ARTICLE VII: COMPENSATION STRUCTURE

Section 7.1: The Linear Salary Model. Effective July 1, 2026, the District shall utilize a Linear Salary Model. The schedule shall be anchored by a Bachelor's Step 0 (Base) of \$51,000.00 with a consistent annual vertical step of \$625.00 from Step 0 through Step 29.

Section 7.2: Fixed Horizontal Differentials. Advanced degree compensation is established as a fixed dollar amount added to the corresponding Bachelor's Step:

- Master's Degree (MA): Bachelor's Step + \$4,500.00
- Education Specialist (Ed.S.): Bachelor's Step + \$8,000.00
- Doctorate (Ed.D./Ph.D.): Bachelor's Step + \$11,500.00

Section 7.3: TISA Pass-Through Formula. All future recurring TISA restricted "Salary Improvement" funds (\$A\$) shall be distributed as an equal "Base Lift" (\$L\$) to the Step 0 Base, calculated as:

- $(\$L\$) = (\$A\$) / (\$E\$)$
- *(Where \$E\$ is the number of eligible certified FTEs).*
- *(Where \$L\$ is the calculated base lift and is rounded to the nearest ten).*

Section 7.4: Non-Supplanting Clause. The annual Base Lift (\$L\$) shall be considered a permanent adjustment to the salary schedule (pensionable) and shall be applied **in addition to** the locally funded \$625.00 vertical experience increment. District restricted funds for existing educator salary increases shall not be used to satisfy the District's obligation to fund the annual \$625.00 experience step.

3. APPENDIX A: IMPLEMENTATION EXAMPLES

To be attached to the MOU for Audit Clarity

Scenario: Example Calculation of 2027-2028 Raises

- Projected State Funding (\$A\$): \$876,000
- Eligible Staff (\$E\$): 584
- Calculated Base Lift (\$L\$): \$1,500.00

The Result from the example for an Individual Teacher:

1. Experience Step: Teacher moves up one step (+\$625).
 2. Base Lift: The entire scale moves up by the TISA amount (+\$1,500).
 3. Total Salary Increase within the Salary Schedule: \$2,125.00.
 4. Teachers with 30 years or more experience would receive the base lift (\$L\$)

PROPOSED BOARD POLICY: 5.1101
SECTION: PERSONNEL
TITLE: CERTIFIED COMPENSATION AND LINEAR SALARY MAINTENANCE

I. PURPOSE

The Cumberland County Board of Education recognizes that professional compensation is a primary factor in the recruitment and retention of high-quality educators. To ensure equity, transparency, and fiscal predictability, the District shall maintain a "Linear Salary Model" for all certified instructional personnel.

II. THE LINEAR SALARY STRUCTURE

The Certified Salary Schedule shall be constructed and maintained based on the following structural requirements:

1. **Uniform Vertical Increments (Steps):** The schedule shall provide a fixed, equal dollar increment for every year of verified professional experience (Step 0 through Step 29). This increment shall be uniform across all degree lanes.
2. **Fixed Degree Differentials:** Compensation for advanced academic degrees (Master's, Education Specialist, and Doctorate) shall be established as a fixed dollar amount added to the corresponding Bachelor's Step. These differentials shall remain constant across all steps of the salary schedule to ensure the value of advanced education is protected throughout a teacher's career.
3. **The Base Anchor:** The Bachelor's Step 0 shall serve as the anchor point for the entire schedule. Any adjustment to the Bachelor's Step 0 shall result in a mathematically equivalent adjustment to every cell within the linear scale.

III. MAINTENANCE AND INFLATIONARY ADJUSTMENTS (TISA)

To ensure the salary schedule remains competitive and compliant with state law (T.C.A. § 49-3-306):

1. **State Raise Pass-Through:** 100% of recurring state funds restricted for "Salary Improvements" (TISA Salary Earmarks) shall be utilized to increase the Bachelor's Step 0 Base.
2. **The Maintenance Formula:** The annual base lift (\$L\$) shall be calculated by dividing the total recurring state salary improvement allocation (\$A\$) by the total number of eligible certified full-time equivalent employees (\$E\$):
$$(\$L\$) = (\$A\$)/(\$E\$)$$
3. **Non-Supplanting Requirement:** The application of state-funded base lifts shall be in addition to, and independent of, the locally funded annual vertical experience increment.

IV. COMPLIANCE REVIEW

During the annual budget process, the Director of Schools shall present a compliance report to the Board certifying that the current Linear Salary Schedule exceeds the State of Tennessee's minimum salary benchmarks.

Reasoning for BOE POLICY 5.1101

This policy acts as a **firewall** for the district. Historically, salary schedules "break" because of two things: **compression** (new teachers making nearly the same as veterans) and **non-compliance** (falling below state minimums in specific "experience factor" cells).

By codifying these specific rules into **Policy 5.1101**, the Director and CFO transition from a "defensive" posture to a "predictable" one. Here is how this protects the system long-term:

1. Elimination of "Compression" through Uniformity

The policy mandates **Uniform Vertical Increments** (Section II.1).

- **The Protection:** In many districts, when a new state mandate comes down, they only raise the "bottom" of the scale because they can't afford to move the whole thing. This creates a "clump" where a 1st-year teacher and a 10-year teacher earn the same.
- **The Fix:** Because this policy requires the scale to be mathematically equivalent across all cells, any lift to the "Base Anchor" (Section II.3) must move the entire 0–29 range. You are legally ensuring that a veteran teacher's experience is never "erased" by a new mandate.

2. Automated Inflation Protection (TISA Pass-Through)

Section III.1 and III.2 of the policy create a **self-adjusting mechanism** for state funding.

- **The Protection:** It removes the political friction of "negotiating" state raises. The policy explicitly defines the **Maintenance Formula**:

$$(\$L\$) = (\$A\$) / (\$E\$)$$

- **The Fix:** When the State Legislature sends "Salary Improvement" funds via TISA, the CFO has a pre-approved formula to divide those funds by the number of employees and lift the base. This ensures state money goes exactly where it was intended without becoming a local budget battle.

3. Integrity of Advanced Degrees

Section II.2 establishes **Fixed Degree Differentials**.

- **The Protection:** Without this, districts often "shrink" the gap between a Bachelor's and a Master's degree to save money over time.
- **The Fix:** This policy protects the *value* of the Master's, Ed.S., and Doctorate. It ensures that the thousands of dollars and years of effort your teachers spent on their education maintain a constant, protected "premium" relative to the base.

4. Legal Compliance by Default

Section IV (Compliance Review) creates a **Mandatory Annual Audit**.

- **The Protection:** Districts often realize too late that they have fallen below the State Minimum Salary Schedule for specific years (like the Year 11 or Year 21 benchmarks).
- **The Fix:** It forces the Director to certify compliance *before* the budget is passed. This protects the Board from lawsuits and protects the CFO from "unfunded mandate" surprises during a state audit.

Summary of Systemic Protection

Potential Risk	Policy Defense
New \$52k State Mandate	The " Base Anchor " rule ensures the entire scale lifts, preventing compression.
Budget Cuts	" Non-Supplanting Requirement " ensures local steps aren't traded for state raises.
Veteran Attrition	" Linear Maintenance " proves to veterans their 20th year is as valued as their 1st.
Financial Blindspots	" The Maintenance Formula " provides the CFO a predictable math model for 5-year outlooks.

The "Bottom Line" for the Board:

This policy takes the "math" out of politics. It ensures that as long as this policy is in place, Cumberland County can never accidentally return to a broken, compressed, or potentially non-compliant pay scale.

The policy mandates **Uniform Vertical Increments** (Section II.1).

- **The Protection:** In many districts, when a new state mandate comes down, they only raise the "bottom" of the scale because they can't afford to move the whole thing. This creates a "clump" where a 1st-year teacher and a 10-year teacher earn the same.
- **The Fix:** Because this policy requires the scale to be mathematically equivalent across all cells, any lift to the "Base Anchor" (Section II.3) must move the entire 0–29 range. You are legally ensuring that a veteran teacher's experience is never "erased" by a new mandate.

2. Automated Inflation Protection (TISA Pass-Through)

Section III.1 and III.2 of the policy create a **self-adjusting mechanism** for state funding.

- **The Protection:** It removes the political friction of "negotiating" state raises. The policy explicitly defines the **Maintenance Formula**:

$$(\$L\$) = (\$A\$) / (\$E\$)$$

- **The Fix:** When the State Legislature sends "Salary Improvement" funds via TISA, the CFO has a pre-approved formula to divide those funds by the number of employees and lift the base. This ensures state money goes exactly where it was intended without becoming a local budget battle.

3. Integrity of Advanced Degrees

Section II.2 establishes **Fixed Degree Differentials**.

- **The Protection:** Without this, districts often "shrink" the gap between a Bachelor's and a Master's degree to save money over time.
- **The Fix:** This policy protects the *value* of the Master's, Ed.S., and Doctorate. It ensures that the thousands of dollars and years of effort your teachers spent on their education maintain a constant, protected "premium" relative to the base.

4. Legal Compliance by Default

Section IV (Compliance Review) creates a **Mandatory Annual Audit**.

- **The Protection:** Districts often realize too late that they have fallen below the State Minimum Salary Schedule for specific years (like the Year 11 or Year 21 benchmarks).
- **The Fix:** It forces the Director to certify compliance *before* the budget is passed. This protects the Board from lawsuits and protects the CFO from "unfunded mandate" surprises during a state audit.

Summary of Systemic Protection

Potential Risk	Policy Defense
New \$52k State Mandate	The " Base Anchor " rule ensures the entire scale lifts, preventing compression.
Budget Cuts	" Non-Supplanting Requirement " ensures local steps aren't traded for state raises.
Veteran Attrition	" Linear Maintenance " proves to veterans their 20th year is as valued as their 1st.
Financial Blindspots	" The Maintenance Formula " provides the CFO a predictable math model for 5-year outlooks.

The "Bottom Line" for the Board:

This policy takes the "math" out of politics. It ensures that as long as this policy is in place, Cumberland County can never accidentally return to a broken, compressed, or potentially non-compliant pay scale.

FACT SHEET: 2026-2027 Certified Compensation Restructuring

Cumberland County Schools | "The Linear Growth Plan"

1. THE FINANCIALS

- **Total Investment: \$2.44 Million** (Inclusive of base salary increases)
- **The "Base Anchor": \$51,000** for Step 0 (Bachelor's).
- **The Vertical Step: \$625** fixed annual increase for all certified staff (Steps 0–29).
- **Funding Source:** Supported by the **TISA formula** (\$7,530 per-pupil base) and 11 years of consistent state "Salary Improvement" earmarks.

LEGISLATIVE ALERT: HB 2458 / SB 2674

- **The Pending Bill:** The 114th General Assembly is currently moving to raise the state minimum teacher salary to **\$50,290**.
- **Future-Proofing:** Our **\$51,000 base** clears this pending hurdle by **\$710**. This ensures Cumberland County remains in full compliance even if the bill passes late in the session, avoiding emergency mid-summer budget amendments.

2. REGIONAL COMPARISON (THE COMPETITIVE EDGE)

Cumberland County must compete with neighboring districts that have already moved to linear scales to meet the state's \$50,000 mandate.

- **Cumberland Base: \$51,000** (Linear)
- **White County Base: \$50,250** (Linear)
- **State Minimum: \$50,000** (Mandated)
- **The "Mid-Career Firewall":** At Year 15, a Cumberland teacher earns approximately **\$1,800 more per year** than a teacher in a district only meeting the state minimum.
- **Strategic Leadership:** While other districts struggle to meet the \$50k "floor," we are intentionally leading. A \$51,000 base positions us as the **"Gold Standard"** for recruitment.
- **Professional Prestige:** By adopting a **Linear Model**, we match the professional standards of the state's highest-performing districts.

3. SYSTEMIC PROTECTION (POLICY 5.1101)

This plan is protected by a new Board Policy designed to improve the salary schedules of the past:

- **Anti-Compression:** Any future lift to the \$51,000 "Base Anchor" must mathematically lift the entire scale, ensuring veteran experience is always rewarded.
- **TISA Pass-Through:** Establishes a transparent formula for applying state raises directly to the base, removing political friction from the budget process.

- **Annual Audit:** Mandates a spring compliance review to ensure the district never falls below state legal requirements (T.C.A. § 49-3-306).

4. THE "LIFETIME VALUE" PROMISE

By choosing Cumberland County, a teacher locks in a 30-year career trajectory with a **\$137,500 Lifetime Earnings Advantage** over the state minimum. This is our primary tool for long-term retention.

5. FISCAL SUSTAINABILITY

- **Salary Breakage:** The plan is partially self-funding through "breakage"—the savings captured when a veteran (Step 29) retires and is replaced by a new recruit (Step 0).
- **Scalability:** The total cost of the plan scales with our student population. As TISA revenue shifts based on enrollment, the Board retains the flexibility to adjust staffing levels while keeping the *pay rate* competitive.
- **State-Earmarked Growth:** Policy 5.1101 ensures that future "Base Anchor" raises are tied directly to state-earmarked funds. We only move the scale when the State provides the recurring revenue to support it.
- \$51,000 base is not a temporary 'bonus.' It is anchored to a state funding formula that is legally protected from decreasing. Between the State's 'Funding Floor' and the Board's 'Linear Policy,' your career-long earnings projections are safe in.

We are moving from a system of 'clumped' raises to a system of 'guaranteed growth.' This \$2.44 million investment fulfills our Strategic Plan, beats our regional competitors, and ensures that every one of our teachers has a protected, predictable, and professional career path in Cumberland County.

FY27 TISA - Support Provision Projections			
<p>TISA includes three provisions for support funds for LEAs that may experience declines in student population and needs. The funding floor provision, beginning for funding for the 2026-2027 school year, provides support for LEAs that experience a decrease in TISA allocation relative to the immediately preceding school year and experience a decline in non-virtual base ADM. LEAs that qualify for funding floor will receive a TISA allocation for the current school year that is equal to the TISA allocation from the immediately preceding school year. In the initial transition to TISA, a BEP transition funding opportunity ensures that no LEA receives less funding in the first year of TISA compared to the prior fiscal year. The BEP transition funds also provide scaled down support for up to a four-year period as LEAs adjust operations. The safety net provision ensures that no LEA experiences a decline of more than 5% from one fiscal year to the next in virtual excluded TISA allocations.</p> <p>If your LEA is currently projected to qualify for any of the support provisions, below details which support provision and an estimate of state and local funding. As with every year's estimates, districts should expect that data and funding estimates will change throughout the spring as they submit updated and additional data. This is not a final determination of qualification for any support provision.</p>

- Figures represent minimum salary requirements. Local education agencies (LEAs) should provide additional compensation increases to the base salary for factors including aiding in staffing hard-to-staff subject areas and schools and in hiring and retaining highly effective teachers [Tenn. Code Ann. § 49-3-306(h)]. In addition, LEAs may provide additional increases for years of experience and educational attainment.
- The adoption of the state salary schedule shall not result in a reduction of pay by an LEA for any teacher employed by the LEA at the time of the schedule's adoption [Tenn. Code Ann. § 49-3-306(a)(1)]. Therefore, the minimum salary required for such personnel may be greater than the figures noted above.

Dear Director Farley,

Outcomes funding is a key element of the Tennessee Investment in Student Achievement (TISA) funding formula. The Tennessee Department of Education (the department) allocates student-generated outcomes bonuses to local education agencies (LEAs) based on student achievement in the LEA's public schools, including authorized public charter schools. For fiscal year 2026 (FY26), the Tennessee General Assembly has appropriated \$80 million for student-generated outcomes bonuses.

Outcomes Bonuses: Eligibility and Calculation

A student may generate one outcome bonus in elementary school, one in middle school, and one in high school. Outcomes funding targets are measured as lag indicators, pulling performance data reported for the prior academic year- in this case the 2024-2025 school year. Outcomes bonus funds are 100% state-funded and do not require additional local contributions.

To be reviewed in combination with the tables on the following pages, the department has uploaded an associated file to your TNShare EIS Supervisors folder. This letter and associated data file reflect the FY26 TISA outcomes bonuses generated by students in your district.

FY26 TISA Outcomes District File:

- *District Calculator* - reflects district level bonus information, mirrors the tables below
- *School Summary* - provides school level bonus information
- *Elementary_Student Level* - student level data for elementary bonuses
- *MiddleSchool_Student Level* - student level data for middle school bonuses
- *HS_G1_Student Level* - student level data for high school, goal 1 bonuses
- *HS_G2_Student Level* - student level data for high school, goal 2 bonuses

March 26, 2026

Dear Director Farley,

The Tennessee Investment in Student Achievement (TISA) funding formula allocates funds to local education agencies (LEAs) based on the characteristics of individual students. To support LEAs with budget planning and ensuring accurate data submissions, the Tennessee Department of Education (the department) is providing several resources for your review.

FY27 TISA Estimates

FY27 TISA estimates on the following pages include the **base, weighted funding, and direct funding** generated by student data that has been submitted by your district **averaged over Reporting Periods 1-6**. This information was pulled on March 16, 2026 and reflects a full application of the [TISA Rules](#). In reviewing this information, please be mindful of the data caveats noted above your district's estimated allocation table and in the district data files. **As with every year's estimates, districts should expect data and funding estimates to change throughout the spring, as updated and additional data are submitted.**

FY27 TISA Updates

- **Base Funding:** For 2026-27 TISA allocations, the Governor's proposed budget increases the base funding amount to **\$7,530**. As with the last three years, the increase to the base funding amount includes a \$125 million investment for existing educator salary increases to meet the required minimum teacher salary of \$50,000 by the 2026-27 school year. Pursuant to T.C.A. § 49-3-306, for the 2026-27 school year, the state minimum salary will be \$50,000.
- **Economically Disadvantaged Funding:** Some districts have continued to report a decrease in the number of students identified as economically disadvantaged (ED) for the 2025-26 school year. To mitigate the impact of reduced federal eligibility for SNAP/TANF on district funding, the Governor has proposed a hold harmless provision for Economically Disadvantaged Average Daily Membership (ED ADM) through the appropriations bill. Under this proposal, districts will generate TISA funds to cover 100% of the gap between 2025-26 actual ED ADM and 2024-25 funded ED ADM. If a district's 2025-26 ED ADM exceeds 2024-25 funded ED ADM, funding will be based on the actual ED ADM for the 2025-26 school year. The hold harmless provision is applied to the ED ADM reflected in the pages below. Please see the district data file in TNShare for actual ED ADM without the hold harmless applied. As with all funding elements, please note that this provision must be approved through the General Assembly's appropriations bill before implementation.
- **Tennessee Education Data System (TEDS):** As we transition from the legacy EIS system to TEDS, we remain focused on monitoring the accuracy and completeness of data. Your SIS administrators and data teams have made an incredible lift to get us here, and their continued work is critical to a smooth and successful shift. All data previously pulled from EIS for TISA purposes is now being pulled from TEDS to determine FY27 TISA allocations.
- **Funding Floor:** Beginning with the 2026-2027 fiscal year, if a district's TISA allocation for the current school year is less than their TISA allocation for the immediately preceding school year, and if the district experienced a decline in non-virtual base ADM, then the department will allocate additional funds to equal the district's immediately preceding school year TISA allocation. For more information on the funding floor and other support funding provisions, see [TISA Quick Guide: Support Funding](#).

District FY27 Projection Data File

To be reviewed alongside the tables on the following pages, the department has uploaded the *FY27 TISA District Projection File* to your TNShare EIS Supervisors folder. This file provides FY27 TISA estimates for your district. Please verify the data and make any necessary adjustments to the local system. The section below outlines the information contained in each tab of the file.

- **TISA Calculator**
 - **FY27 Projected Allocation Calculator:** Summary of student characteristics that determine the TISA allocation.
 - **Local Contribution Calculator:** A tool for districts to use in projecting local contribution. The calculator includes the following:
 - Transparent math, aligned with law and the TISA rules, to estimate local share, local contribution, and multi-system county calculations.
 - Current estimates for all funding fields; values will change throughout the spring as new data is submitted.
 - **Final fiscal capacity values from CBER and TACIR have not been received for FY27. FY26 fiscal capacity values have been included as an estimate until final values are received.**
 - **Estimated Funds for Existing Educator Salary Increases:**
 - Pursuant to T.C.A. § 49-3-105(e) and the appropriations act, \$125M of the base funds statewide has been designated for existing educator salary increases.
 - For the 2026-27 school year, the minimum salary will be \$50,000.
 - The table on the far-right of the TISA Calculator tab projects your district's share of these funds to be used for existing educators.
 - **Support Provisions Projection:**
 - TISA includes three provisions for support funds for LEAs that may experience declines in student population and needs: Funding Floor, BEP Transition, and Safety Net.
 - If a district is currently projected to be eligible for one of the support provisions, the estimated TISA allocation is shown with state and local breakouts.
- **CTE Calculator**
 - A tool for districts to view CTE differentiated funding, based on the program level and student progression through the program coursework.
- **Reporting Period Summary:** Average Daily Membership (ADM) by funding line and reporting period.
- **School Calculation:** Projected funding amounts by school.
- **School Counts:** Average ADM by funding line and school.
- **District-submitted and state level input data:**
 - Base ADM (Base ADM is also used for Small, Sparse, Concentrated Poverty, Post-Secondary Test, K-3 Literacy, and Charter)
 - Economically Disadvantaged ADM (by student and school)
 - Special Education ADM (by student and school)
 - English Learner ADM (by student and school with English Learner Tier)
 - Characteristics of Dyslexia ADM (by student and school)
 - Career and Technical Education (CTE) ADM (by student and course, with indicators for program level, course year, and additional funding indicator)
 - 2024-25 3rd Grade ELA TCAP results (by student by school, used as placeholder until 2026 TCAP)
 - CTE Crosswalk (CTE course code and funding tier mapping)

The department will continue to release updated estimates monthly throughout the spring. The next data pull will occur following the April 15, 2026, reporting deadline. We encourage districts to continue verifying data in your local student information systems (SIS) to ensure the submissions align with the students you are serving.

Sincerely,

Lizzette Reynolds
Commissioner

FY27 TISA Preliminary Estimate – Existing Educator Salary Increases

Pursuant to T.C.A. § 49-3-105(e) and the appropriations act, \$125M of the base funds statewide has been designated for existing educator salary increases. For the 2026-27 school year, the minimum salary will be \$50,000. The table below includes the district’s projected share of restricted funds for existing educator salary increases.

FY27 TISA Preliminary Estimate – State & Local Contributions

All the fiscal data in the calculator below will continue to change as additional data is submitted by districts. The calculator reflects the math in determining local contribution in alignment with law and rules, and includes the following:

- **Calculation of Statewide Local Share:** This represents the total base and weight funds generated statewide, with 30% of each being the collective total of local funding entities.
- **Application of Fiscal Capacity:** Final fiscal capacity values from CBER and TACIR have not been received for FY27. FY26 fiscal capacity values have been included as an estimate until final values are received.
- **Calculation of Multi-System Contributions:** If your district is in a multi-system county, this step determines the proportional share of funds generated for each the base and weights by a district compared to all systems within the county. If you are a single system county, the percentage will reflect 100%.
- **Final Local Contributions:** The calculator provides a total estimate of local contributions. The bottom, righthand corner will display the total TISA estimate for the district and the respective split between local and state funds.

Maintenance of Effort: In addition to the required local contribution, local governments must maintain at least the same level of local funding for K-12 education from year to year. This total, called maintenance of effort, may be higher than the required local contribution. District obligations under maintenance of effort remain unchanged under the TISA Act, and the currently budgeted funding level is included here for reference.

Pursuant to T.C.A. § 49-3-105(d), please note that funds generated for the post-secondary test* will be maintained and administered at the state level. These funds are reflected in the total state funds as being generated by TISA but will be administered by the department to relieve procurement and administration burden on districts.

As with every year's estimates, districts should expect that data and funding estimates will change throughout the spring as they submit updated and additional data.

Hey Ramona!

Sorry for the delay - I was in Kingsport all day. I ran rough numbers on the design and I wanted to give you a heads up on pricing.

Design 34EZ

Equipment: \$31,337.25

Installation: estimated \$14,101.76

45,439.01

Freight - is based on weight so I can't give a good estimate on that

Even if we run the quote through Sourcewell, the discount it gives won't get the equipment in budget.

If you would like us to move forward with a formal quote I'm happy to. I just wanted to let you know the rough numbers.
