Questions

The following slides provide a summary of the two initial SLAC meetings. Full agendas and slides to the meetings are linked on slide three of this presentation.

SLAC Purpose

Senate Bill 13 from the 89th Legislative Session relates to a District's library materials and catalog, the establishment of a local school library advisory council (SLAC), and parental rights regarding public school library catalogs and access by the parent's child to library materials;

Education Code 33.025 and Celina ISD EFB Local policy allows a District to establish a School Library Advisory Council (SLAC) to assist the District in ensuring that local community values are reflected in each school library catalog in the District.

The SLAC shall review and present a recommendation to the Board of Trustees regarding changes to policies and procedures for:

- the acquisition of library materials consistent with local community values, and
- processing challenges received by the district, including the procedures identified in this policy and any related administrative procedures.

The Board will vote on proposed additions to the district's library materials catalog after receiving recommendations from the SLAC.

SLAC Requirements

- Must meet at least two times each year and at other times as necessary to fulfill the council's duties
- The District shall ensure the members of the SLAC, librarians, professional library staff, and other designated professional staff are trained or receive information on the proper collection development standards
- Each meeting, the SLAC shall:
 - Post at least 72 hours before the meeting:
 - Post notice of the date, hour, place, and subject of the meeting on a bulletin board in the central administrative office of each campus in the District;
 - Ensure that the notice required is posted on the District's website, if the District has a website;
 - Prepare and maintain minutes of the meeting; and
 - Make and post audio or video recording of the meeting.

SLAC Responsibilities

Any recommendation made by the SLAC must adhere to the library standards approved under Education Code 33.021; The SLAC responsibilities/duties include recommending:

- policies and procedures for the acquisition of library materials consistent with local community values;
- joint use agreements or strategies for collaboration between the District and local public libraries and community organizations;
- the removal of any library materials that the SLAC determines to be harmful material or material containing indecent content or profane content that is inconsistent with local community values or age appropriateness;
- policies and procedures for processing challenges received;
- action to be taken by the District in response to a challenge.

Legal and Local Policy

- EFB (LEGAL)
- EFB (LOCAL)
- EFB (EXHIBIT): (SLAC)

Local District Discretion

A district possesses significant discretion to determine the content of its school libraries. A district must, however, exercise its discretion in a manner consistent with the First Amendment.

- Students' First Amendment rights are implicated by the removal of books from the shelves of a school library. A district shall not remove materials from a library for the purpose of denying students access to ideas with which the district disagrees. A district may remove materials because they are pervasively vulgar or based solely upon the educational suitability of the books in question (Bd. of Educ. v. Pico, 457 U.S. 853, 1982).

School Library Program Standards & Guidelines

The *School Library Programs: Standards and Guidelines for Texas* are adopted by the Texas State Library and Archives Commission. The standards and guidelines are applicable to local Texas school districts. 13 TAC 4.1

A district shall adhere to the standards for school library collection development in developing or implementing the district's library collection development policies. Education Code 33.021(c)

Collection Development

Recognize that parents are the primary decision makers regarding their student's access to library material

Library collections must NOT contain material regarded as “obscene”, “patently offensive”, or “harmful”

- Prohibit the possession, acquisition, and purchase of harmful material, as defined by Penal Code 43.24, library material rated sexually explicit material by the selling library material vendor under Education Code 35.002 [*inoperable*; see *Book People, Inc. v. Wong*, 91 F.4th 318 (5th Cir. 2024)], or library material that is pervasively vulgar or educationally unsuitable as referenced in *Pico v. Board of Education*, 457 U.S. 853 (1982);

Recognize that obscene content is not protected by the First Amendment to the United States Constitution

Collection Development

- A school library collection should include materials that are age appropriate and suitable to the campus and students it serves and include a range of materials 13 TAC 4.2(a)-(b). A school library collection should:
 - Enrich and support the Texas Essential Knowledge and Skills (TEKS) and curriculum established by Education Code 28.002 [see EHAA], while taking into consideration students' varied interests, maturity levels, abilities, and learning styles;
 - Foster growth in factual knowledge, literary appreciation, aesthetic values, and societal standards;
 - Encourage the enjoyment of reading, foster high-level thinking skills, support personal learning, and encourage discussion based on rational analysis; and
 - Represent the ethnic, religious, and cultural groups of the state and their contribution to Texas, the nation, and the world.

Collection Development (LOCAL)

In addition to the requirements in state law and rules, the District's library collections shall:

- present multiple viewpoints related to controversial issues [see EMB regarding instruction about controversial issues]
- provide a wide range of background information that will enable students to make intelligent decisions in their daily lives
- include accurate and authentic factual content from authoritative sources
- have a high degree of potential user appeal and interest
- offer a global perspective that promotes equity of access, including print and nonprint materials such as electronic and multimedia, to meet the needs of individual learners
- represent diverse viewpoints and cultural groups of the state and their contributions to the state, the nation, and the world, to ensure the collection embodies the background of all students

Library Materials

In this policy, "library materials" is defined by law and **may** include:

- printed and electronic library acquisitions, including online catalogs, and other ancillary or supplementary materials maintained in a campus library. [See EFB(LEGAL)]

The library collection development standards shall apply to all library materials available for use or display, including:

- material contained in school libraries,
- classroom libraries,
- online catalogs,
- library mobile applications used in the District,
- any other library catalog a student may access.

Evaluation of Materials

Evaluation of materials as referenced in this provision includes a consideration of the factors described at 13 Administrative Code 4.2(b), consideration of local priorities and district standards, and at least two of the following:

- consideration of recommendations from parents, guardians, and local community members;
- consultation with the district's educators and library staff and/or consultation with library staff of similarly situated districts and their collections and collection development policies;
- an extensive review of the text of item;
- the context of a work, including consideration of the contextual characteristics, overall fit within existing school library collection, and potential support of the school curriculum; or
- consideration of authoritative reviews of the items from various sources

Inappropriate Material

In accordance with law and guidance from the Texas State Library and Archives Commission, library materials shall not include "harmful material"; any library material that is pervasively vulgar or educationally unsuitable; any library material containing indecent or profane content; any library material that refers a person to a website, including by use of a link or QR code, containing content legally prohibited under law; or any other material legally prohibited from inclusion in a public school library. [See EFB(LEGAL)]

Obscene material is not protected by the First Amendment to the United States Constitution.

Library materials shall comply with the Children's Internet Protection Act (CIPA), including technology protection measures. [See CQ]

Recommendation and Procurement

Library materials shall be recommended and procured in accordance with guidelines adopted by the Texas State Library and Archives Commission and the District standards and priorities expressed in policy.

Librarians and other professional staff shall assist the SLAC in developing the list of library material recommendations to be presented to the Board. The librarians and other professional staff shall ensure that the materials:

- enrich and support the TEKS and the state and local curriculum, taking into consideration students' varied interests, maturity levels, abilities, and learning styles
- foster growth in factual knowledge, literary appreciation, aesthetic values, and societal standards
- encourage the enjoyment of reading, foster high-level thinking skills, support personal learning, and encourage discussion based on rational analysis
- represent ethnic, religious, and cultural groups of the state and their contributions to the state, the nation, and the world

Procurement Process

- The SLAC shall recommend to the Board a list of library materials for procurement.
- The Board shall consider the SLAC's recommended list of library materials that have been donated or proposed by the SLAC for procurement. Each Board member may propose changes before the Board takes action on the list of donated or proposed library materials.
- The Board shall either approve or reject the library materials that have been donated or proposed for procurement.
- At least 30 days prior to the Board's vote to accept donated library materials or approve procurement of library materials, the Superintendent shall make accessible to the public the list of library materials in accordance with law.

Procurement Process

Additional Clarification

- Library materials cannot be procured or otherwise acquired unless and until receiving board approval after considering the recommendations of the district-level library supervisor and the LSLAC.
- Donated materials may be accepted and stored by the district or the individual campus receiving the donation, but may not be added to the library catalog, distributed to campuses, or otherwise made available to students until receiving board approval, except as required by other law.
- This procedure does not apply to the replacement of damaged library materials previously approved by the board or the order of additional copies of library materials previously approved by the board.
- The selection and acquisition of the digital library collection shall follow the same policies and procedures as the physical library collection.

Parental Access and Rights

Parents and guardians are the primary decision-makers regarding their child's access to library material.

Students are afforded the opportunity to self-select library materials as part of literacy development and the library program. District staff may assist a student in selecting library material; however, the ultimate determination of appropriateness remains with the student and parent or guardian.

In accordance with state law and administrative procedures, parents or guardians have the right to the following:

- access to policies relating to school libraries and library materials;
- consistent access to library materials and resources;
- opportunities to identify book titles that are not allowed for their child(ren) to check out or access, and
- opportunities for students, parents and guardians, educators, and community members to provide feedback on library materials and services.
- [Parent Access Communication](#)

Reconsideration of Materials

A reconsideration process as referenced in this provision should ensure that any parent or legal guardian of a student currently enrolled in the district or employee of the district may request the reconsideration of a specific item in their school district's library catalog.

A reconsideration process should:

- establish a uniform procedure an individual must follow when filing a request;
- require a district to include a form to request a reconsideration of an item on the school's public internet website
- require that the completed request for reconsideration form be distributed to the superintendent or superintendent designee, school librarian, and the board at the time of submission;
- include a reasonable timeframe, approved by the board, for the review and final decision by a committee charged with the review of the item in its entirety.

A district may not be required to reconsider an item within two calendar years of the final decision. 13 TAC 4.2(e)

Challenge of Materials (LOCAL)

A District employee, a parent or guardian of a District student, or a District resident may challenge library material maintained in the District's library program.

Access to challenged material shall be restricted during the challenge process.

The district shall provide a copy of a written challenge to the SLAC, not later than five business days after receiving the challenge.

The SLAC shall review the challenged material, meet, and make a recommendation for action to the board with a written justification not later than 90 calendar days after a copy of the challenge is received.

The board shall take action on a written challenge at the first open meeting after the 90th calendar day following district receipt of a written challenge or after the SLAC has made a recommendation regarding the challenge, whichever is sooner.

Challenge of Materials (LOCAL)

Board Action:

- After the board vote, the appropriate district-level administrator shall notify the complainant of the result within five business days.
- If a challenge to a library material results in the board removing material from the school library catalog, the district shall promptly notify each teacher assigned as the classroom teacher at the grade level for which the library material was determined to be not appropriate and instruct the teacher to remove any copy of the library material from the teacher's classroom library, if applicable.
- If a challenge results in the board not removing the library material from the school library catalog, the district shall not take any action in response to written challenges to the same library material submitted before the second anniversary of the date of the determination to not remove the library material.

Collection Development Standards

CISD District Librarian Book Vetting Process

SLAC Responsibilities in Approving Titles

- Educational significance and support of district curricula and state standards (TEKS)
- Age appropriateness and suitability for each grade level
- Literary or artistic merit
- Relevance, accuracy, objectivity, and scope of the content
- Reflecting a balance of viewpoints and community values

SLAC Book Vetting Resources

- [Common Sense Media](#): Best for checking if a book is age-appropriate and identifying sensitive content quickly. A more conservative and parent friendly website. May not have new titles.
- [American Library Association](#) (Awards List): Lists award winning books and a good place to determine the educational value of a title. They are not as conservative as our district.
- [School library Journal](#): A website designed to help librarians purchase high quality titles. They are not as conservative as our district.
- [Publisher & Retailer Book Pages](#): These often include summaries, age recommendations, author info, and sometimes teacher guides. Example: Barnes & Nobles, Amazon
- [Good Reads](#): Best for getting a sense of overall tone and themes, but reviews are very opinionated.
- [Google Books](#): Allows particle preview of many titles, searchable for keywords such as kiss, violence, drugs, etc.
- [Kirkus Reviews](#): Best for getting a professional-quality review without a subscription.
- [YouTube Read-Alouds](#): Best for quickly evaluating younger elementary titles.

Participating Authorities:

This contract is made pursuant to Texas Election Code Sections 31.092 and 271.002 and Texas Education Code Section 11.0581 for a joint May 2, 2026 election to be administered by Frank Phillips, Denton County Elections Administrator, hereinafter referred to as “Elections Administrator.”

RECITALS

Each participating authority listed above plans to hold a General or Special Election on May 2, 2026.

The County owns the Hart InterCivic Verity Voting System, which has been duly approved by the Secretary of State pursuant to Texas Election Code Chapter 122 as amended and is compliant with the accessibility requirements for persons with disabilities set forth by Texas Election Code Section 61.012. The contracting political subdivisions (participating authorities) desire to use the County’s voting system and to compensate the County for such use and to share in certain other expenses connected with joint elections, in accordance with the applicable provisions of Chapters 31 and 271 of the Texas Election Code, as amended.

NOW THEREFORE, in consideration of the mutual covenants, agreements, and benefits to all parties, IT IS AGREED as follows:

I. ADMINISTRATION

The participating authorities agree to hold a “Joint Election” with Denton County and each other in accordance with Chapter 271 of the Texas Election Code and this agreement. The Elections Administrator shall coordinate, supervise, and handle all aspects of administering the Joint Election as provided in this agreement. Each participating authority agrees to pay the Elections Administrator for equipment, supplies, services, and administrative costs as provided in this agreement. The Elections Administrator shall serve as the administrator for the Joint Election; however, each participating authority shall remain responsible for the decisions and actions of its officers necessary for the lawful conduct of its election. The Elections Administrator shall provide advisory services in connection with decisions to be made and actions to be taken by the officers of each participating authority as necessary.

It is understood that other political subdivisions may wish to participate in the use of the County's Verity voting system and polling places, and it is agreed that the Elections Administrator may enter into other contracts for election services for those purposes, on terms and conditions generally similar to those set forth in this contract. In such cases, costs shall be pro-rated among the participants according to Section XI of this contract.

II. LEGAL DOCUMENTS

Each participating authority shall be responsible for the preparation, adoption, and publication of all required election orders, resolutions, notices, and any other pertinent documents required by the Texas Election Code and/or the participating authority's governing body, charter, or ordinances, except that the Elections Administrator shall be responsible for the preparation and publication of all voting equipment testing notices that are required by the Texas Election Code. Election orders should include language that would not necessitate amending the order if any of the Early Voting and/or Election Day polling places change.

Preparation of the necessary materials for notices and the official ballot shall be the responsibility of each participating authority, including translation to languages other than English. Each participating authority shall provide a copy of their respective election orders and notices to the Elections Administrator.

III. VOTING LOCATIONS

The Elections Administrator shall select and arrange for the use of and payment for all Early Voting and Election Day voting locations. Voting locations will be, whenever possible, the usual voting location for each election precinct in elections conducted by each participating authority and shall be compliant with the accessibility requirements established by Election Code Section 43.034 and the Americans with Disabilities Act (ADA). The proposed voting locations are listed in Exhibit A of this agreement. In the event a voting location is not available or appropriate, the Elections Administrator will arrange for use of an alternate location. The Elections Administrator shall notify the participating authorities of any changes from the locations listed in Exhibit A.

IV. ELECTION JUDGES, CLERKS, AND OTHER ELECTION PERSONNEL

Denton County shall be responsible for the appointment of the presiding judge and alternate judge for each polling location. The Elections Administrator shall make emergency appointments of election officials if necessary.

Upon request by the Elections Administrator, each participating authority agrees to assist in recruiting bilingual polling place officials (fluent in both English and Spanish). In compliance with the Federal Voting Rights Act of 1965, as amended, each polling place containing more than 5% Hispanic population as determined by the 2020 Census shall have one or more election officials who are fluent in both the English and Spanish languages. If a presiding judge is not bilingual, and is unable to appoint a bilingual clerk, the Elections Administrator may recommend a bilingual worker for the polling place. If the Elections Administrator is unable to recommend or recruit a bilingual worker, the participating authority or authorities served by that polling

place shall be responsible for recruiting a bilingual worker for translation services at that polling place.

The Elections Administrator shall notify all election judges of the eligibility requirements of Subchapter C of Chapter 32 of the Texas Election Code and will take the necessary steps to ensure that all election judges appointed for the Joint Election are eligible to serve.

The Elections Administrator shall arrange for the training and compensation of all election judges and clerks. The Election judges and clerks who attend in-person voting equipment training and/or procedures training shall be compensated at a flat rate of \$78. Election judges and clerks that elect to complete online training shall be compensated at a rate of a flat \$50. In the event that an Election judge or clerk completes both in-person and online training, they shall be compensated for the training resulting in the highest pay and will not be compensated for both trainings.

The Elections Administrator shall arrange for the date, time, and place for presiding election judges to pick up their election supplies. Each presiding election judge will be sent a letter from the Elections Administrator notifying them of their appointment, the dates/times and locations of training and distribution of election supplies, and the number of election clerks that the presiding judge may appoint.

Each election judge and clerk will receive compensation at the hourly rate established by Denton County pursuant to Texas Election Code Section 32.091 and overtime after 40 hours worked per week, if applicable. The election judge, or their designee, will receive an additional sum of \$25.00 for picking up the election supplies and equipment prior to Election Day and for returning the supplies and equipment to the central counting station after the polls close. Likewise, the Presiding Judge in Early Voting, or their designee, will receive an additional sum of \$25.00 for picking up the election supplies prior to the first day of Early Voting and for returning the supplies and equipment to the Elections Department after Early Voting has ended.

The compensation rates established by Denton County are:

Early Voting – Presiding Judge (\$20.73/hour), Alternate Judge (\$19.35/ hour), Clerk (\$17.97/hour)

Election Day – Presiding Judge (\$20.73/hour), Alternate Judge (\$19.35/ hour), Clerk (\$17.97/hour)

The Elections Administrator may employ other personnel necessary for the proper administration of the election, as well as, pre and post-election administration. In such cases, costs shall be pro-rated among participants of this contract. Personnel working in support of full-time staff will be expensed on a pro-rated basis and include a time period of one week prior to the election, during the election, and one week post-election. Personnel working in support of the Early Voting Ballot Board and/or central counting station on election night will be compensated at the hourly rate set by Denton County in accordance with Election Code Sections 87.005, 127.004, and 127.006.

If elections staff are required outside of the hours of the office's normal scope of business, the entity(ies) responsible for the hours will be billed for those hours. The Elections Administrator will determine when those hours are necessary, the number of staff and who are necessary, along with to whom the hours are to be billed. Cost for these hours will be billed at a rate of 1.5 times the staff's hourly rate (See Section XV #9). The Elections Administrator has the right to waive these costs as they see fit.

V. PREPARATION OF SUPPLIES AND VOTING EQUIPMENT

The Elections Administrator shall arrange for delivery of all election supplies and voting equipment including, but not limited to, the County's Verity voting system and equipment, official ballot paper, sample ballots, voter registration lists, and all forms, signs, maps and other materials used by the election judges at the voting locations. The Elections Administrator shall ensure availability of tables and chairs at each polling place and shall procure rented tables and chairs for those polling places that do not have tables and/or chairs. Any additional required materials (required by the Texas Election Code) must be provided by the participating authority, and delivered to the Elections Office thirty-three (33) calendar days (March 30, 2026) prior to Election Day. If this deadline is not met, the material must be delivered by the participating authority, to all Early Voting and Election Day locations affected, prior to voting commencing. The Elections Administrator shall be responsible for conducting all required testing of the voting equipment, as required by Chapters 127 and 129 of the Texas Election Code.

At each polling location, joint participants shall share voting equipment and supplies to the extent possible. The participating authorities shall share a mutual ballot in those precincts where jurisdictions overlap. Multiple ballot styles shall be available in those shared polling places where jurisdictions do not overlap. The Elections Administrator shall provide the necessary voter registration information, maps, instructions, and other information needed to enable the election judges in the voting locations that have more than one ballot style to conduct a proper election.

Each participating authority shall furnish the Elections Administrator a list of candidates and/or propositions showing the order and the exact manner in which the candidate names and/or proposition(s) are to appear on the official ballot (including titles and text in each language in which the authority's ballot is to be printed). **Said list must be provided to the Elections Office within three (3) business days following the last day to file for a place on the ballot** or after the election is ordered, whichever is later. The list of candidates and/or propositions must be completed on the ballot language form provided by the Elections Administrator, the information will preferably be in sentence case format, and must contain candidate contact information for the purposes of verifying the pronunciation of each candidate's name. Each participating authority shall be responsible for proofreading and approving the ballot insofar as it pertains to that authority's candidates and/or propositions. Each participating authority shall be responsible for proofing and approving the audio recording of the ballot insofar as it pertains to that authority's candidates and/or propositions. **The approval must be finalized with the Elections Office within five (5) calendar days of the receipt of the proofs, or the provided proofs shall be considered approved.**

The joint election ballots shall list the County's election first. The joint election ballots that contain ballot content for more than one joint participant because of overlapping territory shall be arranged with the Central Appraisal District, then the appropriate school district ballot content appearing on the ballot, followed by the appropriate city ballot content, and followed by the appropriate water district or special district ballot content.

The participating authorities further agree that the Elections Administrator may appoint other deputy early voting clerks to assist in the conduct of early voting as necessary, and that these additional deputy early voting clerks shall be compensated at an hourly rate set by Denton County pursuant to Section 83.052 of the Texas Election Code. Deputy early voting clerks who are permanent employees of the Denton County Elections Administrator or any participating authorities shall serve in that capacity without additional compensation.
