Monitoring: Review: Annually, in January	Descriptor Term: Sick Leave - Teacher	Descriptor Code: 5.302	Issued Date: 07/20/15
		Rescinds: 5.302	Issued: 06/06/14

Sick leave shall mean leave of absence because of illness of the teacher from natural causes or accident or the illness or death of the teacher's spouse, parent, grandparent, children, grandchildren, brothers, sisters, mother-in-law, father-in-law, daughter-in-law, son-in-law, brother-in-law, sister-in-law, step-relatives as listed above, or other family member with approval of the Superintendent, which necessitates the absence of the teacher.¹

The time allowed for sick leave with pay shall be one (1) day for each month of employment up to:

- 10-month contract = 8 sick days earned per year
- 11-month contract = 9 sick days earned per year
- 12-month contract = 10 sick days earned per year.²

Sick leave shall be cumulative for all earned or transferred days not used and includes any personal and professional leave transferred to sick leave.² A teacher in need of sick leave shall be allowed to use unearned sick leave up to the number of days which such teacher may accumulate during the remainder of the year in which he is employed.

Upon termination of the employment of such teacher before such days are earned, or at the end of the school year, there shall be deducted from the final salary of such teacher an amount based on their daily rate of pay sufficient to cover any excess sick leave days used by such teacher. If such final salary is insufficient for this purpose, the teacher shall be liable for reimbursement of any amount in excess of their final salary.

When a teacher is unable to meet their classes, the teacher shall notify the Principal or designee as soon as possible before school opens. The teacher shall notify the Principal or designee a reasonable length of time before they intend to return to the classroom and not later than one (1) hour before school opens that morning, so that the Principal or designee may be able to notify the substitute. All sick leave requests of less than ten (10) consecutive work days shall be submitted in Aesop or the current absence management system.

The Family Medical Leave Act (FMLA) employee form or FMLA family form should be completed by a physician along with the long term leave of absence application (LOA), and shall be filed with the principal or immediate supervisor for each period of illness of ten (10) or more consecutive work days. The FMLA forms must be completed and signed by the physician providing facts about the illness/injury, the date of commencement, and an expected date of return. In the event of the absence of a teacher in excess of the sick leave days available to the teacher, the Superintendent may require an examination by a physician other than the physician certifying the previous absences. The Board would pay for the second opinion.

- 1 The Superintendent may require a physician's statement for any sick leave claim.
- 2 If a teacher fails to provide appropriate notice or certification for sick leave, forfeiture of the paid leave
3 will result, with the exception of those cases deemed an emergency by the Principal or immediate
4 supervisor.
- 5 The Superintendent shall keep a record of the accumulated sick leave for each eligible teacher in the
6 Board's employ and shall provide a verified copy to the professional employee upon request. Each
7 employee is responsible for reviewing their accrual balances for each pay period. If an employee believes
8 an accrual balance has been incorrectly reported, the employee shall notify the Payroll Department. If
9 no such notice is given, the reported accruals for each fiscal year shall become final sixty (60) days after
10 completion of that fiscal year. Exceptions may be granted by the Superintendent when circumstances
11 prevent timely notice.
- 12 Part-time teachers may accumulate sick leave in a manner proportionate to their work schedule compared
13 with full-time annual employment of a teacher and their accumulation of sick leave.

1 INTERROGATIONS

2 Students may be questioned by teachers or Principals about any matter pertaining to the operation of a
3 school and/or the enforcement of its rules. Questioning shall be conducted discretely and under
4 circumstances which will avoid unnecessary embarrassment to the student being questioned. A student
5 intentionally answering with false information or refusing to answer a proper question may be subject
6 to disciplinary action. If a student is suspected of misconduct or infraction of the student code of
7 conduct, the administrator may question the student without the presence of a parent/guardian.

8 SEARCHES

9 Any Principal, ~~or designee,~~ having reasonable suspicion of a violation of a law, a school rule, or the
10 existence of a potentially dangerous situation may authorize a search of any student, place, or thing on
11 school property or in the actual or constructive possession of any student during an off-campus school
12 activity.
13
14

15 A student may be subject to physical search, or a student's pocket, purse or other container may be
16 required to be emptied because of the results of a locker search, or because of information received
17 from a teacher, staff member, other student, or other person if such action is reasonable to the
18 Principal.

19 Searches authorized by a Principal may be conducted by either a school resource officer, a school
20 security officer, a school administrator or a school employee designated by the Superintendent of
21 Schools who has completed orientation and training required under State law.^{1&2} If a student is under
22 the age of eighteen (18), the Principal must notify the student's parent or guardian within a reasonable
23 time of the search.³

24 Strip searches shall not be conducted by employees of Williamson County Schools. Students may be
25 subjected to pat down searches, metal detector searches, and thorough clothing searches in order to
26 discover and retrieve concealed weapons and contraband substances. Pat down searches shall be done
27 with the back of the hand. Pat down searches, metal detector searches and thorough clothing searches
28 shall be completed by a Principal or Principal's designee of the same sex as the student being searched
29 and shall be witnessed by at least one other school employee. Pat down searches shall be conducted in
30 an area of privacy so that the search cannot be observed by persons not participating in the search. The
31 Principal shall make reasonable efforts to promptly notify the parents after any pat down search.

1 Nothing in this policy shall be construed as limiting the authority of a licensed law enforcement officer
2 to carry out his/her duties.

3 Whenever the possibility of uncovering evidence of a criminal nature exists, the Principal or his/her
4 designee may request the assistance of a law enforcement officer to:

- 5 1. Search any area of the school premises, any student or any motor vehicle on the school
6 premises; or
- 7 2. Identify or dispose of anything found in the course of a search conducted in accordance with
8 this policy.

9 The involvement of law enforcement officials is encouraged when there is reasonable suspicion that
10 criminal evidence is about to be uncovered.

11 **SCHOOL RESOURCE OFFICERS IN SCHOOLS**

12 School Resource Officers (SRO) are assigned by the Sheriff to high schools and middle schools which
13 Williamson County Schools and the Sheriff agree shall receive an SRO. This officer is recognized as a
14 law enforcement officer employed by the Sheriff with the authority and responsibility of a law
15 enforcement officer. While on duty as a SRO in the school, the officer may confer with or counsel with
16 students as necessary and within legal due process.

17 If the Principal has requested assistance by the School Resource Officer (SRO) to investigate a crime
18 involving his/her school, the SRO (or other law enforcement officer) shall have permission to
19 interrogate a student suspect in school during school hours. The Principal shall make reasonable efforts
20 to promptly notify the parent(s)/guardian(s) or legal custodians of the student of the intended
21 interrogation except in extreme situations. The interrogation may proceed without attendance of the
22 parent(s)/guardian(s) or legal custodians. The Principal or his/her designee shall be present during the
23 interrogation.

24 If the police deem circumstances of sufficient urgency to interrogate students at school for crimes
25 committed outside of the school hours unrelated to school and school activities, the law enforcement
26 officer shall first contact the Principal regarding the planned interrogation and inform him/her of the
27 probable cause to investigate within the school. The Principal shall make reasonable efforts to
28 promptly notify the parent(s)/guardian(s) or legal custodians of the interrogation except in extreme
29 situations. The interrogation may proceed without attendance of the parent(s)/ guardian(s)/ or legal
30 custodians, in which case, the Principal or his/her designee shall be present during the interrogation.

31 **SEARCH DOGS**

32 Dogs or other animals trained to detect drugs or dangerous weapons may be used in conducting
33 searches, but the animals shall not be used to search the persons of students or visitors.

34 **METAL DETECTORS**

35 The use of hand-held or walk-through metal detectors to check a student's person or personal effects is
36 permitted.

SCHOOL COOPERATION WITH LAW ENFORCEMENT

All school personnel shall cooperate to the fullest extent in support of the police and sheriff departments in the prosecution of persons charged with violation of the law with respect to the physical properties and / or personnel, or students under direction of the Board. School personnel shall, when requested, appear in court.

ARREST WARRANTS

Legal warrants for the arrest of a pupil, presented by a law enforcement officer to the Principal, must be honored by the Principal. In such cases, the parent should be informed of the action taken by the law enforcement officer as soon as possible.

Monitoring: Review: Annually, in March	Descriptor Term: Student Discrimination, Harassment, Bullying, Cyber-bullying, and Intimidation	Descriptor Code: 6.304	Issued Date: 08/18/25
		Rescinds: 6.304	Issued: 11/17/20

In order to maintain a safe, civil, and supportive environment in school for students to learn and achieve high academic standards, acts of bullying, cyber-bullying, discrimination, harassment, intimidation, hazing, or any other victimization of students, based on any actual or perceived traits or characteristics, are prohibited. It shall be a violation of this policy for any student to discriminate against or harass an employee or other student on the basis of race, color, religion, sex, national origin, or disability.

Discrimination shall include, but is not limited to, antisemitism, defined as a certain perception of Jews, which may be expressed as hatred toward Jews including, but not limited to, rhetorical and physical manifestations of antisemitism directed toward Jewish or non-Jewish individuals and/or their property, toward Jewish community institutions and religious facilities.¹ For complaints of antisemitic discrimination and harassment reported to WCS, the Title VI Coordinator for WCS will investigate the complaint in accordance with procedures outlined in Tennessee law before formally reporting the incident and complaint to the Title VI Coordinator for the Tennessee Department of Education.¹⁵

This policy shall be disseminated annually to all school staff, students, and parent(s)/guardian(s).² This policy shall cover employees, employees' behaviors, students, and students' behaviors while on school property, at any school-sponsored activity, on school-provided equipment or transportation, or at any official school bus stop. If the act takes place off of school property or outside of a school-sponsored activity, this policy is in effect if the conduct is directed specifically at a student and has the effect of creating a hostile educational environment or otherwise creating a substantial disruption to the education environment or learning process.

The principal/designee is responsible for educating and training respective staff and students as to the definition and recognition of discrimination/harassment.³

The Superintendent of Schools shall develop forms and procedures to ensure compliance with the requirements of this policy and state law.

DEFINITIONS⁴

“Bullying/Intimidation/Harassment” is an act that substantially interferes with a student’s educational benefits, opportunities, or performance, and that has the effect of:

1. Physically harming a student or damaging a student’s property;
2. Knowingly placing a student in reasonable fear of physical harm to the student or damage to the student’s property;
3. Causing emotional distress to a student; or
4. Creating a hostile educational environment.

Bullying, intimidation, or harassment may also be unwelcome conduct based on a protected class (race, nationality, origin, color, sex, age, disability, religion) that is severe, pervasive, or persistent and creates a hostile environment. Such conduct may include, but is not limited to, physical acts, gestures, graphics, or words, written or spoken.

“Cyber-bullying” is a form of bullying undertaken through the use of electronic devices. Electronic devices include, but are not limited to, telephones, cellular phones or other wireless telecommunication devices, text messaging, emails, social networking sites, instant messaging, videos, web sites, or fake profiles.

“Hazing” is an intentional or reckless act by a student or group of students that is directed against any other student(s) that endangers the mental or physical health or safety of the student(s) or that induces or coerces a student to endanger his/her mental or physical health or safety. Coaches and other employees of the school district shall not encourage, permit, condone, or tolerate hazing activities.⁶

Hazing does not include customary athletic events or similar contests or competitions and is limited to those actions taken and situations created in connection with initiation into or affiliation with any organization.⁵

COMPLAINTS AND INVESTIGATIONS

Any individual who has knowledge of behaviors that may constitute a violation of this policy shall promptly report such information to the principal/designee.⁶ For purposes of receiving a report under this policy, the principal/designee shall make his/her contact information (name, address, phone number, and email) available to students and parent(s)/guardian(s) at the beginning of each school year. Nothing in this policy shall prohibit a student from pursuing a concurrent criminal complaint for harassing conduct that could also constitute a criminal offense.

While reports may be made anonymously, an individual’s need for confidentiality shall be balanced with obligations to cooperate with police investigations or legal proceedings, to provide due process to the accused, to conduct a thorough investigation, or to take necessary actions to resolve a complaint. The identity of parties and witnesses may be disclosed in appropriate circumstances to individuals with a need to know.

The principal/designee at each school shall be responsible for investigating and resolving complaints. Once a report is received, the principal/designee shall initiate an investigation within forty-eight (48) hours of receipt of the report. If an investigation is not initiated within forty-eight (48) hours, the principal/designee shall provide the Superintendent of Schools with appropriate documentation detailing the reasons why the investigation was not initiated within the required timeframe.⁷ The principal/designee shall immediately notify the parent(s)/guardian(s) when a student is involved in an act of discrimination, harassment, intimidation, bullying, or cyber-bullying. The principal/designee shall provide information on district counseling and support services. Students involved in an act of discrimination, harassment, intimidation, bullying, or cyber-bullying shall be referred to the appropriate school counselor by the principal/designee when deemed necessary.⁸

The principal/designee is responsible for determining whether an alleged act constitutes a violation of this policy, and such act shall be held to violate this policy when it meets one of the following conditions:

1. It places the student in reasonable fear or harm for the student's person or property;
2. It has a substantially detrimental effect on the student's physical or mental health;
3. It has the effect of substantially interfering with the student's academic performance; or
4. It has the effect of substantially interfering with the student's ability to participate in or benefit from the services, activities, or privileges provided by a school.

Upon the determination of a violation, the principal/designee shall conduct a prompt, thorough, and complete investigation of each alleged incident. All investigations shall be completed and appropriate intervention taken within twenty (20) calendar days from the receipt of the initial report.⁷ If the investigation is not complete or intervention has not taken place within twenty (20) calendar days, the principal/designee shall provide the Superintendent of Schools with appropriate documentation detailing the reasons why the investigation has not been completed or the appropriate intervention has not taken place.⁸ Within the parameters of the federal Family Educational Rights and Privacy Act,⁹ a written report on the investigation will be delivered to all involved parties and the Superintendent of Schools.

RESPONSE AND PREVENTION¹⁰

The principal/designee shall consider the nature and circumstances of the incident, the age of the individual, the degree of harm, previous incidences or patterns of behavior, or any other factors, as appropriate, to properly respond to each situation.

A substantiated charge against an employee shall result in disciplinary action up to and including termination. The employee may appeal this decision by contacting the Superintendent of Schools.

A substantiated charge against a student may result in corrective or disciplinary action up to and including suspension. The student may appeal this decision in accordance with disciplinary policies and procedures.

REPORTS

When a complaint is filed alleging a violation of this policy where there is physical harm or the threat of physical harm to a student or a student's property, the principal/designee of each middle school or high school shall report the findings and any disciplinary actions taken to the Superintendent of Schools and the Chair of the Board.¹¹

By July 1st of each year, the Superintendent of Schools/designee shall prepare a report of all of the bullying cases brought to the attention of school officials during the prior academic year. The report shall also indicate how the cases were resolved and/or the reasons they are still pending. This report shall be submitted to the State Department of Education by August 1st.¹²

RETALIATION AND FALSE ACCUSATIONS

Retaliation against any person who reports or assists in any investigation of an act alleged under this policy is prohibited. The consequences and appropriate remedial action for a person who engages in retaliation shall be determined by the principal/designee after consideration of the nature, severity, and circumstances of the act.¹³

- 1 False accusations accusing another person of having committed an act prohibited under this policy are
 2 prohibited. The consequences and appropriate remedial action for a person found to have falsely accused
 3 another may range from positive behavioral interventions up to and including expulsion.¹⁴

Williamson County Schools Board Policy Review or New Policy

This form will be completed for all Williamson County Board of Education policy revisions, deletions or new policies. Attach any information which would be helpful to understand the proposed changes or actions.

Recommended by: Leigh Webb

Title: Superintendent

Date Submitted to General Counsel: July 28, 2026

Recommendation: New, **Revise** X, or Delete ☐ the following Policy number and title:

6.312 Use of Wireless Communications

Brief summary of the proposed changes:

School leaders recommend strengthening the consequences for violations of the Wireless Electronic Communication Device policy.

Brief justification of why additions or changes are needed or required:

Each summer school leaders review the Student Handbook, discipline data, and discuss best practice surrounding our prevention and responses to certain student behaviors. This summer, our school principals collectively recommended strengthening the schools' consequences for violations of the Wireless Electronic Communication Device policy. For other student behaviors, we make changes administratively that align with the Code of Conduct policy and implement immediately. Since the consequences for this policy are written within it, staff is asking that the Board consider editing the consequences within the policy with school recommendations or allowing the consequences to be managed consistently throughout all schools and grade bands through the Student Handbook. If allowed to move the specific consequences to the Student Handbook, we can add an annual agenda item to share the Student Handbook changes with the Board each August.

Example: In high schools, the redirection of student behavior as a first offence was difficult to track in the hallways for our non-pilot schools and often led to multiple redirections before office intervention. The method of tracking first offense warnings from the pilot was not sustainable from the teacher/administrator's perspective (digital form from the teacher each time redirections were made).

Staff analysis of the proposed addition or changes in terms of the following:

Legal implications; educational benefits; impact on the staff at the building level; impact on staff at the district level; immediate and future changes in numbers of assignments of personnel; immediate and future budgetary impact.

Staff recommends the proposed change and the behavior to be managed through the consistent implementation of the Student Handbook. Additionally, a copy of the Student Handbook should be sent to the Board each August as an item on the annual agenda.

Use of Wireless Communication Devices

Descriptor Code:

6.312

Issued Date:

Issued:

06/16/25

PURPOSE

This policy is required by Tennessee law and establishes clear and consistent expectations for the possession and use of personal wireless communication devices by K–12 students and will take effect August 1, 2026. Its purpose is to ensure that instructional time and school environments remain free from unnecessary distractions and to promote student engagement, well-being, safety, and a positive school environment.

Research and safety experts agree that limiting device use during the school day:

- Improves learning by keeping students focused and engaged.
- Supports well-being by reducing social pressures, bullying, and anxiety.
- Strengthens safety by ensuring students follow staff directions in an emergency. Parents will be notified through the school's emergency communication system. Safety experts caution that parents calling or texting students during an emergency can put students at greater risk by drawing attention to them and disrupting established safety procedures.

DEFINITION

For purposes of this policy, wireless communication devices include but are not limited to:

- Cell phones;
- Smart watches;
- Ear buds / AirPods iPods / MP3 players;
- CD players, Walkmans, or radios;
- Pagers or beepers;
- Handheld electronic games; and
- Non-school issued laptops or tablets or any portable devices capable of communication or gaming.

GENERAL

The district shall develop a procedure by which students' wireless communication devices can be securely stored during the school day, except that students in grades 9-12 will have access to their devices during their assigned lunch period.

SCHOOL SETTING

“School setting” includes all areas of the campus or school-sponsored environments during the school day, whether instruction is actively occurring or not, including but not limited to:

- Classrooms and libraries;
- Lunch areas and auditoriums;
- Gymnasiums and physical education areas (indoor and outdoor);
- Performing arts areas;
- Locker rooms;
- Administrative offices;
- Nurse’s office, counseling/medical/psychological spaces; or
- Bathrooms School Buses and other district-provided transportation for field trips/travel during school day.

Leaving class during instructional time to use a device in another school setting is a violation of this policy.

EXCEPTIONS

Students may use personal communication devices only when:

1. Authorized by a teacher for a specific educational purpose. A “specific educational purpose” means that the device is being used as a tool directly tied to the learning objectives of the lesson and under active teacher supervision.

Examples include:

- a. Accessing a teacher-directed digital resource not otherwise available on school-issued technology.
- b. Using translation or accessibility applications as part of instructional activities.
- c. Documenting a project, experiment, or performance when directed by the teacher.
- d. Participating in structured class activities (e.g., polling software, classroom response systems) where the teacher requires device access.

Educational purpose does not include:

- a. Free or unsupervised internet browsing.
- b. Listening to music, playing games, or watching videos unrelated to instruction.
- c. Messaging, social media, or personal communication.
- d. Using the device as a reward or filler activity in lieu of teacher-directed instruction.

Teacher authorization may not be granted for the purpose of convenience when school-issued devices or classroom materials are available for instructional purposes. Permission to use a personal device is an exception, not the norm, and should be revoked immediately if misused.

2. To manage the student’s health, as documented in the student’s individual healthcare plan;
3. When the possession or use is required by the student’s Individual Education Program (IEP), active 504 plan, or individual learning plan; or
4. The device is being used by a student with a disability for the operation of assistive technology to increase, maintain, or improve the student’s functional capabilities.

PROHIBITED USES

Students are prohibited from:

1. Using devices in any manner that threatens academic integrity, disrupts learning, or violates privacy rights.
2. Using devices to cyberbully, harass, or threaten another student.
3. Taking, sending, sharing, viewing, or possessing pictures, text messages, emails, or other material depicting sexual activity, as defined in Tennessee Code Annotated § 39-17-1003 and related statutes (including § 39-17-1002), while the student is on school grounds, at school-sponsored events, or on school buses or vehicles provided by the district.
4. Recording or photographing without consent.
5. Students may not use personal devices to access the internet through unauthorized means (e.g., personal hotspots, VPNs, or circumvention of school network filters).
6. Charging devices using school resources during the school day.

STAFF EXPECTATIONS

Teachers and staff members will consistently and fairly enforce this regulation. Teachers will clearly designate storage areas ~~in classrooms~~ for student devices. ~~who cannot store devices in backpacks, lockers, or purses/bags.~~

Teachers and staff will not use phone breaks as student rewards.

Teachers and staff should model appropriate device use by refraining from personal use during instructional time.

STUDENT AND FAMILY RESPONSIBILITIES

Bringing a personal wireless communication device to school is strictly optional. These devices are not required for instruction and do not enhance learning during the school day.

Students are solely responsible for any personal wireless communication devices they choose to bring to school or school-sponsored events. The school district will not assume responsibility for loss, theft, damage, or unauthorized use of these devices.

CONSEQUENCES

Any visible device during school hours may be confiscated. Confiscated devices will be secured and returned to the student at the end of the school day.

Violations of this policy will result in disciplinary action. Repeated violations will lead to progressive consequences. Final determination of disciplinary measures rests with school administration using the guidance below.

Elementary School

- First Offense Consequences: Teacher places device in the student's backpack/cubby. Teacher/Administrator notifies parent and reviews expectations with the student. The device goes home with the student at the end of the day.
- Second Offense Consequences: The teacher confiscates the device and takes it to school administration. Teacher /Administrator notifies parent and reviews expectations with the student. The device goes home with the student at the end of the day.
- Third or Repeated Offense Consequences: The teacher confiscates the device and takes it to school administration. Teacher /Administrator notifies parent and reviews expectations with the student. Parent picks up the device at the end of the day.

- ~~• First Offense: Device placed in cubby/backpack. Teacher/staff member communicates with student and family, reteaching of expectations. Device goes home with student at end of day.~~
- ~~• Second Offense: Device sent to administrator. Administrator communicates with student and family, reteaching of expectations. Device returned to student at end of day.~~
- ~~• Third Offense: Device sent to administrator. Administrator communicates with student and family, reteaching of expectations. Parent/guardian required to pick up the device.~~

Middle School

- First Offense Consequences: Teacher confiscates the device and takes it to school administration. Teacher/admin notify parent and review expectations with student. Student picks up devices at the end of the day. Warning/Violation is logged into Skyward by school administration
- Second Offense Consequences: Teacher confiscates the device and takes it to school administration. Teacher/admin notify parent and review expectations with student. Students pick up devices at the end of the day. Detention is assigned.
- Third or Repeated Offense Consequences: Teacher confiscates the device and takes it to school administration. Teacher/admin notify parent and review expectations with student. Parents pick up devices at the end of the day. Consequences escalate for repeated offenses; focus shifts from device to a pattern of non-compliance. Examples: Loss of privilege (device in office), ISS.

EMERGENCY COMMUNICATION

All staff members have access to communication devices during the school day and may contact the school office in case of an emergency. In an emergency, school staff will initiate established communication protocols to notify parents/guardians by text message, email, and/or phone call. Students will also be permitted to contact a parent/guardian once it is safe to do so under staff direction.

Safety experts strongly caution against parents calling or texting students during an active school emergency, as this can draw attention to students' locations and interfere with their ability to follow safety instructions. Parents are urged to await official communication from the school.

In non-emergency situations, parents/guardians will be contacted by school officials via text message, email, or phone call.

Monitoring: Review: Annually, in March	Descriptor Term: Use of Digital Devices	Descriptor Code: 6.313	Issued Date: Click here to enter a date.
		Rescinds: n/a	Issued:

1 PURPOSE

2 This policy is required by Tennessee law to govern the age-appropriate and instructional use of digital
3 devices by students.¹

4 DEFINITIONS

5 For purposes of this policy, “digital device” means electronic hardware used for instructional purposes
6 that can access, process, store, or transmit data and “social media” means a form of interactive electronic
7 communication through an internet website or application by which a user creates a service-specific
8 profile to connect with other users for communication or content sharing.¹

9 DIGITAL DEVICE USE¹

10 In-person, teacher-led instruction is prioritized as the primary mode of instruction for students in
11 grades kindergarten through twelve (K-12). Electronic assessments and instructional tools used by
12 students in grades K-12 must be developmentally appropriate and aligned with state academic
13 standards. Digital devices can be utilized in grades K-12 when there is a clear educational benefit,
14 including:

- 15 (1) for targeted instructional support, intervention, and remediation;
- 16 (2) as part of either an accommodation or services provided under the Individuals with Disabilities
17 Education Act, Section 504 of the Rehabilitation Act, or the Americans with Disabilities Act;
- 18 (3) for administering a universal screener adopted by the State Board of Education or other
19 assessments required by state or federal law;
- 20 (4) for teacher preparation, lesson planning, or professional use;
- 21 (5) for public virtual schools;
- 22 (6) for homebound instruction;
- 23 (7) for remote instructions days provided under Tennessee law; or
- 24 (8) for hybrid learning days provided under Tennessee law.

25 The Superintendent of Schools or his/her designee shall provide guidance to WCS staff on appropriate
26 use of digital devices by students in grades kindergarten through twelve (K-12) and for ensuring that
27 digital instruction complies with the framework outlined in this policy and in accordance with state
28 law.

Parents/guardians will be provided transparency regarding the types of digital devices used in classrooms and the instructional purposes for digital devices use of students in grades kindergarten through twelve (K-12).

SOCIAL MEDIA USE

As defined under Tennessee law, “social media” is a form of interactive electronic communication through an internet website or application by which a user creates a service-specific profile to connect with other users for communication or content sharing.¹

Students in grades kindergarten through twelve (K-12) are prohibited from accessing ~~, using, or interacting with a~~ social media platform during the instructional day.¹ Students violating this expectation will face progressive discipline beginning as a Level II offense. Consequences may be more severe based on accessed content.

The “instructional day” includes not only during the operational hours of the school day but also participation in school-sponsored activities outside of the operational hours of the school day. This prohibition on access includes any digital device, and not solely District-owned and/or managed devices. The prohibition also includes the accessing of social media through any internet service, and not solely internet services provided by the District.

~~while on school property, participating in a school-sponsored activity, or using a District-owned or District-managed device or District-provided internet service.~~¹ The District shall use measures, including content filtering and access controls, to restrict student access to known social media platforms. The District may block a website, application, service, domain, or other online resource that it determines functions primarily as a social media platform or presents similar communication, content-sharing, or student-safety risks.

Monitoring: Review: Annually, in April	Descriptor Term: Safe Relocation of Students	Descriptor Code: 6.4081	Issued Date: 11/18/19
		Rescinds: 6. 40813061	Issued: 09/17/12

Employees who are directly responsible for a student's education or who otherwise interact within the scope of their assigned duties may relocate a student from the student's present location to another location when such relocation is necessary for the student's safety or the safety of others.¹ Such employees may also intervene in a physical altercation between two or more students or between a student and a district employee. Reasonable force may be used to physically relocate or intervene in a conflict if a student is unwilling to cooperate.² If an employee is unable to resolve the matter with the use of reasonable or justifiable force as required, the student shall be allowed to remain in place until such a time as local law enforcement officers or school resource officers can be summoned to relocate the student or take the student into custody until such a time as a parent/guardian can retrieve the student.

In the event that physical relocation becomes necessary, the employee shall immediately file a brief report of the incident with the building principal. If the student's behavior constitutes a violation of the Board's zero tolerance policy, the report shall be placed in the student's permanent record. Otherwise, the report shall be kept in the student's discipline record and not become a part of that student's permanent record. The principal/designee shall notify the teacher involved of the actions taken to address the behavior of the relocated student.

No part of this policy shall abrogate the rights of those students protected by the Individual with Disabilities in Education Act, Section 504 of the Rehabilitation Act or any other state or federal law in any way. Nothing in this policy shall allow the use of restraint or seclusion against any student in violation of Board policy, state law, or federal law. WCS supports the use of restraint and seclusion when necessary and appropriate, but only in compliance with state and federal law and not as a means of discipline.

The Superintendent of Schools/designee shall create procedures to implement this policy consistent with state law. Each building principal shall fully support the employees' authority under this policy and fully implement the policy and procedures of the system.

CLASSROOM EVACUATION

In the event of a classroom evacuation, in which some or all students are removed from a classroom or instructional area due to a violent, aggressive, or severely disruptive behavior of another student that creates a safety concern or substantially interrupts classroom instruction, the principal or his/her designee at the school where the evacuation occurred must provide notification to the parent/guardian of each student who was in the classroom or instructional area at the time that the classroom evacuation occurred.³ The notification must be provided by the end of the school day in which the classroom evacuation occurred unless the event that prompted the classroom evacuation is an ongoing emergency and/or otherwise under investigation by a state or local law enforcement agency, in which case the

parent/guardian is provided notification once the principal or his/her designee determines that providing notification would not impede the ongoing investigation.³

Notification to the parent(s)/guardian(s) must include:³

1. The fact that a classroom evacuation occurred;

2. A brief description of the general nature of the incident sufficient to explain why the classroom evacuation occurred; and

3. Any steps taken by the school to ensure the continued safety and supervision of students.

Parental notification provided in compliance with the Family Education Rights and Privacy Act (FERPA) and other applicable privacy laws.⁴ No information shall be disclosed about the student whose conduct caused the classroom evacuation, or any other student, if the disclosure would violate privacy laws.

Each school must maintain a record for each classroom evacuation noting: (1) the date/time of the classroom evacuation; (2) the number of students evacuated; (3) the time/manner of the parental notifications; and (4) the person responsible for issuing that parental notification.³

Re: Approval of Outstanding Purchase Orders for School Activity Funds

The Tennessee Internal School Funds Manual, Section 5, Title 3 (pages 5-14) notes “*the local board must approve accounts payable outstanding at fiscal year end.*” Attached is a list of all purchase orders issued by schools to be paid by school funds that were outstanding as of June 30, 2026.

The reason that a particular item has not been liquidated varies by order, however, the most common reason is that the order and/or invoice were not received as of the cutoff date required for reporting the information. There are also occasions when an order must be placed during June, but the goods will not be shipped until school resumes. Although the Manual calls for reporting *accounts payable*, we are disclosing all open purchase orders if goods are shipped or invoices received before June 30, 2026, without sufficient time to liquidate or in the bookkeeper’s absence, thus generating accounts payable.

The attached list includes the purchase order number, vendor, purchase order amount, and the reason the order remains outstanding. Also included, is the account information including name, number, and type of account the purchase order is charged against. When “G” is noted, the account listed is a general fund expenditure account; “R” indicates a restricted account.

As noted in the Manual, please review and approve the attached list of outstanding purchase orders issued during the 2025-2026 school year that will be paid, upon delivery of goods, confirmation of delivery, and presentation of an invoice, during the 2026-2027 school year. If you have any questions related to the attached list or the requirements of the Tennessee Internal School Funds Manual, please feel free to contact me by email at cindy.todd@wcs.edu or by telephone at 615-472-4197.

Thank you for your assistance in this matter.

Title: WCS General Counsel

Date Submitted to General Counsel: July 29, 2026

Recommendation: New ☒ X, Revise, or Delete ☐ the following Policy number and title:

6.415 Applied Behavior Analysis Private Pay Services in Schools

Brief summary of the proposed changes:

Tennessee Public Chapter 1112 requires all LEAs to “allow a private pay provider who is under contract with a parent or legal guardian of a student with autism spectrum disorder or developmental delays who is enrolled in the LEA... access to the student during the school day to provide the student with private pay services in educational settings, including, but not limited to, classroom settings; provided, that the educational settings in which private pay services are provided do not conflict with the student's educational placement.” *See* T. C. A. § 49-10-1502(a).

“Private pay provider” is defined as “a licensed behavior analyst, registered behavior technician, or licensed assistant behavior analyst who provides applied behavior analysis to a student, is not employed or contracted directly by the LEA... and is compensated privately by the student's family or by an external entity.” *See* T. C. A. § 49-10-1501(5).

The Public Chapter further provides that “[a]n LEA...shall adopt and implement a policy for operationalizing private pay services in the LEA...” and thereafter lists requirements for what the “policy adopted pursuant” to PC1112 “must establish...” *See* T. C. A. § 49-10-1502(h). Those requirements include a process for how private pay providers will communicate with a student’s IEP team, professional expectations of the private pay providers in the school or classroom setting, a process for discontinuing or terminating private pay services if an LEA determines they must be discontinued or terminated for cause, and an appeal process where a student’s parent or legal guardian may seek a resolution when the LEA disagrees with the private pay provider or the provision of private pay services. *Id.* Accordingly, each of the requirements outlined under Public Chapter 1112 are included in this new proposed policy “6.415 Applied Behavior Analysis Private Pay Services in Schools.”

A draft of the proposed policy which highlights which sections directly come out of Public Chapter 1112, and which parts come out of requirements provided under Public Chapter 1112 for each LEA to determine, and which includes comments showing how the parts of the proposed policy correspond with the sections of Public Chapter 1112, is being provided to the Board for reference.

Brief justification of why additions or changes are needed or required:

A new policy is needed due to the passage of Tennessee Public Chapter 1112 [*See* <https://publications.tnsosfiles.com/acts/114/pub/pc1112.pdf>] which has since been codified as T. C. A. §§ 49-10-1501 and 49-10-1502 and which requires each LEA to adopt and implement a policy for operationalizing private pay services in the LEA..." *See* T. C. A. § 49-10-1502(h). Public Chapter 1112 required the Tennessee Department of Education ("TDOE") to provide "guidelines and best practices to facilitate the implementation of this section" and to "distribute the guidelines and best practices to each LEA..." *See* T. 1 GENERAL

2 This policy applies to "private pay providers" who provide private pay services to a student with
3 autism spectrum disorder or developmental delays during the school day in the educational
4 setting.¹ "Private pay provider" means a licensed behavior analyst, registered behavior technician,
5 or licensed assistant behavior analyst, who is not employed or contracted directly by Williamson
6 County Schools ("WCS"), and who is under contract with and compensated privately by a student's
7 family or by an external entity.¹ "Private pay services" means applied behavior analysis (ABA) provided
8 by the private pay provider on the grounds of WCS in which the student receiving the applied behavior
9 analysis is enrolled.¹ "Applied behavior analysis" ("ABA") means the design, implementation, and
10 evaluation of environmental modifications by a behavior analyst to produce socially significant
11 improvements in human behavior.²

12 WCS will allow private pay providers to provide private pay services to students with autism spectrum
13 disorder or developmental delays during the school day to the extent that such services align with the
14 student's educational and developmental needs and do not conflict with a student's educational
15 placement.³ Nothing in this policy shall be interpreted to grant private pay providers decision-making
16 authority regarding a student's educational program, placement, access to educational settings, or
17 operation procedures within the school environment.

18 While on WCS property providing services to students, private pay providers shall adhere to: (1)
19 the requirements and professional expectations established in a fully executed memorandum of
20 understanding ("MOU") with WCS; (2) Williamson County Board of Education policies; and (3)
21 all applicable state and federal laws, rules and regulations.

22 Private pay providers are prohibited from providing services to, collecting data on, or interacting with
23 (other than incidental or naturally occurring interactions) other students on WCS property who are not
24 directly receiving private pay services from that private pay provider. Any interactions with school
25 staff shall not cause disruption to the educational environment or the provision of educational
26 instruction. Private pay providers are required to adhere to student confidentiality laws for any
27 student the private pay provider encounters while providing services in the educational setting. A
28 licensed behavior analyst, provided by the private pay provider, must supervise the private pay
29 services delivered during the school day.³

30 APPROVAL PROCESS/COORDINATION WITH SCHOOL PERSONNEL

31 Parents/legal guardians may request the provision of private pay ABA services for a student with
32 autism spectrum disorder or developmental delays during the school day by providing a written request

to the principal of the school where the student is enrolled. The school principal will direct all such requests to the WCS Student Support Services department. The WCS Student Support Services department will coordinate with the parent/legal guardian and private pay provider regarding the requirements to approve private pay services in the educational setting, including executing an MOU before the provision of private pay services.

The private pay provider shall comply with all background check, criminal checks, and fingerprinting requirements pursuant to Williamson County Board of Education policy 5.118, T. C. A. § 49-5-413 and Tenn. Comp. R. & Regs. 0520-01-02-.31(7) prior to the private pay provider starting private pay services in the school setting and shall coordinate with WCS to provide proof of compliance.⁴ Upon providing such proof, the private pay provider shall provide WCS with proof of licensure, certification, and professional insurance that covers the school as an additional insured party before providing any services on WCS premises.⁴

The student's parent/legal guardian must provide: (1) written consent acknowledging that the private pay services have been selected by the parent/legal guardian and are not being provided by the school district; (2) a waiver of liability waiving liability on the school district for acts or omissions arising solely from the private pay provider; and (3) a release of information, on a form approved by WCS, to allow school personnel to communicate directly with the private pay provider.⁵

Upon receipt of parental consent for private pay services, private pay providers shall coordinate with the WCS Student Support Services department to provide the information needed to determine the schedule allowed for private pay services in the school setting. School district personnel, in consultation with the relevant IEP team members for the student (if applicable), will provide the parent with notice of the approval/denial of private pay services, including the schedule for private pay services during the school day and the future contact person for the parent/legal guardian regarding the provision of private pay services.³ Decisions regarding scheduling and location of services shall be individualized and focused on allowing the student to meaningfully access educational opportunities while complying with all requirements to provide a free appropriate public education (FAPE) in the student's least restrictive environment.^{3&6} Private pay services may be limited in time/duration if the private pay services (1) would disrupt the overall classroom environment or the delivery of instruction, (2) would disrupt the student's access to the general curriculum, (3) would fragment the student's schedule in a way that would reduce the student's access to the general education program or the student's core curriculum, (4) conflict with the student's educational and developmental needs, or (5) if applicable, would disrupt the student's ability to receive his/her IEP services required to receive a FAPE in his/her educational placement. For students who have an IEP, private pay services can only supplement, not supplant, any requirements in a student's IEP.^{3&6}

The Superintendent of Schools will develop administrative procedures to implement this policy and in accordance with T. C. A. § 49-10-1502.

TERMINATION OF SERVICES

When a school has objective data or documented observations indicating that the delivery of private pay services is substantially interfering with instruction, student engagement, or classroom

management, the school should convene a meeting with the parent/guardian, designated school personnel, and the private pay provider to discuss the concerns, review relevant data, and identify possible adjustments to the service delivery model designed to reduce disruption while continuing to support the student's needs.⁷

Services of the private pay provider may be discontinued or be terminated for cause.⁷ Termination shall be based on either: violation of the terms of the MOU, violation of Williamson County Board of Education policies, safety concerns, and/or violations of state or federal laws, rules and/or regulations.⁷ If concerns persist despite reasonable corrective efforts, or if the private pay provider's conduct presents an immediate risk to student safety, confidentiality, instruction, or school operations, the private pay services may be discontinued or terminated for cause.⁷ If discontinuation or termination for cause is necessary, the WCS Student Support Services department shall provide the parent/legal guardian with a letter outlining the reason for the termination.

APPEALS PROCESS

If a parent/legal guardian disagrees with a decision of the school district regarding the provision of private pay services, an appeal of such decision may be filed in writing with the Superintendent of Schools.⁷ The Superintendent of Schools or his/her Designee will review the appeal of the parent/legal guardian along with any information provided by WCS staff and make a final determination on the matter within ten (10) school days of receipt of the appeal.

CC: Leigh Webb, Superintendent of Schools

DATE: July 31, 2026

SUBJECT: Change to Early Release Day due to Veteran's Day

Elementary Schools and Operations request approval to reschedule the Early Release Day on November 11, 2026, to November 18, 2026—the following Wednesday.

There is currently an Early Release Day scheduled for all elementary schools on November 11, 2026. This is Veteran's Day.

On this day, across our high schools, band and JROTC groups participate in Veteran's Day parades across the county. The transportation needs for the Veteran's Day parade will create significant logistical challenges for the on-time arrival of buses for Early Release.

In order to maintain the important cadence of this job embedded work for our teachers, the Early Release Day should be rescheduled to November 18, 2026.

Staff recommends approval.
