Golden stated that there was no need to transfer funds to the food services budget, and he talked about the shortage of staff in the food service and other departments in the district. He reminded the public and the School Board of the online sign-up for public comment.

Golden concluded with an announcement from the State about the level of BEP and how it will be funded.

RE: 2021 LEA Compliance Report

The 2021 LEA Compliance Report from the Tennessee Department of Education is due on November 30, 2021.

Since 2012, the Tennessee Department of Education has required each public school board to approve an annual Compliance Report confirming that each Local Education Agency (LEA) is complying with all federal and state education laws and State Board of Education rules applicable to public schools. Appendix B of the attached form includes links to public chapters regarding education passed during the 2021 legislative session, the entire Tennessee Code, the current and pending State Board of Education rules, etc. Since this law was enacted, we and virtually every other LEA in the State have reported full compliance.

We have reviewed the laws and rules related to education, with a special emphasis on laws passed in 2021, and we are not aware of any education laws or State Board of Education rules with which we are not in compliance.

Staff recommends approval of the 2021 LEA Compliance Report.

2021 Local Education Agency Compliance Report

Local education agencies (LEAs) are required to comply with all federal and state education laws and State Board of Education (SBE) rules. This annual compliance report is one mechanism the department uses to ensure education laws and rules are faithfully executed. The commissioner of education is charged with taking corrective action when an LEA is noncompliant with those laws and rules or is not following a department-approved compliance plan.

Each LEA must submit this report and, if applicable, the corresponding corrective action plan, to the department by **November 30, 2021**. During completion, an LEA should carefully check the status of its compliance with all federal and state education laws and SBE rules. The department monitors and verifies LEA compliance via multiple data sources (e.g., Education Information System, internal program managers) and will consider those sources in making a final determination of an LEA's compliance. Beginning school year 2021-22, the department is formally reinstating LEA approval classifications as outlined in SBE Rule [0520-01-02-.01](#). Annual compliance report data may inform an LEA's approval classification.

I certify that the LEA is in compliance with all federal and state education laws and SBE rules.

I certify that, with the exception of areas indicated in the **attached corrective action plan**, the LEA is in compliance with all federal and state education laws and SBE rules.

RE: **2021 – 2027 5-Year Capital Outlay Plan Update**

Attached please find the 5-Year Capital Outlay Plan update for your review. The plan is divided into five categories:

1. Land Acquisitions
2. New School Building Construction
3. Additions / Major Renovations
4. Maintenance & IT Capital – Asphalt Pavement Resurfacing, Roof Replacements and HVAC Upgrades at Various Schools, IT infrastructure and equipment replacements, all on a Yearly Basis
5. Transportation (Regular and Special Need Buses) (No Growth Included)

We continue to work closely with our Planning & Zoning department to adjust the location and timing of projects due to the changing growth projections across the county. Assumptions are based on current growth trends, communications with local government officials, monitoring platted subdivisions and developments, and residential building permits issued.

Some highlights of this plan are:

- Delayed the opening of the Elementary School South until 2023 due to issues with jurisdictional approvals this past summer. This project has been funded.
- Delayed the opening of the Middle School East (Cox Road) to 2026.
- Moved the location of the next high school back to the western portion of the county due to changes in the growth projections for high school students.
- Added a new elementary school for the Fairview area, and a new elementary school in the Spring Hill/Thompson Station area.
- We are requesting funding for the design of the 4th phase of the Page High School recapitalization.
- We are asking for construction funds for the Brentwood Middle School recapitalization.

- We are asking for construction funds for Synthetic Turf Fields at Summit High School and Independence High School, which will complete our transition to synthetic turf.
- We are asking for design and construction funds for the addition to our transportation building to accommodate growth.
- We have added renovations to Crockett Elementary School and Walnut Grove Elementary School.
- We have delayed the opening of the Early Childhood Development Building South to 2024.

Maintenance of our facilities is critical to the overall condition of our schools. Therefore, we are requesting funding for asphalt projects (parking lots, roads, tennis courts and running tracks), new roofs, wastewater treatment plant upgrades, and funding for yearly upgrades to our aging HVAC systems.

We've included a line for IT capital projects specifically focused on replacement of items that are expiring due to life-cycle age and terminated support from the manufacturers. The figures shown do not include the replacement cycle for the 40,000+ Chromebooks we acquired last year, as those are leased items that will be shown in our IT Operational budget request at the appropriate time.

Transportation needs are included in the plan for the replacement of existing buses within our fleet. These include general education and special needs buses. The plan does not include the cost of buses needed for growth.

Attached for your review is the proposed updated plan. Staff recommends approval.

MEMORANDUM

TO: Williamson County School Board

FROM: Leigh Webb, Assistant Superintendent of Secondary Schools

DATE: November 2, 2021

RE: School Naming Committee Recommendations

The School Naming Committee for the two WCS Online Schools met on October 8th and October 25th to review the history of two schools, view community input, and reach consensus on three recommended school names for the K-8 Online School and the 9-12 Online School. In accordance with WCS School Board Policy 3.210, Naming Facilities, the committee submits to you three names for consideration for each of the two schools. The school names are listed in order of recommendation, with the first name being the top choice of the Naming Committee.

K-8 Online School Name Recommendations:

Discovery Virtual K-8 School – *Discovery Virtual K-8 School* is a name honoring many prior historic voyages where individuals were willing to explore the unknown, learn in new spaces, and stretch their learning to make the greatest impact on our world. From exploring the Hudson Bay, searching for a northwest passage from the Atlantic to the Pacific, discovering the Hawaiian Islands, to exploring space in vessels all named “Discovery,” this name honors innovation, creativity, initiative, and the STEAM significance in K-8 education. This was one of the top recommendations from students and the top recommendation of the Naming Committee.

Voyager Virtual K-8 School – *Voyager Virtual K-8 School* is a school name honoring the explorative spirit, innovation, and initiative behind space travel. As a parallel, the online school students have an explorative mindset, embrace innovation, and demonstrate great initiative in pursuing a virtual education. This name honors the STEAM (Science, Technology, Engineering, Arts, and Math) significance in K-8 education.

WCS Virtual K-8 School - *WCS Virtual K-8 School* is a name that states clearly that the school pulls students from the entire county and identifies students are learning in an online environment. It allows for the school branding committee endless possibilities in creating a school identity but doesn't specifically acknowledge the individuality of the students who attend the school.

9-12 Online School Name Recommendations:

Vanguard Virtual High School – *Vanguard Virtual High School* is a name created to encompass the spirit of leaders creating new ideas, sparking action, and becoming change agents in a new era. Our online high school students sent a spirited message to the Naming Committee not only supporting this name, but supporting a name that speaks to their individuality, honors their one unified virtual campus with students from all WCS high schools, and symbolizes the risk they and the district took in creating a new way of learning for students that would outlast any unique circumstances of our current world.

Voyager Virtual High School – Voyager Virtual High School is a school name that mirrors the K-8 name recommendation that honors the explorative spirit, innovation, and initiative behind space travel. As a parallel, the online high school students have an explorative mindset, embrace innovation, and demonstrate great initiative in pursuing a virtual asynchronous high school education. Though this is a recommendation for the K-8 school as well, the committee recommends a unique name and unique branding for each of the two online schools that allows two distinct learning communities to be identified and assemble community unique to themselves.

WCS Virtual High School – WCS Virtual High School is a name that states clearly that the school pulls students from the entire county and identifies students are learning in an online environment. It allows for the school branding committee endless possibilities in creating a school identity but doesn't specifically acknowledge the individuality of the students who attend the school.

MEMORANDUM

TO: Williamson County Board of Education

CC: Jason Golden, Superintendent of Schools
Mark Samuels, Assistant Superintendent of Operations

FROM: Allison Nunley, Planning & Zoning Supervisor

DATE: November 1, 2021

RE: Annual Out of Zone Report

School Board Policy 1.703 provides the reasons students may attend schools outside of their transportation zone. Out-of-zone requests are submitted through an online software program linked through the District's website. Except for requests related to residential moves, the deadline to submit requests is May 15.

The policy requires a report to the Board annually of all students attending schools outside their transportation zone. Attached are four documents for the 2021-22 school year. The first two pages are the totals for elementary and secondary schools. The zoned schools are the columns with the out of zone schools as the rows. Page three is the list of open-zoned schools with the number of students approved. Page four is the list of those students who are moving into the zone and will come off the list during the school year.

The report numbers are as of October 29, 2021. Let me know if you have any questions.
