D. Strategic Plan 2019-2024

The state requires BOE's to approve a five year strategic plan that aligns with state goals and the district's ePlan. The strategic plan must be revised every two years.

The board met in four strategic planning sessions during the spring of 2019 to lay out their vision for the district with goals and strategies to achieve them. Actions to carry out the strategies have been added as well as measure to chart progress of the plan.

E. Policy Revisions

1. Policy 3.202 - Revision - Emergency Preparedness Plan

State law previously only required high schools to maintain AEDs. Public Chapter 391 expands this requirement to all schools. The proposed revision reflects this change (which we already comply with), as well as updates legal references.

2. Policy 4.605 - Revision - Graduation Requirements

State law previously only required students to take a civics exam before graduating high school. Now, Public Chapter 442 requires that students pass the exam in order to graduate.

This revision also moves language regarding special education diplomas from one section of the policy to another, for better flow.

3. Policy 6.308 - Revision - Bus Safety Conduct

Public Chapter 256 only applies to LEAs that maintain cameras on their school buses, and requires those boards to adopt a policy that establishes a process to allow parents to view photographs or video footage collected from cameras on school buses. The new law also requires the policy to contain provisions on who will supervise the parents while they view the surveillance footage and how long the photographs or video footage will be maintained by the LEA.

4. Policy 4.700 - Testing Programs

Public Chapter 108 requires LEAs to make interest inventories available to students in either middle school or ninth grade. It also requires LEAs to administer a career aptitude assessment to students in grades seven or eight.
