording in this area created additional assessment obligations. Mrs. Taylor, Mrs. Sciarrino, and Mrs. Rash verbalized their perspectives about implementing improvements as well as the commitment the proposed language may have for the District. Dr. Palmer provided a specific example with respect to our work with the Mayor of Silverdale for crosscuts. Significant discussion continued among the Members about the proposed language under the category of safe routes to school. Dr. Palmer suggested we seek the advice of our solicitor, Mr. Miller.

Ms. Sciarrino asked that we examine the section about classroom parties and celebrations. Members (Ms. Sciarrino, Mr. Trauger, Mr. Merkl-Gump, and Mr. McMullen) discussed optional limitations on food-based classroom celebrations, allergy precautions, food sharing, and the interaction of celebration rules with student rewards and existing practices. Mrs. Sciarrino raised questions about a possible once-per-month limitation. Dr. Palmer recommended that we review this section with the Director of Nutritional Services. Mr. McMullen shared a concern about the operational details in the policy.

Bullying/Cyberbullying Policy — First Reading

Mr. Johnson explained that the policy had been revised and approved previously and was returning for review because of additional legal changes. Proposed revisions addressed cyberbullying and AI-generated or modified media.

Mrs. Taylor raised a question about the proposed language within the section under definitions. Mr. Johnson explained that the proposed wording would permit a response when conduct met any one of three criteria: substantial interference with a student's education, creation of a threatening environment, or substantial disruption of school operations. Mr. Trauger initiated discussion about the school's ability to address incidents in the school and/or outside a school setting. Members (Mrs. Rash, Mrs. Sciarrino, and Mrs. Taylor) discussed the importance of establishing a connection to school, the challenges of investigating off-campus and online conduct, and the impact of such conduct on attendance, student well-being, and learning. Members expressed support for strengthening the district's ability to respond while recognizing the need for careful application and ongoing review. Dr. Berrios shared an example involving harassment that occurs outside of school; however, he explained the nexus to school. Dr. Berrios described the impact to a child's education, which constitutes a nexus to school. Dr. Berrios identified the challenge of incidents that begin on children's devices via SnapChat and other social media platforms. Mr. Johnson responded and provided input about what can constitute a nexus to school. Mrs. Rash focused on how incidents, regardless of when and where they happen, permeate the halls. Mrs. Rash also focused on what could potentially create a threatening environment. Mrs. Rash shared her belief that the school should take more of a role in addressing matters that occur outside of school because it impacts the day regardless of what happens. Mrs. Taylor agreed with Mrs. Rash's comments to open up the

language in the policy as a form of mitigation. Mr. McMullen stated that a bell-to-bell restriction could help with managing these situations in school.

Mr. Johnson identified proposed language under authority. Mr. Trauger asked about reporting and the frequency of online reports. Mr. Johnson stated that we have received district-wide appropriately 6 to 8 reports. Administration confirmed that oral complaints can be addressed and that submitting a written form is not required for investigation of an allegation. Members supported policy language making that clear.

Mr. Johnson reviewed the subsections under guidelines. Mrs. Sciarrino asked and requested that the reporting form explain when families should expect a response and whom to contact if they do not hear back. Mr. Johnson described an expectation of contact on the same day or the next school day, depending on when the report is received. Members, Ms. Sciarrino and Mrs. Taylor, asked for language to be added to the form identifying a response time and a person to contact for follow-up.

Mrs. Taylor and other Members supported selecting “shall” rather than “may” in the education section of the policy.
