LMHS School Improvement Plan

August 18, 2026

Understanding the TSI Designation

- **What is TSI?**
  - Targeted Support and Improvement (TSI) is an annual designation under Pennsylvania's ESSA accountability framework.
  - Signals that a specific subgroup of students requires additional, targeted academic and engagement supports.
- **Key Distinction:**
  - Unlike Comprehensive Support (CSI), TSI is **locally designed, managed, and monitored** rather than state-directed.
  - Plan approval and governance rest directly with our local Board of School Directors.

Designation Explanation

Understanding Our TSI Designation

The Pennsylvania Department of Education identified Lower Moreland High School as a **Targeted Support and Improvement (TSI)** school. This designation functions as an "early warning system" to help us focus support on specific student groups that are not yet meeting state standards, even though our overall student population is performing well.

Reason for Designation: Students with Disabilities Group

The designation is specifically based on the performance data for our **Students with Disabilities** group, which fell below state thresholds in the following areas:[1]

- **Academic Achievement**: Our combined Math and ELA proficiency rate is 18.97% (below the state threshold of 21.4%).
- **Academic Growth**: Our Average Growth Index (AGI) is -2.44.
- **Graduation Rate**: Our combined 4- and 5-year cohort graduation rate is 84.48% (below the state cut score of 85.8%).

June 11: Plan Review Before Submission

Priorities

Priority Statement #1: **If** we create a schedule that allows for students receiving special education to have access to courses designed to support their needs, **then** teachers will use instructional strategies that engage students in core content at their instructional level, **and** student engagement and achievement will increase in all core content areas.

Priority Statement #2: **If** we support students through both targeted course opportunities as well as the lunch and learn period, **then** students will have increased access to opportunities to remediate standards in support of acquisition, **and** students, given the opportunity to re-test, will increase their Keystone proficiency.

The Plan

Action steps/Strategies

- Criteria will be used to identify students for placement in core content learning support classes which will be taught by a teacher of special education.
- Administrators will prioritize assigning co-teachers to Keystone courses when building the schedule for the 26-27 the school year.
- Teachers of special education will embed Keystone practice and testing strategies in their Strategic Learning classes.
- Firefly assessment data will be included in the present levels section of the IEP
- Using the Firefly assessment data, teachers of special education will identify concepts where students are “needing support” and will address those needs during the Strategic Learning class or during Lunch and Learn periods.
- Teachers of special education will be trained on Panorama and will be shown how to utilize the Solara function to interpret achievement results on various assessments.

The Plan

Targets

1. Increase academic achievement proficiency rate (combined for reading and math) for students with IEPs to 21.4%
2. Increase Average Growth Index (AGI) for students with IEPs to 1
3. Increase graduation rate for students with IEPs to 86%

The Plan

Action steps/Strategies

- The Firefly Assessment will be implemented in the following courses:
  - Environmental Science and Biology
  - Algebra 1
  - American Lit and World Lit
  - Any student needing to re-test

The Plan

Action steps/Strategies

- The following timeline will be utilized for Firefly testing the 26-27 school year:
  - September-October: data will be shared with teachers from the 25-26 school year and teachers will meet to plan Keystone practice and test-taking strategies.
  - November-December: Administration of the Firefly
  - February: Teachers are provided their Firefly assessment results and will meet to plan Keystone practice, remediation, and test-taking strategies.
  - March-April: Administration of the Firefly
  - May: Firefly assessment results are shared with teachers and students take the Keystone exams.

The Plan

Targets

1. Increase academic achievement proficiency rate (combined for reading and math) for students with IEPs to 21.4%
2. Increase Average Growth Index (AGI) for students with IEPs to 1
3. Increase graduation rate for students with IEPs to 86%

Lower Moreland ELD Program Review & Roadmap

Building on our strengths to design a systemic, data-driven K-12 future for our Multilingual Learners.

Context, Purpose & MCIU Partnership

Core Purpose

The core objective of this review is to evaluate program effectiveness, audit current compliance and operations, and build a scalable framework for our growing ML student population.

MCIU Partnership

We partnered with the Montgomery County Intermediate Unit (MCIU) to conduct a comprehensive perceptual audit and support the utilization of state-provided audit tools.

Perceptual Data

This partnership allowed us to capture robust perceptual data from key stakeholders, expanding our scope and support our transition beyond localized practices to a unified K-12 systemic infrastructure.

Lower Moreland's Diverse ML Population

46

Linguistic Diversity

There are currently 46 native languages represented district-wide within our Multilingual Learner community.

100%

Academic Parity

We have achieved 100% graduation parity for our Multilingual Learners.

Rising Enrollment

We are experiencing consistent year-over-year increases in ML enrollment, which requires strategic, systemic oversight.

Full Inclusion

MLs participate in extracurriculars and the broader school community at rates proportional to their peers.

Our Foundational Strengths & Staff Dedication

Educator Dedication

Our educators are deeply dedicated, with a primary goal of giving students the speaking skills they need to survive and succeed in general education classrooms.

Welcoming Climate

Administrators and staff are highly supportive and culturally accepting, creating deeply inclusive environments.

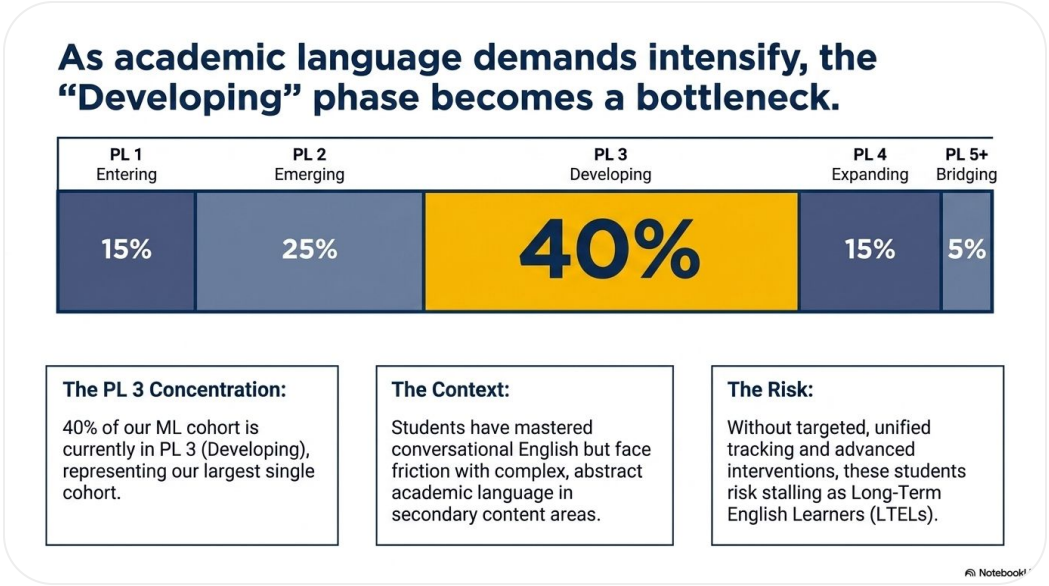
Expert Differentiation

Teachers expertly modify rigorous content to meet diverse proficiency levels using WIDA rubrics.

Family Communication

The program demonstrates high success in engaging ML families effectively.

Effective Acquisition Trends in WIDA ACCESS



Early Language Acquisition: WIDA ACCESS trends demonstrate highly effective early language acquisition for our youngest learners.

Foundational Success: Foundational phonics programs (such as Fundations and Wonders), literacy initiatives, and early-intervention pull-out programs are working effectively.

Academic Launch: These current methods successfully launch students from Proficiency Levels 1 and 2 (Entering & Emerging) into conversational and early-academic English (PL 3+) by upper elementary school.

Navigating the PL 3 (Developing) Phase

40%

ML Cohort Concentration

Our largest single cohort is currently in Proficiency Level 3 (Developing).

The Context

Students have mastered conversational English but face friction with complex, abstract academic language in secondary content areas.

The Risk

Without targeted, unified tracking and advanced interventions, these students risk stalling and becoming Long-Term English Learners (LTELs).

Overcoming Structural Barriers with Teacher Effort

	Structural Barrier (The Root Cause)	Teacher Effort (The Workaround)
Curriculum Sourcing	Lack of a codified K-12 ELD curriculum.	Teachers spend an overwhelming amount of planning time **"pulling from a million different places"** (National Geo, Read180, Wonders) due to the lack of a codified K-12 curriculum.
Collaboration	Lack of protected, scheduled collaboration blocks in the master schedule.	Teachers rely on informally communicating with content teachers to scaffold assignments, as there is a lack of protected, scheduled collaboration blocks in the master schedule.
Progress Monitoring	Fragmented systems with no automated, longitudinal tracking.	Growth is monitored using informal check-ins and localized spreadsheets due to fragmented systems with no automated, longitudinal tracking.

Insights from the MCIU Partnership & Evaluation Tools

Coherence Gaps

The program operates as a collection of building-level practices lacking K-12 vertical alignment and formalized annual evaluation.

Curriculum Needs

A codified, written ELD curriculum with aligned instructional and assessment resources is not currently evident.

Collaboration Deficits

A systemic professional learning plan and protected collaboration time between ESL and content staff are currently missing.

Shifting to District-Wide K-12 Systemic Excellence

FOCUS AREA	FROM (LOCALIZED)	TO (SYSTEMIC EXCELLENCE)
Coherence	We must pivot from isolated building-specific protocols	**to district-level, vertical program governance.**
Data & Tracking	Transition from manual, localized progress monitoring	**to automated, longitudinal data tracking.**
Curriculum	Move away from teachers individually sourcing piecemeal curriculum	**toward a codified, robust K-12 ELD curriculum document.**
Collaboration	Shift from informal, ad-hoc teacher collaboration	**to protected, scheduled co-planning time in the master schedule.**

Strategic Recommendation 1: Unified Longitudinal Data Systems

The Objective

Move from manual tracking to a robust, automated infrastructure that follows the student seamlessly across grades and buildings.

Key Capabilities Required

- **LTEL Monitoring:** Implement automated flags for students approaching or exceeding 5 years in the program to prevent academic stagnation.
- **Intervention Alerts:** Utilize data-triggered flags combining WIDA, PVAAS, and benchmark scores to prompt proactive, targeted academic support.
- **Transparent Accountability:** Provide real-time visibility for ELD specialists, content teachers, and administrators to align language objectives.

Strategic Recommendation 2:
Coherent K-12 Curriculum & Resourcing

The Objective: Reduce reliance on disconnected teacher planning by providing high-quality, standards-aligned instructional materials across all levels.

Audit & Streamline

Audit current disparate resources (Read180, Wonders, Edge, Cengage) and streamline them into a formal K-12 ELD curriculum document.

Targeted Procurement

Procure specific, robust resources targeted at intermediate/advanced secondary students to break the PL 3 bottleneck (focus on grades 7-12)

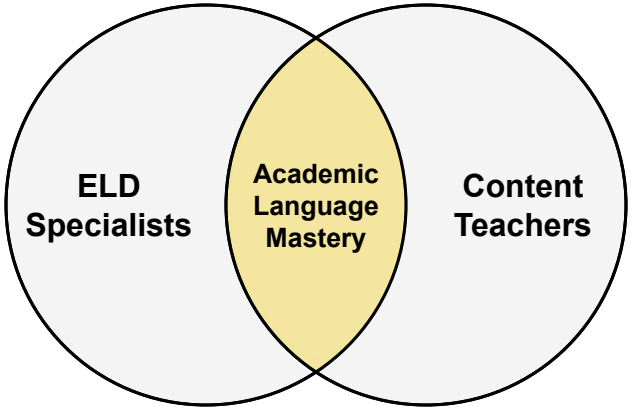
Transparent Access

Ensure all staff and administrators have transparent access to this documented Language Instruction Educational Program (LIEP).

Strategic Recommendation 3

Protected Collaboration & Co-Planning Time

Integrated Delivery Model



The Objective: Create sustainable systems and structures that foster ongoing collaboration between ELD specialists and general education teachers.

01 **Master Schedule Integration:** Establish protected collaboration time as a non-negotiable master schedule condition.

02 **Professional Learning:** Provide systemic Professional Learning for general education staff on identifying language barriers and supporting MLs.

03 **Role Definition:** Formalize and define the role of instructional aides and coaches in ELD delivery.

Aligning District Innovation with the PDE BEC

Purpose

The Pennsylvania Department of Education, as required by the Unsafe School Choice Option provision of **federal law**, hereby adopts the following standards for identifying persistently dangerous schools.[1][2]

Definitions

As used in these standards, the following terms shall be defined as provided herein:[3]

Dangerous incidents - shall include both weapons possession incidents resulting in arrest (guns, knives or other weapons) and violent incidents resulting in arrest (homicide, kidnapping, robbery, sexual offenses and assaults) as reported on the Violence and Weapons Possession Report (PDE-360).

Department - shall mean the Pennsylvania Department of Education.

Local Educational Agency or LEA - shall include a school district, an area vocational-technical school, an intermediate unit or a charter school.

Persistently dangerous school - shall mean any public elementary, secondary or charter school that meets any of the following criteria in the most recent school year and in one (1) additional year of the two (2) years prior to the most recent school year:

1. For a school whose enrollment is 250 or less - at least five (5) dangerous incidents.

2. For a school whose enrollment is between 251 to 1,000 - a number of dangerous incidents that represents at least two percent (2%) of the school's enrollment.

3. For a school whose enrollment is over 1,000 - twenty (20) or more dangerous incidents.

Safe public school - shall mean a public school that has not been designated as a persistently dangerous school under these standards or that has had such designation removed by the Department.

Guidelines

Student Opportunity to Transfer

1. Except as provided below, a student who attends a persistently dangerous school must be offered the opportunity to transfer to a safe public school within the LEA, including a charter school.

2. A student who attends a persistently dangerous school may apply to transfer at any time while the school maintains that designation.

Delegation of Responsibility

Department of Education's Responsibilities

1. The Department shall identify those schools that meet or exceed the criteria for a persistently dangerous school by analyzing the Annual Report on School Violence and Weapons Possession (PDE-360). In identifying persistently dangerous schools, the Department will use the most recent data available to it from the reporting LEA, and will take all reasonable steps to verify that the data is valid and reliable.

2. After review and verification of PDE-360 data, the Department shall promptly inform an LEA when any of its schools meets the definition of persistently dangerous school.

3. The Department shall provide technical assistance to the LEA in developing a corrective action plan. The Department shall review proposed corrective action plans submitted by LEAs and shall approve suitable corrective action plans.

4. After approval of the corrective action plan, the Department shall conduct a site visit to each persistently dangerous school to assess the school’s progress in implementing the plan. If no significant improvement is observed, the Department may require the LEA to submit a revised corrective action plan for that school.

5. The Department shall reassess a school’s designation as persistently dangerous at the end of the school year during which its corrective action plan is completed.

6. During the reassessment described above, the Department shall remove the designation if the school no longer meets the definition of persistently dangerous school.

LEA's Responsibilities

1. Pursuant to Pennsylvania’s Safe Schools Act, all school entities as defined by the Act must report to the Department all incidents involving acts of violence; possession of a weapon; or the possession, use, or sale of a controlled substance, alcohol, or tobacco by any person on school property or at school-sponsored events or on school transportation to and from school or school-sponsored activities.[4]

2. Within ten (10) school days of receiving notification by the Department, an LEA shall notify the parent or legal guardian of each student who attends the school that the Department

has identified the school as persistently dangerous.

3. The LEA shall offer all students who attend the school the opportunity to transfer to a safe public school, including a charter school, within the LEA.

4. The notification and offer to transfer shall state that no student is required to transfer to another school.

5. Upon receipt of an application to transfer, the LEA shall transfer the student within thirty (30) calendar days.

6. When considering a student's request to transfer to another school, the LEA should take into account the particular needs of the student and the parent/guardian.

7. To the extent possible, the LEA should allow the student to transfer to a school that is making adequate yearly progress, and one that is not identified as being in school improvement, corrective action, or restructuring.

8. A charter school only has to accept a student who meets its admission criteria if space is available.

9. If there is not another safe school within the LEA to which students may transfer, the LEA is encouraged, but not required, to establish an agreement with a neighboring LEA to accept the transfer of students.

10. The LEA must submit a corrective action plan to the Department within thirty (30) calendar days of receiving notification that a school has been identified as persistently dangerous.

11. The LEA must receive approval from the Department for its corrective action plan and shall implement all steps contained in its corrective action plan within the time periods specified in that plan.

12. After the Department has notified an LEA that a school is no longer identified as a persistently dangerous school, the LEA is encouraged to permit students who transferred to complete their education at their new school. LEAs may not require students to return to their original school if the students are enrolled in a charter school.
